Blocking Rhogevelt

The success of Al Smith in the Massachusetts and Pennsylvania primaries is a little more complete than ever Smith supporters had expected and in addition to placing Smith in a position of tremendous importance in the Democratic convention, has had the effect of "putting a chock linder the bandwagon". The increasingly enthusiastic particle of Boosevelt character has been checked. If not stapped altogethes and even the likelihood of Roosevelt's final nomimation, becomes decidedly dimmer.

Just why such an effort should be made to stop Roosevelt is not readily apparent to those of us who live far from the center of this activity. Throughout the South, the residence of the property of Middle West and even the Far West he is viewed by the rank and severately research of this activity. Throughout the South, the minimum of Middle West and even the Far West he is viewed by the rank and file, at least, as the outstanding candidate for Desponsible presidential honors. Whereas, among the powers that and file, at least, as the outstanding candidate for Democratic presidential honors. Whereas, among the powers that

Types the matter of the county and the powers that the county commission in the cratic presidential honors. Whereas, among the powers that be within the party organization, and even among the people in those eastern states close to his home where he should be known best, there is a powerful septiment that he simply won't do.

Roosevelt's supporters say that certain party leaders are against him because they can't control him. If elected he would name his own cabinet members and would not submit to the dictates of the party leaders in the disposition of patronage. His opponents contend that Roosevelt simply is not big enough to be president. They say he is a weakling, a demagogue, and has no conception whatever of the vital problems confronting the federal government.

In view of the intense opposition to Roosevelt among lenders in the Democratic party it is perhaps a bit diff. His mir appointment of the Main is at Frank Evans was fleult to understand his great popularity in centers more remote from his own stamping grounds. The support of the sele County, nearly four times as second choice votes were counted Roosevelt candidacy probably had its origin in the general feeling which prevailed shortly after the 1928 debacle that 588 votes. In Brevard county, Mr. Roosevelt, if he had been nominated, might have been elected, and that he was the logical successor to the Smith throne

This feeling has only been intensified by the fact that chief among Roosevelt's opponents is Al Smith. Had any other outstanding Democrat been selected to lead the forces of the "Step Roosevelt" movement, it would probably have been cnet with a sympathetic feeling, but in the South and even in certain parts of the Middle West where Al, Smith even in certain parts of the Middle West where Al, Smith ponent, M. M. Lord, by a count of of second choice votes, Mr. Hern-is a particular anathema, the very fact that Smith opposed 2016 to 769, while Mr. Hagan won don's total rose to 1881, while Roosevelt encouraged support for him.

Roosevelt will still be by far the strongest candidate when the balloting begins in the Chicago convention but for Mr. Lylea, The old method of judgeship, while Mr. Welborn is whether he can reach the two-thirds vote necessary for counting second choice votes of nomination is becoming increasingly doubtful. At Smith's the candidates polling the smaller followers, in addition to the "favorite son" delegates, are number of votes and applying them constable's race, with first choice very likely to be sufficient to block the New York governor.

But if Al Smith can block Roosevelt, it is equally true that Roosevelt can block Smith. Thus, both the leading Democratic contenders will be eliminated. And the mantle of nomination will fall upon one of the dark horse candidates under the name of Baker, Ritchie, Byrd or Garner,
