

Sanford Will Be Without Baseball As Loop Collapses

(Continued From Page One)
 Yesterday's meeting, presided over by League Secretary Peter Schaal in the absence of President Francis Whitehair, was attended by representatives of clubs at Cocoa, Sanford, DeLand and Daytona Beach.

Arthur Newitt, R. C. Dassenberry, Bill Parrish and Mr. Hanson appeared later to represent a group of Leesburg fans who expressed themselves as ready to re-join the league, but they came after it was virtually certain that it will be impossible to line up a sixth club.

Secretary Schaal opened the meeting by reading letters from Orlando and New Smyrna fans, declaring that they are unable to place teams in the league because of a lack of interest.

He also reported that, in following up a rumor that major league clubs are considering establishing a league in Florida this year, he had learned in conversation with S.

E. Gillison, vice-president of the Shrookley club, that there is a possibility that major league's farms might be considering such a plan. Driscoll flatly announced after these reports, that "Daytona Beach is not interested in a four club league because it won't succeed."

"You can't get by playing only two games a week," and "We're going to try to get into the Northeast Florida League and if we do, we'll win the pennant."

Bill Page, representing DeLand, was non-committal, although he declared that "DeLand must be in the same league with Daytona if we are to expect fans to attend our games."

Mr. Page expressed surprise that Sanford fans have done nothing at all in the matter of organizing or raising funds. "Why," he said, "our fans in DeLand have been hot as a firecracker for a month and we've raised \$1100 already."

The meeting was declared adjourned until a later date, with the League Secretary instructed to make another effort to line up an Orlando team in event DeLand and Daytona Beach would be denied admission to the Northeast Florida League.

Mr. Page declared at the end of the meeting that "DeLand fans have enough of the Northeast League and want their team in the Central Florida League. However," he said, "Daytona seems to

want the other league, and we're going to let them do the talking."

Attending the meeting were: Mr. Page, representing DeLand; Mr. Driscoll representing Daytona; W. E. Varn representing Sanford; S. DeWitt representing Cocoa; Arthur Newitt representing Leesburg; and John Bird, Jr., Bill Beadley of Cocoa; Arthur Heath and Gene Fisher of DeLand; Bill Parrish and Mr. Hanson of Leesburg; A. M. Lee, George McRory, J. C. Mitchell, Peter Schaal, E. C. Golson and A. C. Williams.

BYRD BLOCKS VOTE ON WORK RELIEF BILL

(Continued From Page One)
 The impending of funds because of reports that the Administration was using this device to bring pressure to bear on senators who voted for the Roosevelt-opposed prevailing wage amendment, Byrd said "I'm making no charges. All I want is to get information that I've been unable to get from the Treasury otherwise. We have been denied information about the future appropriation of the \$4,000,000,000 and we certainly ought to have something on that already made."

This development came shortly after President Roosevelt conferred with Harry Hopkins, relief administrator, on the relief situation.

Pending passage of the work-relief bill, now deadlocked in the Senate, funds for curative relief allotments have been procured by the relief Administration from the PWA.

Hopkins was called back to the capital by airplane from Chicago for a Presidential conference.

land of Crete, which succumbed to the revolutionists.

Former Premier Eleutherios Venizelos openly joined the forces of sedition in Crete, where he lives, becoming the spearhead of an anti-government movement which appeared to be becoming more serious hourly.

Athens was quiet, although under martial law and in a state of siege. Following strict censorship, the government suspended some sections of the constitution. These were not specified.

Wight Bros. Take On Agency For 1935 Oldsmobiles

The new improved 1935 Oldsmobile, product of General Motors, will be handled in Sanford this season by Wight Bros. Co., it was announced today by Ralph Wight, head of the firm.

Mr. Wight's attention was called to the new Oldsmobile, he stated today, by the many favorable comments which he had heard from both salesmen of other cars and the public in general.

"Before deciding to sell this car to our line," Mr. Wight stated, "every salesman subjected it to every known road test. These rigid tests satisfied my salesman and myself that the new 1935 Oldsmobile has everything, and we offer it to our friends and customers on that basis."

Three of the 1935 Oldsmobiles are now on the floors of the Wight showrooms on Sanford Avenue at 10th Street and the public is invited to inspect each. Salesmen will call with a car at the home on any person interested.

Fourteen body types are being offered in the 1935 Oldsmobile line, seven in the six and seven in the straight eights. Features retained include knee-action wheels, super hydraulic brakes, ride stabilizer, center control steering and all silent synchromesh gear shifting.

Senate Group Rejects Wage Change In Bill

WASHINGTON, Mar. 5.—(AP)—A group of senators today rejected the bill which would change the prevailing wage scale for federal employees.

The bill, which would increase the wages of federal employees, was introduced by Senator Charles McNary of Oregon. It provides for a 10 percent increase in the wages of federal employees, with the exception of those in the executive branch.

The bill also provides for a 5 percent increase in the wages of federal employees in the legislative branch. The bill was passed by the House of Representatives last month, but it was rejected by the Senate today.

The bill was introduced in the Senate on March 4. It was reported by the Senate Committee on Labor and Unemployment on March 5. The committee recommended that the bill be passed, but the Senate rejected it by a vote of 54 to 46.

The bill was passed by the House of Representatives on February 28. It was reported by the House Committee on Labor and Unemployment on March 1. The committee recommended that the bill be passed, but the House rejected it by a vote of 285 to 155.

The bill was passed by the House of Representatives on March 5. It was reported by the House Committee on Labor and Unemployment on March 4. The committee recommended that the bill be passed, but the House rejected it by a vote of 285 to 155.

Alyce McHenry Makes Gallant Fight For Her Life

Doctors Report Girl's Condition Is Improving Following Delicate Operation Upon Her Stomach Which Was Upside Down

FALL RIVER, Mass., Mar. 5.—(AP)—The fighting spark of life in Alyce Jane McHenry was a little stronger this afternoon, more than 24 hours after her operation for an upside down stomach.

The operation was officially given as the Transcendental Hospital as doubtful but with no complications yet appearing and a fair chance for the brave youngster. She had a bad night until about toward morning, the pain keeping her from sleeping until after 2:00 A. M. Her pain was mainly the usual after-effects of a major operation but worse than the average.

Virtually all Alyce's digestive organs were up in her chest where her left lung should be. The lung too, was there, collapsed under the pressure.

Stomach, intestines, large and small, spleen and appendix were in the chest.

It was the appendix that forced a change in the plans of the operation after her chest was opened. Dr. Philemon E. Truscald, chief surgeon in the operation, had expected to let the organs move slowly and gently down from the chest to the almost empty abdomen.

There might not be room (Continued On Page Six)

Veterans Rap Patman Plan To Pay Bonus

Legionnaires Say Currency Expansion Features Doom Bill To Certain Defeat

WASHINGTON, Mar. 5.—(AP)—The American Legion today leveled a vigorous assault on the Patman bill for bonus payment containing the currency expansion features of the measure.

The Legion representatives appeared before the House Ways and Means Committee after the committee in a heated discussion rejected by 14 to 6 the Republican motion to call upon the Treasury and the Veterans' Administration for an expression of their attitude toward bonus payment.

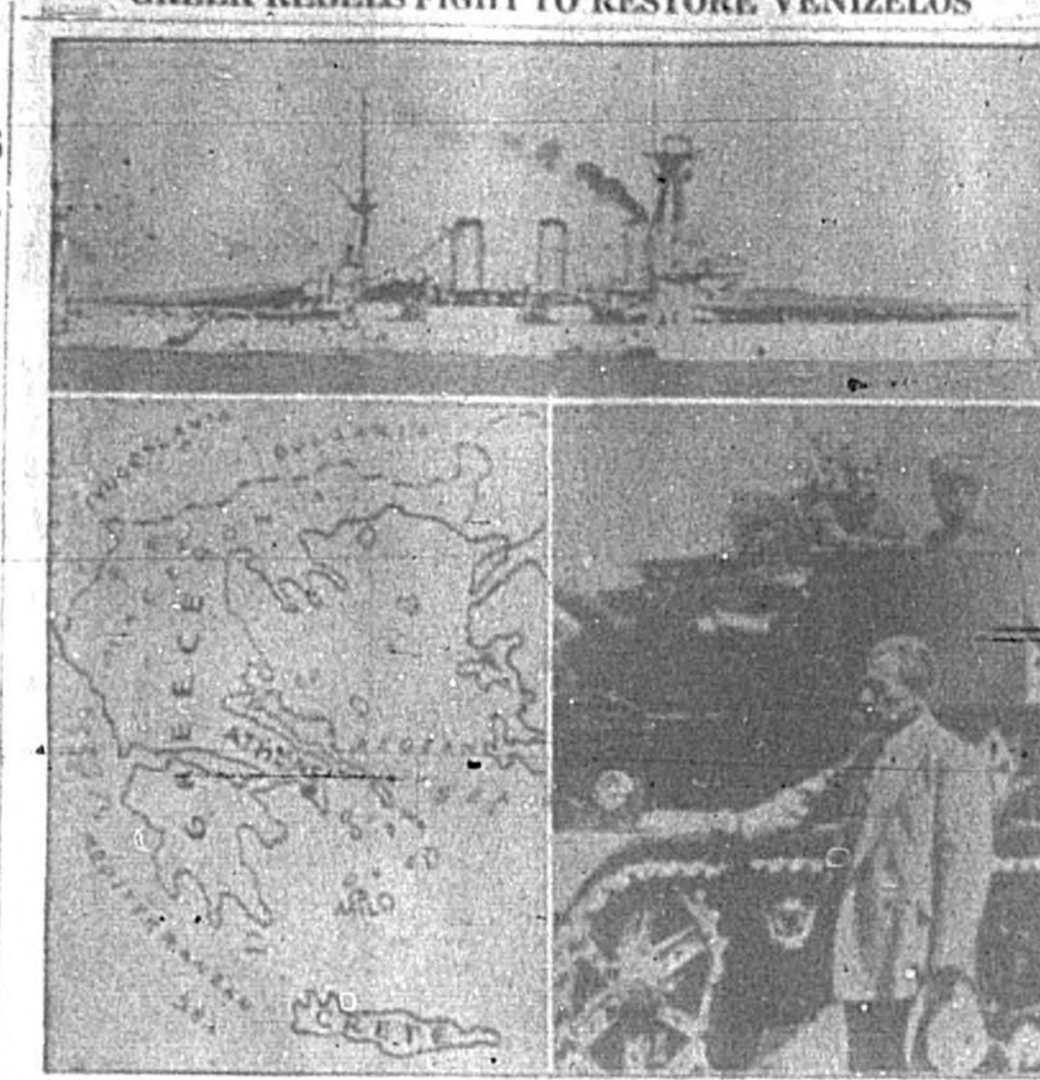

The irrefragable issues of inflation and payment of the soldiers' bonus were woven at last temporarily together last night as advocates of both courses drove into their first major campaign of the session.

A day of bonus hearings before the House Ways and Means Committee evoked more testimony expanding the disputed desirability of expanding the currency than was devoted to the straight-out question of cashing the service certificates.

All the witnesses yesterday advocated enactment of the Patman bill to pay the veterans with newly issued currency—more than two billion of it—and included individuals heretofore identified with inflationary moves rather than the bonus drive.

Officers of the American Legion awaited their opportunity—coming today to support the Vinson bill, which makes no provision for raising the necessary money, leaving that problem to the Treasury.

GREEK REBELS FIGHT TO RESTORE VENIZELOS

With the support of former Premier Eleutherios Venizelos, Vlachos revolt flared up in Greece as partisans sought to restore him to power. Five government warships, including the armored cruiser Averoff (above), joined the revolt and fought a running battle with the loyal air force. The map at lower left shows the principal locations involved in the revolt, the warships heading for the island of Crete. Gen. George Kofylis (right, in civilian clothes), who took charge of the loyal forces in putting down the rebellion at Nafplio arsenal, has been mentioned to head the government in the revolt is squelched and a dictatorship is set up. Balkan States Alarmed Over War In Greece

Casualty Lists Climb As Federal Bombing Planes Smash Into Greek Rebels

VIENNA, Mar. 5.—(AP)—A wave of apprehension swept through Vienna today when unconfirmed reports indicated Turkish troops were gathering on the Greek frontier because of civil war in Greece.

The same report said that the Bulgarian border guard had been strengthened in view of the situation in Greek Macedonia where loyal government troops are making a desperate drive to suppress the rebellion. Some refugees from the fighting are already said to have arrived at Patrish in Bulgarian Macedonia.

Recovery Moves Vitrally Affected By Court Rulings

WASHINGTON, Mar. 5.—Recovery activities of the federal government were vitally affected yesterday in two decisions of the Supreme Court in cases which national recovery policies.

The decisions were rendered in the New York milk case and the Tennessee grade crossing case. The effects of New York to restrict shipments of milk into the state in the former, in the latter, the road building program to give employment largely in rural areas was nullified.

3 FOUND DEAD

DES MOINES, Ia., Mar. 5.—(AP)—Three persons were found dead in a gas-filled rooming house apartment here yesterday. Police said they apparently had fallen asleep while cooking a pot of coffee, which boiled over and extinguished the flame from a small gas plate.

Florida's Constitution Was Drawn At St. Joseph In 1838

Spot Now Is Marked By Granite Monument; Once Thriving Town Has Been Abandoned

TALLAHASSEE, Fla., Mar. 5.—(AP)—A granite monument, set in a lonely, weed-grown section not far from the blue waters of the Gulf of Mexico, marks the spot where nearly a hundred years ago Florida's constitution was written and adopted at a convention held in the then-thriving, now abandoned, town of St. Joseph.

Although the constitution was framed there in 1838, the spot went unmarked until 1921 when the state legislature appropriated \$10,000 to acquire the site and erect a suitable monument near the present town of St. Joseph. The marker is a stone, 3 feet high, 18 inches wide and 12 inches thick, set in a concrete base. It can be seen from state highway No. 10 which follows the Gulf coast.

Records collected in the state library here by Librarian W. T. Cash show the constitutional convention met in the sea "boom" town of St. Joseph on Dec. 3, 1838. The convention closed Jan. 11, 1839, after drafting and adopting the constitution under which Florida was admitted to the Union of States in 1845.

Fifty-five delegates, representing the 10 counties then comprising the state's area, answered the convention call. The President was Judge Robert Raymond Reid, who later became territorial governor of Florida.

Next to Reid in influence, said records here show, was William P. Duval, who had served as governor of the Florida territory from 1822 to 1834. Others who attended included Thomas Brown, later governor; Jackson Morton and David J. Cole, later United States senators; J. C. McDuffee of Madison, who was president of the convention; and William Marvin of Monroe county, who was provisional governor in 1835, and Leigh Reid, who established a record as a soldier in the Seminole Indian War, and who later was killed by an assassin, because he killed the assassin's brother in a duel.

Church ministers and officers and directors of banks were prohibited from the governor's chair and from membership in the legislature in the constitution. These men framed the document, they also decided about such matters as the right to hold public office on a full-time basis, and whether ministers and bankers became eligible to hold such public office.

The state capital was established at Tallahassee, but the St. Joseph convention contained a provision for an election, after five years had elapsed, on whether the capital would be removed to some other city. In 1842, there was an election, but Tallahassee won out. Now, in 1935, agitation is being renewed to transfer the capital to some central Florida location.

Librarian Cash said his records showed the movement to make St. Joseph, located in what is now Gulf county, a "boom" town, was started in 1835 by capitalists from Tallahassee, Apalachicola, and Columbus, Ga. They built a railroad to connect with the Apalachicola river, in an attempt to divert freight traffic from the already established town of Apalachicola. A newspaper was published, and the new town was well advertised.

Observing the first constitutional convention was Fane (1837) St. Joseph's methods of publicizing itself, Cash said. Peter W. Gautier, editor of the St. Joseph Herald.

Gibbons Arrives To Stage Benefit Show At Milane

Roger Gibbons arrived in Sanford yesterday as a representative for Frederick B. Ingram Productions to start preparations for a local talent "Hollywood Premiere" which is to be presented at the Milane Theater on Mar. 12 under the auspices of the Sanford Junior Chamber of Commerce.

The "Premiere" will include the presentation of a special motion picture film and a stage show in which local persons will participate, as stars of the silver screen. A glare of lights, microphones and "Hollywood stars" will grace the front of the Milane the night of the performance. As the "stars," depicted by local persons, arrive at the entrance of the theater, they will pause for a moment at the microphone to say a word to Sanford before entering the stage to participate in a Hollywood stage show.

Mr. Gibbons will begin selecting local persons today as "doubles" for over a score of famous screen stars. Sanford is the second city in Florida to witness this clever attraction.

Over 500 Tests Of New Deal In Courts

WASHINGTON, Mar. 5.—(AP)—More than 500 tests of New Deal legislation recently were reported pending in courts.

Department of Justice officials promising to take all disputed statutes to the supreme court, said they had 208 pending cases involving the National Industrial Recovery Act.

The sub of constitution in many of these is "What constitutes interstate commerce?"

Contending that manufacturers and business establishments are "wells of commerce," the government has sought to regulate them under its constitutional power to control commerce between states.

When the constitution carried its provision against bankers holding public office, the people of the town of St. Joseph voted against it by a heavy majority. Bankers, Cash said, were responsible for St. Joseph being established.

In the passing years, the town of St. Joseph died as its residents moved to other places. The marker designating the place where St. Joseph, the town, lived and died, St. Joseph's Bay, an expanse of water separated from the gulf by a narrow strip of sandy land, is still there and is still designated on the maps. Part St. Joe is the correct name on the map to the original town of St. Joseph.

MELLON MUSES AT TAX HEARING

What were Andrew W. Mellon's thoughts when the photographer caught him meditating deeply at Pittsburgh during a recess in the hearing of the government's charges that he evaded payment of some \$4,000,000 in income taxes? The former secretary of the treasury denies the charge and claims a refund is due him. (Associated Press Photo)

Cleveland Gives Every Day Menace Of Fire Hazards That Should Be Removed

The Chief Mar. Cleveland is of the opinion that in this country the fire hazards are very lucky. He says that the fact that they have not been subjected to one of the worst depressions history has ever known.

"The annual fire loss in this country, says the chief, is \$1,000,000,000 and the loss of life, property and business is incalculable. I still see many of the same old hazards that have caused so much trouble in the past."

Chief Cleveland pointed out that if every fire hazard in every home and every one of business were to cause a fire tonight, the fire departments of the nation would be helpless, and all our cities would be reduced to heaps of smoking ashes. He also said that no doubt millions of men, women and children would die tonight, at the same time it happened in that depression is nothing.

"Fire hazards are funny things," the chief went on. "Sometimes they are present for years, and never cause a fire. Other times, a fire breaks out from a hazard that is years old. And in still other cases the fire hazard does its dirty work almost immediately."

The big trouble, with a fire hazard is that no one can tell just when it will start a fire. That is the reason Chief Cleveland and his fellow firemen are so anxious for the citizens under their protection to eliminate all fire hazards, faulty chimneys, poor electric wiring, carelessness with matches and stoves, heating units, lighted cigarettes, oily rags, gasoline and kerosene, dry cleaning, trash in cellars and attics,

U. S. 'Invasion' Of Rights Is Hit By Connecticut

Assembly Sacrifices Relief Funds To Defeat New Deal Bill

HARTFORD, Conn., Mar. 5.—Apparently because it regarded the measure as an invasion by the federal government of the state's sovereign powers, the Connecticut General Assembly has rejected, by a vote of 67 to 180, a bill which would have established a rehabilitation corporation under federal direction for the Administration of federal funds in rural relief work.

Most of the support for the bill, which had been passed by the judiciary committee, came from the Democrats. It was designed to make Connecticut eligible for federal funds earmarked for the establishment of rural homesteads for persons on relief.

The bill, as originally submitted by Governor Wilbur L. Cross, was drawn up according to specifications approved by Lawrence Westbrook, assistant F. I. R. A. administrator.

It was attacked bitterly at the hearing of the judiciary committee by John T. Robinson, former president of the State Bar Association and former United States Attorney for Connecticut. Mr. Robinson condemned the measure as an encroachment on state rights and urged the Assembly to "change" the Administration at Washington by rejecting it.

After the hearing the judiciary committee tried to effect a compromise and made several changes in the bill. The original bill provided that the federal government was given too much power over it.

The revision was not acceptable to M. Westbrook, who testified. Miss Eleanor H. Lewis, of the State F. I. R. A. Administration, said that the revised bill of the state would not be eligible for federal relief funds.

The judiciary committee passed the bill again and it was this measure that was rejected after a heated debate in which the policies of President Roosevelt were criticized severely.

Daniel F. Hickey, Republican floor leader, who brought up the bill against it after

Mexican Workers Threaten Boycott Against America

MEXICO, D. F., Mar. 5.—(AP)—The general confederation of city and rural workers of Mexico threatened to boycott against the United States Friday in retaliation for what it called the spread of the Mexican government.

A resolution adopted by the confederation called for a boycott of the United States and urged the American people to "boycott the United States and its institutions." It called the Illinois development "nothing more than a consequence of the filthy intrigue of reaction among the American people and its institutions."

Bitter feeling was aroused in some quarters by the resolution of Senator Borah calling for an investigation by the United States of the religious situation in Mexico.

Representative John D. Thomas, the Democratic leader, was among the chief supporters. Although the state needs the money offered by the federal government for relief work, most Republican leaders took the position that the preservation of the right of self-government was more important and the rejection of the bill was on way of showing how they felt about it.

U. S. May Lend Cash To Assist China

WASHINGTON, Mar. 5.—The State Department is studying a plan under which the United States would join with other nations to give financial aid to China, it was learned here.

Such a project would keep Japan from entering into a trade agreement with China, possibly gaining exclusive privileges from it. Shanghai dispatches reported that Japan and China close to an agreement for a station in the Far East.

Whether Japan would be included in the nations that are adding extension of aid to China could not be learned.

Investigations By New Deal Cost More Than \$1,000,000

Figure Does Not Include Money Spent In Routine Inquiries By Many Committees

By WILLIAM S. WHITE
WASHINGTON, Mar. 5.—(AP)—The "New Deal's" wide use of investigating power, exemplified in the demand of Congressional leaders for a \$750,000 inquiry into the telephone companies, already has brought about the most formidable list of inquiries within recent years.

Aside from currently discussed inquiries, the government's bill for a wide variety of investigations made since the start of the Roosevelt Administration already has gone far beyond the one million-dollar mark, with the end not in sight. This figure does not include money spent in routine inquiries by departments and committees of Congress.

One of the biggest sums yet appropriated during the present Administration was for a two-phased search into the business of power companies by the federal power commission, independent of a six-year investigation by the trade

department. The latter was authorized for the power body's task—\$300,000 for a rate survey and \$400,000 for a general check-up on national power resources, the problems of rural electrification and the rate requirements.

Other departmental investigations running into major sums began in previous administrations and thus are not attributable to the "New Deal."

Congress, itself, has been exceptionally busy with inquiries into many subjects, the most important from the public view being the munitions and banking stock exchange practices investigations.

For the former \$100,000 has been appropriated and for the latter \$260,000.

The appropriated cost of others, besides high in the headlines, varies from \$30,000 for the committee on un-American activities to \$500 for the inquiry into what Dr. Willem Wirt, the Indiana pedagogue, had to say as to allegedly subversive and violently radical influences within the Administration.

Boston Reporter Sees Florida As Near New Boom

ST. PETERSBURG, Mar. 5.—Opinion that Florida has definitely turned the corner to prosperity and in the next three years will be in the midst of another boom, was expressed recently by Henry Gillen, staff writer of the Boston Post.

Gillen's article, written for the resort section of the Post, appeared on Feb. 23. In it he says, "The boom will not equal that of the ante-depression days. It shouldn't if the folks who run things in Florida have any sense and are not too money-minded."

St. Petersburg appears in a prominent role in the article, as Gillen bases his predictions of prosperity on conditions found here this season.

He writes: "A more certain proof is the City of St. Petersburg. It has always been a favorite among tourists, especially the quiet kind who can get along without

race tracks just so long as they enjoy the sun, escape the winter and get rested. They are folks, some wealthy and some just getting by, who think a fact-concert in the park, a concert to fish off the pier, an occasional show or a first-run picture, is a lot of fun.

"Tourist registrations at the Chamber of Commerce climbed during the last week in January. The total at the end of the week was \$4,002 compared with \$3,792 on the same date a year ago.

The figures in date have exceeded the registrations of visitors for the glorious days of prosperity of the season 1928-29. The streets of the city are thronged with visitors. The hucker is holding plenty of yachts. One of the biggest and finest hotels in Florida which is located there reported only 10 rooms vacant one recent week and one of the chief boosters made a speech recently stating St. Petersburg must build more houses to take care of the influx."

Writing of conditions as a whole in the state, he says: "Of course, Florida is rejoicing over this jump in visitors. Why not? One statistician, estimating on the basis of \$5 daily as the minimum expenditure made by each visitor, gives the opinion that the tourists will spend \$225,000,000 in Florida this year. That is an increase over last year."

"There is another cause for rejoicing. Although the boosters realize most folks come just for the sun and fun, yet they figure that 10 percent are enough impressed to buy or build a winter home here. And when that percentage most folks come just for more and more visitors get the winter home idea, watch Florida go."

Judge Is Freed Of
Drunkenness Charge

HARTOW, Mar. 5.—(AP)—Criminal Court Judge Mark O'Quinn of Polk county Saturday night was acquitted of a charge of driving an automobile while intoxicated.

The jury, which heard the case in the judge's own courtroom, deliberated nearly two hours and then advised Judge Murphy of Dr. Lamjo, who had been sent here to preside at the trial, it was unable to agree.

Judge Murphy instructed the jurors to return to their deliberations and the jury returned the verdict about 20 minutes later.

Butler Denounces
Rejection Of Court

NEW YORK, Mar. 5.—(AP)—Rejection of the Senate of the World Court protocol was denounced by Dr. Nicholas Murray Butler last night as a "grievous blow at every American interest."

"The seven senators whose change of vote would have insured ratification of the World Court protocol have much to answer for in years to come," Dr. Butler said in his annual report as director of the division of intercourse and education of the Carnegie endowment for international peace.

30 Screen Stars To Be Impersonated At Milane Tuesday

Thirty famous screen and radio stars will be impersonated by Sanford at the Milane Theater next Tuesday night during a special "Hollywood Favorites" performance, which will include a one hour style show and the nation picture, "Enter Madame," starring Elsie Landi and George Brent.

The performance, to be presented at 7:00 o'clock and 7:15 o'clock, is being staged under the auspices of the Sanford Junior Chamber of Commerce through the courtesy of the theater management.

The stars will be presented in all the glamour of a real Hollywood premiere arriving in Hollywood under special police escort, alighting upon a carpeted walk leading past dazzling studio lights to the Milane lobby where

Schenck Would Rent Studios In Florida

MIAMI, Mar. 5.—(AP)—Joseph M. Schenck, representing Metro-Goldwyn-Mayer, one of the five largest motion picture producing companies, yesterday proposed that Florida raise \$10,000,000 by popular subscription to build motion picture studios to be rented to the industry for a stip-

ulated \$200,000 a year. It was one of the first definite proposals to be made by a qualified representative of the movie makers in Florida's long-time effort to win the industry from California.

Sanford merchants are co-operating by providing dresses, jewelry, automobiles, shoes, and other items. Applications already have been received from persons who wish to impersonate Greta Garbo, Joan Crawford, Clark Gable, Robert Montgomery, John Gilbert and others.

Jaynes' President Gordon Barrett announced today that prospective "stars" have been asked to meet at Hotel Valdez at 8:00 o'clock Thursday night to make plans for their appearance next Tuesday.

He named the following committee for the affair: Talent, S. O. Schindler, Jr., Mrs. Andrew Caraway, E. E. Lamy and J. H. Truford; merchants arrangement, M. L. Rabero; publicity, R. J. Holly, Jr.; finance, Roy Mann; program, R. N. Nipper, I. L. Jackson, Andrew Caraway; transportation, Dwight Smith.

Schacht Proposes Long Moratorium On Interest Items

LEIPZIG, Germany, Mar. 5.—(AP)—A moratorium of several years on interest payments for German private debts abroad was strongly urged yesterday by Hans Schacht, economic director and head of the Reichsbank. He also recommended reduction of the interest rate to a "reasonable basis" when payments are resumed, and creation of normal international trade conditions immediately, in order to regularize German "industrialism" amounting to some \$2 billion marks.

WE DIDN'T ASK FOR Bouquets BUT LOOK WHAT NORGE OWNER SAY ABOUT ROLLATOR REFRIGERATION
1... What I save on food bills more than makes my "Norge" payments.
2... keeps foods fresh, sweeter and longer.
3... simplicity of Norge working part its most important feature.
4... You can take out word for Norge extra quality. You don't have to. Go to any Norge owner. Go to any number of Norge owners. Ask them what refrigerator they would choose if they were to buy another. They will tell you that Norge gives them far more than they expected—more in convenience, in economy, in all round satisfaction. There's a reason for that. It is this. The best part of the Norge is the part you never see—the famous Rollator cold-making mechanism. Simple, surplus-powered, almost everlasting, the Rollator actually improves with use. And it uses so little current that you will scarcely notice it on your light bills. Norge—and only Norge—has the Rollator.

Administration To Drop Small Codes Is Capital Rumor
WASHINGTON, Mar. 6.—(AP)—A plan put forward from Administration quarters for dropping a number of small codes in the Federal Reserve Act is being widely discussed in the capital. The plan is being considered as a way to simplify the banking system.

Leon County Votes Against Liquor By Fairly Wide Margin
TALLAHASSEE, Mar. 6.—(AP)—Leon county, home of the state capital and the Florida State College for Women, voted against the sale of liquor in the county by a fairly wide margin. The vote was 10 to 2.
