Sundays at Sanford, Florida.

Government Ownership

Those who believe in socialism—that is government
ownership of public utilities, railroads and so forth—
should give particular attention to the grand jury
investigation which is being conducted in Miami where a
city clerk is charged with rather large shenanigans
and claims to have been required by certain higher officials
to advance money to friends during political campaigns.

SANFORD TWENTY YEARS AGO

Mr. M. B. Thacker of Louisville, Kentucky, president of
the Thacker Realty Company, has
served as a member of the grand jury
for the second time. The
grand jury in Sanford is composed
of Florida's most prominent
business men and is one of the
most influential in the state.

Senate Strikes Out
AAA Price Fixing

WASHINGTON, July 13.—
A recalcitrant Senate today
balked on a plan of the AAA
price fixing authority out of the
Farm Adjustment Amendments
and moved north it could go
after the other parts of the
bill.

30-Hour Week Plan
Agitated in House

WASHINGTON, July 13.—
House advocates of the 30-hour
week week pulled forward
right for a concentrated drive
to force action this session of
the 73rdrdy bill reported
committee.

Thursday July 13, 1933

Lightning struck the
Sanford Hotel last night
and caused considerable
damage to the building.

Why is that?

The reason why the
AAA is so unpopular is
because it is a government
agency and is therefore
subject to the same
criticism as any other
government agency.

New Bonus March On
Capitol Fizzles Out

WASHINGTON, July 13.—
A new bonus march on
the U. S. Capitol today
fizzled out after a
week-long demonstration
by unemployed workers.

Dinner must be ready at 6 P. M. But it isn't necessary to stay at home and regulate the oven or watch the pot if you cook electrically. It is really modern magic the way electric ranges start and stop while you are miles away. The timer and heat control do all the watching without a thought or worry from you. And that isn't all electric cookery can do for you. It will save pot scouring because it is sootless and smokeless. It will save vitamins because meats shrink less and fresh vegetables can be cooked with little or no water. It is safe because matches are not needed and baby's mischievous fingers can turn switches to their heart's delight without the loss of anything but heat. It saves time, because preparing the food is the only cooking you use.'
