ALL STATE TOUR OF JACKSONVILLE MEN UNDERWAY

(By The Associated Press) JACKSONVILLE, April 25.—The "all-state" tour of Jacksonville business men conducted by the local chamber of commerce got under way last night when the special train left for Tallahassee at 11:45 o'clock. A large body of local business men were aboard for the trip which was planned with the idea of cultivating good feeling among cities and towns in the state towards Jacksonville. A last minute injunction by the committee in charge was against any talking or "shop" during the tour. One speaker in elaborating on the purpose of the trip, said the local business men wanted to show they were not cold hearted seekers of the dollar but regular fellows. The purposes of the trip, said the local business men, was to show they were not cold hearted seekers of the dollar but regular fellows. The purposes of the trip, said the local business men, was to show they were not cold hearted seekers of the dollar but regular fellows. The purposes of the trip, said the local business men, was to show they were not cold hearted seekers of the dollar but regular fellows.

Unless some tactless member of the party mentions Jacksonville as a logical point for the capital, or its eminence as the gateway to the state there seemed to be no reason why all should not return safely home at the end of four days as per schedule.

Tallahassee, Madison, Live Oak, Lake City and Gainesville are on today's itinerary, while on the second day stops will be made at Ocala, Leesburg, Eustis and Tavares, Tarpon Springs, Clearwater and St. Petersburg.

Thursday the party will move to Tampa, Plant City, Lakeland, Bartow, Yule Wale and Haines City.

The return trip will be started Friday and stops will be made at Kissimmee, Orlando, Sanford, DeLand and Palatka.

12,000 KNIGHTS TEMPLAR PARADE AT NEW ORLEANS

(By The Associated Press) NEW ORLEANS, April 26.—More than 12,000 Knights Templar, clad in the full regalia of their order, marching to the strains of two score bands, passed through the downtown section of the city today, while a crowd estimated at 200,000 lined the sidewalks, numerous stands and every vantage point to watch.

After the parade the first session of the Grand Encampment was opened. All the business sessions are held in the recesses of the lodge room and nothing has been given out as to the proceedings there.

Exhibition drills in which the many specially drilled teams will take part will begin tomorrow and be continued Thursday.

In addition to the drills, the business sessions of the Grand Encampment will continue.

C. J. ROSE ELECTED COMMANDER G. A. R. FLORIDA DEPARTMENT

(By The Associated Press) MIAMI, April 26.—C. J. Rose of Miami was today elected commander of the Florida department Grand Army Republic, at annual convention here. Susie Walters of St. Petersburg elected president Woman's Relief Corps.

There appears to be some inexplicable entanglement between Colonel George Harvey and the headlines.

Dancing at Parish House Friday night, \$1.00 per couple. 2p

IF KIDNEYS AND BLADDER BOTHER

TAKE SALTS TO FLUSH KIDNEYS AND NEUTRALIZE IRRITATING ACIDS

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.—Adv.

BUILD - Build Now

"A Nation of Home Owners" is the ideal that America looks forward to. It is a mighty big ideal, but practically everyone who is paying rent can help realize it. Doesn't every real American want a share in the soil and the property of his native land? Of course he wants to be Uncle Sam's partner! Right now at the first dawn of Spring, the impulse to own your own home is strongest. You will do well to "obey that impulse."

NO NEED TO WAIT FOR PRE-WAR PRICES

Many opinions have been expressed regarding the building situation for the future. The lumbermen are naturally interested in the mental attitude of the masses with regard to the future as well as the present. During the period of time that has elapsed since the peak of high prices there are many who have given the old time worn excuse for not building by saying that prices will return

to pre-war levels in view of this fact it is economy to await that time. This, of course, means a postponement of activities for members of the lumber industry. However, we are prone to believe that this opinion will never be indulged in by the majority of the prospective builders to the extent of making this cessation of activities permanent. On the other hand we are of the opinion that the present feelings of many will be treated in much the same manner as has been the case after all the other wars that have been the means of

bringing about these abnormal conditions.

In the event the average builder wishes to wait for approximately ten years to build his home, then it is highly probable that he will be able to obtain material at pre-war prices. Possibly this sounds strange and exaggerated to the layman who is not posted on past conditions that have existed after each of the great wars that have occurred in this country. During the civil war the prices made an ascension much the same as has been the case this time. Many decided to await the time when this would cease and they might buy as cheaply as they could before the North and South decided to disagree. Some of them until they became tired and others who stuck it out waited for exactly thirteen long years. Therefore we have no right to expect these prices to come down in the present case any faster than was the case in eighteen sixty-one. Nor will they. Those who are foolish to the extent of waiting for this to come will soon tire of it and those who actually postpone contemplated activities will have just about ten years ahead of them, the war having been over three years. This is a known fact. It is the record of past events, the greatest statistician of the ages. Therefore, we are of the opinion that it is only logical to assume that the case of the civil war will be a complete confirmation of the old adage, "experience is the best teacher." We cannot imagine an intelligent population waiting.

After the Civil War it took thirteen years for building costs to recede to the normal pre-war figures. If the Civil War is a correct analogy, those who are waiting for pre-war costs have only ten more years to wait.

As a matter of fact, however, market advances and recessions, immediately after the Civil War, were a much simpler matter than they are today.

Productions and methods of operating were not then so highly standardized. Industry was not nearly so centralized or efficient in its methods. Scientific cost analysis; economic methods of production and stable freight rates were then scarcely known.

But the most important phase of the matter is the fact that labor was not then organized to resist wage reductions as it is today.

The significance of all this is that the return to pre-war prices will be more gradual and much longer in arriving after the World War than it was after the Civil War.—Southern Lumber Journal.

Dancing at Parish House Friday night, admission \$1.00 per couple. Sanfords best orchestra, Mrs. Turner, Houser, Al Witherington and Jamie Robson. A real dance and a good time. Everyone invited. 26-37p

The plant of the Florida Mills Company at Sumica, which was destroyed by fire about a year ago, has been rebuilt and work will start immediately. The mills are owned by the French company that owns about 40,000,000 feet of lumber in Polk County. The new plant cost \$40,000 and will turn out around 1,000,000 feet of lumber per day.

Opening up the Everglades and rich Calooshatsee Valley section, the real "hot house" portion of Florida, is being proposed by the building of a cross-state railroad from West Palm Beach to Fort Myers by a direct air-line that would tap the Florida East

Coast railroad and the A. C. L. at the former point; the Haines City-Immokalee branch of the A. C. L. near Goodno, and possibly the Seaboard near its crossing at Charlotte Harbor.

"Vegetable shipments, particularly declares the Cucumbers, have been in quantity during the past week," declares the Sumter County Times, published at Bushnell. "The cool nights have somewhat cut down the yield, but it is very good and prices are satisfactory." The Times adds several carloads of peppers, egg-plant and cabbage have been sent out during the past week and the

outlook for the tomato crop is excellent. In fact the outlook for the truckers appears to be generally excellent.

MEMBER THE ASSOCIATED PRESS. The Associated Press is exclusively entitled to the use for republication of all news dispatches credited to it or not otherwise credited in this paper and also the local news published herein.

All rights of republication of special dispatches herein are also reserved.

Knights of Pythias are in meeting at Orlando.

Bill Crawford's picture in all the Orlando papers shows his handsome phiz in true form. Bill was formerly a newspaper man which accounts for his good looks.

Why do the so-called "night editions" of the Florida dailies have to be printed on pink paper. Whenever the Herald gets out a "night edition" it will be printed on light blue paper done up in baby blue ribbon.

Peter O. Knight in a speech before the Hardware convention at Birmingham "rapped the 18th amendment" says despatches in daily papers. We do not know just which amendment Peter meant to rap but if he wanted to be in style he should have rapped the 18th one just for luck.

Now that the missing Key West-Bimini seaplane has been found we can resume our accustomed personal of the Genoa conference, the bonus bill, the sporting news and the platform of Albert Gilchrist. And Bimini will be quiet until another plane is lost.

Two editors in Colorado settled their difference by a personal scrap and one had his nose broken and he promptly shot his assailant dead. That is really the best way to settle any personal animosities that might crop up from time to time among the rival newspaper men in the same city. Newspaper men usually go the whole way without any argument.

The old landmarks of Sanford are gradually disappearing to make way for the new buildings and the new Sanford. It is in the case of the survival of things. All of which brings to mind the thought that we should so live that departing we can leave behind us footprints on the sands of time instead of finger prints on the police records.

So many men ask the question, "what is the chamber of commerce doing?" and they are usually the men who do not belong to this body. If they were active members they would know what the chamber is doing and know that the active committees are working every day for the betterment of Sanford. There are many merchants and farmers being benefitted every day by the chamber of commerce and they are not spending a nickel with the chamber to help it help them.

"How I Checked Liquor Smuggling in Florida" is the title of an article by Mr. Nutt, running in many of the daily papers. "Checked" is right. He checked the flow into the state and then went back home. Now if Nutt had said "How I Stopped the Liquor Traffic" he would have said something. Any dang fool can check it right here on main street most any night, but why check it. We are not baggage men or checker players. What the people want is a "stopper" instead of a checker.

GROCERIES FRUITS AND VEGETABLES. Courtesy and Prompt Service Our Motto. DEANE TURNER. Phones 497-494. WELAKA BLOCK

Four million men are out of employment chiefly on account of the coal strike and other strikes throughout the United States. It is a good thing summer is coming on for with four million men out of work their families would suffer in the cold winter weather. This does not look like the good times that were promised by the Republican administration.

We would like to inform the readers of the Herald that news is news and all the articles gleaned from the world by our great press gathering agencies are printed with no thought of taking sides on any subject. Unless you see something in the editorial columns you cannot take exception to same as the gathering of news has nothing to do with the editorial policy of the paper.

Pensacola man was lost in Orlando for several hours yesterday. He was attending the Knights Pythias convention and becoming sleepy went to his hotel and slept. The other Pensacola folks jumped to the conclusion that some of the capital removal people in south Florida had sandbagged him and they were greatly alarmed until the missing one was found in the hotel. No one ever goes to sleep in Orlando and naturally the police never looked for the man to be in bed.

Our county commissioners held a special meeting yesterday afternoon and decided to accept the offer of the state road department to furnish rock for the sides of the Orlando-Sanford road making it sixteen feet wide. Seminole will have to pay for the road building but it will be reimbursed later when the road department has the money. This was a move in the right direction by the commissioners and means that the main highway and the most extensively traveled will be made wider and fixed at once without waiting for the road department to bring their force down here which might be any time within the next two years.

The first observance of southern memorial day in Sanford was held yesterday and being the first it should have been better attended but it seems that the people who are mostly interested or should be interested have lost interest and this probably accounts for the fact that the day was never observed before. Credit is due to N. de V. Howard chapter, Daughters of the Confederacy for the observance of the day yesterday and it should be made a holiday in fact as well as in name next year. Other cities closed the stores for two hours and in many other ways observed the day and called the public's attention to the day of days in the south.

BUSY TIMES IN FLORIDA

We have often remarked that it would take a large size book to tell of the activities and progress of the different cities and towns in Florida and in that assertion we have not changed our minds one bit. The state is growing fast and the optimism of the many newspapers shows that every section is on the increase.

To be sure the average person when told that the state is growing fast, his mind will run to Jacksonville, Miami, Tampa and St. Petersburg. His mind then is at rest. He never thinks of other cities like Orlando, West Palm Beach, Daytona, Lakeland, Ocala and Sanford.

Nether does he give a single thought to Fort Myers, Palatka, Plant City, Fort Pierce, Melbourne, St. Augustine, Gainesville, Clearwater, Haines City, Avon Park or Lake Wales.

Yet every town named above are growing like weeds and dozens of others are in the same boat. No matter in what direction the traveler moves he sees evidences of prosperity on every hand. Towns that were considered dead three years ago are so lively today that the man who has been absent a year or more needs a guide to show where the old landmarks were.

St. Petersburg maintains 700 carpenters the year around and Miami over 1,000. Daytona and the two cities on the beach are spending over \$300,000 right now for new buildings. The two Palm Beaches have over a half million dollars planned for new buildings. Miami and Miami Beach are putting up new buildings that will cost a million and yet there is more to follow.

Many of the towns are reporting \$100,000 and more being spent in new buildings and the town that is not reporting any improvements is not much.

Then with the many new buildings in process of erection, there will be several million more spent for hard surfaced roads, sidewalks and sewers. Nearly every town or city has the improvement fever. Municipal and district bonds are selling for more than par. The air more than reeks of prosperity.

Many new agricultural farms, stock ranches and dairy farms are be-

UNCLE HANK

Education is eatin' spaghetti like you wuz used to it.

ing started and there is any amount of capital behind them. In the Everglades sugar mills are either started or being set out to sugar cane and within a short time the Glades will be the sugar bowl of the world. From the North and even from other sections of the South the great trust companies are sending their representatives to Florida with a view of getting in on the top of the prosperity wave. After they have visited a few of the busy communities the trust companies announce they will lend money to any legitimate concern in Florida.

By a systematic manner of advertising Florida could attract more settlers and more capital. To our notion printers' ink is the one blessing that will bring the attention of the outside world to this great state. If anything will do it printers' ink will. To our notion it is all right to have festivals and carnivals in the cities. Also to hold Palm Fete, Sun Dances, Ponce de Leon celebrations and the like. Such gatherings attract a large crowd for a week or so and then the world move on. Nothing much has been accomplished.

On the other hand county and district fairs and even township fairs show the visitor what can be raised there. The grand display of fruit and vegetables, poultry and live stock proves that the old state can raise something besides tourists and resort hotels. The above displays are mute advertisements of the resources of the state and if the said visitor is of the notion of buying a home nothing more will appeal to him stronger than to see the stuff that is raised in that section.

Yet everything helps. The tourist himself is a big asset to the state. The family that arrives and departs in an automobile leaves a certain amount of money. Even the knocker spends a certain amount, and where there is one that knocks there are ten thousand that advertise the state for all they are worth.

Willis Powell of Lake County says that the average family that comes to Florida to live, be he a home owner or renter, is worth \$2,500 to any community. And we believe that Willis knows what he is talking about. The man that patronizes the grocer, the butcher, the dry goods and clothing stores, to say nothing of the baker and the milkman is a valuable asset to any community for he is helping to circulate money in the community and keeps the dollars a-moving.

Florida will continue to grow and there is no stopping, either, at the half way station. The town of today will be a city tomorrow. While the communities in the North are worrying with strikes and shortage of coal the Floridians will be on the job twenty-four hours in a day and they are not quitters, either.—Florida Post.

OF INTEREST TO SOUTHERN SHIPPERS

As a measure to secure for the public the maximum service from its specialized equipment for handling perishable traffic, the Pennsylvania railroad will effective May 1, discontinue entirely the operation of its separate refrigerator car lines, and will merge all of its refrigerator cars numbering 5,927, with those of the Fruit Growers' express. Thereafter the Fruit Growers' express will assume all refrigeration and protective car service on the lines of the Pennsylvania system.

The Pennsylvania railroad management has decided upon this step as being in the best interests of the shippers and the railroads generally. Its most important effect will be to more than double the number of refrigerator cars operated by the Fruit Growers' express. These now number 5,209. With the addition of the Pennsylvania cars, there will be a total of 11,136 available for service throughout the territory covered which embraces the Southern and Central Western States east of the Mississippi, the Middle Atlantic states and New England.

The Fruit Growers' express is a co-operative organization owned and

managed by the leading railroads of the south and east. It has no individual stockholders and no distribution of earnings outside the owning railroads. It exists solely for the purpose of supplying refrigerator cars and protective service on fruits, vegetables and other products of a perishable nature.

Traffic of this character is seasonal, beginning during the winter in Florida and working north until the late fruit crops of northern New York and Michigan, and the potato crop of New England, are reached. It is therefore evident that the addition of the large number of cars owned by the Pennsylvania system, to those already controlled by the Fruit Growers' express, will assure a better distribution and a more flexible, efficient and economical use of the equipment throughout the season. It was for this reason concluded by the Pennsylvania railroad management that the shippers' needs are better met by such an organization as the Fruit Growers' express than by each railroad trying locally to care for the crops in its own particular territory and that of its connections.

The new arrangement will also secure professional attention to all details of the protective service for all shippers. The Fruit Growers' express was organized two years ago and has developed a working force specially trained in the handling and care of perishable freight. Last year it made a particularly successful record in handling southern products, and it was largely this fact which influenced the decision of the Pennsylvania railroad management. The Pennsylvania railroad was the pioneer in the use and development of refrigerator cars, having established the first lines through the south more than thirty years ago, in order to bring fresh fruits and vegetables to the northern markets during the colder seasons.—Tampa Times.

RURAL CLASSES LONGEST LIVED

Census Bureau Also Finds Women at All Ages Have Better Chance for Life.

GIRLS HAVE BEST CHANCE

Examination of Mortality Tables Indicates Decided Improvement in Infant Mortality Rates—Expectation is Increased.

Washington, D. C.—The Department of Commerce, through the bureau of census, announces that the second official publication on life tables derived from births, deaths and population is soon to be issued.

It is shown that mortality at practically all ages is higher among men than among women. In particular, it appears that the most favorable mortality in this country is found among women living in the rural districts.

The rural classes, regardless of sex, enjoy a much lower mortality for nearly the entire range of life than those living in the cities.

While the expectation of life, both among men and women, in most classes has steadily increased, there is no indication of any definite lengthening of the span of life.

In other words, while almost all classes of persons are living to an older average age, the limiting age of human life does not seem to have advanced.

Girl Babies Have Best Chance

In 1901 the expectation of life among white girl babies at birth was about three years more than among white males, and in 1919 the excess in favor of the girls had increased to almost three and a half years.

An Examination of the Infant Mortality Tables Indicates a Decided Improvement in the Infant Mortality Rate in Most Classes of the Population between 1901 and 1919.

The expectation of life of children born in 1919 also shows a considerable improvement over the expectation of life of children born in 1901 and 1902 and practically all classes of the population. The infant mortality in the rural districts was considerably lower than that in the urban districts, both in 1901 and 1919, but the difference in favor of the rural districts was not as great in 1919 as it was in 1901.

Life Tables are also given by sex for Australia, Denmark, England, France, Germany, Holland, India, Italy, Japan, Norway, Sweden and Switzerland.

They may be used to compare rates of mortality and expectations of life at any age in one country with those of any other country or with those in the United States.

Low Mortality in Norway.

A comparison with these countries shows that, except for France, India and Japan, the rates of mortality among men and women are less favorable in this country than in the foreign countries mentioned.

The most important mortality tables used by life insurance companies in this country and in foreign countries are included in this publication.

BOYS BUY MARKS IN PARIS

French People of All Classes Invest Their Money in German Money.

Paris.—The fever which has prompted French people of all classes to invest their francs in German marks led a twelve-year-old boy to a large Paris bank, where he asked for a franc's worth of German money.

"Perhaps, though," said the child, "it would be better if I bought Hungarian money. I read in the paper this morning that marks had gone up, but Hungarian money hadn't, but Hungarian has lots of corn and I think her money will go up soon, don't you?"

The clerk told the child to invest his franc in candy.

Put on Shoes in Sleep.

Practices of Commercial Fishermen Condemned by Burnham.

Atlantic Sturgeon and Salmon Have Practically Disappeared, He Says—Pollution of Streams and Spawning Regulations Blamed.

New York.—The salt water fisheries of this country are seriously menaced by the present practices of commercial fishermen, pollution of water and improper spawning regulations, declared John H. Burnham, a member of the Migratory Fish Conservation committee, and one of the originators of the migratory bird law.

Off the coast of Lower California, Mr. Burnham asserted, the water is frequently white with fish killed by purse seiners, who cannot take them to port for sale.

He says that the Atlantic sturgeon and salmon have practically disappeared and added:

"Unless radical action to preserve our fish is taken in the immediate future, this country will find itself facing the problem of trying to restore a natural resource of great importance which already has been lost."

The Migratory Fish Conservation committee, an organization believing in the necessity for federal control of the fisheries, soon will introduce in congress a bill similar to the present migratory bird law, looking to the general protection of fish in the waters of the United States, Mr. Burnham said.

The migratory bird law, he stated, has proved conclusively that game can be conserved by proper legislation and the Migratory Fish Conservation committee expects little opposition to the bill except from commercial fishermen and those states which derive a revenue from such fishing without a thought of the probable duration of the industry.

COW'S RIB PART OF HIS SPINE

Blacksmith, Predicted Hopeless Cripple for Life, Can Now Move About.

Lynn, Mass.—How would you feel walking about with a fourteen-inch section of a cow's rib as part of your spine? Edward ("Spider Bill") Cragrove, formerly a blacksmith, three times on the operating table at Massachusetts General hospital, answers that he is "feeling fine" and has no desire to "moo" when a bottle of milk is set before him.

Once declared by physicians and surgeons doomed to be a cripple for life and spend his time in bed, now each day in his home he hobbles about with the aid of crutches, and within a short time expects again to be walking the streets which he traversed before a horse kicked him in the back.

"The cold gets in my legs and I don't care much about moving," he told a reporter who called on him.

TEST FLU ON 500 MONKEYS

Doctors Say Without Vaccine Disease Generally Fatal; Same in Humans.

New York.—Five hundred monkey have been used by health officials in New York and Washington in the last two years in experiments looking to the development of vaccines against influenza and pneumonia.

"We haven't learned anything about influenza," Dr. W. H. Park of the department said. "The experiments on the monkeys have shown conclusively that if one is vaccinated he cannot contract pneumonia when inoculated with the germ, but that, in the absence of vaccination, inoculation proves fatal in a majority of cases. Experiments on humans would bring the same results."

LOOT MILAN CHURCH TOMBS

Theft of Valuable Jewels Discovered at Services for Late Pope Benedict.

Milan.—A mysterious net of snarl-lege in the Cathedral of St. Ambrose was discovered when it was found that three saintly tombs had been rifled of jewels of fabulous value. Thieves had broken open the tombs of St. Ambrose, St. Gervais and St. Protase. After robbing the coffins of their costly contents the sepulchers again were sealed and to all appearances, were intact. The robbery was discovered accidentally through ceremonies attendant upon the death of Pope Benedict XV.

Pastor Quits Pulpit to Hang Murderers

The Rev. W. E. Robb, sheriff of Polk county, Iowa, has resigned his pastorate at the Unbanulate Federated church, because, he said, he does not wish the church to be subjected to criticism when he hangs two murderers next spring. "I will have to hang Orrie Cross and Eugene Weeks in April and May," Robb said. "I do not feel that I should be a regular pastor when I do this, as I would subject my church to too much criticism."

MIGHTY RIVER IS THE YUKON

Ranks as One of the World's Greatest, Though It Was Long Comparatively Unknown.

The Yukon is one of the great rivers of the world. It is more than 2,300 miles long and is both the longest and the largest river flowing into Pacific waters in the western hemisphere, surpassing by a considerable margin its nearest competitors, the Columbia and the Colorado.

The existence of such a large river as the Yukon in the Far North was long unsuspected. A Russian lieutenant, Zagoskin, entered its mouth by boat in 1812 and traversed it for several hundred miles.

The Hudson's Bay company had discovered its headwaters in Canada; but the two bits of information were not pieced together. The existence of the river as a stream of great magnitude and length first became really known through the daring and romantic project of installing land telegraph wires between America and Europe across Alaska, Behring strait and the wastes of Siberia.

WHISKERS IN ANCIENT EGYPT

Believed to Have Been Introduced to Country by Horsemen Who Came From Asia.

What could have been the explanation of black, bushy whiskers of an ancient Egyptian? Historically, usually, customarily, they did not belong there, and yet, thus accounted by the occupant of one of the tombs in the Theban necropolis which the Metropolitan museum's expedition at that place chanced to excavate.

It was named Atefamon, "Charioteer to the General," and in his coffin they found his whip broken into three pieces, and tied up in its own lash. Now, in his day, T. E. Winlock explains, horses and chariots had long been used in Egypt, but it was still remembered that they had first come from Asia and probably the best horses and the most skillful drivers were aliens.

Whaling Customs of Eskimos.

The Eskimos of the Arctic have strange customs. It has proved difficult to convert them to the ways of the white man. Of the practical arts of the latter, the natives have adopted whale boats and firearms. The methods of hunting are their own. When a whale is captured the boats of the hunters assemble at the scene as quickly as they can.

When the whaling season is over, each successful hunter gives a nuksuk (celebration), with the rest of the villagers as his guests. There is feasting, blanket tossing and a dance at the end of the program which often lasts for days.

Tall Mountains. At least 90 mountains in California rise more than 13,000 feet above sea level. But they stand amid a wealth of mountain scenery so rich and varied that they are not considered sufficiently noteworthy to be named according to the United States geological survey.

Waste Not.

Mother always cuts Peggy's hair, and as she was about to clear the clippings away the little girl stopped her. "Mother, you're not going to throw my hair away, are you?" "Yes, my dear. What's the good of keeping it?" "Why, can't you make it grow on grandpa's head? He's got no hair at all!"—London Answers.

As we look over the headlines, it occurs to us that if the devil gets his due it will be the residue.

The guilty don't always escape. The man who sells bootleg may not be punished, but the man who buys is.

FLORIDA CITIES TO ORGANIZE LEAGUE

Florida cities will send representatives to a meeting in Tampa on May 18 for the purpose of organizing a league of municipalities. It was learned yesterday at the city hall, where it was announced that Orlando would take part in the meeting.

The purpose of the league will be the disseminating of information among the various cities relative to municipal problems. Similar organizations have been formed in other states and on the whole have proved satisfactory.

The movement in Florida was originated by A. W. D. Hall, city manager of Tampa, who called the meeting. Mr. Hall has announced that the following cities will send representatives: Clearwater, DeLand, Ft. Meade, Fort Myers, Gainesville, Lakeland, Live Oak, Manatee, Miami, New Smyrna, Palatka, Palmetto, Pensacola, Plant City, Sanford, Sarasota, St. Augustine, St. Petersburg, Ocala, Tallahassee, Winter Haven, and Jacksonville.

CONVENIENCE

"If I only had that telephone downstairs," you say when it rings upstairs.

There is a way.

An extension telephone located on the other floor will bring the calls to you and save stair climbing.

EVERYTHING IN OFFICE SUPPLY LINE AT GREATLY REDUCED PRICE

HERALD PRINTING CO.

WILL SHARE IN GOVERNMENT AID

(By The Associated Press) TALLAHASSEE, April 25.—The state road department before closing its quarterly session here yesterday approved the road building program to receive federal aid under the so-called seven per cent system.

Under this system the state must share to the following provisions in designing roads to receive federal aid: The roads designated must constitute seven per cent of the state's mileage; three-sevenths of this percentage must constitute primary roads and the remaining four-sevenths secondary roads. At least six per cent of the federal aid must be used on the primary roads.

The state road department's program must be submitted for approval by the federal bureau of public roads. The program adopted yesterday was:

Primary roads—From the Alabama state line at Perdido along the route to state road No. 1 to Pensacola; from the Alabama state line near Hamilton along the state road No. 1 to Pensacola; from the Alabama state line near Campbellton on state road No. 6 to Marianna; from the Florida state line near Jennings on state road No. 2 to High Springs on No. 5 to Fort Myers; from Jacksonville on No. 3 to Orlando; from Orlando on No. 103 to Tallahassee on No. 104 to Tallahassee on state aid road No. 135 to Jacksonville.

Secondary roads—From Pensacola No. 1 to Jacksonville; from Marianna on No. 6 to Port St. Joe; from High Springs on No. 5 to Orlando; from West Palm Beach on No. 4 to Miami; from Miami on state aid road No. 128 to Fort Myers.

The state highway engineer of the road was instructed to locate state aid No. 1 through the town of Willbern along the route of the present road. He was also instructed to prepare specifications and estimates of the work necessary to repair that section of road No. 4 through St. Johns county.

HELPED HER MOTHER WONDERFULLY

In these days of "flu," coughs, colds, croup and whooping cough, it is well to know that every year there are sold more bottles of Foley's Honey and Tar than of any other cough medicine. Mrs. S. L. Hunt, 516 W. 6th St., Cincinnati, Ohio, writes: "Foley's Honey and Tar relieved me of a hacking cough, tickling in the throat, sneezing and pains in the chest. It helped my mother wonderfully." That's why druggists recommend Foley's. Sold everywhere.—Adv.

First National Bank
A COMMUNITY BUILDER
F. P. FORSTER, President
R. F. WHITNER, Cashier

order an election to be held within Special Tax School District No. 1, Seminole County, Florida, said Special Tax School District being also known as the Sanford School District, to determine whether or not there should be issued by said Special Tax School District No. 1, bonds in the sum of \$40,000.00, the proceeds of such bonds to be used for the purpose of acquiring, building, enlarging, furnishing or otherwise improving school buildings and school grounds and for the exclusive use of the public free schools within said Special Tax School District No. 1, the proceeds of the said bond issue amounting to \$40,000.00, to be used for the purposes set forth in said petition, and to be expended and disbursed in a manner following, to-wit: \$40,000.00 to be used in acquiring a site, building and furnishing a primary school, and for enlarging, furnishing or otherwise improving school buildings and school grounds for the exclusive use of the public free schools within said Special Tax School District No. 1, and:

Whereas the County Board of Public Instruction for Seminole County, Florida, has carefully examined said petition and has determined that more than twenty-five per cent of the duly qualified electors residing within Special Tax School District No. 1, have signed said petition, and

Whereas the County Board of Public Instruction for Seminole County, Florida, has by resolution this day determined that bonds in the sum of \$40,000.00 shall be issued for the purposes set forth in said petition, and which are enumerated hereinabove, said bonds to bear interest at the rate of five and one-half per cent per annum, interest payable semi-annually, bonds to be dated July 1st, A. D. 1922, and the principal of said bonds to become due and payable thirty years after the date thereof.

Now, therefore, in pursuance of law, and in pursuance of a resolution of this Board, this day adopted, notice is hereby given that on the 28th day of May, A. D. 1922, an election will be held, and the same is hereby ordered to be held in Special Tax School District No. 1, Seminole County, Florida, said Special Tax School District also known as the Sanford School District, to determine whether or not there should be issued by said Special Tax School District No. 1, Seminole County, Florida, bonds in the sum of \$40,000.00, to bear interest at the rate of five and one-half per cent per annum, interest payable semi-annually, bonds to be dated July 1st, A. D. 1922; the principal of said bonds to become due and payable thirty years after the date thereof, as it appears for in that certain resolution that day adopted by this County Board of Public Instruction for Seminole County, Florida, in which said election only the duly qualified electors who are free holders residing within said Special Tax School District No. 1, Seminole County, Florida, shall be entitled to vote.

The said election so ordered to be held shall be held at the several polling places within said Special Tax School District No. 1, Seminole County, Florida, where the last general election was held, throughout said district, to-wit: At Precinct No. 1 and Precinct No. 3, and the said election shall be held in compliance with law, and the inspectors and clerks of the polling places shall make prompt return to the County Board of Public Instruction for Seminole County, Florida, immediately after the said election and the tabulation of the votes polled, and the County Board of Public Instruction for Seminole County, Florida, will in special session at 10 o'clock A. M. on the 16th day of May, A. D. 1922, to receive the returns of the said election and to canvass, determine and certify the results thereof.

The following named are hereby appointed and designated as Clerk and Inspectors to hold and conduct the said election at the polling place or precinct named, to-wit:

At Precinct No. 1 (Sanford): L. M. Tyre, Sr., Geo. W. Huff and Kenneth Murrell, Inspectors and E. D. Brownlee, Clerk.

At Precinct No. 3 (Sanford): David Speer, F. P. Rines and Chas. Matthews, Inspectors and J. G. Leonard, Clerk.

Witness my hand and seal of the County Board of Public Instruction, Seminole County, Florida, in regular session this the 4th day of April, A. D. 1922.

C. F. HARRISON, Chairman
FRED T. WILLIAMS, (Seal of Board)
C. A. DALLAN, County Board of Public Instruction for Seminole County, Fla.

Employment Bureau.
The vocational committee of the Business and Professional Women's Club requests all young women desiring employment to register at the First National Bank.

AGNES G. BERNER, Chairman

Seminole County, Florida, to determine the question whether or not bonds in the sum of \$40,000.00 shall be issued by said Special Tax School District No. 1, Seminole County, Florida, the proceeds thereof to be used for the purpose of acquiring, building, enlarging, furnishing or otherwise improving school buildings and school grounds and for the exclusive use of the public free schools of Special Tax School District No. 1, Seminole County, Florida.

Therefore be it resolved: That an election be and the same is hereby ordered to be held in said Special Tax School District No. 1, Seminole County, Florida, on the 28th day of May, A. D. 1922, to determine whether or not there shall be issued by said Special Tax School District No. 1, Seminole County, Florida, bonds in the sum of \$40,000.00, to bear interest at the rate of five and one-half per cent per annum, interest payable semi-annually, bonds to be dated July 1st, A. D. 1922, and to mature thirty years after the date thereof.

He it further resolved: That this order be published in the Sanford Daily Herald, a newspaper published within Special Tax School District No. 1, Seminole County, Florida, once each week for four successive weeks.

Done and ordered in regular session of the County Board of Public Instruction for Seminole County, Florida, this the 4th day of April, A. D. 1922.

(Seal of Board) Chairman.
FRED T. WILLIAMS,
C. A. DALLAN,
County Board of Public Instruction, Seminole County, Florida.

RESOLUTION COUNTY BOARD OF PUBLIC INSTRUCTION, SEMINOLE COUNTY, FLORIDA, DETERMINING WHAT AMOUNT OF BONDS IS NECESSARY FOR SPECIAL TAX SCHOOL DISTRICT NO. 1, SEMINOLE COUNTY, FLORIDA, SAID SPECIAL TAX SCHOOL DISTRICT BEING ALSO KNOWN AS THE SANFORD SCHOOL DISTRICT, RATE OF INTEREST TO BE PAID THEREON, THE TIME WHEN PRINCIPAL AND INTEREST SHALL BE DUE AND PAYABLE.

Whereas on the 4th day of March, A. D. 1922, a petition was presented to the County Board of Public Instruction for Seminole County, Florida, signed by more than twenty-five per cent of the duly qualified electors residing within Special Tax School District No. 1, Seminole County, Florida, said Special Tax School District being also known as the Sanford School District, asking and petitioning that an election be called and held to determine the question as to whether or not bonds in the sum of \$40,000.00 should be issued by said Special Tax School District No. 1, Seminole County, Florida, for the purpose of acquiring, building, enlarging, furnishing or otherwise improving school buildings and school grounds and for the exclusive use of the public free schools within said Special Tax School District No. 1, Seminole County, Florida, the proceeds of the said bond issue amounting to \$40,000.00 to be used for the purpose set forth in said petition, and to be expended and disbursed in a manner following, to-wit: \$40,000.00 to be used in acquiring a site, building and furnishing a primary school, and for enlarging, furnishing or otherwise improving school buildings and school grounds for the exclusive use of the public free schools within said Special Tax School District No. 1, and:

Whereas it is the sense of this Board that it would be to the best interest of Special Tax School District No. 1, Seminole County, Florida, said Special Tax School District being also known as the Sanford School District, to issue bonds in the sum of \$40,000.00, the proceeds thereof to be used and expended in the manner and for the purposes and objects as are hereinabove set forth and as is stated in said petition.

Therefore be it resolved: That it is the determination of this County Board of Public Instruction for Seminole County, Florida, that the amount of bonds required for the purposes and objects set forth in said petition is the sum of \$40,000.00; that the said bonds shall bear interest at the rate of five and one-half per cent per annum; the interest on said bonds to be payable semi-annually; said bonds to be dated July 1st, A. D. 1922, and to mature thirty years after the date thereof, and.

He it further resolved: That a special election be held in said Special Tax School District No. 1, Seminole County, Florida, in accordance with law, to determine whether or not there shall be issued by said Special Tax School District No. 1, Seminole County, Florida, bonds as are provided for in this resolution, and.

He it further resolved: That this resolution be published in the Sanford Daily Herald a newspaper published within Special Tax School District No. 1, Seminole County, Florida, once a week for four successive weeks.

This resolution adopted in regular session of the County Board of Public Instruction for Seminole County, Florida, on the 4th day of April, A. D. 1922.

(Seal of Board) Chairman.
FRED T. WILLIAMS,
C. A. DALLAN,
County Board of Public Instruction for Seminole County, Florida.
