## Financing Would Be Oppardized, Says George A. DeCottes

DeCottes, city attorney, announced today that he would not file a petition for a new election on the ground that the proposed amendment to the constitution would be unconstitutional. He stated that the proposed amendment would be unconstitutional because it would give the city commission the right to call an election at any time, and that this would be an unconstitutional delegation of power to the commission.

## Three And Half Mills Cut Off County 1928 Tax Rate; Valuation Is \$11,402,365

Reduction of three and one half mills in the county tax rate together with a total assessed valuation of \$11,402,365 in the county was announced today by County Tax Assessor Alexander Vaughn following the completion of the tax roll for 1928.

The county tax rate for this year will be 33 1/2 mills against 43 1/2 for 1926. The reduction is made through the cutting of the county's operating expenses and in spite of interest and sinking fund requirements of \$450,000 road improvement bonds added to the bonded indebtedness.

The building fund was decreased two mills, the road and bridge fund, one mill, and the agricultural levy of one mill for the County Chamber of Commerce were cut out of the budget. The only increases were one mill in the tax and forfeiture fund and the addition of one mill for county health work, a new budget item.

## WOODRUFF LIKES EVANS' PLAN FOR FINANCING ROAD

Approval of the district bond issue plan advanced by County Commissioner Frank Evans, of Lake Mary, for financing the completion of Seminole Boulevard and the building of short roads connecting Altamonte Springs, Bear Lake and Lake Mary with the new highway, was expressed today by Frank L. Woodruff, Sr.

"The completion of Seminole Boulevard is the most important thing Sanford and Seminole County have to do today," said Mr. Woodruff. "We are asking people to come to Sanford and then when they come they find the front door shut unless we can finish the road."

Commissioner Evans' plan to have bonds issued by District 2 and District 3 is excellent," he continued. "The people of Bear Lake, Altamonte Springs and Lake Mary will be the roads they need to the highway and Sanford will get its river boulevard from Park Avenue to the St. John's River bridge."

The low cost of labor and material makes the finishing of the project as soon as possible very desirable, in Mr. Woodruff's opinion. He believes if the county does the paving work itself that 55 per cent can be cut from the cost as compared with other work which has been done here recently.

With the state tax rate of seven and one half mills remaining the same as last year, the total county, school and state rate in the Sanford and Lake Monroe districts will be 67 mills as compared with 70 1/2 in 1926. In other districts the total state school and county millage will be 62 mills against 67 1/2 last year.

This year's total assessed valuation is \$74,168 greater than the 1926 valuation of \$10,828,168. The increase is entirely the result of improvements and additions to personal property, such as buildings, and increases in railroad and telegraph valuations.

The real estate valuation is actually decreased \$62,300 over last year's total of \$8,325,980. According to Mr. Vaughn, this reduction is the result of tax sales to the state making property non-taxable. The railroad and telegraph valuation shows an increase of \$49,938, making a total of \$1,197,113.

Personal property shows the biggest increase in value. This year's total of \$1,941,680 represents a growth of \$486,360 since last year. Taxes for this year become payable on Nov. 1, next Tuesday. During November a two per cent discount will be given and during December, one per cent. Taxes become delinquent on April 1, 1928.

Mr. DeCottes' interposed objection that the sectional amendment to the constitution was unconstitutional.

Mr. Douglas said he would not file a petition for a new election on the ground that the proposed amendment to the constitution would be unconstitutional.

## SENATOR CURTIS TO BE CANDIDATE FOR NOMINATION

Republican Leader of Senate Consents To Use Of Name Provided Movement Is Serious And Not Complimentary

WASHINGTON, Oct. 25 (INS)—Senator Charles Curtis of Kansas, Republican leader of the Senate, today consented to become a candidate for the Republican nomination for president next year.

Senator Curtis addressed a letter to the president of the Curtis-Forest Club, a group of friends of the senator, advising that he was willing to go before the convention provided the movement was a serious one, and not merely complimentary.

Senator Curtis' letter was addressed to Roy L. Bone of Topeka, State Bank Commissioner. It said in part:

"Kansas has honored me by electing me to office under every national administration since 1892, and the present proposal (for president) is a still more signal honor. Having served in the house and senate for more than 33 years, I know the great responsibility of the presidency and the arduous duties of the office. Nevertheless, if my friends in Kansas desire to send a delegate to the next Republican national convention favorable to me for nomination, I shall be greatly pleased to be their candidate."

"However, I will not consent to become a candidate if the delegation is to be selected with a view to voting for me for a ballot as a 'favorite son.' As I stated when the question was first put to me, 'I will not allow myself to be used as a 'stalking horse' for anyone."

## ROUMANIA SPLIT BY DISSENSION IN FIGHT FOR CROWN

Former Crown Prince Carol Is Central Figure In Bitter Controversy; Between Various Political Factions

BERLIN, Oct. 25.—(INS)—The fight over the Roumanian throne, in which for ex-Crown Prince Carol is the central figure is becoming more bitter with the Carolists trying to unite all the opposition factions, said a dispatch from Roumania today.

Former Premier Averescu and M. Jorga have taken leadership in the attempt to form a united front of all the anti-Bratianu forces.

The largest opposition party, the National Peasant, has not yet made a decisive move. However, leaders of the party announced that they would protest to the next parliament against retention of martial law, which has been in effect since the war.

Protest also will be made against the arrest of former under secretary of finance Manolescu who was seized on the frontier while returning from Paris with four letters from Carol to party leaders. M. Manolescu is lodged in the state prison at Jilava.

He is charged with complicity in the plot to place Carol on the throne and it is believed he will be court-martialed within a few days. Censorship of the Roumanian press continues.

Premier Bratianu is preparing to address a communication to the party chiefs tomorrow, demanding that the political groups in parliament declare their loyalty to King Michael and the present government to show they are not associating with the Carolist plot.

It is reported that a few politicians have crossed into Bulgaria to avoid arrest.

## Warfield Bequeaths Fine Memorial To Memory Of Mother

BALTIMORE, Oct. 25.—(INS)—S. Davies Warfield, president of the Seaboard Air Line, who died several days ago, has bequeathed a magnificent memorial to his mother's memory, according to friends familiar with his will.

The residue of his large estate, variously estimated at between \$5,000,000 and \$10,000,000, is to go to the erection and maintenance of a home for dependant aged women, to be known as the "Anna Emory Warfield Home." It will be located on the site of Warfield's country residence at Mokton, Maryland.

Warfield was the largest individual stockholder in the Seaboard. His will directs that his holdings be not sold, but placed in the trusteeship of a committee which will carry on his work to build up the property.

## Fall's Negotiations With Harry Sinclair Cloaked In Secrecy

## LOSS OF LIFE IN SINKING OF SHIP REPORTED SMALL

## Italian Boat Loses Propeller And Explosion Occurs When Water Rushes Through Hole; Heroic Rescue Is Effected

RIO JANEIRO, 26.—Loss of life in the sinking of the Italian liner, Principessa Mafalda has been small; and possibly there may be but a few members of the crew missing when all the survivors are landed, it was stated officially today.

Official reports stated that the known rescued exceeded 1150 and the agents of the line, state that there were but 1208 persons aboard the vessel.

Messages have been received that all first class passengers have been saved.

An official statement says there were 50 survivors on the steamer Teapote, 500 on the steamer Empress Star, and 200 on the steamer Empress Star, and an unknown number on the steamer Voltaire. This statement places the loss at 58, without counting those on the Voltaire, so that what at first was reported as one of the worst marine disasters in history now appears to be chiefly another story of heroic rescues at sea.

The steamers Rosset and Mosella are still searching for further survivors.

A message from the Principe Duda to the Italian embassy says that the mafalda lost a propeller and that water rushed in causing a boiler explosion and the sinking of the vessel.

Marine experts here believe that possibly this message indicates that the propeller shaft may have broken, opening the plates of the vessel and thus letting the sea into the hold of the vessel.

Officials of the navigazione generale Italiana denied reports that the Principessa Mafalda had been sunk by an explosion caused by faulty machinery.

Much comment has been caused hereby discussions as to whether the Principessa Mafalda had been experiencing difficulty during her voyage prior to the disaster. She was three days behind her schedule, as advertised here.

Most of the survivors will be landed at Bahia, it is reported.

## Bad Weather May Force Mrs. Grayson To Abandon Flight

OLD ORCHARD BEACH, Maine, Oct. 25.—(INS)—Mrs. Frances Wilson Grayson today was considering calling off her projected flight to Denmark in the airplane "The Dawn," until spring.

Unfavorable weather was in prospect and all was not harmony between Mrs. Grayson and her pilot, Wilmer Stutz, and her navigator Bruce Goldborough.

Mrs. Grayson, however, deduced a story published this morning that there was a "mutiny" aboard "The Dawn" on Sunday during the third unsuccessful try for an overseas flight just before one of the motors became disabled. She reiterated the account, as given exclusively to International News Service Monday that she was surprised and disappointed that the pilot Stutz turned back but that she felt that he as a pilot, was in command. "Any person at the controls is in command," she said.

Stutz's version was that he turned back to get a running start to climb a fog bank.

## Peking Fliers Drop Bombs Over Town

## Texas Oil Man Asked To Bid On Lease 3 Days After Sinclair Had Signed With Fall

## Not On Market One Man Was Told

## Secretary Admitted To Beaty That Sinclair Bid Was Satisfactory

WASHINGTON, Oct. 26.—Former Secretary of Interior Albert B. Fall made a freeze-out proposition of his deal to lease the Teapot Dome naval oil reserve to Harry F. Sinclair, according to testimony of witnesses today at the conspiracy trial of the two men.

So secretly did he negotiate, that Birch Helms, of the Texas Pacific Coal and Gas Company, came to him three days after the Sinclair lease was signed, according to testimony of witnesses today at the conspiracy trial of the two men.

Helms said he would be glad to entertain a proposition, suggesting it be submitted to him at his New Mexico ranch. Fall went to the ranch and wired Helms "Teapot Dome is closed," after the oil man had read it in the paper.

In another instance, just a month before the Sinclair lease was signed, Fall told Frank Kistler, of the Producers and Refiners Corporation of Wyoming, that he "wasn't considering leasing 'Teapot Dome,' but would let the oil man know if he "did decide to do so." The next Kistler heard of Teapot Dome was when he read in the papers that Sinclair had leased it.

To A. L. Beatty of the Texas Oil Company, Fall admitted he had received a satisfactory proposition from Sinclair, and didn't care to sign any other. This was a week before the lease was signed.

In Beatty's case, Owen J. Roberts, chief prosecutor, brought out testimony which indicated that Fall had been willing to listen, the Texas Oil Company might have considered building the 1,000 mile pipe line and the storage tanks which Sinclair built. The defense has contended no other concern would have undertaken a proposition of that magnitude.

Helms said he called on Fall about leasing Teapot Dome in April 1922.

Fall told him, the witness declared, he would be very glad to entertain a bid, but he was leaving town for his New Mexico ranch, but would be glad to confer with officials of Helms' company there.

Helms then read in the papers that Sinclair had gotten the lease and wired Fall asking about it and repeating his request for the New Mexico conference.

On April 20, 1923, Fall replied saying he "regretted can't make appointment on this trip. Teapot Dome closed."

Helms then wired a protest saying he thought his company, having made a request on the Navy Department six months earlier, and in view of his conference with Fall, should have been permitted to bid in competition with Sinclair.

Roberts then started the court room by fixing the date of Helms' visit to Fall as April 10—three days after Sinclair signed the lease.

Helms said Fall had told him about the need of the pipe line and the storage tank, but he still wanted to bid.

George Hoover, Sinclair attorney, cross examined vigorously in an effort to shake this testimony. "Wasn't it a Salt Creek proposition rather than Teapot Dome that Fall promised to hold open for a month?" he asked.

"No, it was Teapot Dome," answered Helms.

## Officials Pictures Of Championship Bout To Be Shown Here

Official motion pictures of the Dempsey Tunney championship battle in Chicago will be shown at the City Hall tomorrow and Friday night by the Sanford post of the American Legion.

The winning of a battle in the federal court in Tampa by owners of the film resulted in its showing there in Miami, and in Jacksonville. Tonight the picture will be shown at the Coliseum in Orlando and then brought here tomorrow.

In an effort to avoid the Interstate Commerce Commission's ruling against transporting the film from one state to another by road or steamship, the owners arranged the picture to Florida by other means which have remained unknown.

Local authorities are not expected to interfere with the showing of the film here but will probably follow the precedent set in other parts of the state.

### OCTOBER GAMES TO HELP DECIDE GRIDIRON TITLES

Football Doesn't Wait Until October To Settle All-Important Question As In The Past Years Of College Game

NEW YORK, Oct. 25.—No longer does king football wait until the big games of late November to determine championship titles, for the battles which are waged nowadays on most October Saturday afternoons have assumed great importance and are just as critical as those later in the season.

Making it a case in point, what game in the entire season looms higher from any angle than the Heven on Saturday? To be sure, Yale has been defeated this season by Georgia, but the football public thinks far less of an off-season defeat now than it used to, and Yale and Dartmouth will take the field before another outpouring of 80,000 to fight a battle which will do much to establish one or the other fairly securely in the top flight of the eastern teams. And what holds true for Dartmouth-Yale encounter is good in lesser measure for the Columbia-Cornell game at Ithaca, the Navy-Pennsylvania clash at Philadelphia, and the Syracuse-Nebraska battle at Lincoln.

Some of these games, in fact most of them, are between teams that have already tasted defeat, but they have an opportunity to redeem their earlier reverses by coming through with a smashing victory in one of these admittedly major contests. Fortunately, for football, defeat does not have the sting that it once had. The really good eleven, even in mid-season now here are not as many unbeaten elevens as there used to be at the end of the year.

Just now the breed of uncared for teams is almost extinct, with Michigan standing forth as the sole survivor. And with Michigan in Illinois on Saturday the possibility looms that another week may see an end of 1927's "uncared for" elevens.

Football is merely overthrowing another old time tradition in eliminating the undefeated-uncared for October brings double the number of top-notch games that used to make November the big football month.

Dartmouth, having already conquered Harvard decisively, stands on the threshold of greater things. It can overthrow this Yale eleven. Where the Yale eleven of two weeks ago which lost to Georgia had no scoring punch and no real cohesion combined with a failure to grasp fundamentals, it now has everything that a major eleven should have and in addition has tremendous momentum gained by its victories over Brown and the army.

### JOHNNY DUNDEE MEETS DEFEAT BY CANZONERI

Veteran Falls Before Youth In Fifteen Round Bout At Madison Garden Last Night

NEW YORK, Oct. 25.—(INS)—Youth added another of its inevitable victories today.

The downfall of Johnny Dundee, the famous "scotch wop" came last night at Madison Square Garden before a small crowd of about 8,800 when Tony Canzoneri decisively outpointed the veteran in every one of the 15 rounds of their bout.

The crowd was with Johnny at the start and hailed him covetously as the fighter he has always been. But when they saw him being beaten to the punch, out maneuvered and laughed at by his young opponent, they reverted to type and booed their former idol.

Canzoneri was too young, fast and strong for the weary Dundee. The veteran tried all of his old tricks of bouncing off the ropes and attempting to bewilder his adversary by clownish, but effective foot-work, but Canzoneri kept stabbing quick lefts and rights to the jaw that showed no fear of Dundee's tactics.

In fact, in the twelfth round, Tony deliberately stood with his hands to his side and smilingly invited Johnny to try and hit his bobbing head. Dundee tried: He swung wildly at Tony's chin.

But the blows merely created air-currents. Such an action by another man in the same ring with Dundee some years ago would have been an invitation to quick and sudden loss of interest in all things.

Only Johnny's ring knowledge kept him on his feet. When the final gong sounded the "scotch wop" was fighting away with both hands in a desperate last charge, but it was ineffectual.

There was little question about the verdict, which will be hailed as many as unofficially crowning Canzoneri featherweight champion of the world. The bout was not advertised as a title affair. Dundee had wanted the title he won from Eugene Criqui and had not lost it heretofore in a ring at 125 rounds.

### The Sculls Do a Brother Act

As the Waners furnished the big brother act in baseball, the Scull brothers are doing the brother act in football. They are Paul, left, and Folwell, right, who play halfback and end, respectively, for Penn this season—and they play their positions the way the Waners play theirs.

### Gators Back Home Monday To Prepare For Impending Clash With Mercer Bears

UNIVERSITY OF FLORIDA, Gainesville, Oct. 25.—(Athletic News Bureau)—Downed 12 to 6 in a heart-breaking game at Tampa Saturday by North Carolina State, but more determined than ever to reach their stride for the remaining games of the season, the Florida Gators were back on Fleming Field yesterday afternoon to begin preparation for the invasion of the Mercer Bears on Saturday. It marks the final appearance of the season of Sebring's men on the campus, and the contest will be witnessed by many former students of the institution, as it is "Homecoming Day."

Florida outplayed N. C. State in first and third quarters of Saturday's game, but failed to stop completely the Wolfpack ace, Jack McDowell, who though lean and lanky, proved dynamite on Plant Field. His individual efforts led to the State's triumph, passing kicking and running with the qualifications of an All-Southern back. A 25-yard pass, McDowell to Childress, put State on Florida's four yard line.

The Gators held the pack for three downs, but then McDowell heaved a short toss to Godwin over the goal, and the visitors had chalked six points.

Trying desperately to score, Florida took to the air, but McDowell stepped in the path of a Florida pass and raced 75 yards to a touchdown. In the ensuing kick-off, however, Tommy Owens, Gator back, furnished 7,500 fans

the game's greatest thrill when he carried 88 yards across the State goal. The final quarter produced all the scoring and brought a bitterly fought contest to a most spectacular conclusion.

The Gators were outweighted seven pounds to the man, but they fought like Trojans. Grueling heat wore down Sebring's men, more so than the State gridders, who had been trained in a brisk climate and naturally possessed a valuable reserve strength.

The Florida line functioned well, but the Gator backfield was thrashed. State players seemed to have a strange familiarity of Florida's plays, and called the runner, and route of play, many times during the game.

It was the first reverse in Southern Conference ball for Sebring's Auburn and Kentucky, but there is no down-hearted spirit on the squad. Mercer has beaten Gator eleven times in the past three years, and this has made the Floridians more determined than ever this week.

Entering the N. C. State game without three of his best backfield men, "Horse" Bishop, Smith and Carl Brumbaugh, Sebring's offense naturally lacked a strength it might have possessed. Bishop may be able to go this week against Mercer, and Smith, after undergoing treatment in Jacksonville, will be back in togs tomorrow. Brumbaugh was in uniform yesterday but kept more or less idle.

### WASHINGTON LETTER

WASHINGTON, Oct. 25.—Most Washington wood piles harbor Senegambians.

Take the case of the prohibition enforcement service. Millions of persons are sleeping peacefully tonight, serenely confident that enforcement has now been taken out of politics by putting the administrators, inspectors and agents under civil service.

That was the idea, wasn't it? To put everything on a basis of pure merit and weed out all the grafters who held their jobs by politics alone?

Somehow, it seemed too good to be true. And so apparently, it was. The civil service does its part—it weeds out the obvious imbeciles and the known criminals from the applicants. Then, it presents a list of eligibles consisting of those who have passed the examinations. There are always more eligibles than jobs—when the jobs are sought after as enforcement jobs are. So the eligible who has political pull gets the job, as enforcement heads can pass over any number of other eligibles no matter how much more brilliantly they may have come through the exams.

The way to get a government job still is to vote right, pass the civil service examination and stand in with your congressman or local political boss. If you want to be a postmaster, for instance, and have more draw than any other eligible, you can probably get your congressman to urge a re-examination on the ground that the eligibles aren't satisfactory.

Having flunked one examination, you'll have a good enough idea of what the re-examination

Speaking of prohibition, here's the latest alibi for border runners. A man and a woman were caught with an automobile in Montana near the Canadian line, driving an automobile more or less loaded with liquor. Placed on trial at Great Falls they advanced the defense that they had become lost in the dark and had wandered over into Montana by mistake. They said they supposed they were on Canadian soil until their arrest.

Whether their story was proved true, whether they were acquitted because it was such a good one or whether they went to the hoosegow has not yet reached the ears of your correspondent. One may now expect to hear captains of rum ships complain that the compass fell overboard and that they assumed they were in the Straits of Magellan when the coast guard came along and captured them within the twelve-mile limit.

BIBLE VERSE FOR TODAY

OUR ENTREATY—Give ear, O Lord, unto my prayer; and attend to the voice of my supplications. Psalm 86:6.

THE OLD PROSECUTOR TALKS

Gold is found in the hills, and then carried back to the haunts of men. And two of us came in the early days to pan the streams for the dirt that pays.

And we stuck it out for a time, till he got sick of the game which enchanted me.

And he went back to the town one day to get his gold in an easier way. He quit these hills and he left me to scuffle with men for his bit of gold.

Now some like walls and roofs and rooms, but I like mountains where thunder booms.

And skies and trees and the open plains where a man must work for the bit he gains.

So I've stayed right here and I've dreamed my dreams and smoked my pipe by these running streams.

And kept my cabin up here alone, with all this beauty to call my own. I've taken my gold with pick and pan.

And sent it back to be stained by man. I've wrestled with rocks and streams for mine.

And made my friendships with fir and pine. Now the world down there may think me odd, but maybe I won't seem queer to God.

A Chicago man has ten wives. But as we understood it, anything is fair in love and war in Chicago.

Dr. Hathaway seems to have the edge in newspaper support—Perry Herald. To say nothing of the advantage in public support.

The state egg laying contest is about to come to a successful close. By successful, we presume they have reference to the increased prices of eggs.

Since the St. Petersburg Times objects so strenuously to its city's name being written as St. Pete, how will Saint Petersburg do?—Tampa Times. Personally we are tickled to use St. Petersburg because it fits perfectly in our 24 cup head.

Sometimes ago we wrote a squib about the newspaper funerals for two papers the Fort Myers Daily Palm Leaf and the Sanford Times. While it was in type but before it was printed somebody told us the Times didn't suspend, so we cut it off. Then the Palm Leaf came a life twice a day and once Sunday.

Now we are called down from Sanford by the Herald which says our first information was correct about the Times. It is dead, says the Herald. As the Times was never on our exchange list we could not know positively.—Leesburg Commercial.

The Leesburg Commercial thinks that one of Florida's indoor sports is the game of "Palm Leaf" and "Sanford Times" which is a bank fail. A better indoor sport would be to convict someone every time a bank fails, if conditions warrant it.—DeLand News.

Complete The Road Gap

Completion of the unfinished portion of Seminole Boulevard lying within the city limits constitutes a problem that is one of the most vital confronting the city of Sanford today. The work of finishing this all-important link in the state highway is necessary to the future welfare and progress of Sanford. Without this stretch of road, Sanford would be minus one of its greatest assets and be deprived of realizing one of its life-long dreams—that of having a lakefront boulevard.

Seminole County along with other counties of this section has long fought for the improvement of State Road Three. Those of us who remember the almost untravelable road that used to lead to DeLand and points beyond can appreciate to the fullest extent the magnificent highway that has replaced the old road. Those who have lived here for years and have hoped that some day a more modern highway might take the place of the antiquated brick road that now serves us from the south, are immeasurably pleased with the new road which will soon be opened.

All of these things have come to us after a long period of hard work and patient waiting. Now with the State Road Department having fulfilled its promise to give us a good road, we are confronted with the situation of being unable to capitalize on what we have wanted for these many years. Here we have a fine highway from Jacksonville to the city limits on the west side and an excellent road from the south that terminates at a 8,000-foot gap which lies within the city limits. The question is are we going to permit that strip of road to remain unfinished or are we going to complete it and link the two stretches of state highway?

With the fill work that has been finished by the county and the hard surfacing which the state has done on the completed portion between Lake Monroe bridge and the old city limits, there has already been invested in the lakefront drive approximately \$300,000. If the remaining strip of land is not completed, this large sum of money has been expended for nothing and Sanford and Seminole County will still be without the benefits from an important improvement.

It has been estimated that the cost of completing the fill and the additional hard surfacing would be between \$60,000 and \$100,000. While this seems like an extremely large sum in these days of retrenchment, it is small in comparison with the results that would follow its expenditure. The Herald is fully aware of the fact that the city's cramped financial condition will not permit raising money for this purpose, but we believe that there are other ways that the situation might be handled successfully. With this in mind, The Herald believes that no time should be lost in securing the necessary funds to insure the early completion of the road.

"Scotch The Arsonist"

A bitter but effective arraignment of those who commit arson is contained in a recent issue of the publication "Safeguarding America Against Fire." The crime is described as one of the most dastardly and one which has gained some headway in America. In an effort to warn the public against such law violators, the magazine issues a scathing attack on arsonists as follows:

"Nothing gives him pause. The man who stoops to torch would stoop, without hesitation, to murder of the foulest kind. Nero, who fired Rome, also assassinated his own mother—and so, indeed, would the arsonist of today, if such an unspeakable deed would further his dark ends.

"It is not possible to paint too blackly the crime of arson. In the English language, ample though it is, there are not adjectives vile enough to characterize as he deserves the willful and malicious burner.

"And he is as cowardly, as craven, as his deed is foul. Desperadoes there were in the vanished days of the west, who robbed and plundered and killed—the James boys, for instance, and Tracy of Oregon. They stopped at nothing else, but they stopped at arson. There they drew the line. They did not shoot women and children, and they did not burn.

"The incendiary, slinking cat-eyed, shunning daylight, is a creature such as even the 'bad men' of yesterday would have recoiled from, deeming him unfit for their society. How much more, then, should he be condemned by every decent, right-thinking, law-abiding American!

"For the arsonist is crafty without being clever, cruel without being courageous, evil without possessing a single redeeming quality to plead for him at the bar of public opinion. Since pity, or any of the finer human attributes, is foreign to his nature, so—always within due process of law—must pity be absent from his treatment when he is caught and brought to justice. He must be scotched like the snake he emulates."

SHE STOOPS TO CONQUER

"Better to bend than break" remarked the Chicago traffic authorities, borrowing a line from Chaucer. And they devised a new kind of rubber posts, to support auto signs—posts which, hit by a car, bend flat down, no level with the pavement, but invariably fly back again, to the perpendicular, the minute the vehicle's weight is removed from them. This recalls the circumstances that, some time ago, an inventive genius sought to put on the market a railroad crossing gate consisting of a tremendously strong loop of piano wire, which, descending as a train approached, anchored itself across the highway around two opposite steel posts, set in reinforced concrete—as easy to unhook as one of the pyramids, and mighty little easier. The theory was that an auto, dashing full speed into the wire, probably would bend it into the form of a semicircle, but inevitably would be hurled back with terrific velocity, as a lad throws a stone from a rubber sling, only to land perhaps half a mile to the rearward, presumably with its engine still running, try it again, meet with another result, and keep at it until gradually it ran down, like a clock, and came to a standstill. The inventor was of the opinion that one of these experiences would be enough for any average motorist. So far as appears, this type of crossing gate never was adopted, but Chicago's new pattern of signposts are not dissimilar in principle.

"LAVENGRO" UPHOLDS "CAL"

At last President Coolidge has been fully vindicated in his use of the word "choose" in his famous statement to the press when he declined to run again as presidential candidate, Frank H. Viztelly, one of the leading authorities on philology in this country, editor of the Standard Dictionary, revising editor of the Columbian Cyclopaedia in forty volumes and editor of the "Lexicographer's Easy Chair" in the Literary Digest, in a letter to the New York Times, says of the use of "choose": "Oh me, the word choose! I may neither choose whom I would, nor fuse whom I dislike," so wrote Shakespeare in the Merchant of Venice, Act I, scene 2, in the year of Our Lord 1597, and he joggled with the word throughout his plays. "I will not choose what many men desire" it occurs in the merchant of Venice. "I can not choose, but pity

As Brisbane Sees It

LOYD GEORGE, WHOSE weekly articles all intelligent people should read, says that in England is not as cocksure as it was. "Its jauntiness has disappeared" and with its "intolerance." He adds that "the temperature of socialists gatherings is very considerably re-geared."

Lloyd George says labor is beginning to realize that the world cannot be reconstructed by phrases, and that for the building of the "city of God upon a hill" you must have plans and specifications.

That is true, as many sorrowing reformers can testify. But, on the other hand, to "build the city of God upon a hill," you must first determine that you will build that city. An enthusiast must fight for the idea, long before the plans and specifications are made in detail, and before the foundations are laid.

BLAKE, BEFORE HE died in a miserable dark room, laughed at as "half mad," wrote: "Give me my bow of burning gold Give me my arrows of desire, Give me my spear, oh stars unfold Give me my chariot of fire. I will not rest from mortal flight Or let my sword rust in my hand 'Til I have built Jerusalem, In England's green and pleasant land."

The laugh at Blake no longer. He never built his "Jerusalem in England's green and pleasant land," but he made men think.

NEWTON HAD ALMOST finished mathematical calculations that were to prove gravitation; his emotion was so great that he was unable to continue. An assistant finished the calculations for him. Henry Ford probably could sympathize with Newton last week, when his first complete car—body, engine, wheels, paint and all—came off the line, with Ford and his son Edsel looking on. The car was taken to Henry Ford's museum and put beside the fifteenth million Ford of the old type.

TO TURN BACK on fifteen million children that have earned for you fifteen hundred million dollars, and start an entirely new family takes courage. Edison, who says that young men do read work, because they have "greater energy and will to work," will probably make an exception of his friend Henry Ford.

THE NEW CAR, absolutely different from the old Ford model, makes 50 miles an hour easily, according to a description of the New York Times, 60 miles if desired. Ford has increased his production capacity so that he can turn out 11,000 of the new cars every day, more than three million a year. The maximum of the old car was 8,000 a day.

Sixty thousand cars are needed as samples for the Ford agencies alone, and 375,000 have already been ordered and a down payment made before the cars are ready.

FORTY FLORIDA newspapers combined to publish, every two weeks, a special supplement, called "the farm grove section." It will supply people in and out of the state with full information about Florida's agricultural resources and the way to develop them. Mr. Frank R. Hammett, of Jacksonville, will have charge of this useful work.

WEALTH AND FERTILITY unlimited are in Florida's soil. The "tourists" will always be one of the great Florida crops, but Florida in a few years will look back with wonder to the day when the tourist was the "principal" crop of the state and its chief financial reliance.

Industries will be established and factories built throughout Florida as they are building now in California.

"OLD TOM," OF Pontypool, England's oldest working miner, says: "I am 77 years old, Man and boy, I have been at it 70 years. I started as door tender at 12 cents a day, and now I am blast firer at \$22.50 a week. The old miner is proud to have worked up, in 70 years, from 12 cents a day to a little more than \$100 a year—when he gets regular work."

EVERYTHING I HAVE accomplished in life I attribute to slaving, honest, hard work," says he. Millions of patient workers like "Old Tom" keep the world going. Making it possible for the highly prosperous to enjoy their foolishness. And possibly he is as happy as some in this country that have worked up to twenty-two million in 70 weeks, instead of working up to \$22.50 a week in 70 years.

"Old Tom" is vigorous at 77, has no nerves, no bootlegger, no worries about the stock ticket, no desire for anything he hasn't got. That is not far from happiness as happiness goes in this world. And he is strong and healthy.

United States. There is no higher authority anywhere on the ramifications of the English language than this learned lexicographer and philologist and when such as he comes to the rescue one can only conclude that, though Mr. Coolidge has his mouth but seldom for the purpose of talking, when he does say something it would seem that he has the best sanction there is for his choice of at least one of his words.

### Harry C. Walker's Birthday Party

Hubert Walker, 11  
Unusually jolly children's party given this season was that of Hubert Walker, 11, on Monday afternoon when Mrs. C. Walker entertained a party of small boys, honoring Hubert in celebration of his tenth birthday anniversary. The home was effectively decorated with orange and black, the colors of the approaching Halloween season. Centering the table was a large cake topped with tiny tapers. Surrounding this were numerous Halloween novelties at each place were cunnage and black miniature. The party was surmounted with tiny gifts.  
Games of all kinds were played in the afternoon, one of especial interest was the guessing game. The prize for this was won by Arthur Lee Weinberg. At hour refreshments of ice cream and cake were served by the hostess.

Little lads enjoying this occasion were Hubert Wal-Lawton Walker, Charles Charles Betts, Braxton Jack Morrison L. M. Tel-Billie Thigpen, Billie Zachry, Burham, Jack Vidlar, Arthur Weinberg, Walter Rivers Frederick Daiger.

## AT THE MILANE TODAY

"Lasses" White and the All Star Minstrels are underscored for their eighth annual appearance at the Milane Theatre Wednesday Oct. 26. Included in the forty burnt cork artists in the company is "Mobile" Ben McAtee who will appear in comedian roles opposite to "Lasses." This makes a certainty that there will be laughs a plenty in the All Star Show.

### Carroll Feels as Rip Van Winkle

After four months in the Atlantic penitentiary, serving a sentence for perjury following a party in which a chorus girl was said to have been exhibited in a bathtub, Earl Carroll has been paroled and is a free man. The producer of the "Vanities" said he "felt like Rip Van Winkle" emerging from his long sleep as he walked out of the gates at Atlanta. He is shown here with Mrs. Carroll shortly after his release.

### Lasses White Will Present Minstrels Here This Evening

A minstrel program without including a dance number would seem lacking and this was no doubt kept in sight by the incomparable "Lasses" when he was preparing the bill for the season. With "Jack Hayes, the company dance instructor he is said to have evolved a dance number, with songs styled "The Blackville Union Station" and in which will be involved not only the full corps of dancing experts but also the entire singing forces of the All Stars.  
This is credited as being considered by the critics in other cities as an outstanding high spot in a bill abounding in worth while numbers such as "See America First" with which the show opens, "Dixie Memories" a classy musical num-

### Mrs. Braxton Baggett Frank A. Lincoln, 78, Entertains At Bridge Party At Home in Fort Mellon Is Married In Boston

Reflecting the cordial hospitality of the hostess in every detail was the lovely luncheon and bridge party given Wednesday by Mrs. Braxton B. Baggett at her attractive home in Mayfair, when she entertained members of the Sans Souci and Young Matrons Bridge Club.

Marigolds, daisies, golden rod and liatris were combined and used in decorating the rooms where the had been arranged. Each small luncheon table was centered with a crystal basket filled with yellow daisies and sprigs of asparagus ferns. The color scheme of yellow and green was emphasized in every way both in the decorations and also the refreshments. Marking the places of the guests were quaint colonial girls wearing bouffant frocks of yellow and green. At 1 o'clock a delicious three-course luncheon was served by the hostess assisted by Mrs. Clyde Byrd. rounds of progressive bridge were enjoyed, and those having made highest score in their respective club were presented a pair of silver flamingoes.

Covers were laid for Mrs. Eugene Tittle, Mrs. Raymond G. Fox, Mrs. Emmet McCall, Mrs. Lee A. Conoley, Mrs. James A. Pittman, Grant Wilson, Mrs. Elwyn Moore of Tampa, Mrs. Alfred W. Lee Jr.

### SOCIAL DEPARTMENT GIVES LOVELY BRIDGE PARTY TUESDAY AFTERNOON

One of the loveliest of the fortnightly bridge parties given for the members of the Social Department of the Woman's Club, was that of Tuesday afternoon, when Mrs. Alfred W. Lee Jr., Mrs. Eugene Tittle and Mrs. George Harden were hostesses.

An attractive setting for this affair was arranged with tall pedestal baskets filled with golden rod, daisies and liatris. Other autumnal suggestions were also used with pleasing effect.

Scores for the interesting game of bridge were kept on tallies done in ghosts and other Halloween ideas and after the usual number of progressions had been played, scores were compared and the prize for top score, a pair of exquisite Italian pottery candlesticks was awarded Mrs. A. C. Fort. For having second highest score, Mrs. H. M. Rumbley received a flower basket also of Italian pottery.

At the tea hour, the bridge accessories were removed and the tables spread with hand made covers and refreshments consisting of apple salad, sandwiches and coffee were served by the hostesses assisted by Mrs. John W. Meisch Jr., Mrs. A. C. Fort, Mrs. W. Theodore Langley and Mrs. Charles Powell Jr.

Mrs. M. Martin who has been spending the summer at her summer hotel "The Martins" at Highland, N. C., arrived in Sanford Tuesday afternoon to spend the winter at her home "Martin Cottage" on Magnolia Avenue.

### REALTY BROKERS MINUS LICENSES WILL FACE FINE

#### Check On Delinquent Dealers Is Being Made By Florida Realty Commission And Is To Be Followed By Action

ORLANDO, Oct. 26.—(INS)—Real estate brokers and salesmen in Florida, who have not yet applied for renewal of their registration certificates which expired on Sept. 30, the end of the license year are operating in direct violation of the real estate license law, according to a statement given out from the executive offices of the Florida Real Estate Commission. The chairman of the commission, Walter W. Rose, in emphasizing the importance of immediate attention being given to the securing of current registration certificates by all brokers and salesmen, announces that a vigorous campaign against unregistered operators will be started within a short while and a close check-up made in each state, and those without current certificates will be subjected to the penalties provided in the law.

The new real estate license law as passed by the last legislature provides for the examination of applicants, this feature to be put in force as soon as practicable, according to Mr. Rose. Arrangements are being made to require the examination of every person whose application is filed later than October 31. Brokers will be required to pass a more rigid examination than salesmen, says Mr. Rose. The examination will be written and will relate to the provisions of chapter 12223; the ethics to be observed by brokers and salesmen; the execution of deeds, contracts and mortgages and applicant for brokers certificates will probably be asked questions concerning the appraisal of real estate.

Mr. Rose stated that while the examination will not be made difficult or technical, yet it will be sufficiently searching to eliminate those who do not have a proper conception of the obligations of those engaged in the real estate business, and of the scope of their duties. The commission hopes in the future to increase the standard required as the opportunities for acquiring knowledge of real estate practice becomes more extensive and better known.

### EUROPE PASSED ECONOMIC CRISIS, BANKER REPORTS

#### Cleveland Financier Returns From Trip Abroad And Says People Are Buying Better Than They Did 2 Years Ago

CLEVELAND, Oct. 26.—In the opinion of Colonel Leonard P. Ayres, vice-president of the Cleveland Trust Company, who has just returned from a tour abroad, Europe has passed its economic crisis.

"Conditions in Europe are decidedly better than they were in the winter of 1923-24," Colonel Ayres declared. "The people are buying now, whereas in 1924 you would see people look at goods, shake their heads and walk away, unable to meet the price."

Ayres was a delegate to the American Legion convention in Paris, and afterward became a member of the "Commanders' Tour," a group of Legion officers which was received officially by heads of several European governments.

"The one question asked me on every hand was 'What is the secret of American prosperity?'" Ayres said. "I replied that it was a fortunate circumstance that America possessed almost unexploited natural resources and a surplus of credit at the same time."

Ayres said he noticed a wide difference of opinion in New York banking circles regarding the future of the securities market.

"Some believe the bull market will predominate," he declared, "others feel that a bear market will soon be upon us. In all my experience I have never seen such conflicting views by men capable of perfectly good judgment. This probably explains the market's ability to recuperate immediately following reactions."

### WASHINGTON LETTER

WASHINGTON, Oct. 26.—Most informed persons in Washington expected that there would be an armed revolt in Mexico, but few thought it would develop so early. President Calles had so often and so insistently promised that he would keep his hands off the presidential campaign and allow a free election that the general belief was that military activities would be postponed until after General Serrano and Gomez saw how the election resulted.

Serrano and Gomez, however, apparently shared the general belief that Alvaro Obregon would be elected. Whether they had any hope of fair and free elections is difficult to decide from this distance, but it is likely that they would have been justified in such a belief because Obregon is such a popular hero in Mexico that strong-arm methods were not needed to elect him.

Friends of Mexico in this country were anxious to see the revolt put down and have supported the drastic tactics of Calles in executing many rebel leaders. If it should be proved that Calles deliberately provoked Serrano and Gomez into insurrection, their opinion doubtless would change, but it appears that Calles merely proved his strength and foresight and beat his enemies "to the draw."

If Calles had been captured he undoubtedly would have been treated the same way.

Although it is true that the Mexican people are not yet well known as civilization and that rebels are being killed off quicker than they would be in this country—perhaps there is every justification in Mexico now for the numerous recent executions.

The victims presumably are being shot down in accordance with the law of Maximilian, dated 1862, which provided that anyone should be shot who was taken, arms in hand, against the constituted government.

Emperor Maximilian himself had this law passed to enable him to deal with his Mexican enemies and he enforced it against many of the leaders in the warring faction led by the Mexican patriot, Benito Juarez.

Then, when Maximilian himself was captured, Juarez, who had been president and who claimed Maximilian's reign was illegal, invoked the law against the emperor, and Maximilian died before a firing squad because he had been taken "arms in hand against the constituted government."

Porfirio Diaz, during his long dictatorship, carried out the law with gusto. No one knows how many hundred or thousands of leaders and soldiers were shot.

### Anti-Volstead Body Continues Its Fight

WASHINGTON, Oct. 26, (INS)—Carrying its fight against the Volstead Law into every state, the National Association Against the Prohibition Amendment today reported expenditures of more than \$300,000 in the first eight months of the year.

The list of contributors, filed with William Tyler Page, clerk of the house, under the corrupt practices act, includes many names prominent in the nation's financial life.

During the eight months period ending Aug. 31, the association received \$206,119.00 and spent \$201,427.00, the report disclosed.

### Boxing Is Banned In South Carolina

COLUMBIA, S. C., Oct. 26.—Governor John Richards, South Carolina's famous "blue law" chief executive, now has outlawed prize fights within the boundaries of the state.

The Governor has instructed the sheriff in every one of the 46 counties of the state that they must stop any prize fight within their county.

Governor Richards stated that the South Carolina law clearly prohibited prize fights, and he had no other course than to enforce the provision.

"My feeling about this matter, whether I like prize fighting as a sport or not, has nothing to do with it," the Governor said.

### Rail Merger Plans Delayed Some Time

WASHINGTON, Oct. 26, (INS)—The ambitious plans of the Van Sweringen brothers, of Cleveland, to link up the Chesapeake & Ohio with the Erie and Pere Marquette F. Lore's various merger plans, probably will not be decided by the through stock ownership, and I. Interstate Commerce Commission for several months.

This was indicated today when a high authority in the commission declared there was no foundation or persistent rumors in Wall Street that the commission was preparing to issue a series of decision that would vitally affect the stock market.

### Britain Supports 4 Airplane Clubs

LONDON, Oct. 26.—To increase public interest in flying and advance private ownership of aeroplanes the British government has decided to grant \$10,000 a year to four different aeroplane clubs in England.

The light aeroplane movement is rapidly gaining popularity among the social elite of Britain, and strange to say there are more young women members than men, it started about two years ago and when the Government noticed how interested the public became in it, special arrangements were made to enable private ownership without a large output of money.

Interest of the public became in it, she is playing the part of Carmen, and has proved a great success. Miss Boardman had only played a few times in amateur performances.

### Girl Typist Finds She Is Opera Star

MANCHESTER, Oct. 26 (INS)—Straight from her typewriter, Miss Eliza Boardman, a Manchester stenographer, has gone to lay in grand opera under Sir Thomas Beecham.

She is playing the part of Carmen, and has proved a great success. Miss Boardman had only played a few times in amateur performances.

When Madear was elected president after the revolution he was asked to enforce the law to the extent of killing off a certain few of the reactionary leaders so that they might not be able to undo the good work of the revolution. Madear ignored this advice and pretty soon he himself was captured and killed, after which the Huerta dictatorship was set up.

Serrano and Gomez, however, apparently shared the general belief that Alvaro Obregon would be elected. Whether they had any hope of fair and free elections is difficult to decide from this distance, but it is likely that they would have been justified in such a belief because Obregon is such a popular hero in Mexico that strong-arm methods were not needed to elect him.

### BADLY RUN-DOWN

#### Kentucky Woman Had "Terrible Time" Doing Her Home Work. Strength Returned After She Took Cardui.

She, Oveido, Ky.—"Several years ago," says Mrs. Alven Jesse, of this place, "my health was very bad. I was very much run-down. I was in such a weak, nervous condition that I was not able to do my housework."

"I struggled to keep up, because I had to, but many a time I spent hours in bed, trying to force enough strength to go through the daily routine."

"This condition went on for some time until I heard about Cardui, which some one told me was good for such ailments. I gave it an immediate trial, and I am thankful to say, my improvement was rapid. I soon was able to do my housework with ease and comfort. I felt fine and I looked so much better."

"This spring I was not as well as I had been. I was ill in the winter with colds, which left me weak. So I sent at once to the store for Cardui and began taking it. In just a little while I was feeling much better, my strength returned and I was able to get my work done easier and with less effort."

### REALTY BROKERS MINUS LICENSES WILL FACE FINE

#### Check On Delinquent Dealers Is Being Made By Florida Realty Commission And Is To Be Followed By Action

ORLANDO, Oct. 26. (INS)—Real estate brokers and salesmen in Florida, who have not yet applied for renewal of their registration certificates which expired on Sept. 30, the end of the license year and operating in direct violation of the real estate license law, according to a statement given out from the executive offices of the Florida Real Estate Commission, the chairman of the commission, Walter W. Rose, in emphasizing the importance of immediate attention being given to the securing of current registration certificates, by all brokers and salesmen, announces that a vigorous campaign against unregistered operators will be started within a short while and a close check-up made in each state, and those without current certificates will be subjected to the penalties provided in the law.

The new real estate license law as passed by the last legislature provides for the examination of applicants, this feature to be put in force as soon as practicable, according to Mr. Rose. Arrangements are being made to require the examination of every person whose application is filed later than October 31. Brokers will be required to pass a more rigid examination than salesmen, says Mr. Rose. The examination will be written and will relate to the provisions of chapter 12223, the ethics to be observed by brokers and salesmen; the execution of deeds, contracts and mortgages and applicant for brokers certificates will probably be asked questions concerning the appraisal of real estate.

Mr. Rose stated that while the examination will not be made difficult or technical, yet it will be sufficiently searching to eliminate those who do not have a proper conception of the obligations of those engaged in the real estate business, and of the scope of their duties. The commission hopes in the future to increase the standard required as the opportunities for acquiring knowledge of real estate practice becomes more extensive and better known.

### WASHINGTON LETTER

WASHINGTON, Oct. 26.—Most informed persons in Washington expected that there would be an armed revolt in Mexico, but few thought it would develop so early. President Calles had so often and so insistently promised that he would keep his hands off the presidential campaign and allow a free election that the general belief was that military activities would be postponed until after General Serrano and Gomez saw how the election resulted.

Serrano and Gomez, however, apparently shared the general belief that Alvaro Obregon would be elected. Whether they had any hope of fair and free elections is difficult to decide from this distance, but it is likely that they would have been justified in such a belief because Obregon is such a popular hero in Mexico that strong-arm methods were not needed to elect him.

Friends of Mexico in this country were anxious to see the revolt put down and have supported the drastic tactics of Calles in executing many rebel leaders. If it should be proved that Calles deliberately provoked Serrano and Gomez into insurrection, their opinion doubtless would change, but it appears that Calles merely proved his strength and foresight and beat his enemies to the draw.

If Calles had been captured he undoubtedly would have been treated the same way.

Although it is true that the Mexican people are not yet well known as civilization and that rebels are being killed off quicker than they would be in this country—perhaps there is every justification in Mexico law for the numerous recent executions.

The victims presumably are being shot down in accordance with the law of Maximilian, dated 1862, which provided that anyone should be shot who was taken, arms in hand, against the constituted government.

Emperor Maximilian himself had this law passed to enable him to deal with his Mexican enemies and he enforced it against many of the leaders in the warring faction led by the Mexican patriot, Benito Juarez.

Then, when Maximilian himself was captured, Juarez, who had been president and who claimed Maximilian's reign was illegal, invoked the law against the emperor, and Maximilian died before a firing squad because he had been taken "arms in hand against the constituted government."

Porfirio Diaz, during his long dictatorship, carried out the law with gusto. No one knows how many hundred or thousands of leaders and soldiers were shot.

### Boxing Is Banned In South Carolina

COLUMBIA, S. C., Oct. 26.—Governor John Richards, South Carolina's famous "blue law" chief executive, now has outlawed prize fights within the boundaries of the state.

When Madero was elected president after the revolution he was asked to enforce the law to the extent of killing off a certain few of the reactionary leaders so that they might not be able to undo the good work of the revolution. ### BADLY RUN-DOWN

#### Kentucky Woman Had "Terrible Time" Doing Her Home Work. Strength Returned After She Took Cardui.

Sheepville, Ky.—"Several years ago," says Mrs. Alvon Jesse, of this place, "my health was very bad. I was very much run-down. I was in such a weak, nervous condition that I was not able to do my housework."

"I struggled to keep up, because I had to, but many a time I spent hours in bed, trying to force enough strength to go through the daily routine."

"This condition went on for some time, until I heard about Cardui, which some one told me was good for such ailments. I gave it an immediate trial, and, I am thankful to say, my improvement was rapid. I soon was able to do my housework with ease and comfort. I felt fine and I looked so much better."

"This spring I was not as well as I had been. I was ill in the winter with colds, which left me weak. So I sent at once to the store for Cardui and began taking it. In just a little while I was feeling much better, my strength returned and I was able to get my work done easier and with less effort."
