Veto Upheld

American Labor member, Marcan tonio of New York.

Applause broke out on the Democratic side as the vote was announced. The biouse action means the Senate will not even vote on the issue of overriding the veto. It means, too, that Republicans have an issue they already have made clear will figure prominently in the 1948 presi-dential campaign.

Before the vote, Speaker Mavtin had declared that if the Sente or House upheld the veto it would mean no new attempt this year to reduce taxes.

The Massachusetts legislator made the statement to reporters as the House began a vote on the question of sustaining the veto.

SZEGED, Hungary, June 17, (A) Dezso Sulyok, anti-Communist Szabadsag (Freedom) Party-lead-er, promised today to speak "very soon" in a new freedom-of-speech test at Miskole despite the fact that a rally of the party here last night was interrupted by stick swinging intruders who cheered Communist leaders.

Sulyok, who charged in the National Assembly last Thursday that "political terror reigns in Hungary," had been expected to address the rally here, heralded as a test of the right of assembly, but did not appear. .

"This is the last say on taxes this year," he said. "Apparently city, 100 miles southeast of the the Democrata have little interest capital and near the Yugoslav border, was adjourned by police ducing taxes. SAVING THE BABY

Each year 3000 infants under ear aid die from accidents in th United States. A very high per centage of these accidents occu in homes and might easily be-pre-vented. This is one of the facts Hora Safety is calling to the attention of parents this year. To save babies from common home accidents, they offer these simple auggestions:

Safety in the Crib. See that blankets de not cover the baby's face. Secure them to mattresses or side of crib with safety pina or clips. Use sleeping bags or patent-ed crib blankets only on the doctor's recommendation. Never use

a pillow. Safety in the Kitchen, Keep the sign, Miss Whigham chose to baby in a high chair as far poswear a powder blue wear a flower pans well out of reaching fast babies can reach suprisingly fast babies can reach suprisingly fast and lace and Mrs. Jones' dress and far for shiny pots and pans.

AN "INDUSTRIAL CLIMATE" AS HEALTHFUL AS OUR WORLD-FAMOUS NATURAL CLIMATE

Florida's excellent "industrial climate" . . is man-made-by vigorous far-sighted representatives in state, county and municipal government—backed by citizens, cooperative chambers of commerce, and other civic groups—who are well aware of the importance of industry in the pattern of our great and growing state.

Additional industrial advantages in Florida include:

CONTENTED EMPLOYEES-Lots of outdoor recreation, bappy families, healthy children, good schools, healthful foods -people like to live in Florida;

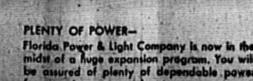

INCREASED EFFICIENCY-Contented, happy workers produce.

THE DOMESTIC MARKET-Florida, fastest growing state in the nation,

VAST FOREIGN POTENTIAL-Florida is just next door to be ricing this vost market,

Tax Reduction Veto

When President Truman vetoed the tax reduction bill, he laid himself wide open to a barrage of criticism of which to is likely never to hear the last and whose reverberations will probably grow. More acute the nearer next year's election approaches. Because he is the heir of a political philosophy founded on a spending policy, his veto is likely to be regarded as further proof that the taxpayer is still the for-

For, although the tax bill was said by its political opponents to give more relief to the rich than to the poor, the average taxpayer knew that he stood to save from 20 to 30 percent of his annual income taxes if the bill were signed, and in most cases he already had this money spent, 4.50 signed, and in most cases ne aiready nad this money spens. No Car Designed Before the War Can Even Compete with the Ride You Get in a KAISER or a FRAZER

You be the judge! You have driven and ridden in a lot of cars. You know how they ride. Now, get in a KAISER or a FRAZER and compare the ride! You're in for a pleasant surprise. For all your present standards of riding quality will become obsolete before you have gone a mile! You will agree that no car designed before

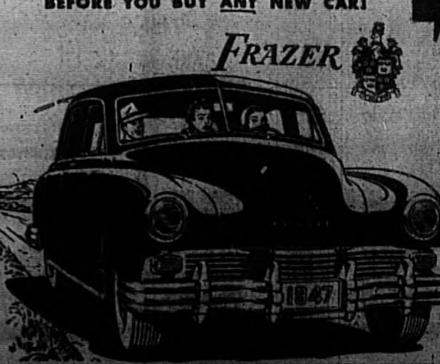

the war can even compete with the KAISER or the FRAZER-for there never was a ride like this! You drift over rough roads. You glide along the pavement. It's a horizontal ride-with the up and down travel removed. .

It's not just a matter of spring design and shock absorbers. Power, brakes, and ease of steering, all play a part. So do superior roominess, extraordinary visibility and extra-low center of gravity-with all the weight of passengers between the wheels! But what's the asse of telling you how it's done! You are interested in the ride. That can't be described. It must be experienced. So, before you buy any car, learn for yourself-compare the ride!
