

Soil Travels 32,000 Miles.. Back To Deltona

By MILDRED HANEY

SACK OF SOIL he carried as a "good luck charm" in Vietnam is returned by M/Sgt. Edward T. Clarke to its original resting place at his Deltona home site. Elliott Maciek, Deltona vice president, mailed the tobacco sack filled with dirt to Clarke a year ago.

Police Cruiser Purchased By No. Orlando

North Orlando Village Council unanimously voted to accept the bid offered by Lash Motors on a Plymouth Belvedere police special.

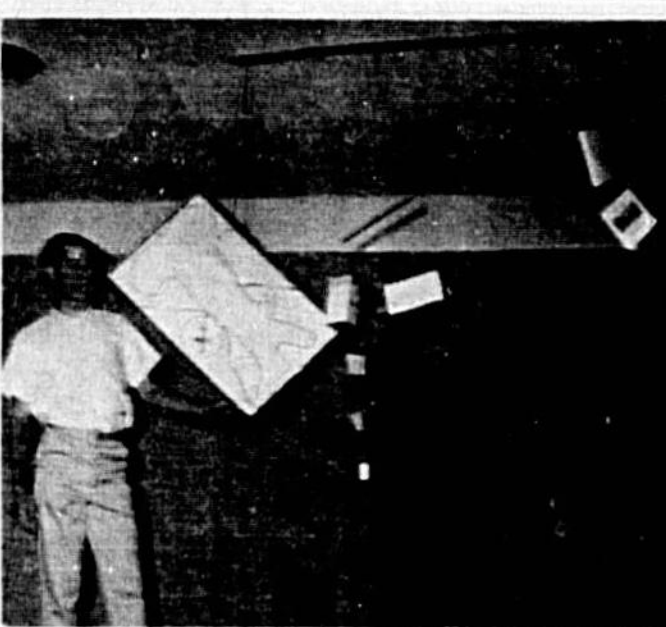

Commissioner Jay Weitz stated he had investigated the possibility of leasing a car from a rental agency, as suggested by one resident at the regular meeting, and found the cost would be \$110 per month with all the maintenance costs borne by the village. After a period of two years, the car would be sold and if sold less than book value the difference would be paid by North Orlando.

The new cruiser will cost the village \$2,041.16 with trade. A down payment of \$221 will be withdrawn from the general fund and the balance financed through a local bank. Delivery will be in 30 to 45 days.

Council also met with Chet Macek, owner of Lash Motors, and the Finance Service, to discuss complaints received and his failure to obtain a performance bond. Complaints included garbage not picked up for two weeks, yard trash not picked up at curb, gates left open allowing dogs to roam, and the use of Macek's helpers, all of which Macek denied.

As to the performance bond, Macek stated he was unable to find an agent who would issue a bond for such a small amount (\$500). Finance Commissioner Charles McIntosh stated council would be glad to accept a cash bond in that amount but Macek declined. Council then concluded discussion by directing Macek to obtain the bond in 10 days or the village would terminate the contract Feb. 28.

THIS MOBILE on Italy, which was created by Dale Dies, eighth grade student of Wilbur Riley's class at Forest Lake Church School, in a social studies assignment, includes map of the country and as many items made in it as could be found. Each student was asked to choose a country, study about it, and make a display showing what had been learned.

During the interesting interview with him, many fascinating facts of his life in the service were discussed including the copper bracelet which he was wearing on his wrist. This was given to him by the chief of a tribe in Vietnam, a fine code of honor which indicates that he has been accepted by the tribe. This bracelet has gained admission for him into areas where no one else would be allowed. He commented on the extreme heat of 138-140 degrees in Vietnam which is year long. The air is like a soggy, steamy wet blanket. The quality of soldiers in Vietnam is high and so is the moral and efficiency.

After retirement, Sergeant Clarke would like to go back into commercial television—not on a big time basis, but as a technical advisor to some station.

CHARGE IT! in Sanford Plaza Open 10 a.m. To 9 p.m. Monday Thru Saturday

By LARRY VERNHIEL

Anyone wants beat that if Tom McDonald gets beat in the legislative race the Orange County delegation pushes for a reunification of Seminole and Orange?

To save you some time here's what will happen at the Board of Adjustment meeting Monday night... The City of Sanford will ask permission to operate a landfill off Vihlen Road, east of the present city dump... It will, of course, be denied... The city will appeal to the County Commission... It will, of course, be denied... The city will take it to Circuit Court and will win its case.

ST. VALENTINE'S DAY AFTERMATH - Five final divorce decrees were signed in the courthouse yesterday and one marriage application taken out.

There are 63 first grade teachers in Seminole County schools... Now, most of them go to work at 8 in the morning and go right straight through to 4 p.m. No break... they have to eat with the kids and can only get a coffee and cigar break on very rare occasions... I wonder if the school board is aware of this?

The Gord family vs. the City of Sanford comes to trial April 11 before Judge Tom Waddell... That's the case involving Sanford Junior High teacher, Howard Gordie, and son, Russell, who were killed in an auto crash last March 7. The Gordie car collided with a city vehicle operated by patrolman, Tom Deppen... Gordie family asking some \$60,000 in damages.

Three architects will appear before the school board tonight at 7 to discuss proposals for the three new schools in the county... Sanford Junior High, Ovidio and Lynn... The board members are John Burton, Eouhan Kelley and Hal Harris... That will make eight architects heard so far... Board probably will name the architect at a special meeting next week.

Speaking of architects, two, Kelley and Burton, will present proposals on the zoo relocation at the Feb. 27 City Commission meeting... That land use and design of the cages... If the city does the job cost of materials probably will hit the \$75,000 mark... If the work goes to bid it will run over \$150,000... Either way it will take over two years to completely move the facility... What will you go on the present site? Why, I guess, a new City Hall.

We got a religious thief around town... Break-ins were reported at the First Methodist and Episcopal Churches Monday and Tuesday... Nothing stolen.

Completion of the work on the new charter for the Town of Altamonte Springs is expected in the next few weeks... Plans are being made by the council there to schedule public hearings on the new charter... A referendum will also be scheduled... In the meantime, Longwood goes on its merry way with the council holding its private meetings, discussing the proposed charter for that city and keeping it all a closely guarded secret. No public hearings are planned and no referendum is to be included.

County Seeks Control Over Port, Hospital

The County Commission, angered and disgruntled by actions of the governor last year, will seek local legislation taking the appointments to the Port Authority and the Hospital Board of Trustees out of the governor's hands and placing it under the Commission.

While legislation for the two boards requires the commission to submit two bills to the governor for his consideration for appointment to the positions, on two occasions last year Gov. Burns announced appointments before the commission could submit recommendations.

"We have no ax to grind. We all agree we don't want to rock the cradle with the Port Authority," Commissioner John Alexander said, "but we can't let the governor do it."

Permissive legislation to allow the county to establish ambulance service at the hospital will also be sought. The legislation would only be used in the event local private ambulance services go out of business.

Under the new plan, the board would have control of the budgets of the offices of the county clerk, tax collector, tax assessor, justice of the peace and constables. Currently, budgets of these departments are submitted to Tallahassee each year.

"We do not wish to hurt or cut any office," Commission Chairman John Alexander remarked, "just to review the budgets of these departments in the same manner as budgets in all departments of the county are reviewed. Personalities are not involved."

All but wrap-ups on the Seminole County Chamber of Commerce's annual membership drive is complete today with totals of 101 memberships brought in to make a grand total of 576 members, highest number ever reached in the organization.

INTERMISSION TIME at last night's Mutual Concert Association created this "Lullaby Lullaby." Fortunately this youngster had a seat for his "sister" as compared to many of the other—Standing Room Only crowd. See Norman Lulloff review on page 3. (Herald Photo)

Minimum Housing Code Legislation Gets Okay

Legislation providing for a minimum housing code, after having seemingly died at previous local meetings of the County Commission, suddenly came to life again yesterday.

The board by a 5-2 vote decided to seek a "minimum" minimum housing code. Points mentioned by Commissioners John Alexander and Lawrence Spafford and Zoning Director Robert Brown, in editing the need for such legislation, included the fact that Seminole County has the largest percentage of dilapidated housing in Central Florida.

This fact was brought to the attention of the board by recent report of the East Central Florida Regional Planning Council which encompasses the seven county area.

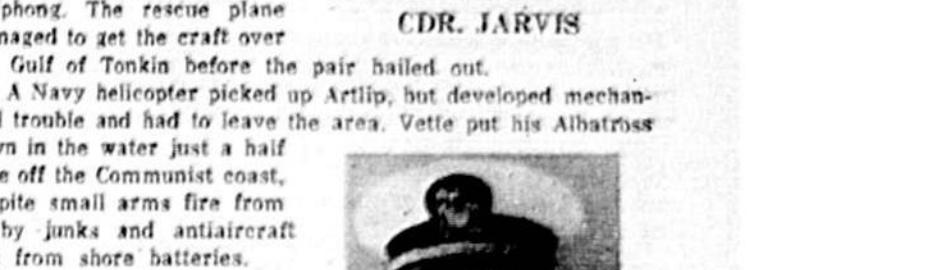

The new law would allow the county to establish ambulance service at the hospital will also be sought. The legislation would only be used in the event local private ambulance services go out of business.

The new law would allow the county to establish ambulance service at the hospital will also be sought. The legislation would only be used in the event local private ambulance services go out of business.

Dr. Charles L. Park Jr., chief of staff, reported at the January meeting that the Navy physicians had offered to assist in the hospital emergency room, in their off-duty hours in the evenings and weekends. Their fees were to be paid by the patients. The matter was taken under advisement by Capt. Edward A. Anderson, chief medical officer at Navy base, protested to the hospital

A Dramatic Sea Rescue

Two Reconnaissance Attack Squadron 7 a pilot, Cdr. Donald H. Jarvis and Lt. (jg) Paul M. Artlip Jr., land-based at Sanford Naval Air Station, were rescued from the South China Sea after their RASC Vigilante aircraft was downed by Vietnamese fire.

CDR. JARVIS

Jarvis is executive officer of the squadron, which left Sanford last November aboard the nuclear-powered attack carrier Enterprise.

LT. ARTLIP

The disabled chopper also was being fired on, the report said. "There's not much use for the board of trustees any more," Carraway stated. "About all we have to do now is to abide by the government's rules and regulations."

Hint Hospital May Raise Rates

Problem of raising room rent at Seminole Memorial Hospital to meet a possible increase in pay for registered nurses, was brought to the board of trustees Tuesday afternoon by Robert Besserer, hospital administrator.

Physiotherapy Department Hospital

A new physiotherapy department will be opened in mid-March and a new intensive care unit will be opened when trained personnel is available. Seminole Memorial Hospital board of trustees learned Tuesday afternoon from Administrator Robert Besserer.

'No' Moonlighting

Question of using the services of Navy medical officers at Sanford Naval Air Station in their off-duty hours in the emergency room at Seminole Memorial Hospital, especially on the weekends, was settled at Tuesday's board of trustees meeting.

Hospital Strike in Second Day

Patients Held Under Tight Confinement

PEMBROKE PINES (AP)—Psychiatric aides at South Florida State Hospital, who make so little they qualify for poverty programs, took their strike into a second day today.

Wary authorities at the mental hospital, forced into long hours by the staff shortages, said the patients were being held under a tight confinement.

A secretary to Dr. Richard Parks, the hospital administrator, said only 15 of the 120 psychiatric aides had called in sick. But she said the absentees could run higher and it would take a ward-by-ward check to determine the exact number.

The secretary wouldn't let a reporter talk to Parks. "He's shorting," she said, "he's not up all night and is tired."

Parks said 37 of 76 aides on the night shift failed to show up. A hospital spokesman said 12 aides due at midnight called in sick but he declined to say how many were slated to report for work that day.

"The 12 did not make up a big percentage," he said. "During the day shift Tuesday, the U.S. Command, which ordinarily conducts briefings on all operations the day after they take place, declined comment on the Soviet news agency's report. 'Tass,' in a dispatch from Hanoi, said the Americans appear to have been shot with 'heavy anti-aircraft guns and bursts of rocket fire shook the sky.'"

More than 200 aides earlier voted to call in sick in protest against low wages paid state employees at the mental hospital. Parks and volunteers marked the wards Tuesday night. Parks worked in the maximum security ward where 26 of the most dangerous patients are kept. Last month, 14 inmates escaped from this section.

The hospital has some 1,300 patients. Patients who are normally allowed to roam the hospital grounds were kept indoors yesterday because of the staff shortage.

Parks said he did not know how long the hospital would be able to operate if the number of aides called in sick increased. He said Thursday would be the turning point in the protest. The employees are paid on Thursdays.

Parks said the strikers will either return to get their checks and go back to work or the strikers might gain more strength after the aides are paid.

"I haven't threatened to fire anybody," Parks said. "But we are perfectly within our rights as employers to determine who is really ill."

Smorgasbord Slated Mar. 2 At Altamonte

The movie, "You and Me," narrated by E. G. Marshall, was shown for members of the Altamonte Springs Garden Club at their February covered dish supper meeting by the guest speaker, Jack T. Rieckel, of Orlando, field representative of the Social Security Administration.

A question and answer period followed the program. In business of the meeting a nominating committee was named to include Robert Bradford, chairman, and H. S. Sewell and Ralph Peter.

Leroy Stover gave garden "do's and don'ts" for the month of February, pointing out that aluminum sulfate applied to azalea beds at this time is very beneficial and that trees should be sprayed now.

Annual smorgasbord supper will be from 5 until 7:30 p.m., March 2, at the Altamonte Springs Community House on Mallard Avenue. Tickets are available from any member or will be sold at the door.

Guest speaker for the March 3 supper meeting will be Jack Raymond, noted herpetologist, who will talk about snakes. Guests at this month's meeting were Mrs. H. A. Wilson of Newport News, Va., and Mrs. E. O. Praeger of Altamonte, Fla., both sisters of Mrs. Paul Schleiter; Mr. and Mrs. William Schleiter, guests of Mr. and Mrs. John Railey; and Mr. and Mrs. Carl Lovquist of Massachusetts, guests of Mr. and Mrs. Jefferson Hodges.

Supper committee was Mr. and Mrs. L. R. Stover, chairman, assisted by Mr. and Mrs. Erich Dallman, Mr. and Mrs. J. C. Jaffe, Mr. and Mrs. George Knox, Mr. and Mrs. Bertie Ryan and Mr. and Mrs. Sherman Dobson.

Agribusiness Needs Cited For County

Some of which would make use of acreage on an off-season crop basis. General Hutchison told of the practical experience of Chase and Company in raising just such off-season corn and its profitable marketing of the labor force in Valley plants, while out of the size of a grain elevator, would find Seminole County a ready market.

With this backing information supplied, the committee is ready to expand and intensify its drive for industrial growth. Talks with possible industrial speculation about 225 on Mars began after the invention of the telescope.

Logical Step Beyond

Suddenly, like popcorn on a hot stove, various municipalities in Seminole County are junking or revising old city charters under which they have operated for years.

Perhaps the current efforts to refurbish the Florida Constitution have spurred the local efforts. But whatever the reason, people are starting to update, streamline, modernize their ancient vehicles of government.

All to the good. Long and fervent cheers and applause.

But why not go the logical step beyond?

The "logical step beyond" is, of course, toward merger or consolidation of governments and services.

The charter revisions being considered, and being voted upon in one city, are further evidence of the need for better government, modern government, extended services and more true representation for all.

By no means does the HERALD suggest stopping any charter revision plan. We encourage 100 per cent anything to better the lives of our people. But as soon as the difficulties of the moment have been laid to rest and our individual problems resolved, let us turn our attention to the next, the logical master outline.

The charter revisions are a healthy sign of awareness.

Even healthier would be the logical step beyond.

Bruce Bissot - Ray Cromley

Political Notebook

NEW ORLEANS (NEA) — An important Romney-Nixon showdown is on for the national political services of Dr. G. Gordon Parkinson, retiring state GOP chairman of California.

At least two seasons quietly passed the word at the two-day Republican National Committee meeting here that people interested in the 1968 presidential candidacy of Richard M. Nixon have made a rich offer to Parkinson to become head of a national Nixon organization.

At the same time, this reporter has had firm indications that Parkinson himself is expressing keen desire to be named as the 1968 campaign forces of Michigan's Gov. George Romney — either in some key national role or as head of a well-mounted western operation.

The money involved has to be considerable, since Parkinson has an established practice as an obstetrician and would not likely abandon it for poena.

Though not widely known to the general public, the affable doctor has made substantial political headway in his years as California chairman. Recently he has been serving as head of the party's organization of all state chairmen. He gained fame as a "unity man" last year by decreeing Parkinson's law — that Republicans battling each other in California's primaries should not speak ill of each other. Most carry more rate each a moderate.

The significance of the Nixon "over" bid for his services can hardly be overplayed. It is clearly part of a major crank-up to his supporters, who include Texas GOP chairman Peter O'Donnell.

At conclusion of the national

James Marlow

Analysis Of The News

WASHINGTON (AP) — The Vietnamese lunar new year — Tet, they call it — is becoming tet-for-tet, with some strange coincidences two years apart.

Twice, just at the end of Tet, Viet Cong terrorists in South Vietnam attacked American military installations.

Twice, after this happened, President Johnson hit back fast by ordering the bombing of North Vietnam.

And twice, although not directly, Soviet Premier Alexei N. Koyzin was involved.

In 1965 the warring sides in Vietnam called an informal truce for the lunar holiday in February.

At Tet nearest its end the Viet Cong fired mortar shells into the American airbase at Pleiku, killing nine U.S. servicemen and wounding more than 100. That was on Feb. 7.

That same day Johnson ordered retaliation: North Vietnam was bombed. And this, although it wasn't realized at the time, began the U.S. air war on the Communists in the north.

But also on Feb. 7 Koyzin was in Hanoi, the northern capital, where he had just made a speech promising the Soviets would give the North Vietnamese all necessary help.

His presence there, just as American bombers began to strike, put tension on official Washington which didn't want to see the continuation of the bombing.

Two hours later Johnson ordered the bombing of North Vietnam to resume, the first in six days. But by that time, it was known Wilson and Koyzin had reached no solution on peace.

The Pentagon explained that the continuation of the bombing pause, after Tet had ended, was "to avoid any possibility that earlier resumption could be misconstrued in relation to Mr. Koyzin's visit to London."

Later Monday Johnson said "we had no alternative" to ending of Hanoi's action. Ex-

Dr. Crane's Worry Clinic

CASE 8-548: Harlan R., aged 31, is the speech professor who is interested in the psychology of humor.

"Dr. Crane," he asked, "what are the various types of humor?"

"And why do two brothers, reared in the very same home, show wide variations in their sense of humor?"

Humor Psychology

Introverts differ from extroverts in this realm of humor. You Bible scholars may thus recall the story of the Prodigal Son.

"Do you suppose he or his meticulous older brother, who were likely to laugh loudly at jokes?"

When two children of the same sex are close together in age, the older is usually the introvert while the younger is the extrovert.

And extroverts mingle with people more easily, so they soon develop a wider social experience.

And this is basic to a rich sense of humor!

A miser like Scrooge or Silas Marner or an isolated Robinson Crusoe would not be as alert to jokes as socially minded folks are.

Beware, however, in thinking that the mere fact of being surrounded by people will produce an extroverted, social-minded person.

For you can live in a large city and still be almost as much of an introvert as Robinson Crusoe if you work at inanimate ledger sheets or mechanical tools, chemicals, etc.

Now as for the basic rules of humor:

(1) A pun is regarded as the lowest form of wit, but many of our best jokes are puns.

(2) For a pun to be a word that can be taken in two ways, one of the period (the Truce) for major resupply efforts of their troops in Vietnam."

plaining he had hoped the truce might lead to some lessening of the war and a move toward peace, he added:

"Unfortunately the only response we have had from the Hanoi government was to use the period (the Truce) for major resupply efforts of their troops in Vietnam."

Hal Boyle Says:

NEW YORK (AP) — Jumping to conclusions — or how many do you give credit? — is the only way to please any one over 40 more than by sending him a signed valentine to send him an unsigned one. He'll feel flattered the rest of the year at the idea someone has a secret crush on him.

The most determined philanthropists in a big city are the drably dressed old ladies who regularly feed pigeons seed or bread crumbs. They'll have a blizzard to perform this loving chore.

You always feel cheated if you pay \$15 or \$20 for a hotel room, and then find the management hasn't got around to putting a Glidden Bible in the dresser drawer.

Never lend money to a guy who when he visits the zoo, spends most of his time staring at the creatures slithering around the reptile pit.

Nine out of 10 Americans don't know how to eat American food.

Whoever invented the miniskirt played the worst joke of the century on women — but the ladies haven't gotten around to realizing it.

You're in a rut if it ruins your day to come to work in the morning and discover someone else has beaten you to your favorite coat hanger.

Most professional midgets are baseball fans, but few take any interest at all in basketball.

You always know you're an intellectual home if they serve you a cheese fondue for dinner. Only an intellectual could eat that and convince himself he'd had a meal.

Whenever anyone gives me for Christmas a pen that can write in three colors, I take it as a personal challenge to see if I can find a gift equally useless to him with the next Christmas.

People who wear trifocals glasses generally feel mentally superior to people who only wear bifocals.

It worries a mother if her baby boy has big ears, but a father takes it as a good omen if the lad has big feet.

There has been a spate of rapidly married lately, but the industry is probably safe as long as no one finds a way to corrupt the poem.

Letters

Editor, Herald: Is when it may concern: Contributions to the 1967 General Palsy Drive to the Sanford Fire Department included Chase and Company, Sanford Atlantic National Bank, Florida State Bank, Sanford Manufacturing Company, Ferro Manufacturing Company, Sanford Herald, Florida Power and Light Company, Radio Station WTLH, Orlando Sentinel, Mrs. Huak, Day and Night Bell, M. L. Gulum, James E. Hoening, DeMolay, Master Counsel, Gerry Bots and members; Rainbow Girls, Mrs. Loyola and members; Cub Scouts, Mrs. McKay and co-workers; Hoppers Elementary School, Professor Charles Roberts and co-workers; Greens Academy, Try-It, Doris Thomas and co-workers; Milway Volunteer Fire Department, Chief John Bull and members, and numerous other unidentified groups.

To everyone who has a part in helping this Cerebral Palsy Drive to be a success, we say: Thank you very much.

The people of our city and community have shown they do care for our children and want to help in this worthy cause. As of Feb. 13, our net total contributions were in the amount of \$2,050.

We also wish to thank Bobby Newman for use of his giant printing press lately, but the industry is probably safe as long as no one finds a way to corrupt the poem.

CONSIDER THESE POINTS BEFORE YOU CHOOSE BETWEEN HOME IMPROVEMENTS AND A NEW HOME

If you've got the "let's fix up the . . ." or "let's move to a new or bigger house," urge, you may save yourself a lot of money and disappointment by asking a few more questions before you act. You might start with:

"Why do I want to move or make changes in our present home?" This question will help you pinpoint exactly what is that bothers you about your home. Having done so, you're much more likely to be satisfied with the new home you do select or the improvements you undertake.

Look for the real reasons for your discontent. If you just don't like the neighborhood and the neighbors, it's doubtful that improving your home will solve the problem. In short, a new kitchen in a neighborhood you don't like isn't going to improve your opinion of the neighborhood. On the other hand, if your home just doesn't offer the convenience or space you want, some selective home improvements may erase your discontent and save you a lot of money over the cost of a new home.

"What impact will a move to a new home have on my family?"

What effect will it have on the educational and social growth of your children? What changes will it make in your way of living, friendships, social and community relationships?

The answers to such questions may convince you that improving your existing home is more practical. Or, the answers may give you the added assurance you need in searching for a new home.

"Does the character of the neighborhood merit investing more in my home?" If traffic is getting to be a problem, if industry is encroaching, if blight areas are edging toward you; if more than about 10% of the homes in the neighborhood are "run down," you may want to think twice about investing more money in your house. In short, make sure you've sold that

UFO Reports Boomed During The Last Year

DAYTON, Ohio (AP) — Reports of unidentified flying objects — UFOs — boomed last year, reports Maj. Hector Quintanilla, director of Project Blue Book at Wright-Patterson Air Force Base.

But whatever the sightings are, it's a safe bet they offer no threat to national security and don't come from outer space, the Air Force says.

A total of 1,060 sightings were submitted to the Air Force during 1966, second highest total since Blue Book began keeping tabs 20 years ago. The annual average is 855, the record 1,501 in 1952.

Of the 11,107 sightings since 1947, Quintanilla says just 78 remain in the unidentified category. Only 30 of those checked out last year haven't been explained satisfactorily.

Another 25 sightings are listed as having insufficient data for identification.

The rest were identified as astronomical objects, aircraft, balloons, satellites and other natural or man-made items such as missiles, rockets, fireworks, clouds, birds, swamp gas, sparks, and a lighthouse.

To date, Project Blue Book, the Air Force's investigative authority on aerial phenomena — offers these "firm" conclusions:

1. No unidentified flying object reported, investigated and evaluated by the Air Force has ever given any indication of threat to U. S. security.
2. No evidence has been discovered to indicate that any sightings categorized as unidentified represent technological development or principles beyond the range of present-day scientific knowledge.
3. There has been no evidence that any unidentified sightings were more space vehicles.

A sighting is considered unidentified, the major says, when a report apparently contains all pertinent data necessary to suggest a valid cause or explanation of the report, but the description of the object or its motion cannot be correlated with any known object or phenomenon.

Meanwhile, sightings continue. The Weather Bureau at Cincinnati was swamped with UFO calls Monday — all evidently connected with a weather balloon, its instruments packed gondola, believed launched at Palestine, Tex., fell to earth in a swampy area in southeastern Ohio.

Army Trial Of Civilians Dates Back To 1775

WASHINGTON (AP) — Claiming precedents back to the Revolutionary War, the Army has asserted its authority to court-martial American civilians "serving with or accompanying" U. S. troops in Vietnam.

The Army said Monday its position was "nothing new." It pointed to the Uniform Code of Military Justice, which says that "in time of war persons serving with or accompanying an armed force in the field" — such as newsmen — are subject to court-martial.

This has been true since 1775, the Department of Defense said. One civilian has already been tried by a military court in Vietnam, the Pentagon said Monday. A spokesman declined to identify the defendant, except to say that he was a civilian seaman.

The charge against the man was not revealed, although the spokesman said the proceeding last November was a summary court-martial, which is reserved for comparatively minor offenses.

The Army's position that the "time of war" rules are applicable now in Vietnam has not been tested in U. S. courts. There has been no formal declaration of war by the United States against any other nation in connection with the conflict in Vietnam, but the Army contends that a state of war exists.

Actually, a Pentagon spokesman said, the procedure is to consider each case involving a civilian on its own merits. The circumstances determine whether the accused is to be tried by military court, by the courts of South Vietnam, or whether the matter is "disposed of administratively," he said.

Man Meter Records How He Is Doing

PHILADELPHIA (AP) — There are scores of instruments in a cockpit to show how an airplane is running and how much fuel is left, but so far there's little to show how the pilot is holding out.

A team at the Franklin Institute believes it has solved that problem and can show how much longer a pilot can fly and minutes — a man can effectively do his job. The study may lead some day to a kind of meter that would show something like that.

Carl A. Silver, manager of the institute's behavioral science laboratory, said the device would be invaluable for men in critical jobs — such as pilots, air traffic controllers or radar-voice watchers.

Silver and Bruce Rosenberg, a research scientist, said in interviews the device measures a man's response and the rate it is being depleted.

Silver used the example of two drivers. "A man who has been driving only 15 minutes is different from one who has been driving eight hours. The man who has driven eight hours probably can't drive the same eight. The man who has been driving only 15 minutes can drive much longer — he has some reserve.

Driving, while not physically taxing, can leave a person exhausted at the end of the day. Silver explained it this way: As a person tires, he applies more and more of himself to the task to maintain a level of efficiency. A driver who drives the same way, both stop at traffic lights the same, both react to driving situations the same. But as a driver's ability to react to driving becomes more and more tired, that's why after driving all day you're stiff or have a sore neck.

By measuring the electrical signal from the muscles, and plotting it on graphs Silver and his team say they can predict when efficiency begins to break down.

The two-year study is financed by a \$25,000 grant from the Public Health Service and the Department of Health, Education and Welfare.

Stars & Stripes Wins Fight On N. Y. Bureau

WASHINGTON (AP) — The Defense Department has spared itself a congressional investigation by killing a plan to combine the New York Bureau of the Army newspaper Stars and Stripes with a news bureau based in the Washington area.

This should still the fears of those who felt that the move, intended by the Pentagon as a means of news management, would mean the end of Stars and Stripes office would continue to operate.

When the merger plan was first announced last month, Moss said his special Government Information Subcommittee would investigate to see whether the Pentagon's motive was censorship.

The Pentagon said improved efficiency and reduced costs were what it had in mind.

The proposal was to move the New York Stars and Stripes operation to Arlington, Va., and combine it with the Armed Forces News Bureau, which recently opened an office there.

The business program material for military newspapers and radio and television stations.

The Pentagon said Monday it was dropping the plan because of a new communications link between the Pacific Stars and Stripes and the publication of the New York Bureau. Because of limited cable connections, some news material previously had been available only to the New York Bureau and thus could be published only in the European edition of Stars and Stripes. "Newly acquired" transatlantic circuits of the Defense Communications Agency have made it possible for the Pacific Stars and Stripes to get the same material via New York, the Defense Department said.

Strikes... Spares

Two more days 'til countdown and then watch the explosions begin with our \$750 Men's Double Handicap Tournament.

This is the baby which guarantees \$750 for the first two positions alone and doesn't take into consideration the many, many other prizes along the way. As a matter of fact, last September when we had 600 some teams bowing in it's predecessor, our total prize list was just under \$4,000.

So, here it is follows. An equal opportunity for one and all because as the title indicates, it's handicapped figured at 70 per cent of 210.

And don't worry about all of the pros walking away with the prizes cause they're not even permitted to compete in it. Squads are on Friday's, Saturday's and Sunday's scheduled for every half-hour apart.

Another journey which we've been fooling around with for the last three weeks will have a local leg when the professionals bow in it on March 14.

Up to this time, only 15 have taken a whack at trying for this unique honor, along with the \$3,000 in prize money. And I'm not even considering the rare privilege of a local bowler rolling alongside of a professional either.

There'll be 400 prize pay-offs with first place \$1,000 and a trophy.

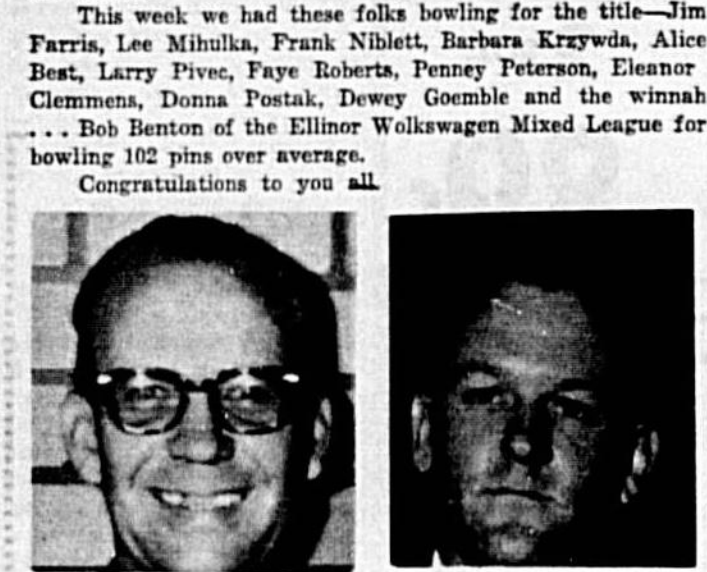

This coming Saturday, those 15 who have already tried to qualify will roll again, cause it's based on the top one of 20 entries, and one from that list will be Sanford's representative. Bob Locke, Barbara Krywda (bowed three times), Roger Jones, Jim Farris, William LeMasters, Bob Jackson, Rusty Boyd, Peter Peterson.

Talking about all these tournaments, let's bring another one into focus for you. This is the very popular "Star of the Lanes" get-together held every Saturday at 7:30 p.m.

Each week, as you know, we have league's represented and the one who bowls most pins over his or her average is the winner.

This week we had folks bowing for the title—Jim Farris, Joe McCallan, Frank Whigham, Barbara Krywda, Alice Best, Larry Price, Faye Roberts, Penny Peterson, Eleanor Clemmens, Donna Postak, Dewey Goebble and the winner... Bob Benton of the Ellnor Wolkowicz Mixed League for bowing 102 pins over average.

Congratulations to you all.

JOHN BRIDGES

For you gals who are going to the State Tournament in Ft. Lauderdale, there have been a number of special model price quotations reserved at the Lanes in the past couple of days. Take a look and maybe you'll save yourself a couple of George Washingtons.

Speaking of the ladies, here's the latest note from the W. I. B. C.

A left-hander from Rochester, N. Y., who just turned 26 in January, Mildred Ignizio, tied the WIBC individual three-game record on Jan. 20 with the 237-236-279/792 series.

And get this... she was averaging 208 at the time. (I knew it... I just knew it... being left-handed isn't enough, Split-ski. Yuh just gotta wear a skoit, buddy.)

Boy-oh-Boy but are the local men who are going to Miami for the ABC National Championships ever excited.

And by the way, I have worked out a program with Miami officials to permit any of you who might just now have decided to bowl to get you a spot on a make-up team, with date and times to be selected by ABC.

If you're interested, let me know cause this is positively the last opportunity to get in and probably the last time for ten years or so that the ABC will even be in the southern part of the country.

There'll be 2,454 teams competing, with more than 17,000 bowlers scheduled to roll for the more than \$360,419 in prizes.

Monday night was another one of those good evenings for "pin bustin'."

Ellen Betts started the fireworks in the Quality Mobile Homes Women's Scratch League with a heat of a 233 game and then the Men's Singles Classic League at 9 p.m. followed with its share of pro classic.

Three of the legions were averaging over the 200-mark and one particular bowler has raised his average some 10 to 12 pins in the last five weeks of bowling.

For those of you who don't bowl this may not sound like much of a feat. However, let me assure you that it's like Roger Marks coming through this year for the Cards with a 200 average from his dismal performance of last season.

Speaking of Rich (Slingshot) Murphy who has been over the 600 series category during these several weeks and last night bowled one of his best with games of 256, 213, 221/472 series. And then in the fourth and final game, Murphy slipped a wee-bit with a 170 for an 812 night.

Rich Murphy HARRY PENTECOST

Others plastering the pins were Harry Pentecost with an 855 night composed of games of 210, 201, 225 and 219 and Johnny Bridges clipped an even 800 set with his high single being a 216.

Also know of a certain "left-hander" (Oh, I could just cry, cry, cry) who hasn't been bowling his weight lately. (And what makes it worse is he's putting some weight on making it that much more difficult.)

Well, anyhow... this character had a 137 game and then turns right around the shoots a 222 game. (What was it my instructor bowling Hall-of-Famer Joe Wilman once told me... "You can best describe the good bowler in three words, John—control and consistency.")

Ha! That's consistency? I'm glad I won't be bowling in the men's handicapped tournament for the next four weeks. Maybe I'll be able to watch some of the better local bowlers and pick up a point or two.

Remember, our Sunday Special will now start at 9 in the morning.

RICH MURPHY

Pincrest Captures 'Biddy'

Pincrest Rexall won the second-half championship of the Florida Junior Boy's Basketball League Monday night by defeating Sanford Electric 32 to 30. This victory gave Pincrest Rexall both the first-half and the second-half championships.

Frank Whigham produced his biggest effort of the season with 29 markers, twenty coming from the floor. However, the only other Sanford players in double figures to help him was Bobby Lundquist with 10. Buddy Stumpf and Lamar Oxford added nine each to the losing cause.

The Seminoles opened the game with their press, but the Seabreeze quint wasn't hampered too much by it as they hit at least 20 points in each quarter.

Joe Steffens led the champions with 17 points and high scoring honors for the night. He received ample help from his teammate Ricky Grant who had nine points. Robert Ashby played a fine four game and shot well from the free throw line. Bart Peterson and Ken Griffith led the defense for Pincrest Rexall.

The "big red" of Sanford Electric put up a real battle before points down in defeat. They managed to stay with the bigger team of Pincrest Rexall through the first half. The score at half time was 12 to 12, but in the third quarter the champions began to pull away. Sanford Electric came back in the fourth quarter with a strong bid, but it fell short as the time ran out on the clock.

Brent Raborn displayed some fine shooting in leading the losers with 15 points. Walt Morgan backed up Raborn in the point department with nine for the night. Harry Tyre and Tom Hendricks were strong on defense, while Jerry Farelta developed into the floor leader. In the intermediate action, the Colts won the runner-up position by defeating the Rams 44 to 36 in a play-off game.

Glen Robinson was high scorer for the Colts with 23 points and Joe Pauline led the losers with 23.

Oviedo Nips Florida Air Quint, 50-48

The Oviedo Lions edged out the Florida Air Falcons last night 50-48 in a thrilling back and forth battle.

The opening quarter was a seesaw contest with the Lions having only a single point edge, but the second quarter was an entirely different story. Florida Air surprised the Lions with six points before they could get back on their feet maintaining a five point edge until half time.

Florida Air tried to freeze the ball to no avail at the final period. The Lions finally caught the Falcons with one minute to spare on a two-point play by Simon Harper. McCallan threw in the winning field goal with 15 seconds left in the game. Rick Brown missed the Falcons' last opportunity for a tie, just seconds prior to the final buzzer sounding.

Four of the Lions starting five were in double figures led by Simon Harper with 15 points followed by Roy Johnson with 12. Joe McClellan and Phillip Walker each added another 11 points.

The Falcons' two big men, Rick Brown and Jim Watkins scored in double figures collecting 25 and 16 points respectively.

Rick Brown of Florida Air was the leading rebounder of the game sweeping nine rebounds off the board. Joe McClellan led Oviedo's rebounding attack pulling down six followed by Simon Harper with five.

The hot hand of Rex Heipe led the Baby Lion scoring attack with 21 points followed by Bratton with 11.

Crooms Whips Ocala, 77-68

The Crooms Panthers cage squad continued its winning ways by posting their fourth consecutive win by trouncing the Ocala Wild Bulls, 77-68.

The visitors made a strong run at posting a win when they led the Panthers 36-32 at the end of the half. However, the locals found their shooting improved during the third quarter and regained the lead by the count of 56-47.

Yorrell Elter led all the scoring for both teams with a total of 21 points. Team-mates Leonard Davis chipped-in with 16. Terry Britton had 15, Ronald Merthia added 12 to the cause and Grey Robinson lofted 11 through the hoop.

The Last Race

MIAMI (AP)—Third Martinis, a grand old runner and darling of the fans at all three Miami area tracks, probably has run his last race.

Allen Jenkins, trainer for Hobbeu Farm, sent the eight-year-old stallion to Ocala Monday to stand at stud. Third Martinis stood at the same site in 1965 and 1966.

Seabreeze Wallops Locals

Sanford Takes It On Chin (Twice)

The Seabreeze Sandrah pulled-off a double sweep from the Sanford Seminoles last night at the Daytona Beaches home gym. The varsity rolled past the Sanford hoodooers 20-7 and in the preliminary contest, the Baby Crabs started the evening for Daytona with a 63-53 victory.

Frank Whigham produced his biggest effort of the season with 29 markers, twenty coming from the floor. However, the only other Sanford players in double figures to help him was Bobby Lundquist with 10. Buddy Stumpf and Lamar Oxford added nine each to the losing cause.

The Seminoles opened the game with their press, but the Seabreeze quint wasn't hampered too much by it as they hit at least 20 points in each quarter.

Sanford hit 32 field goals as compared with Seminoles' 24 and added 26 from the charity line. Sanford collected 22 free throws. Seabreeze used its height to an advantage also, controlling the boards and dominating the play in general. The Seminoles record now stands at 7-17 with one more game on their schedule. The Seminoles will host Winter Park Friday at the Bill Fierling Memorial Gym. The Parkers own a previous 86-64 win over Sanford.

Seminole 18 17 17 18-70
Seabreeze 23 20 24 23-80

Seminole-Stumpf 3-3 0, Whigham 10-20, Weston 0-3 0, Dunn 1-1 3, Oxford 3-5 0, Wheaton 3-0 6, Lundquist 4-2 10, Hollingsworth 0-1 1, Totals 24-22 70.

Red Murphy Favored At SOKC

The Racing King semi-finals take the spotlight tonight at the Sanford - Orlando Kennel Club.

The track's top 16 male sprinters have been picked for tonight's ninth and tenth races. Morning line choice to win the ninth race is seven-time winner Red Murphy. Second choice is defending champ Pastrolman Day. Other ninth race starters include: Fomah Bud, L.G.'s Akas, Mulberry Hope, Record Heat, Tall Texas and Berkeley Noel.

In the tenth morning line choice is six-time winner Johnny Bodine. Also in the field are Lupino, L.G.'s Hector, Ridge Master, Lotta Vim, Ben Kiser, Mystery Kid and Shifting Tide.

The top four finishers in each race will make up the field for the annual running of the Racing Finals Saturday.

Grid Playoffs Net Plenty

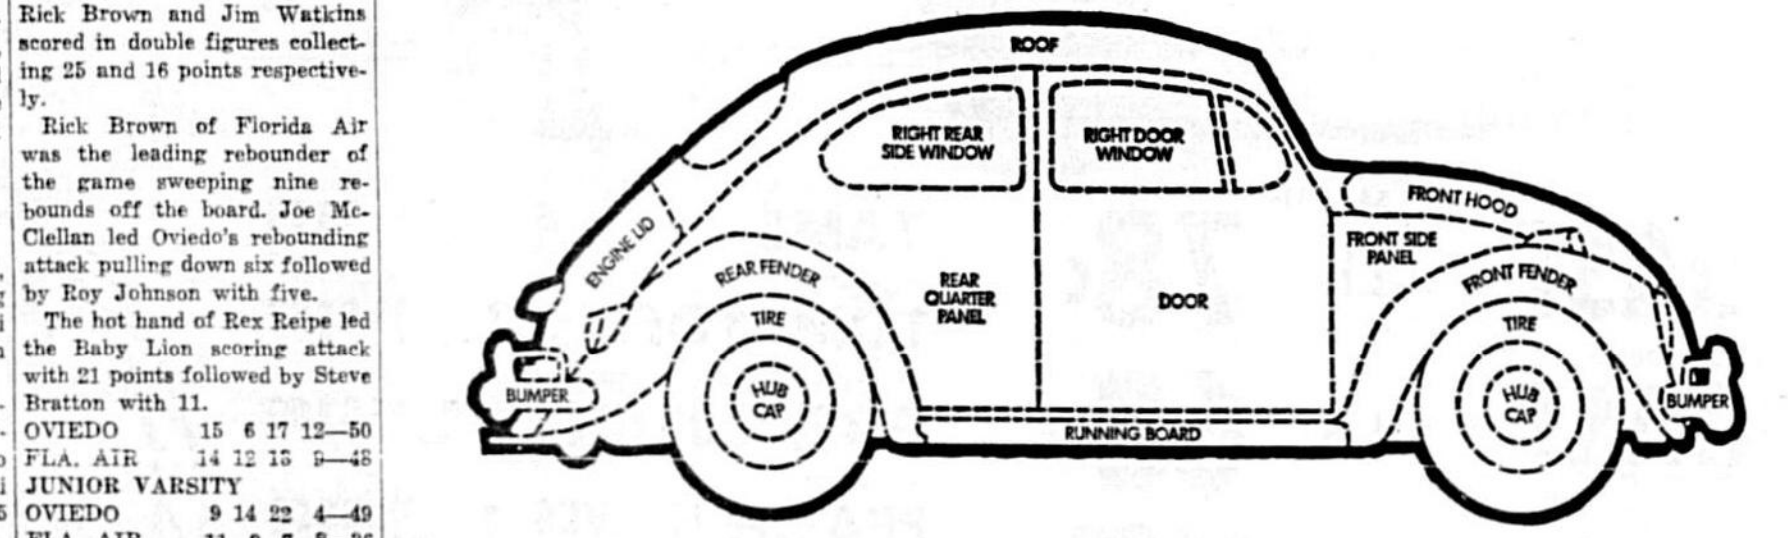

GAINESVILLE (AP)—Last December's state high school football playoffs netted \$50,411.99 in profits. Floyd E. Lay, executive secretary of the Florida High School Activities Association, reported yesterday.

Biggest gate was for the Class AA semifinal game between Winter Haven and Fort Lauderdale which drew 8,000 spectators and netted \$13,723.10.

Cazlie Russell, a member of the New York Knickerbockers, led the Big Ten in scoring last season with 465 points in 14 league games.

When Bret Hanover, now retired to stud, was voted Harness Horse of 1966 he became the only three-time winner of the award.

Austin Denney, star end for the Dallas Cowboys and New York Jets.

All the choice parts are readily available.

If you're in the market for a 1949 Volkswagen hood, or a '53 hubcap, we have good news for you.

Parts for the '49 and '53 Volkswagens are on top at any VW dealer. When you have a car that almost never changes its style, you don't have to worry about obsolescence. One year's hood is pretty much like every year's hood.

This being the case, your VW dealer can get you every part to fit every year.

Enough parts to build you a brand new 1957 Volkswagen. Or a 1957 Volkswagen.

If you only want a front fender, you don't have to dismantle half the car to put it on. Ten bolts do it.

You can replace the entire engine in an hour and a half.

And just to make sure our parts are as great as our whole cars, we put each part through the most rigid factory tests before we ship it out, or put it on our cars.

So if you have a Volkswagen in disrepair, go to your nearest Volkswagen dealer.

He won't give you a bum steer.

Fate Of SHS Baseballers Rests On Two Sophomores

Starting pitchers for the Seminole High baseball team will be two Sanford Junior High graduates, sophomores Steve Schumaker and Gary Maples, who were also the Sanford American Legion's top pitchers this past season.

Schumaker doubles as a power hitting centerfielder and Maples is also known to have an affinity for the long ball.

Many of the Seminoles' games will be played on successive days causing Coach Owen McCarron to search for a third starter.

Skip Senkarik and Bobby Lundquist, both sophomores, will probably be called upon to fill the capacity for relief hurling.

"Right now, pitching is probably our strongest point, as it usually is this early in the season," stated the Seminole men.

GARY MAPLES SKIP SENKARIK

"We have several good boys in that spot and some good prospects for relief work. However they are untied in this area and they're new to high school ball."

At the other end of the battery will be either Tom Bryan or Mike Long, both with experience.

Bounding out the rest of the team for the upcoming game with Leesburg on March 2, will be a group of boys with some varsity experience, but mostly sophomores and untired upperclassmen.

At first base, Billy Miller will clinch with some varsity experience; second will be covered by sophomore Skip Senkarik with Junior high knowledge. Shortstop belongs to Billy Gray who played for the SHS this mound nine last year. The hot corner goes to Donny Anderson, who has had no high school horsehide experience.

The outfield will be composed of Mark Carlo in left field with the remaining two to be divided up between the brother duo of Jesse and Carl Schumaker.

Left fielder Carlo presents varsity credentials as does senior Steve Schumaker in right field. Sophomore Steve, a starting pitcher and power hitter, covers centerfield like a blanket.

Coach Owen McCarron is the Seminoles' new mentor, with an impressive Junior high mark of 14-21 state last year, gained mostly against Orlando Metro Junior varsity teams.

Not Worried About Game--Palmer

TUCSON, Ariz. (AP)—Arnold Palmer isn't worried about making it back to the top in 1967. He feels he never left there.

"My game is not as good as people make it sound," Palmer said today after arriving for the \$50,000 Tucson Open that starts Thursday.

"I'm driving very well. Last year my record wasn't as good as in other years, but I made more money than ever before."

The 37-year-old Palmer won only four PGA tournaments in 1965 and 1966 after winning 41 in his first 10 years as a touring pro, prompting an outbreak of articles about "What's ailed Arnold Palmer?"

"I think what causes these comments is the fact that I haven't won a major championship since 1964 (Masters) but my game is as good as it ever been."

"I haven't played quite as much because my business schedule has taken quite a bit of time."

"I can tell you this though. My basic attitude hasn't changed. One of the prime things I'm concerned about is winning golf tournaments, regardless of the money."

Palmer won \$129,632 in 1966, second only to Billy Casper's \$150,723. However, on the official money list he was third behind Casper and Jack Nicklaus.

This is the first time Palmer has competed in the Tucson event since 1960.

The field includes only four of last year's top money winners, Palmer, R. H. Sikes (8), Frank Beard (9), and PGA Champion Al Geiberger (10).

Wednesday's pro-amateur event has an impressive list of entries, including such pro players as Mike Ditka, Jon Arnett, Ed O'Bradovich, Joe Marconi and Riley Matson of the Chicago Bears and Paul Hornung, now with New Orleans Saints.

They will be joined by former Yankee pitcher Lefty Gomez in addition to handleader Lawrence Welk and Chuck Connors. Former Republican presidential candidate Harry Goldwater is entered.

Hint Giants To Get Pick Of The QBs

MIAMI BEACH (AP)—A rumor that the New York Giants will get the pick of quarterbacks in this year's draft has been given a degree of substance, if not clarification.

National Football League Commissioner Pete Rozelle said Tuesday "There is some validity to the reports."

Normally, first choice in the annual draft of college players would go to the NFL's sweetest club at New Orleans. The Giants, as the team with the worst record last season, would get the second dibs.

The whole thing will have to be worked out, Rozelle said, after the NFL meets in Honolulu next week.

AFL owners, general managers and coaches took this afternoon off to play golf. Mill Warden, league president rehired for three years, said it was the first time in the seven-year history of the league that we've been able to take a break for golf.

The AFL executives are trying to bring their players' pension plan in line with that of the NFL. No inter-league trading is expected to take place until these plans are synchronized.

Rozelle said one cross-league contract case is "academic" at this point.

He referred to the signing by Mike Rilka, all-league tight end of the NFL's Chicago Bears, of a contract with the AFL's Houston Oilers.

The Rilka situation is "academic" until his contract with the Bears runs out May 1, Rozelle said. It is not being discussed by the AFL owners here.

PETE ROZELLE

Hunting, Fish Arrests Dip In County

Seminole County had the fewest number of arrests made for hunting, fishing and boating violations during the period from July 1, 1966, through Dec. 31, 1966, according to information released by the Game and Fresh Water Fish Commission.

The total number of arrests made was 672 throughout the Central Florida Region with only six recorded in Seminole County.

Arrests made in other counties were: Brevard 62, Citrus 16, Flagler 31, Lake 40, Marion 167, Orange 25, Osceola 41, Putnam 46, St. Johns 74, Sumter 36 and Volusia 54.

The violations which occurred most frequently included: 221 for no fishing license, 57 for no hunting license, 104 for improper safety equipment in boats, 82 for migratory bird violations and 87 for hunting with a light and gun at night.

During this period the officers of the commission, traveled 319,756 miles in land vehicles. They spent 37,013 hours on land patrol, 6,796 hours on water patrol, 1,027 hours in court, 225 hours in meetings, 884 hours on equipment maintenance, 2,082 hours of miscellaneous duties.

'Curtis Hayes Day' Netted \$245 For Injured Crooms Footballer

By MRS. R. B. THOMAS JR. 122-3734

Youth is the period of building up in habits, and hopes, and faiths. Youth is the opportunity to do something and to become somebody. Youth is the season of hope, enterprise and energy, to a nation as well as an individual.

Youth, with swift feet, walks onward the way, with every joy lies all before his eyes. The destiny of any nation, at any given time, depends on the opinions of its young men and women under five and twenty. Today we salute two youngsters who are making of desirable citizens of tomorrow's society.

They journeyed to Goldsboro to find Jerrold Franklin Bentley and Barbara Ann Wilson, Mr. and Miss College Graduate.

Jerrold F. Bentley, son of Mrs. Natherine Bentley and the late Jerry Bentley, of 118 Perimeter Dr., is a member of the chorus, and class representative to the student council.

He has been cited for perfect school attendance and for reporting the largest contribution to the March of Dimes drive. His hobbies are reading, listening to music, and building models.

With six more years of formal education ahead, Jerrold is getting a degree in science and math.

To his fellow classmates, Jerrold has this to say, "Study hard, stay in school each day, and always obey your teachers and parents. It is the only way to get on in getting your homework."

Mrs. Roberts made this observation, "Jerrold is an all-around student, sometimes over anxious to do well. His knowledge of daily history and science is above average. He is liked by all students and teachers."

Barbara Ann Wilson, daughter of Mr. and Mrs. Timothy Wilson, of 804 Mulberry Ave., is a sixth grader at Goldsboro. She is a member of the Girl Scouts, camera club, band, chorus, and is assistant secretary of the student council.

Barbara is a member of the "Miss Goldsboro's Attendant" at this school term. She enjoys reading and traveling, and upon completing high school, would like to go to college and later travel to become a lab technician.

Barbara's advice to all youngsters is, "Keep your mind open and get a good education."

Her homeroom teacher, Leroy Hammett, said, "She is a very outstanding girl, socially as well as academically."

Her adviser, Mrs. M. Roberts, said, "Barbara is a very good student, socially as well as academically."

Her adviser, Mrs. M. Roberts, said, "Barbara is a very good student, socially as well as academically."

Tire Purchase Savings Of 33% Told To County

By MRS. R. B. THOMAS JR. 122-3734

Savings of as much as 33 percent will be seen by the county on cost of purchasing tires with authorization given by the Board of County Commissioners to the road superintendent Tuesday.

The board instructed J. C. Lavender, road superintendent, to use the state price list for purchase of all tires for county use where local prices are not competitive.

Lavender pointed out savings of one-third will be realized on each one-fourth will be on heavy equipment tires.

Lavender further pointed out, municipalities may also use the state bid price.

In other business, the board authorized retail by the road department of a back-hoe, to be purchased, for use on Spartan Drive.

Referred to Commissioner Robert Parker, for study and recommendation, request of C. and Hazel Weathering for permit to build a retaining wall on Lake Concord in Casselberry.

Set aside use of the county commission room each Friday morning for use for AARP's Citizens' Ban Network meetings.

Delayed action on request from the J. Al. J. Smith for participation with county on constructing a road, adjoining the fronton, to English Estates Road.

Phony Listings Of Directories Here-Krider

By MRS. R. B. THOMAS JR. 122-3734

Seminole County Chamber of Commerce today warned that phony listings are being received in this area, to induce buy, unsuspecting businessmen make their cards harder to read.

John Krider, manager of the Chamber, said this directory scheme is aimed particularly at company employees responsible for approving invoices for advertising in the directory.

He pointed out that the directory forms are a renewal of the company's list of advertising agencies, and the local advertising directory or other established directory.

Drive Planned Against Theft Of Automobiles

By MRS. R. B. THOMAS JR. 122-3734

WASHINGTON (AP) — The government is planning a national campaign against car theft and is seeking — through persuasion or legislation — to have automobile manufacturers agree to install more secure ignition systems.

Announcing this today, Asst. Atty. Gen. Fred M. Vinson Jr. said steering wheel, transmission and lock and more secure ignition systems are devices which would help reverse the rising trend of automobile theft.

Vinson said the Justice Department has conferred with industry representatives with a view to installation of feasible and effective devices at the earliest practicable date.

Reservations also are being taken for a bus tour to the Passion Play in Lake Wales, April 11, and for a trip to Madison, Wis., April 14-15.

Plans have been approved by the DeLury Chapter for a panel of discussions at the March 20 meeting with representatives of local organizations and agencies.

Sen. Thomas J. Dodd, D-Conn., said his group also is considering legislation which would require anti-theft devices on new cars.

Their talk of possible new laws dealing with automobile equipment came with manufacturers and consumers at odds over the number and nature of safety devices to be required on 1968 model cars under a law passed by the 91st Congress.

Vinson said the criminal division of the Justice Department is conducting a national anti-theft prevention campaign, due to begin about March 1. He said 19 organizations of automobile owners are participating.

Tax Returns Reveal All To Uncle Sam

WASHINGTON (AP) — Your income tax return is going to tell Uncle Sam more than just how much tax you owe.

Statistics on income, population and a host of other social analyses will be compiled from the tax returns due by April 17. Information from your return might even be used in a federal check if you apply for a government job.

"If you think your income tax return is strictly confidential, you're mistaken," one congressional source said today, lining up critics who say the government should be satisfied to learn what the taxpayer owes.

But the supplementary data processing will be even easier this year because every return will be read by computer.

It's against the law for an employee of the Internal Revenue Service to divulge the income, profits, losses and spending or any other information listed in tax returns, but this doesn't mean the data are always a secret.

Anyone may ask a district director of Internal Revenue whether you filed a tax return for a given year and the district director can say "yes" or "no" but divulge no further information.

But government agencies can obtain tax returns under provisions spelled out by IRS and executive orders. So can state taxing officials and some foreign governments with which the United States has tax treaties.

Three congressional committees — the House Ways and Means, the Senate Finance and the Senate House Committee on Internal Revenue Taxation — have access to any IRS files.

For a federal agency to obtain a tax return, the request must be signed by the agency head and sent to the Internal Revenue commissioner who acts on the request himself. He must be satisfied that the reason given is legitimate.

The Senate Judiciary subcommittee on Administrative Practice and Procedure found that federal agencies sought access to tax records for reasons including an investigation of an Air Force employee, a disbarment case, a Civil Service Commission inquiry into an application for a federal job and an investigation by the Federal Communications Commission of a radio station licensee.

Many of the statistics published by the federal government are derived from tax returns, and there are constant new proposals for extracting more information from them.

ACL Train Scheduled For Passion Play

Arrangements have been made with Atlantic Coast Line Railroad to run a special 15-car train from Sanford, Winter Park, Orlando and Kissimmee to the Lake Hills Passion Play at Lake Wales Sunday afternoon.

Departure time from Sanford will be at 2:05 p.m., with return shortly after midnight. Price of ticket will include the train fare and play. Reservations should be made as soon as possible with the ACL ticket office.

Peggy Wood Honored With Farewell Brunch

By CECILIA FARMER
The RVAH-12 OFFICERS WIVES held a farewell brunch for Peggy Wood, wife of the commanding officer of RVAH-12, Cdr. T. Barkley Wood, Ph.D., at the Orlando Air Force Base Officers' Club.

A red and white color scheme was used in decorations. The centerpiece on the head table was an arrangement of red and white roses in a silver bowl and the individual tables each held bouquets of red and white roses.

The menu included wine punch, Quiche Lorraine, ambrosia, broiled stuffed tomatoes, hot rolls, butter and coffee.

Mrs. Wood was presented a farewell gift of a silver champagne bucket from the RVAH-12 wives.

Guests attending were Misses R. J. Sample, C. R. Smith Jr., W. S. Thompson, P. J. Ryan, D. M. Sullivan, T. J. Kilcline, C. L. Putnam, D. E. Webster, R. H. Lovelace, T. E. Daum, D. E. Dearolph, Roy McClellan, E. Fowler, G. L. Coffee and W. H. O'Gara.

Refreshment hostesses, during the social hour, were Sharon Woodruff and Linda Johnson. A heart shaped Valentine cake (a specialty of Sharon) was served with coffee to those present.

Welcomed by the group as guests were Frankie Ridemour, Judy Sheffield, Yvonne Strauss, Linda Emery, Ruby Spiblin, (mother of Joan Hyman); Margaret Kuder, Natalie Stewart and Patricia White. The youngest guest was Pat's three week old daughter, Shawna White.

NEW BOARD MEMBERS OF THE CPO WIVES CLUB met with the retiring board at the home of president, Pat Bernal, for a planning session and discussion of coming activities.

Pat announced the following representatives for the next six months: Edna Burns, NANCY HOFFMEYER, Patsy Mentarain, Bea Jarrell, Laison, Jo Stanekiewicz, Retired Wives Club.

Marian Holmes will serve as hostess for next month's coffee.

The RVAH-3 ENLISTED WIVES will celebrate their second birthday with a BAKE SALE, this Friday in Hangar 4 aboard the Station, starting at 9 a.m. Free coffee will be served along with the food.

The big event at a recent meeting of the group was a program and demonstration on "Hair Styling," presented by Barbara Hull, from Styles by Sandy. She demonstrated two different hair styles using as models, Mrs. Jack Kanner and Mrs. Michael (Cindy) Kelly, Winona.

During the business session, it was decided to hold a drawing for a mystery gift at each meeting. Winner of this week's gift a pretty tea towel, was Sharon Hutto. Pat Crank will host the board meeting, Feb. 28 and baking for the USO this month will be Carol Bastian and Pat Moghan.

Mrs. Wood was presented a farewell gift of a silver champagne bucket from the RVAH-12 wives.

PEGGY WOOD, right, receiving a silver champagne bucket from Mrs. P. E. O'Gara, as a farewell gift from members of the RVAH-12 officers' Wives Club.

Mrs. Anna Owens was also welcomed as a new member. All RVAH-12 wives are welcome to attend the meetings, held the second Thursday of every month at 7 p.m. at the Acey Ducey Club. Game night is Saturday, Feb. 18 at 8 p.m. at the home of Martha Pierce. USO bakers for March 3 are Ava Owens and Martha Pierce; hostesses for March are Barbara Richard and Dawn Garity. Next board meeting will be March 1 at the home of Janie Glenn.

THE ENLISTED WIVES CLUB of RVAH-5 are forming a new club under the same name.

A GROUP OF FRIENDS and his family joined in helping Robert Hansen celebrate his 13th birthday at his home on Oak Avenue. Grouped around the table are, left to right, (center) Douglas Maddox, Jack Hansen, (the honoree) Robert Hansen, Leon Bryant, holding the family pet, Tina, and Donna Lee Hansen. Standing are Randy Crocker, Mike Mercer, Mr. and Mrs. Carroll, Debbie Hansen and Sara Mercer.

Robert Hansen celebrated his 13th birthday with a group of friends at his home, 1909 Oak Ave., Friday. The party was given by his parents, Mr. and Mrs. B. R. Carroll.

The guests arrived at 4 p.m. and enjoyed a variety of games, including pool and basketball.

Circle Plans
Easter Fete
Anna Miller Circle held its regular business meeting Tuesday, Feb. 7, at the Ricks Club at 8 p.m.

MRS. DARNELL KILCLINE, (right seated) was hostess for an RVAH-12 national meeting for the Enlisted Wives of RVAH-11 at her home on Westwood Court. Others seated from left are Kathleen Foley, Patty Choyce, the executive officer's wife and co-hostess for the meeting and Marie Hulley. Others attending the meeting, back row from left are, Kay Poiesz, Jo LeFites, Irene Sprague, Edna Harper and Janet Castle.

The meetings will be held every other Wednesday at 7:30 p.m. at the NAS Club Room. The last meeting was held on Feb. 8 with Carrie Breen, chairman and Leta Morrison as co-chairman. Tracie Berger was acting secretary and treasurer as well as chairman of refreshments. Sponsors for the group are Mrs. Jane Davidson, whose husband is C.O. of RVAH-5 and Jean Winberg, whose husband will soon be the new Executive Officer.

Mrs. Winberg donated a floral centerpiece as the door prize and it was won by Donna Hudson. Any enlisted wife interested in learning more about the group may contact Mary Ellen Rowe at 323-1874 or Donna Hudson at 322-8721. All enlisted wives of RVAH-5 are welcome and invited to attend the next meeting, Wednesday, March 8.

CHECKERBOARD FAMILIES are entertaining out of town guests this week and looking forward to a gala party on Feb. 25 at the Mayfair Country Club. Among those reporting out of towners were Cdr. and Mrs. T. J. Kilcline with his parents, Mr. and Mrs. F. L. Killip, Mrs. John Keach, from Kokomo, Ind. They were enroute to Ft. Lauderdale and stopped in for a visit. Also visiting at the Kilcline residence were Darnell's sister and her husband, Mr. and Mrs. Clyde M. Kennedy and daughter, Joy Arlene, who make their home in Orange Park.

Mr. and Mrs. Leroy Hawkins are hosts to her parents, Mr. and Mrs. C. W. Sapp, whose home is in West Virginia. Lt. Cdr. and Mrs. Robert Fawcett welcomed his mother, Mrs. Grace Fawcett, of Bogart, N. J. for a week's visit.

BRIDGE WAS ENJOYED BY THE RVAH-7 OFFICERS' WIVES, Friday evening at the home of Sally Mansole. A special WEDDING ANNIVERSARY card was presented to Marianne Williams, who was also high scorer for the evening.

LEFTOVER MAGIC
Did you know that alternating layers of leftover ham slices (or cooked smoked pork shoulder or Canadian-style bacon) may be put in a casserole with cooked lima beans and grated American cheese?

Plan on about 10 slices of the meat with 2 packages of frozen lima beans, cooked and drained and approximately 1 1/2 cups of grated cheese for 6 servings. The casserole should be heated in a slow oven (300 degrees F.) about 20 to 25 minutes.

Harris-Walter Nuptials Spoken

Frances Harris, daughter of Mr. and Mrs. Walter A. Hill of Charlotte, N.C. and Carroll M. Walter, son of Mrs. James C. Walter of Sanford, were united in Holy Matrimony, Jan. 13, 1967, at the First Presbyterian Church of Sanford.

Rev. Virgil L. Bryant Jr. was the officiating clergyman at the impressive double ring ceremony before the altar adorned with baskets of white gladioli and lilies.

The bride chose for her own a pink knit suit with matching accessories and a white orchid corsage.

Immediately following the wedding, Mrs. James C. Walter was hostess at the reception at her Grapevine Avenue home.

Arrangements of white gladioli and lilies were used throughout the reception area and color was dominant in the post-reception table decorations. The nuptials were set for 1:30 p.m. at 523 1/2 Ash Lane, Orlando.

Teenage Dance
Set By NOWC
Navy Officers Wives Club is sponsoring a teenage dance, Saturday, Feb. 18, from 7:30 to 9:30 p.m. at NAS Ballroom for all Navy dependents and their friends.

Abstracts will be playing a nominal fee will be charged.

Flo Winsa Hosts Zeta Xi Meeting

Flo Winsa was hostess at the February meeting of Zeta Xi Chapter of Beta Sigma Phi.

Kitty Corley presented an most interesting program on Nature's Landscape.

Elected to serve on the nominating committee for next year were Flo Winsa, Kathy Downer, Kinser and Eleanor Butler.

A social hour followed the business meeting with the hostess serving refreshments to the Mmes. Eleanor Butler, Billy Kelly, Lamar Downey, Betsy Corley, Thomas Russell, Bill Green, Flo Winsa, Flora Mae Wells and Miss Grace Marie Stansbacher.

Baking bread to use in turkey stuffing? If you want to follow a traditional Southern method, omit sugar in the cornbread.

Zoning Improvements Outlined

Efforts of the Seminole County Zoning Board to improve conditions and appearances around the county were explained by Robert S. Brown, county zoning director, to members of the Bear Lake Community Club at their February meeting.

Asked what could be done about old cars and other junk dumped on vacant lots, Brown said, "the zoning board is doing all it possibly can about these conditions under the present laws but the county does not have the minimum housing code and owners are required to clean up their properties only when it is proved they are a health hazard."

He cited the case of one family which appeared to own only one named goods and just tossed the empty cans out the back door. When the pile was so high no one could see over it, the owner was asked to clear it, but he refused. The Health Department was called in and a health officer was sent to the back door. When the pile was so high no one could see over it, the owner was asked to clear it, but he refused. The Health Department was called in and a health officer was sent to the back door. When the pile was so high no one could see over it, the owner was asked to clear it, but he refused. The Health Department was called in and a health officer was sent to the back door.

COUNTY ZONING was discussed by Robert S. Brown (right), county zoning director, for Bear Lake Community Club. With him is Russell Loomis, first vice president and program chairman for the club. (Herald Photo)

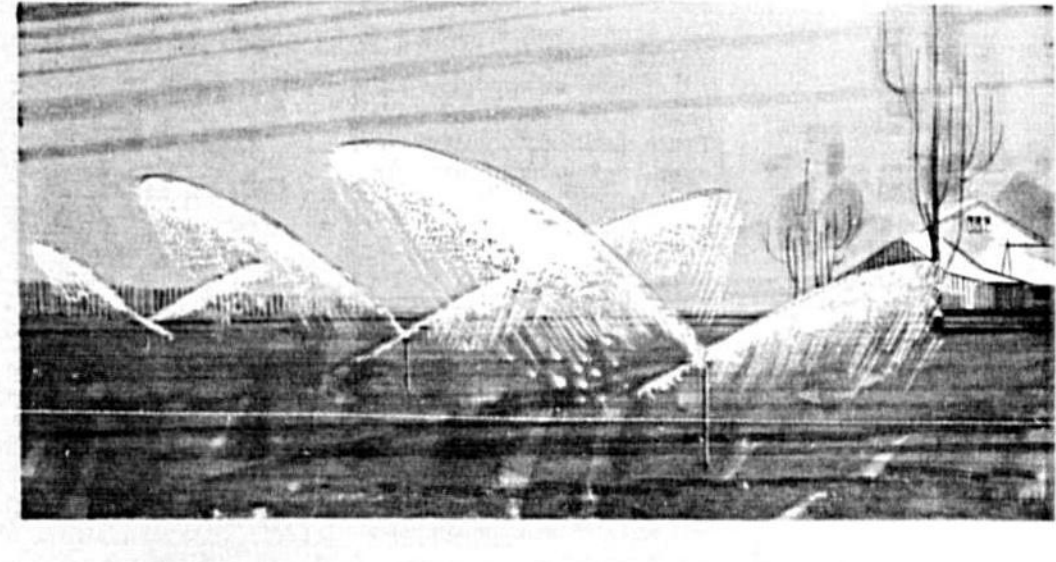

When a call is made to the zoning board, the building inspector checks the complaint. A letter is sent from the zoning board, which, Brown informed, is often ignored until a third letter stating the complaint is to go to the Board of County Commissioners arrives after this third letter, a certified letter is sent after which the board can take action and bring the case before a judge.

FHA Curbs Altamonte Homes

Growth in Altamonte Springs apparently came to a grinding halt with announcement last night that the Federal Housing Administration is now refusing commitments for homes in new plans there.

The situation came to light when a letter was read from the FHA office in Tampa notifying Greater Construction Company approval had been withdrawn on the 62 lots in Charter Oaks. Reason given by the Administration is the lack of sanitary sewer system in the town.

Val Robbins, county administrator, invited to be present at the council meeting stated, "This looks serious. Altamonte Springs has enjoyed tremendous development. It now appears two federal agencies (FHA and Housing and Urban Development) and possibly others are calling a halt."

Mayor Lawrence Swofford gave the opinion future plans will probably not be approved by the town.

In attempting to alleviate the problem for Greater Construction Company, however, council and the Mayor pointed out Charter Oaks, in the southeast end of town, is not a new plat, but only a name change of an old plat.

To town attorney S. J. Davis Jr., was instructed to correspond with FHA, forwarding a copy of his letter to HUD, explaining Charter Oaks is actually an old plat and the town's inability at this time to obtain financing of a sewage system.

The possibility of floating a bond issue for such a project was discussed by the mayor and the council. It was decided to go to the bank for a bond issue to put sewer lines in Altamonte at this time, and save the taxpayers thousands in unnecessary funds.

And great multitudes were gathered there onto him, and the whole multitude stood on the shore. . . St. Matthew, Chapter 12.

(Mayor Joe Baker dedicating the new Marina complex in the Fall.)

Who can understand their errors. . . Psalms, No. 19. (Community Action will probably hold an informal closed door, quiet, secret, husband-and-wife affair on Feb. 21 and decide what to do about the executive director.)

A Time to Speak. . . Ecclesiastes, Chapter 3. (Zontag Director Robert Brown will speaking in favor of a minimum housing code. His other day reported that at one spot in Midway eight houses are built on two lots 40 x 100 feet.)

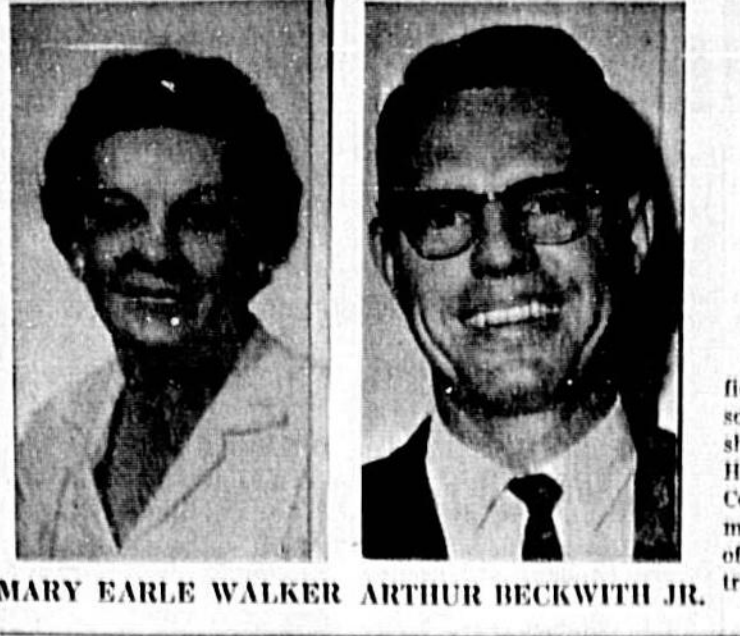

A Time to Weep. . . Ecclesiastes, Chapter 3. (It's a pity to imagine what would happen to any of those houses if one caught fire.)

And they shall cry in their desolate houses. . . Isaiah, Chapter 13. (Last month 10 persons in Midway applied for permits to install bathroom facilities in their homes. It seems these people are now provided with water. How could they have indoor plumbing before with no water?)

Ye blind guides, which strain at a gnat, and swallow a camel. . . St. Matthew, Chapter 24. (The City gets tough with youngsters caught possessing alcoholic beverages and in Municipal Court a seller is fined only \$25.)

Let all things be done decently and in order. Corinthians, Chapter 15. (Since the Hospital may raise its bed rates again and, give the nurses more money than they find a little for the \$1 per hour staff members?)

I have seen all the works that are done under the sun; and, behold all is vanity and vexation of spirit. . . Ecclesiastes, Chapter 1. (Seminole Lodge wants to build a 60 bed addition . . . Monday night the city just about nixed the addition by refusing to close Bay Ave. between Third and Fourth Sts. . . To the best interests of Sanford, one commissioner said.)

MARY EARLE WALKER

Fee Offices 'Shocked' Over Budget Controls

The three constitutional officers (county clerk, tax assessor, and tax collector) expressed shock and disbelief to the Herald today concerning the County Commission's decision made Tuesday to place their offices under its budgetary control.

"I am not aware of any attempt by the Board to usurp the duties of the Clerk as set out in the Florida Statutes," Arthur Beckwith, county clerk, declared.

"This is a movement made by the Board to change the laws of the State governing the Clerk, it would appear to be a broad step toward centralization of government. I do not believe the people of our county favor such action."

"It is clearly evident to me that Seminole Commission expressed themselves in the last election on 'Big Brother' and the 'Big Take Over.' However, the people of Seminole County have an opportunity to approve, all officers would abide by the decision and accept I am confident," Beckwith concluded.

Meanwhile Mary Earle Walker, tax assessor, declared, "The County Commission certainly went contrary to the indications they gave at previous meetings with the fee officers."

"When the Commission is discussing offices they have nothing to do with why did they what ever system of government we would know what was going on? It seems to me that this would be the proper thing for them to do."

"They haven't really given any good reason why they should have any thing to do with the budget of the I. & E. assessor or any of the other fee officers."

Mrs. Walker asked if the County Commission plans to also request a budget commission to be formed. "If they plan a budget commission, it must be elected by the people and members of it must be compensated. Where do they propose to get funds for that?" she concluded.

"I have not been apprised of the legislative work meeting of the Commission," Terry Ray, tax collector said. "It's a surprise to me!"

'Grasshoppers' Are Coming

A welcome invasion of "grasshoppers" - girl pilots - is to take place on March 1 and a wide-ranging discussion of airport possibilities and probabilities got top attention from the airport committee of the Seminole County Chamber of Commerce at a meeting here today.

Bringing the good news of the "Grasshopper" event was Lucie Payne, licensed pilot who had come to make the arrangements for this monthly gathering of the girls fliers. Formed five years ago the girls now have about 65 members living as far apart in Florida as Key West, Venice, Panama City and Jacksonville.

A "touch-down" at the Flying Seminole Ranch, greetings from officials of Sanford and Ovidio will precede a trip to the Naval Air Station in Sanford to be greeted by Capt. Herbert N. Hook, base commander. This is to be followed by an inspection of the base facilities with emphasis on the airport.

And it was the airbase itself that took the center of attention as the members of the committee with Gordon Frederick, chairman. Others on hand were Lyle C. Robb, Ken McIntosh, Bob Crumley, Fred Wilson, Ernest Southward, Lee Wheeler, Walter Givon, City Manager W. E. Kneeney, City Commissioner Earl Higgins, both.

Sparked by the lively personal interest many committee members have in aviation the hands of the city of Sanford, its airport specifically defined, the industrial area determined a flood of ready plans can be activated.

The aviation industry looking far ahead into needs of air traffic in the next five years use and introduced the probabilities of commercial plane use and introduced the probabilities of "float plane" and a helicopter traffic in and around Sanford. The part that Sanford the chamber's committee has been researching such uses a few years back and now with the July 1, 1968 date for NAS vacating set was moving to ready plans for immediate consideration by interested users. These plans will include full cooperation between the office of the City Manager. Knowles explained the ways in which the almost unbelievable demands of air traffic are becoming a daily problem for all of central Florida. The part that Sanford and Seminole County can play in this drama will be determined by the Navy's airport to a major extent but it will be happy to take any local bills under advisement."

Beth Makes It Official

Having qualified today for reelection as state senator for Seminole and Orange Counties, Sen. Beth Johnson, of Orlando, issued the following statement to The Herald:

"I regret this reapportionment has disrupted the representation of Seminole County, as it has most all other areas of Florida, but having worked closely with Seminole County officials before, I welcome the opportunity to represent all 75,000 of Seminole Countians in the future, and, if re-elected, I will be glad to work with the county board officials and all the people that their local legislation and their interests will receive from me the same attention as I have done in the past. I am proud to be the representative of the citizens of Orange County."

School Board To Name Architect Mar. 9

The County School Board will name an architect to draw up plans for three new schools in the county at the March 9 meeting. Supt. of Schools R. T. Milwre reported today.

Milwre said the board had listened to proposals from eight architects including two from Seminole County, John Burton and Eoghan Kelley.

The three schools are Sanford Junior High, Ovidio and Lyman schools. Estimated cost of the schools has been set at \$6 million.

Opposition
WASHINGTON (AP)—President Johnson's open housing civil rights proposal already is running into the same sort of congressional opposition that killed a similar plan last year. Johnson proposed late Wednesday that a ban on discrimination in the sale and rental of housing not become fully effective until 1969.

St. Johns Fish Get A 'Break'

Extended life to sports shad fishing in the St. Johns River was given today when commercial shad fishermen at Palatka are given a "break" to the fish.

Area fishing camp operators had requested through John Krider, Seminole County Chamber of Commerce manager, the commercial fishermen in life their gill nets from Friday afternoon to Monday sunrise, allowing the shad to come in from the ocean to spawn here.

Randolph Hoeger, State Board of Conservation director, informed Krider today the commercial fishermen had agreed to remove their nets from the river between Friday afternoon and Sunday sunrise.

C of C Planners Set Meet On Jessup Causeway

The Lake Jessup Causeway will be the main item under discussion at a meeting of the Long Range Planning Committee of the Seminole County Chamber of Commerce which was called for 7:30 p.m. Monday at Jim Simpson's Restaurant.

The committee will urge the County Commission to recommend the causeway be included in the primary and secondary road requests to be presented to the State Road Department at its district meeting in Deland at 4:30 p.m. March 7.

Normally little more than 60 per cent of the requests made by the county for roads are budgeted by the SRD with work actually being done on only 25 per cent.

Last year, the county listed 12 primary requests and 16 secondary requests. Eight primary roads were budgeted while only six secondary requests were budgeted.

Actually work is underway on only three primary roads (SR 430 to Orange County line; I-4 interchange at Lake Mary and widening of three bridges on SR 419) while work on only one secondary road (SR 427 from Longwood to Hutchison Parkway) is being done currently.

The effort toward the causeway that is accelerated today occurred many years ago. Since that time many men and women have worked to get this improved phone service.

The effort was brought to a critical phase when the members of the Florida Public Service Commission (those gracing the causeway tomorrow) agreed to a hearing. This was held on July 27, 1965.

Interested teachers, housewives, businessmen, public officials, striving to do all they could to make this "dream" a reality, filled the hearing room and overflowed into the halls. The presentation of the causeway and local, are to be commended for their efforts in "modernizing" our community.

The first effort toward the causeway that is accelerated today occurred many years ago. Since that time many men and women have worked to get this improved phone service.

FTU Sets Groundbreaking Mar. 19; Kirk To Speak

Governor Claude Kirk will speak at the groundbreaking ceremony March 19 for Florida Technological University, according to Bill Warden, director of public relations, in a talk before the South Seminole Civic Council Wednesday evening.

Members of the Cabinet, and area legislators also have been invited for the event.

The new university, which will be built near Ovidio, will open in September, 1968, with an estimated 1,500 freshmen and junior students and a faculty of 200.

Bids are being opened today for the first two buildings to be erected, the science center and upper division classrooms. The 1,200 acre site will be already conditioned. Work is already started on the utilities plant.

Warden said Dr. Charles M. Millican, president of Florida Tech, plans to put the emphasis on the individual and student. The university will expand to a full four year operation in its second year and a master's program is planned by 1970.

Degrees will be offered in the arts and sciences, business administration, and education. Present plans call for the implementation of a college of engineering and technology in July 1968, with pre-engineering courses available to the freshmen class in September. In 1969 it will be offered to sophomores and upper division courses will be available in 1970.

Tuition for commuting students will be approximately \$100, with books estimated at about \$30. For those living on campus, total costs, including room and meals, will be approximately \$435.

Metro Phone Hookup Celebration Slated

Manager for Florida, L. E. (Ed) East, Jacksonville, heads whose work in the cooperative effort will include John Evans, William Amidon and Robert Shelden.

Fred R. P. Hulbert of Winter Park Telephone Co. will lead a representation of his company that will include A. E. Ludisher, Frank Hotell, and M. L. Barre. Joseph K. Galloway, one of the founders of the firm and erstwhile president will also be on hand to witness the success of the project that began in his administration.

For the local Chamber of Commerce a host of members have worked on this project will be immediate past president Vernon Sims, Pres. Dewitt Matthews and Executive
