

## NATION WIDE STRIKE SEEMS SURE TO COME

### Only Governmental Inter- vention Can Forestall Walk-Out, Say Leaders Of Union

WASHINGTON, June 14.—(AP)—The White House today issued a formal denial that the President had ordered General Johnson to withdraw from steel strike negotiations. Earlier Johnson himself had denied reports, saying that he had withdrawn his settlement proposal and he found he could do nothing more. Publication of the report brought the first formal denial from the present Administration. The denial generally is regarded as showing the President in standing strongly behind his Recovery Administrator, Stephen B. Elroy, secretary to the President, in the statement declaring the report "without any foundation of fact."

PITTSBURGH, June 14.—(AP)—A convention, dominated by union leaders belligerently demanding "recognition" or a nation-wide steel strike, met for an hour and a half today and then recessed while the credentials of its delegates were examined.

Delegates off the convention floor voiced the belief that only governmental intervention could forestall a strike.

As they were filing out of their meeting place, General Johnson, in Washington, was saying "I don't see anything more I can do. If there was anything more I could do I would try but you can't trade with a man who won't trade. I made a suggestion but they would make no concession."

The convention is attended by 200 delegates from over the country, representing numerous lodges of the Amalgamated Association of Iron Steel and Tin Workers.

The Administration in an effort to avert strikes yesterday headed to Congress a bill built around the proposed right of the government to hold secret elections to choose workers for collective bargaining.

Administrative leaders at the head of the White House, spent the day in an effort to ascertain whether the bill could be passed without a controversy so prolonged as to delay Congressional adjournment.

The bill was an abbreviated and amended form of the Wagner labor board and the Weirton Steel Administration had indicated approval but which threatened to throw Congress into prolonged quarreling.

The crisis of the measure was in the workers' election clause. It was on this point that the national labor board and Weirton Steel Company disagreed.

City Commission Meet Adjourns Tomorrow

A postponed adjournment meeting of the City Commission has been held in the City Hall last night, was postponed until next Monday night.

Continued illness of Commissioner T. L. Dumas, confined to his home with erysipelas, and absence from the city of Commissioner S. O. Shindler, was given as the reason for a second postponement of the regular meeting.

Storm Moving Into Middle Of Gulf

WASHINGTON, June 14.—(AP)—The Weather Bureau today issued the following warning: "A stormy activity at 11 A. M. at the tropical depression central about 20 degrees 30 north and 80 west is apparently moving very slowly northward toward the Gulf of Mexico near the center of the storm."

## Estimated Value Of Fruits, Produce Sent From State In 1933-34 Set At \$69,000,000

JACKSONVILLE, June 14.—Florida's 1933-34 shipping season will probably have as the total harvested from the state's farms and groves, 133,000 carloads of fruits and vegetables, with a value of approximately \$69,000,000, in the opinion of Frank Scroggs, statistical expert of the Florida State Marketing Bureau.

Mr. Scroggs made the estimate in a preliminary report on the season, which does not officially close until July 31, issued yesterday. The total in tonnage compares favorably with the 1932-33 shipping season and the estimated value of the Florida harvest is in excess of the total for the previous season when the value was listed as \$68,930,443.

This season through June 10 has seen a total of 98,890 carloads of rail and boat shipments

with an estimated gross FOB track valuation of \$58,364,000. Mr. Scroggs listed in the report, "Shipments yet to go will probably extend the movement to 102,000 cars, and the valuation to \$69,000,000," the report continued.

"This compares favorably with the 1932-33 season when 98,430 carloads were shipped with an estimated gross FOB valuation of \$49,436,000, not including \$4,125 carloads of fruits and vegetables trucked out of Florida, or else canned or consumed in the state, with an added value of \$9,494,000, making a total value of \$58,930,443 for the 1932-33 season."

Mr. Scroggs is of the opinion that the quantity and value of the fruits and vegetables trucked out of, canned or consumed in Florida during this season will more than (Continued on page two)

## FOREIGN TRADE TRENDS FOUND AGAINST U. S.

### Peek Survey Of World Deals With America In 38 Years Shows Us At Disadvantage

WASHINGTON, June 14.—(AP)—George N. Peek in a report to President Roosevelt on a study covering the past 38 years of America's foreign trade, asserted yesterday the trend "has been completely disadvantageous to us."

Peek, special advisor on foreign trade to the President, advocated the creation of a balance sheet between this country and the rest of the world. He it would be placed in black and white the trade balance with each country.

He declared imports and exports must balance in the long run. On the basis of the past 38 years, he asserts the world is in "debit to us for goods" in the amount of \$26,040,000,000.

Adding in governmental and private loans to Europe during the war and subtracting investments made by foreigners in this country, Peek added another \$22,045,000,000 to the debit owed this country by the world. Of this he said: "Our national assets will be diminished by the amount of this debit which is not paid."

Pointing to figures from 1896 to 1933 inclusive, he said: "In our international commercial relations we have not utilized the simple device of a balance sheet to discover whether we have been doing business at a profit or at a loss. As a result of the periods covered by the figures, these exports and imports have been grossly out of balance; nevertheless we have pointed with pride to our 'favorable balance of trade.'"

He set down the following table for the 38 years:

The United States sold to the world goods valued at \$121,250,000,000.

The United States bought from the rest of the world goods valued at \$95,210,000,000.

These transactions place the world in debit to the United States. (Continued on Page Two)

## Woman Is Convicted Of An Annuity Charge

Ann, Belle Pope, negro woman who went on trial at the Court House yesterday morning on a charge of assault with intent to commit murder, in the first degree, was convicted late yesterday by a jury which decided that she was guilty of a charge of assault with intent to commit manslaughter.

Judge Milford B. Smith, presiding over the spring term of Court, deferred passing sentence upon the Pope woman.

A large crowd was at the Court House today listening to the trial of J. T. Fortier, middle-aged white resident who resides near the Municipal Cemetery, charged with a statutory offense.

The jury in the Fortier case is composed of D. K. McNabb, W. T. Walker, C. J. Selby, Ed. Partin, C. E. Hasty, and Hugh Torrance. The plaintiff in the case, a girl of 15 years of age, was on the stand this morning and early this afternoon.

## JEWELRY STORE ROBBED

HAVANA, June 14.—(AP)—Five men armed with machine guns and pistols held up a jewelry store here Tuesday afternoon and escaped with property valued at \$2,400.

## Gross Public Debt Of United States Will Reach All-Time High Mark Friday

WASHINGTON, June 14.—The gross public debt of the United States will reach an all time high of about \$27,000,000,000 on Friday.

The wartime peak of \$26,596,701,648 was reached Aug. 31, 1919. Friday is the date of a bond issue of \$300,000,000 and a note issue of \$500,000,000, both announced some time ago. The former was eight times oversubscribed and the latter nine times.

Treasury officials said that judging from the reception given these issues, financing of recovery plans would be accomplished without trouble.

## France, Unable To Make Debt Payment, Seeks Extension; England Cool To U. S. Offer

### Validity Of Amounts Due Is Admitted In French Note Which Asks For Extension

WASHINGTON, June 14.—(AP)—France notified the United States yesterday that it was not able to pay the debt installment due June 15 but was prepared to seek a new debt agreement acceptable to both countries.

In a note which Administration officials received as more conciliatory than the previous French announcements of default, that country placed itself alongside Great Britain, Belgium and Czechoslovakia as countries which have announced they will not pay on June 15.

Shortly before the letters were made public, President Roosevelt declared that his government in its note to England last night had simply indicated a willingness to consider new proposals by the British government, including suggestions for part payment in goods and services.

The French note said that government recognized the validity of the \$3,960,772,238 due to the United States but because of unchanged conditions would be unable to pay at this time.

France is in default to the amount of \$2,308,312 through failure to make any payments since the Hoover moratorium. In addition, it has an installment of \$1,652,461 falling due on Friday.

## Weird Campaign Of Terror Uncovered By Paris Police

PARIS, June 14.—(AP)—A weird campaign of terror by "The Three Judges of Hell" who have threatened the lives of the President, Premier and other high officials of France, was revealed today when a bomb which failed to explode was received by an American firm.

The bomb mailed yesterday by "The Three Judges" exploded in a postoffice, injuring three clerks.

Letters threatening death were contained in both bombs, and also have been sent to President Lebrun, Premier Doumergue, members of the cabinet and other distinguished men.

The second internal machine was discovered today by patrol post in "Lokson," a large American tourist product firm controlled by Virgil Neal.

The girl mail clerk's life probably was saved by the quick realization that a faint metallic sound as she started to open the package was caused by a spring intended to explode the bomb. Police expressed a belief that the letters and bombs are the work of a crank.

## Annual Flag Day Fete At Elks Club Tonight

Annual Sanford Elks Lodge Flag Day exercises will be held at the lodge rooms tonight, starting at 7:30 o'clock, and the public is invited to participate.

Exalted Ruler F. C. MacMahon will give a history of the Flag, and past exalted ruler G. W. Spencer will make the principal address. Mrs. R. L. Glenn will render several songs with the Sanford Concert Orchestra as accompanist.

When the program has been completed, women of the Elks Auxiliary will serve free refreshments, after which the guests will be invited to dance to the music of Beckham's Orchestra. A small charge will be asked for the dance, with the proceeds to go to the Elks Charity fund.

## Absentee Ballots For June 26 May Be Cast

County Judge J. G. Sharon has announced that absentee ballots for the second primary of June 24 may be cast at his office until midnight June 22.

Five ballots had been cast through yesterday, although the official ballot had not been printed. County Clerk V. E. Douglas ordered official ballots printed today, and it was stated that they would be at Judge Sharon's office of general interest are to be discussed.

## GERMANY DECLARES MORATORIUM

### Loss Of Gold Coverage On Issue Of Marks Results In Drastic Step For 6 Months

BERLIN, June 14.—(A.P.)—The Reichbank today declared a six month moratorium on its foreign obligations, including the Young and Dawes loans.

No cash transfers will be made from July 1st to Dec. 31 of this year.

For weeks past, international banking circles have been watching the financial situation in Germany with the keenest interest.

Gold and foreign exchange coverage in the Reichbank on the issue of marks has dropped below 2.7 percent.

Dr. Hjalmar Schacht, president of the Reichbank indicated that stringent steps were necessary to prevent further cuts into the coverage on the mark.

The loss of gold was attributed to payments on German imports.

## Tampa Gets Heaviest Rainfall On Record

TAMPA, June 14.—Tampa waded out of the heaviest 24-hour rainfall in the 44-year history of the weather bureau yesterday and took inventory of damage estimated at thousands of dollars.

Pedestrians, motorists and street car passengers encountered flooded streets, washed out pavements and other traffic hindrances yesterday morning and emergency repair crews from the city engineering department and the electric company worked every time in snatching rails.

Weather bureau records revealed the total rainfall between Tuesday morning at 11:15 o'clock and Wednesday morning at the same hour was 7.81 inches, more than half an inch in excess of the previous 24-hour record of 7.25 inches established Sept. 6, 1927.

The heaviest downpour was yesterday morning between 4:45 o'clock and 5:32 o'clock. During this 45-minute period the total precipitation was 2.18 inches, a scant 11 of an inch below 46-minute record of 3.32 inches recorded Aug. 17, 1932. This storm, however, was of short duration.

## Sanford-Vero Beach Game Rained Out

Manager Sid Rive's Sanford Calerys were spared a major trip to Vero Beach this morning when a telephone call to Manager Jimmy Barrett of the Vero Beach Jaycees, revealed that it was raining in torrents in that city, and that there would be little opportunity to play a scheduled Central Florida League game this afternoon.

Word from Kissimmee also went to the effect that the Cocoa-Kissimmee game was called off because of rain. The two games will be played as parts of double-header later on.

## WAGE INCREASE MADE

NEW YORK, June 14.—(AP)—The Standard Transportation Company, a Society Vacuum Oil unit, announced Monday an approximate 10 percent pay increase for its marine workers. The company said this would bring wages of these workers to the level prevailing two years ago.

Florida has over \$140,000,000 invested in highways, some of which no doubt are necessary.

Florida has over \$140,000,000 invested in highways, some of which no doubt are necessary.

Would it be correct to say that America is shell-shocked over the European attitude toward war debt payments?

Some day someone is going to write a column about newspaper correspondents, "The Stews Behind the News."

Isn't it funny that most back seat drivers don't know the difference between the carburetor and the differential?

If American millionaires continue to take their families abroad because of the fear of kidnaping, this country is liable to lose a lot of good business.

The Sanford Zoological Society is planning extensive improvements in connection with the municipal zoo.

In the final count Pepper reduced the number of votes separating him from Park Trammell.

Not everyone reads his newspapers carefully or knows his politics.

An English scientist says there's no danger of the noise and racket of modern life destroying the population.

President Roosevelt has been given the power to raise or lower tariffs by fifty percent.

Down in Dade county a candidate for office admitted he had spent more during his campaign than allowed by law.

Huey Long explains how tariff laws have been passed.

Governor Sholem is planning to undertake an interesting expedition.

The New Market

The recent announcement that funds have been secured through the FERA for the erection in this city of a Farmers' Wholesale Distributing Market, offers more real encouragement as to the future of Seminole County than anything we have seen in a long time.

Coming just at this time when the celery season is closed, the farmers are wondering what they are going to do next, and labor is largely idle, the undertaking of such a large project should afford encouragement to everyone.

So all in all, we feel that it is a wonderful piece of news for our county, this building of the Farmers' Wholesale Distributing Market here.

Comptroller Lee's Appeal

Pointing out that "the taxpayers are those who balance the budget; not public officials," J. M. Lee, State Comptroller, has issued an appeal urging everyone to make a little greater effort to attain the goal which this year appears possible for the first time in several years.

"June 30th marks the end of the State's Fiscal Year; the time when we are expected to pay all bills and enter into a new year without debt," Comptroller Lee declares.

"The taxpayers of the commonwealth are those who balance the budget; not public officials. They accomplish this by the payment of taxes legally levied against them and in this respect the people of Florida as a whole have done well.

"When all of Florida moves in a common cause there can be no failure. Let's go!"

SANFORD, TWENTY YEARS AGO

Before her departure for Tampa, Mrs. G. B. Waldron was delightfully entertained by her many friends in Sanford with teas, dinners, and parties.

Down in Dade county a candidate for office admitted he had spent more during his campaign than allowed by law.

Georgia Rail Freight Rate Probe Is Held Up

Virginia Offers Auto Tag License Treaty

RICHMOND, Va., June 13.—(AP)—A treaty for reciprocal motor license agreements Monday was sent by John C. Eboles, director of the division of motor vehicles of Virginia, to Georgia and Florida authorities.

THINGS BECOME CLEARER

BY WALTER LIPPMANN

Ever since the end of the honeymoon period sometime in the late summer of last year, there has existed a powerful body of opinion which has held that under the guise of emergency relief and social reform the Administration was deliberately establishing a socialist planned economy.

It has been based in part on remarks made at various times by some of Mr. Roosevelt's lieutenants. But these would have made no great impression had it not been possible to make a case by pointing to the new measures as evidence that the Administration was opposed to private enterprise for private profit.

The other view, which is the one I have adopted in these columns, was that there was no conspiracy but that there was confusion which produced defective regulations.

Looking at these decisions as a whole, there can be little doubt as to where the Administration means to go. It does not mean to go in the direction which Mr. Sullivan and the Republican party have feared that it was going.

It would be a mistake to believe that the confusion has been cleared away. We may be certain that it has not been cleared away.

It would be a mistake to believe that the confusion has been cleared away. We may be certain that it has not been cleared away.

It would be a mistake to believe that the confusion has been cleared away. We may be certain that it has not been cleared away.

FOREIGN TRADE TREND FOUND AGAINST U.S.

(Continued From Page 1)

Peek analyzed the figures to show that the value of American imports of goods is less than 70 percent of our exports.

The President had no immediate comment other than to say in a letter to Peek that the figures were "of tremendous interest" to him.

At the end of Peek's study he analyzed the three years from 1930 to 1933, termed by him "the deflation period" to show that the world owed us in goods \$1,631,000,000 for this time.

Figuring in "services rendered by us to the world," tourist money spent abroad, debt payments and investments, Peek estimated that this four year period actually decreased the debt owed this country by the world by about \$1,768,000,000.

Alabama Youths Held As Extortionists

FLORENCE, Ala., June 14.—(AP)—Trapped when they picked up a "dummy" package through here Tuesday to catch the writers of an extortion note to B. A. Rogers, former state senator and wealthy department store owner, two youths were held in jail here Tuesday night.

Deryl Hazood, 16, and Allen Duncan, 17, were arrested a few seconds after Rogers, obeying instructions in a letter received June 6, threw the package from his automobile on a downtown street, at a given signal.

The extortion letter instructed Rogers to pay \$5000 in the package. He was warned that his store would be "blown up" if instructions were not followed.

Bank Deposit Bill Is Sent To Roosevelt

WASHINGTON, June 14.—(AP)—Congress Tuesday sent to President Roosevelt a bill to protect bank depositors and to aid those with funds in closed banks to get their money.

In addition to extending the temporary bank deposit insurance law for another year, the bill contains a compromise of the McClellan pay-off bill which has caused so much controversy in the House.

It would authorize the Reconstruction Finance Corporation to lend on more liberal terms to closed banks, or to buy their assets. Jesse H. Jones, chairman of the corporation indicated to con-

Estimated Value Of Fruits, Produce Sent From State Settling

(Continued from page one) equal that of the 1932-33 season and it is on that comparison that the Treasury balance on May 31 stood at \$3,788,524.73, of which the general revenue fund had \$717,269.02.

The 1933-34 season saw the heavy-tension movement in history, according to the report, and the prices for the product were "ordinary to fair." Of the other products, Mr. Seruggs pointed out: Tomato growers for the most part enjoyed a fine season. Growers of strawberries, celery and peppers had fair success. Cabbage was in heavy supply but moved at very unsatisfactory prices.

In the preliminary report he listed the Florida rail and boat movements for the year on through June 10 as follows: Citrus fruits, 53,100 cars with a gross FOB track value of \$30,000,000; strawberries, 1808 cars, value \$2,874,000; watermelons, 1016 cars, value \$310,000; beans, 9298 cars, \$5,683,000; cabbage, 3360 cars, \$1,128,000; celery, 8324 cars, \$1,948,000; peppers, 1494, \$1,219,000; potatoes, 5689 cars, \$3,170,000; matatoes, 7684 cars, \$3,270,000; mixed shipments and miscellaneous commodities, 7107 cars, \$3,747,000. Total shipments, 98,800 cars; total FOB track value, \$58,364,000.

The bureau's annual report will not be issued until about Sept. 15, the usual date, it was explained yesterday. The figures contained in the annual report are checked

State Treasury Said Improved Condition

TALLAHASSEE, June 14.—(AP)—The Treasury balance on May 31 stood at \$3,788,524.73, of which the general revenue fund had \$717,269.02.

Warner Baxter and Rosemary Ames as they appear in "Such Women Are Dangerous," a Fox comedy-drama, combining romance, spicy intrigue and tantalizing mystery.

## Mrs. C. E. Henry Is Guest Of Honor

Mrs. C. E. Henry, of Jacksonville, formerly of this city, who is spending a few weeks at the Montezuma Hotel, was honored guest at a bridge party given yesterday afternoon by Mrs. A. L. Herts at her home on Palmetto Avenue. Mrs. Henry received an old-fashioned picture holder as a memento of the occasion.

## Mrs. McKim Hostess To Orphanage Club

Mrs. W. M. McKim was hostess to the members of the Santa Parker Methodist Orphanage Club at their regular meeting held yesterday afternoon at her home, 212 West Tenth Street. Mrs. W. E. Wells led the devotional and Mrs. P. D. Parker had charge of the business session.

During the social period refreshments were served by the following: Mrs. J. G. Watt, Mrs. L. E. Wilson, Mrs. J. K. McTaggart, Mrs. W. M. McKim, Mrs. Clara Smith, Mrs. John Vanden, Mrs. W. S. Thornton, Mrs. Claude Horton, Mrs. J. H. Liles, Mrs. P. D. Parker, Mrs. W. E. Wells, Mrs. L. E. Sturdivant, and Miss Jane Waddell.

## Mrs. Seth Woodruff Entertains At Bridge

Mrs. Seth Woodruff entertained the members of the White Star Afternoon Bridge Club at a bridge party yesterday afternoon at the home of Mrs. J. W. Thompson on the Wee Wee Apartments.  
A number of progressions of bridge were played at the party, with high score prize, \$10.00, given to Mrs. Nellie Mable, who had low score, was the recipient of a similar prize. An interesting feature of the party was the playing of the bridge game which was given and sold.  
Those present were: Mrs. W. E. Bryan, Mrs. W. J. Waddell, Mrs. Claude Horton, Mrs. J. K. McTaggart, Mrs. J. W. Thompson, Mrs. J. H. Liles, Mrs. P. D. Parker, Mrs. W. E. Wells, Mrs. L. E. Sturdivant, and Miss Jane Waddell.

Mrs. Walter S. Coleman left today for Daytona Beach to spend the week end.

Mr. and Mrs. Benke, and children, Joyce and Walter, left yesterday for Macon, Ga., where they plan to spend a few weeks.

Mrs. Walter E. Hight and son, Bob, of Fort Myers are the guests of the former, brother-in-law and sister, Mr. and Mrs. Boby Lang, Mayfair.

Mrs. Mattie G. Pace and Mrs. E. R. R. left today for Madisonville, Ky., where Mrs. Pace will visit Mr. and Mrs. R. W. Pace for some time. They were accompanied by Mrs. Atlanta by Mrs. D. D. Lee.

Judge and Mrs. James G. Sharon, Mrs. Jane B. Smith, and Mrs. Jane Sharon were called to Madison yesterday by the death of Albert Lindberg. They are expected to return here Saturday.

Mrs. P. M. Hunt of Berkeley, Cal., left today for Washington, D. C., where she will visit her son, Captain Larry Hunt, who participated in U. S. fleet maneuvers. She has been here for the past few weeks visiting Miss Ruth Hunt at her home on Park Avenue.

Important business will be transacted at the regular meeting of the Elks' Auxiliary which will take place Friday evening at 8:00 P. M. at the Elks' Lodge on East First Street with Mrs. C. R. Reel and Mrs. P. H. Lansing as hostesses. Following the business session a social period will be enjoyed.

Important business will be transacted at the regular meeting of the Elks' Auxiliary which will take place Friday evening at 8:00 P. M. at the Elks' Lodge on East First Street with Mrs. C. R. Reel and Mrs. P. H. Lansing as hostesses. Following the business session a social period will be enjoyed.

## Friendship Class Elects New Officers

Annual election of officers was a feature of the regular meeting of the Friendship Class of the First Christian Church held Tuesday evening at the home of Mrs. A. H. Byrd with the members in attendance. A talk was made by Mrs. J. N. Byrd at Sunday School superintendent of Sunday School work after a business session. Devotion was given by Mrs. J. N. Byrd. Officers elected were: Mrs. J. N. Byrd, president; Mrs. J. N. Byrd, vice-president; Mrs. J. N. Byrd, secretary; Mrs. J. N. Byrd, treasurer; Mrs. J. N. Byrd, reporter; Mrs. J. N. Byrd, correspondent; Mrs. J. N. Byrd, delegate; Mrs. J. N. Byrd, alternate; Mrs. J. N. Byrd, proxy.

## Mrs. Byron Stephens Honors Miss Hagan

Entertaining for Miss Lenabelle Hagan whose marriage to Gordon Chertey will take place the latter part of the month, Mrs. Byron Stephens and her mother, Mrs. J. B. Ray, entertained with a bridge party yesterday afternoon at their home on Palmetto Avenue. Invitation to the bridge party was extended to a number of persons who were also invited for tea.  
The rooms of the Ray home were decorated for the occasion with a profusion of bright-colored sinmas, light-colored sinmas, and other garden flowers. The tables and other bridge appointments were in white and blue appropriate to the theme which the prizes were awarded.

## Indianan Electrocuted 'Owing' Huge Sums

MICHIGAN CITY, Ind., June 14.—"John Doe" went to his death recently in the electric chair in state prison here \$610,000 in the red from imaginary bets on horse races.  
The prisoner, whose real name has been withheld, posted his "bets" on the wall of the death cell and kept an accurate accounting of his winnings and losses.  
At one time he was \$40,000 ahead on imaginary speculation, but when they day came for his execution he had lost \$610,000 in his mental gambling.

## SALES INCREASE

NEW YORK, June 14.—Sale of National Bellows Hose Co. totaled \$28,675 in May compared with \$26,045 for the same month last year. For the first five months sales totaled \$132,597, against \$127,815 in the first five months of 1933.

## AUGUSTA MAYOR DIES

AUGUSTA, Ga., June 14.—(AP) Mayor Harvey H. Smith died today at 10:00 P. M. after a long illness. He was 67 years old.

## WOMAN SAVED FROM DEATH

NEW ORLEANS, June 14.—(AP) A woman was saved from death yesterday when she was rescued from a burning building.

## LUPPER KISSIMMEE JUDGE

KISSIMMEE, June 14.—San D. Lupper, Jr., has been appointed municipal judge, succeeding Judge Milton P. Lewis. O'Brien was reappointed city attorney.

## MISSISSIPPI JUDGE

MISSISSIPPI, June 14.—(AP) A woman was rescued from a burning building yesterday.

UNDERLYING LAW OF 50-50 FOUND BY K. BY TEACHER

Penny Experimenter At Georgia School Tells Of His Tests

By GLENN RAMSEY ATHENS, Ga., June 14.—(AP)—The underlying law of fifty-fifty is O. K.

That's what Professor Pope Hill, the penny experimenter of the University of Georgia, has said after 100,000 tests.

Professor Hill says, however, that he's been somewhat misrepresented, being called a "penny-flipper" when he actually has been weighing pennies from a can, an entirely different process—so he says.

Several years ago the professor placed 200 pennies in a can. A hundred of them were dated 1919 and the remainder 1920. They were weighed on chemical balances and paired according to weight. For each 1919 penny of a given weight there was one 1920 penny of the same weight.

The 200 pennies were thoroughly mixed and one coin was drawn and its date recorded. It was returned to the can, the pennies stirred, and another coin drawn and the date recorded. This was done 100,000 times.

Here's part of the result: Of the 100,000 draws 50,145 came out 1920 and 49,855 were in 1919. "The experiment," the professor said, "gives very strong evidence that the underlying law of half and half actually does work out in practice.

Another point studied was the number of "runs."

But let Professor Hill tell it in his own mathematical language: "If one date came out six times in succession we would call it a run of six, or eight times in succession a run of eight, etc.

"The theoretical number of runs of one and two combined was 37,600, the actual number 37,600. The theoretical number of runs of three, four and five is 10,938; the actual number 10,767.

"Of the runs greater than five the theoretical number is 1563 and the actual number was 1587 and these apparently check closely enough but there was a rather elusive bit at times very strong suggestion that the actual number of runs with the theoretical laws further study of my data will

show light on this point." The professor says the pulling out of the can of 100,000 pennies completes only the physical part of his experiment to test the law of probability. The record will furnish data for years of further study.

U. S. Marine Corps Seeks Enlistment Of 2350 Youths

SAVANNAH, Ga., June 14.—After a long period, when but few applicants were enlisted, the U. S. Marine Corps has started to accept 2350 youths.

The provisions of a recent act of Congress increased the strength of the Marine Corps from 15000 to 16000. This will leave it still 1500 below the strength three years ago. The remainder will be required to fill the places left vacant by discharges and other causes according to Lieut. Col. A. B. Drum, officer in charge, Marine Recruiting Office, Post Office Building, Savannah, Ga.

With a view of obtaining the best men, only those who have been graduated from high school will be accepted. Parents' consent for those who have not reached their majority and character reference are required.

Applicants are immediately sent to the Marine Base, Paris Island, S. C., upon enlistment, after which they are transferred to posts or ships where needed. Travel, adventure, sports and free education comprise some of the features offered.

Young men in Sanford and vicinity who are graduates of high school and desire service in the Marine Corps should write the Savannah office for application.

Roosevelt Calls For Collector's Office

WASHINGTON, June 13.—(AP)—Taking cognizance of the changes that employes of the Philadelphia office of internal revenue had solicited money for campaign purposes, President Roosevelt yesterday called for the resignation of Alvin H. Fix as collector of the first Pennsylvania district.

At the same time that the letter of the President was made public at the treasury Secretary Morgenthau removed William E. Brown as assistant collector.

Four subordinate were suspended for a year and another for a month in connection with the same charges.

JOURNALIST DEAD

SAVANNAH, Ga., June 14.—(AP)—Mrs. Marie Louise Myrick, a noted figure in Georgia journalism, died here Monday afternoon at 1:45 o'clock at the home of her son Shelby Myrick, after ten days of critical illness, following a stroke.

LOANS FOR FLORIDA

WASHINGTON, June 14.—(AP)—The office of Senator Trammell said Friday it had received information that the Reconstruction Finance Corporation had approved loans totaling over \$175,000 for two Florida drainage districts. The loans, it was said, were \$102,500 to the Inna district, Fort Myers and \$15,500 to the Wahnetta district, Winter Haven.

TWO DIE IN CRASH

MADRID, June 14.—(AP)—Two were killed and a score injured yesterday in a clash between fascists and left extremists at Playa, a river front resort near Madrid. The suburb was thronged with visitors when the two factions engaged in a gun battle. The battlers fled as guards joined the fray.

ACCIDENTS WILL HAPPEN EVEN TO MOST CAREFUL

Insurance Firm's Data Reveals Interesting Facts On Odd Claims

HARTFORD, Conn., June 14.—Even when you're most careful you'll be involved in some sort of an accident, records of a leading accident insurance company reveal.

Each year hundreds of thousands of dollars are paid out for claims, large and small of every imaginable description.

There was the man who shot a deer, had the head mounted and hung in his den. One winter's evening the mounting loosened from the wall, struck him on the head and fractured his skull.

A fisherman hauled a big catch into his canoe. The wriggling fish struck his gun and he was seriously wounded.

A hunter who blew his nose noisily was shot by a fellow hunter who mistook him for a moose.

Within the past three or four years, accidents while horseback riding increased almost 100 percent per 100,000 persons; boating accidents jumped about the same percentage; skating mishaps depended upon the mercury; mishaps at picnics increased more than 30 percent and with "return of the bicycle to popularity, the toll jumped nearly 500 percent.

One of the most unusual was that of a man suffering a broken leg who, in trying to turn over in bed, snapped the other one. The ever-present bar of soap in the bathtub results in a surprising number of bad falls.

There is a record of one accident with half-way pleasant result. A golfer addressing the ball was stung by a bee. The added impetus to the drive gave him a hole in one.

EARTHQUAKE RECORDED

WASHINGTON, June 14.—(AP)—An earthquake of slight intensity was registered on the seismograph at Georgetown University here yesterday, beginning at 4:33:26 A. M., reaching a maximum at 4:29 A. M., and ending at 5:25 A. M. The distance from Washington was estimated at 2000 miles, direction not indicated.

CONDEMNED MAN A SUICIDE

MCALISTER, Okla., June 14.—(AP)—John Lemke, 66-year-old convict condemned to die in the electric chair for slaying a widow committed suicide in his death row cell Tuesday at state's prison by hanging himself with a sheet. His body was discovered by a guard.

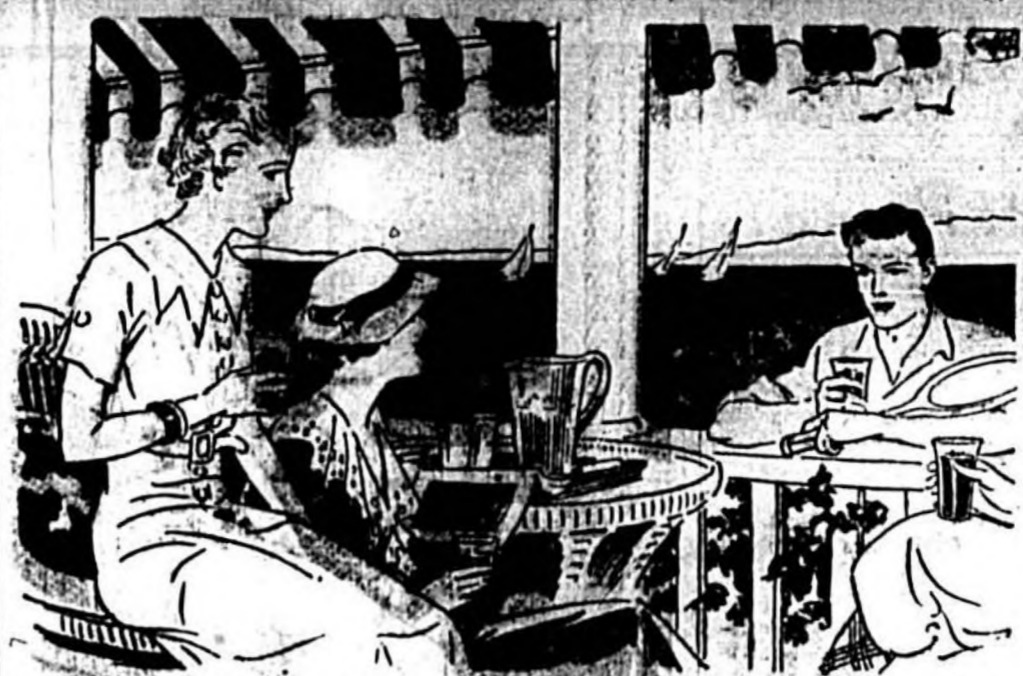

Twenty suits, eight overcoats, 12 hats, and 21 pairs of boots and shoes with other garments in proportion are necessary for the well-dressed man, according to American experts in such fashions.

The last slave in the State of New York was Margaret Pim, who died in Brooklyn in 1867.

A program has been adopted for a subway system in Rome that eventually will include six underground railways serving the entire city.

Operating in the principal of the stethoscope, an instrument invented in London enables a tester to detect leaks in water pipes and also to determine in which way the water is flowing.

All gonolias in Venice are black, by an edict of 1562.

FOR A THIRSTY SUMMER

It isn't necessary for a man or woman, boy or girl, to go "somewhere East of Home" to raise a thirst in summer. Our American summers always provide us with thirsts which we can contemplate with great satisfaction, as a nation, when we are comparing them with other thirsts. In fact our American summers have done more than that, for invention has followed our need, and we have a greater variety of delicious thirst quenching drinks in this country than in any other in the world. It may be our more liberal use of ice that has enabled us to do this, but on the other hand, it is equally likely to be our more liberal use of all sorts of delicious ingredients, each one of which lends its special flavor to a concoction so that tastes of every sort can be pleased and all thirsts assuaged. At any rate, here are some of the best of them, which have not only been carefully tested by a graduate distiller, but won't do you any harm because they are not of the kind Kipling had in mind when he advised that trip to the Far East, but temperance drinks, every one of them.

Tomato Drinks

"No other country has made as much use of the tomato as this one in making delicious and healthful drinks. Here are a couple of the latest variations on straight tomato juice:

Sparkling Tomato Beverage: Add the juice of one lemon, one tablespoon sugar and salt to taste to the contents of two 16-ounce cans of tomato juice, and have very cold. Add half a pint of ice cold charged water, and serve at once in small glass cups. This will make six cups.

Tomatoade: Heat two cups of strained tomato juice, or the contents of a 16-ounce can, and one-fourth cup sugar to boiling to dissolve the sugar. Add one-fourth cup lemon juice and one-half teaspoon Worcestershire sauce, and chill. Serve very cold in cocktail glasses. Serves six.

Plums and Apricots

Many fruits have been called upon to assuage the fever of our summer thirsts. Here are two recipes in which plums and apricots play their parts:

Irish Flipp: Boil one cup sugar and one cup water for a few minutes, tint with green coloring, and cool. Add the contents of a No. 2 1/2 can of green gage plums, pressed through a sieve, one-half cup fresh lime juice and two pints charged water. Serve with ice and garnish with a sprig of mint and a green cherry. Makes nine cups.

Golden Goblet: Steep one teaspoon tea in one cup boiling water for two minutes, and strain. Add four tablespoons sugar, and cool. Press the contents of an 8-ounce can of apricots through a sieve, and add with one cup orange juice and four tablespoons lemon juice. Serve over crushed ice with a sprinkling of nutmeg on top. Make four and a half cups.

Hawaiian Chocolate Drink: Boil together one 13-ounce can of chocolate syrup, two and a half cups water, and four tablespoons sugar for three or four minutes. Add one cup thin cream or evaporated milk, and chill. Add the contents of a 12-ounce can of pineapple juice, and pour over crushed ice. This makes six cups. If you like, shake it in a jar or cocktail shaker.

Fruit Beer: Dissolve one-third cup cornstarch in a cup of water, and one and a half cups fruit syrup (peach, grapefruit, etc.) and three tablespoons lemon juice. Heat one egg white stiff, and pour fruit juices over, beating constantly. Pour on two plates hot water, and serve at once over cracked ice. This makes eight or sixteen punch glasses.

DRINKING FOUND ON INCREASE IN SOUTHERN CITIES

Dry Leaders Have Data To Uphold Its Views On Repeal

WASHINGTON, June 14.—(AP)—To substantiate its "expectation" that arrests for drunkenness this year will far exceed the number "in the worst year of prohibition" the Board of Temperance, Prohibition and Public Morals of the Methodist Church has cited the police records of three southern cities—Birmingham, Jacksonville and Tampa.

Statistics on arrests for drunkenness were gathered from 45 cities throughout the country. In the three southern cities, the Board says the average monthly arrests for drunkenness were:

Birmingham: 78 in 1920; 491 in 1923; 292 in the first three months of 1933 and 647 in the first three months of 1934. These figures were cited to show that the increase during the first three months of national prohibition repeal over the first three months of 1933 was 121.57 percent.

Jacksville: 40 in 1920; 64 in 1923; 283 in the first three months of 1933; 326 during the first three months of legalized beer, and 362 during the first three months of 1934. The increase during the first three months of repeal over the first three months of last year was shown as 27.92 percent.

Tampa: 1923 figures missing; 625 in 1926; 314 in first three months of 1933; 345 first three months legalized beer and 576 first three months of 1934. The increase during the first three months of repeal over the first three months of last year was shown as 27.92 percent.

DAYTONA BEACH GETS PRIVATELY OWNED MARKET

County Agent Warns That Its Success Depends On Grower

DAYTONA BEACH, June 14.—Daytona Beach public market, recently established on Ballowhatch road by E. L. Shiles and F. R. Gale, must first be assured by growers of an ample supply of produce before the two men can arrange for interstate trucks to afford marketing, "Jake Harper, county farm agent, told some 20 farmers in an address at the market late yesterday.

tion point here, but if handled properly it will be a matter of only a few years until this market is known the country over as a place to get any quantity of high grade produce and citrus fruits," Harper said. "One thing certain, if you don't raise the stuff you certainly can't sell it. All produce should be harvested, sorted and packed with greatest care if top prices are to be expected.

FERA Denies It Will Take Over Factories

WASHINGTON, June 14.—(AP)—Communities throughout the country are being encouraged by the Federal Emergency Relief Administration to establish factories in which clothing and other articles needed by the destitute may be manufactured by persons now unemployed. However, the Administration is not setting up such plants nor is it taking over privately owned factories which are temporarily idle.

SAFE AND SANE

A SAFE and sane Fourth of July can be just as jolly as a day of scorched fingers, or more serious accidents can be had, and now is the time to plan against such catastrophes. Have fireworks of course. The Fourth would not be the Fourth without them. But be sure that there are older persons on hand to restrain too excitable youngsters from taking any risks. And it is a good thing to be sane about foods as well as fireworks, on this day of national patriotism. A tummy ache is no more enjoyable on July fifth than on any other day in the year. Safeguard both the outside and the inside of your children, but be sure, too, that they have a good time.

State Court Upholds Banking Act Of 1933

TALLAHASSEE, June 14.—(AP)—The Roosevelt-sponsored banking act of 1933 providing for consolidation of state trust companies with national banks was held yesterday by the supreme court to be free of conflicts with state's rights.

Mother, Daughter Try To Commit Suicide

HIGHLAND PARK, Ill., June 14.—(AP)—Dreading a future that might tear them apart, a mother and daughter bound themselves together with rope and swam out into the waters of Lake Michigan at dawn yesterday, shouting death.

Mussolini Arrives At Venice To Meet Hitler

VENICE, June 14.—(AP)—Premier Mussolini spent last night in Napoleon's apartment in the Villa Pisani at Strada where everything was in readiness for the visit of Chancellor Hitler of Germany this morning.

WASHINGTON, June 14.—(AP)—Congressional action was completed yesterday on the silver purchase plan, with House approval of Senate changes. The bill was suspended in the White House.

### IMPORTANCE OF MOVIE STORIES TOLD BY ACTOR

#### Leslie Howard Says Middle Sags In Almost Every Film

HOLLYWOOD, June 14.—Bad pictures result from overemphasizing the endings instead of concentrating on the all-important middle, according to Leslie Howard.

Howard, as the author of two successful plays and several stories, has contracted headaches of his own in story conferences, and has found that invariably the trouble arises when those in authority start tampering with the endings.

"When a writer has a story well enough in mind to start writing, he has a proper beginning in mind. He couldn't start without it. Then he writes his story to the end," Howard said.

"The ending, for some reason, is the director's fetish, the writer's climax and the production's final impression. From the moment the first temporary script is turned in, everybody concerned talks about the ending.

"What happens to the middle of the story? Who worries about that? Well, as the poet said: 'There is the rub.' Stories sag in the middle, pictures drag in the middle, audiences leave in the middle.

"A certain well known director once remarked, 'Give me enough punch in the ending, and I don't care about the rest of the story.' Soon after talking pictures came in, he left Hollywood and went back to his father-in-law.

"The real development of a story is in the center section, where the plot is laid, characters visualized and drama created. In this portion lies the fate of the story. It is sheer futility to suppose that an ending can save an uninteresting tale."

"Howard is practicing what he preaches in his current film, 'British Agent,' at Warners. 'He doesn't worry about the ending at all, because it is so natural as to be inevitable. It just unfolds itself—once the middle section is properly cared for.'

#### LUMBER COSTS UPHELD

WASHINGTON, June 13.—(AP)—The lumber code authority Friday notified all its administrative divisions that the present minimum cost production prices in the lumber industry would not be affected by the new NRA policy on abandonment of price fixing.

### Unless Your Little Toe Is Snug, Your Shoe Doesn't Fit

CLEVELAND, June 14.—(AP)—It is not the high heel of a fashionable woman's shoe, but her little toe which decides whether the foot-gear is good for her health and her "stance."

Likewise in man, the fit of the small toe largely decides whether his shoe gives stable footing, or whether it will produce foot strain, leg cramp, knee discomfort or even an aching back.

These and other up-to-date ideas about how to fit shoes were shown at the scientific exhibit of the eighty-fifth annual meeting of the American Medical Association which opened a five-day session recently. They were presented by R. Plato Schwartz, M. D., of the University of Rochester school of Medicine and Dentistry.

He has a machine somewhat resembling a pipe organ, in which the pipes are tubes that flash with lights, and which show that there are still some unworked principles of comfort possible in the shoemaker's art.

His patients walk on a specially-built electrical stage in front of the pipe-organ and the pressure of their feet registers visibly in the tubes. First the heel touches then the pressure passes to the little toe and finally to the big toe.

It does no, first is, when the fit is perfect. But when the shoe is unsuited to the wearer, this rhythm is broken. The flashing lights show the weight shifting from the heel directly to the great toe—omitting the steady help of the little toe.

Shoe fitting is associated, Dr. Schwartz said, mostly with comfort and appearance. But neither one is necessarily related to stability on the feet. The medical name for this stability quality is pronation.

### TWA Suit To Enjoin Farley Is Dismissed

NEW YORK, June 14.—(AP)—The United States circuit court of appeal for the second circuit today dismissed a suit to enjoin Postmaster General James A. Farley from enforcing an annulment order against a TWA air mail contract.

Federal Judge John C. Knox, after listening to extended arguments, had ruled that since the government could not be sued without consent, TWA's suit and plea for an injunction was abortive. He directed that the suit "be in all respects dismissed."

### Miami Man Admits He Violated Election Law

MIAMI, June 14.—(AP)—Filing his expense account for the first Florida primary, Bart A. Riley, unsuccessful candidate for Dade county solicitor yesterday signed an affidavit setting out that he not only spent more money than allowed by law, but had violated provisions of the statute governing primary elections.

Allowed a total of \$1500 for the entire campaign, Riley filed an expense account, which the total cost of his campaign was estimated at \$7200.

In submitting this and the foregoing statement, Riley's affidavit stated: "I do so with the knowledge that, if a false return of campaign expenses is filed the candidate can be prosecuted for perjury, if he tells the truth, he is disqualified from holding public office and can also be prosecuted under the law. I would rather tell the truth than perjure myself to escape prosecution."

### More Patronage For Negroes Is Sought

WASHINGTON, June 14.—(AP)—A group of representatives yesterday appointed a committee of six men to confer with Postmaster General Farley today in an effort to secure more jobs for negroes.

Members of the committee are Representatives Burke (D., Neb.), Sabath (D., Ill.), Cole (D., Md.), McKown (D., Okla.), Duncan (D., Mo.) and Lester (D., Mo.).

Burke said he believed that "in view of the splendid assistance which has been given President Roosevelt by negro Democrats," they were entitled to more recognition on patronage.

### Cherry Days Are Here Again! How About Making Some Jelly?

This is Marie, hostess of Marie's Matinee, helping Frances Lee Barton, famous Home Economist, to make cherry jelly. "Crush the pulp with a potato masher," Mrs. Barton advises.

CHERRY days are here again! And strawberries are still at their prime! This is indeed the time to lay in your supply for jellies and jams.

Isn't it a great boon to the busy housewife to know that jellies and jams can be made without spending so much time and effort? Use bottled fruit pectin to make up for the pectin deficiency of cherries and strawberries and a successful jelly is assured.

Have you ever tried sliced strawberry jam? Your family will find it a rare treat. And, while on the subject of jellies and jams, be sure to give them plenty of time to set. Some fruits take a week to a month before they reach their final stage. So, don't forget, give them time.

Here are some recipes to start your season with:

**Cherry Jelly**  
(Any kind except wild cherry or chokecherry)  
2 cups (1 1/2 lbs) juice  
1/4 cup (1/2 lb) sugar  
1 bottle fruit pectin  
To prepare juice, stem and crush 3 pounds fully ripe cherries. Do not pit. Add 1/2 cup water, bring to a boil, cover, and simmer 10 minutes. (For stronger cherry flavor, add 1/4 teaspoon almond extract before pouring.) Place fruit in jelly cloth or bag and squeeze out juice.

Measure sugar and juice into large saucepan and mix. Bring to a boil over hot water and at once add bottled fruit pectin, stirring constantly. Then bring to a full rolling boil and boil hard 4 minutes. Remove from fire, skim, pour quickly. Pour into jars at once. Makes about 9 glasses (4 fluid ounces each).

**Sliced Strawberry Jam**  
1 1/2 cups (3 lbs) prepared fruit  
1/2 cup (1 lb) sugar  
1/4 bottle fruit pectin  
To prepare fruit, cut about 3 quarts fully ripe berries in halves lengthwise; large berries in quarters.

Measure sugar and prepared fruit into large kettle, mix well, and bring to a full rolling boil over hot water. Stir constantly before and while boiling. Boil hard 3 minutes. Remove from fire and stir in bottled fruit pectin. Then stir and skim by turns for just 5 minutes to cool slightly, to prevent floating fruit. Pour quickly. Pour into cover hot jam at once. Makes about 10 glasses (4 fluid ounces each).

### FERA Asks Towns To Give Idle More Help

WASHINGTON, June 14.—(AP)—Although encouraging communities to use idle factories for manufacturing goods to be parceled out to the needy, the Federal Relief Administration denied yesterday that it plans to take over factories as a national policy.

This followed publication of the fact that two idle Massachusetts underwear plants are about to be turned by state action into "emergency work administration" projects to make clothing for the unemployed.

It was said that the project merely carries on what has been done for the last three or four years.

### No North Americans Dead In San Salvador

SAN SALVADOR, El Salvador, June 14.—(AP)—Reports reaching here yesterday from the areas stricken by last week's hurricane stated that no North Americans had lost their lives in the storm which is estimated to have caused as many as 2000 deaths in El Salvador.

No official tabulation of the casualties had been made by the government or other organizations which are giving all their efforts to relief.

### LOEB HAS BIRTHDAY

JOLIET, Ill., June 14.—Ten years ago, Richard Loeb, 19, brilliant, heir to millions, helped Nathan Leopold kill his neighbor boy "for a thrill." In prison Monday Loeb "celebrated" his twentieth birthday. He is under sentence to serve both 99 years and life, has virtually no chance of ever being free again.

### Mild Relapse Sends Mrs. Dionne To Bed

CORBELL, Ont., June 14.—(AP)—A "mild relapse" attributed to excitement of having quintuplets in the house sent Mrs. Ovilla Dionne back to bed yesterday and Dr. A. R. Dufos said he would probably keep her there for a week or two.

In the meantime, the five little girls all gained weight during the past 24 hours, and all were said by the physician to be improved in general condition.

Mrs. Dionne, who at the age of 24 has been the mother of 11 children, 10 of whom are living, made a remarkable recovery from complications attendant upon the birth of the quintuplets and was out of bed after 11 days.

The death rate from auto accidents in states with strict drivers' license laws is about 30 per cent adequate statutes.

### NOTICE To Owners Of Dogs

As required by law, all dogs in the City of Sanford, Florida, except those that are kept on the premises of the owner or caretaker, shall be vaccinated and licensed for each year.

Dr. C. W. Baker, Veterinarian, will be at the rear of the City Hall each day from 10:00 A. M. to 5:00 P. M. beginning June 18th and continuing June 23rd to do the work. After that time all dogs found running at large and unlicensed will be impounded and will be returned to the owner only if claimed by the owner and paid for.

The cost of vaccination will be paid by the City from the dog tax.

# FRATERNATING Florida's GROWTH

During the past half century, Florida's population increased 400 per cent while the population of the country as a whole increased only 140 per cent. Yet Florida's growth has scarcely begun. The foundation, merely, is established. Development of this State's vast resources, given the proper impetus now, will bring a new and greater measure of prosperity in the future.

The Department of Agriculture estimates that if Florida's fertile soil were more fully utilized this State could support a population of 15,000,000. Italy, a peninsular country about twice the size of Florida, has a population twenty-six times as great.

Analysis of Florida's developments in the past five decades shows a periodic acceleration of population growth and indicates that we stand again on the threshold of a prosperous advance:

- 1850-1890 — 45.2 per cent increase. Following the War between the States, orange growing attracted nation-wide attention to Florida and many grove lands and plantations were established.
- 1890-1900 — 35 per cent increase. The financial panic of the nineties retarded growth and the railroad building activities of Flagler and Plant were just beginning.
- 1900-1910 — 42.6 per cent increase. The railroads, a few communities and one steamship company were advertising Florida as a winter resort. Soldiers returning from the Spanish-American War told colorful tales about Florida's attractions.
- 1910-1920 — 28.7 per cent increase. The World War affected the influx of population. Tourist travel was reduced.
- 1920-1930 — 51.6 per cent increase. Post-war prosperity brought with it a tremendous building boom in Florida. In spite of the stock market crash and depression which followed, the end of the decade saw Florida with a half million new permanent residents.

And now, Florida is ready for new progress — prepared for another important step forward. We must grasp the opportunity offered, by spotlighting the attention of the world on our possibilities and living advantages. A properly planned, unified advertising program for All Florida will bring new millions of wealth and population across our borders. . . create markets for our crops and products . . . stimulate prosperity for all of us. Let's get to work on this important job NOW!

## All FLORIDA COMMITTEE

## UNDER THE WIDE AND SPREADING SKY

SUMMER is the season when the possibilities for enjoyment are multiplied about you. Under the wide and spreading sky there is room for much happiness.

You don't need great wealth, and you don't need to fasten all your hopes for happiness on a short vacation. Whether you live in the city, with all of its modern means of tempering the climate to your needs, or in the country where the good earth responds so beautifully to your touch—there is much to do, pleasantly and happily.

But there is art in enjoyment. You should dress properly for each occasion. You should have within easy reach the things that make hospitality inviting and gracious. You should have the means of refreshing and beautifying your person and improving your sense of well-being. You should be comfortable.

It is not so hard to do all this. It is not accomplished in one frequent and expensive effort. Comforts should grow about your home, as flowers and fruits blossom and ripen.

Read the advertisements, and acquire the things you need from what you learn there. Fresh light summer wear. Foods and beverages that keep crisp and cool in modern refrigerators. Gas and electricity that cook and brighten without heating your rooms. Electric fans, perhaps. Sleep, cushions and lounge of fresh towels for frequent showers.

And read in the advertisements where to go and what to do in order to make Summer the golden season of your life.

## Ex-Convict Nabbed As Kidnaper Of 3 Men Whom He Freed

### Abductor Was In Gang That Escaped From Texas Prison Farm With Barrow's Aid

ST. JOSEPH, Mo., June 15.—(A.P.)—Three men kidnaped yesterday near Davenport, Iowa, were released here today and their abductor was captured.

The three men, Elmer Schleuter, policeman, Al Schultze, baseball man, and Dr. W. H. Fitch, Walcott, Iowa, veterinarian, were released as kidnapers near 4:00 o'clock morning, and 15 minutes later police arrested Joe Palmer, 25, who was said by the trio to have been the abductor.

Palmer escaped from a Texas prison farm last February when Major Crowson, a guard, was killed.

Palmer and four others, including Raymond Hamilton, Texas desperado, escaped from the Eastman, Texas, prison farm in a plot allegedly engineered by the late Clyde Barrow.

Hamilton was convicted for killing the guard, and during the trial the defense tried to throw blame on Palmer.

Schultze said that Palmer's sole object in kidnaping him and two others was to escape capture and identification.

He made no mention of a ransom, but he took about \$225 from the trio, overlooking \$300 the doctor carried.

Palmer told his prisoners he would get out of St. Joseph and let them take the doctor's car back to Davenport if they were willing.

They agreed, but as soon as Palmer got out of sight they picked up quickly.

## Zoo Reptile Seems About To Receive Extensive Publicity

More publicity, the kind that has an international tinge, seems to be in the offing for Sanford's now famous "Komodo dragon."

This was learned at the Chamber of Commerce office late yesterday upon receipt of a telegram from an official weekly news-magazine, "Time."

The telegram read: "Please wire collect sex of your Komodo dragon."

The answer read: "Our Komodo dragon is a female about nine years old."

The telegram was addressed to, and the answer was signed by, James Moughton, superintendent of streets and parks.

With "Time" readers spread all over the world, including the South Pole, the city Chamber of Commerce officials believe, is in for a tremendous amount of publicity, all because of a challenge recently sent to the Bronx Zoo by the Chamber of Commerce, that it did not have the only Komodo dragon in America.

## Fortier Found Guilty Of Serious Charge

J. T. Fortier, middle-aged white resident of Sanford who went on trial yesterday morning in Circuit Court on a statutory charge involving misconduct with a 12-year-old white girl, was found guilty late this afternoon.

A jury composed of D. K. McMah, W. T. Walker, Hugh Turner, C. J. Selby, Edward Parlin, and C. E. Hartley returned a verdict exactly one hour after it had retired upon being charged on its duties by Judge Edward S. Smith.

Sentence was deferred until next Wednesday, and Fortier was released under the same conditions which he has been under in the past several weeks. Maximosky, according to Attorney L. F. Boyle, is

## SENATE KILLS NINE

WASHINGTON, June 15.—(AP)—The Senate yesterday rejected at Rio Hlan-

## HALF CENTURY OLD RAINFALL RECORD ENDS

### Every Section Of State Affected By Heavy Showers That Have Caused Big Damage

Heavy rainfall in many sections of Florida since Thursday brought the June normal fall from 2.41 inches, as reported by the Federal Weather Bureau, to 11.14 inches, the highest since 1872.

Little crop damage was reported from most sections which were drenched, but in many places the highways were flooded, roads and sewerage washed out, and small bridges swept away.

However, the central section about Gainesville, reported an almost total loss of the watermelon crop, damaged under a fall of 3 and 1-4 inches of water during a 24-hour period.

At Lake City and Lake Butler, farmers reported the loss of several head of cattle in pasture lowlands, and several hundred dollars worth of peanuts and corn. The rain "burst" which began late Wednesday, reports said, brought water over the highway leading out to Jacksonville, and flooded a railroad right of way for several hundred feet.

Rain in several sections interfered with political speaking, driving crowds indoors and forcing the candidates from the platform. Other speakings were cancelled.

At Tampa a rain of nine inches was recorded for the past nine days, making a total of about 14 inches for the first half of the month. The record fall for the month, established in 1912, was 13.47.

Brisk rains at Tallahassee did considerable damage to country roads, but little crop damage was reported.

Light falls were reported down the east coast at West Palm Beach and other points.

At Jacksonville more than four inches of rain fell during a 24-hour period, approaching the 4.41 fall recorded on June 1.

The Weather Bureau reported little change of clearing weather for the remainder of the month.

## Wilkinson Winner Of Race For Seat On State Committee

S. A. B. Wilkinson is this county's new representative on the State Democratic Executive Committee, succeeding attorney W. E. Mallem.

This was indicated upon receipt of a letter today from Attorney General Cary D. Landis who advised that "This office has held since the Act of 1929, that party committees are elected in the first primary by plurality vote, and their names should not appear on the General Election ballot."

Until receipt of the letter, official word was lacking as to the outcome of the race in which Mr. Wilkinson was high man with J. E. Preston in second place.

County Clerk V. E. Douglas had gone ahead yesterday and ordered the second primary ballots printed without the names of the two men. He was acting under advice transmitted him by Clarence Gay of the Orange County Clerk of Court who said that Orange county ballots would not contain names of the two men in that county's race for the job.

Mr. Landis' letter was a copy of one he had sent to Obe P. Good, clerk of the Circuit Court in St. Johns county where a similar situation had arisen.

## Barrier To PWA Loan Removed By Courts

MONTGOMERY, Ala., June 15.—(AP)—Technicians that have prevented grant of \$40,000,000 PWA loans to Alabama cities were removed by the state supreme court yesterday in an interpretation of the Commerce and Kelly Acts.

The court ruled that the PWA loans for construction of utility systems would be included in the cities' general indebtedness, thus removing barriers that had held up PWA loans to 204 Alabama applicants.

## German Moratorium Ends Stormy Financial Career; Act Held Desperate Move

### Self-Proclaimed Halt On All Payments Of Foreign Debts Hits U. S. Bond-Holders

BERLIN, June 15.—(AP)—Germany's self-proclaimed foreign debt moratorium, estimated to involve \$188,000,000 marks due American bondholders alone during the next six months, climaxed an involved financial history extending back nearly 17 years.

The moratorium came 10 and a half years after Germany had stabilized her currency and found her gold reserves and foreign exchange nearly exhausted; that her statesmen regarded stoppages of all payments as imperative.

Almost overnight, on Jan. 12, 1923, Germany devalued her currency to a degree unprecedented in history.

On the day before Germany's new gold standard mark became effective, through the joint efforts of the Reichsbank, president of the Reichsbank, and Dr. Hans Luther, then finance minister, the American dollar bought the astronomical figure of 12,000,000,000 marks. The next day it would buy four and a half marks.

A hint was seen in the German references to her position in foreign trade that some concessions might eventually be made toward meeting the interest on those issues, in return for agreements to buy more German goods.

In any case, a serious international controversy seemed imminent, with reports from London and Paris indicating that clearings might be established on foreign exchange transfers with Germany, which would mean that those countries would not permit proceeds from sales of German securities to be transferred to Germany until the interest on the bonds was met.

Most of the European creditor countries of Germany, such as England, Holland and Switzerland, as well as France, have been demanding more goods from Germany than they have been selling to Germany, so that holding up the

## Bench Show Prospects Held As Optimistic

County Clerk Vance E. Douglas who is president of the Florida Field Trials Association stated today that plans for the Second Annual Association Bench Show, to be held at the Longwood Dog Track next Thursday, are progressing satisfactorily.

"We already have about 60 dog entries," he said, "and we anticipate fully 100 entries before Show time. It promises to be an event which should attract all lovers of bird dogs, and on behalf of the Association, I invite all friends of dogs to visit the track sometime during the afternoon."

C. H. Cord of Orlando is scheduled to act as judge of a Show which will be featured by a display of some of the finest bird dogs in Florida, including those owned by Mr. Douglas, W. C. Hill, and E. J. Annan of Sanford.

A feature of the Show which is to start at 1:00 o'clock, is a fish fry which will be tendered free to members of the Association and their invited friends.

## Hardie Charged With Contempt Of Court

MIAMI, June 15.—(AP)—Charged with removing \$100 in electric fixtures and a \$3000 gold door from his Palm Island residence after a mortgage had been foreclosed on it, Dan Hardie, former Dade county sheriff, has been ordered by Circuit Judge Paul D. Barnes to show cause June 21 why he should not be held in contempt of court.

Hardie recently was suspended from office by Governor Sholtz.

## Ed Henderson Named School Supervisor

Edward B. Henderson of Leesburg has been named as principal of the Cocoa school, succeeding W. L. Goette, resigned. It was learned here today.

## 2 More Fruit Shippers Charged As Violators

WASHINGTON, June 15.—(AP)—The farm administration yesterday cited Ablett J. Smythe and the Silver Springs Company of Ocala, Fla., for alleged violation of the license for Florida citrus fruits.

Charges brought were that the firms joined with the Abbate Company of Chicago, Ill., in violating terms of the license by shipping fruit without reporting to the Citrus Fruit Control Committee, for applications for quotas.

## GREEN OFFERS PLAN TO END STRIKE THREAT

### Labor Leader Suggests Impartial Board Of 3 Men Who Would Adjust Differences

PITTSBURGH, June 15.—(AP)—A plan for the settlement of disputes in the steel industry was suggested by the union William Green of the American Federation of Labor today at a steel workers convention called to take action on a proposed nationwide strike.

The labor leader suggested an "impartial board" of three members to be appointed by the President, to adjust the differences over the steel code, and to mediate other disputes.

Workers shall maintain the right, he said, to organize freely, and the board would have authority to hold elections among employees to choose collective bargaining representatives.

If the plan is acceptable to both sides, the strike should be called off, he told 230 delegates attending a meeting of Amalgamated Iron, Steel, and Tin Workers.

Ignoring all compromise and crying for "recognition," 200 brawny steel workers pressed toward a strike vote yesterday in a convention that threatens to start a walkout in the nation's steel mills, possibly by midnight Friday.

The demands of the union, claiming to represent one-fourth of the workers in the industry, were epitomized by its president, Michael F. Tighe, who indirectly rejected President Roosevelt's latest plan for government-supervised elections among the workers as a solution to the dispute.

"It's a Chinese puzzle to me. I don't see any Union recognition there,"

Meanwhile, in Washington, the same legislation empowering the President to appoint mediation boards in any labor dispute was challenged by Senate Republicans who expressed dissatisfaction with nearly all its provisions.

It also was attacked by President William Green of the American Federation of Labor as "vague in its provisions, indefinite in character and devoid of clarity in purpose, scope and meaning."

Delegates to the convention, openly asserting that only some government action giving the union the right to collective bargaining with the steel companies could avert the strike, proceeded with preliminary formalities and expected to reach a vote on the strike "by Friday noon" at the latest.

## Governor Sholtz In Capital To Make Ready For Air Tour

WASHINGTON, June 15.—(AP)—Governor Sholtz of Florida called at the state department yesterday to arrange details of his proposed South America goodwill trip.

The department, the Governor said, will arrange diplomatic courtesies in the various countries.

The trip, to be made in the fall, will have as its purpose the building up of trade between Florida and southern republics and encouraging the use of Florida ports for entry of imports.

Sholtz also called upon Secretary of Navy Swanson to discuss the possibility of building cruisers in Florida, went over his state's relief situation with Harry Hopkins, Relief administrator, and visited the Public Works Administration to urge immediate release of money for Florida projects.

## Army, Navy Planes Off On Mercy Hops

### COLON, Panama, June 15.—

(AP)—Fourteen United States military planes took off today in two missions of mercy, a search for castaway sailors, and a dash with medical supplies to stricken Salvador. Three Navy planes left to search the Nicaraguan coastline for 17 or 18 sailors reported afloat in a lifeboat following the destruction by fire Sunday of the Norwegian freighter Knut Hamoun. The Army assigned 11 ships to San Salvador, carrying medicine, relief supplies, and tents for the survivors of 3000 dead in the Republic of Salvador. The living are said to be in danger of disease and lack of housing.

## TROPICAL STORM REMAINS OUT IN GULF OF MEXICO

### Future Course Of Week Old Hurricane Can- not Be Anticipated

WASHINGTON, June 15.—(AP)—A tropical disturbance attended by gales near its center was reported by the Weather Bureau at 10:00 A. M. today as being moving slowly northeastward, 375 miles southeast of Galveston.

Officials said the course of the storm, since it blew up a week ago, had been extremely erratic, and that it was a "loose up" as to where it would wind up.

There is no assurance, they said, that its present trend toward the northeast would continue. In the last few days it has been "loping" in the Gulf, tracing and retracing its path.

"At the moment," one official said, "the disturbance apparently has decided it wouldn't march on to land. Instead it is just fooling around and probably will continue to do so until the right currents sweep it on or other air conditions swallow it up and disintegrate it. So far there is no opening for it to get through any place."

Latest reports on the loss of life during last week's terrific storms in Honduras and El Salvador placed the number killed at 2000 throughout both countries.

Near the city of San Salvador whole families were buried alive and many others were caught by the swirling torrents and drowned.

Near the Salvadorean capital the side of a mountain loosened. In it sweep downwards ranch buildings and families were annihilated.

The port of Acapulca at present is unreachably. Vessels suffered heavy damages. The town of San Juan is inaccessible.

Near Zacatecoluca, Salvador, a passenger train was caught in the floods and sank into the mud. Although they have not been heard from since, it was believed the passengers succeeded in escaping the waters by ascending the nearby mountains.

Dispatches from Marcala in southwestern Salvador said the storms caused mighty landslides which engulfed farms, bridges, people and cattle in the various villages throughout the mountain district.

Reports from Gracias in western Honduras said the village of Aguarua sank completely into the mud. The inhabitants escaped.

In the Cortes zone of northern Honduras, reports from Choloma said the erstwhile flourishing Florida valley district is now a large sea of muddy waters which threaten to engulf the village of El Higuero and surrounding banana fields.

## P. A. Mero Kills Big Rattler Near Home

Spring a rattlesnake swimming into his front yard from the waters of over-flowing Silver Lake south of here yesterday, P. A. Mero, feed store owner who had just arrived at his home for luncheon, secured his shotgun, waited until the snake had reached the lawn, and fired a single shot which killed it.

Mr. Mero said that the snake just measured three inches less than six feet long, and it had 11 rattles and a button. The snake will be skinned and its hide mounted for display, Mr. Mero added.

## FINLAND ONLY NATION TO PAY ON WAR DEBTS

### European Debtors Fail To Keep Promise To Pay On Accounts Owed U.S. Since War

WASHINGTON, June 15.—(A.P.)—European debtor nations declared a moratorium yesterday on war debt payments to the United States.

Semi-annual principal and interest payments totaling \$477,843,644 are due from 13 nations, but only Finland—which owes \$166,638—remittance.

Italy, Poland, Rumania, Hungary, Estonia and Latvia delivered notes at the state department during the day announcing their impending default, following similar action already taken by Great Britain, France, Belgium and Czechoslovakia.

Latvia, like Great Britain, announced it would have tendered another token payment except for the Johnson Act, which specifies that any nation in default, in whole or in part shall be considered in default and can conduct no financial transactions in this country.

Rumania and Italy—which have also made token payments in the past—likewise explained the provisions of the Johnson Act made meaningless another partial payment by them.

Yugoslavia and Lithuania will deliver their answers to the American debt reminders before the state department closes today. Unless one of these two debtor nations makes a surprise offer of a token payment, the United States will collect only a fraction of one percent of the amount due.

Rumania, \$2,297,500; Poland, \$16,356,200; Estonia, \$1,312,435; Hungary, \$1,472,200; Italy, \$32,458,600; Latvia, \$67,250.

The nations still to be heard from are: Lithuania, \$269,034; and Yugoslavia, \$625,000.

Augusto Raso, Italian ambassador, in his government's note linked German reparations and the Italian debt, and said Italy found itself unable to continue making even token payments as it had in the past.

## Mrs. Dall Takes Up Residence At Reno Maybe For Divorce

RENO, June 15.—(AP)—Mrs. Anna Curtis Dall, daughter of President Roosevelt, is establishing a residence here, and it was assumed that divorce proceedings are in prospect.

Mrs. Dall has leased a home at Lake Tahoe. She has been separated from her husband for more than a year.

With her two children, "Slitie" and "Buzzie," she lived at the White House during the past year. Mrs. Dall was not available here today but it is understood she is en route to the city.

The Dalls were married in June, 1926.

If she wins a divorce she will be the second of the President's children to be divorced since he entered the White House. Elliott, son of the President, dissolved his first marriage more than a year ago and is remarried.

## 4-H CLUB WINNERS

WASHINGTON, June 15.—(AP)—Mildred Ives of Pasquotank county, North Carolina, and Edwin H. Matzen of Cerro Gordo, Iowa, were named yesterday as winners of the national 4-H Club fellowship for 1934-35. The announcement was made at the opening session of the national 4-H Club camp which will continue until June 20.
