

DEMOCRATIC NOMINEE IS MR. KNOTT

STATE CANVASSING BOARD SO DECLARED YES- TERDAY

Tallahassee, Fla., Sept. 21.—In compliance with an order from the state supreme court, the state canvassing board, comprising the secretary of state, as chairman, attorney-general and state treasurer, met this morning and canvassed the amended returns for governor, declaring W. V. Knott the nominee over Sidney J. Catts, the nominee by the first count, following the June 6 primary. Knott's lead over Catts, after a recount in twenty or more counties had been held by order of the court on petition by Knott, was only twenty-one votes.

Sidney J. Catts, who loses the certificate of nomination for governor with today's action of the state canvassing board will petition the court to have the Alachua canvassing board include in its returns for governor the La Crosse precinct, which gave Catts a majority of 59 votes. This precinct was not counted for governor because the election officials of the precinct failed to sign the returns. The vote for all others in the precinct was counted, it is alleged.

Should the fight direct that the vote in this precinct be certified to Catts will demand that the state board reconvene and reaward him the certificate of nomination. He would then have a lead of thirty-eight votes. The contestants have but fifteen more days in which to fight the courts. Whoever has the certificate on October 6 will remain the nominee of the party.

"I shall make an active campaign of the state during the next seven weeks," said Mr. Knott this noon, after he had been declared the nominee for governor by the state canvassing board.

Business men Change Minds

The ideas of laundrymen, merchants and businessmen generally are being revolutionized by the records of delivery costs compiled by manufacturers of the Smith Form-a-Truck. Mr. J. L. Hurt, local representative of this company says:

Heretofore business men have looked upon delivery problems as a necessary evil, a constant source of worry and expense, which had to be endured because it could not be corrected.

This mental attitude has undergone a complete change. Business men are beginning to see that deliveries instead of being a plain nuisance can be converted into a means of rendering service—a means of creating business at a cost so low as to be almost negligible.

For this change, the Smith Form-a-Truck is mainly responsible. By cutting the cost of deliveries to a mere fraction of their former proportions, this truck has placed in the hands of merchants and laundrymen the most wonderful business weapon ever devised.

GOOD OIL A NECESSITY

George W. Franklin Advises Care in Auto Oils

Few sales of automobiles are made nowadays, in the course of which the buyer does not ask some pertinent questions regarding the cost of upkeep, tires, gasoline and oil, declares George W. Franklin, Detroit distributor.

The purchase of tires and gasoline is popularly supposed to drain the purse of the motorist, but any motor car manufacturer knows better, and he has the figures before him. The facts are, that three-fourths of the upkeep cost of automobiles today can be traced to the carelessness of owners in keeping their cars properly lubricated.

As Mr. Franklin sees it, the importance of buying top quality lubricating oil cannot be over estimated. "Ten dollars," he states, "will probably pay for the best that the average car will require in a year. The better the oil is, the farther it will go. A temporary saving of two or three dollars in the purchase of a

cheap oil, and these oils are offered the motorist from every street corner, often resulting in a repair bill of a hundred dollars. We are accustomed to think of oil lubricating because it is slippery, and few of us stop to think further on the subject. If we did, the difference in one oil from another would come more forcibly to our attention, and more of us would see the point.

Look at two highly polished surfaces under a microscope and you will be astonished at their roughness. Take these two surfaces and rub them one over the other, reproducing the conditions that exist in your engine. As the pressure of your rubbing increases, and heat develops from friction, they will move harder, and develop a tendency to cling together or "seize" as the mechanic puts it. Now place between these same surfaces several steel balls. Friction is at once, marvelously reduced and the surfaces move one over the other with astounding ease.

Substitute for the film balls a film of lubricating oil and the same effect is obtained, for the lubricating oil is in reality composed of countless minute globules, which serve the same purpose as the steel balls. They keep the bearing surfaces apart, and slip and slide by one another easily.

Suppose the steel balls used in the above test became chipped. They would at once cease to perform their function properly. Just so it is with the minute globules of which oil is composed. The heat and pressure to which it is exposed splits up some of it, an injury that is both chemical and physical in character. Most of the broken down oil is burned with the fuel, but what remains is carbon. This is a fine black dust that permeates the oil, turning it black. This dust has the same action on the inside of the motor as fine sand and does most of the mischief. According to the quality of the oil this formation is either fast or slow, and consequently the use of the very best oil where this formation is slowest and the frequent draining of the old oil and replacing with new is requisite if you would cut down the upkeep cost of your car from to 75 per cent.

ST. JOHNS IS THE LOGICAL INLAND ROUTE

CHAIRMAN C. R. WALKER RETURNS FROM PHILADELPHIA MEETING

C. R. Walker, chairman of the committee on Inland Waterways of the Sanford Board of Trade is home from Philadelphia where he attended the national meeting of the Inland Waterways Association of America and he is most enthusiastic over the outlook for Florida.

Mr. Walker has his heart in this great work of having more waterways not only down the Atlantic seaboard but in every part of the United States and is especially interested in having the St. Johns river designated as the inland route through Florida. He met with a most generous response from the people present at the meeting and has high hopes of having some favorable action from the government engineers at an early date.

Mr. Walker also gave his whole hearted support to Miami as the next convention city of the Inland Waterways convention and in return he has the support of the Miami and the lower east coast delegation. Mr. Walker was already well versed on the subject of inland waterways and the needs of Florida, but his trip to Philadelphia has only strengthened his belief in the validity of our claims for the great St. Johns river as the inland waterway.

The delegates to the convention at Philadelphia were treated royally and were given side trips over that section of the country and banquets and feted. Mr. Walker says there is an era of prosperity in the east and northeast such as was never known before and that the people will flock to Florida this winter by the thousands. He boosted Sanford early and late and was kept busy answering questions about this great section of the state.

FRANCHISE PETITION IS WITHDRAWN

CITY COUNCIL COULD NOT GRANT TRACTION RIGHT OF WAY

September 18, 1916.
City council of the city of Sanford, Florida, met in regular session of the above date at 7:30 p. m. Present, B. W. Herndon, president of the council, and Councilmen C. H. Dingess, W. W. Abernathy, F. L. Miller, R. A. Newman and Roy Symes. Absent, John Adams.

Minutes of last regular meeting read and adopted.
Mr. E. A. Douglas came before the council and asked that he be allowed to redeem back taxes and liens on Lot 8, Block 3, Tier 1, Sanford at a flat sum, and on motion clerk was instructed to get the total amount due for such back taxes and liens and report at next regular meeting of the council.

Mr. Harvey, representing the Southern Clay & Manufacturing Co., came before the council and asked that the above named company would make the necessary improvements around the new Primary School and the Grammar School as contemplated, if they so desired. Mr. Fred T. Williams was instructed to confer with Mr. Harvey and get the necessary data for same and report at next meeting.

Clerk was here instructed to write the Atlantic Coast Line Railroad authorities and inform them that the fountain located near the old depot was in an unsanitary condition and request them to attend to same at once.

Rev. Mr. Steinmeyer came before the council and asked that they make a resolution endorsing the Methodist invitation to the Federation to hold their next meeting in Sanford, which request was granted and suitable resolution ordered drawn for same.

Mr. Rungee came before the council and asked that light be placed at Elm and Laurel avenues. Same was referred to street committee.

Mr. Fred T. Williams, city engineer, was here instructed to meet with the county commissioners at their next meeting and inform them that the city was ready to advertise jointly with them in the matter of paving certain streets and avenues in the city.

The communication from City Attorney Geo. A. DeCottes in reference to franchise submitted to him at the last meeting of the council, for his opinion as to the form of same was read, stating that he had carefully examined said ordinance and could not recommend the passage of same as it was not drawn by an attorney, or if it was, the attorney who prepared same was entirely inexperienced in the preparation of ordinances of this nature. Whereupon Mr. Hall being present stated that he would withdraw said ordinance, entitled an ordinance for the location of the line and terminals of the Central Florida Interurban Electric Railway on the streets, avenues, alleys and other public grounds in the city of Sanford, Florida, and have one drawn by experienced attorney and submit same in the near future.

Communication from Ben Smith in regard to taxes was read and same referred to tax assessor.

All business being attended to, council adjourned to meet Sept. 19, 1916, at 4:00 p. m.

September 19, 1916.
City council of the city of Sanford, Florida, met in special session of the above date at 4:00 p. m. Present, B. W. Herndon, President; C. H. Dingess, W. W. Abernathy, F. L. Miller, R. A. Newman. Absent, John Adams and Roy Symes.

The object of the meeting was the matter of paving approaches to schools. On motion carried, Geo. A. DeCottes, city attorney was instructed to commend the necessary proceedings for the paving of Seventh street from Oak avenue to French avenue, 16 feet wide. Third street from French avenue to Maple avenue, 9 feet wide. Sixth street from Magnolia avenue to Palmetto avenue, 8 feet wide.
Council adjourned.

3RD ANNUAL GATHERING OF THE BAPTISTS

SEMINOLE ASSOCIATION MET AT DAYTONA THIS WEEK

The third annual session of the Seminole Baptist Association convened at Daytona Sept. 18th and adjourned Sept. 20th. Representatives attending from Sanford were Dr. and Mrs. Geo. Hyman, Prof. B. F. Ezell, Miss Jeannette Laing, Mrs. M. M. Stewart, Miss Clara Millen, Miss Minnie Stewart, Max Stewart and Jno. D. Jenkins. Officers elected for the ensuing year: Moderator, H. S. Rightmire of Daytona; Clerk and Treasurer, Jno. D. Jenkins of Sanford.

The annual sermon was preached by Rev. A. A. Stanley of Umatilla. Among those present representing state wide interests of the denomination were Dr. S. B. Rogers, state secretary of missions; Mrs. H. C. Peelman, corresponding secretary of the Woman's Missionary Union; and Dr. A. J. Holt, editor of the Baptist Witness.

The church at Monroe was admitted as a member of the Association. The reports showed the churches in a prosperous condition, for the most part and progress being made along all lines of work.

The report on Missions read by George Hyman gave the information that, while the Seminole is perhaps the youngest of the twenty-nine associations in the state, it contributed more than one eighth of the entire amount raised in the state for Foreign Missions, going largely over the amount adopted a year ago in the budget, for both Home and Foreign Missions. The executive committee reported that a number of churches had adopted the budget plan of giving, contributing each month to each cause fostered and the results had been very satisfactory.

Prof. B. F. Ezell read the report on Temperance, showing that great strides are being made throughout the country in this fight for prohibition, and that its advocates have much reason to be encouraged and hope for nation wide prohibition at no distant date. Dr. Rogers condemned in the strongest terms the Davis Package Law.

A very interesting meeting was held by the Woman's Missionary Union and Mrs. J. Tilden Jacobs read a report to the Association, outlining in a brief manner the great things the women are accomplishing by regular and systematic offerings.

The Orphans' Home in Arcadia was reported as being in a very satisfactory condition. It now contains ninety-six orphans, who are happy and contented, and who are being well cared for, educated and trained for some useful occupation. While the home is under Baptist management, children are received from every denomination.

Report on Columbia College shows that this denominational institution has a very strong and able faculty, with Dr. A. R. Montague, one of the greatest educators of this country as president. The college is better able than ever before to take care of all who attend, and the Baptists especially are urged to give it their support by sending their girls and boys to it.

The report of Sunday Schools and B. Y. P. U. read by Jno. D. Jenkins carried with it a recommendation that a training school be conducted for one week for Sunday School and B. Y. P. U. workers. It was decided to hold this training school at Sanford, beginning December 31st, and arrangements will be made for some of the best workers in the south to be here and in charge. This should bring a great many people to Sanford to avail themselves of the advantages provided.

The following were elected for the coming year:

Executive Committee—Wm. Stones, Oviedo, chairman; W. A. Gosh, Tavares; J. G. Parsons, Titusville; H. B. Stevens, DeLand; H. T. McClelland, Daytona; H. S. Rightmire and Jno. D. Jenkins. Member State Board of Missions—George Hyman. Delegate to Southern Baptist Convention—A. A. Stanley.

Delegates to State Convention to be held in Orlando in January—H. S. Rightmire, H. T. McClelland, Jno. D. Jenkins, B. F. Green, A. A. Stanley, Wm. Stones, E. L. Hon, J. G. Parsons, R. M. Anderson, R. J. Gorbet and Chas. Winner.

The Association was well attended and its members were royally entertained by the good people of Daytona. Between sessions automobile rides were taken about the beautiful city and a great many enjoyed the surf bathing at Daytona Beach. The session adjourned Wednesday and the representatives returned home, inspired to do even better work during the coming year.

Governor Offers Reward

Miami, Sept. 21.—Governor Trammell has offered a reward of \$600 for the capture and conviction of the four Homestead bank robbers, or \$150 for each.

The bandits last night reached

Key Largo in a stolen boat, but eluded the posse at 6 this morning and started south in motor boat from Rock Harbor, 30 miles south of Homestead. The posse in two boats and a motor car on railroad tracks is now in pursuit, the sheriff telegraphs.

Finding of blood stained clothing

in a boat believed to have been abandoned near Largo Key by bank robbers who since Friday last have caused a sheriff's posse a chase through the Everglades, and killed three of the pursuing force, led to the belief here today that one or more of the bandits might have been killed or wounded in Saturday's fight which was fatal to three of the sheriff's forces. This theory was strengthened by reports that only two of the bandits were seen during their fight with officers yesterday in which from a distance of 500 yards they sank the boat containing their pursuers and again escaped. Another theory was that the bandits might have divided their forces. None of the pursuing force was hurt yesterday, according to reports here.

The robbers entered the State

Bank at Homestead, Fla., and took \$6,000, later escaping in an automobile.

LAKE MONROE IS NEW NAME FOR OLD TOWN

CITIZENS OF MONROE DO NOT LIKE NAME OF AHEARN

The citizens of Monroe are up in arms against a recent ruling of the Postoffice Department that changed the name of Monroe to Ahearn and they are wondering just how the trick was turned.

Several months ago the people of Monroe wanted a postoffice of their very own and signed a petition recommending Peter Ahearn for the position of postmaster and it was understood by all of the petitioners that the name of the office would be Monroe. What was their surprise when the postoffice was granted to find that the name had been changed to Ahearn. The postoffice inspector and other officials explained the matter by saying that there were two many offices in the United States by the name of Monroe and consequently it was changed but the change was made without consulting the patrons of the office and they are sore about it and really have a righteous kick. This thriving little city on the beautiful Lake Monroe has been known by the name of Monroe for the past thirty years, being a railroad and express station and for this reason there is all kinds of trouble for the shippers there who are having their mail delayed by the change of names.

The citizens are willing to have the name changed to Lake Monroe if this will appease the exacting postoffice department, but as for the name of Ahearn they say there is nothing doing and up to date they are having the greater part of their mail come on the Sanford rural route.

It is hoped that this tangle can be straightened soon, for many of the farmers and business men of Monroe are at a loss as to the name for their stationery, labels, shipping tags, etc.

CITY SCHOOLS WILL OPEN ON NEXT MONDAY

A NOTHER YEAR OPENS WITH BRIGHT PROS- PECTS

The Sanford city schools for white children will open Monday, Oct. 2, at eight-thirty o'clock, beginning a regular eight months' term.

It is requested that the pupils shall report at the buildings as follows: All high school pupils, at the high school building; All pupils in the primary grades, which will include the first, second and third grades, at the primary school buildings. All pupils in these grades who live east of the A. C. L. tracks to Elm avenue and on the east side of Elm avenue should report at the east side primary school building, on Palmetto avenue, and all pupils living west of A. C. L. tracks to Elm avenue and on west side of Elm avenue should report at the primary school building on Third street and Maple avenue, west of dividing line.

All former pupils who have "conditions" to be made up, and all pupils who wish to enter school this term, except first grade pupils should report at the high school building on Friday, Sept. 29th, at 9 o'clock. The Supervising Principal will be assisted by a corps of his teachers in giving the examinations and passing upon the classification of all new pupils. Both Friday and Saturday will be given to this work.

A meeting of all the teachers of the schools is called by the Supervising Principal for Saturday afternoon at 4 o'clock in the high school study hall. General plans for the opening will be outlined at this meeting.

The teachers for the year with grades and work assigned are as follows:

High School Department: Miss Hazel Stevenson, Assistant Principal; Mr. J. C. Hutchison, Mathematics; Mr. H. C. Chandler, English; Miss Elizabeth Tribble, Science; Miss Agnes Edwards, French and History; Miss Hazel Stevenson, English; Mr. J. C. Hutchison, Athletic Coach.

Grammar School Department: Mrs. Geo. B. Dickinson, Assistant Principal; Miss E. M. Furon, eighth grade; Miss Edna Plant, seventh grade; Mrs. Geo. B. Dickinson, seventh grade; Miss Clara Millen, sixth grade; Miss Myrtle Conrad, fifth grade; Miss Myra Futch, fifth grade; Miss Laura Chittenden, fourth grade; Miss Evelyn Hargreaves, fourth grade.

Primary School Department, West Side School: Miss Lilly Farnsworth, Assistant Principal; First grade teachers, Miss Lilly Farnsworth and Miss Clara Walker; second grade teachers, Miss Peachea Lefler; third grade teacher, Miss Peachea Lefler; third grade teacher, Miss Renie Murrell.

Primary Department, East Side School: Mrs. Stella P. Arrington, Assistant Principal; first grade teachers, Mrs. Stella P. Arrington and Miss Edith Stewart; second grade, Miss Ethel Moughton; third grade, Miss Ruth Pattishall.

Presbyterian Church
The Sunday school is preparing for Rally Day, Oct. 1st. Plans are being matured for a vigorous campaign for its work during the winter. Additional equipment is being placed in the primary department. This department having its own large room with piano and other equipment is doing fine Kindergarten work.

There will be forty minute services at 11 a. m. and 7:30 p. m., at which services the pastor will speak. This public cordially invited.

Early oranges and grapefruit are coloring up nicely, and some leading varieties already have that flavor that has made the Florida orange famous. Considering the dry weather, fruit is well developed as to both size and quality, and with previous predictions, it looks as if the growers can pay all back debts for fertilizer, work, etc., and count on moving to "Easy street."—Sarasota Times.

Late Model in Separate Skirts

When sports clothes made their appearance up-to-date women came and were conquered by them. They are not classed among the fads of a season now but acknowledged as a new departure that promises to become a permanent institution.

tion for several pocket effects which are reappearing in the new fall models. In the skirt shown, a striped band about the hips serves a double purpose, as it is decorative, and also provides a place for two pockets.

Skirts of this kind are worn with plain waists of crepe de chine or of cotton materials. The combination of plaid skirt and plain colored coat, to match the dominant color of the skirt, is among the best of the new showings for fall.

Julie Bottanly

Rage for Velvet.

A sheer frock and a velvet hat is the favored costume for fall. And let the hat be royal purple if it becomes you, or navy blue for second choice.

Adorning the Heads of Girls

Besides the bouffant and buoyant bows which we have always with us there are several pretty ornaments made of ribbon, for adorning the heads of girls. Among them there are bands, finished with rosettes, for the tiniest of little misses, and others much like them, for older girls.

Plain ribbons in light colors have the preference for ornaments of this kind. But for everyday and school wear darker colors and plaids may be depended upon as a safe choice for fall.

Julie Bottanly

Doeskin Gloves.

The latest gloves are made of pale tan doeskin and they are very wide at the wrists. These gloves are drawn over a coat sleeve, the wide wrist giving a gauntlet effect.

State and County Licenses Seminole County, Florida

STATE OF FLORIDA COUNTY OF SEMINOLE I, George G. Herring, County Judge in and for the County of Seminole do hereby certify the following is a true and correct list of the licenses issued in the said County of Seminole from the first day of July, A. D. 1915 to the 30th day of August, A. D. 1916, both dates inclusive as shown by the stubs on file in my office.

Licenses for the Year Ending October 1st, 1915

Table with columns: No, Date, Name, Occupation, State, County. Lists various license holders for 1915.

Licenses for the Year Ending October 1st, 1916

Large table with columns: No, Date, Name, Occupation, State, County. Lists license holders for 1916, including names like Geo. G. Herring, Standard Oil Co., and many others.

Continuation of the license table from the previous page, listing names and occupations of license holders.

Office in Herald Building Telephone No. 148

Wonder if Frank Clark is ready for his "Coffin"?

Supreme Court will settle the Catts-Knott case in time for the November election.

And now Canada has gone dry. It is only a question of time before America will follow suit.

Our bulkhead is being completed. And wouldn't the bulkhead make a good fair ground and base ball park and amusement grounds?

Read Edison's reason for voting the Democratic ticket in this issue of The Herald. It will satisfy any Republican skeptic that ever lived.

The "serious" is now over between Sanford and Orlando and we can get ready for next season when we shall need a new ball park. And the question that is agitating the minds of the fans is "where?"

This is the season of the mother's discontent. She wants the boys to go to College and she wants them to stay at home and father while he wants them to have the education in putting in the most of his spare time scratching his head about the money that is necessary for the said education. Will children ever appreciate the sacrifices of their parents.

THE BEST MEN

Says a western newspaper man who has been making a little investigation of his own concerning the candidates for office in his state and the probability of their election:

"Only rarely, and I speak carefully, do the best men possible for a given office ever reach it. The best men are never even considered for thousands of state and county offices."

The gentleman might have stated another, and very serious reason why many men well fitted for public service and who would be of value to the community do not seek office. That is because of what seems the ingratitude of the people themselves. A man receives no thanks for having served faithfully and well—at least, not while he is living. His re-election does not depend upon the degree of efficiency he has shown; in fact, if he has been an efficient officer he is almost certain to have offended little groups of people and they seek to "get even" with him when he officers for re-election. He is condemned while in office, and receives no praise from anybody when he retires. That is why many men whom we should have in office refuse to enter public life—the ingratitude of their fellows stops them, when they look about and behold the frequent instances of where it has been displayed with others.—Daytona News.

WILL SUPPORT WILSON

When great men like Thomas A. Edison assert that they will support Mr. Wilson for President in spite of Republicans it is a matter of congratulation to all who have the interests of Mr. Wilson as a candidate at heart.

The Arcadia News publishes an interview with Mr. Edison in which that "wizard of the present century" sets forth his reasons for his political face about. It is so logical that we reproduce it as a whole, and coming from the source it does it should carry great weight with it: "Not since 1860 has any campaign made such a direct call on simonpure Americanism. The times

are too serious to talk or think in terms of Republicanism or Democracy. Real Americans must drop parties and get down to big fundamental principles.

"More than any other President in my memory Wilson has been faced by a succession of tremendous problems, any one of which, decided the wrong way, would have had disastrous consequences. Wilson's decisions, so far have not got us into any serious trouble, nor are they likely to.

"He has given us peace and honor. The talk about the United States being despised is nonsense. Neutrality is a mighty trying policy, but back of it are international law, the rights of humanity and the future of civilization.

"With reference to Mexico, I think the President has acted wisely, justly and courageously. It was right that the United States should not have recognized such a murderous personality as Huerta. I do not believe that we should have intervened nor do I believe that we should intervene now. Mexico is a troublesome neighbor just now, but war and conquest are not going to make her a better one. Both against England and against human slavery in the United States worked out its salvation through revolution, and it was a pretty slow, trying process.

"It has been said that Wilson at first was against preparedness. Perhaps he was, but when convinced that intelligent public opinion was overwhelmingly in favor of it, he changed. That is the proper thing for our President to do. A President defiant of public opinion would be a dangerous man in our system of government.

"His attitude on the tariff shows an equal openness of mind. A tariff commission will take the whole problem out of politics. It is my hope that experts will be named, and that the body will be continuing and vested almost with the dignity of the supreme court.

"They say he has blundered. Perhaps he has. But I notice that he usually blunders forward. You can't get 100 per cent efficiency in a Democracy. I don't know that we ought to want it. We would have machines, and we would have to sacrifice too much of freedom.

"As I said at the start, it has been just one big thing after another with Wilson. I have never known so many dangerous questions brought up for decision to any one President. Now he has the general strike of the skilled railway men, which if carried out will throw the whole country into confusion, and prove a calamity that, in certain eventualities will have results bound to extend over a long period of time. He is acting with his usual courage and sanity.

"In my opinion, Mr. Hughes, if President, would find it difficult to decide on the best course for the government to take in this strike. His capacity for hindsight, as we learn from his speeches, is highly developed, but as to his foresight, we are not equally well informed.

"Mr. Wilson has now had about earned faith and trust. I do not think it a logical or sensible thing to change to an unexperienced and untried man just for the sake of change, or without much better reason being given for the change than I have noticed.

"Roosevelt was my choice. He has had experience, and is one of the best of Americans, but the machine controlled party would not have him. Therefore I am for Woodrow Wilson."

Milady's Hats

Hats, always the woman's vanity are first thought and with the millinery shops having their openings there is the rush of the women of fashion to inspect the new designs and choose her fall and winter hats.

The latest addition to Sanford's business enterprises is the Quality Shop, which opened its doors to the public on Friday with a charming display of wonderful hats. Visitors to the Quality Shop were rewarded by a sight of the newest models, the latest shapes and shades and the advanced styles for the winter.

The new store is under the efficient management of Mrs. I. D. Pearson, ably assisted by Mrs. A. D. Parrish.

There is no definite mode this year. There will be large hats, very large, notably the Gainsborough and there will be small hats, very small hats in every conceivable shape. There are black and bright colored hats, but all the models, large or small, dress, walking or sport hats are simply trimmed, so simply trimmed as to be noticeable and so noticeable as to give a touch of elegance to even the most modest ones. The prevailing colors are the always popular black, jade blue, royal purple, coral and Burgundy. Jockey models are unique and in many of the hats displayed the military touch is quite evident. Metallic trimmings, gold and silver ribbons, gold and silver cloth and iridescent

tones in braids, pins, ornaments and medallions. The beretta crown is a feature of the newest hats and the four cornered hats with the narrow bandeau are among the latest arrivals. Ostrich hats, made entirely of ostrich tips with the edges combined with ribbon or braid and fitting close to the head are very chic. Veils are sure to be popular and will be worn flowing, war-bride veil is the newest and is seen in a variety of combinations. Under-facings are shown in endless variety and color combinations are striking.

The Quality Shop has the exclusive agency for the Gold Medal hats in Sanford.

The attractive little show room is finished in white, and on the day of the opening was prettily adorned with potted ferns and vases of roses.

Broom Corn in Florida

Columbia county, Florida, will grow the broom brush, and give two crops. June and September are the months for harvesting this.

The crop at Montague farm is now heading, making a fine head running largely to hurl. Those who are interested can see it and be convinced.

Mr. Geo. L. Colbert of Lake City is deserving his share of the credit for pushing this enterprise and giving the helping hand.

As a money crop it is a close second to cotton, having the advantage of two crops of brush, or two crops of fertilizer when plowed under green. It is the only crop grown that takes nothing from the land, and can all be put back to fertilize in its green conditions, exterminate the weeds and improve the soil according to nature's requirements. Land thrown out to rest grows weeds and breeds insects that get a living on the next crop.

The way is open now for North Florida to take over its share of this industry and prove to the people of the northwest that Florida is not a land of crocodiles, lakes, swamps and lizards.—Lake City Citizen.

WEST GENEVA AVENUE

Mrs. Jack Vaughn has been very ill for several days with lagrippe but with the faithful care of her family physician, Dr. Puleston and her old nurse, Mrs. Will Robinson her many friends are glad to see her up and about again.

A very sad occurrence was the burial of Mr. Will Lee and the many friends of this side extend their deepest sympathy to his family in their sorrow.

Miss Mahel Tyner has been at the home of Mrs. Jack Vaughn for several days helping to care for her through her illness.

We have missed the cheery voice of Job Neros for some time now, but I guess it is all on account of having a housekeeper, so, my friends, sing for yourself or ask her to leave!

Mr. and Mrs. Will Robinson and little Gladys Robinson were the guests of their parents, Mr. and Mrs. Wm. Robinson of Celery avenue last Sunday. They were accompanied by their daughter, Mrs. A. J. King and baby.

The farmers can't complain of dry weather for the last week as we have been having some nice rains in this vicinity.

Mrs. Jack Vaughn has a fine lot of strawberry plants for sale at her home on Route A, Box 235.

Mr. Will Robinson is through with his large orders of wood after pulling in about twelve cord to five different parties, besides his small orders.

Little Gladys Robinson happened to a very painful accident by cutting her foot on a piece of glass bottle.

We are glad to see everybody busy with their plows. It looks like better times ahead.

Evil in Excess of Fat

Excess of fat affects the heart by putting an extra burden upon it; it augments the labor of the muscles of breathing, the diaphragm in particular; it interferes with the vital function of the liver and other internal organs, and by filling the intermuscular spaces it compresses the muscle fibers, causing atrophy and degeneration. This results in constant weakness, slow activity, lassitude, early exhaustion.

Nature's Workings

How plants absorb nitrogen from the soil is utterly unknown. No animal must get the large quantities of nitrogen that are necessary to it by using plants for food. When the animal or the plant dies the constituents of its body are returned to the earth, where the bacteria of putrefaction break up the elaborate organic chemical compounds upon which the plants again can feed.

The Child Critic

Parents are living daily before the most critical audience in the world—their child. The small deceit, the loss of temper—all such things are seen by the small critic, and they all color, in later years, his feeling for his parents.—From the Delinquent.

The Working Man's Bank Account

MEN who are employed by the day or week rarely have very much notice before they are laid off. This means that the working man of all men should have a little money saved up and have it deposited safely in the bank. The Peoples Bank invites the accounts of working men and their families. Interest is paid on savings accounts, compounded twice a year. Your money will help you earn money, if deposited with this Bank.

BASEBALL STORIES

Outfielder "Greasy" Neale is playing sensationally for Cincinnati.

The Red Sox don't miss Speaker any more than an auto would miss a spark plug.

Ping Bodie, with an average of .305, is leading the Pacific Coast league batters in hitting.

Chicago newspapers have learned that Tucker would like to get Johnny Evers from the Braves.

McGraw has decided to make a pitcher out of George Kelly, the Giants' extra first baseman and outfielder.

Speaking of encouragement, there is the headline: "Brooklyn Rooters Wondering Whether Team Will Crack."

Gilhooley of the New Yorks, is beginning to hit as he did in the International league. He is a capital lead-off man.

According to reporters, Ivory is growing scarce, but you'd never believe it after attending a few baseball games.

Brick Owens is doing sterling work as umpire in the American league. One thing about Brick—he's on the square.

FOR THE CAMPAIGN FUND

Good Democrats Continue to Send In Their Contributions for Wilson Contributions for the Democratic Campaign Fund continue to roll in and while they are not coming as fast as the committee would like they are coming and that is the principal thing. The first canvass brought out the greatest number but the committee decided not to make but one canvass as this would bring the idea home to every Democratic voter and it is left to him as to whether he wishes to contribute a dollar toward electing Wilson or not. Up to date the secretary has not heard from any country precincts except Altamonte, where J. W. Osteen made a good canvass and sent in six dollars. The following have sent in their contributions since the last issue:

- F. E. Giles 1.00
O. J. Miller 1.00
R. A. Bronson 1.00
Will Colbert 1.00
Fred Dorner 1.00

Handsome Gowns in Pleasing Variety

The French Millinery Shop is showing a wonderfully pretty assortment of French dresses in satins, crepes and silks in the prevailing colors of the season, new fall style garments for the women who care, and know good dressing; stylish and elegant gowns for street wear or afternoon receptions in all the popular fabrics. An attractive offer is being made by the French Shop, somewhat unusual. From now until Saturday orders will be taken to be delivered by October 1st. Ladies can have their measures taken, giving a description of style and color and receive the garment on October 1st. On October 1st also, coat suits in the newest models will be shown and a little later a full line of evening-dresses will be displayed. The French Shop have added the C & B Corsets to their stock, a departure that will be appreciated by the ladies of Sanford.

Miss May Doyle is again with Mrs. Wilmot for the winter season

and will be glad to see her friends at the old stand.

In another column will be found the advertisement of the French Millinery Shop.

MAULL LIKES SANFORD

Development Agent Writes About This Section

After visiting Sanford one day last week Mr. Maull wrote the following to The Herald:

C. A. Maull, general advertising and development agent of the Atlantic Coast Line visited Sanford Thursday and was shown over the city and surrounding country by some of the business men.

Mr. Maull was greatly impressed with the vast development which has taken place in the vegetable industry here and in sympathy with the future projects, such as the new hotel, good roads and was interested in the spirit of progress that seemed to be abroad in the community.

Mr. Maull noticed the sub-caption of the Herald, "In Sanford Life is Worth Living" and stated that "Life is worth living, but it all depends where you live, and if the business men and others of this city

want others of less favored sections to believe that "life is worth living" here they must develop the spirit of cooperation and helpfulness among themselves to make Sanford the best city in Florida physically, civically, socially and morally, and if the plans now projected are carried to a conclusion Sanford will be abreast of all modern communities in the march of civilization and human progress. Said Mr. Maull, further, "that Sanford is superbly situated geographically, on the main Florida trunk line of the Atlantic Coast Line and at the head of navigation on the St. Johns river, and surrounded by some of the richest and most productive lands in the United States.

"I am astounded at the growth and magnitude of the vegetable growing industry and it is my pleasure to state that the Atlantic Coast Line can be depended upon to cooperate in every reasonable and constructive way to further augment the development already attained.

Mr. Maull has promised to return to Sanford Oct. 10th and deliver an address upon the occasion of the meeting of the Sanford Board of Trade.

BOLD-BANK ROBBERY

Robbers-Hold Up Cashier at Homestead in Daylight

Miami, Sept. 18—The Bank of Homestead was robbed Saturday afternoon, the robbers securing \$6,500. Four men in an auto stopped in front of the bank, and two of them entered the bank, one going to a desk and made out a check. Both men then went to the cashier's window, presenting the check. E. Z. Crowell, assistant cashier, called the cashier and as he stepped forward the robbers covered them with their revolvers and cried "hands up," which order was obeyed. The robbers secured the money, jumped into the automobile and went down west from Homestead. A crowd was soon gathered and followed but the robbers have not been captured.

Sent Over the Telephone. Mistress—"Goodness, Bridget, where is our telephone?" Bridget—"Mrs. Jones sent over, mum, askin' for the use av it, and I sin't it over, but I had the divil's own toime gittin' it off the wall, mum."—Toledo Blade.

Farmers and Fruit Growers

Items of Interest for the Man Behind the Plow

Flea Beetles Attack Plants in the Seedbeds

Reports have come to the University of Florida Experimental Station that flea beetles are causing trouble in eggplant and pepper seedbeds. They also attack beets, tomatoes and other seedlings. Most of the beetles are from one sixteenth to one fourth of an inch long and are black or brown. They eat the lower epidermis, and the middle tissues of the leaves, leaving them white and useless.

J. R. Watson, entomologist at the Station recommends that the attacked plants be sprayed with lead arsenate, 1 pound of powder to 50 gallons of water. The lead arsenate can be added to the bordeaux mixture which is used against fungi in the seedbeds, in the same proportion as with water.

Clean Trees and Bright Fruit Key-note of Citrus Seminar

Clean trees and bright fruit cannot abide with citrus diseases and pests. Two or three years ago a new disease threw growers into a panic—Certainly there was cause for alarm, but in many cases these same growers accept the old diseases and pests as a matter of course and allow them to go on draining their trees and marking their fruit.

Whether the cause is indifference or inability to cope with their troubles, the results are the same. Thousands of dollars are lost annually. Indications are that the losses will be heavier from unclean trees and marked fruit. This is not a result from more severe attacks by diseases and insects but a result of the market's revolt. People want clean fruit and dealers will cater to them discriminate against unclean fruit. The market will take care of indifference, but enlightenment is the only cure for those who are willing and unable to produce good fruit.

As a result of these demands of the market, the Citrus Seminar at the University of Florida, October 17 to 20 inclusive, will offer a number of demonstrations and exhibits valuable to growers. A new phase of the Seminar this year will be demonstrations and exhibits of spraying machinery. R. E. Chandler of the College of Engineering will give lectures and demonstrations on the use of gasoline and other engines. A good map will be obtained to discuss spraying machinery from an engineering viewpoint.

Seven companies have agreed to exhibit power sprayers. Display and demonstrations of this machinery will give the grower an opportunity to compare it in the light of his needs.

The Exhibits of diseases and pests will be greater than ever and better arranged to show the damage they cause. The advantages of control measures will be contrasted with no treatment methods.

Seedbed Sterilization Necessary for Healthy Plants

Damping off probably gives more trouble than any other seedbed disease. Prevention is the best method of control. If the old seedbeds are affected with the trouble, Dr. C. D. Sherbakoff, associate plant pathologist to the University of Florida Experimental Station, recommends that the beds be made on new land. If new land is not available the soil of the old beds must be sterilized. The formalin method is perhaps the most practicable for the average grower.

After the seedbeds are prepared for sowing they are drenched with formalin solution of the strength, 1 part formalin to 50 parts water, and applied at the rate of 2 quarts to 1 square foot of seedbed surface. The beds are then covered for 24 hours with sacks of canvas. After this the bed is aired and worked to facilitate the evaporation of the formalin. About ten days or two weeks will be required for the formalin to evaporate sufficiently so that the seed may be sown in the treated soil.

Steam sterilization by the inverted pan method is more efficient because it kills the nematode that causes root-knot, all kinds of weeds, and the beds can be planted as soon as the soil has cooled. Particulars concerning it may be had by application to the Experiment Station, Gainesville.

An application of bordeaux mixture or ammonia solution of copper carbonate heavy enough to cover the soil surface will also help to retard the spread of the damping off fungus.

Fifty Percent of Meat Consumed in Florida is Imported. More than fifty percent of the meat consumed in Florida is imported from other states, according to Dr. A. H. Logan, veterinary field agent for the United States Department of Agriculture, who is stationed at the University of Florida. This is a reflection on somebody's thrift, and it is not the grocers' and butchers'.

Certainly a state so well adapted to meat production should produce at least what is consumed by its people. No state can grow a greater variety of crops for animal production than Florida. Pastures make cheap meat and pastures can be had all the year. The cost of wintering animals is lower here than in any part of the country both on account of the cheap feed and on account of the mild winters. With these advantages and the added advantage of freight rates from the north, the most timid farmer should not hesitate to grow livestock.

Owing to the mild winters meat is hard to keep. As soon as a cool spell comes, everybody kills hogs. The result is a glutted market. The farmer must sell his carcasses at a reduced price. Naturally he is disgusted with production. A little later he buys meat for double the price he sold his own.

Dr. Logan recommends local storage plants. Animals could then be slaughtered and placed in storage until the market assumed normal conditions. If necessary the plant could issue part payment on the carcasses to farmers who had to have cash. No attempt should be made to sell in competition with packing houses. The operations of the storage plant should be confined to the local field. Later curing equipment could be added if conditions justified.

Morris—Johns Wedding. The marriage of Miss Ada Johns and Mr. Edward A. Morris was solemnized last Sunday afternoon at 4:30 o'clock in the Baptist church at Pinecastle. The ceremony, which was witnessed by relatives and a host of friends

106 East First Street

Sanford, Florida

of the couple was performed by Rev. Eugene Reid of Orlando.

Palms, ferns and other growing plants were used in decorating the church, together with a few cut flowers, white and green motif being carried out.

Promptly at the appointed hour the little flower girls, Rosa Bernard and Irma Medson entered followed by the bride and groom who met at the altar.

The bride was charming in her gown of white crepe de chine. Mr.

and Mrs. Morris left immediately for the bride's home, where they with relatives and a few intimate friends enjoyed supper and spent a very pleasant evening.

Mr. and Mrs. Morris will visit the groom's parents at Altamonte and thence will leave for Tampa.

Mr. Morris is connected with the Atlantic Coast Line and is also popular with a wide circle of friends who will extend congratulations.

CURBSTONE GLEANINGS

BUDGET OF OPINION "JUST BETWEEN YOU AND ME."

EVEN THE GATE POST NOT IN IT

A CHIEF IS AMONG YE TAKING NOTES AND FAITH. "HE'LL PRENT 'EM"—SO SAYS SAUNTERER.

A Vote of Thanks
In Anysort of village there was held one summer night
A convention of the people: there were speeches neat and bright
In appreciation hearty of men who made the town
Resolutions complimentary—from the mayor clean on down,
Toward the ending of the meeting one old citizen arose
Cleared his throat and wiped the perspiration deftly from his nose,
Said, "I've got a little matter I would bring up if you please,
An amendment to the motion to express our thanks to those—
"I'd include the weekly paper that we've read year in and out.
In a resolution hearty that you'll think is queer, no doubt,
An appreciation proper to the editor I urge
Who has chronicled the happenings from the baby cry to the dirge;
"Who has published all the items of our families and folks,
From obituaries, marriages and meetings, through to jokes.
Here's resolved, That we most highly recommend him without stint;
That we thank him most sincerely for the things—he doesn't print."
D. D. Bickers in Athens (Ga.) Banner.

My crusade against the English sparrow seems to be for naught as the people here fail to realize the dangers of this bird. But other cities do and have made war on the little pests. In the Orlando Reporter Star appears the following:
"Dr. Phillips has declared war against the English sparrow and handed his ultimatum to a representative of the Reporter-Star this morning. The doctor sets forth the

fact that these birds are a pest. They cannot be considered as scavengers. They are great fighters and succeed in chasing off the song birds, and multiply rapidly. Therefore the war of extermination should begin at once.
The doctor realizes that such a war would be very costly, as his method is to place a price upon the head of each sparrow. He offers to help finance the proposition with a liberal donation, and calls to his standard all public spirited people to contribute to the cause.
These contributions may be made at his office, corner Pine and Orange avenue. Also rewards may be claimed for sparrows (take the head along with you) at the same address.
Sparrows began settling in Orlando several years ago. As these little birds, which are not afraid of the loudest fire cracker, nor the noise and rattle of the busy city life, were not molested when they first took up their abode in the brick walls of the city buildings and must have concluded it was a nice place in which to live. As a result there are now thousands of them.
To the boy who will kill the most birds over five hundred between now and Christmas eve the Reporter-Star will give in addition to the price offered by Dr. Phillips an extra prize of five dollars in gold."
Presbyterian C. E.
The Presbyterian C. E. held its regular meeting on Friday evening. The subject was "The Greatness of God," leaders, Mr. John Hunter and Mr. Arthur Greene. The program was arranged as a postoffice meeting, special papers on the subject having been prepared by members of one company and handed to the leaders in the form of letters. These were addressed to other members present and were read aloud by them. This afforded a unique vari-

ation of the regular order of exercises.
Miss Edna Chittenden sang a beautiful solo. Several out of town visitors were present.
After the meeting was over the society was invited upstairs to the church parlors where a surprise party had been arranged in honor of Mr. and Mrs. Kent Rossetter, whose marriage was a recent event.
When the guests entered they were provided with paper and pencils. Dr. Brownlee and Mr. Greene were selected as Captains and chose sides. The two sides were then asked to see how many left handed autographs they could secure in a given time. A thirty minute hour followed and when time was called it was found that Dr. Brownlee's side was victorious, having secured 249 autographs. Dr. Brownlee was awarded a red ribbon.
The next event was a "Musical Romance." Mrs. Geo. Paxton read out questions concerning a pretty little love story, the answers to which were the names of familiar songs. As she read the questions Miss Lettie Caldwell played the answers on the piano. At the close it was found that four contestants had answered all correctly. They were counted out and a blue ribbon awarded to Miss Annie Lee Caldwell.
The next event was a "musical race" played by twelve couples. The girls were given foiled slips on which were written names of songs. At the signal they ran across the room to their partners and handed them the slips. The boys then whistled or hummed the air and the girls guessed the name of the song. The first to guess was Miss Lillian Herring and she and her partner, Mr. Robert Deane were awarded purple and gold ribbons.
Refreshments consisting of sherbet and cake were served by Misses Lucy Whitner, Gladys Greene and Frances Leavitt, assisted by Mrs. Paxton and Mrs. Greene.
Miss Essie Purdon, president of the society, in an appropriate little speech presented Mr. and Mrs. Rossetter with a silver tomato server from the C. E.'s. Mr. Rossetter expressed his appreciation and that of Mrs. Rossetter and told of their complete surprise.
After this ceremony, some of the artists in the company were given slips on which were written the names of songs which they illus-

trated on the blackboard with much merriment. A few comic readings were given by several guests and this completed the evening's fun.
Out of town guests were Misses Roney and Fiske and Mr. McQuarters of Orlando and Mr. Duncan Curry of Jacksonville.
WOODRUFFS ARE HOME.
Make Trip to Connecticut and Return in Their Automobile
Mr. and Mrs. E. T. Woodruff have returned from their trip to Connecticut made in their Buick car without mishap and a trip that was a real pleasure trip. The Torrington, Connecticut News thus describes it:
E. T. Woodruff, recently a visitor here and a guest of the families of H. R. Wilcox and E. G. Handlin made the trip all the way from his home in Florida with Mrs. Woodruff in their touring car, a distance including necessary detours and return, about 3500 miles.
Although caught in the terrible floods they made the record tour without a thing going wrong with the motor and not so much as a blow out or a tire puncture. Their car, a Buick pulled through where others stuck and climbed the mountains like a little giant.
Carolina Floods
Mr. Woodruff says the loss of life and property in the Carolinas through flood was appalling. Cotton mills and other factories, together with dwellings, barns and uprooted trees, swept by the madly rushing waters, piled en masse against all obstructions, sweeping everything. Apparently impregnable railway and road bridges were crushed as though but egg shells. Marooned at one point for nearly two weeks, railway as well as all other traffic, utterly stopped. The tourists finally proceeded by means of a hastily improvised and treacherous ferry. Mud and water was ankle deep much of the way and threatening washouts were on every hand.
Later, Good Roads
After escaping the flooded district they found good roads and delightful scenery. Crossing "Blue Ridge," Richmond to Staunton was especially scenic. The view after the climb, looking into the valley below was superb. The descent for miles with motor shut off and silent brakes set and force of gravity alone propelling was a panorama never to be forgotten.
The Roanoke to Martinsville route taken in returning is also feplete with scenery. Our tourists drove over this and, wonderful to tell, car and tires withstood it, but all intending a tour are warned to shun this very "devil's drive."
In Columbia, S. C., while imprisoned for a couple of weeks on account of, not only high and impassable waters but because the bridges, railway as well as roads were washed away from the Catawba, the Wateree, the Broad and Yadkin rivers. many kindnesses were extended the travelers, especially were great assistance and courtesies generously given by Commissioner E. J. Watson and Rev. Dr. A. W. Blackwood, the latter pastor of the Presbyterian church of that city.
Feast of Beauty
From the national metropolis to Torrington is at this season of the year a continuous feast of beauty in park and hamlet, landscape, valley and mountain. This little city, Torrington, Mr. Woodruff pronounced charming.
Nevertheless, our tourists insisted that Florida and Sanford in particular hold the all the year round comfort and luxury, the enchanting maze of foliage, flower and artistic natural and cultivated landscaping effect, the largest inducement for capital and the biggest promise of ease and early competency for labor and the man of limited means.
"Never," says Mr. Woodruff, "have I suffered from heat in Sanford, Florida, as I have since now being in the north, and I'm getting to like our summers even better than our winters." In the course of a letter to Mr. Handlin Mr. Woodruff extended a cordial invitation to the publishers of the News and to all our citizens to visit Sanford, Fla., and if they will advise him by letter in advance of their coming he will do all in his power to see that they have a pleasant and profitable time.
The Modern Spirit.
The modern spirit is not the spirit "which always denotes" delighting only in destruction; still less is it that which builds castles in the air rather than not construct; it is that spirit which works and will work, "without haste and without rest," gathering harvest after harvest of truth into its barns and devouring error with unquenchable fire.
More Serviceable Umbrella Jar.
By placing a large carriage sponge in the bottom of an umbrella jar you will prevent umbrellas from striking the bottom of the jar and breaking it. The sponge will also absorb the water from a dripping umbrella.

church of that city.
Feast of Beauty
From the national metropolis to Torrington is at this season of the year a continuous feast of beauty in park and hamlet, landscape, valley and mountain. This little city, Torrington, Mr. Woodruff pronounced charming.
Nevertheless, our tourists insisted that Florida and Sanford in particular hold the all the year round comfort and luxury, the enchanting maze of foliage, flower and artistic natural and cultivated landscaping effect, the largest inducement for capital and the biggest promise of ease and early competency for labor and the man of limited means.
"Never," says Mr. Woodruff, "have I suffered from heat in Sanford, Florida, as I have since now being in the north, and I'm getting to like our summers even better than our winters." In the course of a letter to Mr. Handlin Mr. Woodruff extended a cordial invitation to the publishers of the News and to all our citizens to visit Sanford, Fla., and if they will advise him by letter in advance of their coming he will do all in his power to see that they have a pleasant and profitable time.
The Modern Spirit.
The modern spirit is not the spirit "which always denotes" delighting only in destruction; still less is it that which builds castles in the air rather than not construct; it is that spirit which works and will work, "without haste and without rest," gathering harvest after harvest of truth into its barns and devouring error with unquenchable fire.
More Serviceable Umbrella Jar.
By placing a large carriage sponge in the bottom of an umbrella jar you will prevent umbrellas from striking the bottom of the jar and breaking it. The sponge will also absorb the water from a dripping umbrella.

ARGUMENT AS TO WHICH ONE KNEW THE MOST BASEBALL, POLITICS, AND FOOTBALL HONORS ABOUT EVEN-BET TO BE PAID

ALL CLAIM THEY HAVE THE GREATEST SPORT, BASEBALL AND POLITICS RUNNING NECK AND NECK WITH THE FOOTBALL MAN COMING STRONG AT THE FINISH—NEWSPAPER MAN WINS ONE ARGUMENT IT WAS SUCH A GOOD ONE—THE OTHERS COULD NOT THINK OF A BIGGER ONE TO TELL

CAST OF CHARACTERS

ALLAN JONES.....BASE BALL
NED CHITTENDEN....FOOTBALL
J. D. WOODRUFF.....POLITICS
"DICK" BROWN.....NEWSPAPER

Base Ball Man—Well, boys, it looks pretty much like Detroit is going to win in the American League this season.

Football Man—What you talk about base ball now? The question of the day is football. Harvard and Yale is what you want to talk about.

Political Man—I can't understand what you all are arguing about. Next month Charles Hughes will try and defeat Woodrow Wilson—something he can't do.

Base Ball Man—Politics is out of my mind right now. The world's series will be on and the whole country will be talking about them, while the political world will be dead.

Football Man—Now you all think so much about your sports I want to tell you all about the great crowds that witness football. Last year 70,000 people witnessed the games between Harvard and Yale in one afternoon.

Base Ball Man—What is that? Two years ago Boston and New York Nationals played before such a magnificent crowd. The crowd was so large that outfielders had to sit on the bench on account of the spectators being jammed up in the outfield. What about that for a crowd.

Political Man—Well, so far, all your crowds will have to take a back seat. During the last convention of the Democratic party which was held at St. Louis the largest crowd that ever assembled was there. To give you an idea of this crowd it required 2,000 policemen to restore order while Woodrow Wilson was being nominated as the Democratic nominee. And it also took seventeen hours and thirty-six minutes for the crowd to get out of the auditorium.

Newspaper Man—Well, all of them were some crowds, but listen to this. Many years ago my father was a reporter on the London Times. He was selected out of the vast army of men to cover the story for the paper on the funeral of Queen Victoria. The next day the papers came out with a story like this. While Queen Victoria's body lay in Westminster Abbey 2,000,000 people were in line to pay their respects to the dead queen, while outside in line were 3,000,000 more people who were also there to take a last look at the Queen. Now, if any of you boys know of any larger crowd than this one let us hear of it.

Base Ball Man—We concede that crowd to your side of the argument.

Football Man—Well, boys, when it comes to discussing the game of football I have no superior.

Political Man—Did you boys know that if Woodrow Wilson is defeated you will all have to go to war? Well, it's so, and when you go to Mexico you can't talk base ball and all these things, but you will have to carry a gun and fight like hell.

Newspaper Man—Yes, and my job will be to cover any of you boys who may accidentally get shot. It will be my duty to let the people know just what a hero you were in trying to save the flag for your country.

Base Ball Man—Talk about your heroes. Here's a boy named TY CORR that receives more newspaper publicity and credit of any general football player or political man in this country. On his shoulders rest the burden of whether Detroit will get in the World Series or not. Now, stop and consider this one man with such a burden on his shoulders.

Base Ball Man—I doubt whether you boys know what you are talking about. Base ball is the NATIONAL SPORT. To prove this, take for instance the game that the Sanford Club put up—the past season. We had a club of all TEMPERANCE BALL PLAYERS.

Newspaper Man—I agree with you there. We also had a team of players that were all good men. Very few errors and plenty of heavy hitting.

Football Man—Not leaving my subject, but I would like to tell my newspaper friend that I witnessed a game this season where I saw the Sanford infielders make 9 errors, and furthermore the games that I kept up with I know of some 200 errors that were made by our club.

Political Man—Errors are nothing, we all make them. I have for the last ten years been trying to pick a winner and up to this day I have never picked one. I have always voted for the best man on the ticket. But it was my hard luck to see the worst one on the ticket get elected. I am going to vote for Hughes this time and I expect I will be a loser again. It will be my hard luck.

Base Ball Man—Well, I have been a little more fortunate than you all have. I have been picking winners for a long time. I picked the Braves the year they won and the last time I picked a loser was when I left the baseball field and tried to pick a peanut politician to get in the FLORIDA LEGISLATURE.

Football Man—Picking winners is out of my line. We do more KICKING in football than anything else. We all try to kick a goal and PICKING WINNERS is entirely out of our line. But if it came to a show down I could do it.

Base Ball Man—Not leaving the subject, but I want to tell you boys something in the base ball line that you never heard of. I remember many years ago when Walter Johnson hit the longest drive that has ever been hit. It was some hit.

Newspaper—Well, what hit was that?

Base Ball Man—This hit was in the Philadelphia Washington series. Eddie Plank was pitching for the Athletics. Johnson stepped up to the plate and connected with one of Plank's fast ones and sent it from Washington to San Francisco.

Football Man—I don't believe it anyway. What kind of tobacco do you smoke? Bull Durham or Duke's Mixture?

Base Ball Man—Well, here's the way it was done. When Johnson hit the ball there were some box cars on the outside of the fence, the ball landed in the cars and journeyed to California. You get it so I claim it to be some hit.

Newspaper Man—I agree with you there. I remember when I wrote up such a story as that for our paper. It was just like you told it. But I didn't think you could remember that far back.

Political Man—Well, I haven't been saying much, for we political men say very little. It seems to me as if this argument which you all have brought me into is getting quite warm.

Football Man—On Thanksgiving Day I will make a name for myself, for on the field of battle I will be the hero of the day. I expect to make a couple of touchdowns and then I am going to kick a couple of goals.

Base Ball Man—I remember when Sanford beat Orlando up here in a game of ball. After giving up all hopes of winning the game and with the score 1 to 0 in Orlando's favor, Bell came up and hit one over the fence, then Leon followed with one over the fence which won the game. I tell you there's nothing like this old game of ball.

Political Man—You are right about that, but in politics you mingle with all classes of people some rich and some poor. Right here in Florida they have got me where I don't know which way my vote went. I voted for Mr. — and when the court ruled that there was fraud going on I said to myself they have just taken my vote away from me and handed it to another man in the case.

Base Ball Man—That's why I say base ball is clean. You see there in your game there is always crooked work going on, while in base ball

we have a court of our own known as the National Commission. If any of the players think they are getting beat out of any money they appeal their case to the National Commission and at their hands rests your case. The United States court has nothing to do with our game.

Football Man—I agree with my base ball friend. If I understand, he is right.

Newspaper Man—Yes, you are right. During the famous Sisler case, which was before the National Commission I was on that case for the paper. The commission heard the evidence and ruled. But in your political game, when anything goes wrong it requires a hard fought battle.

Base Ball Man—We have a sport that also helps out charitable organizations, and whenever a player gets injured we look after him. Over in Nashville the past season Johnny Dodge was hit by Tom Rogers and killed. The call was sent all over the country for help. And every base ball league in the country responded to the call. That shows our true sportsmanship.

Political Man—When it comes to raising money for the cause our political game can raise more in a minute than all of you all combined. We have our Democratic committees all over the country receiving monies. We have the greatest game in existence. You have to be very shrewd and also very clever to get by in our game. Only such notables as JESSE JAMES, CARRIE NATION and Lefty Loo can get by in our game. Our game of politics is great. It requires study of CRIMINOLOGY and all other studies to get you through the first stage of the game.

Football Man—We don't need no money in our sport. We are so well fixed that our football players play for nothing.

Newspaper Man—Now, boys, you didn't know, but our game is the greatest of them all. In the newspaper business you have a chance to clean up. We make you political men and you base ball fellows all come with us. If we run your picture in the paper we get a little for that. Then, again, if you receive a little write up a little more money is forthcoming. So all in all we have you all buried when it comes to getting the money.

Base Ball Man—O how the papers love me. I have never known one yet to run a story just right. I once sent an ad in to a certain newspaper. I asked them to advertise that I had a house and lot for sale and listen here, you newspaper fellows, you know what that yellow journal ran? They advertised that I had a house full of corn and mule for sale. I sued the paper for damages and the court allowed me 22 cents damages. They ruled that no one can sue a newspaper and expect to get much damages.

Newspaper Man—Its pretty hard to beat a newspaper, for sometimes the paper has the JUDGE right where he wants him. CURTAIN.

The winner of the argument will be forced to roll all three of the losers around the main street in a wheelbarrow, this being the bet made. The argument is to be settled by a committee of three men. The one that put up the best argument in general will be declared the winner.

UMPIRES ARE ABUSED

Standard of Sportsmanship in Baseball is Rated Low.

In No Other Sport is Decision of Referee Questioned as on Diamond — Fans Believe in Honesty of Players.

Is the standard of sportsmanship in baseball lower than in any other line of sport?

On the football field no player may even question the decision of referee or umpire. The captain is permitted only to inquire politely if there may not be a different interpretation of the rule. The football coach or director who openly blames an official for the loss of a game loses caste thereby in the college world. In rowing, tennis, polo, the ruling of an official is accepted gracefully even if it is felt to be wrong.

So far as recalled, no turf official ever had to be escorted from the track

by a squad of police to save him from rough handling. Not since the good old days of milling in out-of-the-way places to escape police, has a boxing referee had to be defended from static fans who did not agree with his choice of a winner in the ring.

What would the average baseball fan think of players who surrounded a team-mate and berated him openly for making an error which cost a ball game? There was no throng of irate New Yorkers besieging the gates of Fenway park in Boston to beat up Snodgrass after the world's series game which he lost by miffing a fly ball.

The fans believe in the honesty of the players. But not one of the 16 major league umpires threatened to jump to the Federal league to boost his salary. How many ball players of today have not done that? Not one of the umpires would try to jump a contract for increased salary. How many players would not jump for more money if they could? There are not 16 ball players in the major league today who live cleaner lives and keep themselves in better condition mentally and physically to do their work on the diamond than the 16 umpires do.

943 IS DEATH TOLL FOR SPORT DECADE

Nine hundred and forty-three persons have lost their lives in sports, indoor and outdoor, in ten years.

The highest toll was paid in baseball, in which 284 were killed. More persons take part in baseball, and it is played over a greater period than other sports. Football, with fewer persons playing and with a short season, ranks second with 215 deaths.

The toll in boxing was 105, auto racing 128, horse racing 54, wrestling 16, cycling 77, tennis 1, basket ball 2, golf 14, field games 3, bowling 9, polo 3, other sports 24.

CLOSER RACE IS PREDICTED

President Ban Johnson Names Six Clubs Appearing to Have Chance to Win 1916 Pennant.

"The American league race, in my opinion, will be closer than last year," says President Ban Johnson. "The Red Sox will have to play better baseball to win another pennant. The Tigers and White Sox are bound to improve, while the Browns, Yankees and Senators are expected to make a lot of trouble. Here are six teams

that appear to have chances to take part in the world's series." Johnson said that although the Athletics and Indians might start

Ban Johnson.

weak there would be a big improvement in the two teams before the season was over. He warned New York fans not to expect too much of the Yankees just because Huston and Ruppert have broken all records in spending money on players.

True Happiness. Happy the man who, remote from busy life, is content, like the primitive race of mortals, to plow his paternal lands with his own oxen, freed from all borrowing and lending.—Horace.

DRESS TALK NO. 52

JUST A MINUTE
Of your valuable time to let you know that Mr. Dillard representing Isaac Ham-burger's line of Tailoring will be at the Haberdashery Sept. 15-16-18 and 19th. Come in and have your measure taken.
