Parlor Bolsheviks Bail For Their Jailed Friends Must Be Liberty Bonds

Crowded Condition Now On Ellis Island

NO PLACE FOR MONEY

AND ANY BONDS MUST BE IN LIBERTY BONDS AN IRONY OF FATE

New York, Jan. 8. (By Associated Press) The "Parlor Bolsheviks" are raising funds to assist their comrades held on deportation proceedings must first in Liberty Bonds to get their friends out on bail. Ellis Island authorities announced today that offers of cash bail had been refused since the island had no facilities for handling large sums. They will accept Liberty Bonds however and release the Reds on bail as soon as the preliminary hearings are completed.

AMERICANS KILLED BY MEXICANS

THREE MORE OIL MEN ADDED TO INCREASING LIST

Washington, Jan. 7.—Gabriel Porter, an American citizen in the employ of the Pem-Mex Co., was shot and killed by a Mexican federal army officer at Tampico, on Dec. 31, according to officers received by the state department today from the American consul at Tampico.

The consul was immediately ordered to send further information, and if developments warranted to ask the authorities of the Tampico district to arrest and punish the guilty person. This makes the total of 20 Americans killed in the Tampico district since April 7, 1917. Most of them were employes of the American oil companies.

Mexican authorities first reported that Porter had been accidentally shot by a companion, while returning from a dance. Investigation by the Pem-Mex officials and by the American consul was said to have developed, however, that he was shot by an army officer. Porter's home was in Fullerton, Cal.

Earl Bowler and S. J. Roney, Americans employed by the International Petroleum Co., have been murdered by Mexicans within one mile of Balo Blanco, near Port Lobos, according to private advices received from Tampico.

One Mexican also was murdered. No details were given but it was said that the American consul of Tampico was in possession of all the facts. The territory in which the murders occurred was said to be under the control of Carranza forces. The Mexican government today called upon the state department to use every means possible to apprehend and punish the murderers.

Immediately upon receipt of the report of the murders of the two Americans the United States embassy in Mexico was instructed to urge the Mexican government to take prompt steps to bring the murderers to justice.

In an effort to get action also by authorities, similar instructions were sent to the American consul at Vera Cruz.

The state department said the bodies were discovered Jan. 7. They were supposed to have had the oil companies payroll when they were killed.

GOVERNMENT SOME GOOD

Roads Were Improved In Many Instances

Washington, Jan. 7.—Some of the changes in railroad operations adopted during the period of government control will be continued after the roads are returned to private operation on March 1. The Association of Railway Executives at meetings now being held in Washington, are

carefully considering all of the changes, and Thomas DeWitt Cuyler, its chairman, announced today that the following regulations had been agreed upon:

Adoption of a rule for the distribution and interchange of freight cars.

Continuation of the system of operating statistics established by the railroad administration.

Continuation of the present method of collecting transportation charges.

"The various companies," Mr. Cuyler said, "are engaged in arranging to reestablish agencies for the information and assistance of shippers in routing and tracing shipments."

"The companies through this association are trying to agree with the government on the interpretation of the federal control act and of the standard contract between the government and the companies. Every effort will be made to avoid litigation and make final settlement prompt and fair.

"Careful consideration is being given to the need for additional equipment and every possible effort will be made by the companies to provide such equipment."

35 Million Seeds

Washington, Jan. 8.—Thirty-five million tree seeds, making the most unique New Year's gift one nation ever made another, are on the way to Europe, the American Forestry Association announced today. They are intended for reforesting the battle areas of France and Belgium and the depleted forests and wood lands of Great Britain. The seeds were purchased by funds raised by members of the Association. They include Douglas Fir, Western Larch, White Fir, Engelmann Spruce, Red Oak, Sugar maple, White ash and Tideland Spruce. More seeds are to be sent when funds are available.

COMMUNITY EXPERIMENT IS STARTED

NEW YORK TAKES UP GREAT WORK STARTED IN CINCIN- NATI

New York, Jan. 7.—A community experiment similar to the one which has been carried on in a section of Cincinnati the past two and a half years by the National Social Unit Organization, will be conducted here in 1920, if plans for a merger of that organization and the community councils of greater New York, recently formulated by the executive boards of both sides, are consummated.

Miss Sarah Graham Mulhall, Mrs. Edgarton Wintrop and Dr. Albert Shields, director of the Community Councils of greater New York, are prominent in the proposed enterprise. Wilbur C. Phillips, executive secretary of the National Social Unit Organization, explaining the project, said:

"The work of the Community Councils, already established in 80 sections of New York city, has demonstrated their ability to awaken civic interests, increase neighborliness and promote co-operative endeavor. The Cincinnati unit has shown that the organization of the people by small population units, with a representative for each unit, has been extraordinarily successful as a means of enabling the discussion of community needs and programs.

"Development of the work in New York," said Mr. Phillips, "may first center around some common problems, such as infant welfare, the reduction of the cost of living or recreation. This work is to be undertaken insofar as possible by the women of the city acting as volunteers. An effort also will be made to waken the intelligent interest and co-operation of important groups in the population such as big business men, wage earners, physicians, nurses, social workers, clergymen and city officials."

SEMINOLE TO EXHIBIT IN ORLANDO

PRESIDENT MILLER AND THE ASSOCIATION DECIDE TO CARRY OFF FIRST PRIZE AGAIN

Seminole County will have an exhibit at the Tenth Annual Sub-Tropical Mid-Winter Fair at Orlando February 10th to the 13th.

C. E. Howard, the secretary of the Fair Association was here yesterday and was assured by President P. L. Miller of the Seminole County Fair association that Seminole County would be there with the bells on and as usual would be a contender for the first prize for the best exhibit.

Seminole County has won the first prize for several years at the Sub-Tropical Fair and our fine exhibit is viewed by many thousands of people there each year giving our county the benefit of a fine lot advertising and the Seminole County Fair Association this year has refused to have exhibits at any other fair with the idea in mind that one good display at Orlando is worth more than a small display with all the attendant expenses and troubles at some of the larger fairs. The Sub-Tropical Fair at Orlando is bigger and better each year of its existence. Many of the stockholders and officers are Sanford men. Orlando is our neighbor and there is no reason why this county should not assist in every way the Sub-Tropical Fair each year. We have not been able to purchase fair grounds in Sanford to hold an annual fair in this city and until the time comes when we can do this our next best bet is the Sub-Tropical Fair at Orlando where we have always been treated fair and square and where we take the rag off the bush with enough prize money coming back to almost pay us for the time and trouble of making the exhibit.

The fair at Orlando this year will be great in many respects and space will not permit an extended account here. The premium lists are out and you can get one by writing to C. E. Howard the secretary at Orlando. Meantime be ready for the fair by planting some choice stuff and getting up all the materials for a big exhibit. Groom the hogs and horses and cows and chickens and swell Seminole's display.

VERA CRUZ SUFFERED EARTHQUAKE

OVER TWO THOUSAND DEATHS AND MUCH PROPERTY DAMAGE

Mexico City, Jan. 8. (By Associated Press) It is estimated that the number of casualties of the earthquake Saturday in the western part of Vera Cruz state still stands at two thousand or more. Despatches from the stricken area do not even estimate the damage done nor give an accurate list of the dead. Fragmentary advices received here indicate however that the death toll would amount above the first estimate.

Against Emergency Levy

Berlin, Jan. 8.—A union of the big bankers and private bankers of Berlin has drafted and forwarded to the National Assembly a memorial in which the financiers make a renewed protest against the adoption of the national emergency levy proposed by Matthias Erzberger, Minister of Finance.

The bankers say the levy will deprive the nation of vital funds to carry on production, seriously threaten the individual credits needed to conduct legitimate enterprises and that there is danger that Germany's enemies may seize the proceeds of the levy.

NEW FACES AT CITY HALL THESE DAYS

CITY MANAGER ABBOTT ON THE JOB GIVES AIMS OF THE COMMISSION

Since the new Commission manager form of government is now in force a few words about the manager and the aims of himself and the commission would not be amiss.

Mr. G. A. Abbott has been serving in the capacity of City Manager since 1918 with Michigan Municipalities, prior to that date he was identified with a Chicago law firm by whom he was retained for over ten years.

Miss Ellen Hoy will serve as deputy collector and as secretary to the City Manager, she comes from St. Augustine where for the past two years she has been with the City Commission in the office of the City Manager.

Mr. Levy from Orlando assumes his duties as a motorcycle officer, he comes well recommended by Mr. E. G. Duckworth recently appointed Mayor of Orlando.

The Manager stated in an interview that it was the desire of the City Administration to prevent a great deal of reckless driving and other violations of the traffic rules by using the public courteously and with due consideration, many operators of vehicles have unintentionally violated the City and State regulations pertaining to speeding and operating without proper licenses, hereafter all vehicles parked on any paved street must remain at least twelve feet away from all fire hydrants, and vehicles parked on paved streets should not be allowed within twenty-five feet of the corner, on Sanford Ave., owing to the narrowness of the street vehicles should be parked parallel to the curb, printed signs will be prepared as soon as possible for the benefit of the public.

During the past three weeks Mr. Abbott has spent considerable time investigating conditions in fifteen different Florida Cities including Orlando, Daytona, Lakeland, DeLand, Palatka, Arcadia and St. Augustine, from the appearance of conditions in the latter towns it is evident that police regulations are more rigidly enforced than they have been in the City of Sanford.

The City Commission expressed itself as being strictly opposed to the operation of any confidence men, wire tappers or other operators whose speciality is to acquaint themselves with strangers and by a method of misrepresentation or hypnotism prevail upon visitors to part with their accumulations or savings. It is the intention of the new Administration to publicly announce by conspicuous advertising and do all it can to warn the public against people of this caliber.

REDUCTIONS IN FOOD FAR AWAY

AGREEMENT BETWEEN PACK- ERS AND GOVERNMENT HAS NO PROMISE

Washington, Jan. 8.—No promise of immediate reductions in food prices as the result of the dissolution agreement between the government and the packers is seen by Attorney General Palmer, he told the senate agricultural committee today, in explaining conditions that led up to the agreements.

"These great corporations do handle goods with greater efficiency than some smaller organizations; but it is the efficiency of the autocrat. We will have to depend on getting results from competition in this direction and if they are not obtained, then our

whole theory of efficiency borne of democratic competition is wrong."

How the department of justice reached the dissolution agreement with the five big packers was described by Attorney General Palmer today, who told the committee that a representative of the packers came to see him and paved the way for settlement of pending prosecutions without resort to criminal proceedings, Robt. J. Dunham, of Armour & Co., was named as the representative.

"While we had a case pending against the packers before the grand jury in Chicago," Mr. Palmer declared, "I received a telegram from a personal friend at Chicago who said the packers desired to see me regarding their case. The message said they wanted to present their side to the department of justice, feeling that they had never been accorded a proper hearing before the federal trade commission.

"I replied that if the packers wanted to come with the idea of surrendering en masse, I would meet them. I was to the government and without stating how far they would go in complying with requirements of the government, I would meet them. I was advised that the packers would send a representative to speak for all of them from that point of view, without regard to the merits of the case." Mr. Dunham's visit followed, Mr. Palmer said, and from that meeting the plan of settlement resulted.

Mrs. Wren McQuinn, Reader

At the same hour of the Men's Only Meeting at the Baptist Temple Sunday evening, there will be a Woman's meeting in Room A. of the Temple. The meeting will be presided over by Mrs. Geo. Hyman. Mrs. Wren McQuinn, a Lyceum Reader will give "The Last Word". This meeting will be at 7:30 Sunday evening, Jan. 10th. Invite your friends.

AMERICA AND JAPAN AFTER TRADE

IN INDIA AND EXPECT TO TAKE IT FROM THE CENTRAL POWERS

London, Jan. 8.—The United States and Japan have taken over since the beginning of the war, virtually all of the big export trade which the Central Powers had with India, says an official report which adds that, undoubtedly, American competition in India has come to stay.

The place of the Central powers has been taken by the United States so far as iron and steel, machinery, hardware, and instruments are concerned. Japan has taken the trade heretofore held by Central Powers in such articles as electrical accessories, copper, paper, glassware, textiles, beer, and clothing. The bazaar trade in cheap, showy goods has been entirely captured by Japan.

The primary reason for the increased shipments of American manufactured goods to India has been the inability of the established British exporters to supply the market owing to war conditions, says the report. Improved shipping facilities between the United States and India are declared to have very largely contributed to the expansion.

"There is no doubt," adds the report, "that American competition in India has come to stay. A determined effort is being made to secure a large share of the trade of this valuable market in steel and steel work, machinery of all kinds, including machine tools, mill stores and hardware; earned provisions; motor-cars, lorries and cycles, and lumber.

Japan now occupies the second place in India's import and export trade. It is in Great Britain's staple trade of India, namely cotton yarns and piece goods, that the most serious inroads have been made and that Japanese competition in the future is expected to be most permanent and insistent.

Many Cities Contend for Honors

WILSON ENDORSED

AND PEACE TREATY WILL NO DOUBT BE ONE OF THE CAM- PAIGN SLOGANS

Washington, Jan. 8. (By Associated Press) When and where the Democratic National Convention will be held next summer will be decided here today by the Democratic National Committee in session which is expected to lay the basis for the campaign issues by resolution endorsing President Wilson and his stand on the Peace Treaty. San Francisco and Kansas City were the leading cities for the choice as the Convention cities before the meeting began but the delegation from Chicago has revived its campaign. The committee meeting which is expected to last most of the day will be followed tonight by a banquet declared by the leaders to be the greatest of the kind in the party's history.

Washington, Jan. 8. (By Associated Press) Clark Howell of Georgia was appointed chairman of the Resolution Committee which includes John Gary Evans of South Carolina. The request from the National Association of Federal employes for the statement on the attitude of the party on the government workers demands for increased wages was referred to the Resolutions Committee.

FIRE AND POLICE CALLS

New System To Call Police And Firemen.

The Telephone Company's Manager has been requested to have the operators when possible notify all parties to call the Chief of Police at his residence if the calls are made after 9:30 P. M. Members of the Fire Department will gladly accept calls coming in over 67 which is the number of the manager's office when there is no one in the office of the police department. It is considered unnecessary however to expect members of the Fire Department after they have retired to answer calls which are intended for the manager's office or the Police Department.

The Chief of Police will have a phone at his residence and will answer all phone calls after the hours above mentioned. We especially request however that citizens refrain from calling the police department during the night time unless the complaint is a matter of some consequence and deserves immediate consideration. We believe many calls received by the Fire Department over the city phone are not important messages and could easily have waited until the following day. The Fire Department has its separate phone for fire purposes exclusively their number is 169.

FLOODS IN ITALY CONTINUE

ARNO VALLEY FLOODED CAUSING SUFFERING AND DEATHS

Rome, Jan. 8.—The Arno valley is flooded and many towns are isolated. The lower part of the city of Pisa is inundated and it is feared that lives were lost at Catales.

Americans In Argentine

Buenos Aires, Jan. 8.—Representatives of a group of American insurance companies dealing chiefly in fire and marine underwriting have just completed arrangements for establishing their business in Argentina and will open an agency here on Jan. 1. It will offer Argentina the first opportunity to insure with American concerns. Heretofore the business of insurance has been chiefly in the hands of British and French companies. The group is known as the American Foreign Insurance Association and is said to include 20 of the foremost concerns in the United States.

Business is just simply booming.

Keep moving! 1921 is just around the corner.

It is great to be a dad—when the Christmas bills float in.

More Reds are being deported to Russia where they belong.

This country will soon be fit for real Americans as a residence.

Be an optimist, Madeline! Perhaps you can annex him this year.

The popular program for 1920 is to eat, drink, be merry, and pay the bill.

Do your shopping early. Only twelve months until Christmas again.

Remember, brother, it's 1920. We made the same mistake ourselves.

Property is changing hands every day and new buildings are to be built.

The wise man plans for the years to come. The fool prattles of those that have flown.

Madam is worth \$3,000,000 an ounce—and is accepted on subscription at this office.

True, Christmas comes but once a year, but things do him the short time it's here.

Got a fresh egg, young man? Take it to one of the big cities and trade it in for a new suit of clothes.

We sure enjoyed the Christmas turkey—because, h'gosh, we resolutely declined to even think of the bill.

The smile that won't come off is of little value to the world. It is founded upon nothing and is gauged by its origin.

The man who contemplates building should start right now for the price of materials will not be any cheaper.

No, don't ask us to divulge the names of the first bridal pair of the new year. Just wait and keep on guessing.

To all of our citizens we extend the greetings of the new year, with the hope that it will be both happy and prosperous for you.

What will 1920 bring to us of this town? Exactly what we reach out and gather in—no more, no less. Let's begin now.

Old men are becoming young again, young men are getting kiddish, and the kids are assimilating all of the wisdom of mankind.

Many people have adopted the excellent habit of settling up all of their bills the first of the year. We'll be right here waiting for ours.

Think carefully as you cross the threshold of the New Year. It may save you some painful thoughts as you consign it to oblivion a year hence.

Exit the old year. Enter the new; Everybody's profiteering. And so are you.

The people want to smash old High Cost, and High Cost wants to bust the people, and in the mixup H. C. seems to be getting about all of the gravy.

Even the four legged wolves are crossing the Mexican border in raids against American stock. But that, we regret, can hardly be charged up to Caranza.

It's easy to become famous these days. Just stick "Prof." before your name, hitch a few capital letters onto the tail of it, and then break into print with any old sort of a. d. f. statement. You'll succeed and will have plenty of followers.

The government is prohibiting so many things now-a-days one wonders when it will place a ban on matrimony. That, however, might be means of stimulating the marriage market, since human nature is prone to want that which is prohibited.

CENTRALIZATION

The News, like many other newspapers, has been forced to the expediency of printing its daily edition on book paper. We have three orders for regular news print out, one of them having been placed three months ago. But it is not to be had.

What is becoming of all the newsprint? It is being monopolized by the big dailies that have shouted so loud and so long against monopoly. They are centralizing the newspaper business just as other business is being centralized by more powerful groups.

The effect of this newspaper centralization is being felt in every state in the union. The big fish are crowding the little ones out of the pond. They grab all of the newsprint paper, they extend their tentacles of circulation into every town and hamlet then preach to the big advertisers that there is no need for country weekly or small town daily advertising as they cover the field. This isn't true, but they put it over.

Merchants in the center go out after business in near-by towns through the medium of their big newspapers, while the poor merchant in the small town wonders why he is losing out. Its centralization that is curbing us just now, but the big papers, supposedly leading in thought, will not admit it. —Palatka News.

ANOTHER REPRESENTATIVE

It seems certain that the 1920 census how being taken will show Florida entitled to a fifth representative in congress.

The Times-Union, observing the short time that will elapse between official report on the result and the election says that Florida's new representative will be a congressman-at-large. This is probably true. Still it need not be delayed until we know the figures before we start the machinery necessary for redistricting the state.

Now is the time to begin considering the most advantageous and fair way to cut the state so as to give us the Fifth Congressional district. And we know of no better time to start it and no better place in which to work out the problems of redistricting than in a Democratic state convention to be held early in the year.

A gathering of the representative men of the party at some central place, for a period of several days would be able to work out the lines on which the new district would be formed having due regard to the trend of population increase which the last few years has indicated.

It would not only be possible but entirely feasible to have the Fifth Florida district outlined, and all but the legal congressional requirements met, and the state ready to present the "representative from the Fifth Florida district" ready to go to work for his district, instead of having to cut corners and scheme how he might possibly remain in office another term even though the representative-at-large would be abolished before the next election.

The Times-Union has the following to say on the matter of another representative for Florida: "We are confident that the state has been growing more rapidly during the last five years than during the five preceding. The factors that now are leading in the development of the state have become operative since the state census was taken and that census was taken when the state was suffering from a period of great depression. Nearly every industry of the state was crippled in 1915 and some of them had been almost obliterated. It is safe to say that many Floridians had gone elsewhere who have now returned to the state with the return of its prosperity.

"So we consider the figures we stated at the beginning as a minimum and we would not be at all surprised if the census showed the state to have 1,200,000 people.

"The number of members of the house of representatives should not be increased but it will certainly not be diminished. If the same number is retained the basis of representation will be about 238,000 and this would certainly give the state an additional representative. The census that is being taken so early this year that it may be possible for congress to pass a new apportionment bill in time to have the extra representative elected next fall, though the increase in membership has heretofore been made two years after the taking of the census. If Florida should have another representative in the next congress he would have to represent the state at large for the state could not be redistricted until 1921." —Tampa Tribune.

WHY THE FRANKLIN SYSTEM IS USED

Benjamin Franklin is the father of the printing industry in America and Franklin said, "Keep thy shop and thy shop will keep thee". In the United States there has been perfected a system of figuring prices called the "Franklin Printing Price List," and it is gotten

out as the "Business Printer," in the form of a loose-leaf booklet, neatly indexed and arranged so that all job printing prices are easily found and computed. This system has been adopted by over fifty newspapers and job printers in Florida, of which the DeSoto County News is one.

Among those who have adopted the system are the newspapers and printing plants at Hartow, Eustis, Fort-Myers, Lake Wales, Winter Haven, all plants at Lakeland, all at St. Petersburg, Sarasota, Bradentown, the Florida Grower, the Tampa Tribune, H. and W. B. Drew Co., Jacksonville, and many others. These papers all adopted the system to avoid price cutting and to standardize the prices on their products as the prices on all other products are standardized where there is success in business. So popular has the Franklin system become that the first week in December, fifty one offices adopted the system and the next week forty-two more adopted it. It was for the reason of standardizing prices on our products and to avoid price-cutting that we adopted this system and we hope that all other DeSoto county offices will soon follow suite. This places the little man and the big man on an equality and no longer will you be robbed by one and rob the other for all will be compelled to charge a fair and just price on their work. When a fair and just price is charged surely there is no room for complaint by either the one buying or the one selling. We have adopted this system and will live up to it. We will be glad to have your business and assure you that the price you will pay will be charged by the best printers in the United States and by far the majority of the printers of the country. —Arcadia News.

COUNTY HAPPENINGS

(Continued from Page 2)

Xmas tree this year and it proved to be quite a success. A very appropriate program was rendered, consisting of music by the school children and the Community choir, and a few short talks. At the close of the program Santa Claus arrived in an auto and after a few remarks, he delighted the children with candy and apples from the tree.

On Xmas night immediately after the exercises at the Xmas tree, the young people assembled at the

home of Miss Ruth Young and spent the evening very pleasantly with games and music.

Miss Marie Marshall of Washington D. C. spent a part of the holiday season with her mother Mrs. O. A. Marshall.

Mrs. Ida B. Tedford and children with Mr. Ellis, all of Orlando spent Christmas afternoon with Mrs. Marshall.

Mrs. W. J. Lawton entertained the Lawton-Lee families at Xmas dinner this year. There were twenty-four guests present.

Mrs. A. K. Crawford and little

son George spent a part of the holiday season in Leesburg with Mrs. Z. Spinks, sister of Mrs. Crawford.

Clem Hall spent Xmas with his parents at Tifton Ga.

Miss Gladys Lezette of Jacksonville spent several days with her parents Mr. and Mrs. N. F. Lezette.

Mr. Clark of Mississippi spent the holidays with his brother J. M. Clark. The brothers had not seen each other in twelve years and it was a great surprise as well as a great joy to Mr. J. M. Clark to have his brother with him at this time.

Mr. and Mrs. Tilden Jacobs of Monroe spent the holidays in Oviedo and Chuluota.

Mr. and Mrs. Oakerlund of Winter Park spent Xmas in Oviedo with relatives.

On Friday evening the social committee of the Christian Endeavor entertained at the club house. The girls carried box lunches which were auctioned off to the boys, the latter using navy beans as coin, each bean representing \$1.00. The evening was most enjoyably spent and the social committee voted to be the best workers in the society for the past six weeks.

Catherine Hoang and Eunice Clarke entertained at a watch party Wednesday night at the home of W. B. Young. The house was prettily decorated and the hostesses entertained their guests in a charming manner all the rest of the year 1919.

LAKE MONROE

A marriage of unusual interest in this community was that of Miss Carrie Wainwright and Mr. Harry Rabun which took place at 7:30 o'clock last evening at the residence of the bride, Rev. George Hyman, of the Baptist church of Sanford officiating.

The home was appropriately decorated in potted plants and cut flowers and the bride who is one of the winsomest and prettiest of southern girls looked her most attractive in white crepe de chine with a large bouquet of brides roses. Miss Avis Stenstrom acted as bridesmaid while Mr. Carl Rabun was best man.

After the wedding the bridal party were entertained at Mr. and Mrs. Wainwrights with a sumptuous repast after which the bride and groom left for a short honeymoon at Jacksonville and other points, after their return they will be at home to their friends at Sanford.

The bride is a daughter of Mr. T. E. Wainwright and an attractive and popular girl. The groom is a son of Mr. D. H. C. Rabun and is also quite popular and is engaged in the railroad business at Sanford.

Christmas passed off very quietly in this community. Only a few entertainments marked the occasion, one being the Christmas tree and party given by the Graded school pupils by the faculty, Mr. and Mrs. J. T. Jacobs and Mrs. S. H. Buchanan. The decorations were fitting the event and carried out the true Christmas spirit with old Santa Claus standing by the gayly tinsel and gala tree, all of which proved a source of delight to the children. Candies, cakes, grape juice etc. were served and each little participant entered into the occasion with much merriment and happiness.

The marriage of Miss Ida Ahern and Mr. F. C. Snoure was, proclaimed for the first time at the Catholic church at Orlando, Sunday, Miss Ahern was formerly a Monroe girl and has many friends here who extend congratulations.

Barney Lyons sold an acre and a half of lettuce yesterday from the field for \$1200.

Mrs. R. T. Wynne has returned to her home after being in Jacksonville for some time under the treatment of the doctor. Mrs. Wynne is one of our most beloved matrons and her many friends are glad to hear that she is much improved in health.

Misses Bertha and Ida Ahern have returned to their home at Orlando after spending the week-end with Misses Mary and Lulu Mills.

Mr. John Duke and bride of Okechobee City, are visiting Mr. and Mrs. James Oglesby.

Mr. Guy Stafford who has been holding a position at Edgely, Louisiana is spending the holidays at his home.

Mr. and Mrs. Spencer Wainwright

Mr. and Mrs. Joseph Wainwright, Astor and Mr. and Mrs. John of Jacksonville were among those who attended the Wainwright-Rabun nuptials here Thursday.

Miss Annie M. Hary and Mr. John Hawkins were married Tuesday at the home of the bride at Mayo, Florida. Mr. Hawkins is a brother of Mr. Albert Hawkins of this place and is well known here where he has many friends who extend best wishes. Mr. and Mrs. Hawkins visited here a few days this week.

Mrs. P. E. Ahern of Ft. Pierce, was called here by the serious illness of her brother, Mr. W. H. Miles. Mr. Miles is now recovering much to the pleasure of his many friends and relatives, all of whom were greatly worried over his critical condition.

The new piano at the Graded school is a source of much pleasure and a means by which the vocal instructions may be carried out with ease. The citizens of Monroe have been generous in their contributions towards a musical instrument. This piano at the school at Monroe marks the fifth installation of pianos under the supervision of Mr. and Mrs. J. T. Jacobs in the schools of Seminole County.

James H. Noon of New York are with us again this season and have taken the little cottage down by the lake.

Born to the wife of Wyllis Stafford Sunday, January 28th, an eleven pound boy.

Little Gladys Hawkins is upon the sick list.

Dragon's Service to China.

China adopted the dragon as the symbol of empire because of the superstition that 1,500 years before the time of Moses a golden dragon rose from the waters of the Yellow sea and imparted to the emperor the secrets of agriculture.

CHANDLER SIX Famous For Its Marvelous Motor

Chandler Strides into Full Leadership

IF there has ever been any question as to Chandler leadership of the medium-priced fine car field, it is answered now. The great Chandler Six is sweeping its market. It displaces less efficient cars. It steps in to serve those who previously have chosen only high-priced cars. And it pleases everywhere.

From two thousand to three thousand discriminating Americans bought Chandler cars—open and closed—every month this Fall. And at no time has the demand been fully met. Thousands have waited months for their new Chandlers, and have felt repaid for waiting.

Nothing could more clearly show the regard in which America holds the Chandler Six, than the patience with which these thousands waited for weeks and months for their Chandlers. They waited because they knew what they were waiting for—because they knew it was worth waiting for.

Fernald-Laughton Hospital Will Open January 17th Membership Drive Jan. 20

INFORMAL OPENING

At a meeting of the directors of the Fernald-Laughton Memorial Hospital last night at the court house there was a fair representation from the county and city. President Lawton presided and there was a general

A FAMILY MEDICINE

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught, Relief From Headache, Malaria, Chills, Etc.

Ringgold, Ga.—Mrs. Chas. Gaston, of this place, writes: "I am a user of Theodor's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Springs, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Theodor's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit.

If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious trouble may result.

Theodor's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Theodor's the original and genuine. B 79

discussion about the near approach of the opening of the hospital and the furnishings of the same.

The executive reported the progress being made in the repairs to the building and the putting in the elevator buying of beds and supplies and arranging for the nurses, etc.

Mrs. A. E. Hill is arranging for the showers of the different churches and lodges of the city and will have the linen all ready for the opening day. The secretary's report and the treasurer's report were read and showed a balance on hand of about \$1100 after spending the money for the repairs and many of the supplies already purchased. Now that the hospital is getting on so rapidly it behooves the people to take more of an interest in this great work and get their pocket books ready for the big drive of memberships and donations that will occur on January 20th and last all week.

Every man, woman and child is interested in this great work for humanity and the benefits of having a real hospital here in Sanford are so many that they cannot be enumerated in one edition of the paper. The Fernald Laughton Hospital will be one of the best hospitals of the size in this state and in order to let the people see what is being done the association will act as hosts on the night of Saturday January 17 at which date the hospital will have its formal opening and it is hoped that the people of Seminole county will attend the opening and see this magnificent building and the fine equipment that will be added to make it a real hospital.

Remember the date and come in and see the county hospital that will soon be ready for the afflicted and will do so much for you in their days to come.

H. R. Stevens is chairman for the drive for memberships and he will get his committees together at once and make a short and active drive for the membership dollars. The association feels that every man,

woman and child in the county should take out a dollar membership and aside from this there are hundreds who have promised to give a stipulated sum each year to this hospital.

Now that the hospital is almost ready to open these people who are intending to give should get ready and not wait for the committees to see them but see Mr. Lawton, or Mrs. Deane Turner or Schelle Maines or H. R. Stevens anyone of whom will take the money and give you due credit.

And always remember in connection with this hospital that you may be the next victim of disease and need the services of a first class hospital and in giving you are taking out life insurance for your health and your well being.

HOME FOLKS PURCHASED PICO BLOCK

ROY SYMES AND E. A. DOUGLASS BUY FINE BLOCK AND WILL REMODEL IT AT ONCE

E. A. Douglass and Roy Symes have purchased the Pico Block that begins on First street with the store room occupied by the Chase & Co. offices and on around Railroad Way to Commercial Street.

They now have Architect Trimble on the ground and will make extensive improvements in the building that will total between \$15,000 and \$20,000 aside from the purchase price which was said to be a good one.

This is one of the biggest real estate deals than has been made in

Sanford in a long time and means more to the city that would appear at first glance. The new owners intend to remodel all store fronts and those on First Street will be modern in every respect and the floors lowered to the sidewalk level and new and up to date fronts made.

When finished the building will have 11 store rooms and the rooms overhead will be made into 15 apartments containing from two to four rooms each and this will fill a long felt want in Sanford. This building is one of the best in the city and is admirably situated on one of the principal corners. It was erected many years ago by the Plant System and was used for stores and for offices for the railroad company for many years. It has been in the hands of the late George Fox for many years and his son George Fox made the deal whereby the new owners were the purchasers.

The property of late years has been in the possession of Frank Brown of New York who like all non residents has not improved the property any and the advent of the new owners means that the building will be remodelled and made over into one of the most modern buildings for store rooms and apartments in this part of the state.

This demonstrates the healthy growth of the city and the determination of the home people to purchase property and remodel and beautify not only the city property but the city as well.

A Live Real Estate Man

A man in the city was sentenced a few days ago to six months in the chancery. Just as he was leaving the courtroom a large of the sheriff one of the enterprising realty men stepped up to the sentenced man and quietly whispered: "Say I hate to ask you right now—but do you want to rent your house for the season? I think I can 'place it' this afternoon." Which goes merely to show that there are sometimes some live ones in the realty business.—Thorn in West Palm Beach Post.

ANOTHER BUSINESS BLOCK SOLD

MESSRS. DAVISON AND WILLIAMS PURCHASE THE STONE-GOVE BLOCK ON FIRST STREET

Another deal for a business block in Sanford has just been consummated making the fourth in the past three months and as usual the property was non resident property sold to home people who will place it in first class shape. This is the Stone-Gove block at the corner of First street and Palmetto avenue and is one of the handsomest blocks in the city and one of the best in construction. The Stone-Gove block has been owned since its construction in the early days by the heirs who live in Cincinnati and sold by the agent F. L. Woodruff to the Sanford Furniture Co., and Chas. F. Williams the Furniture Co., taking the corner store room and the second floor of the same and Mr. Williams taking the east half of the building consisting of three store rooms on the second floor of the same. The Sanford Furniture Co., will occupy the entire building on the corner using both floors for their growing business and will install an elevator later on and make the second floor a fine show room for furniture ensuite.

Mr. Williams will continue to use his half of the building for stores and the second floor is occupied by Sanford Lodge of Elks with their lodge room and club rooms. Messrs. Williams and Davison are to be congratulated upon their purchase and the fact that home people are gradually buying up all of the non-resident property in the city that has never received the attention of the owner, that has been taking the rent money out of the city and that has not been identified with the interests of the city in any way and coming into home folks hands is a matter of congratulation to Sanford.

It means that home people have the interest of the city at heart, that they recognize the growing city and that they have all the faith and confidence in the city and are willing to purchase this property and spend big sums on its improvement.

Budapest, Jan 3.—The Minister of Finance states that, no matter how much Hungarian territory may be reduced by plebiscites and final boundary decisions, a yearly income from 10,000,000,000 to 12,000,000,000 crowns would be necessary to meet the Hungarian budget.

Miami Couple Unconscious From Imbibing Wood Alcohol
Miami, Jan. 3.—A man and woman, who gave their names as Mrs. Caldwell

of New York, and Leo Solomon of Jacksonville, were found in a fashionable tourist hotel in an unconscious condition from drinking what was thought to be a wood alcohol solution. They were reported at the hospital tonight to have a good chance of recovery.

"U.S." Boots—made in all sizes and styles, red, black and white.

A real Fisherman's Boot

The reasons why the "U.S." boot is becoming popular everywhere

STRONG and tough at every point, made on a good comfortable last—there's a boot like that for you to wear.

When the old boat heels over and her lee rail goes under—if your boots leak then, it's cold, wet feet for the rest of the trip, perhaps long weeks of it.

The U. S. rubber boot is made for fishermen—every pair backed up with extra thicknesses of pure

rubber and good strong duck where the wear is hardest, at just those points where boots are likely to break through first.

Every pair is made with plenty of room at the toes and is shaped so as not to rub up and down at the heel.

Go to the store and see for yourself these U. S. boots for fishermen—any length you want, the Half Hip, the Hip, the Knee Boot. Ask for U. S. Rubber footwear—it means solid wear and long service for your money.
