Britain Warns Egypt Not To Get Violent

Responsibility For Protection Of British Lives And Property Is Clarified

CAIRO, Egypt, Oct. 11—(AP)—A British official, demanding the cessation of British troops from the Egyptian territory, said today that the British had no intention of using force to maintain order in the Suez Canal area. He said that the British had no intention of using force to maintain order in the Suez Canal area.

BY ARTHUR GAVENON
LONDON, Oct. 11—(AP)—Britain today warned the excited Egyptian nation it would be held responsible for preventing mob violence or terrorism against British lives and property.

A note delivered to the Cairo government expressed regret that anti-British demonstrations have flared in the capital and Alexandria as a result of Egypt's move to cancel its 1936 defense treaty with Britain.

The note added: "The British government takes this opportunity to remind the Egyptian government that the responsibility for the protection of all British, as well as of other foreign lives and property, rests with the Egyptian government."

Demonstrations against British and other foreign influences swept Cairo and Alexandria after Prime Minister Mustafa el-Nahas Pasha on Monday called suddenly for the evacuation of British troops from the Suez Canal area for annexation of the Anglo-Egyptian Sudan.

Britain, acting for the North Atlantic Treaty allies, had invited Egypt formally to join the new Middle East defense system as a full and equal partner. The two-fold purpose was to establish a new basis for settling the Anglo-Egyptian treaty and to insure military security of the whole Middle East.

Johnson, chairman of a Senate Armed Services Subcommittee, voiced these sentiments in a statement issued by his office, along with the text of a speech for delivery at Dallas, Tex., before civic groups.

"We all know that, regardless of the outcome of the negotiations, Korea is only the beginning," Johnson said. "We all know that our true enemies are not the ragged remnants of North Korea or the bewildered myriads of China but the leaders of the Soviet Union."

Johnson said he and most Americans have been deeply troubled by the "strange and untried path in Korea," and added: "It is the course of fighting a war but calling it a 'police action' is the course of slaughtering for—but only within certain boundaries. It is the course of battling a slave."

Mr. Smith is a member of the American Legion, and he and his wife are members of the First Methodist Church.

Personnel at the store include Don Taylor, manager; Ernest Lee, service manager; and Calvin Wright, clerk. Mrs. Smith is bookkeeper.

BARBOTA, Oct. 11—(AP)—A bullet was fired into the office of a city detective about three feet.

Police Chief Robert N. Wilson was in the rear of the police station at the time of the shooting. Wilson, who said he reported the shooting to a sergeant, said he could not explain why the shot was fired, said he had received no threats.

More than 300 sportsmen in 100 outboard and inboard-powered craft of all sizes and descriptions took off this morning down the Kissimmee River on the annual Kissimmee-Lake Okechobee boat race.

WASHINGTON, Oct. 11—(AP)—Senator Taft of Ohio, who says he will seek the Republican presidential nomination only if he is convinced the party wants him, had the word of two close associates today that it does.

WASHINGTON, Oct. 11—(AP)—A Senate committee reportedly has decided to block President Truman's nomination of a long-time political ally as recorder of deeds in the District of Columbia.

Flowers By Carload For Moretti

A TYPICAL GARDEN-STYLE MEMORIAL is recorded Willie Moretti, slain big time gambler, as eleven carloads of flowers (names of donors carefully removed) wait outside Corpus Christi Church, Hasbrouck Heights, N. J., for funeral cortege to get under way. Burial rivaled the sendoffs given the prohibition era's top mobsters. However, none of Willie's known underworld pals were present at the funeral. (International)

Direct Showdown With Soviet Due, Senator Believes

Public Will Tire Of Indecisive War, Johnson Thinks

WASHINGTON, Oct. 11—(AP)—Senator Lyndon Johnson (D-Tex.) said today that sooner or later public opinion in this country will demand a direct showdown with Communist leaders of the Soviet Union.

"I can see a time when we will decide we have had enough of indecisive fighting — of battles without victories," Johnson said. "I do not know when this time will come or where it will come, but of this I am certain. Unless those who plot the destruction of our civilization change their ways, it will come and the time may not be far distant."

Johnson, chairman of a Senate Armed Services Subcommittee, voiced these sentiments in a statement issued by his office, along with the text of a speech for delivery at Dallas, Tex., before civic groups.

"We all know that, regardless of the outcome of the negotiations, Korea is only the beginning," Johnson said. "We all know that our true enemies are not the ragged remnants of North Korea or the bewildered myriads of China but the leaders of the Soviet Union."

Johnson said he and most Americans have been deeply troubled by the "strange and untried path in Korea," and added: "It is the course of fighting a war but calling it a 'police action' is the course of slaughtering for—but only within certain boundaries. It is the course of battling a slave."

Mr. Smith is a member of the American Legion, and he and his wife are members of the First Methodist Church.

Personnel at the store include Don Taylor, manager; Ernest Lee, service manager; and Calvin Wright, clerk. Mrs. Smith is bookkeeper.

Reopening Of Truce Talks Is Delayed

U. N. Tanks Engage Red Artillery; Enemy Holds Last Heartbreak Peak

MUNSAN, Korea, Friday, Oct. 12—(AP)—Allied and Communist liaison officers met twice Thursday and were to meet again today, but the Red radio said they were still at loggerheads over the size of a neutral zone for New Korean cease-fire talks.

By ROBERT H. TUCKMAN
MUNSAN, Korea, Oct. 11—(AP)—United Nations and Communist liaison officers met twice today and Red reported they made headway toward reopening truce talks.

They scheduled another session for 10 A. M. tomorrow (8 P. M. Thursday EST).

The fact that another meeting was scheduled was interpreted as meaning the liaison officers failed to reach final agreement on resumption of negotiations which the Reds broke off Aug. 23.

Both United Nations command and Red sources announced the third session.

The report of progress came from Red sources at Communist Communist check point where liaison officers are holding their meetings.

Communist newsmen said the Red liaison staff reported the two teams agreed on most "technical arrangements" for a meeting of armistice negotiators near Panmunjom.

Liaison officers apparently still had to settle on a neutrality agreement for the Panmunjom site.

The Communists have insisted that the truce negotiators themselves should decide on the boundaries of the neutral area, and (Continued on Page 12)

Florida Dean Sees Spiral Of Prices In Need Of Check

GAINESVILLE, Oct. 11—(AP)—Hard work for production and balanced budgets both public and private can help stop this country's inflation in its tracks, Florida's dean of home demonstration agents were told today.

Dean Walter J. Matherly of the Florida State College of Business Administration said that the United States will continue to have an upward spiral of prices unless effective anti-inflation blocks are established.

"The American dollar," he said, "is worth at present what a 50 cent piece would buy in 1949. Our supply of money has tripled but our production of goods has only doubled."

He added this has resulted in a "cheap money" era which has pinched the person of fixed income, the retired person living in a pension and the holders of bonds and insurance policies.

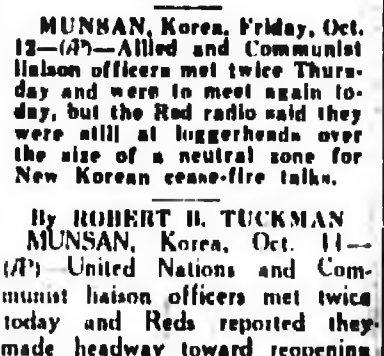

Labor and business have not been hurt and in many instances have benefited from inflation, but "the pay day on this inflation is coming" some day," Matherly added.

Also during the morning the agents and other agricultural specialists of the University's Agricultural Extension Service heard F. W. Parvin, assistant to director H. G. Clayton, explain retirement system changes.

State Boy 4-H Club Agent W. W. Brown explained the part of 4-H Club activities in the extension program and A. W. O'Brien, supervisor of the Florida national egg-laying test at Chipley, reported on results of poultry experiments.

Wholesale Arrests Are Made For Stealing U. S. Property

New Jet Fighters In East Coast Defense Unit

PART OF AN AIR DEFENSE TEAM, guarding the Eastern seaboard from possible enemy sneak attacks, F-94 all-weather jet fighters have been assigned to the Otis Air Force Base, Mass. The 600 MPH jet pictured in flight above is one of several which will give air protection to the New York and Boston metropolitan areas, according to a U. S. Air Force announcement. They are equipped with radar for operation in darkness and in stormy weather, and are on duty with the 33rd Fighter-Interceptor Wing on Cape Cod. (International Soundphoto)

WASHINGTON, Oct. 11—(AP)—The Senate today unanimously passed a bill permitting the United States to share nuclear weapons atomic data with friendly nations under carefully prescribed conditions. The bill relieves slightly the tight security regulations established in the 1946 Atomic Energy Act which put the program under civilian control. It was the first important modification of that act.

WASHINGTON, Oct. 11—(AP)—A House measure passed today a \$4,428,357,970 appropriation bill, chiefly for military construction and the Atomic Energy Commission.

It refused to roll-call vote of 182 to 127 to knock from the measure \$12,821,000 for an airport at President Truman's home town, Grandview, Mo.

The measure now goes to the Senate.

Almost all the money it provides is for construction of barracks, depots and bases in this country and overseas for the Army, the Navy and the Air Force.

The Atomic Energy Commission's allotment is \$200,000,000 for work on the big Savannah River, S. C., atomic plant.

After passing the bill, the House took up a \$1,045,000,000 bill financing the State, Justice and Commerce Departments and the federal judiciary for the present fiscal year, ending next June 30.

An \$8,290,255,000 foreign-aid money bill was next in line for debate.

Leaders were driving to get all three bills through by the day's end.

Prince, Princess Are Entertained Royally In Ottawa

Jaycees Invite District Groups To Sanford Meet

OTTAWA, Oct. 11—(AP)—The Duke and Duchess of Edinburgh and her two children with gifts today at a civic luncheon.

The Princess, looking rested after taking it easy all morning, received a check for \$1,000 in Canadian dollars earmarked for such British charities as Elizabeth's efforts.

And as a gift for the Princess and the Duke of Edinburgh to take home to three-year-old Prince Charles and year-old Princess Anne there was a big box of Canadian maple sugar. The young Princess also was sent a hand-knitted sweater bearing the Ottawa city crest. Princess Anne got a pair of soft blankets of Canadian wool on which was embroidered the little Princess' portrait.

Luncheon, at a mid-city hotel, boasted an all-dominion menu including oysters from the maritime provinces, New Foundland salmon, Alberta elk, Saskatoon berries, New Brunswick potatoes, Manitoba wild rice, Ontario shrimps and, of course, a fine cream favored by most of Canada's people.

The Princess wore another red third-order ensemble today, red Her dress was of silk, topped with a fitted white collar and fastening into a full skirt. They in she wore a long woolen coat, officially called "robin red," whose collar and long sleeves were trimmed with black velvet buttons. Philip was in a blue suit and a white shirt with a long white necktie, and a white commander's uniform and decorations.

Miss Carolyn Whitton, Ottawa's woman mayor, presided at the luncheon.

A group of 10 Canadian scientists went to government house for a private audience with the Duke of Edinburgh. They discussed scientific progress in Canada, including atomic projects.

A government house spokesman said the Duke, himself a fellow of the Royal Society of London and president of the British Association for the Advancement of Science, had requested the audience.

The National Research Council group of three scientists was headed by Dr. C. J. Mackenzie, president of the council, and included Dr. D. A. Keys, head of Canada's atomic energy development at Chalk River, Ont.

WASHINGTON, Oct. 11—(AP)—Rep. Peter F. Mark, Jr. (D-Ill.) took off from Argentina, N.H. today on the third leg of a round-the-world good will flight, his office here reported.

Mark, a Navy reserve pilot, expected to make the 1500-mile hop in the Azores in nine or 10 hours. He will leave there tomorrow, if weather conditions are favorable, for Lisbon.

UNFRATERNAL ACT
BRUNSWICK, Me., Oct. 11—(AP)—The Bowdoin College chapter of the Delta Upsilon fraternity divorced itself from the parent national fraternity yesterday rather than drop a Negro member.

The 98-year-old Bowdoin chapter has been under suspension since Nov. 6, 1950, shortly after a Negro student was invited to join.

John A. Blather of Longwood, Mass., leader of the local chapter of Delta Upsilon, said today the general fraternity had made it clear that the pledging of any student of Negro descent will be considered an unfraternal act.

Wholesale Arrests Are Made For Stealing U. S. Property

FBI Reports 120 Persons Held For Robberies From Military Installations

WASHINGTON, Oct. 11—(AP)—The FBI today disclosed it has been making wholesale arrests throughout the country in connection with thefts of government property, largely from military installations.

FBI Director J. Edgar Hoover said in a statement that 30 persons were taken into custody during the last 24 hours in New Jersey, California, Ohio, Massachusetts, New York and Washington, D. C.

These arrests, he said, make a total of 120 persons picked up during the past two months and charged with stealing government property worth totaling \$1,000,000.

The arrests ranged from raw crude rubber and pieces of silver to combat tools and blankets, guns, building materials and critical air craft radio equipment.

The announcement disclosed that the arrested include former government civil servants, supervisory employees, military personnel, civilian and military police and private citizens.

Today's arrests included 16 in New Jersey, 3 in California, 3 in Ohio, one in New York, and one in Washington, D. C.

The FBI director and the bureau still has under investigation 1,025 other cases of thefts from government supplies.

Sixteen civilian and military employees at Camp Kilmer, N. J., were arrested today in connection with a theft of \$40,000 worth of bed sheets from the camp.

In addition, some persons outside the camp have been rounded up and accused of assisting in the sale of stolen property.

Hoover said about 700,000 sheets of the government-owned sheets were removed from camp warehouses, driven through the gates with the assistance of military police, transferred to civilian trucks and delivered to buyers in several New Jersey cities.

Three persons were arrested last night at Dayton, Ohio, on charges of taking miscellaneous property from Wright Field. (Continued on Page 12)

WASHINGTON, Oct. 11—(AP)—The Justice Department today said that the fugitive Communist Party secretary, Gus Hall, has started his five-year prison sentence at the federal correctional institution at Texarkana, Tex.

The Communist leader was rushed to Texarkana by FBI agents earlier today after his capture in Mexico City and immediate deportation to the United States by Mexican authorities.

WASHINGTON, Oct. 11—(AP)—The government expects to begin construction of 800,000 to 850,000 new homes next year, the same goal set for 1951, Housing and Home Finance Administrator Raymond M.oley said today.

Economic Stabilization Administrator Eric Johnson has announced he will recommend cuts in all 1952 construction, including residential. But Foley told a luncheon session of the National Association of Housing Officials holding a four-day meeting:

"We must assume that we will be permitted to maintain a reasonably large housing production unless some compelling factor forces a different general approach."

Farmers Market Gets First Local Green Bean Crop

Green Beans Were Received at the Sanford State Farmers Market

The first locally grown tender green beans were received at the Sanford State Farmers Market last week, and Manager Stanley Appleton who pointed out that weather conditions for growing crops had been ideal for the past 10 days.

Traders who were active in the bean deal included Chase and Co., Wholesale and Ponder and Harold Kestner Co.

Receipt of beans at the market through Thursday, a total of 1,500 bushels, set a new record for the market. The quality beans brought \$2.00 to \$2.50, and it is predicted that the volume would increase weekly until frost.

George Thompson, local cotton grower, was first to use the new 50-ton scale recently installed immediately east of the main market building and handy to Mr. Anderson's office. Mr. Thompson drove a truck loaded with cotton onto the scale. He has been active in growing cotton here for several years.

Location of the scale at the east end of the market will eliminate much traffic congestion between the main loading platforms, said Mr. Anderson.

WASHINGTON, Oct. 11—(AP)—Chester Bowles, former governor of Connecticut and Vice Administrator, was sworn in today as the new ambassador to India.

Bowles took the oath of office at the State Department. He said he will strive for "some real accomplishments" in his new post.

ELKS MEETING
Plans for the Elks new recreation building will be among the topics to be discussed at the meeting tonight at 8:00 o'clock of Elks and a large attendance is expected, said R. P. Starrock, exalted ruler.

WASHINGTON, Oct. 11—(AP)—A grand jury which was to have censured the case of Dr. Hans Strasser for killing his wife was recessed this week until Oct. 23 after the venire was exhausted.

Strasser, 64, Brevard county health officer, has been held without bond for the Apr. 14 shooting of his wife following a week-end party at his Cocoa home.

WASHINGTON, Oct. 11—(AP)—The Senate today passed a bill authorizing the construction of a new federal building in Sanford, Fla., at a cost of \$1,000,000.

HOLLYWOOD By BOB THOMAS

HOLLYWOOD, Oct. 11.—(AP)—Television's hostess... about how the new medium... bringing the family back together... Here's one paid it has done that for—Lucille Ball and Desi Arnaz.

The new show is an unusual operation. Some TV shows are telecast directly with an audience and others are filmed. But the Ball-Arnaz program is filmed with an audience. Here's how it works: The actors and technicians rehearse all day Monday through Thursday at a Hollywood film studio. On Thursday night, an audience is brought into the studio for a dress rehearsal. More rehearsals follow on Friday and the show is filmed by three cameras before an audience that night.

I only want to do one a year anyway. "Actually, I don't miss doing pictures at all. On this TV show I'm doing the things I like to do. It's a combination of everything I have learned in the movies, radio, stage and vaudeville. Sometimes I would do a whole picture just because of one little scene which I wanted to do. On this show I get that kind of scene every week."

Allan Kilne, president of the American Farm Bureau Federation, will come from Iowa to address the 10th annual state convention of the Florida Farm Bureau in Orlando, Nov. 15 & 16.

Grapevine Has It Woman's Draft May Get Consideration

By DOROTHY ROE Associated Press Women's Editor The Washington grapevine has it that a women's draft may be considered if the next big recruitment push doesn't entice enough girls into uniform. Mrs. Anna M. Rosenberg has made it clear that the Department of Defense must have a large charge of womanpower to take over desk jobs now being filled by men in the armed services.

of Vassar College and a member of the committee: "The majority of the public probably would be violently opposed to drafting women. I feel strongly that a draft is not the answer, but that what we need is a national registration of women. There are many fields in which women can contribute to defense, for instance, getting competent teachers in our schools is fully as important as enrolling women in the armed services."

men would be expensive, but I believe it would be worth while." Mildred McAfee Horton, head of the Waves during World War II and former president of Wesley College, also a member of the committee, says: "I do not think a woman's draft would be feasible, because of the general opposition of the public."

"A national registration of women would be costly, and its chief value would be to call the attention of the nation's women to the need for their services, and to point the way for volunteers in various fields. There would be no compulsion as to job assignments, but such a registration would provide information as to the talents and training of women, and also would establish a centralization of such information."

TODAY'S BIBLE VERSE

Christ's life business was making good men and women out of bad. Mary really turned squarely around and became a great saint.

If you are not sure you are properly registered to vote, you had better check up at the City Hall.

We were much interested in that testimony that a St. Louis Internal Revenue tax collector hadn't paid his own income taxes.

The Yankees won the World Series but the New York Giants are the real heroes, for they put up the best comeback try of any team in the history of organized baseball.

The New Jersey Women's Christian Temperance Union has just come up with a proposal for a non-alcoholic cocktail.

Funny thing about our welfare departments is a man 63 years old sits around and does nothing but suck his thumb, he can draw \$50 a month from the government.

Sanford has been declared one of the critical housing areas in the United States, relaxing building restrictions and credit controls.

Just what tourists can mean to a town was illustrated Tuesday night by Raymond H. Smith, mayor of Mount Vernon, N. Y.

When an inquisitive press or critic uncovers the facts they bitterly resent such intrusion and they have given way to deliberate crookedness and expediency.

When the inquisitive press or critic uncovers the facts they bitterly resent such intrusion and they have given way to deliberate crookedness and expediency.

Gift Of The Adventurers

In earlier days of American development, a major factor in the growth of our population was the steady stream of immigration from the Old World.

The stream of immigration is now controlled, and is small in relation to the internal growth in population.

The incident leads us to marvel at the harshness and dissatisfaction of life under Red rule which can drive people to such enterprises.

They Want Trieste

Human nature is odd indeed. The Italians suffer from serious economic ills. They have over 2,000,000 unemployed, need at least half a billion dollars' worth of military equipment.

Trieste is the chief port on the eastern Adriatic. Its population is largely Italian, but it is the chief outlet for Yugoslavia.

Italy got along for many years without Trieste, taking it only after the collapse of the Austrian empire in World War I.

Frightened To Death

"I was frightened half to death," a common expression to denote the peak of fright, is not so absurd an exaggeration as might be supposed.

Fright does not directly stop the heart, as might be speculated, except possibly in the case of a sufferer from heart disease.

Too Late To Classify

My father was a patient man. He would admonish us kids for leaving our roller skates on the front walk or marbles on the parlor rug.

It was only when we would lie or try to hide our wrongdoing that he would blow his top.

The average citizen and taxpayer is a lot like my father. Patient and long-suffering they will stand for a lot before becoming disturbed enough to put their foot down.

Left uncurbed by a disinterested parent, the child becomes harder and harder to manage.

Because of the apathy and indifference of most people today, a lot of public officials through sharp practices or downright dishonesty has brought discredit upon themselves and their administration.

Recognizing the fact that it is a big job to protect the nation against damage that might be done by the disclosure of secrets.

THE PRESS TAKES A RIDE

THE WORLD TODAY

By JAMES MARLOW

WASHINGTON, Oct. 11—(AP)—The House of Representatives is just about done with its year's work. Not the Senate.

And the senators are so jealous of their right to keep talking that they have through the years made rules which make it difficult, and sometimes impossible, for anyone to shut them up.

That's why when one of them, or a group of them, wants to keep the majority from acting on something, he just goes into a filibuster which means he can talk till he drops unless the others really want to stop him.

For example, almost all decisions of the Senate are by majority vote. But in 1949 if the Senate wanted to stop a filibuster it could do so only if two-thirds of those present voted to do so.

But in 1949 the Southern Democrats filibustered against a Civil Rights bill. They won out. They won something else, too: the Senate changed its rules making it more difficult to stop a filibuster than ever before.

The new rule which the Senate approved in 1949, known as rule No. 22, still stands. Whereas in 1949 cloture could be invoked by a vote of only two-thirds of those present, now there can be cloture unless 64 of the 96 senators vote for it.

But, since it was the Senate itself which suggested that rule No. 22 be changed to make it easier to invoke cloture, that's where a special gimmick in No. 22 comes in.

That rule says: While 64 of the 96 senators can shut off debate on some bill before the Senate, or some motion to bring up the bill, there can be no cloture at all on any motion to change the rule itself.

So, if tomorrow a senator got up and proposed changing the rule, the same Southern Democrats who won in 1949 could get up and filibuster against the proposal and stop them.

But now a group of senators—all Democrats with one exception, Senator Morse, Oregon Republican—have suggested that rule No. 22 be changed to make it easier to invoke cloture. They've made various suggestions.

The one getting the most attention at the moment was offered by Senator Lehman, New York Democrat-Liberal, and is sponsored by these other Democrats: Senator and Michigan (Conn), Murray (Neb), Douglas (Wash), Neely (Ill), and Green (Conn).

They propose by their rule No. 22 that the Senate consider an emergency cloture vote if 64 out of the 96 senators, as under rule No. 22, two-thirds of the senators on the floor at the time could invoke cloture after the filibuster had lasted two days.

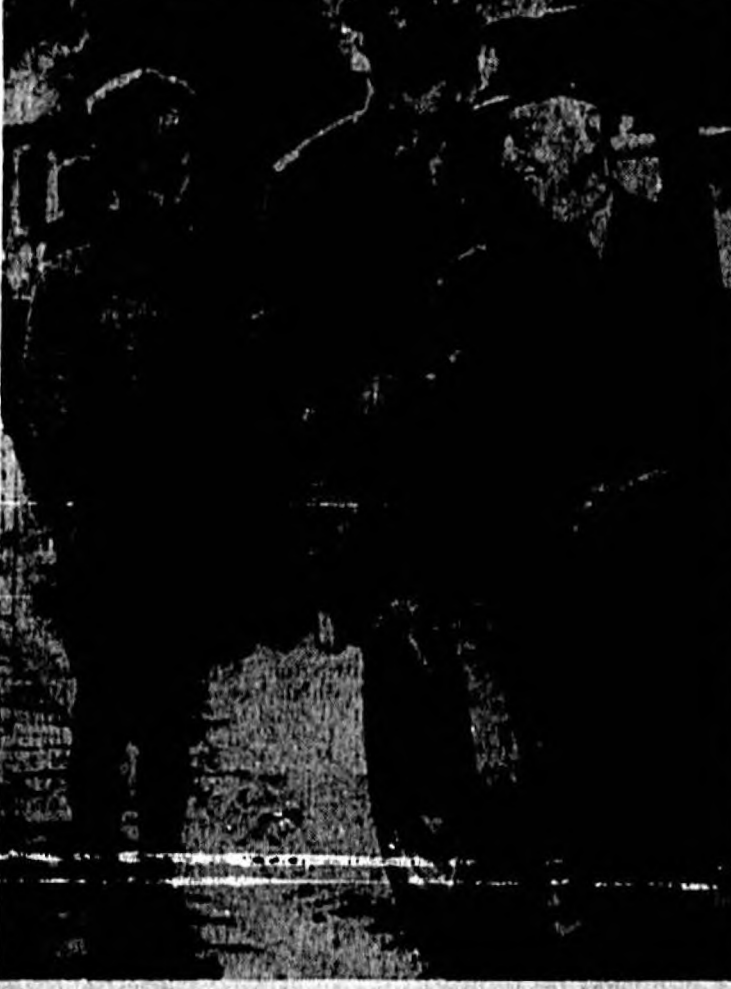

On the other hand, they measure the filibuster could be stopped, but not until 10 days after it started by a simple majority vote of those senators on the floor.

Why the 11-day delay? Because the Senate has a long tradition of not voting on cloture until after the speaker has spoken.

But all this is still in the talking stage, and the Senate floor has not yet voted on any cloture measure. It may get a chance to change the rule.

And that's where a filibuster can start and apparently go on indefinitely since rule No. 22 says that the Senate cannot vote on cloture until after the speaker has spoken.

But all this is still in the talking stage, and the Senate floor has not yet voted on any cloture measure.

Critical Housing In Florida

Orlando Sentinel

Magnitude of the impact of the establishment of the naval auxiliary air station at Sanford is emphasized by announcement this week that Sanford is listed among 42 other areas of the nation which are declared critical housing areas because of nearby military installations or defense production activities.

The official order permits government aid and relaxation of credit restrictions in order to meet housing needs of the station. More than that, it indicates a period of construction activity in Sanford that should make that community a prosperous busy scene during the coming months.

The designation of "critical" permits easier credit terms, liberalized mortgage insurance for programmed defense housing, aid to communities in providing necessary facilities and services, and a 10 percent limit on amount of federally-constructed housing to supplement the local housing supply.

It will be some time before the proposal at West Coast Air Base, but outside of Orlando reaches its maximum peak, due to the fact that the \$31 million program of expansion and building construction is still under way.

Building volume, however, in Orlando and Winter Park, is still at a high peak, according to the statistics of the building commission's offices—more than a million dollars worth per month in Orlando alone—and it is entirely possible that local contractors will be able to keep abreast of whatever demand for homes that may develop.

But all this is still in the talking stage, and the Senate floor has not yet voted on any cloture measure.

But all this is still in the talking stage, and the Senate floor has not yet voted on any cloture measure.

But all this is still in the talking stage, and the Senate floor has not yet voted on any cloture measure.

It's Not Done In Britain

Time Magazine

How has Great Britain's public morality fared under the enormously increased temptations of the welfare state and government-in-business? Any milk coats? Any Bill Boyles? Time Correspondent David Richardson cables:

Britain's only comparable case in recent memory is the Stanley-Belcher scandal of 1948. John Belcher, a Labor M. P. and Parliamentary Secretary to the Board of Trade, was found to have accepted a gold cigarette case, a suit of clothes, unlimited hospitality, and a week's vacation at a seaside resort from one Sydney Stanley. In return, Belcher helped Stanley around the government, helped his friends get licenses for construction work on a resort, hotel and helped quash prosecution of a Stanley client for alleged shady dealings in a gambling pool.

The story caused an angry and lasting impact on the public and politicians of both parties joined in the hue and cry. Belcher resigned from Parliament and has no prospect of a return to public life.

Career in the Body Politic. Sir Harley Shawcross, then the Labor Attorney General, eloquently voiced the uncompromising British attitude toward corruption in public office. "Our whole system of government rests upon public confidence in the honesty and integrity of those, whether as ministers or civil servants, who are the officers of the crown."

It was recognized from the first that the interests of the Labor government and of the country coincided in this: that this alleged cancer in the body politic should not be covered up but should be fully exposed, explored and probed, so that public confidence in the honesty and integrity of those, whether as ministers or civil servants, who are the officers of the crown...

Conference Squads Are Hard At Work For Tough Weekend Schedule

By ASSOCIATED PRESS
First-of-the-week rests are over for Southeastern Conference squads and they are really getting down to work in preparation for games of the coming week-end.

The Vanderbilt Commodores are putting more and more stress on defense for their conference clash Saturday with Mississippi.

A hard day of defensive drills was the order of the day yesterday and Coach Bill Edwards indicated he intends to keep the workout diet tough.

Passer Bill Wade led offensive work as he sharpened his aim. Georgia coaches are still trying to plug gaps opened in their lineup by injuries before Maryland's onslaught Saturday night.

Coach Wally Butts said Sophomore Offensive Center Hurley Jones will be moved to the defensive line and the offensive job given to Senior Ellis McClung. The change will put Sophomore Billy Spitzer in as reliever for McClung.

Auburn Tackle Joe Thurst and Freshman End Jimmy Lane looked good in a final scrimmage before the Tigers tangle with Florida in Auburn this week-end.

Thurst was outstanding with his downfield blocking and Lane looked sharp at the defensive right end slot.

Both offensive and defensive squads came in for rough work as Kentucky prepared for Saturday night's game with Mississippi State. "I was very pleased," commented coach Paul Bryant. "I thought the boys were really trying."

Freshman Halfback Cork Tharp continued his bid for first string duty in a full scale Alabama scrimmage. The Birmingham back ripped off consistent rushing gains and stood out as a pass catcher.

The boys looked good on downfield blocking and permitted Bimbo Melton, Bobby Marlow, and Larry Chiofetti to break away for long gains.

Tulane Coach Henry Frnka put the stress on offensive aerial work as he put the Green Wave through their last heavy workout before the week-end contest with Holy Cross.

Sophomore Pete Clement and his bullet-like passing show in the practice session. His success at connecting with the receiver looked good.

Louisiana State footballers went through a two-hour workout in chilly weather. They climaxed it with 45 minutes of scrimmage.

Quarterback Jim Barton led an attacking backfield of Freshmen Al Dargrett and Leroy Labat, halfbacks, and Sophomores Charlie Oakes and fullback.

Mississippi went through the last of their rough work in preparation for Saturday's conference tilt with Vanderbilt. Coach Johnny Vaughn said the team is ready for execution of fundamentals—blocking and tackling. Vaughn is looking for a close game with Vandy and said it may go "either way if we play our best game."

Coach Bob Woodruff is pushing his Florida gridlers to top speed to work up steam for the weekend game with Auburn. Only Kicker Reed Quinn is sidelined. Hubert Brooks returned to boost the defensive squad and the offensive line received the added strength of Curtis King, tackle and Frank Black at guard.

Tennessee spent most of the day working on aerials and attack as they prepared to meet Chattanooga this week-end.

Center Bob Davis, hurt in the Duke game Saturday, was back with the team. Bill Misinger, Bert Rechbacher and Francis Holahan, also injured in Saturday's game, and Tailback Jerry Hyde, who was hurt in Tuesday's scrimmage. All three are out indefinitely.

Stetson End Is Injured During Scrimmage Game

DELAND, Oct. 11.—(Special)—Head Coach Joe McMullen was doing some extra "homework" yesterday trying to find a replacement for Dave Laude, hard-tackling, pass-catching end on the Stetson Hatter team who was injured yesterday in scrimmage.

Finding a replacement for Laude was the eye of the important Farman game in Greenville, S. C., on Friday night is no easy task.

Laude was kicked in the stomach and McMullen said "if we had to Laude, he would be injured arm or no injured arm before we put him in the lineup."

Laude does not start. Jim Jones will take his place in the lineup. Young was working in the line in the scrimmage yesterday night as the game pointed off their offense for the Friday night game.

Some of the other regulars who will make the South Carolina trip are: Linebacker Bill Jones, end of three to that state team, and the South Carolina team will be in Greenville, S. C., on Friday night.

McMullen said "if we had to Laude, he would be injured arm or no injured arm before we put him in the lineup."

Two Teams Won World Series, Says Durocher

Yankees Toast Happy Hank Bauer For Making Vital Out

By JOE FALLS
NEW YORK, Oct. 11.—(AP)—For the first time in history, there were two championship teams when the World Series ended.

The Yankees were champs because they defeated the Giants, 4 to 3, yesterday to take the series, four games to two.

The Giants were champs because their manager, Leo Durocher, said so.

"You are champions, every one of you, and you fought 'em all right down to the wire," Leo told his boys after they had dropped yesterday's deciding game to the Yankees.

Of course, the Giants' dressing room was hardly the gayest place in the world. But, yet, it wasn't the saddest.

The general feeling seemed to be: Oh, well, we did our best, and, after all, we did win our share of the big games—and these were the Yankees.

Across the hall, in the Yankees' dressing room, they were toasting Hank Bauer, the man of the hour.

"I caught the ball while on my knees—thank God."

Happy Hank Bauer was all smiles as he explained again and again how he almost failed to make that catch that marked the final out of the World Series.

"I lost the ball in the shadow of a light tower," the outfielder explained. "For a while I didn't see it at all. I didn't know I had it until I saw the ball in my glove."

The catch by Bauer was the game-saver. It came at the expense of Pinch Hitter Sal Yvars with two out and Whitey Lockman on second in the top of the ninth. Had Bauer failed to come up with the ball, Lockman would have scored the tying run.

As it was, the Yankees ran off the field with a 4-3 triumph, their fourth in six World Series games, to give them and their manager, Casey Stengel, a third straight world championship.

"Bauer caught it," quipped the grinning Stengel in the locker room, "to give them and their manager, Casey Stengel, a third straight world championship."

"Bauer caught it," quipped the grinning Stengel in the locker room, "to give them and their manager, Casey Stengel, a third straight world championship."

Florida Grimly At Work To Meet Amazing Auburn

GAINESVILLE, Oct. 11.—(Special)—An amazing Auburn team that has upset Vanderbilt and coasted to an easy win over Little Rock, is expected to give Florida a light workout, the outfields explained.

"For a while I didn't see it at all. I didn't know I had it until I saw the ball in my glove."

The catch by Bauer was the game-saver. It came at the expense of Pinch Hitter Sal Yvars with two out and Whitey Lockman on second in the top of the ninth.

As it was, the Yankees ran off the field with a 4-3 triumph, their fourth in six World Series games, to give them and their manager, Casey Stengel, a third straight world championship.

Win Over Layne Puts Charles On Comeback Trail

PITTSBURGH, Oct. 11.—(AP)—Ezard Charles is hot on the comeback trail today after knocking out Rex Layne in the same ring where he lost his heavyweight title to Jersey Joe Walcott.

Charles stopped the 28-year-old Salt Lake City, Utah, boxer in 2:32 of the 11th round last night before a disappointing turnout of 4,257 fans at Forbes Field.

Charles weighed 188, heaviest of his fighting career, and Layne 165 1/2. The fight grossed \$59,763, including \$25,000 for television rights.

Temperatures in the low 50's kept down the attendance which promoters expected to reach 15,000.

The former champion was far ahead by points when a hard right to the chin in the 11th dropped Layne for a nine count and the referee stopped it.

Tennis Trophies To Be Presented Sunday

Trophies for the winners in the City Recreation Department summer tennis tournament will be presented on the Mayfair Courts Sunday afternoon following the finals in the senior mixed doubles division.

The trophies which have been on display in "Touchon's" window throughout the week will be presented by City Recreation Director Tommy Stringer after the match which starts at 2:30.

Semi-finals in the mixed doubles will be played tomorrow when Mr. and Mrs. Charles Morrison meet Betty Cagle and Peter Van Dusen at 4:00 P. M. on the officers' courts at the Naval Air Station.

The other semi-final match will be played over the net of the Mayfair Inn court. Mr. and Mrs. T. E. Tucker meet the brother and sister team of Barbara and Zek McNabb.

Winners in the semi-final Saturday will play for the City trophy Sunday.

Petite Paris Building Is Razed By Fire

Albert Fitts Saved By Barks Of Dog As Fire Spreads To His Apartment In Rear

Fire of undetermined origin last night destroyed the frame building occupied by the Petite Paris, Corp., makers of lingerie, and imperiled the life of Albert Fitts, vice-president, who, sleeping in back room, was awakened by his dog.

The converted house, located at 1115 Colery Avenue, was fully involved in flames at 12:35 o'clock this morning when the Fire Department arrived, said Fire Chief M. N. Cleveland.

The loss, estimated at about \$50,000, is covered by insurance, said Mr. Fitts and he and his sister, Mrs. Martha Velington, president of the firm, stated that operations will be resumed as soon as new quarters can be secured and new sewing machines and other equipment procured.

The firm has about 30 employees, 20 of whom have been working at the home, and 10 at their own homes. Only last week a new cutting machine was installed. A few of the 25 new Necchi sewing machines may be salvaged, but most of these were destroyed.

Mr. Fitts stated this morning that the door to the room of his apartment, an addition on the back of the building, had been closed, and he was not aware of any fire until his dog pawed him in the face and he awoke. Grabbing a bathrobe, he started for the bathroom, and as he did so heard the siren of the fire truck.

William H. Murray, living next door and west of the burning building, awoke his wife when he smelled smoke, and thinking his hot water heater on the outside of the house might have caused a blaze, went outside and saw the fire next door. He started back to his apartment, and as he did so heard the siren of the fire truck.

Elks Recreation Building Plans Are Progressing

Plans for the new Elks Recreation building are progressing in a satisfactory manner, said the chairman, chairman of the building committee, told members of the lodge at the meeting last night. Elton J. Moughtin is architect for the project which is estimated to cost \$25,000.

It was announced by R. P. Sharrack, exalted ruler, that the Anna Miller Circle will hold a dance Saturday night, Oct. 20 at the Lodge. Another event will be supper and entertainment for members and guests on Oct. 26.

District Deputy Willis W. McCall will visit the lodge on Oct. 25, and has granted permission to the lodge to cancel meetings on Nov. 1 and Dec. 11 in order to permit Sanford Elks to participate in visits to the Winter Park and Kusks Lodge.

Walter Kanner received a vote of thanks for his presentation to Mr. Sharrack of a framed certificate awarded the lodge for making a contribution of \$1,000 to the Elks National Foundation.

John M. Flispatrick, treasurer, reported that the lodge is in excellent financial condition.

The following appointments were made: James C. Loo, James R. Stewart and Leo Butner to the Lamentation Committee; A. Henderson, John Probst and Jack Kanner to the Visitation Committee.

Good Season Had By Plantation Estates

NEW YORK CITY, Oct. 12.—(Special)—Frederic E. Spira, president of Plantation Estates, Inc., Florida developers with offices at 500 Fifth Avenue, Manhattan, reports that most successful summer season, with sales of homesites in August and September, usually dull months, exceeding the sales in many previous "in-season" months. He said that day went by without some one starting to build a house, Mr. Spira announced.

Started a little more than three years ago, the development company has nearly 100 homes in the \$5,000 to \$10,000 brackets. The settlement, recently named De Bary in honor of Count De Bary whose 20 room mansion is still standing on the site.

Recent home purchasers include three residents from New York City and others from Mount Vernon, Staten Island, Glendale, I. Yonkers, Brooklyn, South Oyster Bay, Queens, as well as a number from New Jersey and Connecticut.

ONLY HOPE UNITED NATIONS

WASHINGTON, Oct. 12.—(AP)—Two Republican senators said today they are confident Dwight D. Eisenhower will be a candidate for President on the GOP ticket next year. And last night Senator Duff (R-Pa.) said in a radio interview he hopes to get a "definite and definite" statement from Eisenhower at a meeting about Jan. 1.

ITS HER FAULT LAKELAND

LAKELAND, Oct. 12.—If you get hurt while taking that mid-morning break for coffee your employer is not responsible for the doctor bill, the Florida Industrial Commission ruled today.

A Franklin Garner, deputy commissioner, made that decision today.

He declared that a Clearwater man employed by Sara S. Payne, 45 South Pine St., Lakeland, who was hurt on his way to work.

Man Is Fined For Stealing Bananas

DAYTONA BEACH, Oct. 12.—(AP)—After Roy Roman Thomas was caught stealing 50 cents worth of bananas, he was fined \$32 and ordered to buy \$10 worth of bananas for a Negro orphanage. Police Judge Robert Durden figured the penalty wasn't to steep because "the Thomas' person were found three wallets, all belonging to him, with \$562. Also on the 50-year-old New Smyrnan were 12 pencils, a quarter pound of sugar and an supply of paper. The State Department made public a Soviet note attacking the revision plan announced by the big three Western foreign ministers. At the same time the department said that Russian objections to the West intentions to go ahead with plans to revise the Italian peace treaty. The State Department made public a Soviet note attacking the revision plan announced by the big three Western foreign ministers.

Federal Funds Released For State Welfare

JACKSONVILLE, Oct. 12.—(AP)—Sherwood Smith, State Welfare Director, was advised today that the Federal Social Security Administration has released funds in Washington to help the State meet public assistance grants during the current quarter of the year which began Oct. 1.

Together it is estimated that about \$11,500,000 will go into the Florida program during the three months.

Federal funds had been held up because of a law passed by the last Legislature requiring that produce from up to a hog and 10 fowl not be considered in determining the need of the individual. Before the law went into effect, net value from such produce had been deducted from the budget needs of those receiving assistance and usually resulted in a lower grant.

The federal allotment came through today after Director Smith had assured the Social Security Administration that the Welfare Department would continue its study to see whether any net income is realized from such animal products. A review of production has been considered.

The director conferred with Gov. Warren Tuesday and the State Cabinet relative to what seemed might be a crisis in the State welfare program. More than 50 per cent of the welfare funds come from federal sources and had those been withheld permanently, grants would have had to be drastically cut.

The funds are used in the three major welfare programs. (Continued on Page Two)

Oldsters Not To Be Deprived Of Aid If They Raise Chicks

JACKSONVILLE, Oct. 12.—(AP)—Sherwood Smith, State Welfare Director, was advised today that the Federal Social Security Administration has released funds in Washington to help the State meet public assistance grants during the current quarter of the year which began Oct. 1.

Chamber Of Commerce Has New Library Of City Directories

For the first time in years the Seminole County Chamber of Commerce has an up-to-date library of out of town directories, following the presentation by Frank Lewis of 56 directories of not only Florida cities but major cities in the southeast as well.

Mr. Lewis, the field representative of the R. L. Polk Co., which is now completing its work of updating the names of residents of Sanford for a new directory, presented the directories, Wednesday to Forrest E. Brockbridge, now manager of the Chamber of Commerce.

In making the presentation, Mr. Lewis pointed out to Mr. Brockbridge that these directories put the local Chamber of Commerce on the same status as Tampa, St. Petersburg and Lakeland chamber of commerce in this respect. He added that all directories will be supplemented by new one as soon as they are published.

The names, which have been going on for 12 days will be completed Saturday by the six travel workers, he stated. The survey will cover the Sanford area and vicinity beyond the city limits, including residents on the Orlando Highway to a point three and a half miles south of Sanford.

Mr. Lewis today requested that people mark and return at once postpaid mail to them, even if their names have been taken out of the directory.

The new directories at the Chamber of Commerce cover the following Florida cities: Bartow, Bradenton, Clearwater, Daytona Beach, Deland, Ft. Lauderdale, Ft. Myers, Ft. Pierce, Gainesville, Jacksonville, Jacksonville Beach, Lakeland, Miami, New Smyrna Beach, Ocala, Orlando, Palatka, Pensacola, St. Augustine, St. Petersburg and St. Petersburg Beaches, Sanford, Sarasota, Tallahassee, Tampa, West Palm Beach and Winter Park.

Georgia cities represented are Atlanta, Brunswick, Lagrange, Macon, Savannah, Thomasville, and Valdosta. South Carolina cities listed are Columbia, and Spartanburg. North Carolina includes Charlotte, Elizabeth City, Hendersonville, Lenoir, and Shelby. Virginia cities include Harrisonburg, Lynchburg, Martinsville, Norfolk, Portsmouth and Roanoke Rapids. The Alabama list includes Birmingham, Columbus, Phenix City, Mobile, Montgomery.

Other cities in the directory list are Baltimore, Md., New Orleans, La., Memphis, Tenn., and Washington, D. C.

Any Price Rises To Be Moderate, Bureau Predicts

WASHINGTON, Oct. 12.—(AP)—The Bureau of Agricultural Economics, in an appraisal of the economic outlook for the next few months, predicted today that price increases, if any, will be "moderate" in degree.

The agency said there are several factors tending to press prices upward. They were listed at (1) rising personal incomes, (2) a record demand by business for plants and equipment, and (3) rising requirements for defense.

These factors, the bureau said, should assure a continuing strong demand for most goods and services.

But tending to offset the economic influence of these factors, the bureau said, are (1) a rapid build-up of industrial productive capacity, (2) substantial inventories of many consumer goods, and (3) the prospective recent output of farm products.

These latter factors, the bureau said, "should serve to moderate any upward pressure on prices over the next few months."

The bureau said farmers received about \$21,700,000,000 from sale of products during the first nine months of this year. This was 14 per cent more than they received in the corresponding period last year, although the total volume of marketing was about the same as a year ago. Prices averaged higher this year.

All of the increases in farm income came from sale of livestock and livestock products. Money received from farm crops was (Continued on Page Three)

BYRD DRAFT SELMA

SELMA, Ala., Oct. 12.—(AP)—A move to draft Senator Byrd (D-Va.) or another strong southerner as the States Elks candidate for the 1952 presidential election may be forthcoming here Nov. 1.

That's the day when anti-Truman Democrats from throughout the South (not together) to talk over next year's strategy. The occasion will be the annual meeting of the Dallas County Farm Bureau. Senator Byrd will be principal speaker.

CHRISTOPHER COLUMBUS PLACES WREATH ON STATUE OF COLUMBUS

WASHINGTON, Oct. 12.—(AP)—Christopher Columbus was a tall, goodlooking man with sad eyes. His eyes may have been sad because he suffered from gout.

He was possibly the greatest sailor in history but on his first trip to the new world he ran his flagship, the Santa Maria, aground like a novice.

Columbus was a truthful man but he saw no need to tell every body all he knew. On that first voyage he kept two acts of record— one for the crew and one for himself. The men were brutal already and he figured what they didn't know wouldn't hurt him.

These and other oh-is-that-so's about Columbus were supplied by the Library of Congress today in connection with a special exhibit marking the 490th anniversary of

C. Of C. Given New Directories

Frank Lewis, at right, field supervisor of the R. L. Polk Co., which is now nearing completion of its survey of Sanford for a new directory, hands to Forrest E. Brockbridge, now manager of the Seminole County Chamber of Commerce, one of the directories of Sanford which was completed in 1947 and which soon will be replaced by a new one. The shelf can be seen a collection of up-to-date directories of cities of Florida and the South presented by Mr. Lewis to the Chamber of Commerce.

Use Of Metal In Consumer Goods Is Due For Cut

WASHINGTON, Oct. 12.—(AP)—The Defense Production Administration said today the use of metal in making household appliances and other consumer hand goods will be cut about 11 1/2 per cent during Jan. 1.

The cutback was declared by DPA Administrator Manly Fleischmann, at a joint hearing of two congressional committees.

Copper output will be modestly lower. In the first quarter of next year, Fleischmann said, about that same "less essential" products using critically scarce copper and aluminum will be severely restricted.

He did not specify the items, but they were understood to include like vegetable blenders, and house wares of the type in which plastics or other substitutes could be used.

But there will be no "shortage orders" or outright prohibitions on the use of low-level metals in any such products, Fleischmann explained.

"It is our belief that it is preferable to permit all manufacturers to operate at low levels rather than to put some of them out of business entirely."

"In this way there is a great opportunity for them to be ready to use materials when they come into greater supply."

Fleischmann outlined the plans for the metal cuts after Defense Mobilizer Charles E. Wilson testified the first half of 1952 will be the toughest period for metal shortages in the economic drive.

"We will be moving through a wood of shingle and sometimes darkness" in these months, he told the combined Senate House banking and small business committees.

Wilson predicted easier days starting with the mid-year, however, unless "we are confronted by new aggressions" or other worsened international conditions.

Fleischmann confirmed yesterday's reports that auto production would be held to 2,000,000 passenger cars in the first quarter (Continued on Page Three)

Record Farm Output, Increases In Industry Are Seen

WASHINGTON, Oct. 12.—(AP)—The Bureau of Agricultural Economics, in an appraisal of the economic outlook for the next few months, predicted today that price increases, if any, will be "moderate" in degree.

The agency said there are several factors tending to press prices upward. They were listed at (1) rising personal incomes, (2) a record demand by business for plants and equipment, and (3) rising requirements for defense.

These factors, the bureau said, should assure a continuing strong demand for most goods and services.

But tending to offset the economic influence of these factors, the bureau said, are (1) a rapid build-up of industrial productive capacity, (2) substantial inventories of many consumer goods, and (3) the prospective recent output of farm products.

These latter factors, the bureau said, "should serve to moderate any upward pressure on prices over the next few months."

The bureau said farmers received about \$21,700,000,000 from sale of products during the first nine months of this year. This was 14 per cent more than they received in the corresponding period last year, although the total volume of marketing was about the same as a year ago. Prices averaged higher this year.

All of the increases in farm income came from sale of livestock and livestock products. Money received from farm crops was (Continued on Page Three)

ATHENS TOWN

ATHENS, Greece, Oct. 12.—(AP)—The military chiefs of the United States, Britain, and France left for Ankara, Turkey today after talks in which they said "comparable progress" was made toward integration of Greece into the Atlantic Pact.

U. S. Gen. Omar N. Bradley, Field Marshal Sir William Slim of Britain and Gen. Armeine Charles Leclercq of France conferred with Greek leaders.

New Red Charge Rocks Hopes Of Peace In Korea

Stassen Accuses State Dept. Of False Reports

WASHINGTON, Oct. 12.—(AP)—Harold G. Stassen today accused the State Department of making "false and deceptive" statements about him in their controversy over a 1949 department round table conference on him policy.

Testifying before a Senate subcommittee, Stassen said: "I again challenged the accuracy of Ambassador-at-Large Philip C. Jessup's sworn testimony that the United States never has considered or contemplated recognition of Communist China."

2. Contended the Department's transcript of discussions at the 1949 conference "the truth of my description of it" as dominated by persons favoring steps helpful to the Chinese Communists.

The State Department last night released the bulky record of the meeting, and asserted that it showed Stassen's account of the conference was "factually in error."

Stassen, president of the University of Pennsylvania and a Republican leader, attended the 1949 conference.

He had given his version of the conference proceedings in testimony earlier this month to the Senate Internal Security subcommittee. The senators are digging into the question of whether there have been subversive influences on U. S. policies in the Far East.

With the department's release of the transcript, the subcommittee called Stassen back with a request that he point out any part of the conference discussions which bore out his contention.

Stassen recalled Kenneth W. Young, a Northwestern University political science professor, who incidentally had testified that a group sympathetic to the Red Chinese had dominated the conference.

At the outset, Stassen said "the transcript now at long last released clearly proves the correctness of my memory of the conference and the truth of my description of it."

The thing he had testified to was that the "prevalent group at the conference advocated an early U. S. recognition of Communist China."

"The confirmation for my recollection on all ten points is found in the transcript," he told the subcommittee today.

He added that not only did the record show that members of what he called the "prevalent group" frequently directly agreed on these points, but they never dissent from any of the ten points, even though dissent had been expressed by myself and a few others."

Denies Jessup Statement On Recognition Of Red China

WASHINGTON, Oct. 12.—(AP)—Harold G. Stassen today accused the State Department of making "false and deceptive" statements about him in their controversy over a 1949 department round table conference on him policy.

Testifying before a Senate subcommittee, Stassen said: "I again challenged the accuracy of Ambassador-at-Large Philip C. Jessup's sworn testimony that the United States never has considered or contemplated recognition of Communist China."

Public Look At Fire Department Is Due Tomorrow

In connection with National Fire Prevention Week the Sanford Fire Department will hold an open house Saturday from 8:00 A. M. to 1:00 P. M. Fire Chief Cleveland announced today.

He invited citizens to inspect the department, look over the equipment and to become familiar with the duties of the firemen and what they have to do.

Chief Cleveland is thoroughly experienced in fire fighting, having served the department for 31 years, and he spends much time with his men, instructing them in the latest methods of fire fighting and fire prevention.

Under him is an efficient fire fighting organization which includes Assistant Chief G. G. Thomas, Chief R. E. Cross, Acting Chief G. M. Harwood, R. E. White, who serves as mechanic to the department and who keeps the trucks in proper running condition.

Other members of the force include R. T. Bennett, R. H. Giles, C. L. Keller, W. L. Rowland, L. C. R. Alexander, H. C. Crissey, J. D. Cassidy, G. V. Hartz and J. R. Dunaway.

The men have recently been overhauling, repairing and repainting the two old La France pumps. Other duties have included the flushing, greasing and painting of the plugs, which were checked for static pressure and flowing pressure.

A complete report is made of each hydrant and these reports are used in the firemen's classes from time to time, said Chief Cleveland. Firemen are required to be thoroughly familiar with the location of hydrants throughout the city.

LEGION PLANS MIAMI

MIAMI, Oct. 12.—(AP)—The American Legion will act on a resolution next week voting privileges for service men under 21.

The national convention here will also act on a resolution asking the federal government to exempt the service pay of the armed forces from income tax and repeal any laws collected during 1951.

IRANIAN ROW

NEW YORK, Oct. 12.—(AP)—The United States is making a concerted effort to persuade Premier Mohammed Mossadeq of Iran to resume talks with the British on the Iranian oil crisis, this time under United Nations Security Council sponsorship.

Iranian delegates here still had no comment to make on "third party" efforts to get Iran and Britain together again in negotiations.

FLEET COMMAND

LONDON, Oct. 12.—(AP)—Vice Adm. Earl Mountbatten gives up his London desk job next May to take command of the British Mediterranean fleet. He has been fourth sea lord in charge of supply and transport.

Mountbatten, 61, is uncle of the Duke of Edinburgh. In World War II he commanded a destroyer flotilla and rose to be supreme allied commander in southeast Asia.

RETRIBUTION

HENDERSON, Ky., Oct. 12.—(AP)—Flames of undetermined origin today destroyed a barn on the farm of William Hodges, president of the Henderson Good Government League and active in an anti-gambling drive.

Leo Williams, who managed the farm on the outskirts of Henderson, estimated loss at \$75,000.

THE WEATHER

Partly cloudy through Saturday except mostly cloudy extreme south portion and lower East Coast with a few widely scattered brief showers. Continued rather cool.

Outnumbered Allied Jets Win Battle With Communists Over MIG Alley

MUNSAN, Korea, Saturday, Oct. 13.—(AP) Hopes of resuming the Korean talks were shaken today by a Communist charge that three American planes strafed both the Kaesong and Panmunjom areas, killing one Korean boy and wounding another.

The Reds declared in a broadcast from Peking early today, "observers here (in Kaesong) believe that this new serious provocation created by the American side gives rise to deep misgivings as to whether the American side still has the slightest sincerity in its attitude toward the resumption of armistice negotiations."

Allied liaison officers made a preliminary investigation of the Red accusation during the dark hours last night, and early today and decided to resume their inquiry at 9 A. M. (7 P. M. Friday, E.S.T.).

Panmunjom is the site agreed upon for possible renewal of the Korean armistice talks which the Reds suspended at Kaesong Aug. 23.

Liaison officers on both sides had haggled for the past three days over technicalities as defining the full-dress talks.

The Communist Friday night at 7 P. M., however, suddenly telephoned the U. N. advance camp at Munsan and charged that a U. N. plane had attacked the site Kaesong neutral zone at 5:35 P. M. (3:35 A. M. E.S.T.). They gave no details over the telephone.

Charges of violations of the Kaesong neutral zone were the most serious for moving the talks.

The size of the protected area to be maintained around Kaesong in the future appeared today to be a major stumbling block in the path of resuming another negotiation.

Earlier a United Nations spokesman said the major remaining question was the size of security (Continued on Page Two)

Movie Time Table

RITZ
"The People Against O'Hara" 1:00 - 2:15 - 3:30 - 4:45 - 5:30
