Hauptmann Told He Can Escape Chair If He Will Confess

Naming Accomplice Would Prevent His Execution, Officer Advises Newspaper

NEW YORK, Oct. 10.—(AP)—The New York Evening Journal, in a copyrighted story from Trenton, New Jersey, said today that Bruno Richard Hauptmann might yet save himself from the electric chair by confessing to the kidnap murder of Charles Augustus Lindbergh, Jr. The Journal said that "one of New Jersey's most powerful officers" had given this assurance. The Journal story was in the form of a letter to Hauptmann, whose conviction for murder of the Lindbergh infant was upheld yesterday by the New Jersey Court of Errors and Appeals "Bruno Richard Hauptmann," the paper told the Bronx carpenter, "You may yet save yourself from the electric chair and earn \$10,000 for your confession and the name of your accomplice in the kidnaping and murder of the Lindbergh baby."

Citrus Market Control Again Seen Possible

Meeting In Lakeland May Discuss Plan; No Association Of Growers In County

WASHINGTON, Oct. 10.—(AP)—Indications were noted here today that the Florida citrus industry might again reach an agreement for orderly marketing under the Agricultural Adjustment program. Archie M. Pratt, member of the industry's joint committee, said the committee probably will meet at Lakeland next week to discuss procedure for drafting a new agreement, the rough outline of which has already been assembled. Florida's old agreement was abrogated by Secretary Wallace after a long dispute over membership of the control committee. There is no association of citrus-growers in Seminole County and therefore it is not probable that there will be any official representation from this section at the proposed Lakeland meeting. County Agent C. R. Dawson stated today when shown the above dispatch. He said, however, that he hoped a marketing agreement would be reached. The state control board, recently appointed by Governor Sholtz, is now functioning, but it has let down the bars on shipments and has placed fruit formerly known (Continued On Page Two)

Smaller Allotment Of State Funds To Schools Next Year

Only \$364 Is Provided Each Teaching Unit Board Is Informed

Seminole County's school system may expect at least \$7,129.98 in state funds during the fiscal year ending July 1, 1936. The Board of Public Instruction for Seminole County was advised during its regular meeting in the office of Supt. of Schools, T. W. Lawton yesterday morning. State Supt. W. S. Lawton advised the Board by letter that the aggregate amount of school funds for Seminole County will not be less than \$67,329.08 and that he approved this estimate. Recorded in the minutes of the meeting in observations by Supt. Lawton were the following facts: The appropriation as estimated will provide \$364 for each teaching unit. Last year the county received \$76,709.77 from the state and \$117,855 per teaching unit when the state had proposed an appropriation of \$600 per unit. For the 1935-36 fiscal year, the Legislature appropriated \$800 per unit, or more than double the amount estimated to be received. "In other words," Mr. Lawton told the board, "the estimate shows we shall actually receive less than one half of the appropriation voted by the Legislature."

Statue To Honor Roosevelt May Be Erected In Capital

TALLAHASSEE, Oct. 10.—(AP)—A plan to erect a statue in honor of the late President Franklin D. Roosevelt and leaders of the national Democratic party was announced here today with the two-fold purpose of expressing to the President the gratitude and respect of Florida and obtaining national publicity for this state. Sponsors of the plan which has been approved by cabinet officers and high ranking state and party officials, say that a bronze statue of President Roosevelt, Vice President John N. Garner and National Democratic

Sanford Kiwanis Club Will Try To Land State Meet

1936 Convention Is To Be Sought By Local Delegation

Sanford Kiwanians who attended the state convention at Ocala, next Monday and Tuesday will make every effort to bring the 1936 state convention to this city and select one of their number as lieutenant governor for the new year. They agreed on this at their meeting in the Montezuma Hotel Wednesday where they "snatched" another meal with indigent school children whose lunches are bought with the difference between the cost of the regular weekly meal and the sandwiches and coffee which are eaten instead. Kiwanian Dave Bond's total of experience shortly after his arrival in America in 1908 featured the program offered by Kiwanian Howard Overton. Announcement was made that Kiwanian Sid Nix had been selected as secretary and that he will serve in that capacity as well as vice president during the new year. Rev. A. H. Cole, pastor of the First Methodist Church and Kiwanian of several years standing, was welcomed as a new member while Kiwanian Peter Schaaf was requested to make plans for another "hook shower" for the library at Seminole High School. The "hooker" will be staged on Oct. 23.

Farmers Market Will Open Within 2 Weeks

Within the next few weeks, upwards of 10,000 southern growers and shippers as well as more than 1800 truck drivers from all parts of the country will be advised that the Sanford State Farmers' Wholesale Market will be in operation during or shortly after the first week in November. County Agent C. R. Dawson who volunteered the facilities of his office to the market advisory board last Monday night, now is engaged in carrying out probably the most ambitious publicity program ever devised for a local project. Letters are being sent to every county agent south of the Potomac River and east of the Mississippi River asking them to send Agent Dawson the names of at least 10 farmers or truckers who are interested in handling winter vegetables into and out of Sanford. Fifteen hundred letters also are to be sent to truck drivers who registered at the state line last year as being from every state east and many states west of the Mississippi, and Canada. In addition, Agent Dawson is planning to get in touch with every daily and weekly newspaper office in the South to ask that he carry a small story announcing the opening of the Sanford market, and telling in detail what it may have available for truckers during the winter months.

11 Mills Added To Tax Rate In Tampa's County

TAMPA, Oct. 10.—A county-wide tax rate of 12.6 mills, up 11.6 from last year, was set by the county commission yesterday for the new fiscal year which opened Oct. 1. At the same time, the commission fixed higher levies for five of the seven special road districts and for 10 of the 19 school districts. In neither of the district levies does the commission exercise any discretion. Under the new tax schedule, the average Tampa owner will pay at the rate of \$6.86 on each \$100 of assessed valuation of non-exempt property. Last year the rate was \$5.40 on each \$100. These figures include the Tampa school district tax. Owners living in a road district would pay still more. Home owners in most of Tampa apparently will pay a rate of \$2.08 on each \$100.

Fertilizers Will Be Topic Of Discussion

Dr. E. R. Purvis of Gainesville and Alex R. Johnson, vocational agriculture teacher in Seminole High School, will lead discussions at the school tonight on the subjects "Comparative Fertilizer Prices" and "Borax as a Supplementary Fertilizer for Celery." These subjects will be featured during the Part-Time Evening Class session which will follow a regular meeting of Seminole County Agricultural Association. The meeting begins at 8:00 o'clock, and reports will be made on the progress of the Association's cross-state canal opposition campaign.

Gas Tank Explosion Kills Canal Workman

OCALA, Oct. 10.—James W. Miller, Orlando, was killed instantly Wednesday afternoon at Camp Roosevelt when a gasoline tank being tested with compressed air exploded. Three other canal workmen were injured, but none seriously. W. H. Milligan, Anthony, was taken to the hospital suffering from shock and an injured hip. I. N. Proctor was taken to his home at Paducah, with internal injuries. R. A. Hanson, who had been on top of the tank, suffered an injured shoulder and ankle.

Jerry W. Carter Says That He May Run For Governor

TALLAHASSEE, Oct. 10.—(AP)—Jerry W. Carter, elected to the State Railroad Commission, yesterday for a term of four years and last night he "may be a candidate for governor" next year. "The situation looks interesting," Carter said in a statement. "I have looked up the law and have found that an ordinary citizen has as much right to run for governor as a lawyer, having a senator, and if I am half as energetic in pursuing the possibility of running for governor, I will not be the average candidate. I will not be a candidate for governor unless I would be based on the belief that I should be more common than government."

Potato Allotments Must Be Obtained By Seminole County's Spud Producers

Persons expecting to plant Irish potatoes for sale were advised today by County Agent C. R. Dawson to call at his office in the Court House and file application for allotment of potatoes which may be sold tax free. Allotments will be required under provisions of the Warren Potato Act passed by Congress on Aug. 27, enacted after two years of unusually low prices and heavy production of the vegetable. Sentiment which resulted in passage of the legislation originated with commercial potato growers, and, as Mr. Dawson said today, "it is the foundation of a program to control the production of Irish potatoes for the purpose of raising the price paid the producer." In circular letters mailed by the county agent today addressed "To all Seminole County growers, shippers and merchants," Mr. Dawson explains operation of the

Lions Hear Address On History Of Bible

Featuring last night's dinner meeting of the Sanford Lions Club at the Mayfair Hotel was an address on the English Bible: Its history and origin, delivered by the Rev. Martin J. Bram of Holy Cross Episcopal Church, who pointed out that the world's work is observing the 40th anniversary of the printing of the Bible in English. Plans were completed for a first annual Lions Club Thanksgiving Eve Ball to be staged as an occasion affair at the Mayfair Hotel. Members of the organization also voted to assist in the safety campaign which will be furthered in all schools around the county, as well as assist in local efforts to provide vegetables and clothing for the children at the FERA Nursery School.

Seining Won't Be Allowed In Lakes, Rivers

Commissioners Heed Petition From 998 Opponents To Plan To Permit Fishing

The fresh water lakes and streams of Seminole County will not be opened for seine fishing at this time. Resolving a former recommendation that seining be permitted on and after Oct. 1, the Board of County Commissioners today morning expressed opposition to the plan after hearing statements by several local and Ocala men, most of them representing civic clubs. Turning from a discussion of routine matters which followed their official meeting at the Equalizing Board, the commissioners heard Chester C. Magruder of Ocala, member of the State Game Commission, say that he had just come from a meeting of representatives of civic clubs who appeared to be seeking for the following members. "The sentiment at this meeting," Commissioner Magruder stated, "is that at least 998 people are unconditionally opposed to the opening of the lakes and streams of your county to seine fishing." He named the Sanford Kiwanis and Lion clubs, the Sanford Junior Chamber of Commerce and the Seminole County (Continued On Page Two)

2,500 Ethiopians And Two Italians Slain In Fighting During Eight Days Of War

Penalties Given Final Approval

The holy city of Aksum, precious to legend and to the religious life of the black empire of Ethiopia, fell today before the onslaught of Premier Benito Mussolini's fascist army, while the League of Nations, whose electric atmosphere gave final approval of penalties against Italy. The fall of Aksum was announced officially by the Ethiopian government and the Italian minister in Addis Ababa. Italian general headquarters announced that 2500 Ethiopians have been killed in the last eight days, while the Italian losses were placed at two officers killed and a hundred officers and men wounded. The announcement also said that 600 Ethiopians have been made prisoners. In the Assembly of the League of Nations, which was held in Geneva, the fall of Aksum was announced and the League members that Italy had started an unprovoked war against Emperor Haile Selassie. Discussed in corridors, but not yet brought into the open, was the possible plan for establishing a naval blockade against Italy in an effort to bring an end to the bloodshed of Italy's war for "complete solution" of its problem in Africa. Hint of direction of the Italian campaign was contained in information gleaned from headquarters of the Italian Northern Army where tentative plans called for a drive from Italian Somaliland toward Harar to force the Ethiopians to relinquish all of Tigre province. Harar is 75 miles from the Somaliland border.

Government Lets Eight Contracts On State Canal

OCALA, Oct. 10.—(AP)—Eight firms yesterday won contracts for supplying 13,550,000 yards of excavation from the right of way of the Cross Florida Ship Canal at a cost of \$2,939,979.30. Army engineers in charge of the project estimated approximately 6,000 persons will have been employed by Nov. 15. Of these, the contracting companies are expected to use 600. The average cost of excavating the top soil on 24 half mile stretches is 21.72 cents a yard. President Roosevelt set aside \$5,000,000 of the original \$5,000,000 allotment to the canal for excavation, but Capt. James H. Newman, Jr., chief of the operations division, said only the portion contracted could be done now. Firms receiving contracts were: Hooper Construction Company, Bunnell, Fla., 5,000,000 cubic yards at \$123,740; Harvey, Ray and Noonan, Pensacola, 3,333,000 yards at \$405,000; George D. Aulchler, Jacksonville, 1,500,000 yards at \$327,378; Benjamin Foster, Philadelphia, 4,711,000 yards at \$1,024,066; Blythe Brothers, Barnwell, S. C., 887,000 yards at \$2,085,230; Budget Construction Company, Memphis, Tenn., 1,050,000 yards at \$274,300; Funk and Stevenson, Helena, Ark., 818,000 yards at \$196,320; Lewis Chambers Construction Company, New Orleans, 1,973,000 yards at \$386,040. The Army engineers will supervise the removal of approximately 500,000 yards near the center of the project.

CHURCH LOYALTY

I go to church because there I may worship God and observe His ordinances according to His teachings as I understand and have been taught them.
I go to church because it is an act of obedience to His will as it concerns me, for He has given me strength and alloted me talents to use in His Kingdom. If I fail in this I am recreant to a sacred trust.
I go to church because I have been led and taught that this is right and duty.
I go to church because there I am privileged to associate with God's people, and because the best people in town, the folks I like to associate with, are found there; and they are true, sympathetic, and Christ-like in spirit.
I go to church because I want to be loyal to Him and His institutions—to perform in my humble way the tasks imposed by reason of my living and being. I cannot deny that life, health, all are given for service to God and man.

President's Talks On Tour Viewed As First Forecasts Of '36 Democratic Themes

By Byron Price (Chief of Bureau, The Associated Press, Washington.)

The two early to attempt a ready-reference political index of the President's views on the continent, but certain headlines readily suggest themselves. He repeated the President's opening thrust at the opposition in a comparison of present farm conditions with what they were before he took office.

"Power," he follows his farm speech with one stipulating when the government is doing toward development of public-owned utilities.

"Spending," he makes public summary hints at a balance budget in the more improved industrial indications, giving the credit to the New Deal.

"Parties," he repeats the Republican party, and makes a frank bid for independent voting.

"The two individuals he mentioned as possible successors are Senator Charles McNary and Representative William C. Clegg.

"Obviously, the list of topics still is incomplete. Yet the essential message is clear: the approach to 1936 are worth-considered, because they probably are the President's own.

"It may be argued that the President was speaking in and of the West when he put agricultural power at the heart of the procession of issues; but does anyone suppose that crucial sector was chosen for accident or the opening of the campaign? That the West will decide the election is a possibility that today by most leaders of both parties. That the farm problem and the need for public consideration there is highly open to consideration.

"Nor is there any dispute that in his treatment of these subjects, Mr. Roosevelt is bidding for exactly the same bipartisan support which carried the West for him in 1932.

"So distinguished a Republican as Senator Capper says his party would carry the West for Roosevelt in 1936.

"In front of the western crowd against the power interest in his Republican Senator Nor.

Mr. Roosevelt has struck directly at the two parties, giving all the points, and agitating the Western liberal wing of his opposition.

There are certain other issues which cannot be considered—hotel, central banking, which are being asked over and over again in West, East and South.

To the New Deal, working in it, are times really getting better in a national sense. It is time to call a halt to excess spending. How will these rectifying deficits be paid for in the end?

To these questions also Mr. Roosevelt has addressed himself. The words, presumably, forecast for the first time what the Democratic reply will be in 1936. Properly in to be called as definitive in the campaign.

When an American mission visited Ethiopia in 1934, a commercial treaty between the United States and Ethiopia was signed.

Baseball Confab With Ganzel Is Set For Monday

Members of the baseball committee composed of representatives of the Chambers of Commerce and the various clubs were today notified by Ralph P. Bagwell, acting secretary of the Sanfords Baseball Club to meet Monday afternoon.

The group is called together to confer with John H. Ganzel, of Orlando, on the proposal to bring the Chalmers Baseball Club to Sanford for spring training.

The proposal is for a 100-acre site, Mr. Bagwell said, should not last longer than 45 minutes.

"The board of directors of the Seminole County Chamber of Commerce has referred this matter to your committee, and asks that you make your recommendations as soon as possible," Mr. Bagwell states in his letter of notification.

Arthur Brann, of the Kiwanis Club is chairman of the board. Other members are J. W. Epps, representing the Rotary Club; Maxwell Stewart, representing the Lions Club; H. E. Schmidt, from the County Chamber of Commerce; and Ed Kirchhoff, from the Junior Chamber of Commerce.

Italy Favored By Americans Living Across The Seas

WASHINGTON, Oct. 10.—(AP)—War clouds cast their shadows on a sunny Italy where citizens as many American citizens reside as in any other European country.

There are approximately 31,000 Americans living in the land of Mussolini, according to estimates of the state department.

Reports by consuls made early this year. This compares with 10,515 in France and 10,852 in Great Britain and Northern Ireland which have the next largest American colonies in Europe.

A large majority of the American citizens living in Italy, however, are believed to be of Italian birth or extraction. They are mostly naturalized citizens of the United States who because of adverse financial conditions here have returned to the "old country" in large numbers.

In 1929, American citizens residing in Italy numbered 10,000, a large increase from the 6,000 who had made fortunes, big and little, in the United States during the boom years of the 1920s.

American living in France in 1929 numbered 11,000, a high percentage of whom were business and employment men who returned to the states in the early years of the depression following the loss of income-producing investments, the American population employed in European countries.

France was the leading European country for American patriots in pre-depression days, with compositions Paris, the French gold coast, romantic Normandy and Brittany favored colonies.
