## HUGH JOHNSON GIVEN \$9000 SALARY BOOST

## NRA Administrator's Annual Pay Jumped To \$15,000 By Order Of President, July 1

WASHINGTON, Aug. 28.—(AP)—The salary of Hugh B. Johnson, NRA administrator, has been boosted by President Roosevelt from \$9000 to \$15,000 a year.

The increase began last July 1 but it was not disclosed by the NRA until today.

At NRA it was said the action was taken in order to give Johnson a salary more nearly in line with his work, and to enable him to meet heavy living expenses.

When Johnson became NRA head he set his own salary at \$9000.

Several times since, however, he said publicly that he could not live on that amount, and that was one of his reasons for wishing to return to private life.

The increase was directed by a special order of President Roosevelt before Johnson went on a recent trip West.

## Reciprocal Treaty Now Sought With Haiti

WASHINGTON, Aug. 28.—(AP)—Vividly encouraged by the predominantly favorable reaction accorded the Cuban-American reciprocal trade treaty, state department officials yesterday outlined the second reciprocal treaty—to be negotiated with Haiti.

Authoritative word came from the department that announcement of public hearings on this treaty might come within a day or two.

The American-Haitian trade exchange now is inconsequential, with a heavy balance of trade in favor of the United States. In 1933 Haiti bought about \$5,000,000 worth of products from the United States, and sold about a half million dollars worth to this country, chiefly coffee.

## Damage Slight After Storm On Gulf Coast

FREEMONT, Texas, Aug. 28.—(AP)—The tropical gale which lashed this section of the Texas Gulf Coast for 24 hours with high winds and torrential rains abated today. No deaths are reported.

Two newspapermen made a beauty survey by automobile today and the only damage they found was one small tree broken down. They were told that a 25-foot boat anchored in a ship channel sank.

Warned by past storms, Freemont citizens evacuated the town by special cars, special buses, and private cars. Not more than 50 of the 3600 population remained through the night.

## NEEDLES LINGERS LONG

SPRINGFIELD, Mass., Aug. 28.—What seemed like a severe attack of rheumatism brought Mrs. Rose Gordon to a hospital. X-rays disclosed a three-inch needle imbedded in her left leg. Long forgotten, it had been in the foot since a childhood accident in Russia 34 years ago.

## POLICE COURT

M. R. Marshall, Rufus Woods, and Ed Thompson, white persons who were charged with being drunk, were fined \$5 each, but the fines were suspended.

## Henry Fletcher Blames AAA, NRA, For U.S. Economic Ills In Blistering Attack On Report Of New Deal's Accomplishments

WASHINGTON, Aug. 28.—The first Rieberg report to President Roosevelt on accomplishments of the "New Deal" drew a blistering attack last night from Henry P. Fletcher, chairman of the Republican National Committee who blamed the two Recovery agencies, AAA and NRA, for the nation's economic ills.

The report was submitted to the Chief Executive Sunday by Dep. Ald. R. Rieberg, head of the President's Executive Council. It was

## HOPKINS DENIES HELL TAKE CARE OF STRIKE ARMY

## Relief Head Says U.S. Is Not Underwriting Unions As Charged

WASHINGTON, Aug. 28.—(AP)—Black eyes flashing, Harry L. Hopkins, Relief administrator, yesterday expressed "resentment" that he had agreed to take care of anyone who walks out in the threatened textile strike.

Relief officials, he said, have standing orders to take care of strikers like anyone else, on the basis of need, unless the Labor Department or the Labor Relations Board decides their strike is unjustified.

Hopkins added, however, that no strike in the past had been so classified.

"It's a surprising thing to me we haven't had a damned sight more strikes than we have," he commented.

Reporters summoned to his office for the first press conference since Hopkins came back from Europe, touched off the blast with

## Responsibility For Future Placed On Farmers' Shoulders

DES MOINES, Aug. 28.—(AP)—Chester C. Davis, AAA administrator, yesterday placed squarely before the nation's farmers the problem of future co-operative agricultural adjustment.

"It's your show," he said, "in the last analysis you will be the final court."

Carrying the New Deal gospel to the corn belt, where he was born and reared, Davis headlined farm bureau day at the Iowa state fair.

He spoke from a pine-board platform under a sun-drenched tent to about 800 farmers and farm women, and a sold audience.

The AAA administrator appealed to farmers to "fix your eyes on the forests and not look too closely at the trees."

"Unless the farmers of this country can organize to keep the advantage they are about to hold in their hands, in my judgment we will be back on the ruins of bankruptcy and surplusage," he warned.

The product of an Iowa farm, Davis told his fellow Hawkeyes:

"We are passing out of the emergency stage. The new phase into which we are passing is one of co-operative effort by farmers toward a desired goal—that amount of production in crops best for the nation and best for the individual."

## CHILD DROWNS IN CANAL

MIAMI, Aug. 28.—(AP)—Leo Estel Smith, 7-year-old son of Mr. and Mrs. A. L. Smith, left the house with his dog to play near a canal. Shortly afterward the dog returned without Leo. His parents went in search for him. They found his body floating in the canal.

## State To Get Nearly 2 Million For Needy

JACKSONVILLE, Aug. 28.—(AP)—The FERA today was informed that Florida's Relief grant in September would be \$1,919,500. This sum includes \$1,450,000 for the general relief program, \$282,000 for the transient program, \$137,500 for professional projects.

## CHASE ASKS FOR MARKETING PACT WHICH IS FAIR

## Claims Growers May Have To Ship Fruit When Market Is Low

WASHINGTON, Aug. 28.—(AP)—An internal re-organization was made yesterday in the National Recovery Administration to promote efficiency in supervising the diverse codes of fair competition.

As one of the first steps in the reshaping of the Blue Eagle machine, an activity already productive of official wrangling, there will be henceforth 22 groups in each of which will be placed the codes having related interests. At present there is no such grouping of the more than 600 codes.

Officials said, for instance, that all the codes having to do with the textile industry would be placed under one of the groups. The idea is that this would make them easier to administer and that any inequities could be more easily ascertained and corrected.

One of the prime reasons for the change, in process of formulation for several months, "was to insure that allied lines received identical treatment on common problems."

This is but the first step. The ultimate plan envisages formation of 10 divisions to be announced last Wednesday.

On top of that, they doubtless

## NEW LEAGUE IS INDICTED BY WOODRUM

WASHINGTON, Aug. 28.—(AP)—A withering arraignment of Alfred E. Smith and John W. Davis by one of the chief Roosevelt aides in Congress promoted the conviction last night that the American Liberty League, whether it chooses or not, may become a factor in current political campaigns.

## Attack Promotes Conviction That Group May Become Factor In Fall Campaigns

Representative Woodrum, of Virginia, who has been cited as a possible Administration favorite for House leadership, said the "Happy Warrior" of old has joined the disgruntled and discontented.

The statement linked Davis with Wall Street, and said "the just can't understand the liberal forces that are at work in rejuvenating America."

Thus, the 1928 and 1924 Democratic Presidential nominees, now joined with prominent Republicans for a critical, "non-partisan" scrutiny of the New Deal—have come under a fire potentially conducive to a schism within their party.

Democratic Senators Thomas and Pope, of Oklahoma and Idaho, already had opened up on the league.

It also had not escaped notice that the commander of New Jersey Democracy, Frank Hague, pointedly became first to declare for a Roosevelt renomination in 1936. He was identified with the Smith forces against Roosevelt at the Chicago convention.

The developments came amid an onrush of New Deal debate that shaped interest in today's New York executive committee meeting.

Smith, Davis, Representative Wadsworth, Republican, New York, and others of the committee, along with President J. E. Shouse, will have had the benefit of the national reception accorded the league since its announcement last Wednesday.

On top of that, they doubtless

## Florida Power And Light Co. Refused Request For Lower Tax Assessment For 1934-35

Denying the Florida Power and Light Company's request for a reduction in real and personal taxes for the year 1934-35, members of the Sanford City Commission last night declared their tax assessment roll for the coming year as officially approved, and ordered City Clerk P. S. Lamson to proceed at once with the task of preparing statements for collection.

The Commissioners went one step further by failing to accept the company's offer to pay 1934 personal taxes amounting to \$8100, providing the City would

High 90, low 75.

Apparently refusing to be reconciled to the marriage of her daughter, performed by Mrs. Cassandra Schulta at the Court House this morning, a Mrs. Higgs of Orlando attempted suicide after creating a scene which attracted scores of passers-by.

The ceremony united Miss Johnnie Higgs and Raymond Boyd, both of Orlando. Found in a faint on the floor of the lobby of the Court House by a Herald reporter who had just passed Judge Sharon's office where the marriage ceremony was being performed, the woman was revived after a short period.

But, as she left the Court House, she again became hysterical and had to be led to her automobile by Dr. W. D. Gardner and others.

Apparently suddenly jumped from the automobile and ran toward the lake shouting that she wished to die.

Gardner and Deputy Sheriff Jack Hickson and Gettiss McClelland overtook her after a long chase, and carried her to the automobile again where she fought and kicked at her pursuers.

While Deputy Hickson was at the Sanford Clinic seeking a drug which might subdue her, the young couple calmed the woman long enough to start driving toward Orlando. The last seen of the party was the woman fighting with her son-in-law who was attempting to quiet her.

Representatives of all civic clubs in the county have been invited to gather at the Valdes Hotel next Tuesday noon for the purpose of hearing a discussion on plans to create a state park at the Big Tree south of the city, and of setting up a comprehensive recreational program in the county under the auspices of the FERA.

The speaker will be J. Lee Harne, Jr., of Orlando, director of beautification for the FERA, Sixth Region. He was here yesterday, and he agreed to include the area around the Big Tree as one of the proposed state parks.

White schools at Geneva and Lake Monroe are scheduled to open next Monday morning, it was announced at the County House of Representatives this morning.

Dr. Steele is the new principal of Lake Monroe school which last year had an enrollment of 119 pupils. He will be assisted by Mrs. Elizabeth Buchanan, Mrs. Pearl Bates, Miss Ruby Booth, and Miss Eula McCullar as members of the faculty.

W. L. Sieg again is principal of Geneva school. His assistants will be Mrs. Mayme Sieg and Margaret Gott. Geneva school had 69 pupils last year.

Hemlock High School will open its first semester on Monday, Sept. 17, while all other schools in the county will open on Monday, Oct. 1.

The Board of County Commissioners will probably act on the request of those signing the petition that the local option election be held coincident with the regular election in November, at a regular meeting to be held Sept. 5.

## Police On Guard At Niagara Falls To Stop Race Riot

NIAGARA FALLS, Aug. 28.—(AP)—Fear of a new outbreak between whites and negroes kept police on guard today after a night of rioting.

More than 3000 joined in a free-for-all battle last night resulting in serious injury to three persons and minor hurts to many others.

Intense feeling after the fighting subsided led to intermittent clashes during the night.

The trouble started when an anti-meeting of the International Labor Defense called to rally workers to the defense of Alphonso Davis, negro, who had been arrested on a charge of attacking a white girl.

Several shots were fired, none taking effect, police said.

Authorities said there has been considerable bitter feeling between whites and negroes recently because negroes were moving into a section largely populated by Polish Americans.

Chicago Teachers Shoo Wolf From Door

CHICAGO, Aug. 28.—(AP)—The wolf which had lived at the door so long he seemed like one of the family was shooed away from the Chicago school teachers yesterday with \$28,000,000.

As fast as they could march up to special pay windows, the teachers were paid in full—for the first time in seven months. Checks ranging from \$892 to \$3,291 put them on a cash basis and back in the market as consumers.

It was estimated that when all were paid, it would give Chicago business \$100,000,000 worth of action, on the theory that every dollar will be used at least five times.

About half of the money will go for back debts—to the merchants and landlords who "lided the instructors over since January."

State Population Has Increased By 100,000

WASHINGTON, Aug. 28.—(AP)—An estimated increase in Florida's population to 1,678,000 on July 1 this year as compared with 1,468,211 reported in the 1930 census, was shown in a report issued by the Bureau of Census.

All Florida cities except Miami, St. Augustine and Key West showed gains.

The census figures showed Miami's population dropped from 110,637 in 1930 to an estimated 108,000 on July 1, and that St. Augustine showed a slight decline during the same period from 12,113 to 12,100.

Key West's population in 1930 was 12,331, but the report gave no figure for this year.

## STRIKE HEADS TO MEET WITH LABOR BOARD

WASHINGTON, Aug. 28.—(AP)—The strike committee of the United Textile Workers today accepted the invitation of the National Labor Relations Board to a conference with manufacturers on Thursday, but reiterated that the general walkout in the industry could be averted only by "definite concessions."

"Chairman Lloyd Garrison has asked us to see him and to meet in his office," Francis J. Gorman, chairman of the strike committee, told newsmen. "We have met with Mr. Garrison two or three times and we shall be glad to respond to any invitation from him any time. If he chooses to ask others to meet him at the same time that cannot affect our attitude toward his invitation. If responsible and duly authorized spokesmen for the industry should

## Local Bank Will Co-Operate With Housing Program

The Sanford Atlantic National Bank will co-operate in the home modernization program of the Federal Housing Administration, it was announced this morning.

J. L. Ingley, vice-president of the Sanford Atlantic National Bank, made the following statement of policy:

"We will co-operate with the Administration to the fullest extent possible in the Federal Housing Administration plan. We have received and accepted our contract of insurance."

The plan for borrowing modernization funds under the Federal Housing program, is, briefly, as follows:

A modernization loan is made solely for the purpose of repairing, altering or improving your home, shop, or other building.

It cannot be for less than \$100 or for more than \$2000, and the borrower must have a bonafide source of income equal to at least five times the annual payments.

It can be made for terms up to three years but may be paid in full earlier if the borrower desires.

Maximum charges, including interest and fees, cannot exceed an amount equivalent to 25 percent per year per \$100 original face amount of the note.

To secure a loan, the property owner must present to the bank a precise estimate of the cost of the improvements and should be able to prove that they are necessary or advisable.

In addition, the property owner must file a Property Owner's Credit Statement, showing his financial condition, sources and amount of income, and other information necessary to determine his ability to repay the loan.

If the bank considers the improvements advisable, and the property owner able to meet the payments when due, it can advance the money on the personal note of the property owner. The note must be signed by both husband and wife if the property owner is married. No mortgage or collateral security is necessary, unless state law or the financial institution's officials demand it.

## Geneva And Monroe Schools Will Open Terms On Monday

White schools at Geneva and Lake Monroe are scheduled to open next Monday morning, it was announced at the County House of Representatives this morning.

Dr. Steele is the new principal of Lake Monroe school which last year had an enrollment of 119 pupils. He will be assisted by Mrs. Elizabeth Buchanan, Mrs. Pearl Bates, Miss Ruby Booth, and Miss Eula McCullar as members of the faculty.

W. L. Sieg again is principal of Geneva school. His assistants will be Mrs. Mayme Sieg and Margaret Gott. Geneva school had 69 pupils last year.

Hemlock High School will open its first semester on Monday, Sept. 17, while all other schools in the county will open on Monday, Oct. 1.

## Klan Campaign Opens Against Huey Long

ATLANTA, Aug. 28.—(AP)—The campaign of the Ku Klux Klan to unseat Senator Huey Long was reported well under way yesterday, under direction of Louisiana Klan officers but with advice and suggestions concerning the "method of operation" from national headquarters of the organization here.

Dr. Hiram W. Evans, Imperial wizard of the Klan, added to the troubles of the "Kingfish" recently by blemishing him a "maniac to organized society" and promising to bring about his defeat at the polls.

The senator was reported to have met this threat with another to send Dr. Evans out of the state "with his toes turned up" if he should ever set foot on Louisiana soil.

## CITY NEWS BRIEFS

Local weather yesterday: High 90, low 75.

Apparently refusing to be reconciled to the marriage of her daughter, performed by Mrs. Cassandra Schulta at the Court House this morning, a Mrs. Higgs of Orlando attempted suicide after creating a scene which attracted scores of passers-by.

The ceremony united Miss Johnnie Higgs and Raymond Boyd, both of Orlando. Found in a faint on the floor of the lobby of the Court House by a Herald reporter who had just passed Judge Sharon's office where the marriage ceremony was being performed, the woman was revived after a short period.

But, as she left the Court House, she again became hysterical and had to be led to her automobile by Dr. W. D. Gardner and others.

Apparently suddenly jumped from the automobile and ran toward the lake shouting that she wished to die.

Gardner and Deputy Sheriff Jack Hickson and Gettiss McClelland overtook her after a long chase, and carried her to the automobile again where she fought and kicked at her pursuers.

While Deputy Hickson was at the Sanford Clinic seeking a drug which might subdue her, the young couple calmed the woman long enough to start driving toward Orlando. The last seen of the party was the woman fighting with her son-in-law who was attempting to quiet her.

Representatives of all civic clubs in the county have been invited to gather at the Valdes Hotel next Tuesday noon for the purpose of hearing a discussion on plans to create a state park at the Big Tree south of the city, and of setting up a comprehensive recreational program in the county under the auspices of the FERA.

RAILROAD RATES

One does not have to question the statement of railroads that they "are in dire need of additional revenues to take issue with their plea to the Interstate Commerce Commission for an increase in freight rates averaging between five and six percent for the entire country. Very probably the railroads are in dire need of additional revenues. Everybody else is, too. But we seriously doubt whether an increase in freight rates at a time like this is the way to build up their revenues.

If it is estimated by the carriers that the rate increase would result in additional revenues of approximately \$170,000,000, and it is further pointed out by them that this rather large sum is only sixty percent of their increased costs as a result of bigger payrolls and rising prices. Where, it seems to us, that the railroads are making their mistake is in the belief that the producers or the consumers of the country will contribute another \$170,000,000 to the railroads in order to obtain their services.

As we see it, the principal defect in our agricultural system is faulty distribution and the chief factor in distribution is transportation. If there were no problem of transportation, there would be but little trouble with distribution. If Sanford celery could be profitably sold in New York at the same price that it can be sold in Sanford, there would be no fear of over-production, no necessity for selling under cost. The difference between the price here and there is largely the railroad's cut.

Now if this cut is to be increased, either the price at the other end will have to be increased, or the returns to the grower will be reduced. Experience has shown during the past few years that the price to the consumer cannot arbitrarily be increased without a corresponding reduction in demand. For several years now, in order to meet necessary costs and existing freight bills, it has been necessary for farmers to plow under at least a portion of their crops.

If this freight bill is further increased, farmers will find themselves plowing under an even larger portion of their crops. They will find that the consumer is no better able to pay the cost of additional freight charges than they are themselves. Instead of plowing under a third of their crops, they will be plowing under half, and finally they may be plowing them all under.

If this thing is carried to its logical conclusion, the price of celery in New York will be a thousand dollars a stalk. Only one stalk will be shipped, and J. P. Morgan, or Andrew Mellon will buy it. All the rest of the celery will be plowed under. The farmer who produces the best stalk in the county will sell it and make a comfortable profit on it, but all the rest of the farmers might as well go fishing. And a vast majority of the people in the North who want celery will have to do without it.

When this comes to pass, what good will it do the railroads? When celery is plowed under, the tonnage which the railroads haul declines by "that" amount. The railroads have already lost a considerable amount of their freight by the crop reduction programs, not only in the celery sections but also in the cotton and wheat fields, and all other agricultural areas. They are losing more of it through the competition of boat and truck lines. Do they want to lose it all?

Increased freight rates at this time will simply result in more plowing under, a smaller consumption of the fruits of agricultural labor by the public generally, a decline in the carloadings of the railroads, and an equivalent improvement in the position of competing lines of transportation. The railroads should find some other way to solve their problems. They should be as interested as anyone in a bigger movement of freight and a wider consumption of farm products.

WHAT'S WRONG HERE?

The crop problem becomes quite localized in Florida, we gather from the Sanford Herald. In the world at large, there has never been any such thing as over-production; the trouble has been under-distribution. When producers were producing too many hogs to make a profit in this country, people in China were starving for lack of a slice of ham. One section is buried in wheat when another cries for a loaf of bread. In some distant city, children are undernourished and suffering for vitamin C at a time when fruit is rotting on the ground here. The fruit growers may be enjoying their fruit but they need produce for a loaf of bread. In some distant city, children are undernourished and suffering for vitamin C at a time when fruit is rotting on the ground here. The fruit growers may be enjoying their fruit but they need produce for a loaf of bread.

AAA, NRA Blamed NEW LEAGUE By Fletcher For U. S. Economic Ills

(Continued from Page One) farmer's dollar in July 1932, was represented by the index 71, as against only 66 in July this year," he said. "The bulk of the improvement noted by Richberg took place before July, 1933—before any of the so-called New Deal emergency measures had been enacted. Government figures issued by departments under the New Deal show that from 1929 to 1932, following the hard panic, there was continuous improvement in practically every field of business until the first week in August when the depressing effects of the so-called Recovery measures began to take effect."

Fletcher said that despite "the very intimate relationship between strikes, industrial production and employment, strike statistics were conspicuously absent from Mr. Richberg's report." "Perhaps," he said, "he is merely waiting until after Sept. 1, when, in event the textile strike is called, his figures will be more up to date. In any event his next report should have a detailed account of the terrific economic losses which have been occasioned in the past 12 months by strikes."

"This should include not only the loss in hours of labor, and wages of the strikers but the losses inflicted upon other workers in industry, upon industry itself, upon the farmers, business and government."

Fletcher's attack was launched by Richberg's prepared a second report showing relief of agricultural distress under the New Deal.

CHINA LIMITS OPIUM CROP ESINKING, Aug. 23. (AP)—The Manchoukuo government has issued a warning that it intends to enforce a law passed last year which prohibits the growing of opium poppies outside designated areas. Severe penalties are promised.

KILLED BY LIGHTNING BRADENTON, Aug. 23. (AP)—Miss Elizabeth Roberts, 22, was killed Sunday afternoon when she was struck by lightning while motorboat riding on Manatee river with Don Carahan, Chas. H. H. and several others.

Revised To Promote Speed In Supervision Of Strike Army

(Continued From Page 1) computed by code mergers which will make the total only 250 instead of the present 600. Administrators also are drawing up legislation for the next Congress which will allow the National Industrial Recovery Act to be made permanent. Officials have explained that for months the administration of the code has been cumbersome due to inadequate organization. This plan is intended to produce order. Other reasons given for the change are: "Reduced administrative overhead by eliminating duplication of functions and studies. "Opportunity for many allied codes to merge by voluntary action of industry for greater economy in the self-government function. "Clearer perspective on the several classes of codes, with consequent greater definition of the problems to be solved by both government and industry in development of code law and its application, and elimination of overlapping definitions in industry codes. "Simplification of lines for more accurate statistics on industries and trades. The 22 classifications were based, NRA said, on recognition of four basic groups of enterprises: "Production of basic material from the soil. "Fabrication of what emerge from the first group into finished products. "Service industries which do not produce or fabricate definite products but which render services ranging from transportation through finance to amusements, and such service trades as laundries, restaurants, etc. "Distribution of goods, whole sale and retail. The 22 sections of the basic group to which they belong are: Producing industries—food, textiles, leather and fur, ferrous metals, non-ferrous metals, non-metallic products, fuel, lumber and timber; chemicals and paints and drugs; paper, rubber, fabricating industries—equipment, manufacturing, graph arts, construction. Service industries—public utilities, transportation, communications, finance, amusements, distributing, trades—professionals and services, wholesale and retail trades.

DROWN IN PROTEST AMOY, China, Aug. 23.—Disobedience with married life and the rigid family system of a China family nine young women were killed today in a protest against their marriages. The women, who were members of the same family, were drowned in a river near Amoy. The women were protesting against their marriages to men chosen by their families. They were found floating in the river. The incident has caused a great deal of discussion in China regarding the traditional family system.

RAILROAD REPORTS INCOME NEW YORK, Aug. 23. (AP)—Net railway operating income of the 10 central railroads in July totaled \$1,825,456 compared with \$4,280,713 in the same month last year, a decrease of 57.5 percent. In the first seven months net railway operating income amounted to \$12,903,130 compared with \$17,359,125 in the same period a year ago.

## Dance Is Sponsored By "Gator's Club"

The Woman's Club last night was the scene of a very enjoyable dance which was sponsored by the "Gator Club" of Seminole High School. Music was furnished by Peckham's Orchestra, of Lake Mary, and dancing lasted from nine until one o'clock.

Among those present were: Misses Carolyn Cogburn, Thelma Benson, Rebecca Wilson, Lucille Pope, Gladys Henderson, Katherine Verna, Margaret Verna, Virginia Ollon, Aldine Harrison, Betty Wheeler, Virginia Meriwether, Mary Elizabeth Neely, Dorothy Marshall, Dorothy Rogers, Marion Haynes, Marjorie Jones, Louise Purdon, Anna Mae Ellis, Mary McElhannon, Eleanor Johnson, Anna Cornell, and Iris Scharf.

The following Gators were present: Carl Peeler, George Anderson, Robert Cornell, Slim Johnson, Carl Vause, St. Clair Cameron, Oland Kelly, Robert Knight, J. W. Altman, Lester Phillips, and Roy Wright.

Also present were: Julian Ponder, Bill Stemper, George McClelland, John Dighton, Sam Dighton, Billy Thirpen, Charles Helms, Ralph Menger, L. M. Telford, Jack Stemper, James Chapman, Roy Echols, Raymond Goodcutt, P. M. Vickery, Charles Peckham, Bill Gainer, D. Scholes, John Courier, Bill Preston, Franklin Bennett, Jennings Hart, Bill Tyre, Spratt Long, Bob Mitty, Fred Stone, Ted Morse, Robert Young, B. Odham, Wilson Smith, J. P. Stevens, James Dimsley, St. Clair White, III, Phil Stanley, Morris Bonika, Jack Gilson, Olen Crenshaw, Charles Betts, Richard Deas, Carlyle Housholder, George More, Mae Huddleston, Arthur Johnson, and Dick McClelland.

## Social Calendar

**WEDNESDAY**  
The members of the Senior Christian Endeavor Society of the First Presbyterian Church will meet at 8 o'clock at the home of Mrs. G. H. Brown, 1114 Park Avenue, from where they will go in cars to San Isidro Springs. All members are requested to bring a picnic lunch.

**THURSDAY**  
The T. E. L. Class of the First Baptist Church will meet at 8:30 o'clock at the church annex, with Mrs. C. W. Spear and Mrs. Nettie Ingram as hostesses.

**FRIDAY**  
The regular meeting of the Rebecca Lodge will be held at 8:00 o'clock at the Odd Fellows' Hall.

The District School of Instruction for the Order of the Eastern Star will be held at 10:00 A. M. in Volusia Chapter, at DeLand. All officers and members of Seminole Chapter are urged to attend.

Mrs. A. D. Shoemaker, Mrs. F. L. Nison, Mrs. J. B. Waits, Mrs. W. A. Tillis, Mrs. D. C. Harellist, Mrs. W. E. Wells, Mrs. J. M. Moyt, Mrs. L. Flowers, Mrs. W. J. Hughey, Mrs. J. W. Russ, Mrs. H. A. Halverson, Mrs. W. M. McKim, Mrs. H. B. McCall, Mrs. Bessie Hutchison, and Mrs. R. F. Crenshaw.

## J. J. Bolly, Honoree At Birthday Party

Honoring J. J. Bolly, who celebrated his birthday recently, Mrs. Bolly entertained with a party Saturday evening at her home on the West Side. The rooms of the residence where the guests were entertained were adorned with artistic bouquets of pink roses, accenting the chosen color scheme of pink and green.

The birthday table, which was placed in the dining room, was covered with a lace cloth and additional bouquets of pink roses together with lighted candelabra placed at each end formed the picturesque setting for the birthday cake which was decorated in colors of pink and green.

Entertainment for the evening consisted of songs and music which were furnished by a group of the guests. Just before dusk the guests assembled on the lawn of the Bolly home where they were served dinner by Mrs. Bolly, assisted by Mrs. Fred Bolly.

Among those present were: J. J. Bolly, honor guest; Mr. and Mrs. Fred Bolly, Mr. and Mrs. Frank Kasperman, Mr. and Mrs. W. J. Wolf, Mr. and Mrs. H. W. Goddard, of Mount Dora, and Misses Gertrude Goddard, of Mount Dora, Jeanette Wolf, Lois Wolf, Norma Wolf, Ruth Kasperman, and T. C. Carlson, Ralph Wolf, Emil Kasperman, Jr., and Arnold Kasperman.

## Miss Grace Williams, of Columbia, S. C., returned yesterday to her home there, after having spent a week here as the guest of friends and relatives.

Judge and Mrs. L. Evans Cray, of Stuart, were the guests yesterday of Judge Clary's uncle and aunt, Mr. and Mrs. George Shipp, at their home here.

Miss Kathryn Johnson, who has been visiting in Miami for the past several weeks has accepted a position with the Espanola Beauty Shoppe and will make her home there with relatives.

Mr. and Mrs. Albert Smith, of Savannah, Ga. are commemorating the birth of a daughter, Mary Sawyer, on Aug. 23 at their home. Mr. Smith will be remembered as the former Miss Katherine Jewers of Sanford.

Mr. and Mrs. J. C. Mitchell returned yesterday from Clayton, Ga. where they spent their vacation. Mrs. Mitchell has been away for some time and will be home by way of Atlanta.

Jack Aycock left yesterday for Lafayette, Ind. where he will spend ten days at the national convention of the Phi Kappa Tau national society fraternity which is to be held in that city. Mr. Aycock is a member of the Phi Kappa Tau, North Carolina State College.

The regular monthly business meeting of the First Methodist Church was held yesterday afternoon at the home of Mrs. E. J. Crenshaw, 1135 East Seventh Street. The rooms of the residence where the guests assembled were decorated with artistic bouquets of alismas. A short business session, which was presided over by the vice-president, Mr. J. H. Powell, included a discussion of the coming election of officers, which takes place next month.

Following the business meeting, a social hour was enjoyed at which time an interesting program was given. Those taking part in the program were: Mrs. John Varn, who gave several readings from Edgar A. Guest, and little Josephine Russi and Mary Russi, who sang a number of duets. A sweet course was then served by the hostesses, Mrs. W. M. McKim, Mrs. H. B. McCall, Mrs. Beattie Hutchison, and Mrs. Crenshaw.

Mrs. Catherine Benton, of Rockledge, N. Y., and Mrs. E. B. Pritchard, of Baltimore, Tong, Island, plan to leave tomorrow to Jacksonville where they will board the steamer "Shamrock" for New York. Mrs. Benton and Mrs. Pritchard have been the guests for some time of Mr. and Mrs. Barney Beck. They will be accompanied by Miss Minnie Beck, who will be their guest at their respective homes in New York. Mr. and Mrs. Beck and their guests have recently returned from a short trip which included Silver Springs, Tampa, St. Petersburg, and Sarasota.

Among those present were: Mrs. J. D. Jenkins, Mrs. J. H. Powell, Mrs. T. E. Wilson, Mrs. John Varn, Mrs. W. D. Hootman, Mrs. E. A. Moffett, Mrs. W. L. Clark,

## Holiday SAFETY WEEK

# Buy Firestone

### SAFEST TIRES IN THE WORLD! PRICES REMARKABLY LOW!

## Here's PROOF OF SAFETY

TWO BREATH-TAKING ENDURANCE RUNS LAST WEEK ON SAME TRACK—A DRAMATIC COMPARISON OF SAFETY! READ BOTH LETTERS!

**THE Proof of leadership in performance! Many claim it, but Firestone proves it. Never before have three without such severe, continuous, grinding torture, breaking 77 records for 3,000 consecutive miles at 127.2 miles an hour. Not a Gum-Dipped cord loosened, not a tread separated, not one blowout.**

Hour after hour, on through the scorching heat of the day and inky blackness of the night, with temperatures as high as 120 degrees—breaking record after record for speed, strength, safety and blowout protection—all in a stupendous demonstration of safety performance for the car owners of America.

This remarkable achievement was made possible by Gum-Dipping, the Firestone patented process which saturates and coats every fiber within the cords with liquid rubber—counteracting friction and heat and preventing the tire from heating up and blowing out.

For your holiday trip have the Firestone Service Dealer or Service Store equip your car with Firestone Tires, Spark Plugs, Battery and Aquaparf Brake Lining. Protect your life and the lives of your family with the safest tire in the world. Buy them this week before prices go higher.

**Mr. Harvey S. Firestone, Chairman, Firestone Tire & Rubber Company, Akron, Ohio**

Dear Mr. Firestone:

Under A.A.A. supervision I have just completed a 3,000 mile endurance run on the hot salt desert at Lake Mead, Nev. My car, weighing over 4,000 pounds, averaged the 3,000 miles at an average speed of 127.2 miles per hour—without tire trouble of any kind. I used Firestone tires—all without tire trouble of any kind. The tires were all about the same, but the Firestone tires were a little more durable than the others. They were particularly good in the heat and in the sand. They were also very quiet and had little road noise.

This endurance run was the severest test to which I have ever subjected my automobile and especially tires. Last year I made a similar run with a car of less weight, but I had a similar tire trouble. The tires were all about the same, but the Firestone tires were a little more durable than the others. They were particularly good in the heat and in the sand. They were also very quiet and had little road noise.

This year I also used Firestone Spark Plugs and a Firestone Extra Power Battery made with your new All-Battery Separator. The battery was very good and the Spark Plugs were very good. I had no trouble of any kind.

If every car owner knew what my Firestone tires made through they would appreciate what Gum-Dipping means in strength and heat protection that make Firestone tires safe from blowouts.

This is the toughest run I have ever made in my twenty-three years of breaking speed records and after a short stop here I am coming back to you, hoping to have the pleasure of seeing you then, and with best regards, I remain,

Sincerely yours,

WILBUR SHAW

Mr. Wilbur Shaw, Firestone Tire & Rubber Company, Akron, Ohio

Dear Mr. Firestone:

I have just finished a 3,000 mile test on the hot salt desert at Lake Mead, Nev. My car, weighing over 4,000 pounds, averaged the 3,000 miles at an average speed of 127.2 miles per hour—without tire trouble of any kind. I used Firestone tires—all without tire trouble of any kind. The tires were all about the same, but the Firestone tires were a little more durable than the others. They were particularly good in the heat and in the sand. They were also very quiet and had little road noise.

After an experience of this kind I can honestly say that I have never before had such a long and safe run on a single set of tires. I have never before had such a long and safe run on a single set of tires. I have never before had such a long and safe run on a single set of tires.

I am sure that you will be interested in the fact that I have never before had such a long and safe run on a single set of tires. I have never before had such a long and safe run on a single set of tires. I have never before had such a long and safe run on a single set of tires.

### Florida Power Co. Refused Request For Lower Taxes

(Continued From Page One)

pay an unpaid balance of \$1400 owing from last year.

The first action followed the receipt of a letter from A. B. Crosby, tax commissioner for the company. Replying to the Commissioners' request for an inventory of all real and personal property owned by the company within the City limits, Mr. Crosby stated that such an inventory would require from 60 to 70 days' time, and that it was not considered advisable to undertake such a survey at this time.

Reminding the Commissioners that the company's personal property is assessed now at \$370,000 with the real property assessed at \$51,000, Mr. Crosby expressed the conviction that the Commissioners would make the reductions requested.

On August 22, with the following reply from acting Mayor H. J. Lehman who was presiding in the absence of Mayor W. A. Lester: "Well, since they have refused to give us the inventory which we requested and need to determine a basis for valuation, we certainly have the right to assess property as we see fit. There's little else that we can do."

Commissioner T. L. Dumas agreed in these views with, "If they can't tell us about their properties, there's no reason why we should know about them," while Commissioner V. A. Speer helped conclude the short debate with, "They're just paying the way for a reduction next year, that's all."

The Commissioners were discussing a plan to make another 10 percent flat reduction in real assessments when they were reminded by Clerk Lamson that under the charter, assessments now are at the minimum which will permit a 15 mill levy for operating expenses.

As a matter of record, the Commissioners ordered the following:

**RESULTS FROM WANT ADS**

- Automobiles**
- 1933 DUAL** long wheel base Dodge Truck, \$450. 1930 Model A Coach \$225. Reel & Sons.
- Business Service**

- FOR SALE:** Missionary Straw-hat. Box Packard.

statement recorded on the minutes of the meeting: "We realize that assessments in this City are fully 100 percent of their value, but due to the fact that the City is limited under its charter to 15 mills for operating expenses, we are unable to make a further reduction in the tax valuations for 1934-35."

Official adoption of the 1934-35 tax roll came a few moments later. Although no official figures could be secured as to the total of real and personal property valuation as compared with last year, Clerk Lamson stated that the change will not amount to very much. Less than \$50,000 change has been made in the real property roll, he said.

The Commissioners failed to take action on the company's offer to pay 1933 personal taxes when two motions died for lack of a second.

Commissioner Dumas moved that the City pay the company what was owed it, "if and when the company pays us the 1933 personal property tax of \$8100."

Commissioner Speer moved that the City not pay the sum owed the company until the firm turns on the 50 percent more of lights which they promised to turn on at no extra cost.

Acting Mayor Lehman did not vote in virtue of his position in the chair so the entire discussion went into the records as one in which "no action" was taken.

A highlight of the meeting came when Otto Caldwell, representing the St. Johns River Line Co., offered to remove all of the wooden piling in the present yacht basin for \$650, payable in taxes. The Commissioners had discussed two bids for this work, one for \$1080 as made by the Sanford Boat Works, and one for \$800 as made by W. F. Ravenel.

Mr. Caldwell promised to have the piling removed and piled on the bulkhead within the next 10 days, and Superintendent of Parks James Moughton stated that he would remove them to the City dump within two days after their removal.

For his "good and efficient service" in the past, Fred Hogan, former police officer who suffered a broken leg in a motorcycle accident some years ago, was tendered a sum up to \$50 to pay for additional medical attention needed.

Rockey's Tire Shop was the low bidder at \$189.82 for the sale of four tractor wheels, tires and weights which will be installed on a City owned tractor.

Reel and Sons was named the low bidder at \$749.58 for the sale of a Dodge ton and a half truck with hoist.

With six auto firms tendering bids on a new police car, and bids varying from \$496 net on a Chevrolet to \$760 net on a Graham, the Commissioners voted to hold up award of a contract until 1:30 o'clock Wednesday afternoon when they would inspect the lower priced cars.

The Commissioners also approved a permit for the construction of a Sun Oil Co. terminal and warehouse just south of City-owned property on North French Avenue.

Subject to the approval of Mayor Lester and Commissioner S. O. Shinholser, Lee Brothers was awarded the bid on supplying the City with several hundred feet of water mains and joints that are to be used in installing five fire hydrants from Second to Sixth Streets between Magnolia and Park Avenues.

Reporting the fact that airport lights need to be lighted only for an hour each night, Commissioner Speer recommended that the City should take advantage of an offer by the State Aviation Board to install airport marking lights at no cost if the City will furnish the electricity. The recommendation was accepted.

Clerk Lamson's recent purchase of seven City of Sanford bonds at a price of 15 flat was approved.

Approval also was given to the granting of a beer license to D. D. Welborn for his Downtown Club.

The Commissioners were advised that the Bondholders' Protective Committee cannot meet with the Commission for a discussion of the debt situation until after Sept. 10.

**PERK'S PLACE**

Baked Ham & Potato Salad **15c**  
Hamburger (browned in butter) and Potato Chips **10c**

For something entirely different try a Cubed Steak Sandwich.

**100% "Kilowatt" operation.**  
Sterling Cold Hi-Test BEER

Next door to Trianna South of Sanford

No action was taken on the plan of purchasing radio equipment for police cars. An out-of-town firm offered to install a single receiver and sending apparatus for about \$2000, while W. D. Hofmann was quoted as saying he could supply three receivers and a sending apparatus for about \$1100.

Upon recommendation of Chief of Police Roy G. Williams, the Commissioners approved the acceptance of \$10 in final payment of a fine owed by Tom Palmer, but they refused to take action on a request of Mrs. Saldie Brouse that Joe Williams, white painter who is serving a jail sentence, be allowed time off until he had finished repairing a house owned by her.

The Commissioners instructed Clerk Lamson to notify J. T. Hardy, city employee, and A. B. Peterson of the Seminole County Sentinel, that the City did not wish to rent any of the houses acquired by recent foreclosure proceedings.

Clyde Lamson also was instructed to re-advertise for bids on the purchase and removal of all city-owned houses or buildings. Bids now are returnable on Sept. 10, next meeting of the Commission.

No action was taken on Mrs. Helen R. Pearson's complaint that she had been imposed upon, because, in not paying her water bill, the water had been cut off.

Upon recommendation of Mr. Moughton, John Lawson, negro who has worked for the City for the past 26 years will receive a donation of \$1 per day for every year that he is incapacitated as the result of a recent operation for appendicitis.

### STRIKE HEADS TO MEET WITH LABOR BOARD

(Continued From Page One)

decide to make a strike unnecessary by agreeing to negotiate immediately and to a swift conclusion on the basis of our demands, meeting them measurably, then we should accept the new situation by not doing what it should no longer be necessary to do."

Meanwhile, the answer to Garrison's request for a conference was awaited from George A. Sloan, head of the Cotton Textile Institute.

It was generally thought that that board might have taken up the matter earlier had it not been tied up completely in efforts to settle the aluminum strike. For the first time, the board had representatives of the strikers seated at a conference table with spokesmen for the Aluminum Company of America, a Mellon interest.

Meanwhile, elaborate textile strike preparations were polished at the strike headquarters here. Gorman said the exact hour of the strike would not be disclosed Thursday, but authentic sources said confidential instructions had been sent to regional leaders to stop all cotton mill operations at the close of work Friday.

Noting of lot 2 (Legs 8, 22, 24) Section 28 East, 21 acres. The said land being assessed at the date of the issuance of such certificate in the name of UNKNOWN. Unless said certificate shall be returned according to law tax deed will issue thereon on the 15th day of October, A. D. 1934. Witness my official signature and seal this 23rd day of August, A. take something new and untried without mentioning a single advantage the new Agreement has over the said successful one of last year. Could it be that these interests are under such tremendous financial obligations to Washington that they do not dare express themselves, but must all claim by and accept at full face value anything that Washington proposes? There still may be another reason. Perhaps these interests went to Washington and helped draft or write the Agreement. Can it be that something has tied their hands?

"MR. GROWER, it is time that you analyzed this whole Marketing Agreement from all angles. Dig in and find out why some of these things are being done, or not done. You are the ones that will be penalized when this new Agreement does not work. You are the ones to be hurt if California and other competing sections tell us how much fruit you can ship and how much you must destroy. You are the ones that will suffer when you must ship your fruit on the low market, as provided in the new Agreement prorate plan. If you don't ship it the Control Committee would have the right to consider that you have shipped it and accordingly reduce your prorate, thus making it impossible to ship all of your fruit at a later date if the market should be better.

"It may be significant that some who may have had a great deal to do with the drafting of the Agreement have no investment in the Florida citrus industry as growers. The only financial interest they have is the salary they draw. Florida needs an Agreement. We must have one—but we want one that is fair, that is practical, that will not give advantages to some interests over others, one that will be open and above board, and lay all the cards on the table." Mr. Chase concluded.

The little island of Egg, in the Hebrides, has a musical beach, which gives out a shrill, sonorous note, causing a tingling sensation in the wayfarer's feet.

Two years ago a man in Havana, Cuba, sneezed and a bullet, which had entered his head 15 years before, dropped out of his nose.

**Stop Chills and Fever!**

**Rid Your System of Malaria!**

Shivering with chills one moment and burning with fever the next—that's one of the effects of Malaria. Unless checked, the disease will do serious harm to your health. Malaria, a blood infection calls for two things. First, destroying the infection in the blood. Second, building up the blood to overcome the effects of the disease and to fortify against further attacks.

Grove's Tasteless Chill Tonic supplies both these effects. It contains tasteless quinine, which kills the infection in the blood, and iron, which enriches and builds up the blood. Chills and fever soon stop and you are restored to health and comfort. For half a century, Grove's Tasteless Chill Tonic has been sure relief for Malaria. It is just as useful, too, as general tonic for old and young. Pleasant to take and absolutely harmless. Safe to give children. Get a bottle at any store. Now two sizes—50c and \$1. The \$1 size contains 2 1-2 times as much as the 50c size and gives you 25 percent more for your money. — Adv.

## SOCIALIST SINCLAIR NOMINATED

### California Democrats Elect Him As Their Candidate For Gov- ernor In November

By The Associated Press  
Upton Sinclair, Socialist, will be the Democratic party's candidate in November for the governorship of California.

The fiery penman novelist-actor yesterday won the nomination for the Democratic party's candidate for governor in California.

The fiery penman novelist-actor yesterday won the nomination for the Democratic party's candidate for governor in California.

## To Wed Beauty

Prince George, of England, whose romantic courtship of the beautiful Princess Marina, of Greece, has resulted in the announcement of their engagement and approaching marriage.

## UPTON SINCLAIR WOULD SEIZE ALL UNUSED LANDS

Unemployed Would Benefit By Program Written By Author

SAN FRANCISCO, Aug. 23.—(AP)—The seizure of unoccupied agricultural land and idle factories by condemnation proceedings and their operation by the unemployed under state supervision is contemplated in Upton Sinclair's scheme to "end poverty in California" within two years.

This was the outstanding issue upon which California Democrats voted yesterday in the primary election. Sinclair, author and former Socialist, sought the Democratic nomination for governor with the plan as a platform.

Under his plan, the state would lease \$300,000,000 in bonds to purchase land and factories, and supplies and equipment. The bonds would range from \$10 to \$1,000.

A state money authority would handle the financing and would issue scrip to pay workers for their labor and products and for the transaction of business within the system.

The state 2 1/2 percent sales tax would be repealed and a state income tax would supplant it. Income under \$5,000 yearly (Continued On Page 2)

## Retail Prices Are At Highest Level Since December '31

WASHINGTON, Aug. 23.—(AP)—Retail food prices shot upward to their highest level since Dec. 15, 1931, during the two weeks ended Aug. 14.

For the same amount of food that a housewife could have got for \$1 in 1931, she had to pay \$1.11 during the first two weeks of this month, the Labor Department reported yesterday. Prices still were 36.5 percent below their 1926 average, however.

The department's index showed an accumulated rise of slightly more than four percent since Apr. 26, when the present increase began.

The low point in recent years came Apr. 15 last year when 89 cents bought the same amount of groceries that \$1 bought in 1913.

## Newell Says Sholtz Means Business In Slot Machine Drive

TALLAHASSEE, Aug. 23.—(AP)—Florida sheriffs were told yesterday that Governor Sholtz meant just exactly what he said when he instructed them to clamp down on slot machine operations in their counties.

"Governor Sholtz meant just exactly what he said in his letter of Aug. 14 to all sheriffs, state attorneys, and county solicitors," Newell's letter said. "He expects the operation of all slot machines which contain an element of chance in their operation in violation of law to be stopped and kept stopped throughout the entire term of his administration."

Newell told the sheriffs: "The Governor is relying upon you to see that the law is enforced. He is charging you directly with the responsibility therefor, and I sincerely trust that your reply to this letter will indicate that the Governor's directions have been carried out, meaning that these slot machines have been removed, together with our assurance—that they will not again make their appearance during your tenure of office."

## Ft. Pierce Donated Most For Fair Show

JACKSONVILLE, Aug. 23.—(AP)—Fort Pierce led Florida cities in raising money assigned them for keeping the Florida exhibit open at the Chicago fair, the Florida World's Fair Commission announced yesterday.

In addition to Fort Pierce, Apalachicola, Lake Wales, Lake Wales, Palm Beach, Plant City, Sarasota and Tallahassee secured their quotas, but it was pointed out that Fort Pierce raised the largest amount in proportion to its quota and population.

## PROBE OPENS INTO DOINGS OF WAR LOBBY

### Heads Of American Firms Selling Death Weapons To Testify Before Senate Body

CHICAGO, Aug. 23.—(AP)—A hundred officials of American companies engaged in the grim business of selling war supplies are under subpoena, it was disclosed yesterday, to tell their secrets to the first American investigation of this trade.

They will be asked to tell what profits are made in explosives, armor plate, airplanes, poison gas and other implements of modern warfare and to relate what interest, if any, the American firms have in the so-called "international munitions ring."

Senator Nye, chairman of the Senate committee which will open hearings at Washington Tuesday, confirmed reports that the name of Sir Basil Zaharoff, called the "mystery man of Europe," would be heard on the committee debut into international aspects of its study.

Nye would say only, however, that the committee's investigators hold some "interesting letters" between Sir Basil—a Greek-born multimillionaire—and American armament firms.

The list of 100 witnesses who will furnish three weeks of testimony, includes, Nye said, makers of powder, small arms, war chemicals and war metals; airplane and ship builders; and "many small jobbers" who fill the supply orders for minor war and for revolutions.

Reports have been that the witness list is headed by James D. Pugh, director of the vast DuPont works, and that it includes heads of some of the nation's biggest steel companies.

The "war lobby" in Washington will come under scrutiny, said Nye, and his committee will go into charges that munitions makers are "selling out."

## Bar Association To Clean House Of All Dishonest Lawyers

MILWAUKEE, Aug. 23.—(AP)—Welling sentiment for a curb on dishonest lawyers burst over the American Bar Association convention yesterday as its president demanded an immediate house cleaning.

Earle W. Evans, of Wichita, Kan., head of the association, warned that the public holds the entire legal profession in suspicion because of the activities of some of its members.

He admitted there have been acts warranting the public's distrust, then said: "We are all suffering. Our influence is minimized, our honesty doubted, and our leadership repudiated, all because of the sins of a relatively few. Let us no longer delay the already too long deferred house cleaning. Let us begin it at once."

Evans said the depression presents and leadership is greatly needed. Because of the public's neglect of important duties, advocates of other forms of government have been able to go to lengths that would not otherwise have been tolerated. Crime is costing more than 20 billion dollars annually.

English Craft Seen As Winner Of Race

## Morgenthau Says Enormous U. S. Debt Will Be Reduced By Profits On Gold Policy

WASHINGTON, Aug. 23.—(AP)—An eventual inflation of \$2,000,000,000 was recent last night by Secretary Morgenthau with an announcement that the Treasury expects, sooner or later, to apply its gold "profits" to a reduction of the national debt.

At the same time, the cabinet officer said in a radio address that the "gold" of the "New Deal" could not be measured by the increase in the national debt, which under the present Administration has amounted to \$4,000,000,000.

From this, he added, must be deducted an increase of \$2,000,000,000 in the Treasury's cash balances, an increase in the assets of government financial agencies, totaling \$2,000,000,000 which will later be realized upon the cash and the gold "profits." With these deductions made, the net cost would be \$200,000,000.

Interest payments on our debt, the inflationary possibilities opened up by the intended use of the gold "profits" this \$200,000,000 is under lock and key," he said in a radio address, his first speech since taking office. "That of it by inflation? No, Congress, I suggested in the so-called stabilization fund, and for the present we propose to keep it there."

"But I call your attention to the fact that ultimately we expect this 'profit' to flow back into the stream of our other resources and thereby reduce the national debt, which under the present Administration has amounted to \$4,000,000,000." (Continued On Page 2)

## EUROPE GROOMS ARMIES FOR NEW HIGH SPEED WAR

LONDON, Aug. 23.—(AP)—Confident the "new" war would be fought at high speed, Europe last night was grooming fast new soldiers to do the job.

While London and Paris army men tended to differ with the usual Italian military authorities engaged yesterday, to the effect that trench warfare was obsolete, Great Britain and France, nevertheless, went forward with daily efforts to speed up the movement of troops.

The League of Nations' annual yearbook published at Geneva yesterday estimated that the world spent between \$3,672,000,000 and \$4,220,000,000 gold for armaments in 1933.

A great part of this, army men agreed, went for tanks, air planes (Continued On Page 2)

## Too Much Work Has Driven Austrian Hangman Crazy

VIENNA, Aug. 23.—(AP)—Too much work has driven Austria's hangman crazy.

The nervous and emotional strain connected with the execution of 12 Nazis and nine Socialists since February and, Johann Lang, turned on perhaps Europe's most notoriously demented executioner, into an angrier, the experts said, and an ordinary policeman just the last Nazi to die.

Lang invariably wears evening clothes to work.

## BYRNS TURNS GUNS ON TALK BY FLETCHER

### Majority Leader Says GOP Chairman Did Not Give Facts In Attack On NRA

WASHINGTON, Aug. 23.—(AP)—Representative Byrns, majority leader, asserted in a statement today that Henry F. Fletcher, chairman of the Republican National Committee, had disregarded facts in attacking Monday a report to the President by Richard L. Nease, director of the National Recovery Administration.

An assertion that America is emerging from the depression more rapidly than any other nation was combated last night by Donald Riehlberg, N.R.A. counsel, with a defense of N.R.A.

Both Byrns' statement and copies of Riehlberg's radio address last night were distributed by the Democratic National Committee.

Riehlberg, acting head of the National Emergency Council and the Executive Council, summarized the conclusions of his voluminous report last night as follows:

"First—That the government activities all fit into a well conceived and consistent plan to relieve immediate distress and to attack underlying causes of the depression.

"Second—That this plan has been effectively carried forward.

"Third—That as the direct result of the measures adopted and their practical administration, the American people have been able to lift themselves out of the depression more rapidly and with less internal distress, and at lower cost in human suffering and human waste upon property, than any other comparable nation, indeed, according to these standards, we have made a better record of recovery in 18 months than our nation ever made in any previous comparable depression.

"Finally—This advance to economic security has been achieved by combining governmental action with the organization of industry and agriculture for self-help, in such a manner as not only to progress, but to strengthen our (Continued On Page 2)

## F. F. Dornier Assures Rotarians Market Idea Is Progressing

Assumes that "Everything is working out satisfactorily on the new Farmers' Wholesale Market," was given Sanford Rotarians yesterday by F. F. Dornier, secretary of the Seminole County Agricultural Association, in a discussion of the project.

Mr. Dornier quoted from a telegram sent to him by State Marketing Commissioner L. H. Edwards in Washington attempting to secure Federal aid for the project, which Mr. Dornier said would mean a great deal to this section.

"The main aim of the new market," he said, "is to enable our growers to get away from the one-crop plan, and as I see it, the crop is our only salvation."

Rotarian S. C. Gray introduced and welcomed Ray Baller as the club's newest member.

## Tropical Storm Is Still Held Menace

WASHINGTON, Aug. 23.—(AP)—A Weather Bureau storm warning said at noon: "A tropical disturbance of undiminished intensity apparently centered about 200 miles south of Galveston will probably move northward, inhabitants on the extreme eastern Texas and western Louisiana coasts are especially urged to be on the alert for later advices."

## CITY NEWS BRIEFS

Local weather yesterday: High 83, low 72.

State Senator J. J. Parrish of Titusville stated yesterday, during a conference with Chamber of Commerce officials, that he had definite assurance during the past few days, that the lakefront boulevard project of first priority, and that it will be completed just as soon as federal funds are available.

C. E. Gornley, employee of the Crown Paper Co., in authority for the statement that the pitted white his son, Charles, fired at Dickie Brown last week, to cause burns which required medical treatment, was a boy pistol belonging to Dickie and not to Charles or Mr. Gornley. The latter said that a Herald story left the impression that Charles Gornley secured a pistol from the Gornley home when the facts are, Mr. Gornley says, that he does not own a pistol.

The rather unusual sight of a general laborer at work on Park Avenue, this city's main thoroughfare, has the endorsement of practically every person residing in an area within two blocks of the street, located at Eleventh Street and Park Avenue. Friends of the Rightist evangelist who is holding a meeting in the best secured scores of signers to a petition which was presented at the City Hall together with a request for permission to erect the tent. The petition endorsed the proposed meeting, and a permit was granted on that basis, it was learned today. (Continued On Page 1)

## Roosevelt Laughs Off Rumors Of Currency Inflation

HYDE PARK, Aug. 23.—(AP)—President Roosevelt quipped today at his regular press conference here that it is only the ultimate intention of the government to use the gold profit from devaluation of dollar, and he laughed away inquiries of inflation which Mr. Roosevelt said would mean a great deal to this section.

"The main aim of the new market," he said, "is to enable our growers to get away from the one-crop plan, and as I see it, the crop is our only salvation."

Rotarian S. C. Gray introduced and welcomed Ray Baller as the club's newest member.

Those attending were: Mr. Michaels, Senator Parrish, Miss Nona Wylie of Lake Mary, Gus Schmah of Lake Monroe, F. F. Dornier, of Altamonte Springs, F. W. Dornier, Peter Thurston, F. W. Dornier, C. E. Dawson, H. J. Gut, F. E. Wilson, G. E. Balgans, F. T. Williams and Karl Lehmann.

## Panama City Brothers Die In Plane Crash

BONIFAY, Aug. 23.—(AP)—Paul H. Lindsay, 32, and his brother, Harold E. Lindsay, both of Panama City, were killed yesterday on their plane crashed into a farm field near here.

W. D. Driver, on whose farm the airplane crashed, said it appeared to be having engine trouble before it suddenly dived to the ground.

## PAT HURLEY DENOUNCES NEW LEAGUE

### Hoover, War Secretary Says Group Headed By Smith, Davis In A "Smear Campaign"

WASHINGTON, Aug. 23.—(A.P.)—Patrick J. Hurley, Hoover Secretary of War, denounced the American Liberty League today as a "smear campaign."

In a statement issued from his law office here, the Oklahoma became the first outstanding Republican to comment formally on the young organization.

It has been hailed by some Democrats as designed to "obstruct" and "vandalize" the New Deal. Its announced purposes included an offer to help President Roosevelt, and not to hamper.

Hurley recalled what Republicans in the last administration attacked as a "Smear Hoover" campaign, saying the League was headed "by the same man who led that."

The reference was to Joseph P. Kamp, former executive chairman of the Democratic National Committee. The office of former Governor (Continued On Page 4)

## County Commission Will Be Asked To Help Close Wells

A special committee of members of the Agriculture and Legislative Committees of the Seminole County Chamber of Commerce will appear before the Board of County Commissioners next Tuesday morning to ask for assistance in a campaign aimed at closing all old wells now flowing without apparent purpose.

The Commissioners will be asked to assist County Agent C. R. Dawson in a program he has evolved, and it is expected that the fact that under such wells are capped, the soil underlying this section's rich producing lands will become useless.

This decision was reached at a special meeting of the two committees yesterday afternoon. The special committee will include F. F. Dornier, Mayor W. A. Leffer, H. M. Papworth, C. R. Dawson and H. J. Gut.

Helpful information and advice was given committee members during the meeting by A. J. Richmond, of Orlando, now engaged in making a survey for federal authority on the water supply of Florida, and Senator J. J. Parrish, of Titusville, who offered his cooperation in the program.
