Number 1

SANFORD, FLORIDA, FRIDAY, AUGUST 18, 1911

Volume IV

RESIDENCE OF DR. J. N. ROBSON, SANFORD, FLORIDA ALL AROUND FLORIDA

Awarded the prize by the Welaka Club for the prettiest yard in town, Dr. Robson deserves great credit, for eight months ago this yard was a sand bed. The front lawn is 40x50 feet, side lawn 20x127 feet, nearly 100 feet of private hedge bordering the lawn. This will greatly improve wealth. There are many other pretty yards in town and the owners promise to give Dr. Robson a good race for the prize next year—for many have begun improving. They will have to work hard for the Heights are determined to hold their own.

CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

By a vote of seven to three the city council of Tampa has given a franchise to the Atlantic, Okechobee and Gulf Railroad to enter the city over Second avenue from Thirteenth to twelfth street. Some protest is being made by cigar and box factories and injunction proceedings are threatened.

The Dowling-Shands Lumber Company is constructing a large sawmill at Green Cove Springs, on the point formed by Governor's creek and the St. Johns river. It is estimated that the mill will cost \$100,000.

Construction work on the Haines City, Fla., branch of the Atlantic Coast Line Railway is under way and being rapidly pushed. Grading has been completed as far as Avon Park and rails are being laid with unusual dispatch. The line will be in operation by January 1, and will open up valuable territory that has heretofore been denied transportation facilities.

Mayor Christopher Matheson of Gainesville recently fined three Greeks an aggregate of \$125 and costs for selling cider which was alleged to contain more alcohol than the law allows.

Mr. Charles F. Wall planted a Celestial fig switch, about one-quarter inch in diameter, last March in his back yard in Brooksville. It is nearly four feet long, growing on every side and to the full length of the stem. It is well fruited on all the limbs above the first row. The figs sprout out from the leaves, every mature leaf having a fig at its base. Leaves are still forming and figs coming. It is a wonderful growth. The other figs planted at the same time are still switches, apparently not much larger than when first planted last March. We are inclined to the opinion that the Celestial is the fig for this climate and section.—Brookville

Boston is to have the third banking institution in a short while. The new bank will open up for business October 1, with a capital stock of \$50,000. E. E. Skipper, postmaster, is to be the president and the bank will be known as the Citizens bank.

Within a short time work will begin on Tampa's first real skyscraper—a ten-story reinforced concrete and steel building to be erected on Jackson street, between Franklin and Tampa streets, by R. Mudge, the approximate cost of which will be \$100,000.

The A. C. L. railroad company is spending several thousand dollars in extending and improving the terminals and yards at High Springs, preparatory to handling what promises to be the heaviest freight movement in the history of the road.

Ocala is getting decidedly metropolitan in its tastes. It is not now for a union depot and is considering the proposition of having the city supplied by electricity. The council at its last meeting indicated the movement for the depot, which was inaugurated by the board of trade and the Women's club.

More than two million dollars worth of Florida produce, including main crops, citrus, lumber and timber, went out of the Pensacola port during the week ending Tuesday last, completed by the collector of the port.

Won on First Ballot
The County Executive Committee met in Orlando yesterday morning to nominate a candidate for the position of County Superintendent of Public Instruction. There were many candidates for the position, but Rev. J. F. McKinnon of Sanford won on the first ballot, the vote being McKinnon, 13; Cawood, 1; Pounder, 8; Simmons, 2.

Hon. D. L. Thrasher made a fine introductory speech in behalf of Rev. McKinnon. A strong Sanford delegation was present and the result has given general satisfaction.

At Long's grocery you get best grade Florida butter on loan.

NEWS OF THE WORLD

Items of Interest Gleaned From Various Sources

HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Sketch of Events of Interest

Zaccariah Walker, a negro desperado, was carried on a cot from the hospital at Coatsville, Pa., and bound to a crib by a frenzied mob of men and boys. The negro, who had killed Edgar Rice, a special policeman of the Worth Iron Mills, was first dragged to the scene of the shooting being pleaded for mercy.

Rosa Pittino, the 10-year-old swimmer of Boston, succeeded in her attempt to swim from Long Beach, California, to Manhattan, New York. Last year she had made a similar effort because of adverse weather. Last Sunday, although forced to quit at 10 miles out of her home, she was estimated to have covered some twenty-one miles in making the distance of eighteen miles. She finished strength generally, excepting as she heated the goal.

Sultry weather from which only the Southern and Pacific coast states will be exempt is promised for the country the coming week. According to the weekly forecast of the weather bureau, the hot wave will be followed later in the week by cooler weather, numerous thunderstorms and local showers marking the change.

Four persons were killed and thirty injured when the Pennsylvania 14-hour train, en route from Chicago to New York, jumped the track on the western outskirts of Ft. Wayne, while going at the rate of 50 miles an hour. In leaving the rails the two engines pulling the passenger train sideswiped a freight engine and the three piled up in a mass of bent and twisted iron.

To Have One's Own
A meeting was held Wednesday morning by a number of the growers of Sanford and community and held at the Annual Growers' Picnic to be held the middle of September.

The Growers' Picnic has been a decided success in the past and the farmers and people of Sanford have learned to look forward to this event.

It has not been determined yet where the picnic will be held, but will be decided in the near future.

More specimens will be given later. Sweetest line of Co. Darts in the city. Sanford Furniture Co.

Among Sanford Lodges

Wednesday afternoon, August 9th, Celery City Circle Woodmen of the World, held their regular meeting at Eagles' Hall. Officers donned their new regalia, and at the sound of the gavel, took their respective stations, after the regular business was transacted, the attendant announced candidates in waiting, as all requirements had been complied with, she was ordered to escort them over the rough and rugged road, and introduce them into the mysteries of the forest, at the end of their journey they were conducted into the banquet room where delicious refreshments had been prepared by committee members.

At Masonic Hall, Friday evening, August 11th, Seminoles Chapter, Order of the Eastern Star, held a very interesting meeting. After the business session, the worthy patron announced that committee on entertainment would take charge of the meeting. They were soon invited and seated at the table, and served with delicious refreshments. After satisfying the appetite, a short while was spent in jest and merriment. Our worthy hostess, Charles F. Harding, took the chair, so every one had a pleasant evening for those who had seen the star. The worthy patron closed the meeting in the usual form and all had a good night and repaired to their respective homes wishing for many returns of the evening.

From Florida Vegetable Growers' Assn.

In reply to a recent article in your paper regarding the Florida Vegetable Growers' Association of Sanford, Florida, we will state that this association employs an office force from October 15th to June 15th of each year and that during the summer months, save for our regular directors' meetings, or by special appointment as specified by a notice on our office doors, we have no occasion to keep our offices open.

We will further state that the association is in a better position to handle the business of its members than it has ever before been and that we have not lost as many as five desirable members in good standing have gone out of the business of raising vegetables as have, removed from our community, and have the names of many new members for the coming season now enrolled on our books.

We have, in our very satisfactory showing for the past season and the few specimens that we have made with "peeling" and other methods of sale have been promptly abandoned when found unsatisfactory and as promptly adopted for their products at the lowest possible charge for transportation and sales. We now have men in the northern states opening up new fields for a wide distribution of our products during the coming season.

The Board of Directors of the Florida Vegetable Growers' Association.

WAS HE A SPY?

Japanese Spends Several Days Looking at Our Defenses

All of last week a dark haired, dark eyed, dark skinned man was in our city paying close attention to our harbor defenses, the celery farms, number of inhabitants, etc.

He has left for parts unknown, and carried with him a detailed report of the city and river front. The gentleman was so very quiet about the investigation that even the real estate men were not aware of his presence in the city. Jim Harris missed him entirely. While here he obtained blue prints of the mountain howitzer, that guards the approach to the city dock, a description of the number of guns mounted by the launches Mamie, and Molly Bawn, and their relative speed, just how much near beer it takes to float a house boat, how many days a party of Sanford men could spend at Lemon Bluff on four full quarts, and a loaf of bread, and how long a man could live on celery when the market is down.

The mysterious "tap" also inspected the new bulk head on the lake front that was built during the last session of the legislature and was greatly surprised at the progress made in pulling down the coal chute.

From a word let slip, while he was wading across the gutter in front of Morgan's store, it was learned that it would be impossible for a Japanese citizen to throw a shell from the city dock to the corporation limits of Sanford, and the people on Sanford Heights have advanced the price of property at once.

Later, it was learned that the Japanese was looking for a location for a restaurant.

Progress Laundry Progresses

Mr. J. H. Overman, manager of the Progress Steam Laundry of this city, has recently installed a new and up-to-date darning machine, this unique machine darning any and all kinds of linens and other goods. Another new feature of this plant is a large steam heated collar cuff ironer. Mr. Overman explains that the steam heated machinery is not injurious to the clothes of the laundress. More washing machinery has also been recently installed in order to keep up with the ever increasing business, and Mr. Overman also boasts the only water purifying plant south of Jacksonville. The laundryman's business is always on the alert and instead of keeping abreast of the times and now has a plant that would be a credit to any city many times the size of Sanford.

Another feature is what he calls "waiting day" and Thursday afternoon is designated as the time when any and every patron citizen or business in the city, especially ladies are invited to call and go through this modern American plant. They will be astonished at the things they will see.

Another Florida Congressman

The Congressional reapportionment bill fixes the membership of the House, beginning with the next Congress, at 433 instead of 391, as at present, and defines the allotment in the several States. Two attempts were made to reduce the membership as fixed in the House bill, but both were unsuccessful.

The measure was amended in one important particular. The proposition advanced by Senator Burton that in those States which gain additional members under the new apportionment, the members representing the increase shall be elected at large instead of by district, until such States shall be readjusted.

The following will be the House membership under the new measure after March 3, 1913:

- Alabama 10, Arkansas 7, California 11, Colorado 4, Connecticut 5, Delaware 1, Florida 12, Idaho 2, Illinois 27, Indiana 12, Iowa 14, Kansas 10, Kentucky 11, Louisiana 8, Maine 3, Maryland 6, Massachusetts 15, Michigan 13, Minnesota 10, Mississippi 8, Missouri 16, Montana 2, Nebraska 5, Nevada 1, New Hampshire 2, New Jersey 12, New York 23, North Carolina 10, North Dakota 3, Ohio 22, Oklahoma 3, Oregon 3, Pennsylvania 30, Rhode Island 3, South Carolina 7, South Dakota 2, Tennessee 10, Texas 18, Utah 2, Vermont 2, Virginia 10, Washington 5, West Virginia 5, Wisconsin 11, Wyoming 1. Total 433.

Under the new apportionment no State is reduced in present membership in the House. Various States make gains of from 1 to 6 members. The largest increase is in the New York delegation, which now has 37 members, and during the next decade will be entitled to 43. Pennsylvania gains the next largest number—4.

Well Equipped Dental Parlors

In the new dental parlors recently opened in the Garner Woodruff Block, the people of Sanford should take pride. As you step across the threshold of the office, you are met by genial Dr. Boardman, who has been apprised of your coming by an electric buzzer under the rug. The offices are the possession of cleanliness and the reception room makes a rest in the comfortable chairs. In Dr. Boardman's office much of the tortoise chamber has been eliminated, and the fine dental chair, known as the "X-ray" chair, which might have a nerve. And the latest in the way of mechanical appliances. The average layman is lost when the doctor explains the system of electric switches, electric irons, electricity for every part of the work, the thought comes that in this age of improvement even the dental work can be done without pain.

There is probably not a better equipped dental office in the county, and the modern methods of dental practice have been applied to the study.

COUNTY HAPPENINGS

A Budget of Interesting Items From Correspondents

THE EVENTS OF ORANGE COUNTY

Efficient Staff of Reporters Weekly Covers the Territory for The Herald

GENEVA JOTTINGS

Special Correspondence to The Herald: W. D. Ballard has returned from Griffin, Ga., and will immediately begin improvements on his dwelling.

We are glad to see Mrs. W. J. Daniel up again after a week's illness.

Mrs. A. A. Moran from Miami is on a visit of some length to her son and family.

Miss Lydia Geiger has gone to Bloomingdale, near Tampa, where she has a splendid school for the coming session.

Misses Wayne McInip, Blanch and Georgia Pattishall, also Harold, Evan, and Bertha Pattishall, have returned from Sanford where they attended a house party given by Mrs. Tolar.

Mrs. J. Q. Adams, Messrs. Will, and Charlie Adams, left last Saturday for Hensdale, Mass., taking the remains of Mr. J. Q. Adams to the grave.

CAMERON CITY CLIPPINGS

Special Copy to The Herald: Mr. W. H. Allen and family who have been living on Cameron avenue, are moving into the house formerly occupied by Mr. Jones on Beardall.

Howard-Packard Land Company have rented their farms around here and families will soon be moving into the houses which have been standing empty during the summer.

Things are beginning to look like business. Plowing is being done, seed beds made, corn gathered and hay cut.

Word comes from the north and west of another fierce heat wave causing suffering among the people and further destruction of crops, and again we are thankful for Florida breezes.

Dr. Walker and daughter attended church here last Sunday.

If it should happen that any of our Cameron City folks who are scattered over the north and west for the summer read these items, we would say to them we send you loving greetings and wish you well wherever you are whatever you are doing.

Mr. and Mrs. Beck are expected back soon.

Word comes from the Kinahans that they are suffering with the heat in Kansas and longing for Florida.

Mr. Ed Cornely and sister, Neva, went to Jacksonville last Friday on the boat returning Sunday evening. They had a most enjoyable trip, and spent part of Saturday at Pablo beach.

Come out to church and Sunday school. There are not many of us, but we have a fine time.

We are sorry indeed to have caused such a disturbance in the mind of one John Bull by our innocent remarks a couple of weeks ago regarding the cattle nuisance as we have it to contend with in Cameron City and vicinity. Such violent brain storms are really dangerous, when both Wallace, their ideal fighter, and Nabelle were both better unmercifully four home runs and many singles being recorded. Mr. Spencer joined the Orlando managers, but the game to be played the next day in Sanford would be their last, giving as an excuse that finances compelled them to disband.

A few may be found who would swallow the "financial" reason, but it would be hard to convince the sport loving public that it was the anything but a bad case of cold feet. The hand writing on the wall was too plain for the Sanford manager, who, seeing defeat staring him in the face, refused to keep a verbal contract, made in the presence of reliable witnesses. When seemingly unable to win a game, the directors of the Orlando team met and decided to finish the series as agreed upon by Mr. Spencer. If defeated every game, and would have carried out their contract. The public is left to draw its own conclusions.

To Go Favors Peace Aug. 14.—The relations between the United States and Japan must ever be one of peace and neighborly good-will. As Admiral Count Togo speaking in his native tongue, uttered that sentiment at the luncheon given by the Japan Society and the Peace Society of New York, only the Japanese present understood and applauded vigorously, but when Commander Taufelud, his aide, repeated the words in English, an outburst of applause arose spontaneously from the hundreds of guests present. It

was the first expression by the great fighting man of the East on the subject of International relationship.

Bryan Will Butt in Aug. 14.—"I intend to devote all my time between now and the nomination to finding out things about the candidates for the Democratic nomination for President," said William Jennings Bryan to a large audience at Columbus, O., on Tuesday. "I know all of the leading men of the party. Those who have hindered and those who have helped it. When the times comes to name the man for the candidacy I will not be silent."

Station church Sunday, August 20, at 4 o'clock. Everybody please turn out. The reverend gentleman will celebrate his 84th birthday, August 18th.

Mr. Thrasher, an evangelist friend of Mr. and Mrs. W. W. Miller, preached here last Sunday evening.

J. F. McClelland spent last Sunday with Mrs. Prevatt and family in Geneva.

E. A. Gilbert and sons entertained J. O. Packard at dinner on Sunday.

W. H. Harper is back again from several weeks spent in the north.

Ingram and Joe Guerry left Sunday for a visit to several points through the state.

Oca Estridge has gone to Jacksonville to spend some time.

Miss Ruby Hart of Beck Station entertained the Misses Ruth, Bessie and Lucile Proctor of Geneva last week.

Mesdames C. C. Worthington and L. J. Hancock were over from Lake Onora calling on Mrs. Ellsworth Tuesday.

Must have hit some one cattleman in a sore place from his speel in last week's Herald. Maybe it would be a good thing if all the farmers and fruit men would go into the cattle business if it is so much more of an important industry. We know how it feels to have cattle ruin fine crops so we advocate better fences for the farmers and more attention to their stock for the cattlemen's part, for the farmers through here are at the limit of endurance.

Poor Excuse Better Than None The Orlando Reporter-Star in an effort to defend the ball team of that city in their recent "lay down" tactics makes a poor showing in the following statement:

For the benefit of those who are not acquainted with the base ball situation the following is given. Before the season opened a committee from Sanford headed by Manager Spencer waited on the directors of the Orlando team, bringing with them the cup won by the Orlando boys from Sanford two years ago which had never been turned over, admitting that they had been fairly defeated and asking that a series of games be agreed upon, promising to do everything in their power to further a friendly feeling between the sister towns, to see that the games were played on the dead level and admitting that base ball would not pay unless the two teams held together.

The series was begun. After playing sixteen games, nine of which had been won by Sanford, three ties and only four won by Orlando, Mr. Spencer and manager of the Sanford team, was approached before several reliable witnesses, the matter brought up and an agreement made to play eight more games, four this week and four next week, to be divided the two towns. All arrangements were made, players engaged for the next two weeks, the financial condition of the Orlando club thoroughly gone over and the conclusion reached that with the games to follow finances would be in splendid shape.

Tuesday afternoon the Orlando boys got together, knowing that it required seven out of eight games to be played to win the series, winning by a score of five to two and the following day went to Sanford and proceeded to wipe them off the face of earth by a score of 14 to 0. After this overwhelming defeat, when both Wallace, their ideal fighter, and Nabelle were both better unmercifully four home runs and many singles being recorded. Mr. Spencer joined the Orlando managers, but the game to be played the next day in Sanford would be their last, giving as an excuse that finances compelled them to disband.

A few may be found who would swallow the "financial" reason, but it would be hard to convince the sport loving public that it was the anything but a bad case of cold feet. The hand writing on the wall was too plain for the Sanford manager, who, seeing defeat staring him in the face, refused to keep a verbal contract, made in the presence of reliable witnesses.

When seemingly unable to win a game, the directors of the Orlando team met and decided to finish the series as agreed upon by Mr. Spencer. If defeated every game, and would have carried out their contract. The public is left to draw its own conclusions.

Section 1. That authority is hereby given, granted and conveyed unto the Citrus Southern Railway Company, a corporation organized under the laws of the State of Florida, its successors and assigns, the right, franchise and privilege to build, construct, maintain, operate and conduct a railroad, to be operated by any motive power other than steam, through the said City of Sanford, upon, along, through, over and across the streets and avenues of the said City of Sanford, as follows:

Hughes Street from the western terminus of said Hughes Street to Palmetto Avenue, Palmetto Avenue from Hughes Street to Thirteenth Street, Fourteenth Street from Palmetto Avenue to Cypress Avenue, Cypress Avenue from Fourteenth Street to the northern terminus of said Cypress Avenue, west, to an unnamed street between Lots 15 and 38 of Robinson's Survey of an Addition to South Sanford, thence north along said unnamed street to the northern end of said street and Tamarind Avenue, to its southern terminus to the northern corporate limits.

Authority is also hereby given, granted and conveyed to the Citrus Southern Railway Company, its successors and assigns, to build, construct, maintain, operate and conduct a dock and wharf upon, along, through, over and across Cypress Avenue as extended in Lake Monroe to the northern corporate limits, together with the right to make fills and cuts to a grade established by the City of Sanford, south of said Cypress Avenue from Water Street, north, to the northern corporate limits; and to make and lay a roadway from the said Water Street to the northern end of said dock; said roadway to be built of such material as the Grantee hereinafter named, its successors or assigns, may deem advisable and sufficient, and said roadway to be free and open to the citizens of Sanford for ingress and egress to and from said dock.

Authority is also hereby given, granted and conveyed to the Citrus Southern Railway Company, its successors and assigns, to build, construct, maintain, operate and conduct a dock and wharf upon, along, through, over and across Tamarind Avenue as extended in Lake Monroe to the northern corporate limits, together with the right to make fills and cuts to a grade established by the City of Sanford for said Tamarind Avenue from Monroe Street, north, to the northern corporate limits; and to make and lay a roadway from said Monroe Street to the northern end of said dock; said roadway to be built of such material as the Grantee hereinafter named, its successors or assigns, may deem advisable and sufficient, and said roadway to be free and open to the citizens of Sanford for ingress and egress to and from said dock.

The Citrus Southern Railway Company, its successors and assigns, is hereby granted, granted, its rights, uses, purposes and privileges pertaining to such docks and wharves for the convenient transfer of passengers and freight to and from its said railroad and boats, vessels and watercraft.

Section 2. That the authority, right and privileges given, granted and conveyed in the preceding section to the Citrus Southern Railway Company, its successors and assigns, shall constitute a franchise for the building, constructing, maintaining and operating and conducting of the said railroad and said docks and wharves in perpetuity, upon the following conditions and terms:

(A) The said Grantee hereby named, its successors or assigns, shall complete the construction of its said railroad from the City of Sanford, Orange County, Florida, to the City of Kissimmee, County of Osceola, and State of Florida, within two years from the date of the approval of this ordinance; and the failure to complete such work within the time herein specified, shall constitute a forfeiture of the franchise herein granted, and the franchise shall be null and void, and the City of Sanford, Florida, shall be authorized to build, construct, maintain, operate and conduct the said railroad and said docks and wharves in perpetuity, upon the following conditions and terms:

(B) Upon completion of said railroad and of said docks and wharves, the same shall thereafter be and be deemed to be operated by the said Grantee, its successors or assigns, and the failure to so operate the same shall constitute a forfeiture of the franchise herein granted, and the franchise shall be null and void, and the City of Sanford, Florida, shall be authorized to build, construct, maintain, operate and conduct the said railroad and said docks and wharves in perpetuity, upon the following conditions and terms:

(C) The said Grantee, its successors or assigns, shall at all times, keep and maintain the space between its rails and rest on either side thereof in good condition, as the term thereof of the said railroad and said docks and wharves shall be artificially paved, and the cost of such paving shall be paid by the said Grantee, its successors or assigns, in like manner as it is used and done upon the remainder of such street; the expense of the repair and maintenance of the said railroad and said docks and wharves shall be borne by the Grantee herein named, its successors or assigns.

(D) The said Grantee, its successors or assigns, shall at all times, keep and maintain the space between its rails and rest on either side thereof in good condition, as the term thereof of the said railroad and said docks and wharves shall be artificially paved, and the cost of such paving shall be paid by the said Grantee, its successors or assigns, in like manner as it is used and done upon the remainder of such street; the expense of the repair and maintenance of the said railroad and said docks and wharves shall be borne by the Grantee herein named, its successors or assigns.

(E) The said railroad shall be limited to double tracks on Hughes Street, east of French Avenue, Palmetto Avenue, Thirteenth Street, Fourteenth Street and Cypress Avenue.

(F) The said railroad shall be limited to single track on French Avenue, east of French Avenue, to the intersection of French Avenue and French Avenue, and to French Avenue, west of French Avenue.

Section 3. All ordinances, parts of ordinances, in conflict herewith, be and the same are hereby repealed.

To Hon. Forrest Lake, Mayor: I hereby certify that the foregoing ordinance was duly passed by the City Council in regular session, August 7, 1911.

M. W. LOVED, City Clerk

Approved August 7, 1911.

Bryan Will Butt in Aug. 14.—"I intend to devote all my time between now and the nomination to finding out things about the candidates for the Democratic nomination for President," said William Jennings Bryan to a large audience at Columbus, O., on Tuesday. "I know all of the leading men of the party. Those who have hindered and those who have helped it. When the times comes to name the man for the candidacy I will not be silent."

AN ORDINANCE

Granting to the Citrus Southern Railway Company

A CORPORATION ORGANIZED UNDER THE LAWS OF THE STATE OF FLORIDA, ITS SUCCESSORS AND ASSIGNS, CERTAIN RIGHTS, FRANCHISES AND PRIVILEGES.

Be It Ordained by the Council of the City of Sanford, Orange County, Florida.

Section 1. That authority is hereby given, granted and conveyed unto the Citrus Southern Railway Company, a corporation organized under the laws of the State of Florida, its successors and assigns, the right, franchise and privilege to build, construct, maintain, operate and conduct a railroad, to be operated by any motive power other than steam, through the said City of Sanford, upon, along, through, over and across the streets and avenues of the said City of Sanford, as follows:

Hughes Street from the western terminus of said Hughes Street to Palmetto Avenue, Palmetto Avenue from Hughes Street to Thirteenth Street, Fourteenth Street from Palmetto Avenue to Cypress Avenue, Cypress Avenue from Fourteenth Street to the northern terminus of said Cypress Avenue, west, to an unnamed street between Lots 15 and 38 of Robinson's Survey of an Addition to South Sanford, thence north along said unnamed street to the northern end of said street and Tamarind Avenue, to its southern terminus to the northern corporate limits.

Authority is also hereby given, granted and conveyed to the Citrus Southern Railway Company, its successors and assigns, to build, construct, maintain, operate and conduct a dock and wharf upon, along, through, over and across Cypress Avenue as extended in Lake Monroe to the northern corporate limits, together with the right to make fills and cuts to a grade established by the City of Sanford, south of said Cypress Avenue from Water Street, north, to the northern corporate limits; and to make and lay a roadway from the said Water Street to the northern end of said dock; said roadway to be built of such material as the Grantee hereinafter named, its successors or assigns, may deem advisable and sufficient, and said roadway to be free and open to the citizens of Sanford for ingress and egress to and from said dock.

Authority is also hereby given, granted and conveyed to the Citrus Southern Railway Company, its successors and assigns, to build, construct, maintain, operate and conduct a dock and wharf upon, along, through, over and across Tamarind Avenue as extended in Lake Monroe to the northern corporate limits, together with the right to make fills and cuts to a grade established by the City of Sanford for said Tamarind Avenue from Monroe Street, north, to the northern corporate limits; and to make and lay a roadway from said Monroe Street to the northern end of said dock; said roadway to be built of such material as the Grantee hereinafter named, its successors or assigns, may deem advisable and sufficient, and said roadway to be free and open to the citizens of Sanford for ingress and egress to and from said dock.

The Citrus Southern Railway Company, its successors and assigns, is hereby granted, granted, its rights, uses, purposes and privileges pertaining to such docks and wharves for the convenient transfer of passengers and freight to and from its said railroad and boats, vessels and watercraft.

Section 2. That the authority, right and privileges given, granted and conveyed in the preceding section to the Citrus Southern Railway Company, its successors and assigns, shall constitute a franchise for the building, constructing, maintaining and operating and conducting of the said railroad and said docks and wharves in perpetuity, upon the following conditions and terms:

(A) The said Grantee hereby named, its successors or assigns, shall complete the construction of its said railroad from the City of Sanford, Orange County, Florida, to the City of Kissimmee, County of Osceola, and State of Florida, within two years from the date of the approval of this ordinance; and the failure to complete such work within the time herein specified, shall constitute a forfeiture of the franchise herein granted, and the franchise shall be null and void, and the City of Sanford, Florida, shall be authorized to build, construct, maintain, operate and conduct the said railroad and said docks and wharves in perpetuity, upon the following conditions and terms:

(B) Upon completion of said railroad and of said docks and wharves, the same shall thereafter be and be deemed to be operated by the said Grantee, its successors or assigns, and the failure to so operate the same shall constitute a forfeiture of the franchise herein granted, and the franchise shall be null and void, and the City of Sanford, Florida, shall be authorized to build, construct, maintain, operate and conduct the said railroad and said docks and wharves in perpetuity, upon the following conditions and terms:

(C) The said Grantee, its successors or assigns, shall at all times, keep and maintain the space between its rails and rest on either side thereof in good condition, as the term thereof of the said railroad and said docks and wharves shall be artificially paved, and the cost of such paving shall be paid by the said Grantee, its successors or assigns, in like manner as it is used and done upon the remainder of such street; the expense of the repair and maintenance of the said railroad and said docks and wharves shall be borne by the Grantee herein named, its successors or assigns.

(D) The said Grantee, its successors or assigns, shall at all times, keep and maintain the space between its rails and rest on either side thereof in good condition, as the term thereof of the said railroad and said docks and wharves shall be artificially paved, and the cost of such paving shall be paid by the said Grantee, its successors or assigns, in like manner as it is used and done upon the remainder of such street; the expense of the repair and maintenance of the said railroad and said docks and wharves shall be borne by the Grantee herein named, its successors or assigns.

(E) The said railroad shall be limited to double tracks on Hughes Street, east of French Avenue, Palmetto Avenue, Thirteenth Street, Fourteenth Street and Cypress Avenue.

(F) The said railroad shall be limited to single track on French Avenue, east of French Avenue, to the intersection of French Avenue and French Avenue, and to French Avenue, west of French Avenue.

Section 3. All ordinances, parts of ordinances, in conflict herewith, be and the same are hereby repealed.

To Hon. Forrest Lake, Mayor: I hereby certify that the foregoing ordinance was duly passed by the City Council in regular session, August 7, 1911.

IDEAL FERTILIZERS BEST

To gain a place on our regular list a formula must not only produce results, but results with a PROFIT. The user of fertilizer considers the effect on his pocket-book the REAL result. IDEAL FERTILIZERS produces the right effect, for it works with Nature. The preference of each class of vegetation for its source of plant food is carefully studied as well as the proper proportions to give perfect balance—no lack, no waste. With proper application of proper food vegetation outgrows disease and insects to a great extent, and being strong and vigorous, produces fruit that is pleasing to the eye and palate, and brings financial returns to the grower. Do not lose the maximum profit due you by using poorly balanced plant food from improper sources. IDEAL stands for PROFIT.

Twists the Bull's Tail

EDITOR HERALD:
Dear Sir—I note an article in your issue of August 11, signed "John Bull." I have examined the city directory very carefully and failed to locate Mr. Bull therein or elsewhere. I have concluded that he must have been one of those base ball players that got "turned over" in Bro. Spencer's car the other day, and had not fully recovered from the shock when he wrote his article on cattle.

My Dear Mr. Bull, you are, I think, absolutely correct in your statement that the human family could exist longer on beef than on celery or lettuce, but you have also overlooked the fact that there is nothing yet on record to show any free distribution of beef or beef cattle by these great and lordly cattle owners; and therefore, at the present price of beef very few of us can afford to buy very much and have to depend upon our cow pens, corn and potatoes to keep body and soul together, and when these become scarce, roaming, sky-jumping herds of cattle break down our fences, and eat up and destroy our crops. We must go hungry, and the cattle owners, who richly out expense and because we lack Mr. Bull think we should build brick walls around our farms (to don't say low land), but one ten feet would be the only safe fence that would stop some of the cattle now roaming at will among the fields at Cameron City.

Mr. Bull further objects to a no fence law because he says the violation of law book (he don't say cattle) in Orange county is nearly as great as that of the farms and groves. It is a fact that the cattle of Orange county are so valuable then certainly the owners can well afford to build fences and keep their own upon their own property instead of turning them loose to roam at will and steal a living from the poor farmer who is trying to make a living by the honest sweat of his brow. I for one, much prefer being robbed by the man who comes in my corn crib and steals my corn in the

small hours of the night rather than the man who sends his cattle to do the job for him.

I have twenty-five acres under good and lawful fence at Cameron City, which I expect to cultivate the fall, winter and spring, and the cow, steer or "bull," who breaks down my fences and undertakes to rob me of my crop will meet with the same treatment at my hands as would the midnight thief whom I should chance to catch in my corn crib. I have been told that somewhere in the "good book" there is a passage that reads something like this, "And the Lord said, let there be light, and there was light." But between you and me, something got wrong with that lighting machine before it reached the cattle question in Florida and darkness still prevails and I think if you was a sure enough newspaper man and disposed to do the right thing by your fellow man especially those at Cameron City, you would get after that "machine man" and have the light turned on now. If you happen to meet anyone in Sanford or elsewhere who don't think these cattle out here can jump some, send them out to see me; and I would like to see Mr. Bull also. But hitch the cows on the outside.
Yours truly,
C. G. PERRY.

Cameron City, Aug. 14th, 1911.

Error in Number of Cars

EDITOR, SANFORD HERALD:

In your issue of August 11th, I note that I am quoted as saying "last year the Coast Line handled 102 cars of home-senders, and many of the people same run these lands, etc." Now in your next issue if you will correct this statement to read that my statement was during the month of March last, on the first and third Tuesday of that month, the Atlantic Coast Line handled 102 cars extra, nearly all of them private cars, in addition to the regular equipment of the many trains coming into Jacksonville via the Atlantic Coast Line. Please remember of this 102 cars, 53 were in one movement and 46 in the other, all were extra and in connection with the regular equipment, and I think that at least 40 per cent of those coming in, purchased land in some part of the state.
Yours Truly,
WILLIAM MCCOY,
Agricultural and Immigration Agent.

Sanford Library—Fiction Newest

"The Long Foll," by Mary Johnston. The first of two books dealing with the war between the States.

"Miss Livingstone's Companion," by Mary Dillon. A love story of old New York. Hamilton, Burr, Irving and Cooper are some of the characters introduced, and the descriptions of home life and entertainments of that period, are especially charming.

"Mary Cary," by Kate Langley Boshea. "Miss Gibbie Gault," by Kate Langley Boshea.

Mary Cary is the heroine of both stories, simple, quaint, impulsive, true—this wonderful Mary Cary.

"The Rosary" and its sequel, "The Mistress of Shenstone," by Florence Barclay. Two of the most popular novels of the year.

"The Broad Highway," by Jeffrey Fernal. "A downright delicious book of wayside adventure."—New York World. "It helps you to love England and the English language."—London Graphic.

"The Two Salomes," by Maria Louise Pool. In this, a New England conscience is lost—in Florida; the heccaney of generations being responsible for the mishap.

For the younger readers several old favorites have been placed on the list.

"Elsie Dinmore," so often asked for, is here, and those who want to know her better, will be sure to ask for "Elsie Dinmore's Girlhood."

"The Five Little Peppers in the Little Brown House," are here at last. By Margaret Sidney. It is hoped that the girls of the "Sanford High" will appreciate "Betty Wales Freshman" and "Betty Wales Sophomore." By W. C. Ward.

"Wakulla" is a story of adventure in Florida, written by Kirk Moxie.

"Hero Tales from American History," by Theodore Roosevelt and Henry Cabot Lodge, will heighten our patriotic young Americans.

It is hoped in the near future that Sanford will have a free library. The coming of that time can be hastened by an increased active interest in the present library association. Become a reader, contribute magazines, donate books, church, school and library are all agencies for good citizenship. No city can afford to be indolgent in the upbuilding and strengthening of all these.

Library opens Tuesday, 1 to 5 p. m., Saturday, 9 to 11 a. m.

Be Happy!

Happy the girl, or woman, who has never suffered from any of the diseases of womanhood! Or, if she has been a sufferer, happy is she if she has learned of the wonderful benefits of Cardui, the woman's tonic!

Cardui is a gentle, tonic remedy for women's ailments. It is a natural medicine—safe, harmless, purely vegetable. It has been in successful use for more than 50 years. It has cured thousands. It should do the same for you.

TAKE The CARDUI Woman's Tonic

Mrs. Mary Neely, of Denver, Tenn., says, "I think there is no tonic on earth as good as Cardui. I used it with the very best results. I had backache and nearly everything a woman could suffer with, until I took Cardui. Now, I feel better than I have for two years. I shall always recommend Cardui to other suffering women. I can't praise it too highly. As a medicine for weak, tired, worn-out women, Cardui is safe and reliable. Try it today."

Write for Leaflet, "Cardui," containing Medicine Co., Chicago, Ill., for Special Instructions, and 64-page Book, "Food Treatment for Women," sent free. J. M.

Office in Herald Building Telephone No. 148

Osceola county is entitled to the State Senator next term and Hon. Arthur Donegan will be the candidate. He is certainly the man for the place and will get it if he goes after it.

A mob at Coatsville, Pa., burned up a negro who had killed a policeman. We would respectfully refer this to the northern yellows who chirp so much about the South's treatment of the black criminal.

It speaks well for the educational spirit of Orange County, that of the candidates for the office of Superintendent of Schools, the one farthest removed from political associations was chosen to fill the office.

American heiress are becoming rational again. A kin of the Vanderbilts worth millions of dollars is reported to have done the other day. Whenever American aristocracy concludes that military America is good enough, the country is in a safe state.

The Sanford Herald is not ready just yet to embark as a daily, but it announces that, beginning October 1, it will be issued twice a week, approaching the inevitable daily stage by degrees. If there can be anything better than one Herald a week it is two Heralds a week.—Tampa Tribune.

The Sanford Herald, one of the brightest of Florida weeklies, has responded to the call of progress and beginning Oct. 1 will print a twice a week issue. Its troubles will increase in just that proportion; likewise its opportunities. We wish its enterprising editor all the success he deserves.—A. Myers, Fla.

There are rumors to the effect that the Florida Vegetable Growers will affiliate with the Florida Citrus Exchange. If this consolidation came by effected the best of results would accrue to the members of both associations. In union there is strength, and in a grand union of Florida fruit and vegetable growers the problem of markets is solved.

The Orlando Advance, Orange county's new paper, made its appearance this week. It is a neat, four-page five column affair and seems to be well filled with advertisements from out of town firms. The editor's editorial is confined to the state press and the advertiser with a plea to one for exchange and the other for a bit of business, lest the Advance go backward and perish. E. A. Douglas is the editor and he is too well known to need any introduction. With a paper, a grocery store and a real estate business, Bro. Douglas should employ each shining hour in Orlando, the beautiful.

The Folk County Record has exchanged hands. J. G. Savage who for two years has been the editor, has disposed of his interest to J. G. Galloway. Mr. Savage was forced to give up the strenuous life on account of his daughter's health, as this bright young lady has been his able assistant. Mr. Galloway is a newspaper paper man of wide experience, and from time to time makes many changes toward a larger printing establishment. The Herald gives fraternal greeting to Bro. Galloway. It is to be hoped that Miss Savage will regain her health and with her father will again brighten the field of Florida journalism in the near future.

UNDER DEMOCRATIC RULE
The Herald is anxious to attain to higher high in politics than the local and state, but upon the eve of an adjournment of Congress a history of what the Democrats in Congress have done for the people is a sad sight. A complete reformation of the House is the only way.

Passed the Canadian reciprocity trade agreement.
A bill requiring publicity of campaign funds before election.
A resolution authorizing the admission to the Union of Arizona and New Mexico.
A resolution providing for the election of United States Senators by the people of the people.
The Tariff free bill.
A wool bill that requires a tariff duty on manufactures from the west, to 2 1/2 per cent.
Preparing a bill that will reduce the tariff on iron and steel.

In addition, the House has carefully attended, with exceptional care and efficiency, to the routine work of Congress. Diligent, also, have been the investigating bodies, and, as we understand it, twelve probing committees are now busily engaged in killing official evils which extend from the Government lands of Alaska to the stockyards of Chicago. Not a bad record that, and one that is bound to turn the tide for a Democratic victory in 1912.

THOSE BALL GAMES
The ball season is over—and as usual ended in an unsatisfactory manner. Manager Spencer of the Sanford team never specified how many games he would play after the first series was over stating that he would stop when the funds gave out. With no manager on hand last week the game was scheduled for Friday and Orlando failed to toe the scratch after making a bluff at Manager Spencer to play next week, or not at all. Spencer is out of socket and cannot be blamed for swerving off last Friday. The real quitters are the Orlando people who refused to play on Friday.

With four games ahead to our credit, there is no doubt about which city had the best team, and then we will be in the game again next year, and if Orlando is not satisfied we will prove it. Meantime get ready for the county fair.

Government Stamped Envelopes
Out of seven letters received out of the office of the printer, a few days ago, five were in government stamped envelopes that is a most extreme justice to printers throughout the country. Two were from banks and three from big merchants.

These merchants desire the country newspaper to fight the parcels post for them on the theory that it will help the mail order houses to still further increase their competition against the local merchants. Yet they patronize the government monopoly in these stamped envelopes that is a most extreme injustice to the local printer.

The government gives a contract to a single printing concern for these envelopes in the enormous amount of FOUR BILLION envelopes. And of course the government can sell them cheaper with stamp and return imprint than the local printer can buy the blank envelopes, in the quantity he buys them in. Special machinery is used in the printing of an enormous order of four billion envelopes that the local printer cannot afford to own.

But does not the home merchant exchange of trade entitle the printer to get his small profits for printing envelopes from these home banks and business houses as do the home profits of these merchants as against the foreign big houses, and the home banks to get their twelve per cent on their money as against three or four per cent?

It is not just as just to advocate the government's loan of money direct to the people at three and four per cent interest, remarks the Guthrie Register, as for these banks and big merchants to take advantage of the government's ability to furnish envelopes cheaper than the local printer can furnish them.

Let's look at this matter squarely, and if reciprocity is to be the rule between different dealers in local commodities, then it ought to be carried on just all around.

Very Serious
It is a very serious matter to ask for one medicine and have the wrong one given you. For this reason we urge you in buying to be careful to get the genuine.

THE FORD'S BLACK-DRAUGHT Liver Medicine

The reputation of this old, reliable medicine for constipation, indigestion and liver trouble, is firmly established. It does not irritate either medicines. It is better than others, or it would not be the favorite liver powder, with a larger sale than all others combined.

Lunch Ride

Friday afternoon Mr. and Mrs. Ernest Tolar entertained their guests and a few town friends with a most delightful launch ride down the river.

The party landed at a picturesque bluff where they immediately started out to explore the surrounding woods.

Here they found a log cabin and out under the trees an old-fashioned swing where a most delightful hour was spent thus increasing their appetites for the abundance of fried chicken, sandwiches, salads, cakes, limonade and other good things which were served on the grass not far from a bubbling spring. The return trip was made by the light of the southern moon, which nowhere shines so brilliantly as in fair Florida.

The party landed at the city dock at a late hour, each declaring Mr. and Mrs. Tolar, not only the best of host and hostess for a spider web party, but also for a launch ride.

Notice of Application for Tax Deed Under Section 8 of Chapter 4888, Laws of Florida.

Notice is hereby given that McKinnis & McKinnis, of Orlando, Florida, purchasers of Tax Certificate Nos. 2728, dated the first day of June, A. D. 1896, and No. 2491, dated the 3rd day of June, A. D. 1901, has filed said Certificate in my office, and has made application for Tax Deeds to issue in accordance with law. Said Certificate embrace the following described property, situated in Orange County, Florida, to-wit: No. 2728 SE 1/4 of SE (less N. 16 A.) Section 36, Tp. 22, R. 32 E. 24 A., assessed to unknown No. 2491, beginning NE corner of SE 1/4 of SE 1/4 section 36 Tp. 21, SR. 32 E. running S. 6 chs., W. 20 chs., E. 20 chs., assessed to A. Solany. Unless said Certificate shall be redeemed according to law, Tax Deeds will issue thereon on the 19th day of September, A. D. 1911. Witness my official signature and seal this 16th day of August, A. D. 1911.

H. M. ROMANOS, Clerk Circuit Court, Orange County, Florida.

Little Happenings—Mention of Matters in Brief.

PERSONAL ITEMS OF INTEREST

Summary of the Floating Small Talk Succinctly Arranged for Hurred Herald Readers.

Born to Mr. and Mrs. Nathan Garner a fine daughter.

Mrs. Dr. S. Puleston, has returned from a trip to Atlanta, and other points.

H. T. Avant of Jacksonville, was shaking hands with old friends this week.

Miss Tomlinson of Daytona Beach is the guest of her uncle, Capt. R. H. Marks.

Clyde Pounds has signed up with the Miami team for the remainder of the season.

Mr. and Mrs. E. G. Duckworth, and family of Orlando, were in the city on Monday.

Mrs. Frank Gonzalez and children have returned from a delightful outing at Daytona Beach.

Mrs. J. D. Davison, and Miss Kate Underwood, are spending the week, at Coronado Beach.

Mrs. Mabel Johnson has returned from a month's vacation, spent in the New England States.

Geo. H. Fernald is home again from a trip to Boston and other points in the New England States.

Mrs. M. Martin has returned home from a visit in the north and Comfort Cottage is now opened again.

Mrs. B. H. Herndon and daughter, Miss Norma, have returned from a pleasant stay at Daytona Beach.

Mrs. R. J. Holly, and children are at Coronado Beach this week, enjoying the salt breezes from the Atlantic.

Mr. J. B. Polhill, who has been spending the past six weeks in Belleville, Florida, returned home yesterday.

Mrs. R. S. Davies, and little daughter, are spending the week at Coronado Beach, guests at the Clark Cottage.

There will be no preaching in the Presbyterian Church next Sunday. The pastor is taking a two week's vacation.

Dr. L. R. Phillips returned, on Saturday from a trip to Clifton Springs, N. Y., where his family will remain for the summer.

Hugh Gallagher found a fine gold pin at the railroad crossing, and owner can have same by addressing, Box 1463, and identifying property.

Miss Emma Russel a valued employee of The Herald, left this week for Kentucky where she will spend several weeks with home folks.

Mr. and Mrs. G. F. Smith, have returned home from a month's stay at Arden, N. C. Their many friends are glad to welcome them home again.

Wallace W. Brock of Lexington Kentucky and Mrs. De. J. D. Warkfield of Garland Ohio are the guest of their parents Mr. Mrs. A. B. H. H. H.

Mrs. J. H. Barton, was in Jacksonville the first part of last week, and visited the fall and winter opened that was on display at the Windsor.

Frank Foyers, a Smyrna booster, was in the city on Tuesday, and reports the growing city on the East Coast being in a most flourishing condition.

Chas. T. Clark made a business trip to New Smyrna last week, and made a large purchase in real estate, and expects to engage in business there in a short while.

Rev. J. F. McKinnon leaves today for a vacation of two weeks. He will return in time to occupy the pulpit of the Presbyterian Church on the first Sabbath in September.

Manager Tillinghast of the Duckworth store is taking a well earned vacation in North Carolina. Lawrence Brown of Orlando will take Mr. Tillinghast's part for a few weeks.

Chas. F. Adams a prominent insurance agent of Buffalo, N. Y., was in the city last week enroute to his home from Geneva, where he attended the funeral of his brother, J. Q. Adams.

R. L. Johnson left this week for South Florida, where he will spend several weeks returning to Baltimore. Mr. Johnson has been in the store of L. R. Phillips & Co. for the past month.

Mr. and Mrs. S. Rung, and children have returned home from a pleasant outing at Coronado Beach. They were guests of the Atlantic Hotel and report a large crowd at popular Coronado.

L. P. McCuller has returned from a trip to New York. Mr. McCuller was well pleased with the metropolis and said that the people up there were so far behind with their habiting that the streets were filled with vehicles all night, and kept him awake.

Col. P. A. Van Agnew and Hon. Arthur Donegan, two prominent residents of Kissimmee, were in the city on Tuesday calling on old Sanford friends.

Mr. and Mrs. Frank Johnson of Markham have one of the finest farms in this section and raise everything in fruits and vegetables. They remembered The Herald this week with a fine basket of scuppernon grapes.

New Garden and Field Seed at L. R. Phillips & Co. 52-2tc

Pre-Inventory Sale

The enterprising firm of D. A. Caldwell & Sons will put on a pre-inventory sale commencing on August 19, and lasting four days. The prices will sell the goods because the idea is to get rid of all the summer goods, in order to make room for the new fall line. Read the big advertisement in this weeks issue, and remember about the 3 Big Prizes, that are to be given away. The date of sale August 19, 23. The place D. A. Caldwell & Sons.

Notice.

Notice, Order of Owls—A meeting of the Order of Owls has been called for Sunday afternoon at 2:30 at the Eagles Hall on Park Ave. All who have made application as Charter Members of the new nest, now being organized in this city; should be present if possible. Those who intend to come in as a charter members and have not made application, may do so, at that time. It is not our purpose to desecrate the sabbath, but we do this at this time, simply as a matter of convenience to most people. Wm. H. Beecher, State Organizer.

In Fertile Florida

Cabbage is selling at top-notch prices right now.

When planting shade trees, why not plant the pecan or the camphor.

Up at Tallahassee they call 60-pounds squashes "North Florida oranges."

At Gainville was exhibited a stalk of Sea Island cotton which had over 200 bolls. The stalk came from a 200-acre cotten field of the Padgett-Futch company.

The first bale of Sea Island cotton was sold at Live Oak last week at 10 cents a pound. Suwannee county farmers are raising 1,500 to 2,000 pounds per acre this year by improved methods of cultivation.

The new settlers of St. Cloud are planting eucalyptus trees. The eucalyptus trees set out by the government last fall at various stations in the state are doing well, except those ravaged by the grasshoppers.

If there is any solace in the following, the truckers are welcome to it: Moorestown, N. J.; farmers sold beans at twenty cents the cart load on a 50 per cent. commission basis. Beans at ten cents a cart load is poor picking.

Florida will be a great state when it begins to feed towpens, velvet beans and cassava to thousand of hogs and cattle; when we raise enough corn for our own use; when we make all the butter we use and when condensed milk is not sold by the humped cart-loads. With the influx of new settlers, it will be a few short years until Florida will lead as an agricultural state.

Bananas are ripening, guavas are plentiful, tomatoes, cabbage, roasting ears, egg plant, okra, beans, cow-peas are still with us. All these things are getting cheaper. It is sure good to live in Florida, where there is five to fifty kinds of ripe fruit on the market, locally grown, all the time.

Last year there were no associations in Manatee County. This year there will be associations at Bradentown, Manatee, Oneco, Terra Cels, Sarasota and other points. The co-operative idea is spreading and within a year or two the majority of the orange growers will be shipping through the Exchange.

Had His Skates On.

Don't forget to skate out to Holden Park next Thursday afternoon and see the only game of the season between the Iats and Bats, and at the same time help out the Baseball Association.

Bring your old tires to Sanford Machine & Garage Co. for vulcanizing. 48-1f

HOWARD-PACKARD LAND COMPANY

Bulletin

TO BE SUCCESSFUL AT VOLUSIA FARMS KEEP OUT OF THE RUTS

Keep out of the ruts when you settle on Volusia Farms. Don't do anything for the reason that your neighbor is doing it. Have a reason of your own. Have a mind of your own both to learn and act upon what you learn. Don't emulate the example of the Chinese who do things because their fathers and grandfathers did them.

Study **your** problems, **your** land, **your** crops, **your** live stock. Don't come to Volusia Farms with the idea that you can farm in the same way as you farmed in the north and then knock Florida because you did not adapt yourself to Florida climate, Florida soil and Florida methods. **Try to improve our methods and our crops.** Give thought for the morrow. Try to get all out of each acre that it will produce the year round.

Endless opportunities are yours for the making. No need to seek them. They are here waiting for you if you have ambition enough to make a close study of your business.

Farming is a business just in the same way as keeping a store or running a mill. Possibly farming is the most exacting of all businesses in that it needs men of brains, ambition, stickability. Volusia Farms offers opportunities for the brainiest, most ambitious men in the country who are long on stickability.

The resources of Volusia Farms have hardly been scratched. There is likely no end to them for the man who gives his attention, his energies and his best thought to making the rich soil produce its limits.

There are possibly many new varieties of vegetable, fruits, nuts, grasses and leguminous crops that can be grown here for the sake of a little experimentation. Volusia Farms territory has already proven itself for, beans, peas, potatoes, radishes, beets, cucumbers, egg plant peppers, tomatoes, cabbage, sugar cane and a host of other things; oranges, grapefruit, tangerines, kumquats, grapes, and so forth, but we believe that many other articles of food for man and beast can be raised here to the ultimate profit of the grower, and our country.

Alfalfa, for instance. A large number of farmers are experimenting with this valuable forage plant. The minute a Volusia farmer succeeds in growing it at a reasonable cost, the value of all these lands will increase marvellously in monetary value.

Cotton, too, is probably the finest cash crop that can be grown on these lands. Long staple cotton crops can be converted into cash immediately, or can be held for taking advantage of market fluctuations—but any time you want to sell your cotton, you can get the cash for it.

Live stock farming assuredly appeals to broad-minded men as be-

ing a source of large income. At a time when the country is groaning under the extortions of the beef trust and Florida fails to meet the demand of home consumers, the market for live stock is immediate. Florida imports large quantities of western meat while her own prairies, capable of sustaining thousands of cattle, are neglected. A little study along the line of growing feed in conjunction with the keeping of live stock—a little step out of the rut, will make many a man rich.

And why not go in for poultry raising as a BUSINESS? It is reported that on a poultry farm near Volusia Farms, the owner is clearing \$2 a year on every chicken. Florida imports large quantities of poultry into a market that can be supplied by Florida Grown Poultry, Florida Laid Eggs, Florida Chicks.

This entire Bulletin could be filled with instances of golden opportunities for men who will **get out of the ruts.** The only reason why Florida imports these quantities of fresh and canned foods is because people are too much inclined to keep in the rut—they do things because their neighbors do them, they do not diversify.

The successful Volusia farmer will not put all of his eggs in one basket by growing a single crop. He will be alive and up-to-date. He will diversify. He will have many strings to his bow. He will have something to sell the entire year, because the soil will produce the entire year by right methods of planting and cultivation. He will have corn, hogs, sheep, wool, honey, poultry, vegetables, eggs, and so on, all bringing good profits.

He will learn as he goes along. He won't be like the farmer who raised and fed hogs for ten years and never learned a thing, while not much over a mile from him lives another farmer who has been raising hogs for two years longer and he is a rich man. He made a close study of hog raising, making experiments in a limited way and carefully testing methods he read about and for eight years he never lost a pig.

Don't chase after fads. There are no end of fads started, as in every other business and also deep ruts to drop into that lead to failure. Investigate Volusia Farms for yourself and from the standpoint of what you want to do there. We want you to see Volusia Farms for yourself. While we are always willing to make a selection for you, we prefer not to sell an acre sight unseen. We want you to be satisfied, successful, happy, head and shoulders above those in deep ruts. We want you to be among

the leading men of the county, careful and business like in your farm operations and in your marketing. We want you to accumulate a surplus at the bank as a result of your foresight and uncommon practice on the farm. Test things for yourself—**KEEP OUT OF THE RUTS.**

Prices Will Be Revised After September 1st

SANFORD, FLORIDA

FLORIDA'S RESOURCES

Banking Institutions of Orange County Indicate Prosperity

SANFORD A PROGRESSIVE CITY

C. O. McLaughlin Writes Most Interesting Account of Orange County's Great Growth

In this issue of The Herald we publish an article from the Manufacturers Record of August 10th. This is another of the illustrated productions of a citizen who is always ready to contribute anything to creditable magazines and trade papers that will serve not only the city of Sanford, but the County of Orange.

This class of work will do more good than a great deal of other advertising now being sent from the State of Florida. It places the property before the substantial reading public of the whole country. The Manufacturers Record is, perhaps, the most widely read paper published in the interest of the South, every important manufacturer and business house of the United States subscribes to the "Record." It is carefully read in all the important railroad offices throughout the country. It has a wide circulation in foreign countries and every subscriber carefully reads what it publishes.

The paper is published in Baltimore on Thursday. This particular issue left Baltimore on Thursday, the tenth, and on Tuesday, the fifteenth, the writer of the article received a letter from a business man way out in Mississippi, in order to show what such articles are worth we quote the letter.

"From an article in the Manufacturers Record, I am very much interested in your country, I am looking for a place to locate permanently. I am a young man; have had several years business experience, and have some money to invest in something that looks good. I should like to have an investment that will carry with it a position."

"We are looking for men who have money to invest and who are willing to come with the money, and have energy and ability to help us develop a section of the resources of which we hardly have discovered ourselves."

Every man in Florida having access to the columns of reputable papers and magazines, should contribute statements of facts about the locality in which he lives. No statement is so true as that, if your town, city or county is worth living in, it is worth telling the people in other parts of the world about it.

Following is Mr. McLaughlin's article:

Sanford, Florida, August 5.

Florida is a state of many resources. It has the most delightful climate, January to January, of any state in the Union. The published reports of the Weather Bureau during the present summer show the temperature in Florida. Every reader of this article may compare the records for himself; there is no use to do it here. On the day the press dispatcher read "511 people dead from heat" we can show the South Florida minimum record as 84 and the minimum as 84, not by a private thermometer, but by the record of the United States Bureau.

The Florida proposition, as a whole, is of much size, and the state is full of people who are capable of writing carefully of the vicinity in which they live, so the article will treat more particularly of Orange County.

Now, as to whether or not money may be made here. In January, 1906, there were two banks in Orange County. A new bank opened in Sanford in May, 1906, and one in Orlando in April of the same year. In January, 1908, a bank opened in Winter Garden. There are now five prosperous banks in this county. In 1908 the capital stock paid in amounted to \$145,000; the total deposits were \$785,345.42 and the surplus and undivided profits were \$23,967.40. In January, 1911, the banks of this county showed capital stock, \$170,000; surplus and undivided profits, \$101,185; deposits, \$1,321,720.

On July 1, this year, the Orlando bank & Trust Co. increased its capital from \$50,000 to \$100,000; a new bank will be opened in Orlando by the end of this year, and there will be a small State bank opened in Winter Park. On June 22 the writer saw 50 automobiles at a ball game in Sanford, and the next day 102 automobiles were at a game in Orlando. These were only 23 miles apart. The money invested in sub-irrigated farms around Sanford is close to \$1,000,000, and the soil, the flowing artesian wells, the climate and the industrious planters paid the bill.

Where did all the money now in this county come from? It is not in our banks to the credit of people who live in other states. Our banks have not passed a dividend period without sending profit checks to the stockholders, the money to pay dividends and the earnings shown above did not come from people outside of the state. The money to buy the automobiles did not come by registered letter from our

folks over home, and the people in the cars were not "fans" from distant baseball centers, but they were our home folks, living here in the summer, while many less fortunate people in other parts of the country were melting, perhaps dying from heat. Our people are able to make money because the farms are almost continuous producers. The farms in and around Sanford, where there are flowing artesian wells, are continuous producers if the owners care to make them so.

Just beyond the flowing well district, or just beyond the "Sanford Celery Delta", the great citrus fruit groves begin. All along the road we pass handsome homes, surrounded by magnificent groves of oranges, tangerines and grape fruit. The city of Orlando, we may say, is in an orange grove. In this county we find the groves and homes of Mr. L. F. Dommerich of New York, Mr. W. C. Comstock, of Chicago, Ill.; then the immense grove property of Mr. W. C. Temple, formerly of Westburg, but now of Florida, and the Winter Park property of Mr. C. H. Morse, of Fairbanks Morse & Co., of Chicago; the estate of Dr. Henkle, and groves of Walker Bros., Dr. Phillips, Mr. B. Beacham, Mr. Walter Drennan, Mr. M. F. Robinson, the Hamlin estate and many others; the list would cover a full page. It is useless for uninformed people to write that there is no money in it. These properties are not toys; they did not come down the chimney Christmas morning.

The writer will be glad to have any representative man from any part of the United States ride with him over this territory; it is likely some prosperous people may be found.

Sanford is located on the St. Johns River, at the head of navigation, and is 125 miles south of Jacksonville by rail. It is in the district where artesian wells flow all the time. A three-inch well irrigates five acres of land. This irrigation does not cost money continuously; after the well has been bored and the irrigating pipes have been run under the farm. The tilling is generally about 18 to 24 inches from the surface, just out of reach of the plow. We have no Government rents to pay. There are no Cary Act expenses here. We have to get along without the help Congress could give us. All we are asking our National Government to do is to keep our river channel open, and give us an experiment station. We have no ice and snow closed seasons, and any industrious, agriculturalist can get rich where the opportunities are as great as they are in this great state.

As information to many people who do not read the statistical data prepared by the Agricultural Department at Washington we reproduce the following comparison of the average value of all farm crops per acre as given in the yearbook of the department, showing the remarkable lead of the State of Florida: Missouri, \$9.38; Iowa, \$12.22; Illinois, \$12.48; Ohio, \$13.36; Florida, \$109.36.

C. O. McLAUGHLIN

Linson DeForrest

Word was received in this city yesterday bringing the news of the death in Sanford, Florida, of Linson DeForrest, for many years a resident of this place. The cause of death was pneumonia.

Linson DeForrest, was a son of Linson and Jane (Hawley) DeForrest, was born in New York city on May 2, 1862. He lived in that city until 1885, when his family removed to Stratford, remaining there until 1888. After some business experience in New York and Buffalo, he, with his brother, Charles DeForrest, began the manufacture of planes and various tools in Birmingham, continuing that and other manufacturing business for many years.

In 1849 he married Miss Charlotte Riggs of Derby, daughter of J. Harvey Riggs, and lived in the well known Riggs homestead on Derby hill until the death of his wife in April, 1889. He survived his two sons, Henry L. and Sterling DeForrest, and is survived by one grandson, Norman DeForrest, a son of Henry L. DeForrest.

For the last fifteen years he has made his home in St. Augustine and Sanford, Florida. During the past year and a half his health has been very feeble, yet with remarkable vitality he has rallied time after time.

Many of the older residents of this city will remember him with much pleasure. His kind and benevolent nature, his keen sense of humor, his alert mind and wide interest made him a delightful friend and companion. He had great mechanical inventive ability and took out over forty patents. His interest in all scientific matters was very great and never waned, keeping him, even at his advanced age, in touch with the great developments of the day. He had an unusual memory which he retained to the last, dwelling on scenes connected with earlier days with wonderful accuracy. Provided with every care and comfort his last days were spent in the enjoyment to which he was so dearly attached and where he has made warm friends.

He was a member of the First Con-

gregational church in Derby being a regular attendant there for many years. —Derby (Conn.) Sentinel.

Atwood Breaks Record

By flying 236 miles from St. Louis to Chicago, with only two intermediate stops, and in an actual flying time of five hours and forty-three minutes on Monday, Harry N. Atwood, of Boston, believes he has set a pace which will result in his establishing a new record on his flight by aeroplane from St. Louis to New York and Boston. As it is Atwood appears to have broken the American record for a single day's flight. The best previous American record was made by Atwood himself when he flew 148 miles from Atlantic City to Baltimore on July 10, 1911. The best international cross-country record is held by Andre Beaumont, who in the Paris-Rome contest covered 401 miles in a single day, but in this instance he made three landings, while Atwood today landed only twice between start and finish.

In union there is strength. We have the goods you need, and the price you can do the rest. Sanford Furniture Co. 35-17

A STRAIGHTFORWARD TALK ABOUT A MODERN AMERICAN LAUNDRY

Speaking broadly, the women of Sanford are informed to a limited degree about modern American Laundries and the progress they are making and have made.

The purpose of this advertisement—and those to follow—is to implant the right idea about modern American Laundries in the minds of as many women as possible.

We mean to do this by telling you what a good laundry is and how it is conducted; how it does its work and what kind of work it sends home to you.

If we succeed, the end of this year will see hundreds of women availing themselves of the economy and convenience afforded by our laundry.

You did not know that a mighty movement is well under way for the improvement of laundries.

It has the earnest support of every laundry represented in the National Laundryman's Association.

The owners of these laundries—some thousands of men—are striving constantly and conscientiously to better their service in scores of ways.

Their desire for the greater good and satisfaction of their customers is so strong upon them that they do not hesitate at the lavish expenditure of money.

If you will visit our laundry you will marvel at the things you will see.

You will find the air as pure and sweet as outside the building—the steam and odors carried off and fresh, cool air supplied by a highly efficient ventilating system.

You will see that the floors are dry and clean, for the progressive laundry owner is a student of sanitation and hygiene.

Machines nearly human in their dexterity and their light touch and careful handling of the clothes, will astonish you.

The building itself is planned and built to meet the particular needs of the modern laundry.

If you are interested in our mission of reform, you will search it out; and when you have found it, we have no doubt about what you will do with the weekly wash.

This talk may have given you some new ideas about the extent to which you can use the modern American Laundry; but the whole story cannot be told here.

It has been put into a booklet, which tells, too, of what laundry owners have done to prepare themselves to render efficient service to the American housewife.

We know you will be interested in reading it, and you will receive a copy free if you will send your name and address to the Laundryman's National Association of America, Publicity Department, 601-608 Ford Building, Detroit, Michigan.

WHAT THE WOMEN WHO PATRONIZE OUR LAUNDRY HAVE FOUND

That the starching of the "roughs," the collars, gingham, etc.—is uniform and is really a help in the ironing at home.

That we are thoroughly trustworthy in the handling of delicate fabrics.

That our laundry is less expensive and relieves the household of a vast amount of inconvenience and bother.

That the wear and tear on the clothes is less than in the home laundry.

That the modern American Laundries' scientific processes and methods are not ruinous to colors.

That the white things—table cloths, napkins, towels, sheets, bed spreads, curtains, etc.—come home with a good color.

Our Manager **Mr. J. H. Overman** is a member of The Laundryman's National Association of America. He will be more than pleased to have Ladies of Sanford and surrounding community visit our plant on any day, but it will be especially convenient on any Thursday afternoon. They will be welcome and shown through the plant of a modern American Laundry.

We positively do not use caustics, soda ash or chloride of lime always used in second class laundries the injurious effects of which are known to every American Housewife

THE PROGRESS STEAM LAUNDRY

Telephone No. 30

Sanford, Florida

TWO PENTECOSTAL BLESSINGS PASTOR RUSSELL SAYS

The Later Pentecost Will Be for the World in General—It Will Come Through Messiah's Kingdom Operating Through Israel Restored to Divine Favor—It Will Be Earth's Jubilee of a Thousand Years of Blessed Uplifting and Restoration to the Willing and Obedient of Adam's Redeemed Name—The First Pentecost Brought Blessing Merely to the Church and Has Nearly Completed Its Intended Work.

Brooklyn, N. Y., June 4.—Pastor Russell continues to draw the largest audiences of any preacher in the world to his oral addresses, besides the millions who weekly read the printed reports of his discourses in the newspapers of the English speaking world. Today's audience at the Brooklyn Academy of Music was estimated at twenty-six hundred. Of these about three hundred, all men, were on the platform behind the speaker. Late comers called altogether to gain admittance to the afternoon service. The text was appropriate for Whit Sunday, it being St. Peter's explanation of the Pentecostal blessing. "This is that which was spoken by the mouth of the Prophet Joel" (Acts II, 16-18).

The speaker called attention to the fact that the Prophet Joel foretold two distinct outpourings of the Holy Spirit. One of these, upon the servants and handmaidens of the Lord, found its fulfillment at Pentecost; and during the more than sixteen centuries since, God's spiritual blessing has been with, not only the Apostles, but all the earnest followers of Jesus—all of His servants and handmaidens. St. Peter's statement, "This is that which was spoken by the mouth of the Prophet Joel," Pastor Russell said should not be taken to mean that what was witnessed in the upper room on the Day of Pentecost nearly nineteen centuries ago completely fulfilled the Prophet Joel's predictions. None, he said, would dispute that the fulfillment of the promise made at Pentecost with the early Church, and has been

in progress of fulfillment during all the centuries since.

After these days of the Gospel Age—the Spirit upon God's servants and handmaidens—will come the glorious Epoch of Messiah's Kingdom, in and through which God will pour out upon the world of mankind a great blessing of enlightenment and uplift from the sin and death conditions now prevailing. It will be to the accomplishment of this end that Satan shall be bound for a thousand years, and the darkness, which now covers the earth and the gross darkness which now blinds the heathen, will be chased away by the glorious "Sun of Righteousness" with healing in His beams.

Abraham's Spiritual Seed First.

Abraham of old typified Jehovah, and Isaac typified Messiah, born not after the flesh, but after the Spirit, by a special Divine interposition—according to God's promise. Of this Antitypical Isaac class, Jesus is the Head, the Forerunner of the Church, as well as the world's Redeemer. The Body of Messiah is composed of a faithful few, according to the Scriptures, gathered primarily, from the Jews, but being completed by additions from every nation, people, kindred and tongue.

This Church Class, or Messiah Class, is Spiritually Inherited to the Prophets as well as in the New Testament, as the "brethren" of Jesus, and as "sons of God." The world knows them not even as it knew not their Master.

Abraham's Natural Seed Next.

This Spiritual Seed of Abraham, all rightly, will constitute the Church of the Firstborn, the Antitype of the Priests and Levites of the Jewish Dispensation. With the completion of this Church, gathered out of all nations, sects and denominations, Divine Favor will return again to the natural seed of Abraham. As the Jew was granted the first privilege of opportunity of becoming the spiritual seed of Abraham, he will likewise have the first opportunity to participate in the blessing which then will come to the whole world of mankind. "To the Jew first" is the Divine order in respect to both of these blessings. To this agree the words of the Apostle Paul.

The blessing will come through the great Messiah and as a result of the satisfaction He will make for the sin of the whole world, by applying to the race the merits of His sacrifice by His blood.

31). The great Messiah of glory will be the Mediator of that New Covenant, and the foundation of that Covenant will be the better sacrifices offered by this Mediator, as the Antitypical High Priest (Hebrews ix, 19-23).

The Pentecostal blessing then to come upon the world will not be upon the terms of sacrificing their earthly rights to still the heavenly blessing and spiritual somnolence on the contrary, its requirements will be a consecration of obedience to the Divine Law; and its reward will be earthly restitution to the perfection of human nature, and to the enjoyment of all the blessings originally given to Adam; and forfeited by his disobedience.

Beattie Indicted for Murder

Henry Clay Beattie, Jr., a young Virginia of good birth, will be placed on trial for his life at Chesapeake, Va., next Monday in the little red brick court house built more than one hundred and sixty years ago. A grand jury returned against him an indictment charging wife murder, and he may be kept in the county jail. Council for the defense fought hard for postponement of the case, but Judge Walter A. Watson, of the Chesapeake Circuit Court, held that the interests of the commonwealth demanded a speedy trial and accordingly set the case for a week from last Monday.

Already held guilty by a coroner's jury of having shot his wife in a motor car on the night of July 15, the indictment of Beattie today was purely perfunctory. Only four witnesses were heard but the jury deliberated for two hours before they returned the broad indictment covering all degrees of homicide.

Examination For Clerk

Sanford being a city is now recognized by the Postoffice Department and plans with free delivery and other good things the local postoffice will have another clerk and the examination for applicants will be held here.

The examination will be held on September 9th and information blanks can be obtained from Postmaster Haskins. This will be a good position for a young Sanford man.

Senator Bryan's Father Dead

Aug. 14.—Millon Bryan, father of United States Senator Nathan P. Bryan, died Monday at his home in Danville, Fla., near Miami. He also was the father of former Senator William L. Bryan, of this state, who was killed in Jacksonville, Wednesday.

Candidate For Comptroller

W. W. Strippling, the enterprising and popular traveling man, announces the Star to announce that he will be a candidate for state comptroller in the primaries of next year.

Mr. Strippling is well known in Florida having in his vocation of commercial traveler visited nearly every part of it. He has made good in his calling, and that is an indication that he is a good business man and has made himself solid with the people.

"Strip," as he is called in Ocala, has made his home in this city for a number of years. He was every man's friend before he ever thought of running for anything for office, so if it not necessary for him to change in manner when canvassing for votes. He can be the same "Strip" he always has been and yet give every man the glad hand.

Mr. Strippling has received many good wishes and promises of support from his brethren of the road. They are mighty good friends to have in any cause, and with their support, and that of his good friends, Mr. Strippling will probably take considerable primary ice.—Ocala Star.

A Harbor for Smyrna

A petition has been prepared by the people of New Smyrna asking for a government appropriation for deep water for their harbor and the arguments used are excellent ones. One of these is to the effect that the East Coast of Florida has a stretch of three hundred miles between Jacksonville and Miami without a harbor. Perhaps the New Smyrna folks would feel even greater surprise were the condition if they were told that in reality there is no harbor on the East Coast between Jacksonville and Key West a distance of four hundred and fifty miles. Boats drawing more than twelve feet of water cannot enter this part.—Miami Metropolis.

Cost of Producing Vegetables

According to Manager H. G. Gumprecht of the Manatee County Sub-exchange, the average cost of production and delivery to railroad station of different vegetables are as follows: Hamper of lettuce 25c, hamper of beans 35c, hamper of cucumbers 25c, hamper of peas 40c, hamper of peppers 30c, hamper of eggplant 25c, ton of cabbage \$7.20, crate of celery 75c, barrel of potatoes \$4.50. He says: "These figures are all based on a small scale and if worked on a larger scale the cost of production could be reduced."

Bidding for Good Roads

West Florida is going forward in the building of good roads, is making a strong bid for new settlers and is laying the foundation for a general era of prosperity and happiness, for there is nothing that can be done in this section which will contribute more toward prosperity and happiness than good roads.

Good roads have been discussed so much recently that the subject has become tiresome to many, but the people are alive to the necessity of making such improvements as was evidenced last Tuesday by the voters of Jackson County when they voted to bond the county for three hundred thousand dollars with which to build a system of hard roads.

Dr. F. C. Boardman, dentist of Orlando, has recently cast his lot in Sanford, and has opened elegant offices in the Garner-Worwood building and is coping with splendid success. Dr. Boardman's offices are fitted up with the latest and most sanitary appliances which are pronounced by those who are acquainted with dentistry to be second to none in the state. Dr. Boardman is a gentleman of pleasing personality, and will be a decided acquisition as a resident of Sanford.—Jacksonville Metropolis.

The simplest, lightest running, fastest cutting saw mill ever built—a mill that you can buy at the right price and with which you can make big money.

It's all in the Taylor Feed

Every mill fitted with wire cable drive, set-out attachments and adjustable wheels. Improved carriage-backing device in gate drive and a time saver. Made in all sizes, portable and stationary.

We manufacture Engines, Boilers, Shingle Machines, Cut-Off Saws, Wood Splitters, etc., and do Foundry Work.

GOOD GAME NEXT THURSDAY

Fats and Leans Will Play at Holden Park

They call themselves Fats and Leans, but really those fellows are fixing up two of the finest amateur teams that ever crossed bats on Holden Park grounds. There will be a sprinkling of Fats and Leans—a streak of fat and streak of lean—but several real stars will perform and the fans who go out there next Thursday will see a first-class game.

The proceeds will go toward defraying expenses of the big team and every lover of ball should go out and help Manager Spencer make expenses. He has labored long and earnestly to give our city a good team and how well he succeeded was shown in the way they defeated Orlando in the series of twenty games. Go out next Thursday and help out the Association.

Ball Season Closes

Sanford expected to wind up the season last Friday with a record-breaking crowd but Orlando instead sent a delegation to endeavor to force Manager Spencer to withdraw the series into this week—a move of impossibility because the association was already in debt on account of Orlando's failure to play on Friday.

Last Thursday Manager Spencer and a number of fans attempted to attend the game at Orlando despite the fact that they broke three machines in the attempt to find out that the rain in Orlando had forced the management to call the game off. This was in marked contrast to the spirit of Orlando who the week before were to leave at Orlando's continued request that they arranged a ball game between the business men of that city in order to hold the crowd at home.

The statement made in another part of this issue that Sanford called off the regular schedule without consulting Orlando is untrue. Manager Spencer agreed to

play a series of twenty games. Ten were won by Sanford, seven by Orlando and three games were tied. Manager Spencer repeatedly refused to make up another regular schedule with Orlando on the ground that he could not agree to keep the team longer than four games after the twenty or that he would play as long as the money held out. It was a settled fact that Friday would be the last game and there was no laying down on Sanford's part.

It is unfortunate that a disagreement should occur at the last moment, but Manager Spencer feels that he has acted fair and square with Orlando and the public. He could not be expected to spend \$300 of his own funds to play another week.

Says Article Was Untrue

The Herald published an article last week from the Times-Union regarding the Vegetable Growers' Association because the notice had already appeared in print and had not been answered by any member of the association who have preserved a sphinx-like attitude on all questions relative to plans for the coming season.

W. D. Holden, a former director, takes the responsibility of a reply to the article and the matter is respectfully referred to the Times-Union from which it originally emanated.

EDITOR SANFORD HERALD:

In the last issue of The Sanford Herald, you published an article copied from the Times-Union. This article stated that the officers of the Florida Vegetable Growers' Association had been closed and the business abandoned, etc.

The article was unjust to the association, as well as to some of the individuals whose names were mentioned. I particularly object to the statement that I had withdrawn from membership. I am not of any dissatisfaction with the management of the association. I am not a member of the association this season because I am not eligible. I am not farming any land, having sold one farm and rented the other for the season to Mr. Henry Nickel, who is a member of the present Board of Directors of the Florida Vegetable Growers' Association.

Eugenia Gillikin
vs
T. H. Gillikin
Divorce
To T. H. Gillikin

It appears from the affidavit of J. E. Alexander herein duly filed in which he swears that he is Attorney for the Complainant in the above entitled cause; that the residence of the defendant is believed to be Sanford, Florida; that he has been absent more than sixty days next preceding the application for the order of publication; and that there is no person in the state of Florida upon whom the service of Subpoena would bind said defendant; and that the age of the defendant is over twenty-one years.

You are therefore ordered to appear to this bill on Monday the second day of October, A. D. 1911, the same being a rule day of this Court.

It is further ordered that this notice be published for four consecutive weeks in the Sanford-Herald, a newspaper published in Orange County, Florida. Witness my hand and official seal this the 15th day of August, A. D. 1911.

ALL AROUND FLORIDA

The General News of The Land of Flowers.

CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

The Florida guava, which is made into jelly and paste and also used to a considerable extent as a table fruit, is now being gathered and the crop promises to be large and one that will pay the producers splendidly.

On the Belle farms, near Miami, the experiment of raising broom corn has been tried this season, and seems to have proven very satisfactory and successful. While the corn was not planted in the manner usually prescribed, it has made excellent growth and the several acres planted will likely bring a very good return to the owner.

St. Augustine may be hostess to one of America's most notable military men sometime within the next few weeks. There is a strong probability that Major General Leonard A. Wood, chief of staff of the army of the United States, will come to the Ancient City to inspect Fort Marion and the National cemetery.

Work has actually begun on preparing the grounds for the erection of the big tourist hotel which is to be constructed in Miami. The ground is rather low and will be filled in to the extent of about four feet, and a strong seawall built in front. Beside the hotel a substantial club house and dock will be erected. The total expenditure on this proposition will be a million dollars.

Beginning next September a new line of schooners will begin sailing dates between Halifax, Nova Scotia and Brunswick, Savannah and Charleston, as well as some of the more Northern Atlantic ports will be included in the schedule. The ships will make monthly trips at first, and if business will justify more boats will be put on in the future.

The steel rails have been ordered for the new trolley line leading out from St. Petersburg to Coffeeport bayou, and the contract calls for the line to be in operation by the first of the year.

The gins at Lake Butler are being put in readiness for the ginning season, which will commence in a few days. The crop in that section is said to be about the same as last year.

Manager Temple, who chases the golden orange all over the United States eight months in the year, is now chasing an elusive white globe all over the golf links at Asheville, N. C. He puts up a good game in whatever he attempts.

The report from the weather bureau for July for the whole United States contains a very interesting weather map, showing that Florida had the lowest maximum temperature of any state in the Union. Florida is quoted at 90 and the North Atlantic States at 92 to 93, and Middle West States at 100 to 110.

The guava crop is much larger than last season. The housewife is now busy canning this excellent fruit. It will be many years before the guava will gain a northern market. It is said that a consignment was held up at Cincinnati and the health board notified and after sitting on the guava ordered the whole lot buried.

The advent of the Florida Citrus Exchange into Florida has meant much for the industry. Since the Exchange came into existence the packing of citrus fruits has advanced with great strides in the right direction. With better packing and handling and with their facilities of marketing, the Exchange has in the two past years of its existence brought the Florida citrus industry out of the slough of despond into which it had fallen and will continue to lift it on a standard basis with the trade all over the country.

Fire Truck's Good Work

The fire department was called out last Friday morning to a fire in the dwelling next to the Gate City House. The fire truck demonstrated its worth by getting to the scene of action in record time where the department extinguished the blaze with the chemical engine and did not use water. On account of the good work of the department only a small damage was sustained.

COAL CHUTE WILL GO

Work Starts This Week On New Loading Apparatus

The coal chute will go! The A. C. L. has at last decided that the city council of Sanford means business and work of constructing a new loading apparatus has begun south of the shops where coal will be loaded on the engines in the future. The present coal chute that blocks three city streets and scatters dust and dirt over several acres of city dwellings and yards has been a bone of contention for many years and proved a bugbear to each council. The present council was elected with this subject of removal as a plank in their platform and while many people were skeptical about the result, The Herald has maintained that the railroad would finally come to terms.

The freight yards will also be removed to a point between R. R. tracks and the terminus of Tamarind avenue.

This will also prove a boon to the people living near the present freight yards and property on the West side ought to put on a better appearance. The city council deserves credit for the result of their contention although there will be many people now that will kick because there is danger of a removal of the passenger depot.

There is no hope of suiting the wishes of every one and in removing these obstructions the city council has accomplished a great benefit to the majority and fulfilled their promises.

Family Needs Help

EDITOR OF THE HERALD:

May I ask space of you for a simple statement of a few facts that I am sure will be of interest to the good people of Sanford.

Just a short distance out of town is a family, man, wife and four small children, the youngest a baby in arms, who have come very near to absolute distress, through the long illness of the bread-winner which has almost deprived him of the use of his arms. Physicians who have been consulted hold out no hope of his regaining his strength. He has been a thrifty farmer of the few acres that surround their little home, but little by little the support of the family has fallen upon the wife. They have no horse, but neighbors have been kind, and she has managed to grow a few vegetables, sell eggs occasionally and get along in some poor fashion way. She is strong, willing to work, and self-respecting—all she needs is to be helped to help herself. She has been offered an opportunity to do some extra hauling, and if she had a horse and wagon so that she could cultivate and market the vegetables she could raise on the little place, she could provide for the family. Is not this an opportunity for doing a good deed in a good way? Would it not be better to put this woman in a position to maintain herself and the children, than to allow matters to run on as they are, until the hold on the home is lost, and the family becomes a charge on the community? In my year of residence in Sanford I have seen the splendid readiness which is shown in response to any call for relief of distress—how about the ounce of prevention?

This family is very near town, and the circumstances may be investigated by anyone who is interested.

Very truly yours,

SUNN BOUCHELLE WRIGHT

Made Pretty Picture

A very pretty and interesting picture is shown on the front page of the Sanford Herald of last Friday and beneath the view, which presents a home surrounded by trees, grass and flowers, is this information that this place received the prize offered by the Welaka Club of Sanford for the prettiest yard in town. It is the home of Dr. J. N. Robson, who is well known for his beauty and fragrance. A smooth green lawn surrounds the house and a private hedge is noted on the outer edge. Inside are vines on trellised tropical plants, flowers and a few handsome trees. The Welaka Club each year offers a prize for the prettiest front yard and the competition is productive of excellent results. Sanford has dozens of beautiful homes and if each it would seem that the owners are striving to excel their neighbors in making the yards attractive.—Times-Union.

Remember the Elks ball game at Orlando next Thursday—given in a good cause.

NO. SANFORD STATION

Unless Same Is Built by Sanford Capital

GOVERNMENT CANNOT ASSIST

Agricultural Experts Point Out Other Projects Built by Private Parties

Senator Fletcher received the following letter from Acting Secretary W. M. Hays, of the department of agriculture, regarding the matter of establishing a station at Sanford for the study of truck growing subjects:

"Referring to your letters of July 22nd, 25th, 28th and August 2nd, with enclosures from organizations and individuals at Sanford, Fla., requesting the establishment of an experiment station at that point for the investigation of problems connected with truck growing, I would say that it has not been our policy to establish federal experiment stations in the state, but rather to cooperate with the state stations already established and with committees and organizations which show their own interest in establishing and maintaining such work.

"The officials of our bureau of plant industry advise me that the truck-growing situation at Sanford and some other points in Florida is quite similar to that about Norfolk, Va., where the department has been working for some time. At the latter point the local people have established a cooperative truck experiment station, which is supported by themselves, with some funds from the state board of agriculture, and some special appropriation by the state legislature. The control of the station is in the hands of a governing board, consisting of two members appointed from the state board of agriculture, two from the board of control of the state experiment station, and two from the local organization, viz: The Southern Produce Exchange.

"The management of the station is in the hands of a director employed by the governing board, whose salary is paid out of the funds appropriated for the maintenance of the station. The equipment, consisting of lands, buildings, implements, and teams was furnished by the Southern Produce Exchange, and by private subscription from various persons interested in the movement. About sixty acres are occupied by the Norfolk station. The proceeds from sales of surplus produce from the station are used for maintenance of the work.

"The work at this station is planned cooperatively by the experts of this department, and the department officials also act in an advisory capacity in connection with the equipment and general policy of the station. The effectiveness of this plan, consisting as it does local interest and support, state aid and department cooperation, convinces us that it is at present the most practicable way of prosecuting experimental investigations of intensive horticulture. This specialists of this department of course, carry on certain other work along these lines elsewhere than on the station lands, but the truck crop activities naturally center at such a place.

"I would, therefore, suggest that the plan followed at Norfolk be called to the attention of the Sanford people, and also the truck growers elsewhere in the state of Florida, with a view to ascertaining whether conditions would be favorable for the establishment of such a station at Sanford or some other point in Florida. Our experts in the several special lines involved will cooperate in every way possible, and if considered advisable I would have one of our horticulturists visit Sanford at a convenient time to confer with your people regarding the matter.

"Relative to the problem of control of truck crop diseases, I would say that arrangements have already been made to undertake demonstration spraying with cantaloupes and cucumbers in January or February, 1912. This work is planned for Ocala, Fla. Similar demonstration spraying work with celery in the vicinity of Tampa or Sanford is also under consideration, and will be undertaken if the seasonal developments and the time of experts permit.

A. W. Eager Dies in New York

A. W. Eager, one of the oldest hotel men in New York city died in that city last week after the fruitless administration of Christian Scientist's. Mr. Eager was well known to Sanford people of the early days, being a resident of this city.

THE ROAD OF CONTRARINESS

Volusia County Commissioners Raked By Smyrna Breeze

It will be seen by referring to the proceedings of the county commissioners on another page that an order was passed for the opening of a road from the Jung place, near Orange city, to Thrasher's Ferry, on the St. Johns River, west of Lake Monroe. We call it the "Road of Contrarieness" because every county commissioner voted for it except one. The assertion may seem strange to those who do not understand the situation, and for their benefit we will explain.

This road leads through a barren waste of scrub that will never be populated and will increase the distance from Sanford to any point on the coast a great many miles. The only object in building this road is to bring all travel between the interior and coast towns through DeLand to Daytona.

The people of Sanford and Orlando have built a road to the Osteen Ferry, from the end of Celery Avenue, leading out of Sanford. The difference in the distance of the two routes from each ferry to DeLand would be about three or four miles in favor of the Thrasher ferry route.

There are a large number of people in Sanford and Orlando who own property at New Smyrna and Daytona Beaches and they naturally favor the most direct and best route to their property, and they with the assistance of the Orange county commissioners have spent several thousand dollars, not only in Orange county, but in Volusia county. Then the New Smyrna-Osteen road passes through several villages, and lands that are fast settling up. The road from the Osteen ferry would put the road through Osteen, Enterprise, and Orange City to DeLand. Besides, Orange county proposes to build a bridge across the river at the Osteen ferry, at a cost of about \$4,500 Volusia county to pay one half. The road is already graded from the ferry to New Smyrna and is now in pretty fair condition, automobiles being able to make ten or twelve miles an hour over it. The road to DeLand is also graded and in good condition; a good part of it abelled and pinestraved easily traveled by automobiles. The Osteen ferry and the roads leading from it will be maintained regardless of what the Volusia commissioners do in building a road through the scrub to Thrasher's ferry.

We invite any and all of the county commissioners to explain to us why the road should not be called the "Road of Contrarieness," when by building it there will be a useless waste of the people's money.—New Smyrna Breeze.

City Council Meets

Council met in regular session at 7:30 p. m., August 21st, 1911.

Members present—W. D. Holden, president pro-tem; H. R. Stevens, J. D. Davidson, S. Rung and H. Ward.

Absent—D. L. Thrasher and H. A. Howard.

Minutes of last meeting read and approved.

Petitions largely signed was presented asking the council to enact an ordinance authorizing the holding of primaries for the nomination of city officers, was referred to the city attorney, who was instructed to draw such ordinance if in his opinion it would be legal.

The tax levy for 1911 was fixed at 12 mills and the following budget for 1911 was adopted:

Budget for 1911	
INCOME—	
12 mills on \$2,406,330	\$29,255.96
Interest due from special school district	2,040.00
Sanitary tax	4,400.00
License tax	2,500.00
Fines and forfeitures	3,500.00
County road tax	3,000.00
Total	45,395.96
APPROPRIATIONS—	
Street cleaning and sanitation	67,000.00
Lighting streets	4,000.00
Water supply	2,700.00
Police salaries	5,000.00
Civic salaries	2,200.00
Interest on bonded indebtedness	9,000.00
Bridges and sewers	4,000.00
Fire protection	2,500.00
Rolling vouchers	5,000.00
Contingent fund	4,395.96
Total	117,395.96
Assessment 1911—\$2,406,330	
Assessment 1910—2,319,998	
Income	\$176,333
Tax levy 12 mills—1911	\$29,255.96
Tax levy 12 mills—1910	27,259.98
Income	\$2,118.98
Moved and seconded that council now adjourn; carried.	N. W. Lovell, Clerk.

NEWS OF THE WORLD

Items of Interest Gleaned From Various Sources

HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Flowing For Hurried Readers

President Taft is in Rochester from Washington to review the great parade of the Grand Army of the Republic. More than 25,000 veterans of the Civil war are gathered for the annual reunion, and the greater part of them participated in the parade.

Ten thousand persons gathered at the Plaza hotel, New York, Wednesday morning to pay their last tribute to John W. Gates, in whose memory flowers from all parts of the country contributed floral offerings, which in some cases came in carload lots from distant points.

The burley tobacco crop of Kentucky which was last year estimated at 300,000,000 pounds will not amount to more than 5,000,000 pounds this year.

An excellent statute just passed in New York prohibits the placing of any advertisement on stones, stumps, buildings, posts, mile boards, etc., within the limits of a public highway.

Frank Bloom, a private of Battery F, Third field artillery, stationed at Fort Myer, who came into national prominence by reason of President Taft's defense of his rights to advancement in the army regardless of his Jewish nationality, will leave the latter part of this week for Fort Leavenworth, Kas. There he will take an examination for appointment as second lieutenant.

"Hold cotton for 13 cents," is the advice to be formerly given to farmers' organizations by a committee, consisting of Senator Williams, of Mississippi; Senator Owen, of Oklahoma, and Representative Burleson, of Texas, representing a conference of Senators and Representatives from seven cotton growing States.

Harry N. Atwood, the famous aviator, who is making the flight from St. Louis to New York in a biplane, arrived about 4 o'clock yesterday afternoon. He left Castleton, N. Y., on the last leg of his long flight which he established a new record for aerial journeys on heavier-than-air machines. The distance from St. Louis, which point he left last Saturday, is 1295 miles.

The session of the insurance commissioners from the various states of the Union being held in Milwaukee will probably result in the passage of State laws that will regulate accident insurance, especially that conducted by the industrial companies, in such manner as to make lapses of policies less frequent and insure to the better protection of ignorant persons who undertake to carry insurance without fully understanding the provisions of the policies they take out.

In the last twelve months the consumption of liquors broke all records, and the people of the United States consumed over 8,000,000 gallons more of whisky and over 115,000,000 gallons more of beer in the fiscal year ending June 30, 1911, than they did in the fiscal year ending June 30, 1910, is the announcement of the National Model License League, which had just received the official figures from R. E. Cabell, United States commissioner of internal revenue.

A telegram was sent to President Taft today by the delegates of the fifteenth annual convention of the Association of States and National Food and Dairy Departments, expressing faith in the integrity of Dr. Harvey W. Wiley, head of the bureau of chemistry of the national department of agriculture.

Game For Labor Day

On Monday, September 4th there will be a good game here between Sanford team and Leesburg. The Sanford team will be composed of the home guard and as Leesburg is a fine amateur team a rattling good game is looked for. Labor Day being a legal holiday and Monday, a large crowd should be present and one of the best games of the season is promised.

Remember the date, Monday, September 4th.

U. A. McClain has returned from a week's visit at Coronado Beach, where he invested in several fine lots.
