

YOU'RE TELLING ME!

General Peace Treaty

GENERAL PEACE TREATY—The UN could use both their own big system... maybe they're missing an elephant!

A peace treaty, we read, is an ideal weapon for use in clearing up the last traces of war.

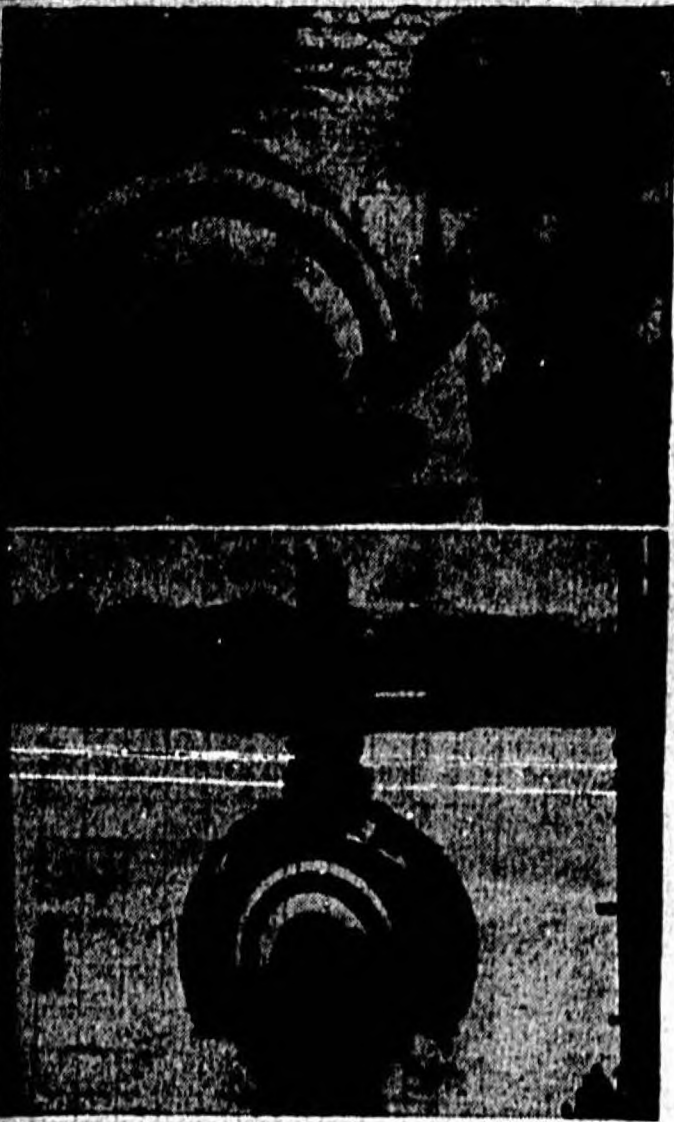

The clock of time has slowed a new peace... it consists of 3,000 pages. The book must be mighty rough on my hands!

We still don't know whether that California attitude is ideal for ball clubs. In the National League, San Francisco is hitting for first place but Los Angeles is on the bottom!

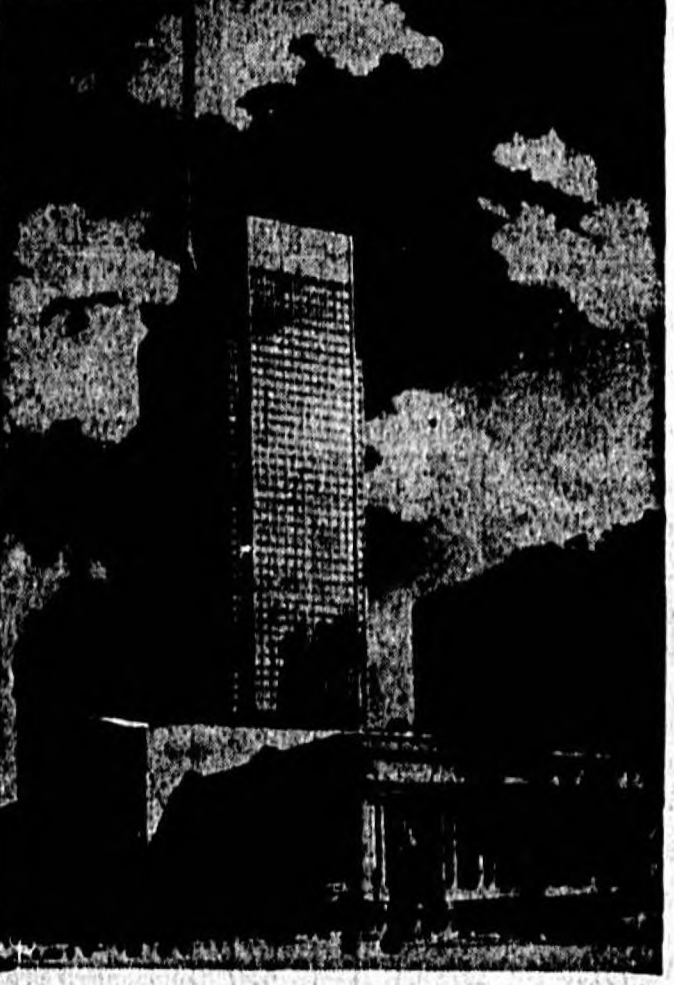

It's long as no dog to be served, we'd like to suggest this time for Phil's good: "Good Doctor, Jr."

Remember those, we read, are used in heavy ironwork. Now, the church-warden profession can be right in style.

Russia's top spook man, Prof. Eugene Prodeev, says the Sov. plan to launch more animals into space in Red rockets. With

NAVY ADDS TO FLEET ATOMS—Lt. Comdr. William W. Shervin, Jr. (top) holds a model of the U.S. Navy's first submarine, the U.S.S. Holland, against the circular humping on the nose of his new command, the atomic submarine U.S.S. Skipjack. Moments later, the Skipjack slid down the ways (bottom) at General Dynamics shipyard, Groton, Conn., to become the nation's sixth and fastest nuclear craft. (UPI Telephotos)

SKYSCRAPER OVER BRACKS—This is an architect's sketch of the 64-story skyscraper that will be constructed at the heart of Grand Central Terminal (background) in New York. When completed in 1961, the \$100,000,000 building will have larger capacity than any commercial office building in existence. Its main rooms will be second only to that of the Pentagon. The new building with a floor area of 3,000,000 square feet, will rise over the existing railroad tracks and terminal platforms.

Navy Investigating Cause Of Twin-Jet Explosion Killing Pilot

Utilities Company To Install Water Systems In County

The Board of Seminole County Commissioners approved this morning a resolution permitting Suburban Utilities, Inc. to install water systems in Seminole County.

The resolution, said Yandre, provides that the county be held harmless from any damage.

Bus Company Told To Resume Service Within 10 Days

JACKSONVILLE (UPI)—City Council Monday night adopted an ordinance ordering the Jacksonville Coach Co. to resume its bus service within 10 days.

Meanwhile, negotiators continued to meet in efforts to solve their contract differences.

Jacksonville Firm Gets SNAS Job

B. B. McCormick & Sons, Inc., Jacksonville Beach, has been awarded a \$482,363 contract for construction of a 2,150-foot extension to an existing runway and related work at the Naval Air Station, Sanford.

In addition to extension of the 2,000-foot wide runway, the work includes construction of a 30-foot wide taxiway; a 783-foot deflector fence, 11 feet high, and necessary grading, drainage ditches and seedings.

The work, to be supervised by Lt. Cmdr. D. P. Cuning, resident officer in charge of construction at NAS, Sanford, is to be completed by December 23, 1958.

SEVILLE (UPI)—The Navy today tried to determine the cause of a twin-jet explosion and crash which killed the pilot and destroyed two houses.

A team of Navy officers sifted through wreckage of the AD-3 Sky Warrior which exploded mysteriously and crashed yesterday.

Two crew members parachuted to safety. The plane commander who died in the crash was identified as Lt. Robert W. Ramey, 34, of Loch Arbor, Sanford.

The plane apparently separated into two sections after the blast authorities said. The tail section dropped near two houses which burst into flames.

The homes destroyed by fire belonged to Mr. and Mrs. Sheridan Banks and Mr. and Mrs. Starkey Mathis.

The highway patrol said the front portion of the plane apparently hit the ground first and the tail section fell later in the white section of the town 300 yards away.

Additionally, between 1,000 and 1,500 members of the clergy, priests and nuns, knelt in prayer in dimly lit Holy Name Cathedral.

The Requiem Mass was celebrated by the papal delegate to the United States, the most Rev. Amleto G. Cicognani.

Police Commissioner Timothy J. O'Connor assigned 800 policemen to serve in various capacities, including 30 as an honor guard and 20 as a motorcycle escort to Mount Carmel cemetery where the cardinal was to be entombed.

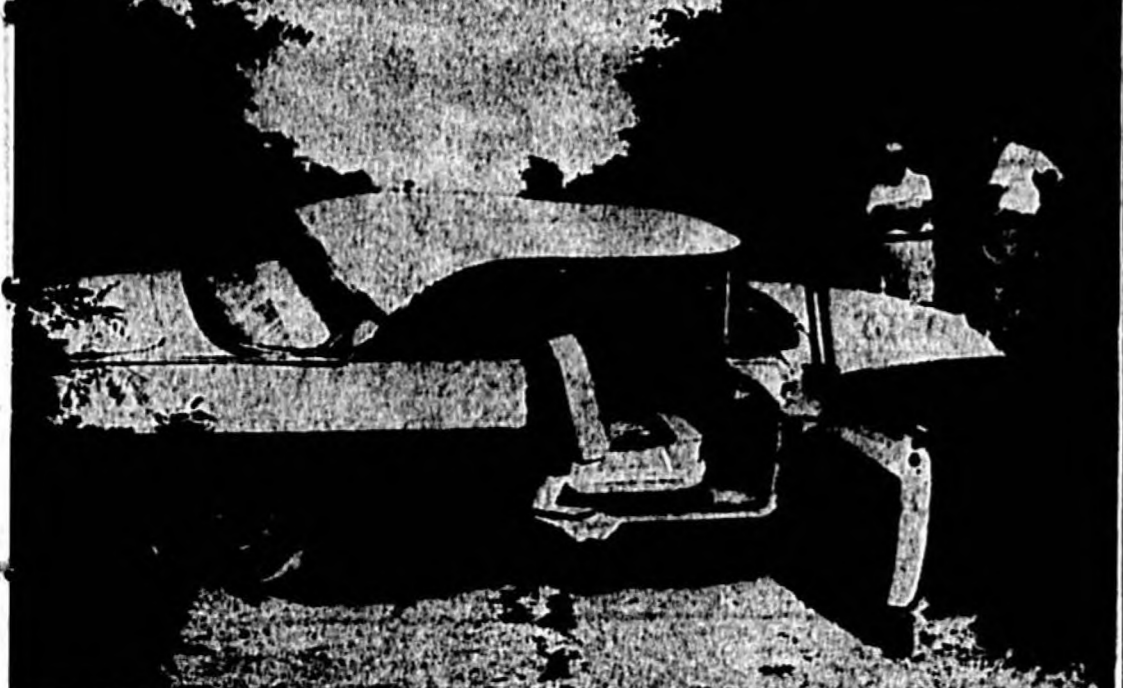

Most of the remaining police served as traffic marshals for the thousands of pilgrims who flocked to the cathedral, gathered in massive crowds or lined the streets through which the cortege was to pass.

Lake Monroe Man Succumbs

James Benjamin Johnson, 83 died at 1:30 Sunday afternoon. Born July 3, 1864, in Georgia he was a resident of Lake Monroe and moved in 1903 from Knoxville, Tenn.

He is survived by five granddaughters, Mrs. Allen Martin, San Mrs. W. M. Brown, Sanford; Mrs. W. M. Johnson, Sanford; Mrs. Kenneth Reynolds, Tampa; Mrs. Carl Autry, Hattiesburg, Miss.; three grandsons, A. E. Johnson, Lake Monroe; H. L. Johnson, Lake Monroe; and J. W. Johnson, Orlando; and 30 great-grandchildren.

Funeral services will be held at 2:30 p. m. tomorrow at Brison Funeral Home with the Rev. B. G. Brown of the Lake Monroe Baptist Church officiating. Burial will be in Sylvan Lake Cemetery.

THIS AUTOMOBILE WAS STOLEN in Sanford and wrecked in Enterprise. The abandoned automobile was discovered by Howard Williams. Shown at the scene are W. E. Kirchoff Jr., owner of the car, Williams, and Al Wallace, a Sanford insurance man.

DeGaulle Takes Over French Power Today

PARIS (UPI)—Gen. Charles de Gaulle took over greater absolute power today than any other Frenchman in recent history, as he was understood to assume power in Algeria and put France on its feet in six months.

In that time, he will rule without interference from Parliament. No sooner had the French upper house put final approval this morning on the Senate completed work on the constitutional reform bill, last of three involving a transfer of powers unprecedented in the history of the Fourth Republic.

Gen. Raoul Salan, accompanied by two aides, arrived in Paris at noon for the meeting.

De Gaulle himself is scheduled to visit Algeria Wednesday for a showdown meeting in which he is expected to tell rebellious army leaders and French settlers that the central government in Paris once more is in command.

The bills became law as quickly as they can be published in the official journal today or Wednesday.

De Gaulle already had taken over the duties of the outgoing government of Premier Pierre Pflimlin and usual ceremonies were dispensed with.

Began Governing France Instead De Gaulle, simply took over Pflimlin's white-and-gilt office in the age-darkened 200-year-old left-bank mansion and shortly after noon—in the words of an aide—"began governing France."

His first move was to summon Socialist Robert Lacoste, minister-resident in Algeria for the past two years. Lacoste arrived at 11:55 a.m.

It was understood De Gaulle was drawing up his final cabinet list before leaving for Algeria. De Gaulle himself, wearing his customary gray suit, white shirt and gray tie, was on the government bench as the Senate completed work on the constitutional reform bill, last of three involving a transfer of powers unprecedented in the history of the Fourth Republic.

De Gaulle rammed the last of his special powers bills through a reluctant chamber of deputies shortly after midnight and it went to the upper house Council of the Republic at 2:30. The upper house passed it, 286 to 30.

The senators, 67-year-old former Free French leader smashed a threatened revolt against him in the National Assembly by telling the deputies bluntly that he would resign if they failed to give him the powers he demanded to restore French political and economic stability at home and overseas.

The revolt collapsed immediately thereafter. The bills became law as quickly as they can be published in the official journal today or Wednesday.

Special Session Of Ministerial Assn. Called

A special called meeting of the Seminole County Ministerial Assn. will be held Thursday morning at 10 o'clock at the First Presbyterian Church.

The meeting has been called for consultation with the new recreation director to discuss the recreation plans for the summer and to make arrangements for those who will be invited to take part in the various church Bible schools.

GEN. CHARLES DE GAULLE today became the most powerful political leader in recent French history. This came about after action was completed on his constitutional reform bill.

Board Turns Down Request To Open Bars On Sunday

The Board of Seminole County Commissioners stood pat today on the opening and closing hours of bars in Seminole County.

Joan Blum, co-owner of the Glass Tower, located south of Casselberry on 17-02, requested an extension of hours and allowing the bars and restaurants to stay open on Sunday.

"Steady revenue is going out of the county and by letting the stay open on Sunday you would help us maintain our property and pay out taxes," Mrs. Blum said.

Commissioner Lawrence Swifford polled the commissioners to determine how each one felt toward the proposal. Commissioner Swifford said "I'm against it."

Commissioner Homer Little asked "Isn't there some way to control the hours of the Casselberry bar?"

Board Refuses To Sell Land Tract To Home Developer

Seminole County Commissioners refused to sell a 3 1/3 acre tract of land on which a clay pit is located to a developer.

Nat Turnbull, attorney for the developer and Sumner Arceneus, president of the concern, pointed out that the clay pit, also used for the disposal of garbage and trash, is in the center of the 20-acre tract tentatively approved by the PHA for the location of a 200-home subdivision.

Commissioner John Krider told the developer and attorney "I don't see how the county could spend the money to fill the open clay pit."

"It would cost a substantial amount of money to fill it," Turnbull told commissioners.

Commissioner Lawrence Swifford said that "disposal of trash and garbage is a problem in the county."

Krider proposed that the developer and commissioner of the district, Lawrence Swifford, get together for a conference to determine a definite proposal to submit to the commission.

Governor Calls For All-Out Drive Against Bolita

TALLAHASSEE (UPI)—Gov. LeRoy Collins said Monday night that bolita could be stamped out in Florida "if every sheriff made a concentrated, simultaneous effort to rid his county of this gambling racket."

Collins in his monthly radio address to the people, called for an all-out campaign to end the numbers gambling.

But he said such a campaign would be no good unless every sheriff cooperates because "when it is suppressed in one area, it pops up in another."

He described bolita as a "scourge" which preys upon the poor and is "sinister in its corruptive influence."

He said that although the bolita in Florida is now run on a "steak" basis and is on a small scale, "we cannot any longer tolerate bolita of any kind or character anywhere."

The governor pointed out that a number of other states have no bolita. And he said if it is possible to stamp out bolita in other states, it is possible in Florida.

Collins recently asked the Florida Sheriff's Bureau for a statewide, all-out program against bolita. But he pointed out that the Bureau's investigators cannot go into a county unless they are invited by the sheriff and he said the Bureau is further hampered by lack of funds.

Recreation Dept. Forming Men's Softball League

The Sanford Recreation Department is forming its summer program for a Men's Softball League. Teams are now organizing and any group wishing to participate may do so by calling the local Recreation Department or by contacting Howard Gordie, Softball Supervisor, for further information.

Several civic and commercial groups have indicated interest in sponsoring teams in the league this summer. Local officials say that a league of six to eight teams is planned and can operate if managers can be secured.

Any organizations in the City of Sanford or in Seminole County wishing to enter a team in the Sanford Recreation Department's softball league is urged to immediately enter in order that a schedule can be drawn up and games begun.

All games, it was announced, will be played at night, Monday through Thursday at the Fort Mellon Park diamond.

Rev. Carlton Talks To OJHS Graduates

OVIEDO—Amidst a setting of ornate dragons, pom poms and greenery, the 19 graduates of the Oviedo Junior High School listened to an address by the Reverend Olego H. Carlton, pastor of the Oviedo Methodist Church—entitled, "Compromise."

Miss Julie Gore rendered the professional and recreational—God Of Our Fathers.

The invocation and Benediction were both given by the Reverend Carlton.

The eighth grad—Glee Club, Miss Caroline Anderson directing, sang. W. H. DeShazo, principal, delivered certificates of graduation to Linda Fortson, Carol Alford, Dianna George, Helen Memory, Diane Harbin, Nancy Mason, Loretta Fore, Cyrus Thompson, Johnny Courter, Mike Dietrich, Tommy Eate, Roy Walright, Linda Harris, Patay Peters, Phyllis Picklesimer, Billy Robins, Johnny Cross-Gale, Reggie Lane and Walter Hill.

'David's Guitars' To Entertain Kiwanis Club

Members of the Sanford Kiwanis Club will be entertained at their noon luncheon meeting Wednesday by "David's Guitars."

The guitar is quite a popular instrument these days and David Mathew is quite a master of the instrument. The Kiwanis Club Bulletin said this week.

Floyd Palmer is program chairman for the meeting.

U. S. TANKS REINFORCE LEBANESE FORCES — Gun in hand, a rebel moves along the side of a building during a skirmish with Lebanese Army troops at Salda while the Marouf Saad-led rebels still had control of the town. Government forces were reinforced by the arrival aboard a U.S. military transport of 18 new American-made M-41 Walker Bulldog tanks.

Editorials

Does Party Membership Mean Support Of An Individual?

In these troubled times, it is hard to understand why people continue to place full authority of party membership into the hands of one man.

For instance, in the state of Michigan, according to E. L. Dayton's "Walter Reuther: A History of the Bargaining Table," Reuther has himself the master of the Democratic Party.

The labor leader is basically, a Socialist, one whose self-appointed task is the leading of the oppressed out of Capitalistic bondage into the supposedly "Promised Land" of full employment, and guaranteed income for all through social planning.

It is obvious that the power of individuals has taken away the provisions giving them the right to speak for himself. Thousands upon thousands of citizens have become devoted to the principles of the Democratic Party, the Republican Party or one of the many lesser elements in political subdivisions.

This is a dangerous trend if America is to continue in the path of the Declaration of Independence, the Bill of Rights, the Constitution and the rights of the individual.

Set A Good Example First!

America's teenagers seem to break into the news only with hair-raising stories of juvenile delinquency. But not long ago fifty-three teenagers from all parts of the country, representing thirty-four national organizations, met to advise their elders on questions of public health.

It is a tragedy that the nation's teenagers have not been trained to think for themselves. It is a tragedy that the nation's teenagers have not been trained to act for themselves.

It is a tragedy that the nation's teenagers have not been trained to stand up for their principles. It is a tragedy that the nation's teenagers have not been trained to stand up for their country.

It is a tragedy that the nation's teenagers have not been trained to stand up for their future. It is a tragedy that the nation's teenagers have not been trained to stand up for their children.

It is a tragedy that the nation's teenagers have not been trained to stand up for their values. It is a tragedy that the nation's teenagers have not been trained to stand up for their dreams.

It is a tragedy that the nation's teenagers have not been trained to stand up for their hopes. It is a tragedy that the nation's teenagers have not been trained to stand up for their faith.

It is a tragedy that the nation's teenagers have not been trained to stand up for their love. It is a tragedy that the nation's teenagers have not been trained to stand up for their respect.

It is a tragedy that the nation's teenagers have not been trained to stand up for their integrity. It is a tragedy that the nation's teenagers have not been trained to stand up for their honor.

It is a tragedy that the nation's teenagers have not been trained to stand up for their conscience. It is a tragedy that the nation's teenagers have not been trained to stand up for their soul.

It might be well for the citizens of America to bring themselves up-to-date by reading "The Full Glory of Reuther" in E. L. Dayton's revealing biography of the UAW president.

The Sanford Herald SPORTS

Today's Sports Parade

By OSCAR FRALBY
United Press International
NEW YORK (UPI)—Joe DiMaggio, who made a career of giving palpitation to pitchers, was explaining why the men of the mound can't live by speed alone.

"They have to possess more than mere speed," he asserted. "A pitcher has to have other pitches to go with it so that he can mix 'em up and shake your timing."
Dixie leased back and concluded "They could shoot it out of a cannon but, if that was all a pitcher had, they'd hit him."

Different Than Yesterday
Which, for years summed up the batting career of Robert Lee Turley, a muscular, shuffly-faced power hitter who labors in the pin-striped flannels of the New York Yankees. The 6-foot-2 right-hander threw a hard curve which clocked electrically at 84 miles an hour, an ability which had the baseball bowlers mentioning him with such blases as Walter Johnson and Bullet Bob Feller.
But Bob Turley couldn't win consistently.

It is a different Turley this season. For when he oast the Boston Red Sox Sunday it was his eighth victory of the season against one defeat. And, except for that one loss, he has been brilliant.

Four of his triumphs have been shutouts. He has gone nine innings in each of his eight victories. At one point he went 10 innings without giving up a run. He has hurled a one hit game, three games in which he gave up only four hits and a pair of five-hitters.

Changed His Style
As of today, in 76 innings Turley has allowed but 44 hits, 16 earned runs and given up only 36 bases on balls against 53 strikeouts.

The answer is in DiMaggio's reckoning.
Turley realized at last that he couldn't just rear back and fire that blazing fast ball past the hitters. In taking stock of himself, he shortened his stride, adopted Don Larsen's no-windup delivery and released before each pitch, taking a deep breath.

He found that all the parts suddenly fitted together. No longer straining to throw the ball through the wall, he came up with the long-arming control of his curve and longer. The batters who waited longingly for that booming fast one weren't getting it.

"The most complete answer is that I found the confidence to use those slower pitches in the clutch instead of rearing back and trying to throw it past them," he says. "The hitters can't expect that fast ball every time I get in a jam."

DiMaggio said, you have to have more than a fast ball, Turley has, and that's his answer.

Player Of The Day

By United Press International
Andy Carey of the Yankees enjoyed the kind of day all hitters dream about—a perfect one.

The Yankee third baseman slugged a lot of critics Sunday when he hammered out five hits in a 10-4 victory over the Red Sox at Boston. Included among his blows were a pair of homers and a double.

Catcher B. Barnes Is 'Mr. Savvy' Of Gator Squad

GAINESVILLE—Despite the fact he is listed only as a Junior on the Florida baseball roster, catcher Bobby Barnes is "Mr. Savvy" of the Gator squad.

Barnes, a native of Cocoa where he was a star football and baseball player, first started backstopping for the Gators in 1958. His freshman year.

He won All-Southeastern Conference honors his first season, when freshmen are eligible for varsity competition, repeated as an outfielder in 1959, and was named again as a catcher this season.

To say that Barnes has had an unusual career is putting it mildly. In 1954 and 1955 he was an Army duty. During that time he played for Ft. Jackson and even was selected to play for Ft. McPherson, along with Vinagar Bend Mitchell.

Another capable catcher, All-SEC Jerry Bilyk, was on hand when Barnes returned to the University so he played in center field. But in 1957 there came another interruption when he received a broken leg in pre-season practice. Returning as captain this season, he has performed in a superlative fashion, committing but one error the entire year.

Capt. Barnes and the Gator team will take part in the forthcoming NCAA District Three playoffs on June 5-7 in Gastonia, N. C.

District 3 NCAA Playoffs To Start June 5 At Gastonia

TALLAHASSEE (Special)—Baseball players have a reputation for superstitions, but Florida State's Seminoles say they have none.

It's a good thing. Arch Danny Litwiler's red-hot Seminoles will be after their 18th straight victory when they meet George Washington University in the opening game of the District 3 NCAA playoffs at Gastonia, N. C., Thursday.

A stylish left-hander from Sharon, Conn., Bristol led the club in strikeouts and earned run average this season. In 60 innings, he fanned 60 and compiled a marvelous 1.32 ERA. Bristol won five games and lost two while the victim of loose support. He had a 7-1 record in 1957.

Barnes, respected senior right-hander from Nescquep, Pa., worked 67 1/3 innings in becoming the first Florida State pitcher ever to win eight games in a single season. He was undefeated and pitched the school's first no-hitter in an 18-0 rout of Miami (Fla.) April 18.

Florida State closed its regular campaign by winning its last 12 games, a school winning-streak record.

Against righthanded pitchers here's the probable Seminoles lineup:
Dick Hoover (1957 All-American, 3B), ss; Charlie Rodgers (2B), 2B; Jerry Couch (4B), 4; Jerry Philip (2B), cf; Bill Westendiek (1B), 1B; Mike Copps (.897), rf; Dale Koch (.807), 3b; Ray Bassall (.860), c.

Against lefthanders, Copps will lead cleanup and Philip will move down to seventh in the batting order.

The Seminoles enter the tournament without the service of two seniors who played as freshmen and are ineligible. They are pitcher Tommy Garcia (4-1) and centerfielder Owen McCarron.

CHICAGO (UPI)—Richard (Bo) Dickinson, a 6-foot-2 110-pound fullback who can run 100 yards in 10 seconds flat, has been signed by the Chicago Bears of the National Football League.

hell at Storm Lake, Iowa and another in Nova Scotia.
His three-year batting record at Florida is as follows: 1953—batted .289, had 16 RBI's and 18 walks; 1954—batted .416, had 10 RBI's and 7 walks; 1957—batted .284, had 7 RBI's and 11 walks.

Capt. Barnes and the Gator team will take part in the forthcoming NCAA District Three playoffs on June 5-7 in Gastonia, N. C.

In a unanimous resolution, the quasi-official study group pointed out that the Bonner bill is the result of joint cooperation between the Council of State Governments, the federal government and the boating industry.

The Commission noted that the bill would "provide for identification of motorboats, assure reciprocity between states and eliminate existing confusion over jurisdiction between federal, state and local governments." The projected federal law would also stimulate state-wide enforcement of marine safety regulations, the Commission said.

If passed and signed by President Eisenhower before Congress' expected August adjournment, the bill will affect some 30 million boating enthusiasts. More than 400,000 outboard motors are in use in the state of Michigan alone, according to the Outboard Boating Club of America, national association of outboard joemen and manufacturers of outboard equipment.

Water Study Group Endorses Proposed Motor Boat Law

A proposed federal law regulating America's more than four million recreational motor boats has received the endorsement of a special Michigan water study group appointed last year by Gov. G. Mennen Williams.

Representing more than 35 public agencies and private boating organizations, the Michigan Water Safety Study Commission has called on Congress to speedily pass the Bonner bill, H. R. 11078 which would set up a numbering system under state control for all inboard and outboard pleasure craft.

The bill, report of more than two years of hearings and research, is now pending in the House of Representatives.

In a unanimous resolution, the quasi-official study group pointed out that the Bonner bill is the result of joint cooperation between the Council of State Governments, the federal government and the boating industry.

The Commission noted that the bill would "provide for identification of motorboats, assure reciprocity between states and eliminate existing confusion over jurisdiction between federal, state and local governments." The projected federal law would also stimulate state-wide enforcement of marine safety regulations, the Commission said.

If passed and signed by President Eisenhower before Congress' expected August adjournment, the bill will affect some 30 million boating enthusiasts. More than 400,000 outboard motors are in use in the state of Michigan alone, according to the Outboard Boating Club of America, national association of outboard joemen and manufacturers of outboard equipment.

Whatever Happened To Johnny Berardino

By United Press International
Johnny Berardino was an American League infielder for 10 seasons, at his best with one of baseball's worst clubs—the old St. Louis Browns. As versatile as he was handsome, Berardino played all four infield positions with the Browns from 1939 through 1948, with time out of war service, and then moved on with the Indians, in which he failed to hit .200. Johnny was traded to Pittsburgh while hitting .400 but in only four games in 1951. He went from Pittsburgh to the Browns again, then to Cleveland and back to the Pirates where he closed out his career with a lifetime average of .249 for 911 major league games.

Whatever happened to Johnny Berardino? Now 40, he has dropped an "R" from his name and as Johnny Berardino he's an actor in Hollywood often seen in movies as well as television.

PETER IMPROVER
LA MESA, Calif. (UPI)—Philadelphia Eagles tackle Volney Davis, who suffered burns on his chest and arms Saturday at his home in nearby El Cajon when a can of gasoline exploded, was in satisfactory condition at Grossmont Hospital today. He was under treatment for first degree burns.

THE CARD OF THANKS
Very often a Card of Thanks in the Sanford Herald meets a need which is difficult to fill in any other way. Not only is it a grateful expression of gratitude to those who have done good deeds but it also courteously acknowledges the services and kindnesses of the many to whom a personal note of thanks cannot be mailed.
Newspaper Cards of Thanks are accepted as socially correct. Emily Post, the noted authority on etiquette, feels they serve many good uses.
There is no prescribed form for a Card of Thanks. It can be as brief or as detailed as you desire. When the occasion comes you will find a sympathetically understanding member of our staff to assist you.
THE "IN MEMORIAM" NOTICE
It is the custom of many families in this country to commemorate a bereavement by an "In Memoriam" notice in newspaper classified columns. They find a real solace therein. Preparation of a suitable verse brings back to them tender, pleasing recollections. An Eliza Cook, the English poet has so beautifully expressed it:
"How cruelly sweet are the echoes that start
What memory plays an old tune on the heart."
Most frequently an In Memoriam is inserted on the anniversary of death. However, other dates, which it is felt to be pertinent or meaningful are also selected. The birthday of the departed, the wedding anniversary, Memorial Day, even Christmas are among other significant occasions chosen.
If you are hesitant to express your tender thoughts in poetic form, you may avail yourself of the Herald's collection of original verses. They exist in poetic beauty the emotions of the mourners. Among them are verses appropriate to any circumstance.
THE RATE
Cards of Thanks and In Memoriam notices, due to the fact they may run to considerable length, are billed at \$1.00 per column inch.

Try and Stop Me
By BENNETT CERR

A CUSTOMER had been waiting forty minutes at a restaurant without being able to attract the attention of a waiter. Finally he grabbed one by the coat tails and demanded, "How about something to eat here?" The waiter yanked himself loose and sneered, "Who's got time to sit down?"

That fellow they found with two black eyes and a big lump on his head was the "humorist" who walked into an antique shop seven mornings in a row and called out cheerfully, "What's new?"

Collins Orders State Unemployment Study

TALLAHASSEE (UPI)— Gov. LeRoy Collins has ordered a study to determine if unemployment in Florida is serious enough to warrant emergency action this year by the Legislature.

The federal money would mean an estimated 10 million dollars in additional unemployment benefits to workers who have already used up their jobless eligibility. Some 80,000 Florida unemployed workers have exhausted their benefits so far.

Governor Reluctant The governor has said he would be very reluctant to call any special session of the Legislature. But that was before the new federal aid bill was passed as an emergency measure to help workers thrown out of jobs by the national business slump.

The study he ordered will determine how seriously the state would be hurt if it could not take advantage of the federal funds. State Industrial Commission attorneys say Florida would need a specific legislative act before it could get the additional money under the federal bill to extend the period for which workers can collect jobless benefits.

No Hitting Yet Atty. Gen. Richard Erwin has not yet ruled on whether an act is needed, and Collins said he will not make any plans until there is a clear-cut legal opinion on it. Florida law provides that unemployment insurance may be drawn from five to 18 weeks, depending on how long the worker has been employed before losing his job.

The federal bill extends the coverage time by 50 percent, amounting in Florida to an additional 2 1/2 to eight extra weeks for workers who become unemployed after July 1.

Florida now has the shortest period of unemployment pay of any state, but has a fairly high rate of pay-up to \$50 a week. No estimate has been made of Florida's share of the new federal bill, but it probably would exceed 10 million dollars.

James T. Voele, who administers the unemployment act, said some 50,000 Florida workers already have exhausted all their jobless benefits for the year, and about 40,000 others are now drawing unemployment benefits.

Diplomats Predict Friendly Welcome For Ike's Brother

WASHINGTON (UPI)— U. S. diplomats in Central America have reported that Milton Eisenhower, the President's brother, probably will get a friendly reception on his forthcoming trip to the area.

Informed sources said the Central American nations themselves have assured the United States they will take special measures to make sure he doesn't encounter violent anti-American demonstrations such as Vice President Richard M. Nixon experienced in South America.

Milton Eisenhower, president of Johns Hopkins University in Baltimore, Md., is scheduled to make a two-week goodwill and fact-finding trip. Exact dates are uncertain but he probably will depart late this month.

The President's brother, who has made previous trips to South America and Mexico, will visit Guatemala, Costa Rica, El Salvador, Honduras, Nicaragua and Panama. There has been considerable concern about his coming visit because of the violence Nixon ran into during his recent South American trip.

Officials said no thought is being given to cancelling Milton Eisenhower's tour. But the State Department asked embassies in the six nations for an estimate of the President's brother will be received. On the basis of their reports, authorities expect Milton to be well received.

Heuss Arrives For 3-Day Visit With President

WASHINGTON (UPI)— West German President Theodor Heuss arrives here today for a three-day state visit as guest of President Eisenhower.

He was accompanied by Foreign Minister Heinrich von Brentano. Heuss was the first German chief of state in history to come to the United States. The 74-year-old German leader's trip was designed to cement friendship between Germany and this country.

Brentano was to meet with Secretary of State John Foster Dulles to discuss international problems, specifically the French crisis and summit talks. British Prime Minister Harold Macmillan is due Saturday for similar conferences.

Both German and U. S. officials have been cautiously optimistic that Gen. Charles de Gaulle will live up to French North Atlantic Treaty Organization (NATO) commitments.

President Eisenhower was to be on hand to greet his guests, who are flying down from Ottawa in the U. S. President's personal plane, Columbine III. Heuss has been on a state visit to Canada.

Burning Trash Causes Fire

The Florida Forest Service at Longwood reported a fire yesterday near Forest City on SR-4M. The fire was started when trash being burned by C. L. Hopkins of Maitland was blown by gusts of wind.

Linz Re-Elected Farmers Auction Market President

The Sanford Farmers Auction held its annual stockholders meeting last night at the Auction Barn, to elect officers for the current year.

President W. W. Linz, in his report to the stockholders, revealed that over \$20,000 was taken in by the auction during the year from June 1, 1957 to May 31, 1958. The sale of all types livestock—calves, goats, rabbits, chickens, ducks, etc. accounted for approximately half this figure. The rest came from the sale of furniture, jewelry, flowers, shrubbery, fresh vegetables and eggs. Declaring that there is no better place to stock up on these items, Linz urged the stockholders to pass on to their friends and neighbors the pleasure and value of buying at the auction.

Explaining why there was no dividend declared last year, Linz pointed to the construction of ten stalls, eight which are closed in the other two are now open air but will be enclosed when needed. The ten new units with five in the older building, makes a total of 15 stalls to accommodate those growers and producers who prefer to rent a stall and sell their products directly to the consumer, rather than have it auctioned off in the highest bidder.

Auctions are held each Friday night, beginning at 7:30 with Larry Jones as auctioneer. Platform helpers are mostly directors of the Auction.

Serving as directors last year, and re-elected for another year are: Carley Lawson, T. L. Smith, Daniel Desmond, Graham Hunter, Raymond Schaal and Larry Jones. W. W. Linz was re-elected president and H. M. Cochran was re-elected vice president. The secretary-treasurer is yet to be obtained by the Board of Directors. F. T. Meriwether makes the ninth director.

Serving as canvassing committee which gave its report were: Ted Williams, Brown Miller and F. W. Harvey.

Auction directors meet at the auction barn the first Thursday night of each month, to conduct business connected with the auction. Stockholders meet once each week, the first Monday night in June.

BROWN (right) receives a certificate naming him Honorary Post Commander of the City of Sanford's Post, Florida National Guard, from (left) John Keeling, Company Commander of the local unit. Brown retired with 20 years service as a Chief Warrant Officer. The appointment was made by MajGen. Mark W. Lance, Adjutant General of Florida National Guard. (Photo by Bergstrom)

Guard Unit Begins Summer Camp June 8

Co. 8, 154th Armored Infantry Battalion, Florida Army National Guard, Seminole County's only Reserve of National Guard unit, completed final preparations for their annual two-week active duty training period at the unit's weekly Monday night training period at the Armory.

The Sanford company with other elements of the 4th Armored Division, Florida and Georgia National Guard, will train at Fort Stewart, Ga. from the eighth to the 22nd of June. This will be the first summer camp training period for the division since Maj. General Maxwell C. Snyder of Jacksonville took command last November.

Company B is at its greatest strength since World War II and will move 101 officers and men to the field this year. This figure includes a number of local guardsmen who are on active duty at the present time under the "Take six" program. This program enables a young man to take six months active duty training and then return to his local unit for the remainder of his reserve obligation.

The local unit is under the command of 1st Lt. John O. Keeling Jr. Other officers are 1st Lt. William B. Nunn, 1st Lt. Glenn A. Lingie Jr., 1st Lt. Richard A. Frank Jr.

The key personnel in the headquarters section are Sgt. Arthur Hedger, company supply sergeant; SFC Elbert W. Byrd, unit mess steward; SFC James J. Kendall, unit sergeant; and Sgt. Max W. Carter, communications chief.

The unit will be 100% in attendance at Fort Stewart this year according to Lt. Keeling, unit commander. "This year we have had more cooperation from employers of the local Guardsmen than in any year I can remember," Lt. Keeling added. The training local guardsmen receive at Camp amounts to approximately 30% of the training received during the entire year.

While at Fort Stewart the local unit will operate as an independent unit. The company officers and (Continued on Page Seven)

75-Year-Old Man Lives On Leaves For Ten Days

TAZEWELL, Tenn. (UPI)— A 75-year-old man who set out on a bicycle trip to see his wife Tuesday even though he had eaten only hickory tree leaves for 10 days.

John Logan Minton was found under a tree, weak, famished and his clothes wet from a heavy rain. He was reported "doing all right" today at a Middlemore, Ky. Hospital. The aged man said he ate only leaves from hickory trees during his wandering through rugged woodland. Authorities said Minton disappeared May 25 after saying he was going to drown himself.

Memorial Services For Licdr. Ramey Conducted Today

Memorial services for Licdr. Robert W. Ramey were conducted this afternoon at 1 o'clock at the Sanford Naval Air Station Chapel with Chaplain William C. Fuller officiating.

Funeral services for Licdr. Ramey will be held Thursday morning at 11 o'clock at the First Christian Church in Sanford with the Rev. Perry L. Stone officiating. The entire squadron in which Licdr. Ramey was also held Heavy Attack Squadron Eleven, will attend the services.

Licdr. Ramey was commissioned in the United States Navy on Aug. 16, 1913. He served 15 months prior to his commissioning as an enlisted man.

He was a pilot in World War II and as an aviator participated in the battles of Leyte, Luzon, Iwo Jima and Okinawa.

Licdr. Ramey joined VAH-11 on March 18 of this year after having been attached to FASRON 51 at the Sanford Naval Air Station.

He held the Distinguished Flying Cross, Five Air Medals, the World War II Victory Medal, Philippine Liberation Medal, Presidential Unit Citation, American Theatre Medal, American Defense Medal and the Asiatic-Pacific Medal.

Licdr. Ramey was born April 5, 1920 in Groveton, Tex. He was a member of the First Christian Church of Sanford and took a very active part in its work.

Survivors include his wife, Mrs. Walueta Ramey; one daughter, April; one son, Robert; and his parents, Mr. and Mrs. Glena Ramey of Trinity, Tex.

Intention will be to Oaklawn Memorial Park. Fairchild Funeral Home is in charge.

O. P. Franke, 60 Succumbs Tuesday

One Paul Franke, 60, passed away suddenly at his home on Longwood on Tuesday. The day of his death was Tuesday.

Born July 13, 1897, in Stauch, Germany, he had been a resident of Longwood for the past nine months. Mr. Franke was a retired dressmaker.

He is survived by his wife, Thekla Franke; Longwood.

Funeral services will be held at 10 a. m. Tuesday in the funeral home. Burial will be at a later date.

Board Declares Millage Raise May Be Necessary

Seminole County Commissioners yesterday admitted that it may be necessary to raise millage as much as six mills when the budget is considered on June 16 at a special meeting called to review budget requests.

Commission Chairman John Krier told the board of commissioners that "any increase in millage should not be considered. I'm not in favor of raising millage but we may be forced to do so in order to take care of the bare necessities."

Commissioner Lawrence Swoford said if "when something has to be done millage will have to be added to take care of the expense."

Clerk of Court O. P. Herndon told the Board of Commissioners that only a few budgets for various county departments have been submitted for consideration.

Sheriff J. L. Hobby submitted a proposed budget for the operation of the Seminole County Sheriff's Office for the fiscal year beginning Oct. 1, 1958.

Sheriff Hobby told the commission, in his report, that the total budget is more than \$3,000 less than the 1957-58 budget.

In the \$95,000 proposed budget, Sheriff Hobby will add an additional deputy, provide 24-hour radio watch, and all personnel in the department.

An additional automobile will be needed, he said, and the added cost of Sheriff Hobby pointed out, and said that the proposed budget includes the addition of the automobile and the repair of another.

A complete itemized budget was submitted for consideration. Herndon said that budget requests have also been made by the County Agent, Home Demonstration Agent, Dr. Terry Byrd for his Department and the Welfare Department. However, copies of these requests were not available.

The item proposed for the forthcoming budget study is the renovation of the Seminole County Court House in order to provide additional space for the Tax Assessor.

In preliminary plans prepared by Architect John Burton IV, the basement of the court house would be renovated so that space, now unused, would be available for a 1,500 square foot office for the Tax Assessor.

At first it was believed that the mystery had been solved when instructions were relayed through the Florida Game and Fresh Water Fish Commission and Wildlife Officer Harry Horvich, to hold the bird for the U. S. Department of Agriculture. It was also said that the "story of the pigeon would be forthcoming."

Turned out that the tag numbers on the two birds worn by the pigeon were not USDA characters.

The bird was found Monday morning, May 26, as it straggled into the Sanford Ave. store and into the hands of Mrs. James Chestnut and Mrs. Herman Harriet.

Since then it has been fed, watered and rested by both Mrs. Harriet and Ledr. E. H. Doherty, public information officer at the Sanford Naval Air Station. The pigeon, according to a telegram from Dr. George C. Bailey,

Tax Assessor

A total of \$15,000 is proposed for the renovation. Additional plans for the renovation will be considered at the special meeting called for June 16.

The Board of Seminole County Commissioners approved Architect Burton's preparation of preliminary plans and working drawings for the proposed renovation.

Clerk of Court O. P. Herndon called for the early submission of budget requests to his office by all departments and organizations. "We need them as soon as possible to study the proposed 1958-59 budget."

ON TO COCOA! A homing pigeon, which stopped off in Sanford on its trip from Chattanooga, Tenn., was released this morning. Mrs. Norman Harriet releases the bird while Mrs. James Chestnut looks on. (Photo by Bergstrom)

Cocoa Man Owner Of Mystery Pigeon

It took a series of telegrams and telephone calls, the services of the United States Department of Agriculture and a Radio Tracer of Lost Pigeons, to determine the mystery of a friendly pigeon who walked into a Sanford Ave. dime store and the hands of two employees.

At first it was believed that the mystery had been solved when instructions were relayed through the Florida Game and Fresh Water Fish Commission and Wildlife Officer Harry Horvich, to hold the bird for the U. S. Department of Agriculture. It was also said that the "story of the pigeon would be forthcoming."

Roberts Relieves Hosey As VAH-7 Squadron Officer

Lieutenant Commander Gerald M. Roberts relieved Commander William B. Hosey as Officer in Charge of Heavy Attack Squadron Seven's "Go Devil" Detachment in an informal change of command on board the aircraft carrier USS Essex (CVA-9).

Since his designation as a Naval Aviator in 1944, Lieutenant Commander Roberts has served in various phases of carrier aviation including those duties as landing signal officer.

Other varied duties have included serving on the Staff of Commander Middle East Force, as transport pilot of JOP's and as Combat Information Center Officer on board the USS Sajan prior to his present duties.

Based on board the aircraft carrier USS Essex since January, the "Go Devil" Detachment is presently deployed to the Eastern Atlantic and Mediterranean.

Flying the AF2 "Savage" heavy attack bomber which is one of the largest carrier based aircraft, the detachment forms an important part of the powerful U. S. Sixth Fleet.

'Worthless Check Racket' Increasing Here

The "worthless check racket," said Justice of the Peace Hugh Duncan, is getting out of hand.

Duncan spread out a stack of worthless checks and warrants to be served on those who had lapsed their to back up his statement.

"Right here I have more than \$2,000 in checks that have been accepted by Sanford merchants and returned because of insufficient funds, no bank account, forgery and fraud," he said.

"This has no comparison to the hundreds of dollars worth of checks that I have collected and returned the money to merchants," he added.

Justice of the Peace Duncan revealed that in the "past 12 months I've collected at least \$12,000 for merchants because of worthless checks."

Duncan stated that half of his time now is devoted to collecting checks "such as these" as he swept his hands over the stack of checks returned from various banks.

Payroll checks should be watched carefully, Duncan advised, "for some of them are actually forged and offered to merchants when business is rushing and not too much time devoted to finding out if the check should be cashed."

Those cashing checks should know the endorser as well as the signer, the Justice of the Peace said.

"We are beginning to crack down on those people who present worthless checks to merchants in payment for merchandise or to be cashed," Duncan said this morning. However, he advised, "we need the cooperation of merchants and business men."

Farmers' Market Reports Good Month

The Sanford State Farmer's Market experienced one of its biggest months of the season as totals were tallied in the month end report issued yesterday.

The number of units sold through the Sanford State Farmer's Market amounted to 328,380, Assistant Manager Sandy Anderson revealed. He said the valuation of the May 1958 total units came to \$711,183.15.

"We had an increase of 70,407 packages and a valuation increase of \$97,256.00, as compared with May 1957," Sandy Anderson said. "We are very grateful satisfactory prices were realized by the dealers for 33 out of 34 sold during the month of May, the Assistant Market Manager reported.

He said "Green onions was the only item in the low pricewise bracket."

Leaders listed in the May 1958 commodity report included cabbage as the top item. There were 7,393 50-pound sacks and \$5,000 50-pound crates moved from the Sanford State Farmers Market at a valuation exceeding \$130,000.

Other leaders were beans 46,750 bushel hamper, pole beans, 14,763 bushel hamper, pascal celery 18,140 crates, corn 20,855, cucumbers 11,527 bushel baskets, oranges 10,848 boxes, peppers 4,950 bushel baskets, red bliss potatoes 14,558 50-pound sacks, cocozelle squash 13,100 1/2-bushel baskets, and yellow squash 4,317 bushel hamper.
