## OKLAHOMA SOLONS FIGHT FOR SPECIAL SESSION

### MEMBERS OF LEGISLATURE OF OKLAHOMA WILL ENDEAVOR TO IMPEACH GOVERNOR WALTON

Making Plans to Convene Extra-ordinary Session.

### DEFY GOVERNOR

Who Threatens to Send to Jail All Who Oppose His Wishes.

(By The Associated Press) TULSA, Sept. 19.—The scheduled court test of authority between the military and civil officers of Tulsa county has been postponed until Thursday. Assistant attorney general King obtained a continuance of the habeas-corpus proceedings before Judge Hunt involving the three convicted floggings held by the military. Two of the thirty men who were indicted by the military court of inquiry for alleged participation in the recent flogging were ordered held by the civil court after a preliminary hearing. Five others were ordered freed.

OKLAHOMA CITY, Okla., Sept. 19.—Members of the state legislature opened an offensive yesterday against the official acts of Governor J. C. Walton in connection with his decree of martial law throughout Oklahoma. Plans took shape among members of the legislature to convene a special session in defiance of the governor to consider his official acts. Impeachment proceedings are considered certain if a sufficient number of the legislators can be rallied to the cause.

A call for an extra-ordinary session was completed last night and is ready to be filed with the secretary of state as soon as a majority of the members of the house have signed a petition to convene the session.

On the other hand, Governor Walton is firm in his determination to give his enemies in the legislature no chance to "interfere" with his declared intention to "wrest the civil government from the domination of the invisible empire and make visible government again supreme."

He reiterated that any law makers who attempted to hold a special session of the legislature would be sent to jail. Four soldiers with side arms guard the entrance to each of the legislative halls.

Governor Walton holds that the legislature cannot meet in extra-ordinary session except upon his call, this procedure being outlined by the state constitution.

Sponsors for the special session, however, take the stand that the public can meet upon petition of a majority of the membership without the governor's consent and form an "inquisitorial body" to investigate conditions in the state.

TULSA, Okla., Sept. 19.—Tulsa went to bed last night in a situation defined by Sheriff Bob Sanford as one of "synthetic rebellion." It was perplexed as to who rules the roost—the military or the civil authorities. A district judge has ordered the state's adjutant general to appear in a civil court today with three military prisoners. The summons, delivered to the civil sheriff, Sanford, has been commanded by the military sheriff, Colonel E. L. Head, who, it is indicated, may or may not serve it upon his superior officer, Adjutant General B. H. Markham.

The situation was further complicated by a mystery surrounding the

### NOTED EXPLORER IS DEAD AT SEA

(By The Associated Press) NEW YORK, Sept. 19.—Paul J. Rainey, the noted explorer and big game hunter, died today from a stroke of paralysis aboard the British steamship Saxon, en route from Southampton to Capetown, according to a radio message received by his sister here.

### 3 WITNESSES ARE HEARD IN MURDER TRIAL

Ward Appears to Labor Under a General Strain.

WHITE PLAINS, N. Y., Sept. 19.—The state began weaving the net of circumstances Tuesday by which it hopes to convict Walter S. Ward, son of the millionaire Brooklyn baker, of murder of Clarence Peters, ex-marine.

After Supreme Court Justice Wagner had denied the motion of the defense for dismissal of the first degree murder charge, the prosecution brought forward three witnesses, two of whom testified regarding the finding of Peters' body on a lonely West Chester road nearly seventeen months ago. The third was Dr. Harry J. Vier, who told of the autopsy which he performed.

Pale and impassive, Ward looked on, less active and apparently under greater strain while the jury was being chosen. He, his wife and brother, Ralph, who sat near, where the center of the interest for the several hundred spectators who packed the court room fully, half of whom were women.

While the trial was getting under way, in a room on the floor below the extraordinary grand jury which had returned the indictment against Ward, had reconvened and was hearing the testimony of Mr. and Mrs. Eldridge Peters, parents of the slain youth. Another witness called by the grand jury was James J. Cunningham, who is reported to have said that Peters was murdered in the Ward home at New Rochelle.

The first witness for the prosecution was Duncan N. Rose, White Plains druggist, who told how he found the body lying at right angles to the road, on its back, feet together, toes up and the arms against the sides. He said the vest was fully buttoned.

Harry Green, the first state patrolman to reach the spot, testified that he found a bullet hole through the back of the vest and coat where the bullet had passed out but no hole in the front of the vest or coat. The bullet passed through the shirt and underclothing both in the front and back, he said. The witness said a thorough search for the bullet, failed to locate it. Dr. Vier testified he found a bullet wound in the center of the chest and another three inches lower on the back. He said the bullet passed through the heart.

The trial will be resumed this morning.

St. Petersburg.—Approximately \$2,500,000 of public improvements under way at this point.

### NOW BELIEVED NO LIVES WERE LOST IN BERKLEY FIRE

Underwriters Now Estimate That the Property Loss Will Reach \$5,000,000.

(By The Associated Press) BERKELEY, Calif., Sept. 19.—Heaps of spidren, water-soaked ashes, broken chimneys pointing crazily at the sky, and jagged, dead walls were all that remained today of what was one of the most beautiful residence places in the west, the northeastern section of Berkeley. Soldiers and police patrolled the ruins last night, or searched with electric flashlights for bodies, on the chance that all might not have escaped from the wind-whipped inferno.

It was the belief of acting Chief of Police C. D. Lee, however, that all escaped, as the district offered many avenues of exit. A number of children were posted as missing today, but they were school children who could not get back to their homes.

The armory of the University of California, the big halls down town and the nearby churches and many other public and semi-public places were crowded with refugees last night. According to a police estimate between 12,000 and 15,000 are homeless, the fire having swept a thickly populated area for fifty blocks or more.

### REPARATIONS QUESTION IS CONSIDERED

Premier and Prime Minister Again Chewing the Rag.

(By The Associated Press) FOLLOWING the conference a Communiqué was issued which said that while no definite solution of any question was expected from the brief meeting it had been happily discovered there was no difference of purpose or divergence of principle.

PARIS, Sept. 19.—Premier Poincare and Prime Minister Baldwin of Great Britain conferred here today presumably regarding the reparations question. Following the conference Prime Minister Baldwin went to see President Millerand.

### SHOULD HAVE ROAD LAWS ON OCEAN

(By The Associated Press) SANDWICH, Mass., Sept. 19.—The United States destroyer McFarland was rammed in by the battleship Arkansas in naval maneuvers today near the entrance of the Cape Cod canal. The maneuvers were participated in by twelve other destroyers and battleships. The McFarland steamed into port under her own power.

### ENGAGEMENT OF MISS FLAGLER IS ANNOUNCED

(By The Associated Press) NEW YORK, Sept. 19.—The engagement of Miss Mary Harkness Flagler to M. B. Cary, Jr., of Ridgefield, Conn., was announced today. Miss Flagler is a grand daughter of Henry M. Flagler, the former Florida railroad builder and developer.

### GROWERS WILL POOL PRODUCE

LARGEST TRUCKING COUNTIES IN STATE WILL MARKET IN CONJUNCTION.

A special dispatch from Bradenton to the Tampa Tribune, under the above caption, tells of the consolidation of the selling forces of the Florida Vegetable corporation and the Manatee County Vegetable Growers association, with F. F. Dutton, of this city, as general sales-manager as announced in The Herald yesterday, says:

BRADENTOWN, Sept. 18.—Pooling of interests by the organized vegetable growers of Manatee and Seminole counties has been arranged for, with F. F. Dutton of Sanford to be general salesmanager, and the marketing of celery, lettuce, and other products of the associations in the two counties combined in one effort as far as is practicable, it was announced Saturday morning by H. T. Bennett, secretary of the Manatee County Vegetable Growers' Association.

Combining of the operations of the two largest associations of vegetable growers was the result of a series of meetings held during the past two months. At a meeting of the board of directors of the Manatee county association on Sept. 10 agreement was reached to join with the Seminole association, and the matter was submitted to a meeting of the executive board of that body at Sanford Friday night Sept. 14, and on Saturday morning Mr. Bennett received a telegram announcing that action at Sanford was favorable, concluding the arrangement.

This combining of effort in marketing the products of the members of the two associations does not mean either will lose its identity. Secretary Bennett stated Saturday morning. On the other hand, he said, it will mean better prices through better distribution in the markets. Instead of a competitor in the big Seminole county organization, the Manatee county grower's body now will have an ally, and distribution of products will be as uniform as possible.

The local association's sales prices will be governed by questions it receives each morning from the Sanford headquarters where a special representative from the Manatee county organization will be maintained. Sales will be made from here, as formerly but will be governed by the information as to market conditions from the Sanford office and will be subject to approval of that office. The "Red Gator" brand under which the Manatee county association has packed for years and under which more than a million dollars worth of produce went to market from this county last year, will be maintained.

The expense of the combined organization will be prorated in accordance with the number of carloads shipped by each.

Pooling Arrangements For the first time in the history of the local organization a pooling arrangement will be put into effect with semi-monthly pools operating in each of the two organizations. In this way all the growers will have an even break. Pools have been common in fruit grower's organization in this state for years past.

### BRAZIL REBELS KILL SEVEN AND CAPTURE TOWN

MONTEVIDEO, Sept. 19.—A telegram received at the foreign office from the Uruguayan consul in Zurich, near the Brazil-Uruguayan frontier, says the town was taken by a force of 1,800 Brazilian rebels. There was a sharp fight in the streets in which seven men were killed and twenty-seven wounded on both sides.

### SPANISH TROOPS OCCUPYING ALL STRATEGIC POSITIONS—CIVIL GUARDS IN MADRID

### AN EVERYDAY OCCURRENCE

(By The Associated Press) GALESBURG, Ill., Sept. 19.—Five bandits blew open the safe of the Farmers Bank at Joy, a town near here and escaped with about \$4,000 in cash. Two men in bakery near the bank were tied and placed at the back of the bank building under guard while the bandits worked. All telephone wires of the city were cut.

### JUDGE ANDREWS ADDRESSES THE KIWANIS CLUB

Eminent Jurist Advocates Thorough Study of Our Great Constitution.

Today's meeting of the local Kiwanis Club was called to order by President Jim Sharon, and the blessing was invoked by Rev. Brownlee. Sam Baumel, who has not yet recovered from his experience on the Bowerly, was late, and paid the penalty by singing a new Kiwanis song, written by E. A. Ball:

We are for Sanford, the Celery City, In its growth of '23 our part we filled, So be with us Wednesdays, and warble this ditty, That Kiwanians' motto always means "We Build."

This song was sung to the tune of "K-K-T-Katy" if you know what that is and made a decided hit with all present, and it will be the official song of the gang attending the big Kiwanis "Get-Together" meeting at Daytona Beach tomorrow. It is expected that 25 Kiwanians, and their ladies, will attend this meeting from this city, and they will be joined by delegations from every Kiwanis Club in this section of the state, who have been invited to be the guests of the Daytona Kiwanians.

Judge C. O. Andrews, of Orlando, Joseph Cameron and County Commissioner Bledsoe, of Sanford, were the invited guests of the club. Mr. Bledsoe was called upon for a few remarks and told of the efforts being made to build good roads in Seminole county and stressed the necessity of maintenance work being done on them and appealed to the officials of both city and county to strictly enforce all the traffic laws.

Dr. W. T. Langley won the attendance prize—a neat necktie, and he will have the pleasure of furnishing the prize for next week.

Hon. C. O. Andrews, circuit judge of the 17th judicial circuit, of Orlando, was the speaker of the day. This being "Constitution Week," the observance of which is advocated by all Kiwanis Clubs, Judge Andrews spoke on "The Constitution of the United States," telling of its origin and the difficulties encountered in its adoption. He made what was probably the most impressive, interesting and instructive address ever listened to by the local club, giving most of those present an entirely new conception and understanding of the real meaning of the constitution of these United States. His impromptu speech was heartily applauded.

### Many Party Chiefs Expect to be Expelled.

### PEOPLE STUPEFIED

By Rapid Course of Events During Past Few Days.

(By The Associated Press) PORT VENDRES, Franco-Spain Frontier, Sept. 19.—It is feared in many quarters that a counter revolution in Spain will occur sooner or later, but for the moment the people and the political leaders seem stupefied by the rapid turn of events in the last few days and unable to formulate their ideas.

Chiefs Are Perturbed. Party chiefs who have heard rumors that many are to be expelled from Spain are greatly perturbed. Various prominent persons are making preparation to leave before they are conducted to the frontier.

Few soldiers are seen in the capital, although patrols occasionally appear in the principal thoroughfares.

It is known, however, that the military is prepared for any emergency. Troops are occupying strategic positions, while the civil guards have been present in Madrid in considerable strength for some time.

Newspaper opinion demands liberty for the press.

Captain-General Primo Rivera, in the course of conversation with several friends has expressed his intention of respecting all institutions that really represent public opinion so long as they act within legal limits.

The workers' organization will not be touched, but they must refrain from inviting their members to strike.

Primo Rivera intends to make an immediate attack on those whom he considers the greatest enemies of the Spanish people. It is believed that new laws are unnecessary, as Spain already possesses too many which are not enforced.

Speaking of the coup d'etat by the military Captain-General Primo Rivera said that beyond the actual leaders in the movement the only persons who are acquainted with the intentions of himself and his followers were the Spanish ambassadors in London, Paris and Rome.

Madrid, Sept. 18.—The military dictatorship has issued a decree forbidding gambling in all clubs, including the military. The president of the supreme civic tribunal has resigned.

Captain General Primo Rivera, replying to a letter from ex-premier Alhucemas gives the latter the privilege of residing wherever he chooses. The writer expresses the hope that the result of the legal proceedings being taken against the Alhucemas government, "which displayed the worst of vices" will show that the premier himself was not responsible as his personal honesty is everywhere admitted.

Former Premier Sanchez Garga issued a statement today defending the conservative party. He declared the country disapproved the wild attacks the new regime had already launched against the old organized parties. He stated he would place no obstacle in the path of the present regime and would withdraw from politics pending the later "realization of the dream" of those responsible for the present adventure or the advent of terrible disasters.

Overton and Rositer will have charge of the entertainment features for the next luncheon meet.

**A-CROSSING PATHS WITH YOU**  
When the evening shades are falling  
At the closing of the day,  
And I'm just a-settin' round  
A-passin' of the time away,  
There's a thought that comes to cheer  
me  
If I'm feelin' kind of blue—  
Sort o' little prayer o' gratitude  
For crossin' paths with you.

**Now, I never had the habit**  
Spillin' round a lot of bluff;  
Or indulgin' in mushiness  
An' sentimental stuff,  
But if I like folks, I tell 'em—  
Up and tell 'em now, instead  
Of a-writin' fancy epigraphs  
About 'em when they're dead.

**So I'm giving you this message**  
Just because I want to say  
That I'm glad the Fates arranged it,  
So that you should pass this way,  
Just to hear your voice and see you  
Made my sky a shade more bide;  
An' I'm jest a bit more happy  
Since a-crossing paths with you.

**ENTERTAINS AT LUNCHEON.**  
Mrs. Dwight Babbitt was the gracious hostess today at a luncheon at her home on Sanford Heights, honoring Miss Ruth Kanner, who leaves tomorrow for New York, where she will spend the winter.

Blue and gold were the artistic colors used for this pretty affair. The luncheon table was laid with a lovely cloth of blue, the center of the table being graced with a crystal basket filled with golden zinnias and ferns. Marking the places of the guests were dainty golden tulip cups holding nuts and mints.

The entire lower floor was ablaze with baskets filled with golden rod and zinnias combined with greenery.

At one o'clock a delicious four course luncheon was served. Covers were laid for Miss Ruth Kanner, Miss Edna Chittenden and Mrs. Babbitt.

**MUCH INTEREST SHOWN IN STONE MOUNTAIN MEMORIAL.**  
The extent to which interest has been aroused in the great Stone Mountain Confederate Memorial, located sixteen miles from Atlanta, is indicated by an analysis of the visitors' registration book for the month of August given out Monday by the executive committee of the Stone Mountain Confederate Monumental Association.

It shows a total registration of 12,534 visitors during August, representing forty-two states and eleven foreign countries.

The fact that not more than a third of the visitors who go to the mountain sign their names on the registration book makes this total all the more remarkable, officials declare.

It is conservatively estimated by the executive committee that the total number of visitors at the mountain during August was at least 35,000 and that well over 100,000 visitors have been to the mountain during the months of June, July and August.

When the gigantic hoisting machinery is installed on the side of the mountain and the work gets going at full blast with a swarm of men on the precipice and Gutzon Borglum, the sculptor, making clay models in the big studio in front of the mountain, with the admission doors open to the public, the Stone Mountain Memorial will easily be one of the most fascinating attractions in the country it is predicted, and memorial officials are confident that the number of visitors will be multiplied many times.—Atlanta Constitution.

**KANSAS CITY, Sept. 18.**—William Z. Foster, the Chicago radical labor leader, is under bond to appear before Chief of Police Vassar to explain statements made by him in an address last night under the auspices of the labor council. Foster and John Mihelic of Kansas City were arrested after the meeting. Foster is alleged to have been advocating revolutionary methods and a dictatorship of the proletariat.

## 3 MEN ARE BURIED IN A BRIDGE WRECK

### Four Others are Injured When Structure Collapses

**SCHENECTADY, N. Y., Sept. 18.**  
Dredges last night were tearing their way through 230 cubic yards of soft concrete in the bed of the Mohawk river, seeking the bodies of three men buried when the wooden frame supporting construction work on the twenty-fourth span in great western gateway gave way. A fourth man was in the hospital with injuries which, doctors say, will cause his death. Three other men have minor injuries.

The dead: Kenneth Davidson, superintendent of construction; Joseph Miller, Joseph McCo.

According to James C. Bell, state inspector, the men had poured some 230 yards of concrete into half the span, expecting to complete the arch today. Bell said he heard a sound as of splintering wood, called a warning to the men and then saw the mass of concrete sink into the river 112 feet deep at this point. Davidson and the three men went down with the concrete and wood. Fellow laborers pulled the injured man to safety, but the others disappeared in the water.

The cause of the collapse is believed to have been quicksand.

**TALAHASSEE, Sept. 18.**—E. P. Green, of Bradentown, was today re-appointed by Governor Hardee as a member of the State Road Department for the four-year term. His present term expires October 6.

## MILITARY COURTS OF INQUIRY ARE NOW IN SESSION

### Probing Klan Activities in Oklahoma City And Tulsa.

**(By The Associated Press)**  
**OKLAHOMA CITY, Sept. 18.**—A clash between members of the state legislature and Governor Walton over martial law is imminent. Despite the executive's warning that he will jail any legislators that attempt to convene themselves in extra ordinary session, the movement for test of the executive's authority today took definite form. A suggestion that the federal government might be called upon to insure a "Republican form of government as guaranteed by article four of the constitution on the United States" was made in a statement by Senator J. C. Looney, judge advocate general of the state military inquiry investigating recent floggings in Tulsa county. Captain Looney made plain that this expressed opinion was as a lawyer and member of the Oklahoma legislature and not as a member of the militia maintaining order throughout the state.

**OKLAHOMA CITY, Okla., Sept. 18.**  
Its two largest cities actually occupied by the military, Oklahoma passed its second day under martial law without disturbances.

Nowhere in the state except at Tulsa and Oklahoma City was martial law actually visible.

At these places, however, military courts of inquiry were in session and proceedings with investigations ordered by Governor J.-C. Walton into alleged masked depredations, and regulations were in effect clearing the streets of traffic and pedestrians between midnight and 5 a. m. Armed guards paced the entrances to the state capitol here, permitting only those to pass who had official business within.

Early last night, word was received from Coalgate that Judge J. H. Linebaugh had adjourned the regular session of the district court there until next Monday, explaining that he wished to avoid any question as to the legality of the court's right to proceed. This, with the orders issued preventing the convening of a special district court grand jury here this morning, are the only instances of military interference with the courts. Civil authorities here last night held undisputed police powers following Mayor Cargill's threat to withdraw the entire police department from duty unless the military relinquished control over it.

Col. W. S. Kay, commanding the local troops, immediately ordered the reinstatement of Police Chief Ray Frazier and machine guns which had been trained on the city hall and county court house were removed.

The belief is current that military rule actually will be extended to only a few sections of the state and this opinion has been strengthened by the fact that only a small part of the strength of the state's national guard forces has been mobilized.

**SEVEN KILLED 20 INJURED IN TENEMENT FIRE**

**JERSEY CITY, N. J., Sept. 17.**—Seven persons killed and a score or more injured early yesterday when fire swept through a tenement in a thickly populated district. The blaze started in a hallway and darted quickly to the upper floors cutting off the escape of many of the sixteen families in the building. Firemen made many thrilling rescues.

Those killed were Fireman Bernard Feehan, 35 years old, a member of truck No. 6, Mrs. Pearl Thomas, 26, and son, Edward, eight years old; Edward Breen, 34, Sophia Kolasienski, 14, Regina Kolasienski, 9, and Helen Kolasienski, 7.

All those killed were either suffocated by smoke or burned to death, except the fireman who died following a fall from a fire escape in rescuing the occupants of the house.

The building in which the fire occurred is a four story structure at the southwest corner of Barrow and Grand streets.

A NEW WAY.

Two machine-loads of men, reported to be Italians drive to a point five miles east of Pueblo, Colorado, get out, separate and start shooting at each other. When the battle is over, those who are still alive, get in the cars and drive away. Later the officers find two dead bodies where the battle took place.

A novel way of settling a dispute. The question naturally arises, what was it all about? Men who do those sort of things are not likely to tell much about it, no matter whether they are brought into court or not. They have their own way of settling disputes and they do not care much for courts. A type of the black hand, maybe. Possibly it's a type of some organization of which we know very little. At any rate it will be a difficult task for American law to compete with that class of crime.

A SENATOR'S REMEDY.

Senator Capper's legislative remedies for improving the opportunities of the farming business to keep step with other industries, have not always proven successful, but this does not discourage the Kansas senator. He is not looking forward to the time when the freight rate problem will be solved by the hard surfaced highway. It does not appear that his predictions will provide for the long hauls to market, nevertheless if one can have faith in his prophecies, the paying of road tax becomes less hard to bear.

"The Kansas farmer," he says, "has to pay 22 cents a bushel for shipping his wheat to Chicago. He gets about \$1.25 for it there, allowing him something like 80 cents a bushel for wheat which really means a loss of about 40 cents on every bushel grown and sold at that rate. The railroads, meantime are getting twice as much for freight as they did five years ago when the farmer was selling his wheat for \$2.26.

"Today the situation is 10-cent bread or higher for the consumer, while the farmer, the producer, gets but 80 cents for the wheat which costs him \$1.20 to grow. The same situation prevails, of course, in the beef industry. The railroads get high freight rates, while the grower gets a minimum.

"The people of this country are being brought to see that basically, if this country is to enjoy stable prosperity the condition of the farmer must be better than it now is. There is no getting away from the age-old

UNCLE SAM'S JIG-SAW PUZZLE

truth that 'As for the earth, out of it cometh forth bread.'

"When every trunk line railroad is paralleled by a broad, smooth, well-graded national highway, strong enough to support trucks of five or even ten-ton capacity, the railroads will not get 22 cents a bushel to take wheat from Kansas City to Chicago!

"The transportation problem neither begins nor ends with railroads. The highways problem daily becomes more and more vital. The marketing of automobiles is today a larger industry than the running of railroads; making of roads for automobiles and trucks is inevitably to become the greatest single industry of the country. When it has been so long enough to provide three hundred thousand miles of high-grade roads (about the railroad mileage of the nation) there will no longer be an acute transportation problem."

CITIES ARE GIVING MORE THOUGHT TO THEIR PEOPLE

When towns and cities plan parks, boulevards and recreation centers, they do not do so simply for the sake of having something to do. The purpose of modern civic government is not the mere operation of a municipality's so-called "mechanics" or machinery without regard to other things, but is based on the performance of a real and definite service to the people. That is why we read so much about parks and play grounds where old and young can find the very best kind of enjoyment. A city lacking these facilities is out of the running, a back number. So we are told by the folk up in St. Louis that they have a marvellous system of public parks; Kansas City chimes in which its claim to the greatest boulevards and now comes Chicago with a report from its park commission which is of value, even to smaller cities, as indicating the trend of the times in the direction of a recognition of the rights of the people of the blessings that go with park and playground facilities and life in the open.

Those from this section of Florida who are at all familiar with Chicago conditions, will be interested in the

report of the commission, which says, in part:

"In the lake, to the west, north and south, Chicago is witnessing daily the progress of city improvements following out its city plan. The municipality has so many projects under way that it is considering no new enterprises.

When these projects are completed, Chicago's countenance will be entirely changed. Half its lake front is being altered. The transformation of the Chicago river down town is sought, a program of double-decking and boulevarding that will eject the South Water street market, the greatest produce market in the world.

"Completion of a lake shore boulevard 40 miles long is rapidly advancing, while streets 20 miles long, reaching from city limits to city limits, are being widened.

"Minor streets widenings are numerous. Now and then, driving through the city, you pass a row of deserted houses, stripped of windows, waiting for the wrecker. Diagonal streets have been cut through and further cutting is to be done.

"Still in the background, but the subject of persistent endeavor, remains the straightening of the Chicago river and the building of five new streets into the business district south through what is now river and railroad yards.

"Chicago has been able to separate city planning from politics. Administrations enter the city hall in triumph and retire, but the Chicago Plan Commission, with its permanent chairman, continues its work. It enlists officials, business men and school children in its support. Thousands of new voters, who have studied the city plan in the public schools, are registered each year.

"The commission is not yet 15 years old, yet it has had \$86,000,000 in bonds voted for city improvements. It is estimated that \$22,500,000 additional will be needed to carry through the 19 major street widenings. The lake shore enterprise, already taking form in piling driven and fills made, which calls for a parkway and bathing beaches constructed far out from the present shore, will take many additional millions.

"Of the \$86,000,000 already authorized, \$34,000,000 is credited to park lands added to Chicago by filling in the lake, 1,138 acres being developed. Street widenings took \$37,000,000 and that remaining massive project of the forest preserve, which has set aside 25,000 acres of wooded land behind Chicago, has required \$15,000,000. The commission hopes for 10,000 acres more, before growth of the city cuts into remaining available tracts.

share of the improvement in two years.

"The city plan and its friends have not merely been productive of betterments, they have protected Chicago from mistakes that would have verbed its growth. The vast railroad terminal developments aggregating \$163,000,000 projected here within the last decade or so have followed in large measure its recommendations. The commission reports that it revamped one railroad plan which would have built a Chinese wall across the western part of the business district."—Lakeland Star-Telegram.

"HEATING THE GAME"

"Here's five thousand dollars to establish yourself in a hick town. I want every man, woman and child in that town calling you 'Honest Tom' Smith. At the expiration of one year I will come to you and show you how to make a real killing." These are the terms Tom Moore, known as "Fancy Charlie," must fulfill in his latest dramatic comedy, "Heating the Game," today at Princess Theatre, under the supervision of the Goldwyn Pictures Corporation. Caught in the act of robbing the apartment of a supposed master crook he accepts this pact to gain his freedom. A crook story with a new twist, rife with escapades and accomplishments of "A Man Who Dared."

ALL NEW PICTURES ARE SHOWN HERE

To show the class of pictures now being shown at the Milane Theatre it is interesting to note that the first feature film, "Three Ages," shown here two weeks ago, at 10 and 20 cents, is being shown all this week at the Strand Theater at Tampa, and the admission prices are 25 and 50 cents. Both theatres in this city are showing late releases at prices duplicated nowhere else in the state, and there is no necessity for Sanford people to go to other cities to see the really big features, as they are usually shown here before other towns secure them.

GATORS ARE TO BE WELL COACHED

GAINESVILLE, Fla., Sept. 19.—Observation of the early training season of the University of Florida varsity football squad has developed one important fact, the 'Gators of 1923 will be one of the best coached teams in the history of the school. It is difficult to determine at the outset of a training period the ultimate results of meeting with worthy rivals on the field of battle will be, but smooth and systematic coaching of excellent variety will justify a more accurate prediction on the outcome of the season's play.

The 'Gator team that faces the Army at West Point October 6 should be in trim condition and able to execute its plays like a perfect machine. It seems that never has so much attention been given to fundamentals. Head Coach Van Fleet has found able assistance in Coaches Schring, formerly of the Kansas Aggies, and Yon, an old Florida man who coached in France and at Camp Benning, Columbus, Ga.

Florida may develop individual stars in this season's performance, but its showing will no doubt be credited to the precision in which its movements are made.

The varsity man who starts after an opponent carrying the ball will know how to tackle when he reaches his rival, the ends will know how to keep their rival halves out of the play and a new passing system is being perfected that will require a master backfield to solve and stop.

The "stride boxes" come out early and high running is being not only encouraged but insisted upon. The linemen were soon introduced to the "bucking machine" and the steady work of conditioning the squad has continued over two hours every afternoon.

MILANE NEWS

Tonight at the Milane, Thackeray's wonderful novel is put into movies when "Vanity Fair" is shown.

It is the great romantic love story of real human beings with their weaknesses and their virtues truthfully presented.

The principal character, Becky Sharp, is universally considered by critics the most fascinating of all heroines, the most intriguing of all adventuresses in English romantic fiction.

The most celebrated scene of revelry, the fateful ball on the eve of the battle of Waterloo is a dramatic part in the story.

And then the battle itself, graphically presented on the screen, is a dynamic, panoramic, sensational motion picture spectacle.

Also Snub Pollard in "The Old Sea Dog."

Tonight is family night—the whole family gets in on two adult tickets.

Don't forget that Friday night is Country Store night.

Tomorrow Shirley Mason in "Love Bound."
