

Owen Wright Hurls Lookouts To Victory

Joe Ruggerio And Langston Lead Hitters in 4 to 1 Win Over St. Augustine Saints

Wright Holds Opponents To Five Hits; Strikes Out Ten Men And Walks None

The Sanford Lookouts yesterday overcame the two-game series with St. Augustine Saints by leading them a 4 to 1 defeat in the ancient city. Owen Wright, on the mound for five innings, was nipped for only five hits. His control was perfect, striking no men and striking out ten. Black started for St. Augustine and during the five innings he pitched he struck out ten men. In the sixth, he was relieved by Wright who allowed the Lookouts but two hits and one run.

Wright opened the scoring in the first inning, getting two hits and one run. With two out, Martin got on first due to an error by Billy Gates. Pritchard got a scratch hit over first, advancing Martin to second. "Little Joe" Ruggerio came through with a neat single over short-stop scoring Martin.

The remainder of the game Wright had the Saints guessing. They could obtain but two hits in the last seven innings. In the fifth, Kasse singled through the box. Rodgers grounded out and Wright struck out. Kasse singled to center scoring Rodgers. Pritchard singled to second, Kasse advanced to second. "Little Joe" Ruggerio singled to center scoring Kasse and sending Pritchard to second. Pritchard walked, filling the bases but Rodgers grounded out.

In the sixth, the Lookouts pushed over another run to slow up the game. With one out, Rodgers singled to left and was sacrificed to second. Kasse singled to left and was sacrificed to second. Kasse hit one to short stop who fumbled, allowing Rodgers to score and Kasse to get to first. Langston flied out to end the inning.

"Little Joe" Ruggerio and Mayo Langston led the hitting with two hits in four trips to the plate. Chade of the Saints also connected for two hits.

New Wilt-Resistant Melon Finds Ready Market Acceptance

LEESBURG, Fla., July 27. —The new Leesburg watermelon, developed in recent years by Dr. M. N. Walker of the Florida Experiment Station's laboratory here, is an attractive to the market for quality as it is to growers for wilt resistance. The first carload of the new melon to move was shipped this season and found ready acceptance by the trade.

Bred from the Kieckley Sweet, the Leesburg surpasses this melon in resistance to wilt and in toughness of rind, it will produce good crops on land severely infested with wilt organisms, thus making it unnecessary for growers to clear new land every year to avoid wilt infection. It is little troubled with white heart and does not burn red-ly.

Commercial quantities of seed have been saved from this year's crop, and it is expected that larger acreages will be grown to the Leesburg next year. Dr. Walker is endeavoring to improve the melon in size and quality, and to find other strains which may be even better adapted to growing on wilt-sick land in Florida.

The new melon has attracted widespread attention and interest, needs for trial plantings having been supplied to workers as far away as Giza in Egypt and Manila in the Philippine Islands.

There will be no "exp" concessions at the 1939 Golden Gate International Exposition, it has been announced.
After the close of the 1939 Golden Gate International Exposition, the administration building will become one of the most modern air terminal buildings in the world.

State Markets Are Providing Outlet For Farm Products

by the market during the past fiscal year, and that half of it was done through the retail side. Growers of the area are in better financial condition and dealers are highly satisfied.
Both the Miami market and a number of state farmers' markets hope to build cold storage rooms in connection, so that surplus produce can be carried over and sold later, when the market is not flooded. This should assure a more even flow of vegetables and other products to market, and stable prices which will be of benefit to both producers and consumers.
There is need for much additional research on vegetable production and marketing in Florida. A number of crops, such as lettuce and cauliflowers which formerly flourished in this state are produced in much smaller quantities now. There is need for definite information as to the size and type of product that the market want, and then how to produce it in good quality. Considerable progress has been made during recent years in grading packaging and shipping, but there is room for still more improvement here.

The Florida vegetable industry with an annual value of around \$5 million dollars is indeed important to the state and its welfare. Anything which will improve it is eagerly welcomed.

New York Giants Purchase Ben Cantwell From Farm In International League

Former Florida State League Pitcher And Sanford Veteran Given Another Chance At Big Leagues

NEW YORK, July 27. —(AP) The New York Giants, now in St. Louis for the opening of their Western tour today, have purchased Ben Cantwell, veteran right-handed pitcher, from their Jersey City farm in the International League.
Cantwell, purchased from the Bees by the Giants for Jersey City this year, replaced Clyde Clifton, who has left the team as the last place Jersey City club's mound staff, having won 13 and lost seven games.

Purchase of Ben Cantwell yesterday by the Giants from their Jersey City farm in the International League gives the veteran Sanford, Fla., pitcher a chance to complete 10 years of service in the major leagues, which makes him a free agent if the New York club does not wish to keep him after the finish of the current season.
Cantwell, who started his professional baseball career in the Florida State League and then starred for the local club of the old Southeastern circuit, reported to the Giants Aug. 1, 1927.

Most of Cantwell's major league campaigning was done in the uniform of the Boston Nationals, being involved in a trade between the Giants and the Bees, then known as the Braves.
Although Cantwell's won-and-loss record with the lowly Bees last summer was only fair, he had a superb earned run mark and Ben, as well as many close followers of the game, were surprised when Boston sold him during the winter to Jersey City.
The Giants had obtained the Albany franchise in the International League and had transferred it to Jersey City. They, of course, wished a pitcher of proven ability for their farm.

Cantwell, bitterly disappointed at apparently losing his chance of completing a 10-year term in the majors, gave his best effort for Jersey City and proved to be one bright spot in the otherwise drab performance of the team.
His record of 13 victories and seven defeats, excellent as it is, for a club which is a bad last, is by no means a true indication of his work this summer. A striking example was furnished Saturday night when he pitched a hit ball and limited Syracuse to one run only to have Whitey Moore hold Jersey City hitless and runless.

Cantwell, a former University of Tennessee diamond athlete, married a Sanford girl and has made his home there for over a decade. He has many friends in Jacksonville and elsewhere in the State who will be delighted to hear that he has been given another opportunity to pitch in the major leagues.
In recalling Cantwell — for that's all it amounts to—the Giants fulfilled a prediction made only a week ago by Sam Hix, sports editor of The Florida Times-Union, who pointed out "Big Ben's" fine record at Jersey City and the dire need of Bill Terry for winning pitchers in the crucial phase of the pennant race the Giants now are entering.
Cantwell is slated to report to the Giants today in St. Louis.

Gunfire, Bombs And Arson Greet King, Queen In Belfast

Hostile Reception Is Blamed On Irish Republicans But Does Not Curtail Plans

Night Of Terror Precedes Arrival

Gas Main Is Blown Up, Bridge Dynamited, Houses Are Burned

BELFAST, Northern Ireland, July 28.—(AP)—Terrorists shattered the peace of Belfast and Ulster's Free State border with bombs, arson and gunfire today in a hostile greeting to King George VI and Queen Elizabeth.

Police blamed the outbreak on Irish republicans.

While the King and Queen, on a coronation visit, were driving to the Belfast city hall through crowded streets, a gas main explosion a half mile away, boomed through a wide area of Belfast. It came as a climax to a night of terror in which customs houses were burned and a railroad bridge was dynamited.

The Belfast explosion broke scores of windows and damaged the customs building. A child playing nearby was injured but because many workmen were elsewhere to see the King and Queen there were no other casualties in the usually crowded area.

The King and Queen heard the explosion and were told it was made in the coronation program. An estimated million persons jammed the streets to see the sovereigns in their nine-hour visit.

The outrages were believed designed to frighten the crowds who came from the Free State to see the King and not as attacks upon the monarch himself.

Adelaide Gordon Is Victim Of Death After Long Illness

Mrs. Adelaide G. Gordon, who has been a resident in this vicinity for the past 17 years, died yesterday afternoon at 1:15 o'clock.

Mrs. Gordon, who has been in ill health for some time, lived in Upland. She was born in Canada on August 11 1892, and was the widow of the late Samuel M. Gordon, who died several years ago.

The survivors are: three daughters, Miss Loretta and Miss Margaret Gordon of Sanford; and Miss Ruth Gordon of Canada; two sons, William Gordon of Ashland, Ala., and Vern Gordon of Kansas City, Mo.; also one brother, William Thase of Canada, and two sisters, also of Canada.

Funeral services will be held in the Erickson Funeral Home Thursday afternoon at 3 o'clock and interment will be made in the Lake View Cemetery.

W. H. Preston Acting Retreat Commander

FORT SCREVEN, Ga., July 28.—W. H. Preston, of Sanford, who is blue trainee of Company A at the Fort Screven C. M. T. C. camp was acting retreat commander at a retreat parade presented yesterday at the camp. He was among a group of other blue trainees who took command of the unit of the C. M. T. C. battalion for the first time during the camp.

During the parade, the battalion was reviewed by 100 young women who sponsored the unit. They were afterwards guests of the officers at the company's mess.

The commanding officer of the first battalion, 28th Infantry, stated that he was well pleased with the participation of the trainees and the efficiency with which they handled the troops.

Dupree Sees Trailer Camp As Big Asset

Commissioner Reveals His Opinion In Regard To Project After Inspection Trip

"Although we haven't a fat purse which we might unlash to get funds to build the largest trailer camp in the state, we should be able in 30 or 40 days time to equip a first class place which would be capable of accommodating approximately 300 trailers," said City Commissioner W. R. Dupree today.

Mr. Dupree has made an inspection of many trailer camps in the state, and has returned with the opinion that Sanford should have such a camp "second to none in proportion to our population."

He stated that he has been looking forward with the hope that the people of the city would realize that many new dollars can be obtained and spent in Sanford which would help to revolutionize business activities and attract the classes of people who might eventually buy homes in the city or county.

He believes that the project might be financed through a loan secured by the city, and that money received from trailer owners would "come in fast enough to meet all due obligations."

Mr. Dupree said that he has talked with a large number of the leading business people and residents of Sanford, and he believes that about 85 percent of them are heartily in favor of the project.

"I feel that a great number of the people feel that the camp should, for the first year, be located close to town, due to our exceptional opportunity of having the empty space between Palmetto Avenue and the Court House," he said.

"The attraction of our beautiful lake," he continued, "convenience in access to business, churches, theaters, the zoo, and other advantages would offer an inducement, where other towns do not have such space available. We could operate in a first class way, with a small cost for police protection, and the city conveniences."

Mr. Dupree stated that in his belief, the location would doubtless be outgrown, and a larger space should be prepared to take care of another camp which might be erected in the future.

"Proposed equipment to be placed in the lake front location would amount to about \$6,000, and should be built with the idea in view that it might be salvaged and removed to a larger location farther from town."

"Whatever we do should be done immediately, and I believe the above plan to be the most practical and feasible in order that we might get our portion of the new dollars to come from such an enterprise," he said.

CITY NEWS BRIEFS

Sanford Sea Scouts of the ship "Seminole Lion" will meet at the Junior High school tomorrow night at 7:30 o'clock, it was announced by Clifford Bell, skipper.

Superintendent of Public Instruction T. W. Lawton, returned to his office on business today but plans to return to Daytona Beach tonight where he is spending his vacation.

Chief of Police, Roy G. Williams announced today City officials had begun picking up dogs that have not been vaccinated. The last time for securing of dog license and vaccination of dogs expired last week, but was extended when veterinarians agreed to vaccinate the dogs the first few days of this week.

The Colcocks colored school is nearing completion and will probably be ready for acceptance at the next meeting of the Seminole School Board, T. W. Lawton, superintendent of public instruction, reported today, adding that bids for the construction of a 6-room colored school at Midway would also be received at the next meeting of the Board.

Platinum May Be Big Money Maker In Alaskan Area

Recent Finds Result In Optimistic Prediction For Future

PLATINUM, Alaska, July 28.—(AP)—Platinum has built a bustling town of tents and log buildings on this bleak stretch of Alaskan seacoast and its mounting production brought predictions yesterday it soon would become the center of one of the world's richest fields.

E. A. Rasmunson, president of the Bank of Alaska at Anchorage, predicted a "tremendous" production of platinum by 1939 and said it might upset the world market for the precious metal before then.

Rasmunson made his prediction after surveying the hastily built city and the 100 square mile area of claims yielding an ever increasing volume of the precious metal.

In 1934 the Alaska production as reported by the United States Bureau of Mines was worth only \$84,600. It jumped to \$264,000 in 1935 and to \$12,000 in 1936. Much of the 1936 yield came from the new field.

Rasmunson said production this year would be "much larger" than in 1936, and that the district was gearing itself for real quantity production.

At the current value of \$50 an ounce, the unofficially estimated world production last year was \$26,000 ounces, or 16,800,000.

In addition to its platinum yield the barren seacoast area also has been producing worthy yields of placer gold.

The Goodnews Bay Company, which obtained a \$550,000 RFC loan, is bringing its dredge equipment here on the freighter La Touche.

Another big project is the Clara Platinum Production Company, headed by Dave Brandberg. Air planes, only quick transportation in this country of no roads, have brought heavy equipment as well as scores of stampedees.

Before Capt. Peter Wald established a trading post here four years ago, there was nothing but seacoast. Now the swiftly growing town of tents, frame and log buildings has a rotting, muddy main street ostentatiously named "Platinum Boulevard." Even the town site is staked as mining claims.

Unique Display Gives Boost To Advantages Of Electric Ice Box

"Hell's Kitchen," an inclosure built to contain a stock model Westinghouse refrigerator, has been erected next door to the Ritz Theater by Scott-Carraway, Inc. in order to show the operation of the machine in hot weather.

The interior of the "bamboo hut" is heated to a temperature of 125 degrees by large electric light bulbs. Meters connected with the mechanism of the refrigerator show the actual condition time. Temperature inside the inclosure in addition to the temperatures of the milk and food compartments within the machine.

These tests will prove beyond question the actual value of a Westinghouse mechanical refrigerator. Fred Scott stated this morning.

Tax Certificates To Be Sold Next Week By Jinkins

650 Pieces Of Property Are Involved In Auction Monday

Approximately 650 tax certificates for property on which the 1936 State and County taxes have not been paid will be sold at a public auction conducted by the local tax collector, Jno. D. Jinkins, in front of the Court House door next Monday at noon.

Title to the property is not conveyed at the purchase of the tax certificate, however, if the delinquent certificate is unredeemed after two years the purchaser may acquire a tax deed to the property by applying to the Clerk of the Circuit Court for same, Mr. Jinkins said.

The sale is not an auction in the real sense of the word. Nobody can buy a certificate for less than the amount of taxes due on the property it represents, plus the penalties added to cover the cost of the sale.

In competitive bidding the tax certificate is sold to the prospective purchaser who agrees to accept the lowest interest rate, the interest being charged to the owner of the property. A State statute allows a maximum interest rate of 15 percent, it was indicated.

Mr. Jinkins also notified taxpayers of the County that if the delinquent taxes were paid before the sale that the property would not be sold as advertised. The only additional fee will be the amount charged to cover the cost of advertisement.

Simpson Street Is Changed To Windsor

EVANSTON, Ill., July 27.—(AP)—Residents on the three-block stretch called Simpson street petitioned city councilmen to change the name of their thoroughfare to Windsor street "just because."

When the council got the petition the mayor could not restore order for five minutes. Some of the petitioners told the council the Duke and Duchess of Windsor romance gave them the idea. They thought the new name would attract people. Others thought it "sensitive" and "foolish" but the council ordered a resolution drawn changing the name.

Roosevelt Studies Crisis In Far East

Chinese Army States It Has Smashed Offensive On Peiping

By The Associated Press Japan and China fought an undeclared war on North China's land and sea coast today.

Chinese mortar fire kept Japanese munition ships from entering the mouth of China's Hai Ho.

Japanese cutters fought back, extending Nippon's punitive expedition from the smoldering environs of Peiping, some the dragon capital to Tangku on the sea.

An American marine, in isolated and siege-like Peiping, was shot apparently accidentally by rifle fire from Chinese troops barricaded near the United States embassy.

Chinese reports of battle victory, almost invariably denied by the Japanese, rolled in from dawn to dark.

Japanese air bombs and guns seared the troops of Nanking and their Peiping area strongholds with scattered heavy casualties.

President Roosevelt watched developments closely from Washington. The question of application of America's neutrality act was under consideration.

The Chinese 29th Army reported it has smashed the Japanese offensive against Peiping. The Japanese attacked Peiping's environs at dawn after the expiration of their final ultimatum demanding the withdrawal of Chinese divisions from the Peiping area.

Withering Japanese aerial attacks shattered the Chinese lines. Chinese commanders declared their troops recovered, however, and captured Fengtai, Japanese field headquarters west of Peiping and Langfang, important rail center.

Hearing To Be Held On Dry Cleaning Law

A public hearing concerning the Florida Dry Cleaning and Laundry Law passed in the recent 1937 session of the state legislature will be held on Aug. 10, at 9:00 A. M. in the City Hall, according to information received here today.

The purpose of the hearing will be to consider rules of fair competition, health and sanitary regulations, and other matters having to do with the proper practices in the laundry, dry cleaning, dyeing, and pressing industry.

This will mark the first time that the state has supervised and regulated activities of dry cleaning and laundry concerns in Seminole County.

The Naval Race

The launching in Trieste the other day of Italy's initial modern battleship, the first in a series, is hailed as a signal of Duce's determination to make his country not only supreme in the Mediterranean but also able to go beyond the limits of this inland body of water and protect the flag of Italy on the high seas.

We hear very little about the French Navy. Since Trafalgar, the French have been resigned to letting Britannia rule the waves, but in recent years France has gone along quietly building up a highly efficient, hard-hitting fleet that can hold its own with any other European navy except England's.

The pathetic thing about the position of Mussolini, and Hitler, too, is that these countries are not in a position economically to wage a re-armament race successfully with England and France.

Interesting, If True

Crime plays such an important part in the life of the nation that any discovery or revelation which might help to curb criminality is of particular interest.

Under tests conducted by St. Paul's police identification bureau, says the Daytona Beach Evening News, "the federal P. B. I. chief was told this week, finger prints of four jailed prisoners Heger had never seen handed to him for analysis."

Jacksonville Is In Squabble Over New Pulp Paper Plant

BUFFALO, July 22.—(AP)—Discussions about the merits and demerits of industrial plants such as paper mills predominated recently as Attorney General Landis conducted a hearing on a proposed injunction to prohibit erection of a pulp paper mill at Jacksonville.

Three persons representing a citizens' committee asked the attorney general to allow use of the state's name in bringing injunction proceedings in the courts.

James H. Stockton, John H. Matthews and Lucien H. Briggs, representing a citizens' committee, said the mill would be a public nuisance because of (1) detrimental odors, (2) pollution of streams by waste matter discharged, and (3) danger to Jacksonville's city water supply because of use of water in such a mill.

James T. Daniels, manager of the Jacksonville chamber of commerce; Austin Miller, City Attorney; Frances P. Fleming, attorney for the planters corporation; and others said the mill would be a step in industrial development of Florida.

The following program for the three days has been released: Thursday evening, July 5—Dinner at the Hofbrau.

Citrus Body Will Resist To Await Executive Order

LAKELAND, July 22.—(AP)—The Florida Citrus Commission, receiving no word from Governor Cone about whether to go ahead with plans for next season, urged the fruit industry to attempt to reach an understanding with the Governor.

Deciding against resigning immediately, the commissioners declared they believed their first allegiance is to the 500 million dollar fruit industry rather than to the Governor.

Spokesmen for the industry urged them not to resign and assured them that the shippers and growers of Florida are behind them.

The Governor earlier yesterday had wired the commission that he was not satisfied with its program and instructed members "not to make contracts past your term of office in September."

Receipt of the telegram from the Governor during a business session brought a quick end to the commission's activities, and after a prolonged discussion of the executive's message, the members approved their message asking clarification of his wishes.

"Your wire received while we were working on plans for next season," said the telegram to Governor Cone. "Everything we do now affects entire industry after Sept. 10."

"Therefore your wire today causes us to halt the entire program including regulations, preparing advertising copy, media space, etc."

"Necessary all this work by doing now. We request you express your self explicitly just what your wishes are so work can proceed."

"Industry needs this situation cleared up and we are ready to re-part your statement assured us of your desire to cooperate so please advise us Wednesday morning, July 23, your full wishes to situation will be cleared up."

"Permit us to point out to you it is imperative that plans be made now for inspecting and advertising next season's crop if there is to be avoided the chaotic conditions which prevailed when this commission was not appointed until Sept. 10 two years ago."

A satisfactory season enjoyed by growers last year was due mainly to a well-planned program worked out during the summer.

Word has been received that Miss Marjorie Cogburn is attending the Normal School of the Dancing Masters of America in Washington, D. C. She is with her teachers, Professor C. L. Ebsen and his daughter, Helge, of Orlando.

She modeled two costumes Monday night and on Thursday night she is to perform a dance, "Russian Rhapsody," at an exhibition. Miss Cogburn plans to be in Washington studying until the first of September.

"Between 2 Women" Is Showing At Ritz

An original story by Erich Von Stroheim, once a distinguished Hollywood director, "Between Two Women" opens at the Ritz Theater today, with Franchot Tone, Maureen O'Sullivan and Virginia Bruce.

It is a dramatic narrative of life, death and romance in a great metropolitan hospital.

Tone, as an ambitious young interne, plays an effective role with an artistic depth of understanding. Maureen O'Sullivan is a nurse, unhappily married to a brutal surgeon, and secretly in love with Tone. Miss Bruce is a cool and beautiful heiress who comes into the hospital as a patient and goes out as an intended bride of the interne.

The interne is faced with a choice between love and duty when his own marriage goes on the rocks and he is summoned to operate on the husband of the man dies; they can pick up the threads of life together. If he lives they are separated forever. Tone performs a successful amputation and the man lives.

M-G-M has produced a picture with artistry and startling authenticity. It might well have been filmed in a hospital rather than on a studio sound stage.

The supporting players handle their roles with uniform ability. Cliff Edwards is a good reporter; Helen Troy appears as a telephone operator, Janet Beecher, stage veteran, is "head nurse"; Leonard Penn is a sadistic surgeon. Others in the cast are Charley Grapewin, Grace Ford, June Clayworth, Edward Norris, Anthony Nace and Hugh Marlowe. George Selts directed.

Whittington Home Is Scene Of League Meet

Mrs. C. C. Whittington was hostess to the Young People's League of the First Methodist Church which held a cabinet meeting at her home last night.

Singing Negro Thief Loses His Reprieve

AUSTIN, Tex., July 25—(AP)—James "Ironhead" Baker, who sang his way out of the Texas penitentiary, is back inside its walls.

Gov. James V. Allred, impressed with the negro's ability to sing folk songs, granted him a reprieve last year from a life sentence for habitual burglary so he could accompany John A. Lomax, curator of folk songs for the Library of Congress, on a tour.

When the tour ended he worked at several jobs, he says, but easier money beckoned.

After Baker was charged with burglarizing several Austin residences, the governor revoked his furlough.

German-American Camp Probe Asked

NEWARK, N. J., July 25—(AP)—An immediate investigation of the German-American bond camp at Andover, whose activities have been called "un-American," was the objective of commanders of New Jersey posts of the American Legion and Veterans of Foreign Wars which met here Monday night. The meeting was called by Commander Harry Striner of Gen. Joseph Wheeler Post, V. F. W., Jersey City, which asked Congress to investigate the sources of funds and purposes of the Bund.

Sanford And Daytona Split Double Bill

Islanders Victorious In Fifteen Inning Thriller; Sanford Takes Night Game

Note Gives Up Only Two Hits In Eighth Inning Relief Job, Only To Lose In Fifteenth

The Sanford Lookouts and the Daytona Beach Islanders, yesterday split a double bill at the Sanford Municipal Athletic Field.

The first game was a fifteen inning thriller. Early Wynn started on the mound for the locals and was relieved in the eighth in favor of Moe Wynn.

In the fifth, Sanders, first up for Daytona, singled and was sacrificed to second by Gentry. Wein tied out to Kaso.

In the second game Crisfield allowed Daytona but six hits. Poor fielding by his mates almost cost him the game.

Sanford started the scoring in the first inning when it scored two runs on two hits.

Rayburn Predicts Adjournment Will Come In 3 Weeks

Majority Leader Says Congress Should Be Able To Finish Up Work In That Time

Court Bill Tie-Up Seen Possible Bar Early Action Is Predicted For Minimum Wage Legislation

WASHINGTON, July 29. (AP) — Majority Leader Rayburn told the House today that Congress should be able to adjourn in three weeks.

"Unless there is a tie up on the court bill in the Senate by something arising to call a halt," Rayburn said, "we can finish all of this (legislative) program in three weeks."

He spoke of prospects of Senate action this week on the wage and hour and housing legislation and on the court bill next week. These measures head the program.

The House labor committee, he said, should approve the wage and hour bill this week or the first of next.

At his press conference Speaker Bankhead said he thought the House members were "going to be reasonable about not being stampeded" into adjournment.

School Dean Gets Acquittal In Case Charging Assault

Elder Was Accused By Victim Of Having Kissed Stenographer

GREENFIELD, Mass., July 29. (AP) — Thomas E. Elder, 55-year-old former dean of Mount Hermon school for boys was acquitted last night of a charge of assault with intent to kill a former school associate, S. Allen Norton, who accused Elder of kissing his pretty stenographer.

Elder also was acquitted of a charge of simple assault on Norton.

The Franklin county jury, which had heard testimony for nearly a week, returned its verdict after deliberating four hours.

The commonwealth had charged Elder assaulted Norton, former school cashier, in Norton's Greenfield garage on the night of last May 22.

Norton testified Elder had pointed a gun at him, but Elder in testimony denied he was in Greenfield that night.

Elder told the jury he was at Keene, N. H., 40 miles away, and his wife corroborated his story in her testimony.

Labor Leader, Turned Sokon, Succeeds In Obtaining Provision

WASHINGTON, July 29. (AP) — A labor leader turned legislator succeeded in writing into the wage-hour bill yesterday a provision permitting a board to fix minimum wages as high as 70 cents an hour and a maximum work week as short as 35 hours.

The house labor committee approved the provision, which members said had been prepared by Representative Wood, democrat, of Missouri, long-time president of the Missouri State Federation of Labor.

The proposal is a major change from the wage-hour bill as it is now being debated in the senate. Under the latter measure the administrative board could not compel the payment of more than 40 cents an hour, and could not reduce the work week below 40 hours.

The change led to immediate predictions that the bill would be defeated. Representative Ramspeck, of Georgia, democrat, declared:

A 'SALUTE' FOR NON-STRIKERS

With this gesture of very decided meaning, a militant strike sympathizer expressed her feelings for non-striking workers entering the plant of the Robins-Drydock company in Brooklyn. Policemen are guard watched carefully to see that she and other sympathizers confined their resentment to nothing more violent than jeers.

Supreme Court Delays Decision On Land Recovery Act For Five Weeks

TALLAHASSEE, July 29. (AP) — The Supreme Court heard arguments yesterday on the disputed "land recovery act" of 1937, but indicated its constitutionality will not be decided for at least five weeks.

One group of attorneys maintained the act permitting sale to the highest bidder of two-year-old state tax certificates was invalid because it also permitted the "compromise" of taxes less than two years old.

Another group said the law was invalid as a measure for "liquidation" intended primarily for the "compromise" of delinquent taxes.

His law firms not directly connected with the two cases before the court filed briefs pro and con and three others were given additional time in which to submit briefs "as friends of the court."

By the time these briefs are in, the court will have adjourned for the month of August, court officials said, so the justices cannot reach a decision before the first week in September at the earliest.

Legionnaires Of Orlando Vote To Fight Red Drives

Adopt Resolution Offering Assistance To County Sheriff

ORLANDO, July 29. — A stern and militant front to combat the rise of Communism in Orlando and Central Florida was voted here last night by Memorial Post No. 10 of the American Legion in one of the most spirited sessions held in years.

Members unanimously adopted a resolution offering their assistance "morally and physically as 100 percent Americans" to the Sheriff's office, the city police department and any other law enforcement bodies in event violence flares here when a scheduled meeting of CIO locals opens Aug. 4.

The post went on record against "other aims" opposed to American institutions and denounced statements made in the press by C. H. Jackson, avowed Communist of Orlando.

After the bids have been tabulated and the cost of the project ascertained, members of the local Trailer Camp Committee and the Chamber of Commerce will start a drive for loans to pay for the improvements which the city plans to repay over a period of years.

Duke And Duchess To Leave Retreat For "Canal City"

Ex-King And Bride Increase Activity In Public Events

NOETSUI, Austria, July 29. — The Duke of Windsor known here as "the restless squirrel," is preparing to take his American-born bride to romantic Venice.

The former King and his Duchess were expected to motor from their honeymoon retreat here to Washington, D.C., to the Hillman City of Canada where hotel accommodations have been reserved.

Dressed like a native of his South American region, with a feather in his hat and bare knees showing below his short, leather breeches, the Duke has become a familiar figure on mountain byways.

The natives accept him as a neighbor who, when he is roaming abroad, is friendly to all but familiar with few. They gladly forgive him one social error—wearing a tyrolean costume in California.

It is known throughout the countryside as "the restless squirrel" because he is much more active than most of the natives of the vicinity.

2 Sanford Citizens Gather Data To Aid Trailer Camp Deal

Elton J. Moughton, local architect, and Fred T. Williams, City engineer, accompanied Mayor Edward Higgins and other City officials to Tampa yesterday to secure data relative to the proposed trailer camp here, it was revealed today.

While in Tampa, the architect and engineer secured information concerning requirements made by the State in regard to trailer camps and other information which will be helpful in compiling specifications for the improvements which will be offered to lenders as soon as completed.

Ruthless Air Attack Unleashed By Japanese In Tientsin Endangering US Lives

Many Parts Of City Set Afire

However, Soldiers Of China Repel Japs In Swift, Hard Attack

The lives of Tientsin's many Americans were imperilled today by the literal death struggle between the Japanese and Chinese armies in North China.

The Japanese army in a drastic effort to rout the Chinese attack that threatened to drive it from Tientsin by North China stronghold, tossed a devastating aerial bombardment on the city.

Japanese officers declared an acute situation compelled them to ignore "earlier assurances not to expose the city's foreign residents to peril."

Wave on wave of bombing squadrons set many of Tientsin's principal buildings afire particularly the railroad center and burned the international bridge connecting the foreign concessions and the Chinese city. Bombs rained on the densely populated Chinese quarters. One village on Tientsin's outskirts was an inferno.

Both at Tientsin and Peiping, Americans huddled in cellars of foreign concessions and warned for safety in the railway station.

Three Chinese armies—25th, 29th and 40th—attacked in concert to gain the strategic Tientsin area and cut Japanese communications.
