

ODB Makes Good In Getting Checks To Army Families

Office Of Dependency Benefits Pay Out 2 Billion A Month

By BILL GLOVER
AP Features Writer

NEWARK, N. J.—Along a hidden battlefield that extends from headquarters here to Cherokee City, Six Mile Run and every other town and hamlet in the U.S.A., the Army's ODB is making good in a fabulous battle to guarantee that Johnny Dougherty's dependents get monthly allowance checks swiftly and surely.

The meaning for YOU is that you too will be paid promptly and without hitch as soon as your man is called into service—it you your part.

Seven million dependents are getting their pay now.

It's a fabulous battle because a year ago the agency wasn't even on paper. Now disbursing at the rate of \$2,000,000,000 a year in an ever-growing monthly avalanche of green checks, the lusty infant has proved, to the joy of Army men, that the War Department isn't always snarled in red tape.

The agency is known officially as the Office of Dependency Benefits. Its director is Col. Harold N. Gilbert, a six-foot, sandy-haired veteran of 27 years of Army life.

If you do your part, he is confident ODB will stay on a current basis even when the Army reaches its currently estimated full strength of 8,000,000.

15,000 Appt. New applications for family allowances are flowing in at the rate of 12,000 a day.

To handle these applications, read 80,000 letters a day, write another 82,000, answer 10,000 telephone calls, interview hundreds of applicants and do all the paper work each one of the more than 3,000,000 monthly checks requires the efforts of 10,000 workers now.

Col. Gilbert estimates he will need about 1,500 more for peak production. They are as important as an armored division, for they have to keep up home morale. More than 90 percent of the checks are sent to the homes of men in the service.

Ironically, the office which handles the mandatory family allowances for the four lowest ranks (back private to line sergeant) hasn't a single man on duty.

The family allowance comprises about two-thirds of the monthly checks. The rest are voluntary allotments of pay by soldiers, from privates to majors, sending more money to the folks back home, for bank deposits or for insurance.

Forty-five percent of the family allowances disbursed are deducted from soldiers' pay; the rest is a government contribution.

For Class A (wife and/or children dependents) which the holder must help support, he contributes \$22 a month; the government \$28 for the wife, \$12 for one child and \$10 for each additional youngster under 18.

All Not Eligible. Another group of dependents, Class B, consists of parents, brothers, sisters or grandchildren. The allowance is lower and the soldier contributes a smaller amount. One of the ODB's biggest headaches, says Col. Gilbert, is putting over the fact that Class B individuals receive allowances only if direct dependency can be shown and if the soldier wants to contribute to their support.

"We had one letter," the colonel recalls, "which said 'We understand the government sends checks to the parents of a soldier. Please put us on the mailing list.'"

ODB, which issues one-fifth of all the checks paid by Uncle Sam, is housed in an 18-story buff brick skyscraper in which the plaster was scarcely dry when the brand new agency moved in from Washington last October.

Col. Gilbert is an infantry officer who has served around the world. In 1932 he directed America's greatest peacetime recruitment campaign an derided the now-famous "Keep 'Em Flying" slogan.

His slogan now emblazoned in every corner of the building, is "Get 'Em Paid."

In spite of everything, grumbling does occur.

The most generally misunderstood factor is that people believe family allowances begin immediately when the application is received. In fact, they begin when the application is approved.

Application forms are sent to the soldier's home. If the soldier is in the service, the application is sent to the nearest post office.

When the application is approved, the soldier's home is notified. The soldier's home is notified of the amount of the allowance and the date when it will begin.

BECAUSE CERTAIN BEACHES in California are closed to the public, a bevy of starlets now swim at the Town House pool in Hollywood. From top to bottom: Joyce Reynolds, Georgia Lee Scott, Juanita Stark, Virginia Patton, and Dolores Moran. (International)

Boatswain's Mate Tells What It's Like On Submarine In Enemy Waters

(EDITOR'S NOTE: Navy department communiques tell tersely of the prowess of American submarines as hunters. But during the "fabulous weeks" of war patrol hunting, what does a submariner think about? Boatswain's Mate first class Paul Carrington Barkdale knows. A member of the crew of the sub that evacuated President Quezon and High Commissioner Sayre from the Philippines and torpedoed 16 Japanese resisters, Barkdale returned home to Virginia recently for the first time since September, 1941, to see his family and meet 10-month-old Paul Carrington. This is his story.)

By Paul Carrington Barkdale
Boatswain's Mate First Class
As Told To John Daffron For AP Features

Richmond, Va.—A man gets scared plenty scared when the stuff starts coming. If he doesn't, well... he's probably crazy or something else is missing. But when you wait on a submarine, you get used to it. And then you might start chuckling—and before you remember to get scared again the stuff is coming.

First of course, you think of home and the folks. But more than likely you think of some swell liberty (shore leave) and how a cold beer would go and what you wouldn't give for one, or three or four... You might even think about Australia and if he's still hopping wherever he pleases... That old kangaroo has done me a lot of good in tough spots.

One night last year Jap destroyers picked us up and the skipper took her down. And then we heard the thrum-thrum-thrum of the destroyer's screws as she passed right over us... Then it was that Torpedoman Ed Class William E. Short from the Bronx, New York, used his old standby remark: "Come on, you little son-of-a-bitch, why don't you try again."

Men like Short do a lot of good in a submarine in a tight spot. The men figure it all feels that way, they may as well try. But, thank God, the Jap didn't blow us.

His slogan now emblazoned in every corner of the building, is "Get 'Em Paid."

In spite of everything, grumbling does occur.

War Brings Many Changes As Boom Hits Charleston

By JOHN BELBY
CHARLESTON, S.C.—Charleston, often accused of looking only backward, is today looking in two directions at once. It is looking out for the future, when its present war boom will have subsided. It is desperately trying to get ready for 40,000 more population within its restricted area, and for 40,000 more outside—a strained situation for a city which four years back counted its citizens at 62,000 and had for its chief industry the sale of its own cheese.

Things seldom come crashing into Charleston, but the war did. It shot the personnel at the Navy Yard from 4,000 to an estimate 25,000—the Navy won't give the exact figure.

Time was when the district "below Broad street" was time-lag. The people who mattered lived there, and had for a couple of centuries. The houses always sat endwise to the street, and galleries (in Charleston) where superimposed one on another and faced south for the breeze. Through the gates one saw lawns, where palm-trees rattled, camellia-japonicas burst into bloom, and the scented fluff-balls of the opopanax trees were golden in the sun.

It seems almost symbolic to some Charlestonians that this winter of the great change should have been one of the worst on record, with 17 freezes instead of the customary one or two.

Workers Move In. Below Broad the houses are still mostly in the hands of substantial citizens, but in the separate quarters for servants behind the great houses you will find rooms for workers who during their time hacking away at steel, instead of traipsing through the gardens and standing with guidebooks in hand before the old and really beautiful houses that are the glory of Charleston.

Salvors always have roared up and down King Street, which is Charleston's chief business thoroughfare, but in no such quantity as this spring. But, although there are the usual problems of wine, women and song that come with a great influx of young men, this is by no means the big Charleston problem right now.

In May and April of 1940, 108,350 tourists visited Charleston, and the next year it was 146,100. Paul W. Conant, secretary of Charleston's Chamber of Commerce, says that in the same two months this spring will see 15,000 tourists. The bottom has dropped out.

Saving The Past. But the past matter, for the space formerly used for sleeping tourists is all rented. Sleepers, overall, is better.

The problem is preserving the assets that will attract the war, continue to bring visitors.

The old houses must be saved—the good ones. These number hundreds; there are still streets which throughout their length are wholly beautiful. But many of the houses are by modern standards very inefficient.

New Prices On Soap Go Into Effect May 24

WASHINGTON, May 17, (AP)—The Office of Price Administration Saturday announced that specific dollars-and cents maximum prices for soap will go into effect May 24, but indicated that no rationing program is likely unless hysterical customers start wholesale raids on supplies.

In some cases the prices determined by the OPA actually will be lower than those presently paid by customers. Both wholesale and retail ceilings were fixed in the order.

A spokesman for the OPA said the ceilings are nation-wide and will prevent any form of "chisel-ing." For the present, however, they will apply only to grocery stores.

The following are some of the typical prices for well-known brands:

Class I stores (independents) with an annual gross volume of less than \$50,000:
Bar toilet soaps—Lux, regular, 8 cents; Ivory, medium, 7 cents; Ivory, large, 12 cents.
Laundry soaps—Fels-Naptha, regular, 6 cents; Octagon large, 5 cents; P & G laundry, large, 5 cents.

Class II stores (Independents) with an annual gross volume between \$50,000 and \$250,000:
Bar toilet soaps—Lux regular, 8 cents; Ivory medium, 7 cents; Ivory large, 12 cents.
Laundry soaps—Fels-Naptha, regular, 6 cents; Octagon large, 5 cents; P & G white laundry, 5 cents.

Class III stores (annual gross volume less than \$250,000):
Bar toilet soaps—Lux regular, 7 cents; Ivory medium, 6 cents; Ivory large, 10 cents.
Laundry soaps—Fels-Naptha, regular, 5 cents; Octagon regular, 4 cents; P & G white laundry, large, 5 cents.

Class IV stores (gross volume of \$25,000 or more):
Bar toilet soaps—Lux, regular, 5 cents; Ivory medium, 6 cents; Ivory large, 10 cents.
Laundry soaps—Fels-Naptha, 4 cents; Octagon large, 5 cents; P & G white laundry, 5 cents.

The 54 billion passenger-miles traveled by Americans on trains in 1942 was an all-time high.

LEGAL NOTICES

ORDER OF PUBLICATION
TO: CHARLES WILSON, a resident of a state other than the State of Florida, residing at 1015 N. W. 15th St., Miami, Fla.

You are hereby notified and required to appear to a certain Bill filed in the Circuit Court of the State of Florida, in and for the County of Seminole, Florida, on or before the 15th day of June, A. D. 1943, in default thereof said cause will proceed Ex-Parte.

Let this order be published for the statutory time required by law in the Sanford Herald, a newspaper of general circulation in said county and State of Florida, this 17th day of May, A. D. 1943.

Witness my hand and official seal of said Court at Sanford, Florida, this 17th day of May, A. D. 1943.

G. P. HERRNDON
Clerk of Circuit Court,
Seminole County, Florida.

Notice is hereby given that the undersigned guardian of the estate of EDITH LUNDQUIST, LINDQUIST, JOHN LINDQUIST and ALICE MAY LUNDQUIST, will on the 15th day of May, A. D. 1943, at 10:00 o'clock A. M. apply to the County Judge of Seminole County, Florida, at the Courtroom in Sanford, Florida, in and for the County of Seminole, Florida, to sell the following described property situated in Seminole County, Florida, to-wit:

To-wit: A certain 14 acres of Lot 15, all of Lots 16, 17, 18, 19 and 20, Block 11, of the public records of Seminole County, Florida, including all streets, alleys, easements, etc., also West 1/2 of Lot 21, New Upland, Florida, also West 1/2 of Lot 22, New Upland, Florida, also West 1/2 of Lot 23, New Upland, Florida, also West 1/2 of Lot 24, New Upland, Florida, also West 1/2 of Lot 25, New Upland, Florida, also West 1/2 of Lot 26, New Upland, Florida, also West 1/2 of Lot 27, New Upland, Florida, also West 1/2 of Lot 28, New Upland, Florida, also West 1/2 of Lot 29, New Upland, Florida, also West 1/2 of Lot 30, New Upland, Florida, also West 1/2 of Lot 31, New Upland, Florida, also West 1/2 of Lot 32, New Upland, Florida, also West 1/2 of Lot 33, New Upland, Florida, also West 1/2 of Lot 34, New Upland, Florida, also West 1/2 of Lot 35, New Upland, Florida, also West 1/2 of Lot 36, New Upland, Florida, also West 1/2 of Lot 37, New Upland, Florida, also West 1/2 of Lot 38, New Upland, Florida, also West 1/2 of Lot 39, New Upland, Florida, also West 1/2 of Lot 40, New Upland, Florida, also West 1/2 of Lot 41, New Upland, Florida, also West 1/2 of Lot 42, New Upland, Florida, also West 1/2 of Lot 43, New Upland, Florida, also West 1/2 of Lot 44, New Upland, Florida, also West 1/2 of Lot 45, New Upland, Florida, also West 1/2 of Lot 46, New Upland, Florida, also West 1/2 of New Air Blows Are Struck At Germany's Transport System

Third Big Dam Is In Danger As Toll Of Death Mounts From Devastating Flood

(By Associated Press)

Allied raiders struck paralyzing new blows at Germany's vital transport system before dawn today as flood waters unleashed by the blasting of two giant dams engulfed more than 64 cities and towns and rolled up a mounting toll of death in the German Ruhr and Weser valleys. A third big dam, was reported in danger of bursting as the result of seepage started by an R.A.F. mine.

By daylight, a large formation of planes thundered across the channel, signaling the eighth consecutive day of an Allied aerial offensive.

German officials denied down rigid censorship on details of the battle and a Berlin newspaper clamored for vengeance against the Jews.

United States Flying Fortress and other United Nations fighters pounded Italy's key anti-invasion outposts at Sicily, Sardinia and Pantelleria in softening-up attacks as Italian people fled from the prospect of invading troops. The emphasis of the difficulties of the operation.

On the African front Axis losses in the Tunisian campaign after the smashing of the Marsala Line were 224,000 men, including an estimated 60,000 killed, 27,000 captured, wounded and 207,000 captured, according to an announcement by the Allies.

Germany's military losses were reported by Berlin dispatches to include a Red Star dispatch which said the Germans have begun to shift their air forces from German aircraft to reinforce exhausted air forces.

Near Lichbach on the Donets River, the Russians captured a series of trenches after heavy artillery preparation and renewed land activity also was reported from the Kuban area.

Gen. Von Arnim In Allied Hands

Commander in chief of the Nazi forces in Tunisia is shown (one hand holding doorway of plane) arriving at an Allied base after his capture by the British in the final phase of the battle of Tunisia. The Army captain did not say where this photo was made. It has been reported that Gen. Von Arnim and other Axis generals have been flown to England and U.S. Signal Corps radiophoto. Senate Group Endorses Tax On Cigarettes

House Approved Bill Is Expected To Be Voted On This Week In Senate Chamber

TALLAHASSEE, May 18. (AP)—The following House bill became law yesterday without the Governor's signature: No. 136, relating to Longwood, No. 141, ratification of the Slavic drainage district benefits.

TALLAHASSEE, May 19. (AP)—The Senate probably will vote before the end of the week on the administration's three cents cigarette tax, already approved by the House 65 to 27.

It was endorsed by the Senate Finance Committee yesterday 8 to 4 and then, to speed final action, the committee voted to bring out the same kind of a bill and put it on the calendar. This was decided because the House bill was referred also to the Miscellaneous Legislation Committee, which has not considered it.

The Finance Committee's action means that there will be a cigarette tax bill on the Senate calendar, regardless of whether the Miscellaneous Committee approves the House bill.

Colin English, state superintendent of education, was barred from the Senate chamber for fighting with Senator Raymond Sheldon of Tampa last Friday.

The Senate adopted a formal resolution charging English with "insulting and attacking" Sheldon, and it denied to him the privilege of the floor and gallery for the remainder of this session, which ends June 4.

Sheldon was held "free from state colleges" by the OPA from Monday to Friday in the English's office after Sheldon had said on the Senate floor that "the school book racket" should be investigated.

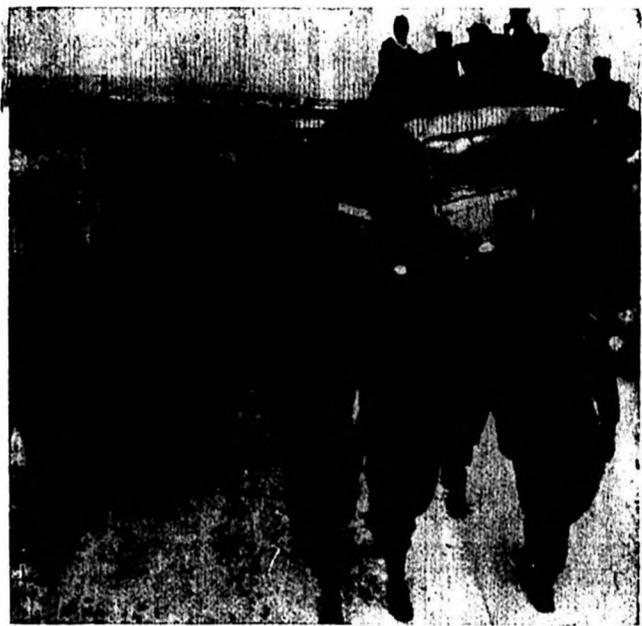

Governor Holland's three-cent cigarette tax to raise \$2,500,000 a year called through the OPA Monday and carried with it a companion bill for paying 2,000,000 to old age pensions and \$1,500,000 to the counties.

The cigarette tax passed 65 to 27, just as earlier test votes had shown sufficient strength to sweep it through when debate ended.

The show of strength for the bill was given by Representative James Bradford, a cigarette tax opponent, to make the motion for the final roll call by giving the tobacco industry's checkbook to the Senate.

Senate Must Concur. If the Senate concurs, it will constitute the law.

Axis Prisoners Smile On Way To Prison Camp

Prisoners of war are not supposed to be happy about their capture, but these Axis soldiers leaving the city of Tunis smile as they head toward Allied prison camps. For days they had been facing almost certain death, and capture was a welcome relief from that persistent, nerve-racking fear. This is an OWI Radiophoto. (International Soundphoto)

U. S. Closes Trap On Japs In Aleutians

Two U. S. Patrols On Attu Force Pass For Junction And Cause Jap Retreat

WASHINGTON, May 18. (AP)—The American garrisons have closed a trap around the Japanese positions on Attu Island, the Navy reported today, and at least part of the enemy troops are in retreat toward a last ditch stand.

The communique said advance patrols of United States forces advancing from Holtz and Maseur Bay have joined in the bright southeast of the former. The pass was cleared of enemy troops, which withdrew toward Chikof Harbor leaving only snipers behind.

WASHINGTON, May 19. (AP)—American aviation forces have cracked the backbone of Japanese defense on Attu Island and are fighting ferociously for a key mountain pass blocking final conquest of that fog-bound North Pacific outpost, the Navy disclosed yesterday.

The guns of the fleet are laying down a savage supporting bombardment as two American columns drive toward a junction in an attempt to trap the Japs in the jaws of a pincer.

Victory appeared near.

The Navy meanwhile disclosed new offensive blows in other theaters of the Pacific front—a bomb attack against Jap-held Wake Island and another aerial thrust against enemy positions in the Solomon. At least two of 22 Jap Zepps which sought to intercept four motorized American bombers over Wake were destroyed. Another was probably destroyed.

For the moment the main show was on Attu. At the westernmost tip of the Aleutians, the eight-day American struggle to recapture the island and win an advanced bridgehead on the northern road to Tokyo appeared to be nearing its climax.

Secretary of the Navy Frank Knox said the Japs troops had been driven from strong positions on a mountain ridge that is the gateway to Holtz Bay and Chikof Harbor. A subsequent Navy communique said this vital victory was achieved last night in the face of strong counter attacks.

American casualties have been "light" despite stubborn and at times "very astute" resistance.

The captured ridge towers are 2500 feet above the two arms of Holtz Bay where the enemy has its principal positions.

Knox said Jap possession of the ridge had been holding up a two-pronged American drive one from the southwest. Its capture makes it possible to carry out the pincer movement.

Somewhere in that ridge there is a mountain pass and it is there that fighting now rages.

Possession of the ridge will enable the American to sweep down and overtake the Holtz Bay and Chikof defenses. And from the ridge they can see a position to lob shells upon the enemy. At one point it rises 30-40 feet.

CITY BRIEFS

C. W. Butler, state OPA director, and Gordon C. Morecroft are expected to confer this afternoon with A. B. Peterson, secretary of the Seminole County Price and Rationing Board.

The public is invited to attend the mass meeting of the American Legion Auxiliary WAVE-SPAR week at the Legion Hall in Orlando tonight at 8:00 o'clock. The main speaker will be Lt. Comdr. M. J. Neidham, Jr. of Jacksonville.

Weatherman B. V. Whitner said that during the 24 hour period from 7:00 A.M. yesterday to 7:00 A.M. today, total rainfall amounted to 1.6 inches.

Supt. T. W. Lawton stated that he would attend the meeting of the board of trustees of Rollins College at Winter Park this afternoon.

County agent C. B. Dawson and Mrs. Dawson left Sanford after noon for Washington, D. C. Mr. Dawson will attend a family reunion during their stay of one week.

The Recreation Division of the Seminole County Defense Council will meet tomorrow afternoon at 8:00 o'clock at the Community Center, 1000 N. W. 10th St., Sanford.

County District Commissioner of the County Board will hold Friday evening at 8:00 o'clock at the Community Center, 1000 N. W. 10th St., Sanford.

Mr. Russell explained that it has been decided to get started early this year.

All special work made to all through the County Board and the County Board will be held on all day and night as long as the war continues.

Bill Thorne Is Installed As Legion Head

Mrs. C. W. Isbill Is Re-Elected President Of Auxillary

William F. Thorne of Lake Mary was installed Monday evening as commander of Camp-Landing Post 53 of the American Legion, as the first post in the Seventh Florida District to have an installation of officers. He was honored with the presence of District Comdr. J. B. Kirkpatrick of Eustis, who installed all officers.

Mrs. C. W. Isbill, of Lake Mary, who had been re-elected as president of the Legion Auxillary, was installed by Mrs. Eleanor Jackson, district president, a resident of Mt. Dora.

Retiring Post Commander Ned Smith stated that he was sorry that he was unable to serve the Post another year in that capacity, but that he had full confidence that Comdr. Thorne would carry on and have a most successful year. He added that as Post Adjutant, Mr. Thorne had been very co-operative in aiding in all Legion work, including the successful letter drive and the (Continued On Page Three)

Man n Presents Bill Providing Old Age Minimum

At Least \$30 A Month Would Be Given To Persons Past 65

A bill which would set minimum old age assistance in Florida at \$30 a month was introduced in the House of Representatives yesterday by Rep. I. B. Mann and 43 co-signers. This bill, in the existing law, would limit the payments to persons 65 years of age or older who have lived in Florida for five years and do not have sufficient income to "provide reasonable subsistence" compatible with decency or health.

Rep. Mann, in a letter to The Herald, set forth the following reasons for his advocacy of the bill:

"I am very anxious that this bill pass both the House and the Senate as it would cut down (Continued on Page Three)

Mrs. B. F. Ward Is Installed As PTA President

Mrs. B. F. Ward was installed (by proxy) as president of the Seminole County Council of PTA at a meeting held Monday morning at Sanford Grammar School.

Mrs. W. H. Stewart performed the installation, according to Principal Earl Kipp.

Other officers installed were Mrs. John Rogers of the South Side Primary school as vice president; Miss Margaret Harper as secretary; and Mrs. Stella P. Arlington as treasurer, succeeding Pro. G. E. McKay, who resigned from the office.

A talk was given by Supt. T. W. Lawton entitled "Johnny gets a Zero," the zero in this case not being a school mark, but a Jap plane.

H. W. Rucker, retiring president of the Council stated that despite the war, the PTA had been active during the past year and some good had been accomplished.

Two resolutions were passed by the council: one, commending the Seminole County Health Unit for its work in the schools, and the other thanking the present members of the State Senate for looking out for the interest of the boys and girls of Seminole County.

Recitations were given by four pupils of the Margaret Mott School of Exponent: Tommy Melvin spoke on the "Way of a Wife," Mildred Turner had as her theme, "Deacon Block on Honesty," Jimmy Ludwig recited "The Boy Scout," and Nancy Jean Appleby spoke on "Piney Woods Cove."

OPA Grants 30 Cent Increase In Potato Ceiling

Lehman Predicts Farmers Will Reduce Potato Plantings

That the recent boost in potato ceilings by the OPA from \$3.10 to \$4.10 per hundred pounds might help growers a little but not a great deal, was the opinion yesterday of H. J. Lehman, manager of the Sanford State Farm and Market.

This statement followed receipt by Lehman of a telegram jointly signed by Senator Frank Pepper and by Rep. Joe Hendricks, which read as follows: "We have made every effort to get an increase of 50 cents or 70 cents and we are sorry that we were not successful, but we are glad that we got at least 10 cents that will help some. The order will be issued immediately."

That Florida farmers may cut potato plantings was suggested by Lehman.

The back of the application bears the printed address of the State Mailing Center and the applications must have a three-cent postage stamp on them or they will be shelved and cause unnecessary delay, Mrs. Monegan continued.

She went on to announce that there will be a meeting of the OPA at 8 o'clock tomorrow evening at 5 o'clock at the Women's Club House and the time of the OPA meeting will be Monday at 8:30 P.M. at Peoples Academy it was announced by Minnie Fields.

She went on to announce that there will be a meeting of the OPA at 8 o'clock tomorrow evening at 5 o'clock at the Women's Club House and the time of the OPA meeting will be Monday at 8:30 P.M. at Peoples Academy it was announced by Minnie Fields.

Applications For Ration Book No. 3 Will Be Out Soon

Lieut. Umphrey Tells Kiwanians Of Midway Fight

Application blanks for War Ration Book No. 3 will be distributed by postmen and at the Post Office General Delivery, starting between May 20 and June 1. A. R. Peterson, rationing executive, announced this morning.

He called attention to instructions necessary to be used in completing the application blanks and to the fact that the blanks will be distributed by postmen and at the Post Office General Delivery, starting between May 20 and June 1. A. R. Peterson, rationing executive, announced this morning.

Lieut. Umphrey Tells Kiwanians Of Midway Fight

Warns People Not To Regard Japanese War As Pushover

A warning not to underestimate the Japanese in the present war, especially, was given today by Lieut. R. V. Umphrey of the Sanford Naval Air Station to a group of Kiwanians at lunch here today at the Hotel Merton.

Lieut. Umphrey, who is a pilot in the Battle of Midway, told of various phases of the battle and of the sinking of the Japanese battleship, the *Yamato*, and the fact that the great fleet of ships, helplessly without plane protection, turned back and were attacked by the American fleet.

Field Day Is Held At Seminole High

Churchill Pledges Fight Against Japan

Field Day was scheduled to start this morning at Seminole High School with many athletic events scheduled. The day was a physical director stated yesterday.

The opening event at 9:00 a.m. was a 75 yard relay race, which was won by the Red and Yellow team of girls. Ten teams of girls with different color designations were scheduled to compete in the 75 yard relay race, basket ball, hand ball, and football star, would assist in the program. Mr. Ferguson said Mrs. Lee Samuels is director of the girls' program.

At the conclusion of the day's events the points acquired by boys and girls teams of like color markings would be totaled, and the winning teams announced, Mr. Ferguson said.

WASHINGTON, May 19. (AP)—Prime Minister Churchill today pledged British participation in an eventual finish fight until Japan's war industries and cities are laid in ruins.

Addressing a joint session of Congress, he asserted, "I regard the bringing of immediate and effective aid to China as one of the most urgent of our common tasks" and declared he and President Roosevelt hope for an early meeting with Premier Stalin and Chiang Kai Shek.

Referring to his conferences with the President, Churchill said the "supreme objective" of all planning is to come to grips with enemy on the largest possible scale at the earliest possible moment "wherever that is profitable and... may say—wherever it is possible."

Diamond Ball League Nears Season's End

The Lions' Junior Diamond Ball League, with one more week of play before them, will have rounded out a very successful season according to W. A. Ludwig, manager of the Seminole Team.

He added that plans are now being made for the all star game scheduled to be held on the Lake Front diamond ball field on Wednesday evening, June 2.

Indications point to the Giants' managed by P. H. Lansing, as being the sure permanent winners, but according to Mr. Ludwig, they have had to battle all the way through the season.

The other two competing teams have been the Cubs, managed by R. E. Kipp and the Red Sox, piloted by W. H. Bach.

The Giants, who have as yet not lost a game, are scheduled to clash tonight at the Lake Front with the Red Sox.

Manager Kipp of the Cubs stated today that it has been a very worthwhile and enjoyable season for the boys composing the League.

Ralph Pezold Has Finished Air Course

AMARILLO, A. R. (AP)—Ralph Pezold, 19, (Spartan) Ralph Pezold son of Mr. and Mrs. L. H. Pezold of 800 Palmetto Ave., Sanford, Fla., has completed his course of studies as an aviator mechanic in this Army Air Forces Technical Training School.

His graduation from this Technical School now fits him for maintenance and he will be sent to some air base where he will assist in keeping America's Flying Fortresses in the air for Allied victory.

In addition to completion of the schedule of academic and practical studies as an aviation mechanic, he has been thoroughly drilled in military tactics and defense and a course of physical training that has conditioned him to meet all requirements of an American soldier.

More Contributions For Blood Received

Additional contributions to the Seminole County Blood Bank bringing the total for the drive to 117. The acknowledged contributions are as follows:

H. L. Brown, W. E. Rutledge, Arthur Coleman, E. M. Brown, James W. C. ...

Ensign Carraway Reports For Duty

Ensign Andrew M. Carraway, son of Mrs. Joder Cameron, left today to report for duty at Fredericks, Md. after spending a short leave here with his wife and child.

Entering the Navy Mar. 15 at Tucson, Ariz., Ensign Carraway completed his indoctrination course May 15. He is a graduate of Sanford High School and the University of Florida. He is owner of Carraway Insurance Agency, which Mrs. Carraway is operating in his absence.

John H. McLean, 58, Dies At Hospital

John H. McLean, 58, died this morning at Fernald-Laughton Memorial Hospital at 9:30 A.M. following a lingering illness. He had been in the hospital since yesterday noon.

Born Sept. 17, 1884, in Steubenville, Ohio Mr. McLean's home was on the banks of Lake Jessup, near Orlando for seven years. His only immediate survivor is his wife, Mrs. Beacie McLean.

He is a veteran of the First World War, Erickson Funeral Home will send the body to Pine Grove, West Va. for burial.

WEATHER

GEORGIA — Little temperature change, showers south this afternoon and central and north portions tonight.

FLORIDA — Showers extreme north and few showers south and central portions tonight. Little temperature change tonight.

ALABAMA — Little temperature change this afternoon and tonight.

TENNESSEE — Scattered thunderstorms west and central portions tonight and Thursday morning. Somewhat cooler west portion.

More than 1,000 \$10-million shells are made every minute in American munitions plants.

Admiral Robert Is Behind 8 Ball At Martinique

Personal Dictator Wants Neutrality But Can't Get It

(EDITOR'S NOTE: Camille Chauvin was a member of the French government, four times a premier. He was also premier when the Germans occupied France but managed to escape to Washington, as he says, "out of politics." This is his account of the tough situation at Martinique and the attitude of Admiral Robert.)

By CAMILLE CHAUVIN
Written For AP Features

If the times were not so tragic a funny story could be written about Admiral Georges Robert, colonial governor of Martinique. He is forcing personal dictatorship upon the inhabitants, dealing on equal terms with the mightiest power, and not hesitating to defy the entire world. But the most beautiful dream he has an end, and La Fontaine thought as that a frog who he lived he could become as big as an ox burst and died.

Admiral Robert's status is the more curious because this man has been a supporter of Vichy got his commission from the French government in 1939. If this government contrary to normal practice, preferred an admiral to a civil governor, it was precisely so that this military man would be ready to fight the enemy in accord with our Allies—not remain neutral.

It is true there has been an article. I have been told that Admiral Robert hesitated between Marshal Petain and General De Gaulle—which would be to his credit. Having finally decided himself for Petain, he had to keep a position of neutrality. The American government asked nothing else from him at the time.

Became "Dictator" • When the attitude of Vichy became openly pro-German, the United States needed some man to take an advantageous position to which he has become accustomed and through which he hopes to gain a benefit for himself in the midst of Frenchmen.

Finally, too, he has a more naive illusion, reflected from certain Vichy men, that destiny is not yet settled and Germany can perhaps win the war. He still thinks in his mind that the tremendous victory of the Allied armies in Bizerte and Tunis would enlighten his judgment.

Admiral Robert's attitude may be blind, but it shows a stubbornness. It is clear that he can hope for nothing good from a disaster which is obviously against the interest of France and the unanimous accord of all other Frenchmen for resistance.

careers as a dictator. He became accustomed to have "his" policy for "his" territories.

A day came when the French situation was cleared. The Americans and the British brought the war to French soil, and the liberation of France began. The liberation of France began the liberation of all our territories.

and every Frenchman must be in his mind to fight.

All alone in the world, Admiral Robert remains neutral in his small kingdom. He will not fight for France, because he did not receive the order to do it from Marshal Petain, to whom he took an oath of fidelity.

It would be in vain to tell him that Marshal Petain is a prisoner, that Admiral Darlan, Robert's direct chief, had taken command of the resistance, that all French generals and admirals had taken their place behind General Giraud, finally that power in America will not tolerate in front of its door, so strange a situation.

Like "Play Acting" • What explanation can we give for this situation? Admiral Robert's background brings us no special light. His career has been happy, but common except for his participation in economic negotiations in London, he served in the navy, progressing normally through the ranks. His command describes him as a "fine speaking man," who perhaps has been befuddled by his own glory and has accustomed himself to "play acting."

Does he feel an obsolete and blind fidelity toward that external form of discipline in which some military men put their conception of honor? It is not impossible, but it seems difficult to believe that such feelings could be sufficient to explain his psychology. One is obliged to think that more personal and practical considerations also have their part in it.

There is first the feeling of fear which the Admiral expressed in a recent letter to a newspaper man. He has heard suggestions that men who have helped the Allies will be eliminated when their usefulness is over, and he fears the same destiny for himself if he agrees to demand-made on him.

Apparently he has an illusion that for the duration he can keep an advantageous position to which he has become accustomed and through which he hopes to gain a benefit for himself in the midst of Frenchmen.

Finally, too, he has a more naive illusion, reflected from certain Vichy men, that destiny is not yet settled and Germany can perhaps win the war. He still thinks in his mind that the tremendous victory of the Allied armies in Bizerte and Tunis would enlighten his judgment.

Admiral Robert's attitude may be blind, but it shows a stubbornness. It is clear that he can hope for nothing good from a disaster which is obviously against the interest of France and the unanimous accord of all other Frenchmen for resistance.

AMERICAN HEROES

"Shooting Feet" is what they called Pvt. Charles Zuke, of Big Rapids, Mich., because in line of duty he shot down 22 top airmen in New Guinea. He twice legged legs who were trying to pick off his captain, saving the officer's life. No sniper's nest is safe from his Grand rifle.

We help put Grand rifles in our heroes' hands with every War Bond bought.

Hints To Housewives CANNING FRUITS, TOMATOES

By Isabelle S. Thuraby

Extension Food Specialist

In canning both fruits and vegetables the principle is the same. The product must be heated sufficiently to kill all microorganisms that cause spoilage. When the food is "jerked" and sealed in airtight containers, this prevents infection.

The hot and cold pack method is up to date and safest. The food is packed uncooked in the hot jar, as with all berries except strawberries, grapefruit sections, and tomatoes (cold pack), or the fruit may be cooked slightly and packed hot (hot pack), as with peaches, pears, plums, and figs.

Hot Water Bath • The most satisfactory method for processing acid foods. The container may be made from a large deep vessel with a tightly fitting bucket, wash boiler, or any fitting vessel to confine steam. It must be deep enough to allow water to cover tops of jars at least one inch. A wire or wooden rack to hold jars off bottom and jar lifter for handling hot containers are needed.

Use sound, mature fruit for canning. Wash carefully and prepare as required for each particular fruit. Pre-cook in boiling medium syrup. Pack hot fruit in hot jars. Fill jars to within a quarter of an inch of top. Work fast. Leave no food particles on top rim of jars. Adjust jar lid. Lightening jar lids are sealed completely when packed with hot food. Screw tops having separate rubber rings are screwed tightly then loosened slightly, and tightened completely immediately after processing. The screw top type with a metal lid having a rubber compound flange into a groove in its under surface is sealed firmly. The screw hand is not handled again until processing is over and jar is cold. The band is then removed and the seal tested. Tap the lid with a spoon. A clear, ringing sound indicates a seal. Do not invert this type jar.

Invert any jar having a separate rubber ring to test leakage. If moisture comes out, air can get in and spoilage will result. Cool jars as rapidly as possible, but not in a refrigerator. Store in a cool, dark, dry place.

Cooking in the jar results in less contact with air and containers are sterile. They may easily become contaminated in filling. Vitamin content of food may be reduced also in exposure of hot fruit to air in filling containers.

Steam Bath Method • This also has disadvantages. In actual practice the steamer is often used without sufficient regulation of steam for sterilizing. When properly operated the processing periods for acid foods are the same as in the hot water bath.

Open Kettle Method • This is the older, out-moded method. It calls for complete cook in open kettle, then packing in sterile jars which are immediately sealed. There is no further heating. Even though jars and lids are sterile, they may easily become contaminated in filling. Vitamin content of food may be reduced also in exposure of hot fruit to air in filling containers.

Dr. Newell Says Victory Help Increase Crops

GAINESVILLE, May 19. (AP)—Recent American and Allied victories should stimulate farmers and others even to greater effort to produce food and other supplies needed to win the war, Dr. Wilmon Newell, professor of agriculture at the University of Florida, said Saturday.

"Successes of our armed forces in Africa," he declared, "should stimulate us to push harder than ever on the production front for victory. We must realize that as great as these victories have been, the hardest part of this war still lies ahead of us and we must work harder than ever."

The provost stressed the seriousness of the task before the United Nations, pointing out that the Germans held most of Europe and the Japanese occupy most of the territory they took in Asia and the Pacific.

"Before the war is won," he said, "the United Nations must invade Europe by water and drive the enemy back into Germany, subdue the Japanese in their own country and drive them from the land they have taken from China, England, the Netherlands, France and the United States."

"Accomplishment of these objectives will require hundreds of thousands of men, thousands of planes, tanks, guns, and ships, and millions of tons of food."

"Food is the most necessary of all supplies needed for successful prosecution of the war," he emphasized.

"We must produce enough food for the present and the future," he declared. "Food must be produced for military and civilian use now and for months to come. Production of war equipment cannot be raised to the necessary level unless the workers who make it get enough food. The morale of civilians cannot be maintained unless there is enough food for them."

"Our armed forces must have plenty of food to be strong enough to overcome our enemies. Maximum support of countries to be freed from Axis bondage cannot be obtained without food."

"Farmers have many difficulties to overcome to produce more food this year than ever before, who considers the tremendous vital part that food he produces will play in winning the war can do but one thing—produce to his utmost limit."

"The farmer who meets his production goal is doing his duty well, but our nation's need is more than his own farm, performing a service to his country over and above the line of duty."

Open Kettle Method • This is the older, out-moded method. It calls for complete cook in open kettle, then packing in sterile jars which are immediately sealed. There is no further heating. Even though jars and lids are sterile, they may easily become contaminated in filling. Vitamin content of food may be reduced also in exposure of hot fruit to air in filling containers.

Steam Bath Method • This also has disadvantages. In actual practice the steamer is often used without sufficient regulation of steam for sterilizing. When properly operated the processing periods for acid foods are the same as in the hot water bath.

OPA Is Waiting For Reaction To Price Subsidies

WASHINGTON — The Office of Price Administration, in subsidizing processors of meat, butter and coffee, is like the boy wading hesitantly into cold water. It's waiting for reaction before taking another step.

Behind the subsidies is a tangled political situation, which could blow up in the faces of the hurried OPA and Department of Agriculture.

Subsidies are anathema to farm bloc members. They want a higher farm price, and no nonsense about subsidies, which can be taken away. It's their contention that labor has been given the gravy and the farmers haven't got enough to spot a vest.

To bolster this contention they say that industrial labor — currently mooning about high food prices — is actually paying a smaller fraction of its income for food than at any time in recent history.

In other words, the farm bloc admits that farm prices have been boosted by the war, but says they haven't soared nearly so fast as wages. Cold turkey figures prepared by the Bureau of Agriculture Economics bear out their argument.

When subsidies were brought out and dusted off a while back as a solution to spiraling prices, Congress slapped the subsidy idea down in short order. Farm members wanted a copper-riveted formula that would raise farm prices to equality with industrial wage increases, which can be used for a yardstick after the war, too. They fear the subsidy idea would get the old leave-no-one-the-armistice is signed.

Another group in Congress against subsidies alleges that actually the farmer doesn't get all the apparent subsidy. Like everybody else in the country who pays federal taxes, he's nicked for part of it.

There's another school of thought that holds subsidies contribute to the very inflation they seek to arrest. Anything that raises the national debt, they say, contributes to inflation, and there's no doubt that subsidies are expensive.

The OPA's first venture into subsidies is calculated to cost \$200,000,000 to \$400,000,000, and that's peanuts compared to the cost if subsidization becomes general.

The OPA subsidy program is

Can the monkeys on Monkey Island talk?

This weighty question might puzzle scientists or students of zoology, but is no problem at all to the most famous of the island. White, negro, jolly trusty who is familiarly known as "Cruel Man," and who formerly fed the monkeys.

"Cruel Man," busily engaged at shining shoes, paused for a moment between strokes, then burst into a loud laugh when asked this question.

"Them three monkeys kin talk but they ain't a word to you, and you want to know why?"

"Very 'Cruel' burst into loud laughter again.

"Ah! tell you why they don't talk, they know that if they did, we'd put 'em to every farm 'Cruel Man,' we'd make 'em clean up the island."

At this point we asked "Cruel Man" what the monkeys would say if they did talk.

"Old Chukie would say, 'plumms that basket of food; old French high he got a long goat and a high he got a strong position' in with his hands in the air, and old Red Boy right away, 'how say, 'Ah kin policeman here you kin get to 'mind me,' concluded 'Cruel Man.'"

Wilson and Lennie Wilson, drunksness, \$11 bond returned; Ruth Jells, disorderly conduct, \$10 bond returned; Baby Fish, escaped city, \$5 and costs or 10 days in jail.

All the King's men could not put Humpty together again, but the doctor who is distressed with stomach or ulcer pains, indigestion, gas pains, heartburn, bloating, constipation, flatulence and other conditions caused by stress and should try Tablets from your local drug store. Tablets from your local drug store. Tablets from your local drug store.

The Unadvertised BUSINESS

When the Long Distance Telephone Operator Says: "I'm sorry, due to heavy business, there will be a one- or two-hour delay on your call".

It Means: All long distance telephone lines to the place you are calling are overcrowded with urgent war business. Under such conditions, if your call isn't extremely urgent, it will help a lot if you will tell the operator to cancel your call, so as to avoid still further crowding of the lines.

The deeper we get into this war, the greater the demand for more and more long distance telephone services for war agencies. Their calls must go over the same lines that civilians use. So in order to give all aid possible to those who are responsible for the successful carrying on of this war, we are asking civilians to make only the most necessary long distance telephone calls, and to be brief on all calls.

Tuning in the wet willow smell, Th e colder smell from the river, And I remember the stars...

John L. Lewis has announced that he will postpone his crime against the nation for another two weeks.

Secretary Knox warns that the war is just beginning. It looks as if the war on the home front is anyway.

Some of our local farmers who thought they had some pretty nice potato chips are beginning to think they were German fried.

If Representative Sheldon and Colin English had some pretty argument settled, we'd like to match one of them with Frank Smith out here at the Naval Air Station.

The current controversy over the pronunciation of the word "warrior" reminds us of what the farmer said when asked whether a-ther or i-ther was correct.

When a government department, board or commission asks for more money, that's nothing, but when Secretary Ickes says the interior department can get along with 10 percent less money, that's news.

We could soon have a lovely green Bermuda grass lawn where our garden is if we'd just pull up the vegetables. Tampa Tribune. That's what you think. Ever hear of sandpaper and beaver wool?

Vice President Wallace has returned from his South American tour with his stature so enlarged that if President Roosevelt ever gets tired of running for third terms, fourth terms and so on, the lightning will very probably strike this fat haired child of the Administration.

May be one reason they plan to ban the press from this coming international food conference is they're afraid those hungry reporters will eat it up. Sanford Herald. Reporters seldom get any real food at a banquet. They are busy while the others eat and talk. Times Union.

Senator Pepper again pays his respects to John L. Lewis. I know that our President (Mr. Roosevelt) will never surrender to John L. Lewis, the most evil and dangerous man in America.

Most destructive and pitiful sin of the world is jealousy. It is the worst enemy we have. It is the root of all evil. It is the cause of all wars. It is the cause of all crimes. It is the cause of all suffering.

At the end of the world, a world of confusion is being held for the people of the world. The world is in a state of confusion. The world is in a state of confusion. The world is in a state of confusion.

An Income Tax Conundrum

Now that President Roosevelt has voiced his opposition to the modified Ruml pay-as-you-go tax bill and indicated that he would veto it if it is passed by Congress...

It has been fairly well substantiated by the Gallup poll, newspaper forums and every other means of testing public opinion that most people believe some form of pay-as-you-go tax plan should be evolved.

Too many times in the past, and we don't doubt in innumerable cases this year, income taxes have been avoided altogether by the simple expedient of not having any money when income taxpaying time came around.

The President, too, says he favors the pay-as-you-go principle, but he objects to the skip-a-year provision. The question is how to get on a pay-as-you-go basis without making the taxpayer pay last year's taxes this year under the old system...

But the President says this would favor the wealthy taxpayers at the expense of the little taxpayers. The reason is that the wealthy taxpayers pay a bigger percentage of their incomes in taxes than the little taxpayers.

If incomes were stable throughout the years this might not make any difference, but we are in a war period of boom time incomes when for say three or four years incomes arising from war profits or war work are apt to be much higher than normally.

It seems to us that some system could be worked out embracing the best features of the pay-as-you-go principle without involving any skip-a-year provision.

Softness In Germany?

That remarkable German surrender in Tunisia continues to be an interesting psychological as it was militarily. The 175,000 Nazis, with their sprinkling of Italian Fascists, would doubtless have had to surrender anyway before long.

Can it be that, even after the drastic mental and physical training of those Germans under the dual regime of Hitler ideology and Prussian militarism, there is still a soft layer in the character of the average German?

According to Editor Carl Hanton of the Ft. Myers News-Press, the Shands Committee might well have named the man named in this amendment whether the men named in this amendment were suitable to serve in the government or not.

WEEKLY NEWS COLUMN

Providing Jobs Is Called Main Work Of Post War Era

By ADELAIDE KERR AP Features Writer

NEW YORK—Frieda Miller's new London job for Uncle Sam may well result in a worthwhile contribution to post war reconstruction.

Miss Miller, the former Industrial Commissioner of New York State, is going to London soon as special assistant to John G. Winant, United States Ambassador to England.

She is a pay nomination for the Woman of the Month for the month of May. In order to get the full significance of Miss Miller's appointment, you will have to look at her record.

After graduation from Cornell she did four year's graduate work in economics at the University of Chicago. She spent a year studying labor conditions abroad.

As Miss Miller and I sat in her Gramercy Square apartment recently I asked her what she considered the outstanding task of post war reconstruction.

"Providing jobs," she said quietly. "We must all put our heads together to give people jobs. It's not just a matter of people wanting to work. It's a matter of providing jobs."

MANZANAR, Calif. (AP)—One of the American-born Japanese detained for the duration of this war fought for Uncle Sam in another the Spanish-American war.

Only A Poor But Honest Bootlegger. KNOXVILLE, Tenn. (AP)—Police efficiency in enforcing Knox county's anti liquor laws is not in Circuit Judge Taylor Cox's court.

Farmer Finds War Tough Even In Sleep. PORTO ALEGRE, Brazil. (AP)—Farmer Otavio Becker dreamed he was fighting with the Americans against the Germans.

Ration Book Taken As Court Bond. DUNCAN, Okla. (AP)—The man hauled before the police for a minor offense had just \$1 on him—not enough to make bond.

YOU: What on earth for? What would I do with all those candles? Why, they'd light your home for a month.

YOU: Light my home? But I've got electricity! Yes, but if you didn't have it, you'd need about a quarter-ton of candles to do the same job.

YOU: A quarter-ton? That's a lot of candles! It's a lot of money, too. It would cost you about \$200.

YOU: Well, I couldn't afford that. My monthly electric bill now is only three dollars or so. Well, there's just about average. But remember that you'll have the light of a gas fire light. The best you can get and the cheapest.

YOU: How can you say that? My bill is only three dollars. But think of the convenience you're offered. There's no need to light a gas fire light. There's no need to light a gas fire light. There's no need to light a gas fire light.

YOU: How can you say that? My bill is only three dollars. But think of the convenience you're offered. There's no need to light a gas fire light. There's no need to light a gas fire light. There's no need to light a gas fire light.

Brazilians Study Jungle Resources

By HELEM, Brazil. (AP)—The coordinator of economic mobilization, pressing forward on every opportunity of developing Brazil's tremendous natural resources, has ordered two exploration parties to push into areas seldom visited by white men along the upper Tapajos and Xingu rivers, deep in the hinterland.

These parties will make preliminary surveys of potential communications, colonization and production.

As Miss Miller and I sat in her Gramercy Square apartment recently I asked her what she considered the outstanding task of post war reconstruction.

"Providing jobs," she said quietly. "We must all put our heads together to give people jobs. It's not just a matter of people wanting to work. It's a matter of providing jobs."

The BOLLES SCHOOL on the St. Johns River at Jacksonville, Florida offers 10 WEEKS SUMMER SESSION. PRIMARILY for the purpose of accelerating the High School course of study...

ACADEMIC WORK. Classes covering a full year's work will be held twice each day, six days a week in English, Mathematics, Science, History. Most students should be able to complete work for one or two full credits during the 10 weeks period.

NAVAL TRAINING. Instruction and Training given during Summer Session are coordinated with U.S. Navy Department's requirements for one year's work. Close order drill, manual of arms and other features of the military course are in addition to the above training.

SPORTS PROGRAM. Will include baseball, softball, tennis, golf, volley ball, boating, etc. OUTDOOR SWIMMING POOL. Swimming and life saving instructions in official size pool—75 feet long.

SEND TODAY FOR BULLETIN of complete information on the Summer Session 1943. Address: Registrar—THE BOLLES SCHOOL, JACKSONVILLE, FLORIDA.

How'd you like to carry home 500 POUNDS OF CANDLES?

Advertisement for a candle product. Includes a stack of candles and text: 'YOU: What on earth for? What would I do with all those candles? Why, they'd light your home for a month. YOU: Light my home? But I've got electricity! Yes, but if you didn't have it, you'd need about a quarter-ton of candles to do the same job.'

Ballet Theater Is Packing Em In For New Record

By JOHN KELLY
Associated Press Arts Editor
New York. By the end of this month the Ballet Theatre will have played to more than 170,000 people in the still-glamorous in-ternation of the Metropolitan Opera House. Sol Hurok, who is chiefly responsible for this, says that packing them in since April 1 in such quantities is a world's record for ballet. He says, too, it's not remarkable.

Mr. Hurok is a short, bald man with peculiarly intent eyes. He slumps forward at his desk when talking to you, and his words betray his Russian origin—he occasionally even utters his English with a bit of a lilt.

"In the early 'twenties," he says, "they told me that the country was Russia-crazy. They said anything Russian would go over, and I said they were wrong. The cause, I believe, is Pavlova, the Moscow Art Theatre and some other things were fabulously popular. They meant nothing. Those things were the best things first, they

were Russian secondarily. So with ballet. Just any ballet won't pack the man. It needs constant renewal. I believe ballet is entertainment, and I've added to the classic core people like Argentinina from Spain, Zorina from Hollywood, Igor Stravinsky's conductor. So on."

Mr. Hurok says the audience for ballet has changed. He believes that the people who see ballet when he took up Anna Pavlova in 1917, and for years afterward, were largely the people with money, people used to spending and carefree, who knew it. The others went upstairs or not at all.

But now, he thinks, these people are the insure ones. Some of them are deeply involved in war activities, but many more others are not spending freely, or prefer to spend a bit more inconspicuously, with fewer gold gowns and orchid necklaces.

Meanwhile war prosperity has put money in the hands of thousands who had little in depression years. These cannot build houses or buy motor cars or travel extensively. They spend, therefore, a certain part on entertainment, and this, Mr. Hurok thinks, is a good thing for the ballet theatre and for the people as well.

"Quality and glamor" are the reasons the public likes ballet,

according to Mr. Hurok. And he's frank enough to believe that the traditions which hang like Spanish moss all over the Metropolitan opera are a help. He thinks it's the perfect place for ballet and his bank account backs him up.

Columbia seems to be set on re-creating all the Beethoven string quartets, which is everybody's good luck considering the fact that they are being played by the Budapest Quartet, probably the best in the world today. The new quartet is No. 12 in E flat, one of the later quartets and one of those traditionally thought of as "difficult." Actually No. 12 is an excellent almost as direct in its appeal as most of the earlier ones, and the Budapest performance is superb.

The quartet is a new recording. The same firm is re-issuing the famous set of records Joseph Szigeti made of Prokofiev's 5th major violin concerto with Dr. Thomas Beecham and the London Philharmonic. The concerto still seems needlessly barbarous as music, but the performance is something to wonder at.

There are 10,000 species of bacilli, microorganisms, in the world.

Many Athletics, New Fans To Come Out Of Service

By JOHN GROVER
AP Features Writer
Washington — Watch for a return-of-war rubies postwar sports era that'll make the so-called "golden age of athletics" in the 1920s look like dime-store jewelry.

Officers in charge of the Army's athletic program say the armistice will turn loose the biggest mass of muscles the sports world ever saw. They don't see how a post-war boom in both spectator and participant sports can miss.

Col. Ted Bank, former football coach at the University of Idaho and now with the Army Special Service Division, figures men got a taste of athletics, liked it, and the boom after the first World War resulted.

Now there are plans for a 10,000,000-man military force. They'll all get a lot more than a taste of organized athletics. With twice as many soldiers, sailors and marines getting big helpings of sports, the decade af-

ter peace looks to be a copper-lined cinch for outstanding athletic development.

There are two basic purposes behind the Army's athletic program: (1) Body contact sports to make Joe Rookie a better soldier, able to protect himself in the battle clutch; (2) morale value, resulting from the best employment of leisure time, both in training and in the field.

It's working. Colonel Bank reports the Army sports schedule is continually expanding. Kids who never had an opportunity to participate in organized athletics are grabbing at the chance to learn new games. There are camp leagues in almost 60 sports, with competition between camps in many. Troops in England played the finals of the expeditionary force basketball championship before a packed soldier audience.

There are plans for after-the-war tournaments on a wider scale. The inter-Allied games after the last war brought out some of the great white whales of

the golden age, like sprinter Charley Paddock, boxer Gene Tunney, Bob Roper and dozens of others.

This time the pool of potential sports talent is deeper and wider. It's in Army ranks to bring it out. Maybe, some, back, picking up heavy army baggage in the Tunisian mud today will be the one to slip into second flat in the 100-yard dash on grid out the four-minute mile.

Colonel Bank says they're uncovering sleeper stars all the time. The unknown ace of a 1943 camp team could be the Babe Ruth of the 1950's.

The answering of talent in camp athletes is only half the story. Just thinking about the made-to-order audience the Army is building for future sports events is enough to make a promoter's eyes go with visions of boxes of folding money.

There's no more rabid sports nut than the top who's played a little himself. The "support" will be to bounce his back-ten on the box office line for the privilege of criticizing the performers, usually the guy with some slight playing background himself in the Army he gets to know the game, and that gives him a chronic case of "expertise" that makes him a post-war cash customer.

BEAU JACK'S SEARCH FOR CULTURE DELAYED WHILE HE DEFENDS CROWN

By HILTON GRAHAM
AP Features Sports Editor
NEW YORK — Always interested in improvement of the breed, whether it be horses or human beings, it was with great interest I learned that our lightweight champion can now distinguish between cat and dog when he counters words in the public prints.

Furthermore, Beau Jack can write Sidney Walker, which happens to be the 135-pound champion's name.

He can read well enough to make sense out of the average newspaper story, so long as they don't ring in any 25-cent words on him. It just goes to show that boxing can do for a person, what an elevating profession it is.

When Jack was shined by the Augusta, Ga. National Club, newspaper were just being while folks left scattered around the room to be picked up.

His attitude changed last November. Before Jack beat Allice Stiles and became the No. 1 contender for the title, Allice would come up with his gnawing craving for culture and knowledge. He was curious to know what was in those newspaper, besides pictures.

So reading and writing it was for Jack. Bowman Milligan, his guardian and ring coach, became his private tutor. Jack was steered away from arithmetic. The champ is allowed \$5 a week spending money and his board of strategy decided there was no reason he should learn that currency came in larger denominations. It is much better that they bank his earnings for him until such time that he can use them. Yes, reading and writing would suffice now for Jack.

After keeping his nose in a school book for a month, Jack could read his name and write it too. That was the status of his culture progress the night last December when he knocked out Tippy Larkin in three heats and won the crown.

Between fights he'd light out Augusta and cram some more. There was definite improvement by the time he first fought Fritzie Zivic, more progress at the stage of their second meeting. And he was quite a literate party on Dr. Elliot's five-foot board of strategy decided there was no reason he should learn that currency came in larger denominations. It is much better that they bank his earnings for him until such time that he can use them. Yes, reading and writing would suffice now for Jack.

Now Chick Wergales, his manager, tells Beau can manage his way across any newspaper and come up with the gist of the news, not too badly mangled. "Well, it just goes to how, step."

Wergales says this is nothing to get upset about, that it is only natural for a fellow who moves about as fast and as steadily as Jack to tire. He just asks: "Was it easy was as tired, why didn't Zivic or Armstrong a few punches but he was alright, knock him down or out? Sure, he was standing up and taking they couldn't hurt him. And Montgomery won't either."

I can't vouch for the veracity of this rumor from Greenwood Lake but the essence of it is that Jack has been saving his allowance and, with extra five-spot he'll get from the Montgomery suit, he plans to make a down payment on Dr. Elliot's five-foot shelf. He's still a hungry fighter, not for pork chops but for culture.

Eighteen states, Alaska, Hawaii and Puerto Rico require full citizenship as a requirement to taking examinations to practice medicine.

Joey Burns May Be "Semi-Pro" But He's Making Berth For Himself

AP Features
BOSTON — He came into the major league tagged as a "semi-pro" but Joey Burns, the Boston Braves' promising rookie third baseman, doesn't mind. He's having fun.

When that presentable player who, in addition to owning a 3-A draft card, can hit, field and run, was asked how he liked being a big leaguer, he replied: "I don't know. I've only played a couple of weeks or so in the National league and I haven't any idea what will happen to me. But so far I've had plenty of fun."

Burns, who is a 25-year-old athlete, appears to have enough self-confidence to make himself a regular berth during his freshman year with the Braves. Both President Bob Quinn and Manager Casey Stengel share that opinion.

Quinn rates Burns as the most promising third base prospect the Braves have had under his presidency and Stengel, just before he was sidelined with a fractured leg, nominated Joey as the lead-off man for his opening game lineup.

For a rookie, Burns broke in sensationally. He belted the Giants' Johnny Wittig for four hits in his opening game and the next day he stole home on such a crafty flinger as Van

League Mungo. After going seven games for a batting average of .333, Burns was forced out by a tonalitis attack.

Describing Burns as a semi-pro is accurate but very misleading. It is true that he started out as a sand-lotter around Philadelphia seven years ago and was one again there last season. But between times he more than made good in the minors.

Six years ago, Jimmy Dykes, who knew Burns' folks, got him a berth with the Richmond Piedmont League Club. From there Burns drifted south to Tyler in the East Texas League and made good with such a bang that he was promoted to Oklahoma City within a year.

Burns hit so well for Oklahoma City in 1941 that that Texas League club had a couple of major league nibbles for his services. Burns, however, had a nailing stomach at the time and, fearing he would be handicapped by it, balked about going higher. He insisted at that time that he was "not ripe enough" for a major league trial.

Still ill, Burns failed to report to Oklahoma City last season, which he spent working and playing semi-pro ball in Philadelphia. Quinn was tipped, about Burns by a Texas friend and when that magnate finally located the

player, Joey had been approached by three other clubs, including Dykes' White Sox. The assurance that the Sox were wide open caused him to cast his lot with the Braves.

When Burns checked into the Tribesmen's camp at Chocoma School in Wallingford, Conn., he found it jammed with prospective third basemen. Among them were the veteran Tony Cochet, Edie Jost, who prefers third to second base, Ben Geraghty, former Villanova star, and Mike Sandler.

The competition, however, lasted only until Stengel, who has been yearning for a rifle-armed third baseman for years, saw Burns gunning his throws after and murdering his veteran pitchers at the plate in the earliest intra-squad practice games.

Gyroscopic mounts for automatic cameras have been devised so that the camera remains vertical when the plane tilts.

Hainan Island, off South China, has a population of three million persons.

U. S. Airmen Bag 113 Planes Around Italy

Softening Up Attack Includes Bombing Of Sardinian Dam; RAF Raids Berlin

WASHINGTON, May 21, (AP) — President Roosevelt declared today that preliminary plans for the next great Allied move against the Axis will be submitted by the British-American chiefs of staff tonight, and Japan appears high among the targets as he reported a large majority of American forces outside the United States are in the Pacific.

American fliers were officially credited with ringing up a spectacular toll of 118 enemy planes destroyed in softening up attacks on Italy and the island outposts while swift United States fighter-bombers dropped explosives on a dam in north-west Sardinia.

Wing services delivered a night assault on an Italian air base at Grosseto, 90 miles north of Rome, on the invasion-litany southern flank of Hitler's Europe, while a deep-burrowing war of nerves between London and Berlin appeared underway.

Speedy RAF mosquito bombers (left) lobbed at Berlin last night while London underwent an alarm all night long.

RAF planes carrying the latest type of incendiary bombs struck Berlin, Essen and communication targets and last night.

The Red Army's drive on Novorodok was started by furious German assaults attempting to break out of the trap but the Russians declared they were holding off the invaders.

Among the Axis victims sent streaming into the sea were Messerschmitt 109s, Focke-Wulf 190s, and Macchi 200s. Official sources described the engagements as "very long and grinding fights."

The southern and central Sardinian targets attacked were Monserrato, Elmas air field, Cagliari harbor, Elmas air field, and Villacidro.

Opposition was intense but American Marauder and Mitchell bombers and Western fighters shot down 18 enemy fighters, scored direct hits on at least six grounded planes and at least six air fields, and planted bombs in the dispersal areas of 11 air bases where approximately 50 grounded planes were observed.

A lone Messerschmitt patrolling the eastern Sardinian coast was shot down by a Mitchell. The torpedo-carrying Junkers was destroyed and damaged a third.

The Italian high command in a communique broadcast by Rome claimed 14 Allied planes were destroyed, and said the attacks caused some casualties and small damage.

Axis planes were said to have been downed and probably sunk two torpedo-carrying Junkers off the African coast and a third downed and a fourth damaged.

The parts of the Junkers and one of the torpedo-carrying Junkers said to have been destroyed by Axis bombers.

Holland Signs Bill Banning Secret Clubs

TALLAHASSEE, May 21, (AP) — Governor Holland today signed a bill which bans secret clubs in Holland.

Italian Targets Hit By Allies

A SPECTACULAR WARNING that Rome is within easy reach of bombers based in North Africa was given by Allied planes that roared over the Italian capital after blasting the seaplane base at Lido di Roma, only 15 miles away. Shortly before this raid, British bombers made a daylight assault on Trapani (2) in Sicily.

Dorner Advocates Body Of Soldier Severed At Waist Found On Track

Establishment of ample cold storage facilities, and of a large cannery kitchen to preserve vegetables, is the Sanford State Farmers Market, was yesterday advocated by E. Dorner, who is in charge of the market.

Father Of Farm Market Pleased With Its Growth, Success

Mr. Dorner, who has been living in Chester, Pa. for the past two years, and who was one of the early growers of this section, has been visiting here for the past week, recuperating from the effects of an operation at the University of Pennsylvania hospital.

Mr. Dorner, who has been living in Chester, Pa. for the past two years, and who was one of the early growers of this section, has been visiting here for the past week, recuperating from the effects of an operation at the University of Pennsylvania hospital.

Cigarette Tax Bill Is Passed By Senators

Only Governor's Signature Remains To Turn \$3,500,000 Measure Into Law

TALLAHASSEE, May 21, (AP) — The House today passed H.R. 11, introduced by E. B. Mann and Mr. Smith, creating the Sanford Police Department pension fund; and H.R. 12, introduced by Mr. Mann and Mr. Smith, designating a road in Seale and Orange counties.

TALLAHASSEE, May 21, (AP) — The 3-cent cigarette tax bill, big issue before the legislature, was passed yesterday by the Senate, 25 to 11, in two hours, with no floor up or fireworks.

Out of the House Monday, 44 to 27, it rolled through the Senate with a bigger vote than greeted by some of those who had sponsored it.

The tax, to run for two years, is effective July 1. Urged by Governor Holland at his major legislative program, to raise \$3,500,000 to offset losses of horse racing taxes for old age pensions and county aid, the bill, with friendly amendments to transfer tax enforcement from the state comptroller to the state beverage department, was passed by the Senate in minor degree and passed by the House, providing \$2,000,000 for old age pensions and \$1,500,000 a year for distribution among counties on the same basis that revenue from taxes on horse race wagers.

Penalties not increased. The three bills do not increase amounts previously provided for old age pensions and public welfare for which \$3,800,000 a year of liquor and beer tax is provided.

If facing is resumed next winter, the cigarette tax will contribute to go into the general revenue fund and amounts will be proportionately cut.

Only Senator Matthews of Jacksonville spoke against the bill (introduced by Sen. Smith).

Prime Minister Churchill Speaks To Congress

Before a battery of microphones, British Prime Minister Winston Churchill told American legislators that his country would wage war against Japan side by side with the United States while there is strength in our bodies and blood flows in our veins. It was the second time since Pearl Harbor that Churchill had spoken to a joint session of Congress. Seated above him is Vice President Henry Wallace. Senator Alben Barkley sits below the British leader on the right (In International Soundphoto).

Improvement Of State Road 44 Is Requested

Comdr. Hughes Makes Request As One Of Military Necessity

Construction of a 20 foot road to the Naval auxiliary field at Cecilia, and of improvement of the neglected State Road 44, extending from Sanford to Mims, on the ground of military necessity, today lunched as a possibility, when a copy of a letter addressed to the Chief of Naval Air Operation Training command from Comdr. F. Maxie Hughes, of the Sanford Naval Air Station, requesting these improvements, was received.

This letter was read by Secretary George Morgan of the Good Roads Committee of the Seminole County Chamber of Commerce, which met Tuesday evening at the Hotel Mayfair.

Comdr. Hughes, who is in the process of organizing a flight school at Cecilia, and of improvement of the neglected State Road 44, extending from Sanford to Mims, on the ground of military necessity, today lunched as a possibility, when a copy of a letter addressed to the Chief of Naval Air Operation Training command from Comdr. F. Maxie Hughes, of the Sanford Naval Air Station, requesting these improvements, was received.

The capture of the negro child was the climax of a chase that started when H.M. Grubbs, of the Sanford Police, reported the capture of a negro child in the lot of Hugh Wheeler in Magnolia Avenue between Tenth and Eleventh Streets. He followed the child to the home of Mrs. J.H. Truick, who lives across the street from Mr. Grubbs' home.

The negro child, who was named Willie, was found in the lot of Hugh Wheeler in Magnolia Avenue between Tenth and Eleventh Streets. He followed the child to the home of Mrs. J.H. Truick, who lives across the street from Mr. Grubbs' home.

The negro child, who was named Willie, was found in the lot of Hugh Wheeler in Magnolia Avenue between Tenth and Eleventh Streets. He followed the child to the home of Mrs. J.H. Truick, who lives across the street from Mr. Grubbs' home.

The negro child, who was named Willie, was found in the lot of Hugh Wheeler in Magnolia Avenue between Tenth and Eleventh Streets. He followed the child to the home of Mrs. J.H. Truick, who lives across the street from Mr. Grubbs' home.

W. R. Dyson Seizes Zoot Sued Negro For Jewel Thefts

A number of robberies which in the last few days have put police were cleared Wednesday afternoon when W.R. Dyson, of 1201 Magnolia Avenue captured a zoot suited negro youth of 18 and held him at the point of a pistol until Police Chief R.L. Williams and Lt. Roy Willis arrived to claim him.

Examination of the zoot suit at the Police Station revealed that in it lying was jewelry valued at \$150, and to have been recently stolen from the residence of Mrs. J.H. Truick, of 11 East Eighth Street. A small bag full which had been in a pocket book stolen from the residence of Mrs. J.H. Truick, of 11 East Eighth Street, was recovered, but the other contents, including six radio tubes belonging to members of the household, were missing, police stated.

The capture of the negro child was the climax of a chase that started when H.M. Grubbs, of the Sanford Police, reported the capture of a negro child in the lot of Hugh Wheeler in Magnolia Avenue between Tenth and Eleventh Streets. He followed the child to the home of Mrs. J.H. Truick, who lives across the street from Mr. Grubbs' home.

C. Of C. Drive For \$5,000 Quota Goes Over Top

All Records Broken As Far Back As '25 Boom, Check Shows

The Seminole County Chamber of Commerce annual membership drive has reached and will probably exceed its quota of \$5,000, an announcement was made today by general chairman of the membership campaign committee, W. A. Laffer.

Mr. Laffer advised that the amount of money pledged had not been collected in less than 50 percent of the total. The balance of the drive has been collected in each of the past few days.

Mr. Laffer also took the opportunity to express his appreciation to the members of the drive teams that assisted in the drive.

Edward Higgins, secretary, said that he had checked the membership records back as far as 1925, and that the record for that year was \$3,000. The present drive has broken all records.

The drive is being conducted by the Chamber of Commerce, and is being supported by the community.

Yamamoto Is Reported Shot Down In Action

Vichy Radio Reveals Japs Are Preparing To Flee From Attu; Kiska Faces Hunger

NEW YORK, May 21, (AP) — The Tokyo radio announced today that Admiral Isoroku Yamamoto, commander in chief of the combined Japanese fleet, who was reported to have boasted he would dictate the peace terms in the White House, has been killed in action.

A broadcast recorded by the Federal Communications Commission said Yamamoto met death in April aboard a warplane "while directing general strategy in the front line" but gave no details. The Navy Department reported today that operations on Attu Island are continuing with the latest reports indicating the Japanese are making a last stand in the defensive high ground on the island's northern extremity.

The broadcast said Admiral Mineichi Koga, formerly commander of the Izo fleet in Chinese waters, succeeded the 60-year-old Yamamoto, and "already was in command." Yamamoto was Japan's foremost admiral, who combined sea and air power and was known as one of the ablest naval strategists in the empire.

Meanwhile the Nazi-controlled Vichy radio declared the Japanese "have been to evacuate Attu," but United States warships were believed to be in the ocean. The Japanese fleet's base at Kiska was seen as threatened with starvation or surrender to the blockade.

In Washington it was said that the battle for Attu island has swept into its final phase with American troops attacking Japanese forces holed up on the shore of Chichagof Harbor. Warships and bombers are supporting the assault.

Still important is being encountered and United States casualties may be heavier than any yet experienced in the fighting, but an early conclusion is expected.
