

WASHINGTON LETTER

By CHARLES MOLONY
WASHINGTON—Want a genuine, government-minted, 1943-date, bronze medal commemorating Light Horse Harry Lee's Revolutionary War exploits?

That's the first medal ever made by the U. S. Mint, turned out the year after the Mint was founded, but you can get it from the Mint at Philadelphia for \$2.25 plus postage.

What you get may be as freshly struck as the Mint's newest medal, the Fred M. Vinson number in its secretaries of the treasury series (\$1.50), but it's made from the original 1793 plates.

The Bureau of the Mint here has assembled for the first time a collection of all the commemorative medals struck since this country was made up of British colonies. The result looks like a collector's—or maybe a swindler's—dream.

Leland Howard, assistant director of the Mint, says, however, that there is surprisingly little swindling in the form of passing off newly struck copies as ancient originals of these medals—nothing in the class of the "rare" coins racket.

Nevertheless, says Howard, there have been cases in which even a collector of rarities has netted up perhaps \$20 for an old-date medal he could have gotten from the Mint for \$2.

All presidents, secretaries of the treasury and most directors of the Mint have been honored with medals, along with Army and Navy heroes and miscellaneous citizens. Exploits, many of them veiled in the mists of history, have been commemorated also.

The Presidential Series began as "Indian Peace Medals." These carried on a tradition under which likenesses of the English King, Georges, were distributed to the pre-Revolutionary redskins as hopeful hints there'd be no tomahawk tossing or other disturbances.

George Washington holds the record for medals, with ten honoring him. Lincoln's the runner-up. Howard, a Southerner, pointed out sorrowfully that the Confederacy's Robert E. Lee has never been honored like his father, "Light Horse Harry."

The U. S. had seven medals minted in France before the U. S. Mint was established, but the Philadelphia Mint has the original plates for them and sells all seven.

Many of the early medals were designed by celebrated artists, such as France's Du Vivier. They show in fine detail entire scenes of battle—charging horsemen, smoking guns and cannon, lines of riflemen and what-not.

Biggest and most expensive medal, however, is a \$10 bronze number, four inches in diameter, minted in 1888 in honor of one Joseph Francis, inventor of a system for saving the lives of persons about about in distress. It features an intricate life-saving scene.

Mint officials say there are several thousand collectors of the medals, and a lot of others who buy pretty numbers to give as Christmas presents. The Mint has issued approximately 200 different medals.

Rosy Future Seen For Citrus Growers

BRADENTON, Oct. 25. (AP)—Real estate men who specialize in grove sales predicted a rosy future for the Florida citrus industry today. Speaking to the Florida Association of Realtors who met in convention in Bradenton, S. H. Bokman of Clermont said that six years ago the citrus industry netted \$8,000,000 and that last year the industry received a net return of \$125,000,000.

Bokman said the entire citrus organization is on a firm footing and is destined to keep growing. The development of by-products, he explained, would be one of the propelling factors pushing the big industry ahead.

R. C. Hatton of Bartow county pointed out that citrus was the last agricultural crop to go into the red in the depression which began in the late twenties. He said the price of Florida's citrus land was far below Texas and California sales prices.

Following the discussion of Florida's citrus industry, a national real estate leader called for the decontrol of rents. Boyd T. Bernard of Philadelphia, president of the National Association of Real Estate Boards, said that the retention of rent ceilings while other commodities are being decontrolled will discourage all new construction of rental housing.

Our 5 Year Plan

Let's look at it this way: Every 1000. you are now spending yearly for fire and windstorm insurance can be reduced to \$40 by buying a 5 year renewable policy. You save 10¢ of every 1000.

Now based on our present dividends, by buying a mutual policy from us, you can further reduce your yearly cost to \$7 1/2¢. Having \$2 4/5¢ of every 1000. You can't lose. If you don't get a dividend you are not paying any more than the published rates for your insurance.

The Mutual Companies we represent have always paid annual dividends to policyholders. M. Boyd & Co., Your Mutual Insurance Friend, phone 104.

ONE OF NEW YORK CITY'S longest picket lines stretches down lower Broadway as striking members of the National Maritime Union march to the offices of the American Merchant Marine Institute. Purpose of the demonstration was to bring pressure on shipowners to sign an agreement to end the strike. (International)

GIs Teach Sports To German Cops

By RICHARD KASISCHKE
All Newcastles. BERLIN—American soldiers who made a tremendous hit with German children by giving them classes in baseball, have now taken up the chore of instructing Berlin's civilian police in basketball and volleyball.

The cops also wanted instructions in baseball, but their request came too late in the season and will be reconsidered in the spring.

Berlin's police in prewar years had proficient basketball teams, but their new deNazified ranks don't know much about the game.

When the commander of the police force asked the U. S. Military Government's Public Safety Branch for "some coaching, AMG asked soldiers to volunteer. A daily course was arranged in an American sector gymnasium called "Madison Square Garden." The cops trained there, drawn from all sectors of the city, will return to their units and coach others.

Head of the coaching staff is Pfc William Hornig, 26, Newark, N. J., who was an all-sports man at Newark's East Side high school.

Sons Give Father Some High Ideas

JEFFERSONVILLE, Ind. (AP)—Walter E. Prentice, 59-year-old Jeffersonville attorney, believes in keeping up with his sons.

Two of them, Robert J. Prentice, 29, and Dixon W. Prentice, 27, decided to take flying lessons. The father, followed suit.

"They tried to tell me I was too old but I think I've convinced them you're never too old to learn," said Prentice senior.

All three have soloed, preparatory to receiving private pilot licenses. A third son, Dr. William E. Prentice, a Jeffersonville dentist, has been flying for years.

NOT WATCHING WHERE he was going, this 50-foot, 60-ton whale wound up in Long Island Sound at Huntington, L. I., N. Y., and foundered twenty feet off shore in ten feet of water. Hundreds of school children and adults swam around the stranded mammal, who suddenly gave up and died before he could be towed to deep water. (International)

N.R.A. Feels Duty To Warn Hunters To Hunt Safely

WASHINGTON, D. C., Oct. 25. (Special)—This fall 1,000,000 Americans will take to the fields or woods to hunt. The National Rifle Association, having a vital interest in the subject of firearms, feels it is its duty each hunting season to warn hunters on how to hunt with safety.

The NRA sees no reason for the hundreds of hunting accidents, many of which bring death, that happen each fall. For years the Association has kept a close check on hunting accidents and can trace them all back to sheer carelessness of one type or another with one of the most inexcusable being—clogged barrels.

No experienced hunter will ever admit he has been guilty of a clogged barrel. That just happens to the neophyte who is out for the first time or the guy that gets out one or two days a year. Nothing could be further from the truth. It could and does happen to the crack hunter as well as the neophyte.

The excitement of the hunt, the tracking of prey is liable to make any careless. The hunter will be walking through the snow or mud, brush up against a tree or crawl through a fence and accidentally clog the muzzle of his gun. He then sights some game and fires before he looks to see whether his barrel is free. By

not checking first to see if the gun is clear he not only takes a chance of running the barrel of his weapon but he takes a good chance of injuring himself. He should always check his gun barrel before firing. And, whenever possible, remember to check from the breech end.

In the case where the hunter has been lying in wait for game he might lay his gun down. The barrel might or might not come in contact with the ground. However, in all cases when picking it up again the hunter should check his barrel to see that it is clear.

All hunters should get into the habit of checking their guns periodically when in the field. It will help to cut down accidents. In 1944, the last year for which statistics are available, over two thousand accidents occurred. Many of them were caused by clogged barrels.

Therefore, get into the habit of thoroughly cleaning your gun every night. Check it constantly when out hunting and help to cut down unnecessary hunting accidents.

PICKLE IN A PICKLE

MIAMI, Oct. 25 — Ike Pickle (Miss. State, 1937) is singled out as the No. 1 goat of the Orange Bowl series for letting Duquesne's Ernie Hefferle get behind him to catch a 70-yards-in-the-air pass thrown by Boyd Brumbaugh to win the game, 13-42. Pickle quit covering Hefferle because he reasoned no one could throw a pass that far.

TOP GROUND-GAINERS Georgia's 1942 effort which produced 449 yards as the Bulldog ground-gaining performance in spangled Texas Christian University's Orange Bowl classic was sly, 40-26.

Pickets Are Called Off At New York Piers

Settlement Of Strike Expected Soon If Inter-Union Row Can Be Settled

NEW YORK, Oct. 28, (AP)—A union official said today that pickets of the A. F. of L. Dock Officers' Union would be withdrawn at 12 noon Eastern Time, from New York City piers.

Pickets had been on duty at New York piers since the maritime strike began Oct. 1.

Word that the pickets would be withdrawn came from Capt. A. E. Oliver, co-chairman of the negotiating committee of the Masters, Mates and Pilots Association. Oliver said that masters of ships had union approval to return aboard their vessels immediately.

But an inter-union row may postpone a return to normal on the strike-bound waterfronts of the nation. At first it seemed that maritime peace was just around the corner. East and Gulf coast operators signed wage agreements with two striking unions, the A. F. of L. Masters, Mates and Pilots and the CIO Marine Engineers. Everything looked rosy. Union leaders and government labor officials predicted that steam would be up today on 1,100 vessels which have been tied up for 27 days on Gulf and Atlantic ports.

Then a CIO local in Houston, Texas, balked. The agreement signed by the marine engineers was illegal, complained the Texas local. The Houston strike chairman, William Kellogg, also said he had been promised support of engineers' locals in Philadelphia, Seattle, Savannah, Jacksonville and Norfolk in opposing the wage settlement, with chances of further backing from San Francisco and San Francisco.

If the opposition of scattered locals should delay the end of the strike, oceanwarders on the east coast would have to wait even longer for sugar. The best guess is that it will take at least three weeks for sugar to get back on grocery shelves after the maritime strike is over.

Lt. Comdr. Schiller Is Given Gold Star

Lt. Comdr. John R. Schiller, USNR, husband of Mrs. Doris E. Schiller, of 2010 Hibiscus Avenue, Sanford, has been presented the Gold Star in lieu of the Second Air Medal.

Lt. Comdr. Schiller received the medal for his achievements as pilot of a torpedo bomber attached to the USS Saginaw Bay. Participating in many reconnaissance and air coverage missions, he was invaluable to his squadron and contributed greatly to his success.

The text of the citation is as follows:

"For meritorious achievement in aerial flight as pilot of a torpedo bomber in Composite Squadron Seventy-Eight, attached to the USS Saginaw Bay, during operations against enemy forces at Lingayen Gulf, Philippines Islands, from Jan. 3 to 20, 1945. Participating in numerous daring reconnaissance, air coverage and air coverage missions during this period, Lt. Comdr. Schiller rendered gallant service, and by his cool courage and outstanding skill in the face of grave hazards including hostile aerial opposition, contributed materially to the success of his squadron in the fulfillment of each perilous assignment. His unswerving devotion to duty throughout reflects the highest credit upon Lt. Comdr. Schiller and the United States Naval Service."

Bill Branran Leads Emory Frosh To Win

Bill Branran, former Semolee High rider, led the Emory University freshman team to a 6-0 win over the sophomores in the Emory inter-school football league game this week.

Branran, who lettered three years here, took a punt on his 20-yard line and recovered it 37 yards to the freshman scoring drive.

In the sustained drive that followed he handled the ball on every play, except for one quarter-back sneak, either running, passing or handing-off on a reverse. The score came as a reverse, Branran to Frank Watson, of Deatur, Ga., for the one-yard strike.

The victory was the second straight for the first-year men and gave them undisturbed possession of first place in the league. In last week's 6-0 win over the professional school team, Branran led the Frosh's only touchdown.

Two Youths Are Held For Theft Of Pocketbook

Two youths, 14 and 16 years of age, who gave their home address as near Asheville, N. C., were brought before Judge R. W. Ware for a hearing this morning, following their arrest Sunday morning on a charge of stealing a white handbag from an automobile parked Saturday night on Second Street.

The pocketbook and contents, including a fountain pen but no money, were recovered by Mrs. W. H. Ivey, the owner. To get it, Mr. Ivey climbed the drain pipe of The Herald Building to get the handbag off of the roof of the building where it had been thrown by one of the boys. According to Judge Ware, the father of the two boys, L. F. Carson, described by his sons as a preacher, had been in Sanford with the boys for the latter part of the week, but went to Orlando Friday to seek work. After the boys were arrested, the father told police he would attend the hearing, but failed to do so. Judge Ware announced that the boys would be held until a way is found to send them back home. Neither had attended school beyond the fifth grade, they said.

About 8:00 o'clock Sunday morning, Charles Corn and Ernest Lavy, who operate a cabinet shop facing the alley back of The Herald, saw the older boy crawl from under an old baseball tin sign leaning against a building. The boy then went up the alley toward Magnolia Avenue and threw something into an open window of The Herald. It proved to be an insurance book with Mrs. Ivey's name on it.

Later, Mr. Ivey came to the building and found some window frames he had ordered and told of the loss of his wife's pocketbook the night before. The man told him about seeing the boy. Some hipsters that had been in the pocketbook were found under the sign. The police were notified and the boys were arrested.

Capt. Byrd Hudson testified that the father and boys had come to the Salvation Army, Thursday, where they had slept that night. The older boy said that he had been employed for two days at the Farmers' State Market.

Mrs. Stinecpher's Room Wins Tourney

Mrs. Marie Stinecpher's room seven in the Sanford Grammar School won the sixth grade round robin touch football contest held last week. Room seven tallied 30 points in three games to win honors in the tourney.

Bessie Wilson, Michael Rotundo, Bobby Morris, Phillip Rotundo and Eugene Brown each scored a touchdown and Rotundo threw three passes good for markers. The tournament, one of the most unique to be played at the school in years, featuring unusual rules. The ball could only be advanced by kicking. Running with the ball was unfair.

Mrs. Byrd Routh's room and Miss Lucille Campbell's room eight were tied for second place in the contest.

Members of the winning team include: J. T. Alford, Robert Baker, Eugene Brown, Henry Carroll, George Harden, Bobby Morris, James Platon, Michael Rotundo, Phillip Skates, Edwin Tison, Bob White, Harvey Wilkinson, Bessie Wilson, Bobby Wilson and Johnny Tyson.

Bomb Blast Rocks Office At Esslingen

Nazi Terrorists Hit Again For 2nd Time In 8 Days, Protesting Allied Alms

FRANKFURT, Oct. 28, (AP)—The American Military Government says that German terrorists have struck with a bomb for the second time in eight days. At noon today, ten persons were in custody for questioning.

The bomb was exploded last night on a window sill of the De-munification Board Office at Esslingen.

Security troops have cordoned off the area and are making an investigation as to the cause of the explosion. The explosion occurred just after the American military government had announced that it was sending a delegation to the city.

American officers believe the explosion was the result of a protest against the demunification program.

Red Revolt Is Begun In West Indian Island

Communists Attempt To Take Over Government In Dominican Republic

MIAMI, Oct. 28, (AP)—Armed Communists are said to have begun a war of rioting in the capital of the Dominican Republic. The incidents said to have broken out in Ciudad Trujillo are related in a Miami News paper which quotes a cable message from Manuel de Moya, secretary to the Dominican Republic's president.

According to the cable message, the Communists tried a coup d'etat on Saturday night. De Moya said they notified the authorities of their intention to hold a meeting. In the early afternoon, he continued, the Communists distributed weapons such as knives and clubs and at 10 P. M. Saturday night they attacked foreigners and unarmed citizens.

The presidential secretary of the Dominican Republic is quoted as saying that the Communists created disturbances throughout the capital and violated the American embassy.

According to the Miami newspaper, the Communist party was organized in the Caribbean island republic within the last two months.

High School Reads War News Fought All From Front

The Oxford News, reading the seven o'clock news, proceeded to read all news of their own world in the Oxford News. The news was read over the radio into the school. And the big number was, Willie Anderson, a one-armed young man, who was killed in the war. He was killed in the war. He was killed in the war.

Rev. Glenn E. Smith Emphasizes Thinking At The Christian Church

"We do not think" was the keynote of the sermon delivered by the Rev. Glenn E. Smith, at the Sunday morning service at the Christian and Missionary Alliance Church.

"We have fought a war for freedom of thought, but we do not think," he asserted.

"There was little time for meditative thought during the war, and post-war activity has provided less. The fervent grasping for things so long denied us, the hot pursuit for security in a world whose immediate future is rather uncertain, these are the 'robbers' of thought and meditation.

"The world is 'assembly-line' conscious. The master-minds are behind the scenes. The ordinary man, at his special post, turns out a certain part of something. He knows little or nothing about the finished product. Why should he in like manner be permitted to think politically for him. The scientist explores the universe on his behalf. And we say it sadly, about all he knows of religious matters is what he hears from the minister's lips. Thus, he is accustomed to having everything come to him ready-made and ready-to-serve. There is little to provoke thought or meditation.

"In the spiritual realm such a state of affairs is not indeed, and the loss is great and permanent. God's Word may be offered from without, but it requires meditative exercise of the soul to assimilate it. Activity, whether physical or social, if permitted to rob a person of his regular time for quiet thought and meditation, inflicts upon him a mortal wound.

U. S. Strike Situation Is Said Improved

Truman Says No Coal Strike Is Expected; Five Pickets Held In Milwaukee Riot

(By Associated Press) — The nation's labor situation looks brighter to day than it has in a long time. The shipping strike is over on the East and Gulf coasts. Sugar that has been tied up in the holds of ships is already being unloaded and will be flowing to market soon. New York's trucking strike is over. President Truman said there won't be any soft coal strike on Nov. 1. The government has not agreed to John L. Lewis' demands to reopen the soft coal contract. But N. H. Colquhoun, the coal mines administrator, is going to talk things over with Lewis on the first of November anyway.

President Truman's top advisers committed an aviation expert to intervene in the deaquois IWA pilots strike. But in Hollywood, the movie strike is still on with no prospect of an early settlement in sight.

In Milwaukee, five pickets are being held in the West Attis city jail for mild disorders at the state of the many. At Chalmers plant, Police Chief Thomas told said no charges have been preferred against the men, but that they'd been interfering with people trying to get in and out of the plant and had been trying to tip over cars.

Kastelo says things are about the same at the plant today as yesterday. There were several skirmishes yesterday when mass picketing was resumed. One car was overturned. The strike is now 83 days old.

In South Bend, Ind. the head of the CIO United Rubber, Cork and Plaster Workers announced that the union's policy committee has decided to seek a 20c hourly wage increase for its 193,000 members. The union's international president, L. S. Heckmaster, said the new demand, based on a 40-hour work week, would add \$14,000,000 to rubber industry payroll.

City Bowling League To Meet Wednesday

The Sanford City Bowling League will bowl at the Sanford Bowling Alley Wednesday night at 7:30 o'clock.

Teams scheduled to bowl are: Vets "Happy-Go-Lucky" vs. Florida State Bank, Blackouts vs. Bauer Appliances, Lance Toasters vs. Seminole County Toasters and W. O. W. vs. the Jaycees. All members are urged to be present. Any member not present at starting time receives 25 pins for the game.

STRIKES MINE

YOKOHAMA, Oct. 29, (AP)— A United States Eighth Army transportation officer in Yokohama disclosed today that the United States Line merchant ship B. S. Smet was damaged when the struck a stray mine last week enroute from Fusan, Korea to Kobe, Japan. None of the crew was hurt and the vessel was towed to Kobe for reconditioning. The 5,000-ton ship was under charter to the army.

SEVERING NOTICE

SHANGHAI, Oct. 29, (AP)— Foreign observers in Shanghai (Associated Press) reported that the Soviet drive toward Dalen is his indirect way of serving notice to the United Nations of the continued presence of Russian troops in that important port city. Under terms of the 14-month old Sino-Russian treaty, Dalen is supposed to be a free port. These observers theorize that Chiang has no intention of trying to eject the Russians by force.

AUTO ACCIDENT

While attempting to make a left turn on Coleridge Avenue, last evening a Ford truck driven by Dan Curry, was hit by a Diamond T. Truck driven by John E. Pascoe, which was crossing the intersection on Coleridge Avenue. The impact on the right side of the Ford truck, knocked it into a Chevrolet sedan driven by J. A. Lawson, damaging the front of the car, according to police. Negligent driving charges have been filed against Curry and Pascoe.

STATION BOUQUET

J. O. Gallows, war veteran, who has been associated with the local station of the Sun Oil Company on Park Avenue, has purchased the Sanford Oil Filling Station from A. H. Shoemaker, 1704 Park Avenue. A number of improvements will be made to the station. Mr. Gallows said. He lives with his family at 112 Poplar Avenue.

Former First Lady Meets Molotov

A MEMBER OF THE U.S. DELEGATION TO THE U.N., Mrs. Eleanor Roosevelt is shown talking to Soviet Foreign Minister Vyacheslav Molotov, at the opening of the United Nations Assembly at Flushing Meadows, New York. The man in the middle is Andrei Gromyko. (International)

City Authorizes Tourist Booth At Municipal Zoo

City Manager H. N. Bayer was instructed last evening by the City Commission to call for bids for construction of a tourist information booth and rest room to be located at the southwest corner of Park Avenue and Seminole Boulevard. This action follows presentation of the plans for the booth by Jack Baigan, president, and Lind Weber, chairman of a committee of the Jaycees, originators and proponents of the project.

The building, as described, will have rest rooms and a refrigerator for serving free orange juice to tourists. From there, the tourists will be directed to the Community House. Mr. Bayer was asked to call for bids by Nov. 12, and plans and specifications will be provided in a few days for this purpose, it was announced.

Edward Shinholzer and R. A. Cobb, representing outside property owners, asked the Commissioners what had been done in regard to the request of 70 owners of property to revoke the permit to the Central Florida Quick Freeze and Storage Company to operate an abattoir in connection with their new plant.

Mayor Gut replied that the Commission had granted Alex R. Johnson and Forrest Gatchel, owners of the plant, time to find another site for the abattoir. A reply is expected from the owners in a few days on this. Mayor Gut said, and the Commission is awaiting this reply before taking any action on the matter.

Negro Is Sentenced For Stealing Fags

William Smith, negro of about 30 years of age, was yesterday sentenced to serve 90 days in jail when Judge J. G. Sharon found him guilty of stealing five cartons of cigarettes yesterday afternoon from the Margaret Ann Grocery.

SHAW-WINSOR

HOLLYWOOD, Oct. 29, (AP)— Clarinet Player, Artie Shaw and Writer Kathleen Winsor are man and wife today after a surprise marriage in Juarez, Mexico. Miss Winsor is Shaw's fifth wife and he is his second husband. Miss Winsor, who had the jacket in her first literary try with "Forever Amber," a novel based on research by her former husband, Bob Harris, while he was a student at the University of California.

Hope Is Held For Peace In Chinese War

As Official Expresses View, Battle Rages Between Opposing Factions

NANKING, Oct. 29, (AP)— A majority party spokesman today held out "some hope" for a negotiated peace in China's civil war. Simultaneously, however, word of continued fierce combat between Chinese government and Communist troops was received from current battle areas.

An official of the Democratic League, Lo Lung-Chi, voiced the possibility of a negotiated peace. He spoke following a meeting of top government officials last night at Generalissimo Chiang Kai-Shek's home. The peace plan was submitted by representatives of China's minority parties, but the nature of the formula is being kept secret.

Meanwhile, the Catholic newspaper, Social Welfare, says that Nationalist troops who penetrated the Communist port of Chefoo are meeting stiff resistance. The publication says the Communists are rushing reinforcements to the Shantung peninsula city from southern Manchuria using every available craft. Many of the Communist boats are said to have been sunk by government warships.

The Chinese government drive on the Russian-occupied port of Harbin is the big military news of Asia, but overshadowing that is the ominous threat of a revival of Japanese propaganda.

According to on-the-spot observers, a going-on campaign of propaganda is being on at dinner given for English-speaking diplomats and business men by some of Japan's best educated and smartest conservative leaders. American army officers, recently arrived in Japan, are not being neglected, either.

As some odd-line diplomats see it, the propagandaists hope to win support for maintenance of Japan's present social classes by discrediting the Russians and the Japanese communists.

But their major objective is to get General MacArthur and the army of occupation out of the Japanese islands. This they are trying to do by setting across the idea that everything in Japan is wonderful, and that soon there will be no need of Allied occupation.

Price Ceilings On Ice Are Removed By Government

WASHINGTON, Oct. 29, (AP)— The OPA has announced the decontrol of all fats and oils including lard. The price agency said the new order — which went into effect at one minute past midnight this morning — would release coconut oil, fish oil, inedible tallow, grease and a number of other important items for price control.

WASHINGTON, Oct. 29, (AP)— Another household commodity was put on the skids today by P. A. The price agency slipped ice out from under control on the ground that there is plenty to meet all demands. The agency said that ice has been de-controlled both natural and manufactured variety, and ice-making services as well. The industry takes in an estimated \$250,000,000 a year.

Consumers and others interested now may get a new OPA directory, a 187-page listing of all commodity groups which have been de-controlled up to and including Oct. 15. The price is \$3 and copies can be obtained at the government printing office at Washington. Supplements will be issued as fast as the speed-up decontrol program of President Truman makes them necessary.

A new decontrol order which will free many more items is awaiting final action in the office of Price Chief Paul Porter. A release has been promised after Nov. 1.

An OPA economist, Meyer Sherman, says 44 percent of the average family's cost of living dollar still is under control. That's a big reduction from June 30 when nearly 80 percent of the same dollar was spent for items with price ceilings.

STRIKE CONTINUED

HOLLYWOOD, Oct. 29, (AP)— Hope for a quick settlement of the movie strike was dispensed again today. The strike now in its fifth week. The A. F. of L. International Alliance of Theatrical Stage Employees and its insurgent local 689, have failed to pick up their squabble. The local is continuing to picket film studios and the A. F. of L. conference of studio unions says it will not cross the picket line.

Aid To Jewish Refugees Part Of U.S. Policy

President Confirms Palestine Policy In Letter To King Of Saudi Arabia

(By Associated Press) — President Truman confirmed yesterday that the hoped-for admission of 100,000 European Jewish refugees to Palestine is part of the American foreign policy.

The President re-emphasized that in a message to King Ibn Saud, of Saudi Arabia, who explained several weeks ago against what he called American interference in the Middle East. Mr. Truman's message reiterated his belief that steps should be taken to insure the immediate entry of a substantial number of refugee Jews into Palestine.

In his letter, the President told the Arab leader that he could not agree with the statement that there was inconsistency in the American position. Mr. Truman referred to the possibility, envisaged by the king of Saudi Arabia, that force and violence may be used by Palestine Jews in aggressive schemes against the neighboring Arab countries.

To this, the President gave assurance that the United States is opposed to aggression of any kind or to the employment of terrorism for political purposes.

So far as any so-called Jewish plot is concerned, Mr. Truman took a careful position that he does not believe that the responsible Jewish leaders contemplate a policy of aggression against the Arab countries. The president then went on to make the point that he still believed that nothing would contribute more effectively to the alleviation of the plight of the homeless Jews than the immediate entry of at least 100,000 of them into the Holy Land. And, he added, this was a belief which is shared widely by the American people.

When the whole thing is boiled down, however, the American government's advocacy of a refugee program continues to be a matter of Jewish immigration. For, as Mr. Truman reminded the King of Saudi Arabia today, there has not yet been any decision on the proposal which he submitted originally to Prime Minister Attlee more than a year ago.

In the interim, he remarked, it is only natural that the government should favor at this time the entry into Palestine of a considerable number of displaced Jews in Europe.

There is something else, however, which is not calculated to ease the crisis which has arisen in Palestine over the fiery problem of Jewish immigration.

That is the plotting now going on among the Arabs against both the British and the Jews — a scheme that is led by the powerful Mufti of Jerusalem. The Mufti is anti-everything that is British or Jewish. Haj Amin El Husseini — to give him his name for activity in the League of Nations mandate, who appointed Haj Amin Mufti.

Although international politics dictated this action by the British, they finally found it necessary to banish him from Palestine in 1937. He took refuge first in Syria, and then in Iraq, and finally in Italy — always managing to keep just ahead of the British forces during the war years as they occupied the Middle East. Of course, the Mufti was welcomed by Mussolini with open arms, for both the Duce and Hitler were doing their utmost to inflame the Muslims of the Middle East against the Allies. He carried on his anti-British activities from Italy until he again was forced to flee. This time to Nazi-occupied France where ultimately he came under Allied control.

When the Mufti skipped out of France — with or without some Allied connivance — and arrived in Egypt, he was given refuge along with plausible assurances that he would not be permitted to engage in political activity. But the Mufti is very much in the picture, as British Foreign Secretary Bevin admitted in the House of Commons last week.

Reaction Is Varied To Stalin Statement

U. N. Pickett Removed By Police

POLICEMEN REMOVE BODILY the Rev. Ashton D. Jones, Atlanta, Ga., from a picket line which circled the Waldorf-Astoria Hotel in New York during the United Nations luncheon. Jones, whose group claim they represent the "Committee for Non-violent Revolution," is escorted — or airborne — by officers to a waiting patrol wagon. (International)

String Beans And Citrus Leading In Market Sales — The new eight-stall addition is now completely occupied.

String beans and citrus are the leading items now on sale at the Sanford State Farmers Market; trucks are arriving in increasing numbers from the southeast states and Canada, and with all stalls occupied, business this year may pass the three million dollar mark, according to H. J. Lehman, market manager.

The new eight stall addition is completely occupied, with one section reserved for farmers, including an office. So many applications for market space are now being received that an entire new addition could be filled, said Mr. Lehman.

String beans, locally grown are in good supply and of fine quality and are bringing \$2.00 to \$2.50 a bushel. Cucumbers are high priced at \$4.50 a bushel. These are graded as to size, washed and polished, principally by William Williams. Eggplant are priced at \$2.50 to \$3.00 a unit.

Sanford Oviedo Truck growers have taken over stall No. 1, and have painted it and installed office enclosure. Harold Kastner's stall, No. 2, is being readied for business with office enclosure, and there is already activity there in produce sales.

Mr. Williams has started his cucumber business with supplies mostly from Wauchula. Jack Flynn, who also operates at the Homestead and Fort Pierce markets, is preparing for a big tomato season.

Other operators in the large building are Sanford Produce Company with A. L. Skinner, Joe and Co. with Bud Richards and J. W. Altman; John McClelland is a new operator who formerly worked with Hugh Wheeler and Julian Ponder, who occupy an adjoining stall.

In the new building are Alvin Johnson, Lake Mary war veteran, who is supplying beans from his own farm; Richard Packard and John Watson, who have installed a room for "pinkling" tomatoes; Joe Corley, produce R. B. Bates, L. T. Beverly of Quitman, Ga. and Henry Langwell, who handles tomatoes. The Sanford Fruit Company and Market Fruit Company are now handling much fruit.

The market restaurant, the old platform and other parts of the market are scheduled to be painted as soon as supplies are available. A contract has been let for repaving the market area.

TOWNSEND MEET

There will be a meeting of the Townsend Club at the Court House Tuesday night at 7:30 o'clock. W. I. Hughey announced today.

Democratic Senator Asks For Treaty Between Russians And United States

LONDON, Oct. 29, (AP)— Winston Churchill replied today to the criticism levelled at him yesterday by Prime Minister Stalin. Commenting on international affairs in which Churchill was branded as a war-monger, Churchill said today he wished to see the Russian people "safe, glorious and happy."

Echoes of Premier Stalin's latest pronouncement on war, peace and the atom bomb are still reverberating around the world and across the country. And of major interest is the London reaction to Stalin's blast at Winston Churchill.

Stalin described the former British Prime Minister as "foremost among the incinerators of a new war."

Today a British newspaper, the London Star, criticized both Stalin and Churchill. It observed that there is no need for the great power blocs to remain in being at each other at the top of their voices. The article took Churchill to task for saying that Russia had 200 Army divisions on a war footing in Eastern Europe. Pointing out that Stalin had put the number of divisions at 60, the Star went on to say that it is now up to Churchill to prove his statement or retract it.

As for Stalin's charge that Churchill and others who think like him are war-mongers, the London newspaper said this to say: "Churchill is not a war-monger, it is to be seen in British care, the tone and vocabulary of the Nazis."

Meanwhile in Atlantic City Democratic Senator Owen McClellan of Connecticut, declared that a treaty between the United States and Russia would be most fundamental to the peace for the world; He thinks that a treaty could dissolve the differences over international atomic energy control.

McClellan is chairman of the Senate Special Atomic Energy Committee and he made his statement today in an address prepared for the American Bar Association.

The Connecticut Democrat says that a treaty could provide for swift and certain punishment for specific violations of atomic energy regulations — and this, he says, would leave no question of veto and no opportunity for escape.

Prime Minister Stalin issued his views in world affairs, yesterday in the form of the written question and answer interview that he has carried on in the past few days. His time Stalin answered a list of 11 questions and issued new agency. Hugh Battle of the United Press Agency.

The highlights of the Stalin statements are these: 1) — The Soviet leader asserted that Russia has not developed an atom bomb or any similar weapon. 2) — Stalin says that Russia's troop strength in Western Europe will be reduced in two months to total 60 divisions and that this is the goal.

3) — Stalin accused Winston Churchill of being among what Stalin terms "instigators of a new war" in the United States and Britain. 4) — The Soviet Premier says he is in flat disagreement with Secretary of State James Byrnes that there is growing tension between Russia and the United States.

Ship Is Reported On Way To Florida With Paper Cargo

JACKSONVILLE, Oct. 29, (AP)— The newspaper shortage being experienced by some Florida newspapers is expected to be relieved with the arrival next week of the S S Corner Brook with a cargo of newspaper aboard.

Officials of the Strachan Shipping Company say the vessel will dock at Savannah Friday and then proceed to Jacksonville to unload part of its cargo. The ship will then continue to Miami where additional stocks of paper will be unloaded.

AIR PILOTS STRIKE

WASHINGTON, Oct. 29, (AP)— President Truman's Aviation Advisory Committee is expected to intercede today in the deadlocked strike of A. F. of L. pilots of the "trans-world" airlines. The question to be decided is whether the government should take over operation of TWA's struck facilities.
