HAVANA (UPI)- Premier Fidel Castro lashed out early today at government censors who try to "muzzle" Cuban heroes by deleting references to God from their historic utterances.

Castro was incensed by the reading at a mass meeting here of an abridged version of a slain leftist's "political testament." The words "we trust that the purity of our motives will find favor with God" had been cut from the passage.

"Have we fallen so low that we must omit these lines because they speak of religious convictions? . ." Castro demanded in a 68-minute speech. "This was the act of a lackwit who has confidence neither in his own ideas nor in Marxism, who considers history as something dead and rotten."

The premier also "suggestto that use hame of the Rebel Youth Association should be changed to the Association of Young Communists.

Step In Right Direction

The Sanford Business and Pro-fessional Women's Club has started an extensive program which deservery the support of every organization in-

Seminole County. The club, which for more than 10 years has sponsored dental care for the lass fortunate children of our county, plans to purchase an X-ray machine and other equipment for the health center. It also donated \$100

to get the drive under way. They want and must receive another \$200 within the next seven days to purchase the machine.

We urge all residents or community clubs to send contributions to Roy Mann, at the Sanford Atlantic Eank or, any member of the club, Last year the need for this care increased to such an extent that the

club was not able to finance all of it so the Kiwanis' Club was called on for assistance. According to officials of the club

it was brought to their attention that the county health unit had a partially equipped dental clinic but no X-ray machine.

It also was learned that two dentists had agreed to donate their

time and lend their dental assistants at least one afternoon a month to provide care for needy children. We feel that if ye could get a clinic in operation there would be other denista who would be willing to contrihule their efforts to the success of the clinic.

There are many children in our county who are neglected because their parents cannot afford to pay for full dental care, but who could and would be willing to pay a small fee. With this voluntary contribution and the help of the Dusiness and Professional Women's Club we believe that a clinic of this kind could be self-supporting.

Applicants for this care would be handled through public health nurses and would be investigated as to family income and family responsibility. Only the deserving cases would be considered so that the clinic would not be a detriment to cur local dentists. There would also be no fixed charges, contributions would be entirely voluntary and children would come from families where dental care would be denied them because of their inability to pay full dental fees.

What do you say to that? THE OTHER WOMAN

DEAR OTHER: I say, quit kidding yourself. YOU may be honest, faithful and loyal to him-but he is lying. cheating and two-timing his wife. If you should realize your dream-what will you have? A man who is welltrained in the art of cheating on his wife. Congratulations!

DEAR ABBY: I am ten years old and have a problem. My grandparents always talk Italian and I can't understand them. They have been in this country for about 25 years and it's about time they learned English. I guess maybe they can, but they don't. How can I get my grandparents to talk English? They KISS me in Italian, too, which is very rough. TROUBLED BOY

you! And when they kiss you in Italian, say, "Grazie, e basta!"

DEAR ABBY: I just can't understand my husband. Due to strikes, lay-offs and sickness he hasn't worked steady in two years, but he is so self-conscious about going bald that he goes to a hair place for treatments twice a week. I have had to go to work nights to help out. The kids even put cardboard in their shoes, but that didn't bother their father. I told him to quit worrying about his hair and to feed the kids. but it was like talking to the wall. 1 think there must be another woman he's trying to please because I've made it plain I don't care if he has hair or not. What makes a 52-yearold man act like this? HIS WIFE

DEAR WIFE: Vanity. The kind he must feed at the expense of his family.
