PARTNERS IN PROSPERITY

You and your home town are partners. If your town prospers, you prosper — if the town goes backward, you lose. Your interests are here. Keep your money where your interests lie. When you patronize outside merchants the money you spend can never be used toward the growth of this community. When you spend your money here you invest it and the investment will pay dividends in making our home town a better place in which to live.

Coal Operators Deny Accusations By Lewis

100,000 Electrical Workers Return To General Electric Plants In 16 States

(BY ASSOCIATED PRESS)
Dituminous coal operators gave a point-by-point reply today to the charges of John L. Lewis in Washington and accused the union of using inaccurate statistics in charging the industry with responsibility for the death and injury of thousands of miners. The owners called it an attempt by Lewis to make a false case to support his demand for a health and welfare fund.

Operators asserted the industry already is paying more than \$50,000,000 a year in social security and welfare taxes. The operators proposed overtime pay after 40 hours instead of 35 hours of work a week, and asked for a union guarantee against wildcat strikes and slowdowns.

Approximately 100,000 CIO electrical workers today returned to plants in 16 states and a similar back to work movement got underway by in General Motors. However, the GM return to work movement will not be completed until local issues are settled in a number of plants.

During the weekend, 30 units of the CIO Auto Workers Union voted on the national agreement made with General Motors and only one, located in Baltimore, turned it down. They then decided not to return to work until local grievances have been straightened out.

In Akron the rubber industry's "big four" wage and hour agreement now has been ratified by 32 of the 41 local unions involved.

Members of the CIO United Rubber Workers at two of the three large Akron plants have given almost unanimous approval to the settlement. They are employed by the Goodyear Tire and Rubber and B.F. Goodrich companies. Negotiations over local issues are still in progress between the union and the Firestone Tire and Rubber Company which has the third large Akron local. The other member of the "big four" is U.S. Rubber.

The agreement was reached in a series of Washington conferences in the past few weeks. It calls for a 15% cent pay increase.

At present, the number of persons idle in labor disputes across the country is 558 thousand. The total was brought down in that figure by the general electric workers, machinists in San Francisco and employees of the Timken Roller Bearing company and the Oliver Corporation.

Final Rites For Alva Lee Rigney Are Held Today

Funeral services for Alva Lee Rigney, 21, U.S.N., who died on March 7 at the U.S. Navy Hospital at Corona, Calif., were held this afternoon at 6:00 o'clock at the Erickson Funeral Home with the Rev. J.E. McKelvie, pastor of the First Presbyterian Church in Evergreen Cemetery.

Mr. Rigney was born in Sanford, March 6, 1924, and at the time of his death was serving in the U.S. Navy.

He is survived by the mother, Mrs. Roy Johnson of Sanford, and father, E.E. Rigney of Grand Island; four aunts, Miss Vera Woodcock of Sanford, Mrs. Bertha Terrell of Saginaw, Texas, Mrs. Gertha Rivers of Savannah, N.Y., Mrs. E.E. Butler of Phoenix, Arizona; a sister, Mrs. Jerry Kinlaw of Sanford; a brother, Jimmy Rigney of Camp Lee, Va., and two uncles, Harry Rigney of Jacksonville and E.E. Woodcock of Jacksonville.

Active participants were Walter Best, Rev. Carl Lee, James Kinard, Brotherton, Jr., Jack Ray and O.D. Landress, Jr.

Caldwell Terms Youth Problems Most Important

TALLAHASSEE, Mar. 18. (AP)—In Tallahassee today, Governor Caldwell termed juvenile delinquency the "most important social problem of the state." He urged delegates to his conference on the subject to bring out "practical, forward looking recommendations by which they can get some action" toward solving the problem. He spoke to more than 100 churchmen, state and county officials and representatives of social agencies conferring in the capital city.

Governor Urges Action By Delegates At Capital Parley

State Prison Superintendent L. F. Chapman joined several other speakers in pointing to improper parental guidance as one of the major causes of juvenile delinquency. Chapman said "no government or social organization can give" training in discipline and usefulness as well as proper and conscientious parents and he suggested that more training be necessary to require parents to give their children proper attention.

The president of the Florida Congress of Parents and Teachers—Mrs. Walter Beckham of Miami—advocated more training officials for work with young people, more community activities and greater efforts to correct delinquency before it reaches the courts.

Carter Warns Returning Vets To Report To Selective Service Board

Secretary E. B. Carter of the Selective Service Board in Seminole County, today warned returning servicemen and women that they must report to the local board as soon as possible following the receipt of their discharge and discharge information. "There are evidently a number of veterans in this county," Mr. Carter said, "who have not reported to the Selective Service Board with their discharge and copies of discharge information." Mr. Carter pointed out that "it is important that a veteran report to a board so that a report can be made of his or her appearance and so that proper registration and classification can be made."

Leut. Col. Cecil Ross of Orlando, battalion commander, told the men at target practice. There was guard duty and reconnaissance including, and winning. The food was reported to be good. The men left Saturday at 2:00 P.M. and returned 7:00 P.M. Sunday.

Vet Celebration Committee Holds Meeting Friday

Chairmen of the Veterans' Homecoming Celebration committee met at the City Hall Friday night and reported on the various events that are to be held here on April 3. George Touhy, general chairman, presided over the session which was also attended by Ed Higgins, manager, and H. H. Coleman, president of the Chamber of Commerce under whose sponsorship the homecoming is being staged.

Speedboat Races To Open Program Since Bands Unavailable

A parade with an abundance of good high school bands participating had been planned, but Bralley Odham, chairman of the committee on this event, said that many of the neighboring bands are entering a contest that will be held on April 4, precluding the possibility of their being here the preceding day.

VA Representative To Be Here Tomorrow

E.B. Carter, local coordinator of service to returning servicemen and women in Seminole County, announced today that the contact representative of the Veterans' Administration will be in Sanford at the Sheriff's office on Tuesday in the future instead of Friday.

Services Tomorrow

Funeral services for Timmon Mathews Hinson, 54, who died Friday morning at the home of his sister, Mrs. Elizabeth McQuay in Longwood after an illness of a year, will be held Tuesday afternoon at 4:30 o'clock at the Erickson Funeral Home with the Rev. W. P. Brooks, Jr., officiating. Interment will be in Evergreen Cemetery.

W. O. W. MEETS TOMORROW

W. H. Martin, of Lakeland state manager of Woodmen Lodge, will be present at the meeting Tuesday evening at the Waldman Hall in order to conduct initiation.

NAM Against Continuation Of Price Panel

NAM Asserts Price Controls Fostering Inflation, Slowdown Production

WASHINGTON, Mar. 18. (AP)—President Robert Wason of the National Association of Manufacturers says his organization opposes a continuation of OPA's another year beyond June 30. The NAM has prepared a statement for the House Banking Committee outlining its views on the subject.

The manufacturers call upon Congress to end price controls of all manufactured goods. The NAM statement asserts that these price controls are, as the association put it, "fostering inflation, enabling black markets to flourish and slowing down production."

Renovation Work Is Underway At Mayfair Hotel

Extensive redecoration are under way at the Hotel Mayfair including painting, new draperies, carpeting and refurnishing inside while exterior plans include the building of a swimming pool, tennis court, pier over the water in front of the hotel and location of the grounds. Mr. Lind Weber, manager, announced today.

The lobby walls are now painted a dusty rose with off-gray ceiling and trim. The dining room is in a delicate shade of green. New draperies have been purchased and will be hung soon. The dining room, ballroom, and other rooms on the first floor are to be repainted and hung with new draperies also.

The second floor which was recently redecorated will be repainted. The entire third floor has been carpeted and is to be furnished. When this floor has been finished, the Mayfair Hotel will be able to accommodate 300 guests.

A sun deck is to be built over the ballroom and furnished with attractive Florida furniture. The swimming pool is to be placed on the northeast corner of the Mayfair property and a ballroom court is to be built. The pier which is to be built in front of the hotel over the lake will have boat accommodations and fishing facilities.

The dining room fully staffed serves breakfast from 8:00 to 10:00 A.M.; lunch from 12:00 to 1:30 P.M. and dinner from 6:00 to 8:30 P.M. The game room may be rented for afternoon affairs and the ballroom is available for any occasion. Mr. Weber said.

TRUMAN ACCEPTS

WASHINGTON, Mar. 18. (AP)—President Truman has accepted an invitation to address an anniversary celebration of Fordham University. Mr. Truman will go to New York May 11 to deliver the speech.

BARUCH NOMINATED

WASHINGTON, Mar. 18. (AP)—President Truman is nominating Bernard Baruch of the United States Atomic Energy Commission. White House Secretary Charles Ross said that the nomination of the elderly financier will go to the Senate tomorrow.

DOUDNEY ISSUES WARNING

Military Training Is Discussed At Rotary Meeting

Ratigan, Toughy, Dean And Spencer Present Views On Question

A discussion of compulsory military training was held at the regular weekly luncheon at the Mayfair Hotel today under the chairmanship of George Touhy and with G. W. Spencer, Roland Dean and Jack Ratigan presenting the pros and cons of the argument.

Mr. Touhy called attention to a recent news item in which John Steele, naval commander of the American Legion, pointed out that for the 25th time in 25 years, the American Legion has come out in favor of compulsory military training.

Mr. Touhy said that the May bill for the enactment of such training will be acted upon within the next 4-6 months and suggested that the people should study its provisions and make up their minds on the matter. He said it provides for one year of military training for all boys in the country between the ages of 17 and 21.

USDA Study Spotlights Plant City, Miami For Air Concentration Points

State Market Director Feels That Volume Production In Sanford Area Would Also Justify Establishment Of Air Point

JACKSONVILLE, March 18.—Some very interesting facts relative to the air transport of Florida perishables are given emphasis in a factual study just issued by the Bureau of Agricultural Economics, United States Department of Agriculture, said William I. Wilson, director of Florida State Farmers' Markets today.

That study spotlights Miami and Plant City as among the best present locations for concentration points for perishables to be shipped by air. These designations of course are based on current production of various crops, and do not at all preclude the possibility for the location of concentration points in other areas. I feel, indeed, that volume production in the Fort Myers, Sanford and other sections would be entirely adequate to justify establishment of concentration points, as air services are made available and expanding demand in other parts of the country warrants.

Two major points which must be considered with respect to an transport of perishables are the greatly expanded population area which we may serve, and the improved quality of products which may be delivered to the consumer. This latter fact is pointed up by the survey referred to in a comment on the present possibility of retailing products in such centers as New York City within 24 hours of the time they are harvested in (Continued on Page Six)

Goering Says Nazis Did Not Anticipate Action Against US

NUREMBERG, Mar. 18. (AP)—Former Reichsmarschall Hermann Goering asserted today before the Nuremberg war crimes tribunal that "Nazi Germany never contemplated military action against the United States or Western Hemisphere. Goering was on the stand for the fifth day in his own defense on war crimes charges.

The former number two Nazi is now listed as top defendant of the 22 German leaders being tried. Goering told the Allied tribunal that Nazi efforts at economic penetration of South America were largely ineffective. He blamed American and British competition.

Referring to military plans Goering declared: "Threatening the American continent was never spoken of. Even if Germany had completely dominated Europe her small fleet and lack of resources would have forbidden any aggressive action against the United States."

Showdown Expected This Week In Iran Crisis By Diplomats In Washington

LONDON, Mar. 18. (AP)—Officials of the Iranian Embassy in London say that Iran is prepared to negotiate oil concessions with Russia. They stress that Iran will negotiate the oil concession question only if Soviet troops leave the country.

An Embassy spokesman says he is unable to confirm—or deny—stories that Premier Qavam now is negotiating with the Russians in Tehran. He declares that this, in his words, highly improbable in view of an Iranian law which bars oil talks until the withdrawal of foreign troops. He declares: "We do not believe that the Premier would dare to breach this law."

The spokesman adds that since the parliament has been dissolved, Qavam is the virtual ruler of Iran. However, he points out, that the premier would have to answer to the new parliament when it is elected.

A showdown is expected this week in the Iranian crisis. That is the view today of informed diplomats in Washington who are watching each new development in Iran with increasing concern. These diplomats have their view mainly on the fact that the UNO security council is scheduled to meet in New York City a week from today.

Before that time, it is believed either Russia or Iran will have resolved their differences—one way or another, or the Tehran government will present its case again to the UNO council.

There is little in the way of authentic news reaching the outside world from Iran because of the tight lid of secrecy which has been clamped over that middle eastern country. One dispatch—forwarded officially to Washington—has come to light. It says that the ranking Russian ambassador in Tehran—a charge d'affaires—has said he would warn Iranian Premier Qavam Es-Saltaneh against reopening of Iran's case before the UNO Security Council. The Soviet diplomat has said he would consider such action to be an unfriendly move.

As a result, diplomat sources in Washington are speculating on what they believe are two possible courses open to the Russians. These diplomats say Moscow may try to break Qavam's resistance, or stage a coup d'etat (Continued on Page Six)

Negro Arrested On Charge Of Driving While Intoxicated

Henry Aiken, negro, was arrested at 4:50 o'clock Sunday afternoon on a charge of reckless driving and driving while drunk after his Chevrolet sedan which was driving east on Lake Shore Drive at Park Avenue crashed into the rear of a Lincoln Coupe driven by Thomas G. Stauffer of Holly Avenue. The rear end of the Lincoln was damaged, also the front end of the Chevrolet.

The following item was reported in the police memoranda of Sunday, March 17, at 1:10 A.M.: Complaint: Made by Fannie Mae Simpkins, negro, 702 Cypress Avenue: "I cut my husband and I want the police to put me in jail as I am afraid of him."

Referred to Car 59 patrolman Gilyard and Jennings who reported: "I brought Fannie Mae Simpkins to station, charged with assault and battery."

Follow up report, 9:25 A.M.—Simpkins in hospital. Police Chief Roy G. Williams reported this morning that the police drive against speeding and reckless driving is being continued, and especially urged more caution in driving in the congested business sections of the city.

He pointed out that speeders can be not only fined but may be deprived of their drivers license for day or for many months. In what was an evident attempt to stall the patrol at the Chase and Company Packing House, Saturday night, the company office at Rand's Siding was entered and only about \$5.00 stolen, Sheriff Charles Hand reported this morning.

The Need For Education

With the fate of the world hanging on the decisions of mankind and with the man in the street, at least in the United States and Great Britain, expected to do his part in rendering these decisions, it was somewhat depressing to read in the newspapers last week that Justice William O. Douglas of the United States Supreme Court told the conference of scientists and scholars at Rollins last week that not more than one-fourth of the people in all the world could read the United Nations Charter if it were translated into their own tongues.

And so we hear political and social leaders declaring almost daily that what this world needs, and what this country needs, is a better and broader education among all peoples everywhere. Particularly, if democracy is to survive, a democracy in which the people themselves make vital decisions affecting peace and war, booms and depression, racial and social relationships, must people have the education necessary to understand the problems which confront them.

And then we see that here in Florida, one of the wealthiest and one of the most progressive states in the union, we spend less money on education than thirty-two other states in the union, many of them with states and local governments far worse off than ours financially. In fact, the figures show that Florida has one of the soundest financial structures in the entire country. It levies no sales taxes, no state income taxes, no homestead taxes, has no bonded debt, and has accumulated cash reserves of over 50 million dollars.

Yet Florida spends only \$1,291 per average classroom in educating its children as compared with \$3,592 in California. And the state of New York spends over three times as much as Florida. What this means in citizenship is shown by the Southern Conference for Human Welfare which reveals that one out of every four adults in the South has had less than five years of schooling and that 13.8 percent of Southern draftees were rejected for failure to meet minimum intelligence standards as compared with 2 percent in California and less than one-half of one percent in Illinois.

The Southern Conference for Human Welfare further shows how poorly paid school teachers are as compared with other occupations. In Congress there is a bill providing for a 65 cents an hour minimum wage, or \$26 for a 40-hour week in any occupation engaged in interstate commerce; but in the state of Mississippi school teachers on the average receive \$325 a year; and throughout the whole United States 28,000 school teachers are paid less than \$50 a month, and 197,000 less than \$100 a month. In the South the average pay is \$917 a year; throughout the rest of the country it is \$1,692.

If we are going to have good school teachers in the South, we are going to have to pay salaries comparable with the rest of the country. If we are going to give our children the education which the children of the rest of the country receive, we must have good school teachers, good school equipment, and adequate housing for them. Anything less is a neglect of one of our fundamental duties.

It Isn't The First Cost

It isn't the original cost of a quarrel—it's the upkeep that is dangerous to a marriage, to love, and to all human relationships. An emotional upheaval is actually uninteresting to some people—keeps things from getting humdrum. But beware the smoldering herbs that aren't aired that seem too trivial to bring to the surface, yet add their poisonous bit to an accumulating wall of blame that rises between two people often to separate them entirely.

In rational moments, it is very clear that one must be gracious enough to apologize after a quarrel—and, what is just as important, the other must be gracious enough to accept the apology. And do hurry about it! The longer the stream of anger flows the greater the danger that it will sweep away something of great value.

Only to the small, petty mind is the act of apologizing a bemoaning, weakening gesture. To the person of depth, humor, richness of mind, it is his privilege and he knows that he is thus exalted, not lowered.—Margery Wilson in Your Life.

STATE NEWS BRIEFS

BY WILLARD CONNOLLY

Motorists who for the first time journey between DeLand and Daytona Beach have been puzzled after motoring on fine concrete pavement to suddenly find themselves bouncing on a bumpy antiquated stretch of road of about five miles in length between the cities. Last Thursday the State Road Department received bids for paving the stretch. More than \$600,000 worth of resurfacing and repairs to 162 miles of roads in 16 counties will be undertaken, including \$5,989 for resurfacing 4 1/2 miles of Road 44 and 39 1/2 in Seminole County.

"Atomists" appear to be optimistic as they whip into shape at Rollins College a proposed amendment to the United Nations charter calling for a "World Federal Government". The document is intended for wide public circulation and includes suggestions by Supreme Court Justice William Douglas, Carl Van Doren, Raymond Gram Swing and Cord Meyer.

Curiosity, which has killed many a cat, is reported to have brought disaster to 27 pilot whales who became beached (probably from trying to get too close a view of bathing tourists) off Pass-a-Grille beach on the Gulf. Commercial fishermen are getting rich as a result of catching the whales, but by ferrying hundreds of tourists to see them. Autos are lined bumper to bumper along the waterfront.

Miami water workers AFL Union, of city employed workers want the city to recognize their union, saying that the 1943 state labor act and the Open Shop Amendment make no distinction between public and private employees. City attorneys counter that the labor act refers to private employees only. The union is appealing from a Dade County circuit declaratory judgment that the city is not required to recognize the union.

USDA Study Spotlights For Air Points

(Continued from Page One) Florida's crop shipments are reaching heavy volume this week as the movement of winter produce slackens," said Director Wilson. "This is a normal feature of Florida production which is calculated to fit admirably into the development of adequate and continuous pay-loads of highest quality items for air-transport. There are in fact only a relatively few months in which Florida is not shipping fine fruits and vegetables, and this which season-of-season basis during the warmer months when the rest of the Nation is producing most abundantly.

Speaking Of Saving Money

You can save money on your fire and windstorm insurance by buying a 5 year policy, saving 1/4 of the 2nd, 3rd, 4th and 5th year's premiums. You get 5 years of insurance for 4 times the annual rate.

The objection to buying a 5 year policy has been the necessity of paying the premium for 5 years in advance, or financing the premium and paying carrying charges.

We have eliminated this objection and offer you the savings on a 5 year policy with the premium payable in 5 annual installments.

Our cash dividend saving is in addition to the saving you get by buying a 5 year policy. C. M. Boyd & Co., 113 1/2 Magnolia Ave., Phone 178-3.

Seminole High Glee Club Presents Musical Comedy Friday At School

The Seminole High School Glee Club under the direction of Miss Olive Reese Whittle presented on Friday afternoon and evening at the school auditorium "In Old Vienna" or "Pickles," a musical comedy operetta by Wilson-Curtis and with music by Allan Benoit. Both presentations were well attended.

Months of patient rehearsal and practice resulted in an interesting and colorful performance by the character leads, with many fine solos, duets, quartets and mass choral effects which drew considerable applause.

The scenic backgrounds of the evening of a Viennese inn and of a forest scene were colorful and added by effective variations of lighting by David Howard. Rosemary Burdick played the musical accompaniments for Act I and Act II and III. Howard Babcock played the part of a Hungarian gypsy, was applauded heartily for his violin solo.

Ralph Cranston, as the inn proprietor at once set a good comedy pace, which was heightened by Mrs. Jones as Chief Detective Kinski in a very loud trousered costume, aided by a couple of bungling cops in the person of George Spencer and Dwight Peck. Kinski bawled his plot to foist Myra Southard, playing Louisa a waitress on Lady Vivian DeLancy, a widow, as her long lost daughter, who turned out to be none other than Lena a gypsy by adoption.

The very ably played, sung and danced by Evelyn Mathews, whose gypsy father was played by Babcock.

Romance bloomed in many places, that of Lena with Jimmison Jones, public publicity expert, that of Lena Pennington, U. S. pickle manufacturer (Wayde Rucker) with Lady DeLancy and that of Arthur Gwynn, an American artist (Harvey Grantham) whose affections were reciprocated by Pennington's daughter played by Phyllis Allen. A vocal duet by the latter two scored a decided hit.

The part of Lena, a gypsy girl was played by Helen Slaughter, and that of a head waiter by David Glyn.

Dances were directed by Miss Jessie Durlin, including a solo dance, ballet style by Jane Chapman and a Viennese waltz by Mrs. Mathews. There was a pretty Viennese group waltzing scene and a neat ensemble dance by the "Jimmy Chorus."

The waltz scene included Daphne Connelly, Laurier Beard, Emily Mathews, Billy Gray, Dolores McLellan, Peggy Pippin, Kay Shovemaker, June Rose Dutton, Alvin Kilpatrick and E. C. Harper.

In the Jimmy Chorus were Kathleen Babcock, Jean Vaux, Anita Aiken, Nixie Kirchhoff, Bettie Ball, Vivian McDaniel, Mary Ann Galloway and Bettie Duncan.

There was also a chorus of tourists, burgers, Viennese maidens, waiters and gypsies.

Military Training Is Discussed At Rotary Meeting

Continued From Page One

The boy will get under the program, and declaring that the views presented did not necessarily represent his own, but simply expressed the ideas of those favoring the bill, Mr. Spencer said that the training program would consist of 17 weeks of advanced individual training, (3) 13 weeks of small unit training, (4) 12 weeks of large unit training, (5) 8 weeks of advanced training.

The Navy training, he continued, would consist of 17 weeks of advanced training, 13 weeks of operational training, and 11 weeks of shipboard training.

Quoting from a soldier recently mustered out of the service who said, "The Army has taught me not only how to kill; it has taught me how to live," Mr. Deau said that the military program would improve the boys' health, would have educational value, would make for personal development, and would make him a better citizen.

Mr. Rutigan, taking the other side of the argument, said that the Army had gotten up a fancy package as a cure-all for all the troubles of mankind. He said it would not affect the health of the young men as the trouble among those who are unhealthy starts long before they are 18 years of age as the many perfects for physical disabilities during the recent war show.

As to character, he said that the only person who gets any

self-discipline out of Army training is the man at the top; for all the rest of it is simply a case of saying "Yes, sir" to someone else. The educational value he declared is doubtful, and said that citizenship is something which cannot be "taught" long before a person is 18 and is primarily a responsibility of the schools and the home.

Frank Egan, called attention to Pioneer Night which will be held at Lake Mary next Thursday. Roy Holler reported on the progress of the Mark Carpenter made an appeal for support of The Junior Baseball League. Lea Resher presided over the meeting and also asked support of the league.

Visitors included Al Mooneyham of Orlando.

to put a new Iranian government in power.

The immediate objective of the Russians, according to this line of reasoning, would be to get official Iranian permission for the continued presence of Red Army troops in Iran. These troops were to have been withdrawn by Mar. 2 and their continued presence in the middle eastern country constitutes the crux of the Soviet-Iranian dispute.

The State Department has attached no significance to the disclosure that the American vice consul at Tabriz, Robert Rossow, was detained for 30 minutes last Friday at a Red Army Post on the outskirts of the city. The State Department says Rossow was released quickly by the Soviets after his identity had been established. The State Department adds that the Soviet consul general expressed his regrets over the incident and traced the whole thing to misunderstanding on the part of a Red Army sentry.

see that the food gets from the supply centers to the tables. The barbecue maestro, Gus Schmah and W. E. Hathaway, will head an imposing list of experts whose fame as barbecue chefs, has incited widespread envy will prepare the feast. Phil Bach has assured the cooks that he will have no less than 20 cords of the best barbecue wood at their disposal.

Ed Whitner, manager of the Seminole Country Club, is handicapper for the golf tourney that will start under way at 1:30 o'clock. Mr. Whitner who reported the course in fine condition and said that entries from the club roster as well as from nearby cities indicate that the prizes will be hotly contested for. Entries are still being accepted, he said, and will be listed right up to the starting time.

Big league baseball with its rabid fans comes to Sanford at 3:00 o'clock on April 3, said Fletcher Bolls, when he reported for the baseball committee of which he is chairman, for Washington and Brooklyn will cross bats at the Municipal ball park that day. These two clubs are being rated as top contenders in their respective leagues.

"Who knows," said Mr. Bolls, "we may be seeing the first game of next Fall's World's Series."

Ticket sales will start soon and will include box seats, white grandstand and colored grandstand seats. Nationally known sports writers from Chicago and Washington will accompany the teams, it was said.

J. H. Rattigan, chairman, and the Junior Chamber of Commerce sponsoring committee, has provided for two big dances. A script dance at the Armory will start under way at 9:00 p. m. Stewart Martin's band from Orlando will provide music till 1:00 o'clock at a cabaret style affair that is finding favor with the local and neighboring dancers, said Mr. Rattigan.

On Magnolia Avenue between First and Second Streets an open air dance will start at 8 o'clock and end at midnight. Two bands will give the participants a variety from the hot and sweet to the square dance and rock. Colorful street lights will heighten the gay spirits of the dancers and onlookers.

"Much hard work by the various committees has been done and will continue to be done to assure an impressive welcome to the veterans and give them a day full of activity with a selection of events that surely should meet the wishes of everyone," said President Coleman. "The Chamber of Commerce hopes the day will also add assurance of our desire to have these fine girls and boys stay here and help in the growth of Seminole County."

Manager Higgins said that it has been many a moon since so complete a day of fun-making has been planned here. He expressed appreciation to T. W. Lawton, superintendent of public education and the school board for their cooperation by making April 3 a holiday for the schools.

The Merchants' Association also has passed a resolution making the day a closed one giving their employees an opportunity to take advantage of the festivities.

NEW DISCOVERY in a Hearing Aid

A big improvement has been made in a hearing aid now welcomed by thousands. Accepted by the Council on Physical Medicine of the American Medical Association. It is a new hearing aid that does not require separate battery pack, battery wire, battery case or garment to bulge or weigh you down. So small it fits in the hand. So made that you can adjust it yourself to suit your hearing as your hearing changes. The makers of Beltons, Dept. 3072, 1450 W. 19th Street, Chicago 8, Ill., are so proud of their achievement that they will gladly send free descriptive booklet and explanation to you. Write a full demonstration of this remarkable hearing device in your own home without risking a penny. Write Beltons today.—Adv.

Nimitz Against Proposed Cut In Navy Funds

Extension Of Draft Law For Indefinite Period Is Urged By Gen. Hershey

WASHINGTON, Mar. 19, (AP)—A proposed cut of \$2,000,000,000 in Navy funds was opposed in the strongest terms today by the Chief of Naval Operations, Admiral Chester W. Nimitz. He told the House Naval Committee that even now, it would take at least six months to bring the Navy back to its 1945 fighting strength. He said that the proposed \$2,000,000,000 cut in Navy funds would "jeopardize the influence of our nation in world affairs and the defense of our homeland."

Report On UNO Is Sent To Congress

WASHINGTON, Mar. 19, (AP)—President Truman has sent Congress a report on the first meeting of the United Nations, held in London two months ago. The President declared that the United States must continue to support and improve the charter or betray the trust of those who fought for lasting peace and security. The President stated that to do our utmost in this essential effort of peace-loving nations will be to give new and full expression to the meaning of "America" to the world.

Senator Boyle Main Speaker At Jewish Center

Relates Need Of Federation Of World To Achieve Peace

Pointing out that peace negotiations have broken down, that the Big Three are already at odds, and that in Europe the San Francisco Conference is already being called "San Fiasco," State Senator Lloyd F. Boyle, in an address at the Jewish Community Center, Friday evening, urged the need of a World Federation to achieve peace by law as humanity's only salvation.

Swedish Engineer Goes On Stand In Goering's Defense

NUERNBERG, Mar. 19, (AP)—A Swedish engineer, Birger Dahlerus—testifier at the Nuremberg war crimes trial today that the Swedish government rejected a proposal that it mediate between Germany and Britain. However, Dahlerus told the court the Swedish government offered no objection to a private citizen attempting such negotiation. As a result, Dahlerus said he personally carried a six-point peace plan from Adolf Hitler to Winston Churchill four days before Hitler's legions attacked Poland. Dahlerus appeared on the stand today as a defense witness for Hermann Goering. His testimony included much material already related in a British foreign office office by the British.

It is not known if eight hundred residents of one village immediately threatened by the lava have been evacuated.

Scientist Held For Revealing Data On Bomb

Dr. Alan May Pleads Innocent To Violation Of Secrets Act

LONDON, Mar. 19, (AP)—British nuclear scientist Dr. Alan May was ordered held for trial today on charges that he gave atomic information to an undisclosed person. Magistrate Harold McKenna of Bow Street Court refused bail and declared May's release might be against public policy. May pleaded innocent to violation of the Official Secrets Act. This act provides a maximum penalty of seven years in prison for persons giving information deemed to be prejudicial to the safety and interests of the state. May's attorney, Gerald Gardner, demanded to know who might have been "an enemy" at the time—late last year, when May is alleged to have delivered the secret information. The only time any nation was mentioned during today's proceedings was when Gardner asked a witness this question: "In February of last year Russia was a gallant ally, was it not?"
