

DeLand Reds Take Second Game From The Lookouts

Locals Start Off With 2-Run Lead But Make No More

13 Men Used In Game In Vain Effort To Hault The Victors

Starting the game with a two-run lead yesterday as they did the day before—a contest with the same club, the Lookouts failed to connect in succeeding innings and lost to the Reds in DeLand by a 31 to 2 score. The Reds collected eight double plays, four of them by Holdstock.

Dave Swindell and Bill Cates scored Sanford's two counters in the first inning. Malby was the first batter up, and fanned. Stuffy McCrone was then given a base on balls but was out at second on the fielder's choice as Swindell made a play. Cates was hit by the pitcher and went to first and Swindell to second. Barnes then singled, Swindell scored, and in a fast double steal pulled by the locals Cates scored and Barnes went to second. On a passed ball Barnes tried to make third, but he turned his knee while sliding for the bag, rolled off the marker and was called out.

The Lookouts used two pitchers, Veale for five innings and then McCrone the balance of the game.

The Reds counted once in the second, rapped Veale for four hits in the fourth to score three times, and fell upon McCrone, who relieved Veale in the fifth, for five more hits and six runs in the seventh. A hit batsman, a triple, and long fly to center enabled the Reds to add two more in the eighth.

Jimmie Roberson, former DeLand third sacker, who played his first game Sunday with the Reds had a good day at field, making two putouts, five assists without a bobble, and was on the starting end of a double play. Buster Kinard, switched to left field, made two sensational catches of long foul fly balls.

Defeated Saints Go Into Tie With Azaleas And Reds

Each Team Rates 500 As Result Of Yesterday's Contest

Defeating the St. Augustine club, 6 to 2 yesterday, Palatka goes into a tie with the Ancient City and with DeLand for second place in the Florida State League. As each team has won 11 and lost 11 games this season, Palatka and Gainesville are tied at the top and Daytona Beach has a long lead hold on first place.

Yesterday's game between the Saints and the Azaleas was played in Palatka. Carl Weigs, youthful Eliton led, worked the route for the Saints and Jimmie, a sinker to seven hits, but five miscues by his mates and a like number of walks spelled victory for the home club.

A walk, two errors by McCrone, a double and Andraew's long fly to right gave the Azaleas a commanding three-run lead in the third stanza. Masie, with three doubles in four attempts, was the day's batting star.

Boxing Relations Of Yale-Harvard Broken

By The Associated Press.
 CAMBRIDGE, Mass., May 13.—Harvard severed boxing relations with Yale as a result of the dispute over the match on Mar. 17 at New Haven, which ended in a 4-to-1 tie.

This break-up, one of the few that has ever occurred in almost a half-century of Harvard-Yale rivalry, became known when the Crimston committee on the regulation of sports approved 1936-'37 varsity schedules in boxing, wrestling, soccer, tennis and fencing. Yale held its usual place on all except the boxing list.

The demand of Avery Brundage, president of the A. O. C., at its last meeting here Apr. 5 that all Olympic money collected be turned over to the treasurer, brought results, Kirby found.

"We are as well off as we were in 1932 and 1933 at this stage, and far better than in 1920," Kirby said. "If the tryouts in all sports met the estimated amounts, we will go over the top."

New Right Fielder Is Sent Lookouts By Scout Zim Beck

Zim Beck is sending a new right fielder to replace Charles Pope, Lakeland boy, who was signed on last Saturday and given his release last night. Hughes is the new man and Beck sends word that he is a first-class player, considered a timber for the Chattanooga Club.

Bob Sweeney, new pitcher who was with the New York-Pennsylvania League several years, arrived today and will be put into the game after he has had a rest of a day or two. Sweeney hung up quite a record when with the northern aggregation.

Manager McCrone planned to start Bob Oversstreet, former DeLand Red, on the mound in today's game on Sanford Field against the Daytona Beach Islanders. The Lookouts play the Islets in Daytona tomorrow but Stuffy said he would not know until today's game who he will pitch in that game.

Manager Scorned Johnson, Signs Son

DES MOINES, Iowa, May 12.—(AP)—Spencer Abbott, who passed up a chance as Topeka manager to sign Walter Johnson twenty-two years ago, got the signature of Walter Jr., on a Des Moines Western League contract.

"I refused to sign the young star's father, but I'm taking no chances of letting the boy slip through my fingers," the Des Moines manager said.

Islets Continue Winning Streak; Play Here Today

13-Hit Bombardment By Daytona Causes Downfall Of G-Men

Continuing their winning streak the Daytona Beach Islanders, playing on their home field, cut loose with a 13-hit bombardment Tuesday afternoon and handed the Gainesville G-Men a 7 to 2 defeat. It was the fifth straight defeat for the G-Men.

The Islanders come to Sanford today for a game with the Lookouts, tied with the G-Men at the bottom of the percentage ladder. In yesterday's game, Cornick struck out 11 men—tying the league record, which was for 10 innings—and walked only one. Shaw Buck of the G-Men knocked a homer in the ninth, Morton, with a triple, a double and a single in four times at bat, led the Daytona Beach attack. Cornick got three singles in four trips to the plate.

Old Age Pensions

After what has seemed to be an interminable delay to those old folks who have been dependent upon their relatives for support, the State Board of Social Welfare has announced that it is prepared to begin the payment of old age pensions in this state as soon as the County Commissioners of any county have adopted the necessary resolutions appropriating sufficient funds to match the contributions for this purpose by the federal government.

First to comply with this requirement was our friend and neighbor, Orange county, which has just notified Conrad Van Hyning, commissioner of the State Board of Social Welfare, that it is prepared to contribute \$1,540 every month to match a similar amount which will be donated by the federal government for the purpose of paying pensions to destitute persons who have reached 70 years of age. Quick to follow the lead of Orange county were Dixie, Gilchrist and Volusia counties. Mr. Van Hyning hopes that by the first of July most of the other counties will have taken similar action.

According to information furnished by the Board of Social Welfare, there are eighty persons in Seminole County who are eligible for pensions under the Social Security Act. Principal eligibility requirements are that they must be 70 years old and without other means of support. The Board has figured it out that this County will have to appropriate \$1,440 quarterly, or \$480 a month in order to meet the requirements of the Social Security Act. This would give each eligible person \$6 a month, which, added to the federal allotment, would make a total of \$12 a month.

A pension of \$12 a month for a person who has no other means of support is not much. It certainly should be regarded as an irreducible minimum. But it is better than nothing, and we dare say, it is better than living in the County Home, or at the mercy of one's relatives. Undoubtedly, it would be a welcome addition to the worldly goods of all those past 70. It might even save some unfortunate people from starving, or from other extreme suffering.

We do not know where Seminole County is going to raise \$5,760 annually, but of which to pay these pensions. But it ought to be done somehow. Either this appropriation should be transferred from other funds, or from unexpended portions of the general revenue fund, or a special appropriation will have to be made for it, and special taxes levied. The matter is far too important to be neglected. Not only is it necessary to meet the requirements of the Social Security Act for the benefit of the old folks, but it must also be done in order to get our share of the pension funds from the federal government.

In this connection it must be remembered that Sanford business firms are already subject to payroll taxes out of which the federal government's share of old age pensions are being paid, and these taxes have to be paid by these local firms whether old age pensions are paid in this county or not. It would be the height of folly to think of paying federal taxes for old age pensions, and then not have any old age pensions here because our county failed to meet the necessary requirements.

Immediate steps ought to be taken to commence the payment of old age pensions in this county.

Campaign Costs

How much does it cost to run for governor? It should not be difficult to find out as a state law requires each candidate to file a complete copy of his expense account. And yet, reliable estimates vary all the way from \$15,000 to \$50,000. And the expense accounts published in all the newspapers invariably show something less than the \$15,000 limit allowed by law.

"Although most newspapers put it on the front page with the news," says the Miami Herald, "the Tallahassee report of expenses of state candidates really belongs back with the fiction. The reporting of campaign expenditures biennially is looked upon by candidates themselves as a good joke on the public, and this year is no exception."

"We have men seeking the highest office in the state, swearing to amounts spent on their campaigns that would just about cover comfortably their actual traveling expenses on the road. This makes no allowance for costly radio hook-ups, newspaper advertisements, printing, headquarters, publicity men, handouts to friends and workers, payment of poll taxes, payment of fees for speaking, the payment of qualifying fees and countless other items that arise to plague a candidate."

"At this rate, most of them will report well under the \$15,000 allowed by law. It was Rivers Buford of the State Supreme Court, a man who has spent a lifetime in Florida campaigning, who declared publicly not so long ago, that the average campaign for governor costs \$60,000. We know, of course, that some campaigns in the past few years have required the outlay of a great deal more money than that. Not a few in the present race will get by on much less. But the average holds fairly true."

"If every successful candidate reported truthfully on the money spent for his campaign, the public would soon get a new idea of the cost of politics. Unfortunately, there seems to be no way to require such an accounting. In lieu thereof the citizens are treated periodically to the reports of expenses which the candidates cannot vary well conceal, and with that the public must be content."

"In the ideal state of the future the public won't care how much a candidate spends, because by that time the public will pay its officials enough to remove them from the temptations to which too often our impoverished office seekers are susceptible."

In this connection one is moved to wonder why any one would be willing to spend \$60,000 in order to get himself elected to a job which pays \$2,000 a year.

Reflections On Florida Politics As Gained From Review Of State Papers

The wheel of political fortune in Florida continues to go round and round, and where she will stop, as the Major says, "Nobody knows."

Prognostications, wild guesses and wilder rumors are everywhere, but few of them have even a semblance of authenticity, as they come for the most part from the camp of various candidates from campaign workers, paid propaganda agencies and the candidates themselves.

Political writers, whose opinions are requested and who in the past have analyzed the trend with sufficient accuracy to earn a reputation for political prognostication and wisdom, show little desire to make a definite prediction and those who have none so far as such matters are concerned, usually qualify their comments with a word of caution and point out that the picture is constantly changing and anything can happen.

Only one gubernatorial candidate has so far shown sufficient strength to cause political cynics to single him out as practically certain of a place in the second primary and the opinion seems to have concurred from the public, the press in general and even opposing candidates.

During the past week such able editors as Ken Ballinger of the Miami Herald, Carl Hanton of the Fort Myers News Press, Howard Hartley of the Miami Tribune and a score of lesser lights, have indicated their belief that Senator William C. Hodges is the leading candidate, yet none is supporting him and their judgment is based on the ability of the old veteran to draw large audiences, hold their undivided attention because of his brilliant and masterful oratorical proclivities, and leave in his wake a horde of "believers" and enthusiastic supporters.

All agree that as an orator, the senator is in class by himself. No other candidate has been able to achieve such mastery of words or to leave an audience more satisfied.

So it appears we are relatively safe in chalking up the name of Hodges as one of the few candidates who will fight it out in the second primary. There are some who will vigorously contest this point of view, but if you search for a reason you will usually find it is because they are paid workers of an opposing candidate, have direct personal interest, and wish to like the proverbial ostrich, their lot cast with one contender, they have buried their heads in the sand and refuse to see.

Of thirteen remaining candidates for the office of chief executive, only one can oppose Hodges in the run-off and who that one will be, no cautious observer will risk a definite prediction.

That several are bunched behind Hodges for second place is evident, but so evenly are they running that any statement on might venture would be difficult to prove.

Those generally conceded to have the best chance of winning a place in the run-off are: Cosey Pettway, Paly, Chappell and Carter, with opinions widely divided.

Of these five Carter has been drawing the largest crowds which he holds and entertains more as a comedian than as a serious minded statesman seeking an opportunity to serve the people of a sovereign state by solving their various problems in

accordance to his own ideas, the slick administration favorite. His eloquence, however, on the part of the voters have not been effective so far in commencing the election. He is, however, a good record.

Contrasted with the style of other candidates, Carter keeps his audience in a constant uproar with his snappy and funny stories. Constructive, serious thought on the problems of government and pushed into the background by the jovial Jerry who offers, in their place, a more or less glowing prospect and a merry jargon which at least leaves his audience reeling in confusion.

Lack of common sense in the affairs of state on the part of a large percentage of the people, and the inclination to "hog" rather than "egg" over the problems of life on the part of those of us, his fair to give Carter a steady vote. One paper comments: "They turn out to hear him, they are amazed, but nobody takes him seriously" to which we might add, the number of people, unfortunately, who do not take government seriously is too large to be discounted and that type of voter has been known to elect many high officials.

While several candidates, in spite of their efforts to cast off the shackles, are being branded administration favorites, Carter finds himself burdened not only with alleged administration leanings but the mantle of John W. Martin as well. This will not help him and in some sections will be difficult to overcome. Carter talks in a rampant, but comes primarily from his own campaign workers, a goodly number of whom it appears are "instructed" to travel the highways and byways shouting "Carter, Carter" while opponents firmly insist there is no Carter.

Judge Blalock W. Pettway is generally conceded to be a strong contender for a place in the second primary. Solemn, serious, with a bulldog jaw and tenacious spirit, this candidate is plugging away, pinning his faith on a reputation for honesty and a strong church and fraternal following.

That he is considered a snail by the reckoned with is shown by the amount of fire he is drawing from the opposition who are determined to see him with the

slip of administration favorite. His eloquence, however, on the part of the voters have not been effective so far in commencing the election. He is, however, a good record.

It usually occurs that voters who have gone all the way with a defeated candidate, feel that they should have a new one set at all but elected to follow his lead in another direction. They will be more likely to cast their lot with the man who is in their own shoes than with the best qualified and likeliest to win.

Campaign promises, inflated tax appropriations, tax reductions, old age pensions, a more liberal homestead exemption, right economy in government operation, abolishment of boards and commissions, honest elections, repeal of the slot machine law, protection of home industries and home merchandise, removal of all ad valorem taxes and opposition to a sales tax, Cheaper automobile tax and lower tax is advocated by several candidates.

Local Music Lovers Attend WPA Concert

A group of Sanford music lovers who attended the W. P. A. concert in Orlando last evening, came away more delighted than ever over the prospect of Sanford's first symphony orchestra concert to be given Monday evening at 8 o'clock in the auditorium of the Seminole High School.

Under the direction of Dr. Clarence Carter Nice, a program was given in a manner to make one wonder how such perfection could be realized from a group rather recently assembled in this federal music project of the W. P. A. It was evident that the personnel was made up of musicians well equipped and earnest, and the joyousness manifested in their own performance was shared by a most appreciative audience—an audience that had no hesitation about indicating the numbers they liked best.

The program is as follows:—Vorspell "Lohengrin"—Wagner. Symphony No. 4 in F Minor—Tchaikowsky. Andante Sostenuto, Andantino in minor canon, Scherzo; pizzicato ostinato, Allegro con fuoco. Intermission. Indian Tone Picture—F. Pierce Drohan. Perpetuum Mobile—Job. Strauss. The Last Spring (for strings a one)—Grig. Russian Sailor's Dance from "The Red Poppy"—Gillere. The second and third movements of the Tchaikowsky Symphony, were especially favored with applause, and part two of the program, the Indian Tone Picture by Pierce Drohan of Jacksonville was the favorite.

Flip Of A Dime Elect Party Committeema

Mr. Drohan played one of violas in the orchestra and at close of the number was introduced to the audience, and received most enthusiastically.

The concert in Sanford is under the special auspices of P. T. A. of the Seminole High School supported by the Chamber of Commerce and the service clubs of the city. It is entirely for the public.

Vacation Trips Are Offered By Clyde-Mallory

Offering the vacationist a holiday in New York and the surrounding historic country at minimum cost, the Clyde-Mallory Lines has announced reduced rates on all services, emphasizing the 60-day round trip excursion rate, which includes not only transportation but meals and stateroom accommodations at sea. Fast, luxurious service, available at frequent intervals, from Jacksonville, makes it possible to holiday in the metropolis with stopover privileges more than ample to visit the night clubs, the skyscrapers and busy commercial centers, the museums and great movie houses, with the additional pleasure of a sea voyage beginning and ending the vacation.

Summer fares provide numerous shipboard entertainments and amusements, enroute, with night dancing and the full facilities of an ocean cruise, such as talks, radio and an excellent cuisine and service. Special transportation for automobiles is also available for vacationists who wish to motor to Long Island and its many beaches; Westchester, the Berkshires, up the beautiful Hudson River—one of the scenic wonders of the United States or to the Adirondacks. Automobiles are carried for passengers at very low rates. New York's great diversity of amusements and points of interest, not only within the city, but throughout the surrounding countryside, establishes it as an outstanding summer resort. Niagara Falls, Cape Island, Brantford, hundreds of little out-of-the-way restaurants with a foreign flavor, galleries, and of course the Fifth Avenue, and of course the Fifth Avenue City, all contribute to the variety and completeness of a metropolitan vacation.

Goose-Eggs Only 2 To 1 Is Score For G-Men When Of Game Between They Meet Saints

GAINESVILLE, May 14.—Taking advantage of four Gainesville errors, the St. Augustine Saints defeated the G-Men, 3-0, here yesterday afternoon. None of the runs scored by the Saints were earned.

Through this loss the Gainesville team set a new league record with a total of six consecutive losses, breaking their old record of five which they set in the first five playing days of the Florida State loop.

The Saints scored two runs in the third inning as the result of two errors and a wild pitch. Their final run came in the ninth as Schneider sent Langston, who had made first on an error, across the plate with a single to left.

DeLan allowed the G-Men to knock but five balls out of the infield. Pitching three-hit ball up until the eighth inning, Davis was touched for three hits in the most scratchy of scratch hits when the Gainesville team filled the bases with none out. He then bore down to set the G-men down without a run scoring.

Schneider, a leading pitcher of the Saints, patrolled left field, and was the leading hitter of the contest with three safeties in four appearances at the plate. St. Augustine..... 002 000 001-3, Gainesville..... 000 000 000-0.

Three Teams Tied For First Place In Lions League

Pirates Defeat Seminoles 11 To 8 In Wednesday's Game

Billy Branan's Seminoles were defeated by the Pirates Wednesday afternoon, and the Seminoles, Pirates and Yankees are now tied for first place. The Seminoles seemed to be invincible during the first month of the season, but of late the other two clubs gradually crept up on them.

Branan pitched for his job again yesterday and struck out 13 Pirates, but team support was not the best and the Pirates won, 11 to 8. Glenn Cochran was the winning pitcher. Jack Withers caught for the Seminoles and Roland Floyd caught for the Pirates.

The Red Sox and the Giants play at 8 o'clock this afternoon, and the Lions League season will end Friday afternoon when the Pirates play the Cubs.

Pitcher Refused By Club Because Of His Lame Arm

McNally's Return To Lookouts May Not Be Insisted Upon

Buddy Lake, pitcher, has been released back to the Albany, N. Y. club of the International League. He was bought by the Sanford Baseball Association on Apr. 17, the association agreeing to pay \$200 and to give First baseman McNally in return. McNally was given his release, but no money actually has been paid for Lake. Director Jimmy Wright said today...

Lake made a fine record as a pitcher over a period of several years, starting with his high school days in Sanford, but something has gone wrong with his arm. After several starts with the Lookouts this season he was benched for a week while taking daily treatments for the lame wing, but those treatments failed to put the pitching arm back into condition, hence the release.

Director Wright said that when the trade was made for Lake the directors naturally assumed that the pitcher's arm was O. K. The pitcher himself was not on the active lineup with the Albany Club and was not aware that his arm would not hold out through a game. The president of the Albany Club is insisting that the purchase price for Lake be paid, but Director Wright declared today that the money will not be paid, though the association may not insist up the return of McNally.

Critically Injured Unidentified Man Taken To Hospital

Found On DeLand Highway; Recovery Believed Doubtful

Believed by officers to have either been slugged and thrown out of a car, or to have been knocked down by a hit-and-run motorist, an unidentified young man was taken to the Fernald-Laughton-Memorial Hospital last night in a critical condition. His skull was fractured and he was injured internally. His recovery is considered doubtful.

Two truck drivers, saw the body by the side of the highway, and stopped and flagged a motorist who took the injured man to the hospital. Constable W. A. McMullen was notified and he immediately started an investigation, but has been unable to find any clue either to the man's identity or to how he was injured. The constable said that blood on the highway, about four miles north of the Monroe bridge on the road to DeLand, had not congealed when he arrived at the spot, indicating he believes that the man was thrown out of a car or was hit by a motorist only a few moments before he was discovered.

The truck drivers who made the discovery were J. D. Crumby and Dewey Denham, both from Davenport, and the injured man was taken to the hospital by W. E. Sullivan of 1422 Franklin Street, Tampa.

The injured man appears to be about 22 years of age, about 6 feet in height, weight about 150 pounds. He was fairly well dressed but there were no marks of identification on his clothing and there were no papers in his pockets. The only articles found in his clothes were a picture of himself and a girl, 40 cents in change, a sack of tobacco and a box of matches.

Constable McMullen notified the Volusia county sheriff, as the man was found in Volusia county.

Announcement of the Hendricks endorsement was made in the morning press. It was stated that the club would soon name its candidate for governor.

Judge Sharon has spoken in every part of the district in favor of the Townsman Plan of pensions for the aged, but he broke with the national leaders and denounced them and their methods when the recent congressional inquiry disclosed they were "milking" the organization for personal aggrandizement.

Ritter Will Not Vacate Office In Federal Building

Ousted Judge Defies Custodian In Miami To Make Him Leave

MIAMI, May 15.—(AP)—Halsted L. Ritter, ousted federal district judge, occupied the judicial suite in the postoffice here today in defiance of the building's custodian. The Daily News said it learned the next step probably will be the changing of locks on the office doors, although federal officials were close-mouthed on this subject. Ritter, who claims his removal by the Senate last month on impeachment charges was "unconstitutional," had been asked to vacate the suite by Postmaster William G. Hill as custodian.

The former judge said he would institute proceedings before the Federal Court of Claims for his salary, in this manner attacking legality of the Senate's action. He said he would continue to occupy the federal building suite here so as to have no break in his service record.

The Senate, which has removed four federal judges in 13 impeachment trials, convicted Ritter of misconduct charges and of bringing his court "into scandal and disrepute." At that time it was said no appeal was possible.

Following his conviction Apr. 18, Ritter called his removal "unfair and unjust" and in a written statement intimated it might have resulted from his being a Republican. He was appointed to the bench in 1929 by President Coolidge.

Public Works Program Will Be Curtailed

President Says That Projects Will Be Continued, But On A Smaller Scale

WASHINGTON, May 15.—(AP)—President Roosevelt said today the Public Works and Reclamation Administration will be continued on a somewhat smaller scale under the pending \$1,425,000,000 work relief appropriation. Responding to questions at his press conference, the President said that certain municipal projects which would have been carried out by Secretary Ickes' PWA in the past would qualify under the new relief bill. Harry L. Hopkins' PWA would furnish 45 percent of the funds to pay for labor, he said, while 55 percent of the loan would come out of PWA's revolving fund.

The President emphasized that such municipal projects as mentioned must conform to the requirement that workers be taken from relief rolls.
