

They Call It Chemurgy: Science Provides Laboratory's Answers To Farm Surpluses

Milk Into Suits, Dresses; Cotton For Roads, Bathtubs And Autos From Soybeans

The "chemurgy" farm, which takes milk to make synthetic suits and dresses, soybeans to build houses, corn and vegetables for them. He grows cotton for houses, music, and even his straw for paper chips in the wood-works. They make it might have been from the straw. The chemist has been to put the farmer on his feet and the result is a new "chemurgy" comes from the Greek "nyon" meaning wool and the Egyptian "nyon" meaning cotton. So the farmer is putting chemistry to work for him.

There is no revolutionary change in the objective: it is to increase farm income through the production and expansion of industrial raw materials. The farmer has to work for himself, facing a recurring problem in corn, would truck and increase bushels not to the farmer, but to the rest of the world. When the corn crop means a 10 percent more in bushels, the farmer's cotton farmers would raise their cotton not to the rest of the world, but to the rest of the world. The farmer's cotton farmers would raise their cotton not to the rest of the world, but to the rest of the world.

Through chemurgy, the first southern newspaper mill is now under construction at Lufkin, Tex., a \$6,000,000 plant pointing to a whole new industry for southern pine. Sixteen additional paper and pulp plants are planned or are being built in the south.

Soybeans, with scores of actual and potential uses, a little known crop a few years ago, reached a production of 37,000,000 bushels in 1933. Likewise, tung oil trees now cover an estimated 175,000 acres on the gulf coast.

Flax for the first time is being turned into cigarette paper and a new mill is rising in Pigeon Forge, N. C.

Synthetic wool made from casin off skim milk may be produced soon on a commercial basis. "Aral" the motor fuel blend distilled from corn, has already been produced commercially at Atchafalaya, Kan.

Cotton is now being used in 35 states for lining ditches, and in highway and airport run construction. It is being tested for a variety of other uses as well, ranging from houses to bathtubs. Flaxseed, yielding cotton, soybeans, woodchip and casing, is today the most rapid growing of all chemical industries.

Laurel, Miss., has adopted the title "Chemurgy City."

Such is the pace of chemurgy. But all this is only the beginning. In the opinion of Dr. Henry E. Barnard, research director, The Chemurgy Co., holds for Dr. Karl T. Compton, Dr. Robert A. Millikan, Dr. William J. Hale and scores of other scientists enlisted in the movement. It is the belief likewise of such farm leaders as Louis J. Taber, master of the National Grange, and Wheeler McMillen, editor of the Farm Journal.

It was one of these, William J. Hale, consultant chemist for a large Michigan chemical company, who first conceived the role of chemistry in agriculture as far back as the World War days. Hale used to discuss the inevitability of a farm surplus with Dr. Charles H. Herty of Savannah. Then in 1924 Hale wrote his first article projecting the chemurgy idea to solve the problem.

It was that he began fruit harvesting, until May, 1925, when a conference of industrialists, farmers and scientists was called at Dearborn, Mich. There the National Farm Chemurgy Council was formed and financing underwritten by the old Chemical Foundation created during war time. Almost \$1,000,000 was poured into immediate research under the direction of the late Francis P. Garvan.

Since 1927 the council has operated on its own resources, financed by its own membership. It works only through the laboratories of the nation, such as Michigan State College and the University of Illinois where specific projects have been made for chemurgy work.

Greatest impetus given it in the last year was the provision in the new farm act creating four great laboratories to do new work for farm products, one at Peoria, Ill., one at New Orleans and one at St. Louis. Each laboratory was given \$1,000,000 a year.

Thus chemurgy comes of age, begins to go ahead.

How Much Safety In Numbers?

The fighting strength of nations likely to be drawn quickly into any large-scale European war is estimated as follows by Washington and European experts. Little exact information is available on any European air force, especially Germany's and Russia's. Any long-drawn-out war might be decided not so much by military strength as by staying power—which would be dependent on supplies of food and other materials.

	Great Britain	France	Germany	Italy	Russia	Poland
Population	48,000,000	42,000,000	55,000,000	43,000,000	170,000,000	32,000,000
Army	200,000	725,000	550,000	211,000	1,800,000	200,000
Naval Reserve	300,000	5,200,000	3,100,000	5,400,000	10,000,000	1,400,000
Army Reserves	1,215,000	460,000	1,470,000	290,000	100,000	80,000

British Nab Worker As Spy For Germany

London, June 25.—A British worker has been accused of acting as a spy for Germany... (Details of the espionage case, including the worker's name and the alleged activities.)

Yesterday a Baby Was Born

On your mind, by a short way down the road, is a new baby to help make America a better place in which to live.

The government is now spending \$1,000,000 a year to help you raise your children better. This is the first time in the history of the United States that the government has taken such a direct interest in the welfare of its citizens.

The new program is a part of the National Child Labor Law, which was passed in 1938. It is designed to protect the health and safety of children in the workplace and to provide for their education and training.

The government is now providing for the education and training of children in the workplace. This is a new and important step in the history of the United States.

English Government International May 1938

WASHINGTON, May 19.—The English government has announced that it will support the League of Nations in its efforts to maintain international peace and stability.

The government has also announced that it will support the League of Nations in its efforts to maintain international peace and stability.

The government has also announced that it will support the League of Nations in its efforts to maintain international peace and stability.

Over 2,000 Women Confirm

Daily the "Working Reporter" for many months in various parts of the country, in questioning 7,000 women, of whom 400 confirmed that they were satisfied with their work.

The "Working Reporter" has been a valuable tool for the government in its efforts to improve the lives of working women.

Our Good Neighbor

Although Mexico is supposed to have so "liberal" a government as to provide an almost exact duplicate of Russian Communism, at the very opposite end of the political poles from Fascism, there is something sinisterly screwy in the barter deal which has just been concluded between our good neighbor to the South and the Italian government.

According to the dispatches which have recently arrived from Mexico City, the Mexican government will exchange \$2,500,000 worth of oil for \$2,000,000 worth of Italian rayon and \$500,000 worth of machinery. Thus Mexico comes within the orbit of the Rome-Berlin Axis as far as commercial relationships are concerned.

Thus also, American rayon factories which have formerly sold a part of their products to Mexico will lose this valuable market. The production of these American factories will have to be reduced, and American workmen will have to be laid off. Italian factories and Italian workmen get the business which formerly belonged to Americans.

And what does Mexico use to pay for this rayon which it is buying from Italy? Why it uses oil, which though produced in Mexico, actually belongs to American interests. This is the oil which the Communist government of Mexico "expropriated" (a six-cylinder word for "stole") from Americans who had invested their money at the invitation of a former Mexican government in uncertain Mexican oil fields.

The Mexicans didn't know whether they had oil down there or not. Besides, even if they did, they didn't have the money to buy the necessary machinery, or to pay the labor to drill the wells. So they extended a cordial invitation to American business men to do it for them. The invitation was accepted in good faith, the oil was discovered, the wells were flowing freely, so they were "expropriated" by the Mexican government without the payment of a single cent to the Americans.

Now the Mexicans are going to sell the oil to Italy, the junior partner in the Hitler-Mussolini combine now seeking to dominate the world. This oil will be used in German and Italian submarines which will sink British and French (and possibly American) vessels carrying food to starving British and French women and children.

This Mexican oil, which really belongs to Americans, will also be used to fly German and Italian airplanes which will drop bombs on Paris and London, indiscriminately killing women and children, and attempting to intimidate the great democratic nations of the earth into "helling" Hitler and Mussolini.

Otherwise our good neighbor policy appears to be functioning smoothly enough.

Scouting The Sandlots

What a big league baseball scout looks for when he tours the sand-lots and school towns of the nation is revealed by Paul Krichell, chief scout of the New York Yankees, in an article appearing in the May issue of the Country Home Magazine. Krichell, who has traveled 800,000 miles during the past 20 years to look over 80,000 prospects, lists the big league requirements as follows:

OUTFIELD—A good throwing arm, speed of foot, and, most important, the knack of taking a good cut at a pitched ball. An outfielder should be able to spic his batting average with a generous sprinkling of doubles, triples and home runs.

INFIELD—A good pair of hands for ground balls, a good arm to throw out runners at first base, and a fair hitting eye. Infielders are not expected to chip paint off the fences with line drives, although power at bat makes them that much more welcome.

FIRST BASE—First sackers are not listed with infielders because of the vogue to have a big bruiser of the Jimmy Foxx, Hank Greenberg, Lou Gehrig school at the initial corner. In short, one who can dig a badly thrown ball out of the dirt and who can hit like a Missouri mule.

PITCHER—I want size and weight in pitching prospects. The right numbers are five-ten to six-two in height between 180 and 200 pounds in weight. The sine qua non, of course, is a fast ball. Everything else can be taught.

CATCHER—A catcher must be able to throw to second base and he must be able to hit. He must also be smart enough to call for the right pitch. But here, too, if the prospect can throw and hit, the brains department can be developed.

As a final and absolute requirement for every great big league ball player, Krichell lists "love of the game." "Combined with ability," he writes, "he must possess a burning love of baseball that will allow him no other hobby. Don't underestimate that love of baseball. To be a star, you've got to eat, drink and sleep baseball. Rogers Hornsby, who was probably the greatest right-hand hitter in history, never saw a movie during his big-league career because he was afraid it might strain his batting eye."

That Krichell knows what he is talking about is evidenced by the fact that he has discovered, among others, such famous stars as Tony Lazzari, Mark Koenig, Billy Werber, Leo Durocher, Buddy Hassett, Red Rolfe, George Selkirk and Lou Gehrig, to mention only a few.

Archeologist Says Troy Ruins Show Seige Anticipated

ARENS, Apr. 20.—Professor Carl Blegen, the American archeologist who has completed seven years of digging into the ruins of Troy, announced today that "there is some truth" in the legend of Troy's capture by the Hellenes at the end of the Trojan War.

used to keep their provisions. Professor Blegen said he expects his study of pottery found in the ruins to throw some light on the conditions of living. "The Trojans had fireproof ovens, and they had some very simple kind of life," the professor says. "We do not know how they were dressed, but we found buttons."

WEEKLY NEWS COLUMN

By JOE HENDRICKS

FOR THE FISH INDUSTRY

Congressman Millard Caldwell has introduced a bill which authorizes the Secretary of Commerce to establish in the Bureau of Fisheries a fish educational service, to instruct members of the fish industry in preserving the catch, to provide fish ecology demonstrations, to provide for sponsoring fishery studies by graduates of colleges and universities, making radio broadcasts and printing booklets, to provide educational help to fishermen who desire to form co-operatives, and to promote the welfare of the fishing industry in general. Since I have fishing industries on both the East and West Coasts of my District, I shall be glad to send copies of this bill to those interested and to have their reaction to it.

ANTI-AIRCRAFT BASE—I have recently introduced a bill authorizing the Secretary of War to purchase sufficient land for the establishment of an Anti-Aircraft Training Area and Target Range within the State of Florida. It is generally agreed by military experts that if the United States should be subjected to an attack, it would come from the Caribbean Sea. In the light of this admission and in view of the fact that the Army and Navy are establishing air bases in the State of Florida, I think it wise to concentrate anti-aircraft activities in the State. For that reason I have introduced this bill and I think we shall get favorable action on such a base. Of course, it will be within the discretion of the War Department to select a site for this training area.

VETERANS HOSPITAL—For a long while there has been a need for an additional veterans hospital in the State of Florida. I have been well aware of that need because so many veterans have written me that they need hospitalization but were unable to get in because of the crowded conditions at Bay Pines. I have also heard from the Post of the American Legion, the Veterans of Foreign Wars through my District, and they all urge the need for such a facility. I am introducing a bill to provide for an additional veterans hospital in the State of Florida. I have been well aware of that need because so many veterans have written me that they need hospitalization but were unable to get in because of the crowded conditions at Bay Pines. To Be Results In War Crisis

Powers Bent On Achieving "National Aspirations"

BY WITT MACARTHUR
NEW YORK, Apr. 25.—(AP)—The specter of a most often connection with the late world in the rapidly changing containing conflicts between European dictatorships and America is.

What is the event? This crisis has its roots in the famous Dnyan lig tree, the might profitably go back to the treaty of Versailles.

Germany's interest in the Balkans, the Anglo-French alliance, have clashed in the security of the world.

Germany and Italy, on the one side and Britain and France on the other.

Germany and France have declared that they will fight to preserve the independence of Poland if that country is attacked.

Germany, for instance, it will be fought solely in the interest of that country.

It will be waged because the independence of Poland affects the entire political framework of Europe.

Germany and France are chiefly concerned at the moment with the danger that Turkey and Greece might strategically important Dardanelles straits.

Germany and France are chiefly concerned at the moment with the danger that Turkey and Greece might strategically important Dardanelles straits.

Sanford Woman Wins Sanlando Photo Contest

Mrs. Helen Schauer of this city was the winner of the \$15 prize offered in the Sanlando Photo Contest which closed last Saturday.

Winner of the second prize was Prof. O. H. Davis of Orlando and the third prize winner was W. C. Huland of Cobleskill, N. Y.

The subject of the winning photo was a view of a river and a "hazy path" through a forest.

The subject of the second place photo was a view of a river through a forest.

Tourists Should Make Reservations For War

By NCA SERVICE
A calendar of 1000 events in Europe, in booklet form, is yours for the asking.

Yes, a thousand events, ours for the asking!

See the 400,000 Spanish refugees, huddled in a corner of La Belle France, starving and miserable!

See the rebuilding of what used to be historic and beautiful Spain, and the establishment of its ruins of the world's greatest civilization.

See historic old Czechoslovakia, and the terrorized thousands, clawing in its iron gates, seeking the smallest chance to escape the German rule.

See the concentration camps and the public lock of a man who does not answer a simple, civil question because he knows not who may be listening, what double-crossing spy his questioner may be!

See the little children, aged 10, huddled into ranks and shouting in shrill notes in their piping voices as the delinquent begins the task of whipping them into cannon fodder.

See the gas masks hanging behind every fireplace, and hear the drone of planes overhead. It's exciting, for you never know what moment they may stop playing and begin in earnest that spectacular "blossoming" of bombs which so impressed the aesthetic Bruno Mussolini.

See the suspicious customs officials stopping you every 30 miles and rummaging through your baggage. Meet the police every time you raise your camera. You feel the fine contempt that will be felt for you in so many places as a "derogant" citizen of a free republic.

Who knows, you may be lucky enough to encounter the Greatest Show of All—the authentic N. K. World War, the Five-Ring Carnival of Carnage.

A more thousand events in Europe this summer? Pah! A million!

The American tourist will do well to plan his summer trip this year so as not to miss the ones that appeal to him the most.

State Extension Service To Have 25th Anniversary

Agricultural Program Was Born After Insects Invaded South

GAINESVILLE, Apr. 25.—(AP)—Born amid exigencies of invasion of the South by a foreign plant enemy, the Agricultural Extension Service in the United States will reach its 25th official milestone on May 8.

Celebrations of the event, on a small scale, are planned in practically every county in the United States where county and home demonstration agents are employed.

Florida's celebrations will come mostly between May 1 and 15, according to an announcement by Dr. Wilmon Newell, director.

Invasion of Southern cotton fields by the boll weevil brought consternation in its wake, and an aggressive agricultural leader, Dr. Seaman A. Knapp, inaugurated in Texas a system of demonstration work to teach farmers how to produce cotton in spite of the weevil, and how to raise other crops.

Soon the idea spread to other states, reaching Florida in 1909. It was supported by the General Education Board, donations by other firms, and the United States Department of Agriculture.

May 8, 1914, saw the passage of the Smith-Lever Act setting up co-operative extension services in all states, in which the United States Department of Agriculture, the various states, and the counties joined hands to bring up-to-date information to farmers and rural families.

For 25 years it has been growing in importance and in service rendered, has helped hundreds of thousands of

Fighting Princess Enlists Tribesmen

KUNMING, Apr. 25.—(AP)—As war echoes resound in the far interior of China, a girl chief-tain of the Feibeng Lolo tribe makes ready the defense of her native Yunnan province.

Here are mountain folk, famed as fighters, and Princess Kao Chu-Yu, educated in Shanghai and Nanking, hopes to build from them a formidable guerrilla force of 20,000 men.

She has enlisted 4,000 men for Generalissimo Chiang Kai-shek. Most of them carry old-fashioned weapons like those used in tribal wars, but every Lolo has a gun.

Most of her fighters were trained for tribal warfare even as children, when they went out to watch the battles and cheer their fighting fathers.

WOULDN'T TALK
LONDON, Apr. 25.—(AP)—Brought to court by a maintenance order, a married couple testified they communicated with each other only by means of a radio since 1931 although they lived in the same flat.

has been placed on economy of production, marketing the products to best advantage, proper utilization of the land, a satisfying home life, wholesome recreation and citizenship development.

Thousands of boys and girls are enrolled each year in 4-H clubs, which early became an important phase of extension work.

Beginning as boys' corn clubs and girls' tomato clubs, they now include training for youngsters in every phase of farm and rural home life and development.

The Extension Service in Florida now employs 68 county agents and 40 home demonstration agents in 60 counties, in addition to its state staffs of administrators and specialists.

stressed insect and disease control, proper culture and fertilization, the use of improved seeds and better bred livestock, and other things which contribute to better production. Later emphasis

rural people, men and women, boys and girls.

At first its efforts were devoted largely to showing farmers how to make two blades of grass grow where one grew before. In this it

Spring Tonic...

Florida Style!

Glorious sunshine, blue rolling surf, wide glittering beaches and a whole world of glowing, sparkling, outdoor fun... these are the ingredients for Florida Spring Tonic.

You can relax, play, really enjoy yourself every day... wherever you go, from ocean to gulf, from mangrove keys in the south to forest woodland in the north. Here, Nature distills her own Spring Tonic and lavishly offers it FREE to all who enjoy life.

The formula is simple. Just remember...

Government May Establish Precedent In Alabama Freedom Of Press Trial

By BRUCE CATTON
 WASHINGTON, Apr. 20. —(AP) —What is believed to be the first effort to use the power of the federal government to defend an editor against intimidation will come to trial in Mobile, Ala., on May 1.

If the government is upheld in this case, a historic precedent of freedom of the press will be established.

The action is being brought under Section 51 of Title 18 of the United States Code. This is a little-used statute passed after the Civil War as a weapon against the Ku Klux Klan. It provides severe penalties for those who "conspire to injure, oppress, threaten or intimidate any citizen in the free exercise or enjoyment of any right or privilege; so-

and lawfully expressing himself through the medium of the press by means of writing and printing, or writing and causing to be printed."

Named in the indictment are Earl B. Chamberlain, Jr., assistant state solicitor for Mobile county; Sam B. Powe, named as a professional gambler; George E. McKenzie, Miriam McKenzie, Peter V. Crolich and John Powe.

The action was brought by U. S. District Attorney Francis H. Inge, who heard of the incident, investigated and decided to seek an indictment under the old anti-klan law. Details leading to the indictment were gathered by operatives of the Federal Bureau of Investigation.

This statute under which Inge acted is intensely interesting to the Civil Liberties Unit of the U. S. Department of Justice. To a layman, the statute seems broad enough to make almost any sort of action possible. In practice, however, it may be severely lim-

For the right to freedom of the press is not a right guaranteed to the individual directly; what the Constitution says is that "Congress shall make no law . . . abridging the freedom of speech, or of the press . . ."

It may be that the court will hold that a conspiracy by individuals to deprive an editor of this right is not a violation of this statute. In this case, however, a local law enforcement official—the assistant state solicitor for Mobile county—is named as a party to the conspiracy. For this reason it may be argued that the machinery of the state was used to deprive Ewald of his rights, and that consequently the statute in question does apply.

Incidentally, if there was such a conspiracy, it failed of its object as far as the anti-gambling crusade was concerned. Ewald did give up his job, but Publisher Ralph Chandler carried the campaign along anyway.

DO YOU KNOW THE GIRL WHO WROTE THE TRUCK DRIVER'S MOTHER ABOUT THE COMMUNICATING WITH PARENTS TRAFFIC?

Seeking witnesses to accident in which 5-year-old Eloise Martorello was killed, the girl's parents hired Bernard Lacey, above, to parade streets of Philadelphia with this placard.

Four Guilty Pleas Are Heard By Ware

Four guilty pleas were heard recently by Judge R. W. Ware. Herbert Metcalf forfeited a bond of \$25 when he failed to appear to charges of intoxication and Coy Kennedy forfeited a bond of \$50 when he failed to appear to answer similar charges. Harry Garner, charged with theft larceny, was sentenced to pay a fine of \$50 and costs or serve six months. S. S. Carpenter was sentenced to pay a fine of \$5 and costs or serve 60 days on a charge of intoxication.

Florida's Aid to Dependent Children program, sanctioned by the Social Security Board last year, is being speeded up and according to the State Welfare Board will be paying grants totalling \$1,050,000 per year by the end of June. Limited funds were allocated to the countries on a population basis.

Lookouts Trounce Saints 12-2 To Hold League Lead

Alexander Blasts Home Run For Perfect Night

Spree In 8th Clinches Game For Locals; Sanford Gets 12 Hits Off Visiting hurlers, Hudson Allows 4

Sanford's up and coming Lookouts last night pounded three fast pitchers for 12 hits as they trounced the ancient city crew by a 12-2 score to keep their grip firm on the No. 1 spot in the Florida State League.

Alexander hit a home run over the center field wall in the last of the fifth with one aboard, the club followed by a six-run scoring spree in the last of the eighth to put the game on ice for the Lookouts.

Sanford counted first in the last of the first inning when Souter was safe on an error, coming on in to score when Alexander slammed a long high double over the left fielder's head. Langston drove through the box into center to advance Alex to third. Marlon, connected for a drive over the pitcher's head into center to score Alex, giving the Lookouts a 2-0 lead.

Zimmerman, Saint rightfielder, made the circuit to chalk up one run in the first of the second. Instead a walk to start-off with, he advanced to second when Bachman banged one through Wins' leg, coming on across the plate when Dillon, Saint catcher, drove one through second into right field to make the count 1-2 against St. Augustine.

The "gentlemen" collected eight runs in the knot the count in the first of the third when Huyder, Saint lead off man, made first on an error, going to third when Judy, next man up, slapped a hard grounder down the first base line, coming on in to score when the shortstop went back to drop Kickland's pop up into left.

In the last of the third the Lookouts moved into third lead again, when O'Neal checked out a walk to Becken, followed by an intentional pass to Alexander. Langston, badge-wearing right fielder, connected for a triple in right field to score both men.

The locals again collected in the fifth when Alexander's homer with Souter aboard counted two more tallies.

In the last of the eighth the Lookouts pushed across six more runs on the strength of singles by Alexander, Fane and Hudson, a double by Marlon into right center, and another double down the third base foul line by Barnett, plus two passes and an error.

Alex led the local hitters with a homer, a double, and a triple in three official trips to the plate. Langston connected for 3 for 5, one of them the triple in the last of the third which showed Sanford out in front when Souter and Alexander came across to score on it.

Ed Hudson, on the mound for the Lookouts, hurled a four hit game against the Saints. Judy, second baseman, connected for two of the four blows to lead the visiting club at the plate.

LEAN, LANK Ed Hudson last night set the Saints down with four hits, as the Lookouts won the local game 12-2.

Bees Down Phils 7 to 6 After 12 Innings In Rain

Weather Wrecks Major Loop Program 3rd Successive Day

BOSTON, Apr. 23.—(AP)—Playing in fog and rain, the Boston Bees opened their 1936 National League season yesterday by taking a 12-inning game from Philadelphia, 7 to 6, in a morning "Patricia" day contest witnessed by fewer than 2,000 raged baseball fans.

Anxious to get the opening day's ceremonies out of the way, the two clubs had one minute before the only major league game of the day was decided.

Under the leadership of their new manager, Doc Prothro, the Bees went into a 6-2 lead by putting across three markers in the second, one in the fourth and two in the fifth. But the Phils, struck by three newcomers—Al Simmons, Buddy Hassett, and Phil Miller—kept pecking away at the offerings of three hurlers until they tied the score in the ninth.

Bill Tosiel, the fourth Bees pitcher, held the Phils in check in the closing three innings. In the last of the twelfth Gerry got a lift when Les Powers dropped a throw at first base. Maxie West pushed the Boston third racker to second with a bunt and Hassett walked.

Simmons then smacked Butcher's first pitch to center field for his third single and Gerry trotted home with the winning run.

The total activity in the two big leagues has been five games in three days instead of the 19 contests charted. The American league has been specially oppressed and the only game it has run off was the Detroit Tigers' party yesterday for the Chicago White Sox, in which the hosts kept a 4-1 edge in the ninth.

The senior circuit has been slightly more fortunate, because seven of the eight teams have seen action in at least one game. The idle club is Chicago, where the fans haven't seen even an exhibition game this Spring because of the weather.

Leesburg Takes Second With 6-5 Win Over G-Men

Daytona Beach, Orlando Down Opponents In Other Loop Frays

The Leesburg Anglers moved into second place behind Sanford in the Florida State League last night with a 6-5 victory over the Gainesville G-Men in Leesburg.

The winfulness of pitcher Berry, of the close victory. He walked three in the seventh with two on base and the G-Men were unable to score.

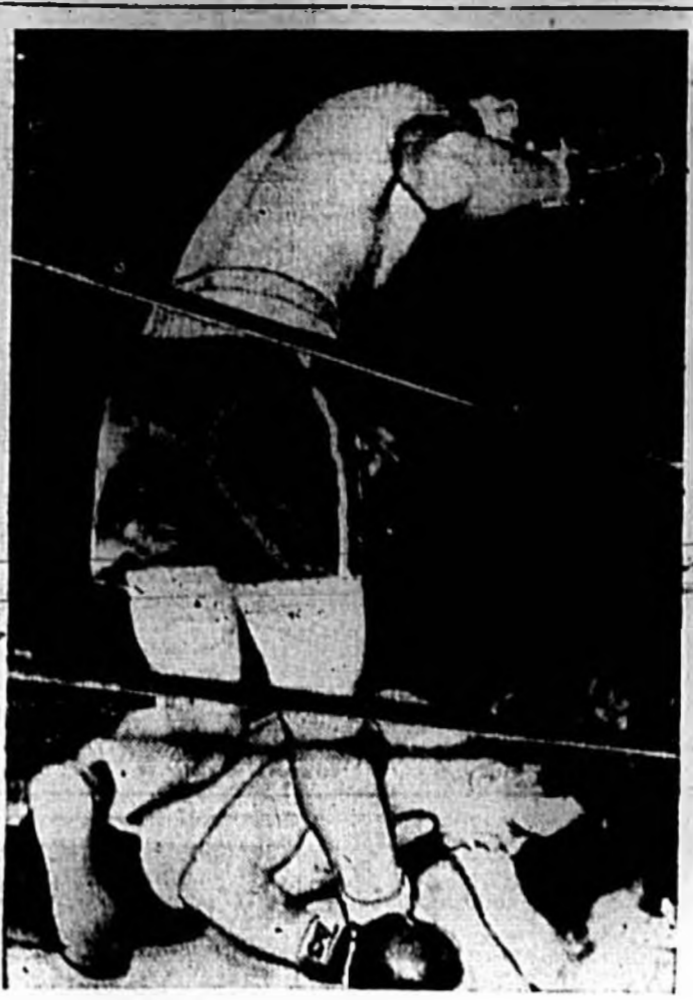

Daytona Beach halted Palatka's ninth-inning scoring spree to trim back the Azuleos by a 3 to 2 score on the latter's field. It was a free-hitting game with both teams collecting an even dozen blows off opposing hurlers. Each team used three pitchers.

Orlando's Senators called in the final innings at Orlando to defeat the Deland Red Hatters by an 8 to 5 score. The Senators, although out-hit 10 to 7, bunched their blows for the victory, getting three of their tallies in the final frame. Scores by innings: Deland 002 010 200—5 10 2 Orlando 000 001 115—8 7 2

Hurlers, Tosmes and Richardson, H. Smith, Kenny and A. Smith.

Gainesville 000 410 000—5 9 1 Leesburg 200 013 103—6 2 1 Durham, Berry Willis and Hubbard; Walters, Kaiser and Vickers.

Day's Beach 010 120 000—3 12 2 Palatka 002 010 000—5 12 1 Donnelly, Shourd, Betsworth and West; Ivey, Lopez, Lutz and Emerson.

Joe Louis stumbles over the limp body of Jack Bauer from the force of the right-hand jaw jolt that knocked out the 26-year-old movie electrician in 2 minutes and 20 seconds in Los Angeles.

Lookouts Journey To Daytona Beach For Tilt Tonight

Locals Hope To Keep Siate Clean With Win Over Islets

Tonight the league-leading Lookouts hop to Daytona Beach for an 8:00 o'clock session with the Islanders at their Ocean Park field there.

The Islanders are now in a two-way tie with the St. Augustine Saints for fourth place, having lost one and won one.

The Lookouts' record in the circuit with a record of three straight wins. Clipping Deland there on the opening Sunday with a 1-1 tie, the Lookouts Tuesday night moved in on the St. Augustine Saints 8-5 at St. Augustine and then claimed down 12-2 on the same club when they met here last night in a delayed local opener.

Daytona's last night stopped the Deland Azuleos to the tune of 9-8 when they put on a seven-run scoring spree to lead up to the top.

Boston, first under, did not have a hitting for the Lookouts' comeback through with two singles in three trips to the plate.

Alexander plans to face P. Marlon, with Parker in reserve to take over as the manager's change-out man.

Rodeo, Livestock Show To Be Staged At U of F Stadium

GAINESVILLE, Apr. 20—Cries of "Ride 'em, cowboy, ride 'em!" are expected to ring out in the University of Florida's football stadium Saturday night when wild steers and bucking broncos, fine cattle, hogs and sheep replace the pigskin as a center of interest. The occasion will be the eighth annual Little International Livestock Show and Rodeo, staged by students in the College of Agriculture, which gets under way at 7:30 P. M.

This big free show is expected to draw a crowd of 10,000 in this year to eclipse its attendance estimated at 8,500 last year. Cattlemen from Kissimmee and other areas are planning to attend, and those in charge of the event say that a welcome will be extended to anyone interested.

Efforts are being made to make this year's show more comprehensive than ever before, with particular emphasis on educational and informative exhibits on animal nutrition, eggs and poultry, and other phases of livestock production. Special booths will be arranged for this year's and visitors are being urged to make arrangements to arrive in Gainesville on the morning or early afternoon of April 22 in order to see the exhibits and to confer with college research workers.

The show will be the climax of the year's activities of the Book and Bible Club, of which Robert Proctor, through, is president. Exhibitors of swine, dairy and beef cattle, sheep, and poultry, also veterinarians and music by the University of Orange and Blue Band will be evening features.

Special classes of animals will be held in the afternoon. The Little International Livestock Show and Rodeo will include Dr. John J. Speer, president of the University, Dr. H. Harold Hume, dean of the College of Agriculture, and Robert Proctor, president of the Book and Bible Club, and others.

AMERICANS TURNED DOWN

LONDON, Apr. 23.—(AP)—Ralph Asselton, member of Parliament, will ask Sir John Anderson in the House of Commons today whether he is aware that several United States citizens long residents in Great Britain had volunteered for national service but had been rejected on the grounds they were alien.

Diamondball Finale Is Scheduled For Tonight

Joe Louis, Florida Power pitcher, will take the mound for the All-Star squad when they tangle with the city league champs, the Coca-Cola, in the postponed benefit game of the local diamondball season.

In the first game of the evening the P.T.A. members of the school of student and teachers of the state chess will meet the annual freshmen mothers and the teachers of their students in the 2:15 o'clock session.

Ned Vanev and Marjorie Logan are slated for the manager's spots to head the two outfits.

The game will be seasonally scheduled for the day, which has been postponed because of rain.

325-Pound Grigger Reports To Layden

SOOTH BEND, Ind., Apr. 23.—(AP)—A Native Dancer, 325 lb., was reported to have been found by a farmer near South Bend, Ind., and taken to the local stockyard.

The animal was found by a farmer near South Bend, Ind., and taken to the local stockyard.

Lookouts Trounce Red Hats 14-4 In Opener

10th Inning Spree Gives Locals Lead

DeLand Tosses Nine Innings As Sanford Gets 15 Hits Off DeLandHurlers

More than 900 people jammed Conrad Field stand in DeLand today to watch the Sanford Lookouts put on a seventh inning home run spree to blast the Red Hats and revenge a 14-3 opening day defeat handed them here on the opening day of the 1939 season.

The Lookouts, garbed in their new red uniforms, clubbed DeLand hurlers Tomes and Harrison for 14 safeties in seven innings and then climbed aboard the home run spree.

That baseman on the Red Hats, who was supposed to be another safe blow, was hit by the Sanford attack.

Three hits, one of them a home run, in three trips to the plate, "Dumpy" Langston walloped DeLand for four, while Steen, left fielder, banged two, one of them a double.

Sanford grabbed off a one-run lead in the first when "Stuffy" Langston pecked out a double that landed in the right field wall, advanced to third when Marion was hit by an error. Barrett then drove home to score after the pitcher on Alexander's song fly to left.

In the last of the second DeLand evened the count when two runs were scored by Harrison and Smather, an infield hit by Valei located the bases with none away. Steen struck out Anderson. Harrison came on home to score after the pitcher on Newcomb's long fly to left.

Tomes grounded out to left field for the third out. The Lookouts grabbed off the lead again in the first of the eighth when Lane was safe on a sacrifice fly. Barrett advanced to third when Jeter grounded out to short and then came on versus when Steen batted a ground ball into right field for a single.

First Local Game Will Be Played Tonight

Baseball Makes Regal Return In Major League

Roosevelt To Toss Ball In Yankee-Washington Fray

NEW YORK, Apr. 17.—(AP)—Baseball, 100 years old and some say older, makes a regal return this week to its major league company.

Two games today, weather permitting, will sound a fanfare for the 1939 centennial season's general broadcast today.

With President Roosevelt pitching for the people, the world champion New York Yankees will inaugurate the American league campaign against the Senators of Washington, while the Pittsburgh Pirates and the Cincinnati Reds will lift the National league drapery at Cincinnati, birthplace of professional baseball.

These events should bring forth capacity crowds somewhere in excess of 20,000 at both Griffith stadium and Crosley field.

Forecast of showers has clouded the ceremonial contents in a degree of uncertainty, but all reserved seats are sold for both games, and it will take some pretty mean weather to stop the show.

THIS IS HOW WE DID IT. Manager Dale Alexander and Charlie Bradshaw, both of the Lookouts in a little unofficial softball game yesterday's game between the powers that be for the Sanford team. Both are elated over the local team's 14-4 victory over the DeLand Red Hats in the opening encounter for the two teams on Conrad Field in the Volusia county city yesterday afternoon.

Louis To Meet Roper In Los Angeles Go Tonight

LOS ANGELES, Apr. 17.—(AP)—Prize-battle oratory blared forth around the rival camps of Heavyweight champion Joe Louis and Challenger Jack Roper yesterday as the stage was set for their 10-round title fight tonight at Wrigley field.

The Brown Bomber spent the day resting, which in his language means sleeping, and was pronounced in perfect shape for the sixth defense of the crown he battered off the aging brow of James J. Brodock in 1927.

Roper, a grim visaged fighter with a knockout punch in his left hand, a world of courage in his heart, and a decidedly splotchy record behind him, drove into Los Angeles after training for six weeks at Roper's ranch north of here.

"I feel fine, better'n I ever did, and I think I'll be able to give Louis all he can take care of," big Jack drawled. "This chance at the title is the best, and I reckon the only, break I ever got out of boxing."

For his "break" the 36-year-old native of Magnolia, Miss., will get 10 per cent of gate receipts expected to hit around 100,000. Louis, it was disclosed, will get 45 per cent.

Los Angeles, accustomed to things gigantic and titanic in the way of sports, frankly admitted the match was no Root Bowl of prizefighting. Yet the prospect of seeing the champion in something other than a sparring match, the chance that the old Magnolia Blossom might bloom instead of die, that any one of several things might happen, including a miracle, virtually assured a wild night.

Back in 1928, the boys acclaimed Brodock as the Cinderella man of the ring when he won the title from Max Baer. Roper would make a tramp in tow sack out of that Cinderella character if he upset Louis, because Brodock was only one of an untold number who have knocked out this venerable agent.

"Sure, I know my record is terrible," agreed Roper. "Awful. I never said it wasn't. But I do say that most of the time I never cared whether I won or lost. This time it's different."

Just how different some 20,000 or 40,000, including a large portion of Hollywood's film colony, will find out.

The fighters are due to weigh in at noon today and go into the ring about 10 P. M.

Orlando Takes 5 To 0 Opener From Leesburg

ORLANDO, Apr. 17.—(AP)—Kan Kasper, 23-year-old Atlanta boy, wove three-hit mound magic with his elastic pitching arm as 1,100 rabid rooters, second largest crowd in Orlando's modern baseball history, saw Orlando get away to a 5-0 opening victory over Leesburg in Florida state League play yesterday at Tinker field.

Kasper's exhibition was the outstanding mound display since "Lefty" Brewer of St. Augustine pitched his no-hit, no-runner in the local ball orchard early last summer. With a little luck, Kasper might have duplicated Brewer's performance.

Urbano was off to a fine start in the first inning when a walk, two hits and a sacrifice fly produced two runs off "Red" Kasper, Leesburg's pitcher.

Elliot drove a base on balls, advanced to second on Roper's infield out and moved to third on Sam Cole's single. Frye scored Elliot and moved Cole to third with a long sacrifice fly and Bob Keller scored Cole with a double to left.

Baseball Makes Regal Return In Major League

Roosevelt To Toss Ball In Yankee-Washington Fray

NEW YORK, Apr. 17.—(AP)—Baseball, 100 years old and some say older, makes a regal return this week to its major league company.

Two games today, weather permitting, will sound a fanfare for the 1939 centennial season's general broadcast today.

Orlando Takes 5 To 0 Opener From Leesburg

ORLANDO, Apr. 17.—(AP)—Kan Kasper, 23-year-old Atlanta boy, wove three-hit mound magic with his elastic pitching arm as 1,100 rabid rooters, second largest crowd in Orlando's modern baseball history, saw Orlando get away to a 5-0 opening victory over Leesburg in Florida state League play yesterday at Tinker field.

Kasper's exhibition was the outstanding mound display since "Lefty" Brewer of St. Augustine pitched his no-hit, no-runner in the local ball orchard early last summer. With a little luck, Kasper might have duplicated Brewer's performance.

Urbano was off to a fine start in the first inning when a walk, two hits and a sacrifice fly produced two runs off "Red" Kasper, Leesburg's pitcher.

Elliot drove a base on balls, advanced to second on Roper's infield out and moved to third on Sam Cole's single. Frye scored Elliot and moved Cole to third with a long sacrifice fly and Bob Keller scored Cole with a double to left.

Lookouts To Meet Red Hats From DeLand In Initial Game At Municipal Field

Mayor Edward Higgin, and the Campbell-Loring Post, Sons of the Legion Drum and Bugle Corps will be on hand for the opening ceremonies to be held 15 or 20 minutes before the game takes the mound against the DeLand Red Hat at 8:00 o'clock this evening.

The Sanford Lookouts, who yesterday upped DeLand's opening 14-4, will probably be faced by the second team in the mound yesterday. Balknap Manager Alexander plans to use much the same line-up in tonight's game as he used in DeLand yesterday. That line-up includes Red Lane behind the plate; Alex on first, Barrett on second, Marion stop third, with Campbell slated to hold down the shortstop post.

The outfield will be the same as the starting gardeners yesterday. Carroll in left, Steen in center, and Langston holding down right.

Tuesday night the Lookouts hop to St. Augustine for a regular night session with the Saints who last night turned back Palatka 6-1 in their opener.

P.-T. A. Women And High School Play On Tuesday

All-Star Team, Coca Cola Will Meet In Final For Season

Two diamondball games have been scheduled for tomorrow night which will bring together the women of the Seminole High School P. T. A. with the members of the faculty of the same school furnishing the competition, according to officials of the Recreation Committee of the Seminole County Chamber of Commerce.

The second game of the evening brings together a picked All-Star squad and the city diamondball loop champs, the Coca-Colas in a post-season game.

The first game gets underway at 7:45 o'clock, with the second session slated to immediately follow the first seven inning encounter.

G-Men Take 7-2 Win From Daytona Beach

GAINESVILLE, Apr. 17.—Whitney Davis, working on the mound for Gainesville, won his own game here yesterday afternoon by driving in five runs as the local club defeated Daytona Beach 7 to 2, in one of the four opening contests of the Florida State League.

Davis, besides holding his opponents to only four hits, slammed out a double, a triple and a single out of four trips to the plate.

Sparkman started on the mound for Gainesville, but was relieved by Davis after giving up a single, a walk and allowing a hit by a wild pitch in the first inning.

Davis then struck out the next two men with the bases loaded.

The Gainesville club collected 11 hits off Sparkman.

Yesterday the highest percentage of attendance in the country was at Gainesville, Fla., where diamondball games are being played throughout the week.

The new process of growing vegetables in trays of water has been put to use to supply the air base on tiny Wake island.

Saints Pound Palatka For 6 To 1 Victory

Lancaster held the Asakawa hitless for the first five innings and easily mastered the visitors. Bachhuber slammed a home run over the fence in the eighth with two on and drove home two more tallies with a pair of singles.

A crowd of over 1,000 witnessed the game opening. Mayor Walter B. Prosser officially opened the season by tossing the first pitch.

Milwaukee 0, St. Paul 6.
