# Fielding nominated for Presidential Award

By Michelle Jerla Managing Editor

SANFORD — Adele Fielding was surprised Wednesday morning when Seminole High School Principal Karen Coleman said she had an announcement to make has taught honors geometry, during the math teacher's morning class.

The Seminole High teacher was even more surprised when she was told state judges nominated Mathematics and Science Teaching (PAEMST).

"I feel shaky in the face," Fielding said immediately after the announcement. "This is such a great honor."

For the past five years, Fielding advance placement calculus, and IB calculus at Seminole High School. Although relatively new to Seminole High, her teaching career began more than two decades ago her for the prestigious Presidential in Australia after receiving her Award for Excellence in graduate and bachelor's degrees

from Macquarie and Queensland universities.

She arrived in Seminole after her husband's job led the Fielding family to Central Florida. It was the International Baccalaureate program that attracted her to the Sanford school five years ago, but

it's her students that make her stay. "I like working with youth and mathematics," she said. "And, the kids at Seminole High are great. And, the school's great."

# **Jacobs** announces bid for congress

By Dan Ping

**ALTAMONTE SPRINGS** — Harry Jacobs officially kicked off his campaign for congress Wednesday outside his law offices pledging to improve public schools, preserve social security and implement a prescription drug benefit for Medicare recipi-

About 75 people turned out to for the ceremony, including U.S. Sen. Bill Nelson and Bob Poe, the director of the Florida Democratic Party. Jacobs will face Republican Tom Feeney, outgoing Speaker of the Florida House, in the race for the newly created 24th Congressional District.

Borrowing a phrase from President, Jacobs charged that, "If we are to leave no child behind, then we should leave no achool behind."

Nine out of 10 children in America attend public school, Jacobs said, and he promised to provide more capital for technology improvements.

Une-truing of our schools are not wired for computers and the internet," Jacobs said.

He pointed to states like Georgia that offer better teacher salaries and Pre-Kindergarten classes, saying both are keys to improving public education.

Jacobs deriding efforts to privatize Social Security and said monies designated for the fund should not be used for political

"Social Security is a promise," Jacobs said. "It is a promise that as your congressman, I'll do everything to see it is upheld."

In a similar vein, Jacobs promised to include a prescription drug benefit as part of Medicare and advocate a more flexible managed care system that "allows doctors to practice medicine," not dicker with insurance companies over service.

"If a managed care provider denies service, and it is later determined that service is detrimental to the patient, those managed care providers should be held responsible," Jacobs said. See Jacobs, Page 10A

# Hole appears after drainage pipe collapses

By Dan Ping

SANFORD — Parishioners at Victory Temple of God will have to use the back door of the church to get to Sunday services, and then only if the city determines the structure is safe.

The front steps of the church hang precariously over a hole big enough to swallow a semitruck. The hole appeared Wednesday at the corner of 6th Street and Pine Avenue when an underground metal drainage pipe collapsed, consuming the ground above it. The cave-in of the 84-inch wide pipe snapped a water line, causing additional dirt to be washed away.

"We're suppose to have a baptism and communion on Sunday," said the Rev. R.L. Hillery, pastor of Victory Temple of God. "We've been planning this for some time. Hopefully we can get permission to have the service if we have someone stand by the front door to make sure no one

"It's a difficult job because we don't want to cause any more damage as we try to shore up the side closest to the church," Herman said.

Crews are ramming 90-foot

sheet pilings into the ground. When dirt is compacted behind the pilings, it will stabilize the front of the church. The city will then fix the

From Staff Reports

SANFORD — Walt Griffin, principal of Millennium Middle School, has been selected Florida's Middle

School Principal of the Year by the Florida Association of Secondary School Principals. Dr. Paul Hagerty,

superinten-Seminole County Public Schools, said "Mr. Griffin enthusiastically embraces his work with a diverse student population, models high expectations for students and staff members, demonstrates an unwavering commitment to the goals of excellence and equity, and constantly seeks alternative strategies to increase student achievement. These qualities, coupled with a keen sense of humor and a tireless work ethic, have firmly established him as one of the most innovative, car-

level of schooling."

Hagerty added, "Mr. Griffin's ability to rally all the stakeholders associated with the school around the mission of the school is also a quality that sets him apart from other principals. The comfortable and effective manner with which he involves students, parents, faculty, and staff members in the governance of the school has produced a positive school climate that is readily discernable from the moment you step on the campus of Millennium Middle School."

# Graham fights Oregon fires

By Jim Hughs Special to the Herald

When the son of a Sanford couple joined the Army, he knew he'd eventually be called upon to defend his fellow Americans.

That time has come, but for Army Spec. Tramayne D. Graham, son of Eddie Luster and Mae Siplin of Bethune Circle in Sanford, Homeland Defense has taken on a whole new meaning in the hilly terrain of eastern Oregon.

Graham is one of more than 500 soldiers from Fort Riley, Kan. called to protect Americans and their homes, not from the evils of terrorism, but from Mother Nature's wrath in the form of a 20,000 acre wildfire caused by a

lightning strike hear a tiny farming and ranching community.

Graham is a supply specialist with an artillery unit with the 1st Infantry Division - The Big Red One. For the next 30 days, he's a firefighter as well.

"I'm digging fire lines, building up trenches and putting out hot spots - all to keep the fire from spreading or reigniting where it's already burned," said the 1995 graduate of Seminole High School. I'm working long hours, but it's rewarding work.

As a soldier, Graham spends most of his time at Fort Riley, training to defeat enemy forces in a number of ways, but for this

# Fire damages duplex in Sanford

A company of firefighters responded to a fire that caused substantial damage to a duplex at 516 E. 5th Street in Sanford. The fire began about 11:30 a.m. Friday. According to Sanlord Fire Inspector Mark James, one of the residents began using her microwave when the power stopped. She went outside to check the electrical breaker and when she returned inside, she heard a crackling noise and saw flames coming from her front porch. "It wasn't a deliberate fire." James said. The cause of the fire was an undetermined electrical problem. It was definitely electrical in nature." No one was injured in the fire, but the four residents in the duplex will be displaced. James estimates at least 30 percent of the building was damaged

# SEMINOLE SUMMARY

A GLANCE AROUND OUR COUNTY

It appears The Clock Keeper has managed to step on a few toes at Harbco Construction.

A letter from Corydon L. Strawser, the company's vice president of business development, takes me to task for what he calls "gross misstatements." (The letter is reprinted in full on page 4A.) Mr. Strawser clearly wants to shoot the messenger rather than admit his company couldn't meet its bid proposal to the satisfaction of the city. I'll let his letter stand, though it's filled with inaccuracies.

**Around the Clock** 

by Dan Ping

The bottom line is Harbco couldn't meet their bottom line. Their bid was \$2.2 million less than the next lowest bidder. Harbco's \$9.1 million bid won't cover their costs. That's why the company wants to add another \$500,000 to their original bid to hire a qualified seawall contractor. Mr. Strawser con-

tends that's still \$1.7 million less that Wharton-Smith, the No. 2 bidder and doesn't understand why the city didn't respond.

City Manager Tony VanDerworp said he didn't respond because to allow Harbco to change their bid would have violated state law. If the lowest bidder can't perform the work for the price they established, you move on to the second bidder or you rebid the project. Harbco, of course, wants the project rebid. Resubmitting bids allows the company to put its price closer to the other bidders. It's like showing your hand in a game of poker, then demanding the dealer give you two more cards while everyone else stands pat.

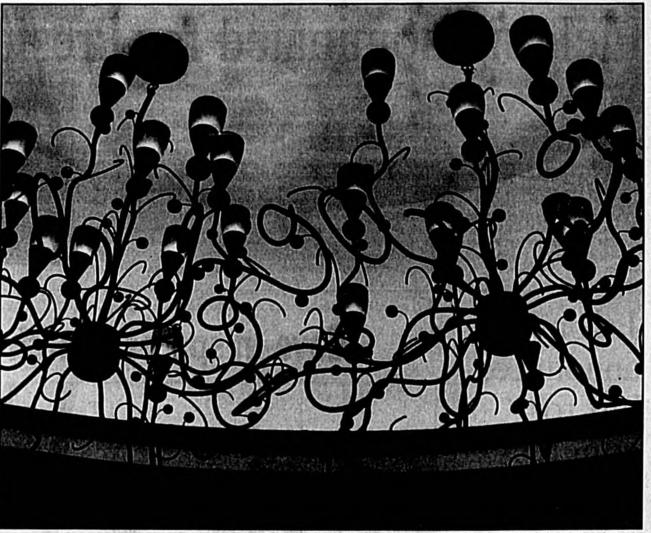

Harbco disagrees with Mayor Brady Lessard that "waiting is not an option." Pardon me, but what kind of gall does Harbco have to voice an opinion on whether Sanford has waited long enough? Where was Harbco five years ago when Riverwalk was just a dream? Where was Harbco when the city was aggressively going after grants and saving money to fund the project? Where was Harbco during the hours of public meetings and brainstorming design sessions? Where was Harbco as city officials nervously waited to see if Gov. Jeb Bush would slice state funding to make up for budget deficits after Sept. 11? Where will Harbco be five, 10, 15 years from now once Riverwalk is completed? I'll tell you where they'll be in the Caribbean. That was one of the motivations behind Harbco's bid in the first place. The company wants to get into the seawall business, particularly in the

Mr. Strawser argues that the fact SouthCees, the seawall contractor based in Mexico, didn't have a license in the state of Florida was an "administrative technicality." Anyone remember that little girl in Miami who was lost by the Department of Child and Family Services? Ask her family about the importance of "administrative technicalities." SouthCees very well may be a great seawall contractor, and if Harbco wants to spend its own millions building a seawall with them, that's their business. But Sanford Riverwalk is more than just some public works improvement. City officials and residents expect Riverwalk to be the catalyst for revitalization in downtown. The citizens of Sanford will not stand for technicalities, administrative or otherwise. This project is too important.

Mr. Strawser closes his letter by asking if anyone at the Seminole Herald will question why the city has decided to spend an additional \$2 million to complete Riverwalk. There's no need to question it, Mr. Strawser. The city is spending \$2 million more because Harbco failed to perform.

mixture of art and light.

Thomas Dennis Schuk, 19, Grassy Point Drive, Lake Mary, was arrested by Seminole County sheriff's deputies Thursday. Last month, he reportedly took a wallet and credit cards during the burglary of a residence on Timpana Place in Longwood. Officers said he used the credit cards to purchase a full set of golf clubs valued at \$641.99. On July 31, he reportedly took them to a pawn shop in Fern Park and sold them for \$100. Following an investigation, he was eventually located and arrested on charges of burglary to a dwelling, dealing in stolen property, fraud/false ownership of documents, and fraudulent use of credit cards.

Burglary, Etc.

Jeremy Glenn Pentz, 23, whose address is unknown, and Anthony Jordon, 40, of Orlando, were arrested by sheriff's deputies Thursday. A deputy driving on SR-426 north of Marsh Road, noticed a purple vehicle in a driveway where he knew the vehicle did not belong. The house had been reported for a burglary attempt six days earlier. When he investigated he saw a male, subsequently identified as Pentz, coming out of the house carrying a pink piggy bank. When Pentz saw the officer he ran back into the house where the owner said firearms were kept. The SWAT team was called but they could not locate Pentz.

A short time later a burglary was reported of a boat and motor just a short distance away. Officers checked the area and found two men, Pentz and Jordan, on a boat ramp on SR-419 at the Econ River. The boat and motor proved to have been those stolen. Both were arrested on charges of burglary to a structure and larceny of over \$300 in

items. Pentz was also charged with resisting an officer without violence.

Robberie

A man temporarily identified as John Doe, 63 of Deltona, was arrested by Sanford police Thursday. He reportedly had taken two pair of sunglasses from a store at the Seminole Towne Center mall. He was reportedly in possession of Illinois ID cards which gave him several identities and social security numbers although his picture appeared on each document. He is assumed to be James H. Lopez. He was arrested on a charge of larceny/theft of over \$300.

Sonny Wilson, 33 of Altamonte Springs, was arrested by deputies Thursday. On Aug. 18, he reportedly entered a store on East SR-436, reached over the counter and snatched \$50 from the cash drawer before running off. Through a tip, deputies located him at a residence in the 100 block of Drew Avenue in Sanford. He has been charged with robbery by sudden snatching.

William Long, 19, of Pierson, was arrested by deputies Wednesday. Between Aug. 15 and 18, the manager of a convenience store in the 4100 block of East SR-46 told officers money had been missing. Long, identified as an employee, after being located reportedly admit-

ted to taking \$550 in the four days. He has been charged with larceny over \$300.

Domestic Cases

Tonya Elane Parlier, 70, of Monroe Road, Lake Monroe, was arrested by deputies Wednesday, following a dispute with a man at her residence. She was charged with aggravated battery with a deadly weapon (a hammer) domestic violence.

Maxine Burkett, 48, Center Street, Sanford, was arrested by deputies early Friday at her residence after a dispute with a male. She was charged with battery, domestic violence.

DUI Cases

Steven Michael Johnson, 37, of Orlando, was stopped Thursday by Oviedo Police on SR-434. He was charged with driving under the influence (DUI) of alcohol/drugs.

Shayne Allen Knouse, 31 of Cardinal Oaks Court, Lake Mary, was stopped early Friday by Lake Mary police on Broadmoor Road. He was charged with DUI alcohol/drugs.

Other Cases

Brian Robert Diequez, 20 of Plumosa Drive and Brandon Lee Bates, 20, were arrested by Sanford police Thursday. Officers were investigating a disturbance involving a number of people in the 2400 block of Chase Avenue. Diequez was charged with battery, disorderly intoxication, and possession of liquor by a person under 21 years of age. Bates, who officers said was on probation from a case in February of this year, was also arrested, but no immediate report was available.

# Our View Congrats to Educators

It's an election year, so voters are being bombarded by promises from candidates to improve schools. To hear the politicians tell it, it's a miracle anyone learns to read. There are problems, no doubt. But there are also plenty of success stories. Adele Fielding and Walt Griffin are just two of them, and both are based in Sanford.

Fielding is a math teacher at Seminole High School. State judges recently selected her as one of three teachers in Florida to compete for the prestigious Presidential Award for Excellence in Mathematics and Science Teaching (PAEMST). Teaching Geometry and Calculus must be difficult (learning it sure was), but Fielding has shown a knack for getting her students to excel in the courses.

Griffin, a principal at Millennium Middle School, was named the Middle School Principal of the Year for the state of Florida. He's been at Millennium for four years and an administrator for 13. Teachers are the frontline in educating our children, but they can't do it without capable principals leading the way. Griffin sets a positive tone for his school and his teachers and students respond.

Both of these educators deserve a pat on the back and a hardy congratulations. Well done and keep up the good work!

# Arnett believes state has history of bad politics

Florida has had a long history of unseemly politics. The conditions surrounding the congressional race in the Florida's third district are just more business as usual.

For almost a decade the voters in two different versions of the third district have been subjected to Corrine Brown's liberalism, and her corruption is legion, but little reported in the Jacksonville news media. But since I live in a democratic republic, I know that Corrine Brown has no inalienable right to her office. So I looked with hope when Ishah Wright began her cam-paign to challenge Corrine. But, the power brokers in the Republican Party were afraid that a high turnout for Corrine would hurt Republicans in other rates. So: 11.2 So looked with disgust as these power brokers, aided by the yellow jour-nalism of the Florida Times Union, harassed Ishah Wright because they wanted to give Corrine Brown a free ride back to Washington. Then I looked with horror as the Republican Party drove Ishah from

By insisting that the voters in a whole congressional district should be sacrificed for the sake of the Party, the Republicans were demonstrating everything that is wron: with American politics. When Ishah left the race I was not content to watch Corrine Brown run unopposed. I set up a website www.megspace.com/politics/brow

nout/, and began soliciting support as a write-in candidate for Congress in the third district. And now, after the Republican field has been cleared, lennifer Carroll has decided on a re-match

against Corrine Brown. Since I do not want a political career, I am willing to defer to a better candidate. I emailed Jennifer Carroll and asked her to consider my campaign platform. If she had been willing to support my platform I would have been willing to end my candidacy. I, however, received no reply from Jennifer Carroll. We must ask ourselves what are

Jennifer Carroll's motives? Where was she when the Republicans were attacking Ishah Wright? Where was she before J. C. Watts, the only Black Republican in Congress, announced he is leaving office? Is Jennifer Carroll running so she can be a symbol? Does she want to be a

Maybe Jennifer Carroll wants to be the next J. C. Watts; if she does, then she should move to Oklahoma. I will take greater comfort in knowing that I represent the views of thousands of Americans without regard to skin color. I will take comfort in knowing that I can give voice to the concerns of countless voters that the Democrat and Republican Parties ignore.

# Mayor replies to letter concerning city moratorium

To the editor: Mr. Huskey, I am in receipt of and thank you for your correspondence of July 30, 2002 (published in The Herald, Aug. 18). As always !

was very interested to read your opinions with respect to my proposed moratorium on apartment buildings.

I enthusiastically agree with your premise that the free market should dictate the number and type of real estate projects that are undertaken In our community. However, the free market has not been the driving force in the majority of apartment projects which have recently been developed in Central Florida.

Because of a substantial influx of federal and state subsidized grants and loans, the free market process has been effectively subverted. This has allowed projects that would not be viable in a truly market driven economy to come to fruition. It is my belief that the city has a responsibility to defend itself against such projects which will inevitably

become a burden and detrimentally affect our quality of life.

Once again, thank you for your continued input on issues of importance to the continued to the state of the sta blooded American patriots like yourself who recognize the importance of liberty and capitalism in making our country what it is

# Harbco VP takes issue with Herald article

As the Project Executive for Harbco Construction, Inc., on the Sanford Riverwalk project, I wish to correct the factual inaccuracies and gross misstatements in Dan Ping's article, dated August 21, 2002 and to provide clarity and insight into other aspects of his

story.

The article's headline, "Harboo quits Riverwalk project. Contractor withdraws after city bars unlicensed seawall builder," is misleading and grants undue legitimacy to what was, by any objective measure, fundamentally an administrative technicality.

The article contains completely false statements such as, "Harbco and city officials were scheduled to meet Tuesday to discuss options but the company never showed up," and "Repeated calls to Harbco's corporate headquarters went unanswered Tuesday after-

The general editorial slant of the news article purposefully portrays Harbco as inflexible and unresponsive, also completely false.

We do not question The Seminole Herald's right to publish whatever editorial opinions it wishes. However, we do believe that as professional journalists you owe it to your readers to report the facts, including the fact that the City now proposes to spend an addi-tional \$1 million dollars in taxpayer's money to complete the Riverwalk Project with a local builder.

Here are more: The Riverwalk Project has been in the planning stage for nearly five years. In May of this year, firms were invited to submit cre-dentials on June 7, 2002. In early July, four firms - Harbco, American Bridge, CPH Constructors and Wharton-Smith were issued a Invitation For Bid and asked to submit lump sum price bids on Friday, July 19. Harbco's written bid of \$9,115 million, prepared in 10 days, specified Seaway Marine Contractors of Jacksonville as the seawall subcontractor. However, Scaway elected

to withdraw from the project on the day Harbco delivered its bid.

Mr. Ping's article stated that CMA was listed as our "seawall contractor" in our original June 7, 2002 pre-qualification submittal. CMA was not listed as our marine contractor, but rather as our program manager for the seawall portion of the work. CMA is not a general contractor and does not self-perform marine construction.

Harbco's original bid was \$2.2 million lower than that of Wharton-Smith, which is headquartered in Lake Monroe and to whom Mayor Brady Lessard now proposes to quickly award the project. A close examination of Wharton-Smith's July 19, 2002 bid will confirm that the firm failed to disclose its own subcontractors on the "Subcontractor List with Good Faith Clause" form, which is required to be completed at the

time of the bid.

The following Monday morning, July 22; Harboo notified Chris Smith, Project Manager, that if would seek an alternative seawall subcontractor due to Seaway's withdrawal. That night Mr. Smith presented Harbco representatives to the City of Sanford Commissioners who formally and unanimously awarded the project to Harbco, the low-bidder, as specified by law.

CMA, who has managed miles of seawall construction in California and elsewhere, recommended SouthCees to both the City and our firm. Based on subsequent due diligence research and enthusiastic recommendations from Pemex (Petroleos Mexicanos), as well as several other Latin American firms, Harbco formally recommended Grupo Mora & SouthCees Group

de Mexico on August 6, 2002. Mr. Ping's article stated that the City had disqualified our subcontractor because "the company was not licensed in the United States." This is not correct.

While SouthCees is not currently licensed in the State of Florida, it is licensed in Puerto Rico, which is the part of the United States of America. The Florida licensure process could have been easily completed in less than 60 days. With the project actually beginning in early September, SouthCees was not scheduled to begin work on the seawall in mid November - giving us ample time to complete the licensing process.

Hundreds of non-Florida firms do business in Florida. All follow the licensing procedures required by state, county and municipal governments. Licensing is funda-mentally an administrative techni-

SouthCees is the third largest seawall builder in Latin America and had intended to re-locate its Caribbean office to Sanford from **Puerto Rico** 

As part of our contract with SouthCees, the firm would have been required to provide a Performance/Payment Bond and all Insurance certificates naming Harbco and the City as joint obligees; progress payments made to SouthCees would have been joint/tenant - ensuring timely subcontractors payments and lien releases

SouthCees would have been required to use only U.S. suppliers of concrete, anchor rods, pre-cast panels, reinforcing steel, and crane equipment.
SouthCees, where possible,

would have used local Sanford labor, in keeping with Harbco's pledge to apply 30% of the total budget to local firms and labor, some of whom are also Hispanic.

SouthCees would have been required to comply with all OHSA and USL&H safety requirements; and SouthCees' project team would have been bi-lingual.

On a practical, clearly demonstrable basis, SouthCees could have delivered excellent work in a timely and cost-efficient manner. saving the City hundreds of thousands of dollars Nevertheless, in response to

The City's requests, between August 6 and August 21 Harboo solicited bids from two Cityapproved Florida seawall contractors: Lucas Marine, of Stuart and Murray Logan, of West Palm Beach. We presented their bids to The City but clearly stated that to use either firm would require us to increase our own bid price by approximately \$500,000 - which would still have been \$1.7 million lower than Wharton-Smith's.

The City never responded to this offer. By Tuesday afternoon, August

20, 2002, the City had contacted and verified each SouthCees reference, including Pemex, Mexico's state-run petroleum company. Pemex confirmed to the City that SouthCees had completed \$500 million in seawall construction for

within budget. Nevertheless, the City informed us that they had rejected SouthCees and gave us until 3:00 PM the following day to propose alternatives.

Mr. Ping's statement that
"Harbco and city officials were
scheduled to meet Tuesday to discuss options but the company
never showed up," is completely
false on two counts.

Harbco asked for a meeting early Tuesday morning to formally withdraw its current \$9.115MM bid, not to "discuss options." The meeting was re-scheduled for 2:30 PM. The City was notified by telephone that we would be late to the meeting due to an accident tie-up on I-4. We arrived at 3:10 and presented our withdrawal in person. We learned subsequently that Mr. Ping had visited City Hall and had left long before we arrived. His off-hand statement that "the company never showed up," is a Time that action of Harted

Perhaps the most disturbing sentence in Mr. Ping's article is his assertion that, "Repeated calls to Harbco's corporate headquarters went unanswered Tuesday afternoon." This statement is also false. Our phone records and personal inquiries to our staff indicate that neither Mr. Ping nor anyone representing The Seminole Herald ever attempted to contact us on Tuesday afternoon. Nor has Mr. Ping made any attempt to contact us since Tuesday, Ironically, a staff writer from The Orlando Sentinel contacted us and we immediately

returned the call. We respectively disagree with Mayor Lessard's assertion that waiting is not an option". Harbco believes that the project can and should be re-bid.

Since the City Commission formally awarded the Riverwalk Project to Harbco, the City has made several minor and a few significant changes to the engineering design specified in the original bid documents. These changes should be included in a re-bid of the entire project.

Just as there is ample time to procure a Florida business license for SouthCee's, there is ample time to rebid Riverwalk. After all, the first round took only ten days. The final delivery date need not be changed. Our project schedule would have let us complete the project in 13 months - three

months earlier than the City had hoped.

A rebid can easily save the City perhaps hundreds of thousands or perhaps millions of dollars. We would be happy to compete again, and win again, on a level playing

Instead, Mr. Ping writes,
"Lessard said he will recommend city commissioners approve the Wharton-Smith bid during Monday's commission meeting."
The City has given Harbco,

located in Orlando, little leeway to adjust its price to meet the changes, alternations, and conditions in technical criteria set by the City since Harbco won the

But now, the City is more than willing to commit an extra \$2.2 million or more in taxpayer money to the same project. Mr. George Smith, President

and co-founder of Wharton-Smith, is quoted as saying. There may be times where you can value-enginess certain aspects of the

Mr. Smith is correct. Indeed, on August 5, 2002, Harbco hosted a Value Engineering conference with the City and its engineers. During this conference, we presented almost \$850,000 in value engineering suggestions. The City elected to use approximately \$137,000 of these ideas, which were subsequently incorporated into our contract. During contract negotiations, the City told us that it had received voluntary price reductions from competing firms by as much as \$1 million, long after those firms had submitted their formal lump-sum bids as required by law. It now appears that Mr. Smith's firm will become the de facto beneficiary of a great deal of effort conducted by

Whether or not The Seminole Herald will correct the factual inaccuracies, false statements, and aspersive innuendos in its article of August 21 remains to be seen. More to the point, will anyone at The Seminole Herald question why the City has suddenly decided to spend an additional two million dollars to complete the Riverwalk

Harbco in good faith.

Sincerely, HARBCO CONSTRUCTION, INC

# The Way We Were: Cigars made their mark in Sanford during 1880s

The recent article in the Herald about cigars by Michelle ..... Jerla made

curator, wrote an article on these for the May/June Sanford Historical Society newsletter and she has given me permission to reprint

Sanford Smokes

Time was when a fine cigar could be had in downtown Sanford at Joe's Smoke House in the Bell Hotel at Park and First. Among the cigars sold would have been brands manufactured just around the corner at the factory of J.S. Mauser. Mauser produced "Tampa John", "Lucky Sanford", "Seminole", "Porto", "Banker's Choice", "Factory Smokers", "Rio", and "I No U".

The cigar industry in Florida began in Key West and Tampa with Cuban immigrant "tabaqueros" skilled in the art of rolling cigars. Since cigar making required very little space or equipment the industry spread quickly throughout the state and had reached Sanford by the 1880s. It is unclear how many Cubans came to Sanford since early records list only a small number of Spanish surnames. In 1886 Manuel Perez manufactured and sold cigars on the corner of First Street and Sanford Avenue.

In 1894, the town undertaker, T.J. Miller, diversified and started the El Corojal Cigar Co., with Frederic Rand. In 1895, the Eagle Cigar Factory was started. by the Higgs Cigar Factory. This

The same year, C.D. Leffler of the Young Men's Business League reported that "every town of any importance has one or more factories,"

In 1897, the Manufacturers Record reported that the Sanford Tobacco Co. had been organized for the purpose of tobacco cultivation with T.J. Appleyard as president and John K. Mettinger as secretary.

John J. Mauser's cigar factory was located on the second floor of a building on the corner of Park and Commercial (no. longer standing). He started his company sometime around 1910 and was still in business in the 1920s when he and his wife Emily lived at 801 Palmetto. Not much is known about Mr. Mauser's background but there were German cigar manufacturers in Tamps who were responsible for the development of the lithographed labels used on cigar boxes.

In 1919 the Florida-Cuba Cigar Co. was established on the second floor of the Bishop Block (still standing today on the NE corner of First and Palmetto) with Rex Packard as president. The factory made "Tampa Trail" and "Some Brush.

The Menendez Brothers Cigar Co. was located at 112 S. Palmetto Avenue in 1924. The company was owned by Fernando Menendez and J.M. Avelino. Fernando, Avelino and Jos. M. Menendez all lived at the factory. There is no record of the company's brand names. The Sanford Museum cur-

rently has three cigar boxes on exhibit in the Chase Gallery. A "Lucky Sanford" box was donated by Glenn McCall who discovered it in the storage room at Touchton's. The box had been used to store prescription slips in the 1920s. A Seminole Twins" box was found in pieces among photos in a box donated by the Vincent brothers. This cigar was manufactured at 116 1/2 Park Avenue

factory was apparently in the same building as the Mauser factory. A Mauser "Banker's Choice" box is on loan from Society member Jim Cara.

Perhaps you have a Sanford cigar box and don't even know it. Do you have buttons or baseball cards stored in an old cigar box? Please check to see if it is from a Sanford Company and let the museum staff know if you find one.

Employees of J.J. Mauser in 1924: Joseph Dunn, Jos. Garcia, Mary Jimenez, Wm. F. Johnson, Otis Y. Crawford, Mary Moulton, Susie Murphy, Estelle

Harris and Susanna Martineau. Employees of Menendez Bros. in 1924 were Mrs. Orrie Ray, David C. Shagren, Mattle Adams and Ray Victor.

**Additional Information** 

Since Alicia wrote the above article, three other cigar makers have been discovered. In 1887 the Orange County Directory lists Abraham Howell at Fifth Street east of Sanford Avenue, and Sirolia W. Harmon, Third Street east of Cypress.

The 1908 Sanford Herald tells of E.F. Libby who was making a cigar called "The Celery City."

The Sanford Herald states "The cigars made in the factory of J.M. Mauser are always just as represented and can be depended upon year in and year out for uniformity of color, quality of wrapper as well - you can just bet on the filter."

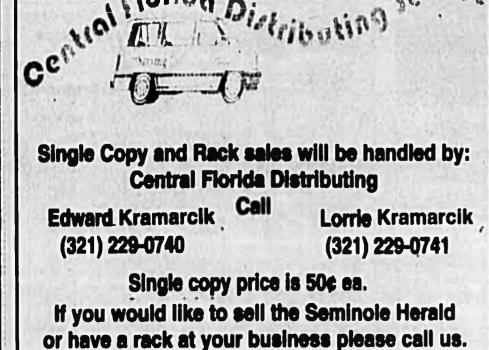

Mauser's brands, listed above, were five cent cigars with the exception of Porto which sold for ten cents. Tampa John had both a five and ten cent cigar.

All of Mauser's brands were handled by local dealers and they were also shipped to many dealers in the north and east.

The June 6, 1919 Sanford Herald tells of the Florida-Cuba Cigar Co. mentioned above, that had just located in the second floor of the Bishop Block. The

female personnel recruiter. I have worked for the same company for many years. Once or twice a year, our employers host a party for all employees and their spouses. I love going because it gives me a chance to get to

know the wives of the men I work with.

husband, "Brad," hates going to these events. Brad claims he has nothing in common with my fellow employees — or their spouses — and doesn't feel comfortable mingling. I say he should be able to find something to talk about with someone. He has

accompanied me for umpteen years and happens to be in the same profession as a number of the spouses. And then there's always sports - that's a subject he could talk about in his sleep.

When Brad has gone with me in the past, he has always complained afterward that I didn't pay enough attention to him and that he felt awkward being left alone. I do circulate, but always try to introduce Brad around and bring him into the conversation

with people he's meeting for the first time.
This year, he's insisting I go alone, and
I'm very disappointed. I would hate to have to lie to my employers and co-workers as to why I'm there solo, but I could never tell them the truth about why Brad didn't want

What irks me is that I'm willing to go with him to his work parties, even if I feel uncomfortable and just stand around with a frozen smile on my face. At least I'm there for my husband. So why can't Brad do the same for me, Abby? Am I wrong to push this issue — or should I throw in the towel and go without him?

TROUBLED WIFE IN RIVERHEAD,

**DEAR TROUBLED WIFE: Your husband** has "done the same for you" and it hasn't worked out. He's miserable. Out of the kindness of your heart, go solo this year. I'm sure he'll be grateful. If you are asked about his absence, tell your co-workers that "Brad has other plans." You don't have to say his plans include watching TV in his pajamas. And if anyone asks to be remembered to your husband - relay the message. Perhaps if he knows someone missed him, he'll feel more comfortable attending next

The problem is Tony's mother doesn't want my daughter to come. She says her three granddaughters need to bond with each other, and if Skylar were included in the visit, the "mix" wouldn't work.

Abby, those girls are the same age as Skylar. They have all met previously and they like each other. Naturally, I'm not going now. Tony will be leaving soon for the weeklong stay, and he doesn't understand why I'm upset over this. Do you think my feelings are justified?

**MAD IN MASSACHUSETTS** 

**DEAR MAD:** Absolutely. The refusal of Tony's mother to accept your daughter is a veiled rejection of you. Even if you and Tony were to marry, his mother would still try to create a wedge between the girls, because she views Skylar as an outsider. # Historic Trust sponsoring story contest

According the National Historic Trust: Historic sites have fascinating, engaging, and compelling stories to tell. Preserving these places, listening to their stories and learning from them are essential to our understanding of whom we are as Americans.

In conjunction with Millennium Middle School, the Sanford Historic Trust is sponsoring a story-writing

contest as part of Sanford's 125 years celebration. The stories must be about historic homes, buildings and neighborhoods in Seminole County. The stories must be historically accurate, based on fact, and tell a good story about the subject matter.

The Sanford Historic Trust will award:

• \$50 to the best story in the High School Division

• \$25 to the best story in the Middle School Division

• \$25 to the best story in the Elementary School Division Contest entry dates for the Sanford Historic Trust Contest are from Aug. 5 to Sept. 15. The Trust hopes to announce the winners during the

church can use their facilities," said Tom George, projects manager for the Public Works Department. "We're going to the city commission with a plan to replace not just this section of pipe, but a large section in this

Hillery said this is not the first time the church has had problems with sinking ground because of

deteriorating drainage pipes.
"I talked with the city last week about filling some holes in the driving because it had sunk a little," Hillery said. "They need to

replace the whole thing."

Herman agrees. He said the pipe was not replaced because, until Wednesday, the problems were relatively minor compared to other pipe failures throughout

"This is the reason we don't use corrugated metal pipe in this anymore," Herman explained. "You can expect to get about 50 years out of metal pipe. This one didn't make it quite that far. It was about 47 years old. The problem is we have these pipes

all over town and to replace them all at one time would cost well over \$100 million. You're talking 5 to 10 times more than the entire city budget.

We patch things up and try to replace as much pipe as we can," Herman added.

Hillery was moving forward with plans Friday afternoon to hold the baptism service at the church. If the church can't be used, he said the baptism would be postponed and church service held at another location, possibly the Sanford Civic Center.

"It's difficult right now, but the important thing is no one got hurt. We're thankful for that," Hillery said.

Linion Grace echoed Hillery's words. Grace is the chairman of deacons at Victory Temple of God and was at the church with the front parking lot collapsed.

"You could hear the cement starting to snap, so we started backing up," Grace said. "The ground just kept sliding into this hole. It was amazing to watch it happen right in front of you. The ground just opened up."

# Fires

Continued from Page 1A mission, the training was short

and sweet. "The training was quick, but there was a lot to it," he said.

When the Army contingent arrived at the fire area on July 23,

they joined a firefighting force already numbering about a thousand. The 20,000 acre fire was 30 percent contained at the time, but experts estimated it would grow to 100,000 acres if it wasn't totally contained quickly.

By July 30, the fire was 90 percent contained, with little to do but wait for the enemy to burn itself out.

Even though the soldiers managed to almost totally contain the fire in a little over a

week, their experience wasn't over. They packed up July 31, and on Aug. 1 they took a ninehour bus ride to the southwestern part of the state for the larger Tiller Complex fires, 22-fires encompassing a 27,000 acre area.

# **Fielding**

### Continued from Page 1A

Earlier this year, Fielding wrote a proposal as part of the applica-tion process for the Presidential Award. Last week, Seminole School Board's Secondary School Board's Curriculum Specialist Mary Lane was told the math teacher was only one of three teachers in Florida nominated for the award.

The PAEMST Program was established in 1983 by The White House and is sponsored by the

National Science Foundation (NSF). The program identifies outstanding science and mathematics teachers, kindergarten through 12th grade, in each state and the four U.S. jurisdictions. The teachers will serve as models for their colleagues and will be leaders in the improvement of science and mathematics education.

Teachers compete with others from within their own state at the national level. A national selection committee comprised of prominent scientists, mathematicians, educators and past awardees, reviews the application packets of the state-level finalists and makes recommendations to the National Science Foundation. These recommendations are sent forward to the President, who makes the final

As a state nominee, Fielding will receive \$750 and the opportunity to advance to the national

level. If she wins the award, she will receive a \$7,500 grant from the National Science Foundation to improve school mathematics and science education.

Principal Coleman has no doubt Fielding will be selected to receive the Presidential Award.

"She is what every teacher should strive to be," Coleman said. "The judges will make a bad choice if they don't select Ms. Fielding to receive the award."

"He used to say, 'If I am not for me, who will be? If I am only for me, who am 1? If not now, when?" Jacobs said.

Though reluctant to give up the family's privacy for a more public

# Football stars decide on future

By Dean Smith Sports Editor

OVIEDO — It will be a season of change for Clint McMillan and Chris Narsesian this season.

But at least their futures are secure. The Seminole Athletic Conference football stars recently made oral commitments on their collegiate futures with McMillan tapping the University of Florida and Narsesian deciding to stay near home and attend the University of Central Florida.

Oviedo's McMillan (6-foot-3, 265-

McMillan, Narsesian orally commit to Florida, UCF

pounds) will be making the move to inside linebacker this season after playing both offensive and defensive line as a

junior for coach Greg Register.
"He made marked improvement over the summer," said Register. "He really impressed the coaches at the Florida Camp and they showed a lot of interest." McMillian, who is also an Honors

Student and a concert pianist, obviously has made big improvements, as he was only an Honorable Mention All-SAC pick as a junior.

Narsesian (6-foot, 185-pounds) hasmade the move over to Winter Springs High School after two seasons at Lake Howell High School and will join with fellow All-Seminole Athletic Conference receiver Kyle Hill to give the Bears an awesome 1-2 punch on the outside.

"Chris has been a dream," said Bears second-year head coach Steve Katz. "He is a very hard working and well-mannered young man and has made no demands since arriving here.

"When you put up the numbers he did last season, you wonder if he will show up wanting to dictate how he will be handled. With a receiver like Kyle (Hill) in camp already, things could have been testy. But Chris has stepped right in and done whatever we asked of him."

# **Baseball All-Americans**

# Collegians honored nationally

By Dean Smith Sports Editor

DeLAND - The college baseball season has been over since June, but the honors just keep rolling in for players with local ties.

Topping the list is Stetson University sophomore catcher Chris Westervelt. The Batesville (Arkansas) High School product, who grew up in Lake Mary before moving with his family to Arkansas in 1997, has been named to the Verizon Academic All-America first team, the TPX/Collegiate Baseball second team All-America team, the Baseball America All-America Third Team, and to the ABCA/Rawlings all-Atlantic

Region first team. He is believed to be the first Stetson baseball player to earn academic All-America honors.

Westervelt, the 2002 Atlantic Sun Conference Player of the Year, finished the season with a .403 batting average, 18 home runs, 46 RBI, and 166 Total Bases. The 5-foot-11, 200pounder started all 61 games and tied the Stetson singleseason record for home runs and ranked among the singleseason leaders in average, hits, and total bases.

He helped lead the Hatters (42-19) to their third straight 40-win season and their thirdstraight appearance in the NCAA Regionals where he was named to the All-Regional team after batting .667 (6-for-9) with two home runs, three RBI, and six runs scored in two games. Westervelt also led the

Atlantic Sun Conference in hits and total bases, and he tied for the league lead in home runs.

A Computer Info Systems major, Westervelt has a cumulative grade point average of 3.94. He was the only sophomore to earn a spot on any of the three Verizon Academic All-America teams, which are selected by a committee of the College Sports Information Directors of America See Baseball, Page 2B

Former Seminole County youth Westervelt (top left and above) of DeLand's Stetson University, Justin Smith (bottom left and below) of Daytona Beach's Embry-Riddle Aeronautical University and Josh O'Brien (bot-tom right) of Lake Wales' Warner Southern College have all been named to various college All-America baseball teams this sum-

# Hard work on the field continues for UCF

Special to the Herald

**ORLANDO** — The University of Central Florida football team was able to hold a fullscale practice on Thursday as the weather cooperated for the second consecutive day. The Golden Knights conducted a two-anda-half hour practice, which began with a focus on special teams and concluded with team time.

A lot of practice consisted of play recognition for the defense and position assignments offensively. The squad went full speed to get fits and recognize schemes.

One segment of practice had the receivers

and secondary working together, the former running routes while the defensive backs went over coverages and man-to-man

One player that looked crisp was senior defensive back Asante Samuel. Samuel, who recently returned to practice after healing a muscle strain in his leg, is back up to speed and making the most of his reps.

"We (the secondary) are out here every day working hard," said Samuel. "It is important for us to continue to get better and get our techniques down.

As the only senior returning to the secondary, Samuel has noticed the play of his younger teammates.

"I have seen a lot of the younger guys, Atari (Bigby) and Peter (Sands), really stepping up. They also saw quite a bit of time last year so they are ready to go. We are beginning to gel."

Despite missing some time in camp, Samuel is ready to go and knows that his veteran status has helped him in the

"Having played for three years, I know the defensive cornerback position like the back of my hand," added Samuel, the special teams captain. "It comes natural to me, See UCF, Page 2B

KISSIMMEE — Charles Meade of Clearwater closed fast Thursday with his second consecutive five under par 67 to win the 23rd annual E-Z-Go/North Florida PGA Section Championship at Orange County National Golf Club.

At 204, Meade, an instructor at the Ben Sutton Golf School in Sun City Center, finished two strokes ahead of the field. He birdled Nos. 1, 3, 5, 6, 7, 14, 17 and 18 and bogeyed the ninth, 10th and 15th holes on the Crooked Cat course.

It was Meade's first NFPGA title. He earned \$3,200 from the \$30,400 purse.

Tied for second at 206 were defending champion Rodney Perry of New Smyrna Beach and Daniel McEachern of Orlando, the first and second round leader and winner of the NFPGA Assistants' Championship Aug. 6. Perry closed with 72, McEachern a 73.

The Lake Mary duo of Terry Woodard (209) and Mike Bender (211) were seventh and ninth, respectively, while Sanford's John Brott (214) was tied for 21st and Longwood's John Phillips (218) was tied for 34th.

Next on the NFPGA tournament schedule: Sept. 5-6, Senior Club Professional Championship qualifying, Hawks Landing CC, Orlando, and Sept. 12-13, Quarter Century Club Championship, Isla del Sol G&YC, St. Petersburg.

# 2003 Busch, Winston Cup schedules announced

Special to the Herald

DAYTONA BEACH - NASCAR officials on Monday released the 2003 schedules for both the Winston Cup Series and Busch Series.

The NASCAR Winston Cup Series is a lineup of 36 series championship events that will begin Feb. 16 with the Daytona 500 at Daytona International Speedway.

The season — which will end Nov. 16 at Homestead-Miami Speedway — has no changes from 2002 in terms of the number of races on the schedule or the sites. But there is one significant alteration: The annual fall event at Lowe's Motor Speedway in Concord, N.C., has been switched to a Saturday night (Oct. 11).

"Obviously, night races have become very popular with the fans," said Jerry Gappens, vice president of public relations for Lowe's Motor Speedway. "When we moved The Winston and the Coca-Cola 600 to a night race in the '90s, it make a tremendous difference. We think that this will be good for everyone.

"Attendance should increase at the track because they have another travel day built in. The TV networks will benefit because October is during the ratings sweeps.

"But best of all, it gives the teams another Sunday off during the 20-week stretch of the sea-

Lowe's Motor Speedway was the first superspeedway to add lights, hosting The Winston in 1992 and putting the Coca-Cola 600 under illumination in 1993.

The NASCAR Winston Cup Series again visits 23 tracks, in a total of 19 states.

The NASCAR Busch Series — the nation's No. 2 motorsports series - will feature 34 races in 2003, a season that will begin Feb. 15 at Daytona International Speedway. The season will end Nov.

15 at Homestead-Miami Speedway. There are no changes from 2002, in terms of the number of races on the schedule.

A significant alteration involves New Hampshire International Speedway and Gateway International Raceway in St. Louis swapping dates. Instead of racing at NHIS in May, the NASCAR Busch Series will join the NASCAR Winston Cup Series there in July (July 19). Gateway, which formerly had a July date, will switch to May 10.

The NASCAR Busch Series will visit 26 tracks in 22 states, in 2003.

The UCF men's soccer team survived its first preseason test defeating St. Leo, 4-1, at the UCF Soccer Field on Saturday

The Golden Knights earned a 1-0 lead entering the half thanks to a penalty kick by junior forward Chris Beaulac then went up 2-0 on an unassisted goal by freshman David Sommers at the 53-minute mark.

Thirty-one minutes later, Adam Guiliano beat freshman goalkeeper Anthony Romano for the Lions lone score of the night. UCF's Fabio Silva countered nearly a minute later and Ornulf Olsen added a little

more insurance at the 86-minute

Golden Knight Ryan MacIntosh recorded two saves

in 45 minutes of shutout play in the first half while Romano made one save and allowed one goal in the remaining 45 minutes. Lion keeper Charlie Long made allowed all four UCF goals and made six saves. After playing at the

University of Tampa in an exhibition game this Monday (August 26), UCF will open the regular season against the University of Washington at the Nike Portland Invitational on August 31.

Continued from page 1B (CoSIDA). Prior to moving to Batesville,

Westervelt was a member of the Longwood Babe Ruth All-Star Team that his father Andy, an NCAA Division II All-American at Eckerd College himself, managed to the Prep-13 World Series Championship.

At Batesville High he was a three-time 1st-team AAAA All-State selection and a three-time **USA Today** Honorable Mention All-America. He was named the 1998

Arkansas Player of the Year after leading the Pirates to a 34-3 record and a state championship after batting .558 with 14 home runs and 62 KBI in 37 games as a sophomore, the first sophomore in state history to be so honored. As a junior he batted .538 with

14 doubles, five homers and 48 RBI in 30 games and capped off his prep career by hitting school-record .590 with 11 home runs and 50 RBI in 32 games as a senior. In three years, during which

time the Pirates went 82-17, Westervelt batted .563 with 45 doubles, 30 home runs and 160 RBI, setting Batesville High career records for average, home runs, RBI, slugging and on-base percentage, all while maintaining a 4.65 grade-point average in the classroom. But Westervelt is far from the

only local product to prove his worth on the field and in the classroom. Former Lake Brantley High

School catcher Justin Smith was tabbed as first-team NAIA All-American after leading the Embry-Riddle baseball team to a 52-12 overall record and a fourth-place finish at the 2002 NAIA World Series.

The 6-foot-5, 215-pound senior finished with a .383 batting average, led the Eagles' offense in hits (93), doubles (25 new school record) and total bases (127).

The final member of the All-America category is Lake Mary High School graduate Josh O'Brien.

The Warner Southern College senior righthanded pitcher was named to the 2002 Daktronics-NAIA Baseball All-America Scholar-Athletes First Team after recording a 3.70 grade point average in Exercise Science.

# NEED YOUR HELP...

If you have photos of bygone days in Sanford, would you share them with us? We're looking for photographs of people, places and things depicting the history of Sanford from its earliest days right up through 2002.

• The photographs should be identifiable, including at least some of the individuals in the photo. • We will print a credit line with each photo, identifying the person or organization who shared it with us. • You may bring photos to our office at 300 N. French Ave., Sanford

Herald office.

I wish to:

• Please jot down all pertinent data including your own name, address and phone number. • If you have any questions concerning submitting photos, simply call the Seminole Herald at 407-322-2611.

Of course, space may prohibit us from printing every photo submitted. In any case, all photos will be returned to their owners unharmed.

# Lonoring Flewellyn

# Longwood resident only second woman from Florida inducted into AKA

By Marva Hawkins Herald Correspondent

ocal Seminole County/Longwood resident Valada Flewellyn was inducted recently as an honorary Alpha Kappa Alpha.

Flewellyn, an author, poet, storyteller and artist-in-residence at Tajiri Arts School for the Performing Arts and Academics, was initiated into the Alpha Kappa Alpha Sorority Inc., as a member in July, along with other high profile women of the nation.

Alpha Kappa Alpha Sorority Inc., is the nation's oldest African-American Greek-letter sorority, which held its 60th Boule recently at the Orlando Convention Center.

Ten thousand women and their families came to Orlando last month. Sanford's Tajiri School of Performing Arts and Academics joined PAST, the association to Preserve African American Society History and Tradition, in hosting the honored ladies on an African American Heritage Tour that took them from historical sites that included

Wellsbuilt Museum to the Macedonia Missionary Baptist Church, Eatonville, where Tajiri presented in grand style their artist-inresidence, Valada Flewellyn.

The young performers of Tajiri dressed in early 19th Century clothing, while Flewellyn presented her poetry to the group.

presented her poetry to the group.
Tajiri founder and Director Emeritus
Patricia Whatley sang a Negro spiritual to
introduce the children's performance of a
skit based on Flewellyn's children's book
"The Mosquito."

They also recited "The Mosquito of Orange and Seminole County," a poem written by Flewellyn to commemorate the 85th anniversary of Seminole County. Whatley shared bits of Sanford and Tajiri history and invited them to visit Sanford.

Flewellyn is also the author of "Poetically Just Us" and co-author of "Jack and Jill of America Incorporated into the New Millennium," a history book.

Other ladies sharing the high profile distinction of becoming an honorary member of AKA Inc., included Gayletha Brown, Counsel General, Deputy of Strasbourg, France, United States of America; Suzanne DePasse, chairman/CEO of dePass Entertainment, double Emmy Award winner and the NAACP Image Award; Vonetta Flowers, 2002 Gold Medal Winner at the Winter Olympics and Chamique Holdsclaw, WNBA; Washington Mystics Basketball Star, member 2000 USA Gold Medal winning Olympic Basketball Team.

Nichelle Nichols, actress, dancer, singer, activist, played the role of Lt. Uhura on the NBC series "Star Trek;" Lois M.R. Perinchief, MBE, JP Mayor, Town of St. George Bermuda.; Iyanla Vanzant, TV personality, author, lawyer; and Johnnie Carr, 92-year-old civil rights activist.

Flewellyn joins an impressive list of former awardees such as Jane Addams, Eleanor Roosevelt, Rosa Parks, Maya Angelor, Coretta Scott King, Ella Fitzgeraid, Madame Leah Tuti and Mae Jemison. She is only the second woman from Florida to receive honorary membership into Alpha Kappa Alpha Sorority Inc.

# Williams presents Luther Barnes with city proclamation

By Marva Hawkins Herald Correspondent

An evening with Luther Barnes and the Sunset Jubilaires was an awesome spirit-filled evening. Master of ceremonies for the occasion was Deacon Henry DeBose.

The opening selections were rendered by the New Bethel Baptist Church Mass Choir.

Afterward, Commissioner Dr. Velma H. Williams, District 2, presented a proclamation to the renowned Luther Barnes, recording international, Vision Dove, Stellar, G.M.W.A. Excellence Award Artist. August 10, 2002 was proclaimed by Mayor Lessard and the City of Sanford officials, as "Luther Barnes Day" in Sanford.

The evening of spiritual feeding, meditation, and praise in gospel song filled the hearts and minds of the Christians eager to be filled with the word through song-

# CERT program begins Sept. 26

The Seminole County
Department of Public Safety
is scheduling another in its
series of Community
Emergency Response Team
(CERT) program. It will
begin Thursday, Sept. 26,
and run for seven consecutive Thursday evenings from
6:30 until 9:30 p.m.

Since its beginning five years ago, about 500 residents of Seminole County and surrounding areas have received CERT training. The training is built around individual and team survival

skills, including life-saving techniques, emergency first aid procedures, fire fighting, hazardous materials awareness and disaster planning.

In addition to individuals, churches, parent-teacher organizations, fraternal organizations, businesses and homeowner/apartment associations are encouraged to register. For a registration form and more information contact the Seminole County Division of Emergency Management at 407-665-5102.

# PWN raising money for Safehouse

The Professional
Women's Network is currently selling tickets to the
upcoming Lord & Taylor's
Benefit Bash, scheduled for
10 a.m. to 9:30 p.m.
Wednesday, Sept. 4, at its
Florida Mall Store.

The event is a one-day shopping extravaganza with special one-day sales, celebrity appearances and surprises. As part of the celebration, Lord & Taylor is giving the Professional Women's Network an opportunity to raise money for Safehouse of Seminole.

Tickets are \$5, and can be purchased by contacting Elizabeth Detore at 407-265-8020 or the Seminole/Lake Mary Regional Chamber of Commerce at 407-333-4748.

Rock the Universe

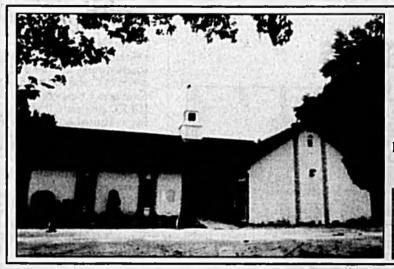

Some of the biggest names in Christian music, including Third Day, Jars of Clay, Newsboys and Rebecca St. James, will come together at the largest ever "Rock the Universe" two-day concert event at Universal Studios to highlight the diversity within today's exploding Christian music scene. Tickets for the fifth annual Rock the Universe event are now on sale.

Seventeen chart-topping bands will entertain fans, Christian Rock and mainstream alike, on stages throughout Universal Studios, Friday and Saturday evenings, Sept. 6 and Sept. 7. The hot line-up includes groups from several genres of music such as the rock sounds of Third Day, Jars of Clay and Newsboys; alternative rock favorites Five Iron Frenzy, currently performing on the Warped Tour, By The Tree and the O.C. Supertones; the pop stylings of Rebecca St. James, Relient K, True Vibe and Jenniser Knapp; Latin influenced Contagious, the 2000 Rock The Universe Battle of the Bands winner; and Hip Hop/Dance focused Toby Mac and Out of Eden.

Tickets can be purchased by calling Ticketmaster, 1-866-788-4636 toll free, or online at www.rocktheuniverse.com. Advance tickets are \$34.95 plus tax for a single night or \$49.95 plus tax for two nights. Tickets can also be purchased on the day of the event at Universal Studios for \$39.95 plus tax.

Group tickets are available for groups of 10 or more. Two night hotel packages are available starting at \$114 per person, per night including tax.

Tickets are non-refundable and will be honored at Universal Studios after 4 p.m. until the park closes at 1 a.m.

# 6-year-old's trouble with reading has developmental explanation

ceeds from the head downward

QUESTION: We have a 6-yearold son who is a late bloomer and is having trouble learning to read. Even though he is immature, I don't understand why this would keep him from reading.

DR. DOBSON: It is likely that your late-maturing youngster has not yet completed a vital neurologic process involving an organic substance called myelin. At birth, the nervous system of the body is not insulated. That is why an infant is unable to reach out and grasp an object; the electrical com-

Dobson Focus on Family

James

mand or impulse is lost on its journey from the brain to the hand. Gradually, a whitish substance (myelin) begins to coat the nerve fibers, allowing controlled muscular action to occur.

Myelinization typically pro-

and from the center of the body outward. In other words, a child can control the movement of his head and neck before the rest of his body. Control of the shoulder precedes the elbow, which precedes the wrist, which precedes the large muscles in the hands, which precedes small muscle coordination of the fingers. This explains why elementary school children are taught block letter printing before they learn cursive writing; the broad strokes and lines are less dependent on minute finger control than the flowing curves of mature penmanship. Since visual apparatus in humans is usually the last neural

mechanism to be myelinated, your immature child may not have undergone this necessary developmental process by his present age of 6 years. Therefore, such a child who is extremely immature and uncoordinated may be neurologically unprepared for the intellectual tasks of reading and writing. Reading, particularly, is a highly complex neurological process. The visual stimulus must be relayed to

the brain without distortion, where it should be interpreted and retained in the memory. Not all 6year-old children are equipped to perform this task. Unfortunately, however, our culture permits few exceptions or deviations from the established timetable. A child of that age must learn to read or he will face the emotional consequences of failure. This is why I favor either holding an immature child out of school for a year or home-schooling him for several years.

# Church Notes

Lutheran Brotherhood Seminole County Branch 8968 of Lutheran Brotherhood has received notice it has been awarded a Superior rating, the highest given by the national fraternal organization, for its "exceptional performance" in coordinating volunteer service projects and hosting charitable fund-raising events.

Branch 8968's work in a Jamestown neighborhood installing new doors, repairing, framing, replacing locks and painting of homes of poverty-stricken elderly is one of the many projects that earned the rating.

The branch also provided funds and volunteers for an Eagle Scout project to build a play therapy room at Kids House of Seminole County Children's Advocacy Center. Other beneficiaries include the Christian Sharing Center, Good Samaritan Home, Meals on Wheels, CROP Walk for World Hunger and Lutheran Counseling Services.

Women's Conference

House of Refuge Ministries will be holding its 12th annual Women's Conference at the Rosen Plaza Hotel in Orlando on Oct. 4 and 5. The theme is "Going Home Another Way". Speakers for the conference include Dr. Yvonne Capeliart, Founder of Sister Keeper in Pensacola; Prophetess Vernice Parkerson-Hooks of Orlando; Pastor Barbara Broussard of Goulds, and Pastor Dora Richardson of Sanford.

There is a registration fee of \$55 which includes two buffet meals. For information phone 407-324-4711.

Golf Tournament

The Christian Sharing Center is hosting a Fun Scramble Golf Tournament Monday, Sept. 16, at The Country Club at Heathrow.

Prizes and goody bag stuffers are needed.

Cost and sponsors include: \$2,500, gold sponsor; \$1,500, silver sponsor; \$500, bronze sponsor; \$150, hole sponsor; and \$100, individual golfer.

For more information about the tournament, call 407-260-9755, ext. 13 or email webmaster@christian-

QUESTION: What is the most difficult period of adolescence, and what is behind the distress?

DR. DOBSON: The 18th year is typically the time of greatest conflict between parent and child. But the 13th and 14th years are commonly the most difficult 24 months in life for the youngster. It is during this adolescent period that self-doubt and feelings of inferiority reach an all-time high, amidst the greatest social pressures yet experienced. An adolescent's worth as a human being hangs precariously on peer-group

acceptance, which can be tough to garner.

It is difficult to overestimate the impact of having no one to sit with on the school-sponsored bus trip, or not being invited to an important event, or being laughed at by the "in" group, or waking up in the morning to find seven shiny new pimples on your forehead, or being slapped by the girl you thought liked you as much as you liked her. Some boys and girls consistently face this kind of social catastrophe throughout their teen years.

Dr. Urie Bronfenbrenner, eminent authority on child development at Cornell University, told a

Senate committee that the juniorhigh years are probably the most critical to the development of a child's mental health. It is during this time of self-doubt that the personality is often assaulted and damaged beyond repair. Consequently, said Bronfenbrenner, it is not unusual for healthy, happy children to enter junior high school, but then emerge two years later as broken, discouraged teenagers.

Dr. Dobson is president of the nonprofit organization Focus on the Family, P.O. Box 444, Colonalo Springs, CO. 80903, or uww.family.org 0 2002 JAMES DOBSON INC.

# Saw palmetto emblem of Florida Native Plant Society

The saw palmetto is the most abundant palm in the State of Florida. This native plant occurs on coastal dunes of Florida and Georgia, and along the Gulf coast from Florida to Louisiana. It occupies a variety of habitats forming an abundant ground cover which includes hammocks, pinelands, savannahs, and sand Ferrer dunes in the coastal plain.

The plant is a branching shrub that rarely grows more than six feet tall. The saw palmetto is the emblem of the Florida Native Plant Society.

#### Leaves

Leaves of the saw palmetto are similar but smaller and more circular than those of the cabbage palm and they lack a central midrib. Leaflets are divided deeply into several dozen segments that split at the tip. The petioles on the saw palmetto are much thinner, about 3 to 5 feet long and are toothed at the margins. The tooth-like spines along

the petiole account for the common name given to this palm.

#### Trunk

The trunk is usually creeping, with roots on the underside. The multiple trunks grow horizontally at or below the surface of the ground. Single plants or colonies may have erect stems only at the base. Each trunk produces between 12

to 30 leaves.

#### Flowers

Flowers are bisexual, small, white and fragrant. They are borne on plume-like stalks as long as the leaves. The flowers produce nectar in commercial quantities and are a source of a thick, fine honey. Flowering occurs in the spring and summer.

#### Fruits

Fruits are oblong, up to an inch in length. When ripe, their color is black to bluish and contain a brown spongy pulp. The fruits can be found

during the months of September or October. The fruit is edible and used for medicinal purpose. Most likely they were an important source of food for native Indians.

#### Propagation

It takes a long time to produce acceptable landscape plants from seeds. Seeds will germinate between 6 weeks to several months. Plants are best established from containers since they do not trans-plant easily. Small seedling can be easily transplanted if the plants are well maintained after replanting. It can be propagated by division during the warm months from March to October. This type of propagation requires at least two feet of trunk and some roots. Leaves are cut off completely before planting but leaf buds should not be injured.

# Soil and Moisture

Requirements

The saw palmetto grows well in sandy, moist to dry, acid to alkaline soils. It is

drought tolerant after established and also tolerates some moisture.

#### Fertilization

It requires very little fertilizer for normal growth. It can be fertilized once a year with the same fertilizer used for other ornamental landscape plants.

#### Light

High to moderate light intensity can be used for this plant. It grows well under the canopy of pine and other large trees.

#### lies

Because of the recent interest in native plants, saw palmettos have great demand as a shrub and groundcover.

The blue-green forms are particularly selected for naturalistic landscapes. Flowers produce a fine honey, and beekeepers move their hives onto areas where saw palmettos begin to flower. Fruits are the source of a kidney medicine widely used in Mexico and often sold in health food stores. Also, a fat soluble

extract of the saw palmetto fruit is used to treat enlarged prostate. As is the case with the cabbage palm, the terminal bud of the saw palmetto is edible and is used much in the same way to prepare soups and used as a vegetable.

#### Pests

Diseases

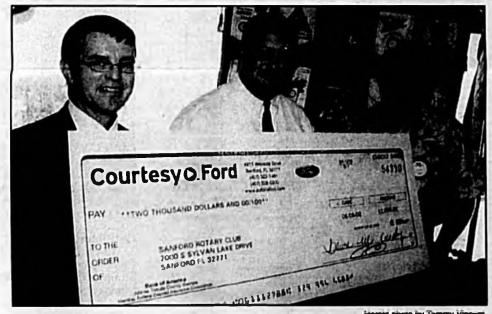

The most important pest of this plant is the palmetto weevil which may cause serious damages to small plants but, full grown plants can tolerate well some localized damage from this insect pest.

.

The root and trunk rot caused by the fungus
Ganoderma is the most serious disease of this plant.
Plants infected with this disease should be removed since there is no cure for this problem.

# Jenkins celebrates 100th birthday surrounded by friends

Flowers of praise and thanksgiving were given to Mother Gertrude Jenkins, who celebrated her 100th birthday Tuesday, Aug. 13,

2002. She was born Aug. 13, 1902, in Monticello, Fla., where later she met and married the late Abraham Jenkins.

Mother Jenkins has been a member of Mt. Zion Missionary Baptist Church, where her pastor of 22 years, the Rev. Dr. W. Frank Williams, often visits with his members.

Pastor Williams says he calls Mother Jenkins,
"Pretty Girl," and she is
always full of smiles and is ready to talk about her Lord and her church.

Celebrating a jubilee on Saturday, Aug. 17, her family and friends gathered to give thanks and praise to her life and training in their lives. Daughters, neighbors, grandchildren, nieces and all said and shared their love for this Christian lady. The life of this Christian mother proves that she lives and dwells with the Lord, through words and songs she was honored.

Mother Jenkins says she is still living because she praises and thanks God for his blessings, and because she is kind and loving to

Mother Jenkins and her late husband were blessed with 12 children. Six have preceded her in death. Sharing the occasion with Mother Gertrude were her daughters, Evelyn J. Calloway of Rochester, N.Y., Retha J. Sheppard and Mae Etta J. Butts of Sanford; sons, Minus Jenkins of Ohio, Norman Jenkins of Germany, and Abraham Jenkins of Sanford, 55 grandchildren, 65 great-grandchildren and 60 greatgreat-grandchildren.

To end a great celebration evening, grandson Primus, who is grandmom's care giver, entertained the family and guests with a big fireworks show to end the 100th year event.

# Cool, creamy entertaining for any occasion

No matter what the occasion—
a child's birthday party, an elgent dinner or a back yard celebration—loe cream always is the perfect dessert. It can be a snack, the
end to a meal or even the main
attraction at parties. However you
serve it, you can be rest-assured that
it will be enjoyed by all.

Today's hosts, often busy career
families with little leisure time, are
coting for almole, elegant entertaining. The less time spent in the
litchen, the better, loe creem is an
easy, delicious and, if desired, tancy
solution. Old favorites, like sundaes,
root-beer floats, banans splits, militshakes, pie a la mode and cones, es, ple a la mode and con shall are the most popular and easy.
However, serving ideas for los cream
only are as limited as your imagination.
Holidays are periect for los
cream. Strawberry, vanilla and blue-

berry scoops create a patriotic treat. No one would say "bah humbug" to a Santa Claus los-cream cake on Christmas, and a jack-o'-lentern loschietmas, and a jack-d-lanter tocream cake is sure to scare up
smiles on Hellowsen. Thanksgiving
wouldn't be the same without apple
pie a la mode. Cherry-vanita los
cream molded into a heart shape is
periect for your valentins. St.
Patrick's Day begs for mint chocoless-chip floats, while Easter calls for
los-cream eggs.
I ce cream is even more delicious
when topped off — try hot fudge,
chocolete, caramel or even a special
fiqueur. Add some whipped cream,
nuts, fresh summer init, sprinides or
cooldee for a real treat. A "build your
own sundae" party is a great way to
get everybody in on the fun. And
don't forget the cherry!

While July happens to be National
los Cream Month, any day is a good
day to asisbrate with los cream. So,
add some flavor to your next celebration with the fellowing "cool" combinations, courteey of the International
los Cream Association. cream cake is sure to scare up

# FOOD Healthy choice

Low-fat meal the whole family will enjoy

aking a deci-sion about going to eat is one thing, getting the entire family onto a healthy diet regimen can be something else entirely.

Many youngsters can have an almost knee-jerk "ewww!" reaction to the mere mention of the word "healthy," which can make getting them to eat a real problem, but that's where clever menuplanning comes in.

Low-fat doesn't mean low-flavor, and nothing gets the point across better than a delicious example that the whole family can dive right into, like these no-fuss "Barley-Stuffed Peppers," courtesy of "More Healthy Homestyle Cooking: Family Favorites You'll Make Again and Again" (Rodale), by Evelyn Tribole. Quick to prepare, and packed with richtasting barley, this dish is sure to win even the pickiest eaters over to your side, just in time for dinner.

#### **BARLEY-STUFFED PEPPERS**

Be sure to boil the peppers for a few minutes so they will cook thoroughly when baked with the stuffing.

- 22/3 cups fat-free chicken broth or vegetable broth
- 1 cup pearl barley • 6 red, green and/or yellow bell peppers
- 1 large onion, chopped
- 3 carrots, finely chopped or shredded
  • 2 celery ribs, finely

Tasty delights like these "barley-stuffed peppers" make for low-fat meat-less meals the whole family will love.

ing dish with nonstick

Bring a large stockpot of water to a boil over high heat. Submerge the peppers in the water and cook for 3 minutes, just to soften. Lift from the water with tongs and drain, inverted on paper towels.

Coat a large nonstick skillet with nonstick spray and warm over medium-high heat. Add the onion, carrots and celery and cook, stirring occasionally for 5 min-utes, or until tender. Remove from the heat. Stir in the salt, parsley, barley and all but 6 tablespoons of the cheese. Spoon into the peppers, filling each evenly. Top each with 1 tablespoon of the remaining cheese.

# 'Scream' for an all-time classic

The taste for ice cream must be virtually wired into the human genome. While no one is known to have invented it per sé, it's a known fact that the origins of ice cream reach back to at least the second century B.C. Alexander the Great is said to have enjoyed snow and ice flavored with honey and nectar, and Marco Polo returned from a journey to Asia with a recipe that closely resembles what is now called sherbet.

The first ice cream ad in America appeared on May 12, 1777, in the New York Gazette.

In honor of "America's Favorite Sweet," whip up a batch of "Vanilla Bean Ice Cream with Cherry Balsamico Topping" for your next summer get-together. Smooth, creamy and decadent, there's something about this dessert that seems as though it's just made for summer. Recipe courtesy of "Balsamico! A Balsamic Vinegar Cookbook."

   2 cups whole milk
- 2 cups heavy cream 1 vanilla bean, halved lengthwise
- 6 egg yolks
- 34 cup granulated

#### Cherry-Balsamico Topping: • 1/2 cup Aceto Balsamico di Modena

dark, sweet cherries, pitted and halved, or 8 ounces dried cherries

In the top of a double boiler, combine the milk and cream. Scrape the vanilla beans into the liquid, add the pod and heat to scalding over gently boiling water and cook over simmering water, stirring constantly, until the mixture coats the back of a wooden spoon. Let cool, then refrigerate for at least two hours. Then freeze in an ice cream maker according to the manufacturer's instructions.

To make the topping: In a medium saucepan, combine the aceto balsamico, apple juice, water, sugar, lemon zest and cinnamon. Bring to a boil, stirring to dissolve the sugar. Add the cherries and decrease heat to a simmer. Cook for 8 to 10 minutes or until the cherries are soft. Let cool to room temperature before serving.

# Discover the subtle secrets of anytime stir-fry inch cubes. Remove stems

A Ithough the terms are A often used interchangeably, stir-frying and sautéeing are two very different cooking methods. Both techniques are designed to maximize flavor while minimizing cooking time. However, the key to stir-fry lies in keeping the food mov-ing continuously in the pan by lifting, tossing and yes, stirring to ensure that each piece is evenly exposed to the heat without scorching and to

seal in the flavor. Following are a few more stir-fry secrets, courtesy of "Martin Yan's Asian Favorites: From Hong Kong, Taiwan and Thailand" (Ten Speed Press), by Martin Yan. Practice

 Uniform sizes — To ensure even cooking, cut all meats and vegetables into uniform sizes.

 Heat first, oil second — First, heat your empty skillet or wok over high heat for 1 to 2 minutes. Once you can feel the heat by lowering your hand slightly over the surface, you're ready to add the oil.

• Work in order — Not all ingredients require the same amount of time to cook. Usually, aromatic seasonings like garlic and ginger go first, followed by meats or fish, and

lastly, vegetables. • Keep it moving — That's everything moving in the pan or it will burn quickly.

Oct. 4, 1987, David D. Guildford was appoint-ed to the Lake Mary police force. Fifteen years later, on Aug. 7, 2002, it was time for his fellow officers to say goodbye.

Lt. Guildford retired on Aug. 16. Before he left, however, the Lake Mary Police Department held a retirement ceremony celebrating the years of service the lieutenant gave to the city.

"I'm going to miss my job a lit-tle bit," Guildford said. "But, I'm really going to miss the people I've worked with throughout the

From Staff Reports

With a \$500,000 goal and a volunteer committee roster of more than 25 elected officials, county and city leaders that reads like a Who's Who in Central Florida, the "Be a Trailblazer" fund-raising campaign launched as a model public/private joint effort to enhance the Cross County Trail in Seminole County.

The Lake Mary Rinehart Road Beautification Project was created more than one year ago by homeowners associations and city and county leaders to showcase the trail section on Rinehart Road between Lake Mary Boulevard and State Road 46A. Featuring strategically placed landscaping, exercise stations, mile markers and rest areas across the 2.2-mile trail section, it is scheduled for a completion date of Spring 2003, coinciding with the opening of the pedestrian connection bridge over Interstate 4. The trail will serve as a model for other local and region-

# Lake Mary Chamber spearheading 'Missing Link' celebration

The Seminole County/Lake Mary Regional Chamber of Commerce is ready to celebrate the opening of the "Missing Link."

The GreeneWay's "Missing Link" is set to open soon, and the Chamber will be spearheading a celebration honoring the event.

The grand-opening celebration is acheduled for Saturday, Sept.

14. The theme of the event is "Building Bridges to Communities" and will involve all the communities along the 56mile corridor of the GreeneWay.

# Sanford: Our First 125 Years

Caroline Crapps submitted this photo of her father, W.C. Hill, taken in 1914 on Magnolia Avenue, probably in the 6th or 7th Street area.

Recalling Sanford's heritage, SANFORD: OUR FIRST 125 YEARS will feature hundreds of photographs on 128 pages. This treasure chest of memories will include photos from Sanford of yesteryear, giving the reader a glimpse of life in Sanford years ago.

This book will be edited locally by the staff of the Seminole Herald and bound with an attractive, durable cover, making it of heirloom

husband, Raymond E. Lundquiet, as a child. Taken in 1921, the photo includes Raymond's parents, Mora
Bergquist Lundquist and Edwin W. Lundquist. Work on this pictorial history is commencing at this time. The finished product will be available by late November, 2002, just in time for Christmas giving!

You will want a copy of Sanford: Our First 125 Years not only for yourself, but your loved ones as well.

What a great gift idea for those who call Sanford "home." Be sure to reserve your copies with the coupon below.

If you have photos of bygone days in Sanford, would you share them with us?

We're looking for photographs of people, places and things depicting the history of Sanford from its earliest days right up through 2002.

- The photographs should be identifiable, including at least some of the individuals in the photo.
- We will print a credit line with each photo, identifying the person or organization who shared it with us.
- You may bring photos to our office at 300 N. French Ave., Sanford
- Please jot down all pertinent data including your own name, address and phone number.
- If you have any questions concerning submitting photos, simply call the Seminole Herald at 407-322-2611.
- Of course, space may prohibit us from printing every photo submitted. In any case, all photos will be returned to their owners unharmed.

Commission fully endorses the work this volunteer group is doing and urges everyone to support this important project," continued Greene.

A groundbreaking ceremony will be held 9:30 a.m. Aug. 26, at Trailhead Park to commemorate the launch of the landscaping enhancements planned for the trail. Dignataries attending the event include U.S. Rep. John L. Mica, State Rep. David J. Mealor, County Commissioner Daryl G. McLain and

With approval from the city of Lake Mary and Seminole County for project development and construc-tion, the Trailblazers group is now asking the corporate community for cial donations. Community National Bank, located at 3001 West

Lake Mary Boulevard, stepped up to the plate as the founding sporsor with a matching funds donation of \$25,000.

"At Community National Bank, we are proud to serve as the founding sponsor for the Trailblazers project, which will be a win-win for all community businesses, residents and visitors," said Michael R. Scures, president and CEO of Community National Bank.

"We challenge other corporations to join in and be a sponsor - every dollar counts."

The Lake Mary Rinehart Road Trail Beautification Project was established in 2001 to raise \$500,000 from corporate and private funders to enhance the existing trail. For more information and sponsor registration, visit www.beatrailblazer. com or call 407-585-1419.

quickly moved up in the ranks. In 1989, he was promoted to sergeant and then to lieutenant in 1994.

During his tenure with the Lake Mary department, Guildford was able to help solve two of the three homicides that have occurred in the city, including the Kathy Engles case.
"I think that was the highlight

of my career with Lake Mary," he said. "I took over the cold case,

and in the end, we finally found her remains.

Engels, 14 at the time, disap peared in 1987 during Memorial Day weekend. Anton Daryl Meyers was the prime suspect in the investigation, and he was eventually arrested for firstdegree murder. Engels body, however, was not found until last year when Meyers, trying to get off death row, drew a map to the loca-tion where he buried the 14-year-

old's body.

Almost a year after the Engels' case could finally be closed, Guildford plans to take it easy for awhile — traveling and spending time with family. It won't be long, however, until Guildford decides its time to go back to work.

"I'm going to have to start look-ing for a job," he said. "But, it's going to be something not as stressful as what I have been

The straw ballot is attracting numerous candidates vying for spots in county and state elections. People attending the event will also get a chance to vote on several con-troversial statewide initiatives, including a proposition banning smoking in restaurants and another proposal limiting the number of students per classroom. ents per classroom.

The ballots — one for Republicans and one for Democrats will feature races for state sena-

tor, state representative, attorney general, supreme court justice, Commissioner of Agriculture, Seminole county commissioner and the Seminole County School Board. If history repeats itself, the straw vote will be a strong predictor of the actual results in November. Over the past 19 years, Hob Nob voters have picked the winning candidates 84 percent of the time.

"We expect a huge turnout for this year's Hob Nob, not only from Seminole County, but also from neighboring Orange and Volusia counties," said Diane Parker, presi-dent of the Seminole County/Lake Mary Chamber of Commerce. "This is a chance for Seminole County voters and business and civic leaders to rub elbows with political candidates and each other.

"Who needs a Gallup or Zogby poll in Florida," Parker added. "Just watch the vote in Seminole. The Seminole County Hob Nob truly is the measuring stick for November's general election. As the Hob Nob vote goes, most of the election

results go."

Results of the vote will be poste every 30 minutes during the Hob Nob. Final results will be announced at the end of the

evening.
Before and after people cast their votes, there will be plenty of campaigning and schmoozing. The Marriott is planning a showcase of refreshments, including dessert,

carving and pasta stations.
"It will be very showcased,"

Catering Manager Jana McGreal said. "It will be very upscale." The Hob Nob will be held

Thursday, Aug. 29, from 4:30 p.m. to 7 p.m., at the Marriott, located at 1501 International Parkway, near Interstate 4 and State Road 46A Tickets are \$25 in advance and \$35 the day of the event. A 12-pack of tickets, purchased in advance, is \$275. Display tables for candidates are available for \$395.

Win Money for Big Fish Calling All Anglers! The Kissimmee-St, Cloud Convention and Visitors Bureau is posting a \$10,000 reward for the largest bass and crapple caught on the Kissimmee Chain of Lakes this fall!

For eight consecutive weeks, Sept. 9 through Nov. 3, Kissimmee-St. Cloud will pay local and visiting anglers a week-ly cash reward for the biggest fish caught during the third annual

Big Fish Open.
Part of Kissimmee-St.Cloud's Anglers Challenge, the Big Fish Open features a large-mouth bass and black crappie division for both adult and junior anglers. Each week a \$1,000 reward will be paid to adult anglers reeling in the largest fish in each division! Junior anglers age 17 and under win \$100 savings bonds each.

Hold on partner, there's more! A \$10,000 bounty has been placed on the single largest bass and crappie recorded during the eignt-week competition! The rand prize for junior anglers is a \$1,000 savings bond. Keep in mind, we did not say "dead or alive"; all fish must be brought to the scales alive and then released back to the lakes. There are no designated fishing times during the eight-week period, anglers can fish anywhere on the Kissimmee Chain of Lakes from sun up to sun down and any-

where in between.
To collect the reward, anglers must first register for the Big Fish Open at participating area fish camps and bait shops through out Kissimmee-St. Cloud. # Special guest expected to attend CIA party

The Lake Mary CIA will once again be hosting their annual children's Halloween party on

Saturday, Aug. 26. Rumor has it that a special celebrity and all around swell Great Dane has been invited to this year's event. While we ran't divulge his name, his friends Shaggy, . Daphne, Velma and Fred may also put in an

appearance.
In other CIA news, the Rowell board voted at their August meeting to be involved in this year's Holiday in the Park. Until recently, Holiday in the Park was looking for a new home while construction began at Lake Mary City Hall. With the delay of construction, Holiday in he Park is on again and is scheduled for Saturday, Dec. 7.

The CIA also voted to provide funding to Lake Mary Elementary School to help cover the cost of the repairs that were made to the fountain in front of the school.

The CIA donated the fountain to the school and one to City Hall several years ago

Olde Lake Mary Days On Again

The City of Lake Mary has decided to build a fire substation as an annex to city hall. Construction was originally due to start this fall. Holiday in the Park started looking for a new location and Olde Lake Mary Davs was off.

The Lake Mary Historical Commission was informed at their August meeting that construction has been delayed until mid-March. With that news, the commission voted to go forward

with the 10th Annual Olde Lake Mary Days. The date has been set as Saturday, March 1, 2003.

Commission member Peggy Wolfe will be the chair for the 10th OLMD and Lois Jackson will be co-chair. Peggy hopes to have more demonstrators for this OLMD and an expanded children's corner.

This could well be the last Olde Lake Mary Days. Due to the limited space available in the city, the expansion of city hall will, sadly, leave Lake Mary without a place to hold such festivals. Anyone interested in par-ticipating in Olde Lake Mary Days can contact Peggy Wolfe at 407-327-8207 or Lois Jackson at 407-322-5004.

Commission member Ettie Jane Keogh invited all of the commission members to Pioneer Night on Sept. 12 at 7 p.m. at the Ag Center behind the Seminole County Historical Museum. Pioneer Night is a celebration of Seminole County History. Pioneer Night is open to everyone, it's purpose is to celebrate those citizens who were born in Seminole County or who have lived here for more than 50 years.

Those citizens who've been around for more than 50 years will be asked to speak, but will be limited to two minutes.
