

Blues Will Hold Reorganizational Meeting Tonight

7th Graders Edge Grammar School, 13-9, In Tourney Opener

Walter Shannon Of Cardinals Will Be Here Saturday To Consume Deal

By KENT CHETLIAN
Directors and stockholders of the Remington Blues will hold a re-organizational meeting tonight to appropriate the assets of Wal-ter Shannon, St. Louis Cardinal farm representative, who is slated to arrive here Saturday to sign a working agreement with the San-ford club for 1953.

The Blue officials will meet in the studios of WTRH at 8:00 p.m. this evening to form a new

Denver Cordell A. E. Yowell board of directors, considering expanding the board from five to seven active members, and discuss the sale of more stock in the team. Blue President John P. Smith said:

In announcing the meeting yes-terday, Callahan reported that Cardinal farm director Joe Mathes had just written to the club in-forming them that since both par-ties were in agreement with the working agreement terms offered by the St. Louis club one week ago, the Cardinals would let Shanon complete the deal.

The Card representative is due

in the Celery City on Saturday to make final arrangements, conclude last minute details and submit the working accord for the necessary signatures.

The Blue-Cardinal pact calls for St. Louis to furnish a complete and final payroll monthly up-to-date and with retaining the players at Albany, Ga., to the Car-dinal farm loan training camp.

The Blues will be directly con-nected with Columbus of the Cle-A-Bus League and players will be shifted between the two clubs. Besides electing a new board of directors, the Seminoles club will consider selling their 30 remaining shares of stock under the 50 limit of non-subsidiary cor-poration limit. Currently, 12 shares are held by the directors and seven other stockholders.

Ticket sales will be reported and discussion of player sales will al-so be considered, Callahan stated.

"We also must form a committee to discuss with the routine work which I planned immediately hand," he added.

The present board of directors consists of President Callahan Vice President J. C. Davis, W. G. Kilke, and City Commissioner Denver Cordell. The seven other stockholders are H. B. Price, Al Lee, H. H. Coleman, M. L. Robins, G. G. Krohn, T. S. Crowley, and Zeb Ratliff.

Title Play Begins

In Mixed Two - Ball

ORLANDO, Fla., Jan. 10

Championship play began today in the national Mixed Two-Ball golf tour-na-tion, with two amateur teams of professionals and a pair of young amateurs shooting off a tie for medalist honors.

Mike Zaharias and George Boles,

Patty Berg and Pete Conner

the pros, and Mary Lena Faulk

and Dan Morrison, the amatuers, shot 64-64 Tuesday with three

holes to go.

Boles, trying to break the tie by

registering their best-round cards

today, while Berg continues

her bid for a second consecutive

title.

Mr. Zaharias, who shared the

hole 18, 100 feet, at 100 yards

from the green, was the first

to register his 64.

Miss Faulk, the first to register

her 64, was the second to do so.

Boles, who registered his 64

on the hole 18, 100 feet, from the

green, was the third to do so.

Conner, who registered his 64

on the hole 18, 100 feet, from the

green, was the fourth to do so.

Conner, who registered his 64

on the hole 18, 100 feet, from the

green, was the fifth to do so.

Conner, who registered his 64

on the hole 18, 100 feet, from the

green, was the sixth to do so.

Conner, who registered his 64

on the hole 18, 100 feet, from the

green, was the seventh to do so.

Tug Rushes Aid To Yacht In Distress In Bahama Waters

Ten Persons Including 3 Little Girls Reported On Board Stricken 83-Footer

MIAMI, Fla. (AP) — An 83-foot American yacht with 10 persons aboard, including three little girls, was reported aground and in distress off Nassau, Bahamas, today.

A rescue tug was rushing to her assistance from Nassau.

The Coast Guard identified the yacht as the "Caitlin," owned by Lawrence J. Holland, Jr., New York.

A radio message reported the yacht was "taking quite a beating and we expect to have to abandon ship."

The "Caitlin" was aground on Frasers Hog Key in the Berry Island group about 30 miles north west of Nassau. Easterly winds were high and seas were rough and many seas were breaking over the deck.

The yacht left Miami Feb. 4 for a month's cruise in the Bahamas and a visit to Jamaica.

Aboard her were Newton H. Crowley, 42, Elmo, New York, wife Frances, Fr. Crowley, 39, and their three daughters, Janice Lee, 12; Linda Jean, 10, and Peggy Fran

cie and Goldie.

Immigration authorities listed crew members as Thomas Malone, Nassau; Alfredo DaCosta, Miami and John Charles Dennis, Las Gatos, Calif.

The yacht, a recommissioned Coast Guard cutter, was en route to Miami's Atlantic Yacht Show.

Authorities at Nassau were alerted immediately. Efforts to reach the yacht by radio from Nassau were not successful.

The tug Nassau was sent to the area to search for the "Caitlin." No Harbor Master R. A. Russell.

Authorities said it was possible the yacht's engine room might have been flooded, preventing further radio communication.

Naval Planes Join Search For Missing Fisherman In Lake

Naval planes from the Sanford Naval Auxiliary Air Station joined in the continuing search for John E. Hendricks, 33, a sailor missing conservatively who disappeared Tuesday while setting fish traps on Lake Mills, near Chalfont, Sherriff C. L. Hobby reported, after noon today.

This morning planes from the Sanford Air Station combed the 400 acre lake from the air, without a sign of the missing Orlando employee of the U.S. Department of Agriculture.

The continuing search reached its 10th day this noon without a single trace of Hendricks, a nephew of former U.S. Congressman "Little Joe" Hendricks, of Defuniak, Sherriff Hobby said.

The Seminole County Sheriff is holding up the joint search because he fears that if it might take a week before they can find Hendricks.

"The trouble is that we don't know where the boy went down," Hobby explained. "We may have to drag every inch of the lake. He has might rise to the surface again."

Hendricks was believed to have drowned when he plunged his flat boat into a hole in Lake Mills about noon Tuesday and was last seen by Mr. and Mrs. Homer Hobbs, residents of the "Hobbs" Ranch where the missing man launched his boat as he left for Orlando.

Hendricks lived with his wife and two children, Allen and Alice, at 2109 Valencia Rd., Orlando.

Court Must Decide Turret, Bridge Issue

TALLAHASSEE (AP) — Approval of a proposed 18 million dollar bond issue to finance a system of bridges and tunnels in Broward County now is up to the State Supreme Court.

State attorneys from Broward and Leon counties Wednesday filed an appeal from an order of Leon County Judge Edward Taylor upholding the bond issue.

The major question is whether the Broward County Commission had authority to pledge its share of surplus gasoline taxes to add to totals received in the future from the bridges and tunnels to pay off the debt.

Seminole Schools To Get \$135,000 Milwee Tells JC's

State Board Rules Out 2nd Survey; OKs Local Plan

The State Board of Education approved the Seminole County School Board's school building plan for an initial expenditure of \$135,000 for construction and improvements this year, Bayboro T. Milwee, superintendent of public instruction, revealed today at the June meeting of Commerce Committee of the Yacht Club.

"After presenting our needs and

plans to the State Board of Education during our recent trip to Tallahassee," Mr. Milwee said, "they readily agreed that the original survey of the county in 1947 was outmoded and then fully agreed with our plans to expand and improve our schools at Oviedo, Okahumpka and Goldsboro."

In approving our plans for school improvements in critical areas, they decided to dispense with the idea of another survey of the entire county.

Under the state Board of Education's all-inclusive system of financing, State funds for individual county construction for overcrowded classrooms, Seminole County is entitled to \$135,000 from this fund, Mr. Milwee pointed out.

He then proceeded to outline the initial building plans for this year to be constructed with \$135,000 State allocation.

"Because of the increasing growth of the Lyman school district," he added, "the State approved our plans to spend \$30,000 building four additional rooms on the Lyman school that houses students from the first through the 12th grades."

Payroll Padding Added Millions To Airbase Cost

Probing Senators Unearth Racketeering On Huge Scale

WASHINGTON (AP)—Senators reported today that "payroll padding" by racketeers and local politicians at a New Jersey waterfront added millions of dollars to this nation's airbase building program in North Africa.

The organization of racketeers recently incorporated in the state of Florida, certain Senate committees have been apprised by the Florida Securities Commission that they would be issued, and since the state legislature last year passed the law of 1948 making it illegal that there were technically no stockholders to conduct business or obtain information or investment.

"The colored children are present found to attend one or more classes in the same room with other classes taught by other teachers," he said.

Under this initial building program, the Goldsboro primary school would be enlarged with the construction of several buildings at a cost of \$30,000.

Mr. Milwee added that the State School Board would send some representatives next month and that another delegation would come in September to approve further construction plans of the county school board, which would come under the new school amendment.

THURSDAY FEB. 19, 1955

Contribute to the USO. Help
the duty of service men here
a pleasant one.

One of those things that is going
around points out that in 1942 we
had "Nothing to fear but fear it-
self". In 1940 we had nothing to
fear but Hitler, and in 1950 nothing
to fear but Stalin. Now, ac-
cording to this thing, we "have
nothing to fear but the fear that
the Republicans won't give us less
to fear than the Democrats did".

Governor Stevenson, defeated
candidate for President, and Presi-
dent Eisenhower, who defeated him,
sat down at the White House
luncheon table the other day and
talked about the Governor's pin-
pointed world tour for which Presi-
dent Eisenhower promised every
possible assistance. Where else in
the world could the leaders of the
two principal opposing political
factions have a luncheon together
without suffering indigestion?

City and County officials have
closed down 10 concessions on the
midway of the Florida Citrus Ex-
position in Winter Haven. The
border line cases were left alone
but only the outright gyp outfits
were affected, the police chief re-
ported. The strange thing to us is
that these gyp outfits are a peren-
nial plague that continues to milk
the public year after year without
anyone seeming to get wise.

President Eisenhower says he is
against any tax cuts until the bud-
get is balanced, and therefore will
make a lot of people sore. Too
many people don't care whether
the budget is balanced or not, in
fact don't even know what that
means, or care. But they do know
what taxes are and they don't like
to pay them. The sad part about it
is that an unbalanced budget itself
is the worst kind of a tax collector
as it levies its toll to the greatest
extent on those who can least afford to pay.

It seems that reporters covering
the Muot Jelke vice trial in New
York are now being trailed by de-
tectives in an endeavor to find out
how news leaks out of the court-
room. The mistake the court made
was in barring newsmen in the first
place. Not only did this action of
the court help to focus attention
on the trial out of proportion to
its real importance but it made ac-
curate reporting of what took place
virtually impossible. Instead of fact-
ful accounts we now get biased
and conflicting stories from op-
posing attorneys.

Before we become too critical of
the lavish apartments with maids
quarters provided State Depart-
ment personnel in West Germany,
let us consider well how we would
like to take their place. The gov-
ernment does not find it easy obtain-
ing competent men to represent
this nation in foreign countries.
There is something about America
which makes Americans want to
remain here. It would be a sad
thing for the government if the
quarters provided its personnel
overseas were so inferior it could
find no one to live in them.

Prime Minister Nehru of India is
disturbed by what President Eisen-
hower said in his State of the
Union message and tells the Indian
Parliament: "A soldier is a very
fine person in his own domain, but
this intrusion of the military men-
tality into the character of the
world presents a very great danger."
Well, Mr. Wilson was pres-
ident in 1917 and Mr. Roosevelt
was president in 1941 and Mr.
Truman was on deck when the
Korean War began and none of these
men had a military background.
Somehow, we have a hard time
thinking of a military mentality
when what we need is precisely
the civilian mentality and not
the military mentality.

A Song Regained

Not all of the scars or wounds a man carries away from
a battle are visible. Some of the damage of war is reflected
only in the hearts and the minds of the men who have seen
death face to face, have seen good comrades die and will
never forget the sight. These wounds often take longer to
heal than the ones for which the Purple Heart is awarded.

A story from an evacuation hospital in Korea tells of a
soldier who bore such scars. He was Pvt. Cecil Talley, 24
years old, from Riviera Beach, Florida. Talley was a happy
young man before he went to Korea. He had a good voice
and he was always glad to sing at parties for his friends.
They called him "Lucky."

At the front in Korea, Talley grew morose. He vowed to
his friends that he would never sing again. He had looked at
the insanity of a world at war and he said singing "just
doesn't fit any more." Anyone who can imagine the hell of a
battlefield can understand why he felt as he did. Men can
sing for joy, even for sadness. But there can be no singing
where there is no hope and it is hard to look at a war and
think on to peace.

But back at the evacuation hospital on Valentine's Day
hope came back to the young man. It came back to him as he
looked at the faces of his wounded comrades who, somehow,
never seemed to have lost it. For their entertainment he
sang and the homesick patients applauded. "I feel like the
luckiest guy in the world," he said.

Anyone who has lost hope and found it again is lucky
indeed.

Lawmaking Women

Are women crowding the men out of state legislature?
While there is no immediate sign of this, their number is
increasing. There are now 285 women, 40 more than the previous
record, in 41 state legislatures. Alabama, Nebraska,
Oklahoma and Virginia are the four states with all-male
legislatures. In Vermont a woman is Speaker of the House
of Representatives, the second to hold that post in any state.
Her predecessor served in North Dakota in the '30's.

Women could improve the state lawmaking bodies considerably.
They are for the most part diligent, unobtrusive
like bodies who shirk action on bills that might make
enemies. A woman's direct approach is a quality much
needed.

Surgical Hall Of Fame

The sports world has gone in extensively for Halls of
Fame. Now the idea is spreading to the professions. Children's
headquarters of the International College of Surgeons
is to be the home of a world-wide Surgeons' Hall of Fame.
This is announced by Dr. Max Thorek of Chicago, founder
and secretary general of the college, who suggested the project.
The board of trustees has voted to go ahead with it.

Such an institution would be educational. It is well for
laymen to know something of the history of a profession as
useful as that of medicine, and the great figures connected
with it. Other branches of medicine, as well as other profes-
sions, might well follow suit.

Bolita Racket Is
Described As Big
Money Operation

MIAMI (AP)—The Givens Crime
Commission told the Miami City
Commission Wednesday that the
bolita (numbers) racket "prob-
ably" is close to a five million dol-
lar a year business and that no
ordinances are not being prop-
osed.

The committee made a 10-page
report in which it said City Man-
ager E. A. Evans should provide
strong leadership to correct the
violations.

There are 19 licensed bolita op-
erators in Dade County with 148
agents or salesmen, the commit-
tee said.

"The 19 operators reported to
the federal government that in the
18-month period ending Sept. 30,
1953, they had accepted wagers
amounting to \$2,193,334," the re-
port said, adding:

"The evidence before the Com-
mittee indicated, however, that
the actual volume of business done
in Dade County was probably
twice as much as the volume re-
ported."

The Committee, headed by Com-
missioner Robert H. Givens Jr.,
and including Mayor Chelsie J.
Senerchia and Commissioner William
M. Wolforth, said it found:
"Laxness, indifference and in-
efficiency in the performance of
certain key members of the law
enforcement team."

"A woeful lack of co-ordination
between the police department,

THE WORLD TODAY

By JAMES M. ACHESON

WASHINGTON (AP) — President
Eisenhower and Secretary of State
Dulles have now taken their
plunges into the chilly, and some-
times tempestuous, pool called the
Washington news conference.

They swam around all right, kept
their heads above water, and neither
seemed to be breathing hard
when the dip was over. Eisenhower
held his first conference since tak-
ing office on Tuesday. Dulles held
his yesterday.

The two men did not handle
their conferences in exactly the
same way. Both had one thing in
common. Neither produced any
new sensations.

Eisenhower's conference lasted
30 minutes. He used up more than
half that time himself, making
statements. In the time that was
left he answered questions. When
the half hour was up he broke
off the conference.

Dulles' conference also lasted
about 30 minutes. He submitted no
general statement but submitted
once to questioning. Instead of end-
ing the conference himself he let
the newsmen do it.

Former President Truman, be-
cause of his years in the Senate
before becoming president, knew
more when he entered the White
House than the incoming members
of the government as a whole did.
Nevertheless, Eisenhower made
no bubbles. He answered questions
with some rapidity, at no time
digging behind the "no comment"
with which he started. Washington
is a method for not answering ques-
tions, and once when he felt un-
sure of the answer he said he would
provide it later.

Truman, despite his broader
government background in the be-
ginning, had a tendency sometimes
to answer questions so fast that he
made mistakes which later had
to be corrected.

After he had been scorched that
way several times Truman became
more cautious although he retained
the end his habit of firing rapid
answers.

Truman was always accompa-
nied at news conferences at least
by his press aides and frequently
probably most of the time had
scattered around him, as he faced
reporters, other White House as-
sistants or government officials.

Eisenhower came into his first
news conference with only his two
press aides, who sat some feet
away from him. They were not
asked for and did not volunteer
any help on answers.

Sometimes, as Eisenhower did
yesterday, Truman began his news
conferences with a prepared state-
ment. Eisenhower started off with
a brief speech of notes in front of
him. He referred to them as he
made his statements.

He didn't bother with them later
when the regular questioning
started. Like Dulles, but unlike
Eisenhower, Truman let the news-
men do the questioning when they
had a question or thought they
had an answer.

Dulles walked into his first news
conference as secretary without
any notes. In this he was unlike
his predecessor, Dean Acheson,
who always walked in with pre-

pared notes in a black book.
Acheson was almost always an
accomplished player, his knowledge
of international politics, both in the
State Department fixtures, was
almost always handled him
himself carefully. Dulles was care-
fully yesterday. Both men answer
questions fairly rapidly, in the
sense that they don't have to
search for answers. Neither, how-
ever, talks fast.

Because of the nature of the
secretaryship, Acheson and Dulles
had to hold many news con-
ferences in the same day. Acheson
represented the State Department
before him, Dulles had had long
experience in the State Depart-
ment before becoming secretary.

Permanent Place For Bryan Statue Poses Difficulty

LINCOLN, Neb., Feb. 10—Nebrascans proudly grant a permanent place in history to William Jennings Bryan, but the question of a permanent place for his statue has them in a tizzy.

A bronze likeness of the Great Commoner, a Nebraska lawyer who became a presidential candidate and a Cabinet member, now looks northward from the front steps of Nebraska's State Capitol.

But a lot of people say it doesn't belong there. They can't agree where it should go.

There have been charges that things would be different if Bryan were not a Democratic political hero in what today is a Republican state.

Republicans sharply deny it.

Though no one really wants to do so, the real trouble may be simply that civic statuary is going out of date.

The Bryan Memorial Commission, of which Bryan's sister, Mrs. T. S. Allen, is a member, says the complaints it hears are that the statue "conflicts with the architectural style and symmetry of our famous capital."

Former Gov. Val Peterson suggested the statue go to the new Historical Building being built down the street from the Capitol. Sorry, said James E. Lawrence, president of the State Historical Society, but there is no suitable place there for Bryan's likeness or any other statutory.

The Legislature thought it had come up with a solution of its own when it passed a law last week giving itself sole power to move Capitol-bound memorials. But the law doesn't go into effect for 90 days.

Meanwhile, it has been proposed in the Legislature that the statue be moved from the front of the Capitol around to the side or back.

Yesterday, a resolution to that effect was referred to a special legislative committee which, in the end, may have the final word on where the statue goes.

Civil Rights

(Continued From Page One) City." Powell declared. "It may be that somebody in the top brass of the police department is getting paid off."

Those who first aired the accusations in a House speech, told reporters the agreement was made by New York's Police Commissioner George P. Monaghan and his chief aides with Justice Department officials last July.

Powell said Monaghan came to Washington last Monday "to get the attorney general to renew the appointment," but failed to see Atty. Gen. Brown.

In New York, Monaghan denied the FBI ever agreed to ignore charges of police brutality. The FBI had no comment.

Powell, one of the two Negro members of the House said:

"The whole thing is a conspiracy of the police commissioner of New York City to defraud the FBI."

The same charges can be verified by testimony of Mr. Edward Hoover director of the FBI or his assistant, Lou Nichols.

Rep. Keating, R-N.Y., chairman of the committee investigating the Justice Department, said he viewed the charges as "very serious."

Keating said he was told that James M. McNamee, then as assistant attorney general in charge of the criminal division, issued a memorandum last summer to the effect that FBI agents would not be permitted to question police regarding civil rights violations.

"The administration of justice should not be on a geographical basis," said Keating.

Legal Notice

IN COURT OF THE COUNTY JUDGE, SEMINOLE COUNTY, STATE OF FLORIDA, IN PROBATE, IN THE ESTATE OF ANNA GUSTAVIA LINDBERG,

Deceased.
TO ALL WHOM IT MAY CONCERN:
Notice is hereby given that Gordon Branson filed his final report as Administrator CTA of the estate of Anna Gustavia Lindberg deceased; that he filed his petition for final discharge, and that he will file his final account on the 1st day of February, 1953.

LAR STENSTROM, County Judge of Seminole County, Florida, on the 2nd day of January, 1953, granted approval of same and for final discharge, as Administrator CTA, of the estate of Anna Gustavia Lindberg, deceased, on the 1st day of January, 1953.

Southwest Is Hit By Dust, Snow Storms

By Associated Press

Dust and snow storms whipped across southwest and western states today with the dust storms threatening heavy damage to the nation's winter wheat crop in sections of Kansas, Oklahoma and Texas.

A major storm area, centered in eastern Colorado, caused the third major dust storm in the last 10 days in the three states which supply most of the nation's wheat.

Strong southerly winds, with gusts up to 50 miles an hour, swirled over the wheatlands yesterday. Visibility was reduced to a few miles areas.

North and west of the storm center, snow fell in Colorado, western South Dakota and most of Wyoming. Snow flurries continued in the northern Great Lakes and in the Northeastern section of the country. Rain fell from eastern parts of Texas northward into Southern Missouri.

Warm air continued moving up the Mississippi Valley through most of Illinois.

Airmen Escape From Burning B-36 Bomber

BOSWELL, N. M., Feb. Twenty-two airmen escaped unharmed when a B-36 caught fire near the end of its landing roll shortly before midnight and burned to the ground.

A spokesman for Walker Air Force Base said all the engines of the giant six-engined bomber, which had been on a routine flight, had stopped when the plane was about 100 feet above the ground.

The crew jumped to the ground as the flames spread to the rest of the plane.

Organization

(Continued From Page One) committee of Stanford Industries, Inc., which included Ralph T. Cowan, chairman; W. C. Hutchinson, Jr. and Herman Jacobson. This committee will also serve in a temporary capacity.

Upon his election as temporary president, Mr. Cowan appointed three committees to be known as Welcoming Committee, Welcoming Committee, and Prospect Committee. The appointments were approved by the board of directors to serve in a temporary capacity.

D. K. McNabb, manager, Sanford Credit Association, was appointed chairman of the Screening Committee with other members being Andrew L. Varnado, manager of Caron's Insurance Agency; Roy Mann, vice-president of the Sanford Atlantic National Bank; W. J. Penick, Jr., cashier, Florida State Bank; and Ralph Smith, treasurer of Chase & Co. and Gordon Frederick, attorney. It will be the duty of this committee to analyze all applications for admission to the school.

The screening committee, "Nestor," is reported carrying 5,000 tons of aviation fuel jet fuel picked up at the Romanian oil port of Constanta on the Black Sea.

The vessel is reportedly chartered by the same company which tried to move another tanker, the "Wilma," from Romania with 7,000 tons of jet fuel bound for Communist China.

Lyman Rips St. James, 49-39, In CFC Tourney Opener

Callahan Is Re-Elected President In Seminole Blue Shakeup

Shirley Jones Hits For 17 Points But Lion Girls Lose To Clermont By 2

MOUNT DORA (Special) Lyman High School's scrappy little quintet, picked as a dark horse entry, defeated the St. James Panthers five for the fourth time this year, 49-39, in the opening game of the Central Florida Conference basketball tournament here yesterday afternoon.

Meanwhile, the Orlando girls fought a seesaw struggle before losing to their Clermont counterparts by a close 30-28 margin.

Jim Payne — **Charlie Shaw**
Coach Jim Payne's Longwood quintet commenced the tournament in its typically "sleeker" fashion by soundly taking the measure of the Jays of Orlando. It was the last swishing out-shot of Dan Hopkins, who netted 16 markers, that spearheaded the Lyman victory.

Charlie Shaw, second high scorer for Lyman this season and third ranking in Seminole County, was second high point maker with 13 while Jimmy Newman contributed 11 more to the victorious Lyman team.

Bob Taylor, deft Panther one-hander, however, was the game's high scorer with 18 tallies. Despite the two-man guarding tactics employed by the Panthers on Bobby Driskill, Lyman's leading scorer and second high pointman in Seminole County, it was he who was eliminated from the tournament. Driskill, however, was dynamited to only four points.

St. James started fast grabing a 12-10 first period lead, but Lyman soon poured on the steam and the Paymen held a narrow 20-18 margin at the half. From there the Greyhounds shattered the net for 29 points while the Panthers connected for 21 in the last half.

Seminole's third period of highball for Oviedo snuffed a blow when the Lion girls fell to Clermont in a bitterly contested match. Shirley Jones kept the flag waving for Oviedo with 17 points, but the rest of the team couldn't find the range while Clermont's Kay Jones was hitting for 18 markers.

In the other two girls' games Tavares beat Mount Dora, 41-31, and Groveland romped over Titusville, 56-30.

In the boys' bracket, Clermont earned the right to face Oviedo this afternoon by nipping Groveland, 52-50, which also dropped Groveland from the CFC meet. Charlie Jones of Clermont swished the cords for 15 points to lead the Whitehounds, while Oviedo was again scoring leader with 17 for the losing Groveland eagles.

Lyon's new advances to play the second-seeded Tavares quintet that drew a bye in yesterday's first round, the Hounds' title hopes will ride with this very important clash that will begin at 9:00 p.m. in Mount Dora tonight.

The other two boys' games today will find St. Cloud facing Mount Dora at 6:30 p.m. and Umatilla battling Titusville at 7:45 p.m.

New television has borrowed from the gridiron. It sets up portable bleachers seats backstages with a capacity of 50 persons as a means of providing space for actors and others when they are off camera. Also it tends to keep persons from wandering around and getting in the way.

There are 4,000 square yards in an acre.

Robinson joined the Tennessee

Blues' Name Fields Business Manager While Increasing Directors Board

B. KENT CHETAIN John C. Callahan, who was first elected president of the Seminole Blues in the virtual hours of last June, received a vote of confidence last night by being re-elected president for the coming year by the board of directors at the organizational meeting in the WTRR studios.

Vic Price, Mr. C. Davis and Secretary Arthur Boddy Jr., were all returned to office.

New blood was injected when the Blues voted to increase the board of directors from five to seven. Arthur Yowell, an inactive board member, and City Commissioner J. Denver Giddell were dropped from the old board while four new members were appointed to serve with

the three holdovers, Callahan, W. G. Kilber, and Davis.

The four new directors are:

R. A. "Huddy" Newell, Jr., who was elected from the University of Miami; Charles M. Jackson, who was elected from the University of Florida; and Jim Fields, WTRR sports director, the new program manager replacing John Kramer.

The directors quickly agreed to begin work on the sale of the six active players remaining on the Sanford roster. The six are veterans, Joe Farren, 16, 300; John Imbra, 26, 302; Jorge Rivero, 16, 133; and limited service players,

John Young, 18, 130; Carl Johnson, 18, 130; and Carl Johnson, 18, 130.

Young got into the act because Young had signed with him for a fight in London March 17 against Randy Turpin, the former world champion.

It was understood here that Walter Hartnett, 18, middleweight, had been offered to Carl Johnson, 18, as a replacement for Young.

The BBC announced the Young-Durando match yesterday four hours later. Solomons, in London claimed he had not yet agreed to release Young from his contract with the BBC, but another transatlantic conference with Solomons and Markson said the London promoter agreed to send a cable this morning releasing Young.

Blockade Of Red China Presents Touchy Problem

Difficulties And Advantages Discussed By Veteran Writer

EDITORS: Veteran AP Correspondent Olen Clements on temporary assignment with the U.S. Seventh Fleet off Korea, here considers possibilities of a China coast blockade from the viewpoint of Navy and Army leaders. He says it's up to enforcement. While President Eisenhower said he personally was not considering a blockade of Red China now, the possibility has been discussed widely in Washington.

By OLEN CLEMENTS
ABROAD U.S. CARRIER VALLEY FORCE, off Korea (6) — Navy fighting men in the Sea of Japan have maintained an effective blockade along the entire Korean east coast but could a blockade of the Red China coast do as well?

The possible repercussions from closing off Russia and the rest of the Red world is something that Navy men do not talk about publicly.

Would such a sea blockade drastically slash Communist China's

HOLLYWOOD FILM STARS John Wayne and Susan Hayward smile happily as they hold the "Hollywood" statuettes awarded to them in Santa Monica, Calif., by the Foreign Press Association as the most popular motion picture stars in the world. The votes of movie fans from more than 50 countries were counted in the poll conducted by the group.

water potential anyway? That is considered quite likely.

The U.S. and United Nations warships operating in the Korean War know there is a lot of surface traffic along the 2,000-mile China coast.

Hundreds of Chinese junks, as well as vessels flying foreign flags

including some leased from members of the United Nations naval fleet, are carrying supplies and coal to traffic around Korea.

Admiral Saseck, commander of U.S. Carrier Division 3, said:

"The U.S. Navy, with carriers, battleships, destroyers, destroyers, planes and patrol boats, probably could stop the bulk of this traffic."

Chiang Kai-shek's Nationalist Navy, with only about 80 small warships, is not sufficient even to control the movement of Chinese junks.

Nationalist China proclaimed a port closure on the China coast three years ago. It has not been effective.

The value of a blockade has been amply demonstrated in the U.N. naval war against Red Korea, with complete suppression of coal traffic around Korea, said Rear Adm. Apollo Soucek, commander of U.S. Carrier Division 3 in the Sea of Japan.

Although the Allied warships have denied use of the sea to the Communists in Korea, the Reds still are passing tremendous stores into their front lines by land route.

Before the war Korea had a net work of good highways and railroads. The Reds have used them to good advantage since the break.

Red China, on the other hand, has few good roads and few railroads. Most of their shipping is by sea, river and canal. To deny them coastal traffic would hurt their traffic.

Naturally the Reds could be expected to hit back at any string blockade.

Red China has no Navy now of any consequence, but Soucek takes this view:

"If there is nothing to keep the Russians from giving the Chinese planes and guns, there probably is no reason why they wouldn't give China submarines too."

There have been Washington estimates that Russia has as many as 90 or more submarines in the Far East.

Russia has submarines based at Darien and Vladivostok. Some may be at the Chinese ports of Tsingtao and Chefoo and others probably are nested on the island of Sakhalin north of Japan and up the wide and deep rivers of Siberia.

AN INDEPENDENT DAILY NEWSPAPER

'Voice' Group Charged With Red Activities

Employee Of Broadcasting Enterprise Charges His Fellow Workers With Taint

WASHINGTON (AP)—A New York employee of the "Voice of America" today charged three of his fellow workers watered down anti-Communist references in scripts prepared for overseas broadcasts.

The employee, Virgil H. Fulling, told a Senate investigating committee he had encountered several such instances and had come to believe he was fighting "sinister influences."

Asked by Chairman McCarthy (RWI) to name those he considered responsible "for this attempt to water down the Communists," Fulling called off the names of Harold Berman, Donald Taylor and Robert Goldman.

Fulling identified himself as chief of the Latin American news service of the "Voice."

He presented to the subcommittee evidence which he said covered a specific instance of watering down last Jan. 21, the day after

(Continued On Page Six)

Opening, Closing Hours Studied By Merchants Group

M. L. Raborn, president of the Sanford Merchants Association, stated yesterday at a meeting of the board of directors he will personally conduct a canvass of the 94 member firms in an attempt to standardize opening and closing hours.

Some of the stores have been closing at 5:30 p.m. while others close at 6:00 p.m. and opening hours also are different for various businesses brought out.

The action to be taken by the association after the canvass will be in the form of a recommendation for standard opening and closing hours, it was said.

Included in the canvass will be the question of when to start closing business establishments on Wednesday afternoon during the summer.

An election committee, consisting of D. K. McNab, John Kinder, B. D. (Buddy) Lake and William Pencock, was appointed by Mr. Raborn to conduct the annual election of officers of the firm of March, 1953, the dinner meeting also will be held next month.

The election will be conducted by mail and ballots will include all 94 member organizations of the association, split into various class affiliations. A vote is to be cast by each member for one business in each category. The representative of each organization will be on the board of directors.

The board of directors, in turn, will elect the officers of the organization from their own group, according to David Gatchel, secretary-treasurer.

A resolution was passed by the directors, endorsing Sanford Inc. due to its affiliation with the Seminole County Chamber of Commerce was discussed. Mr. Gatchel said the directors want to "push" the affiliation to an "early conclusion." He said such affiliation would bring about more efficient operation of the association.

WASHINGTON'S BIRTHDAY The two local banks and the Post Office will be closed Monday in observance of the birthday of George Washington, which is Friday.

However, the Post Office will deliver special delivery mail and perishables. Also, mail will be sent out of the city, and placed in Post Office boxes, as usual. No regular city or rural deliveries will be made.

Salvation Army Story For Today

The Children of the American Revolution, sponsored by the local chapter of the Daughters of the American Revolution, will present its annual radio program in commemoration of George Washington's birthday over WTRW tomorrow, from 9:45 until 10:00 a.m.

Miss Barbara Ruprecht, senior president of C.A.R., announced today.

Rollins Magazine

Tampa Bandit Is Chased By Cigar Maker

Angered Tobacco Executive Foils Gunman's Attempt With Heavy Wooden Chair

TAMPA (AP)—A 43-year-old cigar company executive, angered at a payroll holdup attempt, chased a masked gunman from the factory with a heavy wooden chair today.

So confused was the bandit at the unexpected counteroffensive that he did not fire a shot at Jose Llanera Jr., 32, manager for the Villa Cigar Company.

Executive Sgt. Pete Franks said

Llanera probably would have calmed the gunman if Llanera hadn't slipped and fallen in the chase down the front steps of the building.

The fallen bandit man jumped into a waiting car and an accomplice drove away.

Llanera said he was alone in the office when a man appeared wearing a green, mesh mask and demanded the payroll, which was pinned to a safe.

The manager said he quickly picked up the chair and rushed at the intruder, swinging the chair.

The bandit turned and ran down a long corridor. Llanera in close pursuit gained until they reached the stairs.

Llanera did not say how much

money he had on hand.

The bus had best been heard from at 3 p.m. MST yesterday.

Mr. Franks said that the bus was last seen from anoxia parents who reported their child had not arrived home yesterday.

The sheriff took one rescue team out but had to give up the search at midnight because of the severe weather. He reported that even a snowplow was swept off the road and soon buried in snow.

Deaths of three persons were blamed on the storm, which pushed its way into the area Wednesday night and reached 85 miles to the north.

The U. S. Weather Bureau said there had been greater snow depths but not as much sustained and with a snow storm in 1949, which took place in the same area, the sheriff said.

The U. S. Weather Bureau said there had been greater snow depths but not as much sustained and with a snow storm in 1949,

which took place in the same area, the sheriff said.

The sheriff took one rescue team out but had to give up the search at midnight because of the severe weather. He reported that even a snowplow was swept off the road and soon buried in snow.

Deaths of three persons were blamed on the storm, which pushed its way into the area Wednesday night and reached 85 miles to the north.
