Marilyn Monroe Once Told Him: 'You're Like My First Husband'

★ ★ ★ ★ ★

MACHINIST'S MATE THERON DURKEE
'Movie People Are Just Too Doggone Phony'

By CLAUDE ROSE
Herald Feature Writer

"Marilyn Monroe once told me that I reminded her of her first husband," declares Theron Durkee, a sailor at NAAS Sanford. "She said that I was quiet and when I looked at her, I seemed to be able to see right through her."

Durkee, an aviation machinist's mate third class attached to FAFRON-51, worked on Hollywood movie "locations" for two summers as a member of Association of American Railroads train crews before joining the Navy. "I wouldn't go back again for anything," he says.

He met Marilyn Monroe during the filming of "Niagara" in the summer of 1951. His comment about her... "She didn't show me much!"

Get that, you guys! Most of us would give our right arm just to see the sexy blonde bombshell in only from a distance.

You're probably saying, "Boy, he must be nuts!" In case you are, Durkee quotes another big star he came to know during his Hollywood days, Randolph Scott. The Western star told him that Monroe wasn't the bundle of fire that her publicity men would have everyone believe. "She's as cold as a cucumber," Scott told him.

Durkee, nicknamed "Diesel" by his railroad chums, is rather reluctant to talk about his experiences in the film capital. He says, "It was fun for awhile but, for the most part, the people I met in Hollywood were not the type with whom I would care to associate."

The duties of his train crew were varied. Sometimes they would actually run a train for a scene which was being filmed. More often, they were transporting the actors and actresses, cameramen, make-up and costume men, and others, as well as equipment.

(Continued On Page Eight)

Dr. Terry Bird Back From Confab On Polio Vaccine

Dr. Terry Bird, County Health Officer, back from a convention at which he heard polio vaccine discoverer Dr. Jonas Salk speak, said today Seminole County's polio vaccine inoculations will resume Wednesday at Southside School.

Dr. Bird was attending the American Medical Association convention in Atlantic City, N. J., when he was called back to Sanford because of the arrival of vaccine sufficient to give the second series of shots.

At the convention, Dr. Bird said he heard Dr. Salk review the work done on the vaccine during the past year. Dr. Salk, he said, cited improvements in the vaccine and reaffirmed his belief that it would mean an end to the menace of polio.

Students will receive their second shots at Southside School beginning at 1 p. m. Wednesday, Dr. Bird said. The first shots were given there April 25.

On Thursday, inoculations will be given at Lyman School, also at 1 p. m., and probably at Rosenwald school at 3 p. m.

Oviedo students will get their second shots Friday, with Dr. Bird and his assistants visiting the white school at 1 p. m. and the Negro school at 3 p. m.

Dr. Bird said Goldboro school will be visited at 1 p. m. Wednesday, June 22. The following day, inoculations will be given at Midway and Hopper schools.

Other students will be asked to come to the County Health Unit on Tuesday, the regular immunization day.

Dr. Bird pointed out that students at the various schools will have to arrange for their own transportation to the schools on the scheduled days.

Arrest Of Leaders Launches Strike Backed By Reds

SINGAPORE (U)—Arrest of five Chinese union leaders launched a Communist-backed general strike of this crown colony island today but initial response in Britain's commercial crossroads of the East was slow.

A government spokesman estimated 17,000 men failed to show up for work this morning. The island's 2,000 buses were halted. The strike call went out yesterday to 70,000 members of 36 unions.

The spokesman warned, however, that the stoppage could spread rapidly.

Although there was no immediate violence, the 4,500 police were put on a standby basis to counter any recurrence of strike-sparked riots last month in which United Press correspondent Gene D. Symonds and three other persons were killed.

Ike Goes To War On Simulated Basis

WASHINGTON (U)—President Eisenhower goes back to war on a simulated basis Wednesday to lead 15,000 top-bracket government officials and employees in an unprecedented partial evacuation of the national capital.

With two hours warning at best, atom or hydrogen weapons supposedly will blast Washington and 48 other selected target cities in the nation, along with six more in Alaska, Hawaii, Puerto Rico and the Canal Zone.

Sirens shortly after noon, Eastern Daylight Time, Wednesday will signal the start of Operation Alert 1955, to test government action as well as civil defense plans around the nation.

GRAIN ELEVATOR COLLAPSES

FARGO, N.D. (U)—A massive grain elevator composed of 30 links 122 feet high collapsed yesterday, dumping some 600,000 bushels of grain to the ground with a noise that sounded like an explosion.

Completed only last August, the \$300,000 Fargo Grain Terminal was the largest privately owned grain storage facility in North Dakota. All that remained today was a pile of shattered concrete, twisted steel and huge mounds of grain.

BOY SWALLOWS FUSE

IRVING, Tex. (U)—The afternoon nap of Lance Morrison, 5, was short-circuited yesterday when he swallowed an electric fuse while resting in bed. His parents rushed him to a hospital. Doctors X-rayed him and decided the inch-long, pencil-sized fuse would do little harm. It wasn't known how Lance got the fuse.

Francis E. Roumillat Jr. Will Head New Group

Tentative Plans Being Organized
By Entertainment Association

Strolling In Sanford

Mrs. J. B. St. John, Director of the Annual Daily Vacation School, which will be held at the First Methodist Church, June 20-July 1, urges all parents to fill out the blanks their children were given at Church School yesterday. Return them either to Mrs. St. John, Box 1180 or bring them to Church next Sunday. She also asks that parents co-operate with regards to the matter of time in getting children to the school, and calling for them when it closes. Do not bring them earlier than 8:45 a. m. nor call for them later than 11:45 a. m., she stated.

Swimming classes will continue through this week at the same times they have been previously held. Tests for Red Cross certificates will be given Wednesday and Thursday. Girls Scouts are reminded to send in their registration for Day Camp to R. A. Cobb, Box 114.

Any student interested in attending summer school at Sanford Junior High is asked to be at the school tomorrow at 9 a. m.

Ronnie Anderson will conduct summer band rehearsals in the band hall at Seminole High School this summer. The sessions will be held each Tuesday from 7:30 until 9 p. m. All interested musicians are extended an invitation whether or not a member of the band.

Tough Demands From Both Sides Hit Premier Scelba

ROME (U)—Embattled Premier Mario Scelba faced tough demands from both left and right today as he fought to hold together his 15-month-old four-party coalition on a crucial confidence vote.

After a busy weekend of bargaining with political leaders, the anti-Communist Premier stood firm on the formula of center alliance despite growing dissent in his own Christian Democrat party and stiff demands from the allied Social Democrats (anti-Communist Socialists).

As the rumblings grew louder, Scelba saw little assurance either his own party or the Social Democrats on the confidence vote to be debated by the Chamber of Deputies Wednesday.

Construction Bids Will Be Considered

Today Is Big Day For County Children

Today was a big day for the kids. Mom and Pop also enjoyed it, and they looked forward to a noise-free summer around the house.

The occasion? The supervised city recreation program got under way with registration of hundreds of youngsters.

A gigantic program, ranging from swimming to movies, is in store for the kids in the seven to 11 age group registered at the Elks Playground, recreation director Edna Christensen radiated his appreciation for the big response and expressed the hope that the program will be the best ever conducted.

The program, which will run until August 5, is sponsored jointly by the City and the Seminole County Board of Public Instruction. Children participating are divided into two general age groups: 6 to 11 and from 12 up.

Activities will include swimming and swimming instruction, bowling, dancing and dancing instruction, tennis instruction, softball games, movies, water skiing, and hayrides. Fishing and tennis tournaments are also scheduled for the future.

The program for the 6 to 11 age group will run from 9 a. m. to noon. Four days a week they will have one hour of swimming, one hour of arts and crafts and one hour of supervised play. During the hour for swimmers, non-swimmers will get swimming instruction.

The group will also have one hour of bowling a week, and every Monday will see a full-length movie and comedy at Seminole High School. Free transportation will be furnished.

Christensen pointed out that the high school library will be open to both age groups every morning during the week to encourage reading clubs.

For the 12 and up age group, dancing instruction will be given from 8 to 9 o'clock Tuesday and Thursday evenings at the City Center. An organized dance will be held from 7 to 11 each Friday night.

Christensen said tennis instruction will be given the group from 2 to 4 p. m. on Monday and Wednesday and later on a city-wide tennis tournament will be staged.

Teen-agers will bowl from 2 to 4 p. m. each Tuesday and Wednesday. They will meet during these same hours on Monday and Wednesday. The gym will be open from 9 a. m. to noon each Tuesday and Thursday to interested persons.

Christensen said a water ski club will be formed, but plans are not final. But since plans are not final, this has tentatively been scheduled for 2 to 4 p. m. each Thursday and Friday. Interested persons should meet at the Municipal swimming pool.

"We plan to have a hayride every other week on Thursday," Christensen said. "Later on, we are going to have a fishing tournament."

A city softball league is also being organized for adults and teenagers. Plans will be worked out at meeting tonight at the Ft. Mellon Park softball diamond.

ROBERT L. COX
★ ★ ★

Robert Cox Enters Semi-Retirement From Photo Studio

Robert L. Cox will close his Photo Studio at 108 N. Park Ave. and go into semi-retirement tomorrow. He will, however, continue to offer photographic service from his home in Enter-Price.

Cox, 61, member of a famous family of photographers, opened the studio here in 1935 and since has done extensive work throughout Seminole County. He has taken the photographs for Salinas until, the Seminole High School Yearbook, for 20 years.

His father, George Cox, operated a studio in New York City in the late 1800's and became famous for his pictures of U. S. presidents. Many of his photographs hang in the New York Museum.

Robert Cox formerly had studios in the Royal Palm and Roney Plaza hotels in Miami. One of his biggest photographic "accidents" came when he managed to take a picture of the vacationing President and Mrs. Harding after other photographers had failed. The Miami Herald spread the photo across almost the entire front page.

Cox said he will have time now for a "little fishing," but will continue to keep his hand in as a commercial photographer.

"I enjoy my work too much to ever quit," he pointed out.

NIGHT WATCHMAN CHOSEN

William Kenneth Pearson, 2500½ Sanford Ave., has been employed as night watchman at the Phillips housing development in the Drewswood subdivision. City Police were informed.

Sewers Feature Meeting Downtown Area To Be Discussed

Bids on sewer construction in the downtown area will be considered at tonight's City Commission meeting. The meeting will begin at 8 o'clock at City Hall.

Three bids have been received on the project with the lowest being submitted by Hubbard Construction Co. of Orlando.

The Commission will also consider an extension of public liability insurance to cover the Elks Playground, the City Center, and the new pond in Ft. Mellon Park.

Also on the agenda are these items:

1. Consideration of a petition for a street light on Scott Ave. from 4th St. to 8th St.
2. Application for a beer and wine license by A. Constantine and Sam Kents for Seminole Drive-In, 601 E. First St.
3. Consideration of the case against the Goldfish recreation park from the county school board.
4. Discussion of the Odham & Tudor Inc. application to purchase Lot 110, Rose Court, south of 20th St.
5. Consideration of vacating Florence Ave. in Rose Court.
6. Discussion of Billy Newman's application to purchase Lot 109, Rose Court, north of 20th St.
7. Discussion of work requested at the hospital site.

Vocational School Concludes Another Successful Year

The Seminole County Vocational School has concluded a successful year. The total enrollment for the year in the commercial department for both day and evening classes was about 165. There were also 15 veterans enrolled in commercial classes.

The number of certificates issued to students completing the course is as follows: typing I, six; typing II, two; bookkeeping I, 10; bookkeeping II, one; shorthand I, three; shorthand II, one; dictaphone, 10; commercial law, five; office practice and filing, nine; business English, six; business arithmetic, two, and economics, two.

Though the director and the teachers of the school have had a busy year, they are, nevertheless, planning on going to summer school in keep in touch with latest methods and materials. Fred C. Murray, director, is going to the University of Florida; Mrs. Gladys S. Hall is taking a workshop course at Northwestern University, and Mrs. Lydia M. Watt is going to Florida State University.

Institution Study Concludes Report

WASHINGTON (U)—A study of the Brookings Institution concludes that for the foreseeable future the United Nations cannot be relied on to counter military aggression. A report released yesterday by the nonprofit, private research group said U.N. members must rely for protection "primarily" on their own armed forces and on regional alliances like NATO.

"In the present state of the world," it said, "they cannot rely on the United Nations."

The study praised the general usefulness of the world organization but expressed doubts it could develop a voluntary arms control system "so long as relations between the Western Powers and the Soviet Union continue to be characterized by fear and distrust."

Staff Continues Government Probe

WASHINGTON (U)—Senate staff investigators went ahead with the spadework for new probes of government procurement today as Sen. McClellan (D-Ark.) called for prosecution of "the nest of grafters" he said already has been found.

The Senate investigations subcommittee which McClellan heads completed four weeks of public hearings Saturday into military procurement activities centered around Harry Lev, a Chicago hat-maker who obtained lucrative government contracts.

Weather

Fair north and central and partly cloudy extreme south portion through Tuesday, with local showers extreme south this afternoon and Tuesday; high temperature this afternoon 85-90.

Tools Are Taken From Midway Cafe; Negro Is Arrested

Quick action by an officer resulted in the taking of a Negro's tools from a Midway Cafe, on a charge of breaking and entering after he traced stolen tools to the man.

Constable J. Q. (Slim) Galloway said he traced Joseph Alexander, about 32, Midway, on a charge of breaking and entering after he traced stolen tools to the man.

Galloway said the tools, including a hammer and other things, were left inside the Welcome-In Cafe when the burglar was frightened away. Only 11 packages of cigarettes were taken from the cafe.

The burglar entered the establishment by taking the screen off a window and prying up the window. He was trying to open the coin box on the juke box when frightened away, Galloway reported.

Alexander is being held in the county jail under \$500 bond.

The cafe is owned by Dora Canty.

Lawrence Wilkins Receives Injuries As Car Hits Truck

Lawrence S. Wilkins, 41, Route 1, Sanford, was injured last night when his car apparently sideswiped a truck and veered into a tree on Road 13 near Monroe, State Trooper Carl Williams reported. The accident occurred at 9 p. m.

Wilkins was taken to Fernald-Laughter Memorial Hospital here but was later removed to Orange Memorial Hospital in Orlando. He received lacerations of the knees and face and possible internal injuries.

The 1940 Chrysler sedan driven by Wilkins was described as a total loss.

Trooper Williams said the truck driver, Alvin Paul Hittell, Jr., 23, Lake Monticello, was uninjured. Damage to the Ford pickup truck was estimated at from \$200 to \$300.

Williams said he had not yet filed any charges.

Sheriff's deputies assisted in the investigation.

Car-Truck Mishap Occurs Saturday

An estimated \$250 damage was reported in a car-truck accident Saturday at the intersection of 19th St. and Park Ave., City Police reported.

Both drivers were charged with careless and negligent driving. Involved in the accident were a 1954 Chevrolet convertible, driven by Robert E. Lau Jr., U. S. Air Force, 618 Market St., York, Pa., and a 1952 Dodge truck driven by Arthur Howell Hatcher Jr., 2418 W. First St., Sanford.

All the damage was sustained by the car.

Patrolman Joe Hickson was the investigating officer.

Girl Cuts Off Leg To Win Boyfriend; Wedding Is Soon

PORTSMOUTH, England (U)—Dawn McFarland, 17, had her leg cut off to win her boyfriend's love.

Dawn had polio when she was a baby. As a result, her left leg was shorter than her right.

She couldn't dance, run or go cycling—things that 20-year-old Gerald Manley liked to do.

Last year Gerald went to Malaya with the British army.

"Soon afterwards," Dawn told a reporter yesterday, "I decided to do something about my leg."

"I went to hospital and persuaded the doctors to amputate it. It's wonderful—now I have an artificial leg from the knee down and can walk miles and dance and do anything other girls do."

When she knew the operation was a success, Dawn wrote Gerald.

His reply—an engagement ring and a letter saying, "We'll be married as soon as I get home."

REGISTRATION at the Elks playground marked the opening of the supervised city recreation program today. Looking on as Margaret Malloy signs up children is recreation director Edward Christensen. Miss Malloy will be the instructor in arts and crafts. (Staff Photo)

The outboard boat and motor, which has been displayed by the Navy on First Street almost daily for the past month, was awarded recently to Frederick W. Schumann, aviation storekeeper first class, VC-5, NAAS Sanford.

Nearly \$1,450 was netted for the Navy Relief during the fund drive. CHIRELE L. R. Cardwell, who was in charge of the drive, stated that an estimated \$25 more will be added to the total.

Forty-six prizes, in addition to the boat and motor, were awarded and Sanford residents received 32 of them. Local winners include: Homer Little, E. O. Seaman, Kirk Motors, G. L. Falkner, William Mullenhausen, Bernice Cox, M. N. Cleveland, Sr., W. C. Coleman, Arthur Little, Fannie Surky, A. Whiddon, W. G. Smith, V. Maliszewski, Virgil Gark, Mrs. W. W. Utterback, Mary Harbee, L. H. T. Rollins, Fort Poole, F. R. Jurgens, D. P. Scroggins, F. H. Carter, Eric G. Walker, L. G. Lota, J. P. Brosman, J. E. Fails, J. W. Collicott, S. J. Herman, Liborio Hassal, C. F. R. More, H. R. Lutz, and J. W. Greck.

Only two team have jumped from a seventh place finish one season to a pennant winner the next. The Yankees were seventh in 1925 and first in 1926. The Red Sox leaped from seventh in 1945 to first in 1946.

GAS TANK SAVINGS
KINGS MOUNTAIN, N. C.
A motorist drove into a service station here and asked that his gasoline tank be taken off.

He said that every time he got gas, he had been putting the change in the tank. Lately his car had been sputtering.

Inside the "bank" was \$25.05 in half dollars, quarters, dimes, nickels and pennies. He saved only \$21.45, however, because it cost \$4.50 to have the tank emptied and put back on.

Duke Mass, rookie hurler for the Detroit Tigers, is engaged to Miss Nancy Seeman, Michigan's peach queen of 1933.

Northern Boundary Moved At Moody 1

VALDOSTA, Ga. (U)—Air Force officials here moved the northern boundary of the Moody Air Force Base yesterday moving range off the west Florida coast seaward four miles to appease coastal fishermen.

The action followed a meeting of fishermen from the St. Marks, Panama and Carrabelle, Fla., areas with Moody Commander Col. Robert F. Worden.

The Moody AFB public information office said Col. Worden had appealed to his superior officers for an extension after the fishermen protested that economy of the coastal area was being affected adversely.

Coming From Rear Furgol Wins Title At Columbia Meet

WASHINGTON, June 12.—Ed Furgol, displaying the kind of pre-arranged golf you'd expect from the U. S. Open champion, came from behind to win the individual title in the International Golf Championships that wound up at Columbia Country Club yesterday.

Starting the day four strokes behind pace-setter Peter Thomson of Australia, Furgol blasted the 6,510-yard course with a three-under-par 67 that put him into a three-way tie for the championship.

Then he proceeded to drub Thomson and Belgium's Flory Van Donck in a three-way "sudden death" playoff that went just three holes.

The United States walked off with the Canada Cup, which goes to the two-man team which turns in the low combined score of 72 holes of play.

Chick Harbert, with a total of 281, one over par, teamed with Furgol, who had a 279, to take the team championship by nine

A total of 2,085 hunters bought Arizona elk licenses this season. But reports reveal that 142 of them did not hunt. The kill of 629 elk by 2,843 hunters produced a hunter success of 22.1 per cent.

Ted Kazanski, the shortstop who received a reported \$100,000 bonus from the Phillies in 1931, is now playing third base for the Syracuse Chiefs in the International League.

Strokes from Australia's duo of Thomson and Kel Nagle, the defending champions.

Cinemascope Films Expected At Base

Cinemascope movies are expected to be shown at the NAAS Sanford Station Theatre in the very near future.

A Navy spokesman said today that all the necessary equipment has arrived at the base, including the large screen, and that a Tampa firm has been contacted concerning the installation. It is not known as yet, however, when the work will be completed.

It. H. A. Hall, Special Services Officer, stated earlier this week

that the Tampa firm is able to complete the work as soon as they are able to start.

Eat Italian Style And Eat All Day

eat Italian," says a little girl, "you eat dinner all day Sunday."

That is not merely a description of Italian food. It describes the leisurely quality of Italian life.

Many of the half million Americans who will visit Europe this year will come to Italy. They'll notice that the Italians work hard and walk fast—yet convey at the same time a sense of being the world's greatest loafers.

It will be surprising if you come to Italy and fail to see Rome, Florence and Venice. But you're lucky if you can find the time to see more than these three cities.

The traveler likes them in the following order: Florence, Rome, and Venice.

They will, why do some prefer Rome to Shelley and others take the Dodgers over the Giants? It's personal.

Late on your first beautiful morning in Florence cross the Arno River by the Ponte Vecchio on

foot. Pause in a shop and buy a bottle of wine and have the proprietor make you a long loaf sandwich of ham and cheese. Then wander on to the Petli Palace. Linger to the extent of your interest in art.

When you come out, walk up the hill behind the palace into the Boboli Gardens, some of the most beautiful in the world. Climb straight up to the top of the hill for a magnificent view of Florence and the surrounding hills. If you haven't noticed it before take a good look at the deep blue summer sky of Italy.

Coming down, bear left and follow the long walks of cypress trees. Find a bench or a plot of grass under a tree and drink your wine and eat your sandwiches. Everywhere you'll hear the songs of birds. That is Italy.

On another day rent a car and drive out into the Tuscan Hills where the white-faced oxer plod

and the pencil slim cypress trees march into the distances. Eat lunch under an olive tree. This is the way it was in the Renaissance. You'll remember such experiences long after you've forgotten the fashionable restaurants.

Surely the Italians are the most amiable of living peoples. Language is no barrier. You'll find, in fact, that the vast majority of Italians you meet as a tourist speak English. But you would be wise to learn the names of certain foods in your first English-speaking restaurant so you can order in places where English is not spoken.

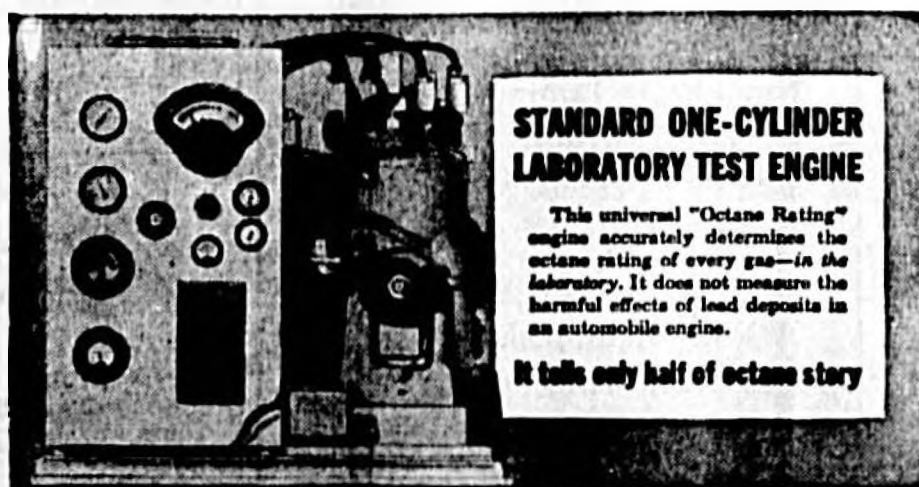

The Italians' love of music and gaiety is no myth. In San Marco Square in Venice, where two orchestras vie with each other in front of two cafes for 14 hours a day, you'll occasionally see a couple break into a brief dance. In San Marco Square you can hear an Italian crowd break into cheers when an orchestra plays "The

Stars and Stripes Forever." Yet excellent as Italian orchestras are, none is finer than the music of the bells in Venice. Thousands of pigeons—the best-fed pigeons in the world—sweep in flight through San Marco when the bells peal.

From now on you'll judge Octane in a new way

New, Ultraformed Amoco-Gas shows important difference between Laboratory Octane and Road Octane

One place to measure octane is in the laboratory. This is the kind of octane rating you always hear about. Most gasoline achieve their high lab octane rating by adding lead. But no amount of refining or super-refining matters once you add lead. That's because lead leaves harmful deposits in your car's engine—deposits that trap and choke off octane power!

STANDARD ONE-CYLINDER LABORATORY TEST ENGINE

This universal "Octane Rating" engine accurately determines the octane rating of every gas—in the laboratory. It does not measure the harmful effects of lead deposits in an automobile engine.

It tells only half of octane story

THE REAL TEST ENGINE IS IN YOUR CAR ON THE ROAD!

You can only measure the usable octane value of any gas in an automobile engine in use. Here leaded gas can cause metallic deposits that waste octane. All the octane value of new so-lead Amoco-Gas is usable road octane—none is wasted. You get an Octane Bonus on the road.

Your car engine tells whole story

The important place to judge octane is on the road. Road octane is the octane strength that actually goes to turn your car's wheels. If you drive you'll find it is the only kind of octane that's worth measuring—or buying!

New, Ultraformed Amoco-Gas gives you an Octane BONUS on the road—no octane power lost fighting lead deposits

New, Ultraformed Amoco-Gas is the brilliant achievement of years of Amoco research. It is a new and different kind of gas—the one gas that has discovered how to attain high octane without adding lead. It is all gas—it can all burn. No lead deposits are left in the engine to choke off octane power. You get more usable octane on the road where it counts—an exclusive Octane Bonus yours only in the new white Amoco-Gas! Try it—it's wonderful!

The white gas with the
Octane BONUS!

Bonus Mileage—because it contains no lead!

The Person In Between

Everyone knows that juvenile delinquency cannot be talked away. To combat it, a program of action is necessary and the school social worker fits into such a program.

The school social worker is frequently the person between the classroom and the home. He or she takes over where the teacher stops. The worker, among other duties, visits the home in an effort to find a clue to the pupil's misbehavior.

Sometimes the social worker learns the child is jealous of a brother or sister and he is unruly to attract attention to himself. Or there may be other tensions in the home affecting the child. The trained worker looks for those tensions that could be resolved with the help of the proper social agency. Sometimes simply passing such information along to the teacher can shed new light on

a child's problems and prevent them from becoming serious.

The school social worker won't abolish juvenile delinquency. But at least he can show the community the tools needed to combat it. He can help many children and many teachers. Putting trained social workers on the school faculty team is the type of precaution needed in an active and intelligent approach to juvenile delinquency.

Paris In Dusseldorf

European unity is more than a military political or economic policy. It is a hope in the hearts of many men. Anyone doubting this need only have witnessed the Franco-Prussian festival held recently in Dusseldorf, Germany.

Streets and restaurants were decorated with French tri-colors, theaters featured Parisian plays and revues and Germans and Frenchmen hailed each other as friends.

As remarkable as anything else about the occasion was the fact that this event was not staged by national politicians. Plans for the celebration were made by members of the city administrations of Paris and Dusseldorf. It was about as spontaneous as any event could be.

French Ambassador Andre Francois-Poncet declared he had "never seen anything like" Dusseldorf's Paris Week in the decades he has represented his country in Germany before and since World War II. An American diplomat said, "If you had asked me ten years ago when this kind of thing could happen here in the heart of Europe, I'd have said, 'Oh, in half a century, maybe.'"

The event was a success because there are people in France and Germany who are tired of the enmity that has so long divided them, and of the wars that have so long wasted them. There are those who want to unite for mutual benefits.

Paris Week in Germany was an unexpected demonstration of good will coming from people who have traditionally hated and feared one another. It was a small but significant gesture in the midst of national suspicion and distrust.

What Will Cost Of Lay-Off Be?

NEW YORK (AP) — Will the cost of lay-off pay be passed along in higher prices?

A few years back there would have been little question about it. Today there's a good chance part of the cost will be passed along to the consumer. But some think much of it can't be — at least at retail.

In the last three years, while industrial materials were edging higher and labor costs continuing to rise, the trend at retail has been toward lower prices.

This year's big jump in the size of wage increases—and especially the auto industry's token step in the direction of a guaranteed annual wage—revives fear of another wage-price inflation spiral like those in the years right after

World War II.

The argument for inflation is this: companies have to look to income from sales to pay for this year's higher wage scales and for the unemployment benefit funds some are promising to set up.

Ford's layoff pay plan, for example, will cost the company five cents an hour per worker.

Sales income depends on price and volume of goods sold. Companies, therefore, might be more than willing to pass along the higher labor costs in the form of higher prices.

But those who minimize the danger now of a new inflation argue:

Times have changed. In the early postwar years many goods were in scarce supply. Increased

JAMES MARLOW

World Twitches When Reds Sneeze

WASHINGTON (AP) — Every time the Russians sneeze, the world twitches. What are they up to? It must be dark, devious and diabolical. There were even some misgivings they might outwit President Eisenhower if he sat down with them.

They're devious and clever. But they get too much credit for cleverness.

What they wanted more than anything for years was to keep the Western Allies unarmed and separated and West Germany neutralized. Thanks to Stalin, they failed in both. Sour, stubborn, Stalin yielded nothing.

Then he got too tough and upset the apple cart by letting the Korean War begin. This not only shoved the West into alliance and rearming but eventually into letting Germany rearm and join the partnership.

For a year after Stalin's death his heirs, as if they could think of nothing better, followed his tactics out the window: threats and dire warnings if Germany was permitted to rearm.

Perhaps they thought this technique still had a chance, for until late in 1954 the Allies were squabbling among themselves on letting the Germans have guns again.

The Kremlin team must have seen the jig was up Dec. 30 when the French Chamber of Deputies voted for German independence and rearmament. Not long afterwards things began to change.

On Feb. 5, Stalin's successor, Premier George Malenkov, was bounced. This was wily; later, priced in the guessing West as meaning A a tougher Kremlin policy and, or, B that there was now a fierce struggle for power in the Kremlin.

Perhaps the following was closer to the truth for, as events showed, the Kremlin policy got softer instead of tougher and nobody has lost his head there yet:

1. They were losing with Stalin's tactics. By a shift, to a show of friendliness and cooperation, they might still weaken the Western Alliance and even keep Germany from rearming since it hadn't started to rearm yet.

2. If they kept on the way they were going, with the West building up its strength, they might head into a war which would leave them pulverized.

3. A change in tactics needed a

change in people. Malenkov should not be in the show-off if they were going to display a new type of good fellowship and sweet reasonableness. Malenkov, like Stalin, looks sour and immovable. Judging from his pictures, he's an introvert. Good-Time-Charley's are extroverts.

The Kremlin shoved forward two men who at least act like Good-Time-Charley's: Premier Nikolai Bulganin with a vevy beard which makes him look more like a symphony orchestra conductor than a revolutionary; and Nikita Khrushchev, credited with being the real boss, who performed like a butter-and-egg salesman on a spree when he visited Yugoslavia.

In time Red China got in on the act. It had good reason to want the West to relax. It needed trade with the West. The new Kremlin tactics evolved fairly fast:

They agreed to Austrian independence, with Austria neutralized. They agreed to a Big Four conference. They visited Yugoslavia with grins instead of threats. The Red Chinese suggested talks with the United States and let the shooting ground Formosa die down.

DETROIT UP — Ted Williams picks Al Kaline to win the American League batting title — and Bucky Harris stands behind Williams' choice.

Both are sold on the sensational 20-year-old outfielder of the Detroit Tigers, who leads the league with a solid .353 average and shows no signs of letting up.

"The kid is a great hitter right now," said Williams, the 36-year-old outfielder of the Boston Red Sox.

"I think he'll win the batting title—unless his teammate Harvey Kuenn beats him out," Williams said yesterday after the Red Sox and Tigers were rained out. "Kaline is quick with his bat—real quick. He can whip it around in a wink. That's why he's such a good hitter."

"And," Williams added, "he's going to get better."

"I've never seen a 20-year-old who could hit so well," said Harris, manager of the Tigers. "But for that matter, how many 20-year-olds come into the big leagues?"

"I'd say Kaline has a good chance to win the batting title," Harris said yesterday. "A model of consistency, Kaline has hit safely in 49 of Detroit's 54 games. He has 80 hits—most in the league—in 209 trips to the plate. His other figures are equally impressive: 11 home runs, 44 runs batted in, 44 runs scored, 5 triples, 8 doubles."

This is only his second full season in the majors.

Outfielder Roberto Clements of the Pittsburgh Pirates was a teammate of the Giant's Willie Mays on the Santurce club of the Puerto Rican League last winter.

Sanford Takes Over Sixth Place In FSL

Kaline Chosen By Williams To Win Title

LAKELAND (AP)—Sanford's Cardinals took over sixth place in the Florida State League standings last night by defeating Lakeland, 4-1.

Sanford scored all its runs in the third and fourth innings. Dick Snyder swatted a 400-foot homer that accounted for two of the three runs in the fourth.

It was Lakeland's third straight loss after a winning streak of five games.

Orlando maintained its eight game Florida State League lead over Daytona Beach last night by outlasting Cocoa in a 12-7 slugfest while the Islanders beat last place St. Petersburg 12-8.

Ten runs in the first three innings gave Orlando more than enough to win but the Indians rallied valiantly late in the fray. The Tribe collected 17 hits of three Orlando pitchers who were helped out of several tight spots by four double plays.

Catcher Vern Watercutter drove in four Daytona Beach runs with a triple and a homer. Ivan Smith, the Daytona starter, had a no-hit game for six innings but walked 12 men while fanning 10.

Rain washed out a doubleheader between Gainesville and West Palm Beach.

Mass Funeral Set For 78 Persons Killed At Races

LE MANS, France (AP)—A mass funeral will be held in Le Mans tomorrow for 78 persons killed in the worst disaster in the history of auto racing.

The toll rose today with the death of one of 76 persons injured Saturday when French driver Pierre Levegh's big silver Mercedes-Benz hit another racer during the annual 24-hour sports car race, catomped across the track and plowed flaming into the crowd packed 20 deep against the barrier.

Hospital officials said five or six of the injured were still "in desperate condition."

One American was among the injured spectators. He was a Roy Hutton, a U.S. soldier stationed at an Army hospital in Orleans.

Most of the dead—including 15 women and 3 children—were believed to have been French, although several bodies still had not been identified. Levegh also was among those killed.

Despite the tragedy, the famous 24-hour road race for sports cars was carried to its conclusion, with Mike Hawthorn and co-driver Ivor Bueb of Britain winning in a three-lit Jaguar at a record-breaking average speed of 107.067 miles per hour.

Sports Roundup

By GAYLE TALBOT
NEW YORK (AP)—One thinks of Ty Cobb as a fiery type of ball player, but it is the recollection of H. G. Salinger, veteran Detroit Tiger historian, that Cobb argued with an umpire only once in his long career.

That occurred, Salinger recalls, when Umpire Tom Connolly called him out for having stepped across the plate to hit a double. "Cobb made 4,181 hits during his career but he never forgave Connolly for taking one away from him," Salinger says in the Detroit News.

To place Cobb's hitting in perspective it is necessary to realize that only six other players ever have made over 3,000 big league hits—Tris Speaker, Honus Wagner, Eddie Collins, Nap Lajoie, Paul Waner and Adrian Anson. Speaker is runner-up with 3,515.

Only one player suiting up today, Stan Musial, has an outside chance of joining the 3,000 Club. The St. Louis thumper went into the current season with 2,418 hits. Ted Williams went into this season with 1,937 hits.

Chuck Dressen, who hasn't dodged an issue yet, says that Bob Turley of the Yankees is throwing the fastest ball in the American League today, but that Herb Score, the Cleveland rookie, has a "silver fast one."

The Washington Senators could have had Al Kaline, the beauty from Baltimore, by meeting Detroit's \$13,000 bonus offer, but Clark Griffith said \$9,000 was his limit.

A LOT TO LEARN
ANN ARBOR, Mich. — Michigan's football coach Bennie Osterman says sophomore Jim Pace, an Arkansas high school sensation in "a good prospect, but he's got a lot to learn" before he plays left halfback for the Wolverines.

In Michigan's spring practice, Pace showed some shifty and fast running but average passing.

Eight former Yankees are members of the Baltimore Orioles.

Tryout Camp Set Saturday

Veteran Cardinal Scout Mercer Harris has been assigned to handle the workouts for the Red Bird tryout camp scheduled at Municipal Stadium in Sanford, on Friday and Saturday, June 17 and 18 it was announced today.

Harris, Cardinal scout covering the Georgia-Florida area, hoped that a large group of young players in the 17 to 23 year age bracket would be on hand.

"This is a real opportunity for any boy who really likes to play baseball," he said.

"All we ask a player to do is bring his own glove, a pair of shoes, and if he has one, a uniform. We'll have bats and balls and catching equipment."

"Besides that," he continued, "any boy reporting can be assured that he will get a one hundred per cent fair and impartial evaluation of his talents. Any player we see who has the potential to become, some day, through development, a major league player will be offered a contract to play and develop his talent in the Cardinal's minor league organization, the biggest and best in the major leagues."

"Everyone in the Cardinal organization works with and for a young player, helping him to make good. The Cardinal formula of plenty of personal attention, plus a generous amount of individual instruction and a chance to play regularly as an unbeatable combination to help a player climb the ladder of baseball success."

No charge or fee is required to attend the tryout camp. In addition, players who are signed will be refunded any expense incurred as a result of participating in the tryout camp.

THIS is a Buick — a 2-door, 6-passenger SPECIAL Sedan.

It packs a wallop! 188-hp V8 engine under the hood — is carried on a strapping 122-inch wheelbase — rides with the luxury cushioning of all-coil springing, the solid steadiness of a full-length torque-tube drive, the extra safety and silence of tubeless tires.

It's big and brawny and road-steady and roomy — each seat cushion measures over five feet in width.

Yet this beauty — as the price we show here proves — delivers locally for just about the price of the well-known smaller cars — even below some models of these same cars.

But take the time to see this Buick. That, for sure, is one reason why Buick sales go higher and higher and higher. More and more people are finding that you can buy a

Buick for the price of a smaller car, so more and more people are getting this bigger buy for their money.

They want the bigger package of sheer automobile for the money that they get in Buick — bigger in power, thrill, in roomy comfort, in riding steadiness, in structural solidity.

They want the added prestige and pleasure of owning Buick styling and size — and the added safety and sureness of Buick roadability and handling ease.

They want, too, the spectacular performance and better gas mileage of Variable Pitch Dynaflow! — yours at modest extra cost.

And they certainly want the choice Buick offers of a car in every price range, with each one the buy in its field — the low-price SPECIAL, the supremely-powered CENTURY, the extra-roomy SUPER, and the custom-built ROADMASTER.

Why don't you come in for a visit and see how much real automobile your money can buy here?

Thrill of the year is Buick

21 Miami Hotels Struck Or Picketed

MIAMI BEACH (U)—Twenty-one hotels have been struck or picketed thus far in the AFL Hotel Employees Union's drive to secure recognition as the representative for its members.

Latest to be picketed was the Versailles. The union placed men before it yesterday.

The union began its drive two months ago today. None of the 21 Miami Beach and Miami hotels has come to terms with it.

Property Holdings Crackdown Urged By Hoover Group

WASHINGTON (U)—The Hoover Commission today urged Congress and the President to crack down on what it called mismanagement and wasteful use of the government's vast real estate holdings.

In the latest of a series of reports, the commission said the government owns 492 million acres of land—one fourth of the nation's entire area—and controls federal structures with spare 1,250 times that of New York City's Empire State Building.

Yet the government has no up-to-date inventory of its holdings and exhibits little familiarity with "modern real property management" in their use, the commission said.

As a result, agencies frequently buy new property when they could occupy ground or buildings already owned by the government, said the 12-member commission headed by former President Herbert Hoover.

BURNED WRECKAGE PRESENTS MYSTERY

RIPLEY, Tenn. (U)—A farmer found the burned wreckage of a light plane on an isolated creek bank and called officers.

There was no indication of a crash. The wreckage lay in a little under dirt road, screened by trees and underbrush from a nearby highway. Fresh tire tracks were found.

Sheriff Oscar Griggs said he believes "the thing was just dumped in here and burned by somebody, but for the life of me, I cannot imagine why."

Dishwasher Probed In Torture Killing

FORT LAUDERDALE (U)—Police officers have been questioning a 36-year-old dishwasher about the torture killing of an 81-year-old widow. Investigators said today.

LI. Robert W. Johnston said the man, who has been here this winter, was not charged with any crime. Johnston said the man was a native of Kentucky but would not identify him further.

The widow, Mrs. Jane M. Barley, was stabbed at least 10 times by an intruder Thursday night. She died Saturday after giving police a description of her attacker, a slender man with dark, gray-sprinkled hair.

The house was ransacked but officers said the intruder apparently was "more interested in torture than in money." They said he was careful not to inflict a wound that would immediately be fatal but one of the thrusts penetrated a lung.

NIXON EXAMINES SHELTER

HOUSTON (U)—Vice President Nixon looked into a family-size II-bomb shelter yesterday and called it "quite comfortable." Then he added, "But I trust we will never have to use such shelters."

Nixon inspected the \$4,000 shelter in which Houston civil defense worker John R. Christmas and his family will live 72 hours this week in a civil defense test.

COULD BE WORSE

DENVER (U)—Orville Day figures he could have fared worse. He reported to police yesterday someone had removed two wheels from his motorcar. But the thieves replaced the equipment with an old, battered set.

Dr. Salk Discusses Vaccine Situation

WASHINGTON (U)—Dr. Jonas E. Salk says the U.S. Public Health Service's new and stiffer manufacturing standards for his polio vaccine "will preclude deviation from the procedures originally intended."

Earlier troubles with some commercial lots of the vaccine may have developed, he said, "because the phrasing of the minimum (government) requirements allowed for differing interpretations."

Salk expressed these views in a telegram to Surgeon General Leonard A. Scheele made public early today in Pittsburgh.

CAPT. RAYMOND WOOL, former Air Force procurement officer at Shelby, Ohio, is expected to be called as a witness in the Senate Armed Services subcommittee investigation in Washington of alleged bribery and corruption in military apparel contracts.

Capt. Wool's name was mentioned in connection with a deal involving 7,000,000 sailor hats, but the allegations were admittedly "hazy." (International)

MAN IS ELECTROCUTED

HOLT, Mich. (U)—Gary Higbie, 23, was electrocuted yesterday when a 60-foot metal control cable attached to a gas-powered model airplane he was flying struck a high-tension wire. The accident occurred in front of his home where 40 members of his family were gathered for a family reunion.

SISTERS ARE ALIKE

DENVER (U)—Two sisters each gave birth to a daughter—the first child for each—on the same day, they learned yesterday. The girls were born Saturday to Mrs. Gordon Tripp at Denver and Mrs. Ronald Rusyn at Neosho, Mo.

Pentagon Ponders Production Cutback For Medium Tanks

WASHINGTON (U)—The Pentagon is considering a new cutback in the production rate for M48 medium tanks, the Army's latest model. However, officials familiar with the study said today, the reduction would not be a major cut in the monthly output. There was speculation it might be something less than 20 per cent.

A reduction in deliveries of the M48, now coming primarily from the Chrysler-operated tank arsenal at Newark, Del., is contemplated simply because the supply of tanks is nearly ample for the regular Army, the National Guard and overseas shipment to foreign governments.

Defense officials say tanks adequate for the equipment of all regular Army units have been produced—a point with which some Army officials take private issue. Similarly, the requirements of the National Guard are being met from the production of the new M48 Patton medium and the somewhat older design M47.

MAN IS ELECTROCUTED

HOLT, Mich. (U)—Gary Higbie, 23, was electrocuted yesterday when a 60-foot metal control cable attached to a gas-powered model airplane he was flying struck a high-tension wire. The accident occurred in front of his home where 40 members of his family were gathered for a family reunion.

SISTERS ARE ALIKE

Marilyn Monroe

(Continued from Page 1)

ment, from one place to another. When a company is on "location", it can mean almost anywhere in the country.

For the filming of "High Noon", for example, they first went from Hollywood to Springfield, Mass., where they stayed about a week.

Then, just to shoot one scene, the whole train was brought down to a place near Tampa. In less than two days, "Diesel" and the rest of the crew were taking it back to Hollywood.

They passed through Sanford that time and Durkee recalls that it was necessary for them to stop here for about 1½ hours waiting for a northbound passenger train.

He was to have appeared in a few scenes in "High Noon" but he was told after joining the Navy that these scenes had been cut out.

Many of the stars, he said, liked to climb up in the engine to look it over when they had a few spare moments. This, of course, gave him a chance to talk to them often.

One time Marlene Dietrich's daughter was on the set and was making a lot of noise. Her shapely mother could do little to keep her quiet. She noticed that Durkee had hardly opened his mouth since the company began work and she commented that she'd "like to have a fellow like him for a son. He's always so quiet."

The popular, 22-year-old sailor began his railroading career with the Central of Vermont Railroad in the summer of 1940. The following summer he was "speeding" trains in a Vermont yard one day when an official of the AAR happened to see him and offered him a "Hollywood run." An engineer is said to be "speeding" when he uses a switch engine to put together a train from cars parked in the yard. Durkee says that it

was necessary to switch about one car a minute into place.

He decided to accept the AAR offer and he spent the summers of 1950 and 1951 working with the movie companies. In June of 1952 he graduated from Spaulding High School, Barre, Vt., and three days later he enlisted in the Navy.

He respects three of the Hollywood stars that he met a great deal more than most. They were Randolph Scott, who told him not to "take home any of Hollywood's ways" with him, Gary Cooper and John Wayne.

Since his experiences with movie making, Durkee pays more attention to the details of a movie than he ever did before. Instead of watching the center of action all the time, he is apt to be looking for things like the rocking of a train during an inside-the-car scene, or the actions of an engineer or conductor as a train starts to roll. He says that "Caine Mutiny" and "Magnificent Obsession" were outstanding movies for accuracy of detail.

"Diesel" makes daily entries in his diary and keeps a complete record of movies which he has seen. He even rates each film according to his own judgment, using the Navy point system of 4.0 for a perfect score, 2.0 for 50%, etc. Both of the above mentioned films were given a 4.0.

He's been interested in trains as long as he can remember, he says, and at home he has a large collection of railroad paraphernalia including time tables, pictures, books, and many other items.

His love for the rails almost

came to an end in 1950, however. "Diesel" was making a run as a fireman on the Central Vermont from Montreal to Springfield, Mass. It was his 18th birthday and he was in a happy mood.

Suddenly, he and the engineer felt the engine hit something. A car had not quite made it over a crossing before they came along. Nothing like that had ever happened to him before but nevertheless he was the first to get down from the engine after they stopped. Words could never describe his feelings when he saw what had happened.

The girl to whom he was engaged had been in the car. She died within five minutes.

"I hated railroading for a long time after that," he says. "But now I believe that I'll go back to it after I'm discharged. One thing I'm sure of - I'm through with Hollywood runs. Those movie people are just too doggone phony for me."

Chances are: If you don't own a Ford you haven't driven one lately!

Once you Test Drive new Trigger-Torque power in Ford, sit back in the luxury of its Thunderbird-inspired styling, and relax to its new Angle-Poised Ride—you'll see why the swing is to Ford!

If you haven't driven a Ford lately, get into a '55 Ford and see why it's America's latest selling V-8... and your best buy!

Ford's new Trigger-Torque or gateway power gives you commands on the accelerator.

Ford's new luxury lounge interior offers the best used to meet fabric and skin.

also paid lightning fast. You'll feel the difference the second you want to pass. How smoothly and quickly Trigger-Torque power moves you out into the traffic flow! What a feeling of confidence it gives you. And this new Trigger-Torque power is yours to command in whichever of Ford's 5 new, mighty engines you choose.

As you relax in Ford's new luxury lounge interior, you'll realize why even higher-priced cars are switching to Ford. You may have seen such luxuriously hand, hidden-attached fabrics on that expensive sofa of yours, but never before have you seen many

of Ford's upholstery combinations in any car.

You'll probably wonder, too, why all the roads you once thought rough seem so smooth all of a sudden. Ford's new Angle-Poised Ride cushions all the bumps—big and little. Steer out onto a highway. Notice the way even the curving bend of the landscape on gravel roads seems to disappear!

There's much more that's new in Ford this year: new Speed-Trigger Powermaster; new out-dial telephones; new, deep-set, cushioned sport seats; and new larger bodies. But that's still only part of the story. The rest awaits you in a Test Drive.

FOOD the new NEW SELLER... plus more because it's worth more!

Come in and sample the many worth-more advances in the new '55 Ford

Wesson Ferris Wheel Is Popular With Kids

ROUND AND ROUND THEY GO—The children really enjoy the ferris wheel in the yard of Mr. and Mrs. Roland Wesson's home at 2650 S. Myrtle Ave. (Staff Photo)

Many Children Flock Into Yard To Take Rides

By CLAUDE ROSE
Herald Feature Writer

It seems as though "the circus is in town" every day of the year for the kids up in Pine Crest development. That's because Mr. and Mrs. Roland Wesson, 2650 S. Myrtle Ave., have a miniature ferris wheel right in their back yard.

Mr. Wesson purchased it about a year ago for his two children, Cindy, 5 and Dale, 2, but says that "the neighborhood gang gets as much fun out of it as my own children."

The "wheel" is approximately 12-15 feet high and has four seats. It is ordinarily motor driven but at present Roland is using the motor for something else and it's necessary to do the job manually.

It is possible to seat 12 small children, or even four grown-ups, in it and a 1/2 h. p. motor does the job very nicely. Incidentally, Roland built the motor (with a little help) which is used on the wheel.

"We bought it from Richard Norton about a year ago, when we lived out in Geneva," Wesson says. "His father used to make them up North before the war and I understand they sold in those days for something like \$385. When we moved here nine months ago, it took six men and a block and tackle to move it."

He estimated that its weight would be about 800-850 pounds. It is very safe for the children since it is welded almost throughout. This made it rather difficult to move since it was impossible to take apart. There are safety bars which hook into place in each of the seats, just like the large carnival ferris wheel.

"When I first got it," muses Wesson, "I had to run it for about an hour every night when I came home from work. All the neighborhood children would be there when I arrived and I had my work cut out for me. But I didn't mind doing it, the kids all enjoy it so much. And that's why I bought it."

He says that there have been as many as 20 children in their yard at one time.

The Wessons have one of the best play areas that we have ever seen for children. Roland said that his back yard is 100' x 55' and in addition to the ferris wheel, there are a set of swings and a large collapsible swimming pool.

The whole area is surrounded by a fence which "is not to keep the other kids out, by any means, but to keep our own in," says Wesson. Any children who want to are free to use the playthings at any time, and he says that some 10 and 12-year olds have even stopped by for a ride on the wheel.

"These kids won't forget you when they grow up," I remarked to Roland as he showed me the yard. And with a look of pride he said, "I sure hope they don't."

Clean-Up Drive Hits First Protest

City Building Inspector John Gillon's campaign to clean up the Negro sections of Georgetown and Goldboro ran up against its first formal protest yesterday.

Gillon said Miss Jenny Lang, owner of houses already condemned or "subject to be condemned" in the two areas, filed an appeal to the Board of Adjustment and Appeals. A \$10 fee is charged for an appeal.

Work Is Cut Out For Legislature

TALLAHASSEE (AP)—The 1955 Legislature won't have to worry about something to do. The 1955 session already has taken care of that.

Committees and commissions set up by the lawmakers at their recent session should provide enough bills to keep the 1955 session busy.

The 11-member Constitutional Advisory Commission which will rewrite the 70-year-old Constitution and submit it to the 1957 session said by itself keep the next Legislature supplied with material.

The administration's Water Resources Study Commission and Citizens Tax Council will have other bills to introduce.

Governor Signs Bill For College

TALLAHASSEE (AP)—The bill setting up a Community College Council to look into Florida's needs for an expanded system of two-year community or junior colleges was signed into law yesterday by Gov. Collins.

An expanded system of community colleges has been proposed as one answer to increasing demands for facilities at Pensacola, Marianna, St. Petersburg and West Palm Beach.

The council will be composed of the state school superintendent, executive secretary of the Board of Control and the seven-member Advisory Council on Education.

The governor also signed the last of a series of bills levying an extra two million dollars a year in taxes from dog tracks. This measure gives the state all the breaks from betting pools at the tracks. The breaks are odd cents left after parafixes have been made to the nearest dime.

Other bills signed:

Appropriated \$300,000 to provide money on a 50-50 matching basis to help counties build permanent agricultural and livestock display buildings.

Raised hotel and restaurant license fees from \$1 to \$10 and provided two inspections annually instead of one.

Soviet Government Appears To Embark On Confusion Drive

WASHINGTON (AP)—The Soviet government seems to have embarked on a campaign of confusion designed to belittle Western arguments about the real issues for the forthcoming Big Four conference.

That appears to be a major purpose of the Tass comment issued yesterday in connection with Russia's formal acceptance of the Western invitation for a top level meeting of Geneva on July 18.

Secretary of State Dulles welcomed the Soviet acceptance, as did Great Britain and France. Dulles commented dryly: "At least it settles one thing."

The Tass comment made it clear that hardly anything else is settled. It also made clear that the Soviets are now following up their "peace" offensive with a full-scale propaganda drive to rally public opinion in the free and neutral nations to support the kind of conference discussions they want.

Boy Is Found Safe After Wide Search

SAN DIEGO, Calif. (AP)—Twelve-year-old George Arthur Marston, lost in the Mexican border badlands since Saturday, was found last night—safe and apparently sound after 32 hours without food.

In fact, rescuers reported, the lad seemed in much better shape than many of the searchers who combed the soggy desert mountain terrain for him.

A search party found him at the base of the jagged, 5,000-foot Sierra de Juarez Mountains in Lower California.

Meanwhile, another group of 17 searchers got itself trapped on a ledge high above the desert floor and huddled down for the night with food and blankets dropped by a U.S. Coast Guard plane.

Diem Is Reported To Give Up Idea

SAIGON, South Viet Nam (AP)—Premier Ngo Dinh Diem was reported today to have shelved his idea of a Saigon conference with the Western Big Three on major problems facing South Viet Nam.

Reliable sources said instead the Premier would send trusted advisers to Paris, London and Washington for bilateral talks on such questions as the unification elections due next year, withdrawal of the French expeditionary corps and ways to counter the Communist Vietnamese government in North Viet Nam.

He also said that Krishna Menon would probably see the President soon before he leaves the country.

Action Is Delayed On Bids For Sewers

Spring Court Term Jury Names Drawn

The Grand Jury and two petit juries have been drawn for the spring term of Seminole Circuit Court, the Sheriff's office reported today. Hearing of cases will begin Thursday.

One of the petit juries will serve Thursday and Friday and the other will serve during the period of June 21-24. The Grand Jury will hold a two-day session June 23-24.

Ordered to appear Thursday were these prospective petit jurors:

Walter E. Collingwood, Charlie Hillery, David B. Adler, Charles L. Armstrong Jr., David M. Gatchel, R. P. Cooper, Elmer K. Gore, David L. Carson, James W. Barry, Jack Standifer Jr., Jess C. Bauder, Robert W. Cokerly, Louis G. Harrington, Alvin E. Johnson, Robert W. Deane, Carl E. Chorpensing Jr., Jules J. Colle, George Brown, Mrs. Catherine F. Russell, Archie H. Bunnell, Richard A. Frank, Frank D. Hickock, Clarence P. Henderson, M. H. Anderson, Thomas C. Holt, John W. Dixon, John C. Coates, James E. Hootman, William R. Fort, George M. Holder, James M. Walter, Fred Bolley, Archie R. Partin, Herbert H. Collier, William Hugh Mentzer and Homer L. Osborne.

Prospective petit jurors ordered to appear June 21 were:

Donald Faircloth, Charles H. Cole, Henry D. Faint, Justia G. Buethe, Randall Chase, Julian W. Altman, W. Ernest Wells, George Hannas, David Collie Howard, Thomas Brooker Smith, Allen T. Ball, M. L. Gillmore, William P. Chapman, Gibson N. Bates, Hugh Bradley, Henry L. Duhart, Cader G. Hirt, Cotton, Arthur B. Caplan, Richard H. Ivors, Taylor Woodruff, Harvey H. Bloodworth, John C. Bills, Earl S. De-

Mrs. J. Dingfelder Invited To Attend Meeting In Miami

Mrs. Julius Dingfelder, president of the Seminole County Unit American Cancer Society, was invited to attend the first National Regional Convention to be held at the Sea Isle Hotel, Miami Beach, June 16-20.

Mrs. Dingfelder has enrolled in every workshop and training course to be given at this time for volunteers which will be presided over by leading physicians and staff workers of the Southeast.

About 350 persons are expected to attend. She stated that it is her privilege to contribute to the convention a poster-size photograph to be displayed in the Hotel Lobby depicting the Yowell Store educational window display as shown during April through the generosity of Arthur Yowell and Jack Hall, with Elmer Wintney as display chairman and donated by Fred Kirschner of Raymond Studio.

Ma Ferguson Blows Out One Big Candle

AUSTIN, Tex. (AP)—Ma Ferguson blew out the one big candle on her birthday cake last night and wished for more years as happy as the last 80.

Mrs. Miriam A. Ferguson, twice governor of Texas and the late husband, ex-Gov. James E. (Farmer Jim) Ferguson, was a highly controversial figure for 25 years in Texas politics.

Nearly 300 government officials, state and national, relatives and friends gathered for her birthday dinner last night. Sen. Lyndon Johnson, the Senate Democratic leader, said he would have traveled 10,000 miles instead of 100 to attend.

Menon Sees Freedom Possibility

WASHINGTON (AP)—Indian Diplomat V. K. Krishna Menon said after a conference with President Eisenhower today that he thought the release of some airmen by Red China had "opened the door" to the possibility of freedom for others held there.

While House Press Secretary James Magraw announced that the President's suggestion the Red Chinese would meet later today with Secretary of State Dulles.

He also said that Krishna Menon would probably see the President soon before he leaves the country.

He also said that Krishna Menon would probably see the President soon before he leaves the country.

Final Figures Awaited Three Bids Sent To Commission

"What we want to know is how much we owe on contracts we have finished, so we'll know how much we have left to spend."

That was the way Commissioner Earl Higginbotham put it last night as the City Commission delayed action on bids on downtown sewer construction pending receipt of final estimates on completed sewer work.

Three bids have been received on the downtown project the lowest of which was submitted by Hubbard Construction Co. of Orlando. The firm bid \$59,630.75. Under terms of the contract, 120 days would be given to carry out the work.

In other business, the Commission agreed to sell Bralley Odham lot 110, Rose Court, south of 20th St., for \$100 and also okayed the sale to Bobby Newman of lot 100, Rose Court, north of 20th St. The lot sold to Odham comprises about 420 square feet.

The Commission, after voting to sell the land to Odham, accepted a receipt of a proposed 14-house subdivision in that area. Homes valued at from \$15,500 to \$14,000 will be constructed there by Odham.

The commission voted to extend public liability insurance to cover the Elks Playground, Civic Center building, and new pond. Previously only the swimming pool has been covered.

Commissioners agreed to erect one street light on Elliott Ave. and four on Scott Ave. from 4th St. to 8th St. Two lights already are located on Scott Ave.

A beer and wine license for Seminole Drive in 6th E. First St. was approved following an application by A. Constantine and Sam Kenis.

During a discussion with Odham, the Commission promised it would try to work out a plan whereby the city could share costs with Odham & Tudor on building water and sewer lines in a subdivision just outside the city. One hundred and 23 homes would be located in the subdivision, which is an extension of Odham & Tudor's Pine Crest subdivision.

The Commission decided it might be possible to repay the development company from some of the water and sewer charges paid by home owners over a five-year period. The lines would be connected to city lines.

Odham said he would spend about \$30,000 to construct the water and sewer lines and a lift station.

Mrs. K. E. McKay Dies Yesterday In Miami Hospital

Mrs. Katherine E. McKay died Tuesday afternoon at the Jackson Memorial Hospital in Miami. Mrs. McKay lived in Sanford for many years where she was active in educational, social and church work. She taught for several years in the Sanford Schools, was past president and an active member of the Women's Club, member of the First Methodist Church where she worked in many different phases of the church.

Mrs. McKay was Past Grand Matron of the Grand Chapter of Florida, Order of Eastern Star, and a life member of Seminole Chapter No. 2 OES. In this work she was known and loved throughout the State of Florida.

After moving to Miami from Sanford, Mrs. McKay again entered into the teaching profession, and for several years taught in North Miami High. Although in very poor health, she finished this year's school work, entering the hospital the next day, after she had turned in her final report.

Funeral services will be held Wednesday afternoon at 4 o'clock, in the Combs Funeral Home, Miami. She is survived by her daughter and son-in-law, Mr. and Mrs. J. G. Nichol, also of Miami.

FISHING LICENSES GO ON SALE

Fishing licenses for 1955-56 will go on sale tomorrow at his office in the Court House, County Judge Ernest Housholder announced today.

Judge Housholder pointed out, however, that the old licenses will still be good until July 1.

Stirring Program Presented Rotary By Fr. Zimmerman

A program that had been postponed from its originally scheduled date was very well received by the members of the Rotary club at its weekly meeting yesterday noon at the Yacht Club.

The Rev. H. Littleton Zimmerman, pastor of Holy Cross Church, had planned the program for the Monday nearest the observance of the birthday of Jefferson Davis, last month, but was called to Baltimore due to the death of Mrs. Zimmerman's father.

In response to the Rev. Zimmerman's request for a show of hands as to how many present had ancestors who were on the side of the Confederacy during the war between the States, nearly 50 per cent raised their hands.

Fr. Zimmerman, after explaining something of the background of the recordings he was about to play, offered some stirring and, as he termed it, "tear jerking" numbers of an album that he claimed was priceless to Southerners.

The concluding number on the recording, "Dixie," brought the large group to its feet. Even those of Northern heritage joined in the applause.

President James Holzelaw presided and visiting Rotarians and guests were introduced by M. L. Raborn.

Group Appointed To Set Standards For Citrus Juice

LAKELAND (AP)—A committee representing producers of the popular new chilled citrus juice has been appointed to try to produce a set of standards agreeable to all of them.

The committee was named yesterday after producers met with the chilled juice committee of the Florida Citrus Commission without reaching any agreement.

There are several different production methods and it has proved difficult to allow for all of them in one set of standards.

The commission approved standards in March but Golden Gift Inc. of Deland attacked them as unfair and has obtained a Circuit Court order, banning enforcement pending a hearing.

The producers' committee includes David Hamecher, Bradenton; Dr. J. B. Reid, Deland; Dr. Robert W. Kilburn, Lake Wales; and Ben Jacobstein, Miami.

Pentagon Offered One More Chance

WASHINGTON (AP)—Pentagon officials have been given one more chance to try to convince the Senate Armed Services Committee that a plan to strengthen military reserves should be mailed to draft extension legislation.

For that reason, the armed services court yesterday gave only tentative approval to a bill to continue the regular draft for four years and the doctor draft for two. Both are due to die in 16 days.

The House has voted to continue selective service but has yet to act on a doctor draft bill.

Chairman Russell (D-Ga.), who indicated he'll take a lot of convincing, said the committee will hold final approval of the draft extension legislation to administration officials could have another chance to argue their case for the reserve plan, now hung up in the house over the segregation issue.

Formers' Auction Directors Elected

Stockholders of the auction recently held their annual meeting at the Sanford Farmers' Market, Inc. at which time a new board of directors was elected.

Those elected were W. W. Linz, president; James Vonnata, vice-president; Bill Harvey, secretary; and board members: Larry Jones, Graham Hunter, Charles Lewson, Dan Desmond, B. R. Riser, and Vick Arnold.

It was assured at the meeting that the market will continue to serve Seminole and the surrounding counties with better service.

Grower, Shipper Loop Meeting Set Tomorrow

President S. Chase Hails Session Most Important In Group's History

Strolling In Sanford

Any student interested in attending summer school at Sanford Junior High is asked to call Mrs. Elizabeth Thompson at 1775-N before Friday. Mrs. Thompson declared that it is important that students desiring the course contact her by that time.

Possible Locations Being Looked Over In Case Of Attack

WASHINGTON (AP)—House Republican Leader Martin of Massachusetts said today the government is looking over places where Congress might move if Washington is hit by enemy attack.

Martin spoke in an interview as President Eisenhower and 15,000 key executive branch officials prepared to leave the capital tomorrow on Operation Alert, a three-day civil defense exercise in which they will practice running the government from selected points in nearby states.

Congress is slated to go on with its business as usual during this test.

It was learned, however, that congressional leaders have accepted an offer by the Office of Defense Mobilization to undertake a survey of sites where the lawmakers could carry on their business should Washington come under attack.

Belgian Leaders Vote To Approve Controversial Bill

BRUSSELS, Belgium (AP)—The Belgian House of Representatives last night voted 111-1 to approve the controversial government bill to cut state aid to Roman Catholic schools by about 24 per cent.

The chamber's 98 Catholics (Social Christians) party members boycotted the ballot and walked out in protest.

The bill now goes to the Senate, where the Social-Liberal government coalition also has a majority. Between 60,000 and 100,000 Catholics marched on Brussels last March to protest the legislation. The government banned the demonstration and in the ensuing clashes between the police and demonstrators, about 40 persons were injured and 64 were jailed.

Big Three Warned By Semi-Officials

TAIPEI, Formosa (AP)—A semi-official group today warned the Big Three Western Powers that Nationalist China was not recognizing any decision damaging to her interests reached at the "summit" meeting with Soviet Russia.

The National Assemblymen's Assembly sent the notice to President Eisenhower, Britain Prime Minister Sir Anthony Eden and French Premier Edgar Faure through the Nationalist Foreign Office.

The Nationalists include among possible decisions they won't recognize any cease-fire agreement which would involve giving up the offshore islands they held near the Red China coast.
