B52s Plaster War Quiets Down

SAIGON, South Vietnam (AP) — U.S. B52s rained bombs in the middle of the demilitarized zone today while the air war in North Vietnam and the ground war in the south quieted down.

The B52s made two other raids during the day, both in the North Province northwest of Saigon near the Cambodian border.

In the Iron Triangle, also northwest of Saigon, Brig. Gen. Richard T. Knowles, 31, of Columbus, Ga., commander of the U.S. 198th Light Infantry Brigade, escaped unharmed when his helicopter was hit by Viet Cong rockets.

The chopper made a forced landing after it was hit by automatic weapons fire 200 feet off the ground over the Ho Bo Woods, 25 miles northwest of Saigon. Knowles also was injured Dec. 19 when his helicopter was hit eight times by enemy ground fire.

Bad weather closed in over North Vietnam again and U.S. pilots were limited to 42 missions Monday, the first time in a week that the missions fell below 50.

One plane, an Air Force F4C Phantom jet, was shot down by Communist ground fire and the two-man crew was missing. U.S. headquarters announced it was the 46th announced U.S. plane lost over the north.

Congress Seen To OK Social Security Pay

WASHINGTON (AP) — Congress starts work in three weeks on a Social Security bill, apparently in a mood to increase benefits by 10 percent, according to President Johnson's proposal.

Johnson's message Monday recommended benefit increases of 10 to 15 percent. But those increases would be financed by several major increases in the payroll tax so that by 1975 some earners would be paying \$59.40 a year, more than twice the present maximum.

Military Aid Promised to Mao Tse-tung

WASHINGTON (AP) — President Johnson's proposals for a greater social security and income tax surcharge and increase Social Security assessments and benefits are bound to set off political arguments and philosophical debates over the two proposals are finely intertwined.

The President receives his entire Social Security package it might necessitate a tax increase. Bigger payouts would have less money to invest in government securities. The government needs that money.
