

LITTLE MISS LINDA McARDLE gets a pilot's eye view of an F9F Cougar Jet Fighter while her classmate, Tommy Howard, awaits his turn. The first graders of Pinecrest School, Sanford, were guests of the Station during a recently conducted tour. The children were accompanied by their teacher, Mrs. Gladys Jane Wood, and other "Room Mothers."

U of F Faculty Member To Speak At Civic Clubs

Two Sanford civic clubs will have the opportunity tomorrow to hear Norman B. Thomson, a member of the faculty of the University of Florida, and Chairman of the Commission on Placement, College of Business Administration. Thomson will address the Kiwanis Club at its noon meeting and will appear before the Business and Professional Women's Club at the dinner meeting tomorrow night at 6:30 o'clock.

Both meetings will be held in the Yacht Club. Thomson is a member of the American Economic Association, the American Academy of Political and Social Science, the American Society of University Professors and the Chamber of Commerce of the United States. He is trained in the thinking of two great universities and has been in great demand as a speaker throughout the nation. His subject will be "What's Ahead for Business." He will be introduced by Charles Morrison who presented him recently at meetings of the Sanford Rotary Club and the Winter Park Kiwanis Club, when his topic was "Top Executive Attitudes . . . 1958" and drew favorable comment from his listeners.

U. S. Is Called On To Offer Latin America Guidance

WASHINGTON—Senator George Smathers (D-Fla.) in a speech prepared for delivery to the Senate on Monday, called on the United States to offer "bold, responsible leadership" to Latin America. He said such a program, coupled with effective economic assistance, will combat strong Soviet

efforts to penetrate the economic and political life of Latin American nations.

He reported that growing democratic trends in Latin America have been greatly strengthened by recent events, such as the elections in Costa Rica and Guatemala. Such promising developments demand enlightened leadership for the whole of Latin America on the part of the United States, if the trend is to grow further.

He warned: "In recent years, the United States has not provided the quality of leadership necessary to produce the maximum mutual benefits to us and our Latin American friends. Our Latin American neighbors look to us for leadership in solving the many problems which confront them today. These are problems in our own backyard. They are the problems of our nearest friends."

"In assisting the Latin American Republics in the solution of their problems it is vital that we replace leadership characterized by complacency and indifference with leadership characterized by boldness, courage and positive constructive action. In short, responsible leadership."

The Florida Senator also pointed to the impressive economic gains made in Hemisphere Republics in recent years, but cautioned that such figures were, in part, the reflection of economic growth from

a primitive economy to the first stage of fully matured economy.

Pent-up demand for higher standards of living in nations to the south of us is now being felt, the Senator said. It is thus imperative that enlightened assistance plans be put into effect by the United States to help these nations solve growing economic problems. If not, he warned, Soviet Russia will be successful in its relentless attempts to penetrate—and then dominate—Latin American economies.

He said: "The solution of the economic problems of Latin America rests on more loans, a stable trade policy, and inducements to American private enterprise to invest in these countries on an increasingly larger scale."

To encourage more private investment, he asked that the United States first support programs whereby Latin American countries could advance their health, education and sanitation.

Senator Smathers also asked for a reassessment of American defense plans which all of large expenditures by Latin American nations—and a consequent drain in their strained economies.

He said: ". . . the time has come when our government's policy of assistance to our friends, the Latin Americans, should be re-evaluated. We should ask realistically does our military assistance truly help them in the defense of their country and the Western Hemisphere, or does it in fact diminish the opportunities for the furtherance of the people's individual rights and liberties?"

Such funds, he proposed, could be diverted to finance a wide program of public works and construction of roads, schools and hospitals.

He also warned that: "The mounting problems of Latin America—our neighbors—here on our Western Hemisphere, seem to get less and less attention as developments tie them closer and closer to our future, our welfare, our destiny."

"Today, Latin America is seething with political, economic and social unrest. Because of Latin America's importance to us from the standpoint of trade, strategy and raw materials, it is essential that we assist it in solving its problems. It is in our own enlightened self-interest that we do so. If we fail to assume this responsibility, we must be prepared to suffer the consequences."

AGA KHAN RETURNS
GSTAAD, Switzerland (AP)—The Aga Khan today resumed the winter sports vacation he interrupted last month to go to Karachi for his enthronement as spiritual leader of the Ismaili Muslim sect. Officials said the Aga would "probably remain here" until the end of the season. He has rented a chalet.

TYPHOID IN KOREA
SEOUL, Korea (AP)—Four persons have died and at least 17 others have been stricken in an outbreak of typhoid fever in the South Korean town of Mukho, health authorities reported today. The Ministry of Health and Social Welfare said more than 30,000 residents have been vaccinated by an emergency medical team rushed to the area.

Board

(Continued from Page 1) today night to further discuss the problem.

The Board of Commissioners also approved the rewording of a franchise to be proposed to the Sanford Gas Company. Commissioners discussed the DeLand franchise concluded only recently. The City Manager, Warren E. Knowles and City Attorney William C. Hutchison Jr. were authorized to prepare a franchise for presentation to the local gas company.

A report on the Yacht Club was submitted to the board of commissioners. The inspection was made by City Manager Knowles, Superintendent Sid Richard and Building Inspector M. A. Yelvington. "It will take at least \$2,500 to accomplish all that has been laid down in this inspection as needed," Commissioner Earl Higginbotham said.

The Board of Commissioners also refused to accept an offer of \$10,233 for a French Ave. site and an adjacent lot proposed by Lee Brothers Plumbing and Heating. However, commissioners stated, at the suggestion of Commissioner David Gatchel, that he commission offer to sell 125 feet of the French Ave. frontage and the area behind it for the price offered by Lee Brothers.

Tonight

(Continued from Page 1) today. Tallahassee recorded 21, Pensacola and Ocala had 22, and Jacksonville 23. It was 28 in Orlando and Lakeland in the heart of central Florida citrus belt.

"I look like the cold will last the rest of the month," said Forester Gilbert Clark. "There's still plenty of cold air left in Canada, and as far as we can tell right now those icy winds are going to continue pushing down on Florida almost continually."

Clark said that the best Floridians could hope for in the next two weeks is a day or two warm-up in the middle of the cold.

"One consolation," said Clark, "is that we're a lot better off than most of the nation."

Greyhound Tries For Sixth SOK Win Tonight

Inaugural Winner Knocker tries for his sixth win of the season in the featured ninth race at the Sanford-Orlando Kennel Club tonight. The brindle 63-pounder, owned by Mrs. M. V. Kirkland Jr., has had 17 starts this season and his score is five firsts, two seconds and four thirds. This is an excellent showing considering that all his starts have been in Grade A and most of them in feature contests.

Another five-time winner in this main event is the Lawrie Kennel's Marvis Stack. This sensational pup only won his maiden race in December but has moved right up to Grade A competition. He won his last three starts and will try to make it four in a row tonight.

Steppin Jim and I've Done it have won three and two races respectively, but they will be popular with quincies players for each has finished second six times.

Also running in the main event will be Mae Cohen, Circus Supreme, Black and Jubilant Spring.

Paola Resident Succumbs Sunday

William H. Chappell, 81, passed away at his home at 11:45 p. m. Sunday following a short illness.

Born Aug. 1, 1876, in Richmond, Va., he had lived in Paola for the past three years. He was a retired painter.

Survivors include two children, Mrs. Carolyn Tomlinson, Paola; C. L. Chappell, Green Cove Springs; three grandchildren, three great-grandchildren.

Funeral services will be held at 2 p. m. tomorrow at the Church of Christ in Paola with the Rev. W. P. Brooks Jr., officiating.

Burial will be in Sylvan Lake Cemetery, Hixson Funeral Home is in charge.

An estimated ten million dollars stolen from banks by employees each year.

LIGHT OF HIS LIFE—Gary Newell, 3, looks into his mother's eyes as she sees him for the first time with full vision in his Boston, Mass., home. Mrs. Newell recently underwent an eye-tissue transplant surgery, made possible by the Boston Eye Bank. Out of gratitude for his wife's recovery, John Newell willed his eye to the bank.

"ALL WISDOM MAY BE REDUCED TO TWO WORDS — WAIT AND HOPE"

(Author's Name Below)

Eventually, research scientists will find the answers that will enable physicians to treat any disease successfully. Unfortunately, there are still a few for which a complete cure is unknown.

No one should give up hope. About forty new medicines are being released each month. All of them are not "Miracle Drugs" but each one has special merit. Leading pharmaceutical manufacturers send their newly perfected drugs to us as soon as they are clinically proved.

Miss Yancy, a native of Jacksonville, is an 18 year old freshman at Jacksonville University and is being sponsored by the Jacksonville Beaches Jaycees.

Know When You Ought To Consult The Doctor

By HERMAN N. BUNDESEN, M.D.

EVERYONE, it seems, wants to diagnose his own ailments. Each day my mail is filled with questions asking about symptoms of various illnesses.

A great many of them are concerned with hypertension, or high blood pressure.

Don't Diagnose
Now I want to emphasize again that I don't want any of you diagnosing your own symptoms. But you should be aware of some of the most common symptoms of various diseases to realize that something is wrong, and that it is time to consult your physician.

I doubt very much that any of you who are suffering from hypertension can actually diagnose your symptoms, anyway. The outward signs are generally too indistinct even for a doctor to make an accurate diagnosis on symptoms alone.

Frequent Headaches
As in many other ailments, headaches are the most common symptoms. Although they may occur at any time, a person with high blood pressure usually wakes with one in the morning.

No matter what the cause, headaches should be investigated if you're actually caused by hypertension. It doesn't become unduly alarmed. It does not necessarily indicate that you are about to suffer a stroke. It does, however, mean that you should see your doctor.

Blushing is something we joke about a great deal. In its more serious aspects, however, it might be a symptom of high blood pressure. This type of blush is a red blotchiness over most of the face and neck.

Emotional and physical fatigue also might mean hypertension, especially in the early stages of the disease. This, incidentally, is a good warning to heed. Rest is essential in relieving high blood pressure. You can help yourself a lot simply by resting when you become tired.

Another Symptom
Lightheadedness or dizziness is another symptom. You are apt to have a distinct feeling of movement entirely inside your head.

This is a different sensation from vertigo, which might mean real trouble. With vertigo, you have the feeling that everything about you is whirling around.

Although you may feel as though you are going to faint, victims of hypertension seldom do.

QUESTION AND ANSWER
D. W.: I am 67 and have recently lost my sense of taste and smell. What can I do?
Answer: It is not uncommon for people to lose their sense of taste and smell as they become older. In most cases, this loss does, however, mean that you should be able to correct it.

New Telephone Directory To Be Mailed Out Soon

A new telephone directory will soon be in the hands of local telephone users, according to Bob Shelden, Southern Bell Telephone Company manager here.

Shelden said the new telephone directory will be mailed out in approximately a week and will contain over 1,500 new listings.

The first listing to appear in the new book will be "AAA Tree Service" and the last one to appear will be "Zwools, William J.," said Shelden.

"As you might have guessed," Shelden added, "the name 'Smith' will appear in the new directory the most number of times."

Shelden reported that the name "Smith" will appear in the latest edition of the telephone directory 84 times.

According to the local manager's report, all telephone directories will be received by mail.

New Practical Nursing Course Being Offered

Applications are now being accepted for a new course in Practical Nursing to be offered jointly by Mary Karl Vocational school and Halifax District Hospital, Daytona Beach. The course, which is the only one in this area approved by county and state agencies, requires twelve months for completion and prepares students to become Licensed Practical Nurses.

Applicants for the course should have a tenth-grade education or its equivalent by test. The age limits for entrance are 18 to 45. If over 45, the applicant must qualify in mental physical fitness. Other requirements for entrance are good health, United States citizenship, and satisfactory endorsement by references.

The registration fee for the course is \$5, and the cost for textbooks, uniforms, etc., is approximately \$72. The student is responsible for her own maintenance while in training, but she receives compensation in the amount of \$50 per month during the second and third quarters and \$75 per month during the fourth quarter.

The school provides dormitory facilities for \$15 per month for students enrolled in the course.

At the present time there is a heavy demand for licensed Practical Nurses for employment in hospitals, physicians offices, public health agencies, and private homes. Women interested in attending the Practical Nursing course are urged to contact the registrar, Mary Karl Vocational School, P. O. Box 1111, Daytona Beach or CL 2-2521.

Church Men's Club To Entertain Wives At Supper Thursday

Members of the Men's Club of the First Methodist Church will entertain their wives and guests at a Ladies' Night Supper to be held in McKinley Hall, Thursday night, starting at 7 o'clock, Thomas S. McDonald announced today.

A program of entertainment arranged by Charlie Morrison will feature a talented young harpist, Miss Phyllis Row from Winter Park; Ernest Southard in a demonstration of extra sensory perception and Morrison in a period of community singing with Roger Harris at the piano.

McDonald stated that the supper will be prepared by a committee headed by Ted Williams which was a guarantee of its excellence and that Morrison's reputation as a program arranger was well known. "The committee in charge hopes that the weather will cooperate to the extent that we may have a good attendance to enjoy an evening of fun and fellowship," he added.

DEPENDS ON THE MOON

NEW YORK (UP)—Patrolman Harry Reinhardt, about to retire from his post in the city's Times Square information booth, had this to say about his customers:

"Every second customer is a nut. When it's a full moon, the men are the worst offenders; when it's new moon, the women."

FOR OLD FRIENDS' SAKE

HOLLYWOOD (UP)—Actor Joe Ferrer and his wife, singer Rosemary Clooney, set out Thursday night to travel 8,200 miles to see a new production of Gilbert Miller and will start home right after the curtain.

"We're old friends," Ferrer said of Miller, "and we thought we'd go see his play."

INVITATION ISSUED

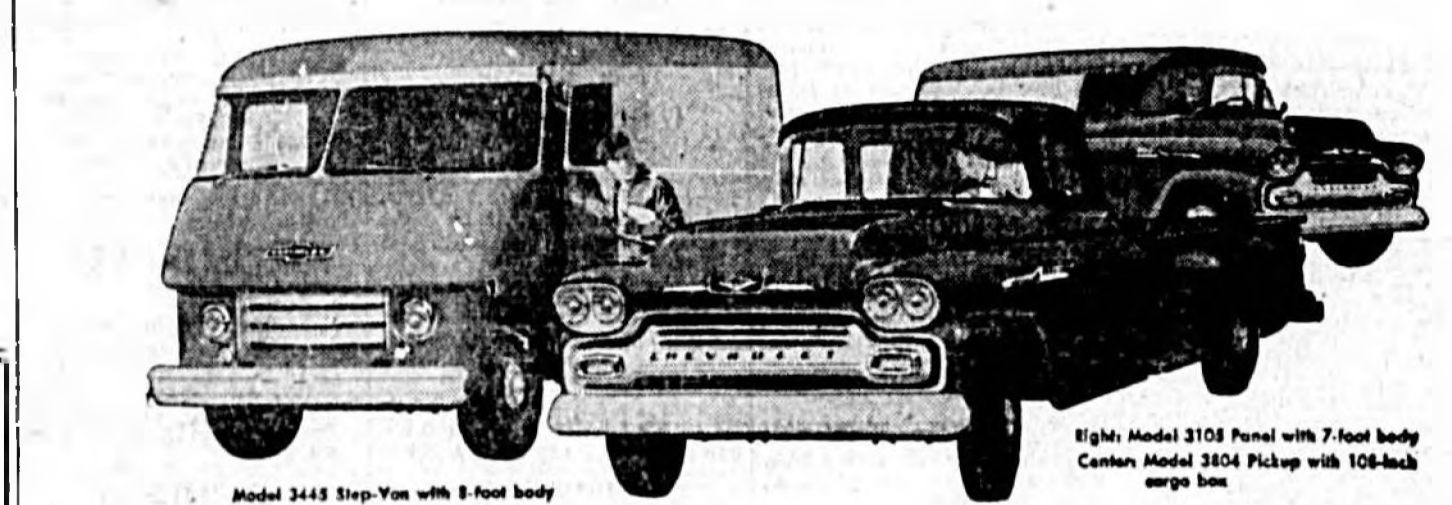

PARK FALLS, Wis.—(UP)—Dan Vicker, chairman of a homecoming celebration here, today invited the abominable snowman of the Himalayas to join the returning natives.

Vicker said the legendary snowman originated at Park Falls but migrated in the early days when he had a mild winter.

This winter, he said, should prove attractively "normal" to the abominable extraterrestrial.

Tax Cut Chances Depend On Economy State About Middle Of Year

By HENRY CATHART
Central Press Washington Writer

WASHINGTON — Chances for an income tax cut are brighter today than they were a year ago, but the outcome still depends on the state of the nation's economy about the middle of the year.

The administration has backed somewhat in its stand against a tax reduction and now says that it might be advisable if other steps fail to bring about the business upswing expected

this summer.

There is also strong sentiment in Congress for a tax slash. However, it is doubtful that the legislators will take the initiative for such action unless the administration gives the green light.

A tax reduction has a strong political appeal to both parties. With the November election coming up, they want to give the voters a tax break and take the credit at the polls.

Many economists disagree with President Eisenhower's optimism about a business improvement and are advocating a tax cut to pump more life into the economy. The President has left the door open by his recent statement that it could be a great stimulus if other economic policies fail to bolster the sagging economy.

NEW PACES OF 1959 — Even if incumbents win all election races this autumn, there will be

an extraordinary number of new faces in the House next year who weren't around when the present Congress started.

The turnover in deaths, resignations and intentions not to seek re-election is the highest in years.

With weeks remaining before election filing periods close in many states, a total of 14 House seats are expected to be vacated.

Several are seeking other offices — either the Senate or as governor of their state. However, the majority have said they are going to retire, a recently preferring the attractive retirement pay they voted themselves a couple of years ago to the harassment of another campaign.

In addition, nine members have died during this Congress and another three have resigned for other government posts.

STASSEN OUT — All signs point to Harold E. Stassen's resignation as President Eisenhower's disarmament advisor, but the future still appears uncertain to the one-time governor of Minnesota.

What happens if and when Stassen steps out of the disarmament job is something that the potential politics, himself, has not decided. He has been talking about running for governor of Pennsylvania, but he must file by March 17 and so far "Republican leaders" haven't shown much interest.

President Eisenhower recently, to head over, cut Stassen into Ike's way — ways-cont

trades because of his differences with Secretary of State John Foster Dulles over how far to go in meeting Russia's request for a new "summit" conference on cold war problems.

Whatever he decides, Stassen can be expected to land on his feet. He has shown remarkable resilience in the past and, his associates feel, he will bounce into the limelight again.

Weather

Generally fair and continued cold today and tonight. Low tonight 23 to 25. Thursday partly cloudy and not quite as cold.

Ike Urges Congress OK Of Foreign Aid Plan

THOMASVILLE, Ga. (UP) — President Eisenhower today urged the House and Senate to pass a bill for the safety of our families.

The President in his budget for fiscal 1959 requested nearly 4 billion dollars for his mutual security program.

He warned failure to enact his program might lead to a highly difficult situation with the Soviet Union.

Impair Free World Power — Without the foreign aid program, the President said there

might be "a severe dislocation and basic impairment of free world power."

Eisenhower also foresaw these other possibilities:

"A massive increase in our own defense budget, in amounts far exceeding mutual security appropriations, necessitating increases in taxes.

"A heavy increase in induction of American youth into our own armed forces; and

"Until it is a beleaguered America, her freedom limited by mounting defense costs, and almost alone in a world dominated by international communism."

Deter Nuclear War — Eisenhower listed three major objectives of the foreign aid program in the nuclear area—deterrence, containment and forestalling Communist subversion or massive economic penetration of other nations.

U. S. military strength "great as it is, is vastly increased by the power of our allies, by the bases we have jointly established and by the whole fabric of our collective security system," the President said.

But military strength alone is not an adequate barrier to the "insidious process" of Communist absorption of whole nations by subversion or economic penetration, the President said. To defeat this, economic progress is essential.

The Soviet bloc, Eisenhower said, has for the past three years been offering increasing amounts of economic and technical aid to countries of the free world. If this were simply to help without infringing freedom, it would be welcome, the President said, "but we must assume that Soviet bloc aid is a new, subtle and long-range instrument directed toward the same old purpose of drawing its recipient away from the community of free nations and ultimately into the communist orbit."

Oviedo Man To Head 'Advisory Committee'

An "Advisory Committee" to the Board of Seminole County Commissioners was instituted yesterday afternoon regarding the area of their duties and the problems the group would consider.

B. F. Wheeler Jr. of Oviedo was named chairman of the committee and Mack N. Cleveland Jr., attorney for the county and 11th member of the group to be named, was appointed secretary.

Commission chairman John Kridler told the group "We appreciate your taking the time to help us with our problems."

know how we can do it but there must be some way to give our taxpayers something," said Sheriff Norman B. Thomson, member of the group. "We can't even keep up the roads we have to maintain with the present equipment—it will take at least an addition of three mills next year just for equipment."

William G. Kilbee, a member of the committee interrupted the discussion to say "If you put many

more 'three mills' on you may bring in more people but it will certainly run some of us older ones out."

Commissioner Fred Dixon commented "I think each commissioner made a choice selection of committee members to study the facts with which we are confronted and I think that you will come up with some ideas that are beneficial."

(Continued On Page Seven)

Forecasters Kiwanis Club Speaker's Topic

"I have always been impressed with the courage with which forecasters come forward with specific statements as to the future," Norman B. Thomson, member of the faculty of Business Administration of the University of Florida, told the Sanford Kiwanis Club today.

Thomson said "They have been frequently wrong, but never in doubt."

January and February is open season for forecasters, he said, and produces what may be termed as a "fad forecast." Part of this arises from the fact that many forecasters analyze similar data and arrive at the same conclusion. But also, "I fear, it arises from the fact that forecasters read the forecast put out by other forecasters."

"In the President's conference with newsmen last week," Thomson told Kiwanis Club members, "Mr. Eisenhower suggested that most of the bad news on unemployment is past. At the same time he noted that the government is doing a good deal to combat the recession; among other things he mentioned his order last Tuesday for a new \$2 billion Federal-Private Post Office building program. If more action is needed, he said, it will be proposed—and in time."

Thomson stated "Many in Congress, however, are, I think, gullible."

(Continued On Page 7)

Commissioner Lawrence Swoford told the committee members that he would like for the committee to consider areas in the south portion of the county which are developing fast. "Areas like Prairie Lake, Bear Lake and Lake Brantley," he said.

"Students at Lyman School increased from 500 to 1,200 in five years," said Swoford. "I don't

Board To Offer Firm French Ave. Area For \$13,333

Lee Brothers Plumbing and Heating told the Board of Sanford City Commissioners in a letter discussed during last night's adjourned session, that even though French Ave. frontage was not necessary for their operation, the entire area was necessary because of space requirements and railroad siding storage and unloading.

The city, Monday night, offered to sell Lee Brothers 125 feet of a 250 foot frontage, along with a block area to the rear of the highway site, for their proposed \$10,333 offered by the firm in a previous letter.

However, last night, commissioners had an opportunity to go over plans of the local firm and determined whether or not the 1/4 mile area was needed.

Commissioner David Gatchel proposed that the entire area be sold to Lee Brothers Plumbing and Heating for \$13,333.

"I feel that Lee Brothers should have priority over everyone else," he said and stipulated the "final offer" for the French Ave. frontage of 250 by 117 feet plus the additional block of property that will be filled.

"I feel that the city has bent over backward and that's about all we can do," he said.

The proposal met the unanimous approval of the board of commissioners.

Brown Will Speak On Zoning Needs

Jaycees will get a closer view of the problems confronting a Zoning Director and some of the reasons behind the need for zoning at their noon luncheon meeting tomorrow.

Robert S. Brown, Seminole County Zoning Commission director will speak to the Sanford-Seminole County Junior Chamber of Commerce tomorrow on three phases of zoning.

He will speak on "the need for zoning," "the problems of zoning," "the methods of zoning" and explain some Seminole County's new zoning laws.

Program chairman for tomorrow's Jaycee luncheon meeting is George Andrew Speer, local attorney and past president of the organization.

Seventh St. To Be Built This Year

"We're going to find the money to build 7th St. this year," Mayor Merle Warner said last night when the question of the disappearance of a \$17,000 fund from a capital improvement program came before the board of commissioners for discussion.

"The 7th St. project was never in the capital improvement project plans," said H. N. Sayer, City Finance Director. The street program was to be planned from surplus funds of the capital improvement program, he said, and when bids for the civic center exceeded the estimate all of the funds were utilized.

Commissioner Earl Higginbotham said "I haven't changed my mind about 7th St.—it's still in."

And commissioner A. L. Wilson commented "We don't have the money but it will be built."

City Manager Warren F. Knowles told the board of commissioners at an adjourned session from Monday night's meeting "We will have the money for the project and plans will be completed in the near future to get it underway at the earliest possible moment."

Commissioner Higginbotham explained at last night's session that "the city is in better shape now than at any time in its history."

The entire board of commissioners was on record at the two-hour session last night that the 7th St. project would be completed.

However, the city is faced with a broad street improvement program including the rebuilding of streets and the resurfacing of streets. Already in the city's budget is \$65,000 for street improvement, outside of the \$17,500 7th St. plans.

Employment Group To Open Office Here Next Monday

The Florida State Employment Service will open its Sanford office on Monday, Tom Lawton, director of the Central Florida Office said today.

"We will be opening then," he said, "but it will take about a week to get our equipment in and straightened out."

Appointed to manage the local office of the Florida State Employment Service is D. B. Hahn, a Seminole County man living in Fern Park.

The office will be open five days a week, Monday through Friday, from 8 a.m. to 5 p.m., according to the new local manager.

Heretofore, the Florida State Employment Service has been using facilities at the Sanford City Hall before securing the location at 110 West Second St.

THIS FRAME DWELLING AT 113 Sanford Ave. was virtually destroyed by fire this morning shortly before 4 a.m. Fire Chief Mack N. Cleveland Sr. directs fire fighters in containing the blaze within the structure. This picture was made just as flames began leaping from under the structure's eaves. (Staff Photo)

3 Fires Reported In Last 24 Hours

Three fires during the 24 hours ending at 8 o'clock this morning which could have easily turned into a conflagration were brought under control by the Sanford Fire Department.

Shortly before 11 o'clock yesterday fire caused by a defective fuse was contained in the roof of a frame dwelling at 113 West 9th St. Smoke poured from the eaves of the house as firemen battled the smoldering blaze to bring the fire under control with a minimum amount of damage.

Fire Chief Mack N. Cleveland Sr. said damage to the dwelling was light.

Yesterday afternoon, shortly before 4 o'clock, oil which had ignited in the boiler room of Burns Dry Cleaners at 214 Cypress Ave. could have turned into a disastrous blaze in a heavily populated area. However, said Chief Cleveland, fire damage was contained in the boiler room.

A minimum amount of smoke

damage was estimated to the stack of clothing which had been cleaned and stored in the front part of the frame store building. The flames were caught just seconds before the boiler would have exploded.

Despite high winds and below freezing temperatures this morning, just before 1 o'clock, roaring flames in a frame dwelling at 113 Sanford Ave. were brought under control in less than an hour.

Hampered by the terrific east and northerly winds, flames contained the flames within the wooden residential structure and prevented them from spreading to two filling stations and other business buildings in the area.

A Negro man, D. E. Williams, said Sanford Police Department Patrolman Earl Baugher, was awakened by the fire and was forced to jump from the second floor of the building while his clothes. The patrolman said that the man was scratched and bruised.

Follies Nets \$5,232 For Hospital

A final financial report on the High Fever Follies presentation was made last night before the Board of Trustees of Seminole Memorial Hospital by Mrs. Martha Blackwelder, president of the Women's Auxiliary and Mrs. Polly Brubaker, who served as chairman of the High Fever Follies.

The meeting was held last night in the board room of the hospital. A check for the net proceeds of the annual show was presented to A. B. Peterson Sr., chairman of the hospital's Board of Trustees, for the purpose of securing a blood bank refrigerator, an air compressor, an isotope, and a rocker for the hospital.

It was reported that the net profit of the annual High Fever Follies presentation amounted to \$5,232.

In receiving the check, Peterson

commended Mrs. Blackwelder and "all of the Auxiliary members" for the tremendous job they had done.

He called to the attention of members present the "outstanding work" of Mrs. Brubaker chairman of "High Fever Follies and expressed the gratitude of every person present for the successful efforts put forth."

A special commendation and recognition was given for the "splendid work of the Navy" in contributing to the success of the Follies.

Dr. Vincent Roberts, Chief of Staff, conveyed the appreciation of the entire medical staff to the Women's Auxiliary for their "outstanding work in achieving this worthwhile benefit."

Mrs. D. E. Brubaker, chairman of the High Fever Follies of 1958 has issued the following report on the High Fever Follies:

"On behalf of the Seminole

Memorial Hospital Women's Auxiliary and myself, I wish to extend to the citizens of Sanford and our neighboring communities, and to all military groups attached to the Sanford Naval Air Station, our deepest gratitude for the support and effort which was so generously given to the High Fever Follies."

Mrs. Brubaker said "Without your participation, without your confidence and good wishes, this endeavor could not have been successful."

She added "As the result of your effort and support, the sum of \$5,232 has been raised. With this fund, the Seminole Memorial Hospital will be able to purchase an isotope rocker, and a blood bank refrigerator in addition to maintaining the present facilities for the care and comfort of patients."

Seminole County's Citizens' Committee Is Big Step Forward

Another great stride has been taken in Seminole County toward solving some of the problems confronting the Board of County Commissioners.

A committee of eleven persons, appointed to study some of the problems of the county, met with county commissioners to receive instructions and to discuss the various phases of county business which must be looked into in order that a solution be reached.

An Oviedo Businessman was named chairman of the group. B. F. Wheeler Jr. was named to the post which will head up the study group.

We believe that Seminole County has now made a definite move forward in turning the study over to a group of eleven successful businessmen who are, each one, familiar with the problems for they are affected to a great extent by the conditions now existing.

Those who are serving the county as an advisory committee to the Board of County Commissioners are: Randall Chase, B. F. Wheeler Jr., William G. Kilbee, Vernon W. Dunn, Richard McCanna, A. W. Lee, J. Denver Cordell, J. Bralley Odham, Robert P. Lamont, George A. Speer Jr., and Mack N. Cleveland Jr.

Each of the group of outstanding Seminole County Citizens seemingly believes that the basic problem of the county lies within the confines of tax structure.

We believe that these men, coupled with the authority vested in them by the Board of County Commissioners will resolve to dig deep into the problems now existing and attempt to come up with a solution that will help Seminole County cope with its "growing needs."

Commissioners yesterday spoke frankly with members of the committee in telling them of the problems with which they are confronted and members of the committee in turn, spoke frankly with commissioners regarding the charge they were undertaking.

It is healthy when a governing body of a community has the confidence of its citizens—the confidence in them to such an extent that many hours are spent in consultation, meetings, study and discussion about these problems in order to come up with a suggestion as to how our problems might be met.

We recommend the Board of Seminole County Commissioners for the forward step they have taken in appointing a citizens committee to help solve some of our county's problems—and we commend the committee and each of its members for offering their services in a great time of need.

It is wonderful to see the spirit of cooperation existing in Seminole County today—a cooperation seldom seen in a fast growing community such as ours.

Postal Savings System Outmoded

The federal government's Postal Savings System filled a genuine need when it was established nearly a half century ago. But the tremendous changes wrought during that half century have so altered our national life that the use of post offices as banks is no longer necessary or sensible.

In 1910, the transportation was slow and there were relatively few banks. This combination of factors put banking facilities out of reach of many citizens, in rural areas especially. Also, banks were less dependable in those days; they were not as carefully regulated as they are in our time.

Under modern conditions, the Postal Savings System is costing the taxpayers money. There might be some excuse for that if larger numbers of people were still dependent on postal savings facilities, but this is not the case. Therefore, the Postal Savings System should be discontinued.

Veterans Corner

Here are authoritative answers from the Veterans Administration to questions of interest from former servicemen and their families:

Q. I have to take a physical examination to reinstate my GI insurance. Is there a time limit on sending the examination report to VA?

A. The report should be sent immediately. If you delay more than five days, you must submit a statement that you are in as good health as you were when examined. If you delay more than 31 days, the report will not be acceptable; you will have to take another examination.

Q. Are "passotins" veterans entitled to VA hospital care?

A. Yes, but only if they were discharged for a line-of-duty disability or if they are receiving compensation for a service-connected disability.

Q. I am eligible for a VA grant for a "wheelchair house," but I already have purchased a home on my own. Could I use this grant to pay off my mortgage?

A. Yes. A "wheelchair housing" grant may be used to pay off the indebtedness of a home which you already have acquired.

Q. I have a service-connected disability rated at 30 percent. Would I be entitled to extra compensation because of my dependents?

A. No. The only veterans entitled to additional compensation for dependents are those with service-connected disabilities rated at 60 percent or more.

TODAY'S THOUGHT

"The Lord is the keeper of the Lord in the shade upon the right hand."

My New York

BY MEL HEIMER

NEW YORK—This is a town where, by and large, celebrities are taken in stride. The appearances of Sinatra in town seldom touches off riotous demonstrations and Gina Lollobrigida can walk along 52nd street without being mobbed. Truthfully, however, there is one man who these days is trailed by small boys, dogged women and even blasé nudes when he hits town. His name is Alfred Hitchcock and his current occupation is television matinee idol.

"It was never more surprised," said Hitchcock—whom one can't imagine looking surprised—on the other day, "than when I was making a movie in New York not too long ago and discovered my public virtually breaking down police lines to get at my alpha-like person."

"It was the film I made with Henry Fonda, about the police arresting the bass player for a crime he didn't commit—and when we were shooting scenes in Jackson Heights, in Long Island, the clamor and hue and cry about my enchanting person became an out-of-hand thing. Finally the condenser told me firmly to get into my car and drive around the block until they thinned things out. So I did, followed by adoring small boys on bicycles. I must say I was definitely touched."

ALL THIS FUSS over the aging, round man is, obviously, prompted by his brief weekly appearance on the television show Alfred Hitchcock Presents, a program with which, ironically, he has little to do. His capable assistant, Joan Harrison, produces the half-hour dramas and Hitchcock makes his perky appearances from time to time, baiting the sponsor . . . or, as he describes the show's backer, "my worthy opponent."

Its most significant development, however, is that it has given Hitch the status of a movie star—and his apathy toward actors always has been widely and truly proclaimed.

"I've been quoted as saying that they are cattle. Of course, there are good and bad cattle. ALL actors are children, naturally, but some are better behaved and more tolerable than others."

He spoke in reverent tones of the late Carole Lombard, the complete woman, who, when Hitch-

cock was about to direct her in Mr. and Mrs. Smith, set up a corner of the movie set as a corral and placed in it three cows with tags around their necks reading "Robert Montgomery," "Gene Raymond" and "Carole Lombard." "Bless her," Hitch murmured. "In the patsis, they don't hardly make them like that any more."

I mentioned that he just had finished directing Miss Kim Novak in a new film, Vertigo, and suggested that in doing he had bitten off more than he could chew. I had just seen Pal Joey and thought it only conservative to say that Miss Novak had given the worst performances I ever had glimpsed. Hitch demurred. "Bet me a box of cigars," he suggested, "and get ready to mail them to me in California."

"I used elementary psychology on Miss Novak, winning her confidence and riding her at least temporarily of her fears and complexes . . . and would like to claim that in Vertigo she makes like a good actress. Am I too brash? Perhaps I should just say modestly that under my direction she isn't lousy."

HE STILL LOATHES ACTORS but he admits blithely that he apparently has a small streak of ham in himself. "I am too old and too world-wise," he declared, "to

Inside Washington

BY HENRY CATHCART

Central Press Washington Writer
WASHINGTON—Some House members are broiling over what they consider a "snub" by the Senate in taking the outer space investigation out of the hands of a subcommittee of the joint atomic energy committee.

Senate Majority Leader Lyndon Johnson, seeking to avoid conflict and duplication in the outer space probe, came up with a plan for organizing a blue-ribbon committee composed of ranking members of six committees who have some interest in the matter.

Senator Clinton P. Anderson, vice chairman of the joint atomic energy committee, had hearings all set to go before the House-Senate subcommittee on outer space when Johnson sprung his plan. Anderson promptly indicated he would call off his hearings and let the new Senate committee conduct the investigation.

This left the House out of outer space, so to speak, and congressmen interested in the problem didn't take it lightly.

A result may be that the House will set up its own all-star committee just as the Senate did, leaving things a little better than they started.

ECONOMY AND TAXES—The prospects of a serious recession, or a depression, are remote. As of mid-February, the overall economic situation could best be described as a slight downhill run. Some segments of the economy, notable home building and auto

sales, which had an unprecedented boom after World War II, are feeling the pinch.

Most talk centers around a tax cut. However, Theodore O. Yntema, Ford Motor company vice president, has come up with a different idea—a tax moratorium. Under his plan, tax collections would take a holiday when unemployment reaches a certain figure, say five million. He believes that such suspensions would provide a shot in the arm for the nation's economy.

GOP UPSURGE—The Army's successful launching of the first "Made in America" satellite has Republican leaders walking a-

round with big smiles these days. Ever since the Explorer was sent soaring into the skies, the Republican hierarchy has shown signs of coming out of the doldrums that have engulfed them—what with satellite failures by the Navy and charges of lack of leadership.

However, the Jupiter C with the baby moon aboard was like a "shot in the arm" to red-faced Republicans. In fact, Capitol Hill is buzzing with reports that the GOP high command is looking forward to the congressional elections in November with optimism.

Although there appears to be little or no chance of the GOP winning the House, there is an outside possibility the Senate will go Republican. At present, the Democrats hold a 49-47 majority in the upper chamber. An upset here and there, however, could change the picture entirely.

Missionary Relates Experiences While In Red China Prison

World Mission's Day was well attended at the Presbyterian Church when Miss Sara Perkins, missionary, who was a prisoner of the Chinese Communists for four and one-half years, gave an informative and inspirational talk on her experiences. Half of this time was spent in solitary confinement, in a cell about six by 11 feet, with only a tiny high window, out of which she was forbidden to look.

She said that "We in America do not appreciate our blessings. Can you imagine what it would be like in a cell day in and day out, nothing to do, no one to talk to, nothing to read?" she continued. "That's when it is good to have God's word hidden in your heart," she said. "No one can take that comfort from you."

She told how she repeated over and over verses she had memorized; how her faith was strengthened and how she trusted that God would, in His time, bring about her release.

The gullibility of Americans about Communists is astonishing, she related. Visitors see only what the Communists want them to see, go only where they are allowed to go and hear only what they are permitted to hear. They talk of freedom of religion, but say the reason Christianity grows is

Order Of Service For Day Of Prayer From Australia

From "down under" comes the program of the World Day of Prayer to be presented locally at 10 a. m. Friday at the Congregational Christian Church, located at 21st Street and Park Ave.

A group of women who are members of churches within the Australian Council for the World Council of Churches have planned and written the order of service. Mrs. P. T. Plety, local chairman has announced. The participating groups in this Council are the Church of Christ, Society of Friends, Church of England, Congregationalist, Lutherans, Methodists and Presbyterians. Mrs. Plety further stated that it is estimated that 70 percent of the 10,000,000 population of Australia is directly related to these groups.

The Australian Aborigines, who are original residents of the continent, have written some of the prayers that will be heard on Friday. These people, numbering approximately 60,000, have a tribal society. The government of Australia is giving serious consideration to their needs, and is making a definite effort to preserve their arts and crafts and patterns of society and religious life.

Mrs. Plety has stated that a mezcuz will be available during the service Friday.

Church Calendar

WEDNESDAY
First Presbyterian Church will meet for supper at 6:00 p. m., and will meet for rehearsal at 8:30 p. m.

The Senior High Fellowship of the First Presbyterian Church will meet for recreation at 7:00 p. m.

Joey Muse Honored On 14th Birthday

LAKE MARY—Mr. and Mrs. R. E. Muse were hosts at a birthday party Friday night honoring their son Joey on his 14th birthday. The guests were served hamburgers, cake, ice cream, and punch. During the evening movies were taken of the group by Joey who received the camera as a birthday gift.

Spending the evening at the lake front home were Sharon Hiser, Danny Brumley, Debbie Scott, Duvy Crawford, Mackie Robinson, Anne Crapps, Ken White, Jean Henson, Edlin Hodson, Jean Jones, Joan Robson, Carole Higginbotham, Roy Wright, and Bobby Lankford.

GREETING ONE OF THE guests, this one from Afghanistan, is Mrs. Hugh O'Hara at the Shrove Tuesday tea given yesterday by the Woman's Auxiliary of Holy Cross Episcopal Church. Left to right, Mrs. Alice Lovell, Mrs. O'Hara, Miss Carol Stone, Mrs. John Thomas. (Photo by Bergstrom)

150 Attend Shrove Thursday Tea Held Yesterday In O'Hara Home

Sanford ladies by the dozen attended the Shrove Thursday tea given yesterday afternoon at the home of Mrs. Hugh O'Hara by the Woman's Auxiliary of Holy Cross Episcopal Church.

The O'Hara home was beautifully decorated for the event, with an eye for simplicity and line. The theme "In an Oriental Garden" was effectively achieved by Mrs. Irvin Fleischer and Mrs. Harry Cushing with their sweeping arrangements of lavender caryophylls, pussy willow and dried grasses. Gay Japanese lanterns were hung at the entrance and again inside the house.

Members of the Auxiliary greeted guests at the door. In the receiving line were Mrs. O'Hara, Miss Carol Stone, and the Rev. and Mrs. John Thomas. They were dressed in robes from China and Afghanistan.

The serving table was covered

Girl Scout Cookie Sale Enters Final Week In Sanford

The Girl Scout Cookie sale is in its second week here in Seminole County. Sales are lagging due to the extreme cold weather. Both the scouts and their parents are hesitant about braving the icy winds.

The cartons of cookies, both mint and cream filled were received by Mrs. Higginbotham, neighborhood cookie chairman. Mrs. Higginbotham reported today that all but sixty cartons of the mints have been distributed among the girls. There are twelve boxes of cookies to each carton.

Sanford residents who would like to purchase cookies, but have not been contacted, are asked to call Mrs. Higginbotham, FA 2-6428, Mrs. Randall Chase, FA 2-2001, Mrs. Lewis Millspaugh, FA 2-1921, Mrs. Joe Tully, 3728.

The cookie sale is an annual event with Brownies, and Girl Scouts. Two cents from each box are returned to the individual troops for their use throughout the year. Profits on the rest of the box are utilized to continue the improvement of Camp Tihchee, the Girl Scout camp used by girls in this area. Last year the funds paid for thirty-two tent platforms, a wash house, a dock and other buildings. Plans are being made now to build more tent platforms and an assembly hall or lodge.

Since the weather has been so detrimental to the cookie sales, it is hoped that Sanford and Seminole County residents will assist the Girl Scouts by requesting the cookies.

Garden Circles

DRIFTWOOD CIRCLE
Driftwood Circle met Monday morning at the home of the chairman, Mrs. Carl Tegelfelt.

Homeowner Osburn, of the Kluge Seed Company, talked to the group on the treatment of frozen plants; how and when to fertilize and the best citrus trees to buy to withstand cold and insects.

Attending were Mrs. John Barlow, her aunt from Philadelphia, Mrs. William Zimmerman, Mrs. Monty Lilleboe, Mrs. Herschel Cummins, guests of Mrs. Barlow, Mrs. Howard Weigle, Mrs. Ernie Mills, Mrs. Herschel Pahl, Mrs. Ed Graham, Mrs. Richard Fowler, Mrs. Tom Kileline and Mrs. Lewis Millspaugh.

HEMEROCALLIS CIRCLE
The Hemerocallis Circle met at the home of Mrs. D. E. Brubaker last week. The seventeen members present were treated to a talk by Mrs. Helen Wingquist on Begonias.

The business meeting was conducted by the chairman Mrs. R. L. McKnight. Miss Edna Chittenden and Mrs. M. E. Baker ran a white elephant sale.

Co-hostesses for the meeting were Mrs. Watson Reel and Mrs. E. J. Nix.

Miss Monforton Reveals Plans For Wedding

Final plans have been revealed for the approaching marriage of Miss Sandra Monforton to Ensign John Frederick Wilson. Miss Monforton is the daughter of Mr. and Mrs. Edmour Arthur Monforton. The groom elect's parents are Mr. and Mrs. A. L. Wilson.

The ceremony will take place at 7:30 P. M., February 22 in the First Baptist Church.

Conducting the service will be Dr. W. P. Brod's Jr. and the Rev. David S. Carreña, the latter of the Christian Missionary and Alliance Church. The organist will be Miss Joan Wilkie. Soloists are Gerald Covington and Dick Aiken.

The bride has chosen her twin sister, Miss Sonia Monforton as her maid of honor. Bridesmaids are Miss Harriett Redding, Miss Margaret Morrison, Miss Marianne Strickland and Miss Marty Stenner.

Best man for the groom will be Jack Schirard. Groomsmen are Donald Howard, W. R. Jennings Jr., Marc Danforth of Orlando, and John H. Wilson Jr. of New Smyrna. Cousins of the groom, Ushers will be Walter A. Cook and Bob Morris.

Gail Cowan, daughter of Mr. and Mrs. Ralph Cowan Jr. will be the flower girl. The ring bearer is to be David Cook, son of Mr. and Mrs. Walter A. Cook.

Cousins of the bride, Terry Gross and Douglas Stenstrom Jr. will light the candles on the altar.

A reception will follow the ceremony in the Educational building of the First Baptist Church.

Calendar

WEDNESDAY
Prayer Meeting will be held at the First Baptist Church at 7:30 P. M.

The Civic and Fine Arts Department of the Sanford Woman's Club will have a covered dish luncheon at 12:00 P. M. Mrs. R. T. Warren will sponsor the program on "Home Demonstration Work". The speaker will be Miss Myrtle Wilson.

The Fine Arts Department will have a Bible Program at 2:00 P. M., sponsored by Mrs. Joe Corley.

The Sanford Women's Club will have a call meeting of the Social Dept. for election of officers. The meeting will be held between the Civic and Fine Arts meeting.

The Chief Wives Club will meet at the C. P. O. Club at 8:00 P. M. All members are urged to be present. Refreshments will be served.

THURSDAY
The Camella Circle of the Sanford Garden Club meets Thursday at 8:00 P. M. at the home of Mrs. Ralph Bette, 1317 Sanford Ave. Co-hostesses will be Mrs. Dan Batten and Mrs. Bill Gramkow. The speaker will be Mrs. E. L. Vihlen.

The V. F. W. Blood Bank, Post 3282, will be held from 3:30 to 6:30 in the Post Home. A free chicken dinner will be given to all donors.

Regular meeting of Seminole Chapter No. 2 Order of the Eastern Star will hold their regular meeting at Masonic Temple 8:00 P. M. Thur. Feb. 20th.

Annual Garden Club luncheon at 12:30 p. m. at the Mayfair Inn. Mrs. Ira J. Varajdos will be the speaker.

FRIDAY
George Washington Birthday Ball at the B. O. Q., N. A. S. Dinner will be served from 7:30 to 9:00.

SATURDAY
The Camella Circle of the Sanford Garden Club meets Thursday at 8:00 P. M. at the home of Mrs. Ralph Bette, 1317 Sanford Ave. Co-hostesses will be Mrs. Dan Batten and Mrs. Bill Gramkow. The speaker will be Mrs. E. L. Vihlen.

The V. F. W. Blood Bank, Post 3282, will be held from 3:30 to 6:30 in the Post Home. A free chicken dinner will be given to all donors.

Regular meeting of Seminole Chapter No. 2 Order of the Eastern Star will hold their regular meeting at Masonic Temple 8:00 P. M. Thur. Feb. 20th.

Annual Garden Club luncheon at 12:30 p. m. at the Mayfair Inn. Mrs. Ira J. Varajdos will be the speaker.

FRIDAY
George Washington Birthday Ball at the B. O. Q., N. A. S. Dinner will be served from 7:30 to 9:00.

Chevy Takes 1st, 2nd Places In NASCAR Race

DAYTONA BEACH—Buzzy McCammon of Dugger, Ind., won first place honors Monday in the official two-way flying mile speed runs for the "big three" stock production automobiles with standard transmission in the NASCAR race.

His two-way average speed was 114.800 miles per hour in his Chevrolet. Dr. William Webb, Orlando, was second with an average of 114.400 in his Chevrolet. Third place went to Bud Wilcox of Lakewood, N. Y., who drove his Ford to an average two-way speed of 116.000. Wilcox recorded the fastest one-way speed of 120.927.

Mrs. Vicki Wood, Detroit, driving a Ford Thunderbird, made the last lap in the Century Club one-way run for the general public of any type of automobile. Her average was 147.179 miles per hour.

A pair of red hot Virginia drivers, Curtis Turner of Roanoke and Joe Weatherly of Norfolk, will be wheeling a pair of Florida-owned cars in the 125-mile modified-sportsman race over the 4.1 mile beach and road course here Friday, February 21, and a pair of 1958 Fords in the two late model events Saturday and Sunday, Feb. 22 and 23.

Turner is slated to drive a modified Chevrolet coupe owned by Smith S. Kirk of Ft. Lauderdale in the 125-mile and Weatherly will pilot a 1957 model modified Ford with an Edsel motor in the same event. The Weatherly entry is also owned by a Ft. Lauderdale man, E. L. Montgomery.

The Roanoke speedster, winner of the 1958 160-mile convertible race here and winner of the 500-mile Grand National at Darlington Raceway that same season, has announced that he will be driving Fords in both late model events this season. Earlier, Turner was slated to drive one of Champion Bob Welborn's 1958 Chevrolets here, but under the new arrangement both Turner and Weatherly will remain in the Ford ranks, competing in both the convertible 160-miler on Saturday, Feb. 22, and the 160-mile Grand National on Sunday, Feb. 23.

The two champions of the modified and sportsman circuits for 1957 are among those already entered for the 125-mile modified-sportsman race. Ken Marrott of Baltimore, Md. won the modified crown last year and Ned Jarrett of Newton, N. C. won the national sportsman crown.

At "Speedy" Thompson of Charlotte, N. C. won the modified-

sportsman race here last year, establishing a new record with an average speed of better than 99 miles per hour after Bob Reuther of Nashville, Tenn. had established a new record in qualifying at a pace of 150.250 miles per hour.

SNOW CANCELS PRACTICE
CLEMSON, S. C.—Head football coach Frank Howard took one look at Clemson's snow-covered practice field Monday and decided to postpone spring drills indefinitely. The temperature plunged to zero on the campus Sunday night.

FELLER AT THE MIKE
NEW YORK—Bob Feller is the latest ex-major leaguer to join the radio broadcasting fraternity. The former Cleveland Indian's strikout artist will serve as a play-by-play announcer on the Mutual Broadcasting System's "Game of the Day" program this season.

CHICAGO GETS SOUTHPAW
CHICAGO—The Chicago White Sox have signed Chuck Henderson, a Hamline University baseball and basketball player, and assigned him to Indianapolis of the American Association. Henderson is a southpaw pitcher.

Al Robbed DImag
Sandy, at least, can't complain that he wasn't given his chance. He lasted two years after the breath-taking grab which permitted the Dodgers to win their first and only world championship.

Gionfriddo was gone the next season after he robbed Joe DImaggio of a home run. The answer might have been that his catch was in vain because the Yankees went on to capture that 1947 classic.

Little Althus had only one moment in the warm glory of the baseball sun. It came in the sixth inning of the sixth game in '47 when, with Brooklyn leading, 8-6, the Yankees put two men on base and DImaggio teed off on a Joe Hatten pitch with a shot which figured to tie it up.

Gionfriddo had been inserted into the ball game that inning for defensive purposes and he raced back to the left field bull pen to snare DImaggio's belt at the 415 foot mark. It was one of the most spectacular catches in World Series history. It saved the game, although the Yanks won the next day.

Back To Minors
But the following spring, tiny

Today's Sports Parade

By OSCAR FRALEY
United Press Sports Writer
NEW YORK—Sandy Amoros knew today what another little man named Al Gionfriddo found out 10 years ago.

In sports it's easy to be a hero yesterday and a bum today.

Sandy, the pint-sized Cuban, has been sold back to the Montreal farm club by the Los Angeles Dodgers. It's a trip Gionfriddo made with even greater suddenness just a decade ago.

Both of them received their walking papers after being World Series fielding heroes, a pair of sixth inning sensations who were frustrated in the end by anemic bats.

Wildcats Strengthen Grip On Lead

By EARL WRIGHT
United Press Sports Writer
NEW YORK—The Kansas State Wildcats, closing in on the Big Eight Conference basketball championship, today strengthened their grip on first place in the United Press major college ratings.

The Wildcats, who led West Virginia by one point last week when they took the No. 1 spot from Kansas, widened their margin to 14 points in the latest balloting.

The 25 leading coaches who rate the teams for the United Press gave Kansas State 17-1 23 first-place votes and a total of 321 points. The coaches based their ballots on games played through Saturday, Feb. 15.

West Virginia 20-1 remained second with five first-place votes and 287 points, but was only five points ahead of the Cincinnati Bearcats. Cincinnati 18-1 received

Shantz Signs 1958 Contract

Southpaw Bobby Shantz, one of the smallest players in the major leagues who made a big comeback with the New York Yankees last year, has signed his 1958 contract.

Shantz ran off a string of eight straight victories for the Yankees early in the 1957 season and hit the halfway mark with a 9-5 slate. He talked off somewhat during the last half of the campaign but still wound up with a respectable 11-3 record.

The Yankees also announced that Tony Kubek will report to their instructional camp at St. Petersburg, Fla., this week for spring training at second base, renewing reports that they may trade Bobby Richardson to the Cleveland Indians for relief pitcher Ray Narisek.

If Kubek learns the second-bagger's job fast enough this spring, maybe that long-discussed Richardson-for-Narisek trade will be completed.

The Detroit Tigers announced the signing of third baseman Reno Bertoia and rookie pitcher Chuck Daniel. Bertoia, a former bonus baby, worked his way into the Tiger lineup last year, hitting .315 in 97 games. Daniel had a 9-13 record at Charlotte last season.

The gnawing teeth of beavers keep growing year after year and this persistent growth takes care of the wear on the teeth.

Gold is called the metal of the sun and silver the metal of the moon.

FIREMEN CONTAIN BLAZE within the roof of a frame dwelling in a highly congested area yesterday. Only slight damage was estimated because of the quick action during a windy period. (Photo by Bergstrom)

Oviedo Beats Lyman Last Night 36-31

By MARIAN JONES
The Oviedo Lions played Lyman in the local gymnasium last night in near freezing weather. It was more exciting than the previous game with the same team and the local boys won without their center Carl Fabry in the game.
The half-time score was 17-16 in favor of Oviedo. The first quarter was 6-4 in favor of Lyman, the third quarter was 25-21 in favor of Lyman.

3 Fires

(Continued from Page 1)
ed when he jumped into shrubbery alongside the dwelling.
Fire Chief Cleveland said the fire started in the rear of the building on the first floor and rapidly spread throughout the structure. The building was virtually destroyed in the early morning fire discovered by a passerby. Swift action on the part of firemen, however, kept the billowing smoke and flames from spreading. Smoke boiled from the wood structure and flames leaped high out of the second story and from the rear of the building. However, fighting the fire from the north and west sides of the dwelling brought the fire under control at 4:45 this morning.

Wagner Resident Succumbs Monday

Mrs. Nancy Rose Clark, 82, of Wagner passed away Monday at 8:45 p.m.
Born April 29, 1875, Mrs. Clark came here in 1908 from Dallas, N. C. She was a Baptist by faith.

The Sanford Ave. frame structure was reported to be owned by Montez Harris.

Patrolman Bourquard said that he had passed the building only a few minutes before the alarm was sounded and there was no evidence of fire at the time. D. J. Williams, sleeping on the second floor of the building, said he had a heater lit. He apparently believed the fire started from an explosion of the stove.

Run Happy Strong Contender Tonite

Run Happy may be the dog to watch in the midweek headliner scheduled for the 10th race tonight at the Sanford-Orlando Kannel Club.
W. F. Swafford's 10-pound star has won two straight, including an impressive victory in the top race of last week Saturday. Run Happy came from behind to win by a nose over pacesetter Aubrey Phillips in a thrilling blanket finish.
Run Happy boasts a total of six wins, two seconds and a third in 18 starts.
Aubrey Phillips, the brilliant pup who won't be two years old until June, also rates as a strong contender in the five-sixteenth mile test. Rob Bennett's young ace has bagged five wins and two seconds in nine straight attempts.

CHEVROLET TAKES "BIG THREE" TITLE
Burns Flying Mile at 116,599 MPH
It's a secret! The hot one is still hot.
Although Detroit manufacturers have dropped the advertisement and promotion of speed this year, Chevrolet followers were shouting about Buzzy McCammon's winning performance in NASCAR's flying mile runs on the beach for "popular" price cars.
McCammon, a new car dealer from Duggers, Ind., averaged 116,599 mph in a 1938 Chevrolet four door sedan to win the "Big Three" title this year.
In the "Big Three" competition limited to Chevrolets, Fords and Plymouths with a single carburetor, standard production camshaft, automatic transmission and standard clearance, Chevrolet duplicated last year's feat when its factory tuned entries finished one-two. All competitors in the trials this year are independent.
Dr. William Webb, Orlando, placed second yesterday in a 1938 Chevrolet Impala, averaging 116,496 mph.
McCammon's fast time was just short of the "Big Three" record of 118,400 mph set last year by Al Simonsen, Cambridge, Wis., in a 1937 Chevrolet.

Proposed Jail Plans To Be Given At Special Meet

The Board of Seminole County Commissioners, yesterday afternoon, heard a report that Langston Construction Co. was removing fill dirt and clay from the county-owned Upsala Road Clay pit.
Commissioners agreed to send the construction company a bill for \$300 to cover the cost of dirt and clay removed from the pit.

The board also heard a report that Mrs. Inez Meredith of Altamonte Springs had ordered an employee to use a county owned trailer parked on a road in South Seminole County.
Chairman John Krider said that the switch had been "wired around" in order to start the machine.

However, commissioners were told that the machine was torn up on a side road resulting in \$80 damage to the machine and loss of two days work scheduled for the grade.

Mrs. Meredith, commissioners said, will be called before the board to explain.
It was revealed yesterday that proposed plans for a jail and renovations to the county court house will be presented to the Board of Commissioners at a special session of the board Thursday afternoon.

The board will first sit at 2 o'clock as a Board of Adjustments to hear a request for a variance from county zoning regulations. The Rev. H. M. Snow is slated to appear before the board to appeal a regulation requiring off-street parking in the Pinecrest area.
Other business delayed from yesterday's session, said Chairman Krider, will be considered at the Thursday afternoon meeting.

'Ted' Lockett Dies In DeLand

Edwin "Ted" Lockett, 39, died in the Fish Memorial Hospital at DeLand at 12:15 a.m. today following an illness of about two years.
Mr. Lockett was born Feb. 5, 1899 in Cornwell, England and came to Sanford from Detroit, Mich., 25 years ago.
Prior to his illness he was employed as a produce salesman for K&W Fruit Co. His residence was on Riverside Ave.
Survivors include his wife, Mrs. Alice Lockett, Sanford; one son, Edwin James Lockett, Sanford; two sisters and two brothers all living in England.

Commission Okays Reinstatement Of Items In Center

Board of Sanford City Commissioners last night approved the reinstatement of all items removed from the plans for the Sanford Civic Center.
Eight items were placed back into the building plans at a cost of approximately \$13,000. They include: automatic controls for the air conditioning system; sliding glass doors for the recreation wing; white spray for the roof of the auditorium; aluminum shades for the auditorium; stage curtains and public address system; toilet partitions changed to enamel metal; folding partitions for the recreation wing; and the remainder of the kitchen equipment.

Cost of the items reinstated will be deducted from monies from the sale of 53 acres of city-owned land in J. Bralley Odham for an estimated \$27,500.
Commissioners ordered that expected funds be placed in the capital improvement fund and allocated for the completion of the Sanford Civic Center.

In the initial stage the deletion from plans weren't as important as they are now, Commissioner David Gatchel stated.
Commissioner A. L. Wilson and Commissioner Earl Higginbotham stated that they were in favor of reinstating all items and continuing with the project.

Due to the lack of funds, when the bids were awarded, some of the less needed items were taken out of the plans in order to come within revenue on hand.
Architect John Hurton and City Manager Warren E. Knowles assured commissioners that the Sanford Civic Center would be ready for the convention scheduled shortly after April 1.

Forecasters

(Continued from Page 1)
ty of acting without much thought; for they are urging much bigger new public works programs right now, on top of immediate tax cuts and easier money." The government report last week that unemployment reached roughly 4% million has given these voices a discernible edge of hysteria.

He commented "Now, before these politically panicked ones pressure the administration and the people into a vast deficit-financed, inflationary 'pump-priming' flood, it might be well to consider where we actually are in this depression."
"That we are in a recession is beyond doubt, but it is highly prevalent to inquire what it is that we have receded from," he said. "The answer is that we have receded somewhat from a peak—the highest peak of general prosperity ever achieved in this or any other nation. As measured by the gross national product, that peak was reached last year."

"To put it another way," said Thompson, "the mild recession of 1933-34 was a decline from a smaller economic base." Said the speaker, "Just since then the economy has expanded a lot. So far, then, the real impact of the present decline may not be as great as it seems; compared even to the early post-war years, this would have been called a time of prosperity."

Then, explained Thompson, "Take steel, for example. The industry is operating at only about 51 per cent of capacity. But that percentage does not mean much unless it is remembered that the capacity has been growing constantly. Half of present capacity is some 70-million tons of steel, a year, which is not only a lot of steel but close to the industry's total capacity not too many years ago."

The same applies to unemployment, explained the speaker. Apart from the temporary misfortune involved for those out of work, the 4% million figure makes economic sense only when related to the total civilian labor force.

"The labor force has grown to nearly 68-million; 4% million out of that is a less serious economic situation for the nation as a whole than 4% million out of a total labor force of say, 63-million—not to mention the days when nearly 13 million were jobless out of a labor force of less than 32 million."

"We make these observations," said Thompson, "neither to minimize the human meaning of the present unemployment figure nor to argue that everything is fine and a big return is necessarily imminent; we have no more idea than anyone else what is in store for the economy. We do say, however, that these forecasts must be faced in order to determine what remedial action, if any, it is wise for the government to take."

Thompson called attention to the fact that "the statistical record shows that all the government's public work projects of the 30's did not cure unemployment; that were still 9 1/2 million unemployed in 1939. But at least that was a depression, not what is still a period of relative prosperity like the

present."

Referring to concern regarding the forces behind prices; the rise of prices and comparable increases in wages, Thompson said "This engine of inflation is fine for the protected workers. But this protection is at the expense of other workers and fixed income recipients who find their real earnings reduced when consumer prices rise. And we businessmen in Florida where much income is from pensions and savings have a real concern over consumer price rises."

WILSON

FOR GET MERRY...
SCORPIA? WHAT IS SCORPIA?

THIS IS SCORPIA. YOU SEE WE EXTEND IN ALL DIRECTIONS. ALL OVER THE WORLD.

THIS IS THE CENTER OF SCORPIA— WHERE YOU ARE NOW. I AM ALSO CALLED 'THE CENTER'.

SCORPIA WAS A 17TH CENTURY PIRATE BAND. WHAT IS IT NOW, WRITER?

NOT MISTER. BARON. BE SEATED. I'LL EXPLAIN.

BESTIE BAILEY

THE MEN AREN'T PAYING ATTENTION AT THE WEAPONS LECTURES TODAY, SARGE.

I KNOW, SARGE. SO I GOT SOME NEW CARBINE MODELS FOR THE LECTURES TODAY.

OH, DO THE NEW M-14-95'S GET HERE?

NO, SARGE...

...BUT THE M-14-95'S DID!

FLASH CARTON

GOOD GEE! WE'VE BEEN TRAPPED, FLASH! LURED RIGHT INTO THE SPRAY OF THOSE CONCEALED NOZZLES!

THE STUFF'S TURNED HARD AS STEEL! I— CAN'T RIGGE!

LOOK, FLASH! COMING DOWN THE CORRIDOR!

ROBOTS!

(HONORARY THE BEAR)

MICKY MOUSE

NEED OF YOU TWO TO HELP ME WITH THE RUSS!

GLAD TO DO IT, MICKY!

I GOTTA GET MY RUSS CLEANED NEXT WEEK, TOO!

WONDER HOW YOUR COUSINS DOING IN THE FRONT ROOM!

NO...NO! REMOVE THE FURNITURE— THEN ROLL UP THE RUG!

BLONDIE

WILL YOU PLEASE GET ME A GLASS OF WATER, DEAR?

I DON'T WANT IT— POUR IT ON MY GERANIUM— IT'S THIRSTY.

POOR LITTLE THING CAN'T ASK FOR A DRINK BY ITSELF.

THE TONY RANGER

SHERIFF!

THE INJUN NOOTED ME, THEN FREED FROSTY AN' THAT MASKED MAN!

BUT WE'LL GET 'EM! I KNOW WHERE THEY'RE GOIN'!

GRANDMA

BILLY, WHY DID YOU DO THAT?

WELL, GEE, GRANDMA, I FOUND JUST ENOUGH SNOW BACK OF 'T' FENCE TO MAKE ONE SNOWBALL.

...AN' I KNOW YOU WOULDN'TO' WANTED ME TO WASTE IT!

ETTA KETT

THEY'RE PLAYING RECORDS, AND THERE'S NOTHING YOU CAN DO! THE RECORDS ARE UNBREAKABLE!

WHAT DID YOU DO, TURN THE HEAT UP? PHEW! I'M MELTING.

YOU'RE NOT THE ONLY THING!

GLAZIER

THE OZARK IKE TEEN CANTEN OPENS WITH ALL THE GLITTER OF A HOLLYWOOD PREMIERE...

THE OLD HOME TOWN By STANLEY

LUCKY THE KID HAS THAT DOG TO KEEP HIM WARM— IF THAT FURNACE OIL MAN DOESN'T SHOW UP PRETTY SOON, I'LL GO JOON JUNIOR— BR-R-R—R—

BUT, JOHN, WE DON'T HAVE A DOG— REMEMBER?

YOU'RE TELLING ME!
By WILLIAM BITT
Central Press Writer

WESTERN saddles with built-in foam rubber seats will soon be available—news item. What's next?—cow ponies complete with power steering and chrome-plated horse shoes?

In the last few elections in South Britain, N.Y., town supervisor has won by one vote. That's what we call a *stradjat* friend.

"It seems to me," pens F. E. F., "that Congress is meeting in the Red rookers' glare!"

Polish Red authorities are worried because the consumption of vodka in that nation has increased two and a half times in the last 20 years. Sure looks like a stiff problem!

To counteract the boom in boozing the Commie regime has upped the price of the hard stuff. Now, for the Poles, Agh life will come even higher.

A total of \$8.18 in coins was removed from a London patient's stomach. Just a small down payment on the doctor's bill!

There seems to be a controversy in England over who were the first to bring a chicken into the British Isles—ancient Belgians, Gauls or Romans? Shucks—maybe the critter just flew in all by its lonesome!

WE WILL SOON BE VISITING YOU...

PLEASE BUY **GIRL SCOUT COOKIES**

THE CARD OF THANKS

Very often a Card of Thanks in The Sanford Herald meets a need which is difficult to fill in any other way. Not only is it a gracious expression of gratitude to those who have sent floral tributes but its courteous acknowledgment by service and business of the many to whom a personal note of thanks cannot well be mailed.

Newsday's Card of Thanks are accepted as socially correct. Emily Post, the noted authority on etiquette, feels they serve many good uses.

There is no prescribed form for a Card of Thanks. It can be as brief or as detailed as you desire. When the occasion comes you will find a sympathetically understanding member of our staff to assist you.

THE "IN MEMORIAM" NOTICE

It is the custom of many families in this country to commemorate a bereavement by an "In Memoriam" notice in newspaper classified columns. They find a real solace through preparation or recitation of a suitable verse which helps to bring back pleasant recollections. As Miss Cook, the English poet has so beautifully expressed it:

How cruelly swift are the echoes
That time
With memory plays an old tune

Most frequently an In Memoriam is inserted on the anniversary of death. However, other dates, which it is felt are appropriate or meaningful are also selected. The birthday of the departed, the wedding anniversary, Memorial Day, even Christmas are among other significant occasions chosen.

If you are hesitant to express your tender thoughts in poetic form, you may still preserve the friend's collection of original verses. These verses in poetic beauty the emotions of the heart strings. Among them are verses appropriate to any circumstance.

THE PAGE

Cards of Thanks and In Memoriam notices, due to the fact they may run to considerable length are billed at 10.00 per column inch.

TV Review

By WILLIAM EWALD
United Press Staff Correspondent
NEW YORK — Unless I miss my guess, and I usually do, ABC-TV has a hot Saturday evening program in its new "Dick Clark Show."

Clark, a baby-faced young man, has been operating an afternoon program, "American Bandstand," at ABC-TV for several months now. It's a cheapie show that features the records and artists the kids are buying. And let's face it, the kids are buying almost all the pop music.

Clark's new half-hour show also is a cheapie — low budget, shoddy production and what looked like lip-synching to records by a couple of performing guests.

But Clark's offering has something all of the other TV music shows this season have lacked: vitality. Clark's show is alive and so are the kids in his audience. Clark knows what the kids are listening to and his show is built on his knowledge. He knows they're not listening to Eddie Fisher or Glisole MacKenzie or Kay Starr, a premise other TV programmers seem unable to comprehend.

New Names Come and Go
 With the kids are listening to a whole crew of new names who come and go, but who all have one thing in common—records with a big beat. Some of these names: The Royal Teens, the Silhouettes, the Diamonds, the Rays, Danny and the Juniors, the Crescendos, Billy and Lillie and such singles as Ricky Nelson, Elvis Presley, Paul Anka, Frankie Avalon.

Some of these appear occasionally on such shows as CBS-TV's "The Big Record," but Clark's show is the first network show to devote itself exclusively to these artists the teen-agers are buying. Thus far, I haven't mentioned "Rock 'n' Roll" and purposely so. Rock 'n' Roll is a loaded phrase nowadays, a scare phrase. And obviously, it doesn't mean much anymore when such fine blues singers as Ruth Brown, Little Walter, Bo Diddley, Ray Charles and Big Maybelle have had the label hung on them.

Debasing the Blues
 What many observers object to, and rightly so, is the debasement of the blues that is going on — the synthetic shouting, the rickety-tick posturing, the just plain bad musicianship of some of the performers the teen-agers seem to be gorging themselves on.

Saturday, Clark's show featured Pat Boone, the Royal Teens, Chuck Willis and Jerry Lee Lewis, all of them very hot products. But I imagine it'll take a little time before the kids figure it out. Anyway, the Clark show is a show to watch. The teen-agers

More Public Recreation Space Needed

By FRED BANKS
United Press Staff Correspondent
NEW YORK — We can't plan for future leisure at a leisurely pace.

As our population soars — it's expected to hit 200,000,000 in 1975 — the need for more public recreation space climbs with it. And since more than half of our

1975 population will be living near the big cities, in so-called metropolitan areas, we're in for more crowding.

"The lesson for recreationists in this connection is simple. Get the land now," says James C. Charlesworth, president of the American Academy of Political and Social Sciences. "The longer

acquisition is postponed, the more expensive it will be," he adds. How much land is needed? Recreationists say the ideal is to have 20 acres for the spare-time use of each 1,000 population.

At present, 1,807 communities have parks and other recreation areas for their residents, totaling 750,000 acres. Some 1,950 communities also have neighborhood playgrounds and recreation centers. We have indoor recreation centers — for arts and crafts, ping pong, dancing, etc. — in about 14,000 school buildings also are

needed for public recreation. Our communities now spend more than 800 million dollars for parks and recreation programs.

Attendance in millions. Other major sources of recreation activity are the 20,000,000 state-owned land and water areas. Attendance at more than 3,000 state parks has passed the 100,000,000-a-year mark. Then we have forest lands, game refuges and lakes controlled by the United States government, which attract 200,000,000 people a year for hiking, fishing, picnicking, hunting, camping and boating.

Charlesworth, writing in "The Annals of the American Academy," urges that recreation leaders — not city planners — carry out recreation planning. City planners, he feels, are "architects rather than social scientists."

In addition, Charlesworth suggests that recreation leaders broaden their base of administration and emphasize recreation for young adults and elderly people, two classes that usually get left behind in such programs.

Emphasis in future leisure should be on "pride-of-doing, togetherness, human understanding, creativity and development of the mind and spirit," Charlesworth says.

Recreation Hobbies
 He also points out that most

people do not plan their lives too well in advance and are faced with a lost feeling as retirement approaches. Charlesworth urges that behavioral scientists be enlisted to help elderly workers find suitable hobbies before they retire.

In summing up leisure in the United States, we may conclude: —We are urged to believe that work for work's sake is bad.

—Wasteful uses of leisure can soften and mortify the spirit and the flesh and affect the nation's strength.

—A vast evaluation must be made of our leisure activities to determine what the "wasteful uses" are, since automation is giving us still more free time.

from the land in the federal level, must be joined in a program to assure that an adequate amount of recreation area and supervision for future generations becomes available.

—More emphasis must be placed on the leisure time needs of young adults and "senior citizens."

—Try to relax when you're supposed to be spending spare time. Remember that old Chinese proverb: "Life is not a vessel to be drained but a cup to be filled."

Science Today

By DELOS SMITH
United Press Science Editor
NEW YORK — A fascinating fact from the lesser known vineyards of science is that even an earth worm can learn things — and doesn't forget after he's lost his head. He grows a new head and continues to profit from his learning.

Science also knows why hens lay so many eggs which is an astonishing thing when you keep in mind that two to a dozen in spring time is all most birds bother to lay. The hen lays as many as 300 a season because people systematically rob her nest. By the technique of nest-robbing, a

hen had nothing on network TV stated exclusively at them until Clark came along. Clark has the formula and the inside track and I think he may wind up the dark horse in the ABC-TV stable this season.

Look back: Costly Larry Rivera's curse word on Sunday night's "The \$64,000 Challenge," touched off 27 calls at CBS-TV in New York minutes after the show. NBC-TV's "Wide World" visit to a house in the Webster Groves, Mo., Sunday was rehearsed to the point of stiffness. Sid Caesar's meatball sketch on ABC-TV Sunday was Caesar in his best groove, which means only the greatest. NBC-TV's "Algoletto" was tastily staged Sunday as all NBC operas are, but tenor Kirk Orestes seemed to be a bit thin-voiced near the end. And strangely enough, at least one aria, "Caro Nome," almost looked as if it were lip-synched. Norman Dello Jolo's lecture skit on CBS-TV's "Seven Lively Arts" Sunday was considerably interesting, but his new "Ballad for the Seven Lively Arts" sounded rheumy, a little like watered-down Gerahwin. NBC-TV's "Sally" unpackaged a new format Sunday night, but the show was as vacuous as the old Sally.

The Channel swim: There are Seven Westerns in the latest Nielsen top 10 — no Ed Sullivan or \$64,000 Question. ABC-TV and radio landed rights to the annual college all-star football game for NBC-TV's "Your Hit Parade" is chopping its top seven tunes to five. MGM has signed Bert Lahr to emcee a new TV cartoon series. Ted Mack's amateurs got the nod as a hit for NBC-TV's "End of the Rainbow." NBC-TV's next "Omnibus" show, "Moment of Truth" will not only star Peter Ustinov, but Jason Roberts Jr., Rosemary Harris and Fritz Weaver.

scientist caused a woodpecker to lay 71 eggs in 75 days.

On the other hand, an aphid lays eggs only in the fall. These eggs "winter" and in the warmth of the spring sun hatch aphids. One "winter" egg could give rise in one summer to so many aphids their total weight would equal the weight of the world — provided there was an unlimited food supply for aphids and their natural enemies left them alone.

Man's Natural Enemies
 But insects have natural enemies other than other insects and people. Houseflies get athlete's foot, for example, and there is a "staph" infection which usually kills about half the flies who pick up the bug. Insects are knocked off by viruses as well as by bacteria.

So far as science knows, it has never raised cats and dogs, but it has raised fish and frogs. Small herring bounced down on Apin, Scotland, in 1830 and in 1900 frogs rained down on Liverpool. These creatures had been picked up at sea and from marshland by water-pourers.

Ostriches never bury their heads in the sand or anything else. As birds go, the ostrich is not stupid but smart. The males will devour enemies away from nests by staggering off and then collapsing as though dying. The male rules over three to four females who lay their eggs in the same nest. At night, the male sits on the eggs.

Some Wood Shakes
 Not all woods float in water. Many sink to the bottom. The wood of the quebracho or "ax-breaker" tree of Argentina weighs 27 pounds per cubic foot. Fresh water weighs 62.4 pounds per cubic foot. To float, an object must displace its own weight in water, and any object which weighs more than water, cubic foot to cubic foot, can't do it.

These answers to out-of-the-way scientific questions are taken from a new book, "Science in Everyday Things" Harper, New York by William C. Vergara, an electrical engineer but a scientific question and answer man by hobby. The book is Q. and A. from start to finish. The questions range over most of the sciences but not one of the several hundred is removed from the common experiences of people.

Leather articles from the skin of an ostrich are rare and expensive.

The earth rotates at a speed of about one thousand miles an hour at the equator.

Bailey Seeks Money To Offset School Lunch Program Problem

TALLAHASSEE (UP)—School Superintendent Thomas Bailey has called for more federal money and surplus commodities to offset a critical financial shortage in school lunch programs in 36 Florida counties.

An emergency committee of county superintendents, appointed by Bailey, reported Wednesday that 431 schools in the counties are operating their lunch programs in the red or on a "hand-to-mouth" basis. Some 248 of the schools have

asked for "disaster" help, and the committee said the future outlook is even worse. Bailey said a similar situation exists in other states, but the Florida crisis was worsened by recent freezes which brought wide-

spread unemployment and an increase in requests for free lunches. The school chief warned that the crisis may mean an increase in the price of lunches at some schools. He added he will appeal to Florida's congressional delegation

for supplemental funds, and to the U. S. Department of Agriculture for additional surplus commodities like butter, cheese, dried milk, rice, flour and cornmeal. The lunch program is financed

solely by federal appropriations, the child's payment for the lunch and county aid in some instances for equipment and capital outlay. Approximately 1,100 school lunches in Florida receive fed-

eral reimbursement for a daily average of 338,400 pupils. However, this year's federal allotment is about one third of a cent less per lunch than last year. The committee said school lunch

expenditures for July through December exceeded receipts by more than one half million dollars. It said more than \$600,000 was required to wipe out existing and expected deficits in the program.

Weather
Partly cloudy and continued rather cold today. Increasing cloudiness and not quite as cold tonight and Friday; low tonight 43 to 45.

High School Pupils Decide To Accept Student, Parent Guide

Parents of Seminole High School students will receive, in the near future, a "Guide for Students and Parents," following a vote yesterday taken in the student body as to whether or not the guide would be accepted. Students voted overwhelmingly to adopt the "Guide for Students and Parents." The approval was nearly two to one with a total of 810 students voting. 277 for adoption and 133 against adoption. A representative group of students studied the proposed "guide" as did a group of parents and teachers. Each group studied the proposal separately with Ed Christensen of the Seminole High School faculty as advisor to the students. A leader in the student group was Teddy Walker, Student Council Advisor. The proposed guide was at first turned down by the student group. However, Coach Jim Pittott presented the proposed guide at a school assembly and a radio program was devoted to the guide. The idea was thoroughly aired before presenting to the student body for approval or disapproval. Teddy Walker said, following the student approval "I am glad that the students accepted the guide. Now the school can say that they believe in this 'Teenage Guide.'"

of rules; you can't satisfy everyone." The guide that will be mailed to parents and students reads: "In order to promote mutual understanding and trust between parents and students, and to enable us to always be proud of ourselves and our school, we, as representatives of the student body and the Parent-Teachers Association of the Seminole High School, recommend the following suggestions for a Teenage Guide: "1. Parents would like to meet and know their children's friends. "2. Choose your friends carefully. You are judged by the company you keep. "3. An adult should be at home when teenagers entertain, but should allow them a sensible measure of privacy. "4. You owe it to your parents to tell them where you will be, what you plan to do, with whom you will be, and when you will be home. "5. Unless there are church or school activities, it is desirable that young adults be at home on school nights. "6. Do your studying first and you'll enjoy your recreation later. "7. A good citizen respects the rights and property of others. "8. Smoke only with the approval of your parents. "9. A responsible teenager abides by the law and does not utilize without an adult in the car until he or she is 18. Riders have a share in the responsibility for safe driving. Show off driving is childish! "10. Try to always be clean physically and neat in dress. "11. Be a gracious loser. You can't win all the time. "12. Go to church regularly. Give God at least an hour of every week he gives you. Make This Your Daily Dues: Mrs. R. W. Williams, chairman of the Parent-Family Life Education committee said this of the new guide: "As time goes on, it will have a definite effect on the community. It is a way of life already lived by most of our boys and girls, but it may help point the way to some who have not had this emphasized in the home." The Juvenile Protection Committee chairman, Mrs. W. S. Higginbotham, stated yesterday "I am glad that the responsibility of a better way to do things, I am glad, too, that they gave it some real

thought before voting. As good citizens, they realized their responsibility in accepting this guide." R. T. Millwee, Superintendent of Public Instruction for Seminole County states "I thoroughly approve of this Teenage Guide. The members of the P.T.A. and the students who worked on this project should be highly commended. I do hope that the students carry this guide home and follow the majority rule. I urge the parents who had no part in this and who do not attend P.T.A. meetings to study it carefully and encourage their boys and girls to abide by it." There were other comments about the Teenage Guide, as it is called. Linda Anderson who was against the proposal said "75 percent of the students already follow the rules that the 'Teenage Guide' states. The other 25 per cent are not going to change just because the rules are written down." Ed Christensen, advisor to the student group and Seminole High School professor said "It shows that the students are interested in their conduct." Roger Harris, Seminole High School teacher commented "I think that it is good. It has worked with success in many other schools." Richard Phagan said "I don't think that it will make any changes, but it gives students something to work for." Miss Ethel Riser, Seminole High School teacher stated "Students are interested in their conduct and this guide will help them."

Be Straight-Forward, Honest Says Acheson

Governor Extends '58 License Tag Deadline To Mar. 7

WINTER HAVEN (UP)—Those Floridians who waited until the last minute and stood in lines to buy their 1958 license tags Wednesday night as well have stayed at home. While vehicle owners lined up on the eve of the deadline, Gov. LeRoy Collins extended it until March 7 to aid freeze-bursters and prevent possible administrative confusion. The governor made the announcement while attending the Florida Citrus Exposition, where he praised the Florida Citrus Commission for its emergency work in the series of winter freezes and disclosed he will resappoint six of its members whose terms expire next June. Collins said he extended the license tag deadline 15 days because many Floridians have been adversely affected by severe freezes this winter. State Sen. Scott Kelly telegraphed the governor Monday night that many citrus growers could not afford new tags at this time. Another reason for the extension, said Collins, is that "there is pending litigation which will determine the class of tag that must be purchased by certain motor vehicle owners and it is hoped that such litigation, involving the so-called 'P-tags' will be concluded within the extension period."

Salesman Charged With Attempted Rape

A 19-year-old magazine salesman girl attempted to walk by him but Clement insisted that he walk home with her and followed. Deep in the grove, Clements grabbed hold of the girl. In the struggle, the girl got away from the 175-pound 19-year-old boy and ran to her home. According to Sheriff Hobby, the father of the girl charged Clement in his car and held him until county authorities could arrive. Sheriff Hobby said that Clement is a former Air Force man and was working for Burt McCormick, contest director for the Union Citrusation Company. No bond has been set for Clements but it was expected that he would go before County Judge Wilson Alexander sometime today for a preliminary hearing. Sheriff Hobby said this morning that he has been trying to discourage magazine and merchandise salesmen who solicit from homes. However, he said, the youth had proper identification.

Local Jaycees Will Entertain DeBary Group Friday Nite

The Property Owners Association of DeBary will welcome a group of Sanford friends Friday night starting at 7:30 o'clock when the Sanford Jaycees will furnish the entertainment. Mayor Merle Warner will extend greetings on behalf of Sanford while M. L. Raborn (Sonny) Raborn will offer felicitations from the Junior Chamber of Commerce of which he is president. Tommy McDonald of the Sanford Jaycees is in charge of the program. The meeting which will be held in The Mansion will be featured by a program arranged by Charlie Morrison, Sanford's "good will ambassador." Morrison will take part in a miniature minstrel skit with Ed Lane, "The Man Who Knows Sanford" whose experience as an "end man" dates back almost to the turn of the century. In fact Lane and Morrison, together, have had over 80 years in minstrel minstrelsy. Their act is planned to bring back to the audience, the days when "cork was king" and the names of Al G. Field, Lew Dockstader, Honey Boy Evans and many others were as well known as are the names of TV stars today. Also on the program will be "The Populares," a trio of entertainers who appear nightly at the Mayfair Inn. Their appearance is made possible through the courtesy of the Florida State Bank of Sanford and will afford DeBaryites an opportunity to witness an outstanding act. Community singing led by Morrison with Bob Carnes of the Sanford Furniture Co., a resident of DeBary, at the piano will close the show. Chester Bearick is in charge of the program and has arranged for the serving of refreshments.

3 Small Children Of Migrant Worker Burned To Death

TALLAHASSEE (UP)—The three small children of a destitute migrant farm worker will be buried together in one small grave today. They were burned to death Wednesday when flames from an open fireplace destroyed the small frame shack in which they were living. The children of Mr. and Mrs. James F. Tyner had been left alone in the house by their mother who was out gathering wood a half mile away to keep the family warm in 40-degree weather. She rushed back to the scene but was beaten back by the roaring blaze. Mrs. Tyner was hospitalized with burns on her arms and face and also was suffering from shock. Roy Hamlin, sheriff's investigator, reported the Tyner family came to Florida from Rockford, Ill., to work on a south Florida farm. The Tyner family moved here about two weeks ago because the father was unable to find work in the freeze-damaged south Florida area. Hamlin said Tyner found a job at a Tallahassee dairy firm which also permitted him to move his family into the 24 by 24 foot shack. The officer said the house did not contain a stick of furniture, not even a bed, and the family all slept on the floor and cooked in the fireplace.

Gasoline Stealing Spreads In County

"We're having a lot of trouble with gasoline stealing," Sheriff J. L. Hobby said this morning. "It's all over the county, Sheriff Hobby stated, "and we're investigating every phase of each lead that we can get." The sheriff explained that the thieves are going onto farms and drawing gasoline from tanks and drums as well as from cars, trucks and tractors wherever they are parked. "We're going to pursue every single threat of evidence we have until the gasoline thieves are stopped," the sheriff said this morning.

Carter Named Vice President Of 'Circle K'

A "Circle K" organization has been formed at Southern Union College with a Sanford student named to fill the post of vice president. J. Larry Newton, outstanding sophomore student at the Southern Union College, has been elected president of the newly organized campus unit of Circle K International, the campus affiliate of Kiwanis International. Newton, a native of Greenville, Ala., was the terrific halfback who helped lead the SUC Bison to a 10-1 football record and top spot in the Southeast. He is also a member of the Dixie Conference baseball championship team. Newton consistently makes the academic "Dean's List" for scholastic performance. Vice President of the unit is John C. Carter, Sanford, freshman. Gene Holliday, freshman from Columbus, Ga. is secretary and John D. Ackinson, freshman from St. Petersburg, is treasurer. Members of the Board of Directors are P. Dale Whitman, Dadeville, Ala.; John W. Hanson Jr., LaFayette, Ala.; Mason E. Porterfield, Greenville, Ala.; Max E. Bell, Lufkin, Ala. Faculty sponsor for the unit will be Dr. A. B. Van Cleave, academic dean of the college. Earl J. Bentley and Dr. Frank Owens are co-chairmen of the Circle K Committee for the Kiwanis Club of Wadley. Charter night for the group will be held on Wednesday, Feb. 25, at the Frisco Club House, east of Wadley. The Kiwanis Club of Wadley will be the host club with other clubs in the area sending delegations.

Cold Weather Brings Return Of Flu To State

JACKSONVILLE (UP)—The long siege of cold weather this winter seems to be bringing a return of flu to Florida. The State Board of Health reported that influenza cases were on the upswing last week. In all 54 new cases were reported. And the board said many others probably were not recorded. The new cases bring the total for the year to 3,152 compared to only 66 in the corresponding period last year. Meanwhile, three new cases of polio were reported in Florida last week, two in Duval County and one in Dade. Two of the cases were paralytic. Both victims were adults. The board said this brings the polio total for the year to 22, the same as last year.

Winston Churchill Fighting Pleurisy Pneumonia Attack

HELSINKI, Finland (UP)—The United States has agreed to give Finland a 14 million dollar loan to finance construction of a hydroelectric plant and other industrial expansion, it was announced today. The loan will come from funds accumulated in Finland from sales of U. S. agricultural surplus products. It will be made through the Export Import Bank. Friends said Churchill was responding to treatment, apparently with antibiotics, but in view of his past medical history his illness is causing them some anxiety. This is the fifth time he has been stricken with pneumonia of the pleuritic type. Since his last attack of pneumonia, 19 years ago he has suffered two strokes. Friends said his fighting spirit was undiminished and he insisted on chatting with his wife, Lady Churchill, and his daughter Sarah. His other children are waiting word whether their presence in this tiny village 11 miles from Nice would be desirable. Writer Randolph Churchill was in Springfield, Mass., Wednesday night leaving for New York today. His daughter, Mrs. Duncan Sadye, is in Britain.

Boosters Club To Plan Ticket Drive Tonight

W. W. Tyre, president of the Seminole Boosters Club, announced today that the club will hold its monthly meeting at the Seminole High School tonight at 7:30. Plans for a season ticket drive for the 1958 football season will be discussed and the fast-approaching all-sports banquet will be planned by all the committees. Tyre urges every member to attend this important meeting so that these items may be organized for the remainder of the school year.

Jaycees Break Ground For Information Booth

Ground was broken yesterday for the new Tourist Information Booth which will be constructed by the Sanford-Seminole County Junior Chamber of Commerce. Members of the local Jaycees turned out armed with shovels to take part in the groundbreaking ceremony. Heading the group were M. L. Raborn Jr., president of the Jaycees here and Ar. Harris, chairman of the New Tourist Information Booth committee. The new building will be located on French Ave. between 4th and 5th Sts. on park property turned over to the Jaycee organization by the city of Sanford. Jaycees say that in addition to the building, the property will be improved and beautified and will include parking facilities for those

Only Twenty Out Of 100 Graduate Says Instructor

Norman B. Thomson, a member of the faculty of the University of Florida and chairman of the Placement Committee in the College of Business Administration, told the Sanford Kiwanis Club yesterday that there will be 219 seniors graduating from the UofF this June. He said 92 per cent of the graduating class want to work in Florida. Thomson amazed Kiwanians at their noon luncheon yesterday when he revealed that out of every 100 students who enroll only 20 will graduate. "But when they do graduate," he said, "their sons have a perspective that is difficult to match."

Black Market Jazz

MOSCOW (UP)—One of Russia's top composers, Vano Muradeli, said today that black marketeers in Russia are doing a rush business in homemade phonograph records of foreign jazz and "indecent" songs. In an article in the newspaper "Evening Moscow" Muradeli criticized for the shortage in good classical and dance records, and said the lack is being exploited by the black marketeers. Muradeli did not mention where the jazz was recorded but presumably it came from shortwave broadcasts.

Fable Contessa After 8th Win

Fable Contessa, one of the Sanford - Orlando Kennel Club's top winners, seeks victory number eight in the featured ninth race tonight. John Groves' 58-pound miss broke in a Sanford-Orlando track this season and has impressed railbirds by racking up seven wins and a third in 15 starts. Fable Contessa romped to victory by three lengths the last time out Monday night. Other dangerous contenders in the Grade A headliner include Ed's Request, Trans Eagle and Carl Nug.

Blacklisting Denied

NEW YORK (UP)—The presidents of 17 major American Jewish organizations today described as "economic and political blackmail" the Arab-backed blacklisting of U. S. firms that do business with Israel. "The Arab policy would collapse if the United States government strongly opposed it," they said. The statement said the recent U. S. renewal of an agreement with Saudi Arabia prohibits assignment of Jewish personnel to the U. S. air base at Dhahran and as a result "American Jews are no longer equally protected in their rights of citizenship."

GROUND WAS BROKEN YESTERDAY for the New Jaycee Tourist Information building to be located on French Ave. between 4th and 5th Sts. Jaycees taking part in the ceremony were: (left to right) Art Harris, Bob Bratzel, Robert McKee, David Klingensmith, Tony Trama, M. L. Raborn Jr., Jamer Sands, G. Andrew Speer and Nason Whatton. (Staff Photo)
