

Rebels Begin Attack, Japs Lag In China

Continued From Page One

From their precarious positions along the south bank of Yangtze, Japanese tried another bombing attack in the Klukiang sector, 180 miles down the river from Hankow.

Chinese accounts said more than 300 bombs were dropped and that 30 persons were killed and many injured.

A Japanese spokesman admitted that China's Lion III forts, below Hankow, still were active, but told of other military successes. He said 17 Chinese gunners were damaged or destroyed in yesterday's raid on Hankow and that two Chinese Yangtze River vessels had been sunk.

In the Shanghai area, Chinese guerrilla army for large-scale operations reported formation of a new force against Japanese occupied railroads and communication lines.

"Ladies Day" in police court at the latest innovation at the Palm Beach City Hall. The court at 11 A. M. for the hearing of all cases of white women arrested for traffic violations.

ONE GOOD TURN DESERVES ANOTHER. The U. S. army seems to have decided, adding another blade to a Curtiss pursuit plane, being put through experimental tests at Wright field in Dayton, Ohio. Plane carries dual rotating propeller.

Sombrero Useful But Has Comic Aspects

MEXICO, July 21.—(AP)—The Mexican sombrero is an institution here, but it may be a joke as well. If cartoonists desire to make a man look ridiculous, they put a big sombrero on him. Yet the sombrero, or hat, may sometimes cost as much as \$300. Some are made of finest felt, adorned with gold, silver and copper, and a few with pre-

vious stones. The big hat has practical advantages since it provides plenty of protection from the sun, spares the eyes from glare, and prevents hunting accidents. In the United States a hunter might mistake a moving object in the woods for a deer, but the Mexican sombrero never has been taken for anything—but a sombrero.

The revolver was invented by Colt in 1835.

Pick-a-back Plane Finishes Atlantic Flight In Canada

Continued From Page One

Several Hundred Electrical Engineers from the south eastern section of the United States will gather at the Miami Biltmore, Coral Gables, Nov. 28-30 for their annual convention.

Cloths Blown From Tables By Airplanes

TULSA, Okla. July 21.—(AP)—Assertions that airplanes flew so low over their restaurant that tablecloths were blown from the tables were contained in a recent claim two women made for \$4,300 damages.

The petition contended the planes, landing and taking off from the municipal port, damaged trees, radio aerials and shrubs because of their low flying. The city was asked to stop the planes from "trespassing" on property the two women own. The claim was denied.

DOCTORS APPOINTED TALLAHASSEE, July 21.—(AP)—Dr. A. C. Houghton of West Palm Beach was re-appointed to the State Board of Optometry yesterday. Dr. L. H. Keene of Miami was appointed to succeed Dr. William F. Favey of Daytona Beach on the board. Davey's term expired.

YOUTH DROWNS TERRE HAUTE, Ind., July 21.—(AP)—James Doyle Phillips, 14, sank in a ten-foot hole while bathing with three companions in a creek near Bridgeport and was drowned late Tuesday. The boy was the son of Mr. and Mrs. George Phillips of Terre Haute.

JULIAN, N. C.—(AP)—V. E. Coltrane owns a Guernsey calf, "Queen Patsy," which has been giving milk since it was six days old. At the age of seven weeks, the calf was giving about half a pint of milk daily.

Farmer Gets More Per Acre For Cattle

ZENDA, Kans. July 21.—(AP)—Clarence Beat, farmer, thinks he has discovered a way his cattle can "eat their cake and have it too."

The way, he said, is to contour furrow the range land. He plans deep ditches at intervals across the range on a level line, so that rain and snow water catch there and penetrate the soil instead of running off.

"After constructing furrows on a 78-acre pasture, the height of the grass increased even though more cattle used it for grazing," Beat said.

Protesting a proposed tax of 1c on each package of cigarettes, St. Petersburg merchants urged city officials to avoid such a nuisance levy by placing a flat excise tax of ten cents on each utility meter and on all telephones, pointing out that such a tax would raise an equal amount of money and be a burden of no one.

## Russia-Japan Tension Grows In Far East

**Friction Over Border Dispute Increases; Soviet Refuses To Withdraw Forces**

## English King, Queen Return

**Japanese Capture Of Kiukiang Predicted; Insurgents Advance**

By Associated Press  
CALAIS, France, July 22.—King George and Queen Elizabeth today ended their four day visit to state to France, sailing for Dover at 5:35 P. M. aboard the yacht Enchantress.

Sharp words between Soviet Russia and Japan threatened the uneasy peace of those rivals in the Far East today but a hopeful new omen for friendship in western Europe came from the state visit to France of King George VI of Britain.

Friction between Japan and Russia arose from demands of Japan and Manchoukuo that Russian forces be withdrawn from near Changkufeng, which they declared was Manchoukuo soil. Russia refused, contending treaty maps proved area was that have stemmed from the within Russia.

The incident repeats crises long, ill-defined border between Russian Siberia and Manchoukuo since Japan's conquest of China's Manchurian provinces in 1931-1933 brought her armies back to face with those of Russia.

Foreign observers in Moscow expressed a belief the incident would be solved peacefully.

Cautious optimism prevailed in French diplomatic circles as King George and Queen Elizabeth left Paris for home after four days of pageantry in France, signaling the close bonds between the two great democracies. The better feeling was based on report that Dictator Hitler of Germany had offered to work out a compromise settlement of "outstanding questions."

The war map in China remained unchanged but foreign observers predicted Japanese soon would capture Kiukiang. Insurgent dispatches from eastern Spain said government troops had been driven from the mountains as insurgents continued the drive toward Valencia.

## Winona Campers Qualifying For Rifling Medals

A large number of boys at the YMCA Camp on Lake Winona are taking lessons in rifling from Lieut. C. B. Schirard and are seeking to qualify for medals before the close of the camp tomorrow.

Mr. Schirard stated that the boys had taken interest in the classes and that he expected the boys to have completed the required 10 qualifying targets before the camp closes.

For the pro-marshman medal the boys must make a score of twenty points out of a possible 50 on 10 consecutive single bull's eye targets from a distance of 50 feet and in a prone position.

In this group Billy Gray is the only one who has qualified. Judson West has two of the targets. Fred Wright, six; Jere Darnley, six; Alfred Green, one; Jack O'Brien, two; Jack Hillman, one; Billy Halpenny, six; Neal Smith, one; and Donald Domingue, two.

In the next group which requires a score of 25 points out of a possible 50 for the marksmen medal, Billy Gray has six qualifying targets and David Bach has five. Those making the medal of marksmen this year are Donald Jones with the required 10 targets and Ray Fox with seven.

David Hays and John Morgan are trying for the possible 500 which requires a score of 50 on 100 targets on each of the 10

## UP THE RAMP FROM IRELAND

Flying from Foyens, Ireland, via Montreal, aboard Great Britain's "pick-a-back" Mercury, Capt. Donald C. T. Bennett (right) and Albert Coster (left), wireless operator, arrived at Port Washington, N. Y., after 22 hours and 18 minutes in the air. They are shown as they came up the ramp from a small boat that carried them ashore.

## Simpson Declares Marine Studios To Attract Tourists

**Gigantic Aquarium Is Scientific And Educational Project**

The recently opened Marine Studios near St. Augustine were characterized Friday by T. E. Simpson, president of the Seminole County Chamber of Commerce, as "wonderful educational and an excellent attraction for tourists."

Visiting the studios recently, Mr. Simpson declared he was impressed by the vastness and uniqueness of the project. It is another in the growing list of Florida's tourist attractions, he said.

The studios, he explained, are the only ones in the world where marine life can be observed in its native state. In the gigantic aquarium are numerous species of ocean life just as they appear in the waters of the sea. Most aquaria segregate the different species; therefore, marine life can not be observed as it actually is. However in the Marine Studios project porpoises, snarks, huge sea turtles, and fish of all kinds and descriptions can be seen mingling together.

Mr. Simpson pointed out that in addition to the educational advantages of the project to the public, and the benefit to the State of Florida as a tourist attraction, the studios will serve to provide scientific of marine life with exceptional opportunities to study the life of the sea minus many of the hazards usually accompanying such undertakings.

Declaring that with an initial investment of \$500,000 in the project, Mr. Simpson said the management would double the number of exhibits over within the next few years. The day he visited the studios, he asserted, the weather was rainy and unpleasant yet about 200 persons were there at the time. If this is any indication of the interest in the studios, he added, during the tourist season nearly 2000 people per day should be admitted.

## German Flying Boat Ends Hop In New York

**2,397 Mile Trip From Azores Is Made In Less Than 18 Hours**

PORT WASHINGTON, N. Y., July 22.—(AP)—Germany's 19 ton catapult flying boat, Nordmeer, alighted here this morning after a non-stop flight of 2,397 miles across the Atlantic from the Azores in 17 hours and 42 minutes.

It had been tossed into the air at a speed of about 110 miles per hour yesterday by the mother ship at Horta, Azores. The flight is part of a series of tests to be made prior to regular commercial service across the Atlantic by way of the Azores.

The German flying boat landed near the British trans-Atlantic pick-a-back plane Mercury which reached here late yesterday after a flight from Ireland with one stop at Montreal.

## SEC Seeks Injunction Against Holding Firm

NEW YORK, July 22.—(AP)—The Securities and Exchange Commission filed suit here in federal court charging the Associated Gas and Electric System with violation of the Public Utility Holding Act of 1935 and the Securities Act of 1933.

The action arose as result of system's efforts to extend the securities which mature Nov. 15. SEC attorneys sought an immediate injunction against the Holding Company.

**NAVY FLIERS KILLED**

**ENROUTE TO U. S.**  
NEW YORK, —(AP)—The German airplane Nordmeer, took off from the catapault ship Schwabland at Horta, Azores for New York at 4 P. M., est. Pan-American Airways reported yesterday.

## Families Flee Homes Before Forest Fires

**Vancouver Island Ordered Evacuated As Precaution Against Devouring Flames**

SEATTLE, July 22.—(AP)—A family of four fled today before the great forest fire on Vancouver Island, abandoning their home in the small settlement of Broadmead and Doug Creek. A police constable reported the settlements were in no immediate danger and that the evacuation was ordered as precautionary measure. He said the dangerous 50,000 acre blaze had approached to within two or three miles of the villages.

Sabotage in British Columbia and incendiaries in Washington state and Oregon were considered the chief obstacles to a successful fight against the devouring flames in the Pacific north-west states.

Flames of fires raged across the northwest, which in some spots was almost smoky.

Revolving heat, caused three deaths. Wind blew the flames out of control in some places and tried fighters said they would be lucky if they made headway against the flames.

Fanned by a northwest wind, flames from Vancouver Island's 50,000 acre forest fire swept through Fisher Landing, B. C., a fishing resort, destroying the hotel, which had been evacuated three days previously, and half a dozen other buildings.

British Columbia officials reported they found 1000 feet of fire hose slit with knives, near the Vancouver Island conflagration. They also said sugar had been poured into gasoline to disable firefighting pumps.

Incendiaries previously had been reported by Washington State authorities. They said men had been seen setting fires, and that some of them apparently were motivated by the desire to get jobs fighting the flames.

Forestry officials also announced 200 men sent from and south points to fight the Vancouver Island blaze would be returned as "inexperienced."

## City News Briefs

**Happy Birthday to Police Chief**  
Roy G. Williams.

An important drill session of the Medical Detachment of National Guards will be held in the Army tonight at 8:00 o'clock.

County Agent C. R. Dawson expressed satisfaction today with the rapidity with which votes were being cast in his office on the celery marketing referendum.

## \$2,016,400 Given In State By Board Of Social Security

WASHINGTON, D. C., July 21.—(AP)—The Social Security Board advanced \$2,016,400 for public assistance in Florida during the fiscal year ended June 30.

This figure, reported by the agencies June bulletin, included \$1,044,500 for old age assistance and \$711,900 for aid to the blind. There was no approved state plan for aid to dependent children.

Outlining April operations in detail, the bulletin said Florida paid benefits to 306 out of each 1,000 of the state's aged population, well above the national average of 214.

Nevertheless, the Florida monthly average per recipient was only \$15.13 compared to an average for the nation of \$19.29. The state paid benefits to 28 blind persons out of each 100, 000 total population, 17 more than the average for 38 states operating such assistance plans. The average per recipient for a month was \$15.39, compared to a 38-state average of \$22.53.

Obesity is most common after the age of 65.

## PARIS WELCOMES BRITAIN'S KING AND QUEEN

With their official host, President Albert Lebrun (right) of France, King George and Queen Elizabeth of England are shown in this photograph as they listened to an address well-wishers from France at the city hall of Paris.

## Lex Green Is Speaker At Picnic Of Townsend Clubs

The time has now arrived to drive the money changers from the temple. Rep. Lex Green told Townsend clubs who gathered from nearby central Florida cities to participate in the Townsend picnic Thursday at the Florida club, according to their secretary of the local club, Arthur A. Kirchhoff.

"We are living in the Golden Age," the congressman reported, adding that the wealth at present is held by about 2 percent of the population. He said the keys to the kingdom of the money changers are in the hands of the common people and that they will succeed in having lasting parity to the United States by means of the Townsend Plan which he predicts will be enacted by March, 1939.

Mr. Green pointed out that the wealth of the world is about \$400,000,000,000 and that the wealth of the United States is about 15 percent of this total while the population of this nation is only between 7 and 8 percent of the world's total. He said bank deposits in the United States total approximately \$40,000,000,000.

Mr. Kirchhoff declared that he believed there were at least 500,000 people on the ground at Lakeland Park. He said that he found had the large delegation of any of the Townsend clubs and brought its own band.

Major Paul Frank, president of the Orlando Club No. 2, acted as master of ceremonies and later opened the meeting over in Jack L. Spaulding, president of the Orlando Club No. 1.

Senator Claude Pepper and Congressman Joe Hendrick, who had been invited to attend the picnic, used their records. Mr. Kirchhoff reported.

Those attending the "get-together" from Sanford were W. I. Hingley, vice president of the local club, Mrs. E. A. Moffatt, secretary, Mrs. W. I. Hingley, Mrs. Jeanette Gooding, Mrs. Long W. W. Dresser, Mrs. Elsie Kirchhoff, Mrs. Collins, Mr. C. C. King and Mr. Red Kennedy. Because of illness, President W. E. Dupee was absent.

A true story of phosphate and its production in Florida, and that of tung oil production, citrus and other production phases will be formulated for discussion with the President." Cole said the committee hoped to have its report ready by early Fall.

COLORADO SPRINGS, —(AP)—Charles P. Howard, president of the International Typographical Union, fell dead of a heart attack at a hotel (Antlers) last night.

## Mather May Make Furniture Firm Headquarters Of Company In City

Mather Furniture Co. is expected to make its headquarters in this city, according to reports that the firm has been negotiating for the purchase of the building at 100 West 1st St. which is now occupied by the Florida Building and Loan Association.

At present the company is operating out of the Orange County Building and Loan Association.

Mr. Mather's interest in negotiations for the purchase of the Arcade for several months has added a new chapter to city commercial history, as read at their last meeting suggesting that city business men on the property be advised. It pointed out if it were not for the fact that he would not be buying the property, thereby benefiting the city. The Commission estimated Mr. Mather that city taxes on the property was in line with that of the county and that no further reduction in the assessment could be made.

Mr. Mather, along with several business associates, visited the building several times during the present week and declared that upon completion of the deal Sanford would become Florida headquarters for the firm.

Mr. Mather assured present tenants of the building that as soon as title to the property had been found satisfactory and it was determined that both city and county taxes had been paid in full, the property would be taken over by his concern.

The Orange County Building and Loan Association recently settled all taxes on the property with both the county and city. The county had charged \$17,298.89 against the property, not including interest and penalties. That was settled upon payment of \$1 and costs, amounting to \$99.91, under the Murphy Act.

CHARLOTTE, N. C. —(AP)— Chairman Glenn Frank announced last night the round-table session of the Republican program committee in August would seek to determine "the proper scope of governmental responsibility for medical care."

**LOCAL WEATHER**  
Partly cloudy tonight and Saturday, scattered showers Saturday.

## Englishman Is Sentenced For Kidnaping Plot

**Thornton Convicted Of Plan To Hold British Auto Magnate For \$500,000**

## Denies Intent To Snatch Viscount

**Scheme Was To Force Nuffield To Sign Letter Of Credit**

BIRMINGHAM, England, July 22.—(AP)—John Bruce Thornton was sentenced to seven years of penal servitude for the fantastic plot to kidnap Viscount Nuffield, Britain's "Henry Ford," and hold him at bay for \$500,000 ransom.

Thornton was convicted on all four counts of an indictment. A jury deliberated two hours. Thornton denied all intention to kidnap the millionaire automobile magnate. His counsel charged the main prosecution witness, Walter Arthur Geoffrey Bamford, with perjury, claiming that he had sworn falsely.

One of the counts accused Thornton of plotting to kidnap Lord Nuffield.

The seven-year sentence was pronounced a charge of possessing an automobile for sale, with the intent to kidnap him.

Thornton was sentenced to two-year imprisonment on each of the three other counts but those terms were to run concurrently with each other.

The scheme of the 37-year-old Thornton, Bamford testified, was to hold Lord Nuffield aboard his yacht, Prosperity, make a display of arms of war and to arrange a ransom of \$500,000 for 100,000 pounds.

ORLANDO, July 22.—Nearly 100 United Bankers of Central Florida representing a score of towns and cities, passed a resolution Wednesday night directing at least 11 towns, RFC chairman and his "boson up" statement of July 15, telling him they had always "made every effort to loan consistent with good business practices" in their respective communities.

The resolution was presented by President Linton E. Allen of the First National Bank of Orlando, following an address in which he said that the Federal government now has 20 direct lending agencies "together with some additional government agencies such as TVA with subsidiary lending functions."

Mr. Allen asked a clear statement of policy on the part of Washington officials. He said that small business men were caught in the conservative-liberal conflict between different branches of the government.

## President Heads For Lone Pacific Islands

ABOARD U. S. S. HOUSTON, ENROUTE TO PANAMA, July 22.—(AP)—President Roosevelt's vacation fishing cruise led him today toward the Galapagos Islands, the locale of one of the strangest mystery death stories ever to come out of the Pacific.

The voyage of 13 hundred miles lay ahead of the Houston when she left Clipperton Island yesterday, her refrigerators overflowing with fish the President and his party caught in a five-hour expedition.

**MEDICAL CARE TALK**  
CHICAGO, —(AP)— Chairman Glenn Frank announced last night the round-table session of the Republican program committee in August would seek to determine "the proper scope of governmental responsibility for medical care."

## Social Calendar

### MONDAY

Truth Seekers Class of the First Methodist Church will hold their regular meeting at the home of Mrs. J. C. Russell, 618 Elm Avenue. Hostesses will be Mrs. C. C. Priest, Mrs. C. L. Goodhue, Mrs. Hilma Lundquist, Mrs. W. L. Clark and Mrs. H. H. Duncan.

Circle Number Three of the First Baptist Church will meet at the church at 3:15 o'clock to go to the county home.

### Mrs. Yelvington Is Honor Guest At Party

Mrs. Melton Yelvington was honor guest at a bridge party Thursday afternoon given by Mrs. C. R. Kirtley at her home on Golden Lake.

Several attractive arrangements of red roses were used to decorate the living room of Mrs. Kirtley's home, and a profusion of mixed garden flowers with gerbera dahlias predominating, were arranged on the sun porch where the guests were entertained.

Following several progressions of bridge, prizes were presented. Miss Lillian Deas, for high score, received a Fostoria cigarette jar. Miss Mary Maxwell, for screen prize, was awarded a pair of hose. Mrs. Yelvington was given a Fostoria ice tub as a memento of the occasion.

Mrs. Hal Wight, Miss Winifred Lovell and Miss Susan Kirtley assisted the hostess in entertaining and serving refreshments of punch, ice cream and cake.

Others invited to be with Mrs. Yelvington were: Mrs. E. J. Nelson, Mrs. Charles McClung, Mrs. Earl King, Mrs. John L. Miller, Mrs. Roberta Smith, Miss Mary Hurt, Miss Mary Jane Preston, Miss Marjann Duncan, and Miss Helen Wilson.

### Miss Minnie Beck Is Bridge Party Hostess

Miss Minnie Beck was hostess at a bridge party given yesterday afternoon at her home on Laurel Avenue in honor of Mrs. Paulk Reeves of West Palm Beach, Mrs. J. M. Moye of Cleveland, Ohio and Mrs. Frank Bradley of Raleigh, N. C.

The rooms where the guests assembled were decorated with many varied arrangements of mixed summer garden flowers.

Mrs. Fred Scott, who held high score, was awarded a novelty perfume set and Mrs. Jack Stemper, for second high score, received several linen hand towels. The hostess also presented each honoree with a box of dusting powder.

Mrs. W. H. Adicks of Orlando and Mrs. Homer Little assisted the hostess in serving a salad and sweet course to the following guests: Mrs. Moye, Mrs. Reeves, Mrs. Bradley, honor guests, Mrs. Allen Blunt, Mrs. Charles Dunn, Mrs. L. F. Garner, Mrs. Joyce Gray, Mrs. A. W. Lee, Mrs. Dwight Freeman, Mrs. Scott, Mrs. W. J. Pell, Mrs. J. N. Stinecipher, Mrs. E. B. Smith, Mrs. Stemper, Mrs. J. Henry English and tea guest, Miss Rebecca Wilson.

### Young People's Group Enjoys Wiener Roast

The Young People's Society of the Full Gospel Tabernacle, Orlando Road, with Mrs. Fred A. Richey as counselor, and Robert Lee as president, enjoyed a wiener roast at the home of Mr. and Mrs. Fay Lee in Enterprise Thursday night.

Games were played and the Tabernacle orchestra entertained with several musical selections. About 50 guests were present at the outing.

### FERN PARK

Mr. and Mrs. Newton Merrill have moved on to Mexico City, and a postcard from them says, "We are just about freezing."

Miss Dorothy Hogge is a patient at the Florida Sanatorium for the second time in many months. However, her father tells us that he thinks she is now on the way to a permanent recovery.

Miss Irvin Langford is occupying the Havre Clemens' house on Concord Road.

Mr. Bernard Zeigler is spending a few weeks at a summer camp near Warren, Pa. While there, he is getting special treatment for his leg which was very badly fractured in an automobile accident many months ago.

The Gordon Barnett's swimming pool is a picture well worth looking in on whether it be during the day or at night when it is most artistically flood-lighted. And the nice part of it is that the owners have invited their neighbors to use the pool whenever they choose. Judging from the looks of things, a good many of us are taking advantage of their very gracious offer. The pool and the lovely garden surrounding it are screened from the highway by huge clumps of bamboo—and there are individual bathhouses with showers. (In case of a stampede, Mr. Barnett, please don't blame me.)

The federal mint was established in 1792.

Brazil ceased to be a member of the League of Nations in 1929.

## Vermont Quarries Charge Georgians Are Underselling

BUFFALO, N. Y., July 22.—(AP)—How Vermont's venerable quarries are being outsoled at their very back doors by bustling young southern rivals was described yesterday at an interstate commerce freight rate hearing.

Two witnesses told about the competition as northern interests began wailing up their arguments against a southern application for lower freight charges on northbound goods.

"Vermont granite is being out-sold in Rhode Island, Massachusetts and Connecticut by Georgia stone," said T. Tracy Lawson, executive manager of the Barre granite association.

W. N. Fay, traffic manager of the Vermont marble company of Proctor, told the commission his firm had been consistently outbid by southern rivals in competition for large contracts in major northern cities.

Their testimony was intended to support the northern contention that existing freight rates have not handicapped southern industry in reaching northern markets.

Southern spokesmen in the hearing have argued that lower rates would benefit both southern producers and northern consumers.

## Social Meet Held By Methodist Group

Randall Priest was host to the young people of the First Methodist Church at a business and social meeting held Thursday evening at the home of his parents, Mr. and Mrs. C. C. Priest.

The short business meeting was presided over by Randall Priest. Later in the evening a social hour and a watermelon cutting was enjoyed by the following: Mr. and Mrs. Arthur Phillips, Miss Claysa Fergusson, Miss Mary Wyatt Ratliff, Miss Ines Williams, Miss Helen Chapman, Miss Elizabeth Whittington, Miss Mabel Chapman, Miss Helen Kane, Miss Selma Williams, Randall Priest, Joe Crenshaw, Randall Seaton, Braxton Huntley, Edward Wilson, James Renaud, Rodrick Adams, Wilbur Duncan, Franklin Branan and Loren Snarr.

The biggest battle in which United States soldiers ever participated was the Meuse-Argonne battle in the World War which lasted 47 days. American soldiers in that fight numbered 1,200,000.

JOAN CRAWFORD and her husband, Francis Tom, have come to a parting of the ways after three years of marriage. They proclaimed they have parted as good friends but Joan says she's going to get a divorce. Here's the latest picture of the movie couple together. It was taken as they witnessed a polo game at Hollywood July 17.

## THE WORM TURNS

DE KALB, Ill. (AP)—For a long time Clarence Bace's sheep-herd dog picked on the pet rabbit. But instead of scampering away the other day the rabbit turned on the dog, leaped upon his back, sunk its teeth into his shoulder and would not let go. Bace had to shoot the rabbit to put it to rest.

**SEA BREEZES IN EVERY ROOM!**

Enjoy Summer Evenings This New, Low Cost Way

No matter how stuffy the evening, Comfort-COOLING brings relief. A new scientific air-circulating system... takes stored heat out top of house; draws cooler air through windows. No complicated machinery. No drafts. Just a gentle air movement in every room. Refreshes like a breeze off the ocean. Yet operation costs only a few cents a day.

**A Few Dollars a Month** installs Comfort-COOLING. The F.H.A. small loan plan may be used. Many Florida families say this simple system gives a coolness almost unbelievable. So get full details before another hot week is gone... ask your dealer or inquire at our office.

**WHAT IT DOES!**

Comfort-COOLING brings restful sleep... Eliminates bother from gnats and mosquitoes... Checks baby's fretting—no heat irritation...

Makes summer entertaining a pleasure... Keeps the home pleasant all day long—as COOL as a breeze in the shade.

**Comfort-COOLING—Just a Few Cents a Day!**

## Dill Approves \$197,310 For WPA Projects

State Administrator Takes First Step Toward Increasing Relief For Needy

## Hike In Local Rolls Expected

WPA Headquarters Announces 441 Are Enrolled In County

JACKSONVILLE, July 23.—(AP)—Administrator Robert J. Dill took first steps today toward increasing Florida's Progress Administration rolls by 11,500 with the authorization of seven projects calling for an expenditure of \$197,310. The projects will employ more than 400 men.

The authorization followed Dill's announcement that the Florida WPA quota had been increased from 38,500 men at work to 50,000, the largest force ever employed by the WPA in this state.

Following the announcement it was learned that no word had been received by the local WPA office regarding the number, who will get work in this county through the federal relief agency.

However definite word as to the number who can be added to the rolls is expected early next week. At present there are 441 on local WPA rolls, 156 women and 286 men.

Describing unemployment in Florida as "the worst in five years," Mr. Dill said he had been assured by relief authorities that the increase does not relieve the situation.

"The WPA now employs 38,500 persons and 20,000 others have been certified by the State Welfare Board as eligible for relief work. An undetermined number of unemployed have applied for WPA jobs, but have not yet been investigated by the Welfare Board.

"I am very happy to get the increase," Mr. Dill said. "We have had complaints from virtually every county, commissioners saying the number employed by the WPA was not sufficient to alleviate suffering."

"Administrative employees will work overtime in an effort to fill the quota by Aug. 1."

"I want to stress the necessity of cities and counties and other eligible sponsors cooperating by providing useful projects to take care of the new load."

"Private business will be helped by the increased payroll, the administrator added. He said it was impossible to determine now whether the new quota will be adequate. It depends upon the course of private business conditions, Mr. Dill explained.

Dill said the Florida WPA had spent \$5,896,876 of its own funds and contributors' money on projects in this state during the three months prior to June 30.

He said the total amount spent in Florida since federal work relief was inaugurated by the WPA in July, 1935, was \$47,825,643. This figure also included both federal funds and contributions by sponsoring agencies.

Dill said \$1,248,478 had been spent on roads, streets and highways. (Continued on Page Three)

## Hears Testimony

This picture portrays the interest with which Mrs. Arthur E. Morgan, wife of the former TVA chairman, heard the testimony of her husband before the congressional committee investigating the authority at Knoxville, Tenn.

## Blow Is Struck Against Bolita By Lakelanders

Mass Meeting Is Held In Move To Rid City Of Gambling Menace

LAKELAND, July 23.—Bolita, Cuba and kindred number racketeers must go, citizens of the town agreed here last night in a mass meeting at the Legion Home, unanimously adopting a resolution calling on enforcement officers of the city and county to rid the city of the racketeers.

The resolution presented by Mr. G. Gendoff, pastor of the First Presbyterian Church, provides that a committee of ten people, seven men and three women be the steering committee already in action, and that this committee instruct both county and city enforcement officers to wipe out the number gambling evil.

The resolution stipulates further that 24 hours is sufficient for officers to get into action, and that if the desired action is not forthcoming within five days then the committee shall meet and make such recommendations as it deems advisable to the Governor of Florida, the city commission and the county commissioners.

This resolution was adopted after excerpts from the secret report compiled by the committee that started the campaign in the Legion Home here Tuesday night had been made public by members of the committee.

This committee reported that the Cuba play alone in Lakeland is \$20,000 every Wednesday and that the play for bolita and Cuba together is approximately \$60,000 weekly. Further that there are 12 throwings each day, 84 each week, and that no throwing has ever been missed. Four places were reported as operating within 300 yards of the Lakeland Ledger office and one against the Cook Furniture Company's building.

## Galento Is Seriously Ill With Pneumonia

ORANGE, N. J., July 23.—(AP)—Tony Galento's condition remained serious today as the pudgy New Jersey heavyweight lay "floored" in a hospital bed with a sudden attack of bronchopneumonia.

Taken ill last night a few hours after his trainer announced he would start "tapering off" for his bout with light heavyweight king John Henry Lewis in Philadelphia on July 28, Galento was taken to the Orange Memorial Hospital with a fever of 104.4 degrees.

He was immediately placed in an oxygen tent. "He's a very sick boy," said his physician.

## HAD FOUR WINGS

SUFFERER, W. N.—(AP)—A duckling with four legs, four wings, two tails and one head was discovered here by Mrs. W. N. S. (Name withheld). The duckling was found in the creek and was being reared in the yard.

## \$445,000 Paid To Farmers At State Market

Michael Says Sales Could Be Doubled If Growers Supply All Truckers Needs

Farmers in this section sold approximately \$445,000 worth of farm products at the State Farmers Wholesale Market this year, according to figures in the annual report of market activities released by Market Manager J. G. Michael. Out of state products sold at the market amounted to approximately \$40,000, the report shows.

Gross returns at the market this year are approximately the same as for last year although the sales volume increased considerably. Mr. Michael reported, and declared that had higher prices prevailed the farmers would have received nearly \$1,000,000 for the volume of produce that was sold.

In his report, Mr. Michael declared that if all trucks that called at the markets for Florida products during the season could have been supplied, the sales at least would have been doubled.

The market manager also declared that farmers are passing up many opportunities of producing commodities which are in demand at the market. He pointed out that new revenues for farmers could be obtained through these cash sales of produce.

Demanding an approximate average of \$1.41 per crate, celery sales led all other commodities in both the number of units sold and the gross returns, the report shows. A total of 50,828 crates of Howard or 10 inch crates were sold from the market platform for total gross returns of \$80,141. Over \$4,000 worth of celery hearts were also sold. Nearly 6,000,000 pounds of cabbage was sold during the season. The average price paid for this product was \$23.24 and the gross returns amounted to \$69,417.88.

A total of 47,124 boxes of oranges were sold at an average price of \$1.36 per crate. The gross returns amounted to \$64,188. Grapefruit sales averaged \$1.22 cents per crate and the 15,422 standard boxes sold brought a total of \$18,737.

Demanding an average price of \$1.10 per crate, snap beans was another of the leading commodities sold at the market. A total of 47,025 hampers were sold and returns amounted to \$51,728. A total of 71,639 pints of strawberries were sold at an average price of over nine cents per pint for total gross returns of \$6,626.21.

Packed 50 crates of tomatoes brought \$7,998 while 21,859 crates of 60 pounds net were sold for an average price of \$2.04 each. Total sales amounted to \$44,701. A total of 16,017 bushels of Red Bliss potatoes were sold for \$16,177.

A total of 12,601 bunches of tomatoes were sold for \$8,892, a total of 18,706 bunches of beets sold for \$8,137, while 9,121 dozen bunches of carrots were sold for \$3,397. A total of 4,878 bushels of yellow squash were sold for \$6,707.

## Mrs. E. A. Moffitt Is Back From Convention

Mrs. E. A. Moffitt and Miss Evelyn Cus have returned from California where Mrs. Moffitt attended the third National Convention of Townsend Clubs as a delegate of the Seminole County Townspeople.

During their stay in the far western state, they visited many friends and relatives, including Mr. and Mrs. J. C. Ashton, formerly of Sanford.

Mrs. Moffitt and W. I. Hughey were representatives of the Sanford Club of the fifth congressional district at the Townsend convention.

## BEADLEY BACK

NEW YORK, July 23.—(AP)—On crutches and with a slipper on one foot, Colonel E. R. Bradley, famed newspaper owner of Lexington, Ky., got back to the race yesterday. He had recovered sufficiently from several shunt blows with a bloodlet on the brain to travel to Saratoga, N. Y.

## GERMAN FLYING BOAT SPANS ATLANTIC

After a non-stop flight of 2,397 miles across the Atlantic from the Azores in 17 hours, 42 minutes (Germany's 19-ton catapult flying boat Nordmeer (North Sea) alighted at Port Washington, N. Y. She averaged 133 miles an hour on the trip. Above is the Nordmeer's crew (left to right): Capt. Joachim H. Blankenburg, pilot; Wilhelm Kueppers, radio operator; Alfred Eger, flight engineer; and Otto Briv, co-pilot. Below, the Nordmeer at Port Washington, with Britain's pick-up plane Mercury at the extreme right.

Joachim H. Blankenburg, pilot; Wilhelm Kueppers, radio operator; Alfred Eger, flight engineer; and Otto Briv, co-pilot. Below, the Nordmeer at Port Washington, with Britain's pick-up plane Mercury at the extreme right.

The semi-monthly meeting of the City Commission will be held in the City Hall Monday night at 7:30 o'clock.

## Dawson Reports Seminole Citrus Growers Large Turnouts In Control Vote

County Agent Asserts Voting Is Greater Than Last Year

Voting by growers on the continuation of the Celery Marketing Agreement is greater this year than when the proposition was first given to the growers for a decision last year, County Agent C. R. Dawson announced.

Until noon, the county agent reported that nearly 150 growers had ballots for or against the agreement. The polls will be closed in all sections tonight at 5:00 o'clock.

The large turnout, Mr. Dawson said, was due largely to the definite views of factions for and against the agreement.

Among those who turned out for the referendum yesterday was Seminole County's oldest farmer, W. H. Lucas of Lake Monte. The 102 year old celery grower declared that he was opposed to controlled celery shipments.

Pointing out that no one can vote after this evening, Mr. Dawson stated that only votes that are being mailed in can be accepted after that time and even then, he said, ballots sent in will have to be mailed before midnight tonight.

## Buffalo Business On Upward Trend Survey Indicates

BUFFALO, N. Y., July 23.—(AP)—A newspaper survey of more than 30 large industries in New York State's "second city" showed a definite upturn in business last night.

The survey was made by the Buffalo Evening News which reported that business and employment have taken a "decided turn for the better."

"Closed plants are reopening. Many factory employes are getting more hours of work a week," the newspaper said.

Production of flour in this milling center was reported as running at the highest, or very near the highest rate in more than a year.

## Japs Retaliate By Taking Possession Of Russian Island

Atlantic Coast Is Harassed With Damaging Rains

Weather Bureau Says Unusual High Pressure Area Is Cause

East coast along the Atlantic seaboard from Maine to Georgia today, disrupting highway travel, causing unestimated damage to crops, isolating whole villages in some sections and bringing discomfort and plagues to thousands of summer vacationists.

It was the seventh consecutive wet day in many sections and prospects for immediate clearing of skies was slight.

The weather bureau said the rain was the result of a high pressure area off the Atlantic coast from Maine to Florida. This area acted as an effective barrier against the natural eastward movement of the low pressure area and caused the precipitation.

The Southwest also suffered. In west Texas two persons were reported drowned, several missing, nearly 500 were driven from their homes and damage was estimated at \$300,000 was caused as the San Saba River, fed by torrential rains, rose above its banks.

New York's great beaches, generally jammed at this season with thousands of persons, were sodden and gloomy today after seven days of cloudy and rainy weather. Steady downpours isolated several villages in the Catskill Mountains.

In varying intensity rain has fallen for four days throughout the Carolinas, Georgia and Alabama were likewise drenched. Columbus, Ga., measured five and one tenth inches in last five days. Alabama's rainy weather was ideal for propagation of boll-weevil, enemy of the cotton crop.

In the far west forest fires ravaged timber lands in Washington, Oregon, California and northern Idaho and Vancouver Island.

## Whole Washes Ashore On Titusville Beach

TITUSVILLE, July 23.—Residents and summer visitors of DeSoto Beach were telling a whole of a fish story yesterday—all about how a 45-foot whale had washed ashore on the beach.

The giant of the deep, supposedly dead for several days, was sighted near shore by T. Lewis, Coast Guard, in mid-afternoon yesterday and as soon as the large mammal was on shore, large crowds gathered to gaze in awe.

The creature had either been slashed fatally by sharks, or else had been harpooned and lanced by whalers, only to break free and swim off to die later of his mortal wounds.

It was the first time a whale had ever been seen on DeSoto Beach, but many who saw the giant remembered that not so long ago a similar denizen of the oceans had washed ashore near New Smyrna.

## Lakefront Warehouse Is Damaged By Fire

A fire of undetermined origin today razed the roof and inside of the Winn and Lovett Grocery Company warehouse which extends over the lakefront on Seminole boulevard.

Firemen were called to the scene of the blaze about 2:45 o'clock.

Firemen got the fire under control in about 30 minutes in spite of dense smoke which filled the inside of the warehouse. Firemen had to use masks to enable them to get inside the burning building.

Little damage was apparently done to anything other than the roof. However, firemen declared the full extent of the damage would not be known until later.

## Tension Between Nations Tightens As Japan Replies To Soviet Rejection

Plan For Czech Peace Is Sought

Assault On Chinese Positions At Klu-kiang Is Started

ZARAGOZA, Spain, July 23.—The insurgent high command reported the advanced right wing of Generalissimo Franco's army descended today from Salda peak and set foot for the first time in Valera's province. The reported point of entry, nearly 40 miles northwest of the provincial capital, the insurgent major objective, was near where Teruel, Gistel and Valencia provinces meet.

The Far Eastern tension was renewed today by a second incident on the border between Soviet Russia and Manchoukuo as powers of western Europe groped for a formula to secure their peace.

Just as tension was subsiding over Japan's charges that Russia had invaded Manchoukuo soil near Chankoung and Moscow's rejection of Japanese protests, reports came of a new clash and the Jap

Dispatches from Khabarovsk, Siberian city near the Manchoukuo border, said that Japanese Manchoukuo motorboats landed a military detachment Thursday on the Russian island of Yankov in the Ussuri River.

Talk of "face-preserving" alignments stirred cautious optimism in western Europe as British, French and German leaders sought a formula for settlement of the autonomy demands of Nazi-supported Sudeten Germans in Czechoslovakia.

In China, Japanese land and naval forces began the long awaited assault on Klu-kiang, 136 miles down the Yangtze from Hankow. A Japanese naval communique announced that landings had been effected from Nanjing at several points along the southern shores of the river.

In Spain, government forces (Continued on Page Three)

## Defendants Given Order To Remain Within Courtroom

LONDON, Ky., July 23.—(AP)—Federal Judge U. Church Ford, hearing the Harlan anti-labor trials, yesterday ordered all defendants to remain in the courtroom while court is in session.

Those who disobeyed, Judge Ford said, would have their bonds forfeited and they would be placed in jail.

The court's order came when three Clay countians were brought before Judge Ford late yesterday after a deputy United States marshal reported they were seen "parading past" the rooming house where the jury is quartered.

They identified themselves as Clarence Chesnut, postmaster at Sexton's Creek; W. M. Roach, Manchester, former warden of the Frankfort state reformatory, and F. E. Sizemore, who served as Clay county clerk eight years until last January.

Judge Ford, after questioning them in the absence of the jury, admonished them to "go home and stay there and tend to your own business."

## LOCAL WEATHER

WEATHER FORECAST: Partly cloudy tonight and Sunday, scattered showers Sunday.

DAYTONA BEACH TIDES  
Low, 9:18 A. M. and 9:56 P. M.  
High, 3:06 A. M. and 3:00 P. M.
