Liberty Loan Short

Washington, June 11.—The liberty loan today entered its last lap in the race to reach \$2,000,000,000 mark by Friday when the subscription period ends.

Small subscribers by the thousands or even millions must come in this week to make the loan a success.

Two days ago \$700,000,000 remained to be raised and the amount probably is not much less today.

The New York Federal reserve district has approached nearest in total subscriptions, its minimum allotment, and the San Francisco district is farthest from the mark.

Presbyterian Sunday School

The Presbyterian Sunday school is providing a special program each Sabbath and last Sunday was Song Day. There were several very interesting numbers, among them being a solo sung in Dutch by one of the scholars of the school who was born in Amsterdam, Holland.

The school voted "God will take care of you" as the most popular song, though "More like the Master" was only two or three votes behind.

PRESIDENT EXPRESSES HIS VIEWS

IN NOTE TO RUSSIAN GOVERNMENT ON GERMAN AUTOCRACY

Washington, June 11.—A league of free nations to enforce peace must rise out of the ashes of the world war.

What America is fighting for and will demand are these: First, no transfer of territory except to give inhabitants better rule and larger liberty; second, no indemnities except to right wrong; no people to be forced under a sovereignty distasteful to them.

The Board of Trade has evidence of a tourist season this year that will more than double the past year's and from among those many will mark Sanford and Seminole county their future homes.

With a promised speech in the house of Congressman Sears and with assurances from Senators Trammell and Fletcher, especially emphatic and with the verbal and written testimony filed before the Interstate Commerce Commission May 28th and 29th we have every assurance that the Florida vegetable and citrus crop will not be affected by the proposed increase in freight rates.

If the commercial progressiveness of Sanford equaled 50 per cent of that progressiveness now being shown by Sanford churches our population would double in five years and our income treble itself.

PRESBYTERIAN CHURCH OPENED TO THE PUBLIC APPROPRIATE EXERCISE

BEAUTIFUL NEW BUILDING IS PRIDE OF THE CITY

Another epoch in the spiritual and civic life of Sanford was marked last Sunday in the city when the beautiful new Presbyterian church was opened to the public with appropriate exercises.

The new auditorium was filled by the members of the church and visitors and the special music and the addresses made by C. R. Walker representing the churches, D. C. Marlowe the Board of Trade and H. C. DuBose the deacons, all assisted the pastor in making this a memorable event in church circles.

This week will be Jubilee Week in the new church and Dr. Vonable of Jacksonville will hold services every night beginning at 7:30 in the church and will also hold twenty minute services for the men every morning at 11 o'clock in the store room recently occupied by the Sanford Shoe & Clothing Co., on First street and the opening of the new church and the revival services will be the means of bringing many people into this church and all other churches in Sanford.

The following program was carried out at the opening of the church on Sunday morning: Organ Prelude, Cavatina by Joachim Raff—Dr. McCaslin.

Silent Prayer by whole congregation. Doxology. Invocation. Hymn No. 541, "The Church's One Foundation."

Exhortations by Board of Trade by Sec'y, D. C. Marlowe. Other Churches of City by C. R. Walker.

Board of Deacons by H. C. DuBose. Selection by Choir, "Lead Us O Father."

Announcements. Scripture. "Consolation," from Songs Without Words by Mendelssohn—Dr. McCaslin.

Sermon by the Pastor. Hymn No. 606, "I Love Thy Kingdom, Lord."

Benediction. Postlude, "Unfinished Symphony" by Schubert—Dr. McCaslin.

Kidnapped Child Killed. Springfield, Mo., June 11.—Conditions in this city were practically normal today after 36 hours of intense excitement due to the finding Saturday of the body of 14-month-old Lloyd Keet, who was kidnaped ten days ago, and the announced intention of the populace to take the lives of six prisoners, one woman, held in connection with various alleged abduction plots unearthed here.

The prisoners, not connected officially by the authorities with the kidnaping and death of the Keet child, son of J. H. Keet, banker, that had so aroused the populace, today were thought to be safe in the jails of other counties, four—Mr. and Mrs. Taylor Adams, Maxie Adams and Sam McGinnis—at Stockton, and the whereabouts of the remaining two—Claude Piersol and Cletuc Adams—unknown.

Nene Humansville, Sheriff Webb and his party trying to spirit the prisoners to safety, were overtaken Sunday morning by a few men from Springfield, who had traveled in motor cars, and Piersol and Cletuc Adams, were subjected to a grilling that is said to have left them with their lives only as a result of the iron nerve of Piersol.

Petitions are now being circulated and will soon be presented to the county commissioners of Volusia county asking that an election be called for the purpose of permitting the people to vote on the question of whether or not the county seat shall be removed from DeLand to Daytona. DeLand will fight the movement.

The man that cries "hard times" simply because the summer business is not up to the winter standard has lots of interest in the community's welfare—we don't think.

The Eureka Paving Company was let the contract recently for the paving of forty seven miles of asphalt roads near Winter Haven. Fifteen miles are to be 15 feet wide and thirty-two miles 9 feet wide. These roads are commonly known as the "lateral roads," and connect the roads now being built.

Those civil engineers who have gone to France can be depended upon to remain civil as long as the kaiser lets them alone—then look out.

The Star Spangled Banner floats more proudly over every home that buys a United States Liberty Bond.

America is free. Her people are free. You are free to buy or not to buy United States Liberty Bonds. But you aren't free to wear a United States Liberty Bond button unless you own at least one United States Liberty Bond.

Bankers and Brokers Show Fine Patriotism

When your banker or your broker encourages you to buy United States Liberty Bonds, don't make the mistake of thinking that he has any selfish motives. The fact is that he does not make any commission whatever by selling these war bonds. On the contrary, all the work that a banker or a broker undertakes in connection with United States Liberty Bonds is at his own expense.

Seldom has any class of business men shown finer patriotism than that exhibited in recent weeks by the bankers and brokers. The federal government is under great obligations to them for the high spirit of public duty they have shown, for the enthusiasm they have manifested in familiarizing the public with United States Liberty Bonds and in encouraging people to buy.

If you have not yet ordered your United States Liberty Bonds, see your banker or your broker today. And remember that in handling your order he is working unselfishly for American honor and for the permanence of liberty on earth.

Is Your Boy In the War?

Perhaps your boy, your brother, your sweetheart, some one you hold dear to your heart, will be called into the war zone to risk his life for freedom, for liberty, for America. War is no picnic, no holiday romp; it is a terribly serious business. Victories are almost never won by unfed, naked, disheartened troops. Is it your wish that our boys shall have the food, the clothing, the arms, the ammunition, the

safeguards to reduce their danger to the minimum, to strengthen their spirits, to encourage them to victory? Then remember that you can help. To maintain and safeguard your boy at the front takes money. Our government needs that money now. To raise it quickly, to make victory sure, to shorten the war, to save your boy and your neighbor's boy, the government asks you to buy one or more Liberty bonds. These bonds can be bought for \$50, \$100, \$500, \$1,000. They pay interest, they are free from taxes, and you will get back the entire principal. Don't just sit around and wish for victory, peace and the safe return of the one you love. Buy as many Liberty bonds as you can and help to make your wishes come true.

For every \$100 a German earns, an American earns \$250. Put some of that \$250 in Kaiser-stopping United States Liberty bonds.

Embattled American Farmer of Year 1917

Times change. In the Revolutionary war it was the "embattled farmers" who fired the shot heard round the world.

Today the American farmer is again doing something that will be heard round the world, but in a different way.

The world is waiting on the American farmer for its food. Its hope is in him. It wishes him good weather and abundant crops, and it will pay him well.

The farmer will help win battles that he will never see. For our boys at the front will be well fed and courageous, thanks to his industry and patriotism.

Nor is the farmer's part in this world war—in this greatest catastrophe history has ever had to record—limited to producing food. He has his part to play before crops are ready for harvest. For right now, the nation needs the farmer's support in a different way. It needs his co-operation on Liberty bonds.

These bonds are issued to equip our soldier boys with everything they will need for their safety, comfort and fighting strength. The government will pay every bond buyer 3 1/2 per cent interest, free from all taxes, and will return to him the entire principal. Liberty bonds are a safe, sure, profitable investment.

It is the hope of President Wilson that not a single farmer in the country will be seen without a Liberty bond button in his buttonhole.

Make The Almighty Dollar Always Work For Liberty

Germany, Europe, the world, is watching the United States right now—more than ever before—awaiting news on the sale of Liberty bonds. Unless this bond issue is greatly over-subscribed by American men and women before June 15, Germany will sneer at all our high-sounding words about freedom, justice and the rights of mankind. In her eyes the almighty dollar will be our idol, and all our patriotism will be branded as hollow talk.

For nearly three years our newspapers, statesmen, preachers and educators have constantly declared that America has high ideals, that we stand for liberty, that we love mankind, that we hate tyranny, that we are slow to wrath, but mighty when aroused. Well, the time has come to prove whether these fine sayings are true.

Our government now puts us to the test. We are in the war. War takes money, and the government proposes to raise money by selling Liberty bonds to the American people. The question is now up to you. You can buy on bond for \$50, or as many more as you desire. Liberty bonds are a perfectly safe investment.

The hour for American manhood and womanhood to act has come. It is here now. Subscribe at once for your Liberty bonds.

What would George Washington or Abraham Lincoln think of the American who failed to buy United States Liberty bonds?

How to Buy \$50 Liberty Loan Bond of U. S. in Installments

Here is how to buy a \$50 Liberty bond in installments, as prescribed by the government.

One dollar deposit is required when the official application blank is signed and filed with the Federal Reserve bank or other authorized agency.

June 15 the government will give notification whether the bond has been allotted. If not, the deposit will be returned.

June 28 pay \$9 through the agency where the application was filed.

July 30 pay \$10. August 15 pay \$15. August 30 pay \$15.

When the second payment is made an official certificate will be given. When all payments have been made the bond will be delivered.

The \$50 bonds have coupons which call for the payment of \$1.75 interest yearly, half on June 15 and the rest Dec. 15. They run for 30 years, though they may be redeemed in 5 years.

USE UP STALE BREAD

Do Not Permit the Odds and Ends Frequently Found in the Bread Box to be Wasted

The U. S. Department of Agriculture has sent out an Appeal to Women to aid our country and our army by economy in their own homes.

Bread is one of the items most commonly wasted in many American households, say the specialists of the United States Department of Agriculture.

Good, fresh bread has a spongy texture, which in time disappears, leaving the bread dry and crumbly.

Rolls or biscuits which have a greater surface in proportion to their size dry out more rapidly than loaves of bread.

Toast

Toast is another form in which partly stale bread can be made attractive. In many families it is served only for breakfast, luncheon or supper.

meals might well be followed at home. Such dishes as chopped meat with gravy, creamed chicken or fish, poached eggs, melted cheese, cooked asparagus, Swiss chard, baked tomatoes, etc., are served very commonly on toast.

As a Breakfast Food

Another good way of using stale bread, or of treating bread so that it shall not become stale, is to put the pieces in the warming oven or on the back of the stove and leave them until they are crisp and a delicate brown throughout.

Crumbs Valuable in Cookery

There is nothing new in the idea of using bread crumbs in cookery, and most housekeepers are in the habit of having some on hand for use in scalloped dishes, stuffing for meat, puddings, etc.

Toast

Toast is another form in which partly stale bread can be made attractive. In many families it is served only for breakfast, luncheon or supper, but the custom which many high grade restaurants have adopted of serving thin, crisp, hot toast with the more substantial

little in a very slow oven and crushed fine to be used in scalloped dishes, for the coating of patties, or other friendly foods or wherever a crusty fine crumb is needed.

How to Utilize Quick Breads

Yeast made bread is by no means the only bread that can be utilized in some of the ways suggested. The quick breads raised by baking powder, soda and sour milk or other acid, etc., dry out more quickly than the yeast bread, probably because the water is not so thoroughly incorporated with the flour during the making.

Vegetable Soup Thickened With Bread Crumbs
1 quart skim milk
1 cup bread crumbs, or 2 large slices stale bread.

Pancakes

2 1/2 cups milk
1 1/2 cups skim milk
1/2 cup flour
4 teaspoons baking powder
1 teaspoon salt
1 teaspoon sugar
1 teaspoon melted fat
1 egg.

Gingerbread

1 cup molasses
1 1/2 cup boiling water
1 1/2 cups fine bread crumbs
2-3 cup flour
1 teaspoon baking soda
1 1/2 teaspoon ginger
1/2 teaspoon salt
4 teaspoons melted lard or other fat.

Add water to molasses and combine with the dry ingredients mixed together, then add fat, and beat. Bake for about 25 minutes in a hot oven.

Indian Puddin' Made With Crumbs

1 cup fine crumbs
1 quart skim milk
1/2 cup sugar
1/2 cup molasses
2 tablespoons melted butter or other fat.
3/4 teaspoon ginger
3/4 teaspoon cloves
3/4 teaspoon cinnamon

Scald the crumbs in milk; add the other ingredients; and bake 1 1/2 hours in a slow oven. This puddin' may be made without any kind of bread crumbs, but it furnishes an especially good means of using up stale corn bread.

Egg Toast

6 slices bread
1 egg
1 cup milk, skim milk or water
3/4 teaspoon salt.
Beat the egg and add the liquid and salt. Let the bread soak in the mixture until slightly soft. Then fry to a light brown on a hot, well greased pan or griddle. More eggs may be used if available.

When you feel genuinely ill at ease with a clever woman, it is generally because her cleverness is artificial. Some women, however, are even cleverer than this, for they can conceal their artificiality so well that you actually laugh with them over someone else who is just as artificial as they are.

Pretty Home Wedding
At the home of the bride's parents, Mr. and Mrs. J. O. Packard on Sanford Heights the marriage of Miss Bertha Ellen Packard to Mr. George Edward Armstrong was solemnized on Wednesday evening at half past eight o'clock, amid charming surroundings, Rev. E. D. Brownlee officiating.

The living room, in which the ceremony took place was beautifully decorated with quantities of pink crepe myrtle, pink roses and ferns. The mantel, before which the young couple stood to be married was a lovely background for the wedding party. On either side were tall stands holding large drooping asparagus spengeri while the mantel was banked with asparagus plumes and wild ferns in which nestled the pink crepe myrtle. High up at the top, the delicate beauty of pink Killarney roses completed the charming effect.

To the strains of Lohengrin's "Bridal Chorus," played by Miss Elizabeth Musson the wedding party entered the room, the bride and groom, walking together, preceded by their attendants, Miss Marian, the bride's sister and Mr. Fraser Armstrong, a brother of the groom. The bride was a gracious young figure and very lovely in her wedding gown of point d'esprit over white silk. The hoodie with its Dutch neck and flowing sleeves and short waisted effect was very becoming. The skirt cut walking length was finished with three ruffles banded with white satin ribbon. She carried a shower bouquet of bride's rosebuds and ferns.

The bridesmaid wore a charming frock of pink crepe de chine. It was held in place at the waist line with silk cords and finished with tiny puffed sleeves and V shape neck. With this dainty costume was worn pink satin pumps and pink silk hose. Long stemmed pink carnations were carried in an arm bouquet. Mrs. Packard, the mother of the bride wore a handsome white striped silk with Georgette sleeves. Mrs. Geo. Armstrong, Sr., the groom's mother was becomingly attired in white organdie and lace. Misses Margery and Virginia Packard wore pretty white organdie frocks with yellow and blue ribbons. Mrs. Armstrong is the eldest daughter of Mr. and Mrs. J. O. Packard, a lovable and attractive young girl.

Mr. Armstrong is the second son of Mrs. Geo. Armstrong, formerly of Sanford. Both young people are well known and have hosts of friends here and elsewhere to wish them bon voyage on the sea of matrimony.

Many beautiful presents of crystal and silver, china and linens testified to the popularity of the young couple. Among them were several generous checks. There was a pretty bit of sentiment in the fact that Mr. and Mrs. Armstrong were married on the anniversary of the groom's grandmother.

After a brief, informal reception the bride and groom left by auto for Daytona Beach from which point they will go on to Key West and other south Florida points for the honeymoon. They will be at home in St. Augustine after July first.

Out of town guests for the wedding were Mrs. Geo. Armstrong, Mr. Fraser Armstrong of St. Augustine; Mr. and Mrs. C. W. Arnold of Orlando and Miss Priscilla Bishop of Eustis.

Attention Ladies
There is a movement on foot to organize a local society to make "comforts" for the use of the navy. The women of every state are organizing for this purpose, making these articles for the battleship named for her particular state. In Florida the women are making sweaters, wristlets, mufflers, etc., for the boys on the Battleship Florida. Fifty women are wanted in Sanford to help furnish and make these supplies. The work is done prin-

cipally at home. If you are interested, call on or phone Mrs. A. E. Hill or Mrs. Allan Jones for particulars. This call should receive the same cordial response as that of the Red Cross Association. The two organizations are distinct but each one is doing a noble work for our boys of the U. S., the one for the soldiers and the other for the navy and both for humanity everywhere.

Florida Doing Her Bit
Since last September there have been shipped from Florida by rail and not including boat shipments:
4,916 carloads grapefruit
16,085 carloads oranges
7 carloads pineapples
3,205 carloads vegetables
1,901 carloads lettuce
4,067 carloads Irish potatoes
3,675 carloads tomatoes
2,958 carloads celery
322 carloads strawberries
1,738 carloads watermelons
456 carloads cabbage.

Besides this, there have been millions of packages of small shipments by express and freight.
Florida is doing her share toward feeding the nation, and with favorable weather will show 'em something this year in the matter of raising corn, sweet potatoes, beans, peas, and other field crops.

And the surface of Florida has barely been scratched. The cultivated fields of the state in comparison to the total acreage of tillable land, might be likened to a pin scratch on the hand as compared to the entire body. The pin scratch may effect the whole body, and the mind, just as the Hastings potato fields and the Sanford celery fields affect the state.

The next ten years is going to witness Florida's greatest changes'—DeLand News.

Had Her Doubts.

Early Men in America
Geologists aver that the oldest land in the world is found in North America, and this affords encouragement to anthropologists whose conviction is that North America was the earliest home of the human race.
