Feds Cop Thriller From Leesburg Yellow Jackets By Score Of 35-34

Seminole Five Fights Uphill Battle During Entire Contest To Finish With One Point Margin At End Of Contest

By JULIAN STENSTROM Herald Sports Editor George McClelland's Seminole High School Celery Fed broke into the win column yesterday afternoon in Leesburg when they captured a thrilling contest from the Yellow Jackets by a score of 35 to 34.

The Sanford boys began hitting the baskets with amazing accuracy after Leesburg had jumped off into what may have been considered a comfortable lead early in the first period.

The Jackets, in the initial stanza, recorded 15 points when Wendron and Knight sank two baskets while Wink and Miller were accounting for one each.

With the score 21 to 19 with the Jackets leading as the game entered the second half, the Feds repeated their second quarter offensive performance by racking up 11 more points when Dyeas, Sanford's spark plug, didn't permit the Jacket's to stop his own personal scoring drive as he dropped five field goals in the net and sank a single free throw.

Both teams, apparently fearing each other's scoring ability, tightened their defensive tactics. The Feds threw up a zone which the Jackets were hardly able to penetrate as a long field goal and a free shot by Wendron accounted for the three Leesburg points.

The stamping of designs and patterns upon textiles was common in India and China even before available records place definite dates on such arts and crafts.

The long-necked tree snake of the East Indies has eyes with pupils shaped like key-holes. This species has the sharpest sight found in snakes.

Sanford Girls Cop 36-18 Win Over Leesburg

Helen Bowen Leads Celery Fed Cagers With 15 Points

The Seminole High School girls cage team repeated their DeLand performance yesterday afternoon in Leesburg when they annihilated the Yellow Jackets team by a score of 36 to 18.

Seminole opened scoring hostilities soon after the opening whistle and at the end of the initial stanza, Miss Tessa Durden's outfit had racked up 17 points. Helen Bowen accounted for five field goals while Marie Pezold, Dorothy Crumley and Johnnie Mae Bowen sank a field goal each.

The Feds came right back in the second period to rack up eight more points when Johnnie Mae Bowen netted two field goals and Crumley and Pezold recorded one each.

Miss Durden's outfit will play in DeLand tomorrow night against the Bullpups, but she will use the majority of her second stringers in the starting lineup which will include Dorothy Crumley, Martha Hagan, Betty Yarborough, Ruth Sackett, Lillian Moran and Anne Lovell.

Score by periods: Leesburg 5 6 4 - 19 Sanford 17 9 7 4 - 36

SOBBING into a handkerchief, Mrs. Sonja Leggett, 36, is pictured as she pleaded not guilty after being arraigned on a charge of murder in Saratoga Springs, N. Y.

Good many people spend too much time teaching children how to behave toward their parents. Seems to me lots of parents ought to be taught how to behave toward their children.

When you see somebody let success go to their heads, you kin be mighty sure there's a vacuum there to start with.

Death Rays Do Not Entirely Belong To Comic Pages

ST. LOUIS, Jan. 17. (AP)—Death dealing rays evidently don't belong exclusively to comic pages.

Dr. Arthur Compton, as many you may remember, one of the top panel of scientists who developed the atom bomb.

Lately the Chancellor of Washington University and his colleagues have been studying cosmic rays which transform all of the mass of a particle into energy.

The Feds came right back in the second period to rack up eight more points when Johnnie Mae Bowen netted two field goals and Crumley and Pezold recorded one each.

Score by periods: Leesburg 5 6 4 - 19 Sanford 17 9 7 4 - 36

Slave Labor Plan Charged To Sauckel

French Claim Leader Enforced Program Over Protests Of Nazi High Command

NUERNBERG, Jan. 18.—(AP)—French war crimes prosecutors have charged Fritz Sauckel with personal responsibility for enforcing the German slave labor plan on western Europe over the protests of the German High Command.

These charges were placed against the chunky one-time czar of Germany's slave labor today—the second day of France's presentation of evidence against former German leaders on trial in Nuremberg.

The French say Sauckel planned to keep French and Belgian slave laborers in Germany in a state of perpetual exploitation.

The French prosecutors say that the former German commander in chief in France and Belgium—General Alexander von Falkenhausen—told them last November that he imposed compulsory labor in France and Belgium only after a bitter and protracted argument with Sauckel. The argument actually forced Falkenhausen's resignation.

The prosecution also has disclosed that Sauckel was an ardent advocate of extermination of conquered peoples through the slave labor program. The French have placed before the war crimes tribunal transcripts of speeches by Sauckel advocating such measures.

Meanwhile, it is disclosed that France's chief prosecutor—Francis De Menthon—has been relieved of the job at his own request. De Menthon has resigned and is returning to Paris because of his duties in connection with the French consultative assembly.

He has been succeeded by Auguste Delbecq, 52, a former officer in the French army and a leader in the Maquis movement during the occupation of France in world war II.

Temperature Drop To 33 Degrees Is Forecast For Area

The Federal State Frost Warning Service in Lakeland forecasts frost Saturday morning in all sections of peninsular Florida except the lower east coast, and a temperature drop to 33 degrees is predicted for the Sanford area.

The temperature, which has been warm and dry since the first of the year, took a drop here this morning to 35 degrees, according to F. Whitner, weatherman. There was some frost reported but no damage to vegetables has yet been reported.

The forecasts for tonight and Saturday morning were mostly clear and calm with cold intervals of calm in all districts. Frost will form wherever forecast temperatures are 35 degrees or lower with high grounds about six degrees warmer than low ground.

At the Agricultural Experiment Station on the east side, the temperature was reported at 37 degrees this morning and no damage to plantings there was revealed.

Celery growers welcomed the cold snap as a means of delaying the ripening of the crop, and restricting shipments such as have depressed the market during the recent warm spell.

Other forecasts in the central Florida area for Saturday morning were:

Miami: 33; Orlando, 32; Fern Park, Casselberry, Forest City, 31; Howey, Fruitland Park, 30; Plymouth, Winter Garden, 29.

Forecast for Sarasota was 32. Other points in the west coast district ranged from 33 to 35.

Bus Stop Changes Announced By Hughes

A change in location of the bus stop for passengers going to the Sanford Naval Air Station from the present location on the Avenue by the Russell Street 15-4, a new location in front of the Roumillat and Anderson Drug Store on First Street was announced this morning by M. L. Hughes, supervisor of the Sanford Transit Company.

The change will go into effect on Sunday morning, he said. Passengers bound for Orlando will take the bus on First Street in front of the Florida State Bank, he added.

You Almost See 'em Yawning

Founder Of Better Management Foundation Predicts Dizzy Period Of Prosperity For Next Five, Six Or Seven Years

Forecasts of the future from an economic viewpoint, were given last evening by C. L. Alling, founder of The Better Management Foundation of Orlando, and formerly of the Research Institute of America, and H. H. Coleman, president of the Seminole County Chamber of Commerce at the annual meeting of the Sanford Merchants Association at the Hotel Mayfair. W. V. Bitting presided.

A summary of the Association's achievements in the past year was given by Frank Shames, secretary. (Continued on Page Three)

Hershey Proposes Congress Extend Selective Service

WASHINGTON, Jan. 18. (AP)—Selective Service Director Lewis Hershey has proposed that Congress extend the present draft law to provide for a definite period of service.

Testifying before a Senate military subcommittee, Hershey also proposed today that physical requirements be lowered and administered by the Army and Navy in a manner to produce the greatest number of men. The present draft law will expire automatically on May 15.

Present induction quotas call for the drafting of 50,000 men per month. General Hershey explained to the committee that local draft boards now are falling behind in their quotas because so many men in the 18 to 25 year old age group are volunteering. He suggested that the present term for voluntary enlistment is 18 months, the draft law might be amended to require service for a similar period.

Hershey also proposed that men who have served substantially less than 18 months should be submitted for re-induction.

Burring the questioning, committee Chairman Edwin Johnson of Colorado told Hershey he wanted it clearly understood that the blame for insufficient replacements cannot be laid on Congress. He said that the War Department and the President have ample authority to provide the men if they wish to. General Hershey acknowledged that this was so. He pointed out that if he wanted to, he could draft men for a second time even if they had already served five or even ten years. But, Hershey said, he doubted that public opinion would favor such action.

Philippine Congress Gets Stern Message

MANILA, Jan. 18. (AP)—Philippine High Commissioner Paul McNutt headed a sternly worded message today to the government of President Sergio Osmeña. McNutt's action was prompted by the Philippine Congress, which recently turned down the High Commissioner's proposal for re-evaluating debts, and passed a resolution that the Philippine Government should not become law unless it is signed by President Truman.

McNutt's proposal, which the Philippine Congress rejected, would have established exchange value of the Japanese occupation money in relation to the peso. The measure passed by the Philippine Congress and signed yesterday by Osmeña simply validates all debt payments made in that currency during the Japanese occupation.

Jap Army Head Named On War Criminal List

Wachi And Six Other Generals Ordered Arrested As Suspects By MacArthur

TOKYO, Jan. 18. (AP)—The former Chief of Staff of Japanese General Headquarters—General Takeji Wachi—and six other generals are included on a list of Japanese war criminals ordered arrested by General MacArthur.

One hundred and three other Jap officials of all ranks also are included on the list. Japanese prison camp officers and a far-flung list of Japanese from the Sanjimon to Hiroshima also are among those whose arrest has been ordered.

Details of names of Japanese war criminals suspects are expected to be made public in the middle of March. General MacArthur has ordered that individual guilt of war crimes must be proved in all cases.

Meanwhile, in Peking, China, Chinese authorities have arrested German Major General Eugenio C. He was Berlin's envoy to Tokyo at the time the Japanese struck at Pearl Harbor. The Chinese say the man will be returned to Tokyo for questioning by MacArthur's war crimes staff.

Former General F. H. Thorpe, chief of Allied counter-intelligence operations in the Pacific, has disclosed the names of the former Japanese prisoner of war captives who were about to be released. Thorpe has declined to disclose where they now are being held, although he says he will be placed in command of the other top war criminals and suspects in the east.

Meanwhile, plans for a purge of internationalists from Japanese public life are progressing. The Japanese Agency (Kyodo) says 21 of Japan's 47 prefectural governors are due to resign as a result of MacArthur's directive ordering the purge. Home Minister Hajime Kaneko yesterday said the Associated Press in Tokyo has been offered to accept the resignations of all 47 governors. The Home Minister says he feels it is necessary to preserve what he considers the "freedom" of local governments in Japan.

Witness Testifies Jap General Gave Execution Order

MANILA, Jan. 18.—A prosecution witness at the war crimes trial of Lieutenant General Masaharu Homma has testified that he once directed an execution in Manila despite his contention that he "didn't like bloodshed."

The witness—Lieut. Junzo Matsumoto—has admitted giving the signal for the shootings of Dr. Clarence M. Young and his troops on the morning of the execution. He said the Japanese Jap executioner was absent.

But the witness has linked Homma to the murder of the Chinese consul. He has testified that a full report of Young's execution was made to Homma's headquarters.

Other witnesses at today's trial session told how they saw innumerable brutalities committed against American and Filipino troops on the infamous Italian death march.

TO REVIEW SENTENCE YOKOHAMA, JAN. 18. (AP)—

Yokohama, Jan. 18. (AP)—Eighth Army headquarters announced today that General MacArthur will review the death sentence imposed on Pfc. Joseph Brown of Lehigh, N. J. The 61-year-old man was sentenced to the firing of two Japanese civilians. A spokesman for General MacArthur's headquarters said the report on the court martial "has not yet come across the desk."

WOODMEN MEET TUESDAY

Woodmen of the World will initiate a class of candidates at a meeting—Tuesday night at 7:30 o'clock at the Woodman Hall on Park Avenue. According to H. J. Finch, district representative, this will be the last class of candidates to be initiated until after the national Woodman convention convenes in Jacksonville, Fla. 4 to 8.

BLEACHERS BURN

MIAMI, Jan. 18. (AP)—A grim note came into the opening day of Hiblaiah race track last night when fire destroyed some 600 wooden open-air bleacher seats at the northeast end of the grandstand. The fire occurred after a record opening betting day of \$1,249,364. Carpenters have

CIO Accepts, Steel Rejects Truman's Wage Compromise

Russia Claims Peace Lies In Unity Of Powers

LONDON, Jan. 18. (AP)—Soviet Russia has told the United Nations General Assembly the peace of the world depends upon the unity of the great powers.

At the same time, Russia has urged against any attempt to get down the authority of the big-power nations by revising the charter of the new security league.

The Soviet position in these questions was placed before the Assembly today by its acting chief delegate, Andrei Gromyko—Russia's Ambassador to Washington.

In addition to his major thesis, Gromyko also has strongly supported the big-power plan to give the Security Council control of atomic energy problems. Here is what Gromyko has to say concerning this plan:

"It is entirely in accordance with the role and place of the great powers in the United Nations."

Gromyko also has called for the establishment of the trusteeship system within the UNO. He says this is an instrument designed to accelerate the giving of a status of national and state independence to all dependent territories.

Investigators Question Raised Refuse To Call On Validity Of Mr. Churchill Chinese Assembly

WASHINGTON, Jan. 18. (AP)—The Congressional Peace Panel investigating committee today refused a proposal to call on the British Prime Minister, Winston Churchill, to appear before the committee.

The committee, headed by Senator Homer Ferguson of Michigan, also has refused to invite Churchill to appear at a hearing on the validity of the Chinese Assembly.

The committee's refusal to call on Churchill was based on the fact that Churchill's testimony would be of little value to the committee. The committee also has refused to call on the Chinese Assembly.

Transport Crashes Near Cheshire, Conn.

CHESHIRE, Conn., Jan. 18. (AP)—A large plane believed to be a transport has crashed on a farm about two and one-half miles from Cheshire, Conn.

The big plane still was in flames when witnesses reached the scene. The wreckage was found to have lost their lives. One witness said that he counted 15 bodies.

At first, state police said it was an American Airlines plane but later they said they did not know to which line it belonged.

A woman attendant at the nearby reformatory said that the plane appeared to have exploded in the air. She told a Waterbury newspaper (American) that it was a bad incident.

Here is the list of crew members: Capt. R. E. Kuser, pilot of (44 Bellevue Avenue) Tranton, New Jersey; R. S. Knight, co-pilot of (421) Emmet Street) Omaha, Nebraska; Willard Bassett (CQ), flight attendant of (78-15 27th Avenue) Jackson Heights, Queens, New York.

No addresses are available for the passengers. The airlines gave the names of passengers on the plane: K. G. Vosselin, Mr. and Mrs. Q. B. Miller, P. McVeigh, Mrs. C. Ludwig, J. B. Mitchell, P. Maynard, J. B. Rogers, N. E. Felt, Mrs. Charlotte Sturman and baby, Barbara Thompson, nurse.

The airlines said Mrs. Sturman and her baby and Mrs. Thompson boarded the plane in Miami and the other passengers boarded the plane at La Guardia Field, New York for Boston.

Testimony Of Britisher Requested By Sen. Ferguson

WASHINGTON, Jan. 18. (AP)—The Congressional Peace Panel investigating committee today requested testimony from a Britisher.

The committee, headed by Senator Homer Ferguson of Michigan, also has refused to invite Churchill to appear at a hearing on the validity of the Chinese Assembly.

The committee's refusal to call on Churchill was based on the fact that Churchill's testimony would be of little value to the committee. The committee also has refused to call on the Chinese Assembly.

The committee's refusal to call on Churchill was based on the fact that Churchill's testimony would be of little value to the committee. The committee also has refused to call on the Chinese Assembly.

Towers Says Navy Efficiency Reduced By Demobilization

TOKYO, Jan. 18. (AP)—The Navy's top ranking admiral—Admiral John B. Towers—says demobilization has reduced the efficiency of the United States Navy. But, says Admiral Towers, powerful fleet units still are standing in readiness for any emergency which might develop in the Pacific.

Admiral Towers expressed his views in a brief news conference aboard the United States battleship New Jersey in Tokyo Bay. He spoke after a brief ceremony in which he turned over command of the Fifth Fleet to Vice Admiral Frederick Sherman—a decorated veteran of carrier warfare.

Towers already has left Tokyo by plane for conferences in Washington. He will succeed Admiral Raymond A. Spruance as commander of the Pacific Fleet on Feb. 1. Towers plans to take up the Navy demobilization question while he is in Washington.

John Paul Jones, famous U. S. naval officer, was color-blind.

Fairless Says Proposal Almost Same As Revised Union Increase Demand

WASHINGTON, Jan. 18. (AP)—President Truman's wage compromise for the steel companies has been accepted by the CIO steelworkers, but rejected by the United States Steel Corporation. Mr. Truman has made another appeal to the corporation to accept, pointing out that a steel strike would stall the reconstruction effort.

Government efforts to settle the meat strike by conciliation in Washington have broken down.

WASHINGTON, Jan. 18. (AP)—The United States Corporation has turned down President Truman's suggestion for a compromise in its wage dispute with the CIO United Steel Workers. Mr. Truman had proposed that the two factions agree on a pay rise of 18 1/2 cents an hour.

The CIO United Steel Workers, Mr. Truman had proposed that the two factions agree on a pay rise of 18 1/2 cents an hour.

Ladies Who Love Orchids Need To Meet Large Grower

By NORMAN BRADLEY.

CHATTANOOGA, Tenn. - Ladies who love orchids should look with affection on Clint McDade, a big volume grower who believes the price of the exotic blooms should come down.

And McDade, a Chattanooga who has burgeoned a passing fancy in the flowers into a multi-thousand dollar, profitable business within five years, wants to do something about it.

The retail price for an orchid, running in wartime from \$7 to \$20, is "too high," he adds, amidst a profusion of blooms from some of his 22,000 flowering plants in greenhouses atop Signal Mountain.

"When an orchid sells for that much, it doesn't fulfill the purpose of a flower. We here at Rivermont Orchids don't believe in encouraging such prices."

"When we really get going (his venture already approaches the size and scope of the largest independent orchid grower of the nation) we'd like to sell our blooms at \$1 each which would mean a fair retail price of \$2.50 or \$3."

"It's not that we wouldn't like to take in the money—we just believe it'd be better for the business to sell more orchids for less."

That's from a man who can realistically expect to have around 70,000 flowering plants within two or three years. The quality of Rivermont Orchids is indicated by the American Orchid Society's grant of two awards of merit, two first class certificates and a silver medal to McDade's entries in a recent show—an unprecedented honor for a single grower.

McDade's now full-blown interest in orchids was planted less than ten years ago by a friend and blossomed because his son, never particularly happy in business, "loved to work with the plants."

A highly successful business man, he owns a magazine distribution agency which operates in 11 southern states. McDade has always loved flowers. For many years he specialized in the culture of iris but only as a hobby. In the late '30s A. H. Gore, a longtime friend who had returned to the United States after serving as governor of Puerto Rico, invited McDade to Florida to see his orchid collection and to give him a few plants.

That was the start of the hobby turned big business. McDade rented a small space in a florist's greenhouse and began putting around with orchids.

Mrs. McDade gave impetus to his interest by presenting him with a book on orchid culture. "That was the most expensive \$5 book she ever bought," he said laughingly.

Everest, his elder son, displayed an even greater interest in the plants and their development. He began a serious study of orchids and later developed a controlled method of seed culture suitable to this climate.

In 1941, McDade decided to "put my life savings into something I thought Everest would like to operate" and Rivermont Orchids was born. Everest entered the service in 1942 but expects to return to the management of the nursery quite soon. Incidentally, his plants will include some he sent from Tom's which are "growing like weeds."

The firm, now Clint McDade and Sons (his second son, Neil

HOME TOWN NEWS

The white light rays of the ad light rays, and also contain sun are composed of many color-ultra-violet rays.

McDade's grower, John Linn, a second generation orchidist whose father, Oliver, is one of the nation's foremost experts, valued the mature and nearly mature plants at \$10 or more each with some of the rarer varieties worth from \$100 to \$500 each.

Recently McDade invaded the world field with the purchase of the complete stock of the Orchid-hurst Nursery near London, a world famous firm. In addition to its own carefully tended seedlings, the local nursery is constantly adding to its stock from all over the world.

The majority of the plants grown here are of the cattleya type, producing the corsage type of bloom "which everybody thinks of as orchids," McDade said. But in one greenhouse are rows of them, which include rare and particularly valuable types used principally for exhibition or breeding.

They're worth real money. A seed pod in one represents an effort to cross an Easter blooming plant with another noted for its size and color, in the hope of getting a plant which will bloom early in the spring, when orchids are in high demand.

"I want to go to the HILL HARDWARE COMPANY, too, even a child enjoys courteous service, quality merchandise and reasonable prices."

Shopping Hangover

Shopping is hard work at best—hard on the feet and hard on the pocketbook. Stores are crowded with holiday buyers, goods are still scarce, and bargains aren't easy to find.

Except electricity! Lady, you don't have to stir one step outside your home to get a whopping big bargain in comfort and convenience—at low pre-war prices.

Electric service is always right at your fingertip—plentiful, dependable, ready 24 hours a day to lighten your household burdens and make your way of living more pleasant.

And it's cheap! As a matter of fact, the average family is getting just about twice as much electricity for its money as it did 15 years ago.

Yes, electric service is a rare household bargain. But not by accident. It's the result of the hard work and experience of the men and women in your company.

Have Nelson Eddy in "The Electric Hour" with Robert Armstrong's Orchestra. Every Sunday, 4:30 P.M., EST, over CBS.

C. L. Alling And H. I. Coleman Address Merchants

Mr. Alling and Mr. Coleman, who also introduced Mr. Alling and drew from the latter a report that it was the best introduction he had ever received. George Touhy outlined the Veteran's Homecoming program scheduled for Apr. 3.

and said that difficulties now being encountered by agriculture are not temporary.

"When strikes get bad, the public howls in Congress to do something about it. It is more up toward socialism economy is taken," he declared. He pointed out that business should be fair to employees and self-regulating in its human relationships, otherwise there are demands for the government for regulations.

Mr. Coleman gave a forecast of the plans of the Chamber of Commerce relating to Sanford and Seminole County during the coming year, and divided plans of the Chamber of Commerce into two phases—plans that will develop with time, and immediate plans.

Long range plan No. 1, begun five years ago, is the deepening to 10 or 12 feet of the St. Johns River, he said, and predicted that Congress would appropriate funds for this project in the Spring.

Restraints Soon To Be Eliminated On Immigration

WASHINGTON—War-imposed restraints on immigration soon will be eliminated. In a short time a trickle of war refugees and displaced persons, pushed or yanked from their homes by the Nazis, will start entering the United States from European refugee camps.

Acting under President Truman's December 22 immigration directive, a government committee will give on-the-scene assistance to help speed the movement to this country of European refugees and displaced persons. The refugees will come in under existing immigration laws.

Headed by Ego Carrel, commissioner of naturalization and immigration, the committee will set up five or six offices in the American zone of Germany.

During the war, only one person came to the United States from Europe. The reasons: transportation shortages, closing of American consular offices and obstacles imposed by enemy nations.

Now President Truman says the United States "shares the responsibility to relieve the suffering" resulting from the "appalling displacement of population in Europe."

United States "shares the responsibility to relieve the suffering" resulting from the "appalling displacement of population in Europe."

The President's directive principally affects two groups: 1. Natives of Central and Eastern Europe and the Balkans, since most of the refugees and displaced persons are from these areas.

Under the law, no more than 10 percent of the annual quota can be admitted in any month. This limits the number of persons who can be picked from camps in Europe to about 3,000 a month.

The Immigration and Naturalization Service is uncertain what nationality will be chiefly affected by the President's directive.

Some of the Quotas: A quota of about 25,000 of the 23,000 annual quota for the countries of the Balkans do not accumulate. Quota of this area is allotted to Germany, Poland, Austria, Czechoslovakia, Hungary, Rumania, Bulgaria, Yugoslavia, Greece, and Roumania.

Quota of this area is allotted to Germany, Poland, Austria, Czechoslovakia, Hungary, Rumania, Bulgaria, Yugoslavia, Greece, and Roumania.

Strike Losses

Many people who work in the celery fields in Sanford probably don't stop to think much about what the strikes in northern factory centers mean to them.

A report from Detroit reveals that strikes have reduced anticipated automobile production in 1946 from 500,000 to 22,445, representing a loss in new car sales of \$334,044,000.

In the General Motors strike alone, the union will lose \$60,000 in dues which do not have to be paid while the men are on strike.

Such economic factors due to the failure to provide adequate machinery for the settlement of labor disputes suggest that we are still in a barbaric age where the law of the jungle prevails.

Maternal Mortality... A report by the New York Academy of Medicine a little more than a decade ago stating that the city's maternal mortality could be reduced by two thirds.

Marking 'Em Up

With JULIAN STENSTROM
Herald Sports Editor

We noted Bobo Dean's editorial in the latest edition of the Junior High School's publication, San-Ju-B, in which he pointed out that a new net was needed for the tennis court at the school and the basketball court was as "the inside of a vacuum cleaner." There's no reason why conditions like that cannot be eliminated, and quick too!

The Celery Fed cagers travel to DeLand tonight for a triple header. The varsity Feds will meet the Bulldogs in what should be a bang up affair. Miss Durden will use only her second stringers. She will, however, have two or three regulars on hand in the event she has to call on them. The third tilt will be between the Baby Feds and the Bulldogs. This will be the second outing for the Baby Feds. In their first tilt, they won over the Eustis Baby Panthers.

Word has been received that

Rollins College will return to the gridiron wars next Fall and according to Jack Harding, Miami coach, Jack McDowell will lead the Tars. Harding also stated that Rollins will seek a tilt with the Hurricanes.

There were signs of trouble on opening day yesterday afternoon at Hialeah. It seems as though groomers receive \$20 for readying a winner and \$10 for a loser. The exercise boys want the same for every horse sent to the racing strip. Track president John Clark told eight boys who approached him on the matter that their request was "too sudden."

We wonder if there really is anything to the Miami Herald's story that Clark Shaughnessy will be named head mentor of the University of Florida Gators. Shaughnessy is currently head coach of Pittsburgh University where his three year contract expires on Jan. 23. President Tigert of the University of Florida, however, said that he would announce the appointment of a new coach "within two weeks."

Thoroughbreds Of Florida Will Be Featured Monday

MIAMI, Jan. 18. (Special)—Florida-bred thoroughbreds come into their own Monday in the initial running at Hialeah Race Course of a race exclusively for maiden two-year-olds to be held in Florida. The race will be over the Nursery Course of three furlongs with a purse of \$10,000. This is the first race offered to the chosen Florida-bred of their breeding farms. It is expected to be a yearly feature at Hialeah. It was arranged for the Florida Thoroughbred Breeder's Association by Racing Secretary Charles J. M. Lennan.

Horse breeding in Florida is not newly. Approximately 20 breeding farms have located in Florida, more than half of them in the northern part of the state. The lone-building grasses of Marion County have all the qualities of the famous blue-grass of Kentucky and have produced better stock than already bred in this section.

For some years Carl G. Rose has been breeding horses at Ocala for Charles A. O'Neil, Jr. of Miami. O'Neil thinks so much of Florida as a breeding ground that he has moved his stable to Ocala. Thomas J. Tangle, O'Neil's trainer, is in charge of the spacious farm.

Rose and O'Neil have four-year-olds, Eucenero, Sis, Green Crystal, Renol and Rooster. Deed all bred by Green's Mateo, best thoroughbred stallion brought to Rose's ranch. Three Florida-bred yearlings are also going through their training stages.

Two years ago Rose Marie Rose, a Florida bred, was brought to Hialeah and came up with a victory. Another is winning around the South American oval, and James Bright of Davie, who has raised eight horses that have had successes around the various tracks. Another is winning around the South American oval, and James Bright of Davie, who has raised eight horses that have had successes around the various tracks.

The race, Monday, first of its kind to recognize Florida's growing horse breeding activities, is expected to draw attention to the state's natural advantages for the business of raising thoroughbreds.

James Bright of Davie is president of the recently organized Florida Thoroughbred Breeding Association. Carl G. Rose of Ocala is vice-president. Stefan H. Zacher of Miami Beach is secretary and C. A. O'Neil, Jr. of Miami is treasurer.

Other members of the board of directors are Hunter Eyon, chairman, Dr. George E. Woolver, Philip Christopher, Dr. J. H. Yarbrough, Dan Chappell, Dr. B. F. Whitten and Dr. C. C. Collins.

Printing was done first on onions and fabrics, and later on linen, papyrus, parchment and hand-made paper.

In the hands of the Indians of Brazil the blow-gun is a deadly weapon. They can kill birds with it at a distance of 200 yards.

Fans Watch Races In Comfort At Track

LONG WOOD, Jan. 18. (Special)—Despite chilly weather the past few nights, fans have watched the dogs run at the Longwood track in perfect comfort, as the plant is well heated and the grandstand enclosed to keep out the cold winds and rain. Each week sees a larger crowd attending the races and showing more money through the pari-mutuel window. Last week the betting was up nearly \$16,000 and the crowd topped the first week's by over 5,000.

One reason for the increased interest in the quality of dogs which are run at the track this season. Their time shows they are on a par with the best tracks of the state.

In tonight's daily double, Sea Mist in the second race and Tarzan II or Topsy Girl in the third should be the winners, while in the feature seventh, Factor or Grey Dan should carry off the honors.

TONIGHT'S ENTRIES

HIGHER "TAKE HOME" PAY THAN WARTIME AVERAGE

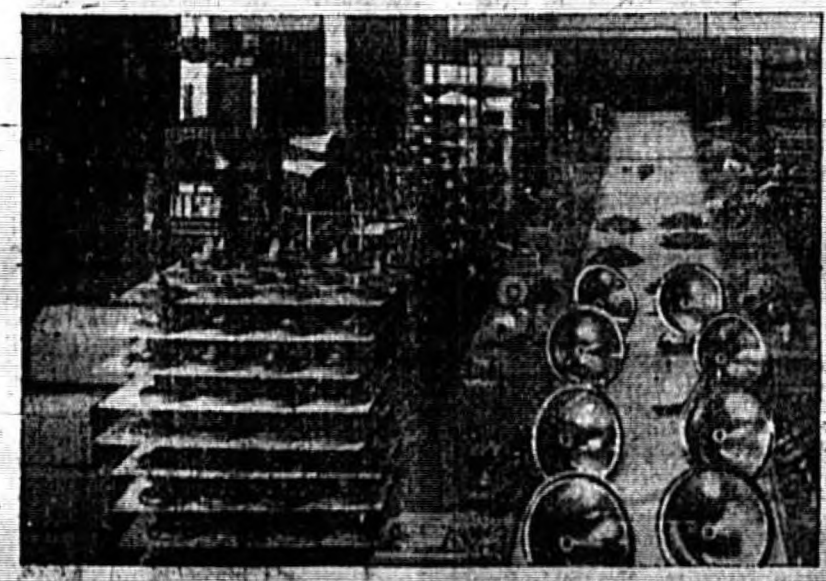

... but the world's largest electrical plant has no workers

HALF-FINISHED washing machines*

HALF-FINISHED toasters*

HALF-FINISHED heaters*

HALF-FINISHED roasters*

The UERMWA (CIO) has taken General Electric workers out on strike.

Washing machines, refrigerators, heaters, a hundred things were on their way to you. But the strike stopped that. It was expected to hire twice as many workers as before the war. But the strike stopped that.

Six new government plants were bought. Seven other new plants were being built. And land bought for three more. Increased production was planned in every existing works city.

We are sorry they decided a strike was the answer. The strike will pinch the public with shortages. And take a million dollars a day out of the pockets of General Electric workers.

G.E.'s PAY OFFER

Many of our workers, from what they tell us and write us, do not know that we offered the union an increase of

10¢ an hour for all those making less than \$1.00 an hour, and 10% increase for those who make more.**

With the offered increase and the overtime that will be necessary to meet consumer demand this year, the average employee would have had more "take home" pay than during the war.

THE STRIKE IS PUZZLING

Since 1935, average hourly earnings for men climbed over 51%. Over half of this was in the last five years.

There has been no real labor trouble at G. E. in 24 years. We believe in collective bargaining. G. E. was one of the first large industrial companies to enter voluntarily into a company-wide contract with a national union.

A million-dollars-a-day pay loss will strike every G-E community. And the real tragedy is that employees can gain nothing that they could not have gained while still at work.

*Pictures taken between shifts before the strike represent the condition of our factories today.

**Those making \$2,000 to \$3,000 in salary would receive 10% increases, and those receiving between \$3,000 and \$5,000 annually would receive increases of \$300.

THE OLD JUDGE SAYS...

DICK: "I wonder how the distillers feel about that new movie built around an alcoholic."
OLD JUDGE: "It's funny, you asked that, Dick... I was just reading a piece about it."
DICK: "What did it say?"
OLD JUDGE: "A very sensible statement. It said the beverage distillers are fully aware of this problem and are cooperating in every way possible to help solve it. The alcoholic is to the beverage distilling industry what the reckless driver is to the automobile industry. There is nothing wrong with the

automobile, but in the hands of a man who doesn't know how to drive it or is reckless, it becomes a menace. Likewise, it's not the use but the abuse of alcoholic beverages that causes trouble."
DICK: "Wonder why it is most men can drink moderately and others can't?"
OLD JUDGE: "Intensive research at a great university has shown that most excessive drinkers are really sick people. They are suffering from some physical, social or emotional upset. And great strides have been made in developing clinical methods of helping these unfortunate people."

This advertisement sponsored by Congress of Alcohol Beverage Industries, Inc.

Appointment Of AAU Records And Committee Is Made

WEST PALM BEACH, Jan. 18.—(Special)—Appointment of State AAU records and swimming committee and establishment of a new trophy to encourage young swimmers in Florida were announced today by Ben York, first Vice President of the Florida AAU, and chairman of the two committees.
Similar to the National Sullivan Trophy, the new McGrath Swimming Trophy will be awarded annually to the boy or girl in Florida giving the most outstanding performance in either swimming or diving, York said. The award is being established permanently, with a master plaque for inscription of winners' names and medals for the annual presentations. It will commemorate the contribution of Byron V. McGrath, widely known coach, who died here last year, after years spent in the development of young swimmers and divers.
Members of the swimming committee of the AAU will include Carrington Gramling, Miami; Fred Walton, St. Petersburg; Mohler McVey, Palm Beach; Thomas Lamar, Lake Worth; and Clarence Coston, West Palm Beach.
The records committee includes Bud Godwin, Palm Beach; George McLaughlin, Henry J. Deltoro and J. Lavocat, Krasov of West Palm Beach.
The McGrath Memorial Trophy committee is made up of Bud Godwin, Palm Beach, chairman; Melvin McVey, Palm Beach; John Simpe, Boh Datoro, and Bob Hussey, West Palm Beach.

Bixler Is Fifth Coach In 12 Years At Ohio State

By HAROLD HARRISON
COLUMBUS, O.—Paul Orlando Bixler, a personable young man, has become the fifth coach in 12 years to hold down what generally is regarded as one of the hottest spots in collegiate football—coaching Ohio State University.
He's going into a spot which three of his last four predecessors have quit under pressure yet under three coaches Ohio State compiled the brilliant record of 99 victories in 17 years as against only 36 defeats and six ties and had only one losing season.
And although he'll be the Ohio State coach, it's a position in which Michigan's Wolverines seem to figure prominently. The three coaches who quit under pressure, resigned after defeats at the hands of Michigan although in the case of Carroll Widdoes, Bixler's immediate predecessor, squad dissension has been reported as a major factor.
The situation becomes even more anomalous when it is considered most of the other major members of Ohio State's athletic family have held to their jobs for long periods of years.
Athletic director L. W. Ste. John, who will reach the retirement age of 70 next fall, has headed the athletic department since 1912. Basketball coach Harold G. Olsen now is in his 24th year and track coach Larry Snyder has been here since 1932 except for the period of his World War II military service.
Starting back with Sam Williamson in the period from 1929 to 1933, Ohio State has enjoyed an almost unbroken string of successful football seasons. Williamson won 26 games, lost

10 and tied five in his five-year tenure. His teams whipped Michigan in two of his first three years but, the Bucks lost to Michigan in 1932 and 1933 and Williamson quit.
Then came Francis Schmidt and the era of razor-sharp football. In seven years, Schmidt's teams won 39 and lost 16. He licked Michigan four years in a row but lost to the Wolverines in his last three years and he quit.
Paul E. Brown moved up from Massillon (O.) High School to take Schmidt's place in 1941 and in three seasons he won 18 games, lost eight and tied one. Ohio State won only three of nine games in 1943 but that was taken in stride since the team played 17-year-old freshmen and 4-F's.
Brown left on leave of absence in the spring of 1944 to enter the Navy and then resigned a year later to become Coach of Cleveland's entry in the new All-American professional league.
Widdoes coached the Buckeyes in 1944 and 1945 and compiled a record of 16 victories as against only two defeats, both setbacks coming during the past season. He quit following rumors of squad trouble—and after a 7 to 3 by Michigan.
An added quirk to his position is the fact his 1944 team gave Ohio State its first perfect regular season since 1920 and he was named "coach of the year" for the 1944 campaign. However, Widdoes still is a member of the coaching staff.
Besides manufacturing all U.S. paper money and postage, the Bureau of Engraving and Printing produces all government bonds, drafts, warrants, commissions, certificates and transportation requests.

DEMANDING RELEASE from custody in which she and her husband were held for questioning in the kidnaping of Suzanne Degnan, 8, of Chicago, Mrs. Mary Verburgh is shown leaving Criminal Courts building after a judge gave police officers a limited time to charge her and Hector Verburgh, 65, with a crime or free them. RETONGA A BLESSING TO HIM SAYS MINISTER

Was Down To Only 110 Lbs. And Neither Medicine Or Will Power Seemed To Help Him, He States, Retonga Brought Prompt Relief.
"Retonga has been such a blessing to me that I feel it a duty and a privilege to publicly recommend it," declares Rev. Ralph Z. Mullins, of Greenville, Ala., one of the most widely known and beloved men in the South Central section of the state. Discussing his happy experience, Rev. Mullins stated:
"A serious illness pulled me down to only 110 lbs. and I seemed unable to come back. My appetite was gone and every thing I ate seemed to form gas in my stomach that pressed up against my chest until I often felt like I could hardly breathe. At night I frequently had to get up and walk the floor to get relief. I feel sure, through Retonga, that I had heartburn that felt like hot coals in my chest. I scarcely had strength to stay up and neither medicine nor will power seemed to help me.
"The relief Retonga gave me

REV. RALPH Z. MULLINS was a blessing. My appetite returned, the distress and discomfort was relieved, and I regained 30 lbs. I sleep splendidly and I feel good all the time. I hope my experience will help others find the same happy relief through Retonga that I did."
Retonga is intended to relieve distress due to insufficient flow of gastric juices, in the stomach, loss of appetite, Vitamin B-1 deficiency and constipation. Accept no substitute. Retonga may be obtained at Touchtop Drug Co. Adv.

Murray Blames Steel Strike On Industry

CIO Head Says Strike To Continue Until Industry Accepts Truman Decision

PITTSBURGH, Jan. 21.—(AP)—CIO United Steel Workers President Philip Murray has laid the blame for the steel strike at the door of management. Murray says the strike will continue until the industry accepts the decision of President Truman.

President Truman had proposed a compromise wage increase of 18 1/2 cents an hour, a figure accepted by the union but rejected by United States Steel.

Murray told a news conference at his Pittsburgh headquarters that if reconversion is hindered and disaster overtakes the nation, it will be not because the steel workers have called a strike.

It will be, he said, because the steel industry has laid "the blame for the strike on the shoulders of the President of the United States."

The whole country seems to be hypnotized by the CIO's one, two three higher wage bombardment—the electrical, meat, and steel strikes.

There is a lot of moaning and groaning as to how long the steel industry will last and what detrimental effect they will have. But everyone seems to be waiting for the next fellow or the Government to do something.

That's how it is, for instance, in the steel strike which—the CIO says—will cost the country \$10,000,000 a day and the workers 6,500,000 a day. Both union and big steel headquarters are silent as the pickets parade before some 1800 plants in 30 states.

Nothing to report, they say, just sitting around waiting for the strike to get going.

At Homestead, Penn., where 84 years ago there was much blood shed in a steel strike, the leaders are making much of the Carnegie-Rising sun that is to be the symbol of the picket duty. As a steel strike captain told the Associated Press: "A man has got to have a good excuse—a very good one—not to report for picket work. If he fails to show up, he gets fined \$5.00 and he won't be able to hold any union office for two years. I don't think we'll have any refusals or any failures, added the strike leader.

The CIO, in its campaign for public support in the steel strike, is taking to the radio tonight, Philip Murray, union president, will broadcast at 10:00 P.M. Eastern Time. Thus far, there still is nothing certain about the prospect that the Government may seize the steel mills. One high official says that if the walkout continues for a week, with the inevitable effect on other industries, President Truman may be compelled to take such action.

Compensation Paid To Single Citizen

Payments of unemployment compensation in Seminole County amounted to \$15 and were made to one person during the week ending Jan. 11. Carl B. Smith, Chairman of the Florida Industrial Commission, reported.

Throughout the state, compensation increased from \$118,738 for the previous week to \$141,670 and the number of claimants paid from 6,980 to 7,851.

In most counties unemployment was chiefly among former workmen in the shipbuilding and construction trades.

The unemployed person in Seminole County to whom payment was made was classified as an agriculturalist.

Getting In Shape For Regatta

WARMING UP for the annual mid-winter regatta in which they both will soon be taking part, attractive Martha Gray and Katy Turner show their water skiing form as they take a few fast turns around one of Lakeland, Florida's many waterways, hitched to a speed boat. (International)

Facilities For Display Of Stock Emphasized By Ocala Cattle Show

Development Of Livestock Industry Is Merely Foretaste Of Progress To Be Registered In Next Few Years

JACKSONVILLE, Fla., Jan. 21.—(AP)—The State-wide interest in the Brahman Cattle Show in Ocala this last week emphasized the wisdom of Nathan Mayo, Commissioner of Agriculture, in providing for the building of adequate facilities for the display of purebred live stock.

In several Florida production centers, said William L. Wilson, director of Florida State Farmsteads, the State Farmers' Market (Central) Commission, Director Wilson, and other officials, and industry leaders were in Ocala for the Brahman Show events.

The spotlight has been thrown on recent development of the live-stock industry, and particularly the expansion of our Brahman herds, through this great show, said Wilson today. "We feel however, that this development is merely a foretaste of the progress to be registered in the next few years."

"Live stock pavilions included in Commissioner Mayo's plans for such facilities, are expected to aid greatly in developing the industry throughout the State. Orlando, Ocala, Quincy, Belle Glade and Bartow will have pavilions to serve stock raisers, and at the University of Florida, facilities will be developed to aid in the education of the State's future leaders in this industry.

The Gainesville pavilion will make it possible for students in animal husbandry to accompany their text-book studies with actual examination of pure bred live stock, under the best possible conditions.

"The scope of Florida's production of fruits and vegetables is hard to visualize," said Director Wilson, turning to a discussion of current marketing operations. "For instance I have at hand a wire from J. Warren, manager of the State Farmers' Market at Pompano which tells of a daily average of 80 cars moving from that one production center—just at present Pompano's shipments are running heavy to Tampa. Quality and price are reported as good, and the labor situation in that area is improving."

"Shipments of strawberries handled through the Plant City Market during the last week have totaled 33,013 pints. Manager E. E. Johnson reports. This represents an increase of 9,754 pints over the preceding week. Industry representatives from that area are still exerting every possible effort to secure removal of the crop-harvesting ceiling of 25 cents per pint, fixed by the Office of Price Administration. We have cooperated with this effort to the fullest extent and are still hopeful of eventual favorable action. A Plant City delegation is to leave Monday for Washington for further protest of the strawberry ceiling. Meanwhile the Florida families making use of the packing house facilities provided by the State Farmers' Market there, according to John C. McEwen market manager. The Post Myers market is having a considerable volume of tomatoes and some yellow squash. The Palmetto auction has closed until the Spring Season, but Market Manager Jack Taylor Jr. reports that light supplies of eggplant, tomatoes, squash and peaches are coming in.

Truman Favors Wage Increase; Asks 2 Million Man Army And Navy

Says Extension Of Draft-Law May Be Necessary If Enlistments Fail

WASHINGTON, Jan. 21. (AP)—The portion of President Truman's message dealing with the Army and Navy, has dispelled any idea that the Army will be reduced, contrary to reports through the press. Mr. Truman has told Congress that 2,000,000 men will be needed under arms until 1947. The Chief Executive says, if the drive for volunteers fails to bring in enough men, Congress must extend the draft law. The present Selective Service Act is scheduled to expire on May 10. The President warns that Congress should make up its mind what it plans to do about the manpower situation by Mar. 1.

The 2,000,000 figure, Mr. Truman explains, is the estimate of needs—put forward by the War and the Navy Departments. But it is above the ultimate peacetime level of the Armed Forces, a level that has not yet been determined.

About 600,000 men have been obtained by the Army through recruiting during the past four months, Mr. Truman says. The Navy has obtained 80,000 men recruits.

Turning to the question of military expenditures, the President says the Army is asking for \$8,000,000,000 for the coming fiscal year. This compares with \$2,000,000,000 for the Army and navy combined in the Army and Navy budget for the fiscal year 1945. The expenditure for national defense before the war, and representing about ten per cent of the national income, the President has expressed great hope that the proposed United Nations Atomic Control Commission will be able to handle the problem effectively.

Two Seminole County Men Are Discharged

Two Seminole County men have been discharged from the United States Navy, according to information received here today from the Naval Personnel Separation Center in Jacksonville.

They are AMMC 2/c Jack R. Howell of Box 238, Lake Mary, and 2/c Joseph B. Roberts of 3065 Palmetto Avenue, Sanford.

JAYCEES MEET WEDNESDAY

The regular weekly meeting of the Seminole County Junior Chamber of Commerce will be held Wednesday night at 8:00 o'clock at the City Hall, according to Julian Stenstrom, president. All members are urged to be present for the discussion of plans for important civic improvements. Mr. Stenstrom said.

DRILL TONIGHT

Capt. John Galloway, commanding officer of Company C of the Florida State Guard, today urged all members of the unit to attend the regular drill tonight at 8:00 o'clock at the Armory. Capt. Galloway also stated that plans for a dinner to be held next Monday at the Armory will be completed during tonight's meeting.

Official Returns Released On 8th War Loan Drive

Final official returns of the 8th War Loan Sales in Seminole County as released by the Florida War Finance Committee reveal that the county went over the top 24.7 percent. Total sales were \$1,207,778 as compared to a quota of \$471,000.

Sales on E bonds were \$224,489 as compared to a quota of \$174,000 or 129 percent. Other sales were: F and G bonds, \$54,322; Series C Savings notes, \$91,000; 7 1/8 percent certificates, \$43,606; 3 1/8 percent treasury bonds, \$23,500 and 2 1/8 percent treasury bonds, \$900.

Hospital Has 12 Percent Hike In Patients In 1945

T.W. Lawton Elected Association President For 26th Time

A 12 percent increase in the number of patients admitted to Fernhill-Laughton Memorial Hospital during 1945 as compared with those admitted in 1944, was reported this morning by T. W. Lawton, who on Thursday was elected president of the Hospital Association to serve it for the 26th time as president.

Patients admitted during 1945 were 1,495 as compared with 1,321 in 1944, he revealed. The number of patient days was 9,181 in 1945 as compared with 7,907 in 1944. Collections were 97.44 percent as compared with 96.22 percent the preceding year. Births numbered 371 compared to 288 in 1944.

The following new directors were elected at the Association meeting: Mr. Lawton reported, W. H. Stovall, H. M. Coleman, Mr. Olive Hunt, the Rev. W. P. Yessy, Lea R. Leisher, and Ralph D. Chapman all of Sanford and John B. Bethes of Forest City and Prof. J. T. Jacobs of Lake Monroe.

Other officers elected were: Mrs. Endor Curlett as vice president; H. H. Hubbs as auditor; W. H. Stovall as secretary and treasurer and Miss Irene Hinton as recording secretary.

Elected to the executive committee were Mrs. Curlett, Mrs. R. E. True, Mrs. J. Dingfelder, Russell Chase and H. C. Dulrose. Present at the meeting were Mrs. Curlett, Mrs. Frank Chase, Mrs. J. Dingfelder, Mrs. R. E. True, Mrs. R. E. True, Mrs. R. M. Esby, Mrs. E. A. Monforton, Mrs. J. E. Spilling, Mrs. A. J. Johnson, T. W. Lawton, H. B. Pope, H. C. Dulrose, S. F. Doudney, Judge R. W. Ware, J. L. Galloway, O. P. Herndon, Joe D. Jenkins, and Dr. E. D. Brownlee.

Mrs. True served as temporary president at the absence of Miss Irene Hinton.

Total cost of operating the hospital in 1945 was reported to have been \$47,000 of which \$43,000 was paid by the patients. The balance represented donations from the City of Sanford, Chase and Company and friends of the institution.

H. C. Dulrose, chairman of the Executive Committee, reported that the hospital had completed a successful year in spite of the shortage of nurses and other personnel.

Mrs. Curlett reported that for the first time the nurses were put on eight hour duty schedule. She also reported that new roofs had been put on both the hospital and the nurses home. That the nurses had been given substantial salary increases, also would be given another raise this month.

H. B. Pope reported that a brief had been prepared for presentation to the district Naval Officer relative to securing the designation of the Sanford Naval Air Station, if or when the Navy (Continued on Page Two)

Grand Jury Raps Lottery Racket In Seminole County

Curbing of all forms of "unauthorized gambling" in Seminole County, particularly of "clubs" and numbers, was recommended Friday by the Grand Jury in the Spring term of Circuit Court.

Charles H. Furrer, county clerk, and J. W. H. Smith, county judge, presided.

Two no true bills were returned by the jury that accused Robert Gilyard of unlawful assault in connection with the attempt to secure the grand jury on the 20th and the versus Esley Sales for unlawful homicide in any degree.

Members of the grand jury, according to O.P. Herndon, county clerk were: Charles D. Furrer, R. C. Dodd, Charles W. Ehrhard, S. C. Lee, Alex. Lombard, W. H. Green, Steve McKler, W. A. Hughes, Otto Schmiedel, A. M. Jones, A. M. Largent, W. H. Gore, C. T. Niblack, C. W. Williamson, I. V. Williams, W. L. Lawton, L. J. North and J. W. H. Smith.

The grand jury's recommendation read: "We the Grand Jury do hereby recommend that the Spring term of the Circuit Court of the State of Florida in and for Seminole County, do make this a special proceeding with reference to the prevalence of gambling throughout the State of Florida and particularly in Seminole County and wish to commend Martin Anderson, Esquire, of the Orlando Sentinel, published in Orlando, Florida, for the strong editorial he has recently written urging all enforcement officers to exert every possible effort to suppress that iniquitous form of gambling commonly known as Bolita, Cub and Numbers."

"We, as Grand Jurors, feel that for the good of society and to prevent the corruption of morals that everything possible should be done to suppress any and all forms of unauthorized gambling in the County of Seminole, and we urge and enjoin all enforcement officers of all municipalities in Seminole County to renew and redouble their efforts to break up all organizations in between men, and sellers in Seminole County engaged in the form of gambling known as Bolita, Cuba and Numbers as well as any and all other forms of unauthorized gambling and we further recommend that said law enforcement officers report any and all violations of the said gambling laws to Murray W. Overstreet, State Attorney, or George A. DeCoteau, assistant attorney for prosecution."

GEORGE MOYB PROMOTED

George Moyb, while on terminal leave in Atlanta, Ga., has been promoted from the rank of major to lieutenant colonel, according to information received here today.

Declares Government Machinery Can Be Developed To Aid Strike Settlements

WASHINGTON, Jan. 21.—(AP)—President Truman told Congress today that most industries and companies are well able to grant substantial pay rises. The President's estimate of the wage-paying ability of "industry was" included in his 25,000 word confidential State of the Union and budget message. He said the companies have what he called "adequate leeway" within which to grant the raises.

Mr. Truman also told Congress that no mere government policy can make men get along with each other unless they are willing to foster mutual respect and good will. However, said the President, the Government can help develop machinery which will help labor and management to settle their disputes peacefully. He said that the backing of public opinion is a factor in such a process.

The message asked Congress support of a program which Mr. Truman declared will promote greater output of lower cost goods by higher paid workers. He warned against what he described as "waves of disunity" which he said were beginning to wash about again. The President said that disunity must not prevail.

The President promised that appropriate management of the American economy will result in production that will be half again as high as anything we have ever produced in peacetime. He said business can pay higher wages and sell for lower prices than ever before. Mr. Truman qualified this by saying some companies can not now and never will be able to join in the program.

The message offered one brand new administration policy. The President called for full enforcement of anti-trust laws to encourage new enterprises. Anti-trust enforcement was suspended in a number of fields during the war. Mr. Truman said business is a public trust and it must adhere to national standards—including fair wages and fair employment practices.

He said he could not recommend any further tax cuts now because of the pressure of inflation. The President called inflation "the worst enemy we have." He urged extension of price controls. He renewed his plea to Congress for action on 21 pieces of legislation. He asked both emergency and permanent housing legislation.

On the subject of foreign policy, Mr. Truman said the American peace policy must rest upon justice no less than upon power.

George W. Knight Joins Staff Of PCA In Washington

WASHINGTON, Jan. 21. (Special) Lt. Col. George W. Knight, who for two years directed air transport flying over "The Hump" from India, has been released from Army duty and has joined the staff of PCA (Pennsylvania-Central Airlines) in Washington, D. C. Knight, a vice president, announced today. He has already assumed his new duties at the National Airport terminal.

Mr. Knight, formerly of Newark, N. J., and Sanford, Fla., has had wide experience in air transport. Prior to entering the air corps shortly after the outbreak of the war, he had served for a number of years with United Air Lines and American Air Lines; he is former chief agent for Eastern Air Lines at Newark. He entered the Army in June 1942 and in 1943 was sent to the China Burma-India Theater where he was a pilot and traffic officer for India-based ATC planes. He was stationed at headquarters at Chabua.

Mr. Knight is a graduate of the University of Florida. Before entering the air transport field, he was connected with the Grace Steamship Line and sailed on the Grace ship, Santa Elena.

NOMINATED
WASHINGTON, Jan. 21. (AP)—President Truman has sent two nominations to the Senate for confirmation. The Chief Executive has chosen his naval aide, Commodore James Vardaman, Jr., to be a member of the board of the Federal Reserve System for a term of 14 years. He has selected Vice Admiral Alan G. Kirk to be Ambassador to Belgium and Minister to Luxembourg.

Veterans Service

Any veteran in need of service in any of the following categories is requested to visit the office of the responsible agency:

- Coordinator—E. E. Carter, Atlantic National Bank Building
- Emergency Funds—American Red Cross, Lake Shore Boulevard
- Hospitalization—Lloyd P. Boyce, Takach Building
