To The Moon And Beyond Panel Says Ambitious Space Plan Affordable

By Al Rosseter Jr.
UPI Science Editor

WASHINGTON (UPI) — The chairman of the president's National Commission on Space says the panel's ambitious blueprint for America's 21st century space program should be affordable as the nation's economy grows in the years ahead.

"Stronger leadership and greater vision will be needed, but the expected benefits to America and the world will greatly outweigh the costs," said Chairman Thomas Paine, a former NASA administrator.

The report, a plan for America's next

50 years in space, envisions the development of next-generation Earth-to-orbit transports in the next decade, establishment of a spaceport in Earth orbit in the late 1990s, a manned return to the moon by 2005 and manned flights to Mars a decade later.

The report said the "highway to space" will start with economical new cargo and passenger ships to go from Earth to orbit, and follow with ferry ships to go from Earth orbit to more distant destinations.

"The commission's bold new space program is paced to maintain NASA's budget at less than half the peak

percentage of national expenditures reached during the Apollo years," Paine said when the report was formally released Thursday.

"Our report recognizes that the final decision will be made by the American people through its leaders in Washington. The commission is therefore not prophesying, but describing what the United States can make happen through vigorous leadership in pioneering the space frontier."

The commission's report, called "Pioneering the Space Frontier," originally was to be released last month but was delayed by the White House.

However, copies were mistakenly mailed out early this month to some news media by the report's publisher, Bantam Books.

The glossy 211-page soft cover book said U.S. leadership in space will be based upon a "reliable, affordable transportation system and a network of outposts in space."

"This infrastructure will allow us to extend scientific exploration and to begin the economic development of the vast region stretching from Earth orbit outward to the surface of our moon, to Mars and its moons and to accessible asteroids."

Girl Can't Keep Car, Despite Winning Essay

HONOLULU (UPI) — President Reagan personally congratulated a Vietnamese girl on winning a Statue of Liberty essay contest, but he was powerless to change welfare rules preventing her family from accepting a car as first prize.

Hue Cao, 11, who fled Vietnam with her family in a small boat in 1979, told reporters Thursday that her disappointment over the car had taught her that in America "there are regulations and rules, that we can't see G.I.R.L., page 2A

DER Probes Waste Spills At Airport

State environmental officials will be at the Sanford Airport today to look into the possibility hazardous waste from the Superior Aircraft and Refinishing Company is making its way into a local waterway.

The firm is located on airport property at 1682 Hangar Road.

A state Department of Environmental Regulation official said this morning the DER will be investigating the situation as a possible violation of hazardous waste regulations on the part of the firm.

DER environmental specialist Jim Jarmolowski said the survey is follow-up to a preliminary study the U.S. Environmental Protection Agency conducted at

the site Wednesday. DER representative Greg Lee said the possibility exists that hazardous cleaning compounds at Superior Aircraft are spilling through a floor drain and making their way into a body of water.

The possibility is what prompted state environmental officials to pick up on a federal survey. The business has been at the airport at least 20 years, according to a nearby shop owner.

The shop owner said he is not aware of today's inspection but a few months ago environmental inspectors removed barrels of unknown contents from the site.

Spaziano Stay Vacated

By Deane Jordan
Herald Staff Writer

The Florida Supreme Court vacated a stay of execution Thursday granted to woman-slayer Joseph Robert "Crazy Joe" Spaziano who was convicted in Sanford in 1976 for the sex-mutilation murder of an Orlando hospital clerk.

Spaziano, 40, a member of the Outlaws motorcycle gang, was to be executed Dec. 3 but received a stay from the Florida Supreme Court on Nov. 25 so the high court could consider the use of hypnotism on one of the witnesses against him.

The court, ruling on the hypnotism issue Thursday, rejected Spaziano's argument. Spaziano claimed his lawyer failed to tell the jury that the testimony of the state's key witness was the product of police hypnosis. Thursday's decision lifted the court's own stay.

A spokesman in the Governor's office said he was unsure when another warrant ordering Spaziano's death might be signed. Spaziano's state-appointed attorney, Mike Mello of Tallahassee, said he will file a motion for a rehearing within two weeks and ask the justices to reconsider the issue of hypnotism in the case. If that fails, he said, he will probably ask the U.S. Supreme Court to reconsider the case. Mello said he is seeking either have the death sentence changed to a life sentence or for a new trial.

In 1976, the judge in Spaziano's trial, Circuit Judge Robert B. McGregor, overrode a jury's recommendation of life and sentenced him to die. The Florida Supreme Court, however, ordered in 1981 that Spaziano be resentenced because McGregor considered a confidential report before issuing the death sentence. McGregor, sticking to his legal guns, again sentenced Spaziano to death and forced the issue to the U.S. Supreme Court. McGregor argued that if the jury had been aware of Spaziano's record, they might have recommended the

Area Groups Plan Memorial Day Activities

By Jane Casselberry
Herald Staff Writer

Veterans organizations in the area will observe Memorial Day Monday by holding ceremonies to pay tribute to the men and women who have died in defense of freedom in the nation's wars. All the events are open to the public.

In Sanford, Memorial Day ceremonies will be held at 11 a.m. at the city's Veterans Memorial Park on the lakefront. The program will be sponsored by the Fleet Reserve Association Branch 147, Disabled American Veterans Seminoles Chapter 30, Veterans of Foreign Wars Post, American Legion Post 53, and the AMVETS.

The Memorial Day message will be given by Seminole County Sheriff John Polk. The lead honor guard will be from the Seminole County Sheriff's Department and the honor guard by the Sanford Police Department.

Dick Parrish will be the master

of ceremonies and Greater Sanford Chamber of Commerce President Jack Horner will give introductory remarks and welcome. The Seminole High School Band will play under the direction of Bandmaster Bob McGuire. Also participating on the program will be the Rev. William J. Boyer, pastor of Grace United Methodist Church and former Navy chaplain, who will give the invocation; Bob Tolle, of the FRA, who will give the benediction; Dave Ogden, who will play Taps; Jim Keltner and Patty Tripp, who will sing *God Bless America*.

Members of the Fleet Reserve will post and retrieve the Colors and commanders and presidents of the sponsoring veterans groups will place wreaths at the base of the flag pole.

Immediately following the ceremonies, participating personnel and their families will be hosted for lunch at Fleet Reserve headquarters at 3040 W. First St., Sanford.

Area veteran and civilian organizations will commemorate Memorial Day with ceremonies at All Faiths Memorial Park on Lake Drive in Casselberry at 9:30 a.m. The main gate will be closed at that time. Among the dignitaries participating will be Casselberry Mayor Owen Sheppard, keynote speaker; Major Arnold Fields, commander of the U.S. Marine Recruiting Station, Orlando, honorary host; and Kelly L. Panter, assistant controller, Baldwin-Fairchild Cemetaries and Funeral Homes, master of ceremonies.

The program will feature placing a wreath on the symbolic Tomb of the Unknown Soldier and lighting the Flame of Freedom.

At Glen Haven Memorial Park, 2300 Temple Drive, Winter Park, ceremonies will begin at 11:30 a.m. sponsored by area military, veterans, and civilian organizations. Brig. Gen. Robert L. Howell, assistant adjutant general for the Florida Army

National Guard, will be the keynote speaker. Richard D. Adamczyk, program development manager for Ground Combat Systems at Martin Marietta Aerospace, will be honorary host and Joseph Werner, senior marketing representative for Sea World of Florida, will be master of ceremonies. The program will feature two "cameos"—the "Surrender of Cornwallis" and "Surrender of Lee."

For the fourth year the Vietnam Veterans of Central Florida will sponsor a service on Memorial Day at the Orange County Vietnam Veterans Memorial at the Orange County Convention and Civic Center. The service will begin at 2 p.m. Monday. The program is different than the traditional ceremonies. Those attending the ceremony will be given an opportunity to speak to the group and offer their own thoughts, poems and appropriate comments. There will be no speeches by political figures and instead of

a formal wreath-laying, all participants are asked to bring a flower to be placed at the memorial as a personal tribute to lost friends and loved ones.

Special music will be provided by the Orlando Deanery Boychoir of the St. Luke's Episcopal Cathedral and Linda Bryant Jordan.

A tribute to those who served during the Korean War will be the theme of the 36th annual Memorial Day service at 11 a.m. Monday at Woodlawn Memorial Park, Orlando. The service is endorsed by the Central Florida Veterans and Patriotic Council and over 80 organizations have been invited to take part. A bronze memorial plaque in memory of the 15 astronauts, including the seven who died in the Challenger explosion will be unveiled by the boys and girls from Edgewood Ranch while a taped dedication made by Bruce Jarvis, father of astronaut Greg Jarvis, is played.

Van Der Weide

Longwood Resident Seeks House Seat

Longwood resident Dick Van Der Weide has announced his plans to run for the Florida House of Representatives in District 27.

The 47-year old Republican is a candidate for the seat held by Bobby Brantley (R-Longwood), who is running for lieutenant governor.

Van Der Weide said his goal is to focus the state's resources on areas of greatest need, including law enforcement, transportation and education.

"The major effort of the legislature must be to operate government economically if the resources are to be found to cope with the rapid population growth," he said.

Van Der Weide said his campaign plans include formation of a little cabinet, advisory boards composed of persons working in areas of greatest citizen concern, such as crime control, education, road construction and Health and Rehabilitative Services.

As owner of Kid Stuff Child Care, Van Der Weide said he has been an active participant in programs designed to assist families in Central Florida for the past 10 years.

He is president of the Florida Association for Child Care Management and a director of the National Association for Child Care Management.

He is one of 15 members of the Florida HRS Child Care Advisory Council and a member of the 4C Training Programs advisory council.

Van Der Weide attended Wichita State University in 1963 and 1964 and served four years in the U.S. Air Force.

He and his wife, Judy, have three sons, ages 10, 18, and 30.

Step To 'Total Wellness'

GSA To Ban Smoking In 6,800 Federal Buildings

WASHINGTON (UPI) — The General Services Administration announced Thursday it has begun to ban smoking in the 6,800 federal buildings it manages nationwide, warning that public workers would be confined to designated areas or private "smoking offices."

GSA Administrator Thomas Ogden announced the ban as part of a two-day Regional Conference on Public Employees' Fitness and Health, sponsored by the U.S. Civil Service Commission and the U.S. Army.

The ban will be phased in over a period of 18 months, starting with the most densely populated areas. The ban will be complete by the end of 1987.

"Smoking has begun to intrude on the health interests of non-smokers in the workplace... It is no longer in the right of the individual to smoke in the workplace."

The ban will be phased in over a period of 18 months, starting with the most densely populated areas. The ban will be complete by the end of 1987.

ing in general office space, lobbies, corridors, conference rooms, restrooms, elevators, stairways and restrooms. Designated smoking areas will be established at administrative and working facilities.

The ban probably will take effect this fall, Ogden said, adding that the regulations prohibit smoking in the workplace.

The ban will be phased in over a period of 18 months, starting with the most densely populated areas. The ban will be complete by the end of 1987.

NATION IN BRIEF

Hands Across America: Lots Of Spirit, Lots Of Gaps

People around the country packed their bags for the trek to their spots in the Hands Across America line, while a couple of corporate sponsors of Sunday's extravaganza stood by with red and white rope to fill the gaps.

Even some milk cows could get into the act. As the hours ticked away, organizers bemoaned the fact that the toll-free 800 telephone numbers set up around the country were jammed with calls and many would-be volunteers were not getting through.

Maryland was still looking for 32,000 more volunteers to stand along a rural route dotted with dairy farms.

"We are seriously considering using cows because we would love to have the line complete," said Cecilia Rubino. David Fulton, a spokesman for the Hands Across America national office in Los Angeles, estimated Thursday that between 2.5 million and 3 million people have signed up for Sunday's event. About 5.5 million are needed.

Fulton said he still thinks the goal will be reached.

Father Acquitted Of Baby Murder

PROVIDENCE, R.I. (UPI) — The nightmare of facing trial charged with raping his baby daughter is over for Ralph Richard but the ordeal of seeing his pregnant wife tried for beating the girl to death may be just beginning.

Richard tearfully clenched his hands skyward and praised the Lord when a jury Thursday acquitted him of raping 4-month-old Jerri Ann and scheming with wife Donna to conceal their daughter's 1984 sexual assault and murder.

"I think we will still intend to go forward with Donna's (case)," Assistant Attorney General William Rampone said. "There was other evidence which wasn't introduced in this case."

But Rampone conceded that charges Mrs. Richard concocted a kidnapping story with her husband to cover up the rape and murder may have to be dropped now that the Superior Court jury found her husband innocent of five charges after an eight-week trial.

Reagan Criticized For Statement

WASHINGTON (UPI) — Critics say President Reagan's statement — that the nation's hungry have inadequate knowledge about food programs — only highlights his administration's refusal to make that information available.

"My major reaction is that it's kind of tragic the president's understanding is so limited," Robert Greenstein of the Center on Budget and Policy Priorities, said Thursday.

Greenstein, who ran the food stamp program for President Carter, blamed hunger on a broad range of problems: rising housing and heating expenses for the poor, declining real wages, a lower percentage of eligible people getting unemployment benefits and cuts in federal and state spending for anti-poverty programs.

New Approach To AIDS Vaccine

WASHINGTON (UPI) — Researchers have taken a new direction in the search for an AIDS vaccine, developing a substance that may prevent the disease in people infected with AIDS virus and offer a route to a vaccine against the common cold.

Scientists said Thursday the approach, now being tested in animals, also offers new clues about how the AIDS virus destroys the human immune system.

"If we do successfully develop the vaccine, which we think we have a way to do, the patient population you would consider first would be the high-risk population," meaning those at risk for acquired immune deficiency syndrome, said Dr. Allan Goldstein, professor and chairman of the biochemistry department at George Washington University Medical Center.

Headmaster Seeks 'Forgiveness'

PORTLAND, Ore. (UPI) — The Oregon Episcopal School headmaster, asking for "forgiveness and compassion" from the families of nine climbers killed in a school-sponsored expedition up Mount Hood, called for an investigation of the tragedy.

The Rev. Malcolm Manson eulogized the seven students and two faculty members Thursday at a memorial service attended by about 1,600 people.

Manson's voice quavered when he spoke directly to the families of the victims frozen to death during last week's blizzard on the mountain. Of the 13 climbers on the school's spring survival hike, only four survived.

House Approves Trade Bill

WASHINGTON (UPI) — As House Democrats reveled in their stunning victory on a major trade reform bill, the opposition set its sights on the Senate where it hopes to defeat the measure.

The Democratic-controlled House, spurred by concern over a mounting trade deficit and the loss of American jobs, voted 295-11 Thursday for a bill that would force President Reagan to get tough with U.S. trading partners.

The margin was wide enough to override a threatened presidential veto, but before that bridge is crossed, the Republican-controlled Senate must act on a bill that senators have not yet begun to write.

Hopes Fade For Summer Summit

WASHINGTON (UPI) — President Reagan, in Washington for the Memorial Day weekend, has put domestic and foreign matters on hold for the holiday, as hopes faded for a summer summit with Soviet leader Mikhail Gorbachev.

A senior administration official said Thursday that a summit "will not occur" this summer, but indicated that a Reagan-Gorbachev meeting is still possible after the congressional elections early in November.

Administration Hardens Budget Stance

By Elaine S. Fovish
WASHINGTON (UPI) — Budget director James Miller, hardening the administration line, says President Reagan will not give in to congressional demands for higher taxes and lower defense spending.

The remarks, made Thursday to the U.S. Chamber of Commerce, served to underline the Reagan administration's position against both the Senate-passed and the House-passed budgets.

The two congressional sides began meetings this week, attempting to solve their differences. Both the Senate and House budgets include \$13.2 billion in taxes — \$7 billion more than Reagan wanted.

On military spending, the two budgets are different, but both fall short of the \$320 billion Pentagon budget Reagan requested. The House military budget is \$35 billion less than Reagan's and the Senate calls for \$16 billion less.

Reagan's budget has been rejected by both chambers, and neither incorporates the administration plan to end 44 federal programs, preferring instead to end just one or two.

"We hear the refrain that the administration must compromise," said Miller. "I disagree. We're simply not going to give in. We'd lose if we did, perhaps forever, the chance to shape up the federal establishment."

House Budget Committee Chairman William Gray, D-Pa., opening the House-Senate budget bargaining, said only administration "interference" could prevent compromise. His Senate opposite number, Pete Domenici, R-N.M., was less optimistic, saying the Senate's

desires for more defense spending would be hard to compromise.

Administration officials have threatened to break up the conference, rather than see a lower defense spending figure approved, and Domenici, as the leading Republican, would probably get most of the pressure.

"When I say no to a major concession on defense spending or new taxes, I'm not being stubborn," said Miller, who heads the Office of Management and Budget. "I am simply revealing my judgment (about) ... the best way to reach the Gramm-Rudman-Hollings spending targets while at the same time adhering to the president's priorities."

...Stay

Continued from page 1A

death penalty. The U.S. Supreme Court in 1984 upheld the death sentence.

Since the U.S. Supreme Court has upheld the death sentence, the state stay was not based on the legality of his conviction but was an effort to have the death sentence changed to a life sentence because of mitigating circumstances, according to comments of Spaziano's attorney on previous occasions.

At the time of his 1976 conviction, Spaziano was serving life plus 5 years for the rape and knife-blinding of a 16-year-

old girl. It was that report that McGregor was aware of but not the jury when they recommended a life sentence. Last year, Spaziano asked Gov. Bob Graham and the Cabinet to spare his life. They rejected his plea.

Spaziano was arrested in 1975 and charged with the death of 18-year-old Laura Lynn Harberts, who worked for a hospital.

Her mutilated and decomposing body was found in an Altamonte Springs garbage dump Aug. 22, 1973. The body of another woman was also found in the heap but no charges were filed in that killing because she could not be identified, according to court records.

President: Help Available For Hungry

By Helen Thomas
UPI White House Reporter

WASHINGTON (UPI) — No one in the United States is going hungry because of cutbacks in government programs, but it is possible that some people might not know how to obtain proper assistance, President Reagan says.

Reagan, speaking to high school students from 10 states in a "Close Up Foundation" television interview, also defended his \$1 trillion defense buildup, saying the United States is now "playing catch up" with the Soviet Union.

Private and public food programs are available to feed hungry Americans, Reagan said,

adding, "I don't believe that there is anyone that is going hungry in America simply by reason of denial or lack of ability, even."

"It is by people not knowing where or how to get this help," that they go hungry, he said.

Reagan said social aid programs "are such that, where there is hunger in our country, you have to determine that that is probably because a lack of knowledge on the part of our people as to what things are available."

At a news briefing today, White House spokesman Larry Speakes said there are no plans to seek more funds in the budget to provide information on the

availability of food for the hungry.

Speakes said that Reagan based his comments on a hunger study by J. Larry Brown of the Harvard School of Public Health, chairman of the Physicians Task Force on Hunger in America, who said the administration had eliminated a program to inform people about food stamp benefits.

Assistant Agriculture Secretary John Bode called Brown's findings "grossly inaccurate."

"We don't need to go back to the days of door-to-door campaigns to sign people up for food stamps," Bode said.

Speakes said that Reagan would sign a "Hands Across America" resolution in tribute to the campaign to help the homeless and hungry on Saturday and discuss the subject in his weekly radio address.

Sen. Edward Kennedy, D-Mass., who earlier Wednesday introduced a bill that would allot nearly \$1 billion to government food programs next year, said in a statement:

"The president announced that hunger in this country is caused by ignorance. In a sense, the president is correct: Hunger

is caused by the ignorance of those who do not see the suffering of millions of Americans."

"In the last five years, hunger has swept across this country more quickly than at any time since the Depression," Kennedy said. "This did not happen because millions of people suddenly became ignorant; it happened because they or their parents cannot find work and the safety net has been cut away."

Questioned about his \$1 trillion defense buildup, the president said:

"In the last five years, the Soviet Union has outbuilt us in fighter planes, in bombers, 50 times as many, as we and the NATO nations together in artillery pieces, in tanks and ballistic missiles.

"Big as the military budget sounds ... about two-thirds is to pay for people in uniform, (the) rest for spare parts and new weapons system," he said. "Our military spending is smaller than it has been here in the past. We're spending a smaller percentage than was spent in the past and we are playing catch up."

Traffic Study Underway

A traffic study for the proposed traffic signal for State Road 434 at the Florida Central Commerce Park and South Seminole Community Hospital intersection is being made by Police Chief Oreg Manning, but if comments heard at this week's Longwood City Commission meeting are any indication the signalization will not be given a green light.

Park Industrial Venture and the hospital have jointly commissioned Traffic Planning and Design, Inc., to do the engineering design for the full eight-phase traffic signal and the plans have been approved and sent out for bid, according to Phil Tatch of Florida Central Commerce Park.

Park Industrial Venture and the hospital plan to pay the full capital cost of the installation and want the city, operating under the inter-local agreement with the county, to operate and maintain the signal light, Tatch stated in a letter to the city.

Manning said he is against another traffic light on State Road 434. Commissioner Harvey Smerilson questioned if the light is really needed and asked that a decision be delayed until after the study is done by the police department.

"We're doing a fantastic job of slowing down traffic with traffic

lights," Smerilson said. "The only thing that can foul up slow it more is to put police officers out their to direct traffic. If we add another light instead of a half-hour to get from city hall to 1-4 it will take two hours."

It was pointed out that the state Department of Transportation has rejected a request for a traffic light at the entrance to Island Lake retirement center.

City Administrator Ronald Waller reported he has notified Tyler's Wheel Ranch at 3010 Dane Lane in Longwood Industrial Park to cease operation by 5 p.m. today at that address because they have not applied for a conditional use permit as required by the city.

Commissioner Perry Faulkner suggested the city police and firefighters be tested for substance abuse, "not for criminal prosecution, but to rehabilitate them."

"I don't want my tax money going to subsidize a person on chemical abuse," Commissioner Ed Myers replied.

Smerilson said the Florida Crime Commission is conducting a survey and is trying to come up with the best way of testing all the officers and the city should wait for the commission's report.

...Girl

break the law."

Hue's essay about freedom and Lady Liberty won first prize in a statewide writing contest entered by some 2,000 students in grades 3 through 11.

The first prize was a trip to New York for the July Fourth Statue of Liberty centennial festivities and a car — a 1987 Nissan Sentra sedan worth \$9,000.

Hawaii welfare officials said if Hue accepted the car, her family

would be cut off public assistance because of federal regulations limiting the assets of recipients.

Reagan called Hue on the telephone Thursday, telling the young refugee, "All of us are very proud of you and people like your family who are brave enough to make the sacrifice to seek liberty."

Hue, whose father died in Vietnam, told the president, "My mom and my family and I would like to say thank you to you and the people of America for the privilege of living in this good and kind country. We really appreciate it."

Foundation officials said the car will be auctioned to raise funds for a college trust fund for Hue. An unidentified man also offered to give the family an inexpensive car that meets welfare requirements.

Hue, a sixth-grader at Waipahu Elementary School, said in her essay that her family fled "very cruel, stern, and ill-tempered" communists in Vietnam.

"We wanted to live in America, a land where there is liberty and justice," she wrote. "Everytime we saw a picture of the Statue of Liberty, my mother would tell us that SHE is America."

"America is a place that lends a hand to those in need. (The Americans care for all people, from homeless to hopeless people," she wrote.

WEATHER

NATIONAL REPORT: A wintry Pacific storm that dumped at least 9 inches of snow in the Rockies weakened today as it moved toward the Plains, while a storm stalled over the East Coast spread rain from the middle Atlantic states to New England. The western storm waned today after blanketing the Alta Ski Resort in the mountains east of Salt Lake City with 9 inches of snow. "It hasn't died out, but it has lost quite a bit of its intensity, and it's going to continue to weaken

over the next 24 hours." National Weather Service meteorologist Bill Barlow said Thursday night. Barlow said the storm was expected to move out of the Rockies and into the northern Plains today. A storm system that spread showers and thunderstorms from Florida to New England earlier in the week lingered over the East Coast today.

FLORIDA

IN BRIEF

Serial Killers Bundy, Stano Scheduled For Double Execution

STARKE (UPI) — Gov. Bob Graham has signed a second death warrant for serial killer Ted Bundy and prison officials have moved him to a "ready cell" to await a scheduled July 2 execution in the Florida State Prison electric chair.

Graham also signed a death warrant Thursday for Gerald Eugene Stano, another serial killer of young women. Corrections officials scheduled his execution for the same day as Bundy's.

Bundy was convicted of the Jan. 15, 1978, clubbing and strangling deaths of Florida State University sorority sisters Lisa Levy and Margaret Bowman. It is Bundy's second warrant and Stano's first, a spokeswoman in Graham's office said.

Stano, 35, a former short-order cook from Daytona Beach, Fla., has confessed to the murders of 39 women, most of them in Florida. He has been convicted of 10 murders and was sentenced to die for three of them.

Deputy Fired For Tampering

ORLANDO (UPI) — A 14-year veteran of the Orange County Sheriff's Office, last assigned to the drug enforcement division, was dismissed for evidence tampering and lying during an internal investigation.

Although the department said William Ray Porter, 36, was "terminated and decommissioned" Thursday, he technically is suspended without pay pending outcome of an appeal board hearing, tentatively set for June 2, a spokesman said.

Investigation showed Porter removed a two rocks of cocaine from a matchbox lying on a fast-food bag on the front seat of a car stopped by authorities in Apopka March 21. He then planted the cocaine in another area of the car.

Ex-Arsonist Now Firefighter

NICEVILLE (UPI) — A Niceville man who pleaded no contest six years ago to setting fire at a northwest Florida church has a new job — he's a firefighter, and that has some people hot under the collar.

Mason, 24, pleaded no contest in 1980 to a charge of arson in a blaze that caused \$100,000 in damage to a Niceville Assembly of God Church. Mason was put on probation for 10 years, but Circuit Judge Robert Barron let him off probation in January.

Mason for the past two years has been a volunteer fighting fires in Okaloosa County. Fire commissioners this month, in a close 3-2 vote, decided to hire Mason as a full-time fireman.

Four Rape Australian Tourists

ORLANDO (UPI) — Two Chicago men were held without bond Thursday on charges they and two teenage boys repeatedly raped and threatened with a knife a pair of Australian tourists staying at a downtown youth hostel.

The state had not yet filed charges Thursday. The women declined aid from many Orlando businesses and residents and have left the city.

House Wants Prostitutes Tested For Sex Diseases

TALLAHASSEE (UPI) — Prostitutes would be tested for sexually transmitted diseases including acquired immune deficiency syndrome under a bill given preliminary approval by the House Thursday.

Prostitutes who test positively for an incurable disease such as AIDS or genital herpes and are later re-arrested for prostitution would be treated as habitual offenders and face up to a year in jail. The same penalty would apply to a prostitute found to have a treatable disease such as gonorrhea or syphilis and later re-arrested without having the disease treated.

The tests would be required only for convicted prostitutes. People arrested for prostitution would be urged to submit to voluntary tests, and their willingness to do so would be taken into consideration by the judge when setting bond.

The testing requirement was adopted as an amendment to a bill (HB 576) making technical revisions in the legal definition of prostitution. A full bill with the same provisions, plus a requirement that customers as well as prostitutes be tested, has passed through committee hearings but is not scheduled for a hearing before the full House.

The bill is scheduled for a final vote on Friday.

In other legislative action: —House Speaker-designate Jon Mills named Rep. James Burke, D-Miami, as his Speaker pro tempore. Burke will be the first black ever in the position and the highest-ranking black in Florida legislative history.

Mills, D-Gainesville, said he had unanimous support from House members for his decision to name Burke his second-in-command for the 1987 and 1988 legislative sessions.

—The House gave preliminary approval to a bill that would strip minors convicted of drug or alcohol crimes of their right to have a drivers license.

The bill (HB 128) would revoke licenses of minors convicted of drug crimes, underage drinking or lying to get alcohol while under age, including by falsifying identification. Proponents touted the bill as the best way to prevent teenagers from drinking and driving.

Crocodiles Sing On Key Largo

KEY LARGO (UPI) — The endangered crocodiles of Key Largo are endangering swimmers and pets, and complaining homeowners report they have been forced to abandon their daily swims because of the toothy reptiles.

Key Largo is the American crocodile's only remaining habitat, and wildlife officers estimate there are only about 30 left.

They are not rare at Key Largo Park subdivision, residents say. The fearsome looking saurians have reared their heads in the waters off the development and flopped their leathery bodies on homeowners' private docks.

They have stalked pet dogs and forced people to abandon their daily swims, according to residents who are organizing a crocodile removal committee.
