Commissioners To Get Lecture On Sunshine Law

By Karen Talley
Herald Staff Writer

Sanford Mayor Bettye Smith has asked the city attorney to explain the State Government in the Sunshine Law to city commissioners after two of them admitted discussing official business over the phone.

The law prohibits public officials from private discussion of governmental affairs that are or will be scheduled for formal consideration.

The meeting with City Attorney William Colbert, which will be held

during the commission's May 19 or June 2 work session, will serve as "a refresher course to remind us what we can and cannot do under the sunshine law," Mayor Smith said today.

She also termed "unfortunate" the April 29 phone conversation that Commissioners Dave Farr and Bob Thomas had regarding a municipal pool proposal that was scheduled for commission discussion at Monday's work session.

The mayor also said, although she

"We really don't understand what the sunshine law is, how it works and what it does. This will be a good opportunity for us to discuss it."

—Dave Farr

feels Farr and Thomas "had no harm in mind" when they engaged in the

call, a reinforcement of the sunshine law's guidelines is necessary "because infractions can turn into bigger things and possibly become a habit."

In retrospect, according to Farr, the phone conversation "technically was a violation of the sunshine law." Thomas contends it was not because the call "didn't last long enough and he (Farr) didn't say much at all. I did all the talking."

History Buffs To Discuss Possible School Demolition

The possible demolition of the oldest section of Lake Mary Elementary School, built in 1925, was scheduled to be the topic of a hastily called meeting of the Lake Mary Historical Society. The meeting was to take place at Lake Mary City Hall today at 5:30 p.m.

School official Benny Arnold said this morning a 1984 study conducted by the state recommended replacing the building.

A city official said historical society members are concerned about the potential demolition.

"In my opinion, the only historical value the building has is its age," Arnold said. "That's not a good reason for preserving a building."

Tests Show Lake Water Clearing

Initial test results on water taken from Crystal Lake in the City of Lake Mary indicate bacteria levels in the lake are dropping, giving more hope to residents that swimming will again be permitted from the lake's two public beaches.

Lake Mary City Manager Kathy Rice said tests conducted by Teer Laboratories on water taken from the lake are "much lower than we had earlier."

She said test results from Monday's first samples showed that there were an average of 1,200 coliform bacteria per 100 milliliters of water taken from the east beach, and only 680 in samples taken from the west beach.

Ellis Teer of Teer Laboratories, Lake Mary, collects a water sample from Crystal Lake, to be analyzed for bacteria content. Teer's tests are being conducted for three weeks.

Anxiety As Radiation On Rise

Exodus From Kiev

MOSCOW (UPI) — Soviet decontamination teams tunneled under the damaged nuclear reactor at Chernobyl trying to "neutralize it" today while Kiev residents clogged rail stations and airline ticket offices in an attempt to leave the Soviet Union's third-largest city because of increasing radiation from the stricken plant, 80 miles to the north.

Helicopters dumped more sand on the damaged reactor core to prevent further escape of radiation, the Communist Party newspaper Pravda reported today.

The newspaper quoted Yevgeny Velikhov, vice president of the Soviet Academy of Sciences — the country's main scientific "think tank" — as

saying the incident at Chernobyl presented problems unique in the history of the nuclear power industry.

"The specialists are ... mounting an offensive against the reactor," Velikhov said. "They are working not only close to it but also under it. Our task is to fully neutralize it, to deaden it as they say."

Pravda said a helicopter hovered over the reactor dropping sand, lead, boron and clay into the nuclear core to prevent further escape of radiation.

"The use of boron indicates the Soviets are still trying to contain the reaction inside the reactor's core," said a Western diplomat.

"Boron absorbs neutrons and is effective in shutting down a runaway reaction."

"The description of tunneling under the reactor makes sense if they are fighting a meltdown or partial meltdown. We have to assume they are trying to dig under the reactor core and lay a base of boron to try and shut down the reaction," the diplomat said.

Tass said Wednesday radiation levels over Kiev had "risen over the past few days" because of a wind shift, prompting the lines at transportation centers. The Chernobyl reactor was

crippled April 26 by a fire and explosion in what has been called the world's worst nuclear

See KIEV, page 12A

Fallout In 2 States

Fear Up In Europe

WASHINGTON (UPI) — Rain water samples in Olympia, Wash., and Bismarck, N.D., show the presence of radioactive iodine from the Soviet nuclear accident but officials say the levels are insignificant.

The levels of radioactivity in Olympia and Bismarck are so small they pose no health threat, the federal task force assessing the April 26 accident at the Chernobyl nuclear plant said Wednesday.

The panel issued similar recommendations Tuesday, when higher levels of the same substance, iodine-131, were detected in rain water samples in Richland, Wash., and Portland, Ore.

But in Western Europe, fear is increasing.

In Bonn, West Germany, European Community experts said radiation from the Chernobyl accident that could last into the 21st century. That's because the fallout from the crippled Soviet plant may be rich in isotopes that stick in the bones.

The levels of radioactivity measured in Olympia and Bismarck are "next to nothing, just a hair off from background levels," a task force spokesman said.

Iodine-131 at these concentrations poses no danger to area residents," the panel added in a statement.

But the report noted that Oregon officials have warned residents not to drink rain water.

Wednesday's daily report from the task force said iodine-131 was measured at a concentration of 170 picocuries per liter in rain that fell Monday in Olympia, and at 6.7 picocuries per liter in rain Tuesday in Bismarck.

A curie is a measurement of radioactivity; a picocurie is a trillionth of a curie.

Latest air samples from the United States and Canada show no increase in usual radiation levels, the task force said.

Contaminated air continues to move across the United States at elevations of about 30,000 feet, with more radioactivity in air flowing across the Pacific Ocean, the panel's report said.

"If additional radioactivity moves into the Gulf of Alaska or off the northwest coast of the United States, it will be carried southeast into a large storm system in the western United States," the report said.

"Rainwater from high-reaching rainstorms in the West

U.S. Stinger Missiles Said Diverted To Libya

By United Press International

A shipment of 50 U.S. Stinger ground-to-air missiles clandestinely bound for South Africa disappeared during shipment from Europe last year and was diverted to Libya, Syria and Iran, according to sources close to the arms trade.

There is at least a possibility that the missiles never existed and the tale of diversion is a cover for the illegal arms traders' inability to deliver them to South Africa. However, the sources, who spoke on condition they not be named, insist the Stingers were on their way to South Africa and then vanished. They supplied UPI with some supporting documents on the sale.

The shoulder-launched supersonic missiles were allegedly diverted through Africa — by way of Libyan-supported rebels in Chad — to Libya, with some of them going on to Syria and Iran.

Information made available to UPI alleged that the operation was set up last year in Paris by a company named Kintex, which is the name of a Bulgarian government shipping company. Kintex has been accused of involvement in the arms trade, and the Bulgarian Deputy Foreign Minister, Lyuben Gotssev, acknowledged to The New York Times last December, "There have been cases in which Kintex arms have been found in the hands of people who are, as you say, hostile to the United States."

Documents indicate the shipment was to originate from Spain, but because of shipping difficulties probably went from France. South Africa is among the nations banned from legally buying restricted U.S. weapons. Libya, Syria and Iran also are unable to buy most American arms legally.

The Stinger is a ground-to-air missile similar to but heavier than a bazooka. It is a

"fire-and-forget" weapon with radio homing on the intended target and a range of about 3 miles.

"It would make an ideal terrorist weapon," said Michael Clare, author of *The American Arms Market* and a professor at Hampshire College in Massachusetts. "But it's extremely tightly watched."

The South African Embassy denied involvement, direct or indirect. "We have absolutely no knowledge (of this)," said spokesman Peter Swenepoel in Washington.

An intelligence expert with the State Department office that licenses sensitive arms sales suggested the cargo may never have existed.

"Fraud is a distinct possibility," he said. "I'd bet money there were never any real

Stingers headed to South Africa. They're too hard to get. We don't like them for export. There's no authorized dealer in Europe, or for that matter, in this country."

"When it comes to these weapons, there are damned few deliveries made. I would lay odds the story of a cargo stolen was concocted to cover the fact the dealers couldn't make good on a delivery. It's like selling dry wells in Oklahoma," said the intelligence expert, who asked not to be named.

Stingers are among the most restricted of U.S.-made weapons. "All our contracts are with the U.S. government, and only the U.S. government," said Jerry Litman, spokesman for General Dynamics, which

See MISSILES, page 12A

Arms Merchants Rely On Corruption, Middlemen

By William H. Inman
United Press International

The world's black-market arms merchants rely on a variety of methods and routes to get sensitive American weaponry, such as the Stinger, into the hands of an enemy or pariah nation.

The first and foremost method, according to analysts, involves military corruption. "A chief petty officer at a depot in Podunk, Arkansas, may be in charge of a warehouse full of these things," said Michael Clare, an arms analyst at Hampshire College in Massachusetts. "A dealer simply buys him off."

In August of last year, six people, including a U.S. Army artillery specialist, were indicted for plotting to illegally ship shoulder-launched anti-tank missiles — similar in size to the Stinger — to Iran. Arms

dealers paid key personnel at an army materiel command thousands of dollars to look the other way as they carried off boxes from a government warehouse.

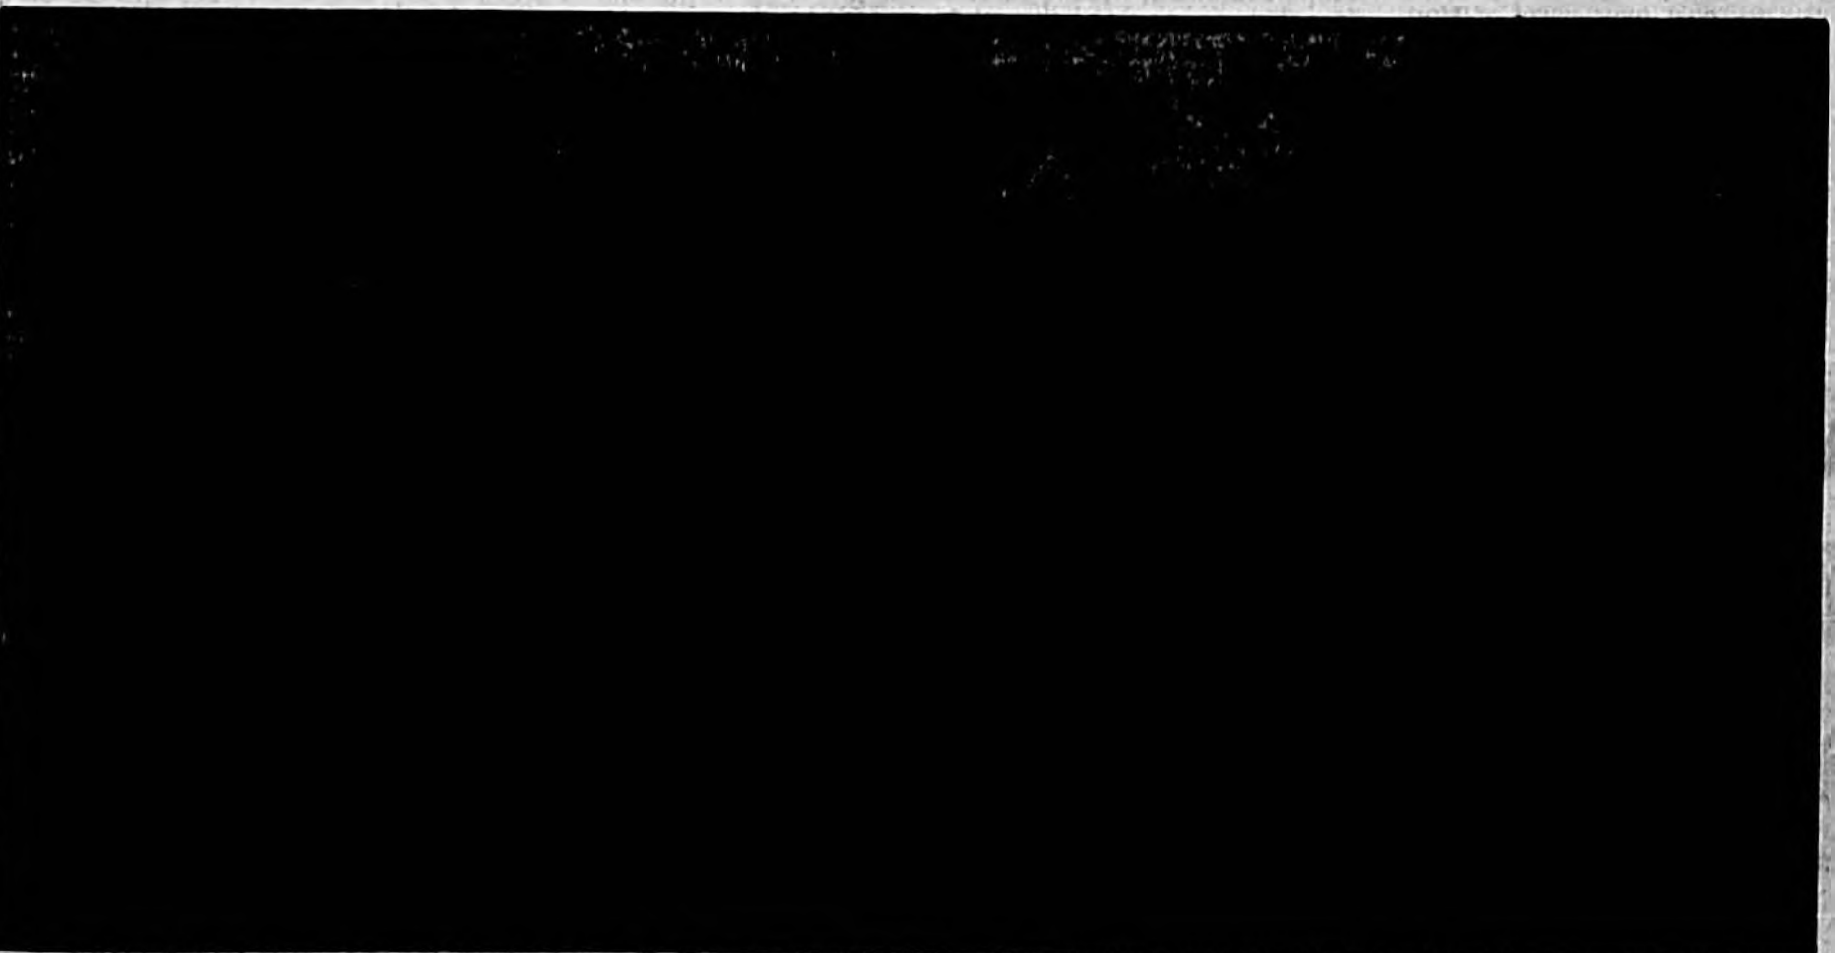

"The inventory on that materiel would not have been reviewed for many years. Meanwhile, the officers and men would have long since disappeared," said Clare.

Iran also obtained vital F-14 aircraft parts last July by bribing members of a Navy ordnance team working from a carrier base in San Diego.

Often the weapons can be broken into smaller components and smuggled out with larger cargoes. "Unless Customs knows what to look for, the cargo will go undetected," Clare said.

A common practice is to ship so-called dual-use equipment through legitimate

NATION IN BRIEF

President Returns Smiling Saying Allies Are United

WASHINGTON (UPI) — President Reagan, back home after his 13-day Asian journey, says the Tokyo Economic Summit showed allied leaders are "united in purpose" and terrorists have been "put on notice" they face tougher action.

Reagan was to report to the cabinet today and then will head with his wife, Nancy, for a long weekend at Camp David to rest up from the rigors of the longest trip the 75-year-old president has taken in his administration.

Next week the president is to meet with Republican congressional leaders and is expected to travel to Muncie, Ind.

Hopes High But Battle Looming

WASHINGTON (UPI) — Senate euphoria over the Finance Committee's sweeping tax reform plan is running high, but the focus now shifts to the upcoming floor fight where special interests may pull out all the stops trying to save endangered tax breaks.

Several Senate Republican leaders, banking in the panel's early morning, 20-0 passage of the bill, predicted Wednesday it would easily pass the full chamber when it comes up, perhaps in another month.

A number of Democrats also praised the plan, which would cut tax rates to their lowest point in 50 years, but also drastically chop tax breaks, including such cherished middle-class deductions as those for Individual Retirement Accounts.

Tidal Wave Turns To Ripple

A tidal wave spawned by the worst earthquake since the 1985 Mexico disaster sent thousands of people on the West Coast and in Hawaii scurrying to higher ground in a five-hour alert that ended with a harmless surge in the Pacific.

No serious damage or injuries were reported as a result of the earthquakes or the tidal waves that followed. And at 1:30 a.m. EDT today, the Pacific Tsunami Center in Palmer, Alaska, canceled a tidal wave alert, allowing the evacuated residents to return home.

A 5.8-foot wave hit Adak and smaller waves surged through other areas of the Pacific, including 3-foot rises in Japan and 2-footers in Hawaii. The center then canceled the alert, though it warned that danger to boats and coastal structures could continue for several hours because of rapid current changes.

WORLD IN BRIEF

Shultz Meets In South Korea, Then Heads For Philippines

SEOUL, South Korea (UPI) — Secretary of State George Shultz met today with opponents of President Chun Doo Hwan, then spoke with Chun and told reporters he thinks the riot-torn country "does not appear to me to be that volatile."

Shultz was flying on to Manila to meet with President Corazon Aquino, declaring there is no parallel between South Korea's authoritarian government and the Philippines under exiled leader Ferdinand Marcos.

The purpose of the Shultz visit to Manila was to go over the Reagan administration's latest offer of \$150 million in economic and military aid above the \$239 million already appropriated to the Marcos regime.

...Road

Continued from page 1A

streets city commissioners approved for rehabilitation in January of 1985. The time lapse was the result of the city's having hoped the distribution issue would be resolved and the state held accruals added to those already received, Simmons said.

Combining the funds would have enabled Sanford to save an estimated \$25,000 in project start up costs by launching one large effort instead of two smaller ones within the same year, Simmons said.

Commissioners almost secured a \$2.5 million loan in January of this year to cover all 23 streets, although an unexpected increase in the loan's repayment rate led them to decline the financing.

City commissioners have deemed it necessary for the project to commence with the \$399,000 in available funds and Simmons said if the gas tax distribution matter is settled soon, the state held revenues could still be added to the city's

summer road project.

Due to First Street's high center and the brick lying beneath it, Simmons said the road should be reconstructed because asphalt laid through a repaving effort would peel and crack off within a year.

The amount of traffic along McCracken Road, between Perimmon Avenue and Airport Boulevard, prompted the city to determine that section of the road should be widened from 20 to 24 feet.

The roadways the city plans to repave this summer are Perimmon Avenue, from First Street to McCracken Road; Third Street, from Sanford to Perimmon Avenue; West 13th Street, from U.S. Highway 17-92 to Dixie Way; Ninth Street, from Sanford to Poplar Avenue; Eighth Street, from Poplar to Perimmon Avenue; Sixth Street, from 17-92 to Pecan Avenue; Park Drive, from 25th Street to 17-92; 20th Street, from Summerline to French Avenue; Hays Drive, from 20th Street to Bradshaw Drive; Pecan Avenue, from Fifth to Eighth Streets; and all of Country Club Circle.

—Karen Talley

NAACP Freedom Dinner Features County Judge

Judge Jerome Davis, formerly of Sanford, will be the guest speaker for the Annual Freedom Fund/Awards Dinner on 7 p.m. Saturday at The Sanford Skyport Restaurant, Sanford Air Base sponsored by the Seminole County Branch of the NAACP.

Davis is a county judge for Palm Beach County, Florida. Tickets, priced at \$15, each, may be purchased from any member.

Davis is the oldest son of six children born to Jimmie Lee Davis and Ruby Hurston. Davis was born in Sanford 42 years ago and attended the public schools of Seminole County. He graduated from Crooms High School in 1960 as an honor student.

Davis attended Florida A & M University in Tallahassee and graduated in 1965 as a distinguished student with a Bachelor of Science degree. He received

the J.D. degree from Florida State University College of Law in 1972. Davis was admitted to the Florida Bar in April, 1972.

He has worked as a public school teacher, Job Corps counselor and an aftercare juvenile counselor. Davis was an assistant state attorney with the Palm Beach County State Attorney's Office for more than 11 years.

He is listed in Who's Who Among American College Students of 1985 and has membership in the Palm Beach County Bar Association, F. Malcolm Cunningham Bar Association, Pi Gamma Mu Honor Society, Phi Beta Sigma Fraternity, American Bar Association, and the American Judicature Society.

Davis is a member and trustee at Payne Chapel A.M.E. Church in West Palm Beach. He is married to Barbara Davis and is

Judge Jerome Davis

the father of three daughters, Joan, Tara and Mamie by a previous marriage. He was appointed by Governor Robert Graham as a Palm Beach County Court Judge in November, 1984.

Tourists Called Chicken

LONDON (UPI) — American tourists, entertainers and sports stars afraid to visit Europe are handing Libyan leader Moammar Khadafi a victory by "playing chicken," the head of the U.S. Chamber of Commerce in Britain said Wednesday.

"I believe Americans should be visiting Europe and especially Britain, as they did previously," said chamber director Harry Cressman. "After all it was Britain and Prime Minister Margaret Thatcher who gave us support in the Libyan raid last month."

Cressman said British cities on the whole "are statistically a lot safer than New York or Los Angeles," and stringent security has made air travel safer.

...Sunshine

Continued from page 1A

Thomas now feels "enough has already been said," about the phone call and he has further issued a firm "no comment" regarding the upcoming session to address the scope and requirements of the sunshine law.

Farr, on the other hand, expressed no reservations when asked to comment on the upcoming meeting with Colbert. The session "is a great idea," Farr said. "We (the commissioners) really don't understand what the sunshine law is, how it works and what it does. This will be a good opportunity for us to discuss it."

Farr has been a city commis-

sioner for eight years. Thomas joined the city commission a year-and-a-half ago, as did Mayor Smith and John Mercer.

Mercer said today, although he has no objections to the meeting with Colbert, "You don't have to sit down with me and talk about the sunshine law, I know all about it."

Mercer is a long-time member of the Sanford Airport Authority, an agency also bound by the law's requirements.

Mercer declined comment on the phone conversation that prompted the session with Colbert, although Commissioner Milton Smith viewed the call as an example where "sometimes we (commissioners) get so carried away with doing good for our citizens that we make

mistakes."

Farr said that until he was asked, the possibility that his conversation with Thomas violated sunshine law requirements "didn't enter my mind at all. I was more concerned with the problem (related to the pool proposal) than I was with the technicalities of the (sunshine) law."

Smith, who has served on the commission for six years, said he is "all for" the session with Colbert, which "will be a chance for us to talk about the sunshine law and become more familiar with it."

Colbert also said there is a possibility that formal actions taken by a commission can be invalidated if it is proven in court that sunshine law vio-

lations by two or more commission members are related to the matter.

City counsel attempted to do just this in January, when they leveled sunshine law violation charges against Seminole County during the Sanford Yankee Lake condemnation effort, which was subsequently invalidated. Included in the sunshine violation allegations was a charge that private discussions preceded the county commission's formal vote to purchase the Yankee Lake site.

The city commission has yet to adopt formal measures related to the pool proposal. It was agreed at Monday's work session only that city commissioners would seek a meeting with the Sanford Airport Authority.

AREA DEATHS

LEMMIE BELLAMY

Mr. Lemmie Bellamy, 85, of 1206 W. 14th St., Sanford, died Wednesday at Central Florida Regional Hospital. Born Aug. 14, 1900 in Madison, he moved to Sanford from there in 1921. He was a retired construction laborer and was a member of New Mt. Calvary Missionary Baptist Church, Sanford. He was a member of Mt. Olive Masonic Lodge 79.

Survivors include his wife, Essie Mae; son, Ulysses Casey, Sanford; daughter, Betty Brinson, Sanford; sister, Flora Ketter, Madison; two brothers, Tommy of Madison and Lee of Valdosta, Ga.

Wilson-Eichelberger Mortuary, Sanford, is in charge of arrangements.

DAVE BROWN

Mr. Dave Brown, 91, of 15 Denise St., Oviedo, died Tuesday at Florida Hospital-Altamonte. Born July 4, 1894 in Memphis, Tenn., he moved to Oviedo from there in 1971. He was a retired farm laborer and was a Protestant.

Woodlawn Funeral Home, Orlando, is in charge of arrangements.

Survivors include his daughter, Pearlee Alexander, Oviedo; son, Dave Jr., Memphis; brother, Teddy, Memphis; 18 grandchildren; 68 great-grandchildren; 48 great-great-grandchildren.

Wilson-Eichelberger Mortuary, Sanford, is in charge of arrangements.

WANDA J. FIFER

Mrs. Wanda Jean Fifer, 66, 322 Hacienda Village, Winter Springs, died Wednesday at Americana Nursing Home in Orlando. Born in Jackson, Mich., she moved to Winter Springs from Orlando in 1960. She was an insurance clerk for a physician's office.

Survivors include a son, Robert, Orlando; mother, Florence Stover, Orlando; two grandchildren.

Woodlawn Funeral Home, Orlando, is in charge of arrangements.

BEATRICE N. JACKSON

Mrs. Beatrice N. Jackson, 76, of 513 Prairie Lake Drive, Fern Park, died Tuesday at Florida Hospital-Altamonte. Born July

11, 1909 in Illinois, she moved to Fern Park from there in 1953. She was a homemaker.

Survivors include a daughter, Bette Pitt, Fern Park; brother, Edward Nelson, Bradenton; five grandchildren; nine great-grandchildren.

Baldwin-Fairchild Funeral Home, Altamonte Springs, is in charge of arrangements.

DOROTHEY MONICO

Mrs. Dorothy Monico, 71, of 229 Spring Hammock Park, Longwood, died Tuesday in Florida Hospital-Altamonte. Born April 24, 1914 in New Castle, Pa., she moved to Longwood from there in 1981. She was a homemaker and a member of St. Augustine Catholic Church.

Survivors include her husband, Carl T.; son, Guy J., Mattland; brother, Dominic Castelle, New Castle; four grandchildren; one great-grandchild.

Baldwin-Fairchild Funeral Home, Altamonte Springs, is in charge of arrangements.

ALLISON K. STRUCK

Mrs. Allison Kay Struck, 38, of

450 S. Lake Triplet Drive, Casseberry, died Wednesday at Florida Hospital, Orlando. Born Oct. 10, 1947 in Shawnee, Okla., she moved to Casseberry from Northbrook, Ill., in 1982. She was a computer operator and dispatcher for an office machine company.

Survivors include her husband, Joseph A.; son, Darren J., Casseberry; daughter, Donna M., Casseberry; parents, Mr. and Mrs. Arthur E. Eaves, Winter Park; sister, Randi L. Johnson, Phoenix, Ariz.; paternal grandmother, Mamie Eaves, Oklahoma City, Okla.

Garden Chapel Home for Funerals, Orlando, is in charge of arrangements.

Funeral Notice

BROWN, DAVE — Funeral services for Mr. Dave Brown, 91, of 15 Denise St., Oviedo, who died Tuesday, will be at 2:30 p.m. Saturday at the House of God, 1000 E. 17th St., Oviedo, with Elder Durant officiating. Interment to follow in Sunset Cemetery. Calling hours for friends will be held Friday at the chapel 3-5 p.m. Wilson-Eichelberger Mortuary in charge.

WEATHER

NATIONAL REPORT: Severe thunderstorms that spawned tornadoes, hail and high winds rumbled from the Plains to the East Coast today, and forecasters warned of a second day of heavy snow at higher elevations in the Rockies. Showers and thunderstorms reached from Maryland to Illinois and from central Nebraska across Kansas and Oklahoma into Texas. Showers and thunderstorms also stretched from South Carolina across central Florida. Winter storm warnings were posted over parts of the Rockies that were hit with up to 10 inches of snow Wednesday. Heavy snow was forecast over parts of Montana, Idaho, Wyoming and Colorado. Several areas in the mountains and foothills of south central Montana reported up to 6 inches of new snow from the storm Wednesday, and 10 inches was measured at Alta, Utah, the National Weather Service said. On Wednesday, hail as large as baseballs pelted seven states in the Plains and

Midwest, injuring a young boy, shattering windows and stripping leaves from trees, authorities said. "I'm sure there will be quite a lot of damage on vehicles," said Stan Matson, police chief in Springfield, S.D. "We had some windows broken out at the security prison here out at the guard shack. It's just like it pruned the trees," he said. In the Texas panhandle, a young boy suffered a gash on the head from golfball-sized hail, and several twisters touched down, causing minor damage.

AREA READINGS (9 a.m.): temperature: 73; overnight low: 64; Wednesday's high: 89; barometric pressure: 29.98; relative humidity: 73 percent; winds: West at 4 mph; rain: Trace; sunrise: 6:30 a.m., sunset 8:05 p.m.

FRIDAY TIDES: Daytona Beach: high, 9:21 a.m., 9:35 p.m.; low, 3:08 a.m., 2:58 p.m.; **Fort Canaveral:** high, 9:41 a.m., 9:55 p.m.; low, 3:28 a.m.,

3:18 p.m.; **Sayport:** high, 8:46 a.m., 9:24 p.m.; low, 2:58 a.m., 3:04 p.m.

EXTENDED FORECAST: Partly cloudy with a chance of afternoon and evening thunderstorms. Lows in the 60s except low to mid 70s extreme south and Keys. Highs mostly 85 to 90.

AREA FORECAST: Today...partly cloudy with a 30 percent chance of mainly afternoon thunderstorms. High in the upper 80s. Wind variable 10 mph or less. Tonight...a 20 percent chance of evening thunderstorms otherwise partly cloudy. Low in the mid to upper 60s. Light variable wind. Friday...partly cloudy with a 30 percent chance of thunderstorms. High in the upper 80s. Light wind becoming north to northeast near 15 mph by afternoon.

BOATING REPORT: St. Augustine to Jupiter Inlet out 50 miles — Wind variable mostly west less than 10 knots through

Friday except shifting to north or northeast near 15 knots north of Cape Canaveral Friday afternoon. Sea less than 3 feet through tonight. Bay and inland waters smooth to a light chop. Widely scattered showers and a few thunderstorms.

Panel Passes MARTA Bill Amid Protests

TALLAHASSEE (UPI) — Environmentalists are assailing a House Judiciary committee vote to let private interests lay claims to thousands of acres of state-held underwater land as long as they guarantee public access to waterways stop the land.

Opponents, who include spokesmen for Gov. Bob Graham and the Department of Natural Resources, insist the bill the committee approved Wednesday could actually lessen public access to rivers and lakes.

But supporters hailed the bill (HB 243) as a way to ease the headaches attending the 1963 Marketable Record Title Act while protecting private property rights.

The law, which is also known as MARTA, states simply that anyone who holds a deed to property that has gone unchallenged for 30 years holds clear title to the land. But the lawmakers never specifically exempted state-owned land.

State officials say they have lost thousands of acres of

state-held property to private interests and stand to lose as much as 6,000 miles of rivers and 700 lakes if the MARTA loophole is not plugged.

The bill would banish wild deeds — that is, deeds with no legal status that nevertheless become binding under MARTA.

It would declare rivers surveyed when Florida became a state in 1845 exempt from MARTA; those "meandered" waters make up about 3 to 5 percent of rivers and lakes in the state.

It would also codify a common law "public trust doctrine" that supporters say would guarantee public access to waterways no matter who owned the lake bottom. That doctrine would specifically prohibit mining underwater land or fencing off waterways to block boat traffic.

Critics of the bill supported doing away with wild deeds and protecting meandered waters, but not the public trust doctrine.

In other legislative action: —The House voted 88-34 to

require doctors to notify the parents of any minor before performing abortions, but agreed to let young women seek the permission of a judge if they fear reprisals at home. The bill (HB 80) would allow an exemption for any young woman who seeks and receives the approval of a judge. The bill would prohibit notification of a woman's father or male guardian if the doctor believes he had impregnated her, but the mother would have to be told of the pending abortion.

FLORIDA

IN BRIEF

Governor Signs Death Warrants For Two Convicted Killers

TALLAHASSEE (UPI) — Gov. Bob Graham Wednesday signed death warrants for convicted killers James Armando Card Sr. and Tommy Groover, and prison officials scheduled the executions for 7 a.m. on June 4.

Graham has signed 135 death warrants since taking office in January 1979. Since May of that year, Florida has executed 18 people.

Court records show Groover, 28, was sentenced to die for the murders of Richard Padgett and Jody Dawn Dalton, in Duval County. He was sentenced to life imprisonment for the murder of Nancy Sheppard.

Card, 39, was found guilty of murdering Janis Franklin, of Bay County. Court records show Franklin died after Card abducted her from the Western Union office in Panama City — which she and her husband owned — and slit her throat.

Court Test Asked On Private Jail

PANAMA CITY (UPI) — A privately operated county jail raised issues Attorney General Jim Smith took to court to resolve.

Smith's civil suit, filed Tuesday in Bay County Circuit Court, asked the court to determine the validity of the contract between the county and the firm which operates the jail, Private Corrections Corporation of America, based in Nashville, Tenn.

The suit, seeking a declaratory judgment, also asks the court to decide whether jail workers can strike, whether private employees are permitted to maintain order and give punishment and whether the Criminal Justice Training Commission can impose training standards, said Larry Davis, the detention facilities contract monitor.

Audit Reveals Tax Reviews

TALLAHASSEE (UPI) — The Department of Community Affairs did not adequately monitor some of the federal grants it administered or complete management reviews of some rental property owners' records on time, a state audit shows.

The audit, released Wednesday, also shows DCA advanced funds to local governments without first requiring documentation of why the funds were needed.

The audit showed most of the money advanced by DCA was to the Community Services Block Grant Program and the Low Income Weatherization Program. DCA advanced federal funds worth up to three months of the contract amount, the audit showed.

Commission Denies Number Painter Permit

Longwood City Commission denied a request by Chris McGruder of the CMC Painting Co. for a permit to resume painting house numbers on the curbs in front of homes in Longwood's subdivisions Monday night.

After painting four-inch high numbers for between 700 and a thousand houses, his permit was rescinded recently by the city after several complaints were received from residents objecting to having the numbers painted (some with the wrong number) without permission and then being asked for a donation.

The company would go into a neighborhood and paint the numbers during the day and call on the residents in the evening seeking a donation and explaining that house numbers will be required when the 911 emergency system is implemented.

"I abided completely by the rules of the permit. They were wrong to jerk my permit," McGruder said. "I have an occupational license to do all the incorporated areas of Seminole County. We passed out leaflets and paint the numbers free. The donation is purely voluntary. Ninety percent of the people love

the idea. The type of permit he had for Longwood was one to solicit donations.

It was pointed out that the county is now saying numbers on the front of the house are preferable and easier to see than on the curb.

The commission granted a request by City Administrator Ronald Waller for two vacation days on May 29 and 30 to attend the graduation of his older son, Henry, from Woodberry Forest School in Virginia.

The commission also denied a request from David A. Dawson of Let's Put America for the Land Planning Agency and City Commission to waive a site plan review and authorize staff review only for his Let's Race America project on the back part of his property at 1030 W. State Road 434, Longwood, because they could not legally grant the request.

Dawson said he did not see why it was necessary to go through the site plan process again since he would just be putting in a 5,720 sq.ft. concrete track for racing radio controlled battery run model cars, a deck for use as a drivers' stand, a

spectators bleacher and a deck along the lakefront, a gazebo and a chain link fence.

"The waiving of this procedure will save me a great amount of time as I would like to have the operation ready by June 1," he stated in his letter. Instead, City Planner Chris Nagle said it would take at least 45 days to go through LPA and Commission meetings and be reviewed by the staff.

The city ordinance states if the site exceeds 10,000 sq. ft. it has to go through the site plan review. Dawson's total site is approximately 42,714 sq. ft.

A resolution implementing a deferred compensation plan with the International City Management Association Retirement Corp. for the benefit of the city employees was unanimously approved by the city commissioners. — Jane Casselberry

IN THE SERVICE

STEPHEN I. JOHNSON

Commander Stephen I. Johnson relieved Captain Frank L. Bowman as Commanding Officer, USS City of Corpus Christi (SSN 708), on board the ship at the Naval Submarine Base New London, Groton, Connecticut, at a ceremony held on March 7.

Commander Johnson was born in Portland, Oregon, attended high school in Winston-Salem, North Carolina, and was graduated from Duke University in 1989 with a Bachelor of Science degree in Physics.

Commander Johnson reported on USS Bergall (SSN 687), then homeported in Groton, Connecticut, for his initial tour of duty. After a two year tour at the Naval Nuclear Power School, Mare Island, California as Assistant Director of the Enlisted Training Department, Commander Johnson served as Engineer Officer in USS Ethan Allen (SSN 608) (BLUE) homeported in Pearl Harbor,

Hawaii.

Following a two year tour as Material Officer on the Staff, Commander Submarine Squadron Seven, Pearl Harbor, Hawaii, Commander Johnson served as Executive Officer in USS Tecumseh (SSBN 628) (GOLD). Most recently, Commander Johnson served as Head, Attack Submarine Readiness and Tactics Section of the Staff of the Deputy Chief of Naval Operations (Submarine Warfare), Washington, DC.

Commander Johnson is the nephew of the Honorable Harold Johnson of Sanford, he resides with his wife, and former Patricia Ambrose of Titusville, and their son, Brian, in Gales Ferry, Connecticut.

Principal speaker at the change of command ceremony was Captain G. V. Wilkes, III, Commander Submarine Squadron TWO, USS City of Corpus Christi is a unit of COMSUBRON TWO and is homeported in Groton, Connecticut.

Pension Reform ...

Pulling military pension reform out of the congressional hat will be quite a feat for Rep. Les Aspin, D-Wis., chairman of the House Armed Services Committee.

He has succeeded in placing the Pentagon at a peculiar disadvantage. Defense Secretary Caspar W. Weinberger and the Joint Chiefs of Staff are thoroughly opposed to the notion of military pension reform and make no bones about saying so. But at the same time, they are pleading with the Congress for quick action to enact it.

David Stockman may have been right about high-ranking officers who are over-concerned about pension benefits. It appears that some of the defenders of liberty care more about economic security than about national security.

The reform wouldn't touch the pension benefits of those now retired or anyone now in the military. But it has been resisted on the theory that it might somehow make the untouchable touchable and reduce pensions now being earned or paid. It is a fear that won't go away, no matter how often the reformers disclaim any such intention. But unreasoning fear of change must not stand in the way of reform.

What Aspin did attract little attention when he did it. It was a budgetary device, enacted into law last year. It required the Pentagon to budget each year for all the pension benefits earned that year by active-duty personnel. That is exactly the accrual accounting method followed by private industry. Every business that has a retirement plan has to pay into a pension fund enough each year for each employee so that when the time comes for that employee to retire, there will be money for his or her retirement benefits. The principle is so clear and logical that it was easily accepted as applicable to the Defense Department.

Now comes the hard choice for the Pentagon. There is only a finite sum of money available for defense. A choice must be made. Either the number of people in uniform must be reduced drastically or pension benefits must be reduced. Reluctantly, the Pentagon chose to reduce pension benefits.

That is why the House voted 399-7 the other day to change the military pension system. If the Senate goes along, it will no longer be possible for recruits enlisted after the law takes effect to retire after 20 years of military service with half pay, regardless of age. Instead, such a retiree would get only 40 percent of his base pay, averaged over five years. If he stays in for 30 years, he gets 75 percent of base pay as a pension, just as he does now. Thus there will be a reduction in pension costs and a stronger incentive for 20-year veterans to serve a full 30 years.

Keeping these experienced military people on the job will be good for national defense. In today's Army, Navy, Air Force and Marines, a 38-year-old is not necessarily over the hill. He or she may be at the peak of professional efficiency, especially in high-tech ratings. They should not be lost to private industry, not at least until they are 48 years old.

Reducing pension benefits for 20-year veterans will have little or no effect on recruitment. Young people don't think about retirement, and that's why pension benefits are never mentioned in the recruiting commercials.

Pension costs have grown like Topsy because they have grown irrationally, for no good reason except the natural desire of politicians to do favors for their constituents. When there is a prudent accounting of the costs, even the Pentagon recognizes that spending priorities have been out of whack. Straightening them out will make more taxpayer money available where it will do the most good for national security.

GEORGE MCGOVERN

Terrorism The Reason We Bombed Libya

The more one contemplates the real purpose of the bombing mission against Libya a few weeks ago, the more puzzling it seems.

If the point of the raid was to discourage future terrorist acts by Col. Khadafy, why has the Reagan administration sharply increased its protective measures and warned against increased terrorist activity following the raid?

Presumably the administration should have been able to relax its security measures after "putting Khadafy back in his box," to quote Secretary of State George Shultz. Yet, around the globe and especially in the Middle East, American embassies have been alerted to new post-raid danger. And U.S. tourists have been urged to see America — or the Orient — instead of risking stepped-up terrorist dangers in Europe and the Mediterranean this summer.

Although public-opinion pollsters report that a clear majority of Americans support Mr. Reagan's bombing mission against Libya, Americans in large numbers are canceling their overseas travel plans.

What is the explanation of all this? If the administration and the public really believed

that bombing Libya would reduce international terrorism, why the sharply increased anxiety about terrorist dangers following what has been advertised as a successful "surgical strike" against Khadafy's kingdom?

Is it not likely that both the public and the administration really feel a heavy bombing attack is not a very reliable method of reducing terrorism? All evidence points to the conclusion that the administration expects more rather than less terrorism as a consequence of the raid.

If these assumptions are true, what was the real function and purpose of the bombing attack?

Doubtless there were multiple reasons behind the raid, including the hope — notwithstanding the immediate danger of retaliation by Khadafy and his supporters — that the bombing attack and the threat of its repetition just might, in the long run, give terrorists pause.

I believe, however, that the raid would not have taken place save for another more compelling reason — it was a tempting opportunity to punish Khadafy by meeting terrorism with terrorism.

The trouble with all of this is that while

attacking Libya from the air provided some sense of revenge for frustrated and angry Americans, feeding a delicious macho instinct found to some extent in all of us, it also put us into the game of terrorism on a grand scale. Is this in the American interest?

No, answered nearly every government in the world. It is difficult to avoid the conclusion that, however much the bombing attack did to lift the spirits of Americans, it weakened the standing and prestige of the United States in the eyes of Arabs, Africans, Asians, Latin Americans and most Europeans.

Conversely, the raid has probably enhanced the international standing of Khadafy. A man who had aroused the contempt of many of his fellow Arabs is now publicly backed throughout the Arab world. Although most informed people know that Iran and Syria are more important in the world of terrorism than little Libya, the world's number-one power directed its most heated rhetoric and its swiftest bombers not at Teheran or Damascus — to say nothing of Moscow, Peking or Havana — but rather at Tripoli.

ROBERT WALTERS

Possible Cure For Ron's 'Flu'

WASHINGTON (NEA) — Although one of every seven people in this country lives in poverty, President Reagan persists in slashing federal programs to aid the destitute — while simultaneously planning to trade in Air Force One for a newer model.

That's not quite true because the White House wouldn't think of buying a single presidential aircraft. They have to buy two because a backup is required. The deluxe version Reagan favors costs \$150 million per plane.

What about the impoverished? The president displays no particular interest in their plight even though a greater percentage of the nation's population has been poor throughout his tenure than in the years before he was elected.

There's more. Under Reagan's leadership, the federal government has all but abandoned its commitment to racial equality. As a result, racism is becoming fashionable again.

The president's laissez faire approach to regulation of business has allowed corporations to substitute anti-competitive mergers for productive investment in the future.

The two most striking characteristics of Reagan's economic policy have been huge budget deficits to sustain a shaky recovery and massive trade deficits to dampen inflationary tendencies.

The prosperity the president says has arrived is accompanied by an unemployment rate that consistently remains above 7 percent. More than 8.5 million workers are jobless and countless others have had their wages slashed.

The "safety net" the president promised would protect the most vulnerable and defenseless members of our society is shredded and tattered. Government programs that once assisted the young, the old, the disabled and the poor have been decimated if not destroyed.

In an attempt to fashion an alternative vision for the future, more than 1,000 grass-roots political activists, trade union leaders and representatives of liberal organizations met here recently at a "New Directions" conference.

Barbara Ehrenreich, also a DSA co-chair, insisted that "the two-party system should mean... more than a choice between the lesser evil and some other evil, more than a choice between a bad cold and the flu."

JACK ANDERSON

George Bush Keeps Many Gifts

By Jack Anderson
And Joseph Spear

WASHINGTON — Vice President George Bush, a Connecticut Yankee blueblood transmogrified into a Texas oilman, has more than enough personal wealth to buy all the trinkets and dust-catchers the vice-presidential mansion can hold.

But, nice guy that he is, Bush apparently has rarely had the heart to relinquish a gift, even those that the law suggests he should report to the State Department. The gifts Bush collected in the first four years of his tenure ranged from a "trivet hotplate" (value unspecified) given to him by Dieter Puetzshofen, lord mayor of Krefeld, West Germany, to a Bible illustrated by Salvador Dali (valued at \$5,000).

There's no monetary limit on gifts from admiring Americans, which means that the Dali Bible is permissible.

Bush — possibly hoping to shed his Yuppie image — has accepted some gifts that hint at hitherto-unsuspected plebeian tastes: a

sportcoat, suit and slacks valued at \$260; two Mickey Mouse watches, two EPCOT Center hats (\$150); two bowling balls and two pairs of bowling shoes (\$180); cowboy boots valued at a mere \$100; a leather flight jacket from Navy Secretary John Lehman (\$130); and a \$110 clock from the Swiss vice president (who gave President Reagan a clock worth \$3,150, which was turned over to the government).

On the other hand, Bush also accepted three Gucci ties (\$90); 48 pairs of socks (\$240); 26 pairs of running shoes (\$1,040); a bulletproof vest (\$325); a Steuben crystal platter (\$2,337) from the president of Newport News Shipbuilding; a Steuben crystal elephant (\$545) from the boss of U.S. Steel; a "porcelain duck box" (\$200) from Mrs. Nelson Rockefeller; a porcelain eagle (\$1,500) from the invest in America Council; and a wooden fertility goddess (\$130) from the president of the Ivory Coast.

The Foreign Gifts and Decorations Act of 1966 says that U.S. govern-

ment employees, including the president and vice president, may keep gifts of "minimal value" given to them by foreign governments or officials. "Minimal value" was defined as \$140 in 1983; despite the Reagan-Bush administration's success in combatting inflation, the value rose to \$165 in 1984. Any gifts over the minimal value line "shall become the property of the U.S. government" and must be reported to the State Department, the law stipulates.

It is unclear whether Bush violated the letter of the foreign gift law, but he does appear to have sapped the spirit of the law with technicalities. In his financial disclosure forms for 1983 and 1984, which were reviewed by our associate Jane Winebrenner, the indefatigable souvenir collector claims that when a foreign donor gave two or more gifts, each of which was worth less than the minimal value stated in the law, they were not required to be reported to the State Department,

SCIENCE WORLD

Amish Escape Cavities

By Jan Ziegler
UPI Science Writer

WASHINGTON (UPI) — The Amish of southwestern Michigan live quiet lives in rural seclusion, yet they are rebels.

They are fond of desserts and jams. They do not brush their teeth every day, and most do not floss. Yet, their children have half as many cavities as other U.S. children and they suffer less gum disease.

How do they get away with this? Dr. Robert A. Bagramian, a dentistry professor at the University of Michigan, has studied the population and has some ideas about the condition of their teeth, which he called "pretty good."

"I think their diet has a great deal to do with it," he said. "They don't buy any processed or commercial food products at all. I'm not exactly sure, but I do know a fair amount of sugar is in processed foods. The carbohydrate content is higher.

But they use a lot of sugar in canning their foods. How does Bagramian explain this?"

"I think they have a fair amount of sugar in their diet, but I think the frequency with which they eat it is probably different from us," Bagramian said in a telephone interview. "We are a population that constantly snacks all day long so we have a lot of what we call sugar exposures, whereas they may have a lot but it's not as frequent as we have."

It is also possible, since there is a relationship between bacteria and dental diseases, that the Michigan Amish may have a bacteria level different from the general population, the professor said.

Bagramian conducted a study in a community of about 4,000 Amish who live without electricity, plumbing or running water on farms in Branch and Calhoun counties in Michigan.

The water was not fluoridated. Fluoride has been shown to reduce the rate of dental cavities.

The professor and a graduate student examined 121 people — 68 who were 17 years old or under and 53 who were 18 and older — in 21 Amish families in May and June of 1985.

The researchers found, however, 88.3 percent did not floss. One in three said they brushed their teeth once a day, while the rest said they brush less frequently. The do visit dentists, but less frequently than the general population.

even though their total exceeded the limit.

The State Department's interpretation of this rule is that the aggregate value of a single presentation will be used, but Christopher Cox, a White House lawyer, said the department's interpretations "don't by law apply to us but they are useful." Bush's counsel, Boyden Gray, said the vice president decides which gifts he'll keep, and added: "Maybe on some occasions we didn't do it right."

Bush's interpretation of the law has allowed him to keep such things as a rifle and wool jacket from the Pakistani commander of the Khyber Pass (\$190 aggregate); a ship model and painting from the Kuwaiti defense minister (\$250); and an 1840 engraving, five scarves and the trivet hotplate from Krefeld's Mayor Puetzshofen, which was appraised at a total of \$235.

Footnote: Bush's counsel, Gray, said he believes the artifacts will remain in the vice-presidential residence after Bush leaves.

OUR READERS WRITE

Worthy Of Shakespeare Title

Dear Editor:

At first, when your paper covered the big "Atlantic Bank Sign Caper" I was amused; however, subsequent events have turned my amusement to abject horror.

An appointed body of the city has taken the position that it must be consulted prior to removal or replacement of signs. The ramifications of this are obvious. The Atlantic Bank has changed its name to First Union Bank but the group at City Hall is insisting that the old signs be replaced. They have harassed the out-of-town owners and management in a manner usually reserved for serious criminal offenses.

Having been a party to this crime against the city, I would like to have the proper foundation laid before the culprit is convicted.

About eight weeks ago it occurred to me that during renovation the brass plaque referring to Rollins College had disappeared from the old Florida State Bank Building across Park Avenue from the First Union Bank. I sought to prevent the same thing from happening to the brass plaque on the First Union Bank Building. I went to Mr. (Howard) Hodges' office at the bank and asked if there had been any plans made for disposition of the signs. He stated that he thought they would go to the company that

had won the contract to replace old company signs and would be sold for scrap. I asked him to see if there was any way to preserve them as I would like one for the General Henry S. Sanford Museum/Library Association. He agreed this was a fitting place for their retirement and said he would do what he could.

Soon after this conversation he called me and said he had the signs in his office and I could pick one up for display at the Museum. At about this point the City Black Shirts entered the picture. I dare say, except for Mr. Hodges' action, the signs would be down and lost forever.

To some degree, I believe in controlled growth, but any good intention can be carried to an extreme. Mr. Shakespeare had a name for it in the title of one of his better known plays.

A.B. Peterson, Jr.
Sanford

BERRY'S WORLD

Taxied Getaway Fails; Purse-Snatching Suspect Jailed

A man allegedly hopped into a taxi that already had a passenger to make a getaway from the scene of a purse snatching. He jumped out of that cab and fled into woods when the cab driver, via radio, was asked by his dispatcher if he had picked up the suspected purse snatcher near the Winn Dixie on First Street in Sanford.

The man, who had hopped into the cab, was carrying a tan purse. He left the cab at Eighth Street and Boy Avenue, a police report said.

Meanwhile, Sanford police were searching for the man who had snatched the purse of 83-year-old Liesel Sumpler, at about 10:15 a.m. Tuesday, at the Winn Dixie parking lot. The suspect was seen getting into a taxi at Second Street and Cypress Avenue after the theft of the purse which contained three one dollar bills and some change, police said.

A man matching the suspected thief's description was captured by police on 11th Street at Mellonville Avenue at about 11 a.m. Tuesday. He

reportedly had three one dollar bills and 48 cents change in his possession.

Witnesses reportedly identified a suspect, and Tony Anthony Brown, 27, of 1 Higgins Terrace, Sanford was charged with robbery.

Ms. Sumpler's purse was found on Eighth Street by a city workman, police said.

After Brown was booked into the jail, he was also reportedly linked to the April 5 robbery of the Tenneco gasoline station at 1800 S. French Ave., police said. A second charge of robbery was added and Brown was being held in lieu of \$7,000 bond.

THREAT TO DEPUTY
A Seminole County sheriff's deputy, who was allegedly threatened by a board brandishing man, charged a 20-year-old Sanford man with assault on a police officer.

The arrest was made at 1:53 p.m. Tuesday after deputy Brian Markum was called to 1201 Dubois St., Sanford, to calm a dispute. The suspect allegedly threatened to beat Markum with a 3-foot long board.

Action Reports

- ★ Fires
- ★ Courts
- ★ Police

Freddie Lee Brown was being held in lieu of \$500 bond.

SLEEPER CHARGE
A man found sleeping in a 1984 Ford Escort at the east-bound rest area of Interstate 4 near Longwood, was charged with auto theft after a sheriff's computer check showed the car had been reported stolen in North Carolina.

The man arrested is also on probation from North Carolina and was reportedly accompanied by a juvenile female runaway who is also from North Carolina, a Seminole County sheriff's report said.

William B. Snow, 21, of Thurmond, N.C., was arrested at 2:30 a.m. Wednesday. He was being held in lieu of \$3,500 bond.

FAKE PRESCRIPTION
A man, who allegedly called in a fake prescription for a controlled drug at Walgreen Drug Store in Sanford, was arrested with pills in hand after a pharmacist checked with the

doctor who supposedly called in the prescription, but didn't.

The druggist called Sanford police, and when police arrived at 2942 Orlando Drive, Sanford, at about 5 p.m. Tuesday, they reported the suspect had in his possession the filled prescription.

William Patrick Puttin, 22, of 3302 S. Park Ave., Sanford, has been charged with uttering a forged instrument and possession of a controlled substance. He was being held in lieu of \$1,000 bond.

DUI ARREST
The following person has been arrested in Seminole County on a charge of driving under the influence:

—Theodore John Heuring, 39, of 313-D St. John's Apartments, 240 Oxford Road, Fern Park, was arrested at 8:02 p.m. Thursday at Kmart Plaza, U.S. Highway 17-92, Fern Park, after Seminole County sheriff's deputies, called to a bar in the area because of a fight, saw him drive from the scene and enter the Kmart parking lot through a non-entrance area.

THREATENED WITH OWN GUN

Cozine Davis, 47, of 1801 McArthur Ave., Sanford, reported to sheriff's deputies that a woman who had been at his

home Tuesday, but who argued with him when he took her home, allegedly had taken a gun and his keys from his home and later returned early Wednesday to threaten to kill him with his own gun. Deputies gave Davis a referral notice, meaning he has 10 days to decide if he wants to file charges against the woman.

BURGLARIES & THEFTS
Valerie G. Warner, 18, of 400 Valencia Court, Longwood, gave sheriff's deputies the name of a suspect whom she alleges battered her and took her purse containing \$100 cash, \$50 worth of perfume and other items valued at a total of about \$40. The suspect reportedly told deputies he had not seen the purse, which was reportedly taken at Publix, Longwood Village, Longwood, on Thursday.

A \$1,500 coin collection, five watches with a combined value of \$600 and a \$600 pair of diamond earrings were stolen from the home of Doyle S. Cannon, 40, of 275 Pine Hill Drive, Oviedo, on Tuesday, a sheriff's report said.

A \$2,000 engine and about \$800 worth of boating gear was stolen from the boat of Gary R. Laner, 44, of P.O. Box 515 Geneva, from a yard at First and

Church streets in Geneva on Monday or Tuesday, deputies reported.

Kenneth James Gatton, 34, of 7534 Docksides St., Winter Park, reported to sheriff's deputies \$2,275 worth of items including clothing, jewelry, a camera and cash were stolen from his home May 2.

Coins, jewelry, and other items with a combined value of over \$470 were stolen from the home of Todd M. Sutterby, 40, of 1924 Magnolia Ave., Winter Park, on Wednesday or Thursday, a sheriff's report said.

FIRE CALLS

The Lake Mary volunteer Fire Department has responded to the following calls:

TUESDAY
12:17 p.m., 533 Rantoul Lane, death. Rescuers were unable to revive an 82-year-old woman who died in her home. She was transported to Central Florida Regional Hospital, where the cause of death was determined to be natural. Her body was released to Oaklawn Funeral Home.

Court Sentencings

A Sanford man has pleaded no contest to DUI manslaughter in connection with the broken neck death of a passenger in his car.

Warren Elliott Carter, 33, of 301 Fifth St., Sanford, entered the plea Thursday before Circuit Judge Kenneth M. Leffer. Carter could receive up to 15 years when sentenced June 3 but the recommended sentence is three to seven years.

Carter is charged with the death of Harry Clifford Pinkerton, 55, of 813 Magnolia Avenue, Sanford.

Carter was arrested Sept. 27 after a mid-day, one-car accident on Mullett Lake Park Road near Geneva. Carter's car left the roadway and slammed into several palm trees. After the accident, Carter fled on foot from the scene and was arrested an hour later about a mile away.

Pinkerton, in the back seat, suffered a broken neck and died Oct. 9 at Winter Park Memorial Hospital. Two other passengers in the car were also injured.

In other court action:
—Oscar Kelsa, 23, of 2558 Plametto Ave., Sanford, charged with stealing his mother's car, was sentenced by Circuit Judge Robert B. McGregor to five years in prison and fined \$100. After 18 months Kelsa is to be released from prison and serve 3 1/2 years probation. McGregor ruled. In August Mary R. Minnick, of the same address, said her car was stolen from 100 Brown Drive in Sanford while she was on vacation. The vehicle was found at her home address. She said she did not give anyone permission to use it and said she would press charges.

—Jeff Robert Keyser, 20, of 641 Riverview Ave., Sanford, arrested in January after he was accused of stealing a disabled pickup truck. He was sentenced to eight months in the county jail and five years probation. He was also ordered by McGregor to pay \$2,150 in restitution. According to court records, he abandoned the 1977 Chevrolet in an orange grove.

—David William Kennedy, 20, of 212 Continental Blvd., arrested in October on charges of theft and dealing in stolen property, then subsequently implicated in 10 burglaries in the area, was sentenced to 15 years of probation. He was also ordered by McGregor to pay \$14,020 in restitution. He was arrested as he left a disabled car with a passenger in it in Lake Mary. When police investigated the situation, the passenger denied any knowledge about the items in the vehicle, which included credit cards belong to various local residents. The driver was located less than a mile from the car and returned to the scene. He, however, denied owning the car or knowing anything about it. He then asked for a cigarette from a bag inside the car.

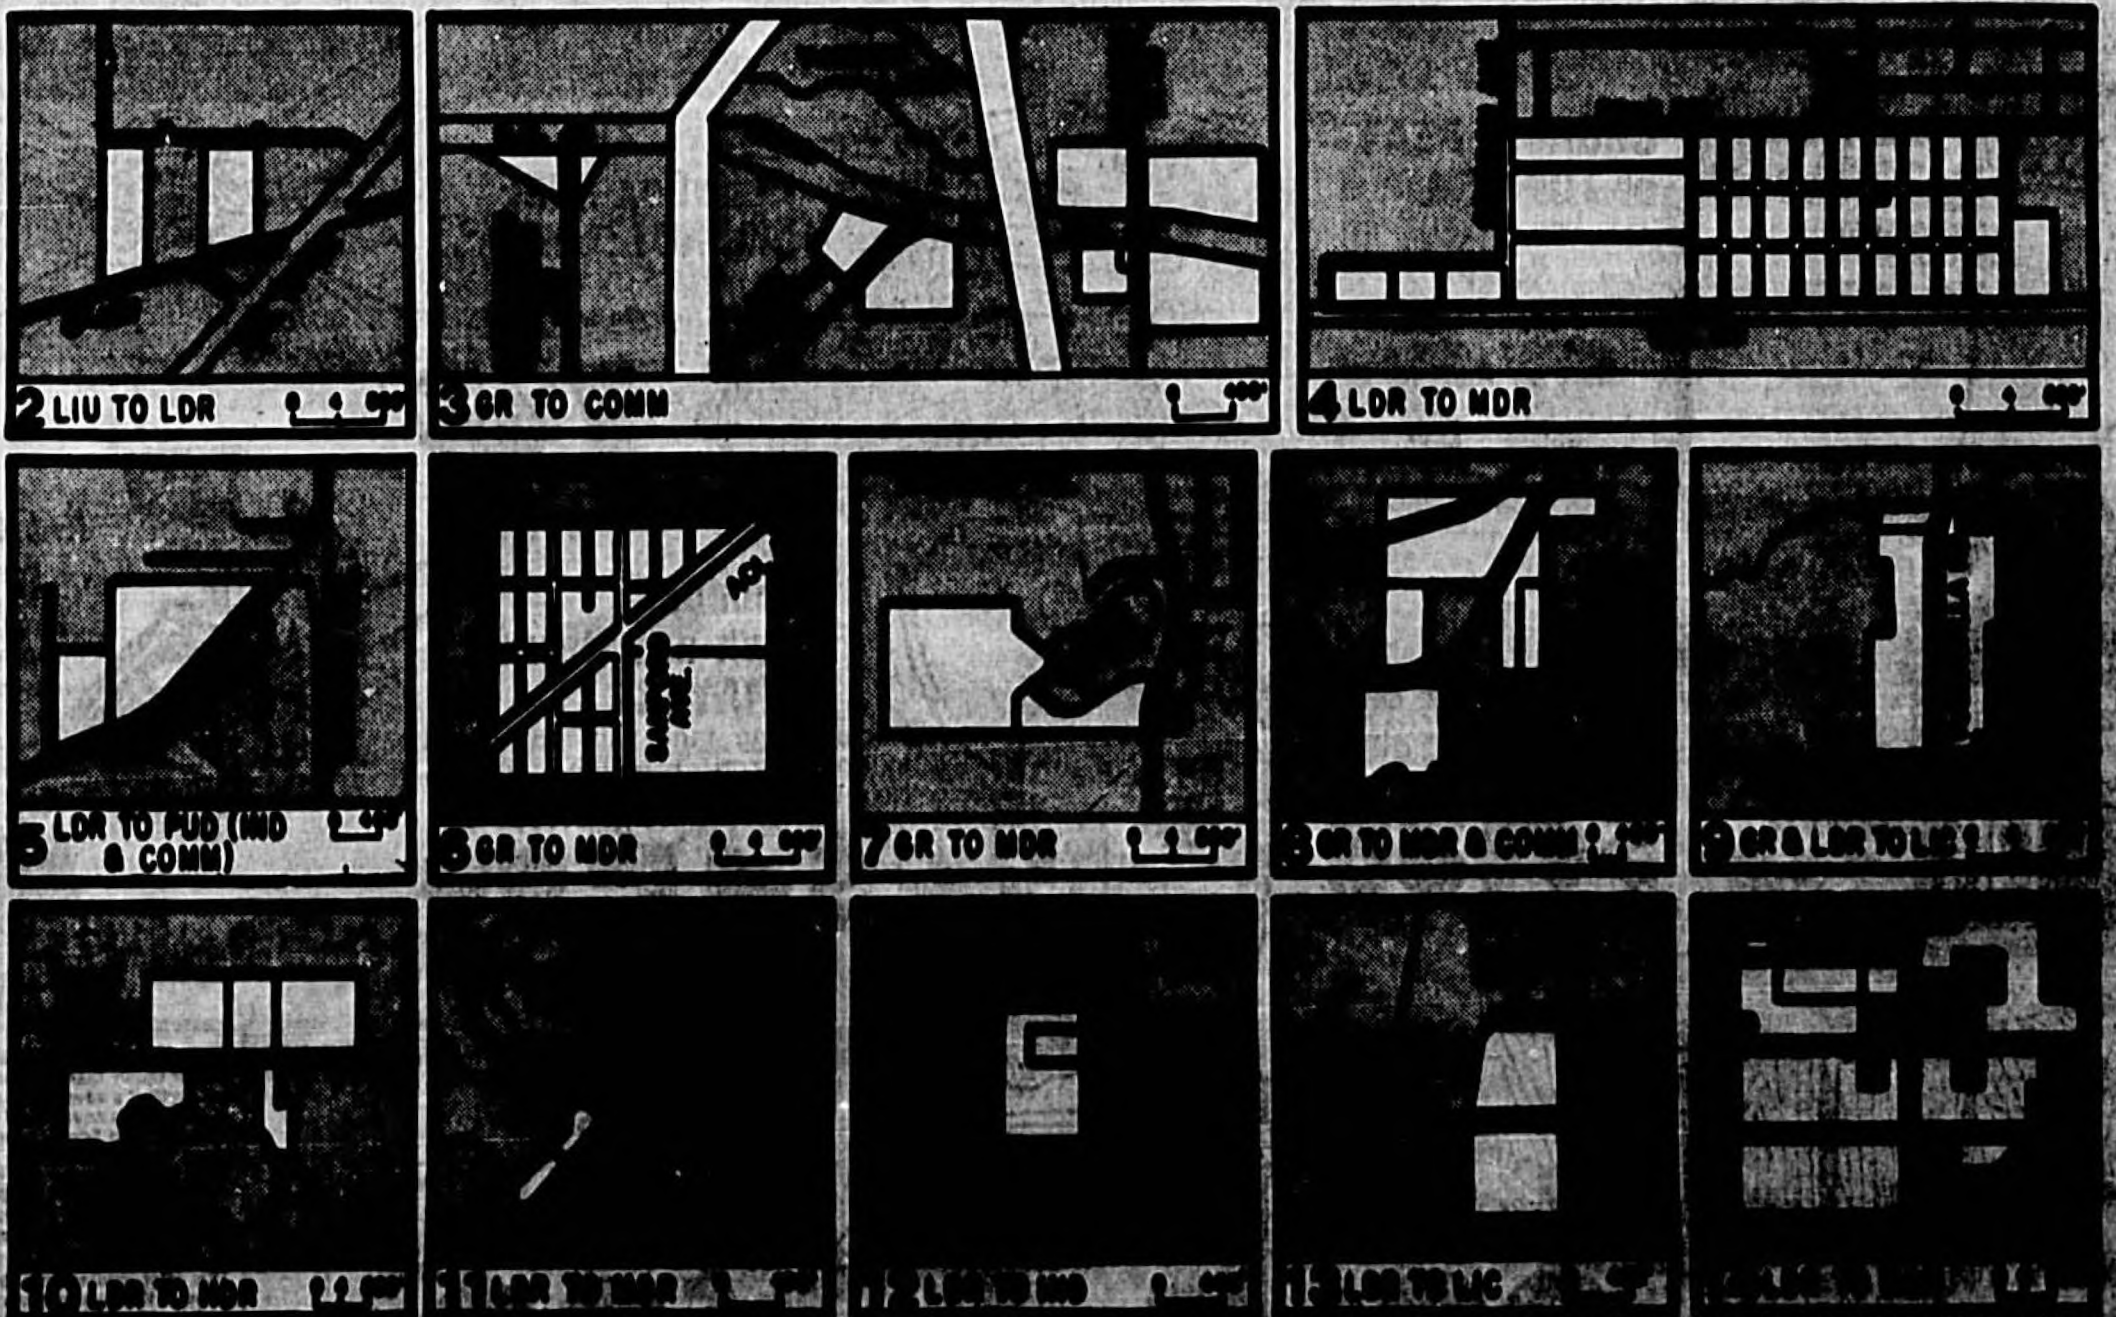

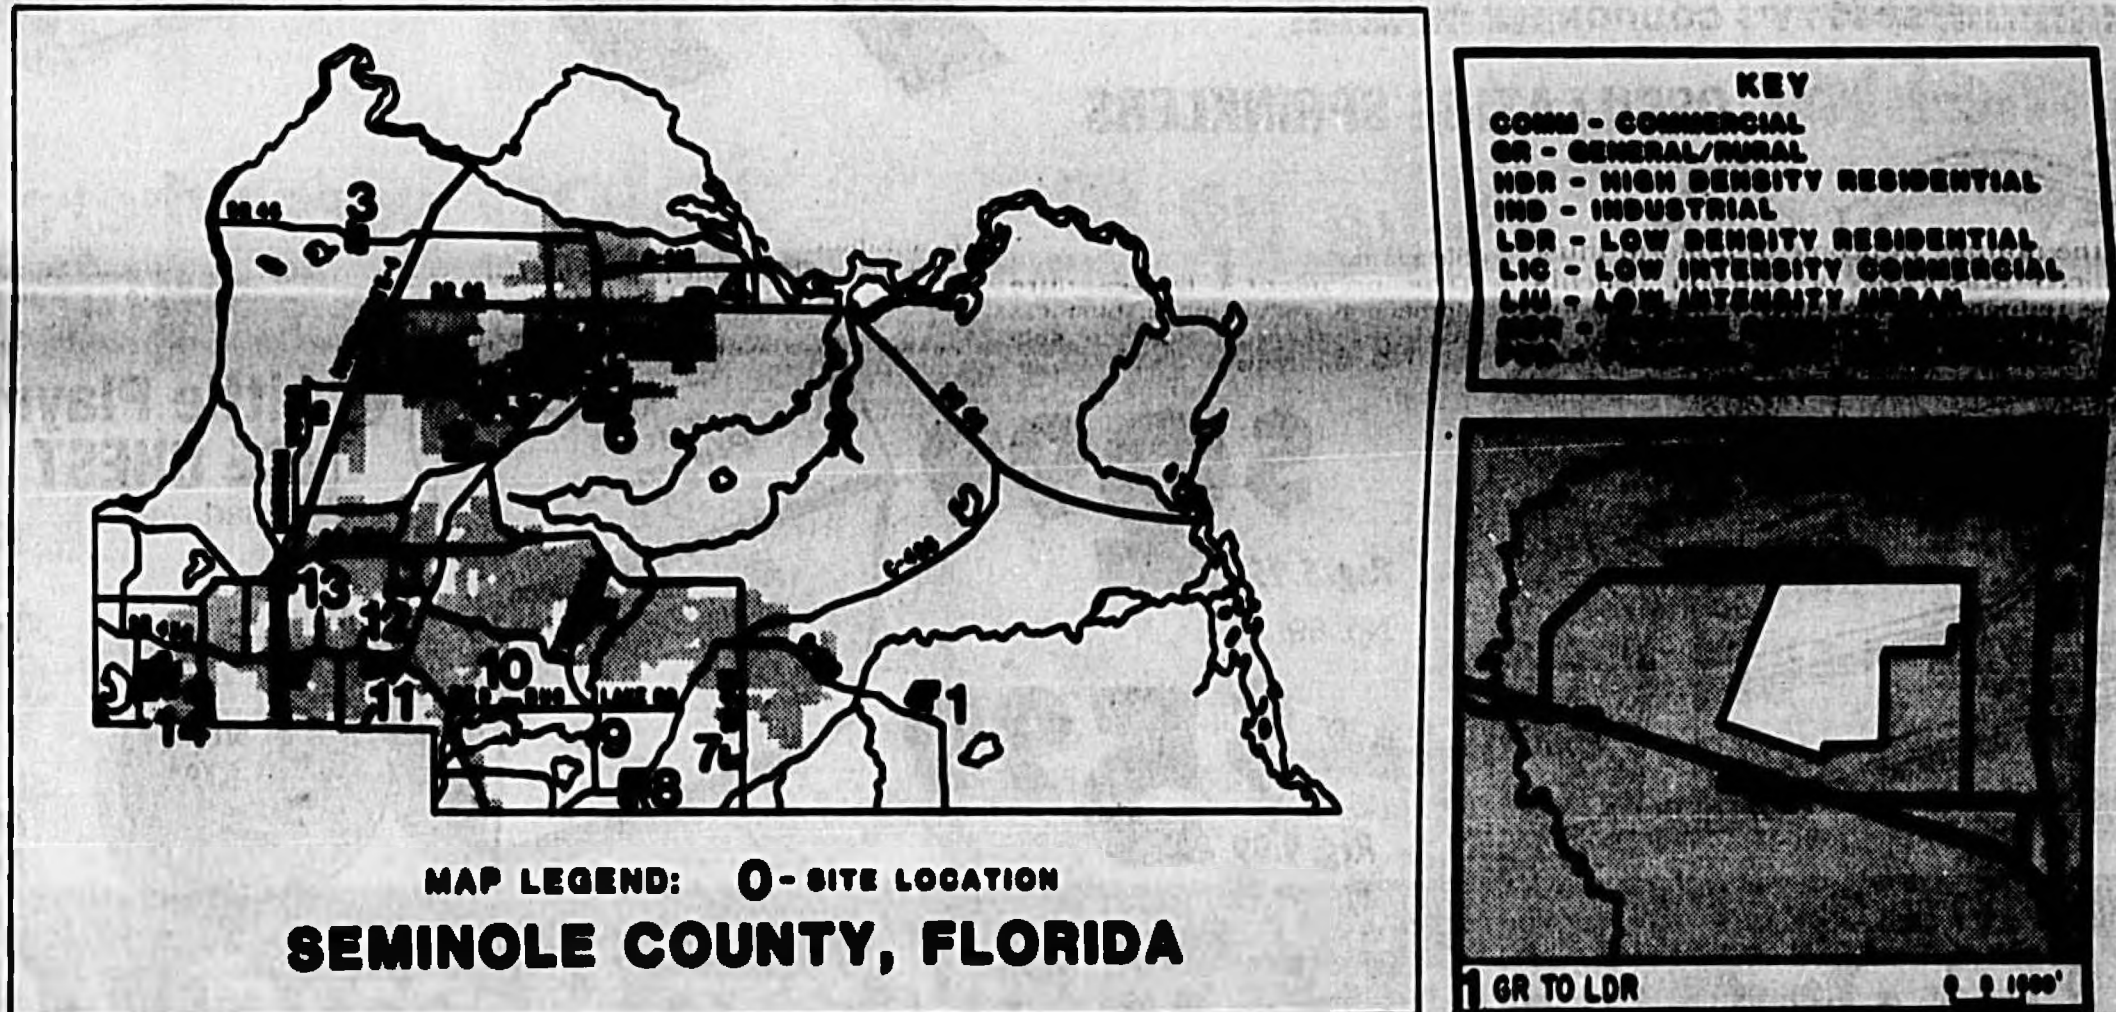

—Temmy James Morton, 18, of 1141 Hamilton Ave., Longwood, charged with burglary, possession of burglary tools, grand theft and carrying a concealed weapon, was sentenced by McGregor to 30 days in jail and five years probation. According to court records, Morton was trying to steal a truck when he backed into a car. He pulled forward, but hit another vehicle, then backed again hitting the first car again. When he drove forward again, the second vehicle was struck again. The noise attracted the truck owner who investigated whereupon Morton fled towards a car with two occupants who reportedly arrived at the scene with him. The truck owner, however, chased Morton to an apartment complex

where Morton surrendered.

Oviedo Chases Jinx; Potent Aquinas Next

By Sam Cook
Herald Sports Editor

For nine years following district baseball tournaments, frustration was at the top of Howard Mable's vocabulary. Frustration and several other adjectives family newspapers refuse to print.

It seemed Mable's Oviedo Lions were perennial Orange Belt Conference champions (four of the past five years), but when it came time to re-establish their worth in the district — against the same schools as in the OBC — the Lions came away clueless.

Call it jinx, hex or bad luck, the Oviedo Lions were just not destined to win a Class 3A-6 District Baseball Tournament championship.

Then came '86.

More importantly, then came Mark Merchant, Tony Belflower, Frank Torres, Mike Sink, Bobby Bradley, Jimmy Barrett, Craig Duncan and Scott Bowers.

Those eight players carried the Lions to a successful regular season, and, of course the OBC title. Then something peculiar happened. Oviedo won a district title when Torres singled home the winning run in the eighth inning.

Once free of the albatross, Oviedo next won the regional. And then, the Lions won the sectional.

Sophomore Alan Greene and junior Randy Ferguson both caught fire with the aluminum and each batted .500 in the post-season.

Mable, usually in an end-of-the-year funk following baseball season, began walking around like he was the lead character in "Somebody Up There Likes Me."

Whether it was delayed justice or a belated smile from the heavens, Oviedo had arrived. The Lions are in the state tournament. And they belong. Mable's club is built on quality pitching, just-enough offense with 140 stolen bases.

Tonight at 8, Oviedo (19-10) will take on Fort Lauderdale St. Thomas Aquinas (27-3-1) in the semifinal round of the Class 3A State Baseball Tournament at the University of Central Florida at Orlando. The winner advances to Friday's 8 p.m. title game against the winner of tonight's 5 p.m. Satellite-Palaska encounter.

Mable, his confidence reinforced by four consecutive

Baseball

post-season wins, said he feels tonight's contest will be for the state championship. "I really believe whoever wins tonight will take it all Friday," the veteran coach said. "Aquinas has an awesome club, but if we can stay close to them we can beat them."

The Lions, who thrive on the 1-2-3 pitching punch of Duncan, Bowers and Barrett, have persevered through the curveballing talents of that trio. In 27 post-season innings, it has given up just one earned run — a homer by Shawn Purdy of Osceola off Bowers.

Duncan, who will start tonight, has hurled 12½ scoreless frames while picking up three wins. The four-year varsity hurler, relying on a sharp-breaking curveball, has 11 strikeouts and the 0.00 ERA. Bowers, the hardest thrower of the trio, has pitched 9½ innings, striking out six. Barrett pitched five spotless in the district opener against Leesburg.

"Duncan will start but Bowers and Barrett will be ready at the drop of a dime," Mable said. "We've been effective using them that way and we'll continue to do so."

Oviedo's opponent tonight has faced similar frustration, not at winning districts, but at taking the next step. "We had never won a regional or a sectional," Ed Waters, an 11-year veteran at Aquinas, said. "We are thrilled just to be here."

And Aquinas, which averages 20 wins a year, has a lot of thrillers up and down the lineup. Senior Tony Pischiotta draws the most raves. Pischiotta, a National Merit Scholar, has a 13-2 record along with seven shutouts. He has whiffed 100 batters in 90 innings along with a 0.70 earned run average.

"Tony has an excellent fastball and curve," Waters, who played baseball in the New York Yankee organization, said. "Stanford and Creighton are after him. His intelligence doesn't hurt on the mound either."

Aquinas' lineup has aluminum stacked on top of aluminum. It has speed at the top, power in the middle and contact hitters at the end. Second baseman Ray

Lake Mary's Shane Letterio cruises into third with a triple.

Lake Mary's Shane Letterio cruises into third with a triple.

Bergman, Coffie: UCF, Alford Favor Pitchers

University of Central Florida baseball coach Jay Bergman and Rollins College skipper Boyd Coffie, two gentlemen most familiar with their ball parks, said Wednesday both would favor the pitchers.

Bergman's UCF field, the site of tonight's Class 3A State Baseball Tournament, is 330 down both lines, 375 in the power alleys and 400 to center.

"It's definitely a pitcher's park," Bergman said. "Generally there is no wind blowing at night. You have to be a man to stroke that baby (out in center field)."

Coffie's Alford Stadium, the site of tonight's Class 4A Baseball State Tournament, is 334 down both lines, 375 in the power alleys and 400 to center field.

"Sometimes it carries great at night and sometimes it doesn't," Coffie said. "It depends on the humidity. It might be my imagination but I think it carries better at night."

"I don't think it will be enough to make a difference. It's still a pretty good pitcher's park."

Notebook

COLLEGE BEAT — Coffie said he is familiar with all of the coaches in the tournament. Steve Altier, son of Sarasota Riverview mentor Larry Altier, played for Coffie.

Former Lake Mary shortstop Harry Hysell was a sophomore pitcher this year at Rollins. "He made a good adjustment from infield to pitching," Coffie said of the righthanded Hysell. "He started a key game against St. Thomas and won. We're counting on him to be one of our horses next year."

Bergman, meanwhile, is waiting not so patiently to find out whether his Knights will receive a bid to the 40-member NCAA Tournament. UCF, which won 28 games consecutively this spring, is after one of five at-large berths for independents.

"I have every confidence in the world that the selection committee will be fair," Bergman said.

Resilient Lake Mary To Tackle Riverview

By Sam Cook
Herald Sports Editor

The greatness of Lake Mary's Rams can be measured in wins and losses. Thirty-one victories in 33 games is a pretty good barometer of a successful ball club. But to get a true picture of Lake Mary's worth, one has to look past the .939 winning percentage.

Look back to March 14. It was on that "Black Friday" that a tragic accident took away Anthony Laasac, a 5-0 pitcher-shortstop with a 1.95 earned run average. Laasac, who was very popular with his teammates, suffered a severe head injury which finished him for the season.

While Laasac's injury sidelined him for the year, third baseman Mike Pinckes suffered the mental anguish. As driver of the out-of-control vehicle which slammed into a pole, according to police reports, he was devastated by the accident and the injuries to Laasac and another passenger, Celena Duchescher. He contemplated not returning to the diamond. Pinckes wavered for several days, then upon the urging of his teammates, decided to carry on.

The team played on emotion the following Tuesday and won for its lost mate. The impact hit for real Friday and Saturday as the Rams lost their only two games of the season. They were lethargic in both.

It was decision time for coach Allen Tuttle's club: Would it flounder through the rest of the season, tortured by misfortune? Or would it get off the deck and regain its championship form?

Fifteen consecutive wins, conference, district, regional and sectional championships answered the question. They were rewarded with the No. 1 ranking in the Florida Sports Writers Prep 4A Poll and the No. 3 ranking in USA Today's Easton High School National Baseball Poll.

Pinckes, lost in his misery for several weeks, finished strongly. He rapped a pair of homers and drove in five runs in the sectional win over Palm Beach Gardens.

Those 16 wins put Lake Mary on the threshold of a dream. Tonight at 7, the Rams can move within one victory of a Class 4A State Baseball Tournament championship. They take on Sarasota Riverview in the semifinal game at Rollins

Baseball

College's Alford Stadium in Winter Park. Miami Christopher Columbus and Gonzalez take meet in the 4 p.m. semifinal. The survivors battle Friday at 7 p.m. for the title.

On March 15, it was a threshold that many felt could not be reached without Laasac. Senior Mike Schmit and Laasac had formed a terrific 1-2 punch. Schmit, who draws the nod against Riverview's Richard DePasino (9-4) tonight, is unbeaten in 14 decisions.

"When Anthony got hurt, without a doubt, I thought our chances were lessened," Tuttle said Wednesday. "I always had hope in the back of my mind that we could make it. I knew we had the best team around here without Anthony, but I was worried about the regional and sectional."

An 11-2 pounding of Orlando Boone in the regional and an awesome 17-3 obliteration of Palm Beach Gardens in the sectional erased any doubts. Tuttle, however, knows tonight's test will be much tougher.

"The guy (DePasino) throws gas (fast)," Tuttle said about the righthander's 85-89 mph fastball. "Riverview steals bases like they're going out of style. They will be very tough."

Tuttle pointed to cleanup hitter Andy McDonald as the man the Rams must check. "When Riverview was 16-8, McDonald had 25 ribbies," he said about the junior second baseman. "They've 22-10 now and he has 53 ribbies. Does that tell you he's hot?"

Along with the cleanup man, coach Larry Altier's club has some table setters, too. Leadoff hitter Todd Rincin is hitting .355 with 35 steals in 37 attempts. Sophomore first sacker Kenny Chapman is hitting .315 and handled the aluminum like a magic wand. DePasino and his healthy .350 average, two homers and 44 RBI precedes McDonald.

Steve Tucker (.330), Chris Oderna (.315), Daryl Schmucker (.300), Scott Pryor (.280) and DH Nick Saladino (.280 and 28 steals) complete the order. "We have a tournament-experienced team," Altier, who won a state championship in 1983, said. "I

Noncommittal Catch

Sean Tanner admires his 9-pound, 1-ounce bass. The Sanford angler noncommittal on where or what he used for the catch.

Offshore Fishing Can Be Addicting

Offshore fishing is becoming more and more popular with people who like to fish. There is a great deal of excitement and anticipation involved with going far out in the ocean in pursuit of huge, elusive gamefish. Many anglers become addicted to this type of fishing and will not settle for anything less.

Most of us have been offshore fishing at least once in our lives, and we can probably recall the trip vividly. It is easy to understand the popularity of this type of fishing.

It is always interesting to watch fishermen return from blue-water fishing trips. They all have nice boats and the latest electronics. Some anglers, nevertheless, regularly outfit the pack. What separates the successful anglers from those who are not so fortunate?

With a little research, we can soon discover that the better anglers work at increasing their chances for success. First of all, they pay a great deal of attention to their equipment. The boat is

Jim Shupe
GOING FISHING?

maintained in perfect running condition. It is cleaned after each trip and all items are stored in designated places. Electronic equipment is carefully protected from the elements and inspected at the end of each trip. Any technical problems are taken care of before the next fishing trip.

Good offshore fishermen also spend a lot of time on their tackle. Reels are well lubricated and drags run off line smoothly. Rods and roller guides are checked at the end of each trip for signs of wear. Reels are filled with fresh line and leaders and knots are carefully inspected.

Only the best swivels and hooks are used. Lures are carefully stored in convenient, safe places. Seasoned offshore fishermen also start preparing for their trip days in advance. Baits are rigged, hooks are sharpened, and outfits are rigged. Well before the weekend arrives.

Successful ocean anglers are also prepared for a variety of fishing situations. They realize that gamefish frequently materialize at boatside, and tackle must be prepared to take advantage of such opportunities. Spinning and plug outfits are rigged with jigs and plugs in anticipation for the sudden appearance of cobia, dolphin, king mackerel, amberjack or other gamefish. A big spinning outfit is also rigged to cast a live bait at a fish that refuses to strike artificials.

Good deepsea fishermen also have a game plan. They get the marine forecast, find out the best water depths and decide upon their course of action based upon reliable, current information.

These expert anglers are also very alert and observant while they are fishing. Weedlines and floating objects are always inspected for dolphin and other gamefish. They are always vigilant for signs of feeding activity and respond accordingly.

These fishermen also know when to troll natural baits and when to troll artificials. They realize that if fish are concentrated, natural baits will produce better because they are trolled slower and produce a higher hook-up ratio. Artificials are best if fish are scattered, because a lot of water can be covered in a hurry by fishing these fast-moving baits.

Offshore fishing is a serious sport, and fishermen should not take being 20-40 miles out in the ocean lightly. It is imperative that all equipment and tackle be at peak performance. There is little margin for error, and any type of a breakdown can ruin a trip and perhaps even threaten

See SHUPE, Page 10A

Bucks Win, Go Up, 3-2

United Press International
Milwaukee learned Wednesday night that with Paul Pressey pushing, Philadelphia can fall.

"I think he really had to do some soul-searching and understand that he's one of the top players in the game, and he better start showing it," said Milwaukee coach Don Nelson. "And he did."

Pressey scored 23 points Wednesday night, including 13 in the fourth quarter, and had 16 assists and 10 rebounds to lead the Bucks over the 76ers 113-108 for a 3-2 lead in their Eastern Conference semifinal series.

Milwaukee is one victory away from turning the tables on Philadelphia, which has eliminated the Bucks from the playoffs for four of the last five years. Game 6 of the best-of-seven series is Friday night at Philadelphia.

"We basically had to get more inspired play out of Paul," Nelson said. "We had to get him to get him to move his game up a notch. He seemed to be content to play in the flow and to let other people do it. It's time for him to do it."

Philadelphia coach Matt Guokas said Pressey handled the ball much better than during the 76ers' two victories.

"He's the ballhandler," Guokas said. "He was making some great plays and incredible shots on the drive. He was taking care of the ball and he didn't in the two games we won."

The triumph was Milwaukee's first in the series without injured Sidney Moncrief. Nelson said Moncrief, an All-Star guard, would not play Friday night but could possibly play Sunday, if necessary, or in the next series.

The Bucks, ahead 86-84 entering the final period, took a 106-99 lead on a basket by Pressey with 3:09 remaining. The 76ers drew to 108-106 with 1:46 remaining on a jumper by Maurice Cheeks. However, the Bucks made 3 free throws in the final minute to clinch the victory.

The Bucks used a stretch of 15 consecutive foul shots, including 10 by Pressey, to hold off the 76ers in the fourth quarter.

The winner of the series will face Boston in the Eastern Conference final.

In the Western Conference, the Los Angeles Lakers try to rid themselves of the Dallas Mavericks Thursday night on the road at Reunion Arena. Los Angeles moved in front 3-2 Tuesday night as the Mavericks missed 15 free throws in the Lakers' 116-113 victory.

The last four games of the best-of-seven series have been decided by a total of 11 points.

"Los Angeles felt it was their destiny to be playing the Boston Celtics in the championship series," Dallas guard Rolando Blackman said.

BASEBALL

NEW YORK (UPI) — Montreal Canadiens goaltender Patrick Roy saw the goal coming six nights before it landed in the net.

BASEBALL

His New York Rangers counterpart John Vanbiesbrouck made 30 saves Wednesday night in a 2-0 triumph, preventing Montreal from sweeping their best-of-seven Stanley Cup semifinal and forcing Game 5 Friday at the Montreal Forum. The shutout made Bob Brooke's short-handed goal in the first period stand up as the game-winner. Yet, Roy said the difference was the third-period goal by Tomas Sandstrom, the Ranger he felt compelled to study on videotape after Game 1. "I cannot say the first goal won the game, really," Roy said. "Because I was sure if we scored to make it 1-1, we could win the game with a late goal like last time (Game 3's 4-3 overtime triumph). After they scored the first goal, we didn't get down, and I think if it stayed 1-0 a little longer we could have scored." The Rangers poured it on in the final period, and Roy had been pressed for several spectacular third-period saves, including James Patrick's semi-breakaway and Kelly Miller's rebound at 3:10, and Wilf Paiement's 80-footer at 4:13. New York outshot the Canadiens 16-8 in the period, including 6-1 in the first 7 1/2 minutes. Sandstrom's goal, during a 4-on-4 situation at 13:28 of the final period, capped an odd sequence of penalties.

Shupe

Continued from 8A
one's own safety.
With a little extra effort, you can make your time on "the big bond" much more successful and a lot safer.

SHUPE'S SCOOP — It is always good to carry live bait offshore when possible. You never know when a dolphin, cobia or other gamefish will appear at boatside, and many times they will ignore artificials. A frisky live bait, however, rarely fails to produce when the chumps are down.

WEEKEND FORECAST — Dell Abernethy at Oyster Brite Fish Camp reports that the May Oyster Brite Bass Tournament was a success in spite of 30 mile per hour winds. Forty two boats participated and caught a total of 192 bass, all of which were released alive except for a few that died in the live wells.

Bobby Coppen and David Gaines won the tournament with 20 pounds of bass. Ralph Curry won the Big Bass Contest with an 8 pound, 7 ounce bass. Dell said that speck fishing is tapering off and the bream fishing is picking up in the river.

Ron Rawlins from Highland Park said that bass are schooling in Lake Woodruff. Specks are slow, but bream are biting good in Mud Lake and in the northwest corner of Lake Woodruff.

Snook anglers are getting in the last month of snook fishing before the season closes in June. Many snook are being caught, with most of the fish being in the 15-18 pound range. Large live shrimps, one-ounce Red Tail Hawks, and charrtroupe or yellow Mackerels are accounting for most of the snook. A few redfish and sea trout are also being caught by snook anglers.

Captain Jack reports that high winds have hampered offshore fishing off Port Canaveral. Some large grouper have been caught deep (lugging the 37 footm curve). A lot of dolphin were caught earlier in the week in 100' of water along a large weed line. Action in the busy line has been slow, but flounder and bluefish are being caught inside the Port. Redfish and trout are picking up in the Banana and Indian rivers. This is a good time of the year to plug the Pops with a topwater Mitzi lure or Zara Spook. Some of the year's largest trout are caught in this time of year.

Fish are waiting of the New Smyrna Jetty, but high winds have restricted fishermen from catching them. Redfish, drum, sheepshead, bluefish, and flounder are willing to cooperate when the weather permits.

Edwards, Chavers Hurl Gems

Kiwanis Clobbers Rotary — Moose Remains Unbeaten (7-0)

By Chris Pieter
Herald Sports Writer
 Moose's Mike Merthie isn't the only one pitching masterpieces in the Sanford Junior League these days.

In Wednesday night's action at Chase Park, Oscar Edwards hurled a three-hitter at Rotary as Kiwanis claimed a 14-3 victory, while Merthie's teammate, Tony "Oz" Chavers, fired a two-hitter as Moose whipped Ball Motor Line, 12-2.

Moose ran its record to 7-0 with the win and remains the only unbeaten team in the league. Ball Motor Line fell to 1-8. Kiwanis evened its record at 4-4 while dimming Rotary's chances of a first-half title. Rotary now stands in second place at 5-3.

In Wednesday's second game at Chase Park, Edwards shut down what has been in the past a devastating offensive attack. Rotary managed just three hits including an RBI triple by Andre Stokes and singles by Henry Williams and Tommy Mathis. Edwards struck out six and walked eight.

Edwards certainly couldn't complain of lack of offensive support as Kiwanis rapped out 12 hits in the game that was ended by the slaughter rule after five innings.

Albert Anderson led the way for Kiwanis as he went 4 for 4 with three singles, a double and

Baseball

three runs scored. Joe Wiggins added three hits including a pair of doubles and drove in three runs. Julius Bennett contributed two hits and two RBIs.

In Wednesday's first game, also shortened by the slaughter rule, Chavers gave up singles to the first two hitters he faced, but allowed no hits the rest of the way.

David Roberts and Paul Rivera led off the top of the first for Ball Motor Line with singles off Chavers but he pitched his way out of the inning. Moose gave Chavers all he needed with three runs in the bottom of the first, two coming on Merthie's double and one on Ray Lewis' triple.

Chavers retired the next six hitters in order before running into control problems in the fourth where he walked in a pair of runs. Chavers struck out seven for the game and walked six.

Moose upped its lead to 7-0 after three innings, then pulled away with five runs in the fourth. The first five hitters for Moose in the fourth all rapped out hits including an RBI double by Merthie and RBI singles by Chavers, Lewis and Darrell Canada.

SUN BANK TOPS FORD

Sun Bank scored eight runs in the top of the sixth inning Wednesday en route to a 15-11 victory over Seminole Ford in Sanford Little American League action at Westside Field.

Damon McIntyre's two-run triple led the way in the big sixth frame while four of the runs scored on bases-loaded walks. Dion Edge had a double in the inning after earlier smacking a solo homer in the fifth and an RBI double in the first.

Seminole Ford managed just six hits in the game but took advantage of 11 walks to stay close. Corey Redding had the big bat for Ford as he pounded out three hits including an RBI double, two-run triple and three-run homer.

ADCOCK RIPS ATLANTIC
 Al Holt and Corey Williams each hit two-run homers as Adcock Roofing knocked off Atlantic Bank, 12-5, in Little American League action at Fort Mellon Park.

Holt's two-run dinger in the bottom of the first tied the game after Atlantic Bank's Tyrone Williams unloaded a two-run shot in the top half. Adcock Roofing came back with four runs in the second to take command. Holt's two-run homer capped off the rally.

Mike Maples was the winning pitcher for Adcock as he allowed five runs on five hits, struck out

Edwards Chavers

15 and walked five. Maples also had three hits in the game while Williams also contributed three hits. Donte Jones and Williams had two hits each for Atlantic Bank.

CARDINAL WIND BLOWOUT
 A 14-run first inning outburst lifted Cardinal Industries to a 20-0 rout of Seminole Petroleum in a two-inning Little American League contest at Fort Mellon Park.

Anthony "Redman" Roberts had two hits in the first-inning rally including an RBI single and three-run homer. Britt Henderson smacked an RBI double in the first and added a triple in the six-run second. Jamie King and Jon Lyman Rogers also had two hits for Cardinal in the two-inning game.

Seminole Petroleum managed just one hit in the game, a one-out single by Tony Alme in the second. Willie Williams was the winning pitcher for Cardinal.

...Rams

Continued from 8A

is a low-key group which doesn't get rattled. They just do their job and do it well."

All of which should make Schmit's evening very challenging. Whereas DePastino depends on a good live fastball and a split-fingered breaker, Lake Mary's four-year mound veteran is a master at painting the corners. Schmit's curveball is one of the best in the prep ranks and he can put it wherever he wants.

"Schmit's ready and we're all hungry," Tuttle said. "I don't think they're a bit of overconfidence, though. I wouldn't be overconfident if we were playing a Senior League team."

"We are confident but not cocky."

The way the Rammites have been hitting the ball, their

posture couldn't be any other way. In five post-season games, Lake Mary has 51 hits in 132 at-bats for 59 runs, almost 10 per outing. The batting average is .396.

Pinckes leads the way with 8 for 13 for a .615 average. Ryan Lisle is next at .571. Glue-fingered shortstop Shane Lettiero is hitting .450 while right fielder Kelly Hywell is batting .444. First baseman Neal Harris (.400), center fielder Brett Moile (.364) and Schmit (.357) complete the "Magnificent 7."

T.J. Sutton (.286) bats eighth in left field and Matt Mesina (.250) will DH for second baseman Wes Weger (.333).

Tuttle said he likes his team's chances to win it all but does have one worry. "We haven't played a close game in so long (since Bishop Moore, April 16), it concerns me," Tuttle said. "We'll just have to see how it goes."

...Lions

Continued from 8A

Portu, a member of Broward's Big League All-Stars last year, is hitting .445 with seven homers, 27 RBI and 24 steals in 30 tries. Chad O'Donnell is next with .387 and 9 of 11 thefts.

Center fielder Bill Kentner follows with .356, three homers, 35 ribbles and 10 of 11 steals. Catcher Mark McAninch is the heavy with a .506 average, nine roundtrippers, 40 RBI and 12 of 15 stolen bases.

John Rader (.395, 2, 25) and Jeff Ritchie (.369, 3, 17) pick up what is left. Kelly O'Donnell, probably the state's most potent No. 7 hitter, is hitting a robust .517 with four dingers, 33 ribbles and 9 of 9 thefts.

Third baseman Vic Bellavia is batting .345 with three homers, 17 RBI and 7 of 8 steals. Pischotta is no slouch at the

plate with a .357 average and three homers. Randy Hamilton, another Broward All-Star, is hitting .285.

Oviedo, meanwhile, can't go bat for bat with Aquinas. But it can go bat for every other bat, which has been enough to scratch out the runs against St. Cloud, Gainesville Eastside and Auburndale to keep alive.

Merchant, a junior center fielder, is 6 of 13 (.462) in the post-season. He had 29 steals to lead the county during the regular season. Belflower, a roll of dynamite in a 5-2 package, is 6 of 10 (.600). Ferguson and Greene are both a surprising 5 of 10 (.500).

Torres has fallen off (3 of 14) during the playoffs, but he batted a solid .436 in the regular season. Bradley has been the defensive mainstay at third base while Barrett fills the role at second and Glenn Reichle handles first base. Catcher Stak is also a respectable hitter.

Ueberroth: Leaders Lax In Drug War

WASHINGTON (UPI) — Saying U.S. leaders are "not making the war on drugs a national priority," Baseball Commissioner Peter Ueberroth called on Congress to fight drugs with the same zeal with which the nation fights international terrorism.

Ueberroth, testifying Wednesday before the House Select Committee on Narcotics Abuse and Control, also reiterated his previous claim that baseball has overcome the drug controversy that dogged the nation's pastime in 1985.

"I'm angry, I'm scared and I'm committed to helping this country declare war on cocaine and marijuana," said Ueberroth, the star witness in a hearing on drug use in the workplace. "Baseball is defeating the problem. Frankly, the battle is over. There might be a flare up or two from time to time, but the institution of baseball has returned dignity to itself."

"It's over," he added. "You're not going to hear about any baseball scandals from this day forward."

"If we declare war on the terrorists in Tripoli, when the hell are we going to declare war on terrorists bringing the poisons into our country?" Ueberroth asked.

"We seem to risk everything to stop these terrorists, but we seem to be unable to stop the terrorists who grow the drugs, and the terrorists in this country who sell the drugs," Ueberroth added. "We're not making the war on drugs a national priority."

Pioneer Corners Market

By Chris Pieter

Herald Sports Writer
 Altamonte Springs Pioneer Savings has pretty much cornered the market in the Seminole Softball Club Startings Division.

Pioneer Savings won the first round title by winning a pair of playoff games, then took the second round with six straight victories. Pioneer hasn't let up a bit as it won its first two in the third round of the season, 12-2, over the Longwood Stars, and, 18-9, over Forest City Rinker Materials.

Against Rinker, Sara Wood drove in four runs with three singles and a double and Andrea Gosias rapped out four singles. Carrie Scranton had a homer among her three hits and knocked in three runs. Heather Leasher lashed a double and triple and drove in three runs and Sunny Jaffin added three singles.

In the win over Longwood, Jessie Huelbig and Stacey McGill provided much of the offensive fireworks with three RBIs apiece while Carrie Young, Kristy Kohl and Jaffin added two singles each to back the three-hit, six-strikeout pitching performance of Jennifer O'Malley.

GATORS KEEP GROWLING

The Forest City Gators, winners of the first and second rounds in the Howie Division, continue to show up the rest of the league with a 5-0 record in the third round.

Included in the Gators' recent rampage was an 18-0

Softball

whitewashing of Winter Springs Charlie's Angels and an 11-4 victory over Forest City Burger King.

Against the Angels, Christa Schroeffel belted a single, double and home run and drove home five runs to back the seven-hit shutout pitching of Miss Stone. Courtney Finley and Addie Antonotti knipped in three runs each while Shelly Spencer smacked two singles and two triples and collected two RBIs.

April Manning led the way for the Angels with a single and double.

In the win over Burger King, Connie Bonaventura, Christy Mathieu, Finley and Schroeffel paced the balanced Gators' offensive attack with two RBIs apiece with one of Schroeffel's hits a homer. Renee Sanville had two doubles and knocked in two of the four runs for Burger King.

Sanville and Carol Rabaja combined to drive in nine runs as Burger King pounded Longwood Atlantic Bank, 18-8.

Sanville drilled two singles and two doubles while Rabaja smacked two singles and a homer. Jenna Baldwin added a pair of singles. Jenna Brougher drove in four runs for Longwood while Rebecca Stewart belted a homer and drove in two runs. In a 2-0 trouncing of Atla-

monte Sunlight Construction, Nicole Rathbun drove in six runs to pave the way for Burger King.

Casselberry Pools by Max opened the third round with three straight wins including a 19-1 romp over Lake Mary Dale Construction in which Casey Stockamp pitched a four-hitter.

Maria Montalvo unloaded a triple and two home runs and Tanya Lewis also ripped a pair of dingers for Pools by Max. Samantha Troiani's round tripper gave Pools by Max five homers for the game while Kat Foldenk drove in three runs with a pair of triples.

RINKER UPSETS WRIGHTON

An eight-run fourth inning paved the way as Forest City Rinker Materials downed Oviedo Wrighton Fire Sprinklers, 14-9, in Eagles Division play.

Michelle Karr and Kim Rodgers drove in two runs each for Rinker while Heather Meyer added two singles and a double and one RBI. Carrie Lawson had three hits and drove in one run for Oviedo while Tammy Jenerette added a double and triple.

Oviedo got three hits from Jenerette to back a strong pitching performance by Tish Brady in a 14-4 victory over Fern Park Langston & Son. Jenerette smacked a triple and homer while Brady also had three hits. Lisa Beatwright doubled for Fern Park.

...Missiles

Continued from page 1A
 manufactures the weapon in Pomona, Calif.
 The Defense Department has exported the weapons legally to Saudi Arabia, and the Reagan administration has favored their shipment to rebels in Nicaragua and Afghanistan.
 However, some defense analysts counter that the story is not so unlikely and is comparable to previous illegal shipments of U.S. weapons.
 For instance:
 ● In New York last month, 17 people were charged with conspiring to sell Iran more than \$2 billion in U.S. aircraft and weapons including Sparrow air-to-air missiles, TOW antitank missiles and M-48 tanks. The international alleged conspirators include several Americans and at least one Frenchman and one Israeli.
 ● During the trial of ex-CIA agent Edwin Wilson it was revealed that he illegally exported 20 tons of C-4 plastic explosives to Libya. It is one of the most powerful explosives and barred from export on the U.S. Munitions list. Wilson also managed to

get several thousand timing devices for these explosives to the Libyans.
 ● Israel is believed to have built its nuclear capability on 200 pounds of U-235 uranium stolen or smuggled from the Nuclear Materials and Equipment Corp. uranium processing plant at Apollo, Pa., during the mid-1960s. The plant was later cited by the Nuclear Regulatory Commission for sloppy security and record-keeping.
 ● A year ago North Korea obtained U.S.-made Hughes military-type helicopters in a complicated arrangement involving arms dealers in West Germany and Japan. Last July, the government reported F-14 aircraft parts had been smuggled from a San Diego, Calif., warehouse, and illegally shipped to Iran.
 As for the Stinger case, said one informant, the missiles were taken off a ship from France before it reached Durban, a South African port.
 "The freighter developed mysterious engine trouble while sailing down the African coast and had to be towed into port," he said. "The cargo had gone by the time it arrived at Durban."
 "It was the South Africans who were

duped," insisted the informant, speaking on the condition he remain anonymous.
 The informants said they were talking because they oppose the clandestine sale of weapons to countries such as Libya, Iran and Syria, which promote anti-western terrorism. They also were bitter at the lack of official action by European governments — particularly France — to stop the trading.
 Anti-Western terrorist groups generally obtain weapons from Soviet bloc nations, but the Stinger is a uniquely desirable weapon. It could be used against helicopters and commercial airliners, which are particularly vulnerable on landing or take-off.
 "It was not the first time that this has happened with arms ordered by South Africa from dealers in France," alleged one of the informants, who claimed close contacts with French and Middle East arms traders.
 In the deal in question, a document obtained by UPI gave details of a letter of credit for \$5,825,000 "maximum" by order of Macanco Ltd., a South African company, in favor of Societe Generale Equipement of Panama.

...Lake

Continued from page 1A
 The monthly allowable average for coliform in the water is 1,000, and a single sample cannot exceed a count of 2,400, according to Donna McCarty of Teer Laboratories.
 Mrs. Rice added that coliform is an "indicator bacteria." Ella Teer has said coliform presence indicates that other health threatening bacteria from human waste or disease producing bacteria may be present.
 "Because the sample area is small, they may get a high level in a sample once, and not get it again," Mrs. Rice said.
 Teer's water samples from the lake are taken from three locations, three times a day, for three weeks, in an effort to arrive at a monthly average count.

Mrs. Rice said warm temperatures can be responsible for adding to the bacteria counts. "Bacteria grows faster in warmer water," she said.
 "The count can't be over 1,000 in 20 percent of the samples during any one month," Ms. McCarty said. "In November, the counts were over 1,000 in 25 percent of samples taken."
 Swimming in the lake has been prohibited since November, when the high bacteria counts were first discovered. A leaking septic tank pipe was discovered to be the source of pollution, and has since been repaired.
 Tests of the water will continue most of the month, and city officials hope swimming will be permitted in the lake by June, if tests show bacteria levels have dropped into the "safe" range.
 —Paul Schaefer

...Kiev

Continued from page 1A
 power accident.
 "Of course there is some anxiety," Tass said. "In railroad stations and at airline ticket offices there are queues for tickets. Now dozens of extra long-distance trains, suburban commuter (trains), diesel trains and extra flights are being put on."
 The Tass report was the first official indication that many residents in the Ukrainian capital were worried about the accident, which sent radioactive material drifting around the world.
 A Moscow resident who contacted a relative in Kiev said many people were "panicked" and unable to get tickets out of the city of 2.5 million people. "Even with a telegram from us asking her to come to Moscow urgently, she couldn't get out," the Muscovite said.
 However, television reports said Wednesday that "all is normal" and the news agency Novosti said, "Everything proceeds in its normal way."
 The nightly news program Vremya showed evacuees in a Ukrainian village about 190 miles east of Chernobyl.
 Tass said the increased radia-

tion caused by the wind shift posed no health threat in the area — the Soviet Union's breadbasket.
 The radiation initially had been driven to the north, west and south, and much of Scandinavia and eastern and central Europe measured much higher levels of radiation. Radioactive particles from the Chernobyl reactor have been detected over the United States.
 In a Russian language report, Tass said some area residents had taken home remedies to guard against radiation and poisoned themselves. It said the injured were being treated in hospitals.
 Local radio and television stations in the Ukrainian city broadcast warnings to residents Tuesday to wash vegetables, close windows and remain indoors because of radioactive fallout.
 The announcement of a rise in radiation contrasted with government statements that radioactivity was no longer coming from the plant and that 4,000 tons of sand dumped on the reactor had snuffed out the fire.
 The blaze, feeding on graphite used to moderate fission of the nuclear fuel, had burned at a temperature of 4,000 degrees.

...Merchants

Continued from page 1A
 channels to firms in Europe. "This is civilian equipment such as gyroscopes, telecommunications gear or helicopters, which can be easily adapted for military purposes," said Steve Goose, an expert on Third World arms trade with the Center for Defense Information. The materiel is off-loaded at a port, relabeled, given new shipment papers, and sent to its ultimate destination.
 Last year, Hughes series 300 and 500 helicopters ended up in the hands of North Korea after such a tangled passage through Europe and Asia. The helicopters, sold as civilian transportation, are now being flown on military patrols.
 "There are lots of companies in the middle, neither completely legitimate or illegitimate, especially in West Germany," Clare said. "They're paid for the use of their name and address as a front, and never actually receive the goods."
 "The CIA has its own set of favorite private shipping companies and warehouses in Europe to slip weapons to their friends. So do the Soviets."
 Payment is often arranged through long-established shell corporations in money centers such as Hong Kong, the Cayman Islands or Switzerland.

...Fallout

Continued from page 1A
 and in New England may contain detectable radioactivity from the Chernobyl accident.
 The report also said Canadian authorities detected unusually high levels of radiation in a shipment of vegetables that arrived Monday in Vancouver, British Columbia, from Italy. The vegetables have been ordered destroyed.
 Western Europe's battle against food contamination caused by the iodine-131 isotope from the Chernobyl site is shifting to a struggle against the longer lasting Strontium-90 and Cesium-137 particles that act like calcium, the chemical that is the building block for bones.
 Isotopes are measured in half-lives, or the time for half of a radioactive substance introduced into a living organism to be eliminated or disintegrated by natural processes.
 Food contamination from the iodine-131 radiation that settled like invisible dust from the Chernobyl cloud is still a concern. Authorities have warned people not to eat freshly picked, leafy vegetables or drink fresh milk from cows that have been munching meadow grass.
 Wednesday, European Community experts called for a ban on imports of East

Bloc slaughter horses, donkeys and mules as well as poultry, crayfish, tame rabbits, snails and frogs legs.
 But the radioactivity in any given batch of iodine-131 loses its potency in just eight days — a relatively quick half-life — meaning that the danger from iodine-131 isotopes will subside fairly quickly.
 Scientists have now begun to detect Strontium-90 with a half-life of 28 years and Cesium-137 with a half-life of 30 years as prevalent in the plume of radioactivity wafting out of the Ukraine in the shower of radioactive particles set free in the accident 12 days ago.
 Strontium-90 tends to collect in the bones where it can play havoc with the blood formation process and is very hard to detect. Cesium-137 collects in the muscles and reproductive organs, scientists say.
 Physicist Erwin Kogler told the Cologne Express newspaper that fish would quickly take up Cesium-137 as a bone-forming material if the isotope managed to contaminate water.
 Scientists at the West German Institute for Biophysics said they have detected a rising ratio of Cesium-137 contamination in milk and vegetables.
 West German health authorities have closed one water works at Leipheim on the Danube River after unacceptable levels of radioactivity were measured in samples of drinking water.

NOTICE OF CHANGE OF LAND USE

The City of Sanford proposes to change the use of the land within the area shown in the map in this advertisement.

A public hearing on the proposal will be held on Monday, April 28, 1986 and May 12, 1986 at 7:00 o'clock P.M. or as soon thereafter as possible, by the City Commission of Sanford, Florida, in the City Commission Room at the City Hall in Sanford, Florida. The City Commission will consider the required reading of Ordinance No. 1803 entitled:

AN ORDINANCE OF THE CITY OF SANFORD, FLORIDA, AMENDING ORDINANCE NO. 1511 OF SAID CITY; SAID ORDINANCE BEING THE COMPREHENSIVE DEVELOPMENT PLAN; AMENDING THE FUTURE LAND USE PLAN MAP OF ELEMENT ONE: FUTURE LAND USE PLAN; PROVIDING FOR SEVERABILITY, CONFLICTS AND EFFECTIVE DATE.

A copy of the proposed ordinance is on file with the Clerk of the City at the City Hall, Sanford, Florida and may be inspected by the public. A copy of the Comprehensive Development Plan is available at the Department of Engineering and Planning at the City Hall, Sanford, Florida and may be inspected by the public.

ADVICE TO THE PUBLIC: If a person decides to appeal a decision made with respect to any matter considered at the above meeting or hearing, he may need a verbatim record of the proceedings, including the testimony and evidence, which record is not provided by the City of Sanford. (FS 206.0106)

200 Hurt in Crash

BOSTON (UPI) — A five-car commuter train rammed a parked freight train in dense fog during the morning rush hour Wednesday, hurtling passengers through the cars and injuring about 200.
 About 200 of the 550 passengers on the commuter train were injured in the 8:40 a.m. crash and about 50 were taken by ambulance to hospitals, Deputy Fire Chief Kevin Mochen said.
 Emergency Medical Technicians said several people suffered broken bones but the majority sustained only cuts and bruises. The injured were taken to nine hospitals.
 The Boston and Maine Railroad commuter train, with four passenger cars, was being pushed by its engine. People flew forward when the train rammed the halted Conrail freight train on the same track in the Brighton section of Boston.
 The B&M commuter train, under contract to the Massachusetts Bay Transportation Authority, originated in the western suburb of Framingham at 8 a.m. and was bound for Boston's South Station.
 The Conrail freight train was en route from Chicago to Boston and was stopped momentarily before pulling into a Conrail yard when it was struck.

Briefly

Sanford Jaycees To Host Communication Workshop

The Sanford Jaycees will be hosting a communication workshop at 7:30 p.m. May 14 at the Greater Sanford Chamber of Commerce, 400 E. First Street, Sanford.

Guest speaker will be Dr. Maggie Culp, Dean of Students, Seminole Community College. The workshop will include points on how to better communicate with your mate, children, employer, employee and peers. This program is open to the public.

For reservations, please call Eric Fletcher at 322-2000.

Vegetarians To Present Seminar

Learn about delicious food that will make you healthy, and enjoy a full course gourmet meatless meal, at the Health Evolution Seminar, to be presented on May 17 by Gentle World, authors of "The Cookbook For People Who Love Animals."

The seminar will feature workshops with Michael A. Klaper, M.D., author of the audio cassette tape series, "Help Yourself to Health," and entertaining cooking demonstrations by expert vegetarian chefs. The seminar, from 10 a.m. to 5 p.m., will be held at the Citrus Sun Club, located right off the Florida Turnpike at Exit 85 (Howey-in-the-Hills Exit) at Highway 27.

The fee for the full-day seminar, including lunch, is \$20 per person, \$35 per couple.

For further information and directions, call Gentle World, at (904) 669-2822.

11th Annual Cornfeast Announced

The 11th annual Orlando Cornfeast will be held from 11 a.m. to 8 p.m. Saturday, May 17 at the Central Florida Fairgrounds. The event will include a dinner of prime beef, baked beans, cole slaw, a drink and all the hot, buttered sweet corn you can eat for \$5. Children under 6 are free.

There will be arts and crafts booths, games, computers, kids' corner, a Country Store, and continuous entertainment all in air-conditioned comfort. An Auction will be held from 5 to 6:30 p.m. and the Freedom Bank balloon rides will be from 1 to 3:30 p.m.

The MetLife Healthcare Network of Florida and Lutheran Brotherhood, will sponsor a Family 5K run beginning at 8 a.m. and a "Little Fritter Critter Skitter" (4 mile fun run) at 9 a.m. All entrants of the Family 5K run will receive a T-shirt and one ticket to the Orlando Cornfeast. The pre-registration fee is \$7. Registration the day of the race will be held from 6:45 to 7:55 a.m. with a \$9 fee.

The Orlando Cornfeast is the major fundraiser for Luther High School which is about to open its new facility on Econlockhatchee Trail.

Arts Council Updates Handbook

The Arts Council of Greater Orlando is currently in the process of updating its Publicity Handbook which is published each year in conjunction with the Publicity Workshop. The workshop is a one-day communications seminar designed to inform community groups and non-profit organizations about the basic tools of effective public relations.

The first part of the Publicity Handbook contains basic information on such topics as writing news releases, the role of a publicity person, the use of photographs, putting together a comprehensive publicity campaign, and more. The second part of the Publicity Handbook is a listing of Central Florida print and broadcast media including information on addresses, phone numbers, contact names, and formats. Each person who attends the workshop receives a complimentary copy of the handbook as part of their participation in the workshop. Additional copies are sold throughout the year at a cost of \$12, and in past years, overruns of 200-300 copies have sold out months before the next issue goes to print.

The 1986-87 edition of the Publicity Handbook will be available to the public following the Arts Council's 10th annual Publicity Workshop on June 26, 1986.

Audubon Society Concludes Events Until Fall Season

Seminole Chapter of Florida and National Audubon Societies will conclude activities until fall with a covered dish luncheon picnic at 12 noon on Thursday, May 22, at Fort Lane Park on Lake Harney in Geneva. Participants are asked to bring a covered dish and a place setting. Geneva members will host this meeting.

Donations have been made this year by Seminole Chapter to: Nature Conservancy in honor of Edith Winchell, Florida Audubon Founders Club, Friends of the St. Johns River, Central Florida Zoo, Florida Audubon Legislative Lobbying, and Eagle Returns Programs in Orange County Schools.

The Seminole Chapter has also participated in the stamp program of the Birds of Prey Center in Orlando where 301 raptors were received for treatment in 1985, many of these birds were rehabilitated and released.

The following officers were re-elected at the April meeting: George Friend, DeBary, president; Al Lathrop, Sanford, vice president; Julia Berlet, DeBary, secretary; Evelyn Bowers, DeBary, treasurer.

Committee chairmen appointed by the president are: Ralph Coggeshall, Altamonte Springs, legislative; Edith Winchell, DeBary, newsletter; Al Lathrop, Sanford, program; Fran Hughes, Sanford, sunshine; Freda Buscull, Sanford, membership; Ray Bowers, DeBary, field trip; Grace Friend, DeBary, publicity.

Eileen Mack with the 1985 U.S. Muscular Dystrophy Association Poster Child.

Local Woman Named As MDA Program Manager Of The Year

Eileen Mack of Lake Mary, was recently named Program Manager of the Year for the Muscular Dystrophy Association by the U.S. Jaycees. Eileen served as manager of the Muscular Dystrophy Association Program for the State of Florida for 1985.

Eileen was appointed manager because of the strength she demonstrated as Community Development Vice President of the Florida Jaycee Women. Eileen also served as President of

the Highlands Jaycees, Youth Program Manager for the Florida Jaycee Women, and President of Sanford Jaycee Women.

During the year that Eileen

served as program manager, she guided the Florida Jaycee membership in raising \$215,682 for the Muscular Dystrophy Association's program which supports 14 Florida clinics and three summer camps.

Since her term of office was up in November, Eileen has been assisting State Community Development Vice President, Bill Poter, coordinate a number of the community development programs in the State of Florida.

The U.S. Jaycees, a leadership training organization, is also a national cooperating organization of MDA.

Pet Owners Must Qualify On Humane Scale

DEAR ABBY: I felt terrible when I read the letter from "Feeling Bad in Birmingham" (state unknown). She took her daughters, ages 2 and 5, to the Humane Society to adopt a kitten, and the people there wouldn't let her have it because the kitten cost \$45 and she was \$1.22 short! You called them insensitive and petty, and you were right.

Abby, I work at a Humane Society in Newport News, Va., and we certainly don't operate that way. We're not out for the money — we just want to make sure our pets are placed in good homes. We don't just let anybody who comes in off the street adopt one of our pets. They have to meet our requirements.

I'm sorry the Humane Society in Birmingham disappointed those people just because they were a little short. Everyone who works here is a true animal lover. We buy special treats and toys for the animals with our own money. We also make sure they get plenty of love and exercise while they're here.

Bless you, Abby, for offering to send the \$1.22 to close the deal. Please let us know what happened.

LIS LEVINE, ANIMAL LOVER

DEAR LIS: Nothing happened because "Feeling Bad" did not include her name and address. I appreciate your generosity, but before you rush in to bless me, please read on:

DEAR ABBY: I nearly choked on my fur ball when I read your response to "Feeling Bad in Birmingham" — the woman who was upset because she was \$1.22 short in meeting the

Dear Abby

adoption fee for a kitten. You called the people at the Humane Society "insensitive and petty" for not giving her the kitten anyway.

Abby, there may have been other reasons the adoption was denied. First of all, the mother said her daughters had just left the dentist's office "feeling glum" and she wanted to get them a pet to cheer them up. Pets are living creatures — not toys to be bought on an impulse to cheer up a child. Also, the children were 2 and 5. At our shelter we don't even consider adoption of small puppies and kittens to children under 6 years old. We've seen too many cases of pets (and children) being seriously injured.

Third, how were the people at the Humane Society to know whether the family could afford to care properly for the pet if they couldn't come up with the price of adoption? We've had pets returned to us because they were too expensive to care for. Some people don't realize that sick animals may need to be taken to the vet. And it costs something to feed them pro-

perly. Abby, put your claws back on us would be willing to assume.

Each Is Responsible For One's Own Health

DEAR DR. GOTT - Could you write a column regarding the responsibility of each individual toward his or her health? DEAR READER - I, too, have addressed this topic in the past. In the final analysis, each of us is responsible for his or her health. Many of the world's health problems are beyond the control of the individual, however. I have in mind the consequences of war, famine and natural disaster. Nonetheless, in the Western world we seem to bring calamity on ourselves by smoking, drinking alcohol, eating fatty diets, avoiding exercise and doing (or not doing) a whole array of things to ourselves. For this, we must assume individual responsibility for this. Doctors can help people by educating them and treating them when necessary, but our roles are limited. I wish that more patients were more willing to "own" their health, rather than placing the burden of responsibility upon the medical profession or society as a whole.

DEAR DR. GOTT - In a previous column, you described a simple way to remedy yeast vaginitis by using boric acid capsules. None of the pharmacists in my community will make the capsules. One of them said he wasn't used to getting involved in any home remedies. What should I do? DEAR READER - The gelatin capsules, each containing 600 mg. of boric acid, are used as vaginal suppositories and can be compounded by any pharmacist for his or her license. This method is safe (the boric acid is not absorbed into the body) and is not a "home remedy." It was described in the Sept. 15, 1961, issue of the American Journal of Obstetrics and Gynecology, and is a medically accepted, inexpensive alternative to prescription drugs.

I am surprised at your druggist's refusal to make up the capsules. In my experience, pharmacists are professionals who usually say they are quite willing to dispense safe treatment today's hand. West should grab the ace of spades quickly only if declarer was short in spades, since they would be abed on dummy's long diamond suit. But West could well reason that his partner held four level without much in high cards. And West already knew that South held only four clubs originally. South therefore had to have length in both diamonds and spades. If that was true, eventually declarer would have played the spade suit himself. It was therefore silly for West to impulsively lay down the ace. By waiting, the defenders could count 800 for a two-trick penalty for their being deprived of a vulnerable heart game, but it would take away a bit of the pain.

WIN AT BRIDGE

By James Jacoby
West wasn't entirely sure that he could beat five clubs, but holding a minimum flat hand, he certainly didn't want his partner to bid five hearts. He led the queen of hearts, won by five hearts for his raise to the declarer next played a club to his nine. West took the ace and dummy and played the king in diamonds. When West won the king of diamonds, he then played the spade ace to beat the contract only one trick. What went wrong? Although it is not always true, there is a saying in this game that aces are meant to take. When you beat the air with an ace, you are not using it to maximum advantage. In defending today's hand, West should grab the ace of spades quickly only if declarer was short in spades, since they would be abed on dummy's long diamond suit. But West could well reason that his partner held four level without much in high cards. And West already knew that South held only four clubs originally. South therefore had to have length in both diamonds and spades. If that was true, eventually declarer would have played the spade suit himself. It was therefore silly for West to impulsively lay down the ace. By waiting, the defenders could count 800 for a two-trick penalty for their being deprived of a vulnerable heart game, but it would take away a bit of the pain.

HOROSCOPE

What The Day Will Bring... YOUR BIRTHDAY MAY 9, 1968
An additional source of income could be developed in the year ahead. It can be manufactured in conjunction with your present channel of earnings.
Taurus (April 20-May 20) Devote as much time and attention as possible today to situations that can enhance your financial base. You're on a lucky money trend. Major changes are ahead for Taurus in the coming year. Send for your Astro-Graph predictions today. Mail \$1 to Astro-Graph, c/o this newspaper, Box 1846, Cincinnati, OH 45201. Be sure to state your zodiac sign.
Gemini (May 21-June 20) No matter what group you're involved with, your physical presence will generate excitement. Everyone will enjoy rubbing shoulders with a winner.
Cancer (June 21-July 22) Your spirit of cooperation will be contagious today and others will enjoy associating with you. Partnership arrangements look good.
Leo (July 23-Aug. 22) You'll have a better time today if you pal around with friends who don't take themselves or life too seriously. Play it loose.
Virgo (Aug. 23-Sept. 22) You're not apt to be numbered among the losers today. If anything competitive develops, you'll do fine and know how to win with grace.
Libra (Sept. 23-Oct. 23) Listen attentively today when in the presence of someone whose wisdom you admire. Something worth remembering will be said that you can use later.
Scorpio (Oct. 24-Nov. 22) An opportunity will arise today to enable you to alter a situation that has caused you consternation. Re-allow it your benefit.
Sagittarius (Nov. 23-Dec. 21) Your spirit of cooperation will be contagious today and others will enjoy associating with you. Partnership arrangements look good. Activities that require both mental and physical exertion will suit you to a tee today. Keep your head and hands busy doing something productive.
Capricorn (Jan. 20-Feb. 19) If you have faith in yourself and your ideas today, Lady Luck will believe in you as well. Think win and act accordingly.
Pisces (Feb. 20-March 20) Your home will serve as a magnet for friends and relatives today. To be on the safe side, stock some goodies and beverages for entertaining.
Aries (March 21-April 19) The more active you are today, the more effectively you will function. Don't be afraid to tackle several tough assignments simultaneously.

Dr. Gott
14 capsules was 31 cents. Although your pharmacist may disagree, I think this is a pretty easy and acceptable approach. Of course, the method is not appropriate for every woman with vaginitis.

Sanford Marine Is Crew Chief Blue Angel Jets In The Pink

By Robert J. Warner
Sanford native Mike Bellale is one of the hand-picked few who wear the insignia of an elite group - the U.S. Navy's Blue Angels. The 27-year-old Marine Corps sergeant is a crew chief for the precision flight demonstration squadron based at the naval air station here. "As the crew chief for jet number two, I'm responsible for inspecting the aircraft and making sure it's safe for flight. The Blue Angels' pilots totally depend on the mechanics and we see that the planes are set up to their specifications," says Bellale.

Sgt. Bellale inspects the landing gear on a Blue Angel jet.

Bob Hope Celebrates Birthday Taping Navy Anniversary Show

PENSACOLA (UPI) - The cradle of naval aviation plays Hollywood this week as Bob Hope and a cast of stars tape a two-hour television special aboard an aging aircraft carrier. "Bob Hope's High-Flying Birthday" is scheduled to air May 26, three days before the veteran entertainer marks his 53rd birthday. The taping coincides with week-long festivities marking the 75th anniversary of naval aviation.

Sgt. Bellale poses beside his A-4 Skyhawk, in top photo. (Below) The Blue Angels fly above the Golden Gate Bridge at San Francisco. They thrill hundreds of thousands of people each year flying inches apart at speeds approaching 500 mph.

Legal Notice

NOTICE OF A PUBLIC HEARING TO CONSIDER THE ADOPTION OF AN ORDINANCE BY THE CITY OF SANFORD, FLORIDA.

Notice is hereby given that a Public Hearing will be held at the City Hall in the City of Sanford, Florida, at 7:00 o'clock P.M. on May 15, 1986, to consider the adoption of an ordinance by the City of Sanford, Florida, as follows:

ORDINANCE NO. 1986 AN ORDINANCE OF THE CITY OF SANFORD, FLORIDA, TO ANNE X WITHIN THE CORPORATE AREA OF THE CITY OF SANFORD, FLORIDA, UPON ADOPTION OF SAID ORDINANCE, A PORTION OF THAT PROPERTY LYING IN BETWEEN SANFORD AVENUE AND PALM WAY AND BETWEEN POINSETTA DRIVE AND HIBISCUS DRIVE, SAID PROPERTY BEING SITUATED IN SEMINOLE COUNTY, FLORIDA, IN ACCORDANCE WITH THE VOLUNTARY ANNEXATION PROVISIONS OF SECTION 171.044, FLORIDA STATUTES, PROVIDING FOR SEVERALITY, CONFLICTS, AND EFFECTIVE DATE.

WHEREAS, there has been filed with the City Clerk of the City of Sanford, Florida, a petition containing the names of the property owner in the area described herein after requesting annexation to the corporate area of the City of Sanford, Florida, and requesting to be included therein; and

WHEREAS, the Property Appraiser of Seminole County, Florida, having certified that there is one owner in the area to be annexed, and that said property owner has signed the Petition for Annexation; and

WHEREAS, it has been determined that the area described herein after is reasonably compact and contiguous to the corporate area of the City of Sanford, Florida, and it has further been determined that the annexation of said property will not result in the creation of an enclave; and

WHEREAS, the City of Sanford, Florida, is in a position to provide municipal services to the property described herein, and that the City Commission of the City of Sanford, Florida, deems it in the best interest of the City to accept said petition to annex said property;

NOW, THEREFORE, BE IT ENACTED BY THE PEOPLE OF THE CITY OF SANFORD, FLORIDA:

SECTION 1: That the property described below situated in Seminole County, Florida, be and the same is hereby annexed to and made a part of the City of Sanford, Florida, pursuant to the voluntary annexation provisions of Section 171.044, Florida Statutes.

Lots 9 and 10, Block 1, FLORA HEIGHTS SUBDIVISION, according to the plat thereof as recorded in Plat Book 3, Page 19, of the Public Records of Seminole County, Florida.

SECTION 2: That upon this Ordinance becoming effective, the property owner and any resident on the property described herein shall be entitled to all the rights and privileges provided in this Ordinance, and immunities as are from time to time granted to residents and property owners of the City of Sanford, Florida, as their rights are provided in Chapter 171, Florida Statutes, and shall further be subject to the responsibilities of residence or ownership as may from time to time be determined by the governing authority of the City of Sanford, Florida, and the provisions of said Chapter 171, Florida Statutes.

SECTION 3: If any section or portion of a section of this Ordinance proves to be invalid, unlawful, or unconstitutional, it shall not be held to impair the validity, force or effect of any other section or part of this Ordinance.

SECTION 4: That all ordinances or parts of ordinances in conflict herewith, be and the same are hereby repealed.

SECTION 5: That this Ordinance shall become effective immediately upon its passage and adoption.

A copy shall be available at the Office of the City Clerk for all persons desiring to examine the same.

All parties in interest and citizens shall have an opportunity to be heard at said hearing.

ADVICE TO THE PUBLIC: If a person desires to appeal a decision made with respect to any matter considered at the above meeting or hearing, he may need a verbatim record of the proceedings, including the testimony and evidence, which record is not provided by the City of Sanford. (FS 286.0161).

Legal Notice

CITY OF LAKE MARY, FLORIDA NOTICE OF PUBLIC HEARING

NOTICE IS HEREBY GIVEN by the Planning and Zoning Board of the City of Lake Mary, Florida that said Board will hold a Public Hearing at 7:00 P.M. on Tuesday, May 13, 1986, to:

a) Consider a request for a Conditional Use for the purpose of constructing a Grace United Methodist Church, in an area presently zoned A-1 Agriculture, and described as follows: PLAT OF SURVEY FOR DISTRICT UNITED METHODIST CHURCH

DESCRIPTION PARCEL 1: Beginning 83 Chains South and 23 Chains West of the NE Corner of Section 4, Township 30 South, Range 20 East, run south 114 Chains, thence run East 1/2 Chain to the POINT OF BEGINNING, LESS the North 15 feet and the West 15 feet for Public Road, and being in Sections 4 and 9, Township 30 South, Range 20 East, Seminole County, Florida. ALSO see memo on file, heretofore recorded as: Beginning of a stake on the NW Corner of a certain piece of land containing 80 acres in Sections 4 and 9, Township 30 South, Range 20 East, Seminole County, Florida, described in the Trustee's of the Florida Land & Colonization Co. Limited to Mary Amanda W. Keely, on the 31st day of October 1985 and running West 1/2 Chain to a stake thence South 11 1/2 Chains and 25 Links, thence East 3 Chains, thence North 11 1/2 Chains and 25 Links to the Point of Beginning. Containing 8.89 acres more or less, hereby reserving 15 feet along the North and West sides of the above lands the same to be kept open as half of the public roadways forever. Subject to Right-of-Way for Country Club Road.

PARCEL 2: The West 3 Chains of the North 10 Chains of the South 30 Chains of Government Lot 2, in Section 9, Township 30 South, Range 20 East, Seminole County, Florida. Subject to Right-of-Way for Country Club Road.

PARCEL 3: The West 3 Chains of Government Lot 2, Less the North 8 1/2 Chains and the South 30 Chains, in Section 9, Township 30 South, Range 20 East, Seminole County, Florida. Subject to Right-of-Way for Country Club Road.

More commonly known as Southeast corner of Country Club Road and Rantoul Lane, approximately 1 mile from Lake Mary, Florida. The Public Hearing will be held in the City Hall, 150 North Country Club Road, Lake Mary, Florida, at 7:00 P.M. on May 12, 1986, at 7:00 P.M. as far as possible. Said hearing may be continued from time to time until a recommendation is made by the Planning and Zoning Board.

A taped record of this meeting is made by the City for its convenience. This record may not constitute an adequate record for purposes of appeal from a decision made by the City with respect to the foregoing matter. Any person wishing to insure that an adequate record of the proceedings is maintained for appellate purposes is advised to make his or her own expense.

CITY OF LAKE MARY, FLORIDA Plaintiff. DAVID BERRIEN Clerk of Circuit Court By: Selma Zayas Deputy Clerk Publish: April 23, May 8, 1986 DEC-10

PUBLIC NOTICE U.S. Environmental Protection Agency, Region IV, Compliance Section, 345 Courtland Street, N.E. Atlanta, Georgia 30365, 404/247-2211. PUBLIC NOTICE NO. MFO101(A) DATE: May 8, 1986. NOTICE OF APPROVAL OF A MUNICIPAL PRETREATMENT PROGRAM IN ACCORDANCE WITH THE PROVISIONS OF THE CLEAN WATER ACT OF 1977.

The City of Sanford has developed and submitted for approval by the U.S. Environmental Protection Agency (EPA), a pretreatment program for its publicly-owned treatment works (POTW). EPA has approved this program based on a determination that it meets the requirements of 40 CFR 403.9(b). The requirements in that regulation are designed to assure a pretreatment program which will (a) prevent the introduction of pollutants into POTW which will interfere with their operation, including the use or disposal of solids; (b) prevent the introduction of pollutants into POTW which will pass through the treatment works or be otherwise incompatible; and (c) improve opportunities to recycle and reclaim municipal and industrial wastewater and sludge. If there are objections regarding the pretreatment program, they should be addressed to: U.S. Environmental Protection Agency, Region IV, Compliance Section, 345 Courtland Street, N.E. Atlanta, Georgia 30365. City Manager, City of Sanford, 300 N. Park Ave., Sanford, Florida 32771. Any comments or questions should be directed to the attention of Ms. Earline Hanson and the public notice number should be included in the correspondence. Publish: May 8, 1986. DEC-2

PUBLIC NOTICE U.S. Environmental Protection Agency, Region IV, Compliance Section, 345 Courtland Street, N.E. Atlanta, Georgia 30365. PUBLIC NOTICE NO. MFO103. DATE: May 8, 1986. NOTICE OF REQUEST FOR APPROVAL OF A MUNICIPAL PRETREATMENT PROGRAM IN ACCORDANCE WITH THE PROVISIONS OF THE CLEAN WATER ACT OF 1977.

The City of Altamonte Springs, Florida has developed and submitted for approval by the U.S. Environmental Protection Agency (EPA), a pretreatment program for its publicly-owned treatment works (POTW). EPA has made a preliminary determination that this POTW pretreatment program meets the requirements of 40 CFR 403.9(b). The requirements in that regulation are designed to assure a pretreatment program which will (a) prevent the introduction of pollutants into POTW which will interfere with their operation, including the use or disposal of solids; (b) prevent the introduction of pollutants into POTW which will pass through the treatment works or be otherwise incompatible; and (c) improve opportunities to recycle and reclaim municipal and industrial wastewater and sludge. The pretreatment program submission is available for inspection and/or copying at the address listed below: U.S. Environmental Protection Agency, Water Management Division, 345 Courtland Street, N.E. Atlanta, Georgia 30365. City Manager, 235 Northburg Ave., Altamonte Springs, Florida 32701. Interested persons are encouraged to comment on this program on the submission, and may request a public hearing. All written comments submitted timely will be considered by EPA in the decision that this POTW pretreatment program will or will not approve the submission. Persons wishing to request a public hearing must indicate their interest in the matter and state reasons why such a hearing is warranted in accordance with 40 CFR 403.11(b)(1)(ii) this public notice comment period will and thirty (30) days from the date of publication. Send comments or requests for public hearing to the attention of Earline Hanson. The public notice number should be included in the first page of comments. Publish: May 8, 1986. DEC-6

Legal Notice

INVITATION TO BID SECTION 0290 CITY HALL CITY OF LONGWOOD LONGWOOD POLICE STATION

Notice is hereby given that SEALED BIDS from qualified General Contractors will be received by the City of Longwood, Longwood, Florida, for all materials and labor necessary for the construction of a Police Station (Project No. 421-85). Bids shall be accepted until 4:00 p.m. Monday, June 9, 1986, to be opened at 7:00 p.m. City Council Meeting and publicly read.

Project is for construction described in general as follows: Approximately 9,488 enclosed square feet of one-story Police Station Building. Constructed of exterior masonry walls with brick veneer. Interior metal stud partitions. Roof structure of steel joists and bar joist with steel decking. Roof insulation board with elastic sheet roofing. Drive through security vehicle alleyway and fire sprinkling system, air grading and utilities, all as shown on Contract Documents dated April 21, 1986.

In order for bids to be considered they must be in the possession of the City Clerk on or prior to 4:00 p.m., Monday, June 9, 1986. Mail or hand delivered all bids to the City of Longwood, Attention: City Clerk, 175 West Warren Avenue, Longwood, Florida 32768. All bids must be securely sealed in an envelope or suitable conveyance and clearly marked on the outside with the date, time and name of bid.

Bona fide general contract bidders may secure copies of the proposed Contract Documents from the Architect, Architects Design Group, 333 North Knowles Avenue, Winter Park, Florida 32789, (386) 647-1768.
