

Tavern-Goers Gassed By Carbon Monoxide

CLAIRTON, Pa., Nov. 6 (AP)—Sauntering amiably into a tavern to quench his thirst early today, Harold Ausburn was shocked by both a death-like silence and the fact everyone else there was unconscious. Police said carbon monoxide had felled them, one after another.

(Continued from Page One) towns. But for the war, which destroyed many important agricultural centers, we would be better supplied today than any other country in Europe or elsewhere.

Molotov said the 30 years of Russia's history since the revolution could be divided into three periods:

The first, between 1917 and the first establishment of Soviet power, up to the first five-year period.

The second, the period of the second World War—the great patriotic war.

The third, the new period which is just beginning.

The Foreign Minister declared that "not only in the countries friendly to us, but elsewhere, there are millions of people devoted to the Soviet Union."

"Everywhere capitalism rules," he added, "it oppresses the working people, enslave the working people of the colonies and the dependent states. Peoples in whom knowledge has brought awakening see in the successes of the Soviet Union the approach of their own liberties from the yoke of the enslavement."

Molotov asserted the Soviet Union was intent upon following a path toward "durable and lasting peace."

All true friends of peace and they constitute the majority in any country can rest assured that the Soviet Union will defend the cause of peace to the last, he said.

He recalled Prime Minister Stalin's interview last May with Harold E. Stassen, candidate for the Republican presidential nomination of the United States. At that time, he reminded his audience, Stalin declared that the difference between economic systems was not an obstacle to peace.

"If collaboration was possible in wartime, why not in peace?"

"We live in a period when all roads lead to Communism," the Foreign Minister asserted.

He applauded the recent formation of the nine-nation Communist Information Bureau with headquarters at Belgrade as necessary for increasing Communist influence among the masses.

Russia "wishes it success," he said.

Other cabinet members resigning were Finance Minister Alexander Alexandri, Public Works Minister George Vantu and Culture Minister Radu Roscalet.

The resignations of three Liberal Party undersecretaries of state also were accepted. It was indicated that the vacancies in the cabinet would be filled within two or three days.

Meanwhile in Czechoslovakia a Communist-engineered government crisis pitted Communist Premier Klement Gottwald, a former blacksmith, at the top of the heap of persons as Czechoslovakia's political wrong man.

He wrested from the nation's coalition cabinet last night complete authority to rebuild the government of semi-autonomous Slovakia, where the crisis was born and where the predominantly conservative, anti-Communist Slovak Democrats are the majority party.

The cabinet decision was interpreted as a major victory in the Communists' open drive to gain complete control over the whole nation. An eight-party coalition now governs.

Informants close to the cabinet said Gottwald won by a vote of 12 to 10, with three Social Democrat ministers casting the deciding votes. They joined with six Czech Communists and three Slovak Communists against four Czech National Socialists, three Slovak Democrats and three Catholic People's Party ministers.

And in the Moscow-backed Polish government intensified its inquiry into the flight of Stanislaw Mikolajczyk, which it asserted was "actively aided" by an unnamed embassy, and indicated new arrests would be made shortly of persons suspected of helping the opposition leader escape.

Three of the group who fled with the Polish Peasant Party leader Oct. 20 were declared officially to have been arrested after crossing the Czechoslovak frontier.

Other U.N. developments: 1—President Truman named Alan Goodrich Wright, ambassador to Belgium, as U.S. representative on the Balkan Commission. None of the other delegates has been named. Headquarters will be in Salonika, Greece, with the commission scheduled to begin functioning Nov. 21.

2—A four-nation group set another meeting for late today in between the U. S. and Russia over efforts to iron differences between the implementation of the proposed partition of Palestine into Jewish and Arab nations.

"Tokyo Rose" Wants To Go Home To U. S.

YOKOHAMA, Nov. 6 (AP)—Tokyo Rose, the wartime radio Tokyo broadcaster who sank more fleets than America ever built, wants to go home to the United States.

The U. S. consulate here said she had applied for entry and her case "is being processed in the same way as thousands of others." The final decision, the consulate said, will be made in Washington.

Florida Building

(Continued from Page One)

In Miami, more than \$23,000,000 has been spent on residential building so far this year, compared with \$9,000,000 for non-residential projects.

Incomplete reports show that permits were issued for 14,157 dwelling units throughout Florida. The number of dwellings units authorized—4,543—as well as in total construction volume—\$18,812,499.

"While there is a tremendous volume of construction under way throughout Florida, some builders believe that peak activity has been reached," Cowles commented.

"High costs—placed variously at 50 to 100 percent above the pre-war level—are still holding back many would-be developers, especially in the multi-unit apartment and commercial fields.

"On the other hand, many builders and individuals, apparently decided that costs will not drop materially in the immediate future, are going ahead with construction plans.

"Material shortages—varying as to locality but including cement, nails and rock lath—are still plaguing builders two years after V.J. Day.

"The labor supply generally has improved except in south Florida, where a lack of skilled workers may make serious inroads on construction unless filled."

War Contract Said Ordered By Patterson

Procurement Officer Held Up Hughes Air-Plane Contract For Three Months In '44

WASHINGTON, Nov. 7 (AP)—A former air force general testified today that the late President Roosevelt, Jesse Jones, and other "powerful friends" of Howard Hughes were interested in a wartime contract for Hughes in 1943.

Bennett E. Meyers, retired major general, gave this testimony before a Senate War Investigating Subcommittee as he identified a recorded telephone conversation of Oct. 21, 1943, with Robert Lovett.

Lovett then was an assistant secretary of state. Hughes at the time held a contract to build a huge flying boat and was attempting to get on contract to build 100 (F-11) photo reconnaissance planes.

Meyers, then a deputy chief in aircraft procurement, read the telephone conversation into the committee record.

"Lovett: Because this is one of those borderline cases, that can be embarrassing if we get into, for example he has got very powerful friends here in Washington."

"Meyers: Yes sir, Jesse Jones and the President and everyone else seems to be in it."

Chairman Ferguson (R-Mich.) broke in on Meyers and asked him to reread this again. Meyers did.

Meyers said that in 1943 he felt a multi-million dollar war plane contract awarded Hughes "had an odor" and warned that it might "draw congressional criticism."

Meyers testified that on Oct. 9, (Continued on Page 5)

Mrs. Hallie S. Carter, 78, mother of Mrs. Andrew Stine 2105 Myrtle Avenue, died late yesterday afternoon. She came here from Charleston, W. Va. two and a half years ago.

Mrs. Carter was born at Kanawha City, W. Va., Aug. 1, 1869. She was a member of the Golden Methodist Church at Golden, W. Va., and was a member of the Order of Eastern Star in Charleston, W. Va.

Surviving are Mrs. Stine of Sanford, one granddaughter, Mrs. George Miyakawa of Charleston, W. Va., one sister and three brothers.

The remains are to be sent to Charleston, W. Va. this afternoon and funeral services will be held there at the Bartlett Funeral home, Sunday afternoon. Interment will be in Sunset Memorial Park at Charleston.

Pollution Of Florida Streams And Lakes Condemned By Health Board

TALLAHASSEE, Nov. 7 (AP)—Citing widespread water pollution in Florida, the State Board of Health estimated today it will take \$186,000,000 to install adequate sewage and garbage disposal and water treatment plants.

David B. Lee, chief sanitary engineer, and John C. Patterson of the State Board of Health included in their report a map showing "polluted areas" nearly every stream or bay on which there is a city to dump waste and sewage.

They included the St. Johns River from Palatka to Jacksonville, Biscayne Bay at Miami, Pensacola Bay, the Caloosahatchee River at Fort Myers, and the major parts of Tampa Bay, St. Andrews Bay at Panama City, St. Lucie inlet and the Halifax River near Daytona Beach.

"The need of stream pollution abatement in Florida is of vital importance to our public water supply systems," Lee and Patterson said. "Less than one-half of our citizens have domestic water available that has been treated in any way. Consequently, over a million Floridians consume untreated ground water."

The sanitary engineers said "nearly every community, of any size of Florida has failed to provide itself with adequate facilities for disposal of domestic sewage or garbage and rubbish. In many cases storm sewerage is conspicuous by its absence."

"As a direct result of the daily discharge of millions of gallons of raw or inadequately treated domestic sewage and trade wastes into natural bodies of water, 232 disease-causing organisms are being carried to the water."

"In many of these areas, shellfish are no longer to be found because of the pollution densities. Many other areas may be hazardous for the taking of shellfish."

The seafood industry has estimated reopening of condemned areas of Pensacola Bay alone would more than double the state's income from shellfish, Lee and Patterson said.

They said "one minor epidemic of any of the fifth-borne diseases could disseminate a tremendous number of visitors from coming to Florida for years; it would impede progress in the industry; it would certainly retard the development of any community until such time as assurance could be given that conditions encouraging such disease had been corrected."

The cost of providing adequate safeguards in cities and towns was estimated at \$120,000,000 for sewage collection and treatment, \$60,000,000 for water supply and treatment and distribution; and \$6,000,000 for garbage and rubbish collection disposal.

Georgia Utility Head Dies In Washington

WASHINGTON, Nov. 7 (AP)—Preston S. Arkwright, Jr., president of the Georgia Power Company and a cardholder in the "Machinists" club, died unexpectedly at Georgetown University Hospital last night.

The 41-year-old president of the statewide utility died of a blood clot in the lungs. He entered the hospital 10 days ago with a ruptured appendix.

At the time he was stricken, Arkwright and his wife were in Washington for a visit in his 17-year-old daughter, Ann, a student. Another daughter, Martha Stanley, also survives.

Calling meat the keystone to the whole food structure, Arkwright said in an interview: "Rationing of meat to my mind can be effective without price controls. It will keep demand in line."

The Vermont Republican said there was no truth to reports he was leaning toward producer price controls and recorded himself firmly against them.

Plans Studied For Combining U.S. Reserves

Forrestal Appoints Committee But Disclaims Control Of National Guard

WASHINGTON, Nov. 7 (AP)—Secretary of Defense Forrestal announced today the creation of a committee to develop closer ties among the reserve forces, but disclaimed any idea of taking control of the National Guard from the states.

He said the joint Army-Navy Air Force group will seek to work out "a rounded and uniform reserve program" as part of a general plan for national security.

Forrestal's original announcement made no mention of the matter of National Guard control but in a subsequent statement, he said:

"The intent of the joint committee is not to study the possibility of removing the National Guard from control of the 1948 governors."

Forrestal, however, spoke of "combining and better utilizing the Reserve units and, possibly, the committee will look into the advisability of a merger of the organized reserves and Guard. This step, which would not involve a shift in control of the (Continued on Page 5)

Machinists Union Asks Wage Law Of 75 Cents an Hour

WASHINGTON, Nov. 7 (AP)—The Machinists Union asked Congress today for a 75 cent hourly minimum wage and broader coverage by the wage-hour law to prevent "wage-cutting competition" during business slacks.

Harvey Brown, president of the Independent International Association of Machinists, said widespread application of a boosted minimum wage could help keep recession, or small business setbacks, from becoming depressions.

Brown's statement was presented to a House Labor Subcommittee by George Nelson, the union's grand lodge representative.

The subcommittee is studying suggested changes in the 3-year-old wage-hour law, which requires a 40 cent minimum and overtime pay for work beyond 40 hours a week in most business operations concerned with interstate commerce.

Brown said millions of workers are being laid off because of the high cost of living. He said that the only remedy he knows of for rising prices.

Calling meat the keystone to the whole food structure, Arkwright said in an interview: "Rationing of meat to my mind can be effective without price controls. It will keep demand in line."

The Vermont Republican said there was no truth to reports he was leaning toward producer price controls and recorded himself firmly against them.

Mr. Lawton, in his talk on Americanism and training for democracy, paid high tribute to S. Kendrick Guernsey of Jacksonville, president of Rotary International, for his remarkable work as head of the Citizens Committee on Education in Florida. The report based on the committee's survey had much to do with the new school laws passed recently by the Legislature, he said.

Many people, however, expected more than they got. "The new school law is not a miracle, but a medicine that may take a long time to work out," he declared. Increase of State contributions lead many to think teachers salaries would be doubled, he pointed out, but this could not be so, he said, because counties have to pay part of the salaries, and current expense and capital outlay funds cannot be transferred to teachers' salaries.

Russia Parades War Might, Raps Capitalistic Nations; Vishinsky Hits Warmongers

U.N. Delegate Pledges Russia To Continue To Combat War Propaganda

LAKE SUCCESS, Nov. 7 (AP)—Andrei Y. Vishinsky, Soviet Deputy Foreign Minister, said today in a Russian language broadcast over United Nations facilities that "the Soviet Union will continue in the future its struggle against any war propaganda and any instigation of a new war."

"The Soviet Union," Vishinsky said, "is a faithful and consistent champion of peace and security for the peoples of the world, a champion of international cooperation."

The text of his statement: "I am taking advantage of the invitation extended to me to say to the radio a few words on my own choice about the current session of the United Nations General Assembly."

New York Plans To Cut Outsiders Off Its Relief Rolls

NEW YORK, Nov. 7 (AP)—A bill requiring two years' residence in New York City before relief applicants become eligible for aid was introduced in the City Council yesterday as state investigators continued their testimony of alleged laxity in the disbursement of New York City welfare funds.

The bill was introduced by Council Vice-Chairman Joseph T. Sharkey who said that New York City has been "a Dutch uncle" to out-of-state residents, adding that "for years many of these residents immediately upon arrival apply for some form of relief."

Gala Events Planned For Building Group

Boat trips on the St. Johns River, a golf tournament at the Seminole Country Club and a banquet and dance at the Mayfair Hotel among the events planned for the entertainment here next Thursday by members of the Southern Building Code Congress.

The group, which has a membership of 400 will convene in Orlando, Wednesday afternoon for a three-day conference.

Grady Dwyer, Sanford building inspector and a member of the board of Trustees of the group, is pictured in the October issue of the Southern Building Official Journal and was largely instrumental in "fixing them" to visit Sanford.

Also as the result of his efforts, a full page article pointing out the merits of Sanford and vicinity is shown, together with photographs in the October issue of the Southern Building Official Journal.

Governor Millard Caldwell is scheduled to address the group at their Wednesday session in the San Juan Hotel in Orlando.

Lawton Predicts Florida Will Rise In Educational Rank Soon

A prediction that Florida by reason of its greatly increased appropriations for education will not remain long in 47th place among states in educational rank as based on output per pupil, was today made by Dupt. T. W. Lawton in a talk to members of the Lions Club at the Journal Center.

Mr. Lawton, in his talk on Americanism and training for democracy, paid high tribute to S. Kendrick Guernsey of Jacksonville, president of Rotary International, for his remarkable work as head of the Citizens Committee on Education in Florida. The report based on the committee's survey had much to do with the new school laws passed recently by the Legislature, he said.

Judge Continues Two Injunctions Against Unions

Jurist Declares Leaders Should Take Communist Oaths

SCRANTON, Pa. Nov. 7 (AP)—"A strike under the guidance of any union unwilling to declare its allegiance to the United States should be enjoined," county Judge Will Leach said today.

Availing union officers refused Hartley law that they have no Communist ties, the jurist continued two injunctions which prohibited picketing and propaganda activities by eight striking employees of Radio Station WBGJ.

2. Ban picketing of the Globe Department Store by the radio workers on grounds it constitutes a secondary boycott in violation of the Taft-Hartley Act.

The strikers affiliated with the CIO American Communications Association, are limited by one court order to two pickets at the radio station. Another injunction was obtained by the globe store because it was being picketed because of failure to cancel its advertising contract with the radio station.

Judge Leach, president of Lackawanna county courts said in his opinion:

"The Soviet Union is an enemy of the United States and has organizations working herein to overthrow that government. The officers of the union will not even take oath that its members are not adhering to the enemies of the United States, giving them aid and comfort, which is part of the definition of treason given by the Constitution of the United States."

Kentucky Democrat Now Leads By 99,537

LOUISVILLE, Ky., Nov. 7 (AP)—Virtually complete returns from Tuesday's general election today gave Democratic Governor-elect Earle C. Clements a lead of 99,537 over his Republican opponent, State Attorney General Elton S. Dummitt.

With only 13 precincts uncounted had 385,598 votes to Dummitt's 286,061. The remainder of the Democratic state tickets had only a slightly smaller margin over Republican opposition.

PLANE TURNS BACK

SAN FRANCISCO, Nov. 7 (AP)—A Pan-American Airways Clipper bound for Honolulu turned back because of trouble in one of its four engines last night, and landed safely at the San Francisco airport early today.

Immediately after its arrival 1:48 A. M., Pacific Standard time, the 23 passengers and their baggage were transferred to another clipper for resumption of the flight which was interrupted by the mechanical trouble 1,080 miles at sea—about halfway to the Hawaiian Islands.

Rotary Speaker

Marshal Bulganin Is Principal Speaker On Occasion Of Anniversary Holiday

WASHINGTON, Nov. 7 (AP)—President Truman sent "sincere greetings" to the Russian people on the occasion of their national holiday today. His formal message addressed to Nikolai Mikhailovich Shvernik, president of the Presidium, omitted any reference to Soviet government officials.

LONDON, Nov. 7 (AP)—Russia paraded her military might through Moscow's Red Square in commemoration of the Bolshevik revolution. Her army, navy, and renewed cries that "warmongers" are calling for a campaign against the Soviet Union.

In a special broadcast beamed directly at the United States and Great Britain, the Moscow radio quoted Marshal Nikolai Bulganin, Soviet Minister of the Armed Forces, as saying just before the parade began to the accompaniment of martial music by massed bands that:

"After the Second World War essential changes have taken place in the international situation. As a result of the war the system of Capitalism has suffered a serious loss. The forces of Democracy (Communism) and Socialism have strengthened, but the forces of Capitalism have weakened."

"The successes of the Democratic camp (Communists) give the warmongers no rest. Forgetting the lessons of the recent war, they are calling for a campaign against Democracy (Communism), against the Soviet Union, and attacking plans for a new imperialist war."

"The Soviet people, and its armed forces, under the leadership of their leader and teacher, Joseph Stalin, are ready to meet and defeat Hitlerite Germany and imperialist Japan," he declared from the tribune atop the mausoleum of Nikolai Lenin.

"This historically unprecedented victory proved that the Soviet army, armed with the most advanced Stalinist military science and supplied with the most modern military equipment, is a first class army of our time."

The Soviet Union, Bulganin concluded. (Continued on Page 5)

Republicans Drop Plans For Lower Tax Legislation

Knutson Says Taxes Will Be First In January Sessions

WASHINGTON, Nov. 7 (AP)—The Republican tax reduction bill apparently abandoned today all plans for tax reduction legislation at the special congress session convening Nov. 17.

Chairman Knutson (R-Minn.) of the House Ways and Means Committee said after a conference with Speaker Martin, 24 rather than 20 tax bills (Continued on Page 5)

Track Being Readied For Armistice Day

Members of the Dusty Boots Riding Club are working hard to get their new track at the Municipal Airport ready for the horse races on Armistice Day. It was reported last evening at a meeting of the club at the Tourist Center. City equipment is being used.

Snow In Midwest As Coasts Remain Warm

By ASSOCIATED PRESS

The first cold snap of the season chilled residents from the Rockies to the Texas Panhandle today.

A blowing snow storm hit during from one to eight inches was snow on the ground in parts of Minnesota, and there in the Central Rockies and in sections of Nebraska, South Dakota and Minnesota.

Temperatures dipped well below freezing over many sections of the Midwest and into northwest Texas as the good weather moved inland from the Rockies. The mercury registered 25 at Amarillo, Tex., early today and fell to 12 above at Scottsbluff, Neb.; 16 at Philip, S. D.; 17 at Denver and 18 at Dickinson, N. D.

Generally fair weather, with temperatures about normal, prevailed over the eastern and southern sections and along the Pacific coast, although rain was reported in Washington and Oregon.

Rain also was quite general from the upper Great Lakes southward across the Ohio River and colder weather for the north central states was forecast for tonight.

Brownsville, Tex., continued to hold top honors as the country's warmest spot, with a high yesterday of 89.

TIME CENSORED

CAIRO, Nov. 7 (AP)—Egyptian police confiscated copies of the Oct. 27 issue of Time Magazine today of the grounds it contained a picture of the Prophet Mohamed and therefore violated Moslem regulations against graven images. (The police action apparently referred to a one column-cut of the prophet mounted on horseback which appeared in the foreign affairs section of Time in connection with an article on India and Pakistan.)

HOLD UP

PARIS, Nov. 7 (AP)—Five men, believed to be Spaniards and armed with submachineguns, entered the Spanish consulate general today, bound and gagged four members of the staff, cut the telephone lines, and escaped with \$20,000 francs (\$2,000), the consulate reported to the police.

Tornado Strikes Fishing Village Killing 2 Women

Ten Others Injured As Violent Winds Wreck Residences

GOLDEN MEADOW, La., Nov. 7 (AP)—A tornado swept the small village of Galiano, six miles south of Golden Meadow, last night, killing two persons and injuring ten others.

A half hundred residents were reported made homeless in the little village of trappers and fishermen and two other persons, an elderly woman and an infant, were reported missing today.

The funnel-shaped cloud, born of a coastal disturbance, was reported to have destroyed ten residences and damaged an equal number of others.

The dead were listed as Mrs. Henry Danos, 28, mother of three children; and Miss Frazie Pittre, 41 years old. The infant daughter of Whitney Heibert was missing and feared drowned, while (Continued on Page 5)

Louitt Tells Why He Rejected Offer

BUFFALO, N. Y., Nov. 7 (AP)—The Rt. Rev. Henry J. Louitt said today he had declined to accept election as bishop of the western New York Episcopal Diocese because of a desire to meet "the missionary challenge" of his work as suffragan bishop of South Florida.

In a letter supplementing his telegraphed declination of the bishopric yesterday, the 44-year-old native of Buffalo told the Very Rev. Edward E. Waller, chairman of the notification committee, that "21 years ago I accepted the call to serve our Lord and His church in the Diocese of South Florida" and added:

"Never have I regretted accepting the missionary challenge presented by that growing state, nor in the passing years have I ever felt called by God to serve elsewhere in His church."

Bishop Louitt was elected Oct. 24 at a third convention of Diocese delegates, inaugurated by previous deadlock at conventions in Niagara Falls on May 20 and in Buffalo on June 10.

Wider Use Of Streptomycin Seen In Treatment Of Tuberculosis

WASHINGTON, Nov. 7 (AP)—Wider and less expensive use of streptomycin in the treatment of tuberculosis was envisioned today by two Denver doctors.

Reporting on reduced-dosage experiments with tuberculosis guinea pigs, Doctors J. J. Cramer and Maurice L. Cohn, of the National Jewish Hospital asserted in the technical journal "Science":

"It would appear that the amount and frequency of administration of streptomycin in tuberculosis can be reduced without appreciable loss of effectiveness."

They said information gained from the animal experiments was preliminary and incomplete, but added:

"This information should extend the present use of streptomycin as an adjunct to the treatment of human tuberculosis and make streptomycin available for human treatment where excessive administration previously was economically prohibitive to certain cases."

The doctors said the drug "is still limited in production," and "economically beyond the reach of some institutions and tuberculosis individuals."

A Washington pharmacist said the present "off-the-shelf" price of the drug for civilians use is \$5 a gram, compared with \$7.50 a gram a year ago when it was scarce.

He said he believes that in cases of tuberculosis where "a lot of it" is needed, the charge might run about \$3.75 to \$4.00 a gram but that cost of administering it might add another dollar per gram.

It was learned that the Army has reduced its daily dosage for streptomycin-treated tuberculosis cases by one-half. A year ago, a total of two grams was given daily; today, one gram is given.

The prescribed course of treatment in the Army has also been reduced from 120 days to a lesser period.

An Army doctor who declined to be quoted by name told a reporter:

"We've found it (streptomycin) to be a valuable adjunct in the treatment of tuberculosis, but it is not the final answer by a long shot."

BIBLE VERSE FOR TODAY

IF YOU WILL JUST WELCOME THE STRENGTH GOD IS ANXIOUS TO GIVE YOU: I will heal their blackening, I will love them freely.—Nehemiah 1:4.

Oh, oh, Howard Hughes is accused of being some \$5,000,000 short on his income taxes. We were afraid of something like that.

How would it be to let the kind news with which we treat the Communist opposition in this country be determined to some extent at least by the way the Communist-dominated countries of Eastern Europe treat their opposition leaders?

The Census Bureau warns that the United States is increasingly vulnerable to atomic bomb warfare because of the growing concentration of its population in large cities. That's just what our Chamber of Commerce has been trying to tell people right along. They ought to get out of the big cities and move to small towns like Sanford. There are lots of advantages.

The State of Florida rejoices that liquor taxes have again turned upward after a slump of several months. The Beverage Bureau Director reports liquor taxes at \$2,903,000 for October, up 31 percent over the same month last year. Since everyone got a little drunker last month, we hope we don't all have a white headache this month.

It seems to us that Labor leaders resisting the Taft-Hartley Labor Act provision requiring them to take an oath that they are not Communists do have a pretty strong case on their side. The law doesn't require factory managers or corporation executives to take such an oath, nor does it require bankers, lawyers, or anyone else to do so. It would be almost the same as if a law was passed requiring all newspaper editors to be finger-printed, but no one else. We wouldn't like it. And we can't say we blame the Labor leaders for not liking being singled out for this Communist oath proposition.

Foreign Minister Molotov boasts that the secrets of the atom bomb are no longer secret. We would be surprised if they were after the carelessness with which they have been handled. But after all, having the secret of something like the atom bomb and knowing what to do with it are separate propositions as widely different as the Poles. Russia has neither the facilities, nor the skill, labor, for making atom bombs in quantity, and is not likely to have for a good many years. The chief danger with respect to the atom bomb comes not from Russia but from Germany, with whom Russia may ultimately make an alliance, as she did once before, and for whose scientific ability and technical skill we for one have the greatest respect.

A strange, yet vaguely familiar name caught our eyes in a newspaper the other day. It was something about Luis Firpo. Yes, Firpo, where had we seen that name before? Firpo. "The Wild Bull of the Pampas." Oh, yes, he had been a prize fighter, back there in the glorious twenties when Jack Dempsey was the "Manassa Mauler" and girls were flappers. It was Luis Firpo who got on one of the briefest but most exciting exhibitions in ring history, when he knocked Jack Dempsey clear out of the ring early in the first round. Dempsey came back with his dander really up and proceeded to knock Firpo down no less than 11 times in the next few minutes and completely out in the second round. But what we started out to say is that Firpo is now a ranch owner in Argentina worth something like \$5,000,000 and is 52, is enjoying excellent health despite an expanding waist line.

As Kentucky Goes --

As Kentucky goes, so goes the nation. This has not been an axiom of politicians, but the record justifies it to some extent. Kentucky elects her governor every four years in the year before the presidential election. That schedules a poll on the governorship for November. As almost all other elections in the United States are local this year, Kentucky is the chief straw to show how the political wind is blowing.

Kentucky is generally Democratic. It is the exceptions that are interesting. In 1895, 1899, 1907, 1919, 1927 and 1943 Republican governors were elected. In each case, up to 1944, Republican national victory took place the following year. The one failure to maintain the record happened four years ago, when Gov. Simeon Willis won an impressive victory on the Republican ticket. Unfortunately for the reputation of political prophets both Kentucky and the nation went strongly Democratic the next year, when President Roosevelt won his fourth term.

The Democratic victory this week affords great encouragement for the Democrats and the supporters of President Truman. A Republican triumph would have been a favorable sign for the G.O.P. But judging from the records of previous elections, the Democrats are now almost certain to win next year's presidential election.

Made In Britain

London saw a great pageant the other day, as it so often has. The King, Queen and Princess Elizabeth, magnificently robed and crowned, drove through the streets in an open carriage to convene Parliament. In the House of Lords they were met by heralds in gold and silver uniforms, and escorted to their thrones. A new one, trimmed in crimson velvet, was set for the first time for Princess Elizabeth beside her father's.

The "faithful Commons" were summoned in the old traditional manner to come from the House and enjoy the high privilege of sitting with the Lords to hear the King's speech. That the Commons, could -- and do -- order the Lords around these days, and that the King's speech had been written for him by Laborite Prime Minister Attlee, made no jot of difference to the English. They may be going through an austerity program themselves, but they want their ceremonies carried on with the same pomp as ever.

Returned travelers tell of swank London hotels setting their tables as always with silver plate and damask napery -- and with almost no food on the plates the liveried waiters bring in.

This clinging to resplendent traditions is an outward symbol of an inward courage that is British. The world has much need of such stuff.

Our Alarmed Ancestors

Is the United States going to the dogs? Anyone of this opinion might be heartened by reading the remainder of the critic Lloyd Morris, printed in his new book, "Postscript to Yesterday," that 60 years ago Americans were alarmed by the spread of women's clubs. Edward Bok, editor of a much-read woman's magazine of the time, thought them harmful, and President Grover Cleveland, who was not ordinarily so stuffy, proclaimed, "A woman's best club is her home."

Yet women's clubs lived and grew and still prosper. The United States has weathered them, and it is safe to say will overcome grayer perils now.

The front page features articles regarding the Student Broadcast by Patay Bronson; "Cherish Leaders" including their romantic crushes and sartorial attractiveness are described by Duncan Baker; the Glee Club is reported off to a good start. Down in the right corner is a paragraph of congratulations to Coach Fred Sianias for becoming the father to Gary Edward, SHS fullback in 1944.

Editorials urge studying a little harder to up the grades on report cards, avoidance of cheating in school work, keeping up the good school spirit and being honest whether in or out of the classroom.

Feature articles concern the fine drill work of the girls' Pep Club under leadership of Martha Grogan, some hints on Current Biography of 1946 for reference work, and a full page of sports including the football roster. New students are introduced, including Keith Schumacher from Waymart, Penn.; Virginia Wilson from Belle Glade, Fla.; and from Syracuse, N. Y., and Freddie Siegrist.

There is an account of Girls State at Tallahassee which was attended by Maryanna Springer, June Rose Dutton, Barbara Chapman, Francis LePils and Margaret Partin.

Welfare Probe

(Continued from Page One) Meanwhile, the State Social Welfare Board, resuming its hearings into alleged relief abuses, heard an investigator accuse the City Welfare Department with inadequate handling of 91 percent of 200 relief cases examined.

The investigator, Miss Margaret Harward, director of the Bureau of Public Assistance of the state board, also said, citing the ad handling in all aspects" in only 18 of the cases.

"In 182 cases, 91 per cent of the cases read," she testified "there was lack of complete proof of eligibility for relief. The latter requires welfare workers to visit relief recipients on home relief once every three months. In 79 cases, fewer than the minimum number of contacts were made."

Thirteen of the 97 refused to take jobs, she said, citing the ad "Experience" shows," he said, "that low wage competition among businessmen is a great temptation in times of declining business."

"In the absence of collective bargaining agreements or protective legislation, wages are the easiest thing to cut. The individual employ has no real recourse."

"Experience shows, too, that this very action--which appears to the individual businessman as the quickest remedy--is in effect a very dangerous practice, for by cutting down the purchasing power of those who work for wages, it limits consumption still farther and can aggravate a mild recession into a full-fledged depression."

"We believe that the speedy tightening up of the Fair Labor Standards Act is one certain way to prevent the competition in wage-cutting which can help bring such a depression on."

Business groups have opposed raising the minimum wage, contending such action would be inflationary. They have asked the committee for a narrowing, rather than a broadening, of the present law. Many business groups

THE WORLD TODAY

By DEWITT MACKENZIE
AP Foreign Affairs Analyst

There is no need for you and me to lie awake nights worrying over Soviet Foreign Minister Molotov's disclosure that the secret of the atom bomb "has long ceased to exist," and that "we live in a period when all roads lead to Communism."

These striking declarations--and others--which were made in Moscow address yesterday, on the eve of the Russian revolution's thirtieth anniversary, appear to have been intended more as a pep talk to Communists and fellow travelers--both at home and abroad--than as an effort to bedevil the Democrats. That's not to try to belittle Mr. Molotov's effort, since he is an accomplished speaker and did a workmanlike job on propaganda making for those at whom it was aimed.

Foreign Minister's announcement about the atom bomb was the high-point of his pronouncement. He made it calmly and with studied language, such as would befit a revelation about the most momentous development of our age. It was a clever move.

Of course Molotov is right. The broad information about the structure of the bomb long ago ceased to be a secret, the experts tell us. The information is available to Russia, or even to you and me. However, it's equally true that there are thousands and one technical details which still are secret--and without them the bomb couldn't be made.

There's no great secret about making an ordinary automobile, so far as your correspondent knows. But in the hands of a man who attempts to vote and try to build one, starting with the making of the steel and other metals employed. His blue print of an automobile wouldn't be worth a row of beans to him. See what I mean?

Another interesting point in Mr. Molotov's address was his reference to what recently has become a red theme-song--that Capitalism and Communism can exist side by side in peace. This is a complete about-face for the Bolshevik tenet that there was no place in the world for capitalism and it must be destroyed.

The Soviet Foreign Minister, while declaring that Capitalism is "on its last legs," recalled Prime Minister Stalin's interview last May with Harold E. Stassen, candidate for the Republican presidential nomination in the U. S. A. Molotov pointed out that Stalin had said the difference between economic systems was not an obstacle to peace.

"If collaboration was possible in wartime, why not in peacetime?" asked Molotov.

A similar note was sounded a few days ago by the Moscow periodical "New Times," an authoritative publication.

At first blush it looks as though Moscow might feel that it has just about reached the limit of its expansion in Europe and is figuring on a live-and-let-live attitude between the Russians and the Democrats. Be that as may be, we shouldn't let ourselves become confused over the issue of whether Communism and any other item can juggle in the same

As this column has remarked more than once, it might be possible for two neighboring countries--one Capitalistic and the other Communist--to live in peace. However--and let's not forget this--there is no possibility whatever for Communism to exist side by side with another system within the boundaries of the same country. The most dangerous fallacy of our time is the belief by some that Communism can be combined with anything else.

You will note, by the way, that neither Generalissimo Stalin nor Mr. Molotov claimed Communism and an alienism could live together in the same nation. So we should recognize the subtle distinction and not allow ourselves to be tripped over it.

Rings Are Sought In Murder Mystery

BECKLEY, W. Va., Nov. 7 (AP)--Three diamond rings today were sought by police trying to unravel the slaying of a Beckley businessman and the slaying of a dentist.

State Police Sgt. Anthony Scelso said he had questioned Dr. Kenneth K. Rand, 46, and learned the dentist's pretty blonde wife always wore three rings.

Investigators did not find the rings when they examined the bodies of Mrs. Nellie Mae Rand, 39, and E. Ray Bailey, 50, after they were spotted Wednesday by passersby at the foot of a 30 foot embankment among a lonely road nine miles from town.

They had been shot through the head and their bodies apparently rolled down the hill.

have advertised repeating the same law.

Brown argued that the 20 cent minimum is "ridiculously low" and even the 75 cent rate, which figures out to a \$80.00 pay check for a 40 hour week, is far from approaching the real need of America's workers in 1947.

He also urged tightening of child labor curbs in the law, overtime pay after eight hours of work a day, and a five year period for employees to bring "back wages" claims instead of the present two year limit.

"64 RUBLE QUESTION"

SANFORD FORUM

Sanford, Fla. Nov. 6, 1947

Sanford Herald, Sanford, Fla. Mr. Editor: The school election ballot included a vote on School Tax Mitigation. The wording of the voting instructions were very confusing to me. Why can't these instructions be more clearly stated? It is little wonder that there were a great many ballots cast on which there was no attempt made to vote on this question. Several of my acquaintances stated that they did not understand the instructions and therefore made no attempt to vote and several that did attempt to vote found out later that the effect of their vote was opposite to their intention. I wonder if the question was fairly stated.

Very truly yours, D. L. Harper 2101 Sanford Avenue Sanford, Fla.

Work For Disabled Veterans Is Urged

Work for the welfare of disabled war veterans will be an increasingly important activity of the American Legion Auxiliary during the coming year, Mrs. C. E. Hunter, Rehabilitation Chairman of Campbell Loring Unit, predicted today as the Unit continued enrollment of its 1948 membership.

More veterans are becoming disabled every day from results of injuries or illnesses suffered in the service, Mrs. Hunter said. The Auxiliary will use its strength to aid the American Legion in bringing to all of these men and women the best of care and a just measure of compensation, she stated.

"Every woman who enrolls now makes our organization just that much stronger for its efforts for the disabled veterans," declared the Auxiliary's Rehabilitation Chairman. "We have much to do, with our own hands and with our influence."

"Justice will not come automatically to the disabled veteran. Someone must be constantly interested in their welfare and alert to see that they receive all the benefit the grateful nation wants them to have. Someone must keep their cause and their needs before the public and the Congress. Someone must be ready to give them individual aid and aid to their families in time of emergency."

These things the American Legion Auxiliary has been doing for veterans ever since World War I. Today the need is greater than ever before and is continuing to grow. In our organization there is a vast field for worthwhile service for those who gave so much in the nation's defense. We are inviting all eligible women to come into the Campbell Loring Unit where they can make their influence effective in the cause of the disabled veteran."

No "New Look" For The Male This Year

NEW YORK, Nov. 7 (AP)--Relax, gentlemen, the well-groomed male will have no "new look" in the coming year.

Leading designers and manufacturers queried here promise that conservatism will be the watchword of tailors.

The current "wasp-waisted" effect will be modified come Spring, but shoulders will continue to be padded in the present Tarzan tradition. This year's trousers will be in fashion next year--no wider, no narrower.

Designers note an interesting trend in pockets. They'll be low and ample--a sign of prosperity.

MIAMI THEFT

NEW YORK Nov. 7 (AP)--The Federal Bureau of Investigation said today three New Yorkers have been arrested on charges arising from theft of a \$45,000 shipment of jewelry in Miami Beach, Fla., March 24, 1946.

IN MEMORIAM

In Memory of My Mother (Mrs. H. M. Hamby)
Sleep Mother Dear, sleep and take thy rest,
Lay down thy head upon thy Savior's breast;
We loved thee well, but Jesus loved thee more.
A year has passed but the memory of your kindness, the radiance of your smile, still lingers with us your family and all your friends.
Good-night Mother Dear—
Your Daughter,
Marie

Seminole High School Remains Idle Tonight But Play Next Friday

The Seminole High School grid football team will have a weekend of rest this week, since they have a open date in their schedule, however they return to the pitch parade next week at the high school athletic field in a contest with the Winter Park High aggregation.

The Seminoles have two more home games on their schedule and one game on foreign soil before the end of the 1947 campaign.

Coach Kettles' crew meets Winter Park then plays host to the Seabreeze High Sandcrabs from Daytona Beach on Nov. 21. The final contest is played the following week in Leesburg with the Yellow Jackets, the traditional Turkey Day rivals.

It is likely that Holly Piercy will return to the lineup for the contest with the Winter Park club, but the fleet footed Seminole back may not see much action until the Sand Crabs invade the local field on Nov. 21.

ROCKETS MEET COLTS

CHICAGO Nov. 7 (AP)—The Chicago Rockets, who have lost 10 straight All-America Conference football games, and the Baltimore Colts, who have lost seven games, won one and tied one, will meet tonight in Soldier Field in a cellar-division engagement.

Standardized Code For Athletes Set

NEW YORK Nov. 7 (AP)—Millard (Babe) Didrikson Zaharias plans to take part in the Men's National Open Golf Tournament next year. "I don't expect to win," said the Babe in announcing her decision here yesterday. "But I think I can qualify." She has a 72-hole medal play mark of 292 and has turned in rounds as low as 67.

The Babe announced at the same time that she had contracted for a series of personal appearances in sportmen's shows in Detroit, Boston and New York. She turned professional several months ago after monopolizing the honors in Women's Amateur Golf competition both here and abroad. She won 17 golf tournaments in a row.

Northeast Loop To Have Little Action On Tap This Week

TALLAHASSEE Nov. 7 (AP)—Little action is scheduled in the Northeast Florida High School Football Conference this week, with both leaders idle and only two league battles on tap. Gainesville's Purple Hurricanes, who blasted the Leon Lions of Tallahassee out of the championship race 13-7 last week, and the high scoring St. Paul's Ramblers of Jacksonville have open dates. The two eleven are scheduled to meet in the University City Nov. 28 in a battle which in all probability will determine the championship.

Leon hopes to regain its victory stride against Daytona Beach and Lake City plays host to Live Oak in the lone conference contest. Duncan U. Fletcher will meet Ketterlingus of St. Augustine at Jacksonville Beach, and Bolles will battle Florida Military Academy at Jacksonville in other tilts involving league schools.

Standardized Code For Athletes Set

NEW YORK Nov. 7 (AP)—A standardized code which among other things forbids financial aid to athletes the same assistance is not available to non-athletes has been agreed upon by 53 eastern colleges, joining to form the largest athletic conference in the country.

By subscribing to the new constitution, each school promises to abide by the code which makes mandatory a year's residence for freshmen and transfer students and which provides that in no case may financial aid exceed tuition plus institutional incidental fees.

Announcement of the new organization and its compact was made here yesterday by Asa S. Bushnell, commissioner of the Eastern College Athletic Conference.

Sports Roundup

NEW YORK Nov. 7 (AP)—Tomorrow brings the long and colorful Army-Notre Dame football series to a close and Army, win or lose, will become just another "ivy league" team. That apparently is one objective in breaking off relations with the Irish and if the series ever is resumed, it probably will be on a home-and-home basis at West Point and South Bend. . . . Meanwhile Army Coach Earl Blaik maintains that the Cadets can't play a big time schedule with major games every week. They don't have the material, in normal years, nor the time for practice. . . . The 1948 schedule, not yet released, apparently will have a tussle with Harvard at West Point—as its mid-season feature and Columbia, which upset the Cadets this year, will be absent. . . . There'll be a few other major games, of course, and some rivals from distant regions, but the idea is to enable the boys to point for the big games without enduring the pressure of pointing every week. . . . All this seems rather strange when it is compared with the Navy schedule. . . . About all Army wants to beat Navy and Navy wants to beat Army. . . . This year the

New Strength Being Added To Miami U. By Freshman Players

CORAL GABLES, Fla. Nov. 7 (Special)—Rolling into a November schedule which nips them against Cincinnati, Vanderbilt, Florida and Alabama, the University of Miami Hurricanes will achieve a football miracle if they can do better than break even against that quartet. Since the Hurricanes have won two, lost three and tied one against opposition not rated as highly as the remaining Miami foes, they'll have their work cut out for them. However, the team is acquiring new strength from freshmen and sophomores who were not given much chance to break in among the veterans when the season opened.

Bob Campbell, the sophomore halfback, is the outstanding star thus far developed and in the three games since he was given a job on offense, he has responded brilliantly. Against Rollins, his best run netted 22 yards. In the George Washington, he got away for 64 and a touchdown while in the South Carolina, he raced 60 on one occasion and had two other gains of over 25 to his credit.

Art Dunlop, a home town boy, is moving up the notches at end while Bob Carroll of Ft. Lewis, N. Y., on the B squad in early season, has now become the No. 2 left tackle. Wallace Lutz, another B graduate, was making things look brighter at center until a twisted knee felled him but he will be heard from in the November drive. Tom Flynn of Upper Darby is earning more assignments at guard.

Fumbles at crucial moments have turned the tide in at least two of Miami's non-winning games and an intercepted pass started the trouble in another and the squad insists it is a lot better than its season record. They figure they have at least one upset victory in their systems and if they can correct their own mistakes they will go a long way toward getting one of those upsets started.

slightly opened his eyes and said: "Good, don't you see, the rules? How come you fell on that punt in the Pittsburgh game?"

The Easy Way Babe Didrikson Zaharias, the golfer, had just signed for a series of appearances at Sportsmen's shows and was explaining that she would demonstrate golf shots and might try a little fly casting. . . . Can you cast a fly? Someone asked. . . . Babe blushing admitted that she usually flipped the worm through the brush around Colorado trout streams. . . . "George is the good caster," she added, glancing fondly at her huge ex-wreather husband. "He waves it back and forth, back and forth, then he lets go the line and says to me: 'Honey, you have your boots on. Get the fly out of that tree for me.'"

Dotz All, Brothers C. C. Hildebrand, who played on Penn State's first football team, will celebrate a double anniversary Saturday when the Nittany Lions meet Temple. He'll be 82 years old that day and will watch Penn State play its 500th intercollegiate game. . . . Southern football fans are calling Louisiana State an Army "farm." Five former I.S.U. men are on the Cadet roster this season.

COLORED BAPTISTS You are cordially invited to attend the St. John Baptist Church at Cypress Avenue and Tenth Street, Sunday. Rev. O. V. Pinkston of Silver Springs will be in charge of the services throughout the day. The public is invited to attend.

The U. S. people on the average do not consume three times as much cocoa and chocolate as they did in the years between 1909 and 1916.

Mancha Said To Be Big Reason For Tide Getting Bowl Bid

TUSCALOOSA, Ala. Nov. 7 (AP)—Alabama's 1947 Crimson Tide lands in one of the major bowls next New Year's day, the biggest reason—physically, at least—will be Vaughn Hall Mancha, the 241-pound senior center from Birmingham.

The 26-year-old Mancha was All America as a sophomore in 1945 but was somewhat below that form for the early games last year and was overlooked by the pickers. This year is more like 1945, so far as he is concerned, and his work has been praised by coaches and sports writers in almost every Alabama contest.

Vaughn has been the regular center here since the University won a pre-season eligibility battle for his services from Auburn in 1944. He has started every game in four years except for the South Carolina contest in 1945 when "Bama's" second eleven started.

He handles his 241 pounds with catlike agility, and his lunge at opposing halfbacks who have the temerity to try his side of the line usually discourage such efforts early in each game. Georgia's Wally Butts says, "We've been trying to avoid Mancha for four years, now."

"One time we didn't, and our halfback was met on the line of scrimmage. He went one way and the ball the other, and Alabama recovered near our goal line for an easy touchdown."

Mancha, like several of his senior teammates at Alabama, is a product of the Birmingham High schools. He was a star center for Ramsey Tech for the 1938-41 years, and then worked in California for two years.

Ordered home for Army induction, he was rejected because of extremely poor vision in his left eye.

He is majoring in industrial arts here and expects to be graduated next spring. His wife, the former Sybil Little of Birmingham, is a mathematics instructor in the College of Commerce.

Mancha plans to play professional football next year, and then return to the University to study for a master's degree after the 1948 football season.

Silver Anniversary Meeting Of Gators, Bulldogs To Be Held

JACKSONVILLE Nov. 7 (AP)—Saturday will be the silver football anniversary for Georgia and Florida when those two universities tangle in the Gator Bowl here.

It will be the 25th anniversary, not in years but in the number of meetings between the two teams, and indications are that Georgia will do most of the celebrating, as the Bulldogs have throughout the series which started in 1915.

Georgia has won 19 of the 24 games, Florida holds four victories and once they battled to a scoreless tie. The last occasion Florida's Gators had cause to celebrate was 1940 after an 18-13 triumph.

Georgia appears to have better balance, more reserve strength and a distinct edge this year. But football being as unpredictable as it is and with Florida keyed up, Gator fans see a chance for their third decision of the year.

Georgia Coach Wally Butts might almost be said to side with those Florida partisans. He says: "We are expecting a hard game with Florida. They always are keyed up for us, they led us at the half last year, and after what they did to Furman last week, anything might happen. You recall we had a terrible time beating Furman by one touchdown."

"We are gradually pounding it to shape to give the Georgia game everything we have Saturday. Our boys would like mighty well to upset Georgia in this one, and I know they will play their hardest—and I hope their best—game."

Each coach is apprehensive of the passing ability of the foe. Wolf says his scouts report Georgia one of the finest passing teams in the country and has warned his linemen they'll have to stay "right on top of Johnny Rauch all the way."

Butts expresses admiration for the Gators' Doug Belden. Near the top in the Southeast Conference last season, Belden had a lot to do with 17 completions in 26 tosses against Georgia a year ago. Belden has been far less effective this season, with the end

TECH TOPS IN SOUTH

ANNAPOLIS, Md. Nov. 7 (AP)—Captain Tom Hamilton, Navy's football coach says the Tars will be meeting the "best team in the south" when they tangle with Georgia Tech in Baltimore Saturday.

Hamilton forecasts "a ding-dong battle, a wide-open affair with lots of passing and maybe a free scoring afternoon." Hamilton says he believes Georgia Tech is "probably better than Notre Dame," which beat the Middles 27-0 last Saturday.

Each ship has its individual "period of roll," the time it takes to roll from upright to one side, then to the other side and back to upright. This remains fairly constant under like loading conditions.

G.O.P. On Taxes

(Continued from Page One) respect the \$4,000,000,000 tax reduction measure to go over until January.

Knutson's committee handles tax legislation and the Minnesota has been the leading advocate of tax legislation at the special session.

After it broke up with Knutson's announcement that he thought there would be no special session action on taxes, Rep. Halleck (Ind.), the House Republican Floor Leader, told reporters:

"As far as I have contacted you determination to bring about tax no slackening in the Republican relief. However, there appears to be no demand that it come up in the special session. I think it is highly questionable that it will come up."

"Again I want to pledge to the people that the Republican Party will continue to fight for tax relief. Continuation of the wartime tax burden in peace time, with its drag on production and hardship to persons having small income, is intolerable."

War Contracts

(Continued from Page One) 1943, he told General H. H. Arnold, then the head of the Air Forces that: 1. The Hughes Aircraft Company was not qualified to build photo reconnaissance planes; 2. The contract for 100 of these planes might at a later date draw congressional criticism.

WASHINGTON Nov. 7 (AP)—A former wartime procurement officer testified today that top level officials directed him to sign a \$70,274,666 contract with Howard Hughes to build 100 photo reconnaissance planes.

Browning told a Senate War Investigating subcommittee that Patterson ordered him to sign the Hughes contract "approved by Maj. General Bennett E. Meyers, deputy assistant chief of air staff."

Unshaven and sleepy, Hughes told newsmen he would wait until he is asked to testify before replying to an assertion of Senator Williams (R-Del.) that Hughes and his companies owe the government \$5,919,621 in taxes for the war years.

Chairman Ferguson (R-Mich) of the subcommittee has asked most witnesses about Meyers' connection with the Hughes contract, both in hearings last summer and this week.

Browning said that as a "special representative of the Undersecretary of War" it was his duty to approve all contracts of \$5-

Red Celebration

(Continued from Page One) "will continue to pursue its consistent policy of struggle for the peace and security of the people. The foreign policy of the Soviet Union finds abundant support from the whole of progressive mankind which does not want a new war and is striving for a lasting peace."

"Our glorious armed forces stand on guard for the October (1917 Revolution) gains, on guard for the peaceful labor of Soviet peoples and the state interests of the motherland," the Marshal declared.

"Soviet soldiers, understanding the importance and responsibility of their tasks and unflinchingly perfecting their military skill, are steadily mastering the military experience of the patriotic war, further advancing military science, and are gaining new achievements in the strengthening of our armed forces."

"General Meyers was very insistent that a contract be entered into with Hughes for the purchase of 100 photographic reconnaissance airplanes," Browning said, telling of a conference Apr. 28, 1944.

Browning said Meyers told him General H. H. Arnold, then Chief of the Army Air Forces "wanted these airplanes purchased and it was up to the Wright Field officers to negotiate a contract with Mr. Hughes that would be acceptable to my office."

Browning submitted a prepared statement and copies of memorandums dealing with the matter. The memos showed that General Oliver P. Echols, Assistant Chief of the Air Staff in charge of procurement, wrote to Arnold Sept. 2, 1945, opposing purchase of the Hughes' plane. Only three days before, Elliott Roosevelt, then an Air Force colonel, had recommended the Hughes model to Arnold as "the only airplane already designed which is suitable for photographic purposes."

Hughes Insists Meyers Sought \$200,000 Loan

Procurement Officer For Air Forces Ac- cused Of Seeking Advance During War

WASHINGTON, Nov. 10 (AP)—Howard Hughes testified today that Maj. General Bennett E. Meyers tried to borrow \$200,000 during the war when Meyers was negotiating a multi-million-dollar plane contract with Hughes.

Hughes told the Senate War Investigating committee that when he turned Meyers down, "This resulted in a complete breach of friendship between me and Benny Meyers, and so far as I know he didn't speak to me again for two years," the lanky plane builder added.

Meyers, testifying to the committee last week, denied an earlier assertion by a Hughes attorney that he (Meyers) once tried to borrow \$50,000 from Hughes.

The committee is inquiring into circumstances of \$40,000,000 in plane contracts awarded to Hughes.

"When I finally and definitely turned down the loan proposition," Hughes said, "I thought General Meyers was going to find some way to throw a monkey wrench into that F-11 (photo reconnaissance) plane contract if it was (Continued on Page 5)

Ring Eclipse Of Sun Will Be Seen At 12:00 Nov. 12

NEW YORK, Nov. 10 (AP)—There will be a ring-eclipse of the sun Wednesday that will reach its center, or maximum, at about 12:00 noon (EST). United States the eclipse will be no sky show even, though persons in California, looking through smoked glasses, will be able to see almost 40 percent of the sun's face covered.

The area of the sun shadowed by the moon drops rapidly eastward across the United States, until at Washington it is four hundredths of one percent. The northeastern United States will not see it at all. In the middle Michigan persons looking at about noon should see a visible bite out of one side of the sun, shaped just like the bite of human teeth out of the side of a piece of pie. Somewhere in the United States will be the golden ring which distinguishes this eclipse as visible. That will be seen only at the center of the eclipse which will be out over the Pacific Ocean, starting south of the Aleutian Islands.

The ring is due to the fact that the moon is so far from earth at that time that its face does not fully cover the sun's face. The moon's face, a little smaller, so that the edge of the sun appears all around the black moon which is a ring of fire. Astronomers call it an annular eclipse.

Wallace Sees Signs Of Violence In U. S.

ST. LOUIS, Nov. 10 (AP)—Henry A. Wallace, who just returned from a European tour told a St. Louis audience last night he had found "the pattern of mob violence becoming clear in my own country."

The former Vice President and Secretary of Commerce said in an address sponsored by the Progressive Citizens of America that "this pattern is not unfamiliar to those who witnessed the rise of Fascism in Germany and Italy."

"It is an inevitable product of the campaign of hatred, fear and suspicion which is being carried on by the newspapers, over the air and by the highest officials of our government."

Turning to Wall Street, Wallace said: "Just so long as they can keep the majority of our people talking about Communism and fear of the alleged threat of the Soviet Union, the mob of Wall Street can attack our living standards with impunity."

"Wall Street stooges distract us by whipping up hatred for former allies abroad and hatred for fellow Americans at home. Wall Street's program leading us to war and depression is being carried forward without real public knowledge."

The City Commission will meet in regular session this evening at 7:30 o'clock.

Jackson Says Farm Ruling Is Absurd

WASHINGTON, Nov. 10 (AP)—Justice Jackson slapped "an absurdity" label today on a ruling by five Supreme Court colleagues that a farmer buying federal crop insurance must keep informed on government regulations in the "federal register."

If the farmer, Jackson said, were to read "this voluminous and dull publication as it is issued from time to time in order to make sure whether anything has been promulgated that affects his rights, he would never need crop insurance for he would never get time to plant any crops."

Jackson wrote the dissent to a 5-4 decision in which Justice Frankfurter spoke for the majority. Frankfurter's majority ruling said the Federal Crop Insurance Corporation need not pay \$3,000 to Merrill Brothers, a farming firm in Bonneville County, Idaho, because of the failure of a 1945 wheat crop.

Truman Credits Greek Freedom To American Aid

WASHINGTON, Nov. 10 (AP)—President Truman told Congress today that "Greece is still free" because of American aid but her economic plight "has not basically improved" and the military picture is worse.

That is the way, Mr. Truman said, things stand as of Sept. 30, four months after Congress set up a \$400,000,000 fund to help Greece and Turkey combat Communist pressure from inside their borders.

Godfrey Program Honors Seminole County, Mayfair

Arthur Godfrey, noted CBS radio commentator, was today presented with a shiny gold Seminole County deputy sheriff's badge with his name engraved upon it during the Chesterfield broadcast with Wendy Barrie, former screen actress and winter visitor to Sanford as the donor in behalf of Sheriff Percy A. Mero and the Seminole County Chamber of Commerce, whose one it is, Edward Higgins, thought up the idea.

Mr. Godfrey told a telephone call from Lind Weber, manager of the Mayfair Inn, inviting him to come in Sanford and enjoy real hospitality. The studio audience applauded loudly when Godfrey said Weber had hired a plane (Continued on Page 5)

Railroads Rapped For Race Discrimination

WASHINGTON, Nov. 10 (AP)—Congress for 21 negro firemen asserted in district court today that southeastern railroads and some union leaders are flouting the Supreme Court to maintain a ban against negro firemen on diesel locomotives.

Philip Murray Hails UMW's Reuther

ATLANTIC CITY, N. J., Nov. 10 (AP)—CIO President Philip Murray stepped into the gallant fight in the United Auto Workers today and gave high praise to President Walter Reuther.

Murray said in a speech to the U. A. W.—C.I.O. convention: "I have no adequate words to express my appreciation for the support the little red-head has given me."

He had milder words for Reuther's bitter political opponents in the big CIO union.

Murray referred to Vice President R. J. Thomas as "Old R. J." and said "He's sometimes a little membership, but not a bad guy."

Of Secretary-Treasurer George Addes, Murray said "I think George Addes is a man of integrity. He has certain outstanding qualities."

Marshall Asks Congress For Half Billion

Congress Group Told Europe's Needs Are Greater Than Esti- mate Of Committee

WASHINGTON, Nov. 10 (AP)—Secretary of State Marshall asked Congress today to supply \$597,000,000 in emergency aid to meet a "real" and "urgent" need in France, Italy and Austria.

The Secretary, appearing before a joint meeting of the Senate and House Foreign Committees a week before a special congressional session, said that long-range help for these and other countries may eventually cost \$16,000,000,000 to \$20,000,000,000.

That is higher than a 19-man citizens committee had estimated. But Marshall commented it is impossible to calculate the amount accurately now.

With Europe dependent on American help to get back on her feet, Marshall told the legislators in a statement that decisions in the forthcoming special session "will be no less important for the future of our country and the world than those of the war years."

Marshall said that in the aid program the "risks are real" but the "chances of success are good" in helping the people of western Europe preserve their free society.

Aphaiwongse Named Premier Of Siam

BANGKOK, Nov. 10 (AP)—Luang Aphaiwongse was appointed premier of Siam today and a five-member privy council was named to head the government following a bloodless coup yesterday directed by wartime Dictator Phibul Songkram.

The new privy council replaces the regency for King Phumiphon, who attains his majority next month. The monarch, who is now in Switzerland, is expected to return to Siam next month.

The privy council immediately promulgated a new constitution, reviving some of the monarchial powers relinquished in 1932. Under the new constitution Siam's legislature will continue as a two-chamber body, but the members of the Senate will henceforth be appointed by the king instead of being elected.

Aphaiwongse served as premier on two previous occasions. He headed the government briefly in 1944 when Songkram was ousted because of public opposition to an ultra-nationalist program.

High School English Class Visits Herd

Fifth and six period English composition classes of Seminole High School, under direction of Miss Lucy Smith, were brought in a school bus to The Herald on Thursday and Friday afternoons as part of their course in "free speech and a free press."

There were 39 in the Junior Class group Friday, only two of whom were boys. They first visited the office where Editor R. L. Deann showed them paper mats used for the casting of metal plates used for printing pictures, cartoons and advertisements.

Much interest was shown especially by the boys in the typewriter machines which print the Associated Press dispatches. The four Linotype machines also were of much interest. Printers Allen Ball and Doris Norwood were quizzed concerning profits and type setup and the difference between a galley and a form was explained. Ulmer Cleland explained the operation of the press. Mrs. Lourie Beal gave a brief talk concerning advertising.

Lieut. Turner To Be Back From Overseas

First Lieut. Walter M. Turner, son of Mr. and Mrs. R. W. Turner, 915 Park Avenue, Sanford, who has been on duty as assistant adjutant general at Headquarters, Ryukyu Command on Okinawa, is returning to the United States for reassignment.

A graduate of the University of Florida, who was a member of the Phi Kappa Alpha Fraternity, Lieut. Turner entered the Army at Camp Standing in July, 1943, and had served with the 87th Infantry Regiment at Fort Benning, Ga. prior to leaving for assignment at Pacific theater in August, 1944.

PASSENGER BOAT ARRIVES AT SANFORD

The 55 foot Diesel powered Frenchman's Bay arrived Friday evening at the Municipal Pier from Bar Harbor, Me. and is now being readied for passenger cruises on Lake Monroe and the St. Johns River. Walter H. Leland, manager of the Frenchman's Bay Boating Co. and his crew, took a trial trip on Lake Monroe yesterday afternoon in spite of rough water which made docking difficult. The boat, which has a trim, graceful appearance, has a 15 foot beam, four-foot draft, is of 12 registered tons and makes 12 knots an hour. It accommodates 80 passengers, and is adequately provided with life preservers, fire control and other safety devices, according to the management. The back of the Band Shell will be remodeled to serve as a passenger waiting room.

Jewish Rights In Palestine Shown By Rabbi Skop

Rotary Speaker Says Arabs And Jews Can Solve Difficulties

The Arabs and the Jews will be able to get along together peacefully if they are given their independence in the Holy Land, Rabbi Morris Skop of Orlando told the Rotary Club today in an address on the Palestine situation in which he presented his argument in favor of partition on three levels, the religious, political and humane.

Introduced by Charles Morrison who had charge of the program which was held at the Tourist Center, and to which a representative delegation of Sanford's leading Jewish citizens was invited. (Continued on Page 5)

Four Persons Injured In Argentine Riot

BUENOS AIRES, Nov. 10 (AP)—Four persons, one of them an opposition member of the Argentine congress, were injured early today in a shooting-stoning fight which ended a radical party meeting in the city of Rosario de La Puntera, in northern Argentina.

Two of the victims, Antonio Lucas Lopez and Hugo Rodas, were reported seriously wounded by bullets. Tomas Gonzalez Funes, member of the national chamber of deputies for Mendoza province, was slightly wounded in the neck by a bullet. Nestor Willis was struck on the forehead by a stone.

Police restored order. Party members said a group of men concentrated at a saloon near the meeting site had started firing and that persons listening to the speakers replied with stones.

The gathering was one of a series being held in the interior by radical deputies in the interior March congressional elections.

9,250 Membership Cards Returned At Legion Roundup Here Saturday

A. Red Mann, state adjutant of the American Legion, today reported that the state roundup of membership held here Saturday afternoon was the biggest Legion roundup ever held in the State of Florida.

This was the first roundup in which returns were brought from all parts of the State by airplane. At the Municipal Airport, including five planes regularly scheduled to beach, sent a special plane with 127 membership cards. Other planes were from Pensacola, Jacksonville, Key West, Ft. Myers and St. Petersburg.

The roundup banquet at the Tourist Center, which Campbell-Lessing Post No. 48 was held, was attended by nearly 200 Legionnaires and their wives. Decorations were put up under the direction of Mrs. Henry McLau- (Continued on Page Three)

Residents, Tourists Urged To Join Club

Local residents as well as winter visitors, are urged to join the Sanford Tourist Club and enjoy its facilities and program during the winter season, according to E. M. Armitage, director of tourist activities.

He pointed out today a brand new innovation for enjoyment of "checker-minded" members of the club, an extremely attractive red and black checker board, 17 feet square and painted by O. D. Handress and Marcel Faith on the cement court adjoining the Tourist Center Building. The checkers used for playing are about four inches in diameter and are moved about or lifted by means of short poles equipped with hooks. The idea was first originated in Vancouver, B. C., said Mr. Armitage.

Workers today were busy putting up poles to provide lighting for the shuffle board and horse shoe courts which are being readied for playing.

MOLOTOV MISQUOTED
MOSCOW, Nov. 10 (AP)—The Soviet press published today corrections of earlier reports of Foreign Minister V. M. Molotov's speech Thursday on the eve of the 30th anniversary of the Bolshevik Revolution.

Reports published Friday used the phrase "second imperialist war" in referring to World War II. A correction today said Molotov had been misquoted and that the reference should be to the second World War, not to the second imperialist war.

Story Of Rescue In North Atlantic Told By Crewmen

31 Portuguese Fishermen Saved By U. S. Army Hospital Ship

NEW YORK, Nov. 10 (AP)—A back-breaking struggle with wind and waves in the tossing North Atlantic was just another arduous job to the seven lifeboat crewmen of the U. S. Army Hospital Ship Charles A. Stafford who rescued 31 Portuguese fishermen from a foundering schooner.

The report of the two and a half-hour ordeal at the sea's edge Tuesday 640 miles southeast of Newfoundland was told yesterday when the Stafford docked here. Two trips were made in waves of 30 to 35 feet high to take (Continued on Page 5)

Snow Continues To Fall In Middle West

By ASSOCIATED PRESS
New snowfalls as far south as northern Missouri last night deepened by two inches or more the covering already on the ground in western Nebraska and the northern Rocky Mountain region.

The northern Missouri snowfall had turned to light rain today, the Chicago Weather Bureau said, but added that snow still was falling in southeastern Iowa.

The snow covering from Alliance, Neb., westward into northern Colorado, Wyoming and southern Montana measures generally from five to eight inches, while Duluth, Minn., still has about six inches on the ground from an earlier storm and International Falls, Minn., has about 12 inches on the ground.

Elsewhere the weather was reported generally fair with temperatures near seasonal normals, although rain was falling southward from Missouri into Louisiana.

Two Trainmen Hurt In Texas Collision

LEONARD, Tex., Nov. 10 (AP)—Two trainmen were injured and scores of passengers were shaken up when the Missouri-Kansas-Texas' fast Bluebonnet Special from Kansas City ploughed into the rear of a freight train in a cemetery during a heavy mist, early today.

First reports said three crewmen were believed killed, but company officials later said none was killed and only two were hurt. The train was en route to Dallas. The wreck occurred about 20 miles south of the Texas-Oklahoma line.

The passenger train, traveling at an estimated 55 miles an hour, smashed into the rear of the freight train which was moving off of the main line onto a siding.

Russia Offers New Plans For Palestine

Effort Is Made By Soviets To Reach Agreement On Par- tition Of Holy Land

LAKE SUCCESS, Nov. 10 (AP)—Russia offered a new plan for enforcement of Palestine partition today in an avowed effort to reach agreement with the United States and open the way for creation of sovereign Arab and Jewish states in the Holy Land.

An observer who attended a secret meeting of U. S., Russian, Canadian and Guatemalan representatives on a "partition" subcommittee of the United Nations assembly said the new Russian plan would provide:

1. That the 57-nation assembly elect a three or five-member U.N. commission to supervise administration of Palestine until the proposed Arab and Jewish countries become independent after partition. The commission would be responsible to the Security Council. Previously Russia had called for a commission to be appointed by the Security Council.
2. That the interim period begin when the assembly makes a partition decision and end July 1, 1948, with the creation of two new nations.
3. That the British remain in Palestine until May 1, 1948. (Continued on Page 5)

Reds Expel Heads Of Opposition Party

ISTANBUL, Nov. 10 (AP)—Travelers arriving from Bulgaria report that the Communist dominated cabinet of Premier Georgi Dimitroff has for the past two weeks been expelling all opposition leaders from Sofia, the capital, and shipping them with their families to northern Bulgaria.

These sources said that among those expelled from Sofia were N. Moushahoff, newspaper editor and a leader of the Democratic Party, and Athanas Bourloff, former premier and a leader of the Agrarian National Union, whose chief, Nikola Petkov, recently was executed.

The travelers said that about a month ago 200 families were expelled from Plovdiv in southern Bulgaria in a single day and dispersed to small villages where they were compelled to report to the police three times daily.

The Plovdiv incident caused much comment, the travelers said, and the government has been less drastic since, apparently confining itself to moving anti-government leaders from their areas of influence.

They said the Bulgarian borders have been sealed and it is now almost impossible for dissidents to escape. Nine men were killed a month ago while trying to flee into Turkey, they said.

The Kwanza Club's Ladies Night banquet will start tonight at 7:30 o'clock at the Mayfair Inn and a program of entertainment will be presented under direction of Edward F. Lane.
