Underwater Time Travel

NEW YORK (UPI) — The latest project of Captain Jacques Cousteau is time travel — underwater, of course.

"Did you ever read 'The Time Machine,' by H.G. Wells?" Capt. Cousteau asked during an interview, in which he was explaining the basis for his new "Cousteau Odyssey" series on PBS.

"We have developed during my lifetime the means and the tools to penetrate the ocean — the Aqualung, the minisub, houses under the sea, underwater cameras, even television cameras, and much more.

"All this array of hardware we have used until now, for what I call the horizontal exploration of the oceans, exploring them as they are today anywhere, at any depth. To explore horizontally is to explore in space.

"In 1976 I tried to turn all this hardware into a radically different use — to explore not in space but in time — vertical exploration, to turn back the clock."

The French undersea pioneer and explorer said that he and his son, Philippe, co-producers of the new series, will air four shows for PBS in the 1977-78 season, and eight more for the two subsequent series, "Calypso's Search for the Britannic."

"We wanted to start almost in modern times," Cousteau said. "We were turning the clock back more 60 years."

He said future "Odyssey" programs would explore subjects of increasing antiquity — Byzantine, Phoenician, Roman, Greek, Minoan, pre-Minoan.

"We want to begin to investigate the relationship between human beings and their environment, as it has been in the past.

"Have human beings always been destroyers?"

"If they have, how did he cope? How much damage did he do? These are lessons we can get from antiquity."

So far, the answer appears to be that man has always been a destroyer.

"Man has always been a predator, always a destroyer, but there were so few people on this planet," he added. "When there were fewer than a million individuals on this earth, they could not do much harm. The trouble now is that the teeth of the predator have grown so long."

Cousteau today finds all the

problems of pollution — from oil spills to overfishing to the other ills he has tried to fight over the years — minor compared to what he considers the overriding evil — the unresolved problems that heavy reliance on nuclear energy could bring.

"We propose a moratorium until there has been time to solve the technological problems. Otherwise what man does today could poison generations for thousands and thousands of years."

Thanksgiving Feasts

How'd Ya Like To Cook For 18,000?

Thanksgiving is fun for everyone but the cook, right?

After all, she (he) has to stuff the turkey, bake it just right, see to the vegetables, the salad and the once-a-year home-made bread and feed the relatives from out of town. There are probably dozens who fit the description.

But what if you had to do it for 18,000 people—like Charlotte Whitmore, food services director for Seminole County Schools?

Or even about a hundred, like Sharon Lindsay, cook at the county jail?

Or even worse, what if you had to work at up-staging turkey, because you always serve it twice a week, like K. V. Benson Jr. food services director, Seminole Memorial Hospital. He was preparing rock cornish game hen.

The problems confronting Seminole County this month range from the 216 turkeys, weighing 20 pounds each,

which were prepared for students in Seminole County schools on Wednesday to the one, or possibly two, serving the youngsters in the county detention center.

Rick Hughlett, at the center, says "We have turkey and a complete Thanksgiving type dinner. The VFW (Veterans of Foreign Wars) auxiliary is bringing out some pies, sweets and nuts. But how much we will be cooking depends on how many kids

are here at the time," Hughlett says. "As of Monday there were 20 youngsters at the detention center, Hughlett said, "and parents who wish to come eat with the children were invited."

Mrs. Whitmore says that Thanksgiving day has been celebrated on "Thanksgiving Eve" in the 39 Seminole County school cafeterias, "for as long as I've been here, and that is 22 years. I'm sure they also did it before that," she says.

Mrs. Whitmore says the school menu included the turkey — 5,300 pounds of it — as well as whipped potatoes, green peas, cranberry sauce, and "sweet potato cake instead of pumpkin pie."

At Bram Towers, Sanford senior citizens residence, Mrs. Arlene Boyd, administrator, said that Thanksgiving dinner was a combination of turkeys supplied by the administration and potatoes supplied by the tenants.

"We have not yet calculated the number of turkeys," she said earlier this week. "It may be three, or may be at the most four. The tenants will dine together downstairs in the dining room."

At county jail food service, Mrs. Arlene Boyd, administrator, said that Thanksgiving dinner was a combination of turkeys supplied by the administration and potatoes supplied by the tenants.

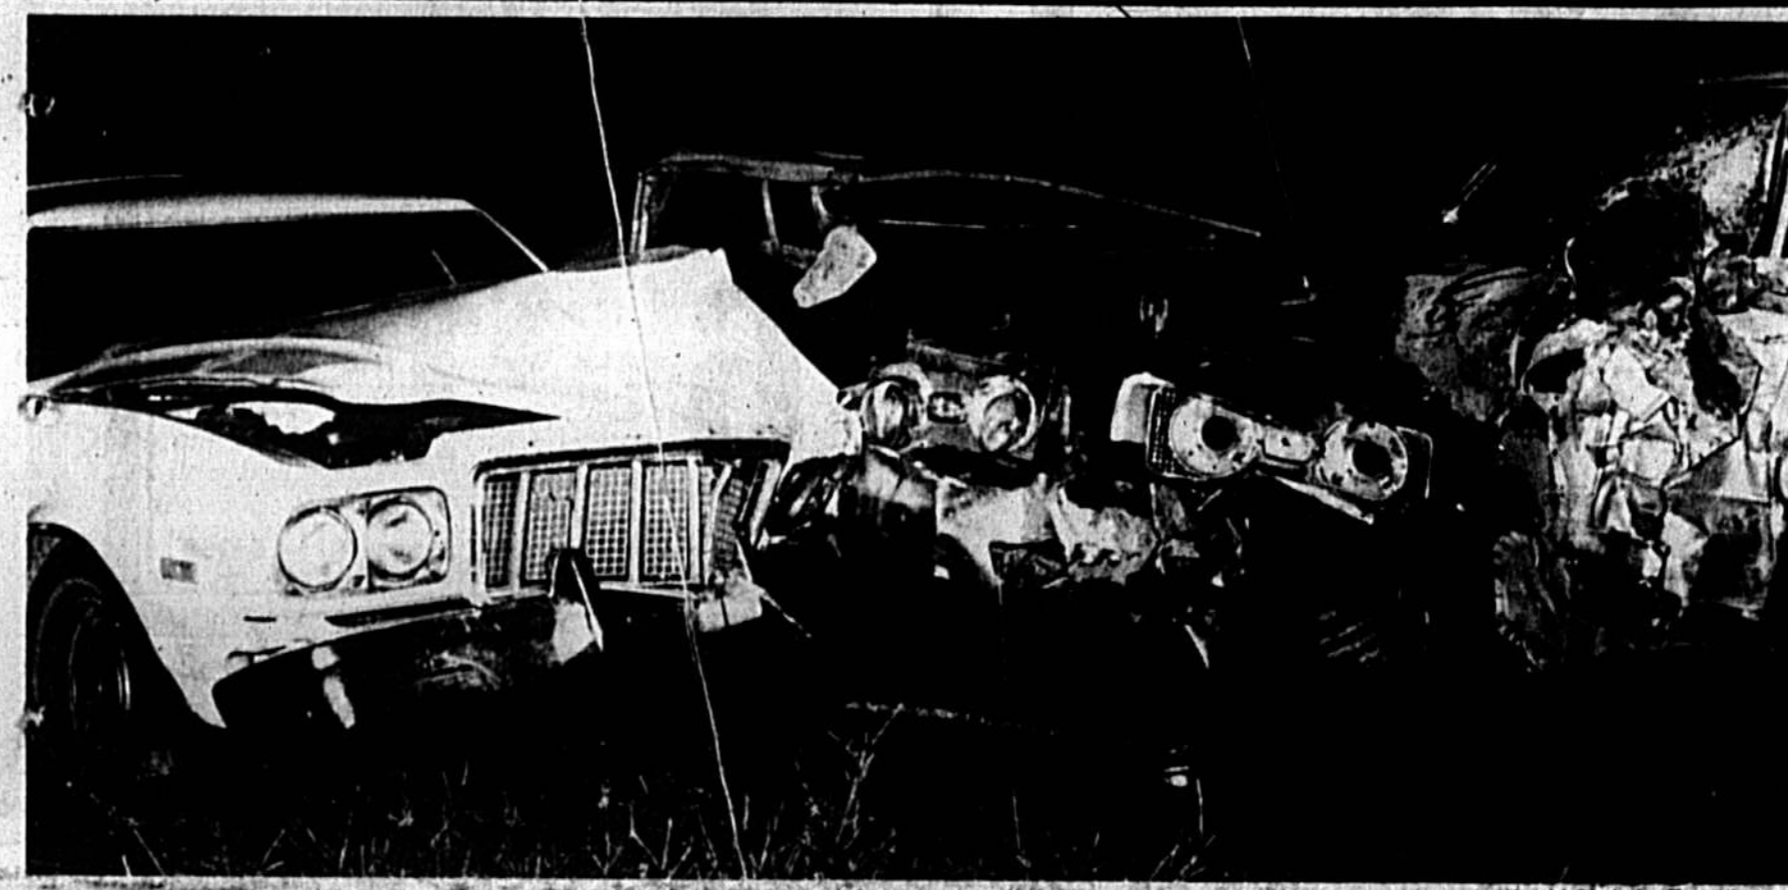

"One year we served quail," he said. "Even the vegetables served at the hospital include such delights as green peas with mushrooms."

Patients were allowed to have guests on Thanksgiving, and Benson's office was planning to feed about 150 people.

K. V. Benson Jr., food services director, says that his staff makes a real effort to turn holiday meals into something memorable for patients.

"Patients were allowed to have guests on Thanksgiving, and Benson's office was planning to feed about 150 people."

Bicycle Bandit Surrenders

Police Hunt Masked Robbers

While Sanford police today were searching for two men who held up a grocery store in that city, Casselberry police had in custody a 20-year-old armed robber who got \$34 in a similar incident, then made off on a bicycle.

The Sanford robbery occurred about 7:50 p.m. Wednesday at the West Third Street grocery, 805 W. Third St.

Two masked men, one of them armed with a shotgun, entered the store and held the owner, Ron Branley and his wife, Brenda, at bay and rifled the cash register.

"The one with the shotgun held it on my wife and told both of us to 'Be quiet. Be quiet.' while the other one went through the cash register and took about \$150," Branley said.

The grocery store owner said the robbers spent only about two and a half minutes in the store, then left with the cash, as well as the cash register.

Police said the robbers drove off in green car which had been parked at Third St. and Holly Ave.

Branley said he and his wife were putting groceries on the shelves when the robbery occurred.

In an unrelated case, a 20-year-old Casselberry man turned himself into police in that city after he robbed a convenience store attendant of a reported \$34 and sped away on a bicycle.

Casselberry Police Det. Gary Miller said Scott Williams Grant, 906 Mango Drive, entered the Beverage Man store at 17-92 and Golden Days Drive shortly after noon Wednesday, pointing a snub-nosed .22 caliber revolver at store clerk Anna Chambliss.

Miller said the clerk handed

Grant all the money she had, which Grant later said was about \$34.

Grant turned himself in at the Casselberry police station at 1:40 p.m., according to Miller.

Grant was placed in the Seminole County jail under a \$10,500 bond, jail records indicated.

SCHOOL ROBBERED
Camera equipment totaling \$639 was reported stolen from a classroom at Seminole High School during the nighttime hours of Monday or Tuesday, according to Sanford Police.

John Cullen reported the camera, several lenses and accessories missing at 8:30 a.m. Tuesday, according to police, from classroom 1304.

Entry to the classroom was made through a north side window which apparently had been left unlocked the previous afternoon by the subjects involved, police said.

JEWELRY STOLEN
Janie Meeks, 63, reported the theft of jewelry valued at \$800 from her home at 118 Live Oak Lane in the South Seminole County area, according to sheriff's department records.

A necklace, chain and three bracelets were reportedly taken from a jewelry box on a dresser sometime between Nov. 15 and 18, authorities said.

VANDALS HIT
The clubhouse of the San Jose Apartment complex was vandalized sometime during the nighttime hours Monday or Tuesday, reports said.

A cleaning woman found damaged chairs and tables when she opened the clubhouse Tuesday morning, reports said. Beer had been poured on the pool table, and damage totaled \$50.

Karen Graham, 26, a resident of the complex at 2333 Winter Woods Blvd. reported the vandalism.

WOMAN ARRESTED
Sheriff's deputies arrested Karin Bowman Dunn, 24, 1206

Present, Sanford, Tuesday about 9 p.m. after a high-speed chase around part of Lake Monroe on Highway 17-92.

Ms. Dunn, was charged with fleeing and attempting to elude, driving with no taillights and driving with no driver's license. She was placed in Seminole County jail on a bond of \$225, according to jail records.

A sheriff's deputy said he chased the Dunn vehicle at speeds up to 104 miles per hour before Ms. Dunn was stopped one-half mile north of the county line in Volusia County, jail records indicated.

The Dunn vehicle itself speeded up to 70 miles per hour in the 40 mile-per-hour zone, according to reports.

Circuit Court Clerk Art Beckwith is irked at plan to switch some of his functions to control of the Seminole County Commission.

Wet-Road Hazards

Crashes Cool Holiday Fever

The bus accident took place about 1 mile east of Oviedo on SR 426, the patrol said.

Driver Maxine Bowman had just dropped off one student and was pulling away at 2:30 when Ruth Nichel, Route 1, Box 415, Sarasota, lost control of her vehicle after the brakes locked on the wet pavement, Trooper Tommy Tomlinson said.

The auto struck the bus on the left side just behind the driver's seat, leaving an indented strip of metal down the length of the bus, he reported.

The bus tipped slightly to one side under the impact, but was in no danger of turning over, several students said.

Fire rescue personnel at the scene said Ms. Nichel was not seriously injured.

Tomlinson said both her car and the school bus suffered damage estimated at \$1,800.

Other minor accidents reported Wednesday afternoon by the Florida Highway Patrol include a 2:18 accident on Tuckavilla Road south of Lake Drive, a 2:43 accident at SR 419 and 434; and a 2:24 accident at Ridgewood and Grove near Allamonte Springs.

Chief Radio Operator Jummie Todd said troopers responded to all the accidents.

Todd also reported other minor accidents at the exit ramp of Interstate-4 and SR 436 at 3:45 p.m. and a 4:12 accident at SR 413 near the Spring Hammock Trailer Park.

A trooper also responded to a reported accident at SR 427 and Longwood Hills Road at 4:12, Todd said, but when the trooper arrived, no one was there.

Todd said a trooper also responded to an accident at SR 434 and Welva Springs Road at 5:12 p.m.

The National Safety Council estimated 460 to 480 persons could die in traffic accidents during the Thanksgiving weekend ending midnight Sunday.

The Thanksgiving holiday was delayed for about an hour Wednesday afternoon for 34 Oviedo High School students when according to police, an automobile driven by a Sarasota woman crossed the center line and veered into the left side of their bus.

No one was injured seriously.

The bus accident was one of four accidents in Seminole County between 2:15 and 2:45 p.m. Wednesday as rains and drizzle dragged through the county.

Florida Highway Patrol spokesman said the accidents were relatively minor and did not involve serious injury.

RAINING ON OUR PARADE

Thanksgiving Weekend got off to a stormy start with showers Thursday and more predicted for Friday. Barbara Huff peeks from under her umbrella to check atmospheric conditions. The weatherman predicts it will clear up for Saturday and Sunday.

FLORIDA IN BRIEF

Wife Wants Poston To Run For His Life

MIAMI (UPI) — Sen. Ralph Poston, D-Miami, found guilty of misconduct charges by the Senate Judiciary-Civil Committee, Wednesday said his wife has persuaded him to seek reelection in order to clear his name. "My wife has been extremely wonderful to me. She went with me to Tallahassee every day (to attend the committee hearings). And she said, 'Honey, you must run again and protect your name because it means more than everything else put together,'" Poston said.

Bar Seeks Rubin Ouster

TALLAHASSEE, (UPI) — The Florida Bar will ask the state Supreme Court to disbar the Miami attorney who unsuccessfully used the defense of "television intoxication" in the murder trial of a 15-year-old youth, the Bar announced Wednesday. It may have been a complaint filed on behalf of a jailed ex-World Football League executive that triggered the Florida Bar Board of Governors' decision to seek disbarment of attorney Ellis Rubin, it was further disclosed.

Moms-To-Be Using Drugs?

GAINESVILLE, (UPI) — American mothers-to-be are using an alarmingly high level of drugs without knowing the consequences on them or their unborn children, a study by a group of University of Florida researchers indicates. In the study of 168 pregnant women in the Gainesville area, the UF College of Pharmacy researchers reported 93 percent used five or more drugs prior to delivery despite possible risks to their babies.

Court Backs Zoning Law

TALLAHASSEE, (UPI) — The Supreme Court says an ordinance requiring a 4-to-1 vote of a city commission to grant a zoning change objected to by 20 percent of the landowners in the area is not only valid but desirable. The decision, handed down Wednesday, is the first by the high court on the extraordinary requirement of more than a simple majority vote of a city commission to act.

Funds Could Free Patients

TALLAHASSEE, (UPI) — Officials say more than 350 elderly patients at the mental hospital in Chattahoochee could be released if the state and federal governments provide funds for alternative services. Sen. Lawton Chiles, D-Fla., Wednesday held a public hearing at which he heard numerous complaints about the lack of alternatives to nursing homes.

Electronic Smugglers?

MIAMI (UPI) — Organized drug smugglers have been using a floating electronic command post to track Coast Guard cutters and direct narcotics shipments for at least five years off the Gulf and Atlantic coasts, a New York Congressman said Wednesday. Rep. Mario Biaggi, D-N.Y., chairman of the House Subcommittee on the Coast Guard and Navigation, made his comment at a Miami hearing.

Racket Suspect Bids

JACKSONVILLE, (UPI) — One of nine north Florida men charged in a federal racketeering indictment moved for a dismissal of charges against him Wednesday on grounds the government reneged on a deal not to prosecute him. In his motion, Canon St. John Wilmont, 46, a state agricultural inspector from White Springs, said the government must prove he violated a plea agreement in a prior case before it can prosecute him for racketeering.

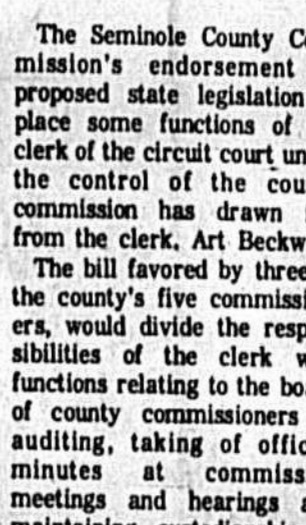

Teachers Grade Lawmakers

TALLAHASSEE, (UPI) — A teachers' union is keeping a report card on the voting record of legislators on issues considered significant to schools. The House got a B-plus, the Senate a D.

Duty-Switch Plan Irks Clerk Beckwith

By MARK WEINBERG Herald Staff Writer

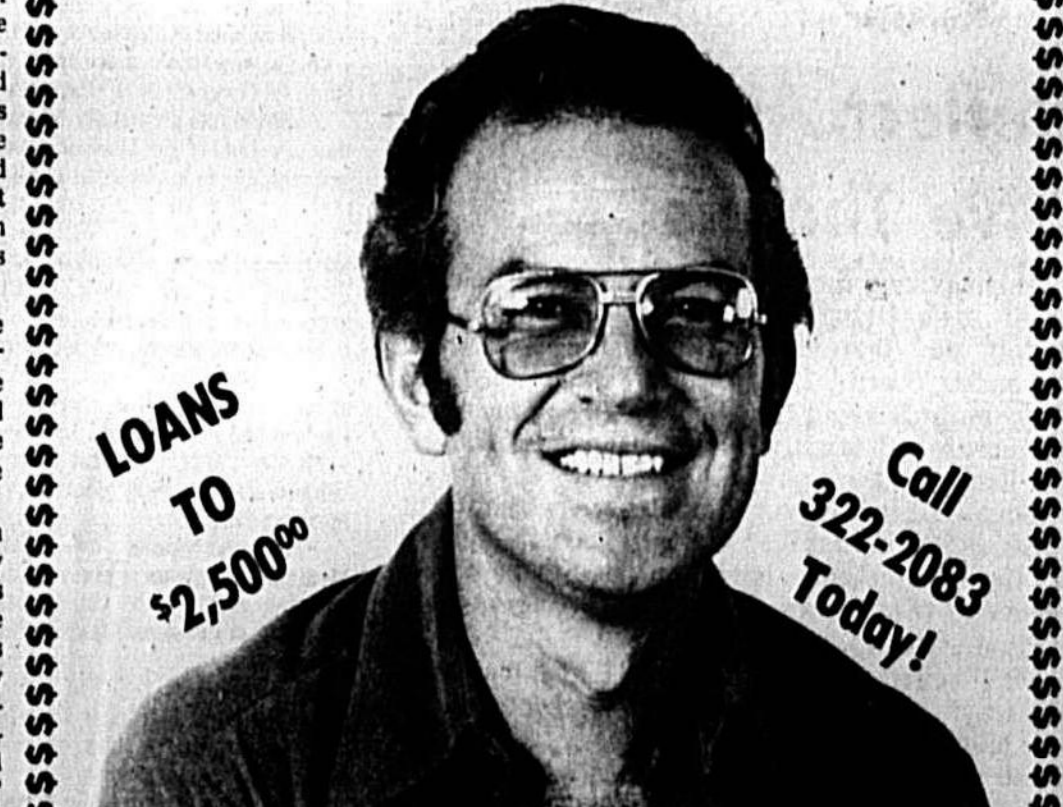

ART BECKWITH...can't understand'

The Seminole County Commission's endorsement of proposed state legislation to place some functions of the clerk of the circuit court under the control of the county commission has drawn fire from the clerk, Art Beckwith. The bill favored by three of the county's five commissioners, would divide the responsibilities of the clerk with functions relating to the board of county commissioners — auditing, taking of official minutes at commission meetings and hearings and maintaining custodianship of county funds — to be performed by an individual who may be appointed by commissioners or elected by county voters, at the discretion of commissioners. The proposed bill would create the option for county commissioners in the 10 of Florida's 27 counties, which employ a county administrator. Seminole is one of the 10 counties. Commissioners Dick Williams, Bob French and Harry Kwikowski favor and John Alexander and Bill Kirchoff oppose the bill, which has been proposed by the House Committee on Community Affairs of the Florida Legislature. Beckwith opposes the bill. "I can't understand, with the overwhelming feeling of people

1976, according to county records. Voting in favor of placing the question on the ballot were current Commissioners Kwikowski and Williams and Commissioners John Kimbrough and Mike Hattaway. Commissioner Sid Vihlen Jr. was not present at the February, 1976, commission meeting at which the vote was taken. "The people of Seminole County recently expressed their desires in this regard. We (the clerk and commissioners) had a friendly confrontation. The vote wasn't even close," the clerk said. Beckwith has maintained a clerk independent of county commission control is beneficial to the public because his office audits the county's books independently of county commission control or influence. Since the state's annual audit of county financial records is "two years behind," Beckwith says his annual audit is part of a system of checks and balances on the county commission. "Commission endorsement of the proposed bill to split the functions of the clerk's office will be part of a package of legislative recommendations which will be submitted to the legislative delegation. The legislative package is expected to go to the delegation by Christmas. The final deadline is Feb. 10.

W.C. "Bill" Fraasa welcomes you to his new loan office opposite the "Old Firehouse."

Bentley Heads SMH; Rates Up

The Seminole Memorial Hospital Board of Trustees has named new hospital administrator effective Dec. 19 and raised room rates by 8.6 per cent at the facility beginning Jan. 1. William Charles Bentley, hired by the trustees Oct. 1 and who has been serving in the position of assistant administrator since then, was named to take over as administrator of the facility in mid-December from Robert Bessner, the hospital's administrator of many years according to Allan Keen, chairman of the board. Keen said that when Bentley was hired, it was understood that he would succeed Bessner when Bessner retires later next year. Bessner and Bentley "came to the board and recommended that Bentley assume the position now," Keen said. He explained that Bessner will retire from the hospital next fall but will continue at the hospital as director of long-range planning until then. Bentley worked for the Baptist Medical Center in Montgomery, Ala., for the past seven years as vice president of that facility. During his tenure there, the hospital grew from 200 beds to 400, Keen said. Long-range plans for expansion of Seminole Memorial Hospital call for the facility to become a 400-bed hospital at its current location. The hospital now has 196 beds and approval has been received to add another 36. Construction on the expansion is planned to begin early next year. The trustees also have approved an increase of 8.6 per cent in room rates. The increase is contingent on approval by Blue Cross as required under the govern-

Reflect And Give Thanks

Thanksgiving day is here again — and that in itself is something to be thankful for. It's a quiet, family day that centers about the traditional "giving thanks." It's an unhectic, unhurried day (except for those in the kitchen, but for most the results are well worth it), a day that can be enjoyed for itself alone.

Some time today, probably after we retreat from the scene of devastation wrought upon the turkey or the ham or what have you, we'll take a few moments to look back over the past year in a spirit of thankfulness.

We'll reflect on the good things that have come our way — to us personally, to our loved ones and to our fellow men at large. The disappointments, the frustrations, even the tragedies we may have known, will fade into the background as we relax in a sense of gratitude just for the mere fact of living.

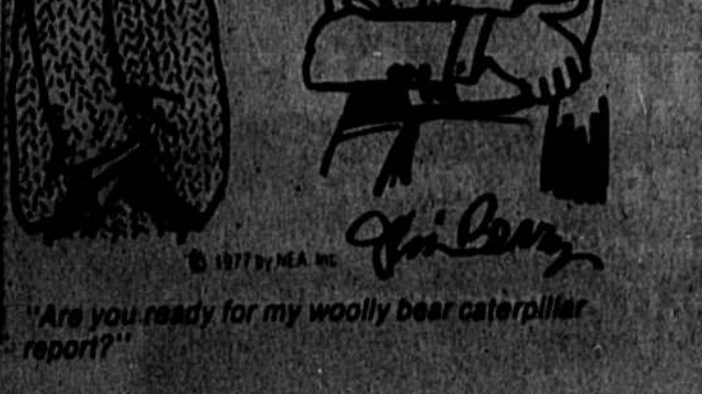

But Thanksgiving is more than a once-a-year review or balance sheet of the previous 12 months. It's a collection of memories of many other similar holidays. It's the sum of all the Thanksgivings, particularly those of our children.

Thinking of this, we realize that we are today building part of the memories that will color all the coming Thanksgivings, particularly those of our children.

It makes us pause to consider what kind of memories we are making for them, what kind of family life, what kind of attitude toward the world. We celebrate Thanksgiving in good years and in some not so good. In the latter case, concern for what the future holds can cast a pall over the festivities.

But there is always reassurance in the example of the first Thanksgiving. It was festive, yes, but all the more meaningful because it was held in perilous times. The future was not at all certain for those pioneers in a harsh wilderness, and there was no guarantee that they would survive for another year.

Yet a spirit of hope and confidence so infused that gathering that it has reached down over the centuries to us. No sense of impending and inevitable doom should sit at America's Thanksgiving tables today. There is concern for the future, of course, but along with that concern goes a determination to make sure there is a future, for us and for our children.

Are you ready for your woolly bear caterpillar report?

Around

The Clock

By MARYLYN SHEDDEN

Something to wonder about — what is education? In too many classrooms there is a tendency to teach memorizing dates, places and names as "education."

It seems obvious that mathematics, phonics and science all require memorizing. They are tools, a necessary part of education. But they are not all there is to education.

"Education must present the facts — or at least show students how to discover the facts. Then it must teach students to act on those facts," an ex-teacher said to me recently.

(He is an ex-teacher because, although he loved the profession, he had a wife and family to support. That, too, is something to wonder about.)

He still works close to teaching, in Seminole County — so close that he does not want his name used when he talks about the fallings in local education.

He remembers, however, that in his classroom the credo was "teach the students how to look things up" rather than "fill their heads with memory

work." That may be an oversimplified view of education, but it is still a sound concept — especially in light of today's world of rapidly increasing knowledge, changing national borders, and such things as space science.

While it might be nice to remember the dates on which the United States was first settled by the Pilgrims; the Union of Soviet Socialist Republics crushed the Hungarian revolt, and the most recent African nation — Uganda, maybe? — was founded, it is just as logical to look them up.

Where do things appear, the names, dates and places which might otherwise have to be memorized? How about the newspaper, encyclopedia, or dictionary? The library's reference counter personnel can help, as can experts in each field.

So what does that leave for memory work? And what is memorizing any way?

My ex-teacher friend felt that memory work is vital in the classroom and that there are some fine

examples of it going on in Seminole County. One thing, of course, is memorizing multiplication tables. That old irritating lesson for youngsters is vital for two reasons. First, of course, it is necessary for accomplishing higher mathematical functions...not to mention totalling grocery bills, restaurant tabs and golfing fees.

And the second value of memorizing math tables is the value of all memorizing: self discipline.

Poetry, music lyrics, rules for games, recipes, all can be looked up — but each one is a sound piece of memory work for self-discipline that still allows a student to learn to research basic facts of history, biography, literature or science.

Classes in some Seminole County schools are offering these diverse types of memory work and lessons in (a) how to research facts; (b) how to put the facts together and draw conclusions; (c) how to relate those facts to others — and (d) how to discipline themselves in a way that will be invaluable throughout life.

ANGLE-WALTERS Monitoring Abortion \$ Cutoff

WASHINGTON — HEW Secretary Joseph A. Califano Jr. may be vehemently opposed to federal funding of abortions, but he's not a know-nothing. And that's more than can be said for some in Congress who share his philosophy.

Califano has personally intervened to insure that the Center for Disease Control in Atlanta will continue to monitor the public health impact of the cutoff of Medicaid financing for abortions.

Rep. Henry J. Hyde, R-Ill., leader of the anti-abortion forces on Capitol Hill, had protested the monitoring program after the CDC last month reported the first documented death attributable to the cutoff, which took effect on Aug. 4.

A 27-year-old Texas woman, denied a government-paid legal abortion because of the funding ban imposed by Congress, died Oct. 3 in a McAllen, Tex., hospital after undergoing a botched abortion at a "pharmacy" just over the Mexican border.

Four other women, two of whom were also Medicaid recipients, were admitted to the same hospital with septic complications following abortions at the same Mexican facility, the CDC reported.

As it happened, the CDC report broke just as House-Senate conferences were hastily finishing over extending the ban on publicly-financed abortions for the poor.

Hyde apparently felt the news from McAllen wasn't likely to help the House conferees, who are seeking to perpetuate the existing abortion ban on the use of federal funds for abortions. So he called up Califano to complain. The Health, Education and Welfare secretary — to his credit reportedly told Hyde to take a long walk off a short bridge, though he no doubt phrased it more tactfully.

The monitoring program, Califano told CDC officials, will go forward — without political interference.

And that is as it should be. It is one thing for President Carter, Joe Califano and a majority of the Congress to decide — for whatever philosophic and political reasons — to prohibit the use of federal funds for abortions.

It is quite another matter, however, to suggest that the government needn't bother to ascertain the consequences of such action.

The Center for Disease Control has been monitoring abortions in the U.S., both legal and illegal, since 1970. Over that period, there has been a steady increase in the number of abortions performed, from 183,000 in 1970 to 853,000 in 1975, the last year for which complete statistics are available.

But at the same time, the number of abortion-related deaths has dropped sharply, especially since the landmark Supreme Court decision of 1973 made legal abortions available nationwide. There were 128 deaths in 1970, and only 44 in 1975.

Both Congress and the executive branch — not to mention the rest of us — need to know whether the denial of Medicaid payment for abortions will affect the number of abortions performed and the deaths associated with them.

JACK ANDERSON-LES WHITTEN

The Fishy Russian Fishing Armada

WASHINGTON — The Soviet Union is quietly transforming its mushrooming merchant marine fleet into an armada.

This is the startling conclusion of U.S. intelligence experts who recently testified behind closed doors on Capitol Hill. We have had access to their secret testimony before the House Merchant Marine and Fisheries Committee, chaired by Rep. John Murphy, D-N.Y.

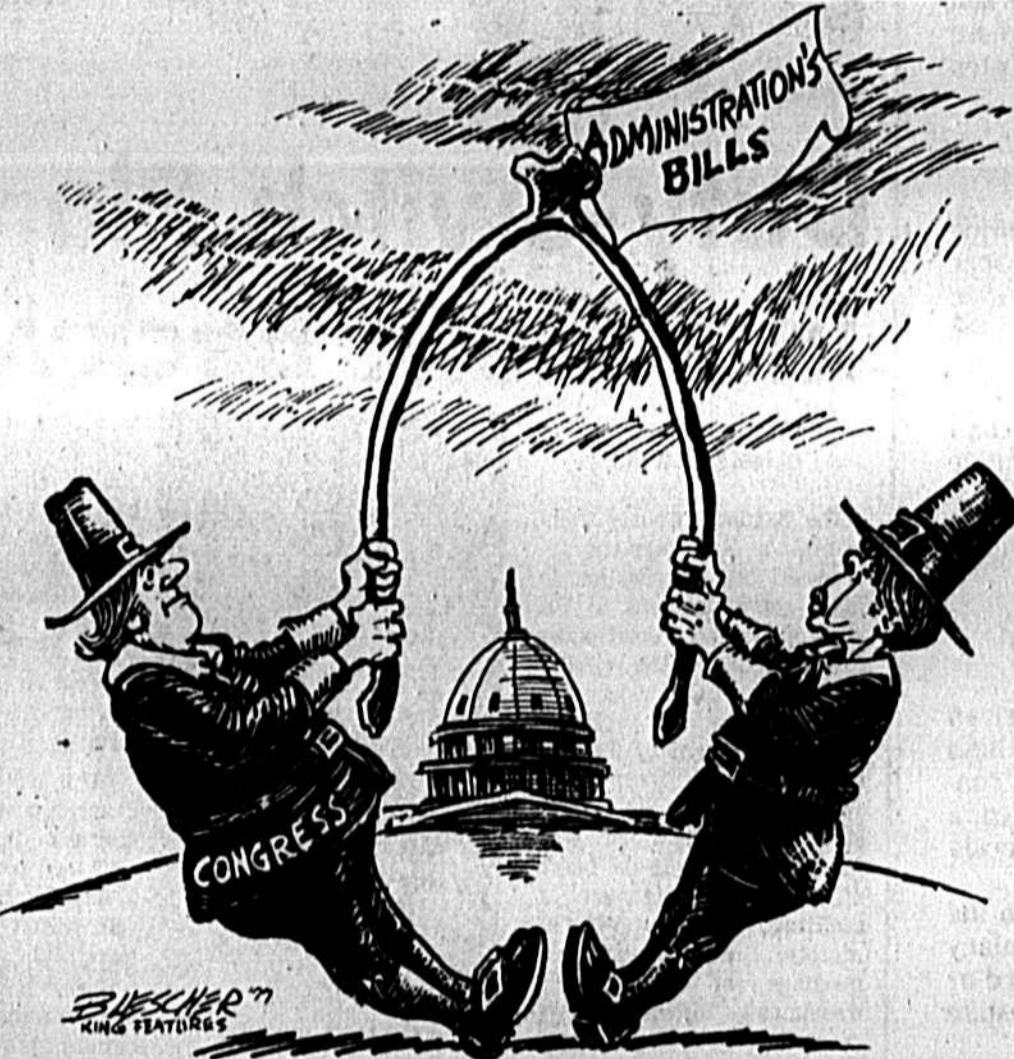

The Soviet fishing fleet, the experts solemnly explained, has been casting its nets for more than just fish. The fishing vessels have become the biggest "electronic intelligence collectors" on the high seas.

Soviet Navy officials are routinely assigned to Russian freighters, trawlers and survey ships, the analysts disclosed. But even Russian merchantmen and fishing boats are sometimes assigned political objectives and specific intelligence missions.

An estimated 10 to 15 per cent of the 900 Soviet non-military vessels of the U.S. and Canadian coasts are actually intelligence ships collecting vital information, the testimony reveals.

Because Soviet fishing trawlers are really naval ships in disguise, the U.S. repeatedly warns the Soviets not to sail too close to American shores.

The maritime fleet often carries more than mere cargo, the experts testified. Some ships are "suitable for transporting troops and military equipment" with deck and ramp areas that can support the weight of heavy tanks. Such

Pilgrims' progress

THE LIGHTER SIDE

Hitting The Skids

By DICK WEST

WASHINGTON (UPI) — A controversy in Chicago over charges that Mayor Michael Bilandic had "greased" the way for a tax rate increase began to draw national attention last week.

Meanwhile, from Houston came reports that fast food restaurants in Texas had been hard hit by a wave of grease stealing.

Are these two items related? Are lubricants so badly needed to grease the skids in Washington being diverted to black markets for aid grease elsewhere?

And if so, is this conspiracy an outgrowth of the energy crisis? Clearly, here is a matter that cries out for some good, old fashioned investigative reporting.

So far, after a round of discreet inquiries, all I've come up with is a string of coincidences. But when linked together they definitely form a chain of suspicion.

Link 1 — The Carter administration has had a great deal of trouble moving its programs through Congress.

The tendency has been to blame the difficulties on staff inexperience or ineptness. Sen. Edward Brooke, R-Mass., even suggested recently that blue jeans worn by presidential aides might have something to do with it.

To veteran observers, however, the problem looks more like a case of failing to have the skids greased properly.

Link 2 — The most commonly used type of skid grease has a petroleum base. With domestic oil supplies dwindling, imports increasing and prices soaring there is certain to be a premium on alternate means of keeping the skids well greased.

Link 3 — Experiments have shown that grease used for frying chicken, fish, potatoes and other comestibles sharply reduce friction when applied to skids.

Link 4 — The grease thieves in Texas specialize in stealing kitchen drippings from fast food restaurants that specialize in fried chicken, fish, potatoes, etc.

Ostensibly, the stolen grease is sold to rendering plants and eventually becomes one of the ingredients used in certain plastics, soap, pet food and other products.

Is much of it actually being used as a substitute for skid grease? The FBI either doesn't know or isn't saying.

Link 5 — A nationwide shortage of skid grease obviously would create a situation ready-made for black marketers. In the traditional modus operandi, the underworld would get a corner on substitute skid grease and divert it into illegitimate channels at inflated prices.

Conclusion — To insure fair distribution, the government may have to set up a standby skid grease rationing system.

VIEWPOINT Selling Of First Brother

By DON OAKLEY

Some people have been complaining that William Allan Carter III, of the Georgia Carters, has been trading on the fact that his brother holds a rather important position with the U.S. government.

The younger Carter would be the first to agree. Who would ever have heard of Billy Carter, gas station operator and part owner of a certain beach house in Plains, Ga., if Jimmy Carter had not been elected president? (Who would have heard of Jimmy Carter, for that matter?)

Now Billy stands to earn more this year than the president — about \$90,000 — from public appearances, endorsements, etc. "If they're crazy enough to pay me, I'm crazy enough to do it," he has said.

Latest promotional chore for Billy is to spend 12 days a year helping a Louisville, Ky., brewery sell a new beer bearing his name. This has struck many people as especially tasteless — the advertising, not the beer.

It has reached the point where the president himself had to speak out on the Billy phenomenon the other day. Far from being embarrassed by Billy's antics, the president expressed admiration for the way Billy lives his own life. "I am proud he is my brother," he said.

Of course, Jimmy Carter said he was proud of Bert Lance, too, just before the deluge. But in this case, we don't think the president's vote of confidence will adversely affect Billy's fortunes. In fact, Billy seems on the way to becoming a catch-all for the nation's preeminent greed.

As the president noted, Billy's popularity rating would probably exceed his own at this time. And as Billy noted in a recent interview, most of the towns he goes into now say Billy is coming, not Jimmy's brother is coming.

Criticize him if you wish, but Billy Carter is that category of men who have greatness thrust upon them. Great publicity, anyway.

He tried valiantly to just keep on pumping gas back in Plains as if nothing had changed, but the hordes of tourists and the reporters with their incessant questions made that impossible. So now he's cashing in for all it's worth as the nation's preeminent redneck, good ole boy and beer drinker.

Terrific. But who among us is pure enough to cast the first pull tab at Billy Carter?

This will be good news to everyone who has stayed up late worrying about the future of the Florida orange juice industry; persons of all ages may once again drink it in good health.

At any rate, a magazine called Mandate, which claims to speak on behalf of the nation's "gay" community, says it will urge its readers in its next issue to end their boycott of the state's famous product. The boycott was instituted to protest the election of the Florida Department of Citrus of crusadingly anti-homosexual Anita Bryant.

Link 6 — The latest available figures show that 948 persons were detained, without charges, in South Africa between January 1976 and September 1977. The story is told in a new report prepared by the respected South African Institute of Race Relations. A copy of the report has reached the United States through the United Methodist Church.

"Large numbers of those who openly oppose the government," states the report, "have been detained in the past and are in detention at present." Black students and organizations are the principal targets of the harassment, the study has found. Other "detainees are interrogated for the purpose of obtaining other statements that implicate others or confessions."

A man called as a state witness, for example, pleaded that he was brutally beaten. He testified to the South African Race Relations Institute: "I was told what to say, which was contrary to my knowledge. The contents of my statement are the thoughts of the security police."

Other witnesses have told of beatings and torture at the hands of the police. One man told the court that he had been so badly beaten that he could no longer remember which part of his testimony was based on his own experience and which part had been suggested by the security police.

Often, "families have not been informed of a member's detention," the report charges. Sometimes "parents are detained without being given time to see that their children are cared for."

The Institute concedes that it was not always possible to cross-check the facts against actual court records, because the authorities are not required to produce the records. But the report suggests "parents have been too widespread and diverse," suggests the report "to be dismissed as fabrication." The effect of the police-terrorism has been to create "a national atmosphere of fear and tension."

Footnote: A spokesman conceded that South Africans can be detained without charges but insisted that it was "unfair" to suggest that prisoners were mistreated.

NATION IN BRIEF

Polygraph Reveals Threats Prompted Patty's Actions

SALT LAKE CITY (UPI) — A previously undisclosed polygraph test showed newspaper heiress Patricia Hearst became a bank robber after being threatened with death by her abductors, the Symbionese Liberation Army, according to a University of Utah researcher. Dr. David Raskin, a nationally recognized polygraph expert, said Wednesday he conducted three tests with Miss Hearst, but they were not used at her trial.

'Sam' Trial Move Sought

NEW YORK (UPI) — Charging extensive media coverage has tainted public opinion, lawyers for David Berkowitz, the accused "Son of Sam" killer, have asked for a change of venue in his murder trial.

Leon Stern, one of Berkowitz' two defense attorneys, Wednesday petitioned the Appellate Division of State Supreme Court to move the trial from Brooklyn — the New York City borough where Berkowitz allegedly killed his last victim — to upstate Sullivan County.

Treasury Pushing \$2 Bill

WASHINGTON (UPI) — The Treasury Department wants Americans to give the \$2 bill another chance, and is asking two supermarket chains to push it.

Since the \$2 bill was reissued and placed in circulation 19 months ago, the government has been closely monitoring its acceptance to determine if the public would use it. The results have been less than overwhelming.

Department Reorganizes

ATLANTA (UPI) — The Justice Department soon will be reorganized with an emphasis on fighting drugs and organized crime, Attorney General Griffin Bell has announced.

Speaking at the Better Business Bureau's annual meeting Tuesday, Bell said he expects to announce "some significant progress in drug trafficking as it relates to organized crime" being fought by the Drug Enforcement Administration.

WORLD IN BRIEF

Dayan Says Negotiations 'Round The Corner'

JERUSALEM (UPI) — Foreign Minister Moshe Dayan says negotiations with Egypt are "round the corner" and Israelis should make up their minds on the nation's future borders or else face the possibility of war.

Dayan Wednesday attempted to dispel some of the euphoria surrounding Egyptian President Anwar Sadat's historic mission to Israel, saying it was time to make hard decisions about withdrawing from lands captured in 1967 and about a Palestinian state.

Libya Breaks With Egypt

CAIRO, Egypt (UPI) — Libya broke off all ties with Egypt today and Algeria cut off air service to Egypt in protest against President Anwar Sadat's peace-seeking visit to Israel. But Saudi Arabia thanked Sadat.

Libya reportedly moved first, cutting all ties with Egypt including air traffic, and withdrawing diplomatic recognition.

Earthquake Kills 64 Persons

BUENOS AIRES, Argentina (UPI) — A major earthquake that struck the lower half of South America killed 64 people in Argentina and left 10,000 homeless, the government says. It was Argentina's strongest quake in 33 years.

The quake rumbled across the lower half of South America early Wednesday, breaking windows in Porto Alegre, Brazil, rocking the length of Chile's Pacific Coast and sending pajama-clad people into the streets of Buenos Aires.

Grand Jury Probe Lance?

WASHINGTON (UPI) — A federal grand jury is expected to investigate Bert Lance. Deputy Attorney General Peter Flaherty directed a three-member Justice Department team Wednesday to take "additional steps" — which could include a grand jury hearing — in the Lance case.

A department source said the decision meant aspects of the allegations against Lance almost certainly would go before a grand jury.

While any prosecution was still uncertain, Lance's banking future appeared in jeopardy with a report in today's Washington Post that the Securities and Exchange Commission was considering barring him from the banking business.

The Post said it obtained a memo from Lance's attorney informing the SEC that Lance is willing to consent to "some sort of enforcement action" but he is unwilling to be restricted in future banking activities.

The memo from Steven Fox of Atlanta, a lawyer for the Lance-controlled First National Bank of Calhoun (Ga.), described a Nov. 4 meeting between SEC attorneys and lawyers for Lance and his two banks, the Post said.

Fox's memo said that during the meeting, Stanley Sporkin, director of the SEC's enforcement division, "talked rather strongly about keeping Mr. Lance out of banking at least for some period of time" and said "there were serious questions about whether Mr. Lance should be allowed to manage other people's money."

Justice Department attempts to indict Lance were expected to revolve around his use of bank funds for political or personal purposes, including his use of bank aircraft.

Is Brilliance A Blessing Or A Curse?

By RUSTY BROWN

What are "super smart" really like? And how do they view the rest of us simple folk?

To find out, a Cleveland psychiatrist, Dr. Joanne Denko, studied the jobs, marriages, attitudes and lifestyles of 159 egotists. All are members of Mensa, a club open to only two percent of the population: those with IQs of 134 and above on the Stanford-Binet IQ test. (100 is average.)

Are Mensas glad or sad to have been born so bright? Most weigh the advantages and disadvantages and call it a stand-off. "I'm glad to be equipped," wrote a 16-year-old public relations woman in response to Denko's questionnaire, "but the path of the simple-minded seems smoother somehow."

A university professor commented that her colleagues are as smart as — she, and "this makes working extremely pleasant because one doesn't have to waste time explaining."

In contrast, a marriage counselor wrote: "Working with people of so-called average intelligence can sometimes lead to a waller's walling. I sometimes feel the world is overrun with cretins."

A number of high IQers, on the other hand, prefer working with the average. Commented a manager of a computer sciences corporation, "I have found people of high intelligence seek elegant solutions to problems that would be better approached by common sense."

Many of the intellectually well-endowed expressed frustration that superiors reject their innovative ideas — not for reasons like cost — but merely because the ideas have never been tried before.

Denko found Mensa members clustered in the fields of teaching, engineering, library work, medicine and psychology. But the job titles of

Tacky Post Cards Live In Florida

By JOANN SCHULTE

HOLLYWOOD, Fla. — The tacky Florida post cards tourists mail home, saying "Wish You Were Here" when they probably don't, are more than just pretty pictures.

Passing years leave post cards looking good. Fond memories might be the reason, but more often money fuels the post card glow. Post cards are the often-less-than-a-dollar investment that can increase 10 to 100 times in value without pricing anybody out of the market.

The post card game is properly called deltiology. It has become rather popular in the last several years, according to local antique dealers. Call yourself a deltiologist and you can make money reading other people's mail, even if it is decades later.

Chance are any such reading done by June and James A. Kocourek, of nearby Dania, will result in a classification according to subject nature.

The couple had too many glimpses into thousands of lives via message spaces to be noted. "We got the post cards at shows, from estates and it is not intended for sausage meat."

Series cards were quite a change for the country that had worried whether "servants would read the messages." Americans didn't get the pictures, later placed in post card albums, until 1898.

Austria was the first country to put the post card in the mail in 1869; England followed suit the next year. Plain, blank per card. When post cards are issued by the government, post cards by private concerns) went on sale in this country in 1873.

Plain was passe in Europe by the time the U.S. Post Office had stamped its approval. Some Germans who probably have descendants on Madison Avenue today turned the post card into an advertising gimmick. "Picture it" was the idea. The logic said stay-al-home will probably come see it after they get an idea what they're missing.

Federal prison officials were less than thrilled back in 1906 too, because Queen Victoria when mail clerks found out liked to eye what she didn't what was behind some post rule. The Queen was a post card cards. Friends and-or dealers freak; her art publisher saw on the outside mailed double-money in her mania. Raphael backed post cards, carrying Tuck Co. post cards, prized by cocaine and other narcotics, to many collectors as the best and embossed with "By ap- Breweriana (pictures of beer pointment to Their Majesties," and breweries) is a collecting were the ways many people saw category among some the world during the early 20th deltiologists. Understandably, Century.

HOROSCOPE
BY BERNICE BEDE OSOL

For Friday, Nov. 25, 1977

YOUR BIRTHDAY
Nov. 25, 1977
Several major decisions with far-reaching effects may be required of you this coming year. Judiciously weigh the alternatives. An unwise choice could deprive you of the success to which you're entitled.

SAGITTARIUS (Nov. 22-Dec 21) Be careful today or you may be held partially responsible for the mistakes of associates. Insist upon obeying all their moves. Like to find out more of what lies ahead for you? Send for your copy of Astro-Graph Letter by mailing 50 cents for each and a long, self-addressed, stamped envelope to Astro-Graph, P.O. Box 489, Radio City Station, N.Y. 10019. Be sure to specify your birth sign.

CAPRICORN (Dec. 22-Jan. 19) Know how to distinguish today between being indistinct or just a plain workaholic. Overdoing could lead to your undoing.

AQUARIUS (Jan. 20-Feb. 19) You normally strive to do that which is for the greater good of the greater number, but today your motives may be more self-serving.

PISCES (Feb. 20-March 20) A cohort with whom you have an uneasy alliance may try to cast you in a service role today. Don't let his arrogance intimidate you.

ARIES (March 21-April 19) You'll encounter serious difficulties today in enlisting supporters for causes, if you're too demanding. Saying "please" helps.

TAURUS (April 20-May 20) Review your financial picture carefully today before committing yourself to additional fiscal burdens. Don't get into a position where outlay exceeds income.

GEMINI (May 21-June 20) This is one of those days when you might catch from all corners. Your best course is to dodge potential trouble spots.

CANCER (June 21-July 22) Things you've previously swept under the rug may surface in a cloud of dust today. Even if they don't, let nothing more accrue.

LEO (July 23-Aug. 22) Complications could develop today through involvements with friends. If matters are mismanaged, there may be a price to pay.

VIRGO (Aug. 23-Sept. 22) Beware. Today, taking an unpopular stance will have the pack nipping at your heels.

LIBRA (Sept. 23-Oct. 22) You're likely to be better today at doing things where you have to flex your muscles rather than your mind. Shelve mental tasks till later.

SCORPIO (Oct. 24-Nov. 22) Caution and practicality are essential in business deals today. Make no assumptions or verbal agreements; get it all down on paper.

WIN AT BRIDGE
BY OSWALD AND JAMES JACOBSON

concern the North and South opponents. He suggests that East should have opened with a preemptive three spades.

Maybe North and South would work their way to a diamond slam after that monkey wrench was thrown into their bidding machinery.

All in all, Bob suggests that with a three-spade opening with those West cards might lead to trouble for East and West. It was far more likely to cause trouble for North and South.

ASK THE GOODBOYS
An Iowa reader asks which card we play at trick one. As South we are playing three notrump with ace-king-queen of spades as part of our hand. The four of spades is opened. Dummy holds the singleton seven. Third hand plays the jack. Either the king or queen, but definitely not the ace. That ace falls and shouldn't fool anybody.

Lose Poundage The Way It Was Gained

DEAR DR. LAMB— I have a problem that should be right up your alley. I am a man, 52 years old, and 30 pounds overweight. Two weeks ago, I started to eliminate all sweets, fats and starches from my diet. I get along well, being retired and sedentary, on a 500 to 800-calorie diet.

I am having difficulty in burning up more than the 800 calories to enable me to reduce, even though I walk three miles a day. What can I do to hasten the reduction of my excess weight?

DEAR READER— You can be patient. I dare say you didn't put on those extra 30 pounds in two weeks, so they won't come off that fast, either. You have got a six-month project in front of you, at the least.

I'm not enthusiastic about your diet, either. You should be eating enough to have a well balanced diet, and it is plain that you are not. I am sending you The Health Letter number 47, Weight Losing Diet, to help you do better. Others who want this diet plan can send 50 cents with a long, stamped, self-addressed envelope for it to me in care of this newspaper, P.O. Box 1561, Radio City Station, New York 10019.

You should be satisfied to lose a pound a week. If you lose too rapidly, you will be tired and may even give up your diet. Be sensible, and if you have lots of time, build up your walking program. Remember that some people lose weight in plateaus. There will be a sudden weight loss of several pounds, then nothing for several weeks. However, if you stay with a sensible program, your patience will be rewarded.

DEAR DR. LAMB— Our daughter was born with a cleft lip and palate. This is a deformity of the upper lip, nose, gums and palate. It is surgically correctible over a period of several years. Until my daughter was born neither

I, my husband, nor our families had ever heard of a cleft palate. I would appreciate it if you would comment on this subject to increase the public's awareness of this so other parents who may have a child with this problem will not be as shocked and dismayed as we were.

DEAR READER— Thank you for your thoughtfulness. It is not a rare abnormality. A cleft lip or cleft palate is said to occur between one in 600 and one in 1,250 births.

The defect may be a failure of the middle regions of the lip to join together appearing as a slight notch in the lip, or as a cleft that extends to the nose. The cleft may extend backward involving the hard palate, roof of the mouth. Other babies may have a hole (cleft) in the hard palate without involvement of the lip. The teeth may also be involved in the area of the cleft.

When the defect involves the hard palate, surgery may need to be done in stages over several years. While waiting for the child to develop to the point that surgery is possible, it may be necessary to fit a dental appliance over the area so that normal speech ability can be started at a normal age.

The defect is not a life-threatening one, and in most instances, modern surgical repair and dental treatment can lead to a very satisfactory end result.

Briefly

**'Millican Day' Proclaimed
On Florida Tech Campus**

Faculty, staff, students and friends will join forces Tuesday to fete the man who has led Florida Tech University through its first decade, when "Millican Day" is celebrated with a nontime campus barbeque.

On hand to signal the event saluting President Charles N. Millican and Mrs. Millican will be a cross-section of the university community. The 2-hour celebration will get underway at 11:30 a.m., on the FTU Village Green.

Oviedo Band Rates Superior

Oviedo's Marching Lions band won a superior rating at last weekend's District 7 marching band contest in Leesburg—the only school to receive a straight superior rating by all four judges. Other scores: Seminole High and Lyman, excellent; Brantley, Howell, superior. Nineteen high schools from District 7 competed.

Singers Perform 'The Creation'

The Choral Art Society of Maitland will perform the oratorio "The Creation" by Franz Josef Haydn at 8, Dec. 5 in the sanctuary of the First Presbyterian Church in Maitland. Singers who have had some experience in school, college, community, or church choirs are invited to join when rehearsals resume in January, 1978.

Hoosiers To Install

Installation of officers of the Deltona Indiana Club will take place at the Thursday meeting at the Community Center. Following the carry-in dinner, and regular meeting, games and a gift exchange are scheduled. The club will provide the turkey. Visitors are welcome. Members are encouraged to bring guests.

Art Show Scheduled

The Central Florida Art Association will present more than 20 artist members in a juried showing of oils, acrylics, watercolors, mixed media and graphics at the Winter Park Mall, Dec. 2, and Dec. 3 at 10:00-9, and Dec. 4 from 12:30-5:00. This non-profit art organization shows only realistic art. There will be demonstrations all three days. The public is cordially invited to attend.

CPR Class Begins

The Office of Community Services at Seminole Community College is offering a class in a revolutionary life-saving technique, "Cardiopulmonary Resuscitation." The course teaches combined techniques of mouth-to-mouth resuscitation and external cardiac massage.

Great Lakers To Install

The regular monthly meeting of the Great Lakes Club of Deltona will be held in the Community Center Wednesday, at 6:00 p.m. preceded by a social hour at 5:00 p.m., and followed by a film on Christmas in the Holy Land. A buffet dinner will be served. Members and guests are reminded to bring their own table service.

Federated Clubs To Meet

The Seminole County Federation of Womens' Clubs will hold its Fall Meeting at the Garden Club of Sanford Building on U.S. 17-92 at Sunland Estates on Monday.

TAG Calls Auditions

The next presentation by the Deltona Theatre Arts Guild (TAG) will be "Any Wednesday" by Muriel Resnik. It will be under the direction of Edna Boyette. An open audition will be conducted Monday at the All Saints Episcopal Parish House in Enterprise. The show will be cast and scripts distributed, but rehearsals will not start until after the first of the year. The comedy has a cast of four: two female, and two male.

Florida World Pageant Winners

Sixty-five young ladies from 30 cities competed at the preliminaries in four age groups for Central Florida World USA titles at the Contemporary Resort Hotel, Walt Disney World.

Winners received cash prizes, scholarships, trophies and crowns, plus all expenses paid to the Florida World USA competition, which will be held in June in Orlando.

Runners up received trophies and scholarships, and the opportunity to enter the FLORIDA WORLD USA competition.

Area winners were "Little Miss Central Florida World," Tami Jo Harding, 5, daughter of Mr. and Mrs. Ames Resa, Casselberry; a tie for third runner-up in this division, Felicia Carlton, 5, daughter of Mr. and Mrs. John D. Carlton, Sanford; "Young Miss Central Florida World," Julie Vaccaro, 12, daughter of Mr. and Mrs. James Vaccaro, Osteen; and a tie for the "Most Photogenic," Glenda Simons, 20, of Sanford.

Count Blessings Today

DEAR READERS: Can you believe it's Thanksgiving again...so soon? A few years ago I wrote a column—especially for Thanksgiving, and it was so well received that I was asked to repeat it. Now it's becoming a tradition. So, here it is again, with a few minor changes:

On this Thanksgiving Day, take a few minutes to think about what you have to be thankful for.

For Abby's new booklet, "What Teen-agers Want to Know," send \$1 to Abigail Van Buren, 132 Lasky Dr., Beverly Hills, Calif. 90212. Please enclose a long, self-addressed, stamped (24 cent) envelope.

head or a knock on the door at midnight! And if you want to live under a different system, you are free to go. There are no walls or fences—nothing to keep you here.

As a final thought, if you've never said grace at your table, do it today.

And if you ARE accustomed to saying grace, this time, instead of having an adult recite it, let a child lead the rest.

First, everyone at the table should hold hands.

Here is my Thanksgiving Prayer, which I offer not only once a year, but on every occasion when grace is recited at my table. You are welcome to use it.

"O, heavenly Father: We thank Thee for food and remember the hungry. We thank Thee for health and remember the sick.

We thank Thee for friends and remember the friendless. We thank Thee for freedom and remember the enslaved.

May these remembrances stir us to service. That Thy gifts to us may be used for others, Amen."

Have a wonderful Thanksgiving and may God bless you and yours.

Love, ABBY

How to write letters? Send \$1 to Abigail Van Buren, 132 Lasky Dr., Beverly Hills, Calif. 90212. For Abby's booklet, "How to Write Letters for All Occasions." Please enclose a long, self-addressed, stamped (24c) envelope.

Happy 25th Anniversary Today

Congratulations are in order to Mr. and Mrs. Wyman A. Underwood Jr. on their 25th wedding anniversary today. In celebration of the occasion, the couple who married on Nov. 24, 1952 in Greenville, N.H., is entertaining at their home. They have been living in Longwood for the past five years. Underwood is branch foreman of Premix Marble Co. Mrs. Underwood has two daughters, Mrs. Carol Valois of Lake Mary, and Mrs. Peggy Vestra of Leominster, Mass.

MR. AND MRS. WARREN A. PATRICK

**50 Years Of Togetherness
Reception Honors Couple**

Celebrating their golden wedding anniversary was a little late for Mr. and Mrs. Warren A. (Agnes) Patrick of Sanford. But "better late than never."

The couple was married on June 28, 1927, but opted for a November reception at Mayfair Country Club for about 300 friends from throughout Florida and other points.

Hosts for the gala event were the honored couple's only child and her family, Mr. and Mrs. Herbert (Carolyn) Stenstrom and children, Sharyn and Patrick.

The steady stream of well wishers were ushered into the party area which was decorated in a festive fall decor. From 7 to 9 p.m., guests were served a full buffet dinner and danced to the music ensemble of Garfield Willets.

Among the out-of-town relatives and friends attending were Mr. and Mrs. Arnold

Harrington and daughter, Pam, Jacksonville Mr. and Mrs. Grant Kramer, Ossipec, N.H.; Mr. and Mrs. Richard Patrick and daughter, Lynn, Orlando; Mr. and Mrs. George Peet, Grand Marais, Minn.; and Mr. and Mrs. Dan Dwight, North Palm Beach.

Mrs. Harrington and Mrs. Kramer cut and served the cake. Miss Harrington registered the guests in the guest book.

Married at Winter Haven, the couple has lived most of their married life in Sanford. They are members of the First Presbyterian Church of Sanford.

Patrick, an avid golfer, began his career in the tire business in Sanford, and later founded the Patrick Fruit Corporation which he continues to operate.

Mrs. Patrick has made homemaking her career. The couple travels extensively and is active in the community.

CATHY JACKSON

By JANE CASSELLBERRY
Herald Staff Writer

Mrs. Cathy Jackson, supervisor of Youth Programs, Inc. (YPI) work in Seminole County, recently returned from Dallas, Tex., where she was one of 12 Central Florida YPI representatives at the National Forum of Volunteers in Criminal Justice.

Youth Programs, as an agency, was given representation on the board of the National Forum for the first time, Mrs. Jackson said. Mrs. Jackson has a degree in psychology from the University of Florida, and is working on her Master's degree in Criminal Justice from Rollins College.

She began working with YPI as a volunteer in 1975 in Sanford, where she lives with her husband, Cliff Jackson. She was then employed by YPI and worked in their Orlando office as administrative assistant, then volunteer coordinator for two years. The recent promotion brings her home to Sanford, where she said she is happy to have the opportunity of working with her fellow Seminole County residents to make this a safer, happier place to live.

Youth Programs, Inc. is a private, non-profit corporation which matches volunteers with troubled youths on a one-to-one basis as counselor-friends. The goal is to prevent delinquency by helping the

Handmade Biblical Quilt Ready For Bazaar Auction

Women of the First Presbyterian Church of Lake Mary will also be auctioned off. Both items will go on the auction block at 5 p.m.

The bazaar will feature a variety of arts and crafts, needlecraft articles, a country store, plants and home baked goodies.

Plan to spend the day. A light luncheon will be available for shoppers.

Mrs. Decker said that plans are in the making for but chili to be served for hot chili to be served for the afternoon.

For those wishing to contribute items to the bazaar and other information, call Mrs. Decker, 322-7041, or Mrs. James (Dee) Smith, 323-4927.

Engagement and wedding forms are available at the Herald office to announce these events. The forms may be accompanied by professional black and white photographs if a picture is desired with the announcement. Wedding forms and pictures must be submitted within two weeks of the wedding.

ARCH-VILLAIN DARTH VADER IN 'STAR WARS'

Darth Vader: I'm Being Ripped Off

By ARTURO GONZALEZ, JR. The Herald Staff Writer

LONDON—Darth Vader, Dark Lord of the Sith, is hopping mad, almost angry enough to ignite another interplanetary cataclysm.

Or, to be more precise, it's 43-year-old Brittish Dave Prowse, the actor portraying the giant masked villain in "Star Wars," who is fuming.

"Look at this," he seethes, waving a stack of fan mail in his suburban London home. "Letters from people all over the U.S. asking if it really was me in the Darth Vader costume who put my footprints in wet cement in the forecourt of Hollywood's Mann's Chinese Theater, or went on the U.S. TV talk show circuit. I haven't been near the states in years.

"It's a rip-off by Twentieth Century-Fox. The company is so anxious to cash-in on the film's popularity that they're dressing up armies of part-time actors in our 'Star Wars' suits and sending them all over the country pretending to be us.

"The film has already grossed more than \$100 million so far. It will break 'Jaws' record easily. You'd think the company would be a little more generous about giving the character actors, some of whom, like Rick Baker and C-3PO, virtually stole the show in many critics' eyes, the chance to pick up some badly needed personal appearance money, and the opportunity to get their faces in the papers

'We're left here to rot in England'

and on the air. In show business, there's only one chance in a lifetime like this. But no, we're left here to rot in England while Hollywood buddies of the Fox brass pick up the loot and the kudos we sweated to earn."

The top credits for "Star Wars" all belong to Americans — 33-year-old director George Lucas (who will earn at least \$18 million for the film), stars Mark Hamill, Carrie Fisher and Harrison Ford. But the production team and most of the actors, including stars Alec Guinness and Peter Cushing, are British. A virtually all-UK team of 250 performers and EMI technicians shot most of the \$115-million space epic not in Hollywood but on soundstages at Elstree and Shepperton in London's suburbs.

Peter Mayhew, the seven-foot-two-inch Londoner who plays the Wookiee pilot Chewbacca (in a suit that is a combination of lion fur and monkey face), is another English performer who has pretty much been left bobbing far back in the wake. He earned about \$10,000 for his efforts in the film, but since the end of shooting has had to go back to working as a London hospital attendant to make ends meet.

"It isn't the personal appearance dollars which Prowse isn't earning which irritates him. The six-foot-five, former champion British weight-lifter does quite well for himself as a frequently featured TV and film character actor, as well as running the body-building salon in Harrods in London's fashionable Knightsbridge.

"Professional pride is the real issue. 'I created Darth Vader,'" he insists. "His movements, his mannerisms, are what I — and no one else — put into that character."

"Should anyone but Jack Haley have the right to pass himself off as the original 'Tin Woodman' in the film 'Wizard of Oz'?" Should anyone but Jim Henson have the right to call his hand puppets original Muppets? Of course not. So where does Fox get off pretending to the public that the real Darth Vader is inside my black suit when I'm 8,000 miles away in London. It's disgraceful — and dishonest."

He grumbles but doesn't sue for fear of jeopardizing future paydays. And so Fox's feverish rip-off continues as toys, T-shirts, posters, lunch boxes, games, dolls, costumes, records, books and even kids' room wallpaper are buckstered for the coming Christmas gift-giving season.

'Should anyone but Jack Haley have the right to pass himself off as the original Tin Woodman?'

Seminole County property taxpayers still have until next Wednesday to take advantage of the maximum discount allowed on their tax bills for early payment.

County tax collector Troy Ray issued the reminder today that the county gives a four-per cent discount on taxes due if payment is made by Nov. 30.

"We go by the postmark if the tax payment is mailed in," Ray noted, adding, "Even if we receive the payment, say, Dec. 5, but it's postmarked Nov. 30, we still allow that taxpayer a four per cent discount."

Although taxes are not legally due until April 1, the county issues discounts for early payment: four per cent for payment by Nov. 30, three per

Victims In Woods 12 Hours

The Naked Truth: 'Run Or Be Shot'

Thanksgiving turned out to be a strange day for two Kentuckians hitchhiking their way through Seminole County in the wee hours of the morning.

By the time they could get a ride on I-4 near Lake Mary, they would be robbed of cash, their clothing and suitcase, and have to spend 12 hours hiding naked in the woods until rescued.

The victims of the bizarre robbery, Lannie Lane Collette, 17, and Riley Brock, 18, both of Asher, Ky., gave sheriff's deputies this account of the incident:

They were hitchhiking along northbound I-4 sometime between 3 a.m. and 4 a.m. Thanksgiving.

They had just reached a point on I-4 between the Lake Mary Boulevard exit and the Highway 46A overpass when a dark-colored 1970 Plymouth Duster pulled up alongside the hitchhikers.

As the two ran toward the car to pick up the ride, they were surprised by one of the two men in the car who held a gun on them — "a .22-caliber or .38-caliber handgun" — according to sheriff's deputy Ron Gilbert.

Gilbert said the hitchhikers told deputies the man with the gun

ordered them to take off their clothes and place them alongside a black leather suitcase the Kentuckians were carrying.

The hitchhikers complied, Gilbert said they reported, and then were ordered by the gunman to "run, or be shot."

They ran, deputies said, quickly to a fence and climbed over, landing in an orange grove.

The robbers, deputies said, made off with the victim's clothes, the black leather suitcase, and a wallet containing \$60 and personal papers.

The two hitchhikers, one totally nude, the other clad only in his undershorts, remained only briefly in the orange grove.

Deputies said the pair told them they then began to make their way cautiously through the woods, heading southbound.

But, apparently reluctant to try waving down passing motorists, or try summoning help from nearby homes, they were continued until they reached a rest area, about four miles from where they were robbed. They spent the rest of the night and most of Thursday morning huddled in bushes.

Just before 4 p.m. Thursday, Deputy Gilbert, on routine patrol

along SR 400, spotted the robbery victim clad in his undershorts attempting to wave him down.

Gilbert reported when he approached the underwear-clad robbery victim, he was told there was another man hiding in the bushes, completely nude.

Gilbert reported he walked over to the bushes and handed the man his raincoat.

The deputy then drove both men to the original robbery scene, "and discovered the location was inside the Lake Mary city limits, so the matter was turned over to Lake Mary police," according to Sheriff John Polk.

The young men were transported to the Sanford Salvation Army headquarters at 700 W. 24th St.

"The young men were brought here by Lake Mary Police Officer Ken Keith," said Capt. Jim Snelson of the Sanford Salvation Army center. "They were wearing police raincoats, and Officer Keith said he'd fed them. We gave them pants, shirts, a jacket and an overcoat since they said they were going back home to Kentucky." — TOM GIORDANO

SOCIAL STUDIES CLASS REVIEWS SEN. STONE'S ANSWERS

The Senator And The Students

By MARVIN SHELDON Herald Staff Writer

"My main hope is to try to get my students to be more politically active and aware," says Lake Brantley High School teacher Desta Horner.

To stimulate that interest Miss Horner recently attended the breakfast given in honor of Senator Richard Stone, Democrat from Tallahassee. She took with her some questions which she and her students had discussed, and Stone's responses were taped, so the students might share his answers.

"I invite you to participate fully in the political process," Stone told the students, explaining that "participating in the process means participating in the two-party system."

The interest expressed in Senator Stone by her students class. In a classroom whose study once revolved around memorizing national boundaries and state capitals, her class now may spend a few days on nuclear power plants, some time on the problem of solid waste disposal, and several class periods on the political and working dynamics of the Panama Canal.

It was discussion on the Panama Canal which prompted the first question Miss Horner asked Stone for her class.

"What is your position on the Panama Canal treaty, and why?" she asked him.

On the tape there is a clattering of noise at this point.

"The Senator dropped the microphone," Miss Horner reported to her class. He had just told the breakfast audience that he knew the students' questions would be the most difficult he had to answer. Miss Horner feels the class' interest in the Panama Canal treaty

Funding Cut

30 Child Care Centers

By DONNA ESTES Herald Staff Writer

At least 712 children now receiving child care in professional centers in Seminole County under a subsidy plan provided by the Coordinated Child Care (4-C) program may soon be without a place to stay while their parents work.

Phoebie Carpenter, who heads the 4-C program, warned in a letter to the more than 30 child care centers in Seminole County which contract the child care for children from one-parent families, that state funding for one-third of the 2,130 children now in the program is in immediate danger of being lost.

"Within the next three weeks, within three weeks before Christmas children now in care will be dropped from the service," Mrs. Carpenter said.

The program contracts with local qualified child care centers for the care of children with the parent paying on a sliding scale according to ability to pay and the center's subsidizing the balance.

Mrs. Carpenter said the funding cut will come about because of a directive issued by William J. Page, secretary of the Florida Department of Health and Rehabilitative Services.

The directive says part of the money currently allocated to Seminole County and other central Florida counties by the state will be given to other areas of Florida to initiate child

care programs. Jack Horner, executive manager of the Greater Sanford Chamber of Commerce, said today the cutting of state funding locally will have a great impact on the community.

"Little children will be left as they were in the past, with aged grandmothers or totally uncared for, playing in ditches and neglected," he said.

Horner assisted Mrs. Carpenter in gaining funding through the United Appeal in the mid-1960's when she began her efforts to organize a sub-

Sanford Couple Killed In Crash

A Sanford man and his wife, heading for Athens, Ga., Thursday to spend the Thanksgiving holiday with one of their daughters were killed instantly when the car in which they were riding slammed into a parked transport truck.

Dead are: John Levi Adams Jr., 32, of 1918 Lovell Ave., owner-operator of the Volkshop at 303 E. Commercial St.; His wife, Vivian Lucille Adams, 46, owner-operator of the Cake Box, 2605 Sanford Ave.

Both were killed instantly, according to the Georgia Highway Patrol. Investigating officers said today Adams apparently fell asleep at the wheel of his car in the 6 a.m. accident which occurred on I-75, eight miles south of Perry, Ga., about 10 miles from their destination.

The parked transport truck involved in the tragedy was loaded with hay, troopers said.

Also in the Adams' auto was their youngest daughter, Nancy Jean, about 15, who was treated at a Perry, Ga., hospital for slight concussion and other minor injuries, then released, troopers said.

In addition to daughters, Nancy Jean and Peggy, they are survived by a daughter, Mrs. Ralph (Brenda) Sagan, San Antonio; son, William R. Adams, Sanford; and one granddaughter, Kristi Lynn Adams, Sanford.

Mrs. Adams' other survivors include her parents, Mr. and Mrs. John C. Ward, and two brothers, John and Joe Ward, all of Memphis. Mr. Adams also is survived by his mother, Mrs. Clara Adams, Selma, Va.; and a sister, Mrs. Alice Okosz, Phenixville, Pa.

Gramkow Funeral Home, Sanford, is in charge of funeral arrangements, which are incomplete at this time.

Last Chance For Maximum Tax Discount

By MARK WEINBERG Herald Staff Writer

Seminole County property taxpayers still have until next Wednesday to take advantage of the maximum discount allowed on their tax bills for early payment.

County tax collector Troy Ray issued the reminder today that the county gives a four-per cent discount on taxes due if payment is made by Nov. 30.

"We go by the postmark if the tax payment is mailed in," Ray noted, adding, "Even if we receive the payment, say, Dec. 5, but it's postmarked Nov. 30, we still allow that taxpayer a four per cent discount."

Although taxes are not legally due until April 1, the county issues discounts for early payment: four per cent for payment by Nov. 30, three per cent for payment by the end of December, two per cent for payment by the end of January and a one-per cent discount if they're paid by the end of February.

Penalties after April 1 are different for homeowners and businesses. Real property taxpayers who pay their tax between April 1 and June 1 pay an additional three per cent plus advertising and fees. On or before June 1, tax certificates are sold at county auction that could raise the penalty to as high as 10 per cent after June 1.

Businesses paying the tangible personal property tax after April 1 must pay a penalty of an additional 1 1/2 per cent per month plus advertising and fees. By the end of the year, Ray's office petitions circuit court to validate warrants on unpaid tangible personal property tax to collect the tax.

Ray invited county residents who want to obtain more information on their tax bills or pay their tax bill to contact any of his office's three locations: room 103 of the courthouse in Sanford (323-4330, ext. 220); the county's office in Seminole Plaza, Casselberry (650-4363); and the county's office in Interstate Mall, Altamonte Springs (338-4363).

To date, Ray's office has received between \$6 million and \$7 million in taxes since tax bills were mailed to county residents and businesses a month ago. Ray expects to receive the more than \$29 million total taxes due in Seminole by April.

Ray's office collects taxes for all governments and taxing units in the county, including Seminole County government, fire protection for unincorporated county residents.

Ray said. The payments will amount to \$18 million. "Next week will be a hectic one for us," said the tax collector.
