

LARGE CROWD HEARS SPEECH OF MRS. OWEN

More Than 700 People Pack City Hall To Listen To Stirring Address On Arabia

Makes Plea For True Citizenship

Asks For More Than Hour On Experiences As World War Nurse

More than 700 persons last night heard Mrs. Ruth Bryn Owen, of Miami, deliver the late William Jennings Bryan, talk for over an hour on her experiences in the war and the necessity for adequate army and navy to defend the United States in enemies without and for citizenship and patriotism to protect the outfit from enemies in. Her audience of men, women and children packed the City Auditorium to its capacity and overflowed into standing room of at least 100.

The speech was the high spot of a program in celebration of National Defense Day arranged and under the auspices of the Daughters of the American Revolution. Mrs. Owen was the final speaker on the program which lasted close to two and one-half hours.

The principal part of Mrs. Owen's address was devoted to the war, she said, which had received little attention and which in opinion had hastened victory. She said the German defense crumbled before the armistice.

She linked her sad experiences during the war with a plea for some attention to the problem of ending the war. She told of standing by the side of a stricken 12-year-old boy when the doctor said he had 15 minutes of life remaining. She said the conclusion of her vivid description of the boy's death and burial was that she asked if there was not some way to end such suffering, which is multiplied hundreds of thousands of times in the equality of war.

Sluggers Beat Up Window Cleaners

CHICAGO, Apr. 5.—(INS)—A crowd of labor sluggers invaded Chicago's loop today, beat up four window washers, as office workers looked on helplessly, and were captured by police after a terrific gun battle. The terrorists appeared as the window washers were about to start work. They beat Lloyd Gates and Justin Mesun and two others whose names were not obtained by police. The captured men gave the names of Boris Stevens, Joseph Laurenzano, John Mesarek and Joseph Art...

STRICT ECONOMY TO BE PLACED IN EFFECT BY CITY

Mayor Housholder Instructs Chief Of Police And Manager To Begin Retrenchment Policy In City's Finance

A program of drastic economy in City operation was set in motion at a meeting of the City Commission yesterday afternoon when Mayor E. F. Housholder and Commissioner Frank L. Miller instructed Chief of Police Roy G. Williams to cut a third of the men from the police department payroll immediately and order City Manager George H. Cairnes to take steps to cut expenses in every other City department.

The Commissioners instructed the City Manager to work out a definite program of economy in the street sweeping and garbage disposal department with James Moughton, the department superintendent. Today the City Manager was engaged in working out a plan for cutting down the department payroll.

Ford May Purchase British Raw Rubber At Large Reduction

LONDON, Apr. 5.—(INS)—Henry Ford, who is now on his way to Europe, may enter into negotiations with British and Dutch rubber producers to buy raw rubber at low prices, which are now prevailing as a result of the British Government's decision to remove production restrictions on the British rubber market.

Students Of Georgia University Stage Small Riot Over Politics

ATHENS, Ga., Apr. 5.—(INS)—Rival parades by the Al Smith for President Club and the University of Georgia and students opposed to the New York Governor ended in a riot last night. A volley of eggs prevented the Smith faction from staging a speaking program from an improvised platform.

CYCLONE DOES BIG DAMAGE IN MID-WEST LAND

Tornado Accompanied By Torrential Rainfall Results In Several Deaths And Injuries To Scores Of People

One Small Town Is Entirely Wiped Out

Violent Storms Occur In Arkansas, Missouri, Oklahoma And Texas Bringing Damage

FAYETTVILLE, Ark., Apr. 5.—(INS)—A cyclone which tore through this section last night left one known dead, more than a dozen injured and two score homes demolished. Torrential rainfall has inundated much farm land today.

Lincoln, Ark., a small town 25 miles from Fayetteville, was almost wiped off the map. Bob Spears, 12, was instantly killed at Lincoln when his home was demolished. His parents were injured.

A special car carrying doctors and nurses to Lincoln left on a late train last night. Wires were down and a complete check up of the loss of property in that neighborhood was impossible today.

Several homes and business buildings at Lincoln were blown down. Berryville, another neighboring town, was without lights all night as a result of the storm. Several homes were demolished at Monte Ne, another nearby town.

County Court Sets Record In Speeding Spring Term Cases

With six trials completed, one conviction by a jury and with five defendants pleading guilty, the spring term of County Court drew to a close this morning after one of the speediest sessions on record in this county. Only three and one-half days of court were required to clear the criminal docket.

Lions Club Chooses Players For Tourney

A golf team composed of Lloyd Boyle, Hawkins Connelly, Frank Markwood and Max Stewart to Mar. 21, the morning after the body was found in Concord, he thoroughly washed and renovated his car with water and chloride of lime. "The suspect will be formally charged with murder."

Supporters Of Hathaway Make Arrangements For His Meeting Tomorrow

Arrangements were going forward rapidly today for the meeting tomorrow night at the City Hall Auditorium at which Dr. Foss A. Hathaway, chairman of the state road department, will ask the people of Seminole County for their support in his race for governor in the approaching primary elections.

Friends of the road department chairman announced this morning that Mayor E. F. Housholder will introduce the candidate and that R. J. Holly will preside at the meeting. Other prominent citizens are expected to occupy the stage with the speaker.

Dr. Hathaway is scheduled to arrive in Sanford tomorrow morning. He will spend the day consulting with friends and political leaders here on the local aspects of his campaign. He will come up from Orlando, where he is scheduled to speak tonight.

OFFICIALS HOLD UNVEILING OF LEE PROSPEROUS MAN FOR GIRL'S DEATH

Statue Focuses Wide Attention

Well Known Business Man Of
Massachusetts Is Seized
In Connection With Death
Of Young School Teacher

CAMBRIDGE, Mass., Apr. 5.—(INS)—Frederick Hinman Knowlton, Jr., prosperous young business man of Framingham, was held today in connection with the death of Isabelle Stewart, Beverly teacher-superintendent, whose bruised body was found beside the Cambridge Turnpike in Concord last Friday night.

Knowlton, who has a wife and five year old son, admitted he had been friendly with the girl, had been on an automobile ride with her the night she died and washed and renovated his radiator with water and chloride of lime the next day.

Knowlton is 34 years old and operates an electric and automobile battery establishment in Framingham. For twelve hours under questioning Knowlton denied the murder. Slightly off balance and weeping, the Framingham business man remained smiling and cool under the fire of questions.

Knowlton is a popular young man. His father is a selectman, a Republican leader, secretary of the Framingham Board of Trade and head of the Knowlton family for many years were prominent in Worcester.

Mrs. Knowlton told newspapermen today that she can give a complete alibi as to the movements of her husband on the day of and the day following Miss Stewart's death. She said he was home.

After the preliminary grilling of young Knowlton District Attorney Robert T. Bushnell, of Middlesex County, issued the following statement: "Frederick Hinman Knowlton, Jr., of Framingham, is held as a suspect in connection with the murder of Marguerite Stewart."

"At the outset the suspect denied any intimate acquaintance with Miss Stewart. After questioning, he has admitted acquaintance with Miss Stewart and claims he left her in Beverly, Thursday, Mar. 29, at 10:30 o'clock P. M. The dead girl was seen in Beverly on that date at 7 o'clock P. M."

"The suspect further admits that for some time past he had been meeting Miss Stewart regularly. And that on Saturday morning, Mar. 21, the morning after the body was found in Concord, he thoroughly washed and renovated his car with water and chloride of lime. "The suspect will be formally charged with murder."

The First National Bank and the Sanford Atlantic National Bank will both be closed tomorrow, Good Friday, which is a legal holiday; officers of both institutions announced today.

FLYERS ARE READY
DUBLIN, Apr. 5.—(INS)—With the Bremen in perfect shape for an immediate takeoff, the German fliers today hoped to be able to attempt their trans-Atlantic flight within a few days.

H. F. SINCLAIR HAS LOST HUGE SUM IN TRIALS

In Five Years Famed Oil Head Has Dropped Fortune Estimated At About Fifty Millions In His Own Defense

Considers He Has Been Persecuted

Lessee Of Teapot Dome Has Employed Most Expensive Attorneys To Defend Him

WASHINGTON, Apr. 5.—(INS)—What price prosecution? A much hampered inquiry today developed that Harry F. Sinclair's part in the oil scandals of the Harding Administration has cost him some exceedingly important money during the past five years.

Since the winter of 1923, when the Senate first thrust an inquisitive nose into the ways and means by which he acquired a lease on the Teapot Dome naval oil reserve, up to the present moment when he is about to stand trial for criminal conspiracy against the government in connection therewith, Sinclair has been divorced from a steady stream of money that would make a number of readers independently wealthy for life.

The oil man is convinced he is being "persecuted." He thinks that federal agents have been constantly on his trail, watching his every movement since 1923. Well he might if his friends are to be believed. They estimate that five years ago his fortune was in excess of a hundred million dollars—some placed it as high as \$120,000,000.

Today, the estimate ranges from a minimum of \$75,000,000 to a maximum of \$50,000,000. The balance, it is claimed, has gone in an effort to beat the charge that he bribed former Secretary of Interior Albert B. Fall to give him a fraudulent lease on Teapot Dome, and in business reverses incident thereto.

Figures of this nature are almost impossible of verification, but it is known that Sinclair lost quite a few millions alone when the Supreme Court voided his lease on the oil reserve, not only taking from him the handsome profits, but also a thousand-mile pipeline from Wyoming to the Pacific Coast and all of the storage tanks at the delivery end. Everyone concerned is reluctant to discuss dollars and cents in connection with Sinclair's financial outlook as a result of his relations, but enough was gleaned to indicate tremendous expenditures.

During the constant court litigations arising from the oil scandal the oil man has been represented by such men as Martin W. Littleton, of New York, who made his mark in the Thaw-White murder case; George Hoover, of Washington; Daniel Thew Wright, who, as justice of the D. C. Supreme Court, presided over the famous Stove case that nearly resulted in the jailing of the late Sam Guinners and other American Federation of Labor leaders; Reginald Ragland and T. Stanford, experts on oil and land leases, and half a dozen others. All of these are reputed to have received small fortunes in fees from their client.

Members Of Kiwanis Hear Mrs. Owen Talk

Party-seven members of the Kiwanis Club and their guests yesterday noon heard Mrs. Ruth Bryn Owen deliver an address on Florida at their weekly club-luncheon at the Forrest Lake Hotel. A dozen guests took the opportunity to hear Mrs. Owen talk.

Among them were: Mr. and Mrs. R. B. Brossier, Miss Mattie Nelson, Clyde J. Cavenough, J. M. Robertson and Pinky Godfrey of Orlando; Mark Britt of Winter Garden and Mrs. John Leonard, of Sanford. Three members of the Seminole County Board of Public Instruction, M. E. Dudley, Fred T. Williams and J. J. Hartley, also attended.

Important Meeting Of Baseball Fans To Be Held Tonight

The baseball fans meeting announced yesterday by F. A. Palmer, president of the Sanford Baseball Club will be held at the Seminole County Court House instead of the City Hall, Mr. Palmer said today. The meeting is scheduled to be held at 8 o'clock.

Mr. Palmer said the lacker of the club for this year left Sanford last night after all arrangements had been completed. The club president said he would announce details of the arrangement at the meeting tonight and let the fans decide whether or not it was satisfactory.

"And if it is," Mr. Palmer said, "the ball players who will fight for Sanford this year will begin to arrive here Sunday or Monday. All that's necessary is to have a peppy meeting tonight to start them coming in."

Chauncey Depew Aged Railway Head Dies Of Pneumonia

SENATOR TO ASK FEDERAL QUIZ OF P. O. PATRONAGE

Thorough Investigation Into Republican Graft In Post- Office Of South To Be Demanded By Georgia Solon

WASHINGTON, Apr. 5.—(INS)—A widespread Senatorial investigation into the Republican patronage system in Southern States will be demanded by Senators George and Harris of Georgia, and supported by other Southern Senators, if the postoffice and Department of Justice do not satisfactorily explain the suicide of L. S. Peterson, postmaster at Douglas, Ga.

"I am waiting for the Post Office Department and the Department of Justice to act," said Senator George today. "If they don't a resolution for a Senate investigation certainly will be introduced."

Peterson committed suicide, leaving a note in which he ascribed his act as due to desperation and impoverishment caused by the Republican patronage dispensers. He said he had been forced to contribute substantial sums to Ben Davis, negro National Committeeman from Georgia, in order to hold his job.

Postmaster General New, who has ordered an investigation, reiterated denial today that postmasters were forced to contribute to Republican politicians. Peterson only contributed \$50 to the Republican campaign fund last year, New said the record disclosed. New said he believed Peterson committed suicide because of worry over a shortage in his accounts.

"It is ridiculous," said New, "to say that money is extorted from postmasters. Postmasters do contribute to Republican campaign funds, just as they do to Democratic funds. So do members of Congress contribute."

New said there would be "full publicity" concerning the results of the postoffice investigation into Peterson's suicide.

Strong Tides Whip Beach In Condition For Racing Trials

DAYTONA BEACH, Fla., Apr. 5.—With strong tides whipping the Daytona Beach ocean speedway into speed assuring condition, Ray Keech, driver of J. M. Whites 1, 500 horsepower Triplex car plans to go after the record of 207 miles an hour established by Captain Malcolm Campbell in England during the Feb. 21 England trials. Keech was driving the monster Triplex at an estimated speed of 53 miles an hour when he was scalded and forced to withdraw in Feb.

The belief is general that he will return the record to the United States by a wide margin. Frank Lockhart, American champion, who was injured in the most spectacular accident of automobile racing history in Feb. is expected to return for another try at the record about Apr. 15.

Announcement is made by the city officials and Chamber of Commerce of Daytona Beach that no charge whatever will be made to witness the spectacular speed trials, efforts to finance the trials of Feb. by making a charge of \$150 for the season, or 20 cents a day having proven embarrassing because beach tide and wind conditions made it impossible for the American and English speed kings to make their runs at any stated time.

Children Of Madman Who Killed Them In Fit Of Rage Are Buried

DURHAM, N.C., Apr. 5.—(INS)—Raving incoherently, Ray Robertson, 39, saw mill employe, today lurched against his padded cell while his three little children the oldest scarcely 10 years old, were laid to rest in a single grave at Robertson's grove near here.

The bodies of the three children—Cecil, 12, Lois, 9, and Joseph, 4—were hacked to death while they slept early yesterday morning by an axe wielded in the hands of the father, a man of strikingly powerful physique. Lifting the bodies in his arms, Robertson then took them to the barnyard and mutilated them almost beyond recognition.

Mrs. Robertson, who escaped the insane fury of her husband by fleeing in the darkness and hiding in the woods all night, was a state of collapse today. Robertson, in his cell, muttered meaninglessly, occasionally crying "I talked with Jesus."

County officers had no decision what disposition would be made of the case. It was stated that an appeal order is issued by a superior court judge admitting Robertson to the state asylum. He will be given a sanity hearing in superior court later this week or April 18.

Chairman Of Board Directors Of New York Central Was Leader In Politics

Was 93 Years Old When End Arrived

Famous After Dinner Speaker Had Lately Returned From Fla

NEW YORK, April 5.—(INS)—Chauncey Mitchell Depew, chairman of the board of directors of the New York Central Railroad, former United States Senator and long prominent figure in the Republican Party, died of bronchial pneumonia at his home here at 4:30 o'clock this morning. He was 93 years old.

Mr. Depew fell into a deep sleep at seven o'clock last evening and died without regaining consciousness, according to a statement issued by his physicians. Members of his family were summoned into the sick room at three o'clock and remained at the bedside until the end.

Although bronchial pneumonia was considered a serious illness for a man of Mr. Depew's age, physicians in attendance were confident almost until the end that he would recover, and the suddenness of his death came as something of a shock. He partook of some high nourishment yesterday and last night his temperature dropped from 104 to 102, according to a bulletin issued by his physicians.

Mr. Depew suffered a slight chill upon his return from St. Petersburg, Fla., last week, and was confined to his home with a cold. Late yesterday his physicians announced that his condition had taken a turn for the worse, but stated that his general condition was not alarming.

Despite the reassurances of his doctors, Mr. Depew's entire family was called to the home. T. J. Depew, a son, Chauncey M. Depew, Jr., a niece, Miss Anne Depew, a daughter, and a nephew, Chauncey Depew Steele.

Formal announcement of Mr. Depew's death was made by his physicians, Dr. Samuel W. Lambert and Dr. H. Lyman Hook at the Depew home, 27 West 84th Street. Only yesterday a member of the family had announced that their father was suffering from something worse than a cold and that there was no cause for alarm.

Mr. Depew was still active this year as the head of the New York Central's board of directors. He had planned to attend the Republican National Convention in Kansas City on June 12. The Cleveland Convention of 1924 was the first he had missed since 1898.

Mr. Depew had made plans for an informal birthday celebration on April 23. On that date he would have been ninety-four years old. Upon each of his birthdays in recent years, Mr. Depew had received newspaper reporters at his office for interviews. Upon the occasions he would reveal his philosophy on politics, business, and the "younger generation" and ever subject upon which the reporter questioned him.

These interviews were liberal and full of Mr. Depew's humor. He was one of the most entertaining after-dinner speakers in the country, and demands for his presence as toastmaster at banquets were incessant. Gifted as an orator, Depew became a prominent public figure in life.

Before he was thirty he was a member of the New York Stock Exchange. (Continued on page 8)

YALE SWIMMERS LOOSE 2 EVENTS OF 143 CONTESTS

Great Aggregation Has Lost Once To Princeton And To Navy; Holds Practically Every Record In Swimming

NEW HAVEN, Conn., Apr. 4.—(INS)—When the Yale Varsity swimming team finished its regular home season, early in March, setting the swimmers from the Naval Academy back in both swimming and water polo, a few more records were added to a list already amazingly long.

In the eleven years starting in 1917 Yale swimming teams has completed in 143 meets with other colleges, and lost only two to Princeton once and to Navy once. When the Yale home swimming season closed, Coach Robert J. Kipputh, whose name has become a thing to conjure with among swimmers, had ended eleven years of service as head swimming coach at Yale, and was set, to start his twelfth season. It was under the direction of Kipputh that Yale swimmers had captured 141 out of 143 meets with other educational institutions.

CREDIT TO KIPPUTH
"Bob" Kipputh, as all the men who have trained under him, call the stocky swimming coach, came to Yale in 1914 as a gymnasium assistant and went into the work of teaching swimming as a matter of routine. Three years later he became head coach of swimming. He had come to Yale via early training at Stony Brook, N. Y., and Harvard. Records began to fall almost as soon as he settled into his work here, and finally in 1920, four Yale men, coached by Kipputh established the first World Record to be made in swimming by the University here.

Starting with that first world record in 1920, Yale swimmers have put up fifty-seven world records. Beside that they have set ninety-four intercollegiate records.

When "Bob" Kipputh first took charge of Yale swimming, the squad numbered an average of forty men. As time went on and Yale became an outstanding school for swimming the squads increased until this year no fewer than 250 men were out. In all Kipputh's career here 750 men have earned their laurels as Varsity swimmers, and have retained at Yale a series of championships of great length.

SWIMMING POPULAR
As an indication of the popularity of water sports in the University here, stands the record of awards granted Yale men for the work in competition. The roster at the close of the 1928 season had 610 names. The present year saw one hundred names added.

Yale swimming teams compete about the Intercollegiate league circuit regularly and visit pools of schools not in the league. Back in 1921 a Kipputh team went west for a trip. They swam in sixteen meets and won fourteen of them. Chicago Athletic club, home of famous swimmers, saw Yale de-

CANDIDATE FOR RE-ELECTION

A. Vaughan, candidate for re-election to the office of county Tax assessor, is asking the People of Seminole County to return him for his fifth term. He was first elected in June, 1911 and has served one two year and three four year terms.

Training Camp Briefs

NASHVILLE, Tenn., Apr. 4.—(INS)—The New York Yankees are still losing ball games, but Babe Ruth has hit his first home run of the season so everything is "jake" with the Yankees tonight. Despite the Baseball League's due credit, the Yankees' chances are lost to the Chattanooga Lookouts in the twelfth yesterday, 3 to 2. Today the Yankees play individually.

GREENVILLE, S. C., Apr. 4.—(INS)—Evan, 24, and Tommie, 25, are available in the team that the 1928 champion of the New York State 100 yard race, McGraw, played last night in a 44 points. They swam the 100 yard race at Atlanta, by a vote of 5 to 1, in the Chicago pool last year, and they swam in the 100 yard race at New York in 1928, but Yale team of 1929.

ATLANTA, Ga., Apr. 4.—(INS)—The Brooklyn Robins beat a two game series with Atlanta today. Visiting their farm at Marietta, Ga., yesterday, the Robins traveled home to a road victory.

MEMPHIS, Tenn., Apr. 4.—(INS)—A new record of 100 and 100 yards was set by Walter Johnson, Tex. team, out of 200 yards, in the 100 yard race at the University of Tennessee.

KAN. ASSOCIATION
The Kansas Association of Professional Football players has elected the following officers: President, J. H. ... Vice President, ... Secretary, ... Treasurer, ...

TO PROMOTE FIGHT

NEW YORK, Apr. 4.—(INS)—Humbert Fugazy, Brooklyn promoter says that he and Jim Mullen, of Chicago, hope to develop a second challenge for Gene Tunney this year and put on a title bout next Sept. in Brooklyn or Chicago. "Mullen has shown me enough correspondence between himself and Tunney to convince me that he and the champion are very friendly," Fugazy said, "and I have reason to believe that Gene will fight for us."

McTIGUE SIGNS

NEW YORK, Apr. 4.—(INS)—Mike McTigue, former light-heavyweight champion, has been signed to box Armand Emanuel, crack Pacific Coast light heavyweight and protégé of Jack Dempsey, in San Francisco on April 29.

Fight May Be Staged Within Polo Grounds

NEW YORK, Apr. 4.—(INS)—On the heels of Gene Tunney's message to the New York State Athletic Commission, officially notifying that body that he would defend his heavyweight title against Tom Heene, under the promotion of Tex Rickard, came a report today that the bout may be held at the Polo Grounds here on July 17. Financial differences concerning Rickard's lease on the Yankee Stadium have caused a severance of diplomatic relations between the promoter and Colonel Jacob Ruppert, owner of the stadium, according to the report. Rickard's recent action in booking the world's light-weight title fight between Sammy Mandel and Jimmy McLarin for the Polo Grounds on May 17 was taken as an indication that the promoter intended to stage all of his outdoor bouts at the home of the Giants in the future.

Forest Fires Rage In National Park Of Arkansas Reserves

HOT SPRINGS, Ark., April 4.—(INS)—Scores of scattered farmhouses were in danger today as forest fires continued to sweep through Arkansas' two national forest reserves. Warrants for the arrest of five persons in connection with the fires have been issued at Waldron, Ark. Two army airplanes are flying low over the burning forest to detect incendiaries.

A child was burned to death near Waldron last night when forest fires destroyed her home, located on the edge of the great woods. More than 600 men today were fighting the fires in Ouachita and Ozark Reserves but were unable to check the raging flames which were burning in widely separated parts of the forest.

Unscrupulous hunters are blamed for many of the fires. It is believed they set fire to the woods to drive game to easy kills. Fire-fighters today had abandoned trench fighting due to the rocky surface of the mountains while hand fighting was the only method being used. Several new outbreaks were reported today. Officials of the National Forest Reserve here today said the fires result in the closing of the forest to hunters, tourists and campers and to all who did not have official business there.

TO INVADE ENGLAND

NEW YORK, Apr. 4.—(INS)—Maxie Rosenbloom, New York middleweight, will try his luck in the English prize ring this summer. He has been matched with Tommy Milligan, former English middleweight champion for a bout in London on June 4.

Citizens Of Orlando Speak At Local Meet

Judge J. J. Dickinson and Frank Grant, of Orlando, were among the speakers at the district meeting of Odd Fellows which was held here Monday night following a banquet attended by delegations from Orlando, Leesburg, Kissimmee and St. Cloud. The banquet was arranged by members of the local Rebekah Lodge. Other speakers were B. D. Harris and F. Wilson Kaler, of Leesburg; Fred B. Kenney, of St. Cloud, and H. J. Lehman and A. J. Lossing, of Sanford. District Deputy Grand Master James O. Huff presided.

CAL NOT INFORMED

WASHINGTON, Apr. 3.—(INS)—President Coolidge has received no information that Col. Charles A. Lindbergh contemplates another trans-oceanic flight this summer, the White House said today.

Commander Byrd Defends Daring Airplane Flights In Book Called "Skyward"

NEW YORK, April 5.—(INS)—"Sensational flights" are defended by Commander Richard E. Byrd who is now engaged in planning an expedition to the South Pole next fall in a tri-motored monoplane. In his first book, called "Skyward," which has just come off the press, Byrd refers to spectacular flights as "the lullies in the story of the progress of aviation."

"Such flights accelerate progress," he writes, "for when the flight is decided upon necessarily produces inventions and developments which, in the ordinary course of events, would tend to be slow and uncertain."

Byrd makes it plain in his book that he believes that aviation is only in its infancy. He foresees by 1936 a passenger plane with four or five engines housed in the wings—out of air resistance.

HIGH EXPLORATION
high altitude exploration may soon be combined with high speed flying.

He is of the opinion that 500 miles an hour is in sight. He believes the 100-hour reliable engine is at hand.

Byrd justifies spectacular flights as necessary to the progress of aviation and of civilization itself and says that the accidents that occur in such ventures should not be held against the development of commercial aviation.

"Commercial aviation, as I have tried to point out, can today be made safe as a railroad train," Byrd writes. "The pioneer risks his life to bring the unknown into the column of the known. I have always believed that no matter how hazardous an endeavor may be, it is justifiable if the end sought is human knowledge and augmented progress."

Byrd described all of his flying experiences, including his Greenland trips, his flight with Floyd Bennett to the North Pole and his trans-Atlantic hop with Bert Acosta, Leut. G. O. Noville and Berni Balchen. He reveals for the first time that nearly ten years ago he began agitating for a trans-Atlantic flight and that at that time he first suggested the flight be made with navy equipment. He says it was largely through efforts made by Walter Camp, with whom he first discussed the project, that high navy officials began consideration of the plan which culminated in the flight of the NC-4.

His Own Plans
In telling of his plans to fly over the South Pole, Byrd cites the difficulties, financial and otherwise, faced in the endeavor of his character.

"Of the toil and the anxiety that now go into the organization of a big expedition the public hears but little," he writes. "Of the anguish the leader must suffer in this preparatory phase none can know who has not been through it."

"It cost Columbus \$2,115 to discover America. It cost the world \$200,000,000 and hundreds of lives to discover the North Pole. I don't intend to argue that either was worth more or less than it cost, but the overhead of Polar work hasn't gone down since the date of Perry's discovery."

"My North Pole expedition in 1926 was made just about as cheaply as possible. We spent hours and hours trying to get things done economically. Yet it cost in cold cash about \$140,000. Nor does this take in a very large sum represented by men and material which were given at cost or donated."

"Our trip to the South Pole will cost about \$150,000. As we have to be ready to winter on the Antarctic ice barrier and cover about 21,000 miles in the round trip from New York the cost rises much beyond that of a North Pole trip."

Byrd described all of his flying experiences, including his Greenland trips, his flight with Floyd Bennett to the North Pole and his trans-Atlantic hop with Bert Acosta, Leut. G. O. Noville and Berni Balchen. He reveals for the first time that nearly ten years ago he began agitating for a trans-Atlantic flight and that at that time he first suggested the flight be made with navy equipment. He says it was largely through efforts made by Walter Camp, with whom he first discussed the project, that high navy officials began consideration of the plan which culminated in the flight of the NC-4.

Byrd makes it plain in his book that he believes that aviation is only in its infancy. He foresees by 1936 a passenger plane with four or five engines housed in the wings—out of air resistance.

Byrd described all of his flying experiences, including his Greenland trips, his flight with Floyd Bennett to the North Pole and his trans-Atlantic hop with Bert Acosta, Leut. G. O. Noville and Berni Balchen. He reveals for the first time that nearly ten years ago he began agitating for a trans-Atlantic flight and that at that time he first suggested the flight be made with navy equipment. He says it was largely through efforts made by Walter Camp, with whom he first discussed the project, that high navy officials began consideration of the plan which culminated in the flight of the NC-4.

Byrd makes it plain in his book that he believes that aviation is only in its infancy. He foresees by 1936 a passenger plane with four or five engines housed in the wings—out of air resistance.

HIGH EXPLORATION
high altitude exploration may soon be combined with high speed flying.

He is of the opinion that 500 miles an hour is in sight. He believes the 100-hour reliable engine is at hand.

Byrd justifies spectacular flights as necessary to the progress of aviation and of civilization itself and says that the accidents that occur in such ventures should not be held against the development of commercial aviation.

"Commercial aviation, as I have tried to point out, can today be made safe as a railroad train," Byrd writes. "The pioneer risks his life to bring the unknown into the column of the known. I have always believed that no matter how hazardous an endeavor may be, it is justifiable if the end sought is human knowledge and augmented progress."

NEW KATE ADAMS FOR MISSISSIPPI PACKET SERVICE
England Will Take Prompt Action To Prevent Disaster

By Charles A. Smith
International News Service Staff Correspondent

LONDON, Apr. 5.—(INS)—Prompt steps are to be taken to prevent a repetition of the disastrous floods of January last, when the Thames River burst its banks in the center of the city and fourteen lives were lost.

Following repeated conferences between the various authorities responsible for the confining of the river within its banks, it has been decided to invest a central authority with full powers for the execution of such steps as will safeguard London's 7,000,000 population from further floods.

Plan Warnings
Measures agreed upon include the issuance of suitable warning at times of exceptional high water; the posting of watchers at the river mouth, and the holding of a conference which recognized authorities on the best means for confining the river within its banks.

Sections of the embankment which were burst in during the January high tides already are being repaired and strengthened, but it is proposed—as money becomes available—to strengthen and possibly increase the height of the embankment throughout its entire length, a project which will cost millions of dollars before it can be completed.

Ancient Walls
According to the report of the investigating committee, some parts of the embankment wall were floated to Peter's landing and sunk.

Captain Grieved
Capt. Adams, grieved over the loss of the river's pride, built a second Kate Adams, more magnificent than the first. She resumed the trade of her first name since but likewise passed.

The third Kate Adams came along in 1888, starting her maiden trip on Thanksgiving Day.

For years the third of a generation of Kate Adams steamers was still the river's finest. Meantime railroads began to span the nation, telegraph and telephones were invented and the river was a hodge of the U. S. mail and most of its freight.

In 1927 the Universal Pictures Corporation, Inc., chartered the famous steamer in making their own version of "Uncle Tom's Cabin." Several months later, Kate Adams was "made" in pictures.

In January 1928 the third Kate Adams fell victim to the fire demon. She burned to the water's edge at the Memphis wharf.

On Christmas Eve, 1887, near Commerce, Miss., the original Kate Adams, pride of her day, was burned. Several persons perished. The fire demon took from the river one of her most historic boats and there was sorrow all along the Mississippi. The hull of the Kate

Adams was found in the river in 1928, starting her maiden trip on Thanksgiving Day.

Unloading Buicks in Japan

This photograph from the other side of the world shows American men changing being lighter shoes at Osaka, Japan. The commodity in question—Buick motor cars—has long enjoyed favor in the Orient, as well as in other foreign countries.

NEW KATE ADAMS FOR MISSISSIPPI PACKET SERVICE

Fourth Ship By That Name To Be Built According To Head Of The Adams Line Contract Has Been Let For Building

MEMPHIS, Tenn. Apr. 5. (INS)—The memory of Kate Adams, cherished along the Mississippi River from half a century, will live again in iron and steel when the historic old steamer is rebuilt and put back into active Packet service.

Announcement that the fourth Kate Adams would be built—was made here by Capt. Hamilton Duker, vice president and general manager of the Adams line steamers, who said the contract had already been let for \$200,000 to Howard's Ship Yards at Jeffersonville, Ind., and that the work would be completed within three months.

Romantic old days on the Mississippi are recalled with the rebuilding of the Kate Adams, named after the wife of Capt. James Adams, Little Rock, A. S., who founded the famous Adams line steamers more than half a century ago.

Honor For Wife
Typical to all river captains whose river romances ended happily, Capt. Adams wanted to bestow upon his beloved wife the highest honor known to rivermen of his day—build a beautiful steamer to bear her name.

He did and the maiden trip of the beautiful steamer, gliding in the sunshine with her huge smokestacks belching forth great clouds of black smoke, was the gala event of the year. Thousands of persons gathered along the river banks from St. Louis to New Orleans to see her pass.

In the days that passed the whistle of the Kate Adams won for her a reputation second to none along the river plantations. River packet service in those days serving for both transportation and communication was vitally important.

Plantation negroes along the river set their clocks by the Kate Adams. There were two big events each week with them—the passing of the Kate Adams and the Sabbath.

But ill fate has followed the Kate Adams since the day she was first built.

On Christmas Eve, 1887, near Commerce, Miss., the original Kate Adams, pride of her day, was burned. Several persons perished. The fire demon took from the river one of her most historic boats and there was sorrow all along the Mississippi. The hull of the Kate

Adams was found in the river in 1928, starting her maiden trip on Thanksgiving Day.

For years the third of a generation of Kate Adams steamers was still the river's finest. Meantime railroads began to span the nation, telegraph and telephones were invented and the river was a hodge of the U. S. mail and most of its freight.

Women Drivers Learning More About Workings Of Cars, Says Auto Expert

"Reports from some time have been indicating for some time that a noticeably large proportion of all new drivers are going to female drivers," said J. W. Frazer, Chrysler Sales Manager, in a recent statement, a copy of which has been received by The Parkside Motor Co.

"They are bought either directly by women for their own use or as presents from male members of the family, in line with the growing custom of having a second car in the garage for the women folk. This second car habit, I believe, accounts to a very large extent for the popularity of our '62' and '62' models are enjoying, the roadsters, coupes and convertibles in these models being especially popular with women drivers."

"Automobile dealers used to say that women were moved by style in their preference for cars. This is still true. The bright colors of this year's Chryslers have undoubtedly played a large part in feminine selection, as have also their sleek lines, high grade upholstery and attractive interior fittings."

"But it is becoming more and more evident that women are aware nowadays by the same influences that decides men's choice of cars. They are getting to be more motorwise all the time. They still want snap and style, probably just as much as ever before, but they are more apt to lift the hood now before they buy—and they quite frequently know just what they are getting under it, too. They are as well posted as many men on mechanical details, we find. They insist on power, speed and handling ease as motor car requirements."

"Most women used to hesitate before braving the risks of driving in congested streets but they are finding the infrequent necessity for shifting gears and the speedy pick-up available in Chrysler cars remove much of the danger of traffic driving."

Florida Elks Will Gather At Orlando During Next Week

Next Tuesday and Wednesday, April 10 and 11, will be grand days for Florida Elksdom as well as for the State of Florida because those two days will see a gathering of almost a thousand Elks in Orlando to complete the final details for the National Convention to be held in Miami next July.

Reservations have been coming in rapidly, upon which the above estimate of attendance has been placed.

The Orlando Lodge of Elks has made elaborate preparations to entertain the Ladies as well as the men who will attend and the two days in the City Beautiful will be filled with activity for those who are not official delegates.

The fact of Florida being honored with the National Convention is of supreme importance to the entire State for the seventy-five thousand visitors that are expected will without question tour many sections of this glorious country, taking back north, east and west, an impression that will be lasting as to stability and opportunities Florida has to offer.

The State Convention is to be signally honored in the attendance of at least five of the Grand Lodge Officers, a condition somewhat unusual at a State Convention and Florida has been honored additionally this past year in the fact that one of its sons in the person of David Sholtz of Daytona now is a Grand Lodge Officer in which capacity he shares the direction of the destiny of National Elksdom which has a membership of a million Americans.

Every Elk who possibly can arrange it should endeavor to come to Orlando next week.

Letters in support of the plan from Governor Norman S. Cas Senator Jesse H. Metcalf and Mayor James E. Dunne were read at the meeting voted approval and a resolution favoring a speedy legislative provision for Rhode Island airport was adopted.
