Bible Verse For Today

ADULTERY AND DIVORCE: Whosoever putteth away his wife, and marryeth another, committeth adultery: and whosoever marryeth her that is put away from her husband committeth adultery.—Matt. 19:9

We dare say more laws would be declared constitutional, if more of them were.

About the only people who will benefit from this racial race are the shipbuilders.

We would like to see the regulations devised to prohibit the "ing the bag" companies.

The more the canal proponents talk the more we are inclined to believe that there is some danger to our flowing wells.

Five Motorists Killed in Crash—headline Miss G. says to the public, but no for her in the wreck.

Saw a picture of a fish swimming the other day. Yes, it was in the water up to the top of its right.

Real estate values are going up. Having been at low tide for several years, there may be something else that will do it.

Miami police are not taking a raid against the book business. (Illegal textbooks, perhaps.) It seems that it has to be the school summer cleanup has a way.

We see where the 100,000 is going to turn out some people representing one tenth of the population. The idea seems to be that they may come in handy when some of our businesses start paying dividends.

Speaking of candidates for governor next year, The Sanford Herald suggests a warlike one. An the man who gave Senator Trammell the scars of his life in 19 the Ybor City vote was the Claude Pepper. But Mr. Pepper having come so close to a seat in the United States Senate is being watched by some observers to be waiting only for another chance in that race. Miami News. He and Shultz should be able to make if an interesting race.

Congratulations to the Miami Sentinel for calling Senator Sumner's bluff. The Senator probably had no idea he would be taken seriously when he said that anyone could get the report on the cross state canal merely by writing the Board of Army Engineers. But the Sentinel wrote, and was told that its report is not available for issue. It seems fairly evident that whatever may be in that budget report it is not the most convincing evidence that the canal will do no harm.

President of the National Conference for the Legalization of Lotteries is Mrs. Oliver H. Harriman, wife of the railroad magnate and one of the richest women in America, who recently appeared before a congressional committee urging the creation of a huge national lottery which she said would raise a billion dollars a year in taxation. Legalized lotteries for purposes of taxation, you see, raise government revenue by placing the burden on the common people. That's why so many of our wealthy people are now advocating lotteries.

A Frightful Experience

How would you like to be attacked by a shark? How would you like to be sitting on the bottom of a capsize boat while scores of sharks swam around you occasionally coming up very close and sticking their snouts out of the water in an effort to grab your ankle?

Such was the experience of a twenty-three-year-old California boy the other day on a motorboat trip with his father near Catalina Island. Worse than that one of the sharks not only caught him by the ankle once and severely bit him, but also so severely injured the father that he later died.

Some folks say sharks won't bite; that is, they won't attack human beings. We have seen conchs dive into the water directly at huge sharks and scatter them like so many minnows. With thousands of persons bathing daily along our Florida beaches, and with hundreds of sharks to be found almost anywhere in the South Atlantic, it is only upon the rarest occasion that one hears of a shark actually attacking a person.

And yet doctors at the hospital who examined the two men after they were brought in insisted that the wounds were made by shark teeth. And, of course, one of the men was still there to tell the tale and he maintained throughout that the damage was done by sharks that he had seen them and had in fact fought them off in an effort to save his father.

The pair were motoring across the channel to Catalina Island in a high wind when their motor suddenly died on them. Left to the mercy of the waves the craft soon overturned. The men climbed on to the bottom of the overturned boat and remained there throughout a long, cold and uncomfortable night. As morning came the father had become so exhausted that he slipped from the boat into the water.

It was then that the sharks put in their appearance. As the son attempted to pull his father back on to the boat, a shark grabbed the old man by the ankle. It was only with the greatest effort and after considerable fighting that he managed to get the men succeeded in getting loose from the shark and back on the boat.

Soon there were scores of sharks swimming around the boat. The loss of blood which the father suffered and the exhaustion of their predicament further weakened him, and despite his son's efforts to support him, he again slipped into the water. This time a shark bit him in the side, and as the son continued his efforts to rescue his father, he was bitten himself on the ankle.

After about half an hour of this a seeping boat finally sighted them and picked them up. The father had died a few moments before from loss of blood and shock. The son was almost unconscious. And the sharks were still swimming around.

The Last Of The Slaves

Washington's announcement that he intends to take over the management of the nation's affairs, which he has done since he has been elected, is a very important step in the history of the nation. It is a step which will have far-reaching consequences.

THE SANFORD FORUM

July 28, 1935

Editor, Sanford Herald: War clouds are again gathering over Europe. One is reminded of the spring and early summer of 1914. Of course the place is changed a bit. The nations are different. The so-called causes are different. But otherwise it is the same old game. A very small, supposedly free nation (as the United States) trying to kid themselves along and whip up the belief that they are fighting for their very national life. The other large nation trying to make the rest of the world believe that they are going into war to advance civilization, Christianity, and in every other way make the world a better place in which to live. Never once giving a thought to the poor devils that will really fight the war and do all the suffering which ever may victory give.

And should anyone go to either of these countries and make the statement that the men in both countries are both too high up for the war to make suffer and also they are standing in line to make money out of the war they would be put under the jail. That is high treason.

Italy has had an interest in the negro nation for some time. She has spent lots of money down there. She has tried to gain her particular belief down the throats of the savages. She has very freely taken of the spoils of the negro country. The time came when she tried to lead Italy to the negro off by subjects while they taught them the truth of freedom of man with his hand and used guns and bullets to do with the other. And now she is in the time when she is trying to get the Negro Nation safe for the world and the citizens of the world. It is a very interesting thing to see how she is trying to do this.

hate the Germans for. We were friends to the whole world. But something had to be done to get up the blood lust so we could go to war to save the big corporations money. Today it is very clear to see how it was done. We fought the war to make it a safer place in which to live. Is it? All we did was to save the United States from an orderly progress where every man who would work had a job and was reasonably happy. We were successful in throwing ourselves into one of the worst calamities the world has gone through. We were successful in killing about fifty thousand of our best young men. (At least they were thought to be of the best at that time. That, of course, was before we got the great wonder who says the man who stayed here and dodged from one munitions plant to the other was as valuable as the men in combat divisions on the lines) in crippling thousands of others. In lowering the respect of every man for our government. In lending over eleven billion dollars to our supposed friends on the other side and now they are sure if we ask them for any interest. We were successful in turning ourselves into the worst depression the world has known for ages. In putting millions of people on the street looking for work. In passing more laws in the past few years that are more brutal than all the laws passed in the past hundred and fifty years of our national existence.

And today the men that once were the D. D. and followed Old Glory on her horse training expedition in Mexico to cover the lie of a nation trying to find an excuse to declare war and also in the Spanish game across the Atlantic on with the war of the democracy are walking the streets looking for a job or taking back doors for a trial and wondering what it would have been like had we not had some strings of the world's money. The American people are being led by a few new men who are not only not doing any good but are doing a great deal of harm. And not doing them in the name of civilization as we know it. May they never know the modern meaning of Brotherly Love, as it is taught by the nations of the earth today. That they may a little longer keep hope and confidence in the good of mankind. W. C. HARTLINE.

The Sanford Forum

Editors, The Sanford Herald, Sanford, Florida: Dear Sirs: The members of my family wish me to say we greatly appreciated and enjoyed the feature formerly appearing in The Herald called "A Candlelit Column" and regret it was discontinued.

We think it almost certain a great many other people must also have liked this column but neglected to say so, and that perhaps this contributed to its discontinuance. We should like to hear again from this writer. Sincerely, B. H. GUTHRIE, A subscriber.

Feds Meet Reds Thursday At Municipal Park At 3:30; Lose To Leesburg Tuesday

In FEATHERS—The Harder in the Municipal Park right-handed will be on the mound for the Sanford Giants when they meet the third place DeLand Reds at Municipal Park tomorrow afternoon at 3:30 o'clock.

The game also will be featured by the appearance of Joe Witt, Cleveland outfielder who made his debut at Leesburg yesterday. Witt is expected to pitch for the DeLands.

A new development in the baseball season is the fact that the Sanford Giants will play their home games at Municipal Park. This is due to the fact that the DeLands have secured the use of Municipal Park for their home games.
