## Presidential Veto Seen For War Bill

By CARL P. LEUBSDORF **Associated Press Writer** 

WASHINGTON (AP)-An almost certain presidential veto awaits the compromise version of Senate and House bills to limit the war-making powers of a president.

The Senate measure passed Friday would allow a president to commit U.S. troops for 30 days without congressional approcal in casr of enemy attack or to

> Before going to the White House it must be reconciled with the House version, which would make that period 120 days and would narrow conditions under which the president can act. The outcome of the long battle to enact such legislation appears now to depend on whether Congress, particularly the House, can muster the two-thirds vote to override the veto President Nixon hreatened earlier in the week.

The Senate passage of the measure was 71 to 18, ot 11 votes more than the two-thirds Senate leaders are confident they will be able to muster to override. First, however, if the bill is vetoed, it will go to the House. Its margin on passage Wednesday was 244 to 170, or 32 short of two-thirds.

Some negative votes were cast by liberal Democrats who feared the bill could president war-making powers he doen't have under the Consututuin. Some of them might switch sides and oppose the expected Nixon vote.

On the other hand, Republicans who supported at my home with Sheriff John the bill will be under strong pressure to uphold the Polk. (Nan, he didn't give me a President, so the outcome remains in dount.

The results of the special referendum to create a Sanlando Fire Control District, west of the Longwood city limits, are still not certified.

On advice of Assistant County Atty. Howard Marsee, the county commission has decided to work with Supervisor of Elections Camilla Bruce's office to weed out the names of persons on the voting rolls in that district who wee really not eligible to cast ballots in the election two weeks ago.

They are requiring documented evidence that questioned names are now deceased or have moved elsewhere. Only II persons on the list have to be declared ineligible for the referendum to pass.

The emergency system, 911, may be some years away for the Central Florida area, but the county commission has come up with an idea for a seven-digit emergency number which could go into effect in a matter of months in Seminole

The cost was mentioned at several thousands of dollars. The commissioners discussed the problems operators on such a line would have if a homeowner located between Longwood and Lake Mary should call for a fire department

to answer an alarm there. Commissioner John Kimbrough pointed out while the area actually has no fire protection, Lake Mary will respond to calls. But an operator looking at a map would not know

There will obviously be many fine points to iron out before any emergency telephone system goes into effect.

### A Litter Deputy

Sheriff John Polk told county commissioners Friday while a sheriff's sub-station, slated for the Wekiya Springs Road, is needed, it is not in his budget this year.

Touting the virtues of a sub-station, Polk said people could go there to post bonds rather than being taken by a deputy to Sanford for the process. He said this would save quite a bit of patrol time. He added that gas pumps could be located there and thus deputies would not have to run to the road department at Five Points, as they are patrolling the

Commissioner Dick Williams suggested to Polk comsideration be given in his \$1.9 million budget to hiring a deputy to enforce litter laws.

Williams said strict enforcement of the litter laws wouldadd to the ethetics of Seminole. An estimate of \$10,000 to \$15,000 for the first year was given for the special deputy's salary, automobile and other expenses.

### Other Thoughts

There was great relief when the Communist Vietnamese and the United States agreed on a

cease-fire beginning Jan. 27. But although the United States got out as agreed, fire didn't cease as agreed. The Communists continued their presence, their advance, their warfare against South Vietnam.

So there was new negotiation in Paris. And there was new agreement for a ceasefire. But the Communists continue their war of aggression. They still intend to take South Vietnam and the rest of Southeast Asia.-Chattanooga (Tenn.) News-Free Press

It is a grave matter, but again one the courts must adjudicate.

The vehemence of the Mitchell denial of the Magruder-Dean testimony relating to break-in plans is just one of several recent events that will be helpful in achieving a balanced outlook on the entire Watergate affair. Among the others is the growing evidence that laws alone do not clean up elections. Current federal codes, for example, forbid cor-

WASHINGTON (NEA)

A Vietnamese-speaking friend, for five years a prisoner of the Viet Cong and the North Vietnamese, and I had a fourhour talk a few days ago on the bitter in-fighting now going on between the VC guerrillas and forces from Hanoi. In our minds was the belief that if disunity among the northern invaders and their southern allies was great enough, then South Vietnam has a chance of surviving as a

This would lessen chances of U.S. reinvolvement and be a

major step toward stability in Southeast Asia. As my observant triend described what he heard and saw while being taken from place to place in South and North Vietnam over the years, every month it seemed the struggle between the southern VC and the Hanoi forces grew deeper. Lesser-educated and less efficient men got the promotions in the army. Better-trained, more highly educated and efficient southern Communists were passed over.

As time went on, the incoming officers and civilian cadres sent from the north grew younger - and more arrogant. These inexperienced young men made certain their southern allies knew who gave the orders and who obeyed - regard-

The territory occupied by the mainline northern troops was clearly marked. Southern Viet Cong units could not move through - they had to go around. They moved when the northerners said move and stayed put when the northerners said stop. The southerners were used in screening and assault probing actions taking the heavy casualties. Despite talk that northern mainline troops would go underground, my friend was emphatic in his belief these foot sol-

diers would be ineffective as guerrillas or civilian cadres. They'd likely do more harm than good to the Communist Both the North Vietnamese and VC, however, have a maor capacity for organization within the territories each holds. Their tenacity and their skilled and persistent propaganda, their active adult education programs which combine eaching and mind control, their ever-present, mutual-devel-

opment projects for rebuilding the countryside, were and are effective organizing tools. But if the VC-North Vietnamese conflict deepens, if resentment of the northerners as foreigners grows deeper among the VC, and if disdain of the southerners as inferiors continues to increase among the Hanoi invaders, then in fact there will be three "states" in South Vietnam - the South Vietnamese nation government by President Thieu, the Viet Cong lands and the southern territory controlled directly by

This is the situation now apparently developing also in

It may be the United States will, in the end, have enabled the South to "win" the war (in the sense that Saigon will be able to keep its independence) by withdrawing our troops and that Hanoi, finally, will lose because it did not follow Mao Tse-tung's advice and pull out its armies.

Except for the Seminole Pony League All-Stars and the Sanford Senior and Junior Leaguers there will be no further tournament participation on the part of baseballers from Seminole County despite an abundance of well displayed talent.

While it seems that for some reason the great talent of the youngsters in the county's baseball leagues is either overlooked or completely disregarded such is not the case.

In reality it is a case of a few fellows, who control the reins of our all-star teams, trying, unsuccessfully, to accomplish maneuvers that put them in the spotlight rather than the

Getting right down to it the main problem is trying to "play games" with the pitching staffs of the teams. "Saving" your ace for that second or third game of the tournament is all well and good, providing your other pitchers are good enough to carry the team. But since most tournaments are single elimination the saving of the ace for "another day" can and often is disasterous.

### Strategy Masters

We are not intending to direct this charge at any one certain individual since there were many fine all-star teams from Seminole County which did not make it past the first game.

Often the all-star manager who makes this mistake is not in the same position the following year since the selection of the all-star coaches are made on the basis of the team records each year and it's difficult to be a consistent winner. Thus, the new all-star coach maps out his "strategy" upon his team's winning the league title and his election to the new post.

This is where the preceeding all-star coach should offer a little advice. Regardless of how or whether it will be taken, the suggestion should be

The "golden rule" in this case should be the old adage that "you should play each game, one at a time."

### Here's An Exception

There are a few exceptions to the aforementioned piece about little league baseball managers. One of them is Paul Ryan of the Seminole Pony League American All-Stars. Ryan's boys lost to the Nationals Friday

night after taking an early one game lead in their best of three set. Ryan went with his best from the start and while it didn't pan out the coach was still of the belief that it was his fault the

Americans were beaten. "It was my responsibility," said Ryan afterward. "Perhaps I did not get them up for the

Ryan refused to make any excuses even though his ace hurler, Bob Welker, had worked a tough seven innings Wednesday and then started again Friday night.

"He (Welker) had enough rest," said Ryan. "We just got clobbered." The Nationals are the district champs but

the Americans have to be a winner also. With a manager like Ryan they had the opportunity to play for an individual the likes of which are rare

### Sanford Juniors Play Monday

One "interested" Sanford Junior League fan

took the time to write and ask why The Herald's sports pages have not been following the Junior League All-Stars who've been "hard at work" preparing for the upcoming state tournament. Seems somehow we've been ignoring the Junior League Stars who have not played their first tournament game as yet. That comes

Sorry, we do not give on the spot coverage to practice sessions of little league all-stars. When they play a game, we'll have a report.

### Clinic Reminder

Area baseballers are reminded of the baseball clinic to be held this Sunday at the Valencia Junior College.

College assistant coach and the new head man at Valenica has undertaken the task of lineing up four top notch professional scouts who will act as instructors.

The Clinic is for boys ages 15 to 18 and each youngster is to bring his own glove and shoes. Scouts from the Kansas City Royals, Cincinnati Reds, Montreal Expos and Philadelphia Phillies will be on hand.

Dutch Warmerdam shatters the 15' vaulting barrier

It's late afternoon and only a few fans remain in the stadium. We're at the University of California campus at Berkeley and the weather for this track meet has been excellent. All day there have been some good times but no world records have been broken.

However, at the end of the pole vault runway right now is a man preparing to attempt breaking a world record. The man is Cornelius "Dutch" Warmerdam, an algebra teacher from Hanford, California. Warmerdam is not only going to attempt a world record, but he is also attempting to shatter the inshatterable fifteen foot barrier of pole vaulting.

The world record for this event is 14'11" held jointly by Bill Defton and Earl Meadows. The bar is now at fifteen feet. Warmerdam missed this height on his first attempt. Despite the odds against Dutch, or any man of clearing this height, Warmerdam looks confident as he glides, then sprints, towards the vaulting box.

The pole is planted and Warmerdam is pulling his body skyward. The pole is a foot shorter than the cross-bar but Warmerdam's body gracefully extends up on the pole and he pushes himself cleanly over the bar. He makes the long fall into the tiny sawdust pit below.

The small crowd here has just witnessed the breaking of a long standing track and field barrier. A lean, blonde pole vaulter from Hanford is now an historic sports figure.

Otherwise, Henry's not really being harassed. Forget what 'my good friend, Bowie Kuhn," purportedly told Howard Cosell about the 5,000 hate mail letters a day. It ain't so. Henry's real problem with the Braves is playing baseball he can't run; his reflexes are bad in the field, and he can't throw. Or play first base either ("That's no place to hide, he confessed). That's why Henry's straining to break the record this year. So he can quit and avert the boos for just being a bad 40-year-old ball player.

Q - Can you tell me if Willie Pep ever fought Sugar Ray Robinson? I say yes, when he fought under the name of Smith. - Charlie Firine, New Haven, Conn.

## JAHANA HAMANA

Why risk the future of your farm? Check it out for safety now. Machinery in good repair? Electric equipment up-to-date and wiring adequate? Tools stored where they belong? Lofts, ladders and silos secure? Fire hazards corrected and extinguishers working? Keep on the lookout constantly, and teach precautions to family and hands. See that safety rules are observed. When you make safety a habit, there's less room for error. Remember, safety means profit!

Make these rules and keep them. No smoking in barns. No fooling on tractors . . . and no putting off repairs! Keep safe and secure.

### First problems first

By Joanne and Lew Koch (Note: Today's column is written by Lew.)

Occasionally I find myself in the position of a conservative, nay, a reactionary.

It happened again after reading a long article on the problem of sex stereotyping in classrooms which, the New York Times reports, has persisted despite the best efforts of

The article was replete with publishers combining their mea culpas along with the Fifth Amendment. Some even came close to saying that they are not now, nor have they ever been, card-carrying sexists. Frankly, the problem of sexism in classroom literature

ranks about 27th on my list of "must rectify immediately." just after my fear of being nibbled to death by ducks and st before my concern over being unable to read the Dead Sea Scrolls in the original. "Let us return to the golden days of yesteryear." the radio

announcer used to say just before introducing the Lone Ranger and his faithful, pre-Wounded Knee companion. Ton-

Right, let us return to the golden days when one assumed

there were a multitude of problems on this earth and that

since all the problems couldn't be solved one had to establish Before the publishing industry turns itself upside down looking for stories about female mechanics or female bartenders, or female whatevers, let's establish just how high up

on the list of "must rectify immediately" sexism in the classroom really is. Here in my opinion, is a short list of problems that decide-

y take precedence over the one currently in vogue with cer-1. Hunger. I'm more worried about the little girl suffering

from malnutrition than the one who finds "Dick" in her first

grade primer to be a budding chauvinist and "Jane" an Aunt Doris (feminist lingo for female Uncle Tom). 2. Inadequate housing. Rats - not the oppressive male home sapiens variety but the disease-bearing rodent variety are more dangerous to little girls than pictures of mommies

baking cakes and daddies at the office. 3. Unemployment. A welfare subsistence, where the average monthly allowance for each additional child is \$35 per month, is more detrimental to little girls than history books which fail to mention the importance of Susan B. Anthony.

4. Inadequate and overpriced health care. A mom or dad whose medical bills deplete the family budget, whose untreated ailments affect employment and family relations are more damaging to a little girl than books which show women as nurses and men as doctors.

5. Rejection of the elderly, whether it be a child's own grandparents or an unrelated old man or woman, aggravates he sense of rootlessness, the lack of opportunity that many young girls or boys experience. Would all those girls who oined Charles Manson's "Family" have been driven to such a desperate and disturbed clan if they had a sense of kinship within their own families and communities?

When those five problems are on the way to being solved or even tackled, then I will begin to devote my problemsolving hours to ending sex stereotyping in the U.S. class-

By Oswald & James Jacoby in a hopeless spot. Readers of Alice in Wonderland may recall the famous CASCORD Service battle between Tweedledum and Tweedledee. Recent research on our part has located the bridge hand that caused it. Alice opened a 20-point two no-trump. Her partner the dormouse woke up long enough to miscount his points and take

of spades. "Third hand high."

Alice took her ace and looked around for some way to collect all the tricks. There appeared o be some slight chance if West would hold the king of hearts, so as a time saving play Alice led a low heart at trick two no-trump in response to your two and stuck in dummy's one club What do you do?

It held and she proceeded to rattle off all her clubs and diamonds. She discarded one spade from dummy on the fourth club; when it came to the fourth diamond she waited for Tweedledum to discard. He was obviously in great pain. Finally he discarded the

DELTONA - The Deltona Inn reopened, formally Saturday evening at 6:15 p.m. with a ribbon cutting ceremony by Roger J. Everingham, vice-president of Hotel and Club Operations for the Deltona Corporation; Debbi Erbe, "Miss Deltona"; Edmond O. Cote, new manager of the Inn and Roland Denly, former Inn manager.

A cocktail party and dinner were served the 100 VIPs attending. This included officials of the Deltona Corporation and their wives, civic leaders and members of the press. Among those attending from the Herald, were Mr. and Mrs. Walter A. Gielow, Editor and Publisher; Mr. and Mrs. John A. Spolski, Associate Editor; Mr. and Mrs. Charles Edwards, correspondent and photographer.

All present were given a tour of the newly \$1 million dollar expansion and renovation project. The Inn, now boasts a new "Three Seasons Restaurant" that seats 92 persons and is decorated in subtle tones of gold linen wall panels accented by black caneback chairs, with deep carmel medallion patterned carpeting. Adjacent is the cocktail lounge, completely redecorated to match the restaurant and overlooks a

"No longer will residents of Deltona, need to look elsewhere than their own home surroundings, to find a fine place to dine", said Roger Everingham, "here they may order "scampis in curry sauce, "pork chops Madras" or "brochette of tenderloin". Our menu is filled with mouth watering specialties. We know they will enjoy dining in the pleasant atmosphere we have provided for them and the delicious foods our chef will prepare for them."

The Coffee Shop features pale yellow barn siding wall panels, figured carpeting, bamboo chairs and chopping block table tops. It seats 62 persons.

Cote says that 77 new guest rooms have been added to the 58 former ones, making a total of 135 guest rooms available now. These rooms are beautifully furnished with brand new furnishings and the decor follows that of the rest of the Inn, in pale yellows, gold, brown and white. All rooms are carpeted ... have private bath, two double beds and color TV and all

A pleasant addition, is the heated swimming pool set in a tropical courtyard, for the convenience of the guests. Cote, recently retired from the U.S. Air Force after 20 years of operating Officers and NCO Clubs from Cape Cod to Korea, Turkey and Thailand, replaces Ronald Denly, former manager. Denley has been promoted to the post of Food and Beverage Manager at the new Marco Shores Country Club

nn, Deltona, Florida, reopened July 14 after a \$1-million exansion and rennovation program, according to Roger J. Everingham, Vice President-Hotel and Club Operations for the Deltona Corporation.

Located 26 miles northeast of Orlando on Interstate 4. Deltona Inn is conveniently situated as beadquarters for visitors to many Florida tourist attractions: 40 miles from Disney World, 30 miles from Daytona Beach, 75 miles from Cypress Gardens, 65 miles from St. Augustine, 60 miles from Marineland, and 60 miles from Cape Kennedy. The AutoTrain terminal is just 15 miles - south at Sanford.

Seventy-seven brand new guest rooms have been added to the original Inn, bringing the room total to 135. All rooms are air-conditioned with private bath, two double beds and color

All public and guest rooms have been completely refurnished, with sunny yellows and brown wood tones predominating in a conemporary decor Commenting on plans for the

A quarter-acre island makes the monkey's me look like a postage stamp. Will he have to be jungle survival courses?

The alligators, so used to sleeping three ep in their shallow, confining pools, may have adjust to less cramped quarters. Will they, o, wind up on the shrink's couch?

All of this remains to be seen, but society ficials, seriously, admits that there will have to a necessary readjustment period.

'The animals will have to adjust to their new seedom, but we want to give them the most tural setting possible.

"If they don't want to be on display, or come it in the open, they won't have to," Nelson ated, adding that he and the society are acally more concerned about the animal's safety an the viewers; hence the moats.

The view is impressive, it reminds one of riger, more famous zoos that long ago decided e value—both asthetically and safety—of using e most theme.

That's where the real zoo is. In the park. Sit quietly and watch, hear and feel the animals around you. You are—can be—one of them. One with them. I can hardly wait.

LIBRA (Sept. 23-Oct. 22) Sunday is not harmonious for other than the routine, but the week grows better. Important developments if born near Oct. 12. Friday better for health matters. More inspiring.

YOUR WEEK AHEAD

ARIES (March 21-April 20) Activity high. Temper tendencies are toward rebellion. Moderation is the key. Yet, creative urges very important. Youth can make strides if discreet, particularly on Thursday.

VIRGO (Aug. 23-Sept. 22) Many uncertainties Sunday, Monday, Tuesday, Friday, Saturday best for seeking what you want from life. Favorable for attention to health matters, diet. Complete routine details.

SCORPIO (Oct. 23-Nov. 21) Guard against accidents Sunday, Monday. Domestic affairs a bit off-balance. Tuesday inopportune for important matters. Friday, Saturday better for educational matters, travel.

SAGITTARIUS (Nov. 22-Dec. 21) Relax to help avoid nervous tension. Wednesday, Thursday unstable. Avoid acting except to finish routine work. Gain ample rest. Preserve strength. Better next week. CAPRICORN (Dec. 22-Jan. 19) Except for Monday, Tuesday, which are more creative, see this as an off-week. Shun the too-unusual. Don't

make it hard on yourself. You could turn out to be the goat. AQUARIUS (Jan. 20-Feb. 18) Be diplomatic and considerate of others' views, interests. Tuesday can bring much in the way of coincidence and

perhaps the spectacular. Rest of week begins to tone down. PISCES (Feb. 19-March 20) More energy through Tuesday. Protect home interests Wednesday, Thursday. Feelings are creative Friday, Saturday. Social, romantic matters uncertain as confusion and doubt arrive.

## Hit-And-Run Driver Caught In Georgia

TAMPA, Fla. (AP)-A driver who police said killed two young Tampa girls in a deliberate hit-and-run incident surrendered to police in Baxley, Ga. Sunday

Raymond Alwyn McMahon was being held in jail on two charges of first degree murder, Appling County Sheriff J. B. "Red" Carter said. The sheriff said Mc-Mahon has waived extradition to Florida.

McMahon, 31, was hunted by police for more than a week in the deaths o Roxanne Caton, 13, and her sister, Rabyn, 5.

Police said the girls were walking outside their Tampa home July 14 when witnesses told police a blue and white car made several passes through the block, then suddenly swerved from the opposite lane and lunged into the Caton children from behind. Curtis, 12, who was walking along with his sisters, was injured slightly.
