

Baby Banks Sound Knell Of Death For U.S. LoanSharks

Over Billion Annually Picked From Poor Man's Pockets By Thieving Institutions

Children's Notes: Clerks, office workers, and storekeepers are resorting bankers, as result of the federal legislation authorizing organizations of Credit Unions. Credit unions, they are sometimes called, There is practically no capital necessary, and no assets. All that is needed is a small amount of stock which is ownership in the same place, membership in the same church, or even residence in the same neighborhood. The power of the baby banks is to prevent them from giving a borrowing power at a small rate of interest and in return to collect a high rate of interest. This is the main point of the baby banks to prevent them from giving a borrowing power at a small rate of interest and in return to collect a high rate of interest.

MIAMI Mar. 9.—More than \$1,000,000,000 is being picked from the poor man's pockets each year by loan sharks!

This is one of the startling facts uncovered in a survey made by those who campaigned for the legislation for credit unions.

A former secretary of the interior under Ex-President Mario G. Moncada, Alvarez was one of the original chieftains of President Mendes' nationalist party.

A bomb heavily damaged one of several water mains at Maranhao which carried Havana's water supply, late yesterday afternoon, in the newest flare-up of the intermittent violence punctuating the storm of strikes raging around the Mendes government.

Even in states where small loan companies are operating under state charter, such as in Florida, the 3½ percent a month interest amounts to 42 percent a year. In the baby banks the maximum amount of interest permitted is one percent a month or 12 percent a year. It is a fact amounts to even less than that when it is considered that only members may borrow and that any net earnings of the organization are distributed as a dividend at the end of each year.

But the loan sharks, and the larger ones were organized thrive on depression and grow fatter as the poor man grows thin under a burden of debt which in many instances he is unable to pay. It was because the leaders of the loan sharks in many states prevented any action for organization of the baby banks, that the federal government stepped in and authorized such organization.

These baby banks, which are launched by any group with a community of interest, and without capital or assets, are expected eventually to sound the death knell for the loan sharks. They are also expected to encourage shift among the thrifites. Payments as low as 20 cents a month may keep a member in good standing.

Throughout the nation, there are about six out of every seven mainly employed persons using credit and so they are adversely affected by unwise-use ratio, a recent report of Averitt and Co. declared. The Averitt firm was one of the first to encourage the idea of credit union banks.

The Senate banking and currency committee, which studied the baby bank legislation and recommended it to Congress, said in a report:

"The national problems with which the bill has to do are problems with which we are concerned. At a time when industrial recovery depends on the buying power of the masses of the people, usurious money lending in amounts which are now figured in billions of dollars annually, obviously destroys vast totals of buying power, represented by the difference in what the average worker should pay for credit and what he actually does pay for credit."

As in the case of the Miami Daily News baby bank, the unions are launched with virtually no expense. Aside from the initial cost for charter and supplies, amounting to approximately \$100, there is no expense. Officers usually serve without pay and as in the case of the Daily News, the employer provides the office space.

As a result, even with the low interest rate of one percent a month on the unpaid balance, the baby banks are able to operate at a profit, which is returned to the members in the form of a dividend at the end of the year.

Detailed plans for organizing a credit union may be procured by writing to S. E. Orchard, Director, Credit Union Section, Farm Credit Administration, 5200 E. St., N. W., Washington, D. C. Application forms for applications and other necessary detailed information.

Water emptied from the Manhattan, Kan., municipal swimming pool saturated in a temporary irrigation system in water trees and grass in the city park during the drought.

Havana Placed Under Virtual Martial Rule

(Continued From Page One) to break strikes gripping the nation.

The cabinet authorized the secretary of the interior to issue provisional licenses to individual citizens to carry arms, this in order to give employees filling strike workers' jobs means of protecting themselves.

Shortly afterward police at Camagüey struck at Autentico party one of the leading groups opposing the government, arresting Aurelio Alvarez, one of its national leaders.

A former secretary of the interior under Ex-President Mario G. Moncada, Alvarez was one of the original chieftains of President Mendes' nationalist party.

A bomb heavily damaged one of several water mains at Maranhao which carried Havana's water supply, late yesterday afternoon, in the newest flare-up of the intermittent violence punctuating the storm of strikes raging around the Mendes government.

With some observers expressing the opinion that the strike movement threatened the entire political, educational and commercial structure of the island, the Adminstration faced this situation.

All but two government departments partially or completely paralyzed by walkouts.

Nearly 400,000 school teachers and students out of classrooms leading the movement for Mendes' overthrow.

Street car traffic in the city of Havana almost completely stopped the few cars operating having been seized.

Newspaper publications continually exposed the acts of strike leaders preventing government censorship.

Emergency hospitals and first aid stations functioning in makeshift style because workers were out.

No doctors had appeared because of the strike of the 7,000 hospital department employees.

Post offices closed, mail service discontinued, telephones off the hook, telephone exchange office was closed.

BORAH SCORES TRUSTIS UNDER RECOVERY ACT

(Continued From Page One) to trustis to invest the small industries of the country."

Senator Ford, whose voice has sounded often in recent days against the Administration, also hastened to add his criticism of the NRA in the debate.

Boxers To Fight On Tuesdays In Future

Future Sessions Box Athlone Club bouts will be held on Tuesdays instead of Friday night, it was announced by club officials this morning.

The change is being made so as not to have weekly bouts conflict with school activities which usually are increased on Friday nights.

Last night's bouts were as follows:

Lindbergh Hall and Billy Barron and Pete Tully fought to draw decisions; Giles Chapman lost to Laurence Barron; Paul Moore lost to Frank Weeks; Charles Cameron won over Henry Lovell.

BOWLING NOTES

Hi-Grade Bakers won, 209, of three games from Kenwood Battery Shop team in a Sanford Bowling League match played last night.

TIGERS SIGN 'DIXIE' HOWELL

Professional baseball has planned one of Alabama's most famous athletes, Millard "Dixie" Howell, the grid star who almost single-handed upset Stanford in the Rose Bowl game last New Year's Day. Howell signed a contract to play with the Detroit Tigers and began immediately to pack for the trip to Lakeland, Fla., to train. Here he is shown in his name on the dotted shirt.

NUMBER 102

Ten Killed In Week-End Riots In Cuba

Havana Streets Are Deserted Except For Soldiers As State Of War Exists

HAVANA, Mar. 11.—(AP)—Five bodies of persons killed in Cuba's wild week-end of fighting were found today in the exclusive residential suburbs of Havana itself, lapsed into a trance-like calm under "state of war."

The discovery of the bodies in Marianao and the death of a wounded man in a hospital brought the total number of dead over the week-end to ten. Havana's streets are practically deserted except for soldiers and sailors.

Many stores which opened for business had no clerks and the owners themselves made transactions.

Although railroad men are on strike, soldiers forced a train at Camaguey to take a car into Havana.

A bomb was exploded in the rail zone building at Camaguey. The entire island is paralyzed commercially. Union after union joined the revolutionary strike for a nation-wide strike. The rest of the island was created with security; the one vote necessary to attack the McCarran-Walter amendment to the big relief bill over President Roosevelt's opposition.

Today, after weeks of delay, relief measure was back in the Senate without the prevailing wage amendment. But this time Long threatened a new delay by removing demands for a Senate investigation of Postmaster General Farley.

The House was unable to pass the measure to repeal the requirement for publicity of important figures on 1934 income tax returns. Passage was forecast.

Anxious to expedite action on the long-delayed Administration's \$4,800,000,000 relief bill, Democratic leaders yesterday assured the Senate of an early vote on the bill.

Senate residents were vacating Davis in the heart of the Everglades.

James residents were vacating Davis in the heart of the Everglades.

The fire swept along a seven-mile front, over between 5000 and 6000 acres, in 11 sections of the Everglades.

Smoke smudged the skies over a wide area, cutting visibility to several hundred feet.

An east wind held the fire away from the hamlets. A change in wind directions would route the fire down into Davis and probably into Griffin.

(Continued on Page Five)

MUCK FIRES MENACE
Such Citrus Groves

A large audience of patrons and friends attended the meeting and dinner of the Cecilian Music Club held Saturday afternoon at the home of Mrs. Fannie S. Munson.

At the close of the piano selection, Mrs. Munson gave a talk on the national songs of America, including "Hail Columbia," "American Battle Hymn of the Republic," "Maryland, My Maryland," "Yankee Doodle," "Dixie Land," and "The Star Spangled Banner."

She gave a brief sketch of Daniel Emmett, composer of "Dixie," who died at Mt. Vernon, Ohio on Jan. 18, 1915, and organized and directed the first negro minstrel show exhibited in America. In 1857 she was a member of Bryant's Minstrels. She wrote his famous song, "Dixie" to be used as a "walk-around" for the next evening's show. In later years Emmett traveled with the famous Al G. Fields' Minstrels and at the age of 60 sang and danced at each night's perfor-

Mrs. Munson noted that during the Civil War "Dixie," written by Francis Scott Key, a Southerner became the official song of the Confederacy and "The Star Spangled Banner," written by Francis Scott Key, a Northerner, was adopted as the official song of the Union and the "Star Spangled Banner" is today by Act of Congress the National Song of America.

The melody of each song discussed was played by Mrs. Robert Herndon, cornetist, with Donald Lamont furnishing piano accompaniment. The music numbers included the following:

Padre of the Dragons, Rose with Mary Nell Smith, Marian Chase.

Holiday Transcription, Nevin Whaley—Doris Reckley.

Wood Nymphs, Harp, Florence Bruce, Lois Mertenthaler.

Zemphira, Weston—1st piano.

Sister Smith—2nd piano, Fredie Fields.

Childhood Night Song, Spaniard—Lois Caldwell.

Hungarian, DuVal—Janice Moss.

Petite Danse, Schawenska—Eliza.

John Whittington, Gretchen Morison, Fannie Reba Munson.

Light Polka, Giuliani, Ellen Morris.

March of the Sugar Cookies, Eva.

Violin Caprice, Newland—Minnie Strange.

Romanian Overture, Rubenstein.

Mrs. George Knight.

Le Bon Amour, Schnettler—Doris Reckley.

National Airs, Mrs. Herndon, Corbett, Donald Lamont, piano.

AUXILIARY MEETS

The regular meeting of Auxiliary Beth Israel took place last Tuesday night at the Community House. Those present were: Mrs. Z. Fleischer, Mrs. James Toll, Mrs. Charles Kanner, Mrs. Dave Boak, Mrs. A. Jacobson, Mrs. M. Johnson, and Mrs. D. B. Levy.

points in the southern part of the field every evening at 7:30 P. M.

The partner is invited.

30 Doubles For Movie Stars To Appear At Milane

The Milane Theater tomorrow night will assume genuine Grauman accents, when 30 or more of screenland's famous will arrive at the theater to witness the opening of "Enter Madame" starring Kloss Landi and Cary Grant and to appear in the stage review. The stars will arrive at 6:45 and 9:15 o'clock.

"They are bollering 'wolf,'" said Assembliesman Langhin as the hills awaited legislative consideration here.

"The 'threats' should be taken with more than the usual grain of salt," said Assemblyman Morgan.

"Premiere" on the stage at 3:30 o'clock.

Tickets for the evening performances will be placed on sale at 2 o'clock tomorrow to avoid the congestion and crowds at the box office in the evening. The doors will open at 6 o'clock in the evening. Only capacity of the theatre will be sold at popular prices.

California Solons 'Grin And Bear It'

RACHAMONTE, Calif., Mar. 11 (AP)—Moviedom kept right on talking yesterday about deserting California to avoid possible confiscatory taxation, but supporters of drastic film revenue measures board the threats with broad grins.

"They are bollering 'wolf,'" said Assembliesman Langhin as the hills awaited legislative consider-

ation here.

"The 'threats' should be taken with more than the usual grain of salt," said Assemblyman Morgan.

"Premiere" on the stage at 3:30 o'clock.

Tickets for the evening performances will be placed on sale at 2 o'clock tomorrow to avoid the con-

gestion and crowds at the box office in the evening. The doors will open at 6 o'clock in the evening. Only capacity of the theatre will be sold at popular prices.

2-'33 Operation Costs At Raiford Prison Seen High

Star Reports That State Could Have Saved Money By Buying In Open Marts

JAHASSEE, Mar. 11.—(AP)—Auditor Bryan Willis yesterday productive departments maintained at Raiford prison for supplying feed, staffs and shoes had costs of \$92,521.96 more and 1933 that would have required to buy the products open market.

In year 1932, Willis reported the "total cost in excess net values" was \$32,832.01, it climbed to \$59,669.05 in other words," read an audit report's operations, "had productive departments increased in the market instead, substantial sum of \$92,521.96 could have been saved and approximately 300 prisoners could, perhaps been available for profitable employment."

Industries in purchasing feed stuffs, in addition to those at the prison, were a \$14,921.75 for the two

years of maintaining prisoners and climbed from \$381,896 in 1932 to \$402,344.02 in an increase of \$19,447. The expense of maintaining prisoners increased from 63½ cents in 1932 to 77 cents in 1933. There were prisoners in 1933 and 1932.

Other figures on operation of the prison were contained in an audit made by F. H. and A. A. Simmon, state auditors. Their report was transmitted to Governor Edwards yesterday by Willis.

The \$23.39 cost of maintenance of a prisoner, as reported by the auditors, was \$115.00 in Alabama, while same basic Raiford's costs those of the North Carolina system by \$115.00, annually, and were somewhat higher than the costs at both federal prison.

Administrative and general expenses of the prison amounted to \$150,630.19 in 1932 and \$142,415.22 in 1933.

Administrative and general expenses, the auditors said, were in excess of 38 percent of the total net cost of maintaining prisoners in 1932, and in excess of 30 percent of the total cost of maintaining them in 1933.

"It is further to be noted that administrative and general expenses approximated the total cost of feeding prisoners in 1932, but was approximately 13 cents per day less than the cost of feeding prisoners in 1933.

This decrease during 1933 was largely due to a noticeable increase in the cost of prison produced products rather than an appreciable decrease in general and administrative expenses.

The audit report said the cost of vegetables produced at Raiford in 1932 and 1933 totalled 40 cents a gallon in 1932 and 38 cents in 1933. The market was listed at 25 cents a gallon.

Farmers showed costs of 44 cents to produce 45,063 gallons of milk in 1932, and 44 cents to produce 51,000 gallons in 1933. The market was listed at 25 cents a gallon.

Raiford's costs of production over market were figured at 33 cents a

gallon in 1932 and 35 cents a gallon in 1933.

'Hollywood Premiere' To Be At Milane Tomorrow Night

Lights, Glamour Will Be Feature Of Local "Premiere"

Tomorrow's the night—the "stars" are here—the stage is set—seats are filling fast and from all indications everyone will be on hand to welcome the movie celebrities when they arrive at the Milane Theatre for the "Hollywood Premiere."

The big show tomorrow evening is sponsored by the Junior Chamber of Commerce and Gordon Barnett, president of that body will serve as master of ceremonies during the show.

Local talent will impersonate all of the big movie stars. A special battery of Hollywood lights has been installed in front of the theater and any stranger happening into the city tomorrow night will see Magnolia Avenue and Second Street bathed in light not even surpassed on the Great White Way.

The "stars" will appear on the Milane stage in two complete shows. The first performance will begin at 7:00 o'clock P. M. and the second at 9:15 o'clock P. M. Tickets are on sale at the box office for both shows and local fans are urged to purchase their tickets in advance so as to avoid the rush.

Shipping is rapidly coming back to the Cumberland River in Tennessee, 40 large lines having decided to put the stream regularly performed.

The 1934 kill in Mason County, Texas, averaged one deer for every 150 acres of preserves.

The town of Marshall, N. C., rigidly enforces a municipal ordinance that makes each person young or old responsible for 45 feet of fencing at his home along the railroads.

Unexpected Events Of Premiere Are Worries

All foreseen events have been arranged for, but Joe Marentette manager of the Milane, was wondering today about some of the unpredictable things which may happen when a group of movie stars begin to arrive.

One of the special worries are what may happen if Laurel and Hardy start one of their wild slapping scenes and one wild swing happens to land on a spectator. Laurel and Hardy lead their own lives . . . so do Mae West, Zara Pitts, Slim Summerville and others who will be out for the big doings.

J. A. Thom, station agent at China Grove, N. C., plans to retire soon after having been in the service of the Southern Railway System for 61 years.

NUMBER 110

Shrinkage Of City Limits Is Proposed

East Side Farmers
Will Sponsor Bill
Asking Exclusion
Of Large Section

bill will be introduced in Florida legislature next week in which owners of tracts of land inside city limits of Sanford will ask that this land be excluded from the city.

Every report tells of the reason that it does not enjoy nor has it ever done the benefits usually enjoyed by land inside city limits.

Athens, Mar. 12.—(AP)—The Greek rebels crumbled yesterday, and nightfall found the Athens government in control of all Macedonia and Thrace, with the revolutionary forces cut to pieces, fleeing to mountains and sea, and thousands taken prisoner.

Every report from the fighting

front of government successes along the line of battle.

The rebels had evacuated their strong positions at Serres, and departed—with all the money they could find in the town treasury.

Between Serres and the sea, a

strong force headed by General

Ghialistras, was sent to cut off

people of Florida ratified last

Amendment, referring to establishment by the legislature of uniform systems of local governments, carries provision that in future no bill affecting a municipality may be passed by the legisla-

ture.

Metzsch, Sr. and Frank L.

Wofford as spokesmen for

the delegation of men and

women who attended the meet-

ing announced that they are

going to proceed with the

bill which represents

the views of the county, have

New Cold Wave On

Way Into South;

Rain Covers East

By The Associated Press

Rain spatters were opened wide over the eastern half of the United States today with the weather map showing clouds and precipitation from Maine to Texas.

West of the Mississippi was fair

from Texas to Oregon with

cloudiness prevailing from Kan-

sas and Colorado northward into

Canada.

The United States Weather

Bureau at Atlanta reported traces

of snow in central Tennessee but

the flakes melted before striking

the ground and the thermometer

had not reached the freezing

point.

The Atlanta bureau said that

temperatures had fallen over-

night from Texas to the Great

Lakes the drop being as much as

30 degrees in Tennessee with

slightly lesser falls to the north-

ward.

A considerable drop in temper-

atures from the Mississippi river

eastward to the Atlantic seaboard

was forecast with the plunge to

be more pronounced tomorrow.

House Votes Repeal
Of Tax Publicity Act

WASHINGTON, Mar. 12.—

While millions of citizens through-

out the republic struggled with

their income tax returns and the

accompanying pink slips, the House

voted 204 to 90 to end the

law authorizing the Treasury

to make public the tax information

on the pink slip.

The measure will meet much

greater opposition—possibly de-

feat—in the Senate, but House

passage will not be a mandate on

the Treasury to keep the informa-

tion secret until Congress finally

disposes of the matter.

HARRY PAPWORTH "OPENS" NEW BOULEVARD

Here is the scene near the Lake Monroe bridge Sunday afternoon when a group of state officials gathered to watch Harry M. Papworth, president of the Seminole County Chamber of Commerce, cut the ribbon which marked the official opening of the new \$250,000 lakeshore boulevard.

The party right to left: Comptroller J. M. Lee; Secretary of State R. A. Gray; Mayor T. L. Dumas of Sanford; J. P. Newell, of Tallahassee, secretary to Governor Shultz; Mr. Papworth; C. B. Treadway, chairman State Road Department; J. A. Ashby of Panama City and R. V. Ott, DeLand, members of the Department; Representative E. E. Brady; State Senator J. J. Parrish of Titusville; Attorney-General Cato D. Landis; John Meigh, Sr., chairman Board of County Commissioners.

Local weather yesterday: High 83, low 68, rainfall .07 of an inch.

Barometer reading at noon today: 29.80 and falling.

The Weather Outlook: Rain and cooler tonight, with Wednesday fair and cooler. Possible light frost is predicted in northwest Florida tonight.

The government warned its employes to stay out of the general strike which has paralyzed much of Cuban business but the tollers' syndicate joined the strike to-morrow.

The City Briefer offers congratulations to Mr. and Mrs. Gifford Palmer Range of DeLand on their 11th, and Mr. and Mrs. George W. Gray three Veins Vargas on their eighth wedding anniversary.

The island have killed 200 persons since Saturday.

The government decree ordering the death penalty for all revolutionaries was signed specifically at all bombers and any person attacking the Republic's armed forces.

Carlos Hevia, former Cuban president who fled to Miami yesterday, charged that soldiers

on the island have killed 200 persons since Saturday.

The Annapolis graduate who followed Dr. Ramon Grau Nunez to the presidency, and who was overthrown in two days, said he fled to the United States after threats were made on his life.

"I consider Cuba unsafe for me at Pan-American Airport as I am at present," he said at Pan-American Airport as he strolled from the Caribbean clipper.

Hevia does not plan to return to Cuba for six months or more, he said, describing military activity as a "massacre."

Threats came to him directly and indirectly, the former president asserted.

Soldiers are invading houses at night, according to Hevia, killing them, political enemies, taking them away and killing them.

Others who were imprisoned were later taken away and shot, he added.

Hevia explained that it was impossible to make an accurate check of the death toll because of the "confusion," but information obtained from political friends gave him the estimate of 200 dead.

The presidential decree of a "state of war" was in line with drastic measures promised by the government to quench insipient revolution
