Ethel Waters Has
Close Call On Stage

NEW YORK, Jan. 19. — (AP) — Actress Ethel Waters was taking her curtain calls last night after her performance in the Broadway show, "The Member Of The Wedding."

Suddenly, the audience gasped. Plummeting down from the stage fixtures over Miss Waters' head was a big sandbag. The 20-pound bag—a counterweight used for scenery that had become unfastened—missed the actress by inches.

Waters, 50, turned the incident into a comedy bit. A line from the hymn she sings in the play as a Negro servant:

"His eye is on the sparrow and I know He watches me."

Arnold Rites

(Continued from page one)

The list contained, too, the names of other famous men—like Charles A. Lindbergh, scientist Vannevar Bush, the aging Secretary of State Cordell Hull.

Over a two-mile route from a point near the Washington Monument to the amphitheater, 1,700 troops were assembled, drawn from all the armed forces—Air, Army, Navy, Marines. The body, which had lain in state in a chapel of the National Cathedral since yesterday.

Above the procession, the Air Force ordered into the air more than 80 jet fighters and about 30 B-29 Superfortresses. Under Arnold's command, jet fighters were planned, but they did not join the operating force until after his retirement.

The B-29s which he pushed to completion by 1944, numbered home the closing phase of the air bombardment of Japan.

The Air Force, although young by comparison with the older service, has a funeral ritual like that of the cavalry's "sideshow horse."

It grew out of World War I when planes flew in elements of five, formed up in a "V". When on a mission a man was shot down, his place in the "V" wasn't closed up by the other planes. They flew back home with the blank file still there.

So today the Air Force arranged for a special flight of planes with an empty spot in the usual five-plane formation, to wing above the funeral procession to say that the General's passing had left an empty place in the Air.

Louis Denfeld

It had been a long flight for "Hap" Arnold... Graduation from West Point in 1907 with aspiration to join the "horse cavalry" because it was the "most romantic thing left on earth."

Assignment instead to the infantry... And then orders to go to the Wright brothers and learn to operate a flying machine.

The long battle to gain recognition for air power... Two World Wars and a few peaceful and pleasant years before the touch-down and flight's end.

Three members of Tyding committee, Senators Knowland (R-Calif.), Gurney (R-SD) and Bridges (R-NH), urged that Matthews be recalled for additional testimony.

Tydings didn't promise that, but he expressed hope that he could assemble additional facts for the Senate by Monday. He said he would offer them "without regard to whom they hurt or help."

The Virginia Declaration of Rights, adopted in 1776, formed the backbone of the Federal Bill of Rights.

The U. S. Department of Agriculture recommends the use of lindane, a new insecticide, to control flies in dairy barns and milk plants.

WERE WOMEN
BORN TO SUFFER?

"No," say lots of lucky girls
Maybe you, too, can look back on those "clouded days" each month and revel in blessed relief from pain. For if you suffer from functional pain, you can have relief.

SEVENTH DAY ADVENTIST CHURCH SPONSORS CHRISTIAN PROGRAM

An interesting program was sponsored by Mrs. Mary L. Moye of the Seventh Day Adventist Church last Sunday night. The congregation listened to vital messages through songs, talks, scenes and recitations on "The Christian Home Life."

NEW BETHEL A. M. E. CHURCH

New Bethel A. M. E. Church, Canaan, opened with Sunday School at 9:30 A. M. with Acting Supt. in charge. 11:00 A. M. Morning Services began with Rev. J. C. Williams of Bartow delivering the message. Evening services began at 7:00 P. M. Mr. C. Jackson, in charge of the Devotional Service, Rev. Williams again delivered the message, his subject being "Good Shepherd."

PERSONAL MENTION
Rev. J. C. Williams was the dinner guest of Mr. and Mrs. E. Jones.

SICK
We are happy to report that Mrs. Sallie Williams, the mother of Mrs. E. Robinson, Canaan City, is improving nicely.

Friends are happy to learn of steady improvement of Mrs. Mae Jessie McGill, Canaan, who has been convalescing for quite some time.

Mr. Edgar Johnson, the husband of Mrs. Cora Johnson, Pine Avenue, is confined in the hospital at Tampa. His condition is reported as only fair. Friends are wishing for him a speedy change.

The confinement of Rev. J. J.

James, W. Fifteenth Street comes as a shock to his friends. They are wishing for him a speedy recovery.

ALLEN CHAPEL A. M. E. CHURCH HOLDS QUARTERLY CONFERENCE

Allen Chapel A. M. E. Church held its First Quarterly Conference Friday night an 13, 1950. Presiding Elder J. A. Robinson was in charge. Music was furnished by the Junior Choir; followed by the Business session. All business made round report and received congratulations from the Presiding Elder.

Judith Coplon To Stand Trial On Spy Charge

Trial To Begin Tuesday For Ex-Government Employee, Russian Boy Friend

NEW YORK, Jan. 20.—(AP)—Federal Judge Sylvester J. Ryan ruled today that Judith Coplon and Valentin A. Gubichev must stand trial on spy conspiracy charges. The ruling came after six weeks of hearings through which the brunette ex-government girl and the Soviet engineer sought to get the indictment against them dismissed. Ryan denied defense motions to throw out the charge on the ground that the government's case depended solely on witness evidence. The judge ordered that the trial begin next Tuesday.

Meanwhile a government prosecution today likened Alger Hiss to Benedict Arnold, Brutus, the Devil and Martin T. Manton, a federal jurist convicted of "selling justice."

Speaking measurably and in a deep voice, Assistant U. S. Attorney Thomas F. Murphy told a federal court jury in his summation it should convict Hiss on the basis of "the immutable documents" in the case.

Hiss, former high State Department official, is on trial for the second time on charges of perjury. His first trial last summer ended in a jury disagreement.

Tall, mustached Murphy pointed to the piles of government exhibits which the government claims Hiss passed to Whittaker Chambers in Paris.

Miami Visitor Is Freed As Suspect In Boston Robbery

BOSTON, Jan. 20.—(AP)—The suspect in a New Jersey robbery which netted \$1,782 dollars on his person in Miami yesterday as a possible suspect in the million dollar Boston robbery was knocked down by local police today.

The former, John F. Dalgard, after talking with Miami police, said the man apparently had no connection with the local holdup.

The man, identified as Arthur Long, 31, of Englewood, N. J., was picked up by detectives who flagged down the streamliner Milan as it entered the northeast 29th street yards.

Meanwhile under orders from FBI Director J. Edgar Hoover, who took control yesterday, experts involved in the investigation co-ordinated activities. They considered the possibility of setting up a central office to sift clues.

Directives from Hoover's office directed the nation to FBI branches in key cities in the hunt for nine handouts which totaled \$1,000,000 in cash and a half million in checks at the Brink's Armored Transportation Company garage Tuesday night.

Holdup Nets A Million In Cash

Draft Defended As 'Scare' Move Against Soviets

Defense Head Calls For Extension Of Selective Service

WASHINGTON, Jan. 20.—(AP)—Defense Secretary Johnson asserted today that the Draft Act was "one of the decisive factors in stopping the spread of Communism in Europe."

Speaking for extension of the law now due to expire next June, Johnson told the House Armed Services Committee:

"Termination of selective service could well be interpreted abroad as an indication that this country does not consider the international situation as serious as previous arguments in favor of the foreign military aid program and the North Atlantic pact indicated."

He suggested also that failure to extend the draft law might seriously undermine the position of U. S. military establishments in other countries to the North Atlantic Pact.

Those countries have their own draft laws.

Johnson said the United States ambassador to Moscow had reported the passage of the peace-time draft act in 1948 "came as a thunderous shock to the men of the Politburo."

Presenting arguments from the purely American military viewpoint Johnson said that:

"Continued existence of a draft law 'would be a prelude to saving in time if an emergency should require the return to induction.' If the Draft Law is permitted to die, however, full (Continued on Page Six)

U.S. Delivers Warning Blast At Bulgaria

State Department To Break Diplomatic Relations If Recall Note Stands

WASHINGTON, Jan. 20.—(AP)—The United States threatened today to break diplomatic relations with Bulgaria unless that Communist country withdraws its demand for the recall of American Minister Donald R. Heath from Sofia.

A Bulgarian note replying to the Bulgarian recall request was ordered delivered to the Bulgarian government in Sofia. It was also handed to Dr. Peter Voutov, ranking Bulgarian diplomat here.

The note demanded the demand for Heath's recall as simply the latest of a "series of indignities and restrictions" which have made it virtually impossible for the U. S. diplomatic mission in Sofia to carry on its duties.

The American note added: "Accordingly, unless the Bulgarian government withdraws its note of January 19 and demonstrates a willingness to observe established international standards of conduct, the United States Government must conclude that the Bulgarian government does not desire to maintain normal relations."

In these circumstances, the United States government will be obliged to withdraw the United States diplomatic mission from Bulgaria and ask for the recall of the Bulgarian diplomatic mission from the United States.

Meanwhile a big majority of the United Nations is expected at the next General Assembly to repeal the ban under which members governments have withdrawn ambassadors or top flight ministers from France Spain.

This was the view of many United Nations delegates after Secretary of State Dean Acheson announced that night the United States has changed its mind and would support such a proposal to return ambassadors to Madrid.

A U. N. repealer of previous decisions to condemn the presence of the Bulgarian government in Sofia is likely to come before the next assembly scheduled for next fall or earlier if there is a special spring session.

The question would not affect a resolution of the first U. N. assembly in London barring France from membership in the United Nations. Spain never has applied to the U. N. and any application from France is certain to run into the Soviet Russian veto in the Security Council.

In Fuzhou, meanwhile, Mainland Chinese Kai-Shek said today. (Continued on Page Six)

Negroes May Attend Florida Universities

TALLAHASSEE, Jan. 20.—(AP)—The State of Florida is prepared to offer instruction temporarily to Negroes at its white colleges if the Supreme Court rules present arrangements for their education are not equal.

Truman Wins First Round Of House Civil Rights Battle

As 'Big Mo' Ran Aground In Hampton Roads

ONLY U. S. BATTLESHIP NOW IN SERVICE. The mighty Missouri lies helplessly on a mudbank in Hampton Roads near Norfolk, Va., at a point known as "Hampton Shoals." When tugs who were ordered to the spot stop and could not get her off, she is to be sold for an Army storage to free her. The final step on which Japanese surrenders terms were signed, was a floating crane when it ran aground. (International)

Theory Of Hydrogen Bomb Is A Simple Process Of Fusing Atoms

NEW YORK, Jan. 20.—(AP)—A hydrogen bomb is merely a lot of hydrogen gas which explodes by the simple process of fusing hydrogen atoms together to form helium gas.

In the fusion a lot of energy is given off. The amount is seven times greater than the energy from a single fission of the splitting atoms in A-bombs. So the hydrogen bomb rate about 1000 times stronger than an A-bomb because of possibly less trouble in handling the atoms.

To produce this explosion you need temperature and pressure of millions of degrees and pounds, such as exist in the sun. An A-bomb gives you both heat and pressure.

The question is, can you get the momentary A-bomb flash to set off a hydrogen bomb?

The trouble is, the reaction is so fast that hydrogen does not get to the core of the bomb to fuse. The change is not directly hydrogen into helium. The hydrogen first changes into helium and then down the scale to helium is the final product.

That process may take as long as a month in a laboratory. It would also require many times more carbon in the bomb than hydrogen. There's no evidence that it is faster than the hydrogen bomb.

On the other hand, the prospect for success rest on a number of facts. One is that security matters is yet known about the details of this process of nature. This means possible short-cuts to be discovered. It is a fact that

Warren Terry Entertains Club With Light Opera

WASHINGTON, Jan. 20.—(AP)—Senator Warren Terry entertained a group of club members at the Senate Club today with a light opera. The club members included many of the Senate's top military leaders.

General Oscar Bradley, Chairman of the Joint Chiefs of Staff, gave it to the committee in an hour and a half meeting behind closed doors in a secluded Capitol room.

He was accompanied by Robert La Follette, Chairman of the Military Finance Committee of the Atomic Commission.

Senator M. W. Malone (D-Cent.) and committee chairman, told reporters after the meeting: "General Bradley and Mr. La Follette discussed with the committee some matters pertaining to our national defense, in which, of course, atomic matters were discussed."

Malone would neither confirm nor deny that the hydrogen bomb had leaked to the Russians. However, in their administration records was discussed. Experimental work on the weapon is being reported to be under way.

The question whether the United States should build a hydrogen bomb has been left up to President Truman. He left the door open on the question yesterday when he said: "We will build it if it is necessary for our peace."

Malone would neither confirm nor deny that the hydrogen bomb had leaked to the Russians. However, in their administration records was discussed. Experimental work on the weapon is being reported to be under way.

Florida's Warm Weather Retards Crop Growth

ORLANDO, Jan. 20.—(AP)—The U. S. Department of Agriculture today said that the warm Florida weather and very light frosts were setting back some truck crops.

Some recovery has been made, however, in the Pompano section, the report said, but production will continue on a curtailed basis for several weeks.

Potato and tomato crops in Florida were reported as generally fair to good although slightly behind normal schedule.

French Tighten Propaganda Ban In Saar Basin

SAARBRUCKEN, Jan. 20.—(AP)—The French government announced today drastic measures aimed at protecting this semi-autonomous state from any propaganda campaign to return it to Germany.

Next year, the French government will have to decide whether to accept the Saar's return to Germany.

Some recovery has been made, however, in the Pompano section, the report said, but production will continue on a curtailed basis for several weeks.

Potato and tomato crops in Florida were reported as generally fair to good although slightly behind normal schedule.

In the Everglades, harvesting of celery, cabbage and potatoes is active and winter potato digging has begun at Fort Myers.

Manatee section tomato harvest continues active but the crop is suffering from lack of rain.

Growing conditions have been generally satisfactory in central Florida with active harvesting now of celery and cabbage in the Sanford area.

Mayor Lew Arnold To Run For Legislature

Mayor H. G. (Lew) Arnold of Longwood announced today that he will be a candidate for the State Legislature in Group No. 2, subject to the Democratic Primary.

The Zoning Board, he declared, suggested that Highland Park subdivision, immediately south of Twenty-fifth Street, be left in the R-1-A status, but recommended that carports and porches, all under one roof, be allowed to make up the 1,000 square feet required for area of homes to be built in this section.

Hot Rod Tag Game Ends In Shooting

SAN FRANCISCO, Jan. 20.—(AP)—A San Bruno, Calif., youth was shot and critically wounded last night after a hot rod game of automobile tag on a lonely stretch of the coast highway south of here.

Victim of the shooting was Fred H. Schoene, 20. At San Mateo Community Hospital doctors said Schoene had been shot in the groin, shoulder and arm and twice in the legs.

Zone Board Reports On Building Rule

The City Zoning Board, acting last night on a City Commission request that efforts be made to see if any R-1-A residential area could be modified to permit construction of smaller homes, reported that the Franklin Terrace area near French Avenue and Twenty-fifth Street is the only area under consideration where the floor area can be reduced.

City Manager Clifford McKibbin said the City Commission has set a hearing on Feb. 2 to hear from the R-1-A status, but recommended that carports and porches, all under one roof, be allowed to make up the 1,000 square feet required for area of homes to be built in this section.

Fire Damage

Fire of undetermined origin caused considerable damage to the stock and contents of the Tire and Repair Shop operated by Milton Reel at Thirteenth Street and Cleander Avenue at 1:10 o'clock, Fire Chief M. N. Cleveland reported. Patrolmen Jack Hickson and Max Batus discovered the blaze and turned in the alarm.

Fire of undetermined origin caused considerable damage to the stock and contents of the Tire and Repair Shop operated by Milton Reel at Thirteenth Street and Cleander Avenue at 1:10 o'clock, Fire Chief M. N. Cleveland reported. Patrolmen Jack Hickson and Max Batus discovered the blaze and turned in the alarm.

Horrible Mistake

HULL, England, Jan. 20.—(AP)—Seaman James Pearson is doubly sorry. He was fined 1 pound (98.40) yesterday for stealing a four-and-a-half-gallon beer barrel. He told the policeman who arrested him: "I made a horrible mistake. It was empty."

The Sanford Herald

Established in 1908... Published daily except Saturdays and Sundays... 11 Magnolia Avenue

FRIDAY, JAN. 20, 1950

TODAY'S BIBLE VERSE

Those who have insight and understanding should try to make that message simple and clear.

AN OXFORD PRINT

Today my old print of the Garden Gnome... Has come to life. Nothing has changed.

The Herald will publish its annual mid-winter tourist edition Monday.

It is worthwhile noting the number of current crimes being committed in Sanford by out-of-state hikers, and the number of those who are poachers.

If the federal tax on oleomargarine is abolished as the Senate indicated Wednesday it should be that would reduce the price of oleo.

Multiple sclerosis, a nerve disease which causes paralysis, is reported to be on the increase in the United States, according to Dr. Frank B. Walsh, John Hopkins Hospital specialist, and is more prevalent in the North than in the South.

Senator Taft of Ohio demands that President Truman act quickly to put the coal miners back to work, but the President defers action, claiming that no emergency exists.

Congress is expected to vote today on whether President Truman's Civil Rights bill, including anti-lynching legislation, should be considered in this session of Congress.

Dollars At Work

That the future will see the successful investment of billions of American dollars in backward areas of Africa and South America is the opinion of people familiar with conditions there.

Such an aid program has been presented to Congress in a measure which would begin the implementation of technical assistance to backward areas, commonly known as the Point Four program.

Profitable investment of private capital has so far made possible for the United States the attainment of the highest standard of living the world has ever known.

Checking The Road

Seasoned automobile drivers learn to test the grip of their tires on the road, in acceleration and braking, whenever they start out in weather which might make the road slippery.

It is surprising how many others overlook this test, and discover that the road is slippery only when a skid has begun, perhaps ending in a crash.

The Belittler Gives Himself Away

It takes courage to admire people openly. Craven minds tend to shy away from calling attention to the good points of others for fear of obscuring their own.

These are the women—and men, too—who believe that by putting others on the shoulder with a downward movement they will add enormously to their own stature.

Sanford Forum

Dear Mr. Dean:

Enclosed clipping from Page 1 of the Herald of Jan. 17th, head of Florida Real Estate Journal by US Court refers to court action at New Orleans on proposed merger of the ACL and FEY systems.

Both railroads have main lines running from Jacksonville to Miami and are competing rivals. This wasn't intended to mislead anyone, of course, nevertheless it is likely to do so.

Further, in referring to the ACL and REC as being "competitively ferocious" for this very question has now been under study by some of our qualified traffic people, attorneys, and even the courts, and they seem unable to decide it so far.

There is more evidence showing the two roads are a not competitive, however, than that they are.

I think our AP writer has the ACL confused with the Seaboard Railroad, a road which does operate a highly competitive line directly to Miami.

Sincerely, B. H. Guthrie.

Saar Dispute

The Saar, in the French occupation zone, has been attached to French economy and given a degree of autonomy. The U. S. State Department Tuesday said the United States had "no objection" to giving the Saar a seat on the Council of Europe.

THE NATION TODAY

By CHARLES MOLONY (For James Marlow)

WASHINGTON, Jan. 20—(AP)—Congress is tacking with calls for cutting President Truman's \$42,000,000 spending budget.

WASHINGTON, Jan. 20—(AP)—The increase for the four years totals \$3,869,006,000. Responsibility for after-budget spending is disputable.

1. Congress has sometimes voted to spend more on certain things than Mr. Truman recommended.

2. Mr. Truman has sometimes come through with less of expanded spending program after his initial budget message.

3. Circumstances unforeseen by either the President or Congress sometimes knock initial spending estimates low.

Examples of this last kind include cold war developments, which have sent costs soaring, and the 1949 business decline which shot up suddenly outlays while knocking down tax revenue estimates.

Mr. Truman's new budget for the 12 months starting next July is the most costly peacetime program ever laid down by a president at the opening of Congress.

It foretells a \$6,122,000,000 deficit unless taxes are raised. Yet it anticipates an \$600,000,000, or two per cent cut under the current spending rate of \$42,297,000,000.

The President's chair of a cut under current year rates depends heavily on two estimates that he admitted to be necessarily based on guesses.

1. That veterans cuts will decrease lower veterans will apply for schooling and other readjustment benefits.

2. That outlays for farm price supports will drop \$250,000,000. The President said in his message that Congress has as much responsibility for government spending as he has for all expenditures free from obligatory authority enacted by the Congress.

He reminded Congress, too, that \$12,000,000,000 of 20 per cent of the spending total was authorized at earlier sessions of Congress, putting it beyond the reach of economy drives.

Mr. Truman said that he had proposed to the joint committee that has asked \$600,000,000 in part to be put two budgets and in added that much to Congress' budget claims of "spending cuts."

That program was always the policy's intention. Mr. Truman mentioned it favorably in speeches.

Hydrogen Bomb

(Continued From Page One)

him type for detonation by an A-bomb was on the drawing boards.

The same year, Dr. Philip Morrison, of Cornell, one of the Los Alamos bomb scientists, was quoted as saying "the possibility exists" for a hydrogen-bomb bomb.

No one has been definite. The hydrogen bomb's potential, as reported to have mentioned a bomb 1000 times more powerful.

Will there be retaliation from this bomb? Probably, but not likely from so many different kinds of atoms. But you will have at the present A-bomb radiations, if any.

One horrible possibility is in the published scientific records. It is that when a nuclear bomb goes off, the heat will rise in direct proportion to increase in energy of the bomb. That, if it should come true, might mean scorching heat reaching out hundreds of miles.

Under the atomic energy law, only the president of the United States has the right to tell you how much of the hydrogen bomb reports are correct.

Everyone else on the inside has lips sealed by a possible death penalty. Those who talk freely are outside the know.

Homers called sinister laughter sardonic because an herb grown on Sardinia was reputed to cause death by laughter.

The Pribilof Islands are summer breeding grounds for about 3,000,000 Alaska fur seals.

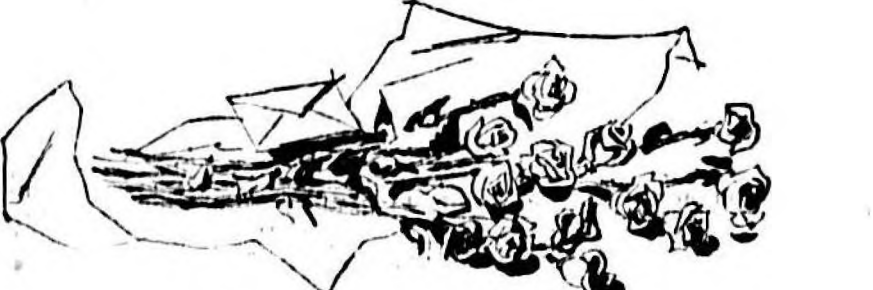

The natives of the Marianas Islands are Chamorro, which in Portuguese means people "with cropped hair." They were so named by Magellan.

Magna Carta was signed in 1215.

HOTTEST ENGINE NEWS of 1950

That's the word spreading about Buick's brand-new V-263 valve-in-head engine, already proving itself in the hands of new SUPER owners

quiet unbroken by tappet noise. And you can have this power either with Buick's easy-shifting Synchro-Mesh transmission or the silken luxury of Dynaflow Drive.

CALL it if you will the biggest power-story of the year. Call it another triumph in Buick's long history of coming up with car performance beyond compare.

But, sir, when you step into the sleek-lined traveler pictured here—hang on to your hat.

For you'll be riding behind a power plant that is not only new but a major sensation of the 1950 season.

You'll be commanding the very latest word in valve-in-head power—the newest accomplishment of the organization with the country's longest stretch of experience in this engine design.

Here every fast-size fuel charge now delivers a hunker wallop. Shorter, lighter connecting rods mean that pistons flash with faster and livelier action.

Heavier crankshafts, seated on bigger, more rugged bearings, take this greater load and transmit its stepped-up surge to the drive shaft and rear wheels.

And you, behind the wheel, wreath your face in smiles at the lift you find! At the trigger-quick take-off—the mile-eating cruising stride—your easy disdain for the pushing gas pumps.

You and your SUPER are really stepping out—and Buick's good name as "a sweetheart on the road" gains still more lustre.

Nor is road-thrill the only blessing this new power plant brings. Simpler design makes service easier, so upkeep diminishes as a problem. Hydraulic valve-lifters keep valves properly seated for efficient operation—and for

Khenset Court No. 52 Meets in DeLand

Personals

FRIDAY
The supper will be held at the Beardsall Avenue Chapel at 7:30 P.M.

Khenset Court No. 52, Oriental Shrine of North America, met in DeLand at 8:00 P.M. on Wednesday night with Hugo Princess Helen Trundle presiding.

Mrs. R. J. Sled of Macon, Ga. is visiting her aunt and uncle Mr. and Mrs. W. H. Mayberry.

FRIDAY
The Tourist Club will hold its weekly party under the direction of Tom Vernon.

Mrs. D. B. Stafford is recovering from a major operation at the Memorial Hospital. She will be in the hospital for three weeks.

Among those who will graduate from the University of Florida in mid-year commencement exercises on Feb. 4 are Alva Hutchinson Brock, B.A. degree; Capt. Robert C. Morris, H.S.A. degree; and James A. Tew with a B.C.E. degree.

SATURDAY
The Tourist Club will hold its weekly party under the direction of Tom Vernon.

Mrs. Doris Grace Shannon, daughter of Mr. and Mrs. H. W. Shannon, has entered the Baptist Bible Institute at Lakeland for mid-year study.

Among those who will graduate from the University of Florida in mid-year commencement exercises on Feb. 4 are Alva Hutchinson Brock, B.A. degree; Capt. Robert C. Morris, H.S.A. degree; and James A. Tew with a B.C.E. degree.

SUNDAY
The Tourist Club will hold its weekly party under the direction of Tom Vernon.

Mrs. Doris Grace Shannon, daughter of Mr. and Mrs. H. W. Shannon, has entered the Baptist Bible Institute at Lakeland for mid-year study.

Among those who will graduate from the University of Florida in mid-year commencement exercises on Feb. 4 are Alva Hutchinson Brock, B.A. degree; Capt. Robert C. Morris, H.S.A. degree; and James A. Tew with a B.C.E. degree.

Swimming Pool To Be Open To Public Saturday Morning

Formal Opening Of \$42,000 Structure Climaxes 25 Years Of Civic Promotion

Sanford's new \$42,000 municipal swimming pool will be formally opened to the public next Saturday morning at 10:00 o'clock. City Manager Clifford McKibben announced today as he revealed that plans are pending for a short program in which students from the local schools will be asked to participate.

The pool, on which actual construction began on July 18, 1949, was christened last Thursday when George Barr and about one hundred of his student umpires, and 15 or 20 Sanford girls were photographed there for publicity purposes. Only the installation of lockers and a few finishing touches remain to make the pool complete.

See pictures of pool on Page 4, Section 2.

Climaxing a quarter of a century of publicity, promotion, and civic enterprise, the pool which was first approved by the people in a bond election in 1925, was finally made possible by a donation of \$40,000 from Chase & Co. and by the support of the Jaycees and Rotary Club which made it their No. 1 project in 1946.

Housed in a concrete block enclosure of light green, 50 feet wide and 128 feet long, the pool includes two dressing rooms, 48 lockers, and shower accommodations for men and women. The actual tank, made of poured concrete, is 100 feet long and 36 feet wide and declines from a three foot depth at one end to 55 feet to a five foot depth, then drops to a nine foot depth below two springboards.

It is estimated that the pool can safely accommodate 247 bathers at one time, according to the City Manager, who pointed out that the pool is of the flow-through type supplied by a 120 foot artesian well a short distance away which can fill the pool through an eight inch pipe in 24 hours from natural pressure alone. However, its two electrically operated pumps, working at the rate of 600 gallons a minute, can fill the pool with 150,000 gallons of water in six hours. A new type chlorinator circulates a disinfectant through the water

at all times. A lifeguard will be on duty at the pool whenever it is open to the public, and additional help will be provided as needed. A small charge of nine cents for children and 25 cents for adults will be made to help defray the expense of operation. The pool will be kept open on Tuesday, Thursday, Saturday and Sunday from 10:00 A.M. until noon and from 1:00 until 3:00 P.M. during the winter. From April until October it will be open every day in the week from 9:00 until 5:00.

The main entrance to the pool is on the ground floor facing First Street where there will be an attendant to take admissions. An outside stairway on the west side of the pool leads to the deck surrounding the tank and is for the use of spectators. On each side of the sidewalk leading to the front entrance are two small circular enclosures 18 feet in diameter, one for a flower garden, and the other for a wading pool for small children.

The initial gift of Chase and Co. in 1943 was \$20,000 to be used for public improvements. Another \$10,000 was added. The City also allocated \$10,000 to the fund. Final figures are not yet available on the total cost of the pool, but City officials estimate that it will be nearly \$50,000 including furnishings.

After the war, the pool project lagged in the face of rising building costs, but was the subject of continued debate by City Commissioners. Various PTA groups began to demand action and the Rotary Club made the building of a pool their Number 1 objective.

In February, 1948, the Jaycees, led by Jack Ratigan, got into action. Mr. Ratigan was chairman of a pool committee, and also represented Rotary's Community Service Committee. He contacted builders and architects, among them Donovan Dean, and with committee members visited other cities where pools had been built and presented his findings to the city.

For a time, after the City Commission again took up the idea, pool walls of reinforced concrete block were considered, but when bids were received, it was found that little saving could be made by that untried method. Poured concrete, reinforced with steel, was then decided upon.

SHUFFLEBOARD FANS COMPETE IN TOURNAMENT

More than 400 visitors from cities throughout Central Florida flocked to the Florida Northern District Tournament, Jan. 11, at the Sanford Shuffleboard court where players from eight cities competed in order to select men's, women's and mixed teams to play at the State

Tournament at St. Petersburg. DeLand came out on top with four out of six winners comprising the three top teams. The Sanford Tourist Club was host to the visitors, and entertained them at a big luncheon at the Tourist Center. Players from DeLand, Sanford, Daytona Beach,

New Smyrna, Lake Helen, Orlando, Eustis and Orange City competed. The ten shuffleboard courts are located on Sanford's lakefront in Ft. Mellon Park, and are equipped with every modern convenience. L. C. Hughes heads the shuffleboard division of the Sanford Tourist Club.

Truman Asks For Reduction In Excise Tax

Congress Also Asked To Boost Levies On Big Corporations By One Billion Dollars

WASHINGTON, Jan. 22.—President Truman sent Congress a tax program today calling for a cut in excise or "sales" levies, plugging of loopholes, and a billion-dollar boost in taxes on corporations, estates and big gifts.

In a special message, Mr. Truman did not say specifically how much reduction he thought should be made in the excise taxes. But he said cuts are "most urgently needed" in the taxes on freight, railroad and bus tickets, long distance telephone and telegraph bills, and "the entire group of retail excises, including such items as toilet preparations, luggage and handbags."

Mr. Truman did specify that these should be cut "only to the extent that the loss in revenue can be recouped by eliminating the tax loopholes which now permit some groups to escape their fair share of taxation."

He said the biggest "loophole" is "the excessive depletion" exemptions now enjoyed by oil and mining interests, adding:

"Under these exemptions, large percentages of the income from oil and mining properties escape taxation, year after year. Owners of mines and oil wells are permitted, after deducting all costs of doing business, to exclude from taxation an amount of depletion as much as half of their net income."

As to business, the President recommended:

A "moderate increase" in the tax rate applicable "to that part of a corporation's income which is in excess of \$50,000." At the same time he recommended that the tax rate on corporate income between \$25,000 and \$50,000 which is now taxed "at the excessively high 'notch' rate of 55 per cent, be reduced to the same rate as applies above \$50,000."

He proposed that estate and gift tax laws be revised to provide uniform treatment and reduce present exemptions so as to "not only bring in more revenue, but to improve the fairness of the estate and gift tax laws."

and J. Roy Ball, program chair, 1945.

January Building Permits Up 300%

Building permits, totalling \$231,222 have been issued so far in January, presaging another record-breaking year for construction in Sanford, John Gillen, City building inspector, revealed this morning. This is already nearly three times the January, 1949 total of \$82,502.

Home building projects directed by William Phillips account for \$181,000 of the total and include permits for 22 new homes; one valued at \$10,000; three at \$9,000 each and 18 at \$8,000 each. Ten of the homes will be built in the Pinhurst area near Seminole High School and 11 homes on Palmetto Avenue between Twenty-fifth and Twenty-sixth Streets.

JAVA GUERRILLAS
JAKARTA (Havre), U. S. I. Monday, Jan. 23. — (AP) — Indonesian rebel guerrillas, led by a former Dutch captain, today attacked the west Java capital, Bandung, and seized key points in the mountain city of 170,000 population.

Tourist Club Plans Recreational Activities For Winter Visitors

Social and recreational activities of winter visitors in Sanford center around the Tourist Club, which affords ample facilities for dinners, parties and indoor games and entertainment, and which has been made available for this purpose by the City and the Seminole County Chamber of Commerce.

The union of two formerly separate organizations last July, the Tourist Club and the Shuffleboard Club, plus the placing of the former USO building at their disposal has resulted in an active club with a membership of more than 175.

D. F. Scudder of New Britain, Pa. is president.

Mr. Scudder was elected on Jan. 1, together with W. E. McMaster, Memphis, Tenn., vice president, and Mrs. H. W. Tench, secretary. Prior to the tourists taking over the new organization as planned, John Senkarik, Jaycees president, served as temporary president of the club, which was composed of 38 local citizens, including leaders of the two unifying organizations.

The club, which was composed of 38 local citizens, including leaders of the two unifying organizations City put the 10 courts in perfect condition, added rest room facilities and put up wind breaks. An

outstanding event recently was the district shuffleboard tournament held here by eight clubs, bringing a total of more than 400 visitors to Sanford from neighboring cities.

Prior to the coming of the tourists, the local group installed wall lights in the 40 by 80 hall under the direction of Mrs. A. C. Starke, while a group of women under direction of Mrs. Pearl Beese, sewed light new covers for the seats.

The Tourist Group under Mrs. Senkarik started right out with a season of fun and good fellowship, including a picnic at San Lando Springs. This was followed by a Halloween Party. On Armistice Day the whole group was escorted in the big parade aboard a bus provided by H. A. Allen, and later held open house at the Tourist Center.

Other outstanding events have included the Thanksgiving Day tea; Christmas Cantata presented by the Junior High School singers under direction of Mrs. Evar Price; the Seminole High School Glee Club concert with Miss Ollie Reese Whitlie, directing; a Christmas party staged by the Pennsylvania delegation; the Townsend Club party attended by 250, on

Dec. 23 and featuring the Duxbury School of dancing. Programs directed by the Sanford Home Demonstration Club under Miss Lila Woodford, county home demonstration agent, have been enjoyed.

Present plans call for a series of amateur night programs, and many trips and outings are in store for visitors. New dishes have been provided by the Chamber of Commerce, also many other facilities for holding meetings and suppers.

The Sanford Tourist Club was organized in November, 1946 with a membership of about 75 to begin with, and ended the season with 135. F. A. Eaterly was president. Carl Eisenhower was secretary.

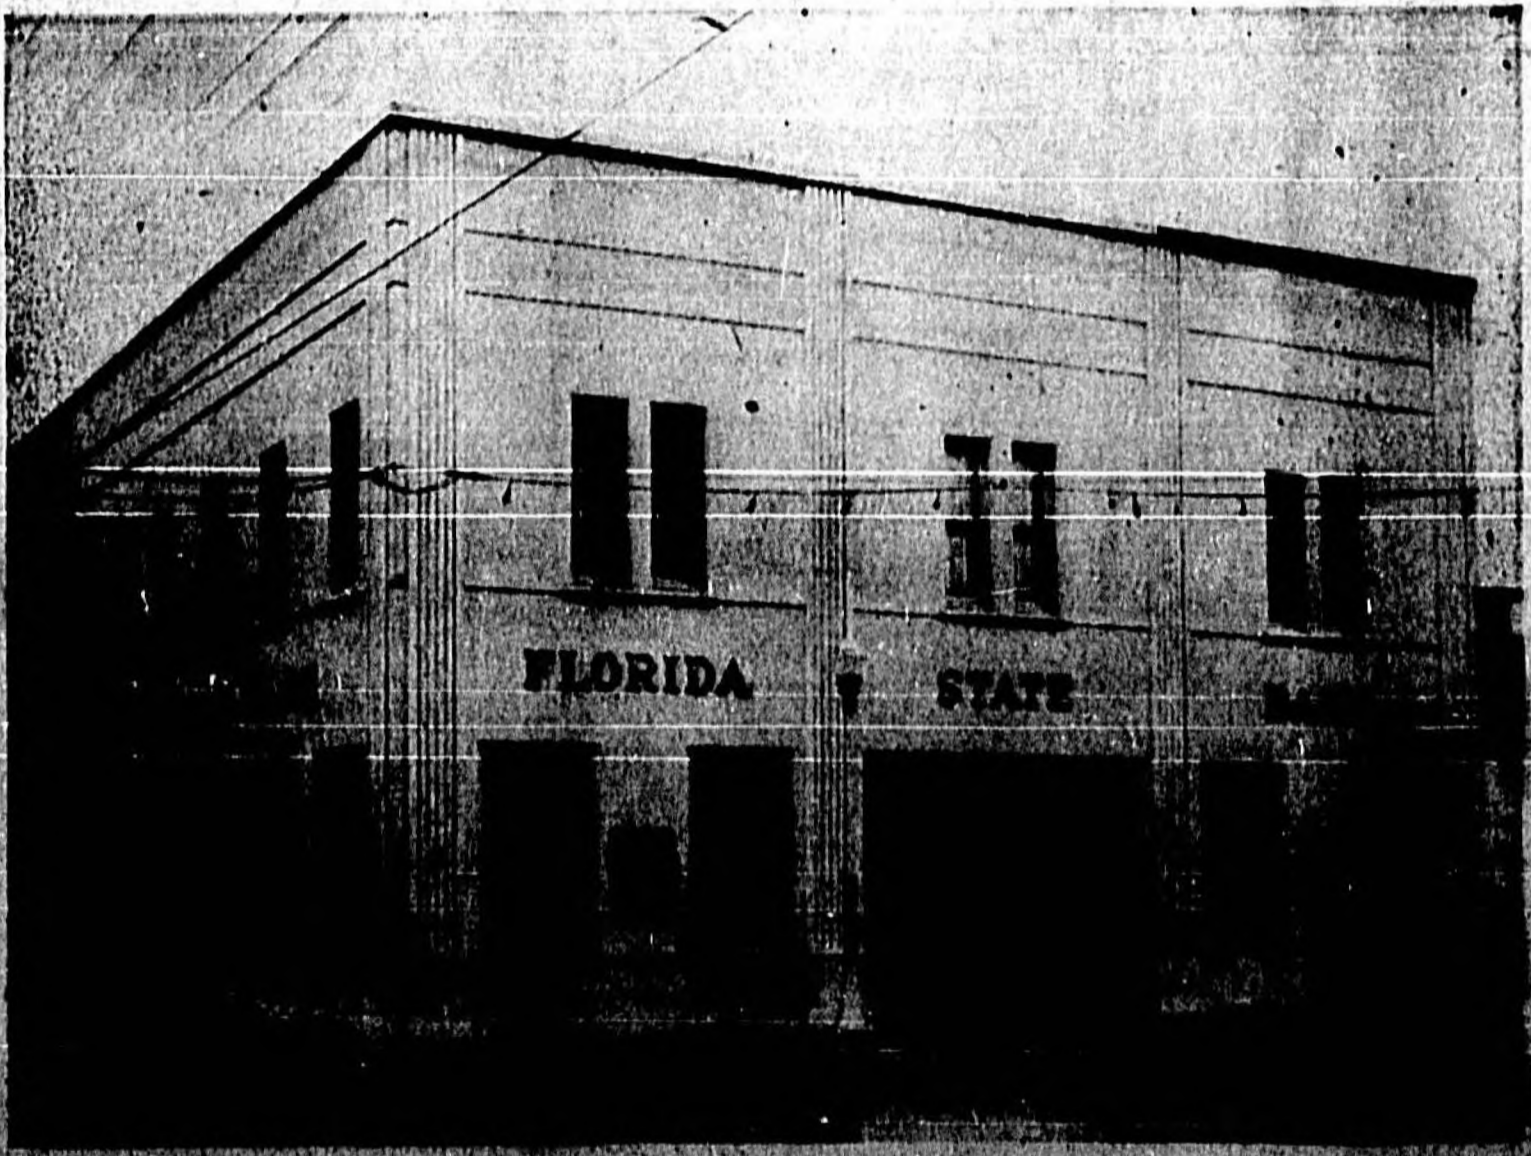

Many good times and outings were enjoyed under direction of E. M. Armitage, Chamber of Commerce director of tourist activities. He also directed the work during the following season.

The Sanford Shuffleboard Club, which this year joined the new organization, met prior to this season at the former headquarters and courts on Palmetto Avenue.

Former presidents were Tom Vernon and Carl Eisenhower. A. C. Madden was secretary-treasurer.

and J. Roy Ball, program chair, 1945.

ICC Hearing Will Be Held On Barge Line; Tourist Influx Grows

Norfolk Company Applies For Permit To Operate Service To Eastern Ports

Over 700 Visitors Are Now Staying At Fellowship Front

C. Of C Manager Estimates 500 Percent Growth In Sanford Tourist Business

Prospect for an early inauguration of freight service on the John River will portend a rate differential between Sanford and eastern seaports loomed today as Manager Ed Higgins of the Seminole County Chamber of Commerce announced that an Interstate Commerce Commission hearing will be held in Sanford at the Mayfair Inn on Jan. 30 and 31.

More than 700 visitors from the north, many of them elderly and seeking new vitality in the sunshine of Florida, are comfortably quartered at modest cost at the Fellowship Front, a Christian colony which welcomes members of all denominations to the nine buildings which it occupies at the Municipal Airport.

The tourist business is one of the fastest growing industries we have in Sanford, Manager Ed Higgins of the Seminole County Chamber of Commerce pointed out today as he estimated that there are more than 2,500 winter visitors in this city.

The hearing will consider the application of the Marine Transportation Co. of Norfolk, Va. to operate a barge service over the inland waters between Sanford and Trenton, N. J. This company has made an extensive investigation of available tonnage here and is satisfied with the business outlook, Mr. Higgins said. It has already purchased the operating rights of the McLeird-Carolina Company from Trenton to Jacksonville.

During the past year, more than \$75,000 was spent by the Foundation to convert the former barracks at the former Naval Air Station into comfortable apartments and rooms, according to C. A. Maddy, manager. Eight buildings have been converted into annexes, partitions installed, and new plumbing facilities installed. In Annex No. 8, apartments have connecting balconies.

"Back before the war," he said, "we never had more than four or five hundred winter visitors, and in 1940 it had not reached a peak of 500 for that year. By means of advertising, providing plenty of recreational facilities and more accommodations, and by helping to entertain our visitors, we now have more than 2,500 in Sanford."

The main building, formerly used as officer's quarters, is known as the Homotel and houses 170 or more elderly people from many states. A branch Post Office is located nearby and the Fernald Loughton Hospital is only a block away. The Homotel has its own dining room and kitchen and on Saturday night, "patent night" is observed there.

Other portions of the building contain a large dining room seating nearly 350 at a time. More than \$2,500 in new equipment has been added to the former Navy kitchen.

Inspiration meetings and religious services are held nightly in the chapel, and a 100 day camp meeting program was started on Thanksgiving. Appearing currently as an evangelist is a full-blooded Indian, Chief Charles Pamp of Michigan. Much enjoyment is derived from the spiritual singing of the O. C. Rushing family of ten from North Carolina, and the De Rushing family which has just returned from radio engagements in Detroit and Kansas.

The construction of docks and warehouses here is expected to be financed by the Reconstruction Finance Corporation with the issuance of \$300,000 in revenue certificates, and should be completed by next November. On Jan. 10 the City Commission approved a resolution, previously adopted by the Board of Directors of the RFC, stipulating the terms of the loan.

More than \$35,000 has been spent on the former Navy Mess Hall building which has three wings, one of which has been converted into a chapel, another into dormitories for teachers and students of the Fellowship Biblical College which trains missionaries and which has about 25 students. Musical instruction is included in the course.

Further emphasizing the value of the tourist business to Sanford, W. A. Patrick, president of the Chamber of Commerce, added that the construction of terminal facilities on the St. Johns River here will furnish Sanford with cheaper freight rates to the market centers of the North and should provide greater industrial and commercial opportunities for those making investments in this part of the state. He said that Sanford is on the threshold of its greatest agricultural and industrial development and that those who invest here now will be getting in on the ground floor.

This resolution has been sent to the legal firm of Caldwell, Marshall, Trimble and Mitchell in New York City who will draw up the authorization for the issuance of revenue certificates. The matter then goes to the Circuit Court and the State Supreme Court for validation.

The George Barr School of Typing, is quartered in England Hall this year through arrangements made with Mr. Maddy, and Miss Osis England, general superintendent of the Foundation. Charles E. York, a member of the Foundation, is chief. The building, formerly the Marine Barracks, has a dining hall seating 150 and kitchen. The former Navy Administration Building, now the Castle Apartments, contains a number of comfortable apartments.

Mayor Andrew Carraway extended an official welcome to all tourists in Sanford and said that the City is doing, and will continue to do, everything in its power to promote the welfare and happiness of Sanford's visitors. He expressed his appreciation for the co-operation of the New York Giants in advertising Sanford and in helping to bring tourists here and said that an even more flourishing tourist business could be expected next year.

The terminal will include a one-story concrete block warehouse, 300 feet wide along the waterfront. This will have a concrete floor built at truck level.

The Fellowship Foundation was incorporated two years ago and is an outgrowth of the West Virginia Training School of which Miss England was a co-founder, and Intercession Institute, which for 14 years was located near Kissimmee. A branch colony was recently established by the Foundation at former Air Base buildings at Drew Field, Tampa, and about 75 people are quartered there.

Jack Hall, president of the Sanford Merchants' Association, said that Sanford is a trading center for more than 250,000 people in Central Florida, and added that winter visitors will find here modern and attractive stores run by progressive merchants who give quality merchandise at prices which cannot be exceeded anywhere else. He also said that local business men are busy in dealing with their customers and extend a cordial welcome to all visitors.

The warehouse will be equipped with the latest devices for loading, including fork lift trucks, conveyors and other machinery for cargo handling.

The completion of a 12 foot channel in the St. Johns River from Sanford to Palatka in 1948 opened important new possibilities for navigation and commercial development for Sanford and Central Florida.

One of the most active organizations in Sanford in promoting the tourist business has been the Junior Chamber of Commerce, whose president, John Senkarik, was until recently also president of the Tourist Club. The Jaycees maintain a Tourist Information Booth at Park Avenue and the Lakefront Boulevard and a full time secretary who is always ready to furnish helpful information to tourists and to assist them in any way possible with their problems.

The present building will be reinforced with sheet steel piling and the floor of the warehouse will extend to the outer edge of the concrete wall where the water in Lake Monroe will be 12 feet deep. A large tract of land, extending 1,200 feet on the lake front west of French Avenue, is owned by the City and several years ago was raised to proper level by pumping sand from the lake in order to provide a site for the project.

The former Navy Administration Building, now the Castle Apartments, contains a number of comfortable apartments.

Florida banks—with nearly one and one-half billion dollars stacked in their deposit vaults—are leading the Sixth Federal Reserve District in overall financial activity.

400% Increase In Bank Deposits Made In 10 Years

Savings And Loan Association Increases Over 1700 Percent

Seminole County bank deposits have increased nearly 400 percent in the last ten years. With total deposits of \$2,232,403.91 in the three banks which comprise the county's banking system, the total is a gain of \$4,222,380.39, or 228 percent, over the \$1,810,023.52 reported by the four banks, including the Citizens Bank of Oviedo, organized in 1940, or an increase of 232 percent.

ACL Supplanting Its Steam Engines With New Diesels

Sanford is a division point for the Jacksonville district of the Atlantic Coast Line Railroad, a major shipping point for fruits and vegetables.

The Sanford Atlantic National Bank, organized here in 1928 as an affiliate of the Jacksonville Atlantic National Bank, had deposits of \$1,712,603 in 1940. These had increased 200 percent to \$5,151,932.26, representing an increase of 100 percent for the ten year period.

Two Boys Are Hurt In Highway Accident

Florida Banks Lead Entire Southeast

Two 14 year old boys were injured Saturday afternoon when their motorcycle was forced against the guard rail of a curve on Colony Avenue, east of the Ball Park, by a west bound truck which approaching from behind, hit the motorcycle. Identity of the driver is being sought by police.

Floridians' Earnings Are Up \$2.29 In Year

AAAS Dispute

Average weekly earnings of Floridians in November increased \$2.29 over the same month of 1944, the State Industrial Commission reports.

TODAY'S BIBLE VERSE: Life's greatest gifts are all free. Parental love cannot be repaid... We cannot repay but we can pass them on...

Getting out a special edition is like having a baby, especially when it is a Caesarian and the doctor doesn't arrive in time.

Last year our little county of Seminole produced one-third of all the celery grown in Florida by actual value. The figures were: for Seminole, \$5,352,000; for all the rest of the state \$10,542,000.

If we had ventured the prediction in 1940 that Sanford would double its population in the next ten years and the deposits of the First Federal would increase 1,770 percent, everyone would have said we were crazy.

Florida's outstanding young men for 1949 as selected by a State Junior Chamber of Commerce committee include C. Ferris Bryant who spoke before the Sanford Jaycees recently on the Hoover Commission Report.

Building permits for the 1950s, as well as for 1950, are starting out okay. During the first three weeks of this month permits totaling \$231,222 were issued by the City, an increase of nearly 300 percent over the same period last year.

Now is the time to buy real estate in Sanford. Taxes are going to be reduced and property will be in a greater demand than ever. Sanford will receive some \$75,000 or \$100,000 as its share of the State cigarette tax money.

Not only have Sanford banks made nearly a 400 percent gain in deposits during the past ten years, but Florida banks as a whole are leading the entire southeast in total deposits and investments.

Biggest industrial development in the Southeast during the past year was the construction of the Coca River Newsprint Co. mill near Birmingham, Ala. which began operation last week. Built at a cost of \$32,000,000 most of which was supplied by Southern publishers.

Some of the achievements of the past decade, Sanford has many prospects for the future which will add greatly to this city's growth and prosperity.

It is a good thing, it seems to us, once a year to dwell momentarily on the beauty that surrounds us. It is the duty of a newspaper to try to point out everything that is beautiful in that world.

A Decade Of Progress

The march of progress may at times be indistinct, but it is inexorable. A new family moving in next door is without significance. The opening of a new store on First Street seems meaningless.

There was some comment at the time about the construction of the new municipal airport. It was known as "Higgins' Folly", until the Navy took over.

But it is only as we look at Sanford over the long pull, as we compare the figures for 1940 with the figures for 1950 that we fully realize what has happened.

In 1940 we had no tourist business at all worthy of the name. Scarcely a handful of people came here to spend the winter.

The Sanford State Farmers Market sold 1,703,926 units of produce last year for \$4,625,640, an increase of 203 percent in unit sales, and 642 percent in dollar value over 1940.

Meanwhile, Post Office receipts jumped from \$44,911 in 1940 to \$670,807 last year, an increase of 1,413 percent, making it the fastest growing post office in the United States.

An indication of the growth of population is the increase in the number of customers of the Florida Power & Light Co. In 1940 there were 2,902; now there are 5,114, a gain of 76 percent.

What of the future? Sanford has just begun to grow. Those who come here now will be getting in on the ground floor.

Why Special Editions?

The Herald's annual mid-winter tourist edition which we are publishing today with twice our usual circulation and seven times the size of our usual paper, consists of seven sections totaling 56 pages, and contains 121 advertisements.

We are sorry that we could not publish all of the photographs which were submitted to us. Some of them were too small, too old, or otherwise too indistinct to make good engravings.

Such special editions as this one require a good deal of money to produce. The cost of the newsprint alone amounts to \$400. The cost of the pictures is another \$500.

The purpose of this tourist edition is to sell Sanford. Thousands of copies will be mailed to every state in the union and to several foreign countries.

We hope that this edition of The Herald will help to convince them that Sanford and Seminole County is the place for them. Without deliberate falsification or exaggeration we have used every argument we could think of to show them that Sanford is the best city in Florida.

Be this as it may, whether or not this tourist edition serves to convince anyone else of the virtues of our city, if it succeeds only in selling Sanford to Sanford people, it will have proved its worth.

It is a good thing, it seems to us, once a year to dwell momentarily on the beauty that surrounds us. It is the duty of a newspaper to try to point out everything that is beautiful in that world.

THE NATION TODAY

By CHARLES MOLONY (For James Marlow)

WASHINGTON, Jan. 22.—The year Congress is in session has changed the Social Security law in several ways.

The main changes being talked about would increase Social Security payments—particularly on old age pensions—and bring more people under the law's protection.

That's because the Senate right now—with the House bill in front of it—is trying to put together a bill of its own.

If the Senate passes a bill different from that of the House, both houses will have to take the bill, iron out the differences by compromising, and then pass one bill agreed to by both houses.

That's why it's impossible for anyone now to predict exactly what changes there may be in the Social Security law.

At this moment one thing seems certain if the law is changed: that the size of old-age pensions will be increased.

The House-passed bill would do that. The Truman Administration urged it as recently as last week through Arthur J. Altmeyer, commissioner for Social Security.

This council, headed by the late Edward R. Stettinius, Jr., and composed of 17 educators, businessmen and labor leaders, was appointed by the Senate on Sept. 17, 1947.

Its job was to study the Social Security program and make any recommendations to the Senate. It thought necessary for improving the present law.

The report and recommendations of this council submitted last Dec. 1—are the basis on which the Senate now is preparing to work out a bill of its own, plus what ideas it gets from the House bill, Altmeyer, and others.

The council, the House bill and Altmeyer all recommend widening the coverage of the law to bring

under its benefits people not covered now, besides increasing certain benefits, like old age pensions.

While the Social Security act was passed in 1935, the last major change was made 10 years ago.

The maximum old age pension a worker can receive now when he reaches 65 is around \$45 a month.

Since a retired worker's wife receives half the size of his pension when she reaches 65, the most a retired covered worker and his wife can receive now is about \$72.50 a month (\$45 for him, \$27.50 for her.)

But not all workers are covered by the pension. What the uncovered ones reach 65, they get nothing.

Around 35,000,000 workers now are under the old-age pension system, 25,000,000 are not.

Altmeyer, expressing the President's views, says 20,000,000 of the 25,000,000 workers not covered by old-age insurance brought into the program. This is about 9,000,000 more than the House-passed bill would bring in.

About 2,000,000 of the 11,000,000 men and women 65 or older in this country are getting old age pensions.

Altmeyer, expressing the President's views, says 20,000,000 of the 25,000,000 workers not covered by old-age insurance brought into the program.

About 2,000,000 of the 11,000,000 men and women 65 or older in this country are getting old age pensions.

MONDAY

The Tourist Club will sponsor an amateur night at 8:00 P. M. They invited all persons to group to participate.

The Sanford Story League will hold its monthly meeting and dinner in the Anchor at 7:00 P. M.

The Pilot Club will hold its all of the First Baptist Church will be at 7:00 P. M. at the church.

TUESDAY

The chapel choir of the First Baptist Church will rehearse at 6:45 P. M. at the church.

The Pilot Club will hold its business meeting in the Yacht Club at 8:00 P. M. to be preceded by the board meeting at 7:30 P. M.

The Junior Women's League of the Congregational Church will meet at the home of Mrs. Bunner Carter on West First Street at 8:00 P. M. All members are urged to be present.

Around the Town

MR. and MRS. BILL BRIMLEY driving happily along Daytona Beach on Sunday. Nice to see KIRBY FITE out following his consilicatory. FRANK FORTH walking along First Street. SHEILA O'CONNELL driving her fiance DR. VINCENT ROBERTS around town in his nice looking convertible. We want to thank all the girls who were so nice about having their pictures taken at the new municipal swimming pool on Thursday morning. Also GEORGE BARR who cooperated by having Empire School students present. He was awfully proud of the fact that not a wolf whistle was heard when the girls appeared in bathing suits. All our best wishes to JANE GILMOUR who was married yesterday afternoon in Vero Beach. DAHNE CONNELLY and BETTY JO BROCK having a coke at McReynolds late in the afternoon. All the Sanford people looking forward to hearing Oscar Levant in Orlando next week.

NANCY COLLUM all excited over her visit with fiance LIEUT. WALTER TURNER this coming weekend at Ft. Benning in Columbus, Ga. REBECCA STEVENS standing outside Powell's Office Supply store late in the afternoon. MINNIE JONES walking home. ED COWAN and his brother having a late snack at Angelo's on Friday night. BILL WALKER calling on customers in Lake Mary on Friday. MISS JEAN DOBBS back at work after a nice vacation in North

Sheila O'Connell Honored With Tea

Miss Sheila Mary O'Connell of Belmont, Mass. was the honor guest at a tea given by Mrs. F. E. Roumillat III and Mrs. F. E. Roumillat at the home of the latter, 910 Palmetto Avenue, on Tuesday afternoon.

Guests were Mrs. W. C. Rumbley, Mrs. J. G. Klintworth, Mrs. J. P. Brooks, Mrs. W. C. Rumbley, Mrs. J. G. Klintworth, Mrs. J. P. Brooks, Mrs. W. C. Rumbley, Mrs. J. G. Klintworth, Mrs. J. P. Brooks.

Personals

J. G. Klintworth has arrived from St. Stevens, S. C. to visit his aunt and uncle, Mr. and Mrs. F. A. Dyson.

Mrs. W. C. Rumbley has left for St. Stevens, S. C., where she was called because of the death of her father J. P. Brooks.

Mr. and Mrs. John Sauls and son Johnny have moved their residence from 2015 Sanford Avenue to their new home at 824 Escambia Drive in Phillip Manor.

Mrs. Katrina Allen of St. Stevens, S. C. has arrived to visit her sister and brother-in-law, Mr. and Mrs. F. A. Dyson and their daughter, Miss Elizabeth Dyson.

Miss Betty Jo Brock, a student at Florida State University in Tallahassee, spent the past weekend in Sanford with her mother, Mrs. Nancy Brock.

Mr. and Mrs. J. C. Hines of Camden, N. J., arrived on Saturday to spend the winter months in Sanford with their daughter, Mrs. Miriam Russell at her home in Loch Arbor.

Mr. and Mrs. Leon Bush and Mr. and Mrs. F. R. Bush of New Castle, Ind. have left for their home after spending a few days with Mr. and Mrs. Myron Smith at their home in Floral Heights.

Friends will be glad to learn that Mrs. Frank Woffler has returned to her home on Lakeshore Boulevard after having been confined to the Fernald Loughton Memorial Hospital with pneumonia.

George W. Carter, manager of the Jacksonville Prudential Agency, and Lloyd Anderson, assistant manager of Orlando, were guests on Friday of Mr. and Mrs. Floyd A. Palmer at their home in Sanford.

Mrs. Richard TenEyck has as her guests her daughter, Mrs. James R. Bond, and Mrs. Seymour W. Collins, both of Toronto, and grandson, Richard Walker. Mr. Walker plans to make his home in Sanford.

Mr. and Mrs. F. L. Jones and small sons Steven and Paul of Washington, D. C. are visiting Mrs. Jones' parents, Mr. and Mrs. Sam Wade 220 West Nineteenth Street and other places of interest

Mr. and Mrs. William Seth Brumley, Jr., popular young couple whose marriage was an event of Jan. 14 at the First Baptist Church. Mrs. Brumley is the former Catherine Louise Odham, daughter of Mrs. Hugh Bradford Odham and the late Mr. Odham. Dr. W. P. Brooks, Jr. officiated at the marriage service at 8:00 P. M. Following the ceremony a reception was held at the Sanford Woman's Club after which Mr. and Mrs. Brumley left for Daytona Beach. They are now making their home in the San Lanta Apartments in this city.

Helen Jane Gilmour Weds Richard Bate

Of interest to many friends in Central Florida is the announcement of the marriage of Helen Jane Gilmour, daughter of Mrs. Helen Schultz of this city, to Richard Burdine Bate of Daytona Beach, son of Mr. and Mrs. Carl Jacob Bate of Winter Park.

The ceremony took place on Sunday afternoon at the First Methodist Church in Vero Beach. Rev. Melton Ware performed the quiet service at 2:00 o'clock before members of their immediate families. White and floral gladiolus palms and lighted tapers formed a lovely background for the ceremony.

The bride was given in marriage by her father, Carl Schultz, Jr., who wore a street length suit of ivory jersey fastened with a sweetheart neckline and a scordin plated skirt. She wore a small white feather trimmed and white lace-trimmed hat. Her hair was styled in a soft, wavy roll. She wore a long, light-colored gown with a full skirt and a high collar. Her shoes were white with a pink and blue color scheme.

The groom was given in marriage by his father, Carl Bate. He wore a dark suit with a white shirt and a dark bow tie. He wore a dark hat with a white band. His shoes were dark with a white stripe.

Serving as maid of honor was her sister, Miss Patricia Schultz, who wore a dress of green tulle with white and gold. Her shoes were green and she wore a couple of tallman shoes.

Best man was Fred Moore of Daytona Beach, who wore a suit of dark gray and a dark hat. He wore a couple of tallman shoes.

The bride's mother wore a two-piece dress of navy blue and white tulle with a white and blue color scheme. Her shoes were white with a pink and blue color scheme.

Mrs. Bate attended Florida State University and graduated from the University of Southern California. She is now employed by the Daytona Beach News-Journal radio station WND as traffic manager.

Mr. Bate attended Rollins College in Winter Park and is a member of the Delta Chi fraternity. He is also associated as an announcer with station WND. Following the wedding, Mr. and Mrs. Bate left for Havana, Cuba, and will be at home after Feb. 1 at 1206 Thompson Place in Daytona Beach.

ina Allen and her nephew J. G. Klintworth of St. Stevens, S. C. who are visiting in Sanford with Mr. and Mrs. F. A. Dyson and daughter Miss Elizabeth Dyson. The group gathered at the Sanford Boat Works at 2:00 o'clock where they boarded the Lee yacht Lolo II and enjoyed a cruise on the St. Johns River.

Late in the evening a picnic supper was served by the hostess assisted by her sister, Miss Elsie Farley. Those invited to be with Miss Allen were Mrs. W. C. Rumbley, Mrs. J. G. Klintworth, Mrs. J. P. Brooks, Mrs. W. C. Rumbley, Mrs. J. G. Klintworth, Mrs. J. P. Brooks.

Mr. and Mrs. Edmund Melsch, Col. and Mrs. Paul J. Chesteron, Mr. and Mrs. Dyson, Mr. and Mrs. H. N. Sawyer, Mr. and Mrs. J. H. Trubick, Mr. and Mrs. W. B. Dyson, Mr. and Mrs. W. B. Dyson, Miss Elizabeth Dyson, Miss Elsie Farley.

B & PW Club Honors Barr Umpire Pupils

Members of the Business and Professional Woman's Club were honored on Friday night for a dance honoring student at the Barr Umpire School. The Flight Deck at the Municipal Airport was the scene of the party which began at 8:30 P. M. Miss Mildred Williams served as chairman of the committee for arrangements. A color scheme of green and white was used in decorating. The entire side of the large hall was spelled out in white crepe paper pennons. White flowers and greenery and green and white paper streamers were used in decorating throughout the rooms. Dancing was enjoyed during the evening to the music of a juke box and sandwiches, cookies and soft drinks were served. Chapin

Harry Lees Honor Guests With Party

Mr. and Mrs. Harry Lee entertained yesterday afternoon with a boat party honoring Miss Kathleen Lees. Guests were Mrs. Eric Vihlen, Mrs. Blanche Stringer, Mrs. Alice Steenworth and Miss Elsie Farley.

SHIP AHOY and WELCOME!

Mr. and Mrs. Tourist you haven't seen Florida until you have visited Sanford. Situated as it is on Lake Monroe, it is ideal for cruises along the St. Johns River--the most picturesque trip one could ask for... Plan to spend most of your vacation here -- you will never regret it.

115 Student Umpires Are Enrolled At George Barr's Umpire School

Major League Greats On Hand To Assist Barr In Giving Instruction To Men

National League Umpire George Barr was warmly welcomed by Mayor Andrew Caraway and other citizens of Sanford, up on the occasion of the re-opening of the George Barr School of Umpiring last Wednesday afternoon, beginning its fourth season here with 115 students. About 35 visitors were also present in the class room at the former Marine Barracks at the Municipal Airport.

Deeply touched by the friendly tributes, and by gifts of flowers and stacks of oranges for his students, Umpire Barr declared, "Without a doubt, the people of Sanford are the most friendly and co-operative group I have ever come in contact with."

Umpire Barr expressed delight with the new accommodations which include the whole of the former Marine Barracks including dining room and kitchen and dormitories that will house more than 150. He gave a pep talk to the students and outlined some of the program ahead.

"Frosty" Peters, assistant to Umpire Barr, welcomed the students and introduced other umpire assistants including Bill Brockwell, W. E. Mohs and Frank Tabacchi.

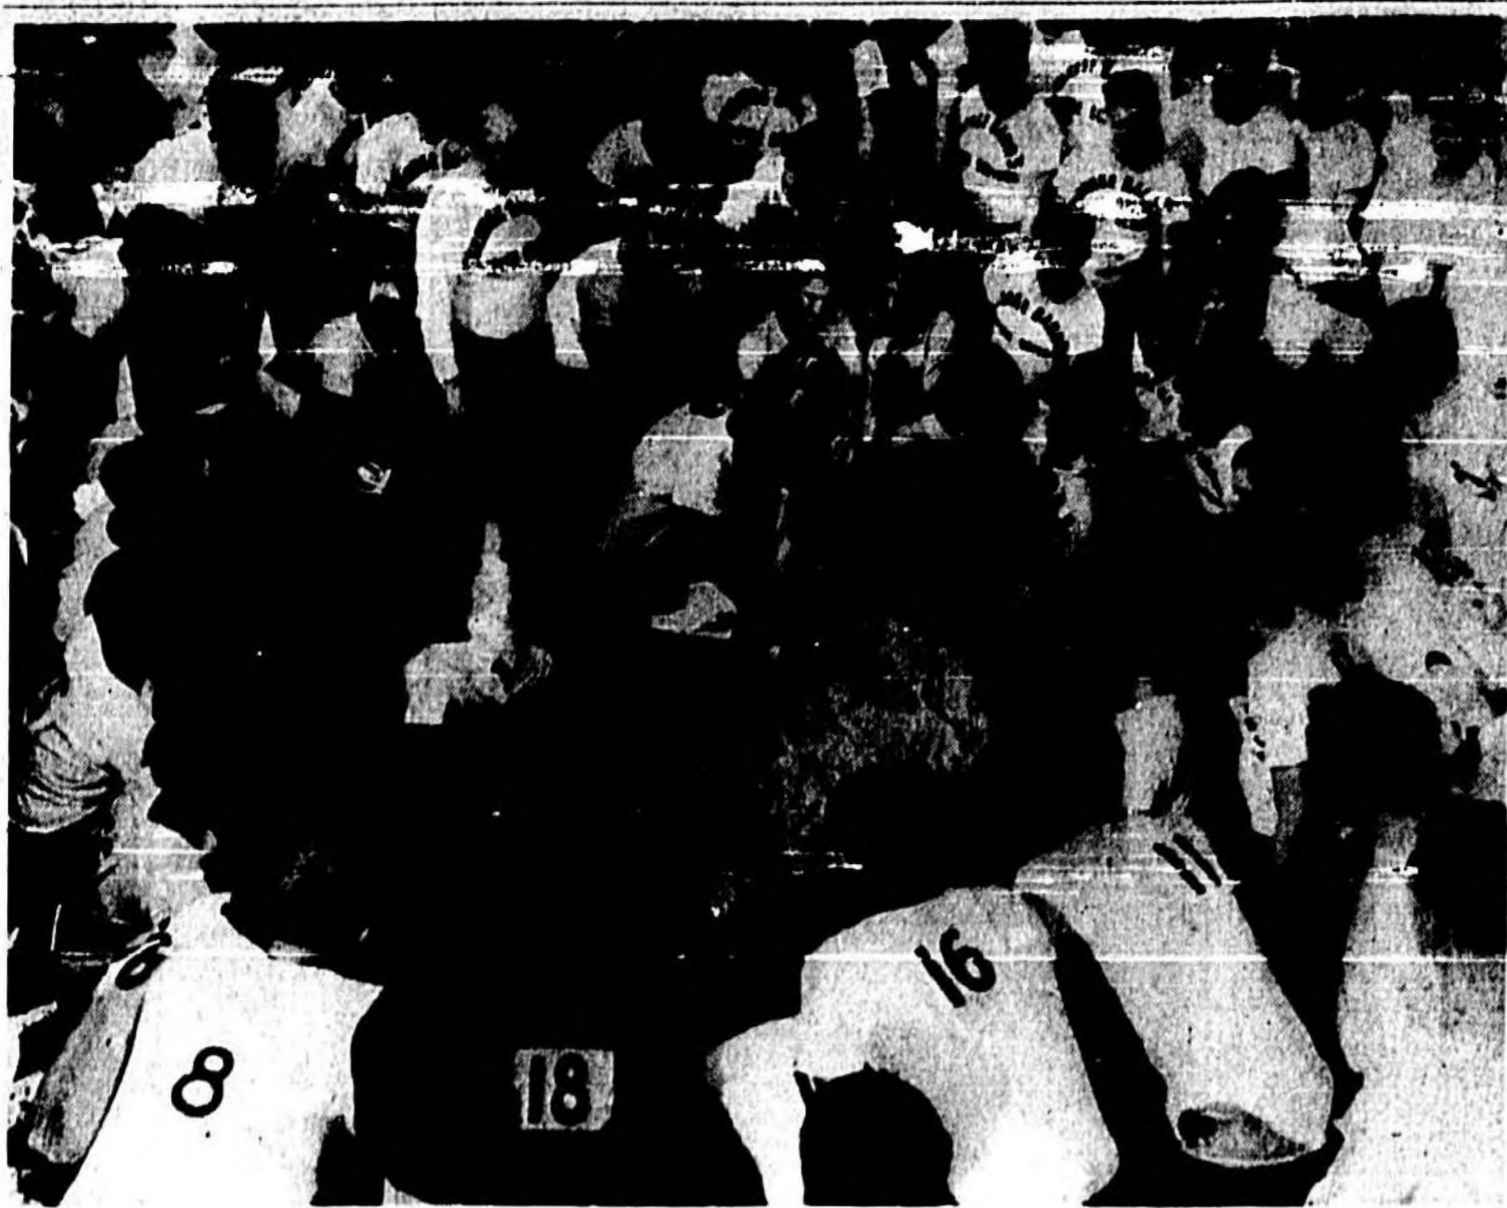

Mr. Barr, himself a world renowned National League umpire, arrived in Sanford on Jan. 11 to make preparations for the opening of his school at the Municipal Airport on Jan. 18. Included in the enrollment are a number of pupils from several foreign countries.

This has resulted from the Army's recreation program which includes baseball and consequent need of trained umpires. So far two Army applications have come from Japan; two from Australia and two from the territory of Hawaii. Last year the Army held its "World Series" at Ft. Benning, and Barr-trained umpires officiated.

Well pleased with the new living and classroom facilities provided at the former Marine Barracks, Mr. Barr predicted that with instructors and wives, more than 150 persons would be quartered there. Even dining room facilities are available, and Charita York, cousin to the famous Sgt. York, is serving as chef.

Among the instructors is Claude Passero, who once pitched a one-hitter against Detroit for the Chicago Cubs in the World Series.

Other noted instructors include: Frosty Peters, who is well-known in Sanford; W. E. Mohs, umpire in chief of the K.O.M. League; Bill Brockwell, umpire of the Big State League; Frank Tabacchi of the International League; Hillery Bothel of the K.O.M. League; Jack Fette, American Association umpire and formerly of the Western League, is coming down

HE'S OUT!

By Raymond Studio

as a pupil to "brush up" with a bit of post graduate work. Mr. W. E. Mohs will serve as secretary.

Mr. Barr brought his school here from Orlando three years ago and during the first season his class at the former Marine Barracks totalled 92, a record for the school. During 1938 he turned out 111 umpire graduates and last year graduated 99. More than 115 are enrolled already this year, according to Dick McLaughlin, southern representative for Mr. Barr.

For Sanford likes George Barr and George Barr likes Sanford. With characteristic umpire directness in making a decision, he announced that fact when, three years ago, he established his

umpire school here. "The people of Sanford are the most hospitable I have ever met in all of my baseball days," he declared. "When I decide to retire from active umpiring I can think of no place I would rather live than in Sanford, and I plan to make my home here after retiring from the profession."

Upon arrival here he gets many hearty greetings from citizens that make up for the abuse sometimes received from fans in such nerve straining contests as the

umpire has to be the target for a lot of verbal abuse, and perhaps a few pop bottles for good measure, from his severest baseball critics, and that perhaps explains the joy that he shows about the 11th of every January when he arrives to re-open his school of umpiring at the Municipal Airport.

Sanford To Vote Mar. 7 On Plan To Build Stadium

\$145,000 Project For Baseball And Football To Seat 3,500

A major project now being considered in Sanford is a \$145,000 athletic stadium for football and baseball large enough to accommodate over 3,500 persons. A referendum will be held by the City on Mar. 7 to decide whether the people are in favor of such a stadium.

It is proposed to finance the project by entering into a new 30-year franchise with the Florida Power & Light Co. in return for the City would be \$18,000 less in taxes already paid of \$4,000, or a net return of \$12,000 additional.

The Stadium Authority, authorized by the City Commission, on Oct. 10, 1939, of which John Krider, himself a commissioner, is chairman, estimates that the revenues from the new stadium will be approximately \$11,000 a year, and hence that the project should be self-liquidating.

Other members of this committee are Rev. Angus McInnis, Joel Field, W. A. Patrick, Fred Williams, Judge Douglas Stenstrom, George Touhy, J. L. Ingley, Karl's Housholder, and Julian Stenstrom. Chairman Krider later added Hamilton Hisee, H. B. Pope, H. H. Coleman, and E. J. Moughton architect, to this committee.

After inspecting other athletic stadia in this area, including the recently completed baseball park at St. Petersburg, and the \$350,000 stadium in Waycross, Ga., the stadium committee at first asked the construction of a \$165,000 stadium accommodating 4,365 persons, but later lowered its recommendation so that the cost would not exceed \$145,000 with 3,668 seats.

This project would provide in the grandstand 1,100 seats, and 412 box seats for white fans, and 192 seats and 66 box seats for colored fans with 558 white bleacher seats and 340 colored bleacher seats, plus temporary bleachers seating 1,000 more. The plan also includes dressing rooms, sanitary facilities, concession stands and a concourse underneath the stadium for bleacher fans in case of rain.

The committee recommended that the stadium be constructed of steel, because the initial cost for such construction is less than concrete, and can be erected more quickly, can be added on to with less effort and expense and if

By OLAF ZEWADSKI

Tennis fans in Sanford can look forward to more matches in the series of exhibitions being given at the Mayfair Inn courts between Mayfair's tennis pro Bob Kurlander and visiting netmen.

So far, Mr. Kurlander has played exhibitions with such outstanding professionals and amateurs as Eddie and Norman Copeland and Harold Duncan.

Eddie Copeland, one time 8th ranking pro in the country, is vice president of the Eastern Lawn Tennis Association and instructor at the swank Seabreeze club in Daytona. Eddie's brother, Norman, is one of Rollins' College net stars, who is proving that tennis talent runs in the family.

For golf enthusiasts, the good news is that the Men's and Women's Golf Associations in conjunction with the Mayfair Inn are planning an exhibition tournament with Willie Tarnessa and Frank Stranahan as the main contestants.

While plans aren't definite, Arthur Brown of the Mayfair hopes the match can be arranged for the early part of March.

Meanwhile, the Seminole County Club's 18 hole course is buzzing with the activity of men's and women's matches such as the recent Scotch foursome that drew nearly 100 contestants and a large gallery of spectators. Golf pro Mus O'Linger hopes to schedule at least one such tourney a week, and when the member's handicaps are determined a running tourney will be arranged.

Baseball is beginning to come to life again in Sanford as New York Giants farm officials start clearing the way for the influx of nearly 600 baseball players that will begin spring training here next month.

Carl Hubbell, former big league pitcher who has fanned former greats like Babe Ruth, Lou Gehrig and Jimmy Fox, is here now as manager of the Giant's extensive farm training system, smoothing the way for the third annual invasion of baseball talent to Sanford.

The stadium committee decided that the name of the stadium should be "The Seminole County Memorial Stadium", when after presenting the suggestion to the American Legion, the post voted unanimously to place suitable memorials to the war dead on the stadium.

The question as to whether the City should enter into a new 30-year franchise with the Florida Power & Light Co. in return for the 6 percent "kickback" will be voted upon by the people in a referendum on Feb. 21.

Greyhound Racing Track Is Drawing Biggest Crowds

Interest in greyhound racing at the Sanford-Orlando Kennel Club, Inc., at Logwood, nine miles south of Sanford, has increased during the past year to the extent that all attendance records for many years have been broken. Stands, which accommodate 2,000 spectators, have been nearly full every night, and boxes seating 250, have been well filled. The mild weather this winter has required but little use of the heating system in the stands.

The season started on Dec. 28 and will continue until April 12 with 10 races nightly by some of the country's fastest "flying dogs." Occasionally special races between two winning dogs are staged for the effect of sheer speed.

The races are run every night during the season except Sunday. They include the Futurity, a short dash of five sixteenths of a mile and the S. O. K. C. a distance of 1,790 feet, a race occasionally run for special dogs with unusual stamina and endurance.

The race track is easily reached from Sanford or Orlando by following Route 17. Refreshments and light snacks are available at the Club House. Stands and buildings have recently been remodeled and re-decorated.

Barr School

(Continued From Page 8, Sec. 1)
1949 World Series between the Yankees and Brooklyn.

Receiving with pleasure at these friendly greetings, Mr. Barr usually heads straight for the Post Office to meet former Florida State League Umpire Dick McLaughlin, who was instrumental in getting Mr. Barr to locate his school here. He also has a hearty greeting for Postmaster Joe Field, and buddies over with enthusiasm with plans for his umpire school which in 14 seasons has produced 750 graduates who have held positions in organized baseball.

"We have our own ball parks, through the gracious accommodation of the City of Sanford, and everything will be done to make your stay in the Barr School comfortable," he informed prospective umpire students in his talk Wednesday.

The three ball parks, used for outdoor training of Barr pupils, were laid out by the City last year on the north side of the Municipal Airport area. There about 90 trainees could be seen working out every day during the 1949 six weeks' course, and getting pep talks and instruction in the fine points of umpiring from Mr. Barr and his assistants.

Four main factors are stressed by Mr. Barr in his course in umpiring: judgment, knowledge of the rules and tactics. During the opening week, morning, afternoon and evening sessions are given over mostly to lectures, as Barr draws on his 25 years of umpiring experience, 19 of which were spent in the National League.

During the entire course of field drill and practice evening lectures

are held, and play by play appraisal is given by Umpire Barr of the work done on the diamond that day. The students also get a chance to work with the New York Giants' baseball school, officiating at practice games.

The success of the Barr School is evidenced by the fact that 62 graduates in the 1949 class were placed in professional leagues. Among his outstanding graduates are Bill McKinley, American League; Douglas Robb, National League; George MacDonald, regional director of district No. 1, National Association of Baseball; Robert Austin and Lynn Dowdy, International League and others including umpires of the Texas and Southern Leagues.

George Barr was born in Seaman, Kan., and has lived in Tulsa, Okla., since 1915. He started umpiring in the Oklahoma Semi-Professional League where he worked seven games before his services were requested by the Western Association, where he umpired a year.

From 1926 to 1931 when he went to the National League, he officiated in the Texas League. In addition to the 1949 World Series he has umpired in the 1937, 1942 and 1944 series games. In 1946 he was behind the home plate in the 19th inning scoreless tie between Brooklyn and Cincinnati, the longest on record in major league history.

After his arrival in Sanford, Umpire Barr proceeds to make himself right at home and likes nothing better than to attend a club luncheon in company with his assistants, Frosty Peter and Bill Beckwith. At such a luncheon last February he presented a silver card plate to the Kiwanis Club. In presenting

it Kiwanian Edward F. Lane voiced the sentiments of his fellow members when he said, "We wish you many successful years here and hope that your future will be as bright as the Florida sunshine."

Delighted with the gift, Mr. Barr exclaimed that it was the first time he had received such a gift from a civic club. He had

not long to wait, however, for another such gift. About a week later, the prank loving Lions presented him with a white cane and a pair of dark glasses, such as are usually given to the blind. Barr chuckled with delight when handed the gifts by Harry Robson and proceeded to hobble about in imitation of a blind umpire.

MAYFAIR INN

SAN LANTA APARTMENTS

MONTEZUMA HOTEL

PARK APARTMENTS

Good Accommodations Offered To Sanford's Winter Visitors

Hotel apartment houses, cabin courts, and trailer parks in and out of Sanford offer visitors modern, comfortable accommodations in hot, sunny and courteous hospitality for which the location of Florida is especially noted.

Located on Seminole Boulevard and overlooking beautiful Lake Monroe is the Mayfair Inn surrounded by a wide expanse of lawn, palm trees, and tropical shrubbery. A pleasant, homelike structure of Mediterranean type of architecture with a cool, tiled roof and stone exterior and many broad verandas upon which to lounge, the Inn was built in 1925. On Aug. 7, 1949, it was purchased by the National Exhibition Co., owners of the New York Giants.

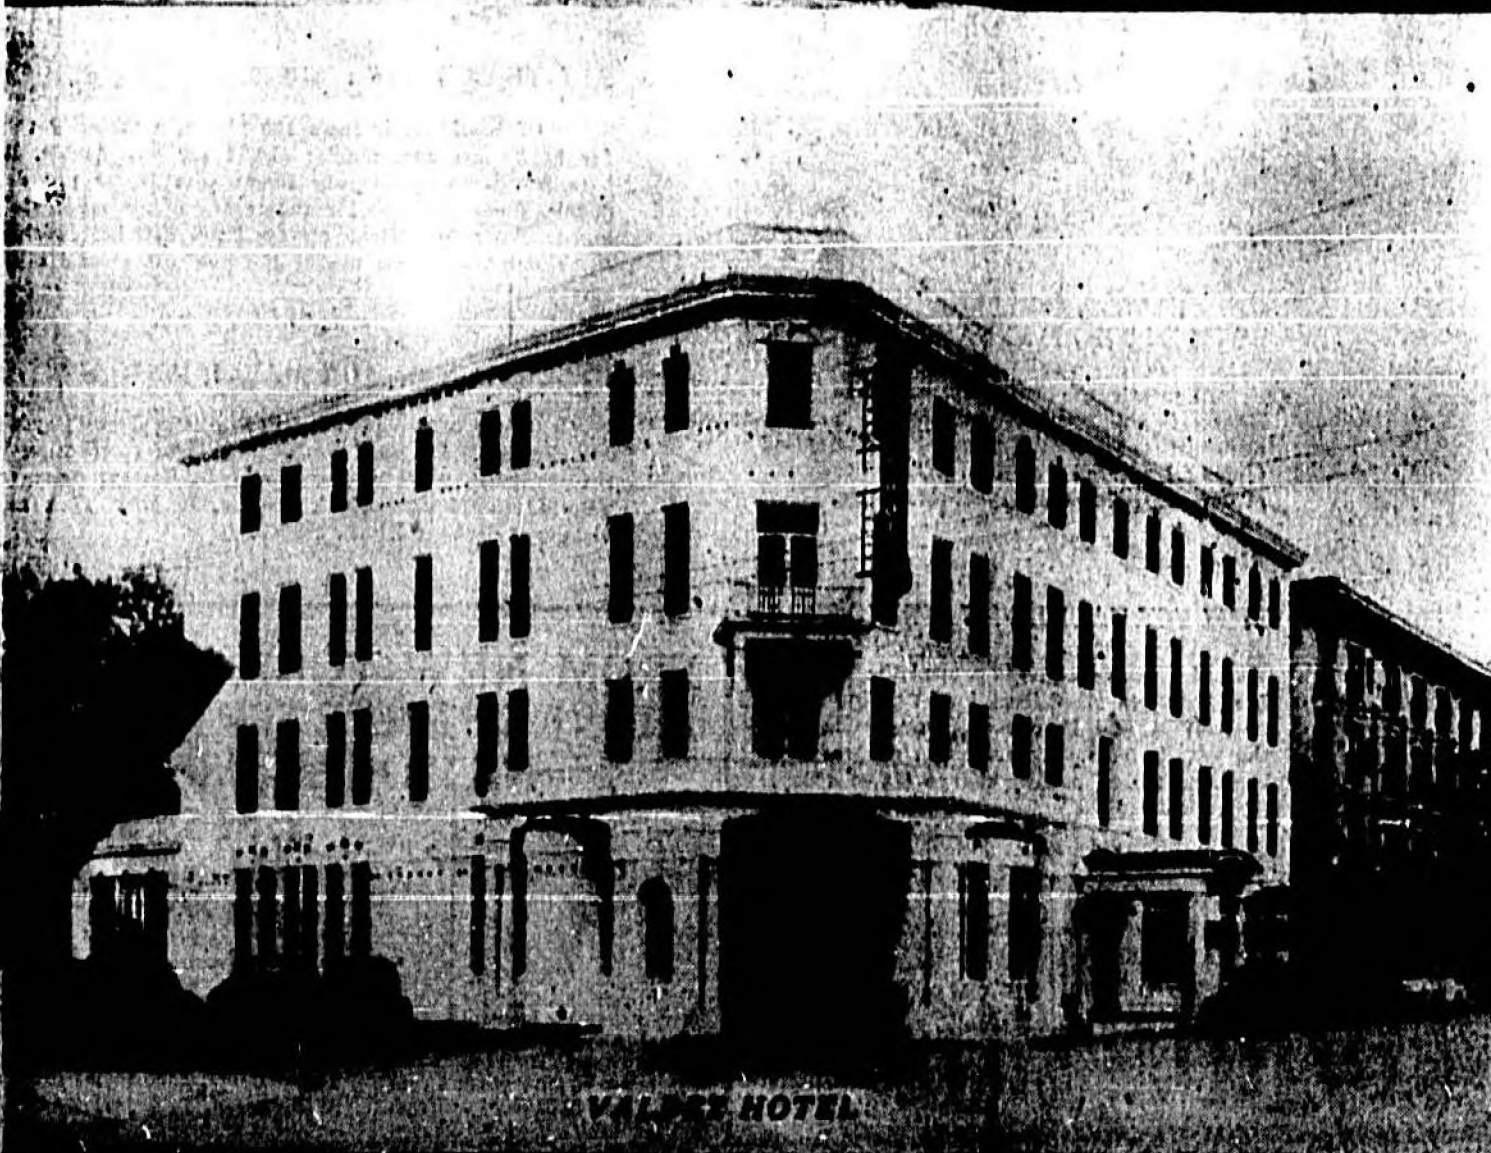

Since Oct. 31, 1949, the Mayfair has been under the management of Charles A. Mason, who for the past 10 years has been associated with the New York Giants ball club, and who has had wide experience in hotel management in resort hotels in New Jersey, New York State and New England. Open from Oct. 1 to April 15, the hotel has averaged about 200 guests a day in its 160 rooms and suites during the present winter season.

Its facilities include a comfortable lobby finished in soft pastel colors, a large dining room and small dining room for private functions, a bath, a card room and a cocktail lounge. Extensive recreation facilities are provided, including a private swimming pool, with a built-in beach where visitors may bask in the tropical sun lines. A walking pool for children is nearby. Tennis may be enjoyed at two well lighted courts, day or night. Visitors at the Inn receive free guest privileges at the Seminole Country Club and golf course, and are provided with free transportation.

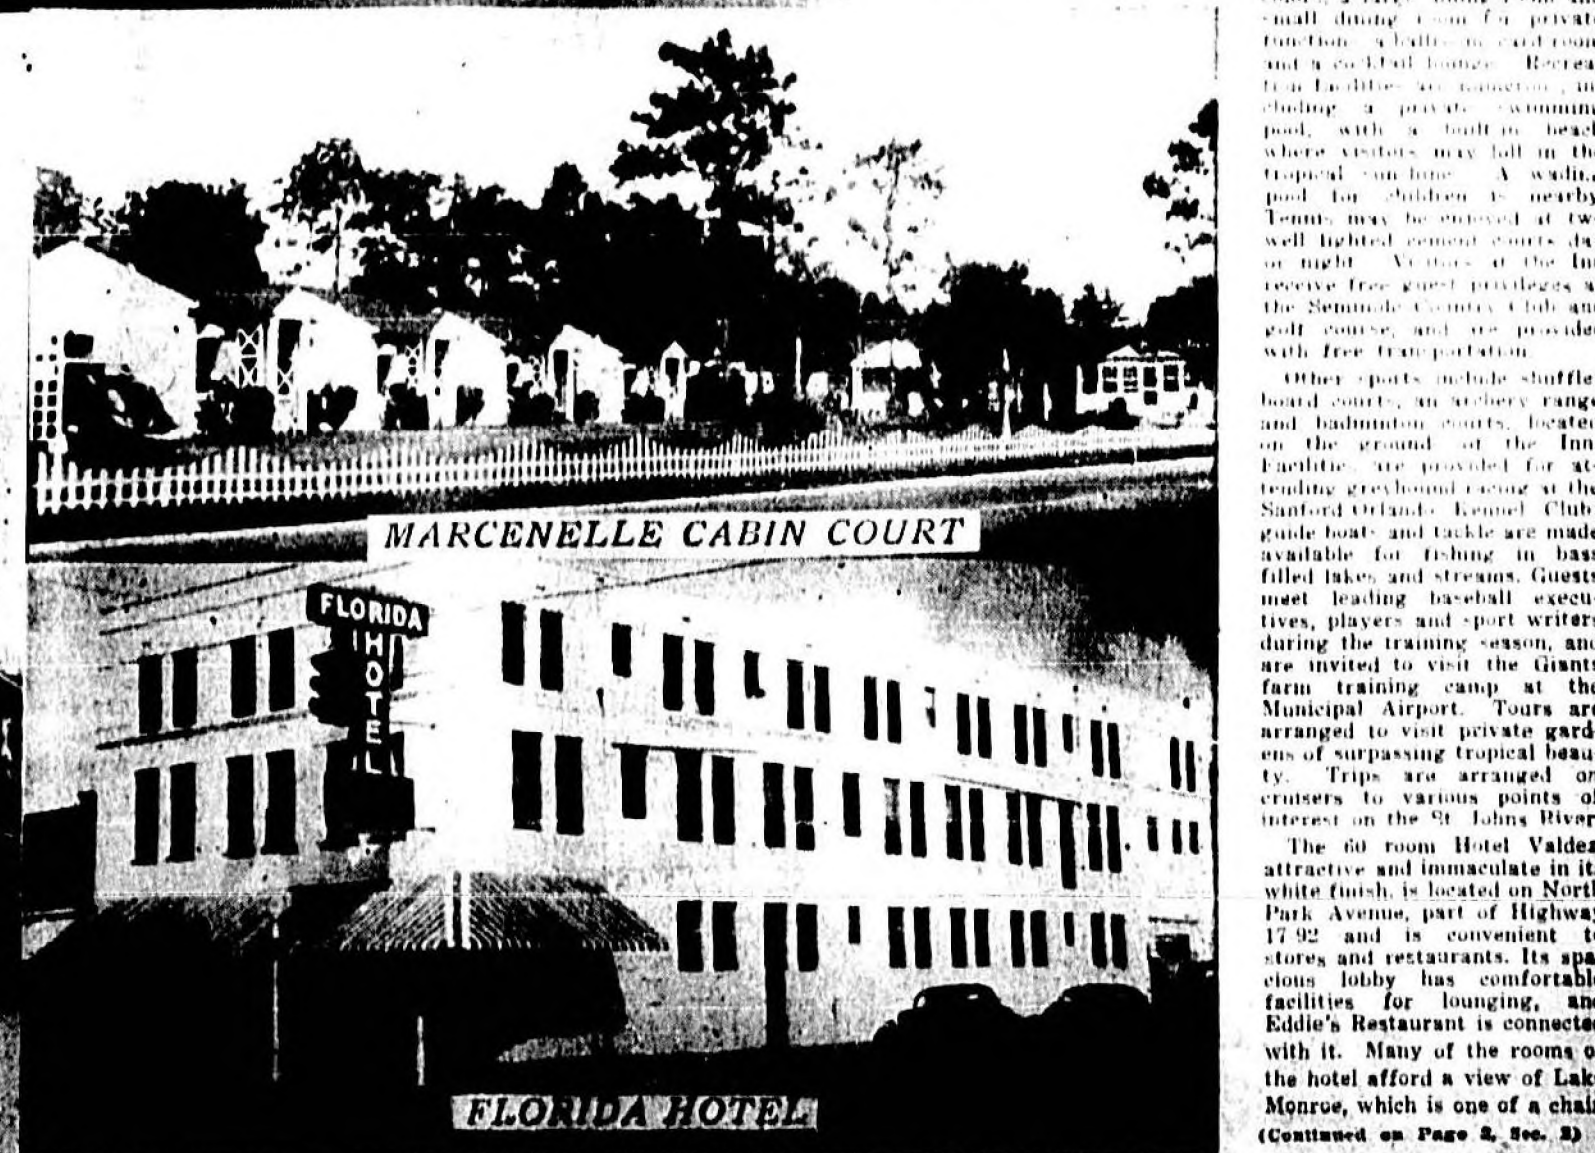

Other sports include shuffleboard courts, an archery range and badminton courts, located on the grounds of the Inn. Facilities are provided for attending greyhound racing at the Sanford-Orlando Kennel Club; guide boat and tackle are made available for fishing in bass filled lakes and streams. Guests meet leading baseball executives, players and sport writers during the training season, and are invited to visit the Giants farm training camp at the Municipal Airport. Tours are arranged to visit private gardens of surpassing tropical beauty.

Trips are arranged on cruises to various points of interest on the St. Johns River. The 60 room Hotel Valdes, attractive and immaculate in its white finish, is located on North Park Avenue, part of Highway 17-92 and is convenient to stores and restaurants. Its spacious lobby has comfortable facilities for lounging, and Eddie's Restaurant is connected with it. Many of the rooms of the hotel afford a view of Lake Monroe, which is one of a chain
