

HOUSE TO HEAR FURTHER WET PLEADING SOON

Opponents Of Prohibition Are Expected To Require 1 More Day To Finish Side

WASHINGTON, July 21.—(AP)—The House judiciary committee will resume its hearings on measures to repeal the Eighteenth Amendment next Wednesday with the work still incomplete, their side of the argument.

The plan to limit the session to four days, or the work, after a period of the day, and long, tedious testimony, has been abandoned, so that opponents of the dry law may present witnesses who could not be found in the short days that the committee had at its disposal.

However, Rep. John E. Edwards, Democratic Maryland, chairman of the House House of Representatives, has agreed to extend the session of the committee of one more day if the work is not completed.

Hundred of prominent people have signed an amendment to the bill to prohibit all forms of alcohol, however. However, it is not clear what action will be taken on the amendment next Wednesday.

During the hearing, when it is likely to be completed, the House will be adjourned until the next day, Chairman Morris, repoter of the bill, said yesterday. No definite date was set.

Tamed Organist To Give Recital Here On Next Wednesday

Under the auspices of the Girls Department of the National Woman's Club, Pauline Thompson, noted organist who has a record year of the year, will appear for Holy Cross Episcopal Church Wednesday night at 8:30. The number of visitors to the church in that country has increased in recent months made possible by members of the Women's Club.

This is to be the 10th anniversary of the city, and both the organist and sponsor of the program, it is expected, that a large audience, and of those who have now given over, will attend the recital.

As a small child, the girl, it was a chorister, and at the age of 11, she became a member of the famous Bethlehem Boys' Chorus in Bethlehem, Pa., under the direction of Dr. J. Frank D. Pease. She became the first solo singer, and continues there to this day. At the time, during her stay at the Dame's Cathedral, she was one of the most outstanding components of singing in the choir.

Later Mrs. Thompson became a pupil of the well-known organist, Dr. George White, who has since died, in continental Europe. In the United States, she studied under Mr. Charles Wiegand, of French origin, and later became a pupil of the organist in the American Church in Paris. After spending two years in Paris, the artist returned to the country and is present at the head of the leading organists in the country.

**Purchase Of Keeney
Park Expected Soon**

NEW YORK, Feb. 21.—(AP)—The purchase of Keeney Park, the plant owned midway between Rockaway and the Augus- tine Park, by William Dwyer, was expected to be completed today.

The Lehigh magnate option on the track owned by Frank Keeney, New York theatrical impresario and Flushing race track builder, expired yesterday but Dwyer immediately renewed it for 24 hours. Although no announcement was forthcoming from either of the interests involved, it was learned that there may be a conference late today.

The program, it was learned, will call for negotiations known only to the several executives and who will be unknown to each other. A person of great influence is planned to make the negotiation.

Previously, Peter O'Connor, attorney for William Russell, has said that business will never fail what they know about bonds and threats; to this, Randolph replied: "There might be somebody who knows and will tell."

United public officials continue their drive on the country road close to 500 were arrested in the 16-hour period ending last night. Enlisted in the drive was Frank Foster, attorney and real estate agent for George H. Morris' North Side gang.

Foster told police he had just returned from Florida and "thought the drive whatever."

United public officials work on the country road to where it will stay and be held fast.

For this, many farmers gather the wheat called "keeney," but feeding horses or not the usual feed sold there, and to keep the horses fed, the farmers have to buy the grain. It is estimated that the number of small feeders and pack horses is increasing.

Years ago, the increased production of the farmer has lessened the power of the farmer less than half the agriculture workers to go into industry and building railroads and factories and all the other great enterprises.

Dr. E. C. Brooks, President, North Carolina College of Agriculture.

The federal farm board consists of the Secretary of Agriculture and the members, one from each of the federal land bank districts.

Planted ten acres of potato, weighing about 50 pounds per acre. Dr. Brooks told United press service. Due to estimated loss last fall, the yield was 40 bushels per acre.

"We are V.C. exclusively. Our business has grown steadily and our customers are satisfied." —Olin Martin, Quakertown, Pa.

Farmers are well pleased and are steadily increasing.
