ticking. MARSHMALLOW 3 FOR

But that is just what has happened at every level of political action. Only when a gear fails to mesh or a persistent hum in the rear end can no longer be nut up with do the professionals charged with maintenance do something to correct. History has, of course, recorded the failures of

function when they were allowed to hum along without sharp supervision and corrections. Recall what happened in 1932 and 1952 and 1968 and see if these elections on the national level do not

The clashing of gears in the Democratic machinery which had indulged in haphazard overhauling for entirely too many years was the discordant noise which accompanied the Republican victory in Florida to get the Republican machine in smoother running of 1966 and the seating of Claude H. Kirk Jr. in the order.

Announcement in Washington of a drastic move. machine, is indicative that the Republicans are ready for that oil-and-grease job, that correction of timing. that inspection of steering gear and brakes which will ready the machine for the races of 1970 and 1972

In the first place it must be recognized that President Nixon is the man behind this policy. He removed Ray Bliss, the competent engineer who filled the chairman's role for the GOP during the hold-theboth the Republican and the Democratic machines to

> In his stead there is now Rep. C. B. Morton of Maryland a skillful political operator. The new Republican national chairman, unshackled from old routines, has appointed James Allison to the new post of deputy national chairman. Allison, a Texan who managed the sucessful campaign of Senator Ed Gurney of Winter Park, has decided on another tool

> > PRIVATE TALKS

No longer will the gap between national and state touch with state organizations and even orient its of brakes and steering is very much in order.

programs to recognize the individual needs of each

The Demogratic machine has the resource.

This is a re-vamping of machinery, a practical recognition of weaknesses which points to similar moves as the 1970 elections come nearer. In Florida which Duke Crittenden as chairman of the Republican state committee and the newly created office of executive director filled by Seminole County's own Bob Tope, these changes in Washington will be something to watch as they are translated into local moves by the aggressive Republicans in our city and in our the unity which spells victory at the polls.

When the Democratic political machine is looked at the picture is one which has a greater history of political victories but which has yet to recover from ity rests is its government. The government, in turn the almost complete breakdown of 1968.

Yet to be made public is any such drastic move committees be allowed to exist. Recognizing this as the Republicans have made at any level. In Florida source of political malfunctioning, he has publicly the need for a rather professional look to the gears, stated that the national machine will keep in close to the lubrication, to the motor overhaul, to the safety

The Democratic machine has the resource of depth in terms of power (numerically) and establish-ed performance. What it needs is an up-dating with the responsibilities and needs of 1969 taking precedence over the past.

Floridians in every section of our state speak the most effective leadership in either party brings

We even would like to see our local political organizations have a spring over-hauling and tune-up. For one of the pillars of success on which a communis a product of politics. And success is our target!

### No End To This

in America. A person can land in jail if he refuses to answer a long list of questions, many of them highly personal, in the 1970 Census. Now somebody somewhere in the great

come up with a list of 72 questions for new recipients of Social Security or Medicare benefits. These deal with all sorts of personal matters, including past and expected financial affairs of the individual. If the Social Security recipient, who has retired on his earned benefits, doesn't answer, he gets follow-up letters from Uncle

the bureaucrats are making this inquisition of the retired elderly a mandatory affair. At this writing he has no luck getting even that information out of HEW or Census or whoever dreamed up the questionnaire.

Congress ought to bring this thing to a Greenville (S.C.) News.

### Proliferation

tion has been called to the fact that the pastor of one Texas, church lives in a "pastorium".

Creeping suffixiam is loose in the land. It is

accepted that "remedy" is proper for the process of helping a child with reading difficulties.

That led to remedial reading. Now we encounter an article on "remediation" of the problem.

Figure 1 time of the year again.
Fishermen are cleaning out tackle boxes, baseball players imbering up winter-stiffened arms, golfers practicing that tough 20-foot putt on the living room rug—and outboarders are beginning to dust off their motors in anticipation of that long-swaited first spin around the lake. With a little of the right kind of attention, the out me be counted on for another season of efficient, troublefree em be counted en for another season of efficient, troublefree envice. An hour or two spent tuning up an outboard that hast gotten wet since last summer will help make 1969 enother year full of family hosting fun.

Here, then, is a simple five-point program suggested by Johnson Motors Service Manager Lou Eppel for getting that old kicker into shape: 1. Remove, elean and properly gap the engine's spark-plugs, replacing defective once and "torqueing" the plugs to

year's hosting season.

2. Check the propeller's condition and pitch. Replace 2. If it's badly chipped or bent.

4. Clean and refinish all surfaces as required.

5. If the bosting rig includes a battery, check it for a full charge and clean the terminals and battery cable con-

2. Remove the oil plug from the gearonse and check for

prevent corresion.

That's all the primping the average outboard needs for its annual "debut" after a long winter's nap.

But if you don't want to do the work yourself, take the motor to your favorite dealer. He'll be glad to help you enjoy another season of pleasure boating.

# Announcing the first car of the 70s at 1960 prices.

(You don't have to read it all-but it's nice to know it's all there.)

Most new cars look like other cars. But when the word gots out that something really different is on the way, numers run wild. Four care have caused as much talk as Mavarick. Ford's new entry in the small car field rivals the economy imports in price ... but topo them in power, performance, passenger room and luggage capacity. We've been bom-barded with questions about Meverick. Mow, for

Q. Why did you build the Meverick? A. We think of Maverick as another one of Ford Motor Company's answers to the gold drain. Now Americans who want small car economy don't have to send their U.S. dollars oversess.

Q. Why did you call it Moverick? A. You know what a maverick is. A maverick breaks the rules. A maverick is different. Maverick plugs the big gap between the compacts and the imports. It has a wheelbase eight inches shorter than a '69 Falcon eight and one-half inches longer than a VW 1500.

Q. Why did you make it this size? A. Maverick pinches pennies, not people. We gave Maverick more leg room. More shoulder room. More tuggage room. Good example: the front seat of a Maverick offers you nine inches more shoulder room ed robbery and carrying a conthan the front seat of the leading economy import and its trunk can handle all the luggage for a family of four, including a set of golf clubs.

Q. What do I get for the price? A You get your money's worth. A complete, built-for Americans kind of car. Room. Hot styling. Color-keyed interiors. Even the heater is included. Some economy car interiors are about as luxurious as a park bench. Not Maverick's. You get plush seats. Cloth and vinyl upholstery with unique tartan plaid cioth inserts. You also get safety features like smart pull-out door handles. Strong safety door locks. Two-speed electric wipers. Safety belts. Head restraints. Plus conveniences like armrests, coat hooks, lighted heater controls ... important little things that add so snuch to your driving comfort.

L You can get 'em if you want 'em. You can order integral air conditioning. (It's built is, not losing on.)
Other options include 3-speed automatic or low-cost semiautomatic transmission, and a hefty 200 CID Six. But lots of people won't put an extra cent into this

car. Because it's all there. A complete car all ready Q. What kind of gas mileage can I get? A. That depends on you as well as the car. You can get as much as 25 or 26 miles per gallon-if you have an

educated toe and the right road conditions. If you have a lead toot, or do a lot of city driving, you will Q. Can I do my own maintenance work? get a lot less. In tests by professional drivers at our A. Yes, if you have an average amount of mechanical tracks, where we do our best to duplicate actual driving conditions, Maverick averaged 22.5 mpg. 2. What kind of power does Maverick have? A. Maverick's Six lets loose 105 galloping horses That's 52 more than you get in the 4-cylinder VW

1500. Mayerick can cover 417 feet in ten seconds from a standing start. That means you can get up to highway speed in a hurry. When you enter a 70 mph turnpike, you won't feel like a retired bookkeeper thrust into the middle of a pro football game. Q. If it has an eight inch longer wheelbase than the leading import, does it still handle and park easily?

A. Maverick can U-turn in a tighter circle (35.6 feet) than the leading economy import (36.0 feet). Maverick can slant through traffic like a halfback. It can turn on a-dime and give you nine cents change. If you've been driving any other American car, you'll find Maverick's neat size adds up to 51/2 feet to any Q. Can Detroit really build a small economy car that's

tough and long lesting?

A. It's not easy, but we did it. Maverick's unitized body construction makes it light, strong and durable. It's welded like a battleship. Rustproofing compound goes into deep crevices that never see the light of day. Then all that strength is covered with four coats of paint for lasting beauty. Result: one tough little car that's put together to stay together. (The service schedule in the Maverick owner's manual goes up to 108,000 miles or nine years; that ought to tell you something about its rugged durability.)

A. Maverick is designed to be unusually easy to service. You're dealing with made-in-America parts and 6,000 easy-to-find Ford Dealers. Fast repairs and easy replacements mean extra savings in both time

meintain then an economy import?

A. Definitely. Maverick oil changes come only every

36,000 miles. The leading economy import recom-mends oil changes every 3,000 miles (twice as often as Maverick) and chassis lubrication every 6,000 miles (six times as often as Maverickt). Those are just a few examples of the many ways Maverica lessens inconvenience and lowers operating cost.

ability. The Maverick owner's manual contains 24 pages of detailed diagrams and easy-to-follow instructions for routine maintenance jobs you can do yourself, if you wish. You'll find it easy to change spark plugs, replace ignition points . . . plus many other do-it-yourself repairs and replacements.

Q. Can a small car be sale? And how sale is sale? A. This small car incorporates the latest advances in engineering. Maverick's brakes are as big as a standard compact's—designed to stop cars weighing hundreds of pounds more. Maverick gives you weight . . . power . . . stability, Designed for Ameri-

A. Here's where Marerick's longer, wider stance really pays off. You get a smoother, quieter ride. Maverick's tight, strong, unitized body helps eliminate squeaks and rattles. Special insulation blocks out road noise. The people who brought you a Ford that was quieter than a Rolls-Royce now bring you a small car that doesn't sound like a power mower. really a 1970 car?

A. Slower depreciation is one money-in-the-pocket advantage. Maverick's 1970 model designation means it keeps its trade-in value higher, longer. (Maverick is built to be a good investment from the minute you buy it to the minute you sell it.) Better come take a look at this one. You'll find it where the action is . . . right in there with other great Ford values like specially equipped Ford Galaxie

500's . . . Fairlanes . . . Mustangs and Falcons.

you've got to go to see what's going on.

You'll find them at your Ford Dealer's . . . the place

For an authoric 1/25 scale model of the new Ford Mavarick, send \$1.00 to Mavarick, P.O. 5397, Department N-50, Detroit Michigan 48211. (Offer and July 31, 1969.)

## 'Gone With The Wind' Days ? Re-Lived At Jr.-Sr. Prom

THE CHARM and romance of the Old South was reflected Saturday night at Sanford Civic Center when Seminole High School juniors entertained the seniors at the annual prom. The vast auditorium was lavishly decorated to depict a Colonial garden. Beautiful belles, in dazzling ball gowns, through an arched trellis entwined with pastel roses. It was a night to be remembered as high school days will soon be "Gone With the Wind" for the senior promenaders.

Deputy Fred W. Kelley, county safety officer, said today that plans had been completed for the bicycle safety roadeo, and first session had been scheduled for April 21 at 9:15 a.m. at Casselberry Kelley added the county-

wide safety campaign would be held this year in co-operation with school PTO groups, all municipal police depart ments and the Pilot Club. First, second and third place winners will be recognized with certificates awarded and signed by Sheriff John Polk and police chiefs, he added. Kelley said all participants would receive bicycle safety club pledge cards signed by county safety officer as well as safety officer of the participating city. Events to be judged include bicycle check, figure 8, circle

and riding in a straight line while giving hand signals for stopping. Kelley said participanta also would receive a safety sticker for his bicycle.

## **Dominoes For Eating**

By CECILY BROWNSTONE Associated Press Food Editor Some ideas for garnishing are

- amusing and inviting enough to go on and on and on. One of these is to decerate cake or cookies in domino fashtion. That garnishing trick has been in existence for almost 100

In her 1885 "Philadelphia Cook Book," Mrs. Sara Tyson Rorer, principal of the famous Philadelphia Cooking School gave a recipe for Dominoes: "Make Plain Cup Cake batter. and pour it into greased shallow pans, to the depth of a half-inch. Bake in a moderate oven about ten minutes. When done, turn out on a cloth to cool. When cold, with a sharp knife cut the cake in oblong pieces, the shape of a domino, frost the top and

sides with white icing, and to stand aside to harden. When the frosting is hard, dip a small I camel's-hair brush in chocolate icing, and draw lines and make the dots of the domino." But Dommoes have changed since those long-ago days. Now

cooks use bases of all kinds instead of the Plain Cup Cake batter Mrs. Rorer suggested. In the cious brown-sugar batter en riched with raisins and necans. And decorating the Dominees has also changed. For our recipe no "camel's-hair brush" is with a knife, and the dots are by 9 by 1% inches).

sigstic about these Raisin But and salt. terscotch Dominoes. raisins and pecans. aerate before measuring

1/4 teaspoon salt room-temperature soft brown sugar

DOMINOES - Brown-sugar bar cookies are frostfollowing recipe we use a deli- ed and decorated with raisins.

lightly mark a line across cer-% cup chopped raisins ter of bars to indicate division 1-3th cup chopped pecans on dominoes. Decorate with raisins to represent dots on domneeded! The lines are marked Butter a square cake pan (9) Makes 1½ dozen. Raisins for decoration

FROSTING: Beat together 11/2 Visiting youngsters as well as On wax paper, thoroughly stir cups sifted confectioner's (powour regular tasters were enthu together flour, baking powder dered) sugar, I tablespoon soft butter or margarine. 1/2 tea-In a large mixing bowl, three spoon vanilla and 1½ table RAISIN BUTTERSCOTCH | oughly beat together the butter, spoons milk. Add a few more - sugar, egg and vanilla. Add drops milk if needed to make % cup unsifted flour, stir to flour mixture; mix well. Stir in frosting easy to spread.

Spread in prepared pan, Bake Coal Rises in a preheated 350-degree oven 4 cup butter or margarine until a cake tester inserted in LONDON (AP) - Britain's center comes out clean-about 360,000 miners have increased I cup firmly packed light 25 minutes Cool in pan. productivity by 67 per cent in Spread with Frosting, Cut into the past 10 years, says the Na-3 by 11/2-inch bars. Makes about two and a half doz-

en cookies.

"Fifty cents per shot," said the sign at a certain golf course. "If you score a holein-one, you win \$5,000." Sure enough, a golfer eventually did come through with a hole-in-one. But the proprietor refused to pay the prize money. Haled into court, honoe, not enforceable by law." However, the judge disagreed. Ordering the money paid, the judge said there was simply too much skill involved in a golf shot to classify this as a game of chance. In varying degree, gambling is regulated in every state. Often, under these regulations,

court to decide what is meant by the phrase "game of Sometimes the answer i relatively easy. Thus, the throwing of dice has consistently been held a game of chance. So has roulette. So has matching pennies.

On the other hand, chess and checkers and spelling bees have all been held not games of chance but games of skill. "Although there is of course an element of chance resulting from the deal of cards," explained one judge, "there is a

(We liked the small amount of vinegar used in this recipe, but taste the marinade and increase the vinegar if you like.) Makes 12 serv-

### Orchestra Sets Final Concert

Two outstanding young Flor-ida musicians will be featured in the final concert of the season of Central Florida Community Orchestra, scheduled for 8:30 p.m., Saturday, April 26, in the Harrell-Williamson Auditorium of Orlando Junior College. Kathleen Malloy, Stetson Uniersity pianist from Orlando, will play "Konzertstuck", by von Weber, and Manuel Pres tamo, Tampa violinist now attending Jacksonville University. will play Vivaldi's "Concert Delle Stagioni." Prestamo was concert-master of the All-Florida High School Orchestra in 1868. The orchestra, conducted by L. D. Frederick Maraffie, will play "Sinfonia No. 54," by

The concert will be presente free of charge and the public is encouraged to attend.
