Woman's Shortcomings

The trouble with many women is that they are always trying to do something they can't do. They want to be literary, when they have no sort of notion what literary means.

They want to be social leaders when they have no more idea of diplomatic relations with their fellow creatures than they have of dignified and sensible living. Not knowing how to do that which seems so desirable to them, they are prone to fall into the foolish and hurtful snare of pretending to do it.

It is reported of a Sanford mother that she summed up her conception of maternal duty thus: "I tell my children they must brush their teeth every night and practice their delsarte exercises whether they feel like it or not."

"These things are important—saying their prayers and reading their Bible, they may do as they choose about."

This attitude was considered "independent" and quite within the realms of "common sense."

Common sense, however, would suggest that if the teeth needed brushing, to keep them sound and sweet, the child's receptive mind needed on going to bed a brushing away of the false notions of meum and teum, collected by contact with the worldliness that infects even childhood.

If delsarte exercises were necessary to render the muscles supple and the movements graceful, surely the child's mind and soul needed a certain exercise in ethical training to render the child able to manifest a sense of justice, a sentiment of mercy, a capacity for self-sacrifice, a perception of heroism and sufficiency, faith in the highest to stand by the right at any cost.

The Woman's Club

The Woman's Club, recently organized, held their first regular meeting at the Sanford House last Monday and a goodly

number were present. It was decided to lease one of the bijou cottages on Park avenue as a permanent home for the club, and on next Tuesday night the members will keep open house for their friends, which means that the men will be invited.

This new home of the club is situated on Park avenue, just south of the first park, and when fitted up by the club will prove a most attractive place for the ladies to meet, and also to entertain.

The Woman's Club promises to do much toward bringing together the ladies of Sanford in social sessions and should prove quite a boon to visitors in Sanford.

The first reception next Tuesday promises to be a great success and will only be one of the many of these delightful affairs that will take place in Sanford during the coming social season.

In Honor of Miss Ripley

Mrs. George S. Derry entertained at bridge on Wednesday afternoon in honor of her sister, Miss Clare Ripley, of Macon, Ga.

Several of the guests who did not play whist were entertained at forty-two.

At the close of the games it was found that Mrs. Lake and Miss Ripley were the winners of the prize, which was gracefully acceded to Mrs. Lake by Miss Ripley.

Dainty refreshments were served and the afternoon most enjoyably spent by the guests, among whom were Mesdames Herndon, Connolly, Lake, Maxwell, Paul-eston, Newman, Holly, Fatjo, A. M. Thrasher, and Misses Whitner, Caldwell and Bumby.

The Parents' Club

The meeting of the Parents' Club, at the school building last Monday, was well attended and a full account of the meeting is given in another part of The Herald.

This club is doing a great work in Sanford, and much good to parents and children is bound to accrue from these meetings.

In Honor of Miss Bumby

Quite a number were present and whiled away a pleasant afternoon at games and pleasant chat. Light refreshments were served and Mrs. Newman's "at home" was voted one of the charming events of the week end.

AN ORDINANCE

Granting to S. O. Chase, A. T. Rossiter, A. P. Connelly, F. P. Forster and J. N. Whitner, Their Associates and Assigns, Certain Rights and Privileges Pertaining to Street Railroad in the City of Sanford, Florida

Be it ORDAINED by the City Council of the City of Sanford, Florida:

Section 1. That S. O. Chase, A. T. Rossiter, A. P. Connelly, F. P. Forster and J. N. Whitner (hereafter designated as GRANTEES), their associates and assigns, are hereby given and granted municipal franchises, rights, privileges and authority to have and operate street railways, and the right of way therefor, upon, along, through, over and across the streets and avenues of the City of Sanford, as follows: Constructing first on Sanford avenue from south city limits to First street; and from Sanford avenue to Oak avenue on First street, according to E. W. Traylor's map of the town of Sanford, Orange County, Florida, and such other streets and avenues as the City Council shall from time to time direct by resolution or ordinance. Said rights and privileges are hereby granted to said Grantees for the purposes of constructing, maintaining and operating by electricity, gasoline or such other motive power, except steam, as may be from time to time authorized by the City Council, a line of street railway for the transporting of passengers, baggage and freight together with such underground wires, and such side tracks, switches, turnouts and connections as may be approved by the City Council or its street committee, as may be necessary to the proper operation of street railways in said streets and parts of same, for the full term of thirty (30) years, from and after the date of the going into effect of this ordinance.

In the operation of their motors and cars upon said street railway, herein provided, the said Grantees, their associates and assigns, shall conform to and be governed by such rules and regulations as have been heretofore and shall hereafter be adopted by ordinance of said city.

Section 2. The tracks shall be laid with rails suitable for operating with motive power as herein provided, and in such manner as not to impair the usefulness of the street as a thoroughfare for the passage of other vehicles, and so laid as to conform to the established grade on which the railway is to be built, wherever the city has established or shall establish such grade. Where the streets are not graded, said Grantees, their associates and assigns, shall grade the space between the rails and two feet beyond the ends of the ties on such streets or parts of streets, and shall remove and adjust their tracks to conform to said grade with as little inconvenience and hindrance to the use of such street as possible, and in no event shall the city be liable to said Grantees, their associates or assigns, for any damage on account of said change. When the said Grantees, their associates or assigns, shall lay or repair their tracks on said streets or portions of streets at the time paved, they shall at their own expense relay the paving taken up so as to conform to the established grade, making the needed repairs with like material used in such paving.

Whenever or wherever the city or owners of the abutting property on any street shall have paved or shall pave, or cause to be paved, any street or part of street on which said Grantees, their associates or assigns, now have or will have their said tracks or any part thereof, the said Grantees, their associates and assigns, shall at the same time, or upon notice in writing given by the said city, and under its supervision and direction, pave the space between its rails and tracks, and at least two feet beyond the ends of the ties, in the same manner and with the same material as is used in paving the remainder of the street; and shall maintain the same in good order and condition.

At all crossings on unpaved streets, the said Grantees, their associates and assigns, shall, under the supervision and direction of said city, cover the space between their tracks and the rails of their tracks, and even therewith for at least two feet wide, and the approaches thereto on each side, with rock or shell, or with such other material as may be permitted by said city, and shall maintain the same in good repair and condition.

Section 3. The laying of said tracks, crossings and approaches thereto and the location of said wires within the said city limits, and maintaining the same, shall be under the supervision of the proper authorities of said city, and shall be done in accordance with their instructions.

Section 4. The fare charged by said Grantees, their associates and assigns, from any point on their line or branches, attainable by one continuous passage within the city limits along said lines and

branches, shall not exceed five (5) cents. No fare shall be charged for children under five years of age when accompanied by a person paying fare.

Section 5. The said City of Sanford shall in no case tear up or undermine said tracks of said Grantees, their associates and assigns, to lay down new pipes or ducts or sewers, or for any purpose, without re-laying said tracks.

Section 6. Said Grantees, their associates and assigns, and their officers and agents, shall be subject to all ordinances and resolutions which the City Council may, from time to time enact.

Section 7. The cars of said Grantees, their associates and assigns, shall have the right of way on and over their railway tracks, turnouts and switches, to the exclusion of all teams and vehicles (except the fire apparatus in case of fire), and any person who shall obstruct such tracks or parts thereof, or otherwise retard the progress of said cars, after due notice is given by the car bell or whistle, or other proper signal, shall be punished by a fine not exceeding five dollars, or imprisonment not exceeding five days. Provided, however, this section shall not operate as a release from lawful damages for accidents.

Section 8. This ordinance shall become operative, the said Grantees, their associates and assigns, shall enter into a written contract, to be filed with the City Clerk of the City, agreeing to be bound by all the terms, stipulations, and conditions of this ordinance. Such contract to be executed within sixty days after notification by the Mayor in writing of the passage and approval of this ordinance. Failure on the part of the said Grantees, their associates and assigns, to carry out and perform all or any of the conditions or undertakings expressed in this franchise, shall work a forfeiture of all rights on the streets of the City of Sanford.

The granting of the rights and privileges herein set forth in this ordinance, is upon the express condition that the said Grantees, their associates and assigns, obligate themselves to build, construct, equip and operate their said railway on Sanford avenue from the south city limits to First street, and on First street from Sanford avenue to Oak avenue, as herein set forth, within eighteen months from the passage and approval of this ordinance. And shall begin to construct and prosecute the construction vigorously to completion of their said line of railway, as herein provided, and a failure to thus construct within the reasonable period specified, shall work a forfeiture of this franchise and all rights and privileges herein granted.

Said Grantees, their associates and assigns, shall, within thirty days after being notified by the Mayor in writing of the approval of this ordinance, notify the City Council in writing of their acceptance of the provisions and conditions of this ordinance, and the failure on the part of said Grantees, their associates and assigns, to notify the City Council within sixty days after the receipt of notice of the approval of this ordinance as herein prescribed, their acceptance thereof, shall operate as a forfeiture of all rights and privileges granted and comprised in this ordinance.

Section 9. The City of Sanford gives and grants the franchises and rights herein set forth, reserving the right and requiring the said Grantees, their associates and assigns, as a condition precedent to the taking effect of the grant, to give and grant to the City of Sanford, the rights, at and after the expiration of the term of thirty (30) years hereinbefore mentioned, to purchase the street railroad and other property used under or in connection with the franchises and rights hereby granted, or such part of such property as the City of Sanford may desire to purchase at a valuation of the property, real and personal, desired, which valuation shall be fixed by appraisers as provided by law, in accordance with and to the full extent of the provisions of the laws of the State of Florida in such cases made and provided.

Section 10. It is further provided that nothing in this franchise shall be construed so as to deprive any abutting owners along said railway from recovering any damages that may be lawfully claimed from said Grantees, their associates and assigns.

Section 11. The Grantees, their associates and assigns, shall at no time operate freight cars, except one trailer, within the city, without special permission granted by a resolution of the City Council.

Section 12. Be it FURTHER ORDAINED, that whenever the City of Sanford shall have within its corporate limits a population of ten (10,000) thousand, the

said company shall exhibit to the said city and proper officers, all books and accounts to ascertain the amount of its gross earnings; and after ascertaining such amount, and the population having reached such number, the said City of Sanford shall have the right to levy a tax of not exceeding two per cent. annually on the gross earnings of said company, which levy shall be collected upon the property of the said company.

To the Honorable Forrest Lake, Mayor of the City of Sanford, Florida:

I do hereby certify that the above and foregoing Ordinance was duly passed at a regular meeting of the City Council of Sanford, Florida, in session on October 19th, 1908.

Approved by me on this the 21st day of October, 1908.

## COLD BLOODED MURDER

### Section Foreman W. H. Hammock Killed by Black Brute

#### NO MOTIVE KNOWN FOR CRIME

##### Murderer Slipped Upon Victim From Behind and Used an Ax For Weapon

Sunday night about ten o'clock occurred one of the most atrocious murders that has stirred this community for many years. Sitting upon the edge of the lake fishing, W. H. Hammock, section foreman for the A. C. L. at Paola, was murdered by several blows from an ax which he was an employee, Jesse Willis, who had no other motive for the crime than the brutal desire to slay. Willis had been in the employ of the road as section hand under Foreman Hammock, and according to the people residing in that neighborhood there had never been any ill feeling between the two. On the contrary, it is said that Mr. Hammock trusted the negro to take charge of the gang in his absence and otherwise proved his friendly attitude toward the brute who afterward foully murdered his employer.

From the appearance of the body, it is evident that Mr. Hammock was sitting down with his overcoat around him and Willis, stealing upon him under the guise of friendship, and probably with the ax concealed, struck him a blow squarely between the eyes, and after Hammock fell over he struck again and mashed the side of the head and face and terribly mutilating the victim.

The murderer then leisurely robbed his victim of a gold watch and ring and made his escape. As soon as the crime was discovered the authorities were notified and Deputy Sheriff Anderson left for Paola at once. He returned with the body Monday to Sanford and the remains were shipped to High Springs by Undertaker Miller. Searching parties were organized at once and the country for miles around was scoured by the officers and deputies. The murderer attempted to cross the drawbridge early Monday morning and was fired upon by Mrs. Troublefield, the brave lady who tends the drawbridge, and the negro fled back into the swamp. Again late in the day he made the second attempt, but was driven back, and having no help at hand to affect his capture, the negro vanished into the swamp near the bridge.

He is described as a very black negro, with small moustache, between 25 and 30 years of age, about 5 feet 6 inches in height and weighs about 150 pounds. He has a scar on the side of his neck extending to the jaw, evidently made by a knife, and when last seen wore an old blue serge suit and a pair of No. 6 tan shoes, nearly new. He went by the nickname of "Alabama" among his associates and is easily recognized.

The Atlantic Coast Line has offered a reward of \$100 for the arrest and conviction of Willis, and other rewards will be offered by the county and state.

The death of Mr. Hammock has cast a gloom over the community and the fact that he left a wife and three children makes the crime a merciless one. Mr. Hammock formerly resided at Lake Butler, where his family now reside. For several years he was section foreman on the J. & S. W. railway, afterward coming to the A. C. L. and held the confidence and esteem of all who knew him.

On Wednesday the negro was trailed for ten miles through the swamp by Sheriff Turner and his blood-hounds, and as he emerged from the swamp at Buffalo Bluff and attempted to board a passing freight train, he was captured by Deputy Sheriff Whitson of Putnam county, who was in waiting at this point. The negro was immediately placed aboard the train and brought to Orlando, passing through Sanford at 2 o'clock Wednesday afternoon. It was not thought advisable to have the murderer leave the train for a preliminary hearing in this city, and he was remanded to jail, the papers being made out on the train.

He was positively identified by parties here as being the negro Willis and the negro owned up to being the party wanted, but gave out the same old story of a white man doing the killing and trying to fasten the crime on him. The negro wore the same tan shoes, splashed with the blood of his victim, and there is no doubt of his identity.

He will come up for trial at the next meeting of the Circuit court, and should have a speedy trial and receive the full

## Late Returns Show 319 for Taft

### Against Bryan's 156 Electoral Votes. Several States Still Reported in Doubt, but no Matter How They go it Cannot Change the Result

Practically complete returns received up to a late hour tonight indicate that William H. Taft, of Ohio, as president-elect, will have a vote of 309 in the electoral college. This is within 18 votes of the forecast made by National Chairman Frank H. Hitchcock, and 67 more than a majority out of the total electoral votes of 834.

Most important news in the late returns indicates that Maryland, after vacillating during the day and apparently being safe for democracy, has been swung into the Taft column. Unofficial figures give Mr. Taft the state by 130 votes. Maryland is the last doubtful state to be heard from.

Indiana and West Virginia, as well as Montana, turned out to be safely republican. Colorado went for Bryan.

Mr. Bryan has a total of 174 votes, two less than he received in 1896. In 1904 Mr. Parker received 140 votes. In 1900 Mr. Bryan received 155 votes and in 1896 the Nebraskan received 176 votes.

Mr. Taft's 309 electoral votes compared with 338 received by Roosevelt in 1904, 292 received by McKinley in 1900 and 271 received by McKinley in 1896.

No changes of material interest have been reported in congressional returns today. The republicans will have about the same working majority in the sixty-first congress as at present and Joseph G. Cannon, of Illinois, undoubtedly will succeed himself as speaker. Representatives Jesse Overstreet, of Indiana, and

Hepburn, of Iowa, are the most conspicuous among those who have failed of reelection. The senate retains its republican complexion.

An eleventh hour development was the placing of Missouri, which has been generally conceded to Bryan, in the doubtful column. Should tonight's returns continue the Taft lead, the republican candidate will win 18 additional votes, making his probable total 327, two more than originally claimed for him by Hitchcock.

#### Latest Election Returns

New York, Nov. 6.—Membership in the electoral college which will choose the next president of the United States remained in dispute when the official counters in Maryland abandoned their task for the night. According to the best information obtainable, the proportionate numbers of republican and democratic electors can be determined by a division of Maryland's eight votes. In any event the margin of victory will be so small the state is claimed tonight by the leaders of both parties.

Missouri appears to be safely for Taft, to whom the returns give a plurality of 2,228.

Conceding Missouri to Taft, and leaving Maryland to be split between him and Bryan, the figures show 319 republican electors assured and 156 democratic.

Returns of the socialist and prohibition parties are still far from complete. Figures for the independent party are also

insufficient to give an accurate idea of what the party accomplished.

#### Congratulations and Thanks Exchanged

CINCINNATI, O., Nov. 6.—"Please accept congratulations and best wishes for success of your administration."

"W. J. BRYAN."

"I thank you sincerely for your cordial and courteous telegram of congratulations and best wishes for success of your administration."

"W. H. TAFT."

These messages were today exchanged between Lincoln and Cincinnati.

#### Result in Orange County

The election passed off quietly in Sanford and Orange county, Tuesday, and while the weather was threatening, a good vote was polled everywhere.

The entire Democratic ticket, national, State and county, received an almost solid vote in the county, but the vote on the amendments fell far behind the head of the ticket.

There was very little interest taken in this precinct, outside the race for county commissioner in the second district. The Democrats seemed to take it for granted that the primary had settled it.

Following is the vote for the county.

Bryan, 1011; Taft, 577;

For Governor—Gilchrist, 1081; Cheney, 476.

For Congress—Frank Clark, 910; W. R. O'Neal 482.

For County Commissioner—Merrell, 400 Eldridge, 287.

## ANOTHER NEW BUSINESS BLOCK

### Fine Store Rooms to be Built at Corner of Third Street

Every week in Sanford marks the rapid strides being made toward a greater city. Last week The Herald announced the building of a new business block at the corner of Sanford avenue and Second street. This week The Herald takes pleasure in announcing another new block on Sanford avenue and Third street.

T. J. Check, the man who recognizes the many advantages of Sanford and who has erected some twelve new houses and purchased as many more in the past twelve months, this week purchased the building at the corner of Sanford avenue and Third street, now occupied by J. B. Williams, and the two vacant lots adjoining. He will immediately erect a handsome store building on the vacant lots and these new buildings on Sanford avenue will greatly enhance the appearance of this business thoroughfare.

The new building will probably be of concrete and modern in every particular.

#### Meeting of Parents Club

The meeting of the Parents Club next Monday afternoon promises to be one full of interest. It is to be held in the High School Auditorium and will be of special interest to the fathers, Mayor Lake will preside and the following program will be carried out:

Music Quartette—Messrs. P. B. Woodcock, E. T. Woodruff, G. S. Derry and E. C. Hamilton.  
Poem—What is Home Without a Dad.....  
Rev. D. B. Sweet  
Reading—Fathering a Boy..... Mr. D. L. Theasler  
Reading—The Man Who Put His Arms Around Me..... Mr. D. G. Wagner  
Address..... Prof. G. E. Maris  
Discussion

The hour for the meeting is three o'clock and should be well attended by patrons of the school, these meetings should prove of great benefit to parents, teachers and pupils and result in a closer relationship between parents and teachers and a general gathering for the good of both.

#### Mrs. Marks Improving

Mrs. Richard Marks, who had an operation for appendicitis in an Atlanta hospital about three weeks ago, has so far recovered that she is able to be taken to the home of her mother in Atlanta and expects in a few weeks to be in Sanford again. Her many friends will be delighted to hear of her complete recovery from a dangerous operation.

penalty, as such cold-blooded crimes will not be tolerated in this section.

The attitude of the Sanford people toward the murderer was plainly shown at the station Wednesday, and while everyone seemed willing to let the law take its course, it is to be hoped that the wheels of justice will grind at full speed.

## W. E. WILLIAMS' SUDDEN DEATH

### Thrown From Horse While Hunting and Killed Instantly

A crowd of gay huntsmen left the city last week for a camp hunt on Taylor creek, about sixty-five miles from Sanford, in the heart of the game country. Thursday one of the men met with a tragic death and they returned with the body of their companion. W. E. Williams was the unfortunate one, and while deer-hunting Thursday morning on horseback, his animal going at full speed stepped into a hole and threw Mr. Williams, the fall breaking his neck, and death resulting instantly. The rest of the party were near him when the accident occurred and immediately broke camp and started for Sanford with the body, the long trip of sixty-five miles before them. One of the saddest features of the accident was the fact that his brother, T. W. Williams, was with the party at the time and is heart broken over the affair. The hunters arrived in Sanford yesterday morning with the remains.

The funeral occurred at 2:30 yesterday afternoon from the residence of T. W. Williams, Rev. D. B. Sweet, of the Methodist church, conducting the services. Interment was made in Lakeside cemetery and a large concourse of his friends followed his remains to their last resting place.

Mr. Williams was well known in Sanford, his former home, and he was on the police force here for several years and held other positions of trust in which he gained the confidence and esteem of all who knew him. He leaves three brothers to mourn his loss, I. B. Williams, J. B. Williams and T. W. Williams.

For several years Mr. Williams has been on the Tampa police force and made that city his home. He leaves a son, Tom Williams, also a resident of Tampa.

#### Gate City House Improvements

Mine Host Parker, of the Gate City House, is doing such a land office business that he must needs enlarge the hotel to keep pace with the growing business, and now that the work is almost completed there has been quite a decided change in the appearance of the building. A new front with Colonial pillars completely changes this part of the house. A new roof and several new rooms added will make the Gate City House not only the place to eat but also to slumber. The improvements are being made by the well known contractors, Snead & Venable, and the painting and decorating by F. W. Temperton, which is a guarantee that the work is up to the standard.

#### Farm and Garden Tools

We carry the largest and most complete up-to-date hardware stock. Guns, ammunition, and sporting goods.

## NEW RAILROAD PROGRESSING

### Sanford & Everglades Being Pushed Rapidly These Days

The Sanford & Everglades Railway is making great progress and A. P. Connelly and his force of assistants are losing no time in the work of grading. In ten days they have graded over two miles, and the bridge and trestle work is following up the grading. The right of way has been cut through to Beardall avenue, and at this rate the people of Sanford will have the pleasure of riding upon the cars of the new road about February 1st.

A large force of men is employed upon this work, the new company being very desirous of finishing the railroad and starting upon the traction line. This large force of men receiving their money every week means a greatly increased business for Sanford merchants, and the trade along all lines feels the impetus.

#### Changes in Railroad Circles

Some important changes in railroad circles were made here the first of the month. Mr. M. Crown, who has been trainmaster of the Atlantic Coast Line, with jurisdiction over the entire Jacksonville district for several months, with headquarters here, has been transferred to Lakeland, and his territory is the southern end of the district, the same territory he had before the consolidation of forces nearly a year ago. The northern end of the district, from Sanford to Jacksonville, including branches, will be in charge of Mr. D. E. Wagner, this being the same position he held before the consolidation. His headquarters will continue to be Sanford. The promotion of Mr. Wagner from his position as chief dispatcher to that of trainmaster made an opening for other promotions. Mr. R. L. Peck is now chief dispatcher, and on account of the increased business another dispatcher has been added to the force. The dispatchers are as follows: First trick, 7 a. m. to 3 p. m., O. L. Taylor and J. L. Hurt; second trick, 3 p. m. to 11 p. m., J. S. Johnson; third trick, 11 p. m. to 7 a. m., W. J. Jennings; extra, W. H. Miles.

Mr. J. C. Higgins, the popular superintendent of the Jacksonville district, a position he has filled so acceptably for several years, is much beloved by his men. His district extends from Jacksonville to Tampa, including several branches.

#### Capt. Marks at Home

Having returned to Sanford, after an absence of four months, I am at home again, ready to give my best efforts to sell any property that is listed with me and to do notary work, draw and execute all kinds of deeds, mortgages, contracts, bonds, etc. I will appreciate any business entrusted to me.  
Respectfully,  
RICHARD H. MARKS.

## LOCAL LEGISLATION

### City Council Holds Regular Bi-Monthly Meeting

#### A VERY INTERESTING SESSION

##### Attorney Johnson Chosen as City Attorney—New Franchise Petition—Other Matters

Council met in regular session Monday night, with Messrs. Stevens, Thrasher, Lefler, Robinson and Evans present. After roll call and reading of minutes, the regular business was taken up. Bill of Frederick Disinfectant Co., referred to sanitary committee. Personal taxes of W. G. Aldrich were reduced from \$3,000 to \$2,500.

Petition to have Magnolia avenue graded and ditched to city limits on Tenth street, referred to street committee with power to act.

Attorney Andrew Johnson was appointed city attorney for the remaining portion of the present term.

The new franchise for electric light was offered by Messrs. Rand and Chase in the form of an ordinance, enlarging the franchise of the Sanford Light & Fuel Co., and authorizing a contract with said company in lieu of present contract. A committee was appointed to investigate the matter of this franchise, consisting of Mayor Lake, Alderman Stevens, Thrasher and Evans.

Resolution of Geo. H. Fernald in regard to placing the wires of the Sanford Telephone Co. in underground cables on First street, Sanford and Oak avenues, provided they assume all responsibility for any damage to abutting property owners and replace gutters in as good repair as they now are. Petition was granted.

Resolved that the water runway abutting the property of the First National Bank be referred to the street committee, with power to act. This means that the water which has collected at the corner of Park avenue and First street after every rain will be carried into the lake and a good crossing insured.

The following report was then read by Alderman Robinson:

Gentlemen: Your committee to whom was referred the question of extending the city limits, would respectfully report that it is the opinion of your committee that the following should be the boundary of the city, to-wit:

Beginning at a point in Lake Monroe two chains north of the n. e. cor. of sec. 30, tp. 19, south of range 31 e. Thence south on section lines to the a. e. cor. of n. e. ¼ of sec. 31, tp. 19, south of range 31 e. Thence west on the quarter section lines to the s. w. cor. n. w. ¼ of sec. 33, tp. 19 south, range 20 east. Thence north on the section lines to a point in Lake Monroe ten chains north of the n. w. cor. of sec. 23, tp. 19, south of range 30 east. Thence easterly to the point of beginning.

In making this report your committee would suggest that inasmuch as the town of Goldsboro is embraced in the above designated boundary, it will be necessary to first obtain the consent of the town council and mayor of Goldsboro to the annexation of Goldsboro to the city of Sanford before taking any further action. Also the following:

WHEREAS, It is considered desirable to extend the city limits of the City of Sanford, and a committee has reported what it considers a suitable boundary line; and

WHEREAS, The boundary line suggested embraces the town of Goldsboro within its limits; therefore,

RESOLVED, That before taking action on the committee's report by this council, said report should be and hereby is respectfully submitted to the town council of Goldsboro, and the said Goldsboro council is hereby invited to pass an ordinance or resolution consenting that the town of Goldsboro be annexed to the city of Sanford, provided that at an election to be held two-thirds of the votes of all the legal voters within the limits of the designated boundary shall vote in favor of annexation.

A committee was appointed to meet the city officials of Goldsboro in regard to the city extension of the corporate limits, Messrs. Thrasher, Lefler, Robinson, Stevens and Evans.

Council then adjourned.

### COUNTY SOLONS MEET

#### Petition Granted Providing For Drainage Near Sanford

#### RIGHT OF WAY WAS GRANTED

#### Resolutions of Respect Upon Death of Hon. H. K. Fuller Adopted—Other Important Matters

Nov. 2nd, 1908.  
Minutes of regular and special meetings in October read, approved and signed.

The clerk was instructed to notify the superintendents of the various telephone lines in the county to have all telephone poles that are less than 15 feet from the center of road placed at not less than 15 feet from center of roads.

The petition of Messrs. Close, McDonald, Rossetter, et al., to provide for the necessary method of draining submerged and low land in and near Sanford, was granted, and the following persons were appointed to that committee: E. Hy. Palmer, J. A. Harold and J. T. McLain.

The petition of the incorporators of the Sanford Traction Company to lay a track from Tenth street, Sanford, crossing south on Sanford avenue to the Sanford and Indian River railroad right of way was referred to Supt. Branham and Commissioner Chappell.

S. A. Robinson, tax assessor, presented three copies of the assessment roll of Orange county for 1908, which were duly examined, approved and signed by the members of the board present.

The warrant to the collector attached to each copy of said roll is as follows: State of Florida.

To W. E. Martin, tax collector of the County of Orange:

You are hereby commanded to collect out of the real estate and personal property and from each of the persons and corporations named in the annexed roll the taxes set down in each roll opposite each name, corporation or parcel of land therein described, and in case the taxes so imposed are not paid at the time prescribed by law, you are to collect the same by levy and sale of the goods, chattels, lands and tenements so assessed, or of the person or corporation so taxed; and all sums collected for state taxes you are to pay to the state treasurer at such time as may be required by law, and at the same time you are to pay to the county treasurer all sums collected for county taxes, district school taxes and other special taxes, and you are further required to make all collections on or before the first Monday in April; and on or before the first Monday in July you will make a final report to and settlement with the comptroller and county commissioners. Given under my hand and seal this the 2nd day of November, in the year A. D. 1908. Samuel A. Robinson [seal] Assessor of Orange County.

Upon motion, \$500 or so much thereof as is necessary, was appropriated for the benefit of the tax assessor in the employment of an assistant assessor.

Upon motion, the following resolutions were adopted, on the death of H. K. Fuller.

In the providence of God, our fellow member, Mr. H. K. Fuller, has been removed from this body by death, which occurred at his home in Apopka, on the 18th day of October. In the loss of Mr. Fuller this board sustains a loss which is keenly felt, and we mourn his loss, not only as an official of the county, but as a personal friend. For thirteen years he devoted his best energies to the interests of the county, and much of the present prosperity of our county is due to his wise counsel, his unflagging energy and his devotion to duty. His impress will long be felt in the affairs of Orange county, where he was known and loved as few men in our community have been loved. He was firm in the discharge of duty, yet tolerant of the faults and weaknesses of his fellow men, and was possessed of that genial and sunny disposition which made him friends wherever known.

Resolved, That we extend to his stricken family our sincere sympathy and shall cherish his memory as a sweet odor, feeling that in the years to come his life will prove a benediction to us.

Resolved, That these expressions of our appreciation of Bother Fuller, and of sympathy to his family, be spread upon a separate page in our minutes, and that a copy be furnished the county papers for publication, and that an engrossed copy be furnished to his family.

Done in open board by the commissioners of Orange county, this second day of November, 1908.

The clerk was instructed to have an enlarged photograph of the late H. K. Fuller framed and hung in the commissioners' room.

The report of John E. Merrill, County Enumerator of the Agricultural, Horticultural, Live Stock, Manufacturing and Industrial Statistics were submitted; upon examination was found correct and accepted.

The reports of the following County officers were presented: Supt. of County Home, Supt. of Roads and Bridges, Coun-

ty Treasurer, Pay Roll of Road Camp, and Tax Redemption for September.

The disposition of the Suplus Road Gang was upon motion left to the discretion of the Supt. of Roads and Bridges, to be used in the Sanford district and other places.

The petition of Messrs. Dillard, Newton et al to open a public road from a point where the line between the E and W halves of Section 14, Township 22 S. R. 27 E., intersects the Sanford and Petersburg R. R., running northerly through the lands of said Dillard, Newton et al to the corner of A. B. Newton's land, was granted.

The petition of Messrs. Palmer, Prescott et al for the opening of a road was received, the survey ordered and a report to be made next meeting.

The petition of Messrs. Write, Dale, et al in respect to the provision of Chapter 5035 of the Act of 1901 of the State of Florida for drainage received and laid over until next meeting.

The application of Mathew O. Singletary for pension was approved and ordered to be forwarded to the Comptroller.

Bond of Arthur Butt as Assistant Tax Assessor, with T. O. Brown and Chas. Lartigue as sureties was approved.

Bond of W. R. O'Neal as Notary Public with F. A. Curtis and T. W. Mathews as sureties was approved.

The bonds of the following persons to bear fire arms were presented and licenses ordered issued: T. H. Renwick, Pistol. Sureties: A. S. Emmett and E. H. Drury-Lowe, G. R. Calhoun, Pistol. Sureties: J. A. Kirkwood and Arthur Butt, G. R. Calhoun, Rifle. Sureties: J. A. Kirkwood and Arthur Butt, Chas. R. Hill, Rifle. Sureties: L. B. Long and F. L. Helms.

Communication of W. M. Dickens asking for the issuing of duplicate warrant was received and read; action was deferred until next meeting.

Bills were presented and warrants issued for same. Being no further business Board adjourned to next regular meeting.

#### Sanford City Bonds for Sale

We, the undersigned, bond trustees, offer for sale fifteen (15) Bonds of the City of Sanford, Florida, of one thousand dollars (\$1,000) each, bearing six per cent interest, payable semi-annually, coupons attached, and payable at the National Park Bank of New York City, on January 1st and July 1st of each year.

These fifteen bonds are the remaining unsold bonds of a bond issue of \$45,000 of January 1, 1904, at which time \$30,000 of the bonds were sold and expended in improving the streets, erecting the High School building, and for the other purposes for which the bonds were voted.

These remaining fifteen bonds are now offered for sale for the purpose of street paving. They will mature in January, 1914.

There is no other bonded indebtedness than the thirty thousand dollar bonds heretofore sold, the interest on which has been promptly paid down to the 1st day of July, 1908.

The validity of these bonds has never been questioned. Judge John F. Dillon, of New York, passed upon and declared the bonds legally issued.

Bids for said bonds, or any portion thereof, will be received at any time on or before January 1st, 1909.

Each bid should be sealed and endorsed "Bid for Sanford Bonds, enclosed in a second envelope addressed to the undersigned bond trustees. The bids will be opened at 12 o'clock, noon, January 1st, 1909. The right is reserved to reject any and all bids.

Interest coupons will be detached from the bonds down to and including January 1st, 1909, and interest coupons from January 1st, 1909, to remain attached. A. M. THASHER, Geo. H. FERNALD, S. O. CHASE, Bond Trustees.

#### Have a Fete Day

Editor Herald: The advantages and pleasure of having a day set apart by Sanford, the Celery City, as a day of celebration and rejoicing seems to be many.

Let it be annual and take the form of a carnival or fete day, and as our farmers would be in their glory, let's make it the 17th of March—that is St. Patrick's day, and as green is the emblem it would be doubly appropriate.

All the other points are having their day and it is time we should come into our own. Other years have gone by; let's make it this year for a beginning.

You know how to ring the changes on the advantages as to advertising the situation and show the stranger what we have, and create a friendlier feeling in the minds of home folk and stranger alike.

By a little push and a small pull, and both together, we can have more people in Sanford next 17th of March than have ever been in our city at one time before.

Nov. 4th '08. R. H. WHITNER.

#### About Canning Factories

Said one of our prominent growers the other day: "I see by one of the state papers that the annual canning factory boom has struck the state of Florida, but as long as the boom is confined to the poor newspaper men of the state there will be no canning factories."

Our duty lies in the path of encouraging this boom. We will do our duty at any rate and encourage the boom as much as possible. Perhaps after a time the people most interested will appreciate the advice we have been offering so freely in this connection for the past dozen years. Perhaps after they have seen the surplus products of a few hundred more crops rot in the field for the want of a profitable market, they will grasp the full force of our suggestion. With this hope to encourage us we will keep pecking away.

Again we will say, so that there will be no possibility of misunderstanding our position, that we do not think that at present it will pay to cultivate vegetables in Florida for the sole purpose of supplying canning factories. We do claim, however, that it will pay to establish canning factories to utilize our surplus products—truck that cannot be shipped at a profit on account of low market price; to save stuff when the markets are glutted; to utilize the culls and refused vegetables. This last is an important item. If we could find a use for inferior stock, instead of shipping it a thousand miles, paying transportation charges on it and injuring the sale of first-class truck with which it is packed, we would perhaps not be tempted to this reprehensible practice of dumping everything into the shipping crate. A canning factory will encourage closer culling.

While we are on record as not advising the planting of vegetables solely for the canning factory, we claim the privilege of revising and altering this opinion. Experience and experiments may demonstrate that this can profitably be done. The experiments should be made, however, before any expensive steps are taken.

A canning factory is not such an expensive affair, and its value to a community and the producers of the country can hardly be overestimated.

#### Large School Apportionment

Hon. W. M. Holloway, state superintendent of public instruction, distributes among the public schools of the state nearly \$100,000, the same being the largest semi-annual apportionment of the state 1 mill school tax ever made. The amount for apportionment is \$96,154.76, and the rate per pupil is \$1. Orange county will receive \$2,379, out of which Sanford High School should receive about \$440, as its quota of pupils will reach that amount.

### THE SANFORD HERALD

Published Every Saturday Morning at Sanford, Fla.  
R. J. HOLLY, Managing Editor

Subscription Price, \$1.00 a Year in Advance

Entered as second-class mail matter August 22nd, 1908, at the Postoffice at Sanford, Florida, under Act of March 3rd, 1879.

Office First Floor in the Bishop Block, First Street Telephone No. 148.

The agony is over.

Bryan has "fanned" again.

The greatest regret is the election of Joe Cannon.

The Republican candidates on the state ticket "also ran."

One consolation is left, Florida went Democratic, as usual.

Sanford should have a fete day and flower parade this winter.

What a city Sanford will be when the corporate limits are extended.

Now they can mark the Independent ticket, Hearse and Graves.

Another franchise for electric lights. Sanford will have light at any rate.

The Sanford Traction Co. expect to have street cars in operation in March.

Governor Johnson, of Minnesota, made good in the face of the Republican landslide.

Florida elected Gilchrist for Governor, in spite of the landslide for Cheney in Orlando.

Late returns from the back districts of Orange county indicate a victory for Bryan (in the county).

If Henry Watterson can't hold the lid on Kentucky, he had better turn his trenchant pen into a plowshare.

How many cities in the United States the size of Sanford are projecting street railways? The Sanford spirit is the kind that builds cities.

The meeting of the Parents Club next Monday should have a large attendance. The benefits accruing from these meetings are many and the fathers should attend this special occasion.

By making careful plans for irrigation and drainage, Sanford finds she is not hurt when the rains descend. Is it not plain that the disaster to the work of the Everglade drainage was due to lack of care and knowledge in the plan? The conscience of the Times-Union is clear—it did everything in its power to warn those who undertook the task or duty of spending the money of the people, Times-Union.

The Gainesville Elevator will be greatly strengthened by the addition of William Laban Martin upon the editorial staff. Mr. Martin, under the nom de plume of Peter Stanley, has been writing for the Ocala papers for a number of years and having a thorough knowledge of the newspaper business, should prove a valuable acquisition to the Elevator. THE HERALD welcomes Peter in his new field and with Bro. Bullock should keep the Elevator "going up."

Now that the election is over and Sanford has settled down to its usual peacefulness and business, let us all consider what is best for Sanford. Let all go to work with a will and determination to advance Sanford.

We have advantages superior to those of most cities, and each and every one should feel himself to be a "committee of one" to place these advantages before the world. Sanford is now in a fair way to advance. Put your shoulder to the wheel and push the Celery City to the front.

**FETE DAY IN SANFORD**

In this issue of THE HERALD is an article from R. H. Whitner regarding a fete day for Sanford in March and as Mr. Whitner suggests, St. Patrick's Day, or about that time in the spring when vegetables, fruits and flowers are at their best, and the thoughts of the homeseeker are turned toward Florida. Other cities are planning big celebrations for the winter season and Sanford, the garden spot of the world, should by all means plan a fete day or flower day and arrange for a gigantic celebration. Our city is located upon the lake and boat races and aquatic sports could be made a feature. Auto races, horse racing, base-ball, merchants, carnival with floats, and a number of amusements could make the day one long to be remembered. Let us have a fete day by all means.

### AFTER THE BATTLE

Taft is elected.

The bloodless battle of the ballots has been fought.

The party differences which are inseparable from a republic, and which are indications that it is in health, have been arbitrated for the year 1908. Apologies or explanations from either side will not be encouraged by the public.

For the past four months the people have been more or less absorbed in politics. In some sections the affairs of the Presidential campaign have attracted attention to the exclusion of almost everything else, but altogether considered it has been the quietest and least interesting in the history of the country.

THE HERALD takes pride in having treated Taft and his supporters with the respect and consideration due opponents who, in the underlying main essentials, cannot be so radically different from Democrats. We all celebrate the Fourth of July alike, and will be unanimous against the encroachments of a foreign foe. Republicans have the same right to differ with Democrats that Democrats have to combat the opinions of Republicans. It is just as great a failure to overlook the fair treatment of Bryan by the better class of Republican journals, and to dismiss with contempt the blackguards who have prostituted journalism to the abuse of a good man and a good cause.

It is the first duty of all good citizens to uphold the new administration and the new Congress. The contest just closed has not been waged to promote a deadly quarrel. It has been a peaceful settlement. The election by the people, in the model republic, is the means of preventing a resort to arms. If the settlement does not prove to be the right one, there will soon be a chance at it again.

THE HERALD has expressed an earnest hope that Mr. Bryan would be elected

President of the United States on last Tuesday, and it believes that if he had his administration would be for the honor and glory of the country, for the betterment of the condition of mankind, for the promotion of the central principle of equal and exact justice to all. The charge that his election would be a menace to our institutions, an interference with law, upheaving of society and a robbery of one class of people for the benefit of another, is worse than idle. It represented the lowest scale of political effort. There would have been peace and prosperity under Bryan just as there is going to be under Taft. When the smoke of battle has cleared away business will be resumed and everybody will promote peace.

White Democrats feel keenly their defeat, yet they will be among the most loyal of all the population of the country to the administration of President Taft. The President of the United States is the chief dignitary of the country and ought to be the President of all the people, and the particular representative of none. So long as such conditions hold, there will be harmony among all classes and unanimity of action concerning the general weal of the country.

### WHY IT WAS THUS

William Jennings Bryan for the third time has gone down in defeat with the flag of the Democratic hosts behind him. Like all catastrophes, the cause is always found after the accident has happened, and today, while gazing over the ruins and carnage, where once the proud hopes of Democracy was builded, the causes of the third defeat are evident.

The Tampa Tribune lines them up precisely as follows:

The continued unfriendly disposition of the business interests toward Mr. Bryan, despite the impression that he is a safer man than heretofore.

The failure of labor to stand by its friends.

The effort of New York's mercenary Democratic politicians to land Chandler at the expense of Bryan.

The confirmation and ineradicable impression of a large majority of the American people that a man who has been beaten twice ought to be satisfied and give his party a chance to escape from its "hoodoo."

Confidence, warranted by past performances, in the ability, the conservatism and the reliability of William H. Taft.

Lack of appreciation of the danger of perpetuating one party, with its vast but cohesive office-holding clique, in absolute power in a free country.

Disinclination to "swap horses while crossing a stream," or change administrations while emerging from a panic.

Republican enthusiasm.

Democratic apathy.

Republican facility in obtaining campaign funds.

Democratic difficulty, ditto.

These are some of the "reasons why" the people of the United States elected the Proxy, the Political Legatee of Roosevelt, and defeated for the third time one of the ablest men the country has produced.

Mr. H. S. Todd, of Kissimmee, visited his daughter, Mrs. Wagner last week.

Messrs. C. R. Walker and L. B. Phillips of the local school board and Prof. N. J. Perkins, Principal of the Sanford High School met with the County Board of Education at Orlando Wednesday, representing the school here, and laying some of the needs of this district before the board. They were given a careful hearing, and about all their requests were granted. This means another teacher, to assist the primary teacher, who has something like 85 little ones in her grade, and some improvements in other departments of the work.

The installation of Epworth League officers occurred at First Methodist Church Sunday night, and a very interesting Service was witnessed by a large congregation. In addition to the old hymns that were sung heartily by the congregation there was an inspiring anthem by the choir, and a solo that was much appreciated, rendered by Mrs. Hamilton. Mr. L. P. Phillips made an interesting talk on League work, and the officers were installed by the pastor, Rev. D. B. Sweat. The officers are: President, H. H. Peabody; First Vice President, Miss Gertie Speer; Second Vice President, Mrs. B. J. Starling; Secretary, Mrs. Lucille Richards; Fourth Vice President, J. S. Barrett; Secretary, A. W. Gustus; Treasurer, Mrs. E. L. Marshall; Era Agent, George Peabody; Reporter, Miss Sallie Lou Peabody. The Church was tastily decorated for the occasion with the colors of the League, gold and white.

THE HERALD this week contains an interesting article from Harry Popworth who formerly resided here and while Chief of the fire department gained name and fame for having one of the best companies in the State.

### BEAUTIFYING THE CITY

Improvements Being Made Every Day in Hustling Sanford

### CYLYDE LINE'S IMPROVEMENTS

Will Paint the Passenger and Freight Depot Buildings and Improve Their Property Generally

Sanford, in the not distant future, is going to be a beautiful city. Each returning season marks strides in the right direction. Six months ago how much had we to boast of in the way of walks? Note the miles of handsome cement that have since been laid. The shaded driveways, the verdant lawns, the disappearance of hitherto unsightly yard enclosures, the flower and bloom of residence grounds, the remodeling of dwellings and the increasing spread of house paint, all point to the larger, handsomer and more metropolitan Sanford of the near by and by.

When the writer stepped off the boat at Sanford, on arrival here last March, the first thing that met his view was the ungainly condition of the Clyde Line dock and passenger and freight houses. There was the Sanford House, standing out in bold relief, expanse, thrift and invitingness written all about, without and within. In marked contrast stood the adjacent Clyde buildings, disconsolate and dejected, as though fully conscious of their shabby dishabille, for whatever of dress adornment they may some time have boasted, had unmistakably deteriorated into the semblance of tatters and rags.

Several months having passed and nothing doing at the Clyde buildings in the way of keeping abreast with the progress and growing importance of our thriving city, I took the matter up by personal letter, and also with a petition signed by a goodly number of our public spirited men, Mayor Lake endorsing the plan and Mr. Holden and others supplementing with further written requests, and herewith have the pleasure of reproducing the reply received, showing that the effort has brought about the very much to be desired improvement. Below is the good-news letter received:

Clyde Steamship Co., N.Y., Oct. 26.

Mr. E. T. Woodruff, Sanford, Fla.:

"Dear Sir,—I am in receipt of yours enclosing petition from citizens regarding repairs that are necessary to the Clyde Line property at Sanford. Capt. W. M.

Tupper, our general agent at Jacksonville, is herewith directed to proceed with repairs and paint up the buildings, in order that they may be more attractive. This will be done prior to the movement of the winter passengers.

"Yours very truly,

"H. H. RAYMOND, V. P. & G. M."

We congratulate the city on the nice little improvement that will shortly be made, as above. Now let the pending paving be pushed to an accomplished fact as rapidly as possible. Then let the City Fathers order the cross-walks put in to connect the various links of foot-way already built, and let us have a fine, wide cement walk on either side of Palmetto avenue, from the pavement on First street to the Clyde Line docks, and then just watch the handsomeness that will surely begin on every side. We have seen it before and know whereof we speak. Just so soon as the pavement is inaugurated and the cross-walks made we shall see every street and alley, and residence and grounds taking on a sleeking up regime such as will be the pride of every Sanfordite and the envy of all our neighbors.

There is no reason why Sanford should not only rival in beauty, but far outstrip all the pretty towns about us, for instance, Orlando and DeLand. This beauty-doctoring will begin identically with the pavement and cross-walk laying, but talk about it and preach it and pray for it as much as we will, it will never come before. The improvement-making is catching when once it starts from the municipal head of affairs in substantial fashion. Depend upon it, this statement is absolutely and unequivocally true.

—E. T. WOODRUFF.

*Special Correspondence to The Herald.*

Walking up one of our principal streets one morning this week with a gentleman who here counts his local habitation almost half a century, he remarked: "Sanford to me never before seemed so beautiful as it appears the present season."

I quite agreed with him. We were on one of the streets recently cleaned up and graced with walks and well-trimmed shade trees, and I told him how much better some of our thoroughfares would appear next year, when the coming paved streets were completed and new, even sidewalks were made. Why, Sanford will be metropolitanized in a degree that will blind-stagger the ghost of Gen. Sanford if in midnight hours he walks—provided the moon is brightly shining.

True, such improvements as sewerage and paved streets are to cost considerable money, and in some instances will work a hardship on property-owners, and that is truly unfortunate. But two years hence few will regret the improvements.

Attractive streets add to a city's ability to draw new inhabitants; new inhabitants add to a city's trade; a city's increased trade adds to the general prosperity and comfort of the whole community. People nowadays seeking new locations will not settle in fossilized communities.

In time our citizens will realize the necessity for the employment of a city forester, and when the trees on the streets are properly trimmed the appearance of our thoroughfares will be wonderfully improved. And speed the day!

Have convictions and don't be afraid to announce them! If you are a hen, stay on the fence or fly both ways; but if you are a human being with a sentient soul, choose a side and stand by it. Have a standard and hold it high. Cherish an idea and live up to it, or at least toward it. The sunflower never reaches the sun, but it is steadfast to follow and turn toward it. There is nothing so pitiful on earth as an intelligent human being too politic and cowardly to stand up to a conviction of some kind. If I had a child that didn't have sense enough to take sides one way or the other on every question that comes up, I should feel like going into an asylum to try and forget that I was a father to such a nonentity. It is better to halloo with the wrong crowd than not to halloo at all. Better be fighting on the wrong side than a stay-at-home, do-nothing, mugwump. Be thorough. What tea is that is made of lukewarm water and never steeped, or what lemonade is that is made without lemons, or fire-crackers without powder, so is a non-committal, politic, cowardly, sly creature whose desire to please everybody and be friends with God and Satan at the same time renders him of less earthly account than a cancelled postage stamp.

I often hear men say:—"Don't do that, you will make enemies." They not consider that the proposed act is right—but that to do so will "make enemies." Many men are loved best for the enemies they have made. Our Saviour had enemies, and good St. Paul was a strong partisan. The day of the "trimmer" is rapidly ending—in society, in business, in church and in politics. The age is of him weary. He may prosper for a time—but not during a protracted period. He is a devourer, he creates nothing. No compromise ever fully adjusted a wrong—and one never will.

No man can long do his duty in business or socially or politically without making enemies. If you combat wrong you must incur the enmity of the wrong-doer. There are persons who are all things to all men, who get through life with few enemies, but the world is no better for their having lived. A natural life is no factor in the warfare that is being waged between right and wrong, and when you can write on a man's tombstone, "He was without enemies," you can safely inscribe on the other side, "and did nothing for the good of mankind." It is only the man who has the courage of his convictions and will stand for the right, regardless of consequences to himself, who is of account in the warfare against evil. But the character of the enemies a man makes will determine the kind of work he has accomplished. If he has been of any account in the community you may know it by the enemies he has made.

Did it ever occur to you that a successful barber has to be something of a mind reader? The question was put to The Saunterer

by a knight of the razor, who at the moment was doing his best to mow off a two-days' growth of newspaper beard. The Saunterer admitted that he had never included mind reading in his conception of the barber's necessary qualifications.

"Well, it's so," insisted the tonsorialist, "I had an illustration of the fact in your case just now. Just as I was about to make a sweep along your right cheek with this razor, you suddenly turned your head to blow out the mouthful of smoke you had drawn from your cigar."

"I felt that you were going to make such a move, and lifted the razor from your face just in time to keep from taking a slice off that you would probably have kicked very much against losing. That's only one instance. I have a dozen like it during the day, and so does every other barber."

"Men suddenly and unexpectedly lift up their heads while being shaved to speak to a friend or to expectorate. Then they sneeze at all sorts of inopportune moments, or cough, and if the barber failed to get the razor away quick enough the average face would look as if its owner had been in a cutting match half the time."

"We can't wait until the unexpected movements are made to jerk our razors back. That wouldn't give us time. We have to anticipate them, and if the faculty for doing that isn't mind reading it comes pretty close to it. Don't you think so?"

The Saunterer guessed that it was, and wandered out of the shop, wondering what sort of a proposition would be sprung on him the next time he got shaved.

I want to sound a note of warning regarding the price of rented houses in this city. Just now houses are scarce and all the available ones are taken, and according to the law of supply and demand houses are renting for a fancy price. But is it right and just to boost the price on houses that formerly rented for ten dollars to thirty dollars now? Sanford is prosperous now and more new people are settling here than in any other city in Florida, and yet this tide of immigration can easily be directed to other cities where house rent is not so exorbitant.

Pull down your rents to a reasonable figure and you will have just as much income at the end of the year, for the tenants can afford to stay longer, and the strangers within our gates will not imagine they are being held up in broad daylight and robbed.

Some folks in Sanford have been playing Rip Van Winkle so long that they are still voting for Andrew Jackson for President, and it is hard for these old fossils to realize that Sanford is moving and rapidly becoming a city. The other day, while the houses were being numbered, preparatory to getting ready for free delivery, a certain inhabitant came to the door and wanted to know what the enumerator was doing. "Going to number your house," said he. "Not if I know myself," spoke up the Ancient One. "I have been living right here in Sanford for twenty-five years and everybody knows where I live, and we don't need no numbers."

It was in vain that the gentleman endeavored to explain that in order to get free delivery every house must be numbered. Nothing doing as yet. Probably that old soul thinks the house is well known to everyone in the United States.

Yours for Progress,  
THE SAUNTERER.

**SIDEWALK TALK**

Do you realize the necessity for a substantial foundation as a part of that sidewalk which you intend building? A nicely finished top lends beauty, but not stability. This is to be attained only when the same care is exercised in selection of materials for the foundation as for the top coat.

With this fact in mind, I am importing clean hard crushed stone, which when mixed with standard engineering specifications, gives an absolutely dependable foundation. If you want a walk in which you can take pride in the years to come, be sure that that foundation is right. This is one of the characteristics of my work. Let me figure on such a walk for you.

Woman's Club Entertain

The Woman's Club, Sanford's latest social organization, was at home to their friends on last Tuesday night, and entertained in their new home on Third street. The house had been especially arranged for the comfort of the members and guests, and the decorations in club colors of green and red were beautiful and appropriate. This color scheme is especially adapted for decorating, as the natural plants and flowers of Florida lend their beauty and fragrance to the decorative idea, and large festoons of red berries and green leaves and roses galore vied with the green and red candles placed upon the tables and in many niches around the reception hall.

In the receiving line were Mesdames J. W. Dickens, Forrest Lake, R. S. Keeler and Miss Keeler, and the guests were made to feel at home upon their arrival within the portals of the club.

No details were overlooked providing for the comfort of the guests, and in one of the rooms several tables gave an opportunity for whist and bridge.

A fine musical program was rendered by some of Sanford's musicians, and with vocal solos and recitations beguiled the pleasant hours.

Chicken salad—reposing upon a bed of crisp lettuce, and flanked by a demitasse of coffee and rich cream, provided an epicurean lunch that sustained the reputation of Sanford's ladies and gained a new one for the members of the Woman's Club.

The first reception was a social success, and is only one of many that will be given by the club during the season.

Former Residents Return

Mrs. Cassels and son, A. R. Cassels, arrived in the city on Monday from Hawkinsville, Ga., and will make Sanford their home. They are former residents of Sanford, the late Rev. Harry Cassels being at one time the rector of Holy Cross Episco-

pal church. A. R. Cassels will be with The Herald during their stay in the city. Mrs. Cassels is residing with her daughter, Mrs. Frank Wood, on Oak avenue, and their many Sanford friends will be glad to greet them again.

AN ORDINANCE

Granting to B. O. Chase, A. T. Reasiter, A. P. Connelly, F. P. Forster and J. N. Whittier, Their Associates and Assigns, Certain Rights and Privileges Pertaining to Street Railroads in the City of Sanford, Florida

BE IT ORDAINED by the City Council of the City of Sanford, Florida:

SECTION 1. That S. O. Chase, A. T. Reasiter, A. P. Connelly, F. P. Forster and J. N. Whittier (hereafter designated as GRANTEES), their associates and assigns, are hereby given and granted municipal franchises, rights, privileges and authority to have and operate street railroads, and the right of way therefor, upon, along, through, over and across the streets and avenues of the City of Sanford, as follows: Constructing first on Sanford avenue from north city limits to First street, and from Sanford avenue to Oak avenue on First street, according to E. R. Crawford's map of the town of Sanford, Orange County, Florida, and such other streets and avenues as the City Council shall from time to time direct by resolution or ordinance. Said rights and privileges are hereby granted to the said Grantees for the purpose of constructing, maintaining and operating by electricity, gasolene or such other motive power, except steam, as may be from time to time authorized by the City Council, a line of street railway for the transporting of passengers, and for freight, together with such tracks, overhead wires, and such aids tracks, switches, turnouts and connections as may be approved by the City Council or its street committee, as may be necessary to the proper operation of street railways in and about the city of Sanford, for the full term of thirty (30) years, from and after the date of the going into effect of this ordinance.

In the operation of their motors and cars upon said street railway, herein provided for, the said Grantees, their associates and assigns, shall conform to and be governed by such rules and regulations as have been heretofore and shall hereafter be adopted by ordinance of said city.

SECTION 2. That the City Council may lay out streets or may be built, wherever the city has established or shall establish such grade. Where the streets are not graded, said Grantees, their associates and assigns, shall grade the space between the rails and two feet beyond such grade on each side of such streets, and shall conform to and shall grade with as little inconvenience and hindrance to the use of such streets as possible, and in no event shall they be liable to said Grantees, their associates and assigns, for any damage on account of said change. When the said Grantees, their associates or assigns, shall lay or repair their tracks on said streets or portions of streets at the time provided, they shall at their own expense relay the paving taken up so as to conform to the established grade, making the needed repairs with like material used in such paving.

Whenever or wherever the city or owners of the abutting property on any street shall have paved or shall pave, or cause to be paved, any street or part of street on which said Grantees, their associates or assigns, now have or will have their said tracks or any part thereof, the said Grantees, their associates and assigns, shall at the same time, or upon notice in writing, given by the said city, and under its supervision and direction, pave the space between its rails and tracks, and at least two feet beyond the ends of the ties, in the same manner and with the same material as is used in paving the remainder of the street; and shall maintain the same in good order and condition.

At all crossings on unpaved streets, the said Grantees, their associates and assigns, shall, under the supervision and direction of said city, cover the space between their tracks and between the rails of their tracks, and even therewith for at least two feet wide, and the approaches thereto on each side, with rock or shell, or with such other material as may be permitted by said city, and shall maintain the same in good repair and condition.

SECTION 3. The laying of said tracks, crossings and approaches at crossings, and the location of wires within the said city limits, and maintaining the same, shall be under the supervision of the proper authorities of said city, and shall be done in accordance with their instructions.

SECTION 4. The fare charged by said Grantees, their associates and assigns, from any point on their line or branches, attainable by one continuous passage within the city limits upon said lines and

branches, shall not exceed five (5) cents. No fare shall be charged for children under five years of age who are accompanied by a person paying fare. SECTION 5. The said City of Sanford shall in no case tear up or undermine said tracks of said Grantees, their associates and assigns, to lay down new pipes or ducts or sewers, or for any purpose, without re-laying said tracks.

SECTION 6. Said Grantees, their associates and assigns, and their officers and agents, shall be subject to all ordinances and resolutions which the City Council may from time to time enact.

SECTION 7. The care of said Grantees, their associates and assigns, shall have the right of way on and over their railway tracks, turnouts and switches, to the exclusion of all teams and vehicles (except the fire apparatus in case of fire), and any person who shall obstruct such tracks or parts thereof, or otherwise retard the progress of said cars, after due notice is given by the car bell or whistle or other proper signal, shall be punished by a fine not exceeding five (5) dollars or imprisonment not exceeding five (5) days. Provided, however, this section shall not operate as a release from liability for damages for accidents.

SECTION 8. This ordinance shall become operative, the said Grantees, their associates and assigns, shall enter into a written contract, to be filed with the City Clerk of the City, agreeing to be bound by all the terms, stipulations, and conditions of this ordinance. Such contract to be executed within sixty days after notification by the Mayor in writing, of the passage and approval of this ordinance. Failure on the part of said Grantees, their associates and assigns, to carry out and perform all or any of the conditions or undertakings expressed in this franchise, shall work a forfeiture of all rights on the streets of the City of Sanford.

The granting of the rights and privileges herein set forth in this ordinance, is upon the express condition that the said Grantees, their associates and assigns, shall be bound to build, construct, equip and operate their said railway on Sanford avenue from the south city limits to First street, and on First street from Sanford avenue to Oak avenue, as herein set forth, within eighteen months after the passage and approval of this ordinance. And shall begin to construct and prosecute the construction vigorously to the completion of their said line of railway, as herein provided, and a failure to thus carry out the reasonable and proper conditions and stipulations of this franchise and all rights and privileges herein granted.

Said Grantees, their associates and assigns, shall, within thirty days after being notified by the Mayor in writing of the approval of this ordinance, notify the City Council in writing of their acceptance of the provisions and conditions of this ordinance, and the failure on the part of said Grantees, their associates and assigns, to notify the City Council within sixty days after the receipt of notice of the approval of this ordinance as herein prescribed, shall operate as a forfeiture of all rights and privileges granted and comprised in this ordinance.

SECTION 9. The said Grantees, their associates and assigns, shall, before the expiration of the term of thirty (30) years hereinbefore mentioned, to purchase the street railroad and other property used under or in connection with the operation of said railway, as herein provided, by deed or other instrument, which valuation shall be fixed by arbitration as provided by law, in accordance with and to the full extent of the provisions of the laws of the State of Florida in such cases made and provided.

SECTION 10. It is further provided that nothing in this franchise shall be construed so as to deprive any abutting owners along said railway from recovering any damages that may be lawfully claimed from said Grantees, their associates and assigns.

SECTION 11. The Grantees, their associates and assigns, shall at no time operate freight cars, except one train, within the city, without special permission being granted by a resolution of the City Council.

SECTION 12. BE IT FURTHER ORDAINED, that whenever the City of Sanford shall have within its corporate limits a population of ten (10,000) thousand, the

said company shall exhibit to the said city and permit the examination by the said city and its proper officers, all books of accounts to ascertain the amount of its gross earnings; and after ascertaining such amount, the said City of Sanford shall have the right to levy a tax of not exceeding two per cent. annually on the gross earnings of said company, which levy shall be collected as other taxes due the city, and shall become a lien upon the property of the said company.

To the Honorable Forrest Lake, Mayor of the City of Sanford, Florida: I do hereby certify that the above and foregoing Ordinance was duly passed at a regular meeting of the City Council of Sanford, Florida, in session October 19th, 1908.

Approved by me on this the 21st day of October, 1908.

The cases of alleged peonage in the building of the extension of the Florida East Coast railroad, which have been pending in the U. S. courts for some two years, were put on trial this week in New York.

The charge is "peonage, slavery and enforced servitude." The government has nearly 300 witnesses, many of whom are alleged victims. The attorney for the East Coast company asked that the indictments charging peonage and slavery be dismissed as the one charge destroyed the other. Judge Hough, before whom the charge is being tried, was inclined to rule that the charge of peonage could not rest, but said he would rule on any point brought out during the presentation of evidence.

Duncan U. Fletcher, has been elected president of the Mississippi-Atlantic Inland Waterways Association which has been in session this week at Columbus, Ga. The former name of the association was Gulf Coast Inland Waterways Association. The object is the building of a ship canal from the Mississippi river to the Atlantic ocean. It is hoped to make Jacksonville the ocean terminus.

## ORGANIZE IN GEORGIA

Fruit Growers Get Together On This Vital Question

### THE GREAT BENEFIT DERIVED

Such an Organization Would Prove of Great Value to Florida Fruit and Vegetable Growers

The fruit growers of Georgia have organized the Georgia Fruit Exchange and hereafter will market their crop through the office of this organization. The Herald has always contended that the only way for the Florida fruit and vegetable growers to get the best results of their labors and command the prices for their crops would be through the similar organization of a Florida union.

The following is a brief outline of some of the reasons why the Georgia organization will prove of great benefit to the growers:

It was decided that an association, to be called The Georgia Fruit Exchange, be organized and to establish headquarters in Atlanta, and any such branch offices as might be necessary for the proper conduct of the business. The capital stock was fixed at \$100,000 and subscriptions covering a minimum of \$50,000, and pledges covering 60 per cent of the prospective crop of 1909, based on 1908 shipments, to be secured before the same become binding. These subscriptions were to be paid in monthly installments of ten per cent, commencing November 1, 1908, the stock to be subscribed for only by fruit growers. An organization committee was elected and Mr. Bagley, of Atlanta, made chairman. This committee has met with great success and it is the opinion of the well prepared to begin this

between 85 and 90 per cent of the crop will be pledged before the shipping season of 1909. The eyes of the south will watch the progress of this organization, and if it continues to be as successful in its operations as it has been in its formation the indications are that a very large percentage of the orchard owners and truck farmers of the entire south will, in the next few years, be disposing of their products through this medium and deriving thereby the benefits which must necessarily accompany such concentrated effort.

The benefits to be derived by the peach growers are almost innumerable. They will be brought closer together, and by free discussion of improved methods for caring for orchards, packing and shipping only the best grades of fruit, the peach industry will be placed on the highest plane, and the growers encouraged to feel that they have an asset in their orchards instead of a liability. With the handling of from 80 to 90 per cent of the fruit of Georgia through one business office, recognition can be had, not only from the trade, but from transportation interests as well, which is such an immense factor in the successful marketing of any commodity. By having the control in one office of the quantities of fruit to be sent to each market each day, better prices by from 25 to 50 per cent are sure to follow, distribution being the keynote of the whole plan.

Economies in the prices of crate material, fertilizers, orchard implements, etc., purchased through the central office, will more than pay the expense of running the affairs of the company. For instance, last year the growers paid 16 cents for a crate, while next season they will be able to obtain the same crate through the organization for 12 cents apiece. This item alone means a saving to the peach growers of Georgia of \$125,000.

As to the actual managing of this enterprise, the members of the committee and fruit growers alike were, with one accord, of the opinion that it was a "One-Man" affair. A man to assume such responsibility must, first of all, be a Past-Master of the art of organization. He must be a man in whom everyone had implicit confidence and whose integrity has such sterling character as to warrant the peach growers of Georgia in intrusting to his absolute direction the disposal of their ten million-dollar crop and the purchasing of all of their fertilizers, crates and implements. He must be a man of recognized ability to cope with the tremendous problems which must necessarily arise and varied in all the major and minor details of the transportation and refrigerating business. Generally, when this point in the forma-

## Proclamation of the People of Sanford

To the World at Large:

WHEN it becomes necessary for the American people to throw off the yoke of temporary business depression, a wholesome respect for the welfare of mankind requires that a fitting expression be given the determination.

WHEREAS, The American people, by their suffrages, have elected a chief executive under whose policy it is believed that a long period of general prosperity will be inaugurated, and,

WHEREAS, It is believed that even those who may differ from him in theory will promote the general public interest by aiding him with their good will and co-operation, at least until events may disclose the wisdom or unwisdom thereof; and,

WHEREAS, Sanford is the metropolis of the Great Celery Belt and the gateway to the Vast St. Johns Delta, and is looked to by this splendid region as the leader to set the pace in industrial activity and breadth of spirit and enterprise; Therefore be it

Resolved, That we, the people of this favored Celery City, hereby urge the necessity of setting aside all rivalry between sections, and by combined effort seek to encourage industrial, mercantile and financial pursuits by awakening our people to a sense of their responsibility.

Let all, in this, the season of promise of bountiful crops and restored confidence in general financial conditions, unite in their efforts to promote a broad reciprocal spirit, and to bring back that degree of business activity which in past years has characterized the country in general and Orange County in particular. May every commercial interest tingle with activity.

While every cultivated acre is laden with plenty, every heart responds to the inspired hope of good times, every ripple of water in the St. Johns Delta breathes an invitation to our people to engage in the commerce of the world. As the happiness of one is the concern of all, we ask the co-operation of our neighbors here and all over South Florida, in all pursuits; and as this season marks the advent of a new era politically and industrially, we desire it to be known that Sanford throws open her gates, and that we invite the people of the world to enter, barter, trade, sell, buy and aid in inaugurating a prosperity that may extend throughout the land like a tidal wave, and to meet us in a spirit of broad, patriotic good-fellowship, intent only upon the common good of our common country.

THE PEOPLE OF SANFORD
