Store Clerk Beaten By 3 Robbers

By BILL SCOTT
A convenience store employee is listed in "fairly good" condition this morning at Seminole Memorial Hospital where he was removed for treatment of wounds received Sunday night after three men beat and robbed him.

ed a U. S. Marine, home on leave from Jacksonville, S. C., who reported to Sanford police he was robbed Sunday of \$40 cash by two youths wearing blue jeans.

According to Det. Sgt. George Meyer, the two men alerted Constable Chester Boyd, Boyd ultimately had a man identified as Charles Gaines in custody for interrogation, after Gaines wrecked his 1965 model car, which had been identified as the vehicle containing the robbers.

Garden School Starting

The 1971 Spring Lawn and Garden School will be held at Seminole County Agr-Center on Route 14-82 between Sanford and Casselberry, beginning on February 28. The school will be directed by the Seminole County Cooperative Extension Service. The schedule of classes will be as follows:

Funeral Notices

WILLIAMSON, MRS. LIDA A. — Funeral services for Mrs. Lida A. Williamson, 82, of Warren Street, Longwood, died Saturday, Jan. 17, 1969, and was the widow of the late T. J. Williamson. She was a member of Christ Episcopal Church of Longwood.

RD Seminar Slated For Nurses

A respiratory disease seminar for nurses will be held on Wednesday, Feb. 10, at the Hilton Inn West, Orlando. All nurses and other medical personnel interested in respiratory disease are invited to attend. The seminar is free of charge. Reservations can be made at the Central Florida Tuberculosis and Respiratory Disease Association, P. O. Box 423, 8533, or P. O. Box 4594, Orlando, 32806.

Zoo Crew To Meet

George Meyer, Sanford City Commissioner and member of the city's Zoo Committee said that a scheduled presentation from the zoo crew to the city commission Monday night had been postponed to another time, still to be determined. Commissioner Meyer stated the proposal from the zoo committee had not been completed and since he had requested the Feb. 8 meeting as the time to discuss with the commission his groups findings on ways to prevent the city zoo from being phased out Sept. 30, he had asked the item to be deleted from the Monday night agenda.

Much Building

ALBUQUERQUE (AP) — Building permits issued in Albuquerque during 1970 totaled \$104,228,337, according to Robert Hiddle, building division superintendent. The total surpassed the previous record year, 1969, by more than \$20 million. The 1970 total included \$61 million in new housing construction, said Hiddle. "It all exceeded my wildest expectations," Hiddle said of the new dollar mark.

Editorial Comment

Controversial Revenue Sharing Goal Sound

As battle lines form for the debate over the proposed federal sharing of revenues with state and local governments, it is obvious that the issue has more questions than answers.

able logic that the federal government is spending about \$15 billion a year more than it receives in revenues. To make revenue sharing realistic, federal taxes would have to be raised.

It is evident that government is indeed the most responsive when it is closest to the people. It also is evident that many sources of revenue still are available to local governments should they need them.

With or without strings, federal grants tend to create a dependency upon Washington.

The Lighter Side

Loving Regimentation Rules

By DICK WEST WASHINGTON (UPI) — As the armed forces move to make military life more attractive by permitting beer in the barracks and introducing other amenities, one question stands out: How will this relaxation of regimentation affect discipline?

Global Comment:

Soviet And Mideast Peace

By LEON DENNEN UNITED NATIONS, N.Y. — (NEA) — Gumar Jarring, the tall Swede who is United Nations mediator in the Middle East, is a skilled and patient diplomat with a sense of humor.

Quotes

I swear I don't know how the term "improvement" came into our real estate vocabulary. Assessors and appraisers make a distinction between "improved" and "unimproved" property as though any structure that man conceives to erect upon a vacant lot is automatically an improvement.

Thoughts

Cities can't pay salaries with good intentions. One does not like going into a knife fight and finding there is no blade in your hand.

No More, Please!

George Washington started it. The nation's first President appointed a commission to determine how to conduct a census and commissions, committees and boards have flourished in the capital ever since.

Reasonable Rules

The University of California at Berkeley has proposed a code of conduct for its faculty members with such stiff penalties for violation as docking of pay, demotion and suspension without pay.

FTU Blood Drive Set This Week

The annual Blood for Peace drive sponsored by Tau fraternity will get underway on Tuesday, with the promise of a new trophy to the Florida Technological University organization or group that comes up with the most donors.

The fraternity originated the Blood for Peace idea as a side light to the national campaign meritorium on the Vietnam war, in the Fall of 1969.

The resultant national publicity spurred on the local chapter to the point where 179 pints of blood now are cached away in the Central Florida Blood Bank as a direct result of the campus drive. The total doesn't take into account an additional 25 pints collected at FTU and later turned over for use by the Salvation Army.

A goal of 25 pints to be held in reserve for every 2,500 students on the FTU campus is the aim of the Tau drive, according to Jerry Whelan, coordinator for this year's campaign. "But that doesn't mean a limit on donors," he added. "We'd like to see a couple hundred pints."

The fraternity has issued a direct challenge to the FTU faculty and staff to make a run for the trophy, which was described as "nice and big and shiny" by Whelan.

The Central Florida Blood mobile will be on the FTU campus to receive donations from 9 a.m. to 2 p.m. on Feb. 9, 11, and 12, located at "D" dormitory.

Poitier, Belafonte

HOLLYWOOD (AP) — For the first time in their careers, Sidney Poitier and Harry Belafonte will be teamed for a motion picture in "Buck and the Preacher," produced by Joel Glickman for Columbia Pictures.

Set against a post Civil War background, "Buck and the Preacher" has Poitier as Buck, a former Union Cavalryman turned guide for ex-slaves who plan to homestead in the West. Belafonte plays a preacher who reluctantly gets involved with Buck.

Manhattan Goes Hours Without Power

NEW YORK (UPI)—A large area of midtown Manhattan went dark Sunday night when electric power failures blacked out blocks of office buildings, disrupted radio and television broadcasts and affected subway and train service.

The power system was crippled from 7:12 p.m. EST until 11:42 p.m., when the last of the blacked-out area was restored to service. But when it was over, New Yorkers sighed with relief and compared their difficulties favorably with those caused by the Great Northeast Blackout of 1965.

Impromptu festivities, mostly candlelight sprang up in bars and other spots—as unlikely as the top of the Empire State Building—where people were stranded.

There were no injuries attributed to Sunday's blackout, reported.

The Consolidated Edison Co., which supplies electricity to all of the city and some suburbs, said the situation was caused by a massive short-circuit in a 135,000-volt transformer at its waterside generating station, located on the East River just south of the United Nations.

Power Cut

The short-circuit, a steaming circuit-snapping crack described as an explosion by workers at the plant, enacted automatic switching equipment that immediately cut off power to two "grids" distributing electricity to the Times Square area and Greeley Square.

The Empire State Building's power went out and 40 tourists who were looking out over the city from the 86th-floor observation deck were stranded.

That fact was verified by two policemen and a reporter who walked up all 86 flights of stairs. They completed the climb in 48 minutes, panting for breath, then walked up 16 more flights to the 103rd floor, where 25 people were trapped.

"They're going to send us to the psycho ward," said Patrolman Harry Goulding.

The tourists, although astonished at the climbers' arrival, said they were not worried about their plight.

Damage Estimated At \$5 Million

250 Injured As Tornado Strikes

By WILLIAM R. COTTERRELL, GULF BREEZE, Fla. (UPI)—Arthur Prior had his head wrapped in a crown-of-thorns bandage covering a long line of stitches, his belongings were buried beneath a fallen tree, and he felt lucky.

Prior and hundreds of other vacationers and residents in this beer-and-surfing coastal resort were shaken from their beds in a flurry of flying glass Sunday when a pre-dawn tornado ripped across the sandspit enclosing Pensacola Bay. The twister sliced through the Sandy Acres Motel, where Prior and his wife, Karen, had a cottage, and the English Cove Apartments across Highway 98.

"Everything started coming down. We tried to get out," said Prior, a Tenally, N.J. Air Force enlisted man stationed at nearby Eglin AFB. "I went to an aid station and they put 20 or 30 stitches in my head, but I don't mind that—we're just lucky to be alive."

No one was killed in the tornado, which struck at 4:20 a.m., but Red Cross officials estimated that 250 were injured. Red Cross Supervisor Virginia Stuart said most of the injured were treated at three local hospitals and released, but one woman was admitted with severe lacerations.

Rescue units from Santa Rosa and Escambia counties counted 55 cars, two small boats and four trailers destroyed by the twister. Total damages were estimated as high as \$5 million and damage to the motel and apartment complex alone was put at \$2 million.

Terra Neuman, 19, was asleep on a couch at the English Cove when the storm awoke him. He dashed upstairs and flung himself across his widowed mother as the tornado blasted out a plate glass window fronting their apartment.

"I looked out the window and saw things were flying by real fast," Neuman said. "It sounded like a train coming, it was rumbling and rumbling, and my ears kept pressing."

Dania Police Puzzled By Double Murder

DANIA, Fla. (UPI)—Police today checked the slaying of New York executive George W. Beck and his attractive blonde bride for some clue that would lead to the furious killer who bludgeoned, stabbed and smothered them in their sleep aboard their luxurious houseboat.

No arrests have been made in the case and police admit that questioning of persons known to have been in the area of the houseboat at Cory Cove Marina Thursday night has turned up nothing solid.

The nude, bloody bodies of Beck and his wife of six weeks were found aboard the houseboat Friday morning by a maintenance worker who went aboard to install some cabinets.

Medical Examiner Dr. Jack Mickley said Saturday he had no doubt that Beck, a 35-year-old vice president of Texhob cosmetics company, and his 31-year-old wife Ina Jo, were attacked in their sleep.

"These people didn't suffer any," Mickley said after consulting autopsies of both bodies. "They were poleaxed like an ox in a slaughterhouse."

It was a "hitcher-shop murder. They were hit on the head and stabbed, and when they didn't die quickly enough, they were suffocated with pillows over their faces."

Mickley described the wounds of both Beck and his wife as multiple blows to the head by a hatchet-like object and numerous stab wounds of the chest, stomach and back. The blows caused fatal damage to head, heart and lungs but cause of death probably was asphyxiation from the pillows found over their faces, Mickley said.

The theory that the couple was asleep at the time of the attack was bolstered by the fact that the interior of the houseboat was relatively neat, with little sign of a struggle. Authorities have been unable to explain why a doctor's stethoscope was found near the bodies, unless it was used to make sure that they were dead.

Police said one of the stab wounds apparently went clear through Mrs. Beck's body and into the fold-out bed she and Beck were found lying on.

The troubled nature of the attack indicated some deep hatred or revenge motive, police said, and they sifted through the Beck's background for a lead. The Beckes were married Dec. 25 of last year, and were planning a foreign honeymoon later this month. They had spent nearly every weekend aboard the houseboat since their marriage.

It was Mrs. Beck's second marriage. Beck had been married three times before.

While working on the premise of a revenge killing, police did not completely rule out the possibility of a "Tate-style" killing by persons who had little or no relation to the victims. The marina is next to a busy highway.

Teacher Faces Narcotics Charges

Powell Murder Trial Stated Next Week

By SHARON BETHIA

Facing charges of first degree murder on the trial docket for the two week period of Feb. 15-17, is Sylvia Tolia Powell. The 37-year-old former waitress was indicted by the Seminole County grand jury in the death of her 52-year-old husband, Maynard G. Powell, Lake Monroe farmer, on Sept. 25.

Mrs. Powell was arrested on Jan. 16, immediately following the conviction of her admitted lover, Henry Jorge, upon the same charges.

Mrs. Powell was initially arrested in October, but later charges were dropped and she was released. She refused to testify at Jorge's trial, invoking the fifth amendment, and contending that she had not been granted immunity by the state.

Also docketed for trial is the long continued case of Mrs. Rose Anderson, 36-year-old former Winder Park high school teacher, charged with two counts of possession of drugs. Mrs. Anderson was arrested at her home in Casselberry on Sept. 16, when six Casselberry policemen uncovered a cache of drugs reportedly worth \$2,000. Included were 500 methamphetamine tablets, marijuana, hashish and two homemade pipes. Mrs. Anderson was arraigned on Sept. 20. Her trial has been scheduled for Nov. 2 and later Jan. 11.

Edgar Burkett, 30-year-old Geneva painter, faces rape charges in an alleged incident involving a 14-year-old girl. The rape was alleged to have taken place at the girl's home on Nov. 6, while the defendant was visiting the parents. It was alleged the defendant had been drinking heavily.

Also docketed for trial is the long continued case of Mrs. Elizabeth Davis, 36-year-old Joca resident, who, she information states, by the operation of a motor vehicle in the vicinity of U.S. 1762 and Seminole Boulevard in Longwood, in an intoxicated condition or under the influence of intoxicating liquor, caused the death of Guy Roger Winkle. Mrs. Davis' trial was scheduled for Jan. 11.

CLARK WAS ARRESTED ON April 9 at the home of Andrew Curraway, Altamonte Springs, with five others. The six were alleged to have been in possession of \$22,000 worth of marijuana; that is 46 pounds of the narcotic. Miss McCadden faces charges in a separate case of possession of narcotics.

Other defendants scheduled for trial on the crowded docket are: Gary Meister, charged on two counts of R&E (felony) and grand larceny; Jerry Greer, charged with possession of narcotics; Leroy Postley, charged with escape; James Brown, charged with grand larceny; Willie Green, charged on three counts of forgery, uttering a forged and worthless check. Green faces these charges in three separate cases.

JOHN McCALL, charged with sale of narcotics; Albert Bushard, accessory after the fact; Larry Heart, also known as Karl Porter, possession of narcotics; Adam Wade, first degree murder; James Horgan, two counts of possession of narcotics and possession of hallucinogenic drug; William Murray and Hamp Davis, larceny of an auto; Danny Horne, R&E (misdemeanor); B. L. Washburn, charged on three counts of R&E (felony), grand larceny and conspiracy; Gary Adair, Ronald Reynolds and D. Demorse, charged with R&E (felony), grand larceny and conspiracy.

"SEND" A VALENTINE VIA CLASSIFIED ADS THIS YEAR!

To My Wife

EDNA

You have made my life worth living. Filled our house with warmth & cheer. That's the reason that I love you, and will always want you near.

BILL

LOVE

MAKES THE WORLD GO 'ROUND!

SPECIAL VALENTINE PAGE

You can start a whole new world of understanding and warmth with a classified Valentine to your boss, mother, secretary, neighbor, customer, teacher or any one else to whom you'd like to send a special Valentine. A Valentine page with the theme "Love makes the world go 'round", will run with color in the classified advertising section of The Sanford Herald Friday, February 12th.

TO BE PUBLISHED

FRI., FEBRUARY 12th

(Valentine Day February 14)

This is a unique and special way to publicly acknowledge your sentiments on this traditional day. Now is the time to start to compose your Valentine message. Use one of the numbers listed below, and ask for an Ad-laker — she'll be happy to help write your Valentine message or else use the attached coupon to compose your Valentine message. Cost? It's low... only \$4.00 for two inches of space. (See sample space and copy above). Remember—it's a page devoted only to Valentine messages.

Enclosed is my payment of \$4.00 for the special Valentine Page to be published Friday, February 12th

Astronauts Express Desire For Peace On Earth

Apollo 14 Coasts Toward Tuesday Splashdown

By HOWARD BENEDICT

AP Wirephoto

SHARON CENTER, Houston (AP) — Apollo 14 and its cargo of moon treasure plummeted today toward a Tuesday splashdown in the Pacific Ocean. Its crew, expressing hope that the space program might help achieve peace and understanding on earth.

Ahn B. Shepard Jr., Edgar D. Mitchell and Stuart A. Roosa are scheduled to be on their last full day in space. They monitored systems taking stellar navigation readings and rested for their homcoming.

They are to land at 4:04 p.m. EST Tuesday with their record cargo of 100 pounds of moon rocks and material. If they are on target, it will be Wednesday at the touchdown site. The recovery ship waits three miles west of the international date line.

They are to appear on a final television program at 6:55 to answer questions relayed from newsmen at the space center.

In a telecast to Mission Control Sunday night, they conducted scientific experiments and expressed thoughts on the space program and problems on earth.

"We're reminded as we look at that shimmering crescent that is earth that we still have fighting there," said commandeer Shepard, speaking for all three. "We are reminded that

some men who have gone to Vietnam have not returned and that some are still being held there as prisoners of war.

"It is our wish tonight that we can in some way contribute through our space program to better understanding and peace throughout the world and help to rectify these situations."

Shepard said. "Communications through the space satellite will certainly go a long way toward solving the problems of the world—the problems of understanding between peoples of different nations and different countries."

He made the comments at the end of the 31-minute telecast in which the astronauts demonstrated manufacturing techniques which Shepard said "could benefit all peoples of the world."

It is hoped these techniques will be able to use the weightlessness of space to produce cast metals, medical vaccines and electronic crystals of purity and strength higher than possible on earth.

With the television camera focused on the space laboratory, Roosa explained each of the four experiments, which demonstrated how weightlessness overcomes some of the manufacturing problems caused by the gravity of the earth.

Liquids were transferred between containers, metals were cast in a small heat chamber,

\$1,200 Annual Grant Tuition Aid Pictured For Undergraduates

By JOE HALL

Associated Press Writer

WASHINGTON (AP) — Each of the nation's 5 million college undergraduates would be eligible for up to \$1,200 a year federal tuition aid under a broad higher education financing bill introduced in the Senate today.

Sen. Claiborne Pell, D-R.I., chairman of the Senate education subcommittee, proposed the plan, which he estimated would cover all students with incomes of less than \$10,000 annually.

Each student would receive \$1,200 minus the amount of federal income taxes paid by himself or his parents.

It is a radical plan, Pell said, but something must be done to "alleviate the suffering impending financial disaster."

The multi-billion-dollar bill includes \$1.4 billion for student grants, \$25 million of supplementary aid for particularly needy students, and instruction allowances to be paid colleges at the rate of \$1,000 per student, less the tuition charged each student.

Education subcommittee aides said the cost of the instruction allowance section could not be estimated, since it is uncertain how many institutions would alter their tuition structure to take advantage of the federal money.

The bill would extend many existing federal aid programs to college students and their schools.

"It is my philosophical belief that the federal government must play a major and ever-increasing role in support of higher education," Pell said.

"This role must not only be financial in nature, but must also indicate to students and institutions a commitment to fostering excellence in education over a long period of time."

The Nixon administration, Pell said, tailored its higher education proposals to a tight budget, and thereby "sought to shift the burdens of financing higher education to the students, basically through a system of loans on the open market."

The 91st Congress rejected the administration proposals. The new Congress must act on higher education early this session since several programs run out June 30.

Of his plan for grants to students, Pell said the average family with income of \$3,000 or less pays no income tax so a student from such a family would get the full \$1,200 a year.

For families with income between \$3,000 and \$6,000, the average tax is \$250 and the grant would be \$950.

Israelis Will Leave Door Open

By MARTIN ZUCKER

Associated Press Writer

JERUSALEM (AP) — Israel reportedly will refuse to pull all its troops back from the Suez Canal until it gets a peace agreement, but will leave the door open to a reduction of its forces along the front line with Egypt.

Informed sources say Premier Golda Meir will outline that position Tuesday before the Knesset, the Israeli parliament, in response to the demand made last Thursday by Egyptian President Anwar Sadat.

Meir is expected to announce a 30-day extension of the cease-fire along the canal, which has been closed since the 1967 Arab-Israeli war.

Informants said although most Israeli Cabinet members didn't consider Sadat's proposal serious, they felt Israel should not discount the possibilities it might present.

The sources said Israel would seek a clarification of what the Egyptians meant by "partial withdrawal"—if this would mean only a reduction of Israeli troop strength on the east bank of the canal or a pullback to a new line somewhere in the Sinai Desert.

The request for clarification is to be made through Gunnar V. Jarring, the U.S. mediator acting as go-between in the indirect peace talks Israel, Egypt and Jordan are holding in New York.

The sources said Mrs. Meir would also tell the Knesset her government is ready to enter negotiations to reopen the canal but will insist that Israeli ships be permitted passage—a demand Egypt has always rejected in the past.

House Reformist Certain

By JOHN BECKER

Associated Press Writer

WASHINGTON (AP) — Liberal House Democrats lost many a battle in the opening weeks of the 92nd Congress but think they are on their way to winning the war against the tradition of seniority.

Despite setbacks in their efforts to win key leadership posts and make dramatic changes in the seniority system, the liberals say forces have been set in motion that will remake the House in the 1970s.

"I'm not discouraged," says Rep. Sam Gibbons, D-Fla., chairman of the reform movement. "Far from it. I think we've made substantial progress."

To Gibbons and his fellow reformers the significance of their attack on the seniority system was not in its general failure but in the fact it was made.

McMillan's victory and the defeat of efforts to limit the age and tenure of chairmen obscured the fact the Democratic caucus, for the first time, adopted rules setting out a method for removing chairmen and a provision that the selection of chairmen "need not necessarily follow seniority."

The clashes in the caucus also overshadowed the fact significant new House rules approved by Congress last year are now going into effect and could hasten the pace of change.

McMillan himself is expected to get the message and to retire after this session. The understanding among members that he might retire probably helped get him the votes he needed to avoid the humiliation of having his chairmanship taken away.

McMillan's victory and the

Bomb Plot Suspects Facing Arraignment

By LEE LINDER

Associated Press Writer

HARRISBURG, Pa. (AP) — An imprisoned Roman Catholic priest and five other persons, including a nun, faced arraignment today in federal court on charges they plotted to bomb government buildings and kidnap President Nixon's foreign affairs adviser.

All have vigorously denied any connection with the alleged transferred to the guarded ninth FBI Director J. Edgar Hoover. They called the charges fabricated and an effort to destroy the peace movement.

Thousands Of Allies Hit Laos

By GEORGE ESPER

Associated Press Writer

SAIGON (AP) — Thousands of South Vietnamese troops swept into southern Laos today in an attempt to cut North Vietnam's Ho Chi Minh trail, something six years of American bombing has failed to do. Six U.S. helicopters were reported lost in the first waves.

American helicopters and South Vietnamese armored cars took the troops across the border, and the U.S. Command pledged its full air and artillery support. But the U.S. Command said no American ground combat forces would cross the border.

A communique said the 9,000 American troops who moved into the northwest corner of South Vietnam 10 days ago would act as a blocking force on the Vietnamese side of the border.

Field reports said four U.S. helicopters were shot down and two crashed due to mechanical trouble. Pilots reported heavy anti-aircraft fire, but the reports indicated most of the crews were rescued.

Associated Press correspondent Michael Pataf reported from the border that South Vietnamese troops made contact with North Vietnamese forces within an hour after they crossed the frontier. U.S. helicopter gunships attacked the enemy positions with rockets.

About a mile inside Laos, American Cobra helicopter gunships caught some more North Vietnamese troops in the open and fired rockets at them, but the results were not known.

Other pilots reported seeing 50 to 75 enemy about two miles from American howitzer batteries on the Vietnamese side of the border.

The South Vietnamese moved into Laos for the first time in the Indochina war a little more than nine months after U.S. and South Vietnamese forces crossed into Cambodia to smash North Vietnamese bases there.

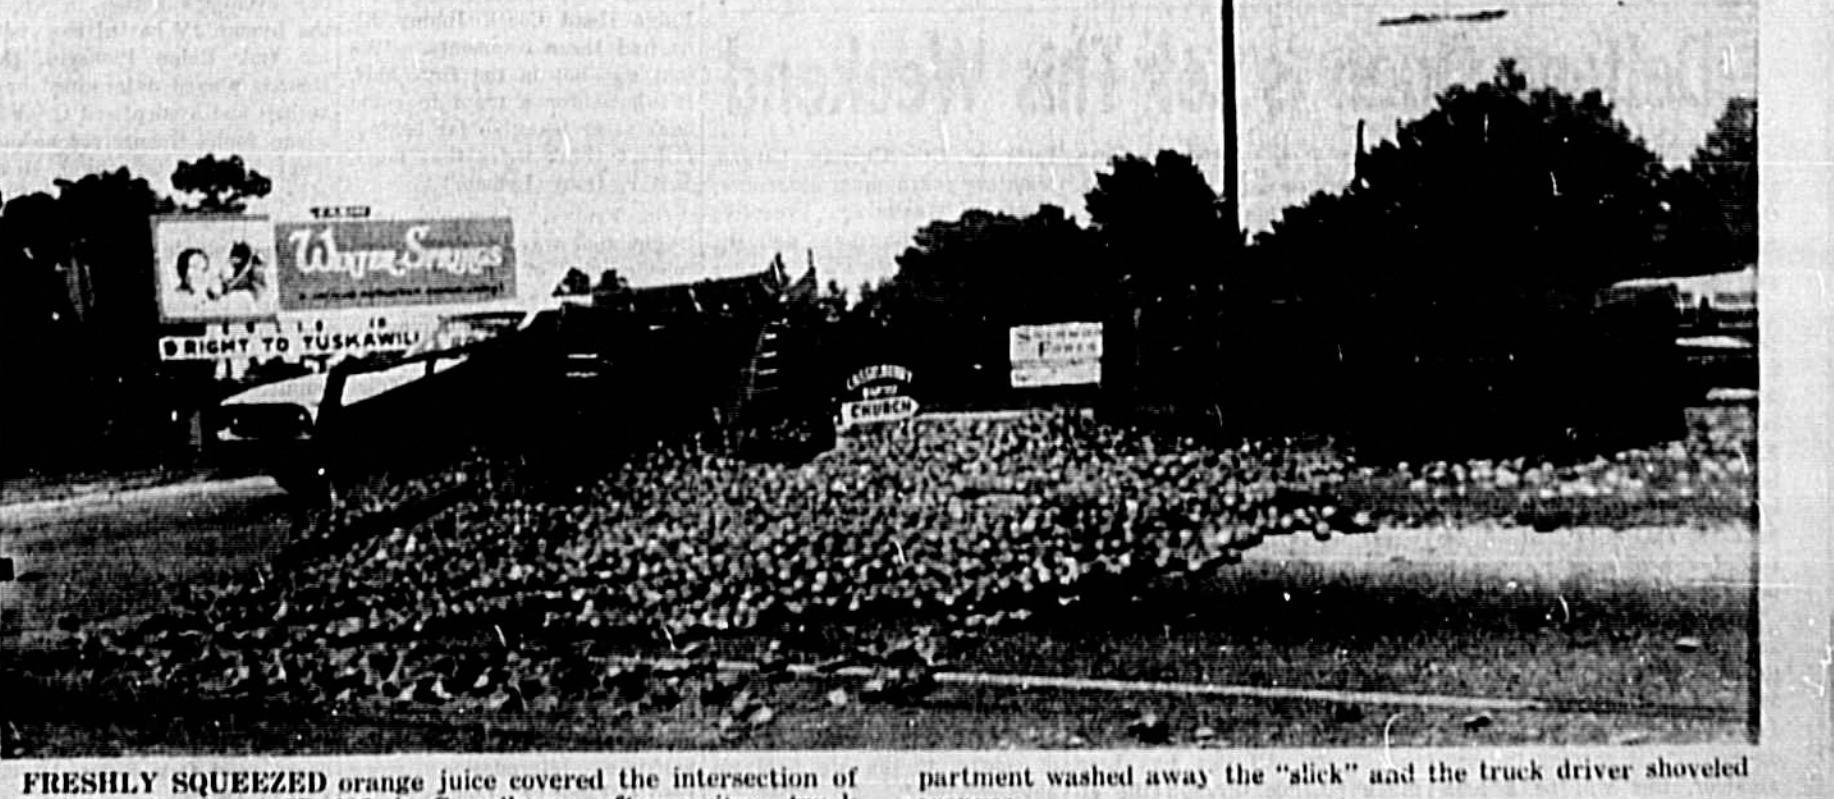

The new move represented a widening of the war and was certain to cause political repercussions across the world.

Prince Souvanna Phouma, the premier of Laos, issued a mild protest against the South Vietnamese action but said the "primary responsibility" for the situation rests with North Vietnam. He called on "all foreign troops" to withdraw from Laotian territory.

Pentagon officials in Washington said the strategic goal of the new drive was to keep the enemy from mounting an offensive while U.S. forces are turning the war over to the South Vietnamese close to the Laotian border.

Defense officials acknowledged penetration of Laos has been part of the plan all along, although the only move officially disclosed last week involved the shift of 25,000 South Vietnamese and U.S. troops into the northwestern part of South Vietnam being to the Laotian border.

Dale Lambert Scores 27 Points In Win

Raiders Cage Timberwolves In Lake City Tilt

LAKE CITY — Virtually clinching first place in Division II and assuring themselves a berth in the state tournament set for Panama City, the Seminole Junior College Raiders turned back the Lake City Timberwolves 84-76 Friday.

Dale Lambert, having one of his best nights in several games, scored 27 second half points to give him a total of 77 on the night and paced the Raiders to the win. Lambert hit on nine field goals and was nine for 12 from the line.

Lambert got a lot of help from hot-handed Kenny Bryant. The sophomore forward hit on six field goals and was five for eight at the charity stripe for 17 points.

Also in double figures for the night was Greg Robinson, the little guard from Sanford Crooms High, scoring 11 points with 10 of them coming from the floor.

Larry Kruse, the Seminole High standout, just missed double figures as he hit for nine points, with Ben Nicholson, who alternates with Kruse at the center position, scoring seven points.

With only 2 seconds left in the first half, the Raiders owned a 11-point lead. But in less than a half minute, the Lake City capers thrilled the partition crowd with four straight points to go to the dressing room trailing the Raiders 43-37.

The Raiders came out in the dressing room fired up and scored the first three points in 30 seconds. From then until the final minutes the Raiders sailed along on a comfortable margin. Then in the final minutes of play the Timberwolves made a last-ditch effort to come from behind, but failed in the effort.

For the Raiders, it was the first time they had ever beaten the Lake City quint on their home floor. On the other hand, the Timberwolves have never left Sanford with a win. On neutral floors the two teams are 2-2.

Raider head mentor Joe Sterling commented, "We didn't play one of our better games, but anytime you play up here and win it's good."

The Raiders host Florida Junior College of Jacksonville tomorrow night at approximately 9:15 p. m., looking for the Division II win they need to clinch the title. The game will follow the Seminole High varsity game which is slated to get underway at 7:30 p. m.

The junior varsity conflict is set for a 6 p. m. tipoff. It's a big triple-header of basketball action set for tomorrow night at the Seminole High gym.

With Last Period Effort

Fighting Seminoles Halt Scorpions

After being tied at the end of three periods of regulation play, the Fighting Seminoles rallied to outscore the Satellite Beach Scorpions 20-6 in the final period to nail down a 54-40 win and hike their season mark to 11-10.

The first period was a continuous exchange of baskets, with no team more than two points ahead. The score was tied at 2-2, 4-4, 6-6, 8-8 and 10-10. The Satellite squad pulled ahead 12-10 on a shot that was in the air as the buzzer sounded.

Satellite Beach took the biggest margin of the yet young game when they went ahead 14-10. They soon led 16-12. But the Seminoles then scored seven straight baskets to take a 19-16 lead. With less than a

minute left in the half, Ricky Grant hit on a bucket to give the Seminoles a 23-20 lead. But the Scorpions pulled the buzzer shot and again and cut the margin to 23-22 as the two teams went to the dressing rooms.

The Scorpions fell behind quickly at the start of the third period, with the Seminoles jumping ahead 21-24. But the Seminoles could only score two points in the last 18 points of the game. Satellite hit only two points in the last 18 points of the game.

Lyman Finally Gets Win; Stops DeLand Bulldog '5'

By CHUCK GRILE
Herald Sports Staff

After what has seemed an endless nightmare, dropping 21 games in a row, Saturday night in DeLand the Fighting Greyhounds from Lyman High School broke the jinx. After virtually being destroyed the previous night in their own gym, in an encounter with Oak Ridge, 86-44, the determined Hounds bounced back Saturday to whip the DeLand Bulldogs 64-45 in a non-conference clash.

The Oak Ridge quint led by Clide Rebersen and Curtis McClelland scored 24 and 21 points respectively, outscored the Hounds in every period Friday, racking up an 86-44 victory. At one point in the first half, the Pioneers held a 20-1 score. By the termination of the initial period, the DeLand squad held a 25-10 lead, which by the half had increased to 47-18.

At first in the second half Lyman looked like it might bounce back, but the overpowering strength of Oak Ridge under the boards and precision shooting by the visitors, doomed the Greyhounds to their 11th straight setback. When the third quarter had expired, Lyman was down by 39, 69-30. Then the Pioneers coasted to an 86-44 Metro Conference victory.

After his team's tremendous offensive performance, Oak Ridge Head Coach Jimmy Ellis had these comments, "We just got hot in the first half. It's hard for a team to come back after being so far behind. I don't think we're that much better than Lyman."

On Friday, Lyman's only bright spot was the determined rebounding of junior Ray Smith, who also led the Hounds in scoring, dumping in 17. Saturday night was a different kind of ball game. Both Lyman and their host DeLand exhibited determined efforts, exemplified by their first quarter, finishing out the first half 35-25.

Greyhounds Drop Pair In Weekend Cage Play

By JIM DRIESE

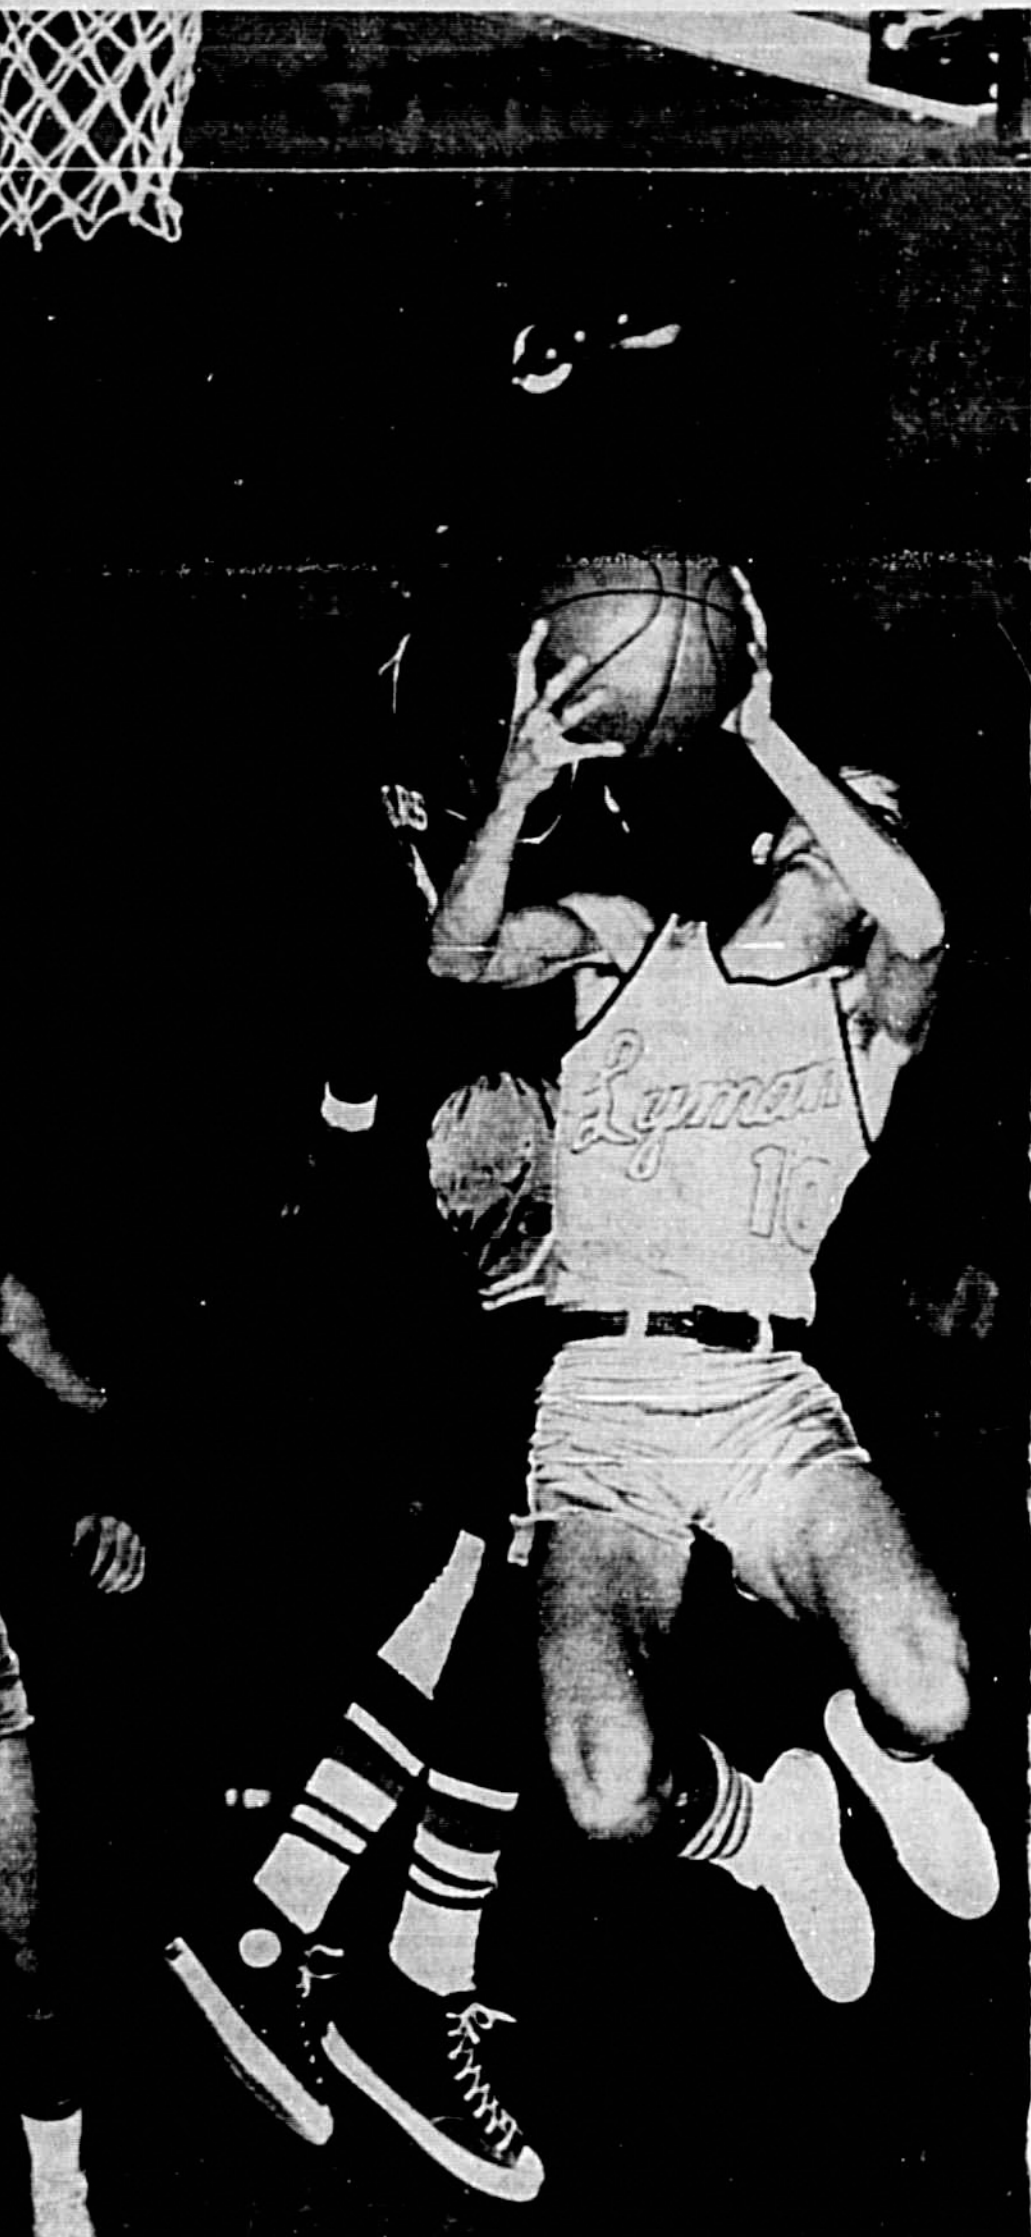

Unlike the Lyman variety, this past weekend spelled nothing but trouble for the Greyhound junior varsity as the Pups were unable to taste victory in two attempts falling to Oak Ridge on Friday 62-52 and to DeLand on Saturday 53-45.

In the initial quarter of Friday evening's action in which the Lyman JV hoisted the visiting Oak Ridge Pioneers, the Hounds played determined basketball and a surprised Orlando squad found themselves at one point five points behind. However, as the period ended Oak Ridge managed to close the gap to a single point, 13-14.

During the second quarter Lyman's offense could not find the range and allowed the Pioneers to outscore them by 13 points, finishing out the first half 35-25.

After the half time break Oak Ridge continued to dominate the scoring. LHS fell further behind as they entered the third period down 46-33.

As the final eight minutes of play elapsed, the Lyman '52 managed to salvage a slight edge most of the way. After second quarter composed with such action under the boards, and climaxed with a flurry of baskets by each squad, the end of the game the score stood Oak Ridge JV 60 Lyman JV 52.

LYMAN'S MIKE FUNK goes in for a layup, only to find an Oak Ridge Pioneer blocking his path. They Greyhounds have had some trouble getting started in 1971, and the only bright spot in their season is a holiday tournament which they hosted and won. Now they have their eyes set on another tournament, the district five tournament, set for Seminole High Feb. 25-27. They Greyhounds battle Gainesville at 7:30 p.m. Feb. 25 in the opening round. (Don Vincent Photo)

Deltona Open Is Set This Weekend

Bill Schumann, host professional for the upcoming Deltona Open Golf Tournament, reports that the event is a "complete success."

"Consider this," Schumann said, "although we are the newest tournament on the Florida PGA winter tour, we already are the biggest. We have 200 pro signed up for the 36-hole medal play event to be held Feb. 13-14. In addition, we have 150 amateurs, who will be paired with 50 selected pros for our pro-amateur of Feb. 12."

"We are all filled up as far as entries go," Schumann continued. "This includes both the 36-hole medal play event and the 18-hole pro-am on Feb. 13-14 and the pro-amateur of Feb. 12. Regarding the pro-amateur, this will be a four-

man team affair and the three amateurs on each team will receive their full handicap. We also are having a pro-pre tournament on Thursday. The public may watch the pro-pre and the pro-amateur free of charge. However, a slight fee will be charged for the 36-hole event. Schumann pointed out, "We will be offering a prize fund in excess of \$16,000. This is comprised of a guaranteed purse of \$11,000 for the 36-hole tournament and upwards of \$5,000 for the pro-amateur. We also are donating upwards of \$3,500 from the proceeds of the tournament to the Deltona Youth, Inc., toward the construction of a club house for that group. All this has been made possible through the efforts of Dr. Thomas Largent, honorary tournament chairman; George Westlake, executive tournament chairman, and Dr. Anthony Borowski, financial chairman. Working in close cooperation with the other volunteer committee members, we have been able to sign up 50 Gold Sponsors to date."

Schumann concluded the interview by pointing out, "Ficker sales are moving along faster than anticipated and I would suggest that anyone who wants to see a fine golf tournament, get their tickets now and thus be assured of getting in to the tournament. In addition, being in mind that we will be hearing off starting as early as 7:30 a. m. each day and this is due, of course, to the big field we have entered."

ANGEL FURQUET and his wife Marta makes pelotas (balls) for use at the Orlando-Seminole Jai-Alai Fronton. The pelotas are smaller than baseballs and much harder. The Furquets are from Cuba. Tonight is the final night of action at the fronton. (Don Vincent Photo)

Oviedo Lions Win One, Lose One

By LARRY NEELY

After finishing their fifth straight cage efforts Friday evening, things seemed to be looking up more than ever for the Oviedo Lions, but Saturday night saw the Oviedo Lion quint was unable to stop again as they fell to the New Smyrna Beach Barracudas 68-55 in an Orange Belt Conference clash. The victory by the 'Cudas put them back in the running for the lead in the OBC.

The Lions swarmed out in front of the Taylor Wildcats 23-11 in the first period Friday night at Pierson and held them to only five points in the second frame while adding an additional 19 points to the 'Cudas' total for a 43-16 half time advantage.

Taylor nearly equalled Oviedo's scoring in the third period, but the Lions poured it in the final quarter hitting a 20-10 run in the final 10 minutes of the game to spread Oviedo's lead even further.

Alan Daniel hit eight out of 12 from the charity stripe in addition to three field goals for a game total of 14 points. David Tossie performed his usual feat of leading Oviedo's score, this time with 20 points. None of the Wildcats appeared in double figures.

The Lions totally dominated the boards against the Taylor quint pulling off 83 rebounds to Taylor's 27. Tossie led Oviedo's rebounding with 10, followed by George Parker with nine.

Saturday night's floundering by Oviedo as they fell at the hands of an OBC team that had smothered earlier this year, New Smyrna Beach. The Lion quint was unable to stop again as they fell to the New Smyrna Beach Barracudas 68-55 in an Orange Belt Conference clash. The victory by the 'Cudas put them back in the running for the lead in the OBC.

FTU Cagers In Georgia, Looking For Big Victory

By HERRY CUSH

The team considered by Florida Tech coach Gene "Torchy" Clark as being his most formidable opponent will be the playing host to the Knights of FTU tonight in America, Ga.

Southwestern Georgia, own the Knights have been their guard, Mike Clark (26.5) and Rudy Jesse (17.2). The big men in the Tech lineup, 6-3 Don Mathis owns a seven point average while 6-4 Jim Flanagan is hitting about 11 type.

Additional scoring help comes from Mike Larson 11.3 and Ed Smith 13.1.

Tech's high scoring ace, Clark, is nearing a milestone and should reach it easily tonight. He has 984 points in two seasons and should hit the 1,000 mark tonight. He hasn't been held to less than 20 points in the last 18 games.

The Knights (78) but because of their highly disciplined style did not need many. By no means is Southwestern a two man team. Cliff Hutto and Dave O'Brien are excellent playmakers who are adept at getting the ball to their big men both O'Brien and Hutto know they are more effective as a team when Mackey and Sauls are doing the scoring and never hesitate in gearing their offense toward their ace.

Thinclads At Meet

By GARY TAYLOR
Herald Sports Editor

The Seminole Junior College track squad treks to Gainesville today for a track and field meet. It is the first of three events the team will compete in during the month of February.

The school is entered in 13 events during the day of competition. All eyes will be on sophomore pole vaulter Allen Pettit. Allen will be on sophomore pole vaulter Allen Pettit. Allen will be on sophomore pole vaulter Allen Pettit.

Julius Walker of Orlando and Crooms graduate Charles Harris are entered in the triple jump, broad jump and 60-yard dash. Harris is also in the high jump.

Horoscope Forecast

TUESDAY, FEB. 9, 1971
GENERAL TENDENCIES:
 You are now able to combine your mind and your intuition so well that you can see clearly how best to achieve the results that can be of greatest benefit to you. Don't be afraid to complement others for their good points and you get much greater support.
ARIES (Mar. 21 to Apr. 19):
 Use your intuition and you will know how to impress favorably those persons who can assist you in making the most of your finest talents. Compliment friends. Then you get more cooperation.
Taurus (Apr. 20 to May 20):
 If you contain those responsibilities you can handle those responsibilities very well now. Learn how to do hard tasks yourself. Seek out more powerful persons who can assist you.
GEMINI (May 21 to June 21):
 The gathering that you need will come to you better for any demands soon to be made upon you in connection with some new project. Planning some necessary trip is good now. Count the cost well.
MOON CHILDREN (June 22 to July 21):
 Find the right system that will make your work more efficient and remunerative. Some problem can be solved better with the aid of good friends. Allow time for improving your health.
LEO (July 22 to Aug. 21):
 If you get out with partners to places of recreation, you can comprehend ideas and plans better. Give more thought to those agreements you are considering. You are being too hasty.
VIRGO (Aug. 22 to Sept. 22):
 Get started on that new plan that will make your life more fascinating as well as more lucrative. You are now able to get backing from a close tie who understands your ideas. Show courtesy, gratitude.
LIBRA (Sept. 23 to Oct. 22):
 You have the inspiration to achieve your aims now and should waste no time in so doing. Tonight is a good time to plan a party and other celebrations for the future you like.
SCORPIO (Oct. 23 to Nov. 21):
 Get started on that new plan that will make your life more fascinating as well as more lucrative. You are now able to get backing from a close tie who understands your ideas. Show courtesy, gratitude.

Getting In Step Together... March Of Dimes 20-Mile Walk On March 6

The March of Dimes Central Florida chapter is staging its first annual 20-mile pledge walk on March 6, according to J. Chester Kerr, March of Dimes general campaign chairman.

Students from Central Florida junior and senior high schools and colleges will be participating as volunteer walkers. Each walker will secure sponsors who pledge money for each mile he walks.

All precautions have been taken for the comfort of the walkers. Checkpoints will be set up along the route with refreshments for the walkers.

Royal Crown Bottlers of Orlando, Inc., is donating Gatorade, a high-energy beverage, for all the walkers. The drink will be available at all the checkpoints.

All money raised by this project will be used for research, public and professional education and financial assistance in the March of Dimes fight to prevent birth defects which affect 250,000 children born each year in the United States.

The walk is open to all who wish to participate, providing they obtain sponsors. Registration forms and sponsor sheets may be obtained through the March of Dimes office, 501 North Magnolia Avenue, Suite 18, Orlando.

Personal Incomes Below Norm Here

Persons living in Seminole-Orange Counties have personal incomes lower than the average United States citizen.

Figures just released by Bureau of Industrial Development, Florida Commerce Department, disclose the average worker in the two counties earns \$3,038 a year compared to \$3,400 U.S. average.

Prepared under the direction of Lt. Gov. Tom Adams, the recently completed study of employment through industry and earning by state employees, entitled "Florida in the Seventies," relates that Florida's total personal income off all her people has reached \$22.3 billion in 1969.

Only nine other states are as wealthy but the facts also show that 40 per cent of all Florida's households live on incomes of \$3,000 a year or less; 64 per cent of state households live on incomes of \$5,000 or less and the per capita personal incomes of all Floridians is \$3,325 compared to the national \$3,687 average.

City, State Oppose Delay Is County Scuttling SR 46?

By BILL SCOTT

In the new Seminole County Commission trying to scuttle the SR 46 west improvements now just about to get underway between Sanford and the Wekiva River?

This is the question that concerned the Sanford City Commission at last night's regular meeting after reading published reports that at least two county commissioners have indicated objections to acquiring four lanes.

"A change at this time would seriously delay improvement of west State Road 46," said C. A. (Bill) Benedict, Deland district engineer of the State Department of Transportation, this morning when apprised of the basic between Sanford and County Commissioners.

"All work of appraisal has been completed," said Benedict. "All work on aligning right-of-way has been completed. We have acquired some right-of-way and are pretty well along in acquiring all necessary right-of-way for four lanes although only two lanes of improvement is scheduled at this time.

"It is rather late now to

change the overall plans," he continued. "It would mean going back and redoing everything we have done in the last five or six years. It would be time consuming."

rights-of-way so two lanes can be straightened and paved.

City Manager W. E. Knowles said the county's action might mean that the SR 46 project might be headed into limbo.

"The State Department of Transportation has been in the process of acquiring four lane rights-of-way for reworking the road from Sanford to the Wekiva River," Knowles advised.

City Attorney W. C. Hutchison said County Commissioners Greg Drummond was against the road project before and is still against it.

Knowles interrupted to comment that the County Commission is talking about changing road priorities, and suggested a visit by the City Commission to discuss the situation with the county counterparts.

After more discussion Mayor Lee P. Moore said he would first meet with Drummond to determine the exact county position on the road question before involving the entire City Commission in the matter.

"The State Department of Transportation has been reported as being against the acquiring of four lanes rights-of-way, even though the past county Commission supported the proposal to rework the highway.

Kimbroch was quoted as saying he would not be bound by mistakes made by past county commissions.

C. A. BENEDICT serious delay

Airport Studied For Jail

Sanford City Manager W. E. Knowles has been asked to study use of Sanford Airport building 310, a 40,000 square foot former Navy barracks, as a possible city jail-police security complex and municipal court.

Acting on a motion by Commissioner W. Vincent Roberts, the commission moved to instruct Knowles to study relocating the judicial complex from its present location adjacent to the city hall to the airport property.

Mayor Lee P. Moore said if it is determined the airport structure could be utilized, it would require approximately two years before the facility could be ready for occupancy.

Moore elaborated on the necessity for doing something about the deplorable conditions of the present city jail and further advised the present plumbing is not working properly and added that several leaks were apparent after Monday's heavy downpour.

The city manager said he would have a face-to-face meeting with the Federal Aviation Administration (FAA) to determine if that federal body which oversees the airport would square a reduction in the \$1 a square foot lease rate.

The building is presently being advertised in state newspapers for lease and was also offered to the state for establishing a police academy to train law enforcement officers.

The State Cabinet delayed a decision on using the structure for training after Mayor Moore and Sheriff John Polk made three trips to Tallahassee and lower the lease price as an inducement to land the academy.

Commissioner J. H. Crapps indicated the only commission opposition to the jail relocation.

He said the airport is two miles from downtown and stressed the need to keep a downtown facility as a convenience to persons paying traffic fines but acknowledged that the jail situation is such that something must be done.

CULPRITS HAVE ALREADY BEEN CAUGHT
WINDOWS were demolished at Hopper Elementary School Monday night by three juveniles using a heavy board. Charles Robert, above, school principal, surveys the scene which greeted him this morning when teachers arrived at the Celery Avenue 1-5 grade facility to begin classes. Sanford Det. Sgt. William Lykens said two of the 12-14 year-old suspects had been charged and a third is being hunted by authorities. (Staff Photo)

Traffic Insufficient For Overpass

By MARIAN BETHIA

County Engineer William Bush gave a comprehensive report this morning to County Commissioners relative to the traffic conditions at SR 436 and Hattaway Drive in Altamonte Springs. This is the area concerning which much discussion has transpired due to hazardous conditions of the traffic pattern for children attending Altamonte Elementary School.

Bush told the board that it had been impossible to ascertain the exact number of students using the highway; that the district school office listed the count as 45, but Principal

James Murray count a room count established as 64. A daily and hourly traffic count was taken by the DOT on Feb. 5. Bush, in his report, said that SR 436 is a primary state highway under the jurisdiction of the Florida Department of Transportation.

The hourly count on SR 436 (by the DOT) was a total of 3,499 for the hours of 8 a. m. and 3:4 p. m. There was no pedestrian accident experience.

In his analysis, Bush stated that traffic regulations must be obeyed by responsible drivers, that regulation of student crossing activity is currently provided by an adult crossing guard, that regulation of traffic is a function of law enforcement officers, and is being provided by the county sheriff's department and Altamonte Springs, that the practice of assembling children and directing them across in a group while traffic is halted is ineffective, and further that the volume of students crossing does not appear sufficient to warrant overpass construction.

Bush noted that overpasses in this area have been constructed for student volumes in the range of 300 students. He continued that the student volume does not appear to be sufficient to satisfy warrants for a pedestrian operated traffic signal.

Bush recommended that there be continued enforcement by the law of existing regulatory

signs and signal devices for the time period required for students to cross. He further recommended that the operation of the existing flashing signals be reliable and correctly timed, and that in the event that school buses are off loading children

on the south side of SR 436, as has been alleged, such practice be halted and the buses involved directed to drive to the school.

In the event that the municipal government determines the need of additional study, it is
