

Reagan Urged To Veto Any Proposal Except His Own

Tax Committee May Opt For Plan Favoring Poor

WASHINGTON (UPI) — The chairman of the House tax-writing committee says it is unlikely his panel will approve President Reagan's proposed tax cut, opting instead for one slanted more in favor of poor and middle-income Americans.

Rep. Dan Rostenkowski, D-Ill., told reporters Wednesday the atmosphere in his House Ways and Means committee favors "not so much a Kemp-Roth as a consensus (tax cut) bill."

Reagan's proposed across-the-board tax cut, which would slash taxes by 10 percent in each of the next three years, embraces the Kemp-Roth bill, named for its sponsors, Rep. Jack Kemp, R-N.Y., and Sen. William Roth, R-Del.

Critics have complained the reductions would primarily benefit the wealthy and have little impact in helping the poor

or even middle-income persons. They also have questioned Reagan's premise that such a massive reduction will have the effect of stimulating the economy.

In the Republican-controlled Senate, 20 members have urged Reagan to veto any tax package except his own.

"We urge you to promise now to veto any tax bill which does not reflect your individual tax rate reduction plan," they wrote in a letter to the president.

Rostenkowski said he would like to get a vote on Kemp-Roth in a committee to "get it out of the way," then get down to work on a tax cut both sides could support.

He speculated the panel ultimately will write a one-year tax bill with moderate rate reductions in individual income tax

rates, weighted in favor of low-and middle-income taxpayers. He also said "we'd be fools" if the tax bill did not include a correction in the "marriage penalty," which taxes two income families at a higher rate than single people of similar incomes.

Rostenkowski said once Reagan's tax cut is voted down — a likely possibility in a committee controlled 23-12 by Democrats — both parties could participate in writing a bill they could support on the floor.

But Rep. Barber Conable of New York, the ranking Republican on his tax-writing committee, said despite several strategy sessions with Rostenkowski, "nothing has come out" of the meetings.

Conable said he is "not ready to discuss alternatives" to

Kemp-Roth, nor will he promise not to introduce it as a substitute on the House floor if the Ways and Means Committee decides to draft a different bill.

Conable was to meet with President Reagan today on the tax cut issue.

During a hastily called news conference in reaction to Rostenkowski's statement Wednesday, Treasury Secretary Donald Regan said the chairman's remarks were "most unfortunate," particularly because the committee has not yet completed hearings on the tax cut proposal.

"The tax rate cuts of 10 percent a year for three years are essential to the effectiveness of the total economic program," Regan said.

BOULEVARD RESURFACING

Motorists who travel Lake Mary Boulevard may want to take another route for the next two to three months. That's how long it will take to complete a major resurfacing and widening, in some areas, of the boulevard from U.S. 17-92 to the Interstate-1 interchange. Above, county road crews and equipment tear up the existing road surface about one mile west of 17-92 while diverting traffic into a one-lane route near construction.

All of Lake Mary Boulevard will be resurfaced except for a section from County Road 15A to Longwood-Lake Mary Road. County Engineer Bill Bush said the project calls for widening a couple of sections from 22 feet wide to the standard 24 feet; widening the approach lanes at U.S. 17-92 and widening and restriping Lake Emma Road to provide a westbound by-pass lane to get around vehicles turning left.

Auditor Vs. Sims Over School Funds

The Seminole County public school administration and former-School Board member Dave Sims are at a stand-off in a dispute over whether Sims owes the system \$246.92.

Sims, who served on the board for 5½ years before his resignation on April 15, was reported to owe the School Board \$246.92 in a state audit report for the fiscal years ending June 30, 1979 and June 30, 1980.

The report says Sims resigned ef-

fective April 15, 1978, but was paid for the entire month, resulting in an overpayment.

Assistant Superintendent for Business and Finance Roger Harris said today when the auditor brought the matter to his attention some weeks ago, he rechecked county records and found the overpayment was made.

Sims responded to a variety of questions today with, "I was not overpaid." He refused to elaborate.

Harris said the county contacted Sims on three separate occasions to collect the overpayment. He said that Sims insisted he does not owe the money and will not pay it.

The audit pointed out that the School Board, in the 19-90 fiscal year, had to return to Seminole County part of the money it used for CETA (Comprehensive Employment Training Act) employees.

The Seminole County Commission in an audit, questioned the school board's

use of some \$31,838.08 in CETA funds it has allocated to the board from 1976 to 1978 and required repayment of \$8,818.46.

The auditor reported that an audit by the county of the administration of the money by the school board showed "such discrepancies as incomplete information to determine eligibility, failure to follow specific regulations, workers' compensation rate errors, time sheet and applications errors and wages for ineligible persons." —DONNA ESTES

Woman Off Death Row

TALLAHASSEE, Fla. (UPI) — The Florida Supreme Court today reversed the death sentence imposed on Sonia Jacobs, the only woman among the 155 persons awaiting execution in Florida.

In a 5-2 decision, the high court decided that the trial judge in Miss Jacobs' case did not have sufficient reason to override a jury's recommendation that she be sentenced to life.

Miss Jacobs and two accomplices killed Phillip Black, a Florida Highway patrolman, and Donald Irwin, a visiting Canadian constable, in 1976 at a rest stop on I-95 in Broward County.

The 33-year-old mother of two currently is being held at the Broward Correctional Facility.

The court's majority in an unsigned opinion said Broward County Circuit Judge M. Daniel Futch Jr. erred when he concluded mitigating circumstances not specifically outlined in Florida statutes should not be

considered when pronouncing sentence.

As a result, he failed to take into account that Miss Jacobs had two children to care for and protect, that her role in the shootings was "mostly passive," that she was under the influence of her lover, the majority said.

The jurors who recommended life imprisonment "may have felt that her actions were what she perceived to be a necessary measure to protect her family," the majority said.

Although split on the sentencing issues, the justices were unanimous in upholding Miss Jacobs' convictions.

She and her children were in a car parked at the rest stop with her lover, Jessie Tafero, and another man, William Rhodes. The trooper, accompanied by the Canadian officer, stopped to check the vehicle. After learning Rhodes was an escaped felon, the two officers were gunned down.

No Surprises For Seminole In DOT 5-Year Road Plans

By DONNA ESTES
Herald Staff Writer

There were no surprises for Seminole County officials Wednesday at the state Department of Transportation (DOT) hearing in DeLand on its five-year road program.

The hearing was held for DOT District 5, made up of 12 Central Florida counties including Seminole.

County Public Works Director Jack Schuder said the state road projects scheduled for the county during the period are:

— Construction of the State Road 46 over-pass at the railroad tracks to be constructed at a cost of \$3.8 million. Construction, financed with federal money, but handled by the state, is to begin in late summer or early fall.

— Construction in the 1981-82 fiscal year of the widening of State Road 436 from Douglas Avenue-Wynmore Road to Boston Avenue, east of Palm Springs Road. Traffic signals are also to be replaced through this section.

Construction cost is estimated at \$3.2 million. Schuder said the 436 improvements will probably not be started until the later part of the 1981-82 fiscal year ending Sept. 30, 1982.

— Four-laning of State Road 431 from SR 434 to Orange County has been delayed from the 1986-87 fiscal year to 1988-89.

Schuder said he, county Commissioners Robert Sturm and Robert Feather and others made a pitch for two additional areas:

— Work on Tuskawilla Road and State

Road 419. "We urged the state to acquire the necessary additional right-of-way and work 419 from at least 434 to Tuskawilla. There are no plans to do all of 419 to Oviedo," Schuder said.

— Work on intersection improvement at SR 436 and Hed Bug Road and Winter Park Drive. Schuder said the improvement needed here is a "fly-over."

That has not been funded, Schuder said. But the intersection is being studied by consultants as are all the intersections on 436 from U.S. 17-92 south and east.

Schuder said there may be a source of federal money for the project to resurface county roads classified as urban arterials. "We have to look further into that possibility."

"There were no surprises for us at the hearing," Schuder said.

Panic Food-Buying Sweeps Poland; Talks Postponed

WARSAW, Poland (UPI) — Panic buying of scarce foodstuffs swept Poland today, but Solidarity union leaders held out hopes the union-government talks could avert at least one of two nationwide strikes threatened by the union.

Deputy Prime Minister Mieczyslaw Rakowski warned Solidarity Wednesday that its "holy war" strike calls were risking Soviet intervention.

But the talks have been postponed until Friday, the government official spokesman said today.

The talks between a union committee headed by Solidarity chairman Lech Walesa and a government delegation led by Rakowski were to resume sometime

after 5 p.m. (11 a.m. EST). The talks adjourned overnight after 90 minutes of negotiations on Wednesday.

Solidarity's 10 million members will strike for four hours Friday if the union demands, including firing of those responsible for the beating of union members in Bydgoszcz, are not met. The union will stage a general strike starting Tuesday if no further progress is reported.

Such walkouts would be the first nationwide strikes and the largest ever in the East Bloc.

"We still have time to avoid the second strike," Walesa said in a front-page interview in the newspaper Zycie

Waszawy. "Even if we reach agreement at the last moment, I will call it off on television."

"We are aware of the present situation of economic losses suffered by Poland, which could become even greater," he said.

Polish radio quoted an economic report Wednesday night indicating the nation's food supply could run out in 12 days.

Long lines formed outside shops early this morning as Poles eagerly sought to stock up on scarce goods.

"We have only received onequarter of our normal consignment of foodstuffs for sale," a Warsaw grocer said.

buying, but sources on the Baltic coast denied the television report that the provincial governor there had ordered the rationing of "nearly everything."

Solidarity has voted to call the strikes unless the government conducts an investigation of police beatings of Solidarity members in Bydgoszcz last Thursday and dismisses the officials responsible for the attack.

Other demands call for an amnesty of political prisoners and recognition of a rural farmers' union — which the government has vowed it will never do.

The Polish media carried Solidarity's demands, but the radio underscored the nation's economic crisis by reporting

that food supplies may run out "within 12 days." There were reports of panic buying before - the late-night announcement.

At the same time, a government shakeup appeared near, forecast by the Polish news agency PAP's announcement Wednesday that the Communist Party Central Committee will meet Sunday, one day before a session of the nation's parliament.

Little progress was made in the government-union talks, and Solidarity leader Lech Walesa charged that the government used the meeting as a forum to read the union the riot act.

Aftershocks Ripple

Haig Smooths Power Clash

WASHINGTON (UPI) — Secretary of State Alexander Haig, who reportedly has threatened to resign numerous times in a power clash with President Reagan's closest advisers, said today that struggle must be forgotten so America's foreign policy can be forged.

The embattled Haig, described as "madder than hell" for losing to Vice President George Bush the leadership of a "crisis management" team, brushed aside controversy by saying foreign policy differences are a matter of form, not substance.

Reagan gave Haig a boost Wednesday by declaring him the "primary adviser on foreign affairs," but the aftershocks of the administration's first public quarrel would not abate.

Quoting a presidential adviser, The New York Times reported today Haig had threatened to resign eight or nine times in the first two months of the administration.

Further, the Times said, if Haig actually had threatened resignation again this week over the crisis team incident, senior Reagan advisers Edwin Meese and James Baker might not have opposed acceptance.

A State Department source told UPI Haig was "madder than hell — furious" over his setback this week, and CBS reported Haig pounded the desktop in uncontrolled rage upon learning Bush had won the coveted plan.

But Haig, testifying before a Senate subcommittee today, was cool and collected — and dismissed differences between himself and the White House. He declared it time to lay aside the controversy and proceed with "the formulation of American foreign policy."

"It is important that we all recognize

the substance of American foreign policy and that sometimes the form, organization and structure affects that substance," Haig said.

"With respect to the so-called 'crisis management' issue, that form has been established and it is time to go on with the substance."

Haig said "I have always agreed with the president on the substance of American foreign policy and that is why I think he selected me."

And Haig, whom many believe got his job because of his hard-line stance on the Soviet Union, called the growth of Russian military power the world's most dangerous trend.

But the power struggle controversy swirled.

Haig, a career soldier whose government experience was forged in the crucible of the Vietnam War under Henry Kissinger and Watergate under Richard Nixon, reportedly threatened to resign the first week when White House insiders blocked his effort to delineate foreign policy authority.

Reagan told reporters Wednesday Haig did not actually threaten to resign over the incident.

But the Washington Post quoted White House officials as saying Haig did speak of resignation and also left the impression at the State Department before a 9:15 a.m. meeting Wednesday.

Even after Reagan's effort to defuse the explosive situation, State Department officials told UPI that Haig — by staying out of sight Wednesday — failed to shoulder his setback "like a good soldier."

Anti House Speaker Thomas O'Neill said Haig's wings had been clipped by the week's events.

Conception Exception

TULSA, Okla. (UPI) — U.S. District Judge Thomas R. Brett, addressing the Tulsa Federal Bar Association Tuesday, said he was questioning jurors about their availability for a week-long trial.

One young man told him he could not serve on Thursday because his wife was going to conceive a baby. "Don't you mean deliver a baby?" Brett asked.

"No, she's going to conceive a baby," the man said firmly.

Brett excused the man from jury duty, telling him, "I don't know what you mean, but in any event I think you ought to be there."

WORLD IN BRIEF

Another Former British Spy Suspected As Soviet Agent

LONDON (UPI)—The Daily Mail named another former British intelligence officer as a suspected Soviet double agent today in the latest of a flurry of allegations of KGB infiltration of the highest levels of the British government.

The newspaper said Charles Howard Ellis, who worked for Britain's secret service from 1924 to 1953, confessed to spying for Germany before World War II and was believed to have spied for the Soviet Union after the war.

The newspaper's latest disclosure came as Prime Minister Margaret Thatcher was expected to appear before parliament later today to respond to charges earlier this week by the Daily Mail that the former head of British intelligence, Sir Roger Hollis, was a possible KGB agent.

The Times of London, citing highly placed intelligence and political sources, reported today Mrs. Thatcher has been told that Hollis, director-general of MI6 from 1956 to 1965, was cleared by investigations in the 1960s and early 1970s into Soviet penetration of the British security services.

The evidence against Hollis, never disclosed publicly by the government, was reported to have been circumstantial.

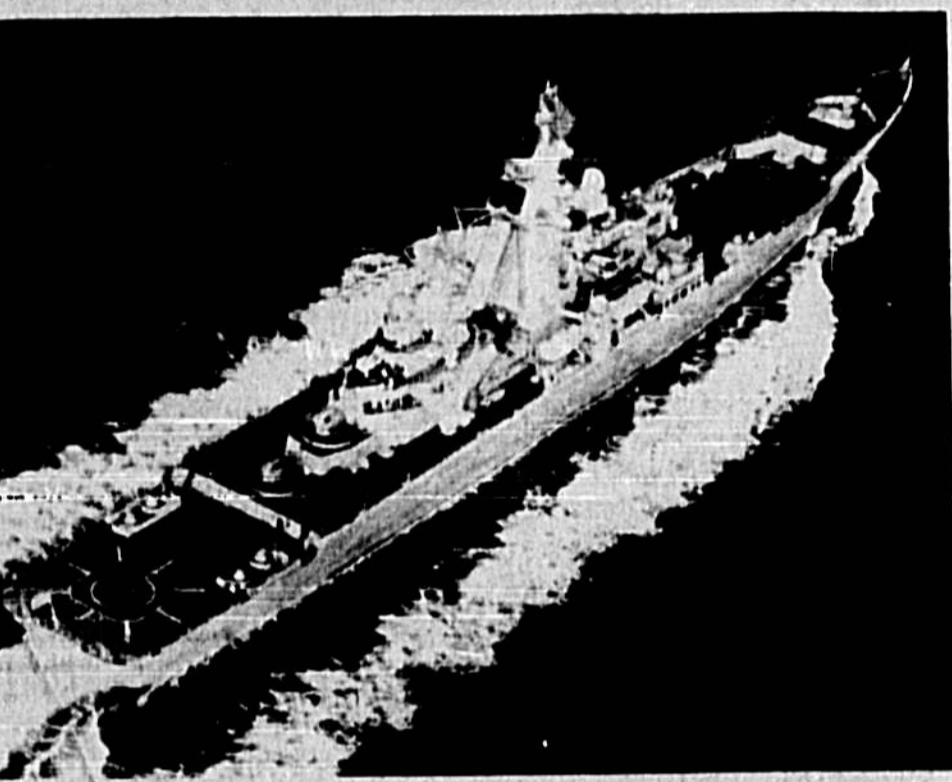

Abundant Energy Predicted

LAXENBURG, Austria (UPI)—In the most optimistic major study of recent years, scientists from the East and West predict rising oil production for another 30 years and U.S. self-sufficiency in the year 2010.

The seven years of research by more than 140 scientists from 20 nations painted a much brighter picture than past gloomy scenarios that predicted oil production peaking in the 1980s and the world starting to run short of energy and natural resources.

BATTLE CRUISER IS THE BIGGEST

The new Soviet battle cruiser is the largest warship, apart from aircraft carriers, to be built by any country in more than 30 years. The 32,000-ton cruiser shown here runs trials in the Baltic and is equipped with SS-N6 and SS-N3 missiles and with 30 millimeter guns for rapid fire. The ship is more than 810 feet long and 88 feet in the beam.

For Longwood Commissioners

Growth Prompts District Shuffling

By JANE CASELBERY Herald Staff Writer

Population shifts in the city of Longwood since the last redistricting two years ago have necessitated geographic realignment of the city's five commission districts.

The city commission has tentatively approved an ordinance incorporating changes recommended by City Administrator David Chacey. The matter now goes to public hearing on April 20 and final approval.

The equalization is based on the number of homes in each district. The fastest growing district in the past two years has been District 1 represented by Commissioners Sen Ustert II, who has grown from 610 homes to 807, Chacey said. He predicted much of the city's residential growth in the next six months will also be in this district.

To bring it in line with other districts, one-half of the homes in the Shadow Hill subdivision were taken away and given to District 5 represented by Commissioner Timothy O'Leary.

The proposed realignment leaves District 1 with 665 homes.

They are located within the area of the city lying east of Range Line Road extended from the northern city limits to the southern city limits and including the north half of Shadow Hill, then bordered on the east from the northwest corner of Baywood Industrial Park extended south to the intersection of Church Street and State Road 427, then west to West Lake Street, and south to West Lake to the southern city limits.

District 2 represented by Commissioner June Lormann was second in the amount of growth experienced going from 610 homes

to 708, much of which was due to the Columbus Harbour subdivision. To compensate, 10 residences on Church Street were taken away, leaving District 1 with a realigned total of 665.

District 2 includes that area lying south of Church Street extended to the southern city limits and from the intersection of Church and West Lake to the intersection of Church and Lake View Drive, then south to State Road 434, east to Highway 17-92, south on 17-92 to the city limits then west on Dog Track Road and west to Seaboard Coast Line Railroad to the point of beginning. The area also includes the Sanford Orlando Kennel Club.

District 3 represented by Commissioner J. Russell Grant grew from 600 homes to 641 and will be realigned to have 690. Its new geographic boundaries will be: that

area from the northwest corner of Entzinger's Subdivision then east to the railroad, south to the intersection of Grant Street and Seminole Avenue then north to the intersection of Land Avenue and Wayman and east to the intersection of Highland Street and Land then south to the intersection of Land Avenue and Wayman Street, east to the intersection of Land Avenue and Highland Street, then south to the intersection of Florida Avenue and Highland and east to the city limits.

District 5 showed the least growth increasing over the past two years from 585 to 597 homes. Under the proposed realignment it will receive 685.

It includes that area lying west of Range Line Road extended from the northern city limits to the southern city limits and including the south half of Shadow Hill.

needed, what kind of equipment must they have, where to house both men and equipment, how much it would all cost, and who would pay for it.

Rozansky said preliminary information indicates that "we'll need seven, maybe eight, paramedics, two vehicles and some equipment, and we'll house them in the fire stations."

Price tag for the project is estimated at \$150,000-\$180,000 for the first year. Rozansky said much of that could probably be paid with state or federal grant money with the remainder possibly necessitating some sort of tax increase.

—BRITT SMITH

Lake Mary Council Meeting Slated

Lake Mary city councilmen will try and clear up quite a bit of old business at their meeting tonight, resumption of the 1,600-acre proposed Heathrow development, awarding an exclusive cable television franchise, and possible purchase of the old chamber of commerce building for use as a new city hall.

The city has been trying to annex

Heathrow since July 1977, but has been stymied by adverse court rulings and opposition from the Jeno Paulucci family, major Heathrow landowners.

Even if councilmen give final approval to the rezoning ordinance, the matter will still be up in the air. The Pauluccis have said they will fight rezoning, as has the county which contends the move would create enclaves — pockets of county land surrounded by city property — in violation of state law.

The council also is expected to grant Sanlando-Storer Cablevision Inc. of Altamonte Springs an exclusive 10-year franchise for service in the city.

The council will meet at 7:30 p.m. in city hall, 185 E. Crystal Lake Ave.

Altamonte Approves Site Plan For Major Office Complex

The site plan for a 600,000 square foot office complex on North Lake Boulevard behind the Interstate Mall was unanimously approved Wednesday night by the Altamonte Springs planning board.

The project, called North Lake Center, will be developed by Trammel Crow, a major builder in Dallas. The 74-acre site, to be built in four phases, is zoned for planned unit development (PUD).

The first phase of the project is to include a service center-office warehouse structure of 400,000 square feet, one-story office building of 80,000 square feet, a two-story office building of 22,000 square feet, and a research center of 84,000 square feet.

AREA DEATHS

MRS. JOSIE SCHUMACHER, 89, of 811 W. Club Boulevard, the Forest, Lake Mary, died Wednesday at Florida Hospital-Altamonte.

She was a homemaker.

She is survived by her daughter-in-law, Mrs. Eva Schumacher, with whom she lived, one grandson, Doug Schumacher, of Ocala, Wash., and several nieces and nephews.

Funeral service and burial will be in Yakima, Wash. Gramkow-Gaines Funeral Home, Longwood is in charge of local arrangements.

ZINN BECK

Funeral services for Mr. Zinn Beck, 95, of 1803 S. Sanford Ave., who died March 19 in West Palm Beach, will be at 10 a.m. Friday at the First United Methodist Church of Sanford instead of one half hour later as previously reported.

Former Sanford Resident Victim Of Computer Logic

By BRITT SMITH Herald Staff Writer

The computer never forgets.

A 35-year-old former Sanford resident found out just what a good memory the mechanical monster has recently when he was stopped for a routine traffic violation and wound up being jailed on charges stemming from a bar fight eight years ago.

Brian for Layton Lee Siler, formerly of 801 S. 4th St., it really didn't matter. Because when he came up for sentencing Wednesday, Circuit Judge Joseph Davis Jr. gave him credit for jail time served and cut him loose.

It all started back on July 6, 1973 when Siler got in a fight at a local bar, hit one man with a pool cue and pulled a knife on another. Two months later, Siler pleaded no contest to charges of assault and disorderly conduct, and was scheduled for sentencing on Oct. 23.

Trouble was, he never showed up. His attorney, Jack Baldwin, didn't know where he was. The cops couldn't find him. So, his name was placed in the state computer fugitive file and forgotten.

Until January that is, when Siler was stopped near Bradenton for a traffic offense. The arresting officer routinely ran his name through the computer for any outstanding warrants and out popped the '73 charges.

For 72 days, Siler cooled his heels in the Seminole County Jail until his long-delayed day in court Wednesday. In explaining to Davis why he didn't show up to be sentenced nearly eight years ago, Siler said that just after he pleaded to the charges, his father took ill in Tennessee and he had to be with him.

One personal crisis or another followed, "and he said it just slipped his mind," according to Assistant State Attorney Don Marblestone. "He said he knew he was supposed to come back, but he just never got around to it."

Davis could have given Siler extra jail time for failing to appear in court, but "they guy had already served 72 days, he had been caught for something he thought he had gotten away with, plus he could have only gotten 30 days more anyway, so he (Davis) cut him loose," Marblestone said.

"Justice was served."

In other court action, Davis issued a bench warrant for the arrest of an accused rapist who has failed to comply with a court order to allow samples of his body hair and fluids be taken for comparison with those found in and on the victim.

Richard Delmos Irving, 19, of 6534 San Pedro Circle, Orlando, was to have submitted to the sample-taking March 18, but he didn't show up at Seminole Memorial Hospital.

Action Reports

* Fires

* Courts

* Police Beat

Irving is charged with sexual battery in connection with the May 30 assault on a 27-year-old woman who was walking down Fern Wood Boulevard about 4 a.m. when Irving reportedly grabbed her from behind, dragged her into a wooded area and raped her.

Also Thursday, Ariene Cooper, a 32-year-old Brookly-born truck driver with no permanent address, was placed in five years probation for the Nov. 15 burglary of a car and theft of some children's clothes and shoes.

Charles A. Stopford, of 248 Lawfield Circle, Winter Park, pleaded guilty to criminal mischief in connection with the July 5 firebombing of a car in Winter Springs. Circuit Judge Kenneth Leffler deferred sentencing pending completion of an investigation into Stopford's background.

Henry Lowe, 41, no permanent address, was sentenced to 10 years in prison for the May robbery of the Fort Grocery in Sanford's Goldstone section.

GREAT TRAIN ROBBERY

It wasn't exactly something Butch Cassidy and the Sundance Kid would have done, but someone broke into two Auto-Turn supply cars parked near the terminal off W. 1st St. early Monday and stole \$740 worth of food.

Taken was 17 cases of beefsteak, and 10 cases of Pepsi.

A WOMAN SCORNED

A 26-year-old Sanford man was reported in satisfactory condition today at Seminole Memorial Hospital recovering from a stab wound in the chest suffered in an area bar late Wednesday.

According to a county sheriff's report Willie Church of 49 Castle Brewer Court, was in the Delux Bar on Southwest Road about 11:30 p.m. Wednesday when a woman pulled a knife and stabbed Church once in the chest.

Church reportedly followed him to the parking lot and slashed at the car with the knife.

Church told deputies the incident occurred after she accused him of having an affair with another woman.

Subdivision Gets Rescue Unit

Winter Springs much-discussed plans for a paramedic program have moved from the drawing board to reality for the first time with the receipt of a \$17,000 state grant to be used to purchase and equip a rescue unit for the Tusawilla subdivision.

City Manager Richard Rozansky announced at Tuesday night's city council meeting that the state Department of Community Affairs grant will be matched by city monies or other grant funds to complete the purchase.

Rozansky said the vehicle he needed because of increased demand in the Tusawilla-Ranchlands area.

"Emergency calls in that area are up 50 percent or more from a year ago," he said. "And right now we're answering those calls with a fire truck which cuts our response time."

"Purchase of the rescue unit" will be a major step toward creation of a paramedic program for which city voters expressed a desire in a Nov. 4 non-binding referendum.

Rozansky and his staff are currently studying the paramedic issue in preparation for making a detailed presentation to the council by the time budget process begins in June. Questions to be answered include: how many paramedics and vehicles will be needed, what kind of equipment must they have, where to house both men and equipment, how much it would all cost, and who would pay for it.

Rozansky said preliminary information indicates that "we'll need seven, maybe eight, paramedics, two vehicles and some equipment, and we'll house them in the fire stations."

Price tag for the project is estimated at \$150,000-\$180,000 for the first year. Rozansky said much of that could probably be paid with state or federal grant money with the remainder possibly necessitating some sort of tax increase.

—BRITT SMITH

HANGING ERROR?

No, this painting is not hung upside down. German artist Georg Baselitz is just convinced people study his works more intensely if he paints them upside down. He adds that he and his models keep their feet firmly planted on the floor during painting sessions.

FLORIDA IN BRIEF

Another Gravesite Found In Weeki Wachee

WEEKI WACHEE (UPI)—"I can't think of anything that can hurt me anymore," said Virginia Mansfield as authorities discovered a third gravesite believed to be that of a young woman on the litter-strewn homestead she shared with her husband and two sons, all imprisoned for sex crimes.

Mrs. Mansfield and a third son, Terry, 21, clutched each other and sobbed as they watched from their bedroom window Wednesday while a backhoe unearthed parts of a skull and jawbone in a shallow grave three feet from the window.

Officials have discovered parts of the skeletons of two bodies believed to be young women on the property of William Mansfield, 56, who is serving a 30-year prison sentence for sex crimes. Two sons, Billy, 25, and Gary, 23, are jailed in Santa Cruz, Calif., awaiting trial for murder and rape.

Shuttle Tank Passes Test

CAPE CANAVERAL (UPI)—Repairs to insulation blanketing the space shuttle Columbia's outside fuel tank passed initial inspection, allowing engineers to go ahead with the ship's last big pre-launch test Friday.

The decision Wednesday night to proceed with a second fueling test Friday morning kept the Columbia on schedule for its long-awaited maiden launch, now tentatively set for April 10.

She Can Keep Tot In Prison

TALLAHASSEE (UPI)—A judge has given convicted armed robber James Moore permission to keep her newly born son with her at the Florida Correctional Institution for Women at Lowell.

Ms. Moore becomes the sixth inmate at the prison to be allowed to keep her child under a two-year-old law the Legislature is considering abolishing.

Judge Won't Stay Execution

MIAMI (UPI)—A Circuit Court judge Wednesday denied a defense motion to stay the execution of triple-killer David Leroy Washington, scheduled to die in the electric chair April 8.

Richard Shapiro, attorney for Washington, sought the delay from Circuit Court Judge Mario Goderich to have time to show the court that his client's court-appointed lawyer may have failed to act in Washington's best interests.

The 28-year-old Washington pleaded guilty in December 1976 to three murders and was sentenced to death. Gov. Bob Graham signed his death warrant earlier this month.

Paradise Won: 3 Refuse To Leave Remote Island

WASHINGTON (UPI)—A naked West German studying Buddhism and two French yachtsmen refuse to leave one of the most remote and otherwise uninhabited Solomon Islands in the Indian Ocean.

But the three did tell British police about five other people marooned on a nearby island, a spokesman for the U.S. Military Sealift Command said today. The five others later were rescued.

The Salomons are part of the Chagos Archipelago, a group of 52 islands 1,000 miles south of India. The group belongs to the Britain and includes the U.S. Navy base at Diego Garcia Island. The archipelago is uninhabited, except for 1,600 U.S. sailors, some U.S. Air Force personnel and passing adventurers.

Seven Navy ships of the Military Sealift Command are anchored at Diego Garcia loaded with tanks, other vehicles, fuel, food and water, poised for a possible crisis in South-West Asia. The islands are off-limits to outsiders.

The complicated saga of the paradise-seeking transients began this way: British Lt. Cmdr. Nigel Walls, who is among the handful of British police guarding Diego Garcia, heard rumors about trespassers in the Salomons.

Walls turned to the Americans for help and the USSN Meteor, a tank-carrying ship commanded by Capt. Constantine Garmalich, 54, of Long Island City, N.Y., was dispatched to the islands.

The Meteor arrived a week ago, and Marine 1st Lt. Paul Jolicoeur, 33, of Toronto, Canada, volunteered to go ashore in a rubber dingy with Wells and another British policeman, George Bramble.

"When we landed we found two French yachtsmen and a naked West German," Wells said, according to the spokesman.

The West German, who had a valid British visa in his passport, was dropped off by a yacht 11 months ago. He was identified only as Karl. The two Frenchmen, who arrived in their own yacht four months ago, were not identified.

They share fish and fruit with Karl, the policemen said, and refused to leave the abandoned plantation where they were living. But they told of five people stranded on a nearby island.

"The German was reasonably intelligent," Wells said. "He said he was studying the Buddhist faith and we got the impression he was a genuine character who was just trying to get away from the world."

The Meteor then steamed to lie du Coin, the nearby island.

There they found Gordon Brace of Kalk Bay, Cape Province, South Africa; his wife, Elizabeth, of Ballerup, Denmark; and Nicole Hascot of Paris. They had run into trouble aboard their yacht on Dec. 25.

The two men who owned the yacht had gone to seek help. They were 65 skipper, Ken Oulton, 52, of Ruira, Kenya, and a surfer from New Zealand, David Palmer, 23.

The Meteor returned to Diego Garcia on Monday with the Braces and Hascot.

The Greek tanker Gherestiga picked up the other two men 600 miles east of the islands.

They said their boat made it to within 40 miles of Diego Garcia before it lost its rudder and the battery and engine went dead. They drifted for three weeks and were passed up by eight ships before the Greek tanker stopped.

Nicaragua's Sorry Record

Human rights critics obsessed with the imperfections of El Salvador and Guatemala apparently haven't noticed that revolutionary Nicaragua has become, for its size, the pre-eminent jailer of political prisoners in Latin America.
At last count — compiled by Juan Esteban Gonzalez, director of Nicaragua's church-sponsored Human Rights Commission — the neo-Marxist Sandinista government was holding some 8,000 political prisoners.

Around

The Clock

By JANE CASSELLBERRY

ROBERT WALTERS Through Revolving Doorway

WASHINGTON (NEA) — To understand how national policy is really determined, you would do well to read a high-school civics textbook about "how a bill becomes a law" and examine instead the career of Leigh S. Ratiner.

"I tied a yellow ribbon 'round the old mail box in anticipation of my income tax rebate coming back."

DON GRAFF

Don't Read This, Please

If you want to stay on the right side of the U.S. State Department, stop reading the subject of today's discussion is out of it's El Salvador.

By now we're ready for the real business — the new administration's announcement of its decision to meet the by now well-publicized threat in El Salvador with increased U.S. aid, most especially of the military variety.

For their pains, these dissidents have been incarcerated without trials in a network of 20 or so political prisons, four of which are located in the capital city of Managua.

The details of these and other human rights abuses, including documented cases of torture and execution, were pieced together by Nicaragua's Human Rights Commission, the same body that had earlier vociferously criticized the Somoza regime.

Touch Of Hypocrisy

The Internal Revenue Service is taking its predictable revenge against tax rebels in Michigan who appear to have gone far beyond the permissible limits of the tax code governing the number of exemptions that can be claimed for withholding purposes.

Last year, 72.3 million Americans who filed personal income tax returns received refunds from the Treasury totaling \$44.4 billion. Most of these refunds were the result of excessive withholding by the government.

BERRY'S WORLD

"MY DEAR! REAL people wear FAKE fur."

JACK ANDERSON

'Sexscam' Lobbyist's Mate Plans Book

WASHINGTON — Paula Parkinson, the beguiling sexologist in Washington's latest sex scandal, will be writing a particularly interesting treatise — mostly those with titles — and she stalk them until she scores.

As Hank recounts the events, he had no part in springing the love trap on the unsuspecting lawmakers. He and Paula had made pledges of undying love to one another — symbolized by her gold watch-band, with two dangling A's that had a secret, obscene meaning to them.

As the estranged Hank remembers Paula, she was a "sex symbol" who on Saturday mornings in bed "would watch cartoon show after cartoon show while I thumbed through the daily papers." The action of television, he said, set the pace for her life.

Apparently the world may get this unflattering view of some members of Congress if the stories are true about Paula Parkinson's video-tapes.

Produce Growers, \$800; and bake sale, \$321. Profits will go to benefit the club's child welfare and scholarship fund projects.

Ever dream of running away and joining the circus? Why not do the next best thing, be a clown. Beginning April 27, Clowns of America will offer instruction in the Art of Clowning for all would be clowns in the Central Florida area on six consecutive Mondays from 7-9 p.m.

Hialeah Coach Replaces Weir

Lake Howell Names Bisceglia

By SAM COOK Herald Sports Editor Michael Bisceglia, 38, a highly successful coach at Hialeah High School, has been named head football coach at Lake Howell High School in the Evening Herald learned Wednesday. Bisceglia will replace the popular Sam Weir, who took a head coaching position at the University of Central Florida earlier this year. Bisceglia (Ba SHELL, ba) was the top choice of Lake Howell Principal Richard Evans from a narrow list of four candidates. Bob Becker, defensive coordinator last year, was one of the finalists. Cardinal Gibbons' Boyd Rasmussen and Ted Leason of Morris High School in Louisville, Ky. were the other two. "We wanted someone who had a good track record," said Evans Wednesday afternoon. "He has a helluva reputation in one of the toughest football areas (south Florida) in the state. The past two seasons Bisceglia's team has won the district championship. In 1979 Hialeah was 9-2 and Bisceglia was named "Coach of the Year" by the Miami News. In 1980, Hialeah again won the 4A District 14 and were 6-3. "We wanted someone with the same philosophy as ours," said Evans. "He seems of the same caliber as Sam Weir. I'd rate him in the same percentile. "He has the charisma and the magnetic force needed. Coach Bisceglia is interested in the total program. Evans went on to emphasize that Bisceglia's record as a teacher was also a strong determining factor. He teaches health and physical education. "We wanted someone who was consistent," pointed out Athletic Director Harry Drivas, who along with Assistant Principal Ray Gaines formed the selection committee with Evans. A rundown of Bisceglia's football achievements is pretty impressive. In high school in Pittsburgh, Pa., he played on three championship teams. During his senior year, Bisceglia was named "Most Valuable Player" in the city, third team All-State and All-City. He attended Southwest Missouri State on a football scholarship and played on an undefeated team in 1964. In 1965 he coached a National Championship team at Miami High. Bisceglia received his Bachelors Degree in Education from Southwest Missouri State and his Masters Degree from Florida Atlantic University, also in Education. Bisceglia has been married for 15 years to his wife, Joan, and they have two children, Michael, 10, and Carrie, 14, 5. The articulate coach will receive \$16,000 based on his teaching experience. He will start working upon his release from Hialeah, sometime before May 1.

Quaid Wins 7-2

Erik Wofford and Rob Shamblyn combined on a three-hitter as Quaid Fencing dealt Casseberry Trivision its first defeat 7-2 in Five Points Mustang baseball. Wofford and Shamblyn each had two hits and drove in a run for Quaid, who improved to 3-2. Andy Grazen also had two hits, while Danny Bauchsens drove in two runs. Casseberry is 4-1.

Apopka Trips Lady Tribe 6-3 For Five Star Top Spot

Apopka scored four runs in the sixth inning Wednesday to take over sole possession of first place by beating Seminole 6-3 in Five Star Conference softball at Apopka. The Lady Blue Darters are 6-1, while the Tribe fell to 5-2. Seminole is 7-5 overall. Apopka roughed up pitcher Dee Hogan for 11 hits. They put four in a row together to seize a 5-0 edge in the second inning. It stood that way until the fifth inning when Tribe shortstop Johnnie Bennett chased home two runs with a single to tie the game at 2-2.

Miller Still Hot As Hawks Bomb Walker, Sanford 17-7

By SCOTT SMITH Herald Sports Writer Lake Howell exploded for 18 runs in two innings to crush Seminole 17-7 Wednesday in Five Star Conference baseball at Sanford stadium. Silver Hawk hurler Gary Smith led the way, striking out eight. Charlie Miller kept his hot bat going, hitting a single, a double, a triple, and a sacrifice fly resulting in five RBIs. Howell got on the board first when Tony DiMauro led off the third with a single then moved to second on a bunt by Dave Martinez. Miller promptly singled in DiMauro. Seminole came right back in its half of the third. The Tribe took advantage of two walks, an error, a wild pitch, and a RBI single by Brett Von Herbulis to take a 3-1 lead. The Silver Hawks cut the 'Noles lead to one in the fourth. Jay Drivas and Jerry Winterhalter had back-to-back singles. With Drivas on third the Seminole unsuccessfully tried to turn a double play on a grounder hit by DiMauro. Winterhalter was forced out at second but Drivas scored. In the fifth, down 3-2, the Hawks sent 12 batters to the plate producing eight runs. Miller and Carl Carlson had triples while Martinez and Doug Chiodini added singles.

Herald Photo by Tom Vincent

BURGER KING MOST VALUABLES

Burger King selected Lake Howell's Bruce Brightman (left) and Lyman's Studie Ferritto as the Most Valuable Basketball Players in Seminole County at an awards banquet Wednesday at Westmonte Recreation Center in Altamonte Springs. The popular Davy's restaurant honored all Seminole County elite athletes and special guest Superintendent of Schools Bob Hughes with a dinner. See Friday's Evening Herald for a complete rundown.

NBA Playoff Plot Thickens

The dramatic battle for the NBA Western Conference's last two playoff spots continues at a snail's pace. Kansas City, Houston and Golden State all have 30-41 records, and only two of them can qualify for post-season fun and profit. "It's really good to come into a game where we knew there was so much pressure and to play well," said Scott Wedman, who scored 34 points to lead the Kansas City Kings to a 116-101 stunner over the Pacific Division-leading Phoenix Suns. With a win, the Suns would have clinched the Pacific title. The Kings have a showdown with the Houston Rockets Friday night. The best of the Rockets was represented by 32 points from Moses Malone and 29 from Robert Reid, as Houston topped the San Antonio Spurs, the Midwest leaders, 117-111, to send 13,881 fans into fits of ecstasy. The Rockets led almost all the way and shot off a second-half San Antonio spurt to preserve the win. Later, the Golden State Warriors needed a typical performance from Lloyd Free to take a 120-114 decision from the San Diego Clippers and keep pace with the other two world-beaters. Celtics 111, Nets 105 Robert Parish scored 31 points, including a clutch 35-footer with 1:43 left, to help Boston keep up with the 76ers. The two teams are tied for first place in the Atlantic Division. The Trail Blazers 112, SuperSonics 103 Billy Ray Bates, Kelvin Raney and Mychal Thompson scored 24 points each for Portland. Starting guard Jim Paxson was taken to a local hospital with a possible fracture of the big toe on his right foot.

Longwood 17-12 Genene Barnhill slugged a grand-slam home run and a single.

Brooke Beatty, Tanva Lewis and Charita Lane also picked up key hits for Dulando. In Bronco softball, Badcock Furniture beat Forest City 11-9 behind a single, double and triple from Lisa Bergatresser good for five RBIs. Lynn Jeffers had five hits including two triples and five runs batted in for Forest City. Forest City III swamped Winter Springs' Community Church 17-8 as Angie Curtis went 4-for-5. Ann Grajeda had a homer for Winter Springs.

SPRING

FASHION SHOWCASE

As bright and colorful as the flowers of Spring, the 1981 Swimwear line at JC Penney

Combined With Lace

Diamonds Enliven Spring

The fashion mood for Spring 1981 is one of eternal femininity. Pulled together and refined, seductive but soft, in a word — delightful!

A far more feminine way of dressing is in store for day and night. Everything is treated with a softer hand. Innocent white lace for day and alluring ruffles at night add up to a blatant, self-assured femininity throughout.

Diamond jewelry, always the ultimate feminine touch, abounds!

Perhaps it is a desire to return to an easier, far less-complicated time. In any case, the whole fast-developing trend to soft, romantic underdressings — camisoles, teddys, bows and lace — has now been transposed into its own fashion look. It is a look of innocence and beguilement, from soft tousled hair to patent leather pumps.

Fabrics and colors are very important — lace, eyelet

and embroidery in white or the palest pastels help make the statement. It's playful, young and unabashedly feminine!

This pure white innocence calls for the most delicate diamond jewelry. Charming, diamond-paved heart designs are the sweetest choice of all. Paved earrings, pendants, rings and pins are all available in the shape of a heart.

For an interesting variation on the standard heart there are broken hearts, arrow-through-the heart motifs and double interlocking hearts.

When evening comes, the lacy innocence of day blossoms into elegant, ruffled sophistication. Ruffles and tiers flow as freely as champagne this season, evoking a sumptuously, romantic mood.

These most feminine of all details are seen framing everything from shoulders to necklines and circling waists and legs. Opulent, ruffled evening dressing commands equally opulent diamond jewelry.

Massive diamond dangle-earrings complement asymmetrically one-shouldered dresses. Off-the-shoulder, ruffled necklines require dramatic, diamond-paved chokers.

Diamond cocktail rings, either paved or cluster-set, were meant to be worn with these ultra-feminine, ruffled delights. The color spectrum of these ruffled extravaganzas ranges from elegant, basic black to hot pink to milk whites. Hair is dramatically upswept or full and wavy and shoes are barely there.

From lace to ruffles, femininity reigns supreme this spring and diamonds are the crowning glory!

Spectacular diamond jewelry is meant to be worn with Spring 1981's ruffled evening delights. Pink angelskin coral mixes with diamond pave in this beaded necklace, drop earrings and ring.

Footwear For Comfort

Making news this spring is super-chic footwear. This collection introduces elegant bicolored spectators, suede oxfords, suave slingbacks, delicate sandals and the wispiest of dance shoes, all of which invisibly float the foot on a wavy wafer that conceals the celebrated

support construction.

"For the first time in nearly ten years, there is a clear-cut difference between casual and festive dressing," says Joe Famolare. "The world's love affair with good health is still as strong an influence as ever, but it's smart to dress up again."

Romantic Ruffle Flourishes

It's a fashion law: In periods of basic day clothes, evening fashions go romantic. This spring, more ruffles and flourishes sweep through evenings than presidents get from the Marine band.

So widespread is the ruffling craze that even Halston, often regarded as a fashion purist, works up a storm of dramatic ruffling. The least of which is his satin-sashed white organza top with double self-ruffling that covers the shoulders and frames a sweetheart neckline. This goes with a slim white crepe skirt, diagonally hemmed and slit up one side.

He goes on to strapless white, panel-front gowns with ruffle cascades down the back, one-shoulder ruffling that turns into a flounced shawl on a purple silk organza dress and one-hip ruffling on a red silk faille skirt. Halston's ruffling looks sophisticated, but the super-romantic school of ruffling is led by Oscar de la Renta. His ballerina-length dresses in silk organza, with their tucks, lace edges and short sleeves frothing with over-ruffles look like airy puffs that could blow away.

Called dance dresses, the de la Renta organzas are youthful, such as his peach ballerina, pinafore-ruffled over full, short puffed sleeves, triple-tucked around the hem of a full skirt that is gathered below a dropped-waist bodice shaped by a lace-edged sash. The designs extend to his other romantic theme, the Hapsburg look. Here he combines long, full skirts and embroidered jackets in pale velveteen, with richly ruffled elegant blouses.

Abert Capraro also likes long, full skirts with super-ruffled blouses, but he does them in a young American look, such as his hip-tucked black and white plaid taffeta skirt, with a white organza blouse ruffled at wrists and in full jabot style over a lace front.

Bill Blass leans toward the sophisticated school of ruffles. A flourish of self-ruffling spirals all the way up a long, black coin-dotted white silk crepe with the fullest or wrist-ruffled sleeves and a huge self-flower on one shoulder. Another version in white silk organza is done one-shoulder style. Blass also likes an all-ruffled swoosh of white evening coat over a slinky red, black and white print gown.

Designers who include the new short evening dresses in their collections often ruffle or flounce them to soften their brevity. Stephen Burrows triple-ruffles the skirt of his short, halter chiffon. To a short, flounced skirt, Zoran attaches a simple, sleeved glitter bodice. Bill Blass makes his short styles as dramatic as possible, such as his ruffle-hemmed striped silk with red coat, and his fuchsia or lavender taffetas in bouffant styles with oversize self ruffles.

The most youthful short evening dresses are the so-called "baby" styles. They're little loose dresses with child-like puffed sleeves in airy white organza, with lace, smocked and tucked detailing, and always ruffles, often in pinafore fashion.

This spring, ruffles and flourishes for evening are fashioned for all ages and tastes, whether romantic or sophisticated.

One-Shoulder Staple Evening Dress... Reagan's Style

Jonathan Hitchcock, who creates for Reuben Thomas, takes designing calmly. When it was pointed out that his spring collection had a long, slim, one-shoulder gown very like the one worn by Mrs. Nancy Reagan for the inaugural galas, Mr. Hitchcock merely said, "Oh, I've been doing that look for about two years."

His Reagan-style dresses are actually part of a group of chiffon jersey evening dresses with a distinctly 1940s inspiration. The one closest to Mrs. Reagan's inaugural gown has the same bias-cut slimness, but a

double ruffle ripples from the covered shoulder down to the hem. An Art Deco applique in colorful beading catches the draping of the bodice, on which points of glitter are scattered.

This dress is in yellow, but Jonathan Hitchcock also uses white, which Nancy Reagan wore. For the warm months, he likes a short version in white chiffon jersey, with a capelet sleeve on the covered side, where a circular, beaded applique holds the bias draping. Tiny gold beads fan out in rays from the covered shoulder.

Other designers have also

been interested in one-shoulder gowns for some time. That's not surprising when it comes to Bill Blass, who is one of Nancy Reagan's favorite designers, but will she wear Bill's current midriff-baring version in a splashy tropical print?

More to her taste may be Adolfo's new summer one-shoulder in a pretty white graphic print, with a single huge lantern sleeve.

Jon Haggins, with whom one-shoulder has long been a staple, drapes red matte jersey in Grecian style, ties it on one shoulder.

Designer Jonathan Hitchcock has been creating one-shoulder styles well before Mrs. Nancy Reagan wore such a gown for the inaugural galas. Left, his short summer version in white jersey chiffon, with double side ruffle, capelet sleeve and circular shoulder applique in beading to catch the bias draping. Rays of tiny gold beads fan out over the bodice. About \$270. Right, long yellow jersey chiffon with side ruffling, fan-shaped shoulder Art Deco applique in multicolor beading. Glitter points dot the bodice. About \$320.

Springtime Tips

PICKING POCKETS When shopping for clothing, a good tip-off on the quality of the garment may be its pockets. Check to see that pockets are tightly stitched and reinforced at the corners.

WINTER'S END In the country of Luxembourg, young people celebrate the end of winter on March 13th, Burgsonndeg. Huge bonfires are built in the hills around many villages in a tradition that dates back to pre-Christian times, when it was believed that day conquers night in the spring-time.

FASHION ON A BUDGET If you like the "funky" look, a good place to shop for an inexpensive wardrobe is the local thrift shop!

Rummaging through items donated to charitable organizations can often turn up some fashionable finds, funky and otherwise.

Here's Spring's Fashion Forecast

Days of decision breed new definitions and new images. Inevitably and with uncanny certainty, fashion anticipates life. Spring 1981 clothes have a sweeping new attitude: freedom of choice within a frame of several disciplines with explicitly descriptive names; it's a matter of terminology as well as taste.

The only generalities seem to be: shorter (inching up like the economy), shoulders widened by full sleeves rather than padding, waistline variable from the high Empire lines to tightly wrapped midriff, dropped low or absent altogether.

Image-creating terms like naive, Art Nouveau, Art Deco, flamenco, Renaissance, obi, blouson, and camisole, are important in the new vocabulary, and women will call them by name.

The broad shoulder has evolved into the full sleeve, highly decorative and with period overtones: Shakespearean, with ribbed or slashed sections; Regency, roundly puffed above a long, tight sleeve; abstract shaping like modern sculpture, or cut like a schoolgirl pinafore with white cuffs.

The feeling is tidily, cleanly ornamental, but somehow never fussy. Clean, pure lines are enriched with a healthy sexiness, with poetic charm or sophisticated fun.

The counterplay between shorter skirts (from skinny to grandly bouffant), and pants of all lengths (from safari shorts to Bermudas, buccaneer pants, cuffed walking shorts, clam diggers, Dutch boy pants, court pants, balloon pants and classic slacks) is a main thread in the Spring 1981 fashion story.

The variety of tops is a whole chapter in the story. The blouson, a favorite with most designers, ranges from a shallow, barely rounded oval, stopping at the hipline; to a rounded tunic, curving under at mid-thigh. Other no-waist shapes include childish smock dresses, jackets and coats and many versions of the pinafore and chemise.

When the waistline is visible, it becomes a whole new story; tight, tight cord belts, sweet ribbon sashes with a lush bow, and the new obi sash in stiffened satin.

Late-winter yearnings for spring would bring forth print dresses, to wear "under furs," as they used to say. Nowadays, you're likely to be bundled up in down coats, and the right transition look is the crisp shirt fashion.

Whether knit or woven, T-style or "preppy," the shirt in all its forms is going to be a spring fashion leader. In fact, it should no longer be

considered merely a novelty item, but a "serious" shirt, a quality part of one's wardrobe.

For those transition weeks, start with a cotton knit T-shirt dress, bright in stripes of navy and daffodil yellow, the collar and placket front in solid yellow, the navy grosgrain belt closed with a signature buckle. For chiller days, she likes an outfit of well-

cut khaki twill pants, a khaki silk "work shirt" and her cotton knit pullover in a patchwork of half-a-dozen deep and bright colors.

Everyone loves stripes for early spring, but a leading designer says they must have meaning. She turns her polo shirts into a special collection by doing them in a variety of regimental stripes. To go with them, she offers a wool cardigan, lavishly cabled, in a choice of solid colors to match the collars of the shirts.

Wear the duo with her long pants, but be sure to have her walking shorts in khaki poplin, with their tailored

front-pleat styling. Shorts are among the leading spring pants styles.

For work and other daytime wear, nothing looks more crisp and spring-like than a shirt-and-skirt combination. Here, the "preppy" look continues to reign. The meaning of the word has become a little vague lately, but essential "preppy" means an all-cotton, man-tailored shirt with a masculine-styled collar that may be cut-down or not. You wear the collar closed, with a contrast bow tie.

"Man-tailored" means more than just a look. That collar keeps its shape through many launderings. No threads dangle from the cuffs. Buttons are of the traditional kind, called "ocean pearl," meaning that they're made from a certain hard shell with pearl luster.

A "serious" shirt is made of fabrics long used in good men's shirts. Depending on the surface finish of the all-cotton or quality cotton blend, it will be called broadcloth (smooth finish) or oxford (slightly textured).

Novelties in such shirts are as quiet as their tailored perfection. Fine piping may outline a collar.

Tips To Make Leather Last

Treat your leather garments and accessories kindly to get longer wear and to offset today's high prices. With good care and repair, leather jackets, bags and shoes will reward you with a long and useful life.

Spray leather shoes and handbags with a conditioner containing silicone to protect them against rain and soil.

If they do get wet, wipe them off with a cloth, stuff them with paper and let them dry at room temperature — never put them by a radiator or other hot place.

Check your shoes regularly ... replace worn lifts before you wear down the heel. If sole or heel is splitting from the shoe, a drop of bond for wood and leather will repair the break without leaving excess glue to mar the shoe.

Smoother leather handbags, belts and jackets can be cleaned with a damp sponge and mild soap. Do not use dry-cleaning fluids on spots because they will stiffen leather.

Look at the stitching of your belts, bags and wallets...even leather coats. If you see a break, a drop of the new wood and leather glue will seal the break and keep the stitching from unraveling further.

Store out-of-season leather garments in a cloth or paper garment bag; shoes and bags in tissue and a box. Plastic bags keep leather from "breathing" and will dry it out. Store in a cool, dry place.

Take care of the leather you have, repair minor rips and breaks immediately, and you'll get your money's worth.

Prints, Hues Make Fabric New For Sewers

Home sewers will find inspiration aplenty among the fabrics that are now in season.

Prints abound, with florals predictably leading the way. They range from tiny flowers to big blossoms, splashed across fabrics in bold fashion. Whether soft and romantic, flat and stylized or exotic, floral prints will be a decorative feature of the Spring '81 scene.

The ethnic prints are also in vogue this season, with batiks, African motifs and South American folk art among the favorites.

The Preppy look is another popular way to get into print: pin dots, plaids, checks and stripes are classically

right once again for spring, as are geometrics. Conversation prints will also be in the spotlight for spring: stars, fruits, animals, palm trees, flags and other whimsical motifs are sure to liven up the season.

Color adds excitement to the season as well: in addition pastels, spring brings soft brights and neutrals. Coral looks to be a favorite, with peach, turquoise, jade, teal, purple, cobalt blue, geranium red, cocoa brown, banana, khaki, mother-of-pearl gray and rosy beige among those shades sharing the color spotlight.

Fabrics are younger-than-springtime, as befits the season. Rayon challis, voile, georgette, seer-sucker, tussure faille, cotton lawn, and mousseline are among the

fabric selections, some of which are embossed.

After several seasons of paint-box brights, colors have sweetened to flower prettiness and dusty overtones. Beiges are pale and honeyed, with navy with white a strong statement everywhere for both day and evening, and black-and-white combinations starring in most collections.

Rich trimmings may replace jewelry as a way of life. Diamond studding, pinpoint sequins, bugle beading, gold braid and rhinestone banding, all make the nights light up. Lace insertions, faggoting and slathers of silk ribbons are all over, but somehow avoid aimless fussiness.

The Dramatic Wide-Top Look

By FLORENCE De SANTIS

Special to the Herald
NEW YORK (NEA) — One of spring's stand-out fashion details is the oversize collar, a new way to get the wide-top look.

It appears in tailored versions, notably the big sailor collar, and in soft dress-up styles such as the multi-layered capelet collar.

Anne Klein tops a white georgette blouse with a rippled capelet collar rimmed in navy. At Bill Blass, white ruffles spread out over the shoulders of blouses. Slim black crepe pants are topped with a white jacket whose shawl collar is perhaps the biggest ever seen.

Halston makes a point of using ruffles as collars. One evening jacket is a continuous swirl of enormous, layered, slouched organdy. Then he switches to the yoke collar, half covering the

bodice of evening dresses and always richly embroidered in near-Egyptian style.

For day clothes and separates, the exaggerated sailor collar stands out. On a pink pants outfit, Sportswirl adds a super-wide white sailor collar.

Oscar de la Renta's blue middy blouse has a red-piped oversize sailor collar. Ron Leal fits his black middy, and the white-edged sailor collar goes half way down the back.

THE CHANEL-STYLE SUIT

The Chanel-style suit, left, favored by Nancy Reagan, features white-bound edges and hip length jacket. In navy, with white ashed collarless blouse; going away, in lilac with white trim. The Chanel adaption, center, can be worn with any style of day or evening blouse. In black-flecked tan tweed of silk-

viscose-linen, its cardigan jacket is un-trimmed, while gentle gathers ease the skirt. The man-tailored suit, right, created with traditional hand detailing, in a refined black-and-white glen plaid of rayon-silk blend with soft skirt in knife pleats. Slim black skirt is also available.

Seminole Migrant Clinic Gets A Clean Bill Of Health

By BRITT SMITH
Herald Staff Writer

Four months ago, the prospect of thousands of Seminole County's seasonal farm workers going without medical care seemed a very real possibility. Citing gross mismanagement, federal officials were threatening to cut off all funding for the county's migrant health clinic.

But now, the problems seem to have been solved, the clinic has successfully weathered three recent evaluations, and is expected to pass a fourth next week, thus qualifying for federal funding set to be doled out in April.

This rosy picture is a far cry from the

situation which existed in late November when the U.S. Division of Health Services (DHS) temporarily suspended funding for the migrant clinic until a whole litany of deficiencies were corrected.

Number one on the DHS hit list was former clinic director Anita Montgomery, who DHS and the Health Systems Agency of East Central Florida (HSAECF), a federally-funded regional health planning agency, considered an incompetent administrator.

The clinic continued to operate on reserve monies until mid-December when, bowing to the pressure, Montgomery resigned, paving the way for the naming of present director Bill

Schomberg to the \$22,000-a-year post. HSA agreed to turn the money faucet back on, but not completely satisfied, demanded more changes: the hiring of a full-time medical director, a shift in the make-up of the clinic's board of directors, and an end to major abuses in patient care.

January elections brought more members of the public as well as health professionals to the board as HSA had demanded. But the clinic still has no full-time medical director.

That will change April 1, however, when Dr. Joseph Azelevandre, currently filling the post on a part-time basis, becomes the clinic's full-time medical

director.

In addition, Dr. Brett Bolhofer, presently completing his internship in a New Orleans hospital, will join the clinic full-time in July, supplementing the four part-time physicians now on the staff.

"With only part-time help, we can't fill the needs of our clients," Schomberg said. "We give good care to the people we see (about 8,500 a year). The trouble is, we can't see everyone who needs help."

"A lot of people have been going to the hospital or just not bothering to come in," he said.

Even some of those who did go in didn't get proper medical attention. During the November shake-up, some clinic em-

ployees were cited for turning away patients who could not pay for services, and doctoring charts or lab tests which had been conducted by unsupervised or unlicensed personnel.

"All that stopped the day I walked in the door," Schomberg said. "I sat the staff down and laid out all the criteria and procedures for the way things were supposed to be done and that's the way we've done it."

"They're really turned things around," confirmed Kim Beaton, HSA executive director. Two recent HSA assessments have "given them a clean bill of health. They're in real good shape."

That's pretty much what the HSA

board of directors said following a review Thursday night. And the clinic should have "no problems" passing an inspection by a team from the DHS office in Atlanta on Tuesday, Beaton said.

"Fifteen days after that, we should know how much of the \$1,170,407 we've requested for next year we'll be getting," Schomberg said.

The clinic's current annual budget is \$505,124, of which \$395,957 is funneled through DHS. The remainder comes from Medicare, Medicaid, and patient fees.

In the proposed budget, \$1,094,716 would come through DHS.

Poles Strike 4 Hours; Ignore Soviet Threats

WARSAW, Poland (UPI) — Most of Poland's 13 million industrial workers walked off the job for four hours today in the first nationwide general strike of the country's eight-month-old independent union movement despite Soviet-led war games nearby.

The workers poured out of industrial plants from the shipyards of the Baltic to tractor plants near the Czech border in a walkout that ignored an ominous extension of Soviet-led Warsaw Pact military maneuvers in and around Poland.

The workers struck in a protest against police beating of union members last Thursday in the northwest town of Bydgoszcz.

Negotiations with the government had been scheduled to resume at 8 a.m. EST but were delayed, government and Solidarity spokesmen said.

Solidarity leader Lech Walesa whipped up a rally of about 600 workers at Warsaw's giant Huta Warszawa steel mill, saying, "Our people were shot at today" and describing an apparent potshot taken

at a local union official in the provinces. But a Solidarity spokesman said later that Walesa "had been mistaken" and was referring to an incident last week. The spokesman implied that Walesa could have been carried away by his speech, in which he made an impassioned plea to avoid violence.

Grave Concern At White House

WASHINGTON (UPI) — President Reagan kept a close watch on events in Poland today, and aides said there still was "grave concern" in the White House despite the peaceful end of a four-hour workers walkout.

White House press secretary Jim Brady said President Reagan and other officials are continuing to monitor developments in Poland.

"What we hear this morning is that things are tense but calm," White House chief of staff James Baker said in a CBS-TV interview today.

Responding to a question, he said there

was still "grave concern."

White House counselor Edwin Meese said on NBC-TV the administration has made contingency plans and would take "appropriate action" if the Soviets intervene.

The administration is not ruling out any steps, he said. A Soviet invasion of Poland, he said, would be "a serious threat to world peace and to relations" with the West.

Baker also declined to discuss potential U.S. options. "There are things we can do but it would not be appropriate to speculate," he said.

"Even if there are shots and even if there are dead, do not respond in kind. Do not polarize the situation. Remember, don't attack or strike against the party or police. We are against breaking the laws."

He vowed a battle against corruption and said Solidarity would fight hardliners in the ruling elite who signed the social agreements last summer to save their own positions.

"We will strangle them like rats," he said.

"The authorities must be given a chance," Walesa said, but warned the workers not to trust all the people in power or else "five years from now there will be mass bloodshed and we will not trust even each other."

"We have almost assured 100 percent victory. Now we'll go for the coup de grace. The way we choose is right," he said.

Nonetheless, he cautioned, "We know we will not get 100 percent of what we want, but the most important thing is not to bow to pressure."

Cause Of Blaze Undetermined

Brothers Die In Sanford House Fire

By BRITT SMITH
Herald Staff Writer

It was one of those cruel quirks of fate that took the life of 42-year-old Clifford Fillinger Wednesday night.

He had driven down to Sanford from Huntington, W. Va. Sunday for a visit with his brother Stanley, 52, of 2406 Holly Ave. He had planned to head back home this weekend. But things changed and he will be staying in Sanford... forever. He will be buried here Saturday.

He and Stanley died in a fire at the elder Fillinger's rented one-story, cin-

derblock home about 9:30 p.m. The cause of the blaze has not been determined, but investigators say arson not suspected.

"It looks from all indications like an accident," said Sanford Fire Chief William Gailey.

Firefighters found the two men dead in the burning house, Stanley still sitting in a chair by a closed living room window, Clifford sprawled out on the floor near a bar off the dining area.

The flames were confined to the living room, but the house was full of thick, choking smoke, according to Gailey. "They were apparently overcome. It's a

shame, too. It only took us about three minutes to put out the fire."

A dozen firemen, two pumpers, a water tanker, and a rescue unit responded to the scene. Besides the two dead men, the only injury reported was to firefighter R.R. Picklesimer who cut his left wrist on some broken window glass. The gash required 10 stitches to close.

Wednesday's tragedy wasn't the first to come on the heels of a trip south for a member of the Fillinger family. Five years ago, just after Stanley had moved to Sanford from Warren, Mich., his 20-

year-old daughter Linda came down for a visit, but never made it back home. Headed north through Perry, Ga., she apparently fell asleep at the wheel and had a fatal collision with a bridge support, family members said.

Five years earlier, Stanley lost his four-year-old son, Buddy, to a brain tumor.

Death seems to come in five-year increments for Stanley Fillinger. His turn came Wednesday. His body will be returned to Warren this weekend to be buried with his children.

UP, UP AND AWAY

Sanford skies filled with color this morning as 700 helium balloons were loosed and floated into the clouds at Pinecrest Elementary School. Nine-year-old Earnestine Walton, a third grader at Pinecrest, seems to be comparing her hand-held balloon with the larger one on the grounds for the event. Part of a "Weekly Reader" contest, the students filled their balloons with messages and will wait to see which balloon travels the farthest.

Lake Mary Getting New City Hall

It appears as if Lake Mary will be getting a new city hall.

Actually, what the city will be getting is an old building it will call a new city hall.

At its Thursday night meeting, the city council voted to buy and convert the old chamber of commerce building on Country Club Road and Lakeview Ave. into new municipal quarters. Price tag for the project is estimated at about \$59,000. The money may come from the sale of 10 acres on Rinehart Road the city bought two years ago for \$50,000 and which councilman Ray Fox said could fetch close to \$200,000 on today's market. No target date for moving into the 54-

year-old chamber building has been set.

Also Thursday, for the second time in as many weeks, the council postponed action on the on-again, off-again annexation of the 1,600-acre planned Heathrow development west of the city.

As it did at its March 12 meeting, the council tabled the annexation, which has already received tentative approval, when City Attorney Gary Massey asked for a delay, but would not publicly reveal his reasons for doing so.

The city has been trying to annex Heathrow since July 1977, but has been stymied by adverse court rulings and opposition from the Jenó Paulucci family, principal Heathrow landowners.

In other action, the council: — Awarded Sanlando-Storer Cable TV of Altamonte Springs an exclusive 10-year franchise for service in the city. Storer's competitor for the Lake Mary contract, Orange-Seminole Cablevision, already serves a small area of the city. Councilman Gene McDonald requested this be allowed to continue as an exception to the exclusive franchise.

Councilman Dick Fess also asked Storer representatives to extend service to 26 homes in the far north end of the city which earlier plans had suggested might be left out of the cable TV picture. Storer officials said every effort would be made.

Sanford Crime Lab May Move To Expanded Facility

By DONNA ESTES
Herald Staff Writer

The Sanford Crime Laboratory, which serves the law enforcement agencies of seven Central Florida counties, may be moving to new and more spacious facilities within the next two years.

Gov. Bob Graham has included \$4 million for a new crime lab for Central Florida in his budget submitted to the Legislature for approval.

State Sen. John Vogt, D-Cocoa Beach, said today he supports the plans for a new facility and favors it being built in Seminole County.

"This has a fairly good priority. It might depend on how far the state's money will stretch, but I am supporting it," he said. Vogt added he, as a member of the Senate appropriations committee, still must evaluate conflicting priorities.

"The Sanford lab is the busiest crime lab in the state system and has some capabilities other crime labs do not have," Vogt said.

Vogt personally toured the Sanford crime lab on Wednesday

and said the staff there is extremely conscientious.

Claude Trubey is supervisor of the Sanford facility.

While the laboratory is currently operating with 40 forensic science analysts in 11,000 square feet of space at the Sanford Airport, Trubey said the proposed facility will have nearly triple the space — 31,000 square feet.

Among the sites being considered for the re-location, Trubey said, are a 10-acre tract of city owned property located off Rinehart Road in Lake Mary and a site in the planned research park at the University of Central Florida.

State Rep. Robert Hattaway, D-Altamonte Springs, chairman of the Seminole Legislative Delegation, was one of the legislators who spearheaded the move, at the request of law enforcement personnel, state funding for the crime lab in 1975.

He said today he would like to see the crime lab retained in Seminole County. "The lab is beneficial to law enforcement in this area," he said.

Hattaway said there is no question the current facility is too small, but he said he has been kept in the dark about plans for expansion.

And, he said, it will probably take another grass root organization by law enforcement to get the approval for the funding of a new facility.

"If I don't hear from those concerned with the crime lab soon, I'll contact them," Hattaway said.

State Rep. Bobby Brantley, R-Longwood, said he definitely would like to see the laboratory stay in Seminole County, but "the issue came to my attention only Thursday." He said he will tour the current facility before he can say whether that much additional space is needed.

Trubey said the budget as submitted calls for planning and site acquisition the first year and actual construction the second year.

The Sanford Crime Lab was created in 1970 by law enforcement agencies from the region in a move led by Sheriff John Polk. Its operation with only two employees was funded with federal money through the Law Enforcement Assistance Administration.

During its last year of local operation before being taken over by the state, it served 27 counties, Polk said today.

"Law enforcement must have a good crime lab to bust a case involving murder, rape and drugs. The Sanford Lab has good people, but it is under-staffed," Polk said.

The current facility is operating out of an all-steel warehouse and a three-section mobile building which was moved in from Pensacola three years ago, Trubey said.

There is a backlog of 900 to 1,000 cases in the lab now, Trubey said, only half as many cases as was back-logged six to eight months ago.

"The police departments cooperated to cut down the backlog," Trubey said, by calling back cases there was no longer any need to process. "The departments are now being selective in what they send us."

The laboratory sections include: toxicology, a limited number of poison cases, documents for handwriting and typewriting analysis, fire arms and tool marks section; latent finger prints, micro-analysis and trace evidence; serology and a recently added section works crime scenes in major cases involving rape, murder, kidnapping and recovery of bodies by use of a vapor detector.

Save 20% on all ladies swimsuits.

Now thru April 4 our entire line of exciting swimsuits are on sale. Shown here, engineered stripes and florals. Well-placed designs to make the most of your best. Smooth, sculptured nylon with enough spandex for a zingy, clingy effect. In high-voltage colors for juniors. Shirred stripe or engineered floral, reg. \$26. Sale 20.80. Engineered stripe, reg. \$25. Sale \$20.

Of course you can charge it
