VOTE **FOR FRED** KELLEY

FOR SEMINOLE COUNTY SHERIFF

Dear Voter,

I would like to take a few minutes of your time to introduce myself to you. I am Fred W. Kelley, Ir., your Republican candidate for Sheriff of Seminole County. I am 38 years old, married and have three children. I have resided in Seminole County for twenty years.

For nine years I have participated in the sport of karate, and presently hold the rank of 3rd Degree Black Belt. This experience has enabled me to teach self defense to Law Enforcement Officers at Seminole Junior College.

I have been with law enforcement in Seminole County for fourteen years, starting with the Sanford Police Department under Chief Roy G. Williams. I then joined the Seminole County Sheriff's Department working with Sheriff Hobby, Sheriff Milliott and Sheriff Polk. During this time I worked many types of law enforcement including walking the beat, patroling in a car and investigating organized crime.

Beginning three years ago, I specialized in working with our youth of Seminole County. With the cooperation of all the police departments in Seminole County, I have held Annual Bicycle Safety Rodeos at the elementary schools for the past five years. Recognizing the importance of our youth, the future leaders, I organized the Juvenile Division of the Sherff's Department. At the time of my resignation to run for the office of Sheriff, I held the rank of Lieutenant in this Division.

Certain conditions that exist in the present Sheriff's Department deeply trouble me. In the jail there is tremendous overcrowding, no rehabilitative or exercising areas, and juveniles placed there because of no juvenile detention home. I will support the prison farm idea to relieve these undesirable conditions, where the minimum security prisoners will have an opportunity to live as normal as possible while serving their sentences. We also need a juvenile detention home.

With proper administration and cooperation of all law enforcement agencies in the county, surrounding counties, and the State Bureau of Law Enforcement, steps toward a tighter and more effective control over all types of crime could be taken.

I would like to see a better working relationship between the citizens and the Seminole County Sheriff's Department. This would be accomplished by the law enforcement officer who has a more respectful attitude toward himself, his job, and the citizens he comes in contact with daily.

I would appreciate your support and vote to insure these ideas become realities for the betterment of all Seminole County residents.

Sincerely Yours,

Fred W. Kelley, Jr

FredW. Helley A.

Sanford Kerald

Proposed Busline Includes Sanford

Sanford is included in the proposed transportation project for the elderly now under study by Environmental Design Group (EDG) and under auspices of the Orange-Seminole-Osceola Transportation Authority. This was disclosed by Stewart Wilson, transportation planner with the East Central Florida Regional Planning Council and Fred Pshyk, EDG vice president.

> Both men, involved in the study, stated all details including the number of buses available and number of times per week the service will be conducted between Sanford and South Seminole were incomplete, but some service to Sanford is planned, they added.

> Wilson said a \$2 million grant from federal Urban Mass Transit Authority (UMTA) is expected. "These funds will be used to purchase 33 new airconditioned buses for use in Orange, Seminole and Osceola Counties," Wilson continued.

> He added an elderly transportation project uniting such facilities as Bram Towers, Sanford's senior citizens high-rise, with a run to Seminole Plaza in Casselberry and thence to Orlando is being considered. "This service will enable the elderly to have mobility," Wilson commented

He indicated another bus would operate between Chuluota and Oviedo, linking with Sanford, also in the planning stage.

The elderly project is being considered first, but Wilson said, this did not mean that persons other than aged would not be prohibited from riding the

A RECORD IN THE MAKING?

Drizzling rain had no effect on the long lines of voters waiting 30 to 45 minutes to cast their ballots at precinct 33 in Longwood this morning at 8:30 (top photo) while, cup of coffee in hand, another good citizen waits her turn at 7:10, just after the polls opened at precinct 26 in Lake Mary. Turnout was extremely heavy under overcast skies at all 43 polling places in Seminole this morning. The voters displayed courtesy toward one another and tremendous patience and none indicated a willingness to be deterred by the crowds.

Editorial Comment

Election Day Bow To The L Of W V!

If you are a registered voter in Seminole County and have not voted - get on your horse and galiop to your polling place and do so. The cut-off is seven o'clock tonight

This is a much more than usual critical voting day! The number who vote and how they vote will help to answer two questions which need answering.

The turn-out will, in itself, say something about the effectiveness of a campaign it, which the Republicans took part in a drama which was skillfully staged and the Democrats folled to arouse those who were polled to the justness of

The result will also illuminate just how much the voters cared about issues, not personalities, and how intelligently they exercised their power of the ballot.

Here in Seminole County, as is the case throughout the United States where the League of Women Voters is in high gear, the number of voters who went into the booth looked over the candidates with discerning eyes and scanned the amendments with clarity did so with the able assistance of the L of W V of Seminole County.

Of course in this general election year the League early recognized the necessity of going about their own homework so that long before Nov. 7th it could alert the voters to the issues and the stands of the local candidates.

This they have done with their usual attention to getail and with a strict adherence to the non-partisan nature of its political activities.

It is quite a happy coincidence that the League decided to bold its financial drive from Nov. 2nd to Nov. 10th, bridging the election and at time when its good services can be emphasized. The need for their continuance is so obvious as to make our congratulatory slap on the back (pardon, ladies) almost unnecessary.

This appreciation of the League is not at all something which is unique with the Herald. Nor is it something which is not felt in the city rooms and editorial offices of newspapers all over the United States. But to have it functioning so well at such a

time of growth and fluid conditions which confront Seminole County right now something which must be kept up at full speed. The goal of \$700 is a modest one and an

amount which should be realized during these financial drive days. While the enthusiasm of this presidential election is at work, why not drop your check to the League at P.O. Box 1004, Altamonte Springs, Florida, 32701

Voters' services performed in the county by the league include working with the supervisor of

A Taiwan Thrust

An Image-Building Mission Here

Copley News Service

"Our people are sad but not discouraged. We have an economy that will exceed Communist China's this year, but our future is tied to the American mutual defense treaty and especially to the Seventh Fleet.'

These are the words of the Republic of China's top propaganda and information man who is in the United States on what he candidly admits is an "image-building" mission. The goal is to counter the trend that has seen his country ousted from the United Nations and deserted by many nations racing to establish diplomatic ties with Red China. Frederick F. Chien, the man heading this mission, is director-general of the Government Information Office on Taiwan. At 27, he is the youngest man ever to serve in this position but he is well acquainted with America and with the

top echelons of his own country He holds a Ph.D. from Yale University and has been English secretary to the late Vice President Chen Cheng and

President Chiang Kai-shek "We depend very much on the mutual security treaty with your country," Chien said in an interview. "There is a particular psychological plus to this treaty-that no country is likely to attack us when we have a treaty with such a strong ally. Even more important is the presence of your Seventh Fleet near the Taiwan Strait.

"Should Red China attack us just 100 miles away-and

U., S. air power within three days could mean the difference. If it took three weeks for you to come to our assistance the

situation might be different." Contrary to what officials high in the U.S. government believe, Chien insists that Red China wants to attack Taiwan and also that the Peking regime considers the Republic of China a greater threat to its existence than Russia.

"The Russian border troubles go on and on," Chien said, "but if war should come it would serve to unify the Chinese people on the mainland-because the Chinese always have disliked the Russians. However, if war came between us and the Communists, it would split the people on the mainland and many would come to our side. This is what Mao Tse-tung and the others fear. Chien denounced what he called his country's desertion

by the Japanese in favor of Red China and said there are fears over the next course of the United States. "You are having dialogue with the Communists," he said, "and that is all right but we wonder what the next step will be." Chien's mission, however, is not one completely devoted to erasing fears of his government. He is proud of the

economic progress on Taiwan—"We will have a \$5.5 billion foreign trade this year," he said, "and that will be more than Red China has, even though they have 750 million people and we have 15 million. "Ford has just agreed to build a \$20 million plant on

Taiwan and our big industrial-trade complex in Kaohsiung (southern Taiwan port city) now can handle 150,000 ton that is their desire-the availability of the Seventh Fleet and vessels and is booming."

Peace Draft Weak . In Crucial Detail

By RAY CROMLEY

The draft agreement on peace in Vietnam is woefully weak in its details. My own experience in negotiating with Communists, and in watching first-hand while others negotiated, has taught me that technical points-not overall principlesare the heart of success or failure. Neglecting details can

There is the danger that here, as in the grain talks with Russia, we negotiated so rapidly in our desire for a solution, and were so poorly informed on what the other side was doing that we have blundered in important respects on what should have been a magnificent coup. Perhaps because the brilliant Dr. Henry Kissinger was tired-dead on his feet after weeks of heavy negotiating

nesses before the pact is signed. There is evidence that Hanoi's urgent demands for a quick agreement may be aimed at not giving us time to

strain. Hopefully, renegotiations will correct these weak-

There are two versions of the draft treaty-the English version interpreted by Kissinger, the Vietnamese version interpreted by Hanoi. The differences are not minor:

Item - Hanoi claims the document calls for a coalition government with considerable power. Kissinger, reading the English text and using words supplied by Hanoi in English, sees the same committee of the national concord as a powerless, advisory group. The difference is crucial. As history makes clear, a coalition would give Hanoi a sure-fire way to sabotage and then take power by coup. Item - There is the matter of who controls what

patches of territory, what the boundaries are for each

patch, and how a local government is to be resupplied it

its territory is a city island in a sea of enemy-beld countryside. No detailed agreed-on maps show which side controls what land. Each side is free to interpret what is held. Item - The problem of resupply has not been adequately defined. There is a definite but inexact limit on what arms can be sent from the United States for South Vietnam. There is no limit on the arms the Communist bloc can supply Hanoi. The United States is depending on the good will and verbal assurance of Peking and Moscow. Theoretically, Hanoi is not to supply its southern forces at a higher level than the level at the time of the cease-fire. But no one knows what that level is or how to define it

within reasonable limits. Item - The English version of the draft, as Kissinger reads it, calls for evacuating all foreign troops, including North Vietnamese, from Laos and Cambodia. But to Hanoi, many North Victnamese are not foreigners in Cambodia and parts of Laos. In some areas, Hanoi's cadres have adopted Lao and Cambodian names. A half-million North Vietnamese live in Cambodia; many serve as officers and recruits in Hanoi's local armies. The boundaries of some North Vietnamese tribal communities of stretch well into Laos.

Some say such details can be worked out later; get the pact signed now. This is nonsense. In a cease-fire, as in an omelet, once the eggs are broken, it is impossible to

One Man's Opinion

Press Censorship Is Grinding Down

By DON OAKLEY

The more than 300 editors and publishers from throughout the hemisphere who attended the annual meeting of the Inter-American Press Association in Santiago, Chile, in October hardly needed to be told, as they were by the owner of a Dominican Republic newspaper, that freedom of the press "has undergone an alarming deterioration" in the past year.

The meeting convened amid warnings that the Chilean government would not tolerate any attacks on itself or other "progressive" nations of Latin America.

In Chile, there is no official press censorship, but newsmen have been under increasing pressure. The government of Marxist President Salvador Allende Gossens has filed some 120 lawsuits against newsmen. Some have been jailed pending trial.

In Argentina, according to an Associated Press survey, the antileftist government of Gen. Alejandro A. Lanusse has incorporated press censorship into law.

since 1967, a state security law enacted this year provides jail sentences for newsmen and others responsible for stories damaging to "Uruguayan prestige. In Brazil, editors and broadcasters operate under what

In Uruguay, where press censorship has been practiced

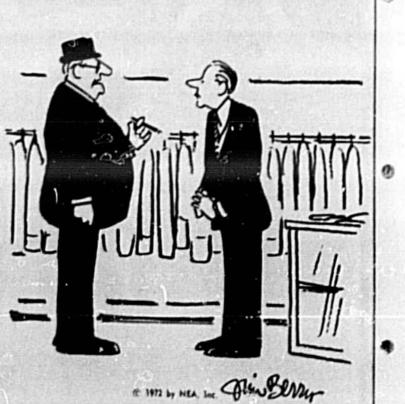

is called self-censorship, but newsstands can be raided and publications seized. Movies, plays and books are

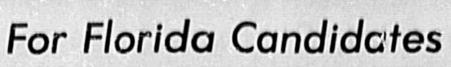

In Panama, a government-appointed censor decides what will be published in the dailies.

One bright spot is Mexico, where government ownership of the newsprint monopoly has led to a form of selfcensorship over the years. Recently, however, papers have begun to criticize the government more openly and President Luis Echeverria Alvarez says he welcomes it.

Wilderness Trail Open

Hikers who prefer walking and camping in wilderness areas away from the crowd now have acess to the second Backpacking Camping Trail to be developed by the Department of Natural Resources. Randolph Hodges, executive director, said a second trail opened last Wednesday at Myakka River State Park east of Sarasota.

Hodges said the three-mile trail follows the concept developed at Torreya State Park, located in north Florida near Bristol, where the first primitive camping facility opened earlier this year. He said the Department's Division of Recreation and Parks is developing the off-the-beatenpath facilities at the request of campers who wish to enjoy an outdoor experience without crowds or conventional con-

At Myakka River campers using the new trail will see an area not frequented by the general public. The walkway is developed east of the main park development and goes through hammocks of live oak and cabbage palm into open pine flatwoods and along numerous small marsches. The primitive camping area is located on Bee Island, slightly

Along the way, campers may see deer and turkey and an occasional bobcat or otter. With a little luck, the quiet hiker may see a Florida Fanther, among the state's endangered species. Other endangered species which may be observed are the bald eagle, sandhill crane and alligator.

higher in elevation than the surrounding flatwoods.

The largest of Florida's land area parks, Myakka River encompasses 28,875 acres and is noted for its diversity of wildlife. It has every type of wildlife native to Florida. The park also is noted for having one of the largest bird rookeries in the nation, with some 209 species of birds having been observed in the area. In addition, Myakka has 3,500 varieties Campers using the new trail must carry whatever

can:ping supplies they need on their backs, even drinking water. Also they are asked to pack out all unburnable trash, not bury it. The trail and camping area are limited to 12 persons at any given time.

Those planning to use the trail are asked to register and obtain parking instructions at the entrance station. The camping fee is fifty cents a person per night. The camping area on Bee Island has designated

fireplaces and a primitive restroom. The seasons most suitable for hiking and primitive camping at Myakka are late fall, winter and early spring. This period is the dry season in Florida, and the trail is not likely to be too wet.

Clemson vs. Maryland

New BROWNING

Compromise agreement has been reached between the city and the Winn-Dixie food chain on the request of the city that two entranceways, considered hazardous by the city on French Avenue and 25th Street, be closed.

paving of 24th Place westerly of its intersection with French city is to provide labor and equipment for the project.

tranceway will give motorists the opportunity of swinging into the center quickly. The change is expected to relieve the

Commissioner Gordon Meyer said he had talked with several downtown merchants and others and following the talks is "reluctant" to see the city part with the public parking spot. "Downtown parking is critical," he said, also noting that the city has some \$50,000 invested in the parcel.

Commissioner Julian Stenstrom pointed out that eventually the city is going to have to consider a multi-story parking facility at the site. He said the city manager has advised that the city will need additional parking for the city complex when built and that the 2.4 acre site where the present facility is located will not be sufficient. Bank land

to be swapped is adjacent to the police station. In a straw vote the Commission indicated unanimously

apparently gone for naught.

Attend Stetson Meeting

City Manager W. W. Knowles and City Engineer Mack Lazenby are to attend a meeting at Stetson on Nov. 15 on behalf of city officials in the effort to create a St. Johns River Valley Council. The Council is to receive assistance from U.S. Rep. William Chappell and U.S. Sen. Henry Jackson of Washington in making the river a "model" one to acquire

Also to be members of the Council are the chairmen of the Boards of County Commissioners in the areas affected as well as the mayor of each city or designees and representatives of various Chambers of Commerce.

Compromise Agreement

Attorney Kenneth McIntosh on behalf of the food chain, said the company will close the easterly most entrance to the center from 25th while widening the westerly most entrance to the center from 25th Street to 50 feet. In addition, McIntosh said, the present entrance to the center from French Avenue will be closed and a substitute one will be constructed 300 feet north of the intersection of 25th and French. The width of the cut from French Avenue at the entrance will be at least 30 feet and preferably 50 feet.

Winn-Dixie has offered to contribute \$500 toward the Avenue to the westernmost entrance to the center and the

City Manager Knowles called the agreement a good compromise settlement. He added that the larger enbottleneck at the intersection.

Public Parking Kept

The City Commission indicated last night it is not in favor of "swapping" or otherwise disposing of its public parking lot at the corner of First Street and Park Avenue. Norman Francoeur of the Downtown Business

Association was also on hand at the work session to give his organization's position opposing the idea suggested by the Florida State Bank as a method of the city increasing its property size on which current facilities are located. Howard McNulty of the bank said last week the banking house needs additional parking space for its employes, clientele and

that it could not approve either a swap or sale of the parcel.

City To Force Work

the docks in the west basin of the Sanford Marina will be notified by the City this week that it either perform contract for work without further delay or the city will go to the contractor's bending company to force performance.

City Manager W. E. Knowles gave the Commission a

ficulties the company is having doing the repair and City Atty. Hutchison instructed Knowles to tell the company that it will either act or the city will call for the performance bond.

Local Complex

By DONNA ESTES

Still'Go'

The \$2.5 million apartment complex to be constructed on the city-owned 14-acre tract located at Seminole Blvd. and French Avenue is still "go". Contract for the purchase of the tract is to be closed Dec. 1, right

on schedule.

But construction of the planned Quality Inn Motel on a portion of the site has been held up for an indeterminate period

Attorney Vernon Mize and one of the three original principals, Ernest Southward, in the proposed development appeared before the City last night. They reported that a Frizell, an architect, and Joseph Pulte, contractor, both of Ft. Myers, have taken over the project. Mize and Southward made it clear, however, that no profit will be made on

the land transfer. Frizell said the group will retain its Quality Inn franchise. They said despite the fact a study has proved the motel feasible, mortgage lenders insist the "Orlando area" is overbuilt in motel units at this time. He said the lenders feel the area is 2,000 units overbuilt

Originally the tract was to have been developed first with second phase with a 164-unit apartment complex. Decision now is to proceed with phase of the development- the apartment complex-first.

Mad Money In Schools

By BILL SCOTT

Who is responsible for those \$1,000 McGovern bills being given to students in at least two South Seminole Schools? An Altamonte Springs father of two would like to know.

William Orr advised The Herald that two of his sons, one a Teague Middle School student and the other a student at Lyman High School have brought home the "McGovern money", which depicts the Democratic Presidential aspirant in an insulting man-

Miss Penny Goodson, Andrew A. Sapp Exchange Vows In Double Ring Rites

Miss Penny Lynn Goodson and Anderson Arnold Sapp were united in Holy Matrimony, Sept. 16, 1972, at 7 p. m. in the Community United Methodist Church, Casselberry. Rev. William Pickett was officiating clergyman at the candlelight, double ring ceremony, Mrs. Donaline White was organist and presented a program of traditional nuptial

The bride is the daughter of Mr. and Mrs. Daniel Warren Goodson, 2323 Worthington Road, Maitland, and the groom is the son of Mr. and Mrs. A. J. Sapp, Lake Placid.

The Church altar was decorated with greenery and white doves, and flanked by two seven branched candelabra interspersed with fern and lavender ribbon. Also near the altar were two basket arrangements of lavender and white mums and two topiary trees with white doves perched in the branches. Family pews were marked with lavender and blue carnations and a white aisle carpet and double kneeling benches were used. Given in marriage by her father, the bride wore a formal ength gown of white angel silk a "Venice a la mode," featuring a natural waistline, high neckline and lantern sleeves. The bodice, neckline and cuffs were outlined in venice lace and the detachable tubular train

Takes pill overdose, then calls for help

By Abigail Van Buren

DEAR ABBY: My beautiful 27-year-old daughter [I'll call her Mary] tried to take her life. This is the third time she took an overdose of sleeping pills. Mary is married and has two small children, but she

has been separated from her husband for four months

Mary got involved with a married man, and her husband found out about it and left her. When Mary takes these pills she calls up her husband and tells him what she has done, and he comes over and rushes her to the hospital to have her stomach washed out. I am so afraid if she tries it again he won't get there in time to save her, and that will be the end of my beautiful

daughter. Please tell me what I can do to help her. DEAR MOTHER: Tell your daughter that the next time she feels like reaching for those pills, to reach for the telephone instead and call the Suicide Prevention Center. [Call the Operator, or information for the number.] Nearly every large city has one. Trained personnel will listen to her problem and provide some professional counseling by telephone. They also send ambulances to those who have already attempted suicide but have had a change of heart.

Some suicide prevention centers invite callers to come in

for personal counseling, and those centers which are un-

able to provide such service tell callers where such help is

DEAR ABBY: What do you think of a 16-year-old boy who has always wanted to be a ladies' hairdresser? Well, I'm that boy, and it has given me quite a few problems. Whenever I see a girl, I think of how I can improve her hair. I would like to cut long hair and style it, and even change the color of it, altho I like the looks of girls with long, straight hair. If I see a girl with hair that looks dull or neglected, I want to offer to give her a shampoo and a color rinse or a conditioner

I buy magazines on hair care and hair styling and I've even bought coloring kits and cheap wigs to work on. My mother found all this stuff and said she thought I was "sick." Maybe she's right. I once asked the manager of a beauty salon to save the

bair he swept off the floor, and I go to pick it up. I keep it in a box in my closet. I just handle it or look at it and that Abby, do you think it is "sick" for a boy to want to be a really great hairdresser?

DEAR LOVES: No, but you seem excessively preoccu pied with women's hair. Talk to your school psychologis about it, and get to the root of the matter. You sound as

the you'd make a first-class hairdresser. Good luck. Problems? Trust Abby. For a personal reply, write to ABBY, BOX 69700, L. A., CALIF. 90000 and enclose a

POLLY'S POINTERS

By POLLY CRAMER

Careless Drivers Make

For Cutting Pet Peeve

DEAR POLLY-My Pet Peeve is with those people

who have no compunction about cutting you off by com-

ing out of a side street or driveway onto a main road,

causing brakes to be slammed, hopefully in time. Often

there is not even a car behind and they could have easily

waited. I can sympathize with those trying to get out into

traffic when there is a long line (I have been in that posi-

ion, too) but the ones I am annoyed with think they

are the only people on the road and their convenience

comes first. They never seem aware of the danger they

the terrible habit of jumping up on the piano and

walking back and forth on the keys. Our friends

call him "Mucho, the musical dog." I have tried

everything to get him to stop this but with no luck.

Now a nearly new piano needs a tune-up job and

DEAR POLLY-I think the best way to remove sticky

adhesive that price stickers leave on many things is to

cover the spot with cooking oil, let it stand for a few minutes, and wipe off. Not a trace is left and no scratches

are made by scraping. We are great for pasta dishes and

usually serve spaghetti to guests. After many years of

soaking tablecloths and napkins, washing shirts and

warning guests of stains. I decided on a "cure-all" as well

as a conversation piece. I bought red table mats and

made red and white checked gingham bibs with napkins

to match. Now there is no more soaking or warning and

family and guests take on a festive air all dressed up in

their bibs as they enjoy their spaghetti with great aban-
