### Slowing-Up Of 1936 Campaign May Be Expected

#### Some Observers See Activity Getting Ahead Of Program

By HERON PECK  
 WASHINGTON, May 10.—The more seasoned politicians think the 1936 campaign is getting away ahead of itself. A slowing up may be expected.

Not only have leading Democratic leaders decided at a White House conference to "lay low" for the present, but the projected Democratic national nominating survey of popular sentiment probably will be postponed.

On the Republican side, such stalwarts as former Senator "Jim" Watson are counseling against any action now which might tend to postpone the party's definite course in next year's campaign. Watson holds the Republican should at least wait and see what the present Democratic Congress proposes in the way of legislation.

The regional get-togethers held soon by the Republicans, and in former numbers by the Democrats, will have a more of a "wait and see" character. The local leaders will be making attempts to concentrate especially with respect to candidates.

The political gate here has been held open by the Democrats for some time, but it is now being closed to the extent that this was the case in 1932.

It will be a full year or more before the national campaign will be on.

### Shultz Signs Bill Aimed At Bondholders

WASHINGTON, May 10.—Senator Charles McNary, Oregon, today signed a bill aimed at bondholders.

The bill, known as the "Shultz bill," is designed to protect bondholders in the event of a reorganization of a corporation.

Millions prefer it to mayonnaise—casts less!

## How much would you pay for a dollar bill?

THIS IS A TRUE STORY: It started with a half-serious wager, and it teaches a lesson.

Two business men were visiting a famous resort. One offered to bet the other that he couldn't sell real dollar bills for 50c apiece. The other accepted the challenge and went to work.

"How do you do," he said to a passing stranger. "Will you give me 50c for this dollar bill?" The stranger paid no attention.

The salesman tried again, and again. But nobody bought—and finally he had to admit that he'd lost his bet.

All of which suggests that people like to know who the seller is before they buy. You can trust the merchants who advertise their products in this newspaper. The advertisements offer useful, dependable information about things you need and want. Read and heed the advertisements carefully and you will reap savings and satisfaction.
