Health Officer Doesn't Believe Delay Will Hurt

Dr. Terry Bird, County Health Officer, said today he does not believe the delay in giving the second shot of Salk polio vaccine to Seminole County school children will cause the initial shot to lose its effectiveness.

"One shot gives children a certain amount of immunity," he said. "The other shot works, more or less, as a booster."

Had the State Health Department not ordered health units to postpone the second series of vaccinations, the shots would have been given in Seminole County Negro schools today and in white schools next week, Dr. Bird added.

He said no cases of polio have been reported in the County. Florida is one of 10 states with the highest polio rate, Dr. Bird revealed. Including the week ending April 30, a total of 131 cases had been reported in the state.

Meanwhile, in Washington, Surgeon Gen. Leonard Steele said nothing has developed to threaten "ultimate success" of the vaccination program, and its suspension will be lifted "momentarily" for the Park, Davis & Co. vaccine.

Scheele gave a report to the House Banking Committee whose members indicated they were ready to whip out any new laws that might be helpful.

The latest government report showed 94 vaccinated children had been stricken with polio, out of an estimated five million who have received the serum.

AMES, Iowa (AP)—An Iowa State College dean, praised for having the "student interest at heart," was honored with a new Cadillac by his students last night.

M. D. Heiser, dean of student affairs and a member of the faculty here for 40 years, received the automobile in a surprise ceremony before 5,000 persons in the football stadium.

The car was purchased by donations of students and friends in response to criticisms that coaches receive valuable gifts while professors are overlooked.

A fund also has been established in the name of the 65-year-old dean to provide scholarships for worthy students.

The presentation was made by Ronald Moss, president of the student body, as the college opened its annual three-day Vespers festival.

INSTALLATION OF OFFICERS was held yesterday at Southside School for the 1955-56 school year. Installed were (left to right) Mrs. Gustave Bamberger, president; Mrs. F. D. Scott, first vice president; Mrs. C. V. Atkinson, treasurer; Mrs. Velma Mitchell, second vice president; and Mrs. Ralph Wight II, secretary. Mrs. Curtis Lavender, historian, was not present. (Staff Photo)

U. S. Newsman Dies Of Injuries Received In Riot

SINGAPORE (AP)—American newsman Gene Symonds, of Dayton, Ohio, died today of injuries sustained in a continuing wave of rioting touched off by demonstrations supporting a bus strike.

Symonds, 29, United Press manager for Southeast Asia, died in a hospital this morning, 15 hours after he suffered head injuries. Hospital officials said he never regained consciousness.

French violence flared today in the wake of the rioting by 3,000 striking busmen and their supporters that raged throughout yesterday and last night.

Police checked the initial outbreak by firing on the mob with tear gas and gas grenades, but British officers said last night the demonstrators still controlled an area a mile square in one of Singapore's western suburbs.

Baltimore Paper Carries Unusual Ad From Operator

ANNAPOLIS, Md. (AP)—The following advertisement appeared in a Baltimore suburban newspaper May 12:

"The law don't allow no junk yard here. But we don't care what the law don't allow. We run a junk yard anyhow."

The Anne Arundel County Board of Commissioners, taking note of the advertisement, voted to ask for an immediate ruling from the Court of Appeals on whether or not Henry J. Laque Jr., the junkyard operator, was guilty of violating the zoning laws of the county.

At a recent convention of Florida Spanish-American War veterans held in Orlando two Seminole County men were elected officers of the Spanish-American War First Volunteer Assn. Frank Evans of Lake May was chosen vice president while C. C. Priest of Sanford was elected secretary-treasurer. President is George E. Spencer of Key West.

Company C of Orlando, which was under the command of Capt. J. N. Bradshaw, was represented by three members at the 45th annual encampment. They were Ewart, Lake May; William H. Reams, Winter Garden; and Gabe White, St. Cloud.

U.N. Command Sends Protest

Premier Scelba Sets Out Clearing Strife In Party

ROME (AP)—Premier Mario Scelba set about clearing up strife in his party today to save his 15-month-old government.

His stay in office was continued last night when the new Italian President, left-inclined Giovanni Gronchi, rejected his resignation. By custom, premiers always submit a resignation to a new president.

Gronchi's election April 28 rocked Scelba and his center coalition government. Although the new President is a member of the Premier's Christian Democratic party, he advocates bringing more leftists into the government.

Scelba's retention of the premiership was assured by statements of continued support Wednesday from the two minority parties in his coalition, Vice Premier Giuseppe Saragat's Right-Wing Socialists and the Liberals.

DeBary Methodists Organize Sunday

The Methodist Church in DeBary will be organized in services Sunday at 4 p. m. which will be conducted by Dr. Paul Fletcher, district superintendent of the Orlando District of Methodist Churches.

Pastor of the church is Lt. Col. Leslie E. Lewis, stationed at Sanford Naval Auxiliary Air Station.

Special music for Sunday's services will be provided by the youth from the Methodist Children's Home at Enterprise. Reception of members into the church and Communion will respectively follow the organization program.

Donald Fletcher Elected President Of Theatre Guild

At a meeting of the Sanford Theatre Guild held Wednesday evening, Don Fletcher was elected president of the group. Other officers elected were Robert Mero, vice president; Miss Maude Ramsey, secretary and Mrs. Don Grover, treasurer. Elected to the board of directors were Mrs. Ruth Bilheimer, Francis Roumillat Jr., Tommy Thomas and George Dalba.

Plans for the coming season and the summer were discussed. It was decided to use "Claudia" as the first play of the season in September. Meanwhile, those interested in little theatre work are invited to meet with the members the third Tuesday of every month when a workation and social evening will be held.

Special attention was called to a meeting of the Central Florida Federation of Live Theatres which will be held the afternoon of June 5 at DeLeon Springs. This is also open to all interested parties. The schedule for the day includes a picnic supper, brought by those attending, swimming and an evening meeting.

Attack Charged By Group

Incident Is Said
Premeditated Act

MUNSAN, Korea (AP)—The U. N. command in a protest to the Military Armistice Commission today charged an "unprovoked" attack Tuesday by Communist MIG's on American Sabre jets "was clearly over international waters."

Peiping radio broadcast a few hours later Communist China's assertion that the Sabres had "invaded over northeast China." The Reds' official People's Daily said, "Tuesday's incident was a premeditated act of aggression."

The U. N. protest and Peiping radio also disputed on losses in the eight-minute air battle.

The U. N. protest said the Sabres "attacked" some 35 miles southwest of Seoul. They were obliged to defend themselves and in so doing destroyed two or more MIG aircraft while sustaining no losses.

People's Daily said one Sabre jet was shot down and two were damaged. It called the U. N. report of two MIGs downed and two probably destroyed a "brazen willful perversion of the truth."

It said, "Chinese fighters rose to intercept them (the Sabres) and shot down one and damaged two. These are the facts."

In the protest the U. N. Command charged the Reds were "endeavoring to utilize" Korean bases as a "privileged sanctuary."

The protest through the Military Armistice Commission told the Chinese and North Korean members: "You are officially warned that if the aircraft of our side are attacked, they will defend themselves."

Fifth Air Force Sabre pilots said they shot down two MIGs and probably destroyed two more. They said they were attacked by 32 MIGs. No American plane was hit, they said.

3-Year-Old Youth Survives 250 Bees

SANTA BARBARA, Calif. (AP)—It was a bad case of the hive for little Jackie Rhodes, but the 3-year-old boy survived 250 irate bees and is expected to leave the hospital today.

Reawakened Fear Sends Vietnamese Fleeing From City

Civil War Soldiers Kept Powder Drier Than Counterparts

HAIIPHONG, North Indochina (AP)—Hundreds of Vietnamese fled in sharply reawakened fear today as Communist Viet Minh troops marched in to occupy this big port, surrendered by the French after 32 years of colonial rule.

Viet Minh army sound trucks, moving ahead of grim-faced soldiers shouldering rifles with fixed bayonets, blared to the city's people a chilling order.

"Every person who collaborated with the French and Vietnamese forces must report immediately to the nearest Polish station."

News of the order, first heard in the northwest part of the city, spread quickly. Hundreds of Vietnamese streamed to the Haiiphong docks in a last-minute rush to flee Red rule.

Most were Vietnamese who apparently had wavered on making their choice to flee or to try to live under Red rule.

LEXINGTON, Mo. (AP)—Civil War soldiers apparently were better adept at keeping their powder dry than their modern counterparts who re-enacted the 1861 Battle of Lexington yesterday.

Like the original engagement between 12,000 Confederate troops under Maj. Gen. Sterling Price and 3,000 Union soldiers under Col. James A. Mulligan, yesterday's mock battle was fought in the rain.

But when it came time to fire two cannons, relics of the Civil War, there was silence. The powder got soaked.

Otherwise the re-enactment was similar to the 1861 battle in which the Confederate soldiers forced the entrenched Union troops to surrender.

The mock affair, watched by an estimated 4,000 spectators on the original site of the battle of Lexington, was a part of Wentworth Military Academy's 75th anniversary. Taking part were Wentworth cadets, National Guardsmen, University of Texas drill team and an Army unit from Ft. Riley, Kan.

Property Tax Bill Certain Of Okay By Argentinians

BUENOS AIRES, Argentina (AP)—A bill to tax property of the Roman Catholic Church was before the Argentine Senate today. Considered certain of approval, it was the latest move by President Juan Peron in his six-month fight with the church.

Taylor To Succeed Ridgway As Chief

WASHINGTON (AP)—Gen. Matthew B. Ridgway, chief of administration decisions to cut back the ground forces, has asked to be retired June 30 and will be succeeded as Army chief of staff by Gen. Maxwell D. Taylor.

Ridgway's decision to leave on the day before the new military budget becomes effective was disclosed when President Eisenhower sent the Senate a nomination of Taylor today to succeed him.

While House Press Secretary James C. Hagerty said Ridgway would leave to Secretary of the Army Newtons asking for retirement on June 30, Ridgway's term had until Aug. 15 to run.

Wife Seeks Divorce But Hubby Has Bird

LONG BEACH, Calif. (AP)—A Navy shipyard worker got the bird and his wife seeks a divorce, but neither is exactly happy.

George Michael wanted the bird, Pretty Boy, a parakeet, but he says he also wants his wife, Betty Jo, who accused him of mental cruelty.

"I figure that if I can keep the bird she'll come back to me," he told Superior Judge Joe Rayers yesterday. "She loves that bird."

Loitering Charge Turns Out Wrong

OMAHA (AP)—Omaha police picked up Tom James Dalton, 50, at the public library because they thought him a penniless loiterer. They were wrong.

"I am the best coal shoveler in these parts," said Tom.

To prove it, Tom produced a billfold containing \$2,735.96 in cash.

While the stunned policeman nodded, Dalton pulled out bank books showing deposits of over \$3,000.

While the stunned policeman nodded, Dalton pulled out bank books showing deposits of over \$3,000.

Here Kitty, Kitty; Friday 13 Unlucky?

By SANDRA DUNN
Herald Staff Writer

"Today for many persons is what the kids of March were to Caesar." In other words it is Friday the 13th. But this year we can all breathe a sigh of relief. There is only one.

Today hundreds of machine-age Americans shy away from ladders, and black cats, throw salt over their shoulders, knock on wood, jingle rabbit feet and charms in their pockets and turn white over the breaking of a mirror; but most of all they fear Friday the 13th.

This is probably one of the most widely feared superstitions in the world. Many people say the superstition started many years ago when the Christians associated Friday as the day Christ was crucified and that there was, prior to Christ's betrayal, by Judas, 13 at the table. Others say that the Norsemen had a goddess who adopted the day as her own and anyone working, eating, doing business, etc. was likely to have a shower of misfortunes cast upon him.

Most people won't go to work on this day and many folks will not eat in restaurants, go shopping, move or get married on the 13th. Hotels will not have a 13th floor, hostesses won't seat 13 guests at a table for fear that one will die during the year and transportation companies will not have the No. 13 on a seat.

It is estimated that this "holiday" costs the nation some \$250,000,000 in loss of business, etc. Professionals say that people fearing "13" superstitions are victims of Triskaidekaphobia (fear of No. 13). Triskaidekaphobes don't care how they got that way. What they are positive of is that terrible things are going to happen and the only reason they don't happen to them is that they take "extra precautions" (like staying in bed).

The town of French Lick Springs, Ind. some years ago stated that all black cats had to wear bells on this day to "keep away the mental strain they employed on the residents."

Many clubs have organized to break down the superstition. One is the National Society of Thirteen.

WORKING as preparations were made to begin construction of a counter at the City Police station today is city employe J. D. Gries, shown drilling a hole for a junction box. Watching is Patrolman J. T. Hardy. The counter will replace the 30-year-old desk, which was removed today. (Staff Photo)

WASHINGTON (AP)—Major party officials said today that as far as they know the last legal bar to holding presidential non-inauguration conventions in August next year has been removed.

The Republicans had fixed Aug. 28 for their convention in San Francisco, and the Democrats Aug. 13 in Chicago. Both said these dates were more or less contingent on some states changing their laws providing for certifying nominees for the ballot.

Strolling In Sanford

This is the day for which the Stroller has long been awaiting: Friday the 13th! Not a bit superstitious is the Stroller who walks under ladders, breaks mirrors and permits black cats to cross in front of him, without fear or trepidation. So all day today, the Stroller will remain in bed, completely and irrevocably defying the Fates. Who's superstitious? Not the STROLLER!

The Junior High Spring Frolics will be presented today at 8 p. m. at the school auditorium. The program will feature mixed voices of the seventh and eighth grades along with specialty numbers and dance.

Between scenes selections will be furnished by the Junior High Band. Sponsored by the P-T-A, the production is being directed by Mrs. W. G. Fleming.

Here's one you may have read before, but The Stroller enjoyed it in the American Legion Magazine: "I have prepared a terrific selling point to insert in our circular advertisement" the manager announced to his advertising staff, "but how can we get every married woman in the city to read this message?" "That's simple," spoke up one of the group. "Just address all the letters to their husbands and mark them 'Private and Personal.'"

The swimming pool at the Mayfair Inn will open Sunday morning for members of the Sanford Bath and Tennis Club.

8 Teachers Hired For New Pine Crest Elementary School

Eight teachers were hired for the new Pine Crest Elementary School and Southside Primary School at yesterday's meeting of the Sanford City school board.

The meeting was held in superintendent R. T. Milwe's office.

Teachers hired were: Miss Virginia R. Booth, Lake Worth; Mrs. Georgia H. Booth, Sanford; Mrs. Margaret H. Bryan, Sanford; Mrs. Polly S. Daniels, Mobile, Ala.; Mrs. Hilda W. Davis, Sanford; Mrs. Martha Y. Smith, DeLand; Mrs. Mary M. Walter, Lake Monticello; and Miss Margaret A. Willson, Sanford.

Completed plans for the addition of three elementary rooms to the Orlando school were approved and forwarded to the state department at Tallahassee for final approval.

The new board meeting will be held May 26, when bids on buses and gas tanks will be opened.

Board members inspected the progress at the Pine Crest school following yesterday's meeting.

Blaze Threatens Brooklyn Section; Damage Reported

NEW YORK (AP)—Fire destroyed two lumberyards and three buildings last night and the flames threatened the Williamsburg section of Brooklyn.

A fire official estimated damage at two million dollars.

Four hundred firemen and 70 pieces of apparatus raced to the scene. Eighteen firefighters were injured, none seriously.

The fire started when a sawdust blower exploded in a one-story frame planing and moulding plant adjoining one lumberyard. Two employees fled to safety.

Flames engulfed another lumberyard, and a bolt and screw factory on the same block also was destroyed. A paint store across the street from one yard suddenly burst into flames.

Two County Men Elected To Serve

At a recent convention of Florida Spanish-American War veterans held in Orlando two Seminole County men were elected officers of the Spanish-American War First Volunteer Assn. Frank Evans of Lake May was chosen vice president while C. C. Priest of Sanford was elected secretary-treasurer. President is George E. Spencer of Key West.

Company C of Orlando, which was under the command of Capt. J. N. Bradshaw, was represented by three members at the 45th annual encampment. They were Ewart, Lake May; William H. Reams, Winter Garden; and Gabe White, St. Cloud.

Party Heads Claim Legal Bar Removed

WASHINGTON (AP)—Major party officials said today that as far as they know the last legal bar to holding presidential non-inauguration conventions in August next year has been removed.

The Republicans had fixed Aug. 28 for their convention in San Francisco, and the Democrats Aug. 13 in Chicago. Both said these dates were more or less contingent on some states changing their laws providing for certifying nominees for the ballot.

Offer Of Reward Obtains Freedom

SEATTLE (AP)—Harold E. Colton, 23, whose car killed a 6-year-old boy last Nov. 15 then sped on, gained his freedom yesterday by agreeing to provide \$1,000 reward money for capture of other hit-run drivers.

The \$1,000 or year-in-jail choice was given Colton by Superior Court Judge Henry Clay Agnew when Colton appeared for sentencing after conviction on a charge of failing to stop and give aid.

The money must be paid in installments to Police Chief H. J. Lawrence during the next two years.

PROPOSALS INVITED
WASHINGTON (AP)—The Atomic Energy Commission is inviting proposals to buy heat produced in the operation of a research atomic reactor being built by North American Aviation. AEC said there would be enough heat to generate some 7,000 kilowatts of electricity.

DOG STARTS FIRE
KATYHAMPTON, Mass. (AP)—Wilfred Robare has a shack near the town dump where he stores salvaged metal. Yesterday his dog brought a piece of meat from the dump to the shack. The meat was wrapped in smoldering paper. It set fire to grass near the shack and the blaze spread to the small structure.

The dog recently set another grass fire in a similar manner but Robare put that one out before it reached the shack.

MAN SLIGHTLY HURT FROM 1-STORY FALL

RICHMOND, Va. (AP)—Construction worker Morris Barbe, 20, fell from a nine-story scaffolding, brushed against another scaffolding four floors below and landed in soft earth. He broke his arms and suffered minor cuts—that's all.

Barbe was working on the scaffolding when he fell. He was not seriously injured, but his arms were broken. He is being treated in a hospital.

Contest For Authority

There has been some speculation as to whether Senator William Knowland will remain as Republican party leader in the Senate despite his pronounced differences of opinion with the administration on foreign policy. Knowland recently expressed sharp disagreement with the President on the matter of negotiating with Communist China to ease tensions in the Formosa straits.

It should be noted that the leader of the administration party in either house of Congress is not expected to be a mere echo of the sentiments of the administration. Ideally he helps to shape those sentiments and there is room for occasional differences of opinion.

On a matter as important as foreign policy, however, a difference of opinion is something else. The President is the head of his party and it is usually assumed that he speaks for it. A party leader in Congress is more or less the spokesman of his party in the body in which he serves and the man who directs its efforts. Thus when a serious disagreement arises the party speaks with two voices.

One of three possibilities seems inevitable. Senator Knowland may, for the sake of party harmony, tone down his protests and go along with the administration. He may decide that he would have a greater freedom to express his dissent if he gave up his post as minority leader, or the administration may make an effort to have him replaced with a leader more closely attuned to its aims. That the present state of affairs will continue does not seem likely.

TODAY'S BIBLE VERSE

Let no man despise thy youth.—1 Tim. 4:12.—Some can profit from the experience of others. Keen observation can often make up for lack of experience.

SAM DAWSON

Today May Be Good Time To Check

NEW YORK (AP)—Friday the 13th may be a good time to look at some business traditions many people believe will be shown up this year as merely superstitions.

So far 1955 has turned in a number of surprises and may well test a lot of economic theories. Here are a few:

Traditionally people aren't supposed to buy new cars in any volume until spring makes them restless and eager to get on the highway.

However, people began buying new cars this time while they still were shopping for a Christmas tree. Cold weather buying set records.

Another tradition is that new car sales drop sharply after June. Will that too turn out to be a superstition?

In the building industry, tradition has it that the sale of new homes bears a close relation to the marriage rate. The year the building of new homes is well in excess of the number of marriages. Tradition isn't working in 1955, builders say, for these reasons:

Families are having more children than used to be the fashion, and need larger quarters. Many families have larger incomes and had they can afford the monthly mortgage payments. Mortgage terms are easier too.

There is a tradition about the economy in general that is up for a test yet now. It is the business cycle theory.

A boom always follows a boom, according to the theory. In 1953, the post-war boom had had only two years, both relatively mild. One year had the recovery of 1954. The other was the adjustment of 1955. The boom-bust had isn't in sight.

At the moment, business is so good that a number of business-

A Party Problem

In Italy last week Giovanni Gronchi was elected president. He is the third president of the new republic established after the overthrow of the monarchy in 1946. He was elected on the fourth ballot with strong support from the Communists, Left-Wing Socialists and a faction of the Christian Democrats.

Gronchi poses a serious threat to Premier Mario Scelba. Scelba sits on the right wing while Gronchi sits on the left wing of the same party—the Christian Democrats. A split in the party threw the necessary votes to Gronchi. Scelba is still in the ruling position as premier since the presidency is largely a ceremonial role. This role could assume more important proportions with a strong man and with an upset of the precarious balance which has now been struck between the two wings.

Scelba's recent loss of support would seem to dictate a less conservative program. His position at present is weak. If a power struggle between the two wide flung wings of his party does not ensue, he may be able to mend the rift. But further party splits could lead to Communist and Social domination of the parliament which would cripple both Scelba and Gronchi. If they show themselves politically wise, they will not let this happen. Good sense would indicate co-operation.

Envious Essay

Aside from the fellow with the new baby there is no more difficult one to live with than the fellow with a new car.

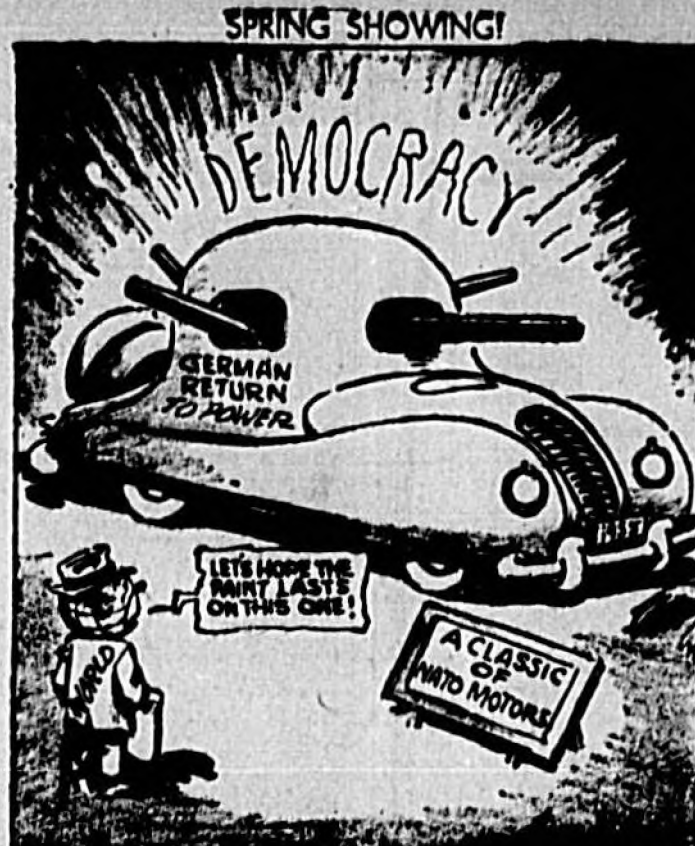

There it sits, His Man worked a long time to invent a motor that would function. Henry Ford devised an assembly line process that made automobile mass production possible. Designers and engineers have devoted decades to improvements in appearance and performance. But it's his car, and don't let any of those fellows come around looking for credit. He owns it—at least he and the finance company do.

Even the fellow with the new baby isn't as touchy about how it is handled as the new car owner is about his prize possession. Maybe the lawn needs mowing, but he is convinced there is some sort of cosmic conspiracy involved if the rain falls on his car. Why do bugs have to slap against its windshield? Why do other cars have to be parked so dangerously close? As a matter of fact, what are those other cars doing on the road, anyhow?

The day before he got the car he was a nice, quiet fellow. Now he is a braggart about horsepower, a prevaricator about the gas and oil mileage he gets, an outright nuisance with his vanity. Does all this sound as if it were written out of pure envy? You're darned right it was.

WHAT IS GOOD FOR THE SOIL— IS GOOD FOR THE SOUL.

HAL BOYLE

Burl Ives Could Use Ten Lives

NEW YORK (AP)—"Man, there are so many things to do, I'd like to live 10 lives," said big Burl Ives, contentedly unrolling a battleship signal flag.

The red and white flag was as tall as Ives, the folk singer who became a dramatic star as "Big Daddy" in the Pulitzer prize play, "Cat on a Hot Tin Roof."

Burl, who doesn't own even a rowboat at present, bought a complete set of battleship flags at a sale of government surplus supplies. Wrapping one of the flags around his 280-pound bulk, he said cheerfully:

"I've always wanted a set of ship signal flags, although I really don't need 'em battleship size. Now I got 40 of 'em. Do you think maybe I could get a seamstress to turn some of 'em into sport shirts?"

The huge old-fashioned apartment in which Burl and his wife, Helen, live with his 6-year-old son, Alexander, is crowded with souvenirs of his travels.

"Isn't this a wonderful thing to split a head open with?" inquired

durl, holding up a Maori war club from New Zealand. "And how do you like these parade drums I picked up for 12 bucks apiece? Gonna make 'em into lamps. Got 'em at another government surplus sale. You can't beat those surplus sales for bargains. Never can tell what you'll be able to pick up."

Burl walked over and patted on the head two drowsy-looking wooden ship figureheads.

"This one is Vasco da Gama, and the other is Pocahontas," he said. "Seen a lot of salt water, these babies. Got 'em both in England during my last concert tour. I bring 'em back home from all over the world. Helen complains about it, but after it's here a while she gets so she likes it as much as I do."

Burl settled her comfortably in a big overstuffed couch. The phone rang.

"Let it ring," he said. "I don't like to talk on the phone." The phone bell died into silence.

"I like sailing," Burl said. "I didn't have to earn a living. I'd

JAMES MARLOW

Proposal Leaves Two Big Gaps

WASHINGTON (AP)—You can drive a truck through the holes—two big ones—in the latest Russian disarmament proposal.

1. This country has established a ring of military bases around Russia with the permission of friendly countries. From those bases American planes could make instant retaliation on the Russians if they began an attack.

As part of its disarmament plan, Russia wants the United States to give up those bases. This is something Congress would never let the President agree to unless this country could be sure Russia was not able to begin a world war.

2. This country has insisted that for real disarmament—and real disarmament means destroying all atomic weapons all over the world so there could be no atomic war—there would have to be inspections teams in each country to be sure no atomic weapons were being concealed or made.

But in their disarmament proposals the Russians, while suggesting that atomic weapons be out-

lawed, are vague to the point of incoherence when explaining how these international inspection teams could check thoroughly enough to be sure there was not, and could not be, any cheating.

For those two reasons the Russian proposals will probably get no place although this country will give them attention. This country has to give them attention.

The Russians make good propo-

Parents Interested In Characteristics Of School Teachers

Parents today are vitally interested in the question: "What kind of person is today's teacher? What kind of education has she received? And how will the answers to these questions affect my child?"

The answers are that the present-day teacher is a well-rounded, intelligent person who not only thoroughly knows the subjects she teaches but also has received a broad background of general education. Not only that, but she is a person who is vitally interested in children who during her college career has developed an understanding of children and an ability in working with them.

Prospective teachers who are graduated, for instance, from the University of Florida's College of Education complete a broad curriculum during their four years of study.

Today's teacher must have a wide knowledge of the world and current affairs. During her freshman and sophomore years the education major at the University of Florida takes the general, comprehensive courses which the University believes are essential knowledge for all well-educated persons. She studies the social, economic, and political institutions of the United States; the physical and biological sciences; grammar, literature, writing and speaking, and the humanities a broad survey of the music, art, literature, and philosophy of the world.

African episodes now planned for next year's shows include the annual migration of wild life across the continent's great rift, underwater scenes at Miami Springs, the Kruger National Park, elephant training stations in the Congo, and assorted African oddities.

Once admitted to the College, the prospective teacher then specializes in the type of teaching she wishes to do—either elementary (kindergarten through sixth grades) or secondary (junior high and senior high level).

The teacher must have a thorough knowledge of the subject area she is to teach. In order to be certified by the State Department of Education, the prospective elementary teacher must be able to teach a wide range of subjects effectively. Therefore, she takes approximately \$4 to \$5 semester hours subject matter in art, music, social studies, geography, literature, children's sciences, and health and physical education.

Through knowledge of the subject areas she is to teach, in order to be certified by the State Department of Education, the prospective elementary teacher must be able to teach a wide range of subjects effectively. Therefore, she takes approximately \$4 to \$5 semester hours subject matter in art, music, social studies, geography, literature, children's sciences, and health and physical education.

She studies various types of communities and societies and their effect on children, and observes the media of communication and institutions at work in the local community which directly and indirectly affect children.

The teaching profession today requires persons who are intelligent, well-rounded, and who get along well with others. Admission to the University's College of Education at the end of the freshman and sophomore years is granted only to those students who exhibit qualities of becoming successful teachers. Students must have made at least a "C" average for work taken in the University College, have a good command of oral and written expression, and have personal and physical qualities necessary for successful teaching.

How to Get Polio Shots

Announcement that the Salk vaccine has proven effective in fighting polio immediately raises numerous questions among parents. In this timely series of six articles, Dr. Sundersen will answer many of them.

How can you tell where to get the vaccine, how much is available, how it works, and what steps are taken to insure its safe use. He will also tell you who will be inoculated free, how this mass inoculation program will be carried out, and who will handle the inoculation of your child.

HOW CAN YOU OBTAIN THE SALK POLIO VACCINE FOR YOUR CHILDREN? With the announcement that the vaccine has been proven effective, that question, I'm sure, is uppermost in the minds of most parents.

The National Foundation for Infantile Paralysis has already solved the problem for many. Through foresight, the March of Dimes Foundation has purchased 50,000,000 worth of the protective vaccine. This is enough to inoculate approximately 5,000,000 school children.

Program Aboard Under Way With Federal Licensing of the vaccine by the National Institute of Health, the mass inoculation program began almost immediately. The polio vaccine will be available free to the following children:

All youngsters now enrolled in the first and second grades of all public, private and parochial schools in the 48 states, the District of Columbia, and Hawaii.

All children who participated in the Salk field trial last year, but who did not actually receive

CIGAR-SMOKING BOY SWITCHES TO ICE CREAM

BETHLEHEM, Pa.—Earl C. Walton, 14, has sworn off cigars and taken to ice cream instead. His mother Mrs. Earl C. Walton said she hasn't smoked for six days but "he has eaten about 100 ice cream cones."

Word from a schoolteacher that he couldn't attend school if he smoked cigars brought about the reform, she said.

W. M. K.: What causes greasy eyelids and what can be done to correct them?

Answer: Flakes of the eyelids may be due to some defect in the nerve supplying the eyelids. It may also be due to thyroid deficiency or to paralysis resulting from some disorder affecting the nervous system.

An eye examination, an operation may be contemplated to relieve this disorder.

NOTICE TO OWNERS OF DOGS

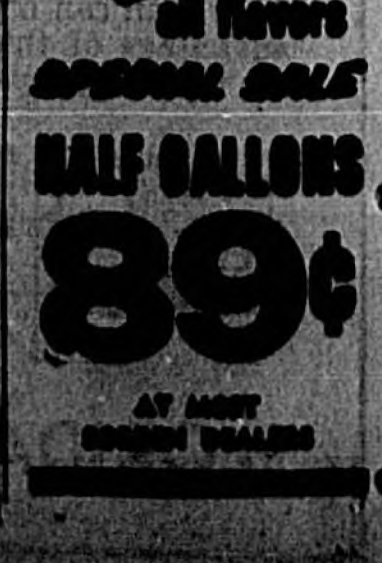

As required by law, all dogs in the City of Sanford, Florida must be vaccinated against rabies, and the vaccination tag continuously worn by dogs on collar or harness for the following year.

In order to accommodate dog owners, Dr. Raymond Ross, Veterinarian, will be at the rear of the City Hall May 15 to vaccinate dogs from 1:30 P. M. to 5:30 P. M. and May 21, from 1:30 P. M. to 5:30 P. M.

After June 1 all dogs found without a tag certifying they have been vaccinated for rabies for year of 1955 will be subject to being picked up by the Police and killed.

City license tags for the year 1955 are now available and owners must obtain tags prior to June 1 from the City Tax Collector, City Hall, East of Locomotive Bldg. Rabies vaccination \$2.00.

Wm. R. Keweenaw, City Manager

Loyalty Sunday To Be Observed By First Methodist Church Here

"Loyalty Sunday" will be observed at the First Methodist Church this Sunday. The purpose of Loyalty Sunday is to have as much of the entire congregation as possible attending the worship service, during which time each person or family will make his personal subscription to the budget of the church for the coming year of June 1, 1955 to May 31, 1956.

The Finance Commission, in cooperation with the other three Commissions and agencies of the church, prepares the annual budget each year, submits it to the Official Board, and, when approved, the budget is then presented to the congregation. The "Loyalty Sunday" plan is a form of the Every Member Canvass recommended by the Discipline of the Methodist Church. During the morning worship hour, the congregation is presented with the approved budget, and then given an opportunity to make personal subscriptions.

Following the worship service, a dinner will be served by the Women's Society of Christian Service, for 70 workers. After a brief instruction, question and answer period, membership assignments will be given to the workers, who will then go out and make personal contact with other members who have not had the opportunity of subscribing.

It is requested that members of the congregation assist in this program by remaining at home during Sunday afternoon until called upon by the workers, who plan to leave the church at 1:45 p. m. The following is a list of 70 workers who will assist in the "Loyalty Sunday" program, calling in the homes two by two: Frank Adams and Rod Adams; Harold Appleby, E. D. Kirchhoff; Mrs. Martha Azzarello, Mrs. J. C. Davis; Mrs. M. E. Baker; Mrs. G. M. Mudson; Fred Collum, T. R. Butts; C. E. Bowers, Bill Kirk; Jim Bosard, Ted Williams; Mr. and Mrs. W. O. Brinson; Woodrow Cash, P. H. Colbert; W. P. Chapman, Clarence Powell; Miss Ethel Riser, Mrs. Nancy Brock; Boyd

Groups Combine To Have Supper In Baptist Church

The WMO of the First Baptist Church met Monday night in the Educational Building Hall with the Elsie Knight Circle to have a covered dish supper.

G. A. initiation service was given and a YWA report was presented by Mrs. Irving Pryor, sponsor. The topic was "Does It Matter To Them There What We Do Here" taken from a panel discussion at the YWA conference held recently in DeLand.

"Pray Ye" was given by the members on the prayer calendar and a solo "Where Cross the Crowded Ways of Life" was sung by Miss Ruth Archer.

A panel, taking the topic "Up and Down the City Streets" was presented with Mrs. Pryor, Mrs. Roy Reel, Mrs. R. E. Peurifoy and Mrs. C. A. Anderson Jr., taking part.

The devotion was offered by Mrs. R. T. Hunt, community mission chairman of the Elsie Knight Circle.

The meeting closed with a prayer and a hymn. Mrs. Volle Williams led the group.

Happy Birthday

May 13
Betty Keeling

Local Baptist GA's Have Focus Week From May 8-14

The week of May 8 through 14 is known in Baptist Churches as Girls Auxiliary Focus Week and at this time girls between the ages of nine and 12 who belong to the girls' auxiliary are spotlighted in church activities.

There are three girls' auxiliaries in the First Baptist Church. Group one is composed of the girls, nine through 10 with Mrs. John Fox and Mrs. F. E. Cooper acting as leaders. Group two takes in the girls between 11 and 12 with leaders being Mrs. Charles L. Park and Mrs. A. L. Thomas. Group three girls come between 13 and 15 with Mrs. C. W. Ergle and Mrs. O. P. Wade serving as leaders.

Monday night the Intermediate G. A.'s put on an initiation service in the church in the presence of the Women's Missionary Union in which the girls mothers were honored guests. Those taking part were Donna Newson, Juanita Wynne, Marchetta Campbell, Jeanette Harvey, Eva Jo Wynne, Lynette Driggers, Hilda Ergle, Ann Turner, and leaders Mrs. C. W. Ergle and Mrs. O. P. Wade.

Those initiated were Judy Lee, Lois Yates, and Evelyn Bennett. On Wednesday evening at the church Mrs. C. L. Park and Mrs. A. L. Thomas presented the 11 and 12 year old girls to the reviewing council composed of the Rev. W. P. Brooks Jr., and Mrs. Brooks, Mrs. John Fox, and Mrs. C. W. Ergle.

The following girls took part: Jackie Ashby, Linda Sue Koke, Jean Southward, Eleanor Jane Sykes, Jane Osborn, Faye Garner, and Carolyn Ellison. They gave from memory the requirements for becoming a maiden. All GA girls and their mothers and leaders sat in a body at prayer meeting and were recognized by the pastor. They gave their allegiance and sang the GA song. A social hour followed with the GA's and their mothers and leaders as honored guests.

Refreshments were served from a decorated table using a pastel color theme with carnations and Queen Anne lace. The GA colors of green and gold were also used. Mrs. W. P. Brooks Jr. served fruit punch and Mrs. G. H. Sykes and Miss Ruth Archer assisted in serving delicious cookies.

On Saturday the GA's will have a Seminole Associationally rally from 10:30 a. m. to 2:30 p. m. at the Central Baptist Church. The group, under Mrs. Ergle's direction, will give its initiation service again at this meeting. Miss Juanita Wynne will sit in on a panel discussion on Community Mission Work Done in Our Association.

On Sunday evening Mrs. Park's 11 and 12 year old GA's will be recognized in the evening service at the First Baptist Church. This will close the week of GA activities.

Library Additions

Mrs. Saz King, head librarian at the Sanford Public Library, has announced the newest additions of books.

They are "Prayers of Peter Marshall"; Marshall; "Memories"; Barrymore; "Quicksilver"; Whitney; "Dinner Party"; Finletter; "Gates of Living"; Lawrence; "Recreation Leader's Handbook"; Kraus; "Korea Story"; Caldwell; "Better Homes and Garden Diet Book"; "The Day Lincoln Was Shot"; Bishop; "No Time for Sergeants"; Hyman; "Reunions"; Miller; "Soldiers of Fortune"; Gann; "Love is Eternal"; Stone; "Golden Wildcat"; Widdemer; "By Sun and Candlelight"; Campbell; "I Married the Klondike"; Barton; "Hussies Under the Elm"; Rich; "Two Tickets To Tangiers"; Mason; "Louisiana Cavalier"; Webber; "World of Love"; Bowen; "Flint Archer"; Warner; and "Successor Burgess"; Terry.

MISS DORIS JONES
(Photo by Kirchner)

Doris Jones, Cecil Sheppard Engagement Is Revealed Today

The engagement and approaching marriage is being announced today of Miss Doris Elaine Jones, daughter of Mr. and Mrs. W. L. Jones, to Cecil S. Sheppard Jr., son of Mr. and Mrs. C. S. Sheppard Sr.

The bride-elect was born in Sanford and attended local schools, graduating with the class of '53. She was an honor student, majoring in the Tri III Y. She also belonged to the Glee Club, Spanish club and was an officer in the Pop Club and in her Freshman class. Miss Jones is a member of the First Baptist Church and is presently employed by the Sanford Atlantic National Bank.

Mr. Sheppard was born in Sanford and also attended local schools, graduating with the class of '53. He was a member of the football team, band and Glee Club. He is currently with the government at Washington, D. C. Mr. Sheppard also is a member of the First Baptist Church.

Complete plans for the August wedding will be announced at a later date.

Personals

Friends of Robert M. Morris, son of Prof. and Mrs. Herman E. Morris will be pleased and interested to know that word has been received from the University of Florida that Robert has been pledged and initiated into Alpha Tau Alpha Fraternity - Epsilon Chapter. This is the Professional Honorary Agriculture Education Fraternity.

Mr. and Mrs. Peter Bukur left this morning for Jacksonville where they will attend the Florida State Band Contest in which the Seminole High School Band is participating.

Mr. and Mrs. J. H. Anderson Jr. left Thursday for Nashville, Ga., to attend Mr. Anderson's mother's funeral.

Dr. and Mrs. Charles Park recently visited with their son Bill who is a student at University of Florida in Gainesville.

Mr. and Mrs. W. C. Clause have returned by plane from Key West after spending the past week with their son and daughter-in-law, LA. and Mrs. Harold Clause.

Mr. and Mrs. J. C. Hall of Lake Worth are visiting Mrs. C. A. Anderson Jr. at her home on French Ave., for a week.

MR. & MRS. HOME BUYER

- ON MARCH 25, 1955, WE PROUDLY PRESENTED TO YOU PINE CREST HEIGHTS, OUR FIRST SUBDIVISION, THE FIRST OF THIRTY-TWO BEAUTIFUL 3 BEDROOM HOMES.
- WE ARE PROUD AND WE ARE HUMBLLY GRATEFUL, BECAUSE TO DATE TWENTY (20) OF OUR FRIENDS HAVE PURCHASED THEIR HOMES IN PINE CREST HEIGHTS. THESE ARE SOME OF THE MANY REASONS ADVANCED BY THESE HOME BUYERS:

1. Quality built home, quality workmanship and material. At a reasonable price — \$11,600 to \$11,850.
2. Attractive and individually-styled to take full advantage of Florida living.
3. Conveniently located across the street from what is sure to be Sanford's finest school. Why, one mother told me that the savings in lunch money for her children, plus the savings in car expense and time, would go a long way toward making her monthly payments, and she is so right, too.
4. Finance Arrangements:
 - (a) Veteran purchaser can buy these homes for \$425 down payment and closing cost and pay \$69.00 per month which includes taxes and insurance.
 - (b) F.H.A. purchaser can pay \$1,250 plus \$430 closing cost and pay \$62.00 per month.
5. The home buyer has some selections if action is taken before the home is completed. You can select:
 - (a) Color of tile in bathroom.
 - (b) All interior colors and outside, too.
 - (c) Natural finished, white or colored kitchen cabinets.
 - (d) Face brick trim.

ACT NOW AND YOU TOO HAVE A CHOICE.

- RECENTLY WE HAVE STARTED TEN MORE BEAUTIFUL HOMES. THESE HOMES WILL BE COMPLETED AND READY FOR YOU BY JULY 1st.
- FOR MORE INFORMATION OR FOR EVENING APPOINTMENT CALL 2100 OR 246. STOP BY OFFICE AT S. FRENCH AVE.

Sanford Cards Wallop Orlando, 18-3

Circus? No, Just Sanford Doing Stuff

Keith And Co. In Rare Form

For awhile last night it looked as though Sanford was the new home of the Ringling Bros. circus.

Before you take me seriously, let me explain that it was the Sanford Cardinals who turned their game with the Florida State League—leading Orlando CB's into a three-ring circus. Dan Keith and Co. were in rare form as they rang up 18 runs on 14 hits.

Orlando manager Tommy O'Brien announced that he was playing the game under protest from the 3rd inning when Dwight Cook interfered with the catcher's throw to second on Frank Yurchak's attempted steal. O'Brien contended that Cook should have been out. Cook was allowed to finish his turn and Yurchak returned to first. Dwight blasted a triple to deep left center, incidentally.

Fans grew weary in the big Sanford 7th as 17 men went to the plate and 11 runs scored on 9 hits and 5 walks. . . Dan Keith's homer in the 7th cleared the scoreboard with plenty to spare. . . Frank Yurchak scored three times last night but officially he only went to plate once. He walked five times.

Yurchak also made a very nice play at short in the 7th when Katsilian's low liner glanced off the glove of third baseman Russ Davis. Frank grabbed the ball and threw Pratt out at second after it appeared that it was too late to make a play.

Ron Schmitt rifled a beautiful peg to the plate in the 5th after Barrios flied out. With the bases loaded, his heave forced second baseman Houseknecht to hold up at third. . . Dwight Cook covered a lot of ground in right field last night.

Orlando's clean-up man Wilson swung around so hard on a third strike in the 8th, that he rapped catcher Randy Crisp on the arm.

Money-making tip: Someone should be able to make a fortune selling CB manager Tommy O'Brien his baseball shoes. If he always walks as much as he did last night, he should be good for a few dozen pairs a season. Tommy made no fewer than 8 trips out to the field for various reasons before he finally went to the mound himself in the wild and woolly 7th. . . Sanford business manager Jay Walker made a striking figure in his bright red sport shirt at Memorial Stadium last night.

The Cards have 17 ballplayers on their roster at present. . . After fouling off 5 straight pitches, Orlando's Barrios watched a called third strike go by in the 7th. . . Local Navy members will be interested to know that Cardinal manager Dan Keith is an ex-white hat with 8 1/2 years active service. He was a first class disbursing clerk. . . Three double plays last night. Two by Orlando and one by Sanford.

Card righthander Roger Cook is having some back trouble. He'll undergo some heat treatment this week but it is believed that it's not serious. . . Tommy O'Brien was just lobbing them in there most of the time after he relieved Snyder in the 7th. He was grinning most of the time as he walked three of the first four men to face him. He turned the game into a minor farce but was using good sense in saving his pitchers after the game was hopelessly lost.

All three Sanford pitchers turned in a good job last night. Howie Kaplan had trouble finding the plate in the fifth before he was relieved by Roger Cook but he buried five ball for four frames. . . St. Pete Saints are in town tonight to open a two-game stand.

SIX SANFORD CARDINALS pose in typical "Murderous Row" style prior to last night's game with Orlando. Manager Dan Keith, the Florida State League's top slugger, is at right. Others, from left to right, are Russ Davis, Frank Yurchak, Jim Shirley, Nat Sharper and Terry Terrell. Keith smashed out another homer last night. (Herald Photo by Jack Sutherland)

Sam Jones' Feat Adds To Idea Only Castoffs Hurl No-Hitters

It's getting so that only some-time guys, castoffs and sore arms pitch no-hitters in the major leagues just come close. . . Toothpick-chewer Sam Jones, a 64 right-hander whom Cleveland gave up on because of a sore arm, added to the trend by hand-curling Pittsburgh's Pirates without a hit in a 4-0 victory for the Chicago Cubs yesterday.

It was the first no-hitter since last June 13, when Jim Wilson stopped Philadelphia cold 2-0 for the Milwaukee Braves. Wilson had been around since 1945, getting trials with the Boston Red Sox, St. Louis Browns and the Philadelphia A's before joining the Braves in Boston in '51. Now he's with Baltimore.

Jones 29, made it tough on himself at Wrigley Field yesterday by walking the bases full with none out in the ninth. . . Then he dug deep and threw just one more pitch outside the strike zone while fanning Dick Groat, Roberto Clemente and Philadelphia's A's before joining the Braves in Boston in '51. Now he's with Baltimore.

Brooklyn The Dodgers now have lost two straight, after winning 22 of 24. . . Cincinnati and New York at St. Louis.

11 Runs Mark Big 7th Inning; Dan Hits Homer.

Sanford's Cardinals sent 17 batters to the plate in the seventh inning last night and they produced 11 runs in an 18-3 victory over Orlando, the Florida State League leader.

Sanford manager Dan Keith ran his consecutive hitting streak to 23 games. He hit a homer in the big seventh. . . The Cardinals play St. Petersburg at Memorial Stadium tonight. The crowd last night totaled 573.

Keith's towering homer over the left field fence was one of the longest drives in recent years. The ball cleared the board by about 20 feet.

The homer brought in Frank Yurchak and D. Cook. . . Keith also singled in the earlier part of the seventh.

Third baseman Russ Davis got three hits in three official trips to the plate and scored four of the Cardinals' runs. . . Dwight Cook made one of the most spectacular catches in right field. He made a leaping catch of a line drive hit by Orlando's third baseman Manuel Heredia.

Meanwhile last night, the speedy West Palm Beach Seminoles and Cocoa Indians played one of the fastest Florida State League games of the season last night when they zipped through the nine innings in 1 hour and 47 minutes. Unlike most fast games it had plenty of runs too, West Palm Beach winning 8-3 at home. It also drew the biggest crowd of the night 1,115.

Daytona Beach won its fifth straight 8-2 over Gainesville and Lakeland beat St. Petersburg 8-2. Veteran Red Roberts pitched a five hitter for West Palm Beach and hit a home run. The Seminoles couldn't get a run off Cocoa's Craig Hoyal for six innings but then they meshed three hits and two errors for five at once in the seventh and added three more in the eighth.

Daytona Beach's Bob Arendt limited Gainesville to six hits and struck out eight G-men to disprove the Gainesville crowd of 582. Six errors helped the Islanders pad out their run total. Lakeland made up in quality for a lack of quantity hitting Joe

FACADE LA

tu murphy

The newest indoor sport in the literary field seems to be "Introductions I Have Known."

I'd like to play, too—but so far the introductions various chairmen have delivered preceding my recitations have, frankly, filled me with awe. It's uncanny the way they seem to hit upon things I've suspected for a long time. You know—things like how lucky they are to have such talent—such beauty—such utter utterness.

But what brought all this up—and when you raise the entirety of something you've got to have a what in front of it—was Cornelia Otis Skinner's "Bottoms Up!" The name of her new book. And also the toast she gave when she spoke to a group of Proctologists.

Anyway. It reminded me of the introduction they say was given Dr. Spafford Ackerly once. Dr. Ackerly is, I guess, one of the really great men of Psychiatry. He lives in Louisville and one day a little women's club asked him to be their guest speaker. He accepted.

Eventually the time came, after the chicken a la king had been cleared away, for the president of the club to arise and introduce the guest for the day.

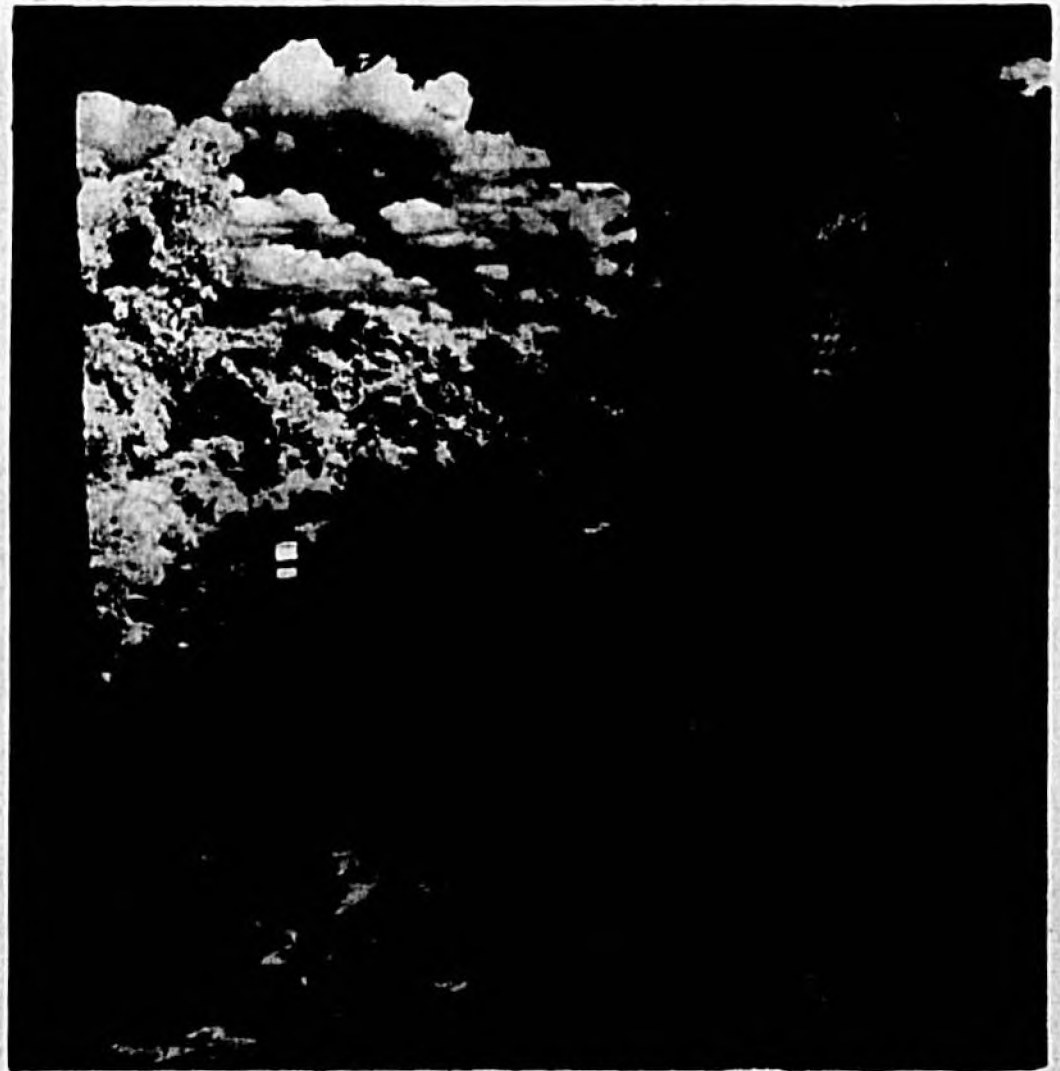

She began to briefly run through all the admirable things Dr. Ackerly had done. She said he was the greatest psychiatrist in the world—and a GOOD man, too. She said he had pioneered in Psychiatry and Lead The Way. She went on and on and on.

And at last—flushed with triumph—she threw out her arms and said, "And now, girls, it is my pleasure to give you Dr. Spafford Ackerly—America's Leading Psychopath!"

P.S.—And they say there wasn't a "girl" in the house who cracked a smile.

PAGE 3—All Florida Magazine

EMMET F.

The beautiful Suwannee and many other picturesque Florida rivers will become traffic lines for motorists again this summer. The motorists will be the outboard variety, enjoying scenic waterway trips planned by the numerous boating clubs in the state. The above photo of the Suwannee River near White Springs was taken by Max Hunn.

LETTERS TO THE EDITOR

OUR SYMPATHY, MAM

Since writing my last letter to you, I am back in England amidst the cold east wind and the eternal rain. I long again for the heat and beauty of Florida, the superb jumbo grapefruit, the tall pines and the friendly people who chat with strangers in buses, cafeterias and on the beaches; the cute children in their colorful beach clothes.

You lucky Floridians! Soon your summer approaches with the eternal sun (send us a few rays), the mosquitoes and flies—so what?

We plan vacations and have to pack raincoats and carry umbrellas from June to November and from November to June; sit on the beaches and shiver while looking up at the rain; listen to the children cry because they can't play outside; and hope tomorrow the sun may shine for two or three hours.

We buy cotton dresses and wear them under heavy coats. Sun? What is it?

BILL GIBBY,
27 Winchester Court,
London W 8, England.

AT YOUR COMMAND, TODAY

Ever since you announced the Florida Original Recipe Contest, I've been watching for it to start. As a comparative newcomer to the state, I've heard of many old-time dishes, but haven't been able to find the recipe.

I hope somebody will send in one telling how to cook and eat swamp

cabbage and some giving "different" ways of preparing seafood dishes—something people in other parts of the country don't know.

MRS. T. M. STONES,
Kissimmee.

THANKS TO GULF STREAM

I'm so glad you ran a story telling people about the advantages of summer as well as winter in Florida. I refer to the Daytona Beach story.

I've tried to tell people in the North and the East that they would be more comfortable here than by returning to their homes in other parts of the country, but they have an idea that Florida is unbearably hot in summertime.

Maybe your story, which I'm sending them, will be convincing.

JANISLE MOSE,
Daytona.

NOW SHE KNOWS

The story about costs of arms in Toronto, Ont. I've always wondered what they mean, if anything.

I'm sure Mrs. Letton is bringing interest into many people's lives, with her research. Such articles as this one are educational as well as interesting, and mean more than so much of the material we find in the present day magazines.

Thanks for publishing it.

HELEN BURNS,
Edinburg.

YES, IT DELIVERS A MESSAGE

Thanks so much for the beautiful Easter cover page of All Florida Magazine. Such a picture, like the wonderful "Fashion Play" of which it is a scene, delivers a message we all need—not just at the Easter season, but constantly. It silently brings back the real meaning of Easter, rather than the too casually accepted one, that it is a day on which to vie with our friends in the matter of spring finery.

All your cover pages are beautiful, but I want to put in a plug for one of this type more often.

MRS. J. M. GODDARD,
Tallahassee.

WHERE'S THE DUNGEON?

Will you please give me full information on your article (Apr. 17) "Gerónimo's Dungeon"?

Just where is Florida's newest state park located and how does one get to it via boat or auto?

We were stationed at Fort Barrancas from '25 to '28 and I do not recall any old forts there at Pichona but had Fort McRae at Fort Barrancas.

I am interested in getting full data.

MRS. EDNA S. BRIDGEMAN,
St. Petersburg.

(Editor's Note: We are referring your query to the author of the story for his personal attention.)

Looking Over

All Florida

THIS WEEK. All Florida presents virtually all of Florida—with stories from Pensacola to West Palm Beach. Pensacola is the scene of another John F. Haberman historical article. A short distance down the coast, Alligator Harbor produces some interesting underwater chitchat between man and fish, as told by Logan Franey. Bob Teese proclaims the attractions of the Florida Watermelon Festival at Leesburg, in Central Florida, and P. O. Gorder emphasizes the importance of Florida's hospital program in discussing the work being done at West Palm Beach, down on the East Coast. A statewide sports story by Mason Buck discusses Florida's tennis youngsters, while another by Andy Anderson reveals some of the experimental work and plans of Floridians towards continued future warfare against the polio germ.

OUR COVER

If this week's cover whets your appetite for some sweet tasting Florida watermelon, just run over to Leesburg for all you can eat—free. (See story on page three.) The colorful cover photo, taken at the 1954 Florida Watermelon Festival at Leesburg by Bob Teese, features Festival Queen Diana Williams of Gainesville. Young Bobby Teese is presenting the slice of melon, and the three male gourmets are members of the Columbus Jet baseball team.

Yumm Yumm ... It's Good Ole

WATERMELON TIME

By BOB TEESE

"Y'all come!" That's the invitation ringing from Leesburg with the announcement that red, ripe, luscious, ice cold Florida watermelon "plentiful and for free" will be waiting for everyone on May 18, silver anniversary of the annual Florida Watermelon Festival.

An hour long parade of bands, floats and marching units from all over the state will open the festival promptly at 10:30 a.m., then further entertainment will take place at Venetian Gardens, where also a score or more of former beauty queens in bathing suits will vie for the title of Watermelon Queen.

News, movie, television and amateur photographers will be clicking their shutters everywhere.

Then comes the watermelon eating contest in which kiddies of all ages and sizes will demonstrate the proper way to eat mouth-watering red meat, and the one who eats "the mostest the fastest" will be declared the winner.

Lunch time! If you don't bring your own, anything from a hamburger to a full meal, all home cooked, may be bought from the stands on the ground operated by various civic clubs.

Wonder when that watermelon promised so plentifully will be served? Well, it comes after lunch—red, ripe and luscious just as announced—with compliments of Leesburg, Florida watermelon capital. Have another slice!

Entertainment as varied as those attending, includes during the afternoon, the full three-ring Student Circus at the baseball park; a water show in the Yacht Basin featuring Rollins College Canoe Regatta; a band concert; the inevitable speech by one of the state's key political figures; and Micro Midget races at the track just outside the city.

Prizes will be awarded at about 7 o'clock, for the largest watermelon and for the most attractive floats.

Then the "crowning" event follows! There will be glamor at its best as the "queens" in evening dress, smile their sweetest at the judges, in final contest for the Florida Watermelon Queen—and her court—to hold title until next year.

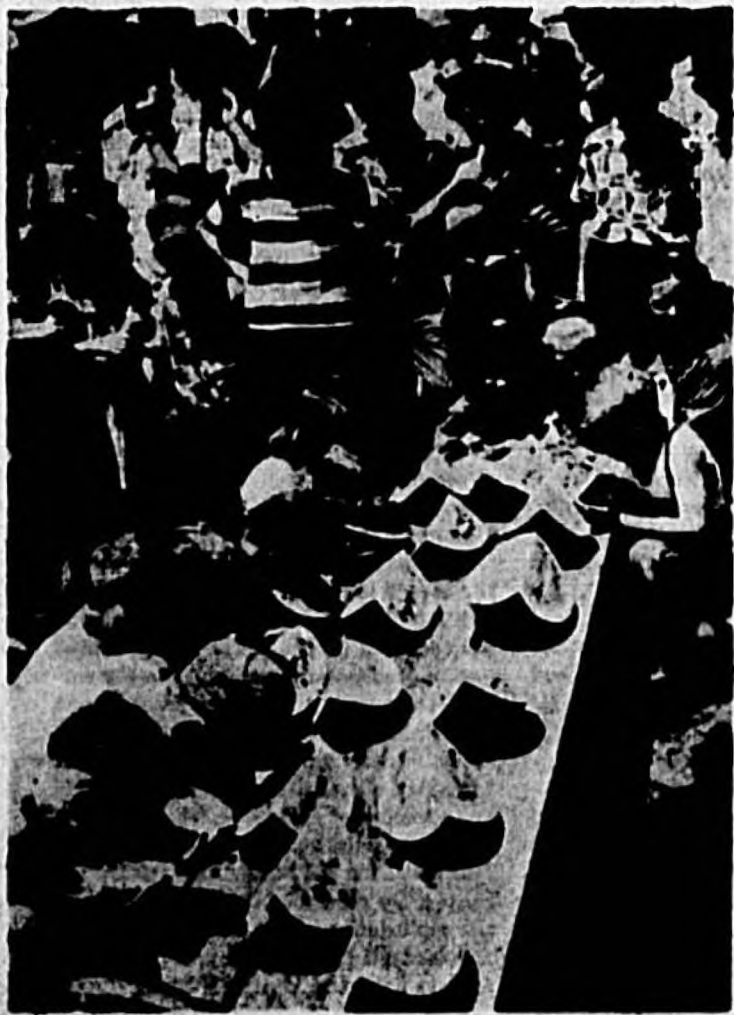

No festival would be complete without fireworks. They burst, explode and otherwise flash in all colors and designs for half an hour, until that of a flaming slice of watermelon signifies the finale.

The coronation ball at the Leesburg Armory winds up the day, while those in charge of the festival, from committee chairmen to clean-up squad, start making plans for next year's Florida Watermelon Festival, to which they say even now, "Y'all come!"

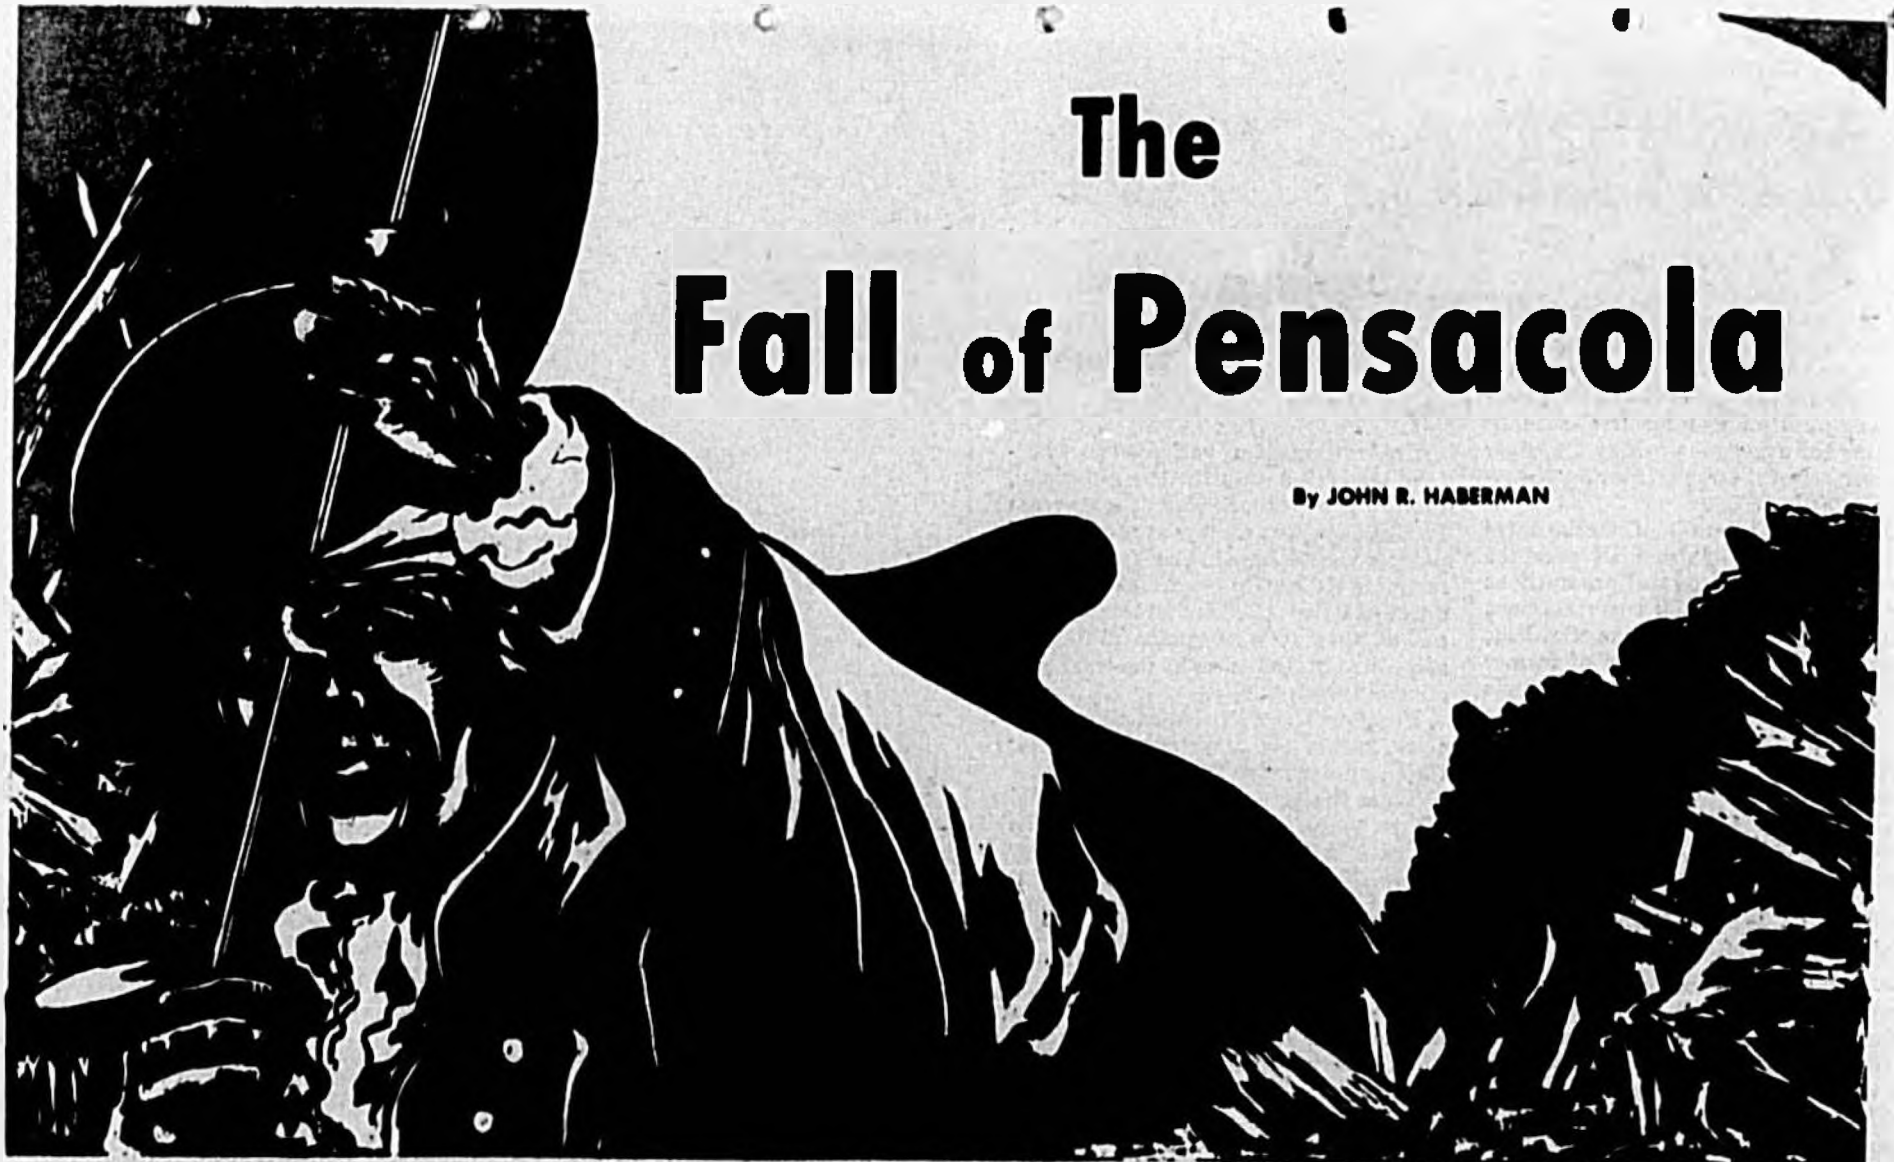

HERE'S HOW! This photo of Bobby Teese, taken at the age of three, is perhaps the most widely used picture in connection with Florida watermelons.

CONTEST'S ON!—the most popular event of the day (left) with the kiddies.

"CONGRATULATIONS, HONEY!" smiled Sally Ardrey, Watermelon Queen of 1953 (below), to Diane Williams, succeeding her, as 1954 Queen.

The Fall of Pensacola

By JOHN R. HABERMAN

THE Spaniards, led by Gen. Bernardo de Galvez, were in possession of Santa Rosa Island and Pensacola Bay; and now, Apr. 23, 1781, they were entrenching on the mainland. In the hope of dislodging them, Gen. John Campbell, the British commander, was making plans for a surprise attack on the nearest Spanish camp. However, that same night Campbell's plans were knocked completely askew by the desertion of one of his soldiers. The soldier, a corporal, was one of the Waldeck's, hired German troops who were aiding the British in the defense of West Florida. It was reported that he was the only Catholic in the British camp.

"I suppose he's gone to join the Spaniards because they are of his own faith," said General Campbell. "Naturally, he'll tell them about the surprise I've planned. We'll have to delay it."

OUTWITTING the Spaniards, Campbell launched his offensive two days later than originally planned and thus after all caught the enemy by surprise. Campbell himself led the attack, at the head of a detachment of regular soldiers and a band of yelling, scalping Indians. They wrought havoc among the Spaniards for a time, driving them out of their entrenchments, which they destroyed, and slaughtering many.

But this sally, valiant as it was, was pitifully short of what it would really take to break the ring of iron that was closing about Pensacola. The Spaniards were many and they had much heavy

artillery. The British troops, Waldeck and Indians in Fort George, were comparatively few, and there was no way for them to get supplies or reinforcements.

Though the picture looked grim for the British, they had at that time some reason for rejoicing. Word reached Pensacola, presumably by Indian messengers, that General Clinton had captured Charleston. In celebration of that victory for their side, the British shouted and fired off rockets.

CHARLESTON had fallen 11 months previously. It had taken that long for the news to reach Pensacola!

After that, the British made no more sallies out of Fort George. The strength of the Forces closing about them made such a move suicidal. It had become now a matter of a fort against a fort. For under cover of some pine woods the Spaniards constructed a fortress which they called San Bernardo. When they cut down the intervening trees to clear a field of fire for the guns, the British were astonished to see a fort as strong as their own, built virtually under their noses.

Indeed, it became then almost a fort within a fort. Continuing their construction, the Spaniards encircled Fort George with entrenchments and redoubts, plentifully supplied with heavy siege guns.

The British were the first to begin the artillery duel. Seeing the Spaniards at work in the woods, building out-

posts near one of their redoubts, they opened fire. And the ring of Spanish batteries all around Fort George replied with a thundering cannonade, which continued for 11 days.

During that time the British were forced to cease fire for an entire day, to allow their harassed garrison time to make repairs to the fort; and cautious General Galvez, by indecision and hesitation, failed to take advantage of the British cease fire.

In the end, it was downright bullheadedness that brought about the downfall of the British, through their commander's treatment of a certain provincial colonel. This officer had misbehaved in some way. He was court-martialed and drummed out of his regiment—in fact, clear out of Fort George. General Campbell wouldn't tolerate any disgraceful posturing in his ranks, corrupting his men, not even if, when kicked out, he should go to the Spaniards.

That is exactly what the drummed-out colonel did. He went straight to the Spaniards and told them what they had been wanting to find out all along. He told them which angle of Fort George contained the powder magazine.

The Spaniards immediately concentrated their fire on that spot. It required three days of continuous firing on the massive British earthworks before, on the morning of May 8, one of the Spanish shells penetrated into the magazine.

There was a tremendous earth-shaking concussion, followed by a mountainous

cloud of smoke and dust which left 50 of the British garrison dead and as many more frightfully wounded. Also, a wide breach yawned in the walls of Fort George.

GENERAL CAMPBELL realized then that the fight was almost over. He prepared for a last-ditch defense by training all available guns to sweep the breach. Then he hung out a white flag. He sent a message to General Galvez: "I'll surrender on the following terms," which the message proceeded to enumerate. "Otherwise I'll hold this fort to the last man!"

Galvez was at first of a mind to refuse any terms to General Campbell. But when he stopped to consider how many Spaniards might yet be killed getting through that breach in the fort, he reconsidered and grudgingly granted Campbell the terms he demanded.

The British marched proudly out of the breach in Fort George with their flags flying and their drums beating. Outside they stacked their arms and surrendered—to be transported, according to the surrender terms, to the nearest British port at Spanish expense.

By sheer bravado, Campbell had wrangled a rare deal out of Galvez. He had agreed that his troops, when released, would not fight against Spain again. But that provision did not include the United States. By means of this wily omission, the capitulation of West Florida to Spain released all the British troops in that area to fight the United States.

The Story Of
A Florida
Hospital

The GOOD SAMARITAN

By P. O. GORDEE

An Architect's Dream Translated Onto Paper Shows Ultra-Modern Good Samaritan Hospital At West Palm Beach As It Will Appear In Appropriate Setting With Proposed Expansion Plans Completed, Making It One Of The Leading Institutions Of Its Kind In Florida And Keeping Pace With The Community's All-Out Program Of Progress.

FLORIDA, long famous for its health-giving climate, has not overlooked the fact that Mother Nature must have an assist now and then in the form of scientific knowledge to assure this great state its advanced position in the ranks of leading healthful areas of the world.

As a result, Florida has made amazing progress in the development of institutions and personnel to not only retain, but enhance, the enviable position it holds in providing necessary facilities and skilled technicians, as well as efficient administrators of constantly improving programs and procedure.

An outstanding example of this type of progress and development is Good Samaritan Hospital in West Palm Beach, which, in barely one generation, has become one of the leading institutions of its kind in Florida, and even ranks among the most progressive in the nation.

Florida cities, both large and small, now contemplating new or expanded hospital facilities, might well focus their attention on Good Samaritan Hospital and not only for the purpose of learning what has been achieved in a

comparatively short time, but also to discover what this institution is now accomplishing under a long-range, flexible expansion program.

This is a five million dollar enterprise, designed to be sufficiently flexible to keep pace with the growth of the community, a vital factor in any institutional expansion program in rapidly-growing Florida.

The story of the development of Good Samaritan Hospital, a voluntary, non-profit, non-sectarian hospital association, is a fascinating one.

The building of the original hospital in 1919, with its 35 beds, was a humble beginning but a sound foundation on which has grown the large institution of today. And with the completion of another phase of the expansion program at a cost of \$1,263,000 next January, Good Samaritan Hospital will have 204 beds in a beautiful, modern, thoroughly equipped building, located in a magnificent tropical setting on the shores of Lake Worth.

From a mere handful of doctors, nurses and employes 36 years ago, Good Samaritan today has reached a status where its medical staff is

made up of 120 doctors, 10 dentists and 300 employes, including 100 graduate nurses, 56 nurses' aides and 12 orderlies. The annual payroll is approximately \$700,000.

Since 1926, Good Samaritan Hospital has operated a first-class school for nursing, and now has a class of 50 student nurses taking a full three-year course, which leads to graduation and a registered nurse diploma.

Perhaps one of the most notable factors about Good Samaritan is that it is equally progressive in its professional work, as a result of its self-evaluation through its surgical, as well as its medical, evaluation committees. This is notable, because across the nation there are not many hospitals which can boast of this achievement, and in the ranks of the better-class hospitals in this category, Good Samaritan stands with the leaders.

This progressive accomplishment protects the patient against inadequate medical attention and assures him of the utmost available, in scientific knowledge.

(Continued on page 14)

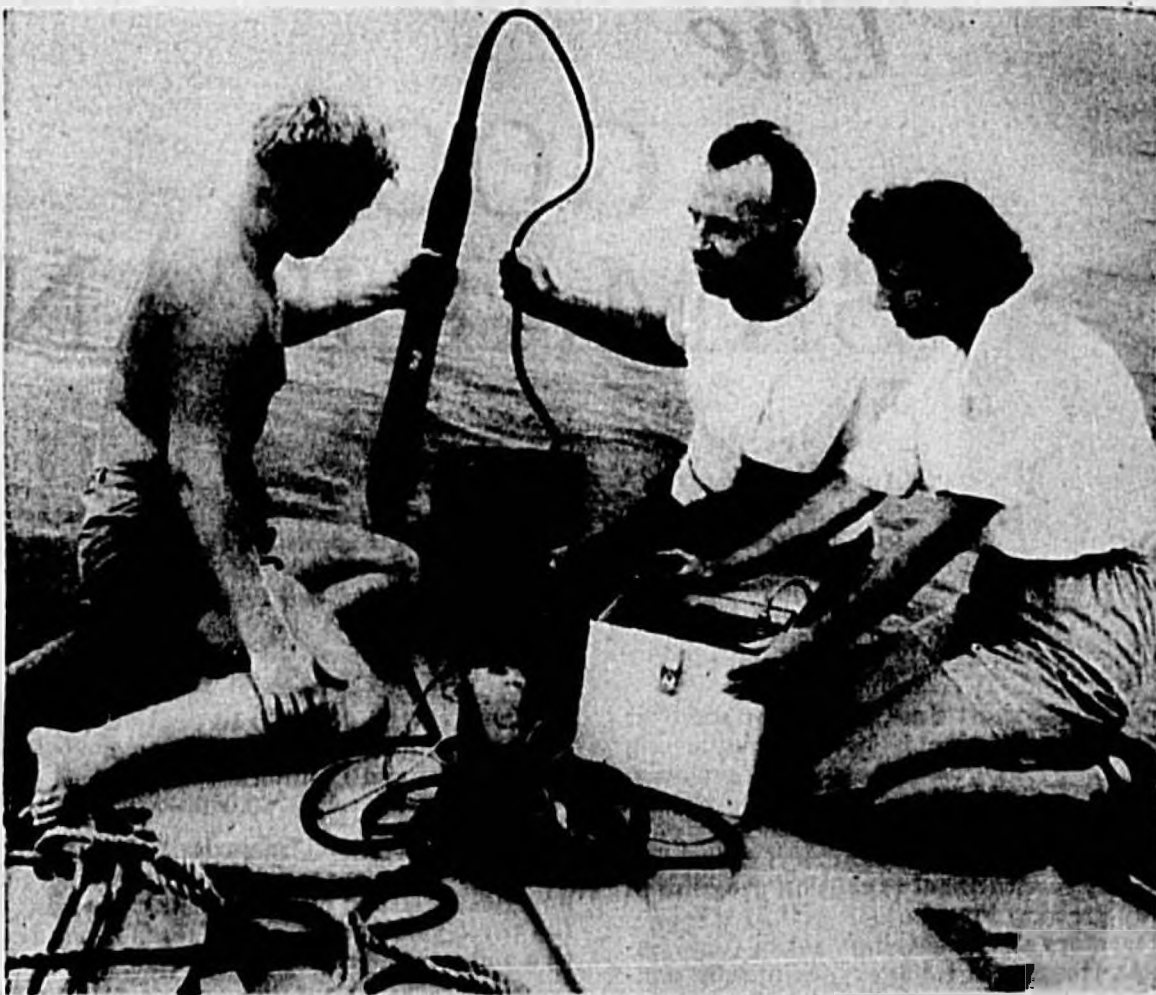

DESIGNED TROPICAL splendor is exemplified in appearance of Good Samaritan Hospital as it is today at West Palm Beach, with magnificent royal palm standing guard. Plans are complete for \$1,263,000 addition and expansion, expected to be finished early next year.

SKILLFUL ARTISTRY of the architect shows exactly how Good Samaritan Hospital will look when the expansion program has been completed, with enlarged central section and modern, more spacious right wing blending to give complete uniformity of appearance.

PORP PSYCH

By LOGAN FRANEY

LISTENING IN Dr. Winthrop Kellogg and students (above) have tracked down porpoises in a fast run-about and now prepare to lower hydrophone (in student's hand) to record underwater sounds.

In the newest scientific alliance, marine biologists have teamed up with the psychologists to delve into the subconscious minds of deep sea animals. Dr. Wallace N. Kellogg, professor of psychology at Florida State University, announced recently that he plans to study the psychology of porpoises by listening in on their "conversation." And although he doesn't put it into words, the husky scientist's grin gives the impression that he won't be surprised to find the aquatic animals have psychoses and neuroses just as human beings do.

Dr. Kellogg's marine interviews will be carried out with the cooperation of other scientists at F.S.U.'s new Oceanographic Institute at Alligator Harbor, where modern electronic equipment will replace the traditional psychiatrist's couch. A bomb-like electronic pick-up called a hydrophone will be lowered into the murky depths of the Gulf of Mexico, and the underwater noises of porpoises and other denizens of the deep will be recorded. Later, the records will be played back and studied in campus classrooms.

Florida State's Marine Laboratory and Oceanographic Institute is located half-way between the fishing village of Carrabelle, and St. Mark's Lighthouse. Launched about five years ago as a laboratory for the study of marine biology, the Institute was Florida's first experimental station on the upper Gulf Coast. The site was carefully chosen. Alligator Harbor is a sheltered bay which supports a

FROM THE DEPTHS—Dr. F. C. W. Olson (above), oceanographer, examines marine life scooped from the bottom of the Gulf.
PAGE 6—An Florida Magazine

HERE'S AN aerial view (below) of FSU's Oceanographic Institute at Alligator Harbor, where modern electronic equipment will replace the traditional psychiatrist's couch

OISE OLOGY

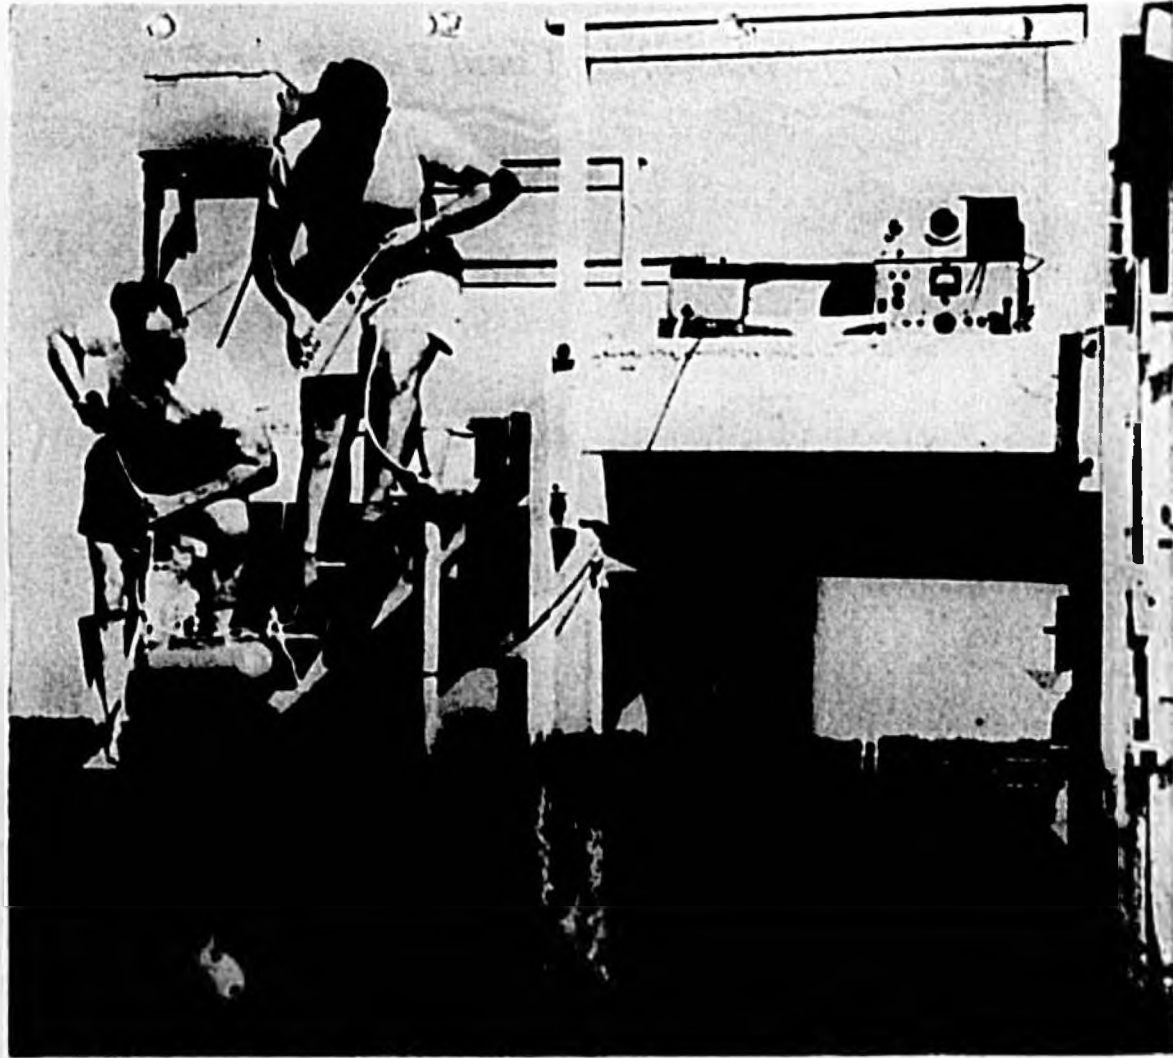

great variety of marine animal and plant life. And the deeper waters of the Gulf are only half an hour by boat from the Institute's docks. Two small auxiliary labs are located at Mayport and Mullet Key.

At Alligator Harbor, FSU students learn at first hand, working with marine scientists from all parts of the country. The Institute's facilities are available to all researchers approved by Dr. Sam Meyer, the Laboratory's new director.

According to Dr. Meyer, the Oceanographic Institute is an interdivisional operation of Florida State University. This means that departments such as physics, chemistry, geology, biology—and even meteorology—have a finger in the pie. Or in the water.

Studying the psychological quirks of marine animals may seem somewhat abstract, but other studies at the Institute are strictly down to sea level.

JUST TESTING—Dr. Kellogg and electronic engineer, Robert Kohler (right) test sensitive electronic equipment, recording underwater noises of marine animals.

"We will concentrate on basic research in oceanography and biology," says Dr. Meyer, "and some of our workers have research contracts with national scientific foundations and government agencies. But our long-range plans are primarily a search for every means of improving Florida's marine resources."

Applied research has a practical value which is emphasized by a current Institute project. Under way for some months, the project centers about a study of Florida's most important food fish—the mullet—and is being carried out in cooperation with the University's Department of Home Economics.

While the Oceanographic Institute is off the beaten path for winter visitors, many people from Tallahassee and the surrounding area visit the Alligator Harbor Laboratories. Among these are the Science Camp students—80 to 100 high school juniors and seniors from all parts of Florida who each summer attend the unique "Science Camp" on the FSU campus. These students are especially interested in the huge in-door and out-door laboratory tanks, filled with running sea water, which are used to hold various smaller forms of marine life during observation.

"BO LOOSE!" Dr. Harold J. Hume and student (right) examine catch from beach seine.

"Hmmm! Do I smell a rat in there?"

(Watch out, "Tiger," here comes that "Killer" Patches.)

"Back up, Killer, these are mine!"

FLORIDA'S LITTLE RACKETEERS

YOUNG STARS in recent State Junior Championships at Palm Beach (from left): McCarthy, Jacksonville, 12-year-old runner-up in 12 and under division; John Allen, Fort Lauderdale, winner of 15 and under crown; Frank Froehling, Coral Gables, 13 and under champion; Philip Petra, Palm Beach, 18 and under champion; John Henriksen, Ormond Beach, 18 and under runner-up.

DOWN BUT not out—Tom Holton, of Delray Beach, 12 years old, five feet and weighing 85 pounds, was literally overwhelmed in the South Florida Championships by Jean Noel Grinda, 18 years old, six feet, three inches and weighing a cool 200 pounds. But Tom is typical of the ambitious spirit of Florida youngsters entering men's competition to gain experience.

By MASON BUCK

EDDIE MOYLAN and Jean Noel Grinda were the big news in the Florida tennis circuit this winter, but behind the news was an outstanding crop of Florida youngsters who received valuable lessons from Professor Moylan and Co. As Moylan told Junior Wimbledon Champ Grinda as the latter left the Florida net wars for his native France, "I hope you go back to France and stay. Every week you get tougher to beat!" Trenton Eddie's recent emancipation back into amateur tennis, with the relaxing of USLTA rules, was auspicious. He brought an outstanding ground game, a keen, seasoned tennis mind and fine sportsmanship, on and off the court.

FAME AHEAD—The record of the Hurricanes' net team reached South Africa and brought John Kupferberger (left) to University of Miami.

Eighteen-year-old Grinda brought a really "big game" service and net play, coupled with an amazingly deft and delicate drop shot. The pair gobbled up most of the headlines of the Florida circuit, and they deserved them. Moylan swept the six Florida tourneys he entered—Tampa, St. Petersburg, Orlando, Fort Lauderdale, West Palm Beach, and Hollywood—and knocked off the Sugar Bowl tourney before that. Grinda, except for one upset, lost only to Moylan. Later, Art Larsen moved in for the Masters Invitational at Jacksonville, while the Davis Cup stars, Vic Seixas and Tony Trabert, headed the field in the Everglades Invitational at Palm Beach.

But students of the game were impressed with the amazing group of recently graduated Florida junior flashes who picked up experience in big goals, and frequently pulled prophetic upsets. Dominating this group are those playing with the unbeaten University of Miami squad, coached by Bill Luffer. Capt. Al Harum and brother Dave of Coral Gables, Tampa's Allen Quay, Davis cuppers and Mike Green, are all verging on the "big time." And the Cuban Garrido brothers, Orlando and Reynaldo, Johann Kupferberger of Johannesburg, South Africa, and Brooklyn's Sal Vincent and Bill Schwartz have been playing U.M. tennis long enough to become adopted Florida sons. Rollins College's George Longshore and Alberto Daniel have been loosely grouped with the young Florida comers. Two outstanding Palm Beachers, cousins Bob and Pete Green, have been doing big things for the powerful Duke and North Carolina University teams. Another Palm Beacher, Wayne Van Voorhies, has been developing on the European circuit since he got out of service two years ago, and will play abroad again this year. Young Dave Harum teamed brilliantly with Kupferberger in knocking off two of the doubles titles—at West Palm Beach and Hollywood. Jerry Moss, national junior champion a couple of years ago, who joined Mike Green in the Australian tour as junior members of the Davis Cup team, is another Miamian with ability. Meanwhile, the new crop of young Florida netters is very promising, with several outstanding youngsters serving warning of things to come. State Junior Champion Phil Petra, 17-year-old son of France's Wimbledon champion Yvon, who is pro at Graham

JERRY WINNER—Eddie Moyland of Trenton, N. J. (right) became winner tennis sensation in Florida, winning an straight tournament.

All Florida Magazine—PAGE 11

DEATH TO THE CARRIER

Floridians Continue Control Experiment
Against Flies Suspected Of Contributing
To Spread of Polio, As Carrying Agents

By ANDY ANDERSON

LAST year was Florida's worst, so far as polio was concerned. This year may be its best. The year to come may be even better.

There is a variety of reasons. The principal one may be the Salk vaccine, the first known polio preventative. But there are other aspects to the matter.

The State Board of Health suspects that flies are contributory, transmitting polio to people from sewage. But no one really knows. The Board does, however, encourage insect control and sewage treatment as a prime means of helping abate ALL communicable diseases which can be traced to water and sewage and insect carriers.

Principal control measures in polio are (1) prompt isolation of polio and suspected polio patients; (2) increased insect control program; (3) more careful watch by teachers and parents for symptoms of polio and prompt medical examinations of suspected cases; (4) administration of gamma globulin where advisable.

There were 1,777 cases of polio in Florida last year. The figure may be revised UPWARD when all records are in. There were 55 deaths.

In 1953, the final official figures were 733 and 46. In 1952, there were 663 cases.

A peculiar thing in polio is that it seems to be a "white man's disease." Of the 1,777 cases recorded so far for 1954, 1,693 were for white people—the remainder Negro. This is a preliminary case rate of 96.3 per 100,000. This is the national trend. Nobody seems to know why the white man is hit; the non-white not hit. But scientists suspect it is because non-whites have less protective care and thus build up more immunity.

Investigators think, also, that a majority of white—non-whites, also, of course—have polio at various times in minute amounts. They are sure that if this is the case, it helps build immunity, so that many older people escape the terrible ravages of the disease altogether.

The State Board of Health does no research on polio, but it does coordinate health practices in conjunction with county health units to help minimize all disease. It has cooperated closely in the Salk test.

While science is doing all possible to prevent polio and find its cause and cure, two men in Florida are doing all in their power to find the perfect fly killer, which could greatly assist in cutting down transmission of polio—if it is indeed fly-carried—and certainly other diseases which have been traced to filth and flies.

The two are Herman Mayeux, entomologist and technical director of the Florida Agricultural Supply Co., and his assistant, Paul E. Rowland.

They started last spring and developed a kind of poison made into flakes which, when first tested at the farm of William J. Campbell at Green Cove Springs, killed four gallons of flies—about a million—in 24 hours. Less than a pound of flakes was used. It was scattered by hand about his poultry pens and where other animals lived.

But entomologists are a cautious breed. Mayeux and Rowland remembered that other flies had become immune to other new poisons—and so they have continued to run tests on their products.

"We believe we have proved," Mayeux says, "that flies will not become immune to our flakes, because

we have tested them on several generations of flies. But during recent months, we've tried to develop a fly bait that is even more attractive and even more fatal. We've taken these various formulas and tested them on flies in our laboratory release room. We have carefully noted which baits flies seem to prefer.

"The original stock of flies used for these tests was supplied by the U. S. Department of Agriculture at Orlando, and all of them were flies which had developed a high resistance to ordinary fly poisons. "We think we've found a super killer that will really do a job of controlling flies in 1955."

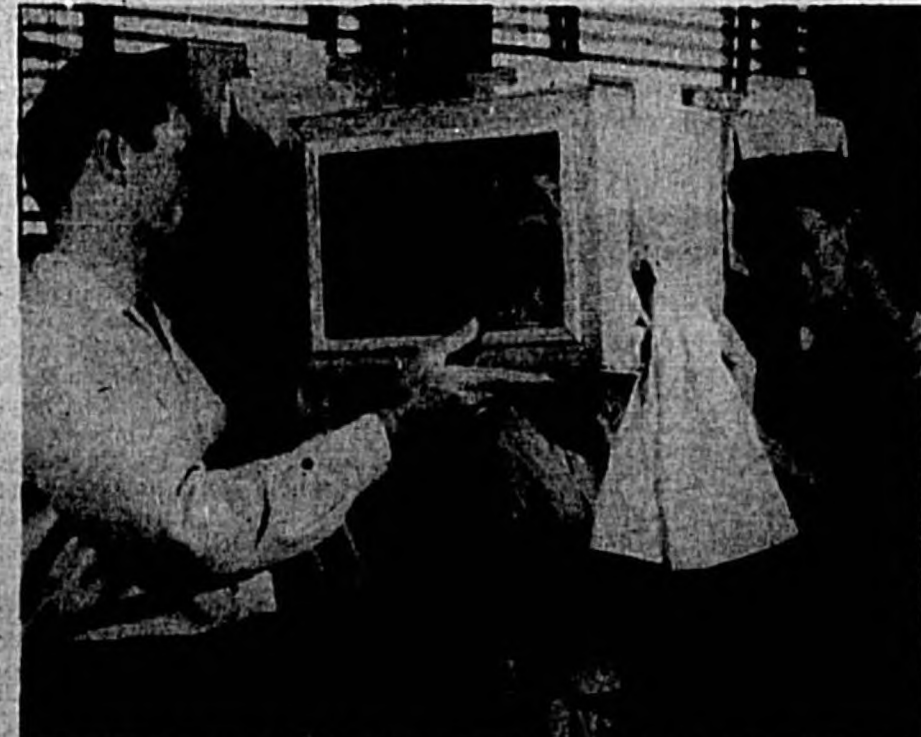

Meanwhile, distribution was made nationwide of enough Salk vaccine to vaccinate nine million children.

Dr. Ellwood C. Nance, author, president of the University of Tampa and Florida chairman of the March of Dimes campaign, said the mass vaccination of school children last year was the largest medical field test in history—that more than seven and a half million dollars was spent in the experiment, with results recently announced, and that more than 31 tons of the Salk vaccine is being manufactured for widespread use this year.

(Continued on page 13)

HERMAN MAYEUX (left) and Paul E. Rowland, entomologists, are checking some of the hundreds of different kinds of bait used to find out what flies prefer.

THE ENTOMOLOGISTS release 2,000 highly resistant flies from breeding cages so that they may come in contact with a newly developed fly killer bait.

RECIPE CONTEST

Floridians' Favorite FOODS

Here is the first presentation in our Florida Original Recipe Contest. Each contestant whose recipe is printed will be mailed a check for \$1, and in addition, one will be awarded the \$5 prize, to be announced at the end of four weeks. A number of tasty-sounding recipes had to be rejected because of not being composed of principal ingredients typically Florida. We are sure there are many now being treasured by second and third generation Floridians, because Grandmother originated or used them, and we should be pleased to have them entered in the contest. Just address them to the Contest Editor, All Florida Magazine, Ocala.

RED SNAPPER WITH AVOCADO SAUCE

(Mrs. Raymond G. Ridgely, St. Petersburg)

1 red snapper, about 3 lbs. 1 large avocado
2 tblsp. vinegar 3 tblsp. olive oil
1 onion, 1 bay leaf, 1 sprig thyme Juice of 1 lge. Florida lemon
6 sprigs parsley or lime leaves

Poach snapper in water to cover, with vinegar, onion, bay leaf, thyme and parsley, adding salt and pepper.

When fish flakes easily, remove from liquid and serve either hot or cold with sauce made by heating thoroughly meat of the avocado pressed through a fine sieve, with the olive oil, lemon or lime juice and salt and pepper to taste, added.

GRAPEFRUIT SLAW

(Mrs. G. G. Etheridge, Lakeland)

3 fresh Florida grapefruit 1/2 tsp salt
3 cups shredded red or white 2 tsp. sugar
cabbage 1/2 tsp. celery seed (optional)
1/2 cup mayonnaise or slt. dress.

Chill grapefruit before preparing. To section, cut off peel in strips from top to bottom, cutting deep enough to remove white membrane. Then cut slices from top to bottom. Go over fruit again, removing any white membrane. Cut along each side of dividing membrane from outside to middle of core. Remove section by section. Add to cabbage. Combine mayonnaise, salt, sugar and celery seed. Add to grapefruit-cabbage mixture; toss lightly. Yields six servings.

FLORIDA FRUIT SALAD

(Mrs. J. H. Southard, Holly Hill)

Line individual salad dishes with whole sections of grapefruit, after removing white membrane. Fill centers with sliced avocado. Season very lightly with salt and a few grains of sugar. Add a teaspoon of mayonnaise to each serving and top with a ripe seeded marion cherry.

FLORIDA SPECIAL DESSERT

(Marianne Guiles, Daytona Beach)

4 eggs 2 tblsp. granulated sugar
4 tblsp. conf. sugar 1/2 cup of milk
4 tsp. orange marmalade 1/4 cup sherry, rum or brandy.

Beat egg whites, add sugar gradually and fold in marmalade. Put into greased top of double boiler and cook over boiling water 40 minutes. Serve at once with following custard sauce which can be prepared in advance.

Beat egg yolks with sugar. Add slowly to scalded milk and cook until mixture coats spoon. Avoid overcooking the sauce to prevent its becoming watery. Shortly before ready to serve, add sherry, rum or brandy.

If a richer sauce is desired, cook the egg yolks, sugar and one tablespoon of butter until mixture coats the spoon, omitting the milk. Then fold into half-pint of cream, whipped, adding the sherry, rum or brandy. Serves four.

DEATH CARRIER

(Continued from page 12)

He feels that more progress has been made in the fight during the past year than in all other years since 1789; that the disease can no longer be termed infantile, because it strikes older people as well as children.

Dr. Nance reports that since the first epidemic in the United States in 1894, more than 200 million dollars has been spent in research and care of victims and that over 1,400 hospitals now have polio wards, as compared with 500 in 1937.

At the State Board of Health, Dr. L. L. Parks, director of the Board's Bureau of Preventable Diseases, stated the year 1954 will go on record as being Florida's worst year insofar as poliomyelitis is concerned, in spite of the considerable time and effort used in the control of polio through the use of gamma globulin.

It is estimated that GG used in Florida in 1954 would have cost approximately \$2,100,000 at the current price. It was distributed through the State Board of Health and various county health departments.

A mass immunization program was conducted in Monroe County (Key West) giving it to 8,800 individuals. In Fort Lauderdale, 2,000 people received GG and approximately 20,000 received it in Leon County.

Polio took its third heaviest toll in history of the United States in 1954, with some 38,000-odd cases. The previous record was 57,879 cases in 1952; 42,000 cases in 1949.

Last year, the hardest hit states were Florida, Iowa, Nebraska, Wyoming, Utah, and Nevada.

With more than 1,000 cases above its five-year average, Florida had an incidence of 290 per cent greater than the 1949-53 average. Nevada had an incidence of about 184 (on the basis of November figures which were well past the peak) per cent higher than the average for those years and Wyoming was running 140 per cent higher.

Three counties in Nebraska, two in Wyoming and one each in Florida, North Carolina, New Mexico, California and Texas had incidence rates of more than 152 cases for each 100,000 population.

Thus it can be seen how vast the struggle is to stop spread of the disease, and how important the work of Mayeux and Rowland may be.

GOOD SAMARITAN

(Continued from page 5)

Still another major and modern factor in the operation of Good Samaritan is the mechanical system by which oxygen is piped in from a "skid bank" arrangement similar to the manner in which water or gas is piped into rooms or wards. At Good Samaritan, oxygen is instantly available through this system, linked with the "skid-bank" away from the main building, where an ample supply of oxygen is always available.

This is only one of the many strides in modernized equipment installed at Good Samaritan to speed the patient's return to health.

Mere words cannot correctly emphasize the magnitude of the service at Good Samaritan, but a few figures for the last fiscal year, ending Sept. 30, 1964, will be revealing. For instance, during that period 6,020 patients were admitted. That is an average of more than 500 patients per month.

There were 985 new babies born. Total patient days were 45,898, with a daily average number of patients aggregating 125.7. The average stay per patient was 6.5 days, representing a substantial reduction which in turn, means decreased outlay per patient.

A significant figure is revealed in the emergency room report, where during the year 6,344 emergency cases were handled. This is an average of one case every 84 minutes, around the clock.

Good Samaritan is rapidly nearing the point where it will be as complete and modern as it is possible to make it, with today's constantly growing discoveries in medical science.

Nothing conceivable has been overlooked, for instance, in either medical equipment or facilities and appearance to modernize the maternity section.

Colorful ceramic tile, both sanitary and practical, reaches halfway up the walls to meet sound-proof material that extends from the ceiling. On the floor, rubber tile is laid over sponge rubber, to soften the tread and eliminate sound. On one side of the central, glassed-in corridor, is the delivery room; on the other is the maternity room and immediately adjacent is the nursery with its infant beds and incubators.

This part of the hospital is the Anne Dodge Maternity Wing, opened in 1960.

Rooms are air-conditioned, thermostatically controlled to individual needs, and they are equipped with the new type "hilo" beds which raise or lower horizontally. Trays are a "vanity" in themselves, containing inside a mirror and other useful articles.

Also featured in the extensive modern equipment at Good Samaritan is the "unique" inter-communication system, which enables the patient to communicate instantly with the nurse. The device is so sensitive that the faintest whisper of a patient can be heard over the delicate instrument by the nurse.

The modernistic interior and the attractive exterior blend into a delightful pattern, giving the whole an atmosphere of comfort and delight. There are luxury bathrooms, tiled floors, paneled walls, attractive valances, venetian blinds, colorful drapes; and completing the ensemble are spacious sun porches equipped with jalousies.

Construction of the new additions to the main building will match the parent structure to give a delightful appearance of uniformity. There will be reinforced concrete construction throughout, with four-foot concrete canopies over the windows. Designed to provide the most modern equipment and service units, the interior will include a new surgical suite, a post-anesthesia room, central supply quarters, a new X-ray department, new laboratory, new electric cardiograph department, a new board and staff conference room, and 33 new beds. All of these units will be air-conditioned.

Good Samaritan has its own complete pharmacy, also quickly providing necessary drugs. Physical aspects of the department of radiology were doubled in 1961. Necessary space was provided for the latest type of diagnostic equipment. The new laundry, built to care for tons of washing to be done daily, is so efficient in operation that it has been praised by experts and has been subject material for articles in various magazines.

The modernistic kitchen is almost an institution in itself. There is also a cafeteria where food is available to employees at cost, and there's a snack bar and gift shop operated by the women's auxiliary. In the north wing is the Ernest G. Howe Auditorium, dedicated by the

DO YOU KNOW?

That the thriving center of the state's phosphate, Polk County with its immense citrus groves and processing plants, was once a shallow sea? That those who have tested citrus products elsewhere in the world claim it is doubtful whether top quality, equal to ripe Florida citrus, is to be found elsewhere?

GOOD SAMARITAN

(Continued from page 14)

medical staff, where medical staff, nurse classes, and other types of meetings are held.

There is also an automatic telephone system to permit the institution to maintain constant contact with employees.

Entrance to the hospital is not unlike that of a swank hotel—and Delphine Dodge and Harris Halls provide quiet, comfortable quarters for nurses.

Plans are now complete for the new \$1,263,000 addition,

with John L. Volk, and Westh, King & Johnson, Palm Beach architects, in supervision, under direction of the board of governors, headed by Gen. Arthur H. Carter, president of the board, and John F. Wymer, Jr., administrator of Good Samaritan Hospital and secretary of the Good Samaritan Hospital Association.

When completed, Good Samaritan Hospital will be another magnificent chapter written in the progress of Florida.

FLORIDA FACTS

By HELEN THERRILDSON

Pithecolobium Dulce
The Tamarind (*Pithecolobium dulce*), a beautiful evergreen, grows well in South Florida. Particularly handsome specimens are to be found at Key West.

These magnificent trees are native to both tropical Africa and Asia, but have found Florida climate and soil much to their liking, often reaching a height of 80 feet. As with other trees growing here so luxuriantly, the seeds were undoubtedly brought in by the early seafaring folk.

Part of the Tamarind's popularity springs from the fact that it has baffled hurricanes for centuries. Many call it the "Hurricane Tree" for that reason. It is one of our toughest trees.

Marco Polo, in 1298, told of using the Tamarind pods which are like beans—long, and cinnamon colored. The people of the Orient doubtless used these pods centuries prior to the recording of Marco Polo.

Way back in the early days of the American colonies, these pods, preserved, were considered quite a treat and were always part of the Oriental sweets brought home by the captains on their boats. There are many ways of preparing the pods, and one is in making a delightfully cooling drink. The pods, or fruits, carry a higher percentage of sugar and acid than any other fruit ever tested, say the scientists. They recently reported them rich in minerals and thiamine, calcium and phosphorus.

MAYOR J. D. CORDELL is presented with the first poppy by Mrs. C. E. Hunter, president of the Auxiliary of Campbell-Lossing Post No. 53. The poppies will be distributed throughout the city on Saturday. (Staff Photo)

Election Win Boosts Chances

MAINZ, Germany (AP)—His greatest election victory in two years last night bolstered Chancellor Konrad Adenauer's plans for speedy action on his program to arm 500,000 Germans for the Atlantic Alliance.

Auxiliary Leader Presents Mayor With First Poppy

Mayor J. D. Cordell was wearing a bright red flower in his lapel today, the first of thousands of memorial poppies to be distributed throughout the city Saturday by the women of the American Legion Auxiliary. They will be worn in honor of the nation's war dead.

The poppy was presented to the Mayor at City Hall by Mrs. C. E. Hunter, president of the auxiliary of Campbell-Lossing Unit No. 53. Mayor Cordell gave Mrs. Hunter a generous contribution for the American Legion Auxiliary's work for disabled veterans and needy children of veterans.

Work for the Auxiliary for the welfare of children of war veterans draws its major financial support from the coin boxes which the group's "Poppy girls" will carry here Saturday, it was pointed out by Mrs. Hunter. She continued, "Fully half of the children in Sanford are children of veterans and out of this number there are constantly some who need help."

The wars are still taking their toll of men who served in them, and when a veteran is stricken down by illness or death, there often are children left in need, she concluded.

Latin American Relations Subject Of Rotary Address

A program on Latin American relations with the United States and definite specific suggestions as to the improvement of those relations were offered members of the Sanford Rotary Club at its regular weekly meeting at the Yacht Club this noon.

Diem Takes Over Chief Of State's Private Militia

SAIGON, South Viet Nam (AP)—Premier Ngo Dinh Diem took over chief of state Bao Dai's private militia yesterday, removing the vestige of military power the absentee ex-Emperor may have hoped to retain here.

The Premier acted as the National Revolutionary Committee staged another mass meeting. A leader of the pro-Diem organization told 40,000 cheering Vietnamese Bao Dai was a traitor and made fresh demands that he be deposed.

Incorporation of the imperial guard into the national army appeared to be one more step in removing Bao Dai's weakening hold on his country. The guard, estimated at several thousand men, originally was set up to protect the person of the Emperor.

Bao Dai, now living on the French Riviera, abdicated after Communist Ho Chi Minh set up his revolutionary government at the end of the Japanese occupation.

FIRST STOP—BRUSSELS
PHILADELPHIA (AP)—The famed Philadelphia Orchestra's International Airport last night in two four-engine planes on the first leg of its initial European tour. First stop: Brussels.

Survivors include his wife, Mrs. Annie J. Cash of Sanford; one daughter, Mrs. C. W. Waterman Jr., Pittsburgh, Kan.; two sons, John W. Cash Jr. of Baltimore, Md., Woodrow Cash of Sanford; seven grandchildren, one great grandson; two sisters, Mrs. Mary L. Whitten, Mrs. Lula Hale, and a brother J. B. Cash, all of Bluefield.

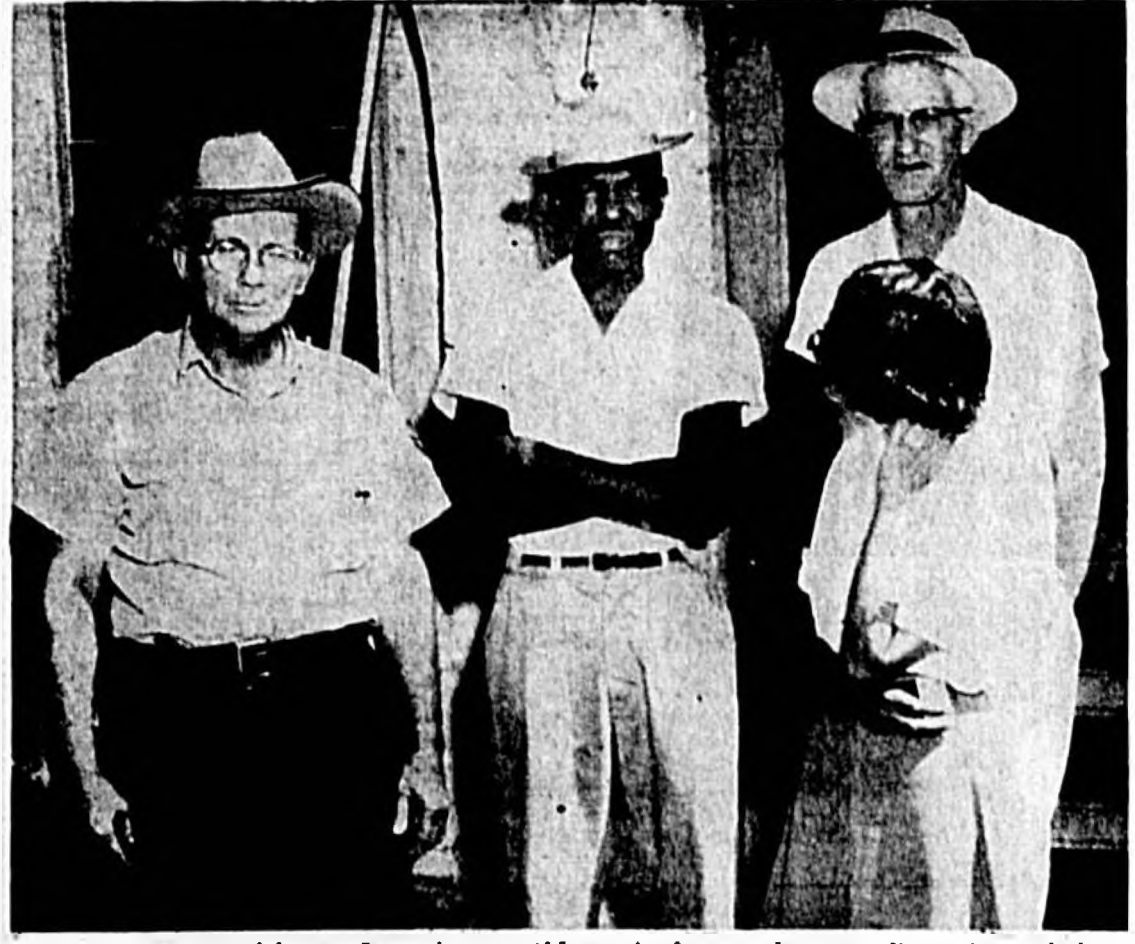

The body will be taken to Bluefield today, accompanied by the widow and son Woodrow. Burial will take place Wednesday in Bluefield.

Richard O. Pellett Dies In Daytona

Richard O. Pellett of Daytona Beach died last night. He is the brother of Mrs. Dorothy Cordell of Sanford.

Survivors include his wife Mary, four children, Mary Beth, Richard Jr., Lucille, and Harry Hamilton; and three sisters, Mrs. Lyle Newkirk, Mrs. Charles Walsh, both of Daytona, and Mrs. Cordell.

Fruit Picker Admits Passing Bad Checks

CHARGED with writing and passing worthless checks are Emmett Pope (second from left), Sanford fruit picker, and his wife, Effie (head inverted). With them at the entrance to the County Jail are Deputy Sheriff A. E. Evans (left), and Constable J. Q. Galloway. (Staff Photo)

Operators Identify E. Pope

Checks Are Drawn At Sanford Banks

A Sanford Negro fruit picker today confessed to passing more than \$200 in worthless checks after he was identified by operators by Seminole County stores and gas stations. Deputy Sheriff A. E. Evans reported, Evans and Constable J. Q. Galloway removed Emmett Pope, 43, from the County Jail this morning to take him on a tour of the business establishments where he was accused of cashing the checks.

Pope also cashed at least one check in Volusia county and may have cashed others in Orange and Lake counties, Evans said. All the checks were drawn on the Florida State Bank and the Sanford Atlantic National Bank.

Evans said Pope and his wife, Effie, 48, were arrested yesterday after the operator of Jackson Service Station at Delray reported cashing a check of \$20.00. Effie Pope admitted she wrote the checks passed by her husband, Galloway added.

Pope posed as a sawmill worker in cashing the checks, the officers said. Other checks ranged from \$32.50 to \$42.75.

Evans said forged warrants were being issued today by County Judge Ernest Housholder and Justice of the Peace Hugh Duncan. Bond was set at \$500 each for Mr. and Mrs. Pope.

Among the other places where checks were cashed, Evans said, were the Shell Service Station at Five Points; the Giverville Grocery Store, and the Altamonte Springs store.

Tito Assures West That Coming Meet Will Not Be Secret

BEograd, Yugoslavia (AP)—President Tito has assured the West that his coming conference with top leaders of the Soviet Union does not mean Yugoslavia is "hanging sides." He still intends to keep his country out of all blocs—Western, Soviet or neutral "third force," he declared.

Speaking at the North Adriatic port of Pula, Tito said yesterday he wants good relations with both the West and the Soviets. He promised there will be no secret deals "behind the curtains" at his meeting in Belgrade late this month with Soviet Premier Nikolai Bulganin, Communist party chief Nikita Khrushchev and Deputy Foreign Minister Andrei Gromyko.

"The whole West will know what we have discussed and what we have agreed upon," the President declared. "Yugoslavia is grateful declared."

Helen Patterson Dies In Hialeah

Helen Rebecca Patterson, 52, died at 4 a. m. yesterday at Hialeah Hospital in Miami. She was born Sept. 29, 1902 in Sanford and had been living for a short time in Miami.

The young girl died after laking from her hands a powdered insecticide containing an arsenic compound.

She is survived by her parents, Mr. and Mrs. Harold Patterson, one brother, Phillip, and her grandmother, Mrs. V. H. Anderson of Sanford. The child's mother is the former Miss Dorothy Anderson of Sanford.

Funeral services will be conducted at 2 p. m. tomorrow at Harrison Funeral Home.

Honduran Officials Censor Dispatches

Government Fears News May Worsen Present International Emergency

TEGUCIGALPA, Honduras (AP)—The Honduran government has clamped censorship on outgoing press dispatches to check reports which, it says, might worsen "the present international emergency" with Nicaragua.

The government said last night it had acted "because of certain false reports filed . . . by some press agents (correspondents) and the attempt of Mr. (Harvey) Ross, editor, agent of Time magazine, to send a message containing alarming information which might make more serious the present state of relations between Honduras and Nicaragua."

Rumors that Nicaragua might invade Honduras spread through the Honduran capital Friday as the government posted troops along the frontier following reported activity by the Nicaraguan national guard. The government said last night the situation was not alarming and "soon everything will be settled in a friendly manner."

In New York, a spokesman at Time magazine said an editor talked with Rosenhouse by phone yesterday but the call was interrupted. He said efforts to reach the correspondent since then had been unsuccessful.

Mrs. Lorraine Graham, executive secretary of the Seminole County Tuberculosis and Health Assn., Robert Karns, representative director of the association, and Mrs. Karna have returned from Miami where they attended the annual conference of the Florida TB and Health Assn. The session was held at the McAllister Hotel May 12-14.

Underwater Blast May Cause Little Air Contamination

WASHINGTON (AP)—The underwater atomic explosion off the West Coast to evolve anti-submarine tactics may produce little or no atomic cloud and air contamination.

This will be partly the result of the extreme caution the Atomic Energy Commission and Defense Department are using to avoid complaints about drifting radioactivity like those which followed the 1954 hydrogen test in the Marshall Islands.

It also may result from the conditions under which the test presumably may be conducted, an explosion of a small nuclear gadget in relatively deep water.

Protests against the forthcoming test have been lodged by commercial fishermen in California, who are concerned about destruction or contamination of fish.

Two new men have joined the Sanford Cardinals. Jay M. Walter, business manager of the local baseball organization, announced today.

Walter said the newcomers are Charles Francis, 19-year-old pitcher-outfielder who bats from Gibeland, La., and Charles Lanford, rookie pitcher from Jacksonville.

Francis was formerly with the St. Louis Cardinal club at Hazlehurst, Ga. Lanford journeyed to Lakeland with the Sanford team last night but did not get an opportunity to play.

Dulles Gets Report Ready For America

WASHINGTON (AP)—Secretary of State Dulles flies back to the capital today, ready to report to the nation tomorrow night on his European mission.

He will make his television radio report from President Eisenhower's office. He will touch on the entry of West Germany into the Atlantic Alliance, talks with British and French leaders on Indochina, the signing of the Austrian peace treaty and, presumably, the pending top-level Big Four talks.

Eisenhower will introduce Dulles in the presence of ranking Cabinet colleagues.

Water Main Bursts

CHICAGO (AP)—A 6-inch water main burst and spilled a small flood which forced the overnight shutdown of U. S. Steel's giant South Side plant. Battalion Fire Chief Edward Johnson estimated the flood, which covered the grounds of the south Chicago work and several blocks of nearby residential areas, caused \$25,000 damage.

A NEWCOMER TO THE CARDINALS, Charles Francis (right), 19-year old pitcher-outfielder from Gibeland, La., bats over his contract with Jay M. Walter, business manager for Sanford Enterprises, Inc., operator of the local baseball club. Francis was formerly with the Hazlehurst, Ga. team. (Staff Photo)

Polio Vaccine Fund Of \$28 Million Set

WASHINGTON (AP)—The Eisenhower administration today proposed a \$28 million federal fund to help the states provide polio vaccines for children in low income families.

This was one of 11 recommendations submitted by Secretary of Welfare and Pensions to President Eisenhower. The White House said Eisenhower approved the report and endorsed the recommendations.

The aid-to-states program would become effective after the completion of the free immunization program now being conducted by the National Foundation for Infantile Paralysis.

The Foundation's program applies to children in the first and second grades.

The administration's proposed federal fund contemplates an immunization program for all Americans through the age of 10.

The administration also proposed an additional two million dollars for extra inspectors and technicians to insure maximum precautions in continued testing of the vaccine for safety and potency.

UNROMANTIC MOTORISTS HONK AT COUPLE
LONG BEACH, Calif. (AP)—Jess Blowers' girl said "Yes" when he proposed yesterday while driving. He jammed on the brakes and they went into a prolonged clinch at a major intersection while unromantic motorists honked and shouted.

Policeman Bland Watkins, when he heard Blowers' explanation for the traffic holdup, offered his congratulations—and a ticket for failing to observe traffic signals.

Hopes Are High For End Of Strike
ATLANTA (AP)—Both sides in the 23-day-old Southern Bell Telephone strike kept in touch with each other today through the Federal Mediation and Conciliation Service.

Meetings are subject to the mediator's call. The next are expected to be held tomorrow with both company and union expressing hope that an agreement may be in sight.

In a new statement, the company maintains that "proposals now before the union offer a fair and reasonable basis for a settlement."

Mayor Proclaims City Annual VFW Buddy Poppy Day

The second Buddy Poppy Day sponsored by the Veterans of Foreign Wars in Sanford will be held Saturday, May 28. Chairman of the committee is Michael Jandula while the Brownies and Ladies auxiliary to the VFW will lend their assistance.

Mayor J. D. Cordell has issued the following proclamation in conjunction with the sale:

WHEREAS, the Veterans of Foreign Wars have rendered meritorious service to their Flag and Country worthy of continued recognition by the people of this Nation; and

WHEREAS, the Veterans of Foreign Wars within this community have formed Post No. 3282, Sanford, Florida, and for the purposes of the V.F.W. are sponsoring the Buddy Poppy Day in this community on Saturday, May 28, 1955; and

WHEREAS, it is appropriate that the people of this community reaffirm in a tangible way their appreciation of services rendered by these Veterans;

NOW, THEREFORE, I, J. D. CORDELL, as Mayor, do hereby proclaim Saturday, May 28, 1955, as Veterans of Foreign Wars Buddy Poppy Day in the City of Sanford, Florida, and do urge upon the citizens of Sanford their assistance to this fine group.

IN WITNESS WHEREOF, I have signed these presents at Sanford, Seminole County, Florida, this 14th day of May, 1955.

J. D. Cordell
Mayor of the City of Sanford, Florida
