

Brandt Calls Nanny Fernandez National's Rookie Of The Year

By BILL BRANDT
Bookie of the Year—Nanny Fernandez.
Put a question mark back of that, because it's only May, and he's also June, July and a couple more months before you can place the No. 1 1942 freshman crown on the right brow, but if the National League is going to repeat last year's history with a first-year man as its leading champion, May's nominee is the new third-baseman of the Boston Braves.

The stocky California Castilian, who knocked home 129 runs last year to lead the Pacific Coast League in RBI, was Florida League but a click as soon as the National League season opened. Boston bought him from San Francisco at a hefty price. At training camp the visiting experts proclaimed him a gold bat.

"He can't play third, they said, ignoring the fact that he was carrying a new position in 20 hard seasons. He'd never hit, they said, forgetting that the Braves training trip this year was an experiment in conditioning which sacrificed exhibition games for the sake of the main purpose, getting into the best possible shape for championship play."

The Braves started Spring training at least a week later than the clubs they faced in Florida. Their pitching arms, their batting eyes, their legs and their wind were just that far behind. But at the other end of the program, they stayed in Florida a week later than any-

The idea was to point for the season's opening. The idea's payoff is that the Braves, seventh place last year, have been in the first division the greater part of the 1942 pennant race to date, with Froilan (Nanny) Fernandez May hitting champion of the league as a by-product. The two payoffs are interlocking. Nanny had three hits opening day. His third drove home the winning run. Just that far behind the next day. Only one in the season's third game, then a Boston home opener.

The Braves won all 4 games, starting their season with a winning streak for the first time in years. Last year they lost eight of their first 12. Year before they began with a six-straight losing streak. This is another year.

It's a streak year for the Braves. After their four-straight winning streak, they lost eight in a row, then headed the other way again for five straight wins. They're leading the race for the pennant, club by club, win one and lose one, sometimes in the same afternoon.

During the losing streak Fernandez hit .343, but when the Braves went west, the rookie's batting average fell to .250. Two straight in Chicago he had .300 per day. May 1 found him No. 1 in the league's batting averages. Today he seems as the best bet of which Rookie-of-the-Year Museum.

Boston's new hero never saw the league game until he faced the Cubs in the season opener at Philadelphia last month. He was never out of the Rockies until he took the train to join the Braves at their Sanford, Fla., training base in March.

Both his parents were born in Spain, reaching America in 1911 on a sailing ship in California. Four years later they moved to San Francisco. His father, a star pitcher of Fresno State, encouraged him to play ball, though he had no school days. He was never out of the Rockies until he took the train to join the Braves at their Sanford, Fla., training base in March.

1939. He was hitting .345 for 124 Pippins in June when San Francisco needed a hurrrup order of shortstop. He jumped a plane and climbed 480 his first week with the Seals. That was '40.

Last year he was the Coast League's prize package prospect. His batting averages was four points below the league champ, Johnny Moore, but he led in RBI, total hits and total bases. His 19 homers rated one less than the homer champion, Ted Norbert. He was tie for first in doubles and triples.

How will rate when the 1942 National League season is all added up nobody knows. In May he's king and the shining mark for Stan Musial, Willie Marshall and the whole imposing galaxy of National League freshman phenoms to focus.

He's the one to beat!

Braves Lose Wild Game To Chicago By 9 To 8 Score
BOSTON, May 13—(AP)—The liberality of Boston Braves pitchers, who issued seven bases on balls, and three field errors enabled the Chicago Cubs to win, 9-8, yesterday although the Boston team came within a tally of defeating the game with a five-run eighth inning uprising.

Chicago put across four runs in the second, third and fourth innings, and the Braves speared over three runs in the last of the fourth, the Cubs exploded with another quartet in the fifth. All error, two bases on balls, a double by Clyde McCullough and a two-run single by Kelle Hurler. Ed Henryswal produced the countering runs with one Boston's five-run eighth resulted from as many hits, including a Chet Ross double and a pinch-hit home run with one on base by Pitcher Jim Tobin.

Thompson Holds Dodgers To One Hit As Reds Win
BROOKLYN, May 13—(AP)—Gene (Junior) Thompson held the Brooklyn Dodgers to one hit yesterday as the Cincinnati Reds opened their Eastern swing with an authoritative 5 to 1 triumph that bunched the whole first division of the National League within a span of four games.

The blow that kept Thompson from a no-hitter was a pinch double by Lew Riggs, Thompson's former teammate, and Riggs also kept the 22-year-old righthander from a shut-out.

In the sixth inning Peewee Reese drew one of the two passes received by the Dodgers during the afternoon and Riggs batted for relief pitcher Hugh Casey. He ripped a sharp double along the rightfield foul line, sending Reese to third, and a moment later Reese romped home on a fly by Billy Herman.

It was Thompson's second victory without a defeat and the second one-hit game in the major leagues. The other was hurled by Buck Newsome of Washington against the Detroit Tigers.

Defense Shop News ALEX R. JOHNSON

The Airplane Changes had been operating under some difficulties in not having equipment and live engines for the trainees to work with. Through influence and personal contact, Mr. Dudley McCown, one of the instructors was able to secure a live engine, from the owner, of an airplane. This engine is now in the shop and the trainees are getting the much needed practice of serving and repairing an engine that will be put into the air after the work is completed. The owner has agreed to leave the engine at the shop until such a time as the trainees are deemed up to the minute on this type of work. Those interested in this type of training and would like to enroll are asked to contact the office as soon as possible. There are three classes running at the present time, one for mechanics only, one for mechanics and two supplementary classes which are open to mechanics only. A new class, pre-employment will start this month and it is necessary to fill out proper papers at the office in order to enter. This class is open to those senior boys who will graduate in June and are 18 years of age.

MINE SIGHTED FORT LAUDERDALE, May 13, (AP)—A large object that police said was a mine floated into the surf yesterday, and residents were evacuated from a five block sector of Fort Lauderdale Beach's most populous area.

MANUFACTURER DIES
DAYTONA BEACH, May 13, (AP)—Archibald H. Bechtel, 68, former president of Chicago, manufacturer of vending machines, died here yesterday after a paralytic stroke.

Celery Label Makes Roundtrip To Iceland

Showing the wide distribution of some celery that is shipped out of Sanford, The W. T. Whitehead, Inc., celery company has just received a Roseland Brand Label that was removed from a crate of Florida celery in Reykjavik, Iceland. B. H. Guthrie of Whitehead, Inc., revealed yesterday.

The label was taken from the crate in Iceland by Allyn Colburn, a friend of Mr. Whitehead. Mr. Colburn, who is a member of the United States armed forces stationed in Iceland, sent the label to his uncle in western New York, and in turn, the label was sent back to Sanford after its somewhat lengthy journey.

"This is one the Herr Admiral Hilder didn't get!" it was stated.

Benjamin Franklin was 77 years old when he negotiated the peace with Great Britain.

Grand Scale Japanese Attack On Approaches To Australia Is Seen

Military Experts Are Intrigued By Tokyo Claim Of Resounding Sea Triumph

(By Associated Press) Military experts, intrigued by Tokyo's solemn but hollow claims of a resounding Coral Sea victory, concluded such a bombast could only drive the Japanese admirals to a grand scale assault on the approaches to Australia in an effort to save face. The claims have been so extravagant in the last few days, they said, that the Japanese may be compelled to try to make good soon by a new foray in tremendous force.

Activities of Japanese ships and war planes at Rabaul, on New Britain Island, and at Lae, on the North New Guinea coast, as reported by American and Australian reconnaissance fliers, indicated that enemy reinforcements were arriving in the area steadily, according to war dispatches.

The belief was that the Japanese could not long stand the heavy blows of the Allied air force and must strike soon or get out of the northeastern invasion area.

Dispatches from advanced Allied bases indicated that last week's Coral Sea battle, in which enemy ships were sunk or damaged, might only have disrupted temporarily the Japanese drive, believed aimed either at Australia itself or the French island of New Caledonia, garrisoned by American troops and protector of the supply line to the east coast.

The Japanese striking force was scattered by the Allied naval victory but its key units were believed virtually intact. It was believed that the Japanese were waiting the ships to replace those lost last week.

Services Held At Funeral Home For Former Resident

Funeral services for Thomas F. Thornley, 67, former resident of Sanford who died at an Orlando hospital yesterday, were held at the Erickson Funeral Home this afternoon at 4 o'clock. Elder H. R. Premier of Orlando officiated and burial followed at Evergreen Cemetery.

Officers Will Be Selected For Bureau

Leo Bremer, temporary chairman, and other members of the board of directors of the County Board of Health will meet today at 10:30 a. m. at the County Board of Health to select officers for the coming year and also to plan a program for the bureau. Alan Johnson will preside. The board will meet again at 8 p. m. today.

Leads Force

According to Demel, official Jap agent, Maj. Gen. William F. Sharp, leader of the American-Filipino forces in the Mindanao region, has surrendered unconditionally. The War Department did not confirm the report. In the past, such reports have often been found to have been issued for propaganda purposes.

Calm Spirit Of 'Men Of Bataan' Shown In Letter

Lieutenant's Wife's Outcome Of War Is Fore-Ordained

Reflecting the calm spirit of the "Men of Bataan" in a letter written by Lieut. Henry G. Lee, who fought with Lieut. Gen. Wainwright's Army, which was recently received by his parents in California.

The letter, a copy of which was brought to The Herald by the Rev. Frank Pulley of the Holy Cross Episcopal Church, follows: "This letter may never be delivered. It will go to Corregidor and there wait for transportation. Perhaps I'll be able to cable you before it arrives. 'Quien Sale'! About the War I can say nothing. You back home know more about it than we do. All we see is our own little theater of operations. All I can say is that we are getting enough to eat and that I am at present reasonably comfortable, moderately happy and disgustingly healthy.

"Also, I am proud to be a part of the fight that is being made here and would not, even if it were possible, leave here until it is over and we have won, as we inevitably will. By 'we' I mean my country in general. Bataan may fall, but the eventual outcome of the war is fore-ordained.

"I have seen some horrid things happen and have had my share of narrow escapes, but I have also seen some very wonderful acts of courage, self-sacrifice and heroism.

City News Briefs

Members of the Sanford Outdoor Club will meet at 8:30 p. m. in the Chamber of Commerce room in the City Hall.

Government Egg Buying Market To Start Friday

Complete Plans Are Revealed, Woolley Is Named Manager

Definite arrangements have been made by the Semipalm Poultry Producers Association for the starting of a Federal Egg Purchasing Program at the Sanford State Market Friday. Alex Johnson, agricultural expert, announced yesterday.

The actual sale day will start Friday, and will continue twice a week on every Tuesday and Friday. It is expected that between 200 and 500 cases of eggs will be sold on each sale day.

Mr. Johnson stated that W. J. Woolley has been appointed by the association to act as egg marketing manager, and he will have full charge of the unit at the market. Plans have been made to set up complete equipment for grading and handling, and Mr. Woolley will also have charge of this work.

Under the plans for the sale of eggs, Mr. Johnson explained, the government is to pay a price of 31c per dozen in 10 case lots. The association is making arrangements whereby it can accept one case lots of eggs in quantity from poultrymen. On eggs in full case lots of larger, a charge of one cent per dozen or 30c per case will be made for handling at the market. Dealers also will pay 10c per case inspection fee, making the net return to growers slightly under 30c per dozen in case lots. The producer will furnish the cases.

In less than case lots, the charge will be 5c per dozen, Mr. Johnson added. This will cover the expense of the case, the grading, the inspection fee and the handling. It was revealed that Deland poultrymen also are participating in this set-up and also dealers in other surrounding communities. No eggs will be accepted that weigh less than 41 pounds net per case, and all will be graded by United States Department of Agriculture representatives.

Mr. Johnson added that the establishment of the market was accomplished with the aid of H. J. Lehman, State market manager, and the State Market Bureau at Jacksonville. Robert Rhodes is the temporary chairman.

Canal-Pipeline Bill Will Come Up Monday

WASHINGTON, May 14 (AP)—Chairman Mansfield said yesterday the House Rivers and Harbors Committee would begin public hearings next Monday on legislation to authorize construction of a large canal and petroleum pipeline across Florida.

Japs Still Gain Along Burma Road

Ancient City On Old Caravan Route Is Menaced By Column Of Invaders

(By Associated Press) A Japanese column heading northward from the Burma road threatened the ancient city of Tengyueh on the old caravan route between China and Burma today. Other Japanese forces reported stalled at a stubborn Chinese defense force in the Lungsin area.

Ground fighting in Northeastern Burma, which was chaotic, Chungking reported that Chinese troops have cut Japanese communications in two places, between Lashio and Mandalay, and between Bhamo and Myitkya. A Chinese communique also reported that two additional columns of Japanese have crossed into Burma and Thailand.

In the northwest, British troops still retreated up the Chinwin River toward India. At last reports were less than 50 miles from the border.

The Berlin radio reported that Japanese planes had heavily raided Imphal (Manipur), 50 miles inside India on the line of their ground forces' advance up the Chinwin.

A communique from Maj. Gen. Lewis H. Brereton's headquarters said that the American bombers, in their fourth attack on invaders' bases in Burma in 10 days, set fire to parked aircraft and tore out huge craters on the runways at the Myitkya airport. Myitkya is the railroad 230 miles north of Mandalay which the Japanese took during the week-end.

The RAF bombed the Ayeyar airport from high level, said a British communique, and several bombs with heavy explosives were observed among parked planes. Despite the fact the Japanese had dispersed them over the field instead of lining them up row on row, all have been destroyed in the Burma campaign.

Registrants In 3rd Group Asked To Return Forms

All questionnaires have been mailed to registrants in the third registration, men between 36 and 45, and many answers have not yet been received. E. B. Carter, chief of the Semipalm County Board, announced this morning.

Father Of Local Man Claimed By Death

World has been received of the death of Frank O. Urie, father of Addison Urie of West Sixteenth Street of this city. The 60-year-old man died at his home in Drexel Hill, Pa., last night, with his Sanford son at his bedside.

Transfusion Girl

Hollywell's nymph will make the known as the transfusion girl. Most of the men and officers at Camp Borden, Ont. chose Mrs. Sheridan as the girl they would prefer to anyone else as the transfusion girl. Olivia de Havilland, Paulette Goddard and Betty Davis were next in line as prospective donors.

Meisch Funeral Services Will Be Held Friday

Well Known Grower Had Lived In Sanford For 31 Years

Funeral services for John Meisch, 70, who died yesterday, will be held at 10 o'clock tomorrow morning at the Congregational Church with the Rev. E. B. East and Rev. Frank Meisch officiating. Burial will follow at the cemetery.

Nationwide Rationing Of Gas Is Forecast

WASHINGTON, May 14 (AP)—A nationwide rationing of gasoline was forecast in Congressional circles today, and some informed legislators said there are strong indications that gas rationing will be extended throughout the whole country after July 1.

Father Of Local Man Claimed By Death

World has been received of the death of Frank O. Urie, father of Addison Urie of West Sixteenth Street of this city. The 60-year-old man died at his home in Drexel Hill, Pa., last night, with his Sanford son at his bedside.

War Contracts In East Show Increase

NEW YORK, May 14 (AP)—War construction contracts awarded last month in the 37 Eastern States aggregated \$408,742,000, a 22 percent increase over April, but 19 percent under the March total, the F. W. Dodge Corporation announced yesterday.

GET DIVINE LIFE IN YOU AS THE BRANCHES OF THE VINE

FOR HER COMING (From Spirit)

Now do I conjure thee, sweet Spring, Out through bough and up Down from the trees of every winged thing

MARIANNE LACROIX MOORE

When freedom of the press is suppressed in a country, it is the duty of the citizen to speak out

These were more cars on the highway this week than ever

Most citizens would willingly surrender their cars to the government if they are needed in the emergency

Dear Editor: Permit me to express through your columns my sincere appreciation to the voters for their support and expression of confidence in the primary election last week

H. Stewart Joins Staff At Gatcher's

Its peak a few days ago and subsiding slowly, according to County Agent Louis Smith

THIRTY MAY BEAR LOOK

John Meisch

The sudden death of John Meisch came as a distinct shock to Seminole County citizens who had grown to look upon him as an enduring rock of stability and conservatism

An chairman of the Board of County Commissioners for many years, embracing that difficult period of the boom and the readjustments which followed, it was his province to sit on the lid at a time when an incautious and less stolid citizen might have been tempted to bankrupt the County

Mr. Meisch was one of the most capable farmers in this vicinity and combined with his agricultural knowledge a knack for business which brought him in his time considerable prosperity and made him one of the leaders in the commercial life of the community

He was as interested in Sanford's growth and prosperity as any man in it and throughout his long residence here he was an active member of the Chamber of Commerce

A man of few words, never given to vain boasting or idle chatter, he could always be depended upon for the right word at the right time

Preserving Little Business

We are glad to see that one whose voice is heard as far and wide as Walter Lippmann's agrees with us that something has got to be done to preserve civilian industry and especially little business now being crushed to death by price ceilings, priorities and other restrictive legislation

Mr. Lippmann is one of the foremost commentators in the country today and his daily column appears in hundreds of leading newspapers throughout the country

"It is plain, I think, that as Mr. Nelson proceeds with the conversion of industry and as Gov. McNutt and Gen. Hershey proceed with the mobilization of manpower," Mr. Lippmann writes, "more attention must be paid than any one in authority is now paying to the problems of producers who, though outside the war effort itself, are nevertheless very necessary to the country"

"Because they do not have war contracts and government subsidies, they need separate and different treatment in regard to prices, wage policy and taxes. What is a good and workable policy for the war industries is almost certainly not going to be a good and workable policy for the other industries"

Pessimist

Brigadier General: "Now, Captain, suppose you found your infantry company cut off from the rest of the battalion, hopelessly outnumbered, and surrounded on all sides by armored forces, what would you do?"

Pathfinder: "By George, sir, you are a pessimist!"

Full Equipment

Mistress—"Did Rastus give your friend Eliza an engagement ring to seal their betrothal?"

Mandy—"He done better'n dat, ma'am. He done give her a 'gement wringer to go with her washin' machine."

The Sanford Forum

Washington, D. C. sentiment, however, toward any one who voted or worked against me, because this was their right and privilege in this great American democracy

Calm Spirit Of 'Men of Bataan' Shown In Letter

(Continued from Page One) fice and loyalty. At last I have found what I have searched for all of my life—a cause and a job in which I can lose myself completely and to which I can give every ounce of my strength and my talent

"And I have mentally and spiritually conquered my fear of death. Pure animal terror—(A protective emotion cannot be entirely subdued by the mentality but it can, and has been, controlled)

"My prayer each night is that God will send you, who are suffering so much more than I am. His strength and peace. During the first few days of war I also prayed for personal protection from physical harm but now that I may be given strength to bear whatever I must do and do whatever I must do so that those men under me will have every reasonable chance

"Life and my family have been very good to me—and have given me everything I have ever really wanted and, should anything happen to me here, it will not be like closing a book in the middle as it would have been had I been killed in the first few days of the war. For in the last two months I have done a lifetime of living and have been a part of one of the most unselfish, cooperative efforts that has ever been made by any group of individuals

"Mistakes may have been made—but that has nothing to do with the manner in which my comrades on 'Bataan'—both Filipino and American—have reacted to their trial by fire. If the same selfless spirit were devoted to a world betterment in time of peace that a good world we would have (and 'how dull' I can hear the younger generation muttering)

"The purpose of this letter is to send you my love and my thanks for just being my family. It is written with no so-called premonitions. Really, all in all my chances are pretty good. Much better than most of the line of officers of my grade and age. For, as I told you many times in my letters before the war, my particular job—and it hasn't been changed—is about as safe as one as any soldier could have in wartime

"So with all my love to all three of you, I'll start this letter on its way. 'Keep 'em flying—West' and as the government has announced, 'No news is good news'

"Your loving son and brother, 'Henry' 'P. S. Dad was right. He always said that actually being in a war is not as bad as reading or hearing about one. 'A man can die what he want do' is another apt phrase of his which I've never forgotten"

Larry French Comes Up With New Knuckle Ball

By DILLON GRAHAM
Wide World Sports Editor
NEW YORK, May 14.—(AP)—
Tossing the bases:
A pair of veteran National League pitchers, Cliff Melton and Larry French, have come up with a new ploy for this season to add to their effectiveness.
Melton, currently the Giants'

top twirler, substitutes his unexpected success to the addition of a screwball to his repertoire. A knuckle ball turned the trick for French of Brooklyn.
Cliff, the league's tallest thrower at 6 foot 6, was something of a bust last season. He'd go along fine for half a game and then he'd get belted all over the orchard. Figuring that he was as fast as ever, Melton decided the trouble lay in his lack of deception. He needed a delivery to mix in with his fast tosses. And he began practicing the screwball. Carl Hubbell's favorite pitch.

In the Spring exhibition games he was solidly whacked almost every time out but, as he explains, he was experimenting with his new pitch. Now he has it under control and it is paying dividends.
French also had a good example to copy, for Freddie Fitzsimmons of the Dodgers boasts a sharply breaking knuckleball. Larry's best performance so far, using his knuckler, was his brilliant 11-inning triumph over the Cardinals the other day. He gave the Cards only four hits, all singles.

The golf ball shortage probably will add to the popularity of two ball foursome matches. In these matches one player drives off and his partner hits the next shot. Play continues throughout with alternate shots. Only one ball is used by a team.
That sometimes makes it embarrassing on the worst of days when he hooks one into the rough, or next to a tree, and leaves his partner an almost impossible shot.

The injury jinx has already begun to play its annual part in the major league pennant races. The Yankees are still without their veteran third sacker, Red Rolfe, who has been out all sea-

son with colitis and may quit the game. Hard-hitting Joe Gordon was out for a while with a bad back and a charley horse benched Phil (Eccentric) Blazuta.
Bobby Doer, Red Sox Second basemen, was out for many games with a back ailment. The Senators got a tough break at the outset when their ace twirler, Dutch Leonard, sustained a fractured leg. And more recently Bobby Estaballa, third basemen, was benched.
Dolph Camilli, the Dodgers' league home run king, was out of the lineup several days. Dixie Walker was on the sidelines with a spiked heel and the flu sent Augie Galan to the hospital.
Bill Croy of the Red Sox had an injured finger. Joe Kappel of the White Sox spiked leg. Ned Patrick of the Tigers a fractured kneecap. Johnny Hopp of the Cards a broken finger. Bill Baker of the Pirates an injured

finger. Hank Lister of the Giants a leg injury. Doc Miles of the A's a bad shoulder. Billy Jurges of the Giants a knee ailment. Illinois hospitalized Taft Wright of the White Sox.
Many a pennant race has been decided by unpredictable injuries and illnesses and this one may be no exception.

Invert Sugar Syrup Is Good For Canning

GAINESVILLE, May 14. (Special)—Home-makers can make

their sugar recipes go further by making and using invert sugar syrup, the Florida Agricultural Experiment Station pointed out today.
Invert sugar syrup, which is 30 percent sweeter than sugar, is very good for sweetening fruits and vegetables, in baking, and in making ice cream, according to workers.

Experiment Station dairy research The syrup is easily made by mixing one pound of sugar and seven ounces of water, then adding 1-4 teaspoon of tartaric acid, covering and gently boiling the mixture for 30 minutes. Each cupful of the resulting syrup is equal in sweetness to one cupful of sugar. When it is used in baking and in ice cream, allowance must be made for the fact that the syrup is about one-third water in adding other liquid ingredients.

Invert sugar syrup is not a new discovery, for it has been known for years by chemists and food scientists, but no proved directions for its use had been made available to manufacturers of ice cream when the Experiment Station dairy technology staff began working with it several months ago. After many tests and other research work, the scientists found it practical and satisfactory to replace 50 percent of the sugar necessary with the invert sugar syrup if they added one pound of milk solids for each pound of sugar eliminated from the ice cream mix.

Early experiments in direct-bombing were conducted by U. S. Marines at Haiti in 1920.

What about A & P LOW PRICES

now that everybody is talking about CEILING PRICES?

- Now, and after May 18th (when ceiling prices become effective, all A&P Super Markets and A&P Food Stores will continue to give you real low prices on fine foods every day, just as they have been doing.
- The new "ceiling price" regulation will not alter in any way A&P's low price policy. This means that every day at A&P you will continue to get the best foods the markets afford at our lowest possible prices.
- And here is another important fact to remember. FOOD PRICES WILL NOT BE IDENTICAL IN ALL FOOD STORES on and after May 18th. Prices will continue to differ in food stores on the same articles—just as they have heretofore.

OUR CUSTOMERS SAVE MONEY

A&P, during the last eight years, has made big reductions in its operating costs. These savings have been passed along to our customers, so that today they have 9c more of every food dollar to spend than they did in 1933.

It is A&P's policy to continue to conduct its business as economically as possible, thus to give you the utmost for every food dollar you spend at A&P Stores.

2 Warships Of U. S. Reported Sunk In Arctic

Destroyer, Cruiser, Escorting Convoy, Are Reported Destroyed By Germans

(By Associated Press)
A German communique claimed today Nazi warplanes blasted a United States cruiser and a destroyer to the bottom of the Arctic off the northern Norway coast yesterday in an attack on an American squadron escorting a convoy.

The Nazi high command also announced the destruction of a 3,000-ton icebreaker and a 2,000-ton merchant vessel. It said the cruiser was of the 9,100-ton Pensacola class (which normally carries 603 men) and identified the Naval formation as an American squadron operating between north cape of Norway and the Arctic island of Spitzbergen. The locals action—apart from German claims which might have been drawn to gain information on the fleet movements—is the first indication of United States Naval power operating so far from the supply route to Alaska.

German assaults in Crimea are beginning of a general offensive and the Russians, fortified by a vast and still increasing force of Allied war materials, are firmly confident of withstanding the blow. Diplomatic quarters reported today.

Information in Turkish quarters was that 1,500,000 tons of Allied war materials reached Russia over the Arctic route during the winter, while an average of 50,000 tons a day, plus rail materials, were being shipped from Iran. The volume over both routes is said to be swelling.

Women Are Urged To Invest In War Savings Program

The women of America will contribute 850 million dollars of the billion dollar a month quota set for war bonds, since they either directly or indirectly control 80 percent of the nation's pocketbook, V. A. Spoor, chairman of the National War Savings Council, said today.

Spoor urged women to invest in war bonds but many still live, think and spend in a pre-war manner, he said. "Not only do they buy less than they should, but they buy it in a pre-war manner," he said. "Not only do they buy less than they should, but they buy it in a pre-war manner."

Women everywhere are realizing that their future security depends on the success of the war savings campaign, it was stated.

The government does not ask contributions to be given in the form of money, but in the form of war bonds and stamps.

Local Carpenters Get Union Charter

About 50 local carpenters met with Edward Adams, union representative, and secured their charter in Sanford by a local carpenter's union, Secretary W. H. Adams, said today.

Power Is Sent To Georgia Army Camp

A. K. Powers of the United States Army has been transferred from Camp Wheeler to Camp Brantley, Georgia, it was reported today.

Maturity Dates On Loans To Be Extended

The Senate Appropriations Committee today approved a bill by its 60-40 vote to extend the maturity dates on government bonds and loans.

Trip Will Be Made Concerning Pipeline

Charles H. Johnson, secretary of the Florida Pipeline Commission, will make a trip to the Gulf Coast to inspect the proposed pipeline.

Old Dobbin Helps Stamp Drive

The war effort brought old Dobbin into his own once again and Nick are no exceptions. They are doing more than their share toward victory since their names were changed to Stamp and Nick and they became an integral part of the first mobile stamp-selling unit. Mr. Douglas Gibbons, chairman of the War Savings Staff booth committee, is shown between the two horses.

Mr. Average Motorist Must Have Ration Card To Get Gas

Operators Are Selling Gas By "Unit System"

It takes more than money from Mr. Average Motorist to obtain gasoline here today as the government's gas rationing program went into effect.

It is estimated that about 3,500 signed up in Seminole County during the three-day registration period ending yesterday for obtaining of gasoline rationing cards, which contain units that must be presented when buying gasoline. Each unit will allow the purchase of three gallons of the restricted fuel, and the various A and B type cards have a number of units ranging from 7 to 19, according to the needs of the motorist.

Meanwhile, there has been considerable discussion here as to whether the rationing cards should be issued to individuals. Some operators have received cards that allow them more fuel than they need or are eligible for, while others, who have a right to B cards, have virtually asked for the A card to co-operate with the government.

War Restrictions Face Truck Owners

MIAMI, May 15.—(AP)—An Axis submarine stalled the fully lighted Mexican oil tanker Fortero de Liano for an hour off the Miami coast and claimed that nation's first ship victim of this war by ramming a torpedo directly into the large Mexican star painted on her side.

Nettles Transferred To Fort Benning, Ga.

CAMP CROFT, S. C., May 15.—(Special)—Private Charles W. Nettles, son of Mrs. Mollie Nettles, 8 P. D. 2, Sanford, has been transferred from Camp Croft, one of the Army's four infantry regiments training 60,000 men, following completion of his thirteen weeks training here.

Woman's Auxiliary Director Is Named

WASHINGTON, May 15.—(AP)—Secretary of War Stimson today announced the appointment of Mrs. William F. Brady, Houston, Tex., as director of the Women's Auxiliary Corps, to be created by legislation approved today by Congress.

Florida Weather

Soviets Are 20 Miles From Heart Of Industrial Center; Retreat In Crimea

(By Associated Press)
Russians, led by American-made tanks, smashed ahead seven miles beyond the Donets River today in the Soviet's big push against Kharkov, the "Titchburg" of the Ukraine. Moscow said Russian forces now are only 20 miles from the heart of the big industrial center after smashing a thrust for German tanks in two days. The Germans retreated some 35 miles from their positions to stem the Russian advance.

U. S. Martinique Negotiations Are Making Progress

Immobilization Of French Warships At Island Starts

WASHINGTON, May 15.—(AP)—Negotiations for a comprehensive solution of the problem of French warships in the Panama Canal defense area are making progress, it was reported today.

Fight In Burma Centers North Of Mandalay

(By Associated Press)
The Chinese claimed last night to have cut the invaders' line of communications at several points and the New Delhi radio broadcast that the fighting now centered 300 miles north of Mandalay in the area of Burma.

Losers Shirt-Tails To Help In Winning War

WASHINGTON, May 15.—(AP)—You won't have to give the government the shirt off your back to help win the war at least not yet, but you're going to lose some of your shirt tails.

Senators Refuse To Waive Gas Privileges

WASHINGTON, May 15.—(AP)—Without any debate, the Senate today rejected by a 66 to 2 vote a proposal to let members on record as pledging themselves to waive special privileges in obtaining rationed gasoline.

Two Local Women Get Certificates

TALLAHASSEE, May 15.—(Special)—State Superintendent Colin English announced today that Mrs. Carolyn Lockette Carter of Orlando and Mrs. Mae Daily Fort of Sanford had received a Florida teaching certificate based on four years of college training.

Youthful Russians Will Sign For Army

MOSCOW, May 15.—(AP)—The Red Army today ordered 18-year-old youths to register May 17 for a regular period of military service. This annual registration is preparatory to the subsequent call to colors. Besides the regular class of 1942, members of the classes of 1943 and 1944 and 18-year-olds who have previously registered were ordered to do so.

NOTICE
Sanford Outboard Motor Association members and their wives will meet on all day picnic Sunday at Byrd's Camp on the Wekiva River. Roy Tillis announced today.
