YESTERDAY IS HISTORY. PROGRESS IS TOMORROW!

This Spring we reached an all-time high of \$19,857,451.18 in deposits. We increased dividend payments to our depositors by some 25%. We redesigned our drive-in facilities for your easy banking convenience. But, that's history. Progress is tomorrow!

We're proud of our history and the fact that we were granted the City Beautification Award, but we think it's more important to look ahead than behind. As a result, we can tell you a lot about next year's progress now. And, some of it will involve new banking services to benefit you.

Starting this month, your Florida State Bank of Sanford will begin installing the most advanced computer equipment ever developed to handle the myriad applications of the banking industry. It's the IBM 360 that cost IBM \$5 billion to develop.

The IBM 360 series model 20 computer to be installed at Florida State Bank of Sanford will be the first of this advanced data processing equipment to be installed in any bank in Florida.

What will it do? First, it will allow us to keep up with our growth and permit us to update our service to the community as we grow. Second, it will make it possible for us to hold banking costs in line as we grow and assure us the continued ability to offer economical loans to our customers. Third, it will enable us to offer you faster and more efficient service. As a bonus, you can plan on the availability of imaginative new banking services in the months and years ahead that you probably never dreamed possible.

In all aspects of progress, our services are designed to benefit and accommodate you, our customer.

See us soon.

THE LOOK FORWARD - Chairman of the Board, T. E. Tucker: President, C. Howard McNulty; and Vice President, Richard W. Keogh anticipate offering the finest and fastest banking services in Florida, achieved through the technical advances of the new IBM 360 series soon to be in action at the Florida State Bank of Sanford located at 200 West First Street.

ence rather than raw power.

Something must be done, and done imme-diately, or we will inherit a social disaster. I view all new taxes with suspicion and distrust, but if we must tax, let the untaxed be taxed before a greater burden is thrust on

I favor repeal of most sales tax exemptions

—except for groceries and medicines—which with labor. will not burden consumers, will make our tax structure more equitable, and will yield \$200 million in fresh revenue every biennium.

one great work-to do all I could for senior ve education a high, preferred I built Robert King High Towers in Miam for senior citizens. The rents range from \$28 The apartments are models of comfort and nvernence.

I have spoken out against exorbitant drag

"Integrity in Government"

Emphasis upon education is not a matter of choice, but destiny.

I have spoken out against exorbitant dru prices.

I will honor, always, the elders of the hard.
